**PERFICIENT, INC.**

We are an eBusiness solutions services provider to large and major midsize companies. We use a solutions delivery approach we call the Enabled Enterprise, that helps clients reach new markets and increase revenues, acquire and strengthen customer relationships, reduce costs and increase productivity and empower employees. Our Enabled Enterprise is an Internet-based infrastructure with integrated business applications that extend enterprise technology assets to customers, suppliers, partners and employees. We market our eBusiness solutions services directly to large and major midsize companies, principally in the Midwestern United States through a ten person direct sales force.

Our objective is to be a leading eBusiness solutions services provider to large and major midsize companies and Internet software vendors. One of our strategies to achieve this goal is to use selective acquisitions to supplement organic growth and achieve critical mass. On April 2, 2004 we acquired Genisys Consulting, Inc. ("Genisys") for total consideration of \$7.9 million consisting of approximately \$1.5 million in cash and 1.7 million shares of our Common Stock. Prior to the acquisition, the assets of Genisys were used to provide information technology consulting services to its customers. We intend to continue such uses for these assets. In our acquisition of Genisys, we granted certain registration rights to the stockholders of Genisys, pursuant to which this prospectus has been prepared.

**RISK FACTORS**

*You should carefully consider the following risk factors together with the other information contained in or incorporated by reference into this prospectus before you decide to buy our common stock. If any of these risks actually occur, our business, financial condition, operating results or cash flows could be materially adversely affected. This could cause the trading price of our common stock to decline and you may lose part or all of your investment.*

*Risks Specific to Our Business*

**We have incurred losses during most of the quarters during which we have been in business and we may incur losses in the future.**

We have incurred operating losses in most of the quarters during which we have been in business. Although we have recently achieved profitability, we may not be able to sustain or increase profitability on a quarterly or annual basis in the future. We cannot assure you of any operating results. In future quarters, our operating results may not meet public market analysts' and investors' expectations. If that happens, the price of our common stock will likely fall.

**We have a limited number of customers who may not be obligated to use our services.**

We have arrangements with a limited number of customers. Our contracts with some of our customers do not obligate them to use our services. A customer may choose at any time to use another consulting firm or to perform the services we provide through internal resources. Termination of a relationship with certain customers, or the decision of such customers to employ other consulting firms or perform services in-house, could materially harm our business.

**The loss or impairment of our relationship with IBM would materially reduce our revenue and net income and would materially impact our cash and working capital balances.**

Amounts owed to us by IBM represented 32% of our accounts receivable, or \$2,346,000, as of March 31, 2004. Failure of IBM to pay that amount would have a material adverse effect on our working capital, cash position, business, operating results and financial condition. Failure of IBM to pay us timely could also have a material impact our cash and working capital balances.

Revenue from IBM accounted for approximately 34% and 33% of total revenues for the three-month periods ended March 31, 2003 and 2004, respectively. Our current agreement with IBM will

## Edgar Filing: PERFICIENT INC - Form S-3

expire on September 1, 2004, and may be terminated by IBM prior to that date upon five (5) days written notice. A decision by IBM to reduce the amount of services performed by us or to terminate the agreement would have an adverse effect on our business, operating results and financial condition. In the event IBM decides not to use our services, our revenue and net income could be materially reduced.

### **Our quarterly operating results may be volatile and may cause our stock price to fluctuate.**

A high percentage of our operating expenses, particularly personnel and rent, are fixed in advance of any particular quarter. As a result, if we experience unanticipated changes in the number or nature of our projects or in our employee utilization rates, we could experience large variations in quarterly operating results and losses in any particular quarter. Due to these factors, we believe that our historical quarter-to-quarter operating results should not be used to predict our future performance.

Our quarterly revenue, expenses and operating results have varied significantly in the past and are likely to vary significantly in the future. These quarterly fluctuations have been and may continue to be affected by a number of factors, including:

the loss of a significant customer or project;

the number and types of projects that we undertake;

our ability to attract, train and retain skilled management and technology professionals;

seasonal variations in spending patterns;

our employee utilization rates, including our ability to transition our technology professionals from one project to another;

changes in our pricing policies;

our ability to manage costs; and

costs related to acquisitions of other businesses.

