**Item 8.01. Other Events**

On March 16, 2007, Mothers Work, Inc. (the Company) agreed with Bank of America, N.A. (the Counterparty), subject to customary legal documentation to follow, to the economic terms of an interest rate swap agreement in order to mitigate the Company's floating rate interest risk on the variable rate borrowings under its \$90 million Term Loan and Security Agreement entered into on March 13, 2007 (the Term Loan). The proceeds of the Term Loan will be used to redeem the remaining \$90 million principal amount of the Company's 11¼% Senior Notes due August 1, 2010 (the Senior Notes) on April 18, 2007. The interest rate swap commences on April 18, 2007, which is the same day as the expected draw date of the \$90 million Term Loan, and expires on April 18, 2012. The interest rate swap agreement enables the Company to effectively convert an amount of the Term Loan equal to the Notional Amount of the interest rate swap per the schedule below, from a floating interest rate of LIBOR plus 2.50% (subject to reduction to LIBOR plus 2.25% if the Company achieves a specified leverage ratio), to a fixed interest rate of 7.50% (subject to reduction to 7.25% if the Company achieves a specified leverage ratio). The Counterparty is one of the lenders under the Term Loan.

The interest rate swap agreement will require the Company to make quarterly fixed rate payments to the Counterparty on the applicable End Date (per the schedule below) calculated on the Notional Amount (per the schedule below) multiplied by a fixed rate of 5.00% per annum, while the Counterparty will be obligated to make quarterly floating rate payments to the Company based on the three-month LIBOR rate as of two business days prior to the applicable Start Date (per the schedule below) on the same referenced Notional Amount. Notwithstanding the terms of the interest rate swap transaction, the Company is ultimately obligated for all amounts due and payable under the Term Loan.
