PART I

ITEM I. BUSINESS

(All dollar amounts in this report are in thousands, except per square foot data).

GENERAL

Village Super Market, Inc. (the “Company” or “Village”) was founded in 1937. At July 25, 2009, Village operated a chain of twenty-six ShopRite supermarkets, seventeen of which are located in northern New Jersey, one in northeastern Pennsylvania and eight in southern New Jersey. The Company is a member of Wakefern Food Corporation (“Wakefern”), the nation's largest retailer-owned food cooperative and owner of the ShopRite name. This relationship provides Village many of the economies of scale in purchasing, distribution, private label products, advanced retail technology and advertising associated with chains of greater size and geographic coverage.

Village seeks to generate high sales volume by offering a wide variety of high quality products at consistently low prices. During fiscal 2009, sales per store were \$47,376 and sales per selling square foot were \$1,070. The Company gives ongoing attention to the décor and format of its stores and tailors each store's product mix to the preferences of the local community. Village concentrates on the development of superstores.

Village opened a new 67,600 sq. ft. store in Marmora, New Jersey on May 31, 2009. On August 11, 2007, Village acquired the store fixtures and lease of a location in Galloway Township, New Jersey from Wakefern for \$3,500. This store had previously been operated by a competitor. The Company began operating a pharmacy at this location on August 11, 2007. The remainder of this 55,000 sq. ft. store opened on October 3, 2007 after the completion of an extensive remodel. Village opened a new 67,000 sq. ft. store in Franklin, New Jersey on November 7, 2007. Below is a summary of the range of store sizes at July 25, 2009:

Total Square Feet	Number of Stores
Greater than 60,000	11
50,001 to 60,000	6
40,000 to 50,000	7
Less than 40,000	2
Total	26

These larger store sizes enable the Company’s superstores to provide a “one-stop” shopping experience and to feature expanded higher margin specialty departments such as home meal replacement, an on-site bakery, an expanded delicatessen including prepared foods, a variety of natural and organic foods, ethnic and international foods and a fresh seafood section. Superstores also offer an expanded selection of non-food items such as cut flowers, health and beauty aids, greeting cards, small appliances, photo processing and in most cases, a pharmacy. Recently remodeled and new superstores emphasize a Power Alley, which features high margin, fresh convenience offerings such as salad bars, bakery and Bistro Street home meal replacement in an area within the store that provides quick customer entry

and exit for those customers shopping for today's lunch or dinner. The following table shows the percentage of the Company's sales allocable to various product categories during each of the periods indicated, as well as the number of superstores and percentage of selling square feet allocable to these stores during each of these periods:

Product Categories	Fiscal Year Ended In July		
	2009	2008	2007
Groceries	38.6%	38.5%	38.6%
Dairy and Frozen	17.3	17.2	16.5
Meats	10.2	10.0	10.0
Non-Foods	8.1	8.5	8.8
Produce	11.5	11.4	11.5
Appetizers and prepared food	5.4	5.5	5.4
Seafood	2.4	2.3	2.3
Pharmacy	4.6	4.8	5.1
Bakery	1.9	1.8	1.8
Other	-----	-----	-----
	100.0%	100.0%	100.0%
Number of superstores	24	23	21
Selling square feet represented by superstores	96%	95%	95%

A variety of factors affect the profitability of each of the Company's stores, including local competitors, size, access and parking, lease terms, management supervision, and the strength of the ShopRite trademark in the local community. Village continually evaluates individual stores to determine if they should be closed.

DEVELOPMENT AND EXPANSION

The Company has an ongoing program to upgrade and expand its supermarket chain. This program has included major store remodelings as well as the opening or acquisition of additional stores. When remodeling, Village has sought, whenever possible, to increase the amount of selling space in its stores.

