SI International, Inc. and Subsidiaries

Notes to consolidated financial statements

(Unaudited)

1. Basis of Presentation

The accompanying unaudited consolidated financial statements of SI International, Inc. and its subsidiaries have been prepared in accordance with U.S. generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the quarter ended June 28, 2008 are not necessarily indicative of the results that may be expected for the year ending December 27, 2008. For further information, refer to the financial statements and footnotes included in SI International's Annual Report on Form 10-K for the year ended December 29, 2007. References to the Company, we, us and our refer to SI International, Inc. and its subsidiaries.

2. Summary of significant accounting policies:

Principles of consolidation

The accompanying consolidated financial statements include the accounts of SI International, Inc. and its wholly-owned subsidiaries. All significant intercompany transactions and accounts have been eliminated in consolidation.

Use of estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Reporting periods

The Company's fiscal year is based on the calendar year and ends each year on the Saturday nearest, but not falling after, December 31 of that year. As a result, our fiscal year may be comprised of 52 or 53 weeks. Typically, fiscal quarters also end on the Saturday nearest, but not falling after, the end of the calendar quarter. However, we will end those fiscal quarters presented in our Forms 10-Q (the first three fiscal quarters) on the Saturday which provides us with a 13-week quarter even if that Saturday falls after the end of the calendar quarter. As a result, in the future, if our fiscal year comprises 53 weeks, the first three quarters shall each be comprised of 13 weeks and the fourth quarter shall be comprised of 14 weeks. Consistent with this policy, our second quarters ended June 28, 2008 and June 30, 2007 were 13-week quarters.

Cash and cash equivalents

We consider cash on deposit and all highly liquid investments with original maturities of three months or less to be cash and cash equivalents.

Marketable securities

During the fiscal quarter ended June 28, 2008, the Company did not invest in auction rate securities. As of June 28, 2008 and December 29, 2007, the Company maintained no marketable securities. The Company's marketable securities were classified as available-for-sale and were recorded at quoted market prices that approximated cost.

Revenue Recognition

The Company recognizes revenue when a contract has been executed, the contract price is fixed and determinable, delivery of services or products has occurred, and collectibility of the contract price is considered probable and can be reasonably estimated. Revenue is earned under cost reimbursable, time and materials and fixed price contracts.

Table of Contents

Under cost reimbursable contracts, the Company is reimbursed for allowable costs, and paid a fee, which may be fixed or performance-based. Revenues on cost reimbursable contracts are recognized as costs are incurred plus an estimate of applicable fees earned. The Company considers fixed fees under cost reimbursable contracts to be earned in proportion of the allowable costs incurred in performance of the contract. For certain cost reimbursable contracts that include performance-based fee incentives, the Company recognizes the relevant portion of the expected fee to be awarded by the customer at the time such fee can be reasonably estimated, based on factors such as the Company's prior award experience and communications with the customer regarding performance. Other performance-based fees are recognized upon customer approval.

Revenues on time and materials contracts are recognized based on direct labor hours expended at contract billing rates and adding other billable direct costs. For fixed price contracts that are based on unit pricing or level of effort, the Company recognizes revenue for the number of units delivered in any given fiscal period. For fixed price contracts in which the Company is paid a specific amount to provide a particular service for a stated period of time, revenue is recognized ratably over the service period.

For fixed price contracts that provide for the delivery of a specific product with related customer acceptance provisions, revenues are recognized upon product delivery and customer acceptance. A significant portion of the Company's fixed price-completion contracts involve the design and development of complex client systems. For those contracts that are within scope of the AICPA's Statement of Position 81-1, *Accounting for Performance of Construction-Type and Certain Production-Type Contracts* (SOP 81-1), revenue is recognized on the percentage-of-completion method using costs incurred in relation to total estimated costs.

The Company's contracts with agencies of the government are subject to periodic funding by the respective contracting agency. Funding for a contract may be provided in full at inception of the contract or ratably throughout the contract as the services are provided. In evaluating the probability of funding for purposes of assessing collectibility of the contract price, the Company considers its previous experiences with its customers, communications with its customers regarding funding status, and the Company's knowledge of available funding for the contract or program. If funding is not assessed as probable, revenue recognition is deferred until realization is deemed probable.

Contract revenue recognition inherently involves estimation, including the contemplated level of effort to accomplish the tasks under contract, the cost of the effort, and an ongoing assessment of progress toward completing the contract. From time to time, as part of the normal management processes, facts develop that require revisions to estimated total costs or revenues expected. The cumulative impact of any revisions to estimates and the full impact of anticipated losses on contracts accounted for under SOP 81-1 are recognized in the period in which they become known. Losses on all other contracts are recognized as the services and materials are provided.

The allowability of certain costs under government contracts is subject to audit by the government. Certain indirect costs are charged to contracts using provisional or estimated indirect rates, which are subject to later revision based on government audits of those costs. Management is of the opinion that costs subsequently disallowed, if any, would not be significant.

Significant customers

Revenue generated from contracts with the Federal Government, both directly and through other prime contractors, accounted for a significant percent of revenues in the fiscal periods ending June 28, 2008 and June 30, 2007, as follows:

Edgar Filing: SI INTERNATIONAL INC - Form 10-Q

	Three Months Ended		Six Months Ended	
	June 28, 2008	June 30, 2007	June 28, 2008	June 30, 2007
Department of Defense	42.5%	45.1%	42.3%	45.0%
Federal civilian agencies	56.7	53.4	56.9	53.4
Commercial entities	0.8	1.5	0.8	1.6
Total revenue	100.0%	100.0%	100.0%	100.0%

For the three months ended June 28, 2008 and June 30, 2007, we had one contract vehicle that generated more than 10% of our revenue. That contract is our Command, Control, Communications, Computer, Intelligence, Information, Technology, Surveillance, and Reconnaissance contract vehicle, or C4I2TSR, which is an Indefinite Delivery-Indefinite Quantity, or ID/IQ, contract vehicle administered and primarily used by the U.S. Air Force Space Command, however, it is also available for use by different Federal Government agencies. As there are projects issued under C4I2TSR for different customers, we assign and report revenue generated from any task order to the appropriate Company business unit. Under this approach, for the three and six months ended June 28, 2008, our C4I2TSR contract vehicle represented approximately 13.3% and 12.0% of our revenue, respectively. For the three and six months ended June 30, 2007, our C4I2TSR contract vehicle represented approximately 16.4% and 18.2% of our revenue, respectively.

Table of Contents**Deferred financing costs**

Costs incurred in raising debt are deferred and amortized as interest expense over the term of the related debt using the effective interest method. These deferred costs are reflected as a component of other assets in the accompanying consolidated balance sheets. The deferred financing costs consist of the following (in thousands):

	June 28, 2008	December 29, 2007
Deferred loan costs	\$ 6,530	\$ 5,635
Accumulated amortization	(4,247)	(3,987)
Deferred financing costs, net	\$ 2,283	\$ 1,648

The increase in deferred loan costs of approximately \$0.9 million in 2008 was due to the Company's execution of its Second Amended and Restated Credit Agreement on February 13, 2008, as more fully described in Note 7.

Fair value of financial instruments

The Company's financial instruments consist primarily of cash and cash equivalents, marketable securities, accounts receivable, accounts payable, credit facilities, and long-term debt. In management's opinion, the carrying amounts of these financial instruments approximate their fair values at June 28, 2008 and December 29, 2007.

Stock-based compensation

Effective January 1, 2006, the Company adopted the provisions of Statement of Financial Accounting Standards (SFAS) No. 123R, *Share Based Payment*, using the modified prospective transition method. Due to the use of the modified prospective method, prior interim periods and fiscal years do not reflect any restated amounts. The Company accelerated the vesting of unvested stock options previously awarded to employees, officers and directors in December 2005; thus the Company had no unvested stock options on January 1, 2006. Since January 1, 2006, the Company has issued 507,200 stock options through June 28, 2008. The total stock compensation expense recognized for stock options during the quarters ended June 28, 2008 and June 30, 2007 was \$0.3 million and \$0.2 million, respectively. The total remaining unrecognized compensation expense related to the unvested options as of June 28, 2008 was \$3.9 million.

