SIMTEK CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. SIGNIFICANT ACCOUNTING POLICIES:

The financial statements included herein are presented in accordance with the requirements of Form 10-QSB and consequently do not include all of the disclosures normally made in the registrant's annual Form 10-KSB filing. These financial statements should be read in conjunction with the financial statements and notes thereto included in Simtek Corporation's Annual Report and Form 10-KSB filed on March 22, 2002 for fiscal year 2001. The balance sheet as of December 31, 2001 was derived from the audited year end balance sheet.

In the opinion of management, the unaudited financial statements reflect all adjustments of a normal recurring nature necessary to present a fair statement of the results of operations for the respective interim periods. The year-end balance sheet data were derived from audited financial statements, but does not include all disclosures required by generally accepted accounting principles. Results of operations for the interim periods are not necessarily indicative of the results of operations for the full fiscal year.

2. LINE OF CREDIT:

In April 2002, Simtek Corporation ("Simtek" or the "Company") renewed its revolving line of credit in the amount of \$250,000.

3. CONVERTIBLE DEBENTURES:

On July 1, 2002, the Company received funding of \$3,000,000 in a financing transaction with Renaissance Capital of Dallas, Texas ("Renaissance"). The \$3,000,000 funding consists of convertible debentures with a 7-year term at a 7.5% per annum interest rate. The debentures are convertible at the option of the holder into Simtek common stock at \$0.312 per share, which was in excess of the market price per share on July 1, 2002. Renaissance has exercised its right to appoint one member to the Simtek Board of Directors. Mr. Robert Pearson was appointed to Simtek's board of directors on July 25, 2002.

4. GEOGRAPHIC CONCENTRATION:

Sales of our semiconductor products by location for the three months and nine months ended September 30, 2002 and 2001 were as follows (as a percentage of semiconductor product sales only):

Edgar Filing: SIMTEK CORP - Form 10QSB

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2002 ----	2001 ----	2002 ----	2001 ----
United States	68%	59%	55%	44%
Europe	11%	8%	11%	15%
Far East	16%	19%	25%	32%
All others	5%	14%	9%	9%
	-----	-----	-----	-----
	100%	100%	100%	100%

5. BUSINESS SEGMENTS:

The Company has two reportable segments. One segment designs and produces semiconductor devices for sale into the semiconductor market. The second segment specializes in advanced technology research and development for data

6

SIMTEK CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

acquisition, signal processing, imaging and data communications that is supported by government and commercial contracts. Although both segments are managed as part of an integrated enterprise, they are reported herein in a manner consistent with the internal reports prepared for management.

Transactions between reportable segments are recorded at cost. Substantially all operating expenses are identified per each segment. Substantially all of the Company's assets are located in the United States of America.

7

SIMTEK CORPORATION

ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS

OF OPERATIONS

OVERVIEW

Beginning in the fourth quarter 2001, the Company began to experience the downturn that has been occurring in the global semiconductor industry since late fourth quarter 2000. This downturn has continued through the first nine months of 2002. The Company's net revenue was \$10,671,000 for the first nine months of 2002 down from \$13,170,000 for the comparable period of 2001. The Company's net revenue was \$3,147,000 for the third quarter 2002 down from \$4,106,000 for the comparable period of 2001. These decreases in revenues were primarily due to declines in production demand for semiconductor products and reductions in average selling prices.

The decline in revenue for the three and nine months ended September 30, 2002 had an adverse impact on our profitability. This decline along with increased research and development costs related to our 1 megabit product development accounted for losses in the three and nine month periods ending September 30, 2002.

RESULTS OF OPERATIONS:

REVENUES - SEMICONDUCTOR DEVICES.

The following table sets forth the company's net revenues for semiconductor devices by product markets for the three and nine months ended September 30, 2002 and 2001 (in thousands):

	Three Months Ended			Nine Months Ended	
	2002	2001	Variance	2002	2001
	----	----	-----	----	----
Commercial	\$ 1,359	\$ 3,223	\$ (1,864)	\$ 6,557	\$ 10,533
High-end industrial and military	\$ 1,052	\$ 392	\$ 660	\$ 1,862	\$ 852
Logic products	\$ 262	\$ 168	\$ 94	\$ 859	\$ 669

Edgar Filing: SIMTEK CORP - Form 10QSB

	-----	-----	-----	-----	-----
Total Semiconductor Revenue	\$ 2,673	\$ 3,783	\$ (1,110)	\$ 9,278	\$ 12,054

Commercial revenues decreased by \$1,864,000 and \$3,976,000 for the three and nine month periods, respectively, when compared to the comparable periods in 2001. The decreases were primarily due to a depressed semiconductor market which resulted in lower product demand and lower average selling prices.