In addition, many factors affecting our operating results are outside of our control, such as:

demand for Internet software;

end-user customer budget cycles;

changes in end-user customers' desire for our partners' products and our services;

pricing changes in our industry;

government regulation and legal developments regarding the use of the Internet; and

general economic conditions.

## Edgar Filing: PERFICIENT INC - Form S-3

We expect that we may experience seasonal fluctuations in revenues. We expect that revenues in the quarter ending December 31 of a given year may typically be lower than in other quarters in that year as there are fewer billable days in this quarter as a result of vacations and holidays. This seasonal trend may materially affect our quarter-to-quarter operating results.

### **Our revenues are difficult to predict because they are derived from project-based engagements.**

Almost all of our revenues are from project-based client engagements, which vary in size and scope. Our revenue is difficult to predict since a client that accounts for a significant portion of revenues in one period may not generate a similar amount of revenue, if any, in subsequent periods. In addition, because many of our project-based client engagements involve sequential stages, each of

which may represent a different contractual commitment, a client may choose not to retain us for subsequent stages of an engagement or for new service projects.

**Our gross margins are subject to fluctuations as a result of variances in utilization rates.**

Our services gross margins are affected by trends in the utilization rate of our professionals, defined as the percentage of our professionals' time billed to customers divided by the total available hours in a period. Our operating expenses, including employee salaries, rent and administrative expenses are relatively fixed and cannot be reduced on short notice to compensate for unanticipated variations in the number or size of projects in process. If a project ends earlier than scheduled, we may need to redeploy our project personnel. Any resulting non-billable time may adversely affect our gross margins. The absence of long-term contracts and the need for new partners and business create an uncertain revenue stream, which could negatively affect our financial condition.

**We may not grow, or we may be unable to manage our growth.**

Our success will depend on our ability to increase the number of our partners, end-user customers and our teams of technology professionals. However, we may not grow as planned or at all. Many of our competitors have longer operating histories, more established reputations, more potential partner and end-user customer relationships and greater financial, technical and marketing resources than we do. If we experience growth, our growth will place significant strains on our management, personnel and other resources. If we are unable to grow or manage our growth effectively, this inability will adversely affect the quality of our services and our ability to retain key personnel, and could materially harm our business.

**We may not be able to attract and retain technology professionals, which could affect our ability to compete effectively.**

Our business is labor intensive. Accordingly, our success depends in large part upon our ability to attract, train, retain, motivate, manage and utilize highly skilled technology professionals. Additionally, our technology professionals are at-will employees. Any inability to attract, train and retain highly skilled technology professionals would impair our ability to adequately manage, staff and utilize our existing projects and to bid for or obtain new projects, which in turn would adversely affect our operating results.

**Our success will depend on retaining our senior management team and key technical personnel.**

We believe that our success will depend on retaining our senior management team and key technical personnel. Retention is particularly important in our business as personal relationships are a critical element of obtaining and maintaining our partners. If any of these individuals stop working for us, our level of management, technical, marketing and sales expertise could significantly diminish. These individuals would be difficult to replace, and losing them could seriously harm our business. We may not be able to prevent key personnel, who may leave our employ in the future, from disclosing or using our technical knowledge, practices or procedures. One or more of our key personnel may resign and join a competitor or form a competing company. As a result, we might lose existing or potential clients.

**We face risks associated with finding and integrating acquisitions.**

We may continue to expand our technological expertise and geographical presence through selective acquisitions. Any acquisitions or investments we make in the future will involve risks. We may not be able to make acquisitions or investments on commercially acceptable terms. If we do buy a company, we could have difficulty retaining and assimilating that company's personnel. In addition, we could have difficulty assimilating acquired products, services or technologies into our operations and retaining the customers of that company. Our operating results may be adversely affected by increased intangibles amortization, stock compensation expense and increased compensation expense attributable

to newly hired employees. Furthermore, our management's attention may be diverted from other aspects of our business and our reputation may be harmed if an acquired company performs poorly. These difficulties could disrupt our ongoing business, distract our management and employees, increase our expenses and materially and adversely affect our results of operations. Furthermore, we may incur debt or issue equity securities to pay for any future acquisitions. If we issue equity securities, your ownership share of our common stock will be diluted.