From January 1, 2006 through June 28, 2008, the Company has issued 182,125 shares of restricted stock to directors and employees under its 2002 Amended and Restated Omnibus Stock Incentive Plan. The fair value of the restricted stock awards is determined based on the grant date stock price. The compensation expense for restricted stock awards is recognized beginning on the date of grant on either a straight-line basis over the vesting term, which is typically five years, or over the expected period of performance for awards with performance-based vesting. The total compensation expense recognized during fiscal quarters ended June 28, 2008 and June 30, 2007 was \$0.2 million and \$0.1 million, respectively. The total remaining unrecognized compensation expense related to the unvested restricted stock awards as of June 28, 2008 was

Edgar Filing: SI INTERNATIONAL INC - Form 10-Q

\$3.3 million.

The fair value of each option is estimated on the date of grant using the Black-Scholes option-pricing model with the following assumptions used for grants during the fiscal periods ended June 28, 2008 and June 30, 2007:

	Fiscal Period	
	June 28, 2008	June 30, 2007
Risk-free interest rate	2.80 2.89%	4.67 5.03%
Expected life of options	5 years	5 years
Expected stock price volatility	41.7%	34.8%
Expected dividend yield	0%	0%

The risk-free interest is based on U.S. Treasury yields in effect at the time of grant over the expected term of the option. The expected life of options is derived from the Company's historical option exercise data. The expected stock price volatility is based on the historical volatility of the Company's common stock.

Prior to the adoption of SFAS No. 123R, the Company presented all tax benefits related to the exercise of stock options as operating cash flows in the consolidated statements of cash flows. SFAS No. 123R requires the cash flows resulting from the tax benefits generated from tax deductions in excess of the compensation costs recognized for those options to be classified as financing cash flows.

Table of Contents**Earnings per share**

Basic earnings per share is computed by dividing reported earnings available to common stockholders by the weighted average number of shares outstanding without consideration of common stock equivalents or other potentially dilutive securities. Diluted earnings per share give effect to common stock equivalents and other potentially dilutive securities outstanding during the period.

The following details the computation of net income per common share (in thousands):

	Three Months Ended		Six Months Ended	
	June 28, 2008	June 30, 2007	June 28, 2008	June 30, 2007
Net Income Basic and Diluted	\$ 3,825	\$ 5,024	\$ 7,256	\$ 9,758
Weighted average share calculation:				
Basic weighted-average shares outstanding	13,089	13,011	13,094	12,994
Treasury stock effect of stock options	224	291	219	282
Diluted weighted-average shares outstanding	13,313	13,302	13,313	13,276

Income Taxes

Income taxes are accounted for using an asset and liability approach that requires the recognition of taxes payable or refundable for the current year and deferred tax liabilities and assets for the future tax consequences of events that have been recognized in the Company's financial statements or tax returns. The measurement of current and deferred tax liabilities and assets are based on provisions of the enacted tax law; the effects of future changes in tax laws or rates are not considered. Net deferred tax assets are reduced, if necessary, by a valuation allowance for the amount of any tax benefits that, based on available evidence, are not expected to be realized.

Derivative Instrument and Hedging Activities

The Company accounts for derivative instruments and hedging activities in accordance with SFAS No. 133, *Accounting for Derivative Instruments and Hedging Activities*, as amended. Derivatives are recognized as either assets or liabilities in the consolidated balance sheets, and gains and losses are recognized based on changes in the fair values. Gains and losses on derivatives designated as a hedge, or deemed to be an effective hedge, are deferred in accumulated other comprehensive loss in the accompanying consolidated balance sheets. Gains and losses on derivatives that are not designated as a hedge, or that are not intended to be an effective hedge, are recognized upon the changes in fair values and are recorded in the accompanying consolidated statements of operations. The classification of gains and losses resulting from the changes in fair values is dependent on the intended use of the derivative and its resulting designation. The Company uses the change in variable cash flow method to measure the effectiveness of its hedges.

From time to time, the Company will enter into interest rate swap agreements to manage exposure to fluctuations in rates on its variable rate debt. These agreements effectively allow the Company to exchange variable rate debt for fixed rate debt. The Company enters into such derivative instrument agreements only to hedge cash flows. The Company does not hold or issue such financial instruments for trading purposes, nor is it a party to leveraged derivatives.

Nonqualified Deferred Compensation Plan

The Company maintains a non-qualified defined contribution supplemental retirement savings plan for certain key employees whereby participants may elect to defer and contribute a portion of their compensation, as permitted by the plan. The Company maintains supplemental retirement savings plan assets that are accounted for in accordance with EITF Issue No. 97-14, *Accounting for Deferred Compensation Arrangements Where Accounts are Held in a Rabbi Trust and Invested*, and the underlying assets are held in a rabbi trust. The participants can direct their investments in the nonqualified deferred compensation plan.

A rabbi trust is a grantor trust established to fund compensation for a select group of management. The assets of this trust are available to satisfy the claims of general creditors in the event of bankruptcy of the Company. The assets held by the rabbi trust, which are classified as trading securities, are recorded at fair value in the consolidated financial statements as nonqualified deferred compensation plan assets. The participants investments are recorded at fair value as nonqualified deferred compensation plan obligations.

Table of Contents

Segment reporting

SFAS No. 131, *Disclosure about Segments of an Enterprise and Related Information*, establishes standards for the way that public business enterprises report information about operating segments in annual financial statements and requires that these enterprises report selected information about operating segments in interim financial reports. SFAS No. 131 also establishes standards for related disclosures about products and services, geographic areas and major customers. Management has concluded that the Company operates in one segment based upon the information used by management in evaluating the performance of its business and allocating resources and capital.

Reclassifications

Certain prior year balances have been reclassified to conform to the presentation of the current year.

New accounting pronouncements

In March 2008, the Financial Accounting Standards Board (FASB) issued SFAS No. 161, *Disclosures about Derivative Instruments and Hedging Activities – an Amendment of FASB Statement No. 133* (SFAS No. 161), which requires expanded disclosures about derivative and hedging activities. This statement changes the disclosure requirements for derivative instruments and hedging activities by requiring companies to provide enhanced disclosures about how and why they use derivative instruments, how derivative instruments and related hedged items are accounted for under SFAS No. 133 and its related interpretations, and how derivative instruments and related hedged items affect a company's financial position, financial performance and cash flows. SFAS No. 161 is effective for fiscal periods beginning after November 15, 2008. The Company will adopt the requirements of SFAS No. 161 at the beginning of fiscal year 2009 and has not yet evaluated the impact, if any, that SFAS No. 161 will have on its disclosures.

In the first quarter of 2008, we adopted SFAS No. 157, *Fair Value Measurements*, which defines fair value, establishes a market-based hierarchy for measuring fair value and expands disclosures about fair value measurements. SFAS No. 157 is applicable whenever another accounting pronouncement requires or permits assets and liabilities to be measured at fair value, but does not require any new fair value measurements. The SFAS No. 157 requirements for certain non-financial assets and liabilities have been deferred until the first quarter of 2009 in accordance with Financial Accounting Standards Board Staff Position (FSP) 157-2. The adoption of SFAS No. 157 did not have a material impact on our results of operations, financial position or cash flows.

The fair-value hierarchy established in SFAS No. 157 prioritizes the inputs used in valuation techniques into three levels as follows:

- Level 1 – Observable inputs – quoted prices in active markets for identical assets and liabilities;
- Level 2 – Observable inputs other than the quoted prices in active markets for identical assets and liabilities – includes quoted prices for similar instruments, quoted prices for identical or similar instruments in inactive markets, and amounts derived from valuation models where all significant inputs are observable in active markets; and

Edgar Filing: SI INTERNATIONAL INC - Form 10-Q

- Level 3 Unobservable inputs includes amounts derived from valuation models where one or more significant inputs are unobservable and require us to develop relevant assumptions.