High-end industrial and military product revenues accounted for increases of \$660,000 and \$1,010,000 for the three and nine month periods in 2002 as compared to the previous periods in 2001, respectively. The increases were due to an increase in defense contracts.

Revenues from our logic products increased by \$94,000 and \$190,000 for the three and nine months ended 2002 as compared to 2001, respectively. The increases for the three and nine month periods were due primarily to non-recurring engineering charges received from new customers and the shipment of production orders to a new customer and pre-existing customers.

8

SIMTEK CORPORATION

Three distributors accounted for approximately 50% of the Company's semiconductor devices product sales for the quarter ended September 30, 2002. Products sold to distributors are sold without significant recourse. Distributors sell our products to various end customers. If one of these distributors was to terminate its relationship with the Company, we believe that there would not be a material impact on the Company's product sales.

COST OF SALES AND GROSS MARGIN - SEMICONDUCTOR DEVICES

The Company recorded cost of sales for semiconductor devices of \$1,391,000 and \$5,608,000 for the three and nine months ended September 30, 2002, respectively, as compared with the \$2,677,000 and \$8,427,000 for the three and nine months ended September 30, 2001, respectively. These costs reflect an approximate 19% improvement in gross margin percentages for the third quarter and an approximate 9% improvement in gross margin percentages for the nine months ended September 30, 2002 as compared to the third quarter and nine months ended September 30, 2001, respectively. Actual gross margin percentages for the third quarter and nine month periods ending September 30, 2002 were 48% and 40%, respectively. These increases were due primarily to increased sales of logic products and high-end industrial and military products. The increases in gross margin percentages were partially due to lower material and test costs of our commercial product.

During the first nine months of 2002, the Company purchased wafers built on 0.8 micron technology from Chartered Semiconductor Manufacturing Plc. ("Chartered") of Singapore to support sales of its nonvolatile semiconductor memory products. Sales of the Company's logic products were supported with 0.5 micron wafers purchased from United Microelectronics Corp. ("UMC") of Taiwan and 0.35 micron wafers purchased from Chartered. If we are unable to purchase wafers

Edgar Filing: SIMTEK CORP - Form 10QSB

from Chartered, it would have a material impact on our revenues.

RESEARCH AND DEVELOPMENT - SEMICONDUCTOR DEVICES

The Company believes that continued investments into new product development are required for us to remain competitive in the markets we serve. Beginning in the fourth quarter 2001, the Company's research and development department has been focusing its efforts on developing a 3 volt 256 kilobit nonvolatile semiconductor memory and the installation of our process at Amkor Technology for the development of a 1 megabit 3 volt nonvolatile semiconductor memory. During the third quarter 2002, the Company continued shipping 3 volt 256 kilobit nonvolatile semiconductor memories in larger volumes to its customers. Development of the 1 megabit 3 volt nonvolatile semiconductor memory is continuing and the Company is still anticipating samples by late first quarter 2003.

Total research and development expenses related to the semiconductor portion of the Company's business were \$890,000 and \$2,855,000 for the three and nine months ended September 30, 2002 compared to \$641,000 and \$1,734,000 for the three and nine months ended September 30, 2001.

The \$249,000 increase for the three month period was related to increases in payroll and payroll overhead costs of \$101,000, contract engineering services of \$78,000, new product development costs of \$27,000, equipment leases, maintenance agreements for software and depreciation of \$104,000 and a reduction in miscellaneous other expenses of \$61,000 which were related primarily to reduced cost of our logic development. The increase of \$1,121,000 for the nine month period was related to increases in payroll and payroll costs of \$410,000, contract engineering services of \$295,000, new product development costs of \$280,000, equipment leases, maintenance agreements for software and depreciation of \$236,000 and a reduction in miscellaneous other expenses of \$100,000 which

9

SIMTEK CORPORATION

was related to a reduction in our logic development costs. The primary increase in payroll costs is related to an increase in employee headcount. Increased headcount and contract engineering services are required in order to meet production schedules of our new products. New product development costs are primarily due to the purchases of silicon wafers and reticles required to develop new products. Equipment leases, maintenance agreements for software and depreciation are related primarily to software licenses and hardware required to design our new products.