**We may face potential liability to customers if our customers' systems fail.**

Our professional services and software are often critical to the operation of our customers' businesses and provide benefits that may be difficult to quantify. If one of our customers' systems fails, the customer could make a claim for substantial damages against us, regardless of our responsibility for that failure. The limitations of liability set forth in our contracts may not be enforceable in all instances and may not otherwise protect us from liability for damages. Our insurance coverage may not continue to be available on reasonable terms or in sufficient amounts to cover one or more large claims. In addition, a given insurer might disclaim coverage as to any future claims. If we experience one or more large claims against us that exceed available insurance coverage or result in changes in our insurance policies, including premium increases or the imposition of large deductible or co-insurance requirements, our business and financial results could suffer.

*Risks Relating to Our Industry*

**We are dependent on the demand for Internet software and services, which may fluctuate.**

The market for Internet software and services has changed rapidly over the last four years. The market for Internet software and services expanded dramatically during 1999 and most of 2000, but declined significantly in 2001 and 2002. Market demand for Internet software and services began to stabilize and improve throughout 2003 and into 2004, but there can be no assurances that this trend will continue. Our future growth is dependent upon the demand for Internet software and services and our ability to provide strategic Internet services that are accepted by our end-user customers. Demand and market acceptance for Internet services are subject to a high level of uncertainty. If companies continue to cancel or delay their business and technology initiatives or choose to move these initiatives in-house because of the current economic climate, or for other reasons, our business, financial condition and results of operations could be materially and adversely affected.

**Businesses may decrease or delay their use of advanced technologies as a means for conducting commerce.**

Our future success depends heavily on the acceptance and use of advanced technologies as a means for conducting commerce and streamlining operations. We focus our services on the development and implementation of advanced technology strategies and solutions. If the use of these technologies does not grow, or such growth is delayed due to economic uncertainty or other conditions, our revenue could be less than we anticipate and our business, financial condition and results of operations could be materially adversely affected.

**Our business will suffer if we do not keep up with rapid technological change, evolving industry standards or changing partner requirements.**

Rapidly changing technology, evolving industry standards and changing partner needs are common in the Internet professional services market. Accordingly, our success will depend, in part, on our ability to:

continue to develop our technology expertise;

enhance our current services;

## Edgar Filing: PERFICIENT INC - Form S-3

develop new services that meet changing partner and end-user customer needs;

advertise and market our services; and

influence and respond to emerging industry standards and other technological changes.

We must accomplish all of these tasks in a timely and cost-effective manner. We might not succeed in effectively doing any of these tasks, and our failure to succeed could have a material and adverse effect on our business, financial condition or results of operations, including materially reducing our revenue and operating results.

We may also incur substantial costs to keep up with changes surrounding the Internet. Unresolved critical issues concerning the commercial use and government regulation of the Internet include the following:

security;

cost and ease of Internet access;

intellectual property ownership;

privacy;

taxation; and

liability issues.

Any costs we incur because of these factors could materially and adversely affect our business, financial condition and results of operations, including reduced net income.

### **Our market is highly competitive and has low barriers to entry.**

The market for Internet professional services is intensely competitive, rapidly evolving and subject to rapid technological change. In addition, there are relatively low barriers to entry into this market. Because of the rapid changes to, and volatility in, the Internet software and service industry, many well-capitalized companies that may have chosen sectors of the industry that are not competitive with our business, including some of our partners, may refocus their activities and resources. As a result, they could deploy their resources and enter into a business that is competitive with ours.

Many of our current and potential competitors have longer operating histories, more established reputations and potential partner relationships and greater financial, technical, industry and marketing resources than we do. This may place us at a disadvantage to our competitors, which may harm our ability to grow or maintain revenue or generate net income.