The amount of financial assets and liabilities we recorded at fair value at June 28, 2008 totaled \$4.4 million and \$7.2 million, respectively, as follows:

Description	Type	Valuation Methodology	Fair Value (\$ 000 s)
Assets held in a rabbi trust	Long-term asset	Level 1	\$ 4,412
Non-qualified deferred compensation plan liabilities	Long-term liability	Level 1	\$ 5,057
Interest rate swap	Short-term liability	Level 2	\$ 2,058

In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities Including an Amendment of FASB Statement No. 115* (SFAS No. 159). SFAS No. 159 permits entities to choose to measure certain financial instruments and other items at fair value. The fair value option generally may be applied instrument by instrument, is irrevocable, and is applied only to entire instruments and not to portions of instruments. SFAS No. 159 is effective for financial statements issued for fiscal years beginning after November 15, 2007. The adoption of this statement did not have a material impact on its financial condition, results of operations or cash flows, as we did not elect to measure any items at fair value under SFAS No. 159.

Table of Contents

In December 2007, the FASB issued SFAS No. 141 (revised 2007), *Business Combinations* (SFAS No. 141R). SFAS No. 141R establishes principles and requirements for how companies recognize and measure identifiable assets acquired, liabilities assumed, and any non-controlling interest in connection with a business combination; recognize and measure the goodwill acquired in a business combination; and determine what information to disclose to enable users of the financial statements to evaluate the nature and financial effects of the business combination. SFAS No. 141R is effective for business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. The Company has not yet evaluated what impact, if any, SFAS No. 141R will have on its results of operations or financial position.

3. Accounts receivable:

Accounts receivable consists of the following (in thousands):

	June 28, 2008	December 29, 2007
Billed accounts receivable	\$ 49,759	\$ 52,814
Unbilled accounts receivable:		
Currently billable	55,317	58,700
Unbilled retainages and milestone payments expected to be billed within the next 12 months	6,423	5,837
Indirect costs incurred and charged to cost-plus contracts in excess of provisional billing rates	1,117	1,030
Total unbilled accounts receivable	62,857	65,567
Allowance for doubtful accounts	(1,283)	(1,283)
Accounts receivable, net	\$ 111,333	\$ 117,098

The currently billable amounts included as unbilled accounts receivable as of June 28, 2008 and December 29, 2007 represent amounts which are billed during the following quarter of the current year. They are billings for services rendered prior to quarter-end, which are billed once necessary billing data has been collected and an invoice is produced.

4. Property and equipment:

Property and equipment consist of the following (in thousands):

	June 28, 2008	December 29, 2007
Computers and equipment	\$ 12,755	\$ 12,338
Software	4,466	4,628
Furniture and fixtures	6,984	6,382
Leasehold improvements	7,900	7,016
Total property and equipment	32,105	30,364

Edgar Filing: SI INTERNATIONAL INC - Form 10-Q

Less Accumulated depreciation and amortization		(17,419)		(15,284)
Property and equipment, net	\$	14,686	\$	15,080

Property and equipment includes assets financed under capital lease obligations of approximately \$165,000 and \$221,000, net of accumulated amortization, as of June 28, 2008 and December 29, 2007, respectively.

Table of Contents**5. Intangible assets:**

Intangible assets consist of the following (in thousands):

	June 28, 2008	December 29, 2007
Contractual customer relationships	\$ 36,547	\$ 36,547
Non-compete agreements	150	150
Total intangible assets	36,697	36,697
Less: Accumulated amortization	(12,304)	(10,114)
Intangible assets, net	\$ 24,393	\$ 26,583

Intangible assets from acquisitions, which consist primarily of contractual customer relationships, are amortized utilizing an accelerated method over 6 to 14 years, based on their estimated useful lives. The weighted-average amortization period of total intangible assets as of June 28, 2008, is 8.8 years. Amortization expense is estimated to be \$4.3 million, \$3.8 million, \$3.4 million, \$2.9 million, and \$2.7 million for the years 2008, 2009, 2010, 2011 and 2012, respectively.

6. Accrued expenses and other current liabilities:

Accrued expenses and other current liabilities consist of the following (in thousands):

	June 28, 2008	December 29, 2007
Accrued vacation	\$ 8,861	\$ 7,740
Accrued compensation	11,092	11,412
Accrued insurance	1,789	1,944
Accrued subcontractor costs	11,324	5,947
Fair value of interest rate swap	2,058	1,799
Deferred revenue	2,298	2,338
Other accrued liabilities	4,379	3,992
Accrued expenses and other current liabilities	\$ 41,801	\$ 35,172

7. Debt:

Since 2002, the Company has maintained a credit facility with Wachovia Bank, National Association, acting as Administration Agent for a consortium of lenders. The credit facility has been amended from time to time since 2002. The credit facility is secured by a pledge of substantially all of our current and future tangible and intangible assets, as well as those of our current and future subsidiaries, including accounts receivable, inventory and capital stock.

On February 9, 2005, we entered into an Amended and Restated Credit Agreement, which was subsequently amended by a First Amendment to the Amended and Restated Credit Agreement dated February 27, 2006 and a Second Amendment to the Amended and Restated Credit Agreement (Second Amendment), dated June 8, 2007. The Second Amendment, executed contemporaneously with our closing of the LOGTEC acquisition, increased the amount of outstanding term debt by \$25 million, to a total of approximately \$95 million. Additionally, we borrowed approximately \$25 million under the revolving credit facility. As of December 29, 2007, we had approximately \$94.3 million of term debt and \$20.0 million of revolving credit debt outstanding under our credit facility.

On February 13, 2008, we entered into a Second Amended and Restated Credit Agreement, (Second Amended Credit Agreement). The amended and restated credit facility consists of a revolving line of credit of up to \$140.0 million and a term loan of \$60.0 million. As of June 28, 2008, we had \$60.0 million in term debt and approximately \$41.8 million of revolving credit debt outstanding. The Second Amended Credit Agreement also amended debt covenant thresholds and lowered the variable rate margins that are to be applied to LIBOR or an alternative base rate in determining the periodic interest rate. In connection with the Second Amended Credit Agreement, the Company incurred commitment fees of approximately \$0.9 million.

At the time the Company borrows funds from either of the loan facilities under the Second Amended Credit Agreement, it may choose from two interest rate options. The Company may elect to have the borrowings bear interest at floating rates equal to LIBOR plus a spread ranging from 87.5 to 150 basis points or an alternative base rate plus a spread ranging from zero to 50 basis points. Under either the LIBOR or an alternative base rate option, the exact interest rate spread will be determined based upon the Company's

Table of Contents

leverage ratio as defined in the Second Amended Credit Agreement. Currently, the requirements of the Company's swap agreement necessitate that the Company elect the LIBOR option for its term debt. The Company pays a fee, the amount of which is based on its leverage ratio, on the unused portion of its loan facilities.

The term loan facility requires final payment in full on the term loan maturity date of February 13, 2013. The outstanding balance under the revolving line of credit facility will accrue interest at a variable rate, with interest only payments being required until the facility matures on February 13, 2013. We may repay either or both of the term loan facility and the revolving loan facility in whole or in part at anytime prior to their respective maturity dates without penalty.

Debt consists of the following (in thousands):

	December 29, 2007
Credit facilities*:	
Line of credit bears interest at LIBOR plus 200 to 275 basis points or a specified base rate plus 100 to 175 basis points (exact rate based upon the Company's leverage ratio), interest due monthly, principal due February 9, 2010	\$ 20,000
Term loan, pursuant to the Second Amendment, as of December 29, 2007 bears interest at LIBOR plus 200 basis points or a specified base rate plus 100 basis points, with twelve consecutive quarterly principal and interest payments of \$250,904 starting on December 29, 2007, with the unpaid principal and interest of approximately \$91.3 million due on February 9, 2011	94,265
Total debt	\$ 114,265

	June 28, 2008
Credit facilities*:	
Line of credit bears interest at LIBOR plus 87.5 to 150 basis points or a specified base rate plus 0 to 50 basis points (exact rate based upon the Company's leverage ratio), interest due monthly, principal due February 13, 2013	\$ 41,750
Term loan bears interest at LIBOR plus 87.5 to 150 basis points or a specified base rate plus 0 to 50 basis points (exact rate based upon the Company's leverage ratio), interest due monthly, principal due February 13, 2013	60,000
Total debt	\$ 101,750

*As further discussed above, the total debt outstanding as of December 29, 2007 was pursuant to the Amended and Restated Credit Agreement, whereas the total debt outstanding as of June 28, 2008 was pursuant to the Second Amended Credit Agreement.