ADMINISTRATION AND INVESTOR RELATIONS - SEMICONDUCTOR DEVICES

Total administration expenses related to the semiconductor portion of the Company's business were \$162,000 and \$501,000 for the three and nine months ended September 30, 2002 as compared to the \$240,000 and \$821,000 for the three and nine months ended September 30, 2001.

The \$78,000 and \$320,000 decreases for the three and nine months ended September 30, 2002 compared to September 30, 2001, respectively, were primarily due to decreased legal, audit fees and payroll costs. The decrease occurred primarily due to increased legal, audit fees and payroll costs which were related directly to the acquisition of Q-DOT and the filing of a registration

Edgar Filing: SIMTEK CORP - Form 10QSB

statement during the three and nine month periods ending September 30, 2001.

The decrease of \$215,000 and \$730,000, in investor relations expense, for the three and nine months ended September 30, 2002 as compared to the three and nine months ended September 30, 2001 was related to the completion of the amortization of the issuance of stock to two investment banking firms in September 2000 for services they performed.

MARKETING - SEMICONDUCTOR DEVICES

Total marketing expenses related to the semiconductor portion of the Company's business were \$286,000 and \$1,063,000 for the three and nine months ended September 30, 2002 as compared to the \$384,000 and \$1,137,000 for the three and nine months ended September 30, 2001.

The \$98,000 decrease for the three month period ended September 30, 2002 as compared to September 30, 2001 was the net effect of increased payroll and payroll overhead costs, decreased advertising costs and decreased sales commissions which are a direct result of revenue. The decrease of \$74,000 for the nine month period ended September 30, 2002 as compared to September 30, 2001 was the net effect of a \$53,000 increase in payroll expenses and a \$34,000 increase in travel expenses which was offset by decreases in contract services of \$56,000, sales commissions of \$57,000 and advertising of \$48,000.

TOTAL OTHER INCOME (EXPENSES) - SEMICONDUCTOR DEVICES

The increase in total other income (expense) for the three and nine month period ended September 30, 2002 as compared to September 30, 2001 was primarily related to an increase of interest expense and an increase in interest income which was a direct result of \$3,000,000 funding the Company received on July 1, 2002.

NET LOSS - SEMICONDUCTOR DEVICES

The Company recorded a net loss of \$104,000 and \$801,000 for the three and nine months ended September 30, 2002 as compared to a net loss of \$366,000 and \$737,000 for the three and nine months ended September 30, 2001. The decrease of \$262,000 in net loss for the three month period was due primarily to the 19% increase in gross margin percentages which was offset by an increase in operating expenses and decreased sales. The increase of \$64,000 in net loss for the nine month period was due primarily to increased research and development costs and decreased sales.

10

SIMTEK CORPORATION

REVENUES - GOVERNMENT CONTRACTS

The following table sets forth the company's net revenues from its government contracts portion of its business for the three and nine months ended September 30, 2002 and 2001 (in thousands):

	Three Months Ended		Nine Month	
	September 30,		September	
2002	2001	Variance	2002	2001

Edgar Filing: SIMTEK CORP - Form 10QSB

	----	----	-----	----	----
Government Contracts	\$ 474	\$ 323	\$ 151	\$ 1,393	\$ 1,11

The increase of revenue for the three and nine month periods were the result of increased direct labor costs and increased materials and services that were invoiced against development contracts. Direct labor increased due to the addition of employees.

COST OF SALES AND GROSS MARGIN - GOVERNMENT CONTRACTS

The Company saw a 30% improvement in its gross margin percentages for the third quarter 2002 as compared to the third quarter 2001 and a 14% improvement for the nine months ended September 30, 2002 as compared to the nine months ended September 30, 2001. The improvement in gross margin percentages for the three month period were primarily due to a one time adjustment of costs from research and development to costs of sales that occurred in the three month period ending September 30, 2001. The adjustment was offset by increased direct labor and increased materials and services for the three month period ending September 30, 2002. The improvement in gross margin percentages for the nine months ended September 30, 2002 as compared to September 30, 2001 was due to decreased materials and services which were offset by increased direct labor. Actual gross margin percentages for the third quarter and nine month period ending September 30, 2002 were 52% and 55%, respectively.

