**PROXY STATEMENT
FOR THE
ANNUAL MEETING OF SHAREHOLDERS
OF**

SKYWEST, INC.

TUESDAY, MAY 5, 2015

OVERVIEW

Solicitation

This Proxy Statement, the accompanying Notice of Annual Meeting, proxy card and the Annual Report to Shareholders of SkyWest, Inc. (the "*Company*" or "*SkyWest*") are being mailed on or about March 18, 2015. The Board of Directors of the Company (the "*Board*") is soliciting your proxy to vote your shares at the Annual Meeting of the Company's Shareholders to be held on May 5, 2015 (the "*Meeting*"). The Board is soliciting your proxy in an effort to give all shareholders of record the opportunity to vote on matters that will be presented at the Meeting. This Proxy Statement provides information to assist you in voting your shares.

What is a proxy?

A proxy is your legal designation of another person to vote on your behalf. You are giving the individuals appointed by the Board as proxies (Jerry C. Atkin and Eric J. Woodward) the authority to vote your shares in the manner you indicate.

Why did I receive more than one notice?

You may receive multiple notices if you hold your shares in different ways (e.g., joint tenancy, trusts, or custodial accounts) or in multiple accounts. If your shares are held by a broker (i.e., in "street name"), you will receive your notice or other voting information from your broker. In any case, you should vote for each notice you receive.

Voting Information

Who is qualified to vote?

You are qualified to receive notice of and to vote at the Meeting if you owned shares of common stock of SkyWest (the "*Common Stock*") at the close of business on the record date of Wednesday, March 4, 2015.

How many shares of Common Stock may vote at the Meeting?

As of March 4, 2015, there were 51,591,880 shares of Common Stock outstanding and entitled to vote. Each share of Common Stock is entitled to one vote on each matter presented at the Meeting.

What is the difference between a "shareholder of record" and a "street name" holder?

If your shares are registered directly in your name with Zion's First National Bank, the Company's transfer agent, you are a "shareholder of record." If your shares are held in the name of a brokerage, bank, trust or other nominee as a custodian, you are a "street name" holder.

Table of Contents

How can I vote at the Meeting?

You may vote in person by attending the Meeting. You may also vote in advance over the Internet, or by telephone, or you may request a complete set of traditional proxy materials and vote your proxy by mail. To vote your proxy using the Internet or telephone, see the instructions on the proxy form and have the proxy form available when you access the Internet website or place your telephone call. To vote your proxy by mail, mark your vote on the enclosed proxy card, then follow the instructions on the card.

What are the Board's recommendations on how I should vote my shares?

The Board recommends that you vote your shares as follows:

Proposal 1 **FOR** the election of all eight nominees for director with terms expiring at the next annual meeting of the Company's shareholders.

Proposal 2 **FOR** the non-binding resolution to approve the compensation of the Company's named executive officers.

Proposal 3 **FOR** the ratification of the appointment of Ernst & Young, LLP as the Company's independent registered public accounting firm (independent auditors) for the year ending December 31, 2015.

What are my choices when voting?

Proposal 1 You may cast your vote in favor of up to eight individual director-nominees. You may vote for less than eight director-nominees if you choose. You may also abstain from voting.

Proposals 2 and 3 You may cast your vote in favor of, or against, each proposal. You may also abstain from voting.

How will my shares be voted if I do not specify how they should be voted?

If you execute the enclosed proxy card without indicating how you want your shares to be voted, the proxies appointed by the Board will vote as recommended by the Board and described previously in this section.

How will withheld votes, abstentions and broker non-votes be treated?

Withheld votes, abstentions and broker non-votes will be deemed as "present" at the Meeting, and will be counted for quorum purposes only.

Can I change my vote?

You may revoke your proxy before the time of voting at the Meeting in any of the following ways:

by mailing a revised proxy card to the Chief Accounting Officer of the Company;

by changing your vote on the Internet website;

by using the telephone voting procedures; or

by voting in person at the Meeting.

Table of Contents

What vote will be required to approve each proposal?

Proposal 1 provides that the eight director-nominees who receive a majority of the votes cast with respect to his or her election will be elected as directors of the Company. This means that the number of shares voted "for" the election of a director must exceed the number of shares voted "against" the election of that director.

Proposals 2 and 3 will be approved if the number of votes cast, in person or by proxy, in favor of a particular proposal exceeds the number of votes cast in opposition to the proposal. Proposal 2 is an advisory vote only, and has no binding effect on the Board or the Company.

Who will count the votes?

Representatives from Zion's First National Bank, the Company's transfer agent, or other individuals designated by the Board, will count the votes and serve as inspectors of election. The inspectors of election will be present at the Meeting.

Who will pay the cost of this proxy solicitation?

The Company will pay the costs of soliciting proxies. Upon request, the Company will reimburse brokers, dealers, banks and trustees, or their nominees, for reasonable expenses incurred by them in forwarding proxy materials to beneficial owners of shares of the Common Stock.

Is this Proxy Statement the only way proxies are being solicited for use at the Meeting?

Yes. The Company does not intend to employ any other methods of solicitation.

How are proxy materials being delivered?

The Company is pleased to take advantage of U.S. Securities and Exchange Commission rules that allow companies to furnish their proxy materials over the Internet. As a result, the Company is mailing to most of its shareholders a Notice of Internet Availability of Proxy Materials (the "Notice") instead of a paper copy of this Proxy Statement and the Company's 2014 Annual Report to Shareholders. The Notice contains instructions on how to access those documents over the Internet. The Notice also contains instructions on how to request a paper copy of the Company's proxy materials, including this Proxy Statement, the 2014 Annual Report to Shareholders and a form of proxy card or voting instruction card. All shareholders who do not receive a Notice will receive a paper copy of the proxy materials by mail. The Company believes this process will allow it to provide its shareholders with the information they need in a more efficient manner, while reducing the environmental impact and lowering the costs of printing and distributing these proxy materials.

**PROPOSAL 1
ELECTION OF DIRECTORS**

Composition of the Board

The Board currently consists of nine directors. All directors serve a one-year term and are subject to re-election each year.

The current composition of the Board is:

Jerry C. Atkin, Chairman

W. Steve Albrecht

Margaret S. Billson

Henry J. Eyring

Ronald J. Mittelstaedt

Robert G. Sarver

Keith E. Smith

Steven F. Udvar-Hazy

James L. Welch

The Board Recommends That Shareholders Vote *FOR* All Eight Nominees Listed Below.

Nominees for Election as Directors

At the Meeting, the Company proposes to elect eight directors to hold office until the 2016 Annual Meeting of Shareholders and until their successors have been elected and have qualified. The eight nominees for election at the Meeting are listed below. All of the nominees have consented to be named as a nominee, and, other than Andrew C. Roberts, all of the nominees are currently serving as a director of the Company. Mr. Robert G. Sarver and Ms. Margaret S. Billson, who have served as directors of the Company since 2000 and 2006 respectively, have declined to stand for re-election at the Meeting. Upon learning of Mr. Sarver and Ms. Billson's decisions, the Nominating and Corporate Governance Committee of the Board commenced a search to identify qualified individuals to fill the vacancies anticipated to result from Mr. Sarver and Ms. Billson's departures. As a result of that search, the Nominating and Corporate Governance Committee identified Mr. Roberts as a possible candidate to serve as a director of the Company. After further review and interviews, the Nominating and Corporate Governance Committee recommended to the Board that Mr. Roberts be nominated for election as a director of the Company at the Meeting. The Board considered the recommendation of the Nominating and Corporate Governance Committee, and has nominated Mr. Roberts for election as a director of the Company at the Meeting. Accordingly, shareholders voting in person or by proxy at the Meeting may only vote for eight nominees. The Nominating and Corporate Governance Committee is continuing its search to identify a qualified individual to fill the remaining anticipated vacancy on the Board. If, prior to the Meeting, any of the nominees becomes unable to serve as a director, the Board may designate a substitute nominee. In that event, the persons named as proxies intend to vote for the substitute nominee designated by the Board.

