1. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying unaudited consolidated financial statements of Griffin Land & Nurseries, Inc. (Griffin) reflect Griffin s real estate business, conducted through its wholly-owned subsidiary, Griffin Land, LLC (Griffin Land) and Griffin s landscape nursery business, conducted through its wholly-owned subsidiary, Imperial Nurseries, Inc. (Imperial) that is reported as a discontinued operation (see below). Griffin Land is principally engaged in the development, management and leasing of industrial and commercial properties. Periodically, Griffin Land may sell certain portions of its undeveloped land that it has owned for an extended time period and the use of which is not consistent with Griffin Land s core development and leasing strategy.

Imperial s growing operations are reflected in the accompanying unaudited consolidated financial statements as a discontinued operation due to the sale, effective January 8, 2014, of its inventory and certain of its assets (the Imperial Sale) to Monrovia Connecticut LLC (Monrovia), a subsidiary of Monrovia Nursery Company (see Notes 2, 4 and 10). Concurrent with the Imperial Sale, a subsidiary of Griffin and Imperial entered into a long-term lease with Monrovia for Imperial s Connecticut production nursery. As the growing operations of Imperial are reflected as a discontinued operation in Griffin s unaudited consolidated financial statements, Griffin s continuing operations presented in the accompanying financial statements solely reflect its real estate business and, therefore, industry segment information is not presented. Accordingly, certain prior period amounts in Griffin s unaudited consolidated financial statements have been reclassified to conform to the current presentation which better reflects Griffin s real estate business, including presentation of an unclassified balance sheet consistent with real estate industry practice. Certain parts of Imperial s prior year results, such as rental revenue and expense related to the leasing of Imperial s Florida farm to another grower and certain expenses related to the property and equipment of Imperial s Connecticut farm, which continues to be owned by Griffin and leased to Monrovia, are included in Griffin s continuing operations.

Through the fiscal year ended November 30, 2013 (fiscal 2013), Griffin reported on a 52-53 week fiscal year that ended on the Saturday nearest November 30 and included four quarters of 13 weeks each. Starting in the fiscal year ending November 30, 2014 (fiscal 2014), Griffin is reporting on a twelve month fiscal year that will end on November 30 with interim periods comprised of three months that end on the last day of the third month of each quarter. Accordingly, the fiscal 2014 third quarter ended on August 31, 2014.

These financial statements have been prepared in conformity with the standards of accounting measurement set forth by Financial Accounting Standards Board (FASB) ASC 270, Interim Reporting. The accompanying financial statements have been prepared in accordance with the accounting policies stated in Griffin s consolidated audited financial statements for fiscal 2013 included in Griffin s Annual Report on Form 10-K as filed with the Securities and Exchange Commission on February 13, 2014, and should be read in conjunction with the Notes to Consolidated Financial Statements appearing in that report. All adjustments, comprising only normal recurring adjustments, which are, in the opinion of

Edgar Filing: GRIFFIN LAND & NURSERIES INC - Form 10-Q

management, necessary for a fair presentation of results for the interim periods, have been reflected and all intercompany transactions have been eliminated. The consolidated balance sheet data as of November 30, 2013 was derived from Griffin's audited financial statements but

Table of Contents

does not include all disclosures required by accounting principles generally accepted in the United States of America (U.S. GAAP).

The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses in the reporting period. Griffin regularly evaluates estimates and assumptions related to the useful life and recoverability of long-lived assets, stock-based compensation expense, deferred income tax asset valuations, valuation of derivative instruments and the estimated costs to complete required offsite improvements to land sold. Griffin bases its estimates and assumptions on current facts, historical experience and various other factors that it believes to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities and the accrual of costs and expenses that are not readily apparent from other sources. The actual results experienced by Griffin may differ materially and adversely from Griffin's estimates. To the extent there are material differences between the estimates and the actual results, future results of operations will be affected.