RESEARCH AND DEVELOPMENT - GOVERNMENT CONTRACTS

Total research and development expenses related to the government contracts portion of the Company's business were \$90,000 and \$395,000 for the three and nine months ended September 30, 2002 compared to \$3,000 and \$316,000 for the three and nine months ended September 30, 2001.

The \$87,000 increase for the three month period was related to increases in payroll and payroll overhead costs of \$14,000 and the one time adjustment that occurred in September 2001 that moved \$73,000 from research and development to cost of sales. The \$79,000 increase for the nine month period was related primarily to an increase in payroll and payroll overhead costs.

ADMINISTRATION - GOVERNMENT CONTRACTS

Total administration expenses related to the government contracts portion of the Company's business were \$26,000 and \$81,000 for the three and nine months ended September 30, 2002 as compared to the \$50,000 and \$244,000 for the three and nine months ended September 30, 2001.

The \$24,000 decrease for the three months ended September 30, 2002 compared to September 30, 2001 was primarily due to a decrease in labor transfer costs from Q-DOT to Simtek. The \$163,000 decrease for the nine months ended September 30, 2002 compared to September 30, 2001 was due to decreased legal, audit fees and payroll costs that were directly related to Simteks' acquisition of Q-DOT.

Edgar Filing: SIMTEK CORP - Form 10QSB

Total marketing expenses related to the government contracts portion of the Company's business were \$67,000 and \$196,000 for the three and nine months ended September 30, 2002 as compared to the \$67,000 and \$134,000 for the three and nine months ended September 30, 2001.

The increase of \$62,000 for the nine month period ending September 30, 2002 as compared to September 30, 2001 were primarily due to an increase in bid and proposal activities.

NET INCOME (LOSS) - GOVERNMENT CONTRACTS

The Company recorded a net income of \$61,000 and \$90,000 for the three and nine months ended September 30, 2002 as compared to a net loss of \$53,000 and \$244,000 for the three and nine months ended September 30, 2001. The increase in net income from a net loss for the nine month period was due primarily to the elimination of costs related to the Company's acquisition of Q-DOT and increased revenue.

FUTURE RESULTS OF OPERATIONS

The Company's ability to be profitable will depend primarily on its ability to continue reducing manufacturing costs and increasing net product sales by increasing the availability of existing products, by the introduction of new products and by expanding its customer base. The Company is also dependent on the overall state of semiconductor industry and the demand for semiconductor products by equipment manufacturers.

The Company is continuing its co-development program with Amkor to develop a semiconductor process module that combines the Company's nonvolatile technology with Amkor's advanced 0.25 micron digital CMOS fabrication line. The module will incorporate silicon oxide nitride oxide silicon ("SONOS") technology, which will be used to manufacture both high density SONOS flash and nonvolatile static RAM memories, for stand alone and embedded products. The Company's current schedule is to have samples of a 1 megabit 3.0 volt nonvolatile semiconductor memory available late in the first quarter of 2003.

As of September 30, 2002, the Company had a backlog of unshipped customer orders of approximately \$2,073,000 expected to be filled by March 31, 2003. Orders are cancelable without penalty at the option of the purchaser prior to 30 days before scheduled shipment and therefore are not necessarily a measure of future product revenue.

LIQUIDITY AND CAPITAL RESOURCES

As of September 30, 2002, the Company had net working capital of \$6,017,270 as compared to a net working capital of \$3,767,923 as of September 30, 2001.

On July 1, 2002, the Company received funding of \$3,000,000 in a financing transaction with Renaissance. The \$3,000,000 funding consists of convertible debentures with a 7-year term at a 7.5% per annum interest rate. The debentures are convertible at the option of the holder into Simtek common stock at \$0.312 per share, which was in excess of the market price per share on July 1, 2002.

