BUSINESS OF ICOWORKS

Overview

Icoworks is engaged in the asset realization business and is a provider of a full and comprehensive range of auction, liquidation and appraisal services to the industrial, oilfield, commercial and office markets.

4

Icoworks' business operations have historically been based in Calgary, Alberta, Canada and have recently been expanded to include a subsidiary operation in Oakville, Ontario, Canada. Icoworks plans to expand its business, both through the expansion of its traditional auction, liquidation and appraisal services and through the acquisition of other businesses engaged in the asset realization business that complement Icoworks' growth strategy. Icoworks also plans to enhance its traditional services by the use of technology, including the use of live internet auctions, online internet auctions and technology-assisted auctions, in order to expand the scope of potential purchasers for its asset realization business and to facilitate auction transactions.

Icoworks provides asset realization services to its customers. These services primarily involve auction liquidation and appraisal services. The Company's plan is to increase the scope of its services to include bought deals and other arrangements where Icoworks would acquire a business interest in the assets being sold in addition to facilitating the sale of assets.

Corporate Background of Icoworks

Icoworks was incorporated as a Nevada corporation on February 27, 1998 under the name "Miracle Living Centers, Inc." The corporate name was changed to "TradeZap, Inc." on December 8, 2000. The corporate name was subsequently changed to "Icoworks, Inc." on May 6, 2002 to reflect its current business operations.

Icoworks acquired all the issued and outstanding common shares of Bill Wigley Auction Services Ltd. effective December 1, 2001 from Bill Wigley and his spouse. Bill Wigley Auction Services Ltd. was subsequently renamed Icoworks Services Ltd. ("Icoworks Services"). Icoworks Services is an Alberta corporation incorporated on January 30, 1987. Icoworks Services has been in the business of providing auction liquidation appraisal services to the industrial, oilfield, commercial and office markets in Calgary, Alberta, Canada since 1987.

Edgar Filing: PARAGON POLARIS STRATEGIES COM INC - Form 8-K

Icoworks Services is the primary operating subsidiary of Icoworks in Canada. Icoworks Services entered into a three year employment agreement with Mr. Bill Wigley on the closing of the acquisition.

Auction Services

Icoworks is primarily involved in the auction business. Icoworks conducts auctions on behalf of its customers who desire or are required to sell assets. The range of asset disposition services that Icoworks offers in connection with its auction services includes the following:

- (a) Sales of industrial and commercial assets in commercial and industrial bankruptcies on behalf of receiver managers and trustees;
- (b) Sales of assets seized by sheriffs;
- (c) Sales of assets repossessed by creditors under security agreements;
- (d) Managed asset removal and settlement transactions;
- (e) Private treaty sales for companies;
- (f) Sales of assets for consignors.

Valuations And Appraisals

Icoworks provides valuations and appraisals in connection with its auction and liquidation services. The appraisal and evaluation process is an important step in attracting equipment for an auction or liquidation. Most appraisals commence when Icoworks personnel visit the location of the prospective customer's equipment. Appraisals tend to be directed towards entire plants and equipment spreads available because of a bankruptcy, foreclosure, divestiture, abandonment or relocation process. Appraisals of individual or smaller groupings of equipment are usually performed for inclusion in a larger auction. In completing the appraisal process, Icoworks describes each item to be appraised in a standard format.

5

The equipment description includes information such as year of manufacture, manufacturer, model, serial number, attachments and condition, including references to refurbishing work required to make each item ready for sale. Photographs are taken of as many of the items as practical. Icoworks appraisers then assign values to each item of equipment. Once this initial process is completed, Icoworks appraisers and management consult to arrive at a final valuation for the prospective customer.

In addition to valuations and appraisals in connection with auctions, Icoworks consults with financial institutions, public and privately held corporations, and creditor groups to provide valuations on both a fee for services basis and as a basis for custom proposals for prospective customers. Members of Icoworks have consulted as expert witnesses in judicial proceedings relating to the valuation of assets.