Edgar Filing: SKYWEST INC - Form DEF 14A

The Board and the Nominating and Corporate Governance Committee believe that each of the following nominees possesses the experience and qualifications that directors of the Company should possess, as described in detail below, and that the experience and qualifications of each nominee

The experience and qualifications of each nominee, including information regarding the specific experience, qualifications, attributes and skills that led the Board and its Nominating and Corporate Governance Committee to conclude that he or she should serve as a director of the Company at the present time, in light of the Company's business and structure, are set forth on the following pages.

CORPORATE GOVERNANCE

Corporate Governance Guidelines

The Board adopted Corporate Governance Guidelines on August 2, 2005 and has periodically reviewed and ratified those guidelines, most recently on August 5, 2014. The Corporate Governance Guidelines can be accessed at the Company's website, www.SkyWest.com. The Company's Corporate Governance Guidelines supplement the Company's Bylaws and the charters of the Board's committees. Excerpts from the principal sections of the Company's Corporate Governance Guidelines are noted below:

Director Independence

At a minimum, the Board will have a majority of directors who meet the criteria for independence as required by The Nasdaq Global Select Market.

Director Qualifications

Criteria for Membership

The Company's Nominating and Corporate Governance Committee is responsible for annually reviewing with the Board the desired skills and characteristics of directors, as well as the composition of the Board as a whole.

Terms and Limitations

All directors currently stand for election each year. The Board does not believe it should establish a limit on the number of times that a director may stand for election.

Retirement

Directors are required to submit their resignation from the Board when their term expires upon reaching the age of 72 years old. The Board will accept the resignation unless the Nominating and Corporate Governance Committee recommends otherwise. Directors generally will not be nominated for election following their 72nd birthday.

Ownership of Company Stock

Directors are encouraged to own at least 8,000 shares of Common Stock.

Director Responsibilities

General Responsibilities

The basic responsibility of directors is to exercise their business judgment to act in what they reasonably believe to be in the best interests of the Company and its shareholders.

Oversight of Management

The Board is responsible to encourage the Company's management to effectively implement policies and strategies developed by the Board, and to provide dynamic leadership of the Company.

Table of Contents

Board Meetings and Materials

Frequency of Meetings

The Board has four regularly scheduled meetings per year. As determined necessary by the Board and in order to address the Company's needs, special meetings of the Board are convened from time to time.

Meeting Responsibilities

Absent extraordinary circumstances, directors of the Company should attend Board meetings, meetings of the committee on which they serve and shareholder meetings. The Chairman of the Board is responsible for establishing the agenda for each Board meeting. Each director is free to suggest the inclusion of items on the agenda and to raise at any Board meeting subjects that are not on the agenda for that meeting.

Executive Sessions of Independent Directors

The Company's independent directors meet in executive session regularly, generally quarterly. The independent directors may either choose one director annually to serve as the Lead Independent Director and to preside at all executive sessions or establish a procedure by which a Lead Independent Director will be selected. The independent directors of the Company have chosen Mr. Udvar-Hazy to serve as the Lead Independent Director.

Committees

The Board has four standing committees: (1) Audit and Finance, (2) Compensation, (3) Nominating and Corporate Governance and (4) Safety and Compliance. The Board may, from time to time, establish or maintain additional committees as the Board deems necessary or appropriate.

Director Compensation

The form and amount of director compensation is determined by the Board based on general principles established on the Nominating and Corporate Governance Committee's recommendation. These principles are in accordance with the policies and principles set forth in the Nominating and Corporate Governance Committee's charter and are intended to be consistent with rules established by The Nasdaq Global Select Market, including those relating to director independence and to compensation of Audit and Finance Committee members.

CEO Evaluation and Management Succession

The Nominating and Corporate Governance Committee conducts an annual review to assess the performance of the Company's Chief Executive Officer. The Nominating and Corporate Governance Committee communicates the results of its review to the other directors in a meeting that is not attended by the Chief Executive Officer. The directors of the Company, excluding the Chief Executive Officer, review the Nominating and Corporate Governance Committee's report to assess the Chief Executive Officer's leadership in the long and short-term, as well as the Company's long-term succession plans.

Annual Evaluations

The Board conducts an annual evaluation to determine if the Board and its committees are functioning effectively. The Nominating and Corporate Governance Committee solicits comments from all of the Company's directors and reports annually to the Board with an assessment of the Board's

Table of Contents

performance. Each of the Board's standing committees conducts an annual evaluation to assess the performance of the applicable committee.

Review and Access to Guidelines

The Nominating and Corporate Governance Committee reviews the Company's Corporate Governance Guidelines at least annually, then, as it deems appropriate, recommends amendments to the Board.

Board Leadership Structure

Mr. Jerry C. Atkin currently serves as the Chairman of the Board and Chief Executive Officer of the Company. The Board and its Nominating and Corporate Governance Committee believe that the traditional practice of combining the roles of chairman of the board and chief executive officer currently provides the preferred form of leadership for the Company. Given Mr. Atkin's vast experience with the Company, the tremendous respect which he has earned from employees, business partners and shareholders of the Company, as well as other members of the aviation industry, and his proven leadership skills, the Board believes the best interests of the Company's shareholders are met by Mr. Atkin's continued service in both capacities. The Board believes Mr. Atkin's fulfillment of both responsibilities encourages clear accountability and effective decision-making, and provides strong leadership for the Company's employees and other stakeholders.

Given the outstanding experience and qualifications the Company's directors contribute to the Board's activities, the Company has implemented a number of practices designed to encourage effective corporate governances. These practices, which are driven primarily by the Company's Corporate Governance Guidelines, include:

the requirement that at least a majority of the Company's directors meet the standards of independence applicable to the Company;

the election of a Lead Independent Director, who is empowered to schedule and conduct meetings of the independent directors, communicate with the Chairman of the Board, disseminate information to the Board and raise issues with management on behalf of the independent directors when appropriate;

regular executive sessions of the Board and its committees, which are typically held in conjunction with each regularly scheduled Board and committee meeting and include individual sessions with representatives of the Company's independent registered public accounting firm, internal auditors and legal counsel; and

annual performance evaluations of the Company's Chief Executive Officer by the Nominating and Corporate Governance Committee.

The Board believes no single leadership model is right for all companies at all times. The Board recognizes that, depending on the circumstances, other leadership models, such as a separate independent Chairman of the Board, may be appropriate. For approximately 17 years prior to Mr. Atkin's appointment as Chairman of the Board, the Company separated the positions for the Chairman of the Board and the Chief Executive Officer. The independent directors and the Nominating and Corporate Governance Committee regularly review the Company's leadership structure and, depending on the Company's needs and the available resources, the Board may modify the Company's existing leadership structure.