The change in cash flows for the nine months ended September 30, 2002 used in operating activities was primarily a result of a net loss of \$710,214, which is offset by \$318,496 in depreciation and amortization, a decrease in accrued expenses of \$101,263, increases in accounts receivable, allowance accounts, prepaid expenses and other and deferred revenue of \$139,244, \$40,087, \$4,469, and \$2,500, respectively. The \$357,698 increase in inventory and the \$581,027

SIMTEK CORPORATION

decrease of accounts payable are primarily due to the timing of raw materials received within the period. Materials were received and paid for early in the period, but due to soft market demand, have not been fully consumed, resulting in larger inventory levels. The change in cash flows used in investing activities of \$211,589 was primarily due to the purchase of equipment required to manufacture our semiconductor devices at Chartered and UMC and hardware and software required for research and development activities. The cash flows provided by financing activities were due primarily to the \$3,000,000, net of \$116,175 in financing fees, received from Renaissance, borrowings and payments on notes payable and a capital lease obligation and the exercise of stock options by employees of the Company.

The change in cash flows for the nine months ended September 30, 2001 used in operating activities was primarily a result of a net loss of \$980,819 which is offset by \$340,854 in depreciation and amortization, \$730,433 in prepaid investor relations, decreases in prepaid expenses and other, and increases in customer deposits and receipts from deferred revenue of \$62,944, \$2,000 and \$15,000, respectively. These decreases were offset by an increase in accounts receivable, inventory, and a decrease in accounts payable and accrued expenses of \$627,214, \$444,939, \$138,727, and \$14,244, respectively. The increases in accounts receivable and inventory were related to increased product availability and demand. The change in cash flows used in investing activities was primarily due to the purchase of \$325,863 of equipment required to test our products and payments on a capital lease obligation of \$35,100. The change in cash flows used in financing activities of \$139,823 was due primarily to payments on a line of credit and notes payable and the buyback of Simtek common stock and receipts from deferred revenue.

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

SFAS No. 141, Business Combinations and SFAS No. 142, Goodwill and other Intangible Assets. SFAS 141 states that all business combinations should be accounted for using the purchase method of accounting; use of pooling-of-interest method is prohibited. Accounting for the excess of the fair value of net assets of cost (negative goodwill), will be allocated to certain assets first with any remaining excess recognized as an extraordinary gain. SFAS No. 141 is effective for business combination completed after June 30, 2001. Adoption of SFAS No. 141 is not expected to have a material impact on the accounting for business acquisitions prior to July 1, 2001. SFAS No. 142 addresses the accounting for all purchased intangible assets but not the accounting for internally developed intangible assets. Goodwill will no longer be amortized and will be reviewed for impairment in accordance with SFAS No. 142. Goodwill will be tested annually and on an interim basis if an event or circumstance occurs between the annual tests that might reduce the fair value of the reporting unit below its carrying value. SFAS No. 142 is effective for fiscal years beginning after December 31, 2001, with early adoption permitted under certain circumstances. Goodwill and intangible assets acquired in a transaction completed after June 30, 2001 but before SFAS No. 142 is initially applied will be accounted for in accordance with SFAS No. 142. The adoption of these standards is expected to have little effect on the Company's historical financial statements as the Company does not have any goodwill. These standards will be applied to all future acquisitions.

In June 2001, the FASB also approved for issuance SFAS 143 "Asset

Edgar Filing: SIMTEK CORP - Form 10QSB

Retirement Obligations." SFAS 143 establishes accounting requirements for retirement obligations associated with tangible long-lived assets, including (1) the timing of the liability recognition, (2) initial measurement of the liability, (3) allocation of asset retirement cost to expense, (4) subsequent measurement of the liability and (5) financial statement disclosures. SFAS 143 requires that an asset retirement cost should be capitalized as part of the cost of the related long-lived asset and subsequently allocated to expense using a systematic and rational method. We will adopt the statement effective no later than January 1, 2003, as required. The transition adjustment resulting from the adoption of SFAS 143 will be reported as a cumulative effect of a change in accounting principle. We do not believe the adoption of this standard will have a material effect on our financial statements.

13

SIMTEK CORPORATION

In October 2001, the FASB also approved SFAS 144, Accounting for the Impairment or Disposal of Long-Lived Assets. SFAS 144 replaces SFAS 121, Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to Be Disposed Of. The new accounting model for long-lived assets to be disposed of by sale applies to all long-lived assets, including discontinued operations, and replaces the provisions of APB Opinion No. 30, Reporting Results of Operations-Reporting the Effects of Disposal of a Segment of a Business, for the disposal of segments of a business. Statement 144 requires that those long-lived assets be measured at the lower of carrying amount or fair value less cost to sell, whether reported in continuing operations or in discontinued operations. Therefore, discontinued operations will no longer be measured at net realizable value or include amounts for operating losses that have not yet occurred. Statement 144 also broadens the reporting of discontinued operations to include all components of an entity with operations that can be distinguished from the rest of the entity and that will be eliminated from the ongoing operations of the entity in a disposal transaction. The provisions of Statement 144 are effective for financial statements issued for fiscal years beginning after December 15, 2001 and, generally, are to be applied prospectively. At this time, we do not believe adoption of this standard will have a material effect on our financial statements.

