ILLUSTRATIVE SETTLEMENT TABLE

Edgar Filing: BEAR STEARNS COMPANIES INC - Form FWP

The following is an illustrative table demonstrating the hypothetical Cash Settlement Value at maturity based on the assumptions outlined below. These examples do not purport to be representative of every possible scenario concerning increases or decreases in the value of the Basket or of the movements that are likely to occur with respect to the Components. You should not construe these examples or the data included in the tables as an indication of the expected performance of the Notes. Some amounts are rounded and actual returns may be different.

Assumptions:

Edgar Filing: BEAR STEARNS COMPANIES INC - Form FWP

Investor purchases \$1,000 principal amount of Notes at the initial offering price of \$1,000.

Investor does not sell the Notes and holds the Notes to maturity.

All returns are based on a 18-month term; pre-tax basis.

No Market Disruption Events or Events of Default occur during the term of the Notes.

Assumed maximum return is 26.5%

SELECTED RISK CONSIDERATIONS

The following highlights some, but not all, of the risk considerations relevant to investing in the Notes. **The following must be read in conjunction with the sections Risk Factors beginning on pages S-3 and PS-[11], respectively, in the Prospectus Supplement and Pricing Supplement. Defined terms not defined herein shall have the same meaning as in the Prospectus Supplement and Pricing Supplement.**

Suitability of Notes for Investment A person should reach a decision to invest in the Notes after carefully considering, with his or her advisors, the suitability of the Notes in light of his or her investment objectives and the information set out in the Pricing Supplement. Neither the Issuer nor any dealer participating in the offering makes any recommendation as to the suitability of the Notes for investment.

Not Principal Protected The Notes are not principal protected. If the Final Basket Level is less than the Initial Basket Level, there will be no principal protection on the Notes and the Cash Settlement Value you will receive will be less than the initial offering price in proportion to the percentage decline in the Basket. In that case, you will receive less, and possibly significantly less, than the initial public offering price of \$1,000.

Maximum return of [25% - 28%] You will not receive more than the maximum return of [25% - 28%] at maturity. Because the maximum return on the Notes is [25% - 28%], the maximum Cash Settlement Value is [25% - 28%]. Therefore, the Cash Settlement Value will not reflect the increase in the value of the Notes if the Initial Basket Level increases by more than [12.5 - 14]%.

Secondary Market Because the Notes will not be listed on any securities exchange, a secondary trading market is not expected to develop; and, if such a market were to develop, it may not be liquid. Bear, Stearns & Co. Inc. intends under ordinary market conditions to indicate prices for the Notes on request. However, there can be no guarantee that bids for outstanding Notes will be made in the future; nor can the prices of any such bids be predicted.

No interest, dividend or other payments You will not receive any interest, dividend payments or other distributions on the stocks underlying the Basket; nor will such payments be included in the calculation of the Cash Settlement Value you will receive at maturity.

Taxes The U.S. federal income tax consequences of an investment in the Notes are complex and uncertain. We intend to treat the Notes for all tax purposes as pre-paid cash-settled executory contracts linked to the value of the Basket and, where required, to file information returns with the Internal Revenue Service in accordance with such treatment. Prospective investors are urged to consult their tax advisors regarding the U.S. federal income tax consequences of an investment in the Notes. Assuming the Notes are treated as pre-paid cash-settled executory contracts, you should be required to recognize capital gain or loss to the extent that the cash you receive on the Maturity Date or upon a sale or exchange of the Notes prior to the Maturity Date differs from your tax basis on the Notes (which will generally be the amount you paid for the Notes).

Losses in one Component could eliminate or reduce gains in other Components The Components may not move in tandem and increases in one or more Components may be offset by decreases in one or more other

Components.

Potential Disruptions in the International Markets The Components include securities issued by international companies. The international securities markets may be affected by market disruptions that could cause the prices and performance of the securities underlying the Components to be adversely affected and affect the calculations of the Component Levels.