As of August 31, 2014, Griffin was a party to several interest rate swap agreements to hedge its interest rate exposures. Griffin does not use derivatives for speculative purposes. Griffin applies FASB ASC 815-10, Derivatives and Hedging, (ASC 815-10) as amended, which establishes accounting and reporting standards for derivative instruments and hedging activities. ASC 815-10 requires Griffin to recognize all derivatives as either assets or liabilities on its consolidated balance sheet and measure those instruments at fair value. The changes in the fair values of the interest rate swap agreements are assessed in accordance with ASC 815-10 and reflected in the carrying values of the interest rate swap agreements on Griffin's consolidated balance sheet. The estimated fair values are based primarily on projected future swap rates.

Griffin applies cash flow hedge accounting to its interest rate swap agreements that are designated as hedges of the variability of future cash flows from floating rate liabilities based on the benchmark interest rates. The change in fair values of Griffin's interest rate swap agreements are recorded as components of accumulated other comprehensive income in stockholders' equity to the extent they are effective. Any ineffective portions of the change in fair value of these instruments would be recorded as interest expense.

The results of operations for the three months ended August 31, 2014 (the 2014 third quarter) and the nine months ended August 31, 2014 (the 2014 nine month period) are not necessarily indicative of the results to be expected for the full year. The thirteen and thirty-nine weeks ended August 31, 2013 are referred to herein as the 2013 third quarter and 2013 nine month period, respectively.

Recent Accounting Pronouncements

In May 2014, the FASB issued Accounting Standards Update No. 2014-09, Revenue from Contracts with Customers, which outlines a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and supersedes most current revenue recognition guidance, including industry specific guidance. This standard requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. Additionally, the update requires improved disclosures to help users of financial statements better understand the nature, amount, timing and uncertainty of revenue that is recognized. The update permits the use of either the retrospective or cumulative effect transition method. This update will be effective for Griffin in fiscal 2018 and early adoption is not permitted. Certain aspects of this new standard may affect revenue recognition of Griffin Land. Griffin is evaluating the impact that the application of this update will have on its consolidated financial statements.

Table of Contents

In July 2013, the FASB issued Accounting Standards Update No. 2013-11, Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists, which provides guidance on the financial statement presentation of an unrecognized tax benefit when a net operating loss carryforward, a similar tax loss, or a tax credit carryforward exists. Specifically, this update requires that an unrecognized tax benefit, or a portion of an unrecognized tax benefit, be presented in the financial statements as a reduction to a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward, with certain exceptions. This update was effective for Griffin in the 2014 second quarter. The adoption of this guidance did not have an impact on Griffin's financial position or results of operations.

2. Discontinued Operation

Effective January 8, 2014, in accordance with the terms of the Imperial Sale (see Notes 1, 4 and 10), Imperial sold its inventory and certain assets for \$732 in cash and a non-interest bearing note receivable of \$4,250 (the Promissory Note). Net cash of \$732 was received from Monrovia in the 2014 nine month period and Griffin paid \$563 in severance and other expenses. The Promissory Note is due in two installments: \$2,750 was due on June 1, 2014 and \$1,500 is due on June 1, 2015. The Promissory Note was discounted at 7% to its present value of \$4,036 at inception and is secured by an irrevocable letter of credit. In the 2014 third quarter, Griffin received payment of the \$2,750 installment from Monrovia. Under the terms of the Imperial Sale, Griffin and Imperial agreed to indemnify Monrovia for any potential environmental liabilities relating to periods prior to the effective date of the Imperial Sale and also agreed to certain non-competition restrictions for a four-year period.