Village has budgeted approximately \$17 million for capital expenditure in fiscal 2010. Planned expenditures include the completion of construction and equipment for the replacement store in Washington, NJ and several smaller remodels. On April 22, 2009, a Court formally invalidated the developer's approval for our Washington replacement store. In September 2009, the Planning Board began consideration of the revised Washington site plan. The Company anticipates approval of the revised site plan by the end of November 2009. The Company's investment in construction and equipment is \$10,452 at July 25, 2009. If the developer is unsuccessful in obtaining the required approvals, the Company may record an impairment charge for this investment, which could be material to the Company's consolidated financial position and results of operations.

In fiscal 2009, Village completed construction of a new store in Marmora, NJ which opened May 31, 2009, and began construction of the replacement store in Washington.

In fiscal 2008, Village completed the construction of the Franklin store, which opened on November 7, 2007, and acquired and remodeled a store in Galloway, New Jersey, which opened on October 3, 2007.

In fiscal 2007, Village completed the Rio Grande remodel and several small remodels, and began the construction of a leased store in Franklin, New Jersey. In fiscal 2006, the Company completed the expansion and remodel of the Springfield store, began a major remodel of the Rio Grande store, and completed smaller remodels of the Elizabeth and Chester stores.

In fiscal 2005, the Company opened an 80,000 square foot replacement store in Somers Point, completed an expansion and remodel of the Bernardsville store, and began the expansion and remodel of the Springfield store.

The general difficulty in developing retail properties in the Company's primary trading area has prevented the Company from opening the desired number of new stores. Additional store remodelings and sites for new stores are in various stages of development. Village will also consider additional acquisitions should appropriate opportunities arise.

WAKEFERN FOOD CORPORATION

The Company is the second largest member of Wakefern and owns 14.7% of Wakefern's outstanding stock as of July 25, 2009. Wakefern, which was organized in 1946, is the nation's largest retailer-owned food cooperative. Wakefern and its 44 shareholder members operate 258 supermarkets and other retail formats, including 67 stores operated by Wakefern. Only Wakefern and its members are entitled to use the ShopRite name and trademark, and to participate in ShopRite advertising and promotional programs.

The principal benefits to the Company from its relationship with Wakefern are the use of the ShopRite name and trademark, volume purchasing, ShopRite private label products, distribution and warehousing economies of scale, ShopRite advertising and promotional programs, including the ShopRite Price Plus card and a co-branded credit card, and the development of advanced retail technology. The Company believes that the ShopRite name is widely recognized by its customers and is a factor in their decisions about where to shop. ShopRite private label products accounted for approximately 14.5% of sales in fiscal 2009.

Wakefern distributes as a "patronage dividend" to each of its stockholders a share of its earnings in proportion to the dollar volume of purchases by the stockholder from Wakefern during each fiscal year.

While Wakefern has a substantial professional staff, it operates as a member owned cooperative. Executives of most members make contributions of time to the business of Wakefern. Senior executives of the Company spend a significant amount of their time working on various Wakefern committees, which oversee and direct Wakefern purchasing, merchandising and other programs. James Sumas, the Company's Chief Executive Officer, is Vice Chairman of Wakefern, and a member of the Wakefern Board of Directors.

Most of the Company's advertising is developed and placed by Wakefern's professional advertising staff. Wakefern is responsible for all television, radio and major newspaper advertisements. Wakefern bills its members using various formulas which allocate advertising costs in accordance with the estimated proportional benefits to each member from such advertising. The Company also places Wakefern developed materials with local newspapers. In addition, Wakefern and its affiliates provide the Company with other services including liability and property insurance, supplies, equipment purchasing, coupon processing, certain financial accounting applications, and retail technology support.