Nomination Process

The policy of the Nominating and Corporate Governance Committee is to consider properly submitted shareholder recommendations for candidates to serve as directors of the Company. In evaluating those recommendations, the Nominating and Corporate Governance Committee seeks to achieve a balance of knowledge, experience and capability on the Board and to address the membership criteria described below. Any shareholder wishing to recommend a candidate for consideration by the Nominating and Corporate Governance Committee should submit a recommendation in writing indicating the candidate's qualifications and other relevant biographical information and provide confirmation of the candidate's consent to serve as a director. This information should be addressed to Jerry C. Atkin, Chairman of the Board and Chief Executive Officer of the Company, 444 South River Road, St. George, Utah 84790.

As contemplated by the Company's Corporate Governance Guidelines, the Nominating and Corporate Governance Committee reviews the appropriate skills and characteristics required of directors in the context of the current composition of the Board, at least annually. There is currently no set of specific minimum qualifications that must be met by a nominee recommended by the Nominating and Corporate Governance Committee, as different factors may assume greater or lesser significance at particular times and the needs of the Board may vary in light of its composition and the Nominating and Corporate Governance Committee's perceptions about future issues and needs. Among the factors the Nominating and Corporate Governance Committee considers, which are outlined in the Corporate Governance Guidelines, are independence, diversity, age, skills, integrity and moral responsibility, policy-making experience, ability to work constructively with the Company's management and directors, capacity to evaluate strategy and reach sound conclusions, availability of time and awareness of the social, political and economic environment.

The Nominating and Corporate Governance Committee utilizes a variety of methods for identifying and evaluating director nominees. The Nominating and Corporate Governance Committee assesses the appropriate size of the Board, and whether any vacancies on the Board are expected due to retirement or otherwise. In the event that vacancies are anticipated, or otherwise arise, the Nominating and Corporate Governance Committee considers various potential candidates for director. Candidates may come to the attention of the Nominating and Corporate Governance Committee through various means, including current directors, professional search firms, shareholder recommendations or other referrals. Candidates are evaluated at meetings of the Nominating and Corporate Governance Committee, and may be considered at any point during the year. All director-nominee recommendations which are properly submitted to the Nominating and Corporate Governance

Committee are aggregated and considered by the Nominating and Corporate Governance Committee at a meeting prior to the issuance of the proxy statement for the next annual meeting of shareholders. Any materials provided by a shareholder in connection with the recommendation of a director candidate are forwarded to the Nominating and Corporate Governance Committee, which considers the recommended candidate in light of the director qualifications discussed above. The Nominating and Corporate Governance Committee also reviews materials provided by professional search firms, if applicable, or other parties in connection with a candidate who is not proposed by a shareholder. In evaluating such recommendations, the Nominating and Corporate Governance Committee seeks to achieve a balance of knowledge, experience and capability on the Board. The Nominating and Corporate Governance Committee has, on occasion, engaged professional search firms to assist in identifying qualified candidates for Board service. When such firms have been engaged, the Nominating and Corporate Governance Committee has utilized their services principally for the purpose of identifying and screening potential candidates and conducting background research; however, the members of the Nominating and Corporate Governance Committee, as well as other directors of the Company, have conducted interviews with prospective candidates and have performed other functions in completing the nomination process.

Russell A. Childs, President of the Company;

Michael J. Kraupp, former Vice President and Treasurer of the Company, SkyWest Airlines and ExpressJet; and

Bradford R. Holt, former President and Chief Operating Officer of ExpressJet.

The compensation discussion and analysis provides narrative perspective to the tables and disclosure in the tables following this section.

Current Year Accomplishments

The Compensation Committee viewed the Company's performance improved in the second half of 2014. The Company's income before income taxes, excluding special charges, improved year over year in the third quarter by \$24 million and fourth quarter by \$18 million. Such improvement was driven, in part, by the following accomplishments:

SkyWest Airlines successfully certified and started its operation of the Embraer E175 aircraft;

ExpressJet's operational performance significantly improved in the second half of the year due, in significant part, to improved planning and utilization of crews;

the Company was able to work with its major airline partners to improve long-term profitability through the accelerated retirement of unprofitable flying, extension of flying contracts at improved rates and improved operational performance;

the Company continued to strategically expand its profitable pro-rate operations; and

the Company improved maintenance reliability while improving maintenance cost structure.

These accomplishments not only improved the Company's performance, primarily in the second half of 2014, but the Board believes these accomplishments will contribute to improved financial performance in future years.

Compensation Objectives and Principles

The overall objective of the Company's executive compensation programs is to create long-term value for the Company's shareholders by attracting and retaining talented executives that effectively manage the Company in a manner that is consistent with the long-term interest of shareholders.

Table of Contents

Accordingly, the executive compensation program incorporates the following principles:

The overall compensation package should encourage long-term focus and shareholder value creation.

Compensation should be competitive with other airlines in order to attract and retain talented executives.

Compensation should be based upon individual responsibility, leadership ability and experience.

Compensation should reflect the fair market value of the services received.

A significant amount of total compensation should be incentive based, and should correlate to the Company's financial performance, as well as the achievement of operational and individual goals.

Compensation should not encourage the taking of undue, material risk.

Executive Compensation Procedures

To attain the Company's executive compensation objectives and to implement the underlying compensation principles, the Company follows the following procedures:

Role of the Committee. The Compensation Committee has responsibility for establishing and monitoring the executive compensation programs and for making decisions regarding executive compensation. The Chief Executive regularly attends the Compensation Committee meetings. The Compensation Committee also meets regularly in executive sessions. The Compensation Committee recommends the compensation package of the Chief Executive to the Board, which then sets his compensation. The Compensation Committee also considers the recommendations of the Chief Executive with respect to compensation of the other Executives, and after reviewing such recommendations, sets their compensation. The Compensation Committee also monitors, administers and approves awards under the various incentive compensation plans for all levels within the Company, including awards under the Company's annual bonus plan and the Company's 2006 Long-Term Incentive Plan and 2010 Long-Term Incentive Plan (the "2010 Plan").

The Compensation Committee relies on its judgment in making compensation decisions in addition to reviewing relevant information and results. When setting total compensation for each of the Executives, the Compensation Committee reviews tally sheets which show the Executive's current compensation, including base pay, annual bonus objectives, long-term, equity-based compensation objectives, and deferred compensation retirement funding. The Compensation Committee has the sole discretion to award compensation and make adjustments to awards based on the Compensation Committee's review of relevant information and other unusual.

The Compensation Committee also occasionally evaluates surveys and other available data regarding the executive compensation programs of other regional and major air carriers in order to determine competitiveness of the Company's executive compensation programs. The Compensation Committee performed such a review in 2012 that included a review of the executive compensation practices of peer transportation companies Southwest, Avis Budget Gp, Ryder System, UTi Worldwide, JetBlue, Alaska Air Group, Swift Transportation, Hub Group, Republic Airways, Arkansas Best, Hawaiian Holdings, Pacer Intl, Atlas Air, and Spirit Airlines. In 2014, the Compensation Committee did not perform or rely upon any updated review of peer company compensation practices or any updated surveys of peer compensation, but did take into account the results of the 2012 review. The executive compensation procedures and the Compensation Committee assessment process are designed to be flexible in an effort to promptly respond to the evolving business environment and individual circumstances.