8. Commitments and contingencies:

Leases

As of June 28, 2008, the Company has noncancelable operating leases, primarily for real estate, that expire over the next ten years. Rental expense during the quarter ended June 28, 2008 was approximately \$2.9 million, compared to rental expense of approximately \$2.2 million during the quarter ended June 30, 2007.

Contract cost audits

Payments to the Company on government cost reimbursable contracts are based on provisional, or estimated indirect rates, which are subject to audit on an annual basis by the Defense Contract Audit Agency (DCAA). The cost audits result in the negotiation and determination of the final indirect cost rates that the Company may use for the period(s) audited. The final rates, if different from the provisional rates, may create an additional receivable or liability for the Company. The Company's revenue recognition policy calls for revenue recognized on all cost reimbursable government contracts to be recorded at actual rates unless collectibility is not reasonably assured. To the extent the indirect rate differential creates a liability for the Company, the differential is recognized as a reduction to revenue when identified.

Table of Contents

Litigation and claims

We are a party to litigation and legal proceedings that we believe to be a part of the ordinary course of our business. While we cannot predict the ultimate outcome of these matters, we currently believe that any ultimate liability arising out of these proceedings will not have a material adverse effect on our financial position. We may become involved in other legal and governmental, administrative or contractual proceedings in the future.

The Shenandoah Electronic Intelligence, Inc. (SEI) acquisition agreement provides for a purchase price adjustment based upon the working capital of SEI as of the closing date. Subsequent to the closing date, we received a payment of \$1.6 million in connection with services performed prior to the closing date that SEI had not previously billed, and was not authorized to bill, its customer as of the closing date. The SEI selling stockholders have asserted that they are entitled to a credit in connection with the calculation of working capital adjustment in an amount equal to the amount received by us for this post-closing payment. We believe that, in accordance with generally accepted accounting principles, the SEI selling stockholders should not receive the benefit of the post-closing payment. In accordance with the terms of the SEI acquisition agreement, the parties have jointly submitted the issue to an independent accounting firm for resolution. We anticipate that this matter will be resolved before the end of 2008.

9. Stockholders equity:

Stock incentive plans

In April 2005, the Board of Directors voted to adopt the 2002 Amended and Restated Omnibus Stock Incentive Plan, or the Amended and Restated Plan, and the Amended and Restated Plan was approved by our stockholders at the annual meeting of stockholders held in June 2005. The Amended and Restated Plan amends and restates the Plan by (i) increasing the number of shares of common stock reserved and available under the Plan by 1,000,000 shares to a total share allocation of 2,920,000, (ii) permitting the grant of deferred shares, performance shares and performance units, (iii) prohibiting repricing of options without prior stockholder approval, (iv) limiting the number of shares of common stock and performance units subject to awards a participant may receive in any calendar year to 300,000 and 500,000, respectively, and adding other administrative provisions to comply with the performance-based compensation exception to the deduction limit of Section 162(m) of the Internal Revenue Code of 1986, as amended; (v) eliminating the provision that previously provided for an automatic increase in the number of shares reserved for issuance under the Amended and Restated Plan each fiscal year by a number equal to the lesser of 160,000 shares and an amount determined by the Board of Directors, (vi) providing that non-qualified stock option grants will be priced at one hundred percent (100%) of fair market value; (vii) providing for minimum vesting periods of stock bonus awards, restricted common stock awards, stock appreciation rights, deferred shares, and other stock awards subject to the possible acceleration of the vesting schedule at the discretion of the administrator; (viii) providing that future amendments to the Amended and Restated Plan that increase the number of shares allocated, modify participation requirements, or materially increase benefits accruing to the participants under the Plan will be subject to stockholder approval; and (ix) making other technical changes to the Plan.

A summary of option activity under the plan as of June 28, 2008 is presented below:

Options

Edgar Filing: SI INTERNATIONAL INC - Form 10-Q

		Options exercisable	Weighted-average exercise price
Outstanding at December 29, 2007	1,491,161	1,233,331	\$ 23.00
2008 grants	207,200		\$ 23.60
2008 exercises	(23,378)		\$ 14.56
2008 forfeitures	(25,863)		\$ 28.08
Outstanding at June 28, 2008	1,649,120		\$ 22.96
Options exercisable at June 28, 2008		1,224,550	

Table of Contents

Prior to fiscal 2006, awards under the Company's stock incentive plan consisted principally of stock options. During fiscal 2006, the Company revised its stock incentive arrangement to provide restricted stock awards to directors and executives. The stock awards granted during fiscal 2006 were generally vested ratably over a period of four or five years. During fiscal 2007, the Company revised its stock incentive arrangement to issue restricted stock awards that will be fully vested only if the Company meets certain revenue targets determined by the Board of Directors.

A summary of restricted awards activity under the plan as of June 28, 2008 is presented below:

	Shares	Weighted-average fair value
Non-vested shares outstanding at December 29, 2007	98,872	\$ 28.98
2008 grants	74,700	\$ 23.53
2008 vests	(4,072)	\$ 28.32
2008 forfeitures	(2,240)	\$ 27.61
Non-vested shares outstanding at June 28, 2008	167,260	\$ 26.58

Stock repurchase program

During the Company's Board of Directors meeting on December 6, 2005, the Board authorized the repurchase of up to 300,000 shares of its common stock. On March 24, 2008, the Company announced that its Board of Directors authorized the expansion of the Company's stock repurchase program for the repurchase of up to an additional 700,000 shares of its common stock, which brings the total of shares of common stock authorized for repurchase to 1.0 million. The Company had approximately 13.0 million shares outstanding as of June 28, 2008. The stock repurchase program will be funded, up to an aggregate maximum dollar amount of \$25.0 million, from available cash and the Company's existing credit facility. The timing and volume of any purchases will be determined in accordance with a Rule 10b5-1 trading plan. As of the quarter ended June 28, 2008, we have repurchased 109,264 shares of our common stock for approximately \$2.5 million under the trading plan. Subject to Rule 10b5-1 under the Exchange Act, the stock repurchase program may be suspended or discontinued at any time and without prior notice.

10. Subsequent Events

On July 15, 2008, SI International entered into an Agreement and Plan of Merger (the Merger Agreement) by and among SI International, Arrowpoint Corporation, a Virginia corporation (Arrowpoint), and the stockholders of Arrowpoint (the Sellers). On July 28, 2008, SI International, Arrowpoint, the Sellers' Representative under the Merger Agreement, and the Sellers, mutually agreed pursuant to the terms of a letter agreement to terminate the Merger Agreement. The terms of the Merger Agreement provided that a merger subsidiary of SI International would have merged with and into Arrowpoint, with Arrowpoint continuing as the surviving corporation and a wholly-owned subsidiary of SI International. The Merger Agreement required SI International to pay a purchase price of \$16.0 million in cash at closing, plus an additional amount of up to \$9.0 million in cash to the extent that Arrowpoint achieved certain performance objectives in 2008 and 2009. Each of the parties to the Merger Agreement made customary representations and warranties, entered into certain covenants, including, without limitation, with respect to a \$1.6 million escrow and a two-way working capital adjustment, and agreed to certain indemnification obligations.

Edgar Filing: SI INTERNATIONAL INC - Form 10-Q

The Company has incurred certain transaction costs that would have been capitalized as acquisition costs had the merger been consummated. These costs will be expensed in the Company's fiscal quarter ending September 27, 2008. The range of costs expected to be expensed is \$0.4 to \$0.5 million.