Concurrent with the Imperial Sale, Imperial and River Bend Holdings, LLC, a wholly-owned subsidiary of Griffin, entered into a Lease and Option Agreement and an Addendum to such agreement (the Imperial Lease, and together with the Imperial Sale, the Imperial Transaction) with Monrovia, pursuant to which Monrovia is leasing Imperial's Connecticut production nursery for a ten-year period, with options to extend for up to an additional fifteen years exercisable by Monrovia. The Imperial Lease provides for net annual rent payable to Griffin of \$500 for each of the first five years with rent for subsequent years determined in accordance with the Imperial Lease. The Imperial Lease also grants Monrovia an option to purchase most of the land, land improvements and other operating assets that were used by Imperial in its Connecticut growing operations during the first thirteen years of the lease period for \$10,500, or \$7,000 if only a certain portion of the land is purchased, subject in each case to certain adjustments as provided for in the Imperial Lease. Accordingly, the operating results of Imperial's growing operations are reflected as a discontinued operation in Griffin's consolidated statements of operations for all periods presented and the assets and liabilities of the growing operations of Imperial (excluding those assets that are part of the Imperial Lease) are shown as assets and liabilities of the discontinued operation on Griffin's consolidated balance sheets. The property and equipment previously used by Imperial and currently leased to Monrovia was reclassified on January 8, 2014 from property and equipment to real estate assets on Griffin's consolidated balance sheet. The property and equipment had a cost of \$11,485 and accumulated depreciation of \$9,850 at the time it was reclassified (see Notes 4 and 6).

Revenue and the pretax income (loss) from Imperial's growing operations, reflected as a discontinued operation in Griffin's consolidated statements of operations, were as follows:

The pretax income of Imperial's discontinued operation in the 2014 nine month period includes \$451 for the reclassification of actuarial gains related to Griffin's postretirement benefits program from other comprehensive income into pretax income as a result of the termination of Griffin's postretirement benefits program (see Note 10).

In the thirteen weeks ended November 30, 2013 (the 2013 fourth quarter), a charge of \$10,400 was included in cost of landscape nursery sales to reduce Imperial's nursery inventories to fair value, which was the net realizable value based on the terms of the Imperial Sale. The pretax loss from the Imperial Sale in the 2014 nine month period was as follows:

Consideration received from Monrovia, reflecting cash of \$732 and note receivable of \$4,036	\$ 4,768

3. Fair Value

Griffin applies the provisions of FASB ASC 820, Fair Value Measurement (ASC 820), which establishes a fair value hierarchy that requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. An asset or liability's

Table of Contents

categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement. ASC 820 establishes three levels of inputs that may be used to measure fair value, as follows:

Level 1 applies to assets or liabilities for which there are quoted market prices in active markets for identical assets or liabilities. Griffin's available-for-sale securities are considered Level 1 within the fair value hierarchy.

Level 2 applies to assets or liabilities for which there are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, such as quoted prices for similar assets or liabilities in active markets; quoted prices for assets or liabilities in markets with insufficient volume or infrequent transactions (less active markets); or model-derived valuations in which significant inputs are observable or can be derived principally from, or corroborated by, observable market data. Level 2 liabilities include Griffin's interest rate swap derivatives (see Note 7). These inputs are readily available in public markets or can be derived from information available in publicly quoted markets; therefore, Griffin has categorized these derivative instruments as Level 2 within the fair value hierarchy.

Level 3 applies to assets or liabilities for which there are unobservable inputs to the valuation methodology that are significant to the measurement of the fair value of the assets or liabilities.

During the 2014 nine month period, Griffin did not transfer any assets or liabilities in or out of Levels 1 or 2. The following are Griffin's financial assets and liabilities carried at fair value and measured at fair value on a recurring basis:

	Quoted Prices in Active Markets for Identical Assets (Level 1)	August 31, 2014 Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Marketable equity securities	\$ 1,916	\$	\$

The carrying and estimated fair values of Griffin's financial instruments are as follows:

	Fair Value Hierarchy Level	August 31, 2014		November 30, 2013	
		Carrying Value	Estimated Fair Value	Carrying Value	Estimated Fair Value
Financial assets:					
Cash and cash equivalents	1	\$ 16,490	\$ 16,490	\$ 14,179	\$ 14,179

Mortgage loans	2	70,673	71,024	66,708	67,931
Interest rate swaps	2	2,130	2,130	2,285	2,285

The fair values of the available-for-sale securities are based on quoted market prices. The fair values of the mortgage debt are estimated based on current rates offered to Griffin for similar debt of the same remaining maturities, and additionally, Griffin considers its credit worthiness in determining the fair value of its debt. The fair values of the interest rate swaps (used for purposes other than trading) are determined based on discounted cash flow models that incorporate the cash flows of the derivatives as well as the current OIS rate and swap curve along with other market data, taking into account current interest rates and the credit worthiness of the counterparty for assets and the credit worthiness of Griffin for liabilities.