### *Risks Relating to Ownership of Our Stock*

#### **The trading volume of our common stock has been limited and, as a result, our stock price has been, and will likely continue to be, volatile.**

Our common stock is traded on the NASDAQ SmallCap Market under the symbol "PRFT." The trading volume of our common stock has been limited, and the stock prices have been volatile. Our common stock price may continue to be highly volatile and may fluctuate as a result of the limited trading volume.

#### **Our officers, directors, and 5% and greater stockholders own a large percentage of our voting securities.**

## Edgar Filing: PERFICIENT INC - Form S-3

Our executive officers, directors and existing 5% and greater stockholders beneficially own or control greater than 20% of the voting power of our common stock. This concentration of ownership of our common stock may make it difficult for other Perficient stockholders to successfully approve or

defeat matters that may be submitted for action by our stockholders. It may also have the effect of delaying, deterring or preventing a change in control of our company.

**It may be difficult for another company to acquire us, and this could depress our stock price.**

Provisions of our certificate of incorporation, by-laws and Delaware law could make it difficult for a third party to acquire us, even if doing so would be beneficial to our stockholders. In addition, under our agreement with IBM, we have granted IBM a right of first offer and a right to terminate its agreement with us with respect to any change of control transaction with a company that has a substantial portion of its business in the web application server product and services market, other than a systems integrator or professional services firm. As a result, a potential acquirer may be discouraged from making an offer to buy us.

**We may need additional capital in the future, which may not be available to us. The raising of any additional capital may dilute your ownership percentage in our stock.**

We believe our existing line of credit, term loan facility and working capital should provide sufficient resources to satisfy our near term capital requirements. Our existing line of credit facility expires in December 2004 and our term loan facility advance period expires in June 2005. If we are unable to renew our line of credit, we may need to obtain an alternate debt financing facility. In the future we may decide to raise additional funds through public or private debt or equity financing in order to:

take advantage of opportunities, including more rapid expansion or acquisitions of, or investments in, businesses or technologies;

develop new services; or

respond to competitive pressures.

Any additional capital raised through the sale of equity will dilute your ownership percentage in our stock. Furthermore, we cannot assure you that any additional financing we may need will be available on terms favorable to us, or at all. In such case, our business results would suffer.

**SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS**

Some of the statements contained in or considered a part of this prospectus that are not purely historical statements discuss future expectations, contain projections of results of operations or financial condition or state other forward-looking information. Those statements are subject to known and unknown risks, uncertainties and other factors that could cause the actual results to differ materially from those contemplated by the statements. The "forward-looking" information is based on various factors and was derived using numerous assumptions. In some cases, you can identify these so-called forward-looking statements by words like "may," "will," "should," "expects," "plans," "anticipates," "believes," "estimates," "predicts," "potential," or "continue" or the negative of those words and other comparable words. You should be aware that those statements only reflect our predictions. Actual events or results may differ substantially. Important factors that could cause our actual results to be materially different from the forward-looking statements are disclosed under the heading "Risks Factors" in this prospectus. Moreover, neither we nor any other person assumes responsibility for the accuracy and completeness of such statements. We are under no duty to update any of the forward-looking statements after the date of this prospectus to conform such statements to actual results.

### USE OF PROCEEDS

The shares of common stock are being offered by the selling stockholders. We will not receive any proceeds from the sale of our common stock by the selling stockholder.

### SELLING STOCKHOLDERS

On April 2, 2004, we consummated the acquisition by way of merger of Genisys Consulting, Inc. ("Genisys"), an Illinois corporation, with and into our wholly owned subsidiary, Perficient Genisys, Inc., a Delaware corporation. Perficient Genisys, Inc. is the surviving corporation to the merger. In accordance with the Agreement and Plan of Merger, pursuant to which the acquisition of Genisys was effected, we are registering for resale by such stockholders, 15% of the shares of our common stock issued to the former Genisys stockholders in connection with the acquisition.

The following table sets forth the name of and the number of shares of common stock beneficially owned by the selling stockholders prior to the offering, the number of shares of common stock offered by the selling stockholders, and the number of shares of common stock that will be owned by the selling stockholders upon completion of the offering or offerings pursuant to this prospectus, assuming the selling stockholders sell all of the shares of common stock offered hereby. The selling stockholders may, however, elect to sell less than all (including none) of the shares of common stock offered by this prospectus. The percentage ownership information presented below is based on shares of common stock outstanding as of June 10, 2004.