Table of Contents

Role of Consultants. Neither the Company nor the Compensation Committee has any contractual arrangement with any compensation consultant for determining the amount or particular form of any Executive's compensation. During 2014 and 2012, the Company and Compensation Committee received advice from Frederic W. Cook & Co., Inc. ("F.W. Cook") with respect to executive compensation practices and trends generally and within the airline industry. The Company and the Compensation Committee retained F.W. Cook to make recommendations regarding the specific amount or forms of compensation awarded to Executives in 2012 and 2014. The Company's approach to setting Executive compensation in 2013 and the components of the 2013 Executive compensation were consistent with the Company's practices in 2012 and 2014. The Company and the Compensation Committee will continue to periodically seek the advice of such consultants, as deemed necessary, in the future. The Compensation Committee has sole authority to hire and fire external compensation consultants.

No Employment and Severance Agreements. The Executives do not have employment, severance or change-in-control agreements, although the vesting of stock options, restricted stock, restricted stock units and performance units generally is accelerated upon a change in control of the Company. The Executives serve at the will of the Board, which enables the Board to terminate the employment of any Executive with discretion as to the terms of any severance. This is consistent with the Company's performance-based employment and compensation philosophy.

Compensation Committee Consideration of Shareholder Advisory Vote. At the Company's Annual Meeting of Shareholders held in May 2014, the Company submitted the compensation of its named executive officers to the Company's shareholders in a non-binding vote. The Company's executive compensation program received the support of more than 84% of the shares represented at the meeting. The Compensation Committee considered the results of the 2014 vote and views the outcome as evidence of strong shareholder support of its executive compensation decisions and policies. Accordingly, the Compensation Committee concluded that no significant revisions were necessary to the Company's executive compensation program for 2014. The Compensation Committee will continue to review future shareholder voting results, including the voting results with respect to "Proposal 2 Advisory Vote on Executive Compensation" described in this Proxy Statement, and determine whether to make any changes to the Company's executive compensation program in light of such voting results.

Elements of Compensation

The Company's executive compensation objectives and principles are implemented through the use of the following principal elements of compensation, each discussed more fully below:

Salary

Annual Bonus

Long-Term Awards

Retirement and Other Benefits

The compensation objectives for each Executive are more fully described in the following paragraphs.

Salary. Salary is provided with the objective of paying for the underlying role and responsibility associated with the Executive's position, which the Compensation Committee believes allows the Company to attract and retain qualified executives. The Executives' salaries are set at levels that the Compensation Committee believes are generally competitive with the compensation paid to officers in similar positions at other airlines. Salary adjustments are considered annually and influenced by growth of the Company's operations, individual performance, changes in responsibility, changes in cost of living, and other factors. The salaries of the Executives are set forth in the Summary Compensation Table set forth immediately following this section.

Table of Contents

Annual Bonus. In an effort to encourage achievement of the Company's objectives, an annual performance-based bonus plan is maintained for the Executives. The combination of salary and annual bonuses is intended to result in a cash compensation package for each Executive that falls within competitive market standards as determined by the Compensation Committee based on its review and understanding of other regional and major air carrier executive compensation programs when the performance measures and personal goals are met. The purpose of the bonus plan is to reward the Executives with an annual cash bonus in an amount that correlates (i) in part, to the level of pretax earnings and other financial measurements of the Company or its operating subsidiaries achieved for the year; and (ii) in part, to the achievement of specific operational goals and individual quantitative and qualitative goals during the year. The 2014 annual bonus objective of 80% of salary for Messrs. Atkin, Childs, Steel, Rich, Thompson and Holt was allocated between 40% of salary based on pretax earnings and other financial targets established by the Compensation Committee, and 40% of salary based on the achievement of specific operational and individual targets. Mr. Kraupp's annual bonus objective of 60% of salary was allocated between 30% of salary based on pretax earnings and other financial targets established by the Compensation Committee and 30% of salary based on the achievement of specific operational and individual targets. The differing percentages for the Executives are due to differing entity level responsibilities. Details are explained below under the headings "2014 Pretax Earnings and Financial Targets Component" and "2014 Operational and Individual Targets Component".

2014 Pretax Earnings and Financial Targets Component. In determining annual pretax earnings and other financial targets to be used for the purpose of determining each bonus amount for the Executives, the Compensation Committee began with a targeted pretax earnings objective which the Compensation Committee considered a key measure of the financial health of the Company and the Board believes is reflective of the Company's development of shareholder value. The Compensation Committee then considered the planned budget for the year, timing differences between the Company's actual engine overhaul expenses and the related revenue collected from the Company's major partners, and other unusual or non-recurring items. The specific income and other financial targets were 1) a designated amount of pretax earnings at the operating subsidiary level, 2) a designated amount of controllable expenditures at the operating subsidiary level, and 3) a designated amount of capital expenditures at the operating subsidiary level. The bonus objective for pretax earnings and other financial targets was weighted 50% to pretax earnings at the operating subsidiary level, 25% to controllable expenditures at the operating subsidiary level and 25% to capital expenditures at the operating subsidiary level. The above identified measurements were identified to encourage continued focus on overall pretax earnings and financial results, to encourage continued integration and improvement of ExpressJet's operations, and to facilitate the exchange of best practices between the operating subsidiaries of the Company.

In the case of Messrs. Atkin, Childs, Steel, Rich and Kraupp, the applicable pretax earnings and other financial targets were based on the designated amounts of both operating subsidiaries SkyWest Airlines (weighted 50%) and ExpressJet (weighted 50%). Because of his primary responsibility with respect to operations of SkyWest Airlines, Mr. Thompson's pretax earnings and financial targets were set as the designated amounts at the SkyWest Airlines level. Similarly, because Mr. Holt was principally engaged with respect to the operations of ExpressJet, his pretax earnings and financial targets were designated amounts at the ExpressJet level. At year-end, the Compensation Committee reviewed the actual pretax earnings and financial results for the year, as well as other items taken into account in setting the annual pretax earnings and financial targets, and determined the extent to which the applicable goals were met.

2014 Operational and Individual Targets Component. A portion of the Executives' annual bonus is based on their achievement of operational targets (weighted 50%) and individual targets (weighted 50%) established in advance each year. The Compensation Committee has adopted this approach

Table of Contents

because it believes the use of operational and individual goals allows awards to reflect the individual efforts and achievements of an Executive that may not be reflected by corporate financial performance. The actual amount of the bonus payment for each Executive is determined by the Compensation Committee based on the Executive's achievement of his goals.

For fiscal year 2014, the Compensation Committee reviewed and approved the individual goals for the Executives and following year-end, determined the extent to which those goals were attained. The actual payout of the portion of an Executive's annual bonus incentive related to individual goals is increased or decreased, as applicable, based on the degree to which the Executive achieved his individual goals.

The corresponding results for each Executive for the year ended December 31, 2014, are set forth below as a percentage of each Executive's salary.

	Objective Percentage of Salary	Pretax earnings & Financial Target	Pretax earnings & Financial Results	Operational & Individual Target	Operational & Individual Results	Total Annual Bonus Results
Jerry C. Atkin	80%	40.0%	31.6%	40.0%	35.9%	67.5%
Russell A. Childs	80%	40.0%	31.6%	40.0%	51.1%	82.7%
Wade J. Steel	80%	40.0%	31.6%	40.0%	47.1%	78.7%

Amount of 2014 Performance-Based Annual Bonus. The total annual performance-based bonus amounts payable to the Executives for 2014 were: Mr. Atkin \$283,676; Mr. Childs \$237,593; Mr. Steel \$146,140; Mr. Rich \$185,039; Mr. Thompson \$138,239; Mr. Holt \$104,091 and Mr. Kraupp \$87,812. Those amounts are included in the amounts shown in the Summary Compensation Table below under the caption heading "Non-Equity Incentive Plan Compensation."