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis should be read in conjunction with the consolidated financial statements and related notes included elsewhere in this Form 10-Q. This discussion and analysis contains forward-looking statements that involve known and unknown risks, uncertainties, and other factors that may cause our actual results, level of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by such forward-looking statements. In some cases, you can identify these statements by forward-looking words such as anticipate, believe, could, estimate, expect, intend, may, plan, potential, should, will, and would or similar words. You should read statements that contain these words carefully because they discuss our future expectations, contain projections of our future results of operations or of our financial position, or state other forward-looking information. We believe that it is important to communicate our future expectations to our investors. However, there may be events in the future that we are not able to predict accurately or control. In particular, statements that we make in this section relating to the sufficiency of anticipated sources of capital to meet our cash requirements are forward-looking statements. Our actual results could differ materially from those anticipated in these forward-looking statements for many reasons, including as a result of some of the factors described below, elsewhere in this Form 10-Q and in the section entitled Risk Factors in our Form 10-K for the fiscal year ended December 29, 2007. You should not place undue reliance on these forward-looking statements, which apply only as of the date of the filing of this Form 10-Q.

The Company's fiscal year is based on the calendar year and ends each year on the Saturday nearest, but not falling after, December 31 of that year. Typically, fiscal quarters also end on the Saturday nearest, but not falling after, the end of the calendar quarter. However, we will end future fiscal quarters on the Saturday which provides us with a 13 week quarter to compare with the previous year's quarterly results even if that Saturday falls after the end of the calendar quarter. As a result, our fiscal year may be comprised of 52 or 53 weeks.

References to the Company, we, us and our refer to SI International, Inc. and its subsidiaries.

Overview

We are, first and foremost, a provider of information technology and network solutions (IT) to the Federal Government. Our clients include the U.S. Air Force, U.S. Army, U.S. Navy, Department of State, Department of Homeland Security, Department of Energy, Department of Agriculture, National Institutes of Health, Federal Retirement Thrift Investment Board, National Guard Bureau, and the Intelligence community. We combine our technology and industry expertise to provide a full spectrum of state-of-the-practice solutions and services, from design and development to implementation and operations, which assist our clients in achieving mission success. We believe that our company is distinguishable from our peers within the federal IT sector in several important respects.

We employ a Rapid Response• Rapid Deployment® methodology that enables the rapid standing up of innovative solutions and the incorporation of additional capabilities in rapid succession. This capability allows us to respond to urgent IT imperatives quickly, often in a matter of months, and within a well defined budget. We can, therefore, provide solutions for current IT needs, while establishing a platform for advancing long-term transformational objectives. We possess a proven ability to respond to high priority information technology and network needs through innovation, and an enviable reputation for timely delivery of robust solutions on assignments where failure is not an option. Our solutions enable clients to respond to new mandates, expand the scope of their missions, and reengineer underlying business processes. We have a demonstrated ability of turning troubled IT projects into winning outcomes and realized exceptional growth from high-quality client engagements. We also utilize mature and proven processes to manage and market large-scale ID/IQ contracts, such as C4I2TSR. We employ a diverse, innovative team that effectively utilizes small business partners' unique skills and expertise for mission critical IT projects.

Edgar Filing: SI INTERNATIONAL INC - Form 10-Q

For the fiscal quarters ended June 28, 2008 and June 30, 2007, we received 99.2% and 98.5%, respectively, of our revenues from services we provided to various departments and agencies of the Federal Government, both directly and through other prime contractors, and 0.8% and 1.5%, respectively, of our total revenues from work performed for commercial entities. The following table shows our revenues from the client groups listed as a percentage of total revenue. Revenue data for the Department of Defense (DoD) includes revenue generated from work performed under engagements for both the DoD and the Intelligence community.

Table of Contents

	Three Months Ended		Six Months Ended	
	June 28, 2008	June 30, 2007	June 28, 2008	June 30, 2007
Department of Defense	42.5%	45.1%	42.3%	45.0%
Federal civilian agencies	56.7	53.4	56.9	53.4
Commercial entities	0.8	1.5	0.8	1.6
Total revenue	100.0%	100.0%	100.0%	100.0%

We derived a substantial majority of our revenues from governmental contracts under which we act as a prime contractor. We also provide services indirectly as a subcontractor. The following table shows our revenues as prime contractor and as subcontractor as a percentage of our total revenue for the following periods:

	Three Months Ended		Six Months Ended	
	June 28, 2008	June 30, 2007	June 28, 2008	June 30, 2007
Prime contract revenue	85.6%	78.5%	84.1%	79.2%
Subcontract revenue	14.4	21.5%	15.9	20.8%
Total revenue	100.0%	100.0%	100.0%	100.0%

Our services are provided to clients pursuant to three types of contracts: cost reimbursable, time and materials and fixed price contracts. The following table shows our revenues from each of these types of contracts as a percentage of our total revenue for the following periods:

	Three Months Ended		Six Months Ended	
	June 28, 2008	June 30, 2007	June 28, 2008	June 30, 2007
Cost reimbursable	28.0%	29.1%	26.2%	30.5%
Time and materials	34.5	34.7%	36.0	34.0%
Fixed price	37.5	36.2%	37.8	35.5%
Total	100.0%	100.0%	100.0%	100.0%

Our cost reimbursable revenues, as a percentage of total revenues, decreased primarily due to lower equipment pass-through revenue on our C4I2TSR program.

Under cost reimbursable contracts, the Company is reimbursed for allowable costs, and paid a fee, which may be fixed or performance based. Revenues on cost reimbursable contracts are recognized as costs are incurred plus an estimate of applicable fees earned. The Company considers fixed fees under cost reimbursable contracts to be earned in proportion of the allowable costs incurred in performance of the contract. For certain cost reimbursable contracts that include performance based fee incentives, the Company recognizes the relevant portion of the expected fee to be awarded by the client at the time such fee can be reasonably estimated, based on factors such as our prior award experience and communications with the client regarding performance. Other performance based fees are recognized upon customer approval.

Edgar Filing: SI INTERNATIONAL INC - Form 10-Q

Revenues on time and materials contracts are recognized based on direct labor hours expended at contract billing rates and adding other billable direct costs. To the extent that our actual labor costs under a time and materials contract are higher or lower than the billing rates under the contract, our profit under the contract may either be greater or less than we anticipated or we may suffer a loss under the contract. We recognize revenues under time and materials contracts by multiplying the number of direct labor hours expended by the contract billing rates and adding the effect of other billable direct costs.

For fixed price contracts that provide for the delivery of a specific product with related customer acceptance provisions, revenues are recognized upon product delivery and customer acceptance. However, a significant portion of the Company's fixed price-completion contracts involve the design and development of complex, client systems. For those contracts that are within the scope of the AICPA's Statement of Position 81-1, *Accounting for Performance of Construction-Type and certain Production-Type Contracts*, revenue is recognized on the percentage-of-completion method using costs incurred in relation to total estimated costs.

The Company's contracts with agencies of the government are subject to periodic funding by the respective contracting agency. Funding for a contract may be provided in full at inception of the contract or ratably throughout the contract as the services are

Table of Contents

provided. In evaluating the probability of funding for purposes of assessing collectibility of the contract price, the Company considers its previous experiences with its customers, communications with its customers regarding funding status, and the Company's knowledge of available funding for the contract or program. If funding is not assessed as probable, revenue recognition is deferred until realization is probable.

Contract revenue recognition inherently involves estimation, including the contemplated level of effort to accomplish the tasks under contract, the cost of the effort, and an ongoing assessment of progress toward completing the contract. From time to time, as part of the normal management processes, facts develop that require revisions to estimated total costs or revenues expected. The cumulative impact of any revisions to estimates and the full impact of anticipated losses on contracts accounted for under SOP 81-1 are recognized in the period in which they become known. Losses on all other contracts are recognized as the services and materials are provided.