### **PLAN OF DISTRIBUTION**

The selling stockholders may sell the shares of common stock offered by this prospectus from time to time in one or more transactions on the Nasdaq SmallCap Market, in negotiated transactions or in a combination of any such methods of sale, at fixed prices that may be changed, at market prices prevailing at the time of sale, at prices related to such prevailing market prices or at negotiated prices. The shares of common stock may be offered directly to or through brokers or dealers, or through any combination of these methods of sale. The methods by which the selling stockholders may sell their shares of common stock also include:

a block trade (which may involve crosses) in which the broker or dealer will attempt to sell the stocks as agent but may position and resell a portion of the block as principal to facilitate the transaction;

purchases by a broker or dealer as principal and resale by such broker or dealer for its own account pursuant to this prospectus;

secondary distributions in accordance with Nasdaq rules;

ordinary brokerage transactions and transactions in which the broker solicits purchasers; and

privately negotiated transactions.

An underwriter, agent, broker or dealer may receive compensation in the form of discounts, concessions or commissions from the selling stockholders or the purchasers of the shares of common stock for whom such broker-dealers may act as agents or to whom they sell as principals, or both (which compensation as to a particular broker-dealer might be in excess of customary commissions).

Any person that may be deemed to be an "underwriter" within the meaning of the Securities Act will be named in a prospectus supplement, and any underwriting discounts, commissions or fees received by such persons may be deemed to be underwriting commissions or discounts under the Securities Act.

Any underwriters, brokers, dealers and agents who participate in any sale of the shares of common stock may also engage in transactions with, or perform services for, us or our affiliates in the ordinary course of their business.

We cannot assure you that the selling stockholders will sell any or all of the shares of common stock offered by this prospectus.

### **LEGAL MATTERS**

The validity of the common stock offered by this prospectus will be passed upon for us by Vinson & Elkins L.L.P., Austin, Texas.

### **EXPERTS**

The consolidated financial statements incorporated in this prospectus by reference to the Annual Report on Form 10-KSB of Perficient, Inc., as amended by Amendment No. 1 on Form 10-KSB/A, for the year ended December 31, 2003 have been so incorporated in reliance on the report of Ernst & Young LLP, independent accountants, given on the authority of said firm as experts in auditing and accounting.

**Item 15. Indemnification of Directors and Officers**

Subsection (a) of Section 145 of the Delaware General Corporation Law, or DGCL, empowers a corporation to indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding whether civil, criminal, administrative or investigative (other than an action by or in the right of the corporation) by reason of the fact that the person is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, against expenses (including attorneys' fees), judgments, fines and amounts paid in settlement actually and reasonably incurred by the person in connection with such action, suit or proceeding if the person acted in good faith and in a manner the person reasonably believed to be in or not opposed to the best interests of the corporation, and, with respect to any criminal action or proceeding, had no reasonable cause to believe the person's conduct was unlawful.

Subsection (b) of Section 145 empowers a corporation to indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action or suit by or in the right of the corporation to procure a judgment in its favor by reason of the fact that such person acted in any of the capacities set forth above, against expenses (including attorneys' fees) actually and reasonably incurred by the person in connection with the defense or settlement of such action or suit if the person acted in good faith and in a manner the person reasonably believed to be in or not opposed to the best interests of the corporation, except that no indemnification shall be made in respect to any claim, issue or matter as to which such person shall have been adjudged to be liable to the corporation unless and only to the extent that the Court of Chancery or the court in which such action or suit was brought shall determine upon application that, despite the adjudication of liability but in view of all the circumstances of the case, such person is fairly and reasonably entitled to indemnity for such expenses which the Court of Chancery or such other court shall deem proper.