Discretionary 2014 Bonus. In addition to the performance-based bonuses described above, the Compensation Committee also exercised discretion in 2014 and paid a discretionary bonus of \$19,100 to Mr. Childs and \$12,345 to Mr. Steel in recognition of their efforts to address and mitigate unique challenges attributable to ExpressJet's operations, including reimbursement rates payable under ExpressJet's contracts with its major partners, maintenance costs associated with ExpressJet's aging fleet and operational reliability. Messrs. Atkin, Rich, Thompson, Holt and Kraupp did not receive a discretionary bonus. The discretionary bonuses paid to Messrs. Childs and Steel in 2014 are included in the amounts shown in the Summary Compensation Table below under the caption heading "Discretionary Bonus."

2015 Annual Bonus. The Compensation Committee determined to make some changes to the annual bonus calculation for 2015 in an effort to better align the bonus with the creation of shareholder value and to align the compensation packages of the Executives with the executive compensation programs of other regional carriers and major airlines. The 2015 annual bonus objective will be of 100% of salary for the Chief Executive Officer and President, 80% of salary for the Chief Commercial Officer, Chief Financial Officer and Chief Operating Officers of the Company's operating subsidiaries and 60% of salary for other Executives. The bonus objective will be based on pretax earnings (weighted 65%), operating performance (weighted 25%) and cash flow from operations (weighted 10%). The differing percentages for the Executives are due to differing entity level responsibilities.

Long-Term Awards. The Company grants discretionary long-term incentive awards, in the form of stock options, restricted stock units and performance units payable in cash to the Executives annually, as evidenced by electronic and written award agreements.

Long-term incentive awards are made to encourage the Executives to continue their engagement with the Company throughout the vesting periods of the awards and to align management and shareholder interests. In making awards to the Executives, the grant size and the appropriate combination of equity-based and deferred cash awards is considered. The Compensation Committee generally grants long-term incentive awards at its first meeting of each year. Except in the case of accelerated vesting upon a change in control of the Company, long-term incentive awards currently vest only if the Executive remains employed by the Company for three years from the date of grant. The Compensation Committee believes the three-year cliff-vesting schedule assists in retaining Executives and encourages the Executives to focus on the Company's long-term performance.

In granting stock options and restricted stock units to the Executives, the Compensation Committee also considers the impact of the grant on the Company's financial performance, as determined in accordance with the requirements of Financial Accounting Standards Board Accounting Standards Codification Topic 718 (ASC Topic 718). For long-term equity awards, the Company records expense in accordance with ASC Topic 718. The amount of expense recorded pursuant to ASC Topic 718 may vary from the corresponding compensation value used in determining the amount of the awards.

Amount and allocation of grant For 2014 the total annual targeted long-term incentive grant value was 125% of salary and targeted annual bonus for Mr. Atkin, 100% of salary and targeted annual bonus for Messrs. Childs, Steel, Rich, Thompson and Holt and 70% of salary and targeted annual bonus for Mr. Kraupp. Messrs. Steel and Thompson's targeted long-term incentive grant value were awarded at 70% of salary and targeted annual bonus through their May 2014 appointment as executive officers of the Company and SkyWest Airlines, respectively and at 100% of salary and targeted annual bonus following those appointments. The Compensation Committee established these annual targeted amounts to provide a competitive pay package and to ensure that a large portion of each Executive's compensation was based on continuing long-term service and correlated to the creation of shareholder value. This has been the Compensation Committee's policy for several years, but is subject to review and continuation or modification each year by the Compensation Committee. Mr. Atkin's targeted level of long-term incentive awards is higher than the targeted level of long-term incentive awards for other Executives since he has overall responsibility for the long-term success of the Company. Each Executive's 2014 long-term incentive award was allocated among three types of long-term awards as follows: stock options, restricted stock units and performance units payable in cash.

In addition to the total annual targeted long-term incentive grant value, the Compensation Committee issued a discretionary long-term incentive grant value comprised of stock options to Messrs. Atkin, Rich, and Kraupp having grant date values of \$60,000, \$60,000 and \$26,000, respectively. Those discretionary stock option grants were made in recognition of their efforts to address unique challenges attributable to ExpressJet's operations, including reimbursement rates payable under ExpressJet's contracts with its major partners and maintenance costs associated with ExpressJet's aging fleet. Messrs. Childs, Steel, Thompson and Holt did not receive a discretionary long-term incentive grant.

Three types of long term incentive awards were used in an effort to link the Executives' long-term incentive compensation with the creation of shareholder value. The value of stock options and restricted stock units is directly related to the value of the Common Stock. The Executives earn performance units payable in cash by achieving specified levels of pretax earnings that the Compensation Committee believes also lead to long-term shareholder value, but are not subject to stock market volatility.

Stock options, restricted stock unit and performance unit grants in 2014 were made pursuant to the Company's 2010 Plan, as shown in greater detail below and in the table labeled "Grants of Plan Based Awards."

The following table summarizes the number and nature of long-term awards granted to the Executives by the Company on February 18, 2014 and May 15, 2014 under the 2010 Plan.

- (1) Number of performance units if 100% of target achieved. See the table and discussion below for information regarding the performance units actually earned for 2014.

Stock Options Options are granted with an exercise price equal to the closing price per share on the date of grant and vest three years after the date of grant. Grants are made on a systematic schedule, generally one grant per year made at the first Compensation Committee meeting of each year.

The purpose of stock options is to tie a significant percentage of the award's ultimate value to increases in the market price of the Common Stock, thereby rewarding increased value to the shareholders. A stock option only has a value to the extent the value of the underlying shares on the exercise date exceeds the exercise price. Accordingly, stock options provide compensation only if the underlying share price increases over the option term and the Executive's employment continues through the vesting date.

The size of the grant for each Executive is calculated by determining the number of shares with a theoretical future value equal to the targeted compensation for stock options, assuming each option will have a value equal to 33% of its exercise price. This value generally correlates to the ASC Topic 718 value of the awards. The targeted stock option allocation of each Executive's aggregate, targeted level of long-term incentive compensation for 2014 was 15%.

Restricted Stock Units The Company also granted restricted stock units to the Executives in 2014 under the 2010 Plan. The restricted stock units awarded to an Executive entitle the Executive to receive a designated number of shares of Common Stock upon completion of a three-year vesting period, measured from the date of grant. Until the vesting date the shares underlying restricted stock units are not issued and outstanding. Accordingly, the Executive is not entitled to vote or receive dividends on the shares underlying his restricted stock units unless and until those restricted stock units vest. The purpose of the restricted stock unit component is to support continued employment through volatile economic and stock market conditions, to manage dilution overhang, and to align officers' interests with maintaining shareholder value already created. The Compensation Committee believes this approach mitigates the incentive for Executives to take unnecessary risks and helps retain the Executives' expertise through continued employment. Recipients of restricted stock units do not pay for the underlying shares once the awards vest; however they must remain employed by the Company for three years to receive the underlying shares. Restricted stock unit awards provide the Executives with an indirect ownership stake in the Company and encourage the Executives to continue employment in

Table of Contents

order to receive the underlying shares. The compensation value of a restricted stock unit award does not depend solely on future stock price increases; at grant, its value is equal to the market price of the Common Stock. Although its value may increase or decrease with changes in the stock price during the period before vesting, a restricted stock unit award will likely have value even without future stock price appreciation. Accordingly, restricted stock unit awards deliver significantly greater share-for-share compensation value at grant than do stock options, and the Company can offer what it anticipates will be comparable grant date compensation value with approximately 65% fewer shares than if the grant were made solely with stock options.