In April 2002, the FASB approved for issuance Statements of Financial Accounting Standards No. 145, "Rescission of FASB Statements No. 4, 44 and 64, Amendment of SFAS 13, and Technical Corrections" ("SFAS 145"). SFAS 145 rescinds previous accounting guidance, which required all gains and losses from extinguishment of debt be classified as an extraordinary item. Under SFAS 145 classification of debt extinguishment depends on the facts and circumstances of the transaction. SFAS 145 is effective for fiscal years beginning after May 15, 2002 and adoption is not expected to have a material effect on the Company's financial position or results of its operations.

In July 2002, the FASB issued Statements of Financial Accounting Standards No. 146, "Accounting for Costs Associated with Exit or Disposal Activities" (SFAS 146). SFAS 146 requires companies to recognize costs associated with exit or disposal activities when they are incurred rather than at the date of a commitment to an exit or disposal plan. Examples of costs covered by SFAS 146 include lease termination costs and certain employee severance costs that are associated with a restructuring, discontinued operation, plant closing, or other exit or disposal activity. SFAS 146 is to be applied prospectively to exit or disposal activities initiated after December 31, 2002. The adoption of SFAS 146 is not expected to have a material effect on the Company's financial position or

Edgar Filing: SIMTEK CORP - Form 10QSB

results of its operations.

SIMTEK CORPORATION

ITEM 3: CONTROLS AND PROCEDURES

(a) Evaluation of disclosure controls and procedures.

Douglas Mitchell, who serves as the Company's chief executive officer and chief financial officer (acting), after evaluating the effectiveness of the Company's disclosure controls and procedures (as defined in Exchange Act Rules 13a-14(c) and 15d-14(c) as of a date within 90 days of the filing date of the quarterly report (the "Evaluation Date") concluded that as of the Evaluation Date, the Company's disclosure controls and procedures were adequate and effective to ensure that material information relating to the Company and its consolidated subsidiaries would be made known to them by individuals within those entities, particularly during the period in which this quarterly report was being prepared.

(b) Changes in internal controls.

There were no significant changes in the Company's internal controls or in other factors that could significantly affect the Company's disclosure controls and procedures subsequent to the Evaluation Date, nor any significant deficiencies or material weaknesses in such disclosure controls and procedures requiring corrective actions. As a result, no corrective actions were taken.

CERTIFICATIONS

I, Douglas Mitchell, certify that:

1. I have reviewed this quarterly report on Form 10-QSB of Simtek Corporation;

Edgar Filing: SIMTEK CORP - Form 10QSB

2. Based on my knowledge, this quarterly report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this quarterly report;
3. Based on my knowledge, the financial statements, and other financial information included in this quarterly report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this quarterly report;
4. The registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-14 and 15d-14) for the registrant and have:
 - a) designed such disclosure controls and procedures to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this quarterly report is being prepared;
 - b) evaluated the effectiveness of the registrant's disclosure controls and procedures as of a date within 90 days prior to the filing date of this quarterly date (the "Evaluation Date"); and
 - c) presented in this quarterly report our conclusions about the effectiveness of the disclosure controls and procedures based on our evaluation as of the Evaluation Date;
5. The registrant's other certifying officers and I have disclosed, based on our most recent evaluation, to the registrant's auditors and the audit committee of registrant's board of directors (or person performing the equivalent functions):
 - a) all significant deficiencies in the design or operation of internal controls which could adversely affect the registrant's ability to record, process, summarize and report financial data and have identified for the registrant's auditors any material weaknesses in internal controls; and
 - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal controls; and
6. The registrant's other certifying officers and I have indicated in this quarterly report whether or not there were significant changes in internal controls or in other factors that could significantly affect internal controls subsequent to the date of our most recent evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.

Date: November 8, 2002