4. Real Estate Assets

Real estate assets consist of:

	Estimated Useful Lives	August 31, 2014		November 30, 2013	
Land		\$ 17,961	\$ 17,507		
Land improvements	10 to 30 years	18,422	15,529

Included in real estate assets, net as of August 31, 2014 was \$1,500 reflecting the net book value of Imperial's Connecticut farm assets that were leased to Monrovia effective January 8, 2014 (see Notes 1, 2 and 6). Prior to that date, these assets were reported as part of property and equipment. The assets

reclassified from property and equipment to real estate assets had a cost of \$11,485, net of accumulated depreciation of \$9,850 at the time of the reclassification.

Total depreciation expense and capitalized interest related to real estate assets, net were as follows:

	For the Three Months Ended,		For the Nine Months Ended,	
	August 31,	August 31,	August 31,	August 31,
	2014	2013	2014	2013

Capitalized interest	\$ 49	\$	\$ 424	\$

In the 2013 fourth quarter, Griffin Land completed the sale of approximately 90 acres of undeveloped land for approximately \$9,000 in cash, before transaction costs (the Windsor Land Sale). The land sold is located in Windsor, Connecticut and is part of an approximately 268 acre parcel of undeveloped land that straddles the town line between Windsor and Bloomfield, Connecticut. Under the terms of the Windsor Land Sale, Griffin Land and the buyer will each construct roadways connecting the land parcel sold with existing town roads. The roads to be built will become new town roads, thereby providing public access to the remaining acreage in Griffin Land's land parcel. As a result of Griffin Land's continuing involvement with the land sold, the Windsor Land Sale is being accounted for under the percentage of completion method, whereby the revenue and gain on the sale are being recognized as the total costs related to the property sold are incurred. At the closing of the Windsor Land Sale, cash proceeds of \$8,860 were placed in escrow for the potential purchase of a replacement property in a like-kind exchange under Section 1031 of the Internal Revenue Code of 1986, as amended, which was reflected as Proceeds Held in Escrow on Griffin's consolidated balance sheet as of November 30, 2013. The proceeds held in escrow were returned to Griffin in the 2014 second quarter as a replacement property was not acquired.

As of August 31, 2014, approximately 44% of the total costs related to the Windsor Land Sale have been incurred; therefore, from the date of the Windsor Land Sale through August 31, 2014, approximately 44% of the total revenue and pretax gain on the sale have been recognized in Griffin's consolidated statements of operations. Griffin's consolidated statements of operations for the 2014 third quarter and 2014 nine month period include revenue of \$904 and \$1,274, respectively, and a pretax gain of \$674 and \$950, respectively, from the Windsor Land Sale. The balance of the revenue and pretax gain on sale will be recognized when the remaining costs are incurred, which is expected to take place mostly in the fourth quarter of fiscal 2014 and the first half of fiscal 2015. Included on Griffin's consolidated balance sheet as of August 31, 2014, is deferred revenue of \$5,027 that will be recognized as the remaining costs are incurred (see Note 10). Including the pretax gain on sale of \$1,990 recognized in fiscal 2013 and \$950 recognized in the 2014 nine month period, the total pretax gain on the Windsor Land Sale is expected to be approximately \$6,688 after all revenue is recognized and all costs are incurred. While management has used its best estimates, based on industry knowledge and experience, in projecting the total costs of the required roadways, increases or decreases in future costs as compared with current estimated amounts would reduce or increase the gain recognized in future periods.