Wakefern operates warehouses and distribution facilities in Elizabeth, Keasbey, Dayton, Edison and Jamesburg, New Jersey and Gouldsboro and Breinigsville, Pennsylvania. The Company and all other members of Wakefern are parties to the Wakefern Stockholder's Agreement which provides for certain commitments by, and restrictions on, all shareholders of Wakefern. This agreement extends until ten years from the date that stockholders representing 75% of Wakefern sales notify Wakefern that those stockholders request the Wakefern Stockholder Agreement be terminated. Each member is obligated to purchase from Wakefern a minimum of 85% of its requirements for products offered by Wakefern. If this purchase obligation is not met, the member is required to pay Wakefern's profit contribution shortfall attributable to this failure. The Company fulfilled this obligation in fiscal 2009, 2008 and 2007. This agreement also requires that in the event of unapproved changes in control of the Company or a sale of the Company or of individual Company stores, except to a qualified successor, the Company in such cases must pay Wakefern an amount equal to the annual profit contribution shortfall attributable to the sale of store or change in control. No payments are required if the volume lost by a shareholder as a result of the sale of a store is replaced by such shareholder by increased volume in existing or new stores. A "qualified successor" must be, or agree to become, a member of Wakefern, and may not own or operate any supermarkets, other than ShopRite supermarkets, in the states of New York, New Jersey, Pennsylvania, Delaware, Maryland, Virginia, Connecticut, Massachusetts, Rhode Island, Vermont, New Hampshire, Maine or the District of Columbia or own or operate more than twenty-five non-ShopRite supermarkets in any other locations in the United States.

Wakefern, under circumstances specified in its bylaws, may refuse to sell merchandise to, and may repurchase the Wakefern stock of, any member. Such circumstances include certain unapproved transfers by a member of its supermarket business or its capital stock in Wakefern, unapproved acquisition by a member of certain supermarket or grocery wholesale supply businesses, the material breach by a member of any provision of the bylaws of Wakefern or any agreement with Wakefern, or a determination by Wakefern that the continued supplying of merchandise or services to such member would adversely affect Wakefern.

Any material change in Wakefern's method of operation or a termination or material modification of the Company's relationship with Wakefern following termination of the above agreements, or otherwise, might have an adverse impact on the conduct of the Company's business and could involve additional expense for the Company. The failure of any Wakefern member to fulfill its obligations under these agreements or a member's insolvency or withdrawal from Wakefern could result in increased costs to remaining members.

Wakefern does not prescribe geographical franchise areas to its members. The specific locations at which the Company, other members of Wakefern, or Wakefern itself, may open new units under the ShopRite name are, however, subject to the approval of Wakefern's Site Development Committee. This committee is composed of persons who are not employees or members of Wakefern. Committee decisions to deny a site application may be appealed to the Wakefern Board of Directors. Wakefern assists its members in their site selection by providing appropriate demographic data, volume projections and estimates of the impact of the proposed store on existing member supermarkets in the area.

Each of Wakefern's members is required to make capital contributions to Wakefern based on the number of stores operated by that member and the purchases generated by those stores. As additional stores are opened or acquired by a member, additional capital must be contributed by it to Wakefern. The Company's investment in Wakefern and affiliates was \$19,673 at July 25, 2009. The total amount of debt outstanding from all capital pledges to Wakefern is \$2,098 at July 25, 2009. The maximum per store capital contribution increased from \$700 to \$725 in fiscal 2009, resulting in an additional \$550 capital pledge, which was paid in fiscal 2009.

As required by the Wakefern bylaws, the Company's investment in Wakefern is pledged to Wakefern to secure the Company's obligation to Wakefern. In addition, four members of the Sumas family have guaranteed the Company's obligations to Wakefern. These personal guarantees are required of any 5% shareholder of the Company who is active in the operation of the Company. Wakefern does not own any securities of the Company or its subsidiaries. The Company's investment in Wakefern entitles the Company to enough votes to elect one member to the Wakefern Board of Directors due to cumulative voting rights.

TECHNOLOGY

The Company considers automation and information technology important to its operations and competitive position. Village began replacing its point of sale systems in fiscal 2009 to improve the checkout experience and reduce training costs. Electronic payment options are offered at all checkout locations. We recently upgraded our communication network, which is used for reliable, high speed processing of electronic payments and transmission of data.