The allowability of certain costs under government contracts is subject to audit by the government. Certain indirect costs are charged to contracts using provisional or estimated indirect rates, which are subject to later revision based on government audits of those costs. Management is of the opinion that costs subsequently disallowed, if any, would not be significant.

Liquidity and Capital Resources

General. Short-term liquidity requirements are created by our use of funds for working capital, capital expenditures, and the need to provide debt service. We expect to meet these requirements through a combination of cash flow from operations and borrowings under our Second Amended Credit Agreement.

We anticipate that our long-term liquidity requirements, including any further acquisitions, will be funded through a combination of cash flow from operations, borrowings under our Second Amended Credit Agreement, additional secured or unsecured debt or the issuance of common or preferred stock, each of which may be initially funded through borrowings under our Second Amended Credit Agreement.

Under the terms of our Second Amended Credit Agreement, the Company is required to maintain compliance with financial and non-financial covenants. The Company is in compliance with all such covenants as of June 28, 2008.

Cash and Cash Equivalents. We consider cash on deposit and all highly liquid investments with original maturities of three months or less to be cash and cash equivalents. Cash and cash equivalents as of June 28, 2008 and December 29, 2007 were \$14.4 million and \$13.1 million, respectively.

Cash Flow. The following table sets forth our sources and uses of cash and cash equivalents for the six months ended June 28, 2008 and June 30, 2007:

Edgar Filing: SI INTERNATIONAL INC - Form 10-Q

	Six Months Ended	
	June 28, 2008	June 30, 2007
	(in thousands)	
Net cash provided by operations	\$ 18,627	\$ 10,852
Net cash used in investing activities	(1,741)	(69,932)
Net cash (used in) provided by financing activities	(15,582)	50,515
Net increase (decrease in) cash and cash equivalents	\$ 1,304	\$ (8,565)

Our operating cash flow is primarily affected by the overall profitability of our contracts, our ability to invoice and collect from our clients in a timely manner, and our ability to manage our vendor payments. We bill most of our clients monthly after services are rendered. Cash provided by operations for the six months ended June 28, 2008 was attributable to net income of \$7.3 million, plus depreciation, amortization and other non-cash items of \$5.5 million, and a decrease in net accounts receivable of \$5.8 million, due to the improvement in days sales outstanding from 78 days to 71 days for the six months ended June 28, 2008. Cash provided by operations in the six months ended June 30, 2007 was attributable to net income of \$9.8 million, plus depreciation, amortization and other non-cash items of \$4.2 million, offset by an increase in working capital and other operating assets and liabilities of \$3.1 million.

Our cash flow used in investing activities consists primarily of capital expenditures, the purchase and sale of marketable securities, and acquisitions. In the six months ended June 28, 2008, we purchased capital assets totaling \$1.7 million. During the six months ended June 30, 2007, we paid \$60.2 million for the LOGTEC acquisition, net of cash assumed, repaid \$6.0 million of note payable to the former owners of Zen, and invested \$3.8 million in capital assets.

Table of Contents

Our cash flow from financing activities consists primarily of borrowings under and payments on our credit facility and proceeds from the issuance and exercise of common stock, and payment for repurchase of common stock under our stock repurchase program. For the six months ended June 28, 2008, cash flow used in financing activities consists of repayment of the line of credit and term loan portions under our prior and current credit facilities of \$129.3 million, repurchase of common stock of \$2.5 million, and debt issuance costs of \$0.9 million, partially offset by the proceeds of \$0.3 million from the exercise of stock options, plus proceeds of our credit facility refinancing of \$116.8 million. Cash provided by financing activities for the six months ended June 30, 2007 consists of borrowings of \$25.0 million under the newly amended term loan, borrowings of \$25.0 million under the revolving line of credit, and proceeds of \$0.9 million from the exercise of stock options, partially offset by the \$0.4 million repayments of the term loan portion of our credit facility and capital lease.

Results of Operations

The following table sets forth certain items from our consolidated statements of operations as a percentage of revenues for the periods indicated:

	Three Months Ended		Six Months Ended	
	June 28, 2008	June 30, 2007	June 28, 2008	June 30, 2007
Revenue	100.0%	100.0%	100.0%	100.0%
Operating costs and expenses:				
Cost of services	66.1	62.1	65.9	62.2
Selling, general and administrative	26.7	28.4	26.9	28.3
Depreciation and amortization	0.7	0.7	0.8	0.7
Amortization of intangible assets	0.8	0.6	0.8	0.6
Total operating costs and expenses	94.3	91.8	94.4	91.8
Income from operations	5.7	8.2	5.6	8.2
Interest expense, net	(1.1)	(1.3)	(1.2)	(1.3)
Income before provision for income taxes	4.6	6.9	4.4	6.9
Provision for income taxes	1.9	2.7	1.8	2.7
Net income	2.7%	4.2%	2.6%	4.2%

Three months ended June 28, 2008 compared with three months ended June 30, 2007

Revenue. For the three months ended June 28, 2008, our revenues increased 20.2% to \$142.8 million from \$118.8 million for the three months ended June 30, 2007. Revenues from work under Federal Government contracts increased 21.1% to \$141.7 million for the three months ended June 28, 2008 from \$117.0 million for the three months ended June 30, 2007. This increase was primarily attributable to the acquisition of LOGTEC, Inc., along with new contract awards, successful recompetition wins on existing programs, new contracts from and growth within existing programs in our four focus areas: Federal IT Modernization, Defense Transformation, Homeland Defense, and Mission-Critical Outsourcing. We continue to focus primarily on opportunities for the Federal Government.

Cost of services. Cost of services include direct labor and other direct costs such as materials and subcontractor costs, incurred to provide our services and solutions to our customers. Generally, changes in costs of services are correlated to changes in revenue as resources are consumed in the production of that revenue. For the three months ended June 28, 2008, cost of services increased 28.2% to \$94.5 million from \$73.7 million for the three months ended June 30, 2007. This increase was attributable primarily to the increase in revenue. As a percentage of

Edgar Filing: SI INTERNATIONAL INC - Form 10-Q

revenue, cost of services was 66.1% for the three months ended June 28, 2008 as compared to 62.1% for the three months ended June 30, 2007. The increase in cost of services, as a percentage of revenue, is due primarily to the Company increasing its use of subcontractors on programs for which we are acting as the prime contractor and higher costs during the quarter related to certain fixed price contracts.

Selling, general and administrative expenses. Selling, general and administrative expenses include facilities, selling, bid and proposal, indirect labor, fringe benefits and other discretionary costs. For the three months ended June 28, 2008, indirect costs increased 13.4% to \$38.1 million from \$33.6 million for the three months ended June 30, 2007. This \$4.5 million increase was primarily attributable to the expected growth of support functions necessary to facilitate and administer the growth in direct costs, as well as the integration of LOGTEC, Inc. As a percentage of revenue, selling, general and administrative costs were 26.7% for the three months ended June 28, 2008 as compared to 28.4% for the three months ended June 30, 2007.

Table of Contents

Depreciation and amortization. Depreciation and amortization includes the depreciation of computers, furniture and other equipment, the amortization of third party software we use internally, and the depreciation of leasehold improvements. For the three months ended June 28, 2008, depreciation expense was \$1.0 million, an increase of 25.0% compared to \$0.8 million for the three months ended June 30, 2007. As a percentage of revenue, depreciation expense was 0.7% for both the three months ended June 28, 2008 and June 30, 2007.

Amortization of intangible assets. Amortization of intangible assets includes the amortization of intangible assets acquired in connection with acquisitions. Identifiable intangible assets are amortized over their estimated useful lives. Non-compete agreements are generally amortized straight-line over the term of the agreement, while contracts and related client relationships are amortized using an accelerated method over their estimated useful lives. For the three months ended June 28, 2008, amortization of intangible assets was \$1.1 million, compared to \$0.8 million for the three months ended June 30, 2007. As a percentage of revenue, amortization of intangible assets was 0.8% for the three months ended June 28, 2008 compared to 0.6% for the three months ended June 30, 2007, with the increase due to the acquisition of LOGTEC, Inc.