Liquidations

Icoworks conducts retail-style liquidations for various clients on either a fee for service or commission basis. Customers are typically receiver managers, trustees in bankruptcy or private customers in the process of liquidating assets.

Edgar Filing: PARAGON POLARIS STRATEGIES COM INC - Form 8-K

Icoworks' Specific Industry Experience

Icoworks' focus is on asset realization of industrial and commercial equipment. Icoworks has developed specific industry experience in the industrial, oilfield, commercial, mining, forestry, construction and liquidation areas

Icoworks' Operations

Icoworks typically conducts auctions from its own facilities. Icoworks has a 24,000 square foot facility in Calgary, Alberta, which has historically been the center of the Company's business operations. Icoworks recently opened a 12,000 square foot office, warehouse and auction arena in Oakville, Ontario to handle increased demand perceived by Icoworks for Ontario based auctions.

Icoworks will also carry out auctions on-site. On-site auctions are typically carried out for liquidation of operating plant and facilities auctions where the assets to be auctioned off are not mobile.

Icoworks' services are designed to provide for the maximum net recovery on assets sold to its customers. Icoworks provides full services from an initial review and evaluation through to the final disposal of assets. In completing auctions, Icoworks prepares asset listings which provide detailed appraisals based on the in-depth market knowledge of Icoworks staff.

Icoworks Business Strategy and Plan of Operations

The Company's business strategy is to continue to expand the asset realization business of Icoworks with the objective of increasing revenues and profitability. Icoworks' strategies to achieve this business plan are as follows:

1. Icoworks intends to target and acquire regional auction businesses that are currently engaged in traditional industrial and commercial auction and liquidation services. The objective of this strategy is to expand the geographic scope of Icoworks' business, to expand its customer base and to expand the scope of the prospective bidders for items sold by Icoworks. By pursuing this strategy, Icoworks plans to be able to market to a broader base of customers on the basis that Icoworks' geographic influence and its database of prospective bidders will result in customers achieving higher prices for items to be sold.
2. Icoworks plans to continue to integrate technology into its traditional auction business. Icoworks will focus its efforts on using technology to supplement its existing traditional auction business services, rather than attempting to shift traditional auctions into an online format. Icoworks plans to continue the use of live internet auctions using the BidSpotter or competing technology. Icoworks also plans to pursue online auctions through its e-Bay store. Icoworks will also

6

consider conducting live online auctions that are accessible to users through its corporate website.

3. Icoworks plans to pursue creative financing strategies for financing and selling bought deals. Bought deals involve purchase of a group of assets from the seller at a discount to the anticipated selling price. The

Edgar Filing: PARAGON POLARIS STRATEGIES COM INC - Form 8-K

advantage of this arrangement to a seller is that the seller would be able to achieve immediate proceeds from the sale at a guaranteed amount rather than waiting for the completion of the auction process and being at risk to lower than anticipated sales price at the auction. The risk to Icoworks as a purchaser is that it would not be able to sell the assets at the price paid to the seller. In order to be able to participate in such ventures at a lower risk, Icoworks plans to evaluate the financing transactions, including limited partnerships whereby Icoworks and other venture partners would fund the purchase price for a block of assets and share the risk associated with the sale of the assets on the market. This business strategy would offer greater potential returns for Icoworks, but at potentially greater risks than in its traditional auction and liquidation business where assets are sold on a fixed commission basis.

The implementation of this business plan will require additional financial resources that are in excess of the current financial resources of either the Company or Icoworks. The Company plans to pursue equity financings involving sales of its common stock or convertible preferred stock in order to raise financing to fund the business plan of Icoworks and to fund its ongoing capital requirements. It is contemplated that funds would be advanced by the Company as a loan pending the completion of the merger with Icoworks. There is no assurance that the Company will be successful in raising the necessary financing to pursue the stated plan of operations.

The business of the Company and Icoworks are subject to substantial risks. These risks include the risks described in Exhibit 99.1 to this Current Report on Form 8-K. Investors are encouraged to read these risk factors prior to investing in the Company's common stock.