Real estate assets held for sale consist of:

	August 31, 2014		November 30, 2013
Land	\$ 293	\$	30
Development costs	9,657		1,074
	\$ 9,950	\$	1,104

The increase in real estate held for sale as of August 31, 2014 reflects the reclassification from real estate assets into real estate assets held for sale of costs related to a residential development in Simsbury, Connecticut and two land parcels that are under contract to be sold. The residential development is being offered for sale either in its entirety or in segments.

5. Investments

Centaur Media plc

Griffin's investment in the common stock of Centaur Media plc (Centaur Media) is accounted for as an available-for-sale security under FASB ASC 320-10, Investments - Debt and Equity Securities. Accordingly, changes in the fair value of Centaur Media, reflecting both changes in the stock price and changes in the foreign currency exchange rate, are included, net of income taxes, in accumulated other comprehensive income (see Note 9).

As of November 30, 2013, Griffin held 2,452,462 shares of Centaur Media common stock. In the 2014 nine month period, Griffin sold 500,000 shares of its Centaur Media common stock for total cash proceeds of \$566, after transaction costs. The sale of Centaur Media common stock resulted in a pretax gain of \$318 in the 2014 nine month period. Griffin utilized the average cost method to determine its gain on the sale of Centaur stock. As of August 31, 2014, Griffin held 1,952,462 shares of Centaur Media common stock.

The cost, unrealized gain and fair value of Griffin's investment in Centaur Media are as follows:

	August 31, 2014		November 30, 2013
Fair value	\$ 1,916	\$	2,208
Cost	1,014		1,274
Unrealized gain	\$ 902	\$	934

Shemin Nurseries Holding Corp.

Edgar Filing: GRIFFIN LAND & NURSERIES INC - Form 10-Q

As of December 1, 2012, Griffin held an approximate 14% equity interest in Shemin Nurseries Holding Corp. (SNHC), which operated a landscape nursery distribution business through its subsidiary. Griffin accounted for its investment in SNHC under the cost method of accounting for investments. As a result of cash distributions from SNHC in years prior to fiscal 2013 which were treated as returns of investment, Griffin did not have any remaining book value in its investment in SNHC as of December 1, 2012. On January 18, 2013, Griffin completed the sale of its investment in SNHC for total cash proceeds of \$3,418, resulting in a pretax gain of \$3,397.

As a result of the Imperial Lease, certain assets of the Connecticut farm were reclassified from property and equipment to real estate assets on January 8, 2014. The net book value of the assets reclassified was \$1,635, reflecting cost of \$11,485 net of accumulated depreciation of \$9,850 (see Notes 2 and 4).

Griffin incurred new capital lease obligations of \$53 and \$48 related to equipment acquisitions in the 2014 nine month period and the 2013 nine month period, respectively.

7. Mortgage Loans

Griffin's mortgage loans, which are nonrecourse, consist of:

* Griffin entered into interest rate swap agreements effectively to fix the interest rates on these loans (see below).

As of August 31, 2014, Griffin was a party to several interest rate swap agreements related to its variable rate nonrecourse mortgages on certain of its real estate assets. Griffin accounts for its interest rate swap agreements as effective cash flow hedges (see Note 3). No ineffectiveness on the cash flow

Table of Contents

hedges was recognized as of August 31, 2014 and none is anticipated over the term of the agreements. Amounts in accumulated other comprehensive income (loss) will be reclassified into interest expense over the term of the swap agreements to achieve fixed rates on each mortgage. None of the interest rate swap agreements contain any credit risk related contingent features. In the 2014 nine month period, Griffin recognized a loss (included in other comprehensive loss) before taxes of \$619 on its interest rate swap agreements. In the 2013 nine month period, Griffin recognized a gain (included in other comprehensive loss) before taxes of \$990 on its interest rate swap agreements.

As of August 31, 2014, \$989 was expected to be reclassified over the next twelve months from accumulated other comprehensive loss to interest expense. As of August 31, 2014, the net fair value of Griffin's interest rate swap agreements was \$2,086, with \$44 included in other assets and \$2,130 included in other liabilities on Griffin's consolidated balance sheet.