Section 145 further provides that to the extent a director or officer of a corporation has been successful on the merits or otherwise in the defense of any such action, suit or proceeding referred to in subsections (a) and (b) of Section 145 or in the defense of any claim, issue or matter therein, he shall be indemnified against expenses (including attorneys' fees) actually and reasonably incurred by him in connection therewith; that the indemnification provided for by Section 145 shall not be deemed exclusive of any other rights which the indemnified party may be entitled; that indemnification provided by Section 145 shall, unless otherwise provided when authorized or ratified, continue as to a person who has ceased to be a director, officer, employee or agent and shall inure to the benefit of such person's heirs, executors and administrators; and empowers the corporation to purchase and maintain insurance on behalf of a director or officer of the corporation against any liability asserted against him

and incurred by him in any such capacity, or arising out of his status as such, whether or not the corporation would have the power to indemnify him against such liabilities under Section 145.

Section 102(b)(7) of the DGCL provides that a certificate of incorporation may contain a provision eliminating or limiting the personal liability of a director to the corporation or its stockholders for monetary damages for breach of fiduciary duty as a director, provided that such provision shall not eliminate or limit the liability of the director:

For any breach of the director's duty of loyalty to the corporation or its stockholders;

For acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law;

Under Section 174 of the DGCL; or

For any transaction from which the director derived an improper personal benefit.

Article 7 of our Certificate of Incorporation provides that, to the fullest extent permitted by the DGCL, no director of the registrant shall be liable to us or our stockholders for monetary damages for breach of fiduciary duty as a director.

Article 11 of our Bylaws provides that we shall indemnify, to the fullest extent permitted by the DGCL, any and all of our directors and officers, or former directors and officers, or any person who may have served at our request as a director or officer of another corporation, partnership, joint venture, trust or other enterprise, against expenses, judgments, fines and amounts paid in settlement actually and reasonably incurred by such person in connection with any third party proceeding if such person acted in good faith and in a manner such person reasonably believed to be in, or not opposed to, our best interests and, with respect to any criminal third party proceeding, had no reasonable cause to believe such conduct was unlawful.

We have indemnification agreements with each of our directors and executive officers.

We maintain officers' and directors' liability insurance.

**Item 17. Undertakings**

(a) Each undersigned registrant hereby undertakes:

(1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:

(i) To include any prospectus required by Section 10(a)(3) of the Securities Act;

(ii) To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement; notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more

than a 20% change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement; and

(iii) To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement;

II-3

---

## Edgar Filing: PERFICIENT INC - Form S-3

*provided, however,* that paragraphs (a)(1)(i) and (a)(1)(ii) do not apply if the information required to be included in a post-effective amendment by those paragraphs is contained in periodic reports filed with or furnished to the Commission by the registrant pursuant to Section 13 or Section 15(d) of the Exchange Act that are incorporated by reference in the registration statement.

(2) That, for the purpose of determining any liability under the Securities Act, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

(b) Each undersigned registrant hereby undertakes that:

(1) For purposes of determining any liability under the Securities Act, the information omitted from the form of prospectus filed as part of this registration statement in reliance upon Rule 430A and contained in a form of prospectus filed by the registrant pursuant to Rule 424(b)(1) or (4) or 497(h) under the Securities Act shall be deemed to be part of this registration statement as of the time it was declared effective.

(2) For the purpose of determining any liability under the Securities Act, each post-effective amendment that contains a form of prospectus shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(c) Each registrant hereby undertakes that, for purposes of determining any liability under the Securities Act, each filing of the registrant's annual report pursuant to Section 13(a) or Section 15(d) of the Exchange Act (and, where applicable, each filing of an employee benefits plan's annual report pursuant to Section 15(d) of the Exchange Act) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(d) Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons of the registrant pursuant to any charter provision, by-law, contract, arrangement, statute, or otherwise, each registrant has been advised that in the opinion of the Commission such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted against the registrant by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question of whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

**SIGNATURES**

Pursuant to the requirements of the Securities Act of 1933, the registrant certifies that it has reasonable grounds to believe that it meets all of the requirements for filing on Form S-3 and has duly caused this Registration Statement to be signed on its behalf by the undersigned, thereunto duly authorized, in the City of Austin, State of Texas, on June 16, 2004.