The Company's commitment to advanced point of sale and communication systems enables it to participate in Price Plus, ShopRite's preferred customer program. Customers receive electronic discounts by presenting a scannable Price Plus card. This technology also enables Village to offer continuity programs and focus on target marketing initiatives.

The Company began installing self-checkout systems in fiscal 2002. Currently, sixteen stores use these systems to provide improved customer service, especially during peak periods, and reduce operating costs. Additional locations are planned for fiscal 2010. In fiscal 2007, we installed RFID readers in all checkout lanes to enable contactless payment options for customers to quicken checkout times.

Village utilizes a computer generated ordering system, which is designed to reduce inventory levels and out of stock conditions, enhance shelf space utilization, and reduce labor costs. The Company utilizes a direct store delivery system, consisting of personal computers and advanced hand held scanners, for product not purchased through Wakefern to provide equivalent cost and retail price control over these products. In fiscal 2007, both of these systems were replaced with upgraded versions.

Village seeks to design its stores to use energy efficiently, including recycling waste heat generated by refrigeration equipment for heating and other purposes. Most stores utilize computerized energy management systems. Certain in-store department records are computerized, including the records of all pharmacy departments. In all stores, meat, seafood, delicatessen, and bakery prices are maintained on computer for automatic weighing and pricing.

The Company has installed computer based training systems in all stores to assist in the training of all new cashiers, produce and bakery associates. Village replaced the time and attendance system and labor scheduling system in fiscal 2006 to improve reporting, work flow and system interfaces, and reduce labor.

Village utilizes digital surveillance systems, which are integrated with the cashier monitoring systems, in all stores to aid shrink reduction, increase productivity and assist in accident investigations.

The Company utilizes a division of Wakefern for data processing services, including financial accounting support.

Wakefern and Village have responded to customers increased use of the internet by creating shoprite.com to provide weekly advertising and other shopping information. In addition, on-line shopping is available in five store locations with store pick-up and delivery options.

COMPETITION

The supermarket industry is highly competitive and characterized by narrow profit margins. The Company competes directly with multiple retail formats, including national, regional and local supermarket chains as well as warehouse clubs, supercenters, drug stores, discount general merchandise stores, fast food chains, dollar stores and convenience stores. Village competes by using low pricing, superior customer service, and a broad range of consistently available quality products, including ShopRite private labeled products. The ShopRite Price Plus card and the co-branded ShopRite credit card also strengthen customer loyalty.

Some of the Company's principal competitors include Pathmark, A&P, Stop & Shop, Acme, Kings, Wal-Mart, Wegmans and Foodtown. Some of these competitors have financial resources substantially greater than those of the Company, and some are non-union.

LABOR

As of October 1, 2009, the Company employed approximately 5,050 persons with approximately 72% working part-time. Approximately 92% of the Company's employees are covered by collective bargaining agreements. Contracts with the Company's six unions expire between August 2010 and March 2012. Most of the Company's competitors in New Jersey are similarly unionized.

AVAILABLE INFORMATION

As a member of the Wakefern cooperative, Village relies upon our customer focused website, www.shoprite.com, for interaction with customers and prospective employees. This website is maintained by Wakefern for the benefit of all ShopRite supermarkets, and therefore, does not contain any financial information related to the Company.

The Company will provide paper copies of the annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and press releases free of charge upon request to any shareholder. In addition, electronic copies of these filings can be obtained at www.sec.gov.

REGULATORY ENVIRONMENT

The Company's business requires various licenses and the registration of facilities with state and federal health and drug regulatory agencies. These licenses and registration requirements obligate the Company to observe certain rules and regulations, and a violation of these rules and regulations could result in a suspension or revocation of licenses or registrations. In addition, most licenses require periodic renewals. The Company has not experienced material difficulties with respect to obtaining or retaining licenses and registrations. In addition, the Company is subject to the requirements of the Sarbanes-Oxley Act of 2002.