On June 6, 2014, a subsidiary of Griffin, Griffin Center Development I, LLC, completed the refinancing of its nonrecourse mortgage loan (the GCD Mortgage Loan) with Farm Bureau Life Insurance Company (Farm Bureau) that was due April 1, 2016. The GCD Mortgage Loan is collateralized by a 165,000 square foot flex building in Windsor, Connecticut. At the time of the refinancing, the GCD Mortgage Loan had a balance of \$3,391 and had an interest rate of 8.13%. The refinancing increased the loan amount to \$7,868, reduced the interest rate to 5.09% and extended the loan term to 15 years from the time of the refinancing, with payments based on a 15 year amortization schedule.

Also on June 6, 2014, a subsidiary of Griffin, Tradeport Development I, LLC, completed the refinancing of its nonrecourse mortgage loan (the TD Mortgage Loan) with Farm Bureau that was due October 2, 2017. The TD Mortgage Loan is collateralized by a 100,000 square foot industrial building and a 57,000 square foot industrial building, both located in Windsor, Connecticut. At the time of the refinancing, the TD Mortgage Loan had a balance of \$5,632 and had an interest rate of 7.0%. The refinancing increased the loan amount to \$6,632, reduced the interest rate to 5.09% and extended the loan term to 15 years from the time of the refinancing, with payments based on a 15 year amortization schedule. The mortgage loan proceeds of \$1,000 from the refinancing of the TD Mortgage Loan are being held in escrow. The escrowed funds will be released to Griffin if the 57,000 square foot industrial building, which is expected to become vacant after the current short-term lease of that building expires, is re-leased under terms agreed upon with Farm Bureau. If a replacement lease reflecting the rental terms agreed upon with Farm Bureau is not obtained, the proceeds being held in escrow are required to be used to make a partial prepayment, without penalty, on the TD Mortgage Loan.

The GCD Mortgage Loan and the TD Mortgage Loan are cross-collateralized and cross-defaulted with each other. The loans may not be voluntarily prepaid for seven years; thereafter, any prepayment would require a prepayment fee and the simultaneous prepayment of both loans.

Griffin reported \$51 for the write off of all deferred costs related to the two mortgages refinanced with Farm Bureau as a loss on debt extinguishment on Griffin's consolidated statement of operations.

8. Revolving Credit Agreement

Griffin has a \$12,500 revolving credit line with Webster Bank (the Webster Credit Line) that expires May 1, 2015. Griffin has an option to extend the Webster Credit Line for an additional year. Interest on the outstanding borrowings under the Webster Credit Line are at the one month LIBOR rate plus 2.75%. The Webster Credit Line is collateralized by Griffin Land's properties in Griffin Center South, aggregating approximately 235,000 square feet, and an approximately 48,000 square foot single-story office building in Griffin Center. There have been no

borrowings under the Webster Credit Line since its inception.

- (a) Incremental shares from the assumed exercise of Griffin stock options are not included in periods where the inclusion of such shares would be anti-dilutive. Such assessment is based on income (loss) from continuing operations when net income includes discontinued operations. The incremental shares from the assumed exercise of stock options in the three month and nine month periods ended August 31, 2014 would have been 3,000 and 12,000, respectively. The incremental shares from the assumed exercise of stock options in the three months ended August 31, 2013 would have been 10,000.

Griffin Stock Option Plan

Stock options are granted by Griffin under the Griffin Land & Nurseries, Inc. 2009 Stock Option Plan (the "2009 Stock Option Plan"). Options granted under the 2009 Stock Option Plan may be either incentive stock options or non-qualified stock options issued at fair market value on the date approved by Griffin's Compensation Committee. Vesting of all of Griffin's previously issued stock options is solely based upon service requirements and does not contain market or performance conditions. Stock options issued will expire ten years from the grant date. In accordance with the 2009 Stock Option Plan, stock options issued to non-employee directors upon their initial election to the board of directors are fully exercisable immediately upon the date of the option grant. Stock options issued to non-employee directors upon their reelection to the board of directors vest on the second anniversary from the date of grant. Stock

Griffin did not declare a cash dividend in the 2014 or 2013 nine month periods. During the 2014 first quarter, Griffin paid \$1,029 for the cash dividend declared in the 2013 fourth quarter. During the 2013 first quarter, Griffin paid \$1,028 for the cash dividend declared in the 2012 fourth quarter.