Income from operations. For the three months ended June 28, 2008, income from operations decreased 17.3% to \$8.1 million from \$9.8 million for the three months ended June 30, 2007. This decrease was attributable primarily to increased costs of services, as described above. As a percentage of revenue, income from operations was 5.7% for the three months ended June 28, 2008 compared to 8.2% for the three months ended June 30, 2007.

Interest expense, net. Interest expense, net remained at \$1.6 million for the three months ended June 28, 2008 when compared to the quarter ended June 30, 2007. As a percentage of revenue, interest expense, net was 1.1% for the three months ended June 28, 2008 as compared to 1.3% for the three months ended June 30, 2007.

Provision for income taxes. The provision for income taxes was \$2.7 million in the three months ended June 28, 2008, compared to \$3.2 million for the three months ended June 30, 2007. Our second quarters of 2008 and 2007 tax provision, represent an estimated annual effective tax rate of 40.9%, and 39.1%, respectively. Our estimated annual effective tax rate of 40.5% for 2008 is greater than the federal statutory rate of 35% due primarily to state income taxes, the tax impact related to our non-qualified deferred compensation plan and certain non-deductible stock compensation costs.

Six months ended June 28, 2008 compared with six months ended June 30, 2007

Revenue. For the six months ended June 28, 2008, our revenues increased 19.2% to \$277.2 million from \$232.5 million for the six months ended June 30, 2007. Revenues from work under Federal Government contracts increased 20.2% to \$274.9 million for the six months ended June 28, 2008 from \$228.7 million for the six months ended June 30, 2007. This increase was primarily attributable to the acquisition of LOGTEC, Inc., along with new contract awards, successful re-competition wins on existing programs, new contracts from and growth within existing programs in our four focus areas: Federal IT Modernization, Defense Transformation, Homeland Defense, and Mission-Critical Outsourcing. We continue to focus primarily on opportunities for the Federal Government.

Cost of services. Cost of services include direct labor and other direct costs such as materials and subcontractor costs, incurred to provide our services and solutions to our customers. Generally, changes in costs of services are correlated to changes in revenue as resources are consumed in the production of that revenue. For the six months ended June 28, 2008, cost of services increased 26.3% to \$182.7 million from \$144.6

Edgar Filing: SI INTERNATIONAL INC - Form 10-Q

million for the six months ended June 30, 2007. This increase was attributable primarily to the increase in revenue. As a percentage of revenue, cost of services was 65.9% for the six months ended June 28, 2008 as compared to 62.2% for the six months ended June 30, 2007. The increase in cost of services, as a percentage of revenue, is due primarily to the Company increasing its use of subcontractors on programs for which we are acting as the prime contractor and higher costs during the quarter related to certain fixed price contracts.

Selling, general and administrative expenses. Selling, general and administrative expenses include facilities, selling, bid and proposal, indirect labor, fringe benefits and other discretionary costs. For the six months ended June 28, 2008, indirect costs increased 13.5% to \$74.6 million from \$65.7 million for the six months ended June 30, 2007. This \$8.9 million increase was primarily attributable to the expected growth of support functions necessary to facilitate and administer the growth in direct costs, as well as the integration of LOGTEC, Inc. As a percentage of revenue, selling, general and administrative costs were 26.9% for the six months ended June 28, 2008 as compared to 28.3% for the six months ended June 30, 2007.

Depreciation and amortization. Depreciation and amortization includes the depreciation of computers, furniture and other equipment, the amortization of third party software we use internally, and the depreciation of leasehold improvements. For the six months ended June 28, 2008, depreciation expense was \$2.1 million, an increase of 31.3% compared to \$1.6 million for the six months ended June 30, 2007. As a percentage of revenue, depreciation expense was 0.8% for the six months ended June 28, 2008 compared to 0.7% for the six months ended June 30, 2007.

Table of Contents

Amortization of intangible assets. Amortization of intangible assets includes the amortization of intangible assets acquired in connection with acquisitions. Identifiable intangible assets are amortized over their estimated useful lives. Non-compete agreements are generally amortized straight-line over the term of the agreement, while contracts and related client relationships are amortized using an accelerated method over their estimated useful lives. For the six months ended June 28, 2008, amortization of intangible assets was \$2.2 million, compared to \$1.5 million for the six months ended June 30, 2007. As a percentage of revenue, amortization of intangible assets was 0.8% for the six months ended June 28, 2008 compared to 0.6% for the six months ended June 30, 2007, with the increase due to the acquisition of LOGTEC, Inc.

Income from operations. For the three months ended June 28, 2008, income from operations decreased 17.9% to \$15.6 million from \$19.0 million for the six months ended June 30, 2007. This decrease was attributable primarily to increased costs of services, as described above. As a percentage of revenue, income from operations was 5.6% for the six months ended June 28, 2008 compared to 8.2% for the six months ended June 30, 2007.

Interest expense, net. Interest expense, net increased 13.3% to \$3.4 million for the six months ended June 28, 2008 from \$3.0 million for the six months ended June 30, 2007. This increase was attributable primarily to an increase in debt resulting from our acquisition of LOGTEC, Inc. The weighted average borrowings under our credit facility for the six months ended June 28, 2008 were \$31.1 million higher than the weighted average borrowings under our credit facility for the six months ended June 30, 2007. As a percentage of revenue, interest expense, net was 1.2% for the six months ended June 28, 2008 as compared to 1.3% for the six months ended June 30, 2007.

Provision for income taxes. The provision for income taxes was \$4.9 million in the six months ended June 28, 2008, compared to \$6.3 million for the six months ended June 30, 2007. Our second quarters 2008 and 2007 tax provision, represent an estimated annual effective tax rate of 40.5%, and 39.2%, respectively. Our estimated annual effective tax rate is greater than the federal statutory rate of 35% due primarily to state income taxes, the tax impact related to our non-qualified deferred compensation plan, and certain non-deductible stock compensation costs.

Off-Balance Sheet Arrangements

As of June 28, 2008, we have no off-balance sheet arrangements that are reasonably likely to have a current or future material effect on our financial condition, revenues, or expenses, result of operations, liquidity, capital expenditures, or capital resources.

Critical Accounting Policies and Estimates

Our significant accounting policies are described in Note 2 to our accompanying consolidated financial statements. We consider the accounting policies in this section to be critical to the understanding of our results of operations. Our critical accounting policies include the areas where we have made what we consider to be particularly difficult, subjective or complex judgments in making estimates, and where these estimates can significantly impact our financial results under different assumptions and conditions. We prepare our financial statements in conformity with U.S. generally accepted accounting principles. As such, we are required to make certain estimates, judgments and assumptions that we believe are reasonable based upon the information available. These estimates, judgments and assumptions affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the periods presented. Actual results could be different from these estimates.

Revenue Recognition

The Company recognizes revenue when a contract has been executed, the contract price is fixed and determinable, delivery of services or products has occurred, and collectibility of the contract price is considered probable and can be reasonably estimated. Revenue is earned under cost reimbursable, time and materials and fixed price contracts.

Under cost reimbursable contracts, the Company is reimbursed for allowable costs, and paid a fee, which may be fixed or performance-based. Revenues on cost reimbursable contracts are recognized as costs are incurred plus an estimate of applicable fees earned. The Company considers fixed fees under cost reimbursable contracts to be earned in proportion of the allowable costs incurred in performance of the contract. For cost reimbursable contracts that include performance based fee incentives, the Company recognizes the relevant portion of the expected fee to be awarded by the customer at the time such fee can be reasonably estimated, based on factors such as the Company's prior award experience and communications with the customer regarding performance. Other performance based fees are recognized upon customer approval.

Revenues on time and materials contracts are recognized based on direct labor hours expended at contract billing rates and adding other billable direct costs. For fixed price contracts that are based on unit pricing or level of effort, the Company recognizes revenue for the number of units delivered in any given fiscal period. For fixed price contracts in which the Company is paid a specific amount to provide a particular service for a stated period of time, revenue is recognized ratably over the service period.