The annual award of restricted stock units to each Executive for 2014 consisted of the right to receive upon future vesting a number of shares of Common Stock. The targeted restricted stock unit allocation of each Executive's aggregate, targeted level of long-term incentive compensation for 2014 was 35%.

Performance Units The remaining component of each Executive's 2014 annual long-term incentive award was a performance unit award payable in cash under the 2010 Plan. The targeted cash allocation of each Executive's aggregate, targeted level of long-term incentive compensation for 2014 was 50%. The purpose of the performance unit awards is to reward achievement of a financial efficiency goal that supports shareholder value and reflects real performance without regard to stock market volatility. Under each Executive's performance unit award, a cash bonus is payable three years from the date of grant, based on the level of pretax earnings actually attained for the year of grant, and subject to the Executive's continued employment through the date of payment. The 2014 committee-designated combined targeted pretax earnings of SkyWest Airlines and ExpressJet was set as \$110 million, with the actual amount of cash bonus payable to each Executive to be adjusted in proportion to the extent to which the combined SkyWest Airlines and ExpressJet actual results varied from the target level of performance. Specifically, (i) if pretax earnings of SkyWest Airlines and ExpressJet had been equal to or greater than \$110 million, then 100% or more of the performance units would have been earned by the Executive; (ii) if pretax earnings had ranged from \$30 million to \$110 million, then 50% to 100% of the performance units would have been earned by the Executive; and (iii) if pretax earnings had been less than \$30 million, then no performance units would have been earned by the Executive.

The 2014 goal for each Executive was based on the combined SkyWest Airlines and ExpressJet targeted pretax earnings, and there was no alternative operating company goal set for the Presidents of the operating subsidiaries, thus encouraging teamwork and working towards the creation of long-term value for the Company's shareholders. In determining the degree to which the targeted pretax earnings goal has been attained, pretax earnings are adjusted to exclude accounting timing differences between engine overhauls, related revenue collected from contracts, other extraordinary items and other unusual or non-recurring charges. Earned performance unit awards are paid in cash to reduce share dilution and emphasize the real economic cost of officer incentives. The Company believes that the performance unit grants provide an effective long-term incentive for the Executives to act in the best interests of shareholders, by focusing on pretax earnings, which the Compensation Committee believes is one of the principal contributing factors to long-term shareholder value.

For 2014, the actual adjusted combined SkyWest Airlines and ExpressJet pretax loss was \$42.8 million. Because the actual adjusted combined SkyWest Airlines and ExpressJet pretax loss was below the threshold pretax earnings of \$30 million, none of the Executives received performance units based upon the Company's performance during 2014. In tabular form, the targeted pretax earnings,

actual pretax earnings, performance units granted, and the performance units that were earned under the 2010 Plan for the year ended December 31, 2014 were as follows:

	Targeted Pretax Earnings (in Millions)	Actual Pretax Earnings (in Millions)	Performance Units Granted	Performance Units Earned
Jerry C. Atkin	\$ 110.0	\$ (42.8)	\$ 472,838	\$ 0

Additional Discretionary Performance Unit Award With Respect to 2014. Additionally, in February 2015, the Compensation Committee exercised discretion and awarded discretionary performance unit awards payable in cash on February 18, 2017 to certain of the Executives (subject to risk of forfeiture in the event of termination prior to February 18, 2017) with respect to and based upon their 2014 service. Those discretionary performance unit awards were not based on attainment of pre-established financial or operational goals for 2014, but were instead made to recognize the efforts made by Executives in 2014 to address the unique challenges in 2014 related to weather, the effect of new pilot duty and rest rules and changes in the composition of the Company's fleet. The 2017 cash value of those discretionary performance unit awards with respect to 2014 were \$392,641 for Mr. Atkin, \$233,375 for Mr. Childs, \$117,895 for Mr. Steel and \$112,050 for Mr. Thompson. Because those performance unit award amounts were earned based on service in 2014 and were both discretionary and non-target-based, the amounts are included in the 2014 compensation shown in the Summary Compensation Table below under the caption heading "Discretionary Bonus." Messrs. Rich, Holt and Kraupp did not receive any such additional discretionary performance unit awards with respect to 2014.

Long-Term Awards for 2015. The Compensation Committee determined to adjust the long-term incentive awards for 2015 in an effort to better align the incentive awards with the creation of shareholder value and to align the compensation package of the Executives with those of other regional and major air carrier executive compensation programs. For 2015, the total annual targeted long-term incentive grant value will be 125% of salary and targeted annual bonus for the Chief Executive Officer and President, 100% of salary and targeted annual bonus for the Chief Commercial Officer, the Chief Financial Officer and the Chief Operating Officers of the Company's operating subsidiaries and 70% of salary and targeted annual bonus for other Executives. The differing target percentages for the Executives are due to differing entity level responsibilities. Each Executive's 2015 long-term incentive award will be allocated among three types of long-term awards as follows: (1) stock options (weighted 20%) with one-third of the stock options vesting on each anniversary of the date of grant, (2) restricted stock units (weighted 40%) that will vest three years from the date of grant, and (3) performance shares (weighted 40%) that will be earned based on meeting performance targets over a three year period and will be issued, if earned, three years from the date of grant. The actual performance shares issued can range as high as 150% and as low as 0% of the targeted number of shares underlying the grant, depending on the attained level of performance with respect to the improvement in pretax earnings, cash flow from operations, and pretax return on equity over the applicable three-year measurement period.

Retirement and Other Benefits.

The Company and SkyWest Airlines sponsor a 401(k) retirement plan for their eligible employees, including the Executives other than Mr. Holt. ExpressJet also maintains a substantially equivalent 401(k) plan for its eligible employees, including Mr. Holt. Both plans are broad based, tax-qualified

Table of Contents

retirement plans under which eligible employees, including the Executives, may make annual pre-tax salary reduction contributions subject to the various limits imposed under the Internal Revenue Code of 1986, as amended (the "Code"). The sponsoring employers make matching contributions under the plans on behalf of eligible participants; however the right of Executives and other officers to such matching contributions is limited. The Compensation Committee believes that maintaining the 401(k) retirement plans and providing a means to save for retirement is an essential part of a competitive compensation package necessary to attract and retain talented executives.

The Company also maintains the SkyWest, Inc. 2002 Deferred Compensation Plan, a non-qualified deferred compensation plan for the benefit of officers and other highly compensated employees. All of the Executives participate in the SkyWest, Inc. 2002 Deferred Compensation Plan. ExpressJet also maintains a separate but similar non-qualified deferred compensation plan, the ExpressJet Executive Deferred Compensation Plan, for its highly compensated management employees, including Mr. Holt. Under both such deferred compensation plans (the "Deferred Compensation Plans"), the employer credits each Executive's account with a discretionary employer contribution equal to 15% of salary and annual bonus. These amounts are included in the Summary Compensation Table under the column "All Other Compensation". Additional information on the Deferred Compensation Plans is found in the section "Non-Qualified Deferred Compensation for 2014," below.

The SkyWest Inc. 2002 Deferred Compensation Plan (but not the ExpressJet Executive Deferred Compensation Plan) also permits eligible executives, including the Executives, to elect in advance of each calendar year to defer up to 100% of their cash salary and annual bonus compensation for the year. Only Mr. Thompson elected to defer any portion of his salary or annual bonus for 2014. The Company and its subsidiaries do not maintain any defined benefit pension plans for the Executives.

