Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers. At January 31, 2005, these securities amounted to \$89,946,858 or 36.22% of net assets.

+ Step Bond The interest stated is as of January 31, 2005 and will reset at a future date.

Ø Bond in default.

\* Non-income producing security.

^ Not readily marketable; security is valued at fair value as determined in good faith by, or under the direction of, the Board of Trustees.

§ Security or portion thereof is out on loan.

§§ Represents security purchased with cash collateral received for securities on loan.

# Variable rate obligations The interest rate shown is the rate as of January 31, 2005.

**Portfolio valuation:** Fixed-income securities (other than short-term obligations, but including listed issues) are valued based on prices obtained by one or more independent pricing services approved by the Board of Trustees. Pricing services use a matrix, formula or other objective method that takes into consideration market indices, yield curves and other specific adjustments.

Securities (other than fixed-income securities) for which the principal market is one or more securities exchanges are valued at market value, which is generally determined using the closing price on the exchange or market on which the security is primarily traded. If a securities exchange is not the principal market for a security, such security will, if market quotations are readily available, be valued at the closing bid price in the over-the-counter market (or the last sale price in the case of securities reported on the NASDAQ national market system for which any sales occurred during the day). Securities and other assets for which market quotations are not readily available are valued at fair value as determined in good faith by, or under the direction of, the Board of Trustees under procedures established by the Board of Trustees. Debt obligations that will mature in 60 days or less are valued on the basis of amortized cost, which approximates market value, unless it is determined that using this method would not reflect an investment's fair value.

Federal Income Tax Cost - At January 31, 2005, the identified cost for federal income tax purposes, as well as the gross unrealized appreciation from investments for those securities having an excess of value over cost, gross unrealized depreciation from investments for those securities having an excess of cost over value and the net unrealized appreciation from investments were \$452,298,926, \$21,997,375, \$(13,627,373), \$8,370,002, respectively.

Other information regarding the Fund is available in the Fund's most recent Report to Shareholders. This information is also available on the Fund's website at <http://www.csam.com/us> as well as on the website of the Securities and Exchange Commission <http://www.sec.gov>.

**Item 2: Controls and Procedures**

(a) As of a date within 90 days from the filing date of this report, the principal executive officer and principal financial officer concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940 (the "Act")), were effective based on their evaluation of the disclosure controls and procedures required by Rule 30a-3(b) under the Act and Rules 13a-15(b) or 15d-15(b) under the Securities and Exchange Act of 1934.

(b) There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the Act) that occurred during the registrant's last fiscal quarter that have materially affected, or are reasonably likely to materially affect, the registrant's internal control over financial reporting.

**Item 3: Exhibits**

1. The certifications of the registrant as required by Rule 30a-2(a) under the Act are exhibits to this report.