For fixed price contracts that provide for the delivery of a specific product with related customer acceptance provisions, revenues are recognized upon product delivery and customer acceptance. A significant portion of the Company's fixed price-completion

Table of Contents

contracts involve the design and development of complex, client systems. For those contracts that are within scope of SOP 81-1, revenue is recognized on the percentage-of-completion method using costs incurred in relation to total estimated costs.

The Company's contracts with agencies of the government are subject to periodic funding by the respective contracting agency. Funding for a contract may be provided in full at inception of the contract or ratably throughout the contract as the services are provided. In evaluating the probability of funding for purposes of assessing collectibility of the contract price, the Company considers its previous experiences with its customers, communications with its customers regarding funding status, and the Company's knowledge of available funding for the contract or program. If funding is not assessed as probable, revenue recognition is deferred until realization is deemed probable.

Contract revenue recognition inherently involves estimation, including the contemplated level of effort to accomplish the tasks under contract, the cost of the effort, and an ongoing assessment of progress toward completing the contract. From time to time, as part of the normal management processes, facts develop that require revisions to estimated total costs or revenues expected. The cumulative impact of any revisions to estimates and the full impact of anticipated losses on contracts accounted for under SOP 81-1 are recognized in the period in which they become known. Losses on all other contracts are recognized as the services and materials are provided.

The allowability of certain costs under government contracts is subject to audit by the government. Certain indirect costs are charged to contracts using provisional or estimated indirect rates, which are subject to later revision based on government audits of those costs. Management is of the opinion that costs subsequently disallowed, if any, would not be significant.

Stock Based Compensation

Effective January 1, 2006, the Company adopted the provisions of Statement of Financial Accounting Standards (SFAS) No. 123R, *Share Based Payment*, using the modified prospective transition method. Due to the use of the modified prospective method, prior interim periods and fiscal years do not reflect any restated amounts. The Company accelerated the vesting of unvested stock options previously awarded to employees, officers and directors in December 2005; thus the Company had no unvested stock options on January 1, 2006. Since January 1, 2006, the Company has issued 689,325 stock options and restricted stock awards through June 28, 2008. The total stock compensation expense recognized for stock options and restricted stock awards during the quarter ended June 28, 2008 was \$0.5 million. The total remaining unrecognized compensation expense related to the unvested options and restricted stock awards as of June 28, 2008 was \$3.9 million and \$3.3 million, respectively.

Item 3. Quantitative and Qualitative Disclosures about Market Risk.

We are exposed to certain financial market risks, the most predominant being fluctuations in interest rates for borrowings under our credit facility. Interest rate fluctuations are monitored by our management as an integral part of our overall risk management program, which recognizes the unpredictability of financial markets and seeks to reduce the potentially adverse effect on our results of operations. As part of this strategy, we may use interest rate swap arrangements to manage or hedge our interest rate risk. We do not use derivative financial instruments for speculative or trading purposes.

Edgar Filing: SI INTERNATIONAL INC - Form 10-Q

As of June 28, 2008, we had \$101.8 million outstanding under our Second Amended Credit Agreement. A 1% change in interest rates would have resulted in our interest expense fluctuating by approximately \$255,000 for the three months ended June 28, 2008.

Effective August 13, 2007, an interest swap agreement came into effect which reduced our exposure associated with the market volatility of floating LIBOR interest rates. This agreement has a notional principal amount of \$60.0 million and, as of June 28, 2008, had a fixed rate of 5.045%. This agreement is a hedge against term debt, which bears interest at LIBOR plus a margin which has a current rate of 3.94%. At stated monthly intervals the difference between the interest on the floating LIBOR-based debt and the interest calculated in the swap agreement are settled in cash. The estimated value of the swap at June 28, 2008 was a current liability of \$2.1 million.

In addition, historically, our investment positions have been relatively small and short-term in nature. We have typically made investments in a fund with an effective average maturity of fewer than 40 days and a portfolio make-up consisting primarily of commercial paper and notes, variable rate instruments, and, to a lesser degree, overnight securities and bank instruments. Since our initial public offering, the Board of Directors approved an investment policy that requires us to invest in relatively short-term, high quality, and high liquidity obligations.

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures. The Company performed an evaluation under the supervision and with the participation of management, including the Company's Chief Executive Officer and Chief Financial Officer, of the design and operation of the Company's disclosure controls and procedures as of June 28, 2008. Based upon the evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that, as of June 28, 2008, the Company's disclosure controls and procedures were effective.

Table of Contents

Changes in Internal Control Over Financial Reporting. During the quarter ended June 28, 2008, there were no changes in the Company's internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, the Company's internal control for financial reporting.

PART II: OTHER INFORMATION**Item 1. Legal Proceedings**

We are a party to litigation and legal proceedings that we believe to be a part of the ordinary course of our business. While we cannot predict the ultimate outcome of these matters, we currently believe that any ultimate liability arising out of these proceedings will not have a material adverse effect on our financial position. We may become involved in other legal and governmental, administrative or contractual proceedings in the future.

The Shenandoah Electronic Intelligence, Inc. (SEI) acquisition agreement provides for a purchase price adjustment based upon the working capital of SEI as of the closing date. Subsequent to the closing date, we received a payment of \$1.6 million in connection with services performed prior to the closing date that SEI had not previously billed, and was not authorized to bill, its customer as of the closing date. The SEI selling stockholders have asserted that they are entitled to a credit in connection with the calculation of working capital adjustment in an amount equal to the amount received by us for this post-closing payment. We believe that, in accordance with generally accepted accounting principles, the SEI selling stockholders should not receive the benefit of the post-closing payment. In accordance with the terms of the SEI acquisition agreement, the parties have jointly submitted the issue to an independent accounting firm for resolution. We anticipate that this matter will be resolved before the end of 2008.

Item 1A. Risk Factors

There are no material updates to the risk factors previously disclosed in our Form 10-K for the year ended December 29, 2007.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Month	Shares Purchased	Average Price per Share
May 2008	26,300	\$ 23.92
June 2008	82,964	\$ 22.90
Total for quarter ended June 28, 2008	109,264	\$ 23.15
Total shares purchased under the trading plan	109,264	\$ 23.15

Total shares remaining to be purchased under trading plan	890,736
---	---------

Item 3. Defaults upon Senior Securities

None.

Table of Contents**Item 4. Submission of Matters to a Vote of Security Holders**

During the fiscal quarter ended June 28, 2008, we submitted certain matters to a vote of our stockholders through the notice of annual meeting of stockholders and the solicitation of proxies related thereto. The proxy materials related to the Registrant's Sixth Annual Meeting of Stockholders were distributed on or about May 7, 2008 and the annual meeting of stockholders was held on June 9, 2008 in Vienna, Virginia. As of the record date prior to such meeting, 13,268,039 shares of our common stock were outstanding and entitled to vote at the meeting. At the annual stockholders meeting of June 9, 2008, 12,813,394 shares of our common stock were present in person or by proxy, representing 96.6% of our outstanding shares of common stock.

The following sets forth the matters presented for a vote by the stockholders and the votes cast for, withheld, abstained, and broker non-votes:

Matter	Votes For	Votes Withheld	Abstentions	Broker Non-Votes
(1) Election of Mr. S. Bradford Antle as a Class III director with a term serving until the 2011 Annual Meeting	11,841,799	971,595		
(2) Election of Ms. Maureen A. Baginski as a Class III director with a term serving until the 2011 Annual Meeting	11,843,360	970,034		
(3) Election of Mr. James E. Crawford, III as a Class III director with a term serving until the 2011 Annual Meeting	11,823,460	989,934		
(4) Ratification of the appointment of Ernst & Young LLP as our independent auditors for the current fiscal year	12,748,088	44,140	21,166	

Item 5. Other Information

None.

Item 6. Exhibits

The exhibits required by this item are set forth on the Index to Exhibits attached hereto.