ITEM 1A. RISK FACTORS

COMPETITIVE ENVIRONMENT

The supermarket business is highly competitive and characterized by narrow profit margins. Results of operations may be materially adversely impacted by competitive pricing and promotional programs, industry consolidation and competitor store openings. Village competes with national and regional supermarkets, local supermarkets, warehouse club stores, supercenters, drug stores, convenience stores, dollar stores, discount merchandisers, restaurants and other local retailers. Competition with these outlets is based on price, store location, promotion, product assortment, quality and service. Some of these competitors have greater financial resources, lower merchandise acquisition cost and lower operating expenses than we do.

GEOGRAPHIC CONCENTRATION

The Company's stores are concentrated in New Jersey, with one store in northeastern Pennsylvania. We are vulnerable to economic downturns in New Jersey in addition to those that may affect the country as a whole. Economic conditions such as inflation, interest rates, energy costs and unemployment rates may adversely affect our sales and profits. Further, since our store base is concentrated in densely populated metropolitan areas, opportunities for future store expansion may be limited, which may adversely affect our business and results of operations.

WAKEFERN RELATIONSHIP

Village purchases substantially all of its merchandise from Wakefern. In addition, Wakefern provides the Company with support services in numerous areas including supplies, advertising, liability and property insurance, technology support and other store services. Further, Village receives patronage dividends and other product incentives from Wakefern.

Any material change in Wakefern's method of operation or a termination or material modification of Village's relationship with Wakefern could have an adverse impact on the conduct of the Company's business and could involve additional expense for Village. The failure of any Wakefern member to fulfill its obligations to Wakefern or a member's insolvency or withdrawal from Wakefern could result in increased costs to the Company. Additionally, an adverse change in Wakefern's results of operations could have an adverse affect on Village's results of operations.

LABOR RELATIONS

A significant majority of our employees are covered by collective bargaining agreements with unions, and our relationship with those unions, including any work stoppages, could have an adverse impact on our financial results.

In future negotiations with labor unions, we expect that rising health care and pension costs, among other issues, will continue to be important topics for negotiation. Upon the expiration of our collective bargaining agreements, work stoppages by the affected workers could occur if we are unable to negotiate acceptable contracts with labor unions. This could significantly disrupt our operations. Further, if we are unable to control health care and pension costs provided for in the collective bargaining agreement, we may experience increased operating costs and an adverse impact on future results of operations.

FOOD SAFETY

The Company could be adversely affected if consumers lose confidence in the safety and quality of the food supply chain. Adverse publicity about these types of concerns, whether or not valid, could discourage consumers from buying our products. The real or perceived sale of contaminated food products by us could result in a loss of consumer confidence and product liability claims, which could have a material adverse effect on our sales and operations.

MULTI-EMPLOYER PENSION PLANS

The Company is required to make contributions to multi-employer pension plans in amounts established under collective bargaining agreements. Pension expense for these plans is recognized as contributions are funded. Benefits generally are based on a fixed amount for each year of service. Based on the most recent information available to us, we believe a number of these multi-employer plans are underfunded. As a result, we expect that contributions to these plans may increase. Additionally, the benefit levels and related items will be issues in the negotiation of our collective bargaining agreements. Under current law, an employer that withdraws or partially withdraws from a multi-employer pension plan may incur withdrawal liability to the plan, which represents the portion of the plan's underfunding that is allocable to the withdrawing employer under very complex actuarial and allocation rules. The failure of a withdrawing employer to fund these obligations can impact remaining employers. The amount of any increase or decrease in our required contributions to these multi-employer pension plans will depend upon the outcome of collective bargaining, actions taken by trustees who manage the plans, government regulations and the actual return on assets held in the plans, among other factors.