Other Benefits. In addition to the benefits described above, the Company provides certain other benefits to the Executives that the Compensation Committee believes are generally consistent with the benefits provided to senior executives of other airlines. The Compensation Committee believes that those benefits, which are detailed in the footnotes to the Summary Compensation Table applicable to the heading "All Other Compensation" below, are reasonable, competitive and consistent with overall executive compensation objectives. Those benefits consist primarily of employer-paid premiums on health, dental and eye insurance, a personal automobile allowance, and use of Company owned recreational equipment.

The Company and its subsidiaries also maintain a non-discriminatory, broad based program under which all full-time employees and their dependents, including the Executives and their dependents, may fly without charge on a space available basis on regularly scheduled flights of aircraft operated by the Company's operating airline subsidiaries.

Ownership Guidelines

The Company maintains ownership guidelines for the Executives to encourage the alignment of their interests with the long-term interests of the Company's shareholders. Each Executive is strongly encouraged to maintain a minimum ownership interest in the Company. The guideline ownership level is a number of shares of Common Stock having a value equal to six times annual base salary for Mr. Atkin, and three times annual base salary for Messrs. Childs, Steel, Rich, Thompson and Holt and one times annual base salary for Mr. Kraupp. Messrs. Atkin, Rich, and Kraupp met the guidelines at the end of the fiscal year ended December 31, 2014. The Board believes Messrs. Childs, Steel and Thompson are continuing to make progress towards the ownership guideline. Mr. Holt retired in 2014 and was no longer an Executive as of December 31, 2014. The holdings of the Executives are summarized in the table entitled "Security Ownership of Certain Beneficial Owners", below.

Deductibility of Executive Compensation

Section 162(m) of the Code imposes a \$1 million annual limit on the amount that a publicly traded company may deduct for compensation paid to the company's principal executive officer during a tax year or to any of the company's three other most highly compensated executive officers who are still employed at the end of the tax year (other than the Company's principal financial officer). The limit does not apply to compensation that meets the requirements of Section 162(m) of the Code for "qualified performance-based compensation" (i.e., compensation paid only if the executive meets pre-established, objective goals based upon performance criteria approved by the Company's shareholders). The Compensation Committee reviews and considers the deductibility of executive compensation under Section 162(m) of the Code. In certain situations, the Compensation Committee may approve compensation that will not meet the requirements of Code Section 162(m) in order to ensure competitive levels of total compensation for its executive officers. Stock options and 2014 long-term performance units awarded to the Executives during 2014 were intended to constitute "qualified performance-based compensation" under Section 162(m) of the Code. The Company's 2014 restricted stock unit grants and 2014 performance-based annual bonuses, however, were not "qualified performance-based compensation." As a result, a portion of the compensation earned by Mr. Atkin for 2014 exceeded the deduction limit of Section 162(m) of the Code.

Effect of Compensation on Risk

Based on the Compensation Committee's review of the various elements of the Company's executive compensation practices and policies, the Compensation Committee believes the Company's compensation policies and practices are designed to create appropriate and meaningful incentives for the Company's employees without encouraging excessive or inappropriate risk taking. Among other factors, The Compensation Committee considered the following information:

The Company's compensation policies and practices are designed to include a significant level of long-term compensation, which discourages short-term risk taking.

The base salaries the Company provides to its employees are generally consistent with salaries paid for comparable positions in the Company's industry, and provide the Company's employees with steady income while reducing the incentive for employees to take risks in pursuit of short-term benefits.

The Company's incentive compensation is capped at levels established by the Compensation Committee, which the Compensation Committee believes reduces the incentive for excessive risk-taking.

The Company has established internal controls and adopted codes of ethics and business conduct, which are designed to reinforce the balanced compensation objectives established by the Compensation Committee.

The Company has adopted equity ownership guidelines for its executive officers, which the Compensation Committee believes discourages excessive risk-taking.

Based on the review outlined above, the Company has concluded that the risks arising from its compensation policies and practices for its employees are not reasonably likely to have a material adverse effect on the Company.

(1) Column (d) includes discretionary annual performance bonuses approved by the Compensation Committee for 2014 of \$19,100 to Mr. Childs and \$12,345 to Mr. Steel. Messrs. Atkin, Rich, Thompson, Holt and Kraupp did not receive a discretionary annual performance bonus for 2014. Mr. Holt was awarded a discretionary annual performance bonus of \$80,000 in 2013. No discretionary annual performance bonuses were awarded to the Executives in 2012.

The amounts in column (d) also include the amounts, approved by the Compensation Committee, of discretionary performance unit awards issued in 2015 with respect to 2014, but payable in cash in 2017, subject to forfeiture in the event of termination of employment prior to February 18, 2017. The 2017 cash value of those discretionary performance unit awards for 2014 service were \$392,641 for Mr. Atkin, \$233,375 for Mr. Childs, \$117,895 for Mr. Steel and \$112,050 for Mr. Thompson. Messrs. Rich, Holt and Kraupp did not earn discretionary performance unit awards with respect to 2014.

(2) These columns show the full grant date fair market value of the options granted as computed under ASC Topic 718 and the expense attributable to restricted stock unit awards (excluding estimates for forfeitures in case of awards with service-based vesting). These amounts do not reflect the extent to which the Executive realized an actual financial benefit from the awards. Assumptions and methodologies used in the calculation of these amounts are included in footnotes to the Company's audited financial statements for the year ended December 31, 2014 which are included in the Company's Annual Report on Form 10-K filed with the Securities and Exchange Commission.

(3) The amounts in column (g) reflect the annual performance bonus amounts earned in the year indicated based on performance in that year and, except in the case of Mr. Kraupp, Mr. Steel and Mr. Thompson, paid in the subsequent year. As described in the section entitled "Compensation Discussion and

Edgar Filing: SKYWEST INC - Form DEF 14A

Analysis" above, annual performance bonuses payable to the Executives are calculated based upon the financial performance of the Company or its subsidiaries and also the achievement of individual goals. Assumptions and methodologies used in the calculation of these amounts are included in footnotes to the Company's audited financial statements for the year ended December 31, 2014, which are included in the Company's Annual Report on Form 10-K filed with the Securities and Exchange Commission.
- (3) On February 18, 2014 and May 15, 2014, the Company granted stock options, restricted stock units and performance unit awards payable in cash pursuant to the 2010 Plan and approved the target annual performance bonuses for 2014. Non-Qualified Deferred Compensation for 2014

Pursuant to the SkyWest Deferred Compensation Plan and the ExpressJet Deferred Compensation Plan, covered Executives may elect prior to the beginning of each calendar year to defer the receipt of base salary and annual performance bonuses earned for the ensuing calendar year. Amounts deferred are credited to an unfunded liability account maintained by the Company on behalf of the applicable

Executive, which account is deemed invested in and earns a rate of return based upon certain notational, self-directed investment options offered under the applicable plan.

Each Executive's account under the SkyWest Deferred Compensation Plan and ExpressJet Deferred Compensation Plan, as applicable, is also credited with a discretionary employer contribution monthly, whether or not the Executive contributes. For 2014 that discretionary employer contribution was 15% of the Executive's salary and annual bonus. Participant account balances under the SkyWest and ExpressJet Deferred Compensation Plans are fully vested and will be paid by the Company to each Executive upon retirement or separation from employment, or on other specified dates, in a lump sum form or in installments according to a schedule elected in advance by the Executive.