WASHINGTON CONSTRUCTION

On April 22, 2009, a Court formally invalidated the developer's approval for our Washington replacement store. In September 2009, the Planning Board began consideration of the revised Washington site plan. The Company anticipates approval of the revised site plan by the end of November 2009. The Company's investment in construction and equipment is \$10,452 at July 25, 2009. If the developer is unsuccessful in obtaining the required approvals, the Company may record an impairment charge for this investment, which could be material to the Company's consolidated financial position and results of operations.

FINANCIAL ENVIRONMENT

We maintain significant amounts of cash and cash equivalents at financial institutions that are in excess of federally insured limits. Given the current instability of financial institutions, we cannot be assured that we will not experience losses on these deposits, which could have a material adverse impact on our financial position and results of operations.

TAXES

The Company's effective tax rate may be impacted by the results of tax examinations and changes in tax laws.

ITEM 1B. UNRESOLVED STAFF COMMENTS

Not applicable.

ITEM 2. PROPERTIES

As of July 25, 2009, Village owns the sites of five of its supermarkets (containing 335,000 square feet of total space), all of which are freestanding stores, except the Egg Harbor store, which is part of a shopping center. The remaining twenty one supermarkets (containing 1,127,000 square feet of total space) and the corporate headquarters are leased, with initial lease terms generally ranging from twenty to thirty years, usually with renewal options. Twelve of these leased stores are located in shopping centers and the remaining nine are freestanding stores. In addition to the above, on July 30, 2009 the Company purchased the land and building of the current Washington store (see Legal Proceedings).

The annual rent, including capitalized leases, for all of the Company's leased facilities for the year ended July 25, 2009 was approximately \$12,667.

Village is a limited partner in three partnerships, one of which owns a shopping center in which one of our leased stores is located. The Company is also a general partner in a partnership that is a lessor of one of the Company's freestanding stores.

ITEM 3. LEGAL PROCEEDINGS

The Company, in the ordinary course of business, is involved in various legal proceedings. Village does not believe the outcome of these proceedings will have a material adverse effect on the Company's consolidated financial condition, results of operations or liquidity. The Company's leasehold interest in the current Washington store had been the subject of litigation related to the lease-end date, rent amounts and other matters. On July 30, 2009, the Company settled all litigation with the landlord and purchased the land and building for \$3,100. During the fourth quarter of fiscal 2009, the Company recorded a pre-tax charge of \$1,200 related to this litigation. This charge was based on the consideration paid in excess of the fair value of the property. In addition to settling the litigation, the purchase of the current Washington store property eliminated any potential time period between the closing of the current Washington store and the opening of the planned replacement store.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

No matters submitted to shareholders in the fourth quarter.

PART II

ITEM 5. MARKET FOR THE REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9A. CONTROLS AND PROCEDURES

As required by Rule 13a-15 of the Exchange Act, the Company carried out an evaluation of the effectiveness of the design and operation of the Company's disclosure controls and procedures at the end of the period covered by this report. This evaluation was carried out under the supervision, and with the participation, of the Company's management, including the Company's Chief Executive Officer along with the Company's Chief Financial Officer. Based upon that evaluation, the Company's Chief Executive Officer, along with the Company's Chief Financial Officer, concluded that the Company's disclosure controls and procedures are effective. There have been no changes in internal controls over financial reporting during the fourth quarter of fiscal 2009 that have materially, or are reasonably likely to materially effect, the Company's internal control over financial reporting.

Disclosure controls and procedures are controls and other procedures that are designed to ensure that information required to be disclosed in Company reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in Company reports filed under the Exchange Act is accumulated and communicated to management, including the Company's Chief Executive Officer and Chief Financial Officer as appropriate, to allow timely decisions regarding required disclosure.

Management's Report on Internal Control over Financial Reporting and the Report of Independent Registered Public Accounting Firm are incorporated by reference from information appearing on page 30 in the Company's Annual Report to Shareholders for the fiscal year ended July 25, 2009.