Table of Contents**Potential Payments upon Termination or Change in Control**

The information below describes and quantifies certain payments or benefits that would be payable under the existing plans and programs of the Company and its subsidiaries if an Executive's employment had terminated on December 31, 2014, or the Company had undergone a change in control on December 31, 2014. These benefits are in addition to benefits generally available to all salaried employees of the Company in connection with a termination of employment, such as distributions from the 401(k) Plans, disability and life insurance benefits, the value of employee-paid group health plan continuation coverage under the Consolidated Omnibus Reconciliation Act, or "COBRA" and accrued vacation pay. Except as noted below, the Executives do not have any other severance benefits, severance agreements or change-in-control agreements.

Accelerated Vesting of Stock Options and Stock Awards Upon Change In Control. Under the Company's long-term incentive plans, all outstanding stock options, restricted stock units and performance units held by an Executive on December 31, 2014, would have become fully vested upon a "change in control" occurring on that date without regard to whether the Executive terminated employment in connection with or following the change in control. The Company's long-term incentive plans generally define a "change in control" as any of the following events: (i) the acquisition by any person of 50% or more of the Company's voting shares, (ii) replacement of a majority of the Company's directors within a two-year period under certain conditions, or (iii) shareholder approval of a merger in which the Company is not the surviving entity, sale of substantially all of the Company's assets or liquidation. All shares of restricted stock previously issued under the Company's 2006 Long-Term Incentive Plan and prior long-term incentive plans became fully vested prior to 2014; accordingly, a change in control of the Company in 2014 would not have accelerated the vesting of such restricted stock.

The following table shows for each Executive the intrinsic value of his unvested stock options, unvested restricted stock units and performance units payable in cash, as of December 31, 2014, that would have been accelerated had a change in control of the Company occurred on that date, calculated in the case of restricted stock units and stock options, by multiplying the number of underlying shares by the closing price of the Common Stock on the last trading day of 2014 (\$13.28 per share) and, in the case of stock options, by then subtracting the applicable option exercise price:

Name	Early Vesting of Stock Options	Early Vesting of Restricted Stock Units	Early Vesting of Performance Units
Jerry C. Atkin	\$ 69,681	\$ 1,007,408	\$ 1,150,495
Russell A. Childs	\$ 36,014	\$ 559,725	\$ 646,573
Wade J. Steel	\$ 19,264	\$ 214,153	\$ 224,944
Bradford R. Rich	\$ 49,645	\$ 604,439	\$ 706,988
Michael B. Thompson	\$ 18,392	\$ 203,051	\$ 213,629
Michael J. Kraupp	\$ 18,638	\$ 220,023	\$ 235,965

If a change in control with respect to the Company results in acceleration of vesting of an Executive's otherwise unvested stock options, unvested restricted stock units or performance unit awards payable in cash, and if the value of such acceleration equals or exceeds three times the Executive's average W-2 compensation with the Company for the five taxable years preceding the year of the change in control (the "Base Period Amount"), the acceleration would result in an excess parachute payment under Code Section 280G. An Executive would be subject to a 20% excise tax on any such parachute payment in excess of the Base Period Amount, and the Company would be unable to deduct the amount of the parachute payment in excess of the Base Period Amount for tax purposes. The Company has not agreed to provide its Executives with any gross-up or reimbursement for excise taxes imposed on excess parachute payments.

Deferred Compensation. If the employment of an Executive were terminated on December 31, 2014, the Executive would have become entitled to receive the balance in his account under the applicable deferred compensation plan. Distribution would be made in the form of a lump sum or in installments, and in accordance with the distributions schedule elected by the Executive under the applicable plan. The 2014 year-end account balances under those plans are shown in column (e) in the applicable Non-qualified Deferred Compensation Tables set forth above. An Executive's account balance would continue to be credited with notational investment earnings or losses through the date of actual distribution.

Review and Approval of Transactions with Related Parties

The Company believes that transactions between the Company and its directors and executive officers, or between the Company and persons related to directors and executive officers of the Company, present a heightened risk of creating or appearing to create a conflict of interest. Accordingly, the Company has adopted a policy regarding related-party transactions that has been approved by the Board and incorporated into the Charter of the Audit and Finance Committee. The policy provides that the Audit and Finance Committee will review all transactions between the Company and related persons (as defined in Item 404 of Regulation S-K promulgated by the Securities and Exchange Commission) for potential conflicts of interest. Under the Company's policy, all transactions between the Company and related persons are required to be submitted to the Audit and Finance Committee for approval prior to the Company's entry or participation in such transactions.

**PROPOSAL 2
ADVISORY VOTE ON EXECUTIVE COMPENSATION**

Background

Section 14A of the Exchange Act, which was enacted pursuant to the Dodd-Frank Wall Street Reform and Consumer Protection Act, requires that the Company provide its shareholders with the opportunity to vote on an advisory (non-binding) resolution to approve the compensation of the Executives (referred to as a "Say-on-Pay" proposal) as disclosed in this Proxy Statement.

Accordingly, the following resolution will be submitted to the Company's shareholders for approval at the Meeting:

"RESOLVED, that the Company's shareholders approve, on an advisory basis, the compensation of the Executives, as disclosed in the Company's Proxy Statement for the 2015 Annual Meeting of Shareholders pursuant to the compensation disclosure rules of the U.S. Securities and Exchange Commission, including the Compensation Discussion and Analysis, the 2014 Executive Compensation table and the other related tables and disclosure."

As described in detail under the heading "Compensation Discussion and Analysis," the Board believes the Company's compensation of the Executives achieves the primary goals of (i) attracting and retaining experienced, well-qualified executives capable of implementing the Company's strategic and operational objectives, (ii) aligning management compensation with the creation of shareholder value on an annual and long-term basis, and (iii) linking a substantial portion of the Executives' compensation with long-term Company performance and the achievement of pre-determined goals, while at the same time avoiding the encouragement of unnecessary or excessive risk-taking. The Board encourages you to review in detail the Compensation Discussion and Analysis beginning on page 24 of this Proxy Statement and the executive compensation tables beginning on page 36 of this Proxy Statement. In light of the information set forth in such sections of this Proxy Statement, the Board believes the compensation of the Executives for the fiscal year ended December 31, 2014 was fair and reasonable and that the Company's compensation programs and practices are in the best interests of the Company and its shareholders.

The vote on this Say-on-Pay resolution is not intended to address any specific element of compensation; rather, the vote relates to all aspects of the compensation of the Executives, as described in this Proxy Statement. While this vote is only advisory in nature, which means that the vote is not binding on the Company, the Board and the Compensation Committee (which is composed solely of independent directors), value the opinion of the Company's shareholders and will consider the outcome of the vote when addressing future compensation arrangements.

We are required under current law to hold this advisory "Say-on-Pay" vote at least once every three years. We have held such an advisory vote at each of our annual meetings of shareholders since 2011 and currently anticipate that we will hold a similar vote on an annual basis until we hold our next shareholder advisory vote on the frequency of future Say-on-Pay votes.

Voting

Approval of the resolution above (on a non-binding, advisory basis) requires that the number of votes cast at the Meeting, in person or by proxy, in favor of the resolution exceeds the number of votes cast in opposition to the resolution.

The Board and the Compensation Committee Recommend that Shareholders Vote *FOR* Approval of the Compensation of the Executives, as disclosed in this Proxy Statement.