10. Supplemental Financial Statement Information

Deferred Revenue on Land Sale

Included in deferred revenue on Griffin's consolidated balance sheet as of August 31, 2014 is approximately \$5,027 related to the Windsor Land Sale that will be recognized as road construction required by the terms of the Windsor Land Sale is completed (see Note 4).

Supplemental Cash Flow Information

An increase of \$277 in the 2014 nine month period and a decrease of \$535 in the 2013 nine month period in Griffin's Investment in Centaur Media reflect the mark to market adjustments of this investment and did not affect Griffin's cash. In the 2014 nine month period, Griffin sold 500,000 shares of its Centaur Media common stock (see Note 5).

Effective January 8, 2014, in accordance with the terms of the Imperial Sale (see Notes 1, 2 and 4), Imperial sold its inventory and certain assets for \$732 in cash and the Promissory Note. The Promissory Note is due in two installments: \$2,750 was due on June 1, 2014 and \$1,500 is due on June 1, 2015 and was discounted at 7% to its present value of \$4,036 at inception. The Promissory Note is secured by an irrevocable letter of credit. In the 2014 third quarter, Griffin received payment of the \$2,750 installment from Monrovia.

Other Postretirement Benefits

As a result of the Imperial Sale (see Note 2), the liability for postretirement benefits, included in other liabilities on Griffin's consolidated balance sheets, was reduced from \$372 at November 30, 2013 to \$63 in the 2014 first quarter. A curtailment gain of \$309 is included in the determination of the loss on the Imperial Sale.

In the 2014 second quarter, Griffin terminated its postretirement benefits program. Accordingly, the remaining liability under the postretirement benefits program was reversed and all actuarial gains under the postretirement program that had been reflected in accumulated other comprehensive income were reclassified into net income in the 2014 second quarter. As essentially all of the participants in the postretirement benefits program had been employees of Imperial, and charges related to the postretirement benefits program had been included in the results of the landscape nursery business that is now presented as a discontinued operation, the effect of the termination of the postretirement benefits program is mostly reflected in the results of discontinued operation on Griffin's consolidated statement of operations for the 2014 nine month period.

Income Taxes

Griffin's effective income tax rate on continuing operations was 39.5% for the 2014 nine month period as compared to 36.3% in the 2013 nine month period. The effective tax rate in the 2014 nine month period is based on management's projections for the balance of the year. To the extent that actual results differ from current projections, the effective income tax rate may change.

Edgar Filing: GRIFFIN LAND & NURSERIES INC - Form 10-Q

As of August 31, 2014, Griffin's consolidated balance sheet includes a net deferred tax asset of \$7,003. Although Griffin has incurred a cumulative pretax loss from continuing operations (excluding nonrecurring items) for the three fiscal years ended November 30, 2013, management has concluded that a valuation allowance against its net deferred tax assets is not required.

An examination of Griffin's fiscal 2007, fiscal 2008 and fiscal 2009 New York state income tax returns was completed in the 2014 third quarter resulting in an increase of \$4 to state tax expense.

11. Commitments and Contingencies

As of August 31, 2014, Griffin had committed purchase obligations of approximately \$2,456, principally for land improvements to Griffin Land's properties.

Griffin is involved, as a defendant, in various litigation matters arising in the ordinary course of business. In the opinion of management, based on the advice of legal counsel, the ultimate liability, if any, with respect to these matters is not expected to be material, individually or in the aggregate, to Griffin's consolidated financial position, results of operations or cash flows.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Overview

The unaudited consolidated financial statements of Griffin Land & Nurseries, Inc. (Griffin) reflect Griffin's real estate business conducted through its wholly-owned subsidiary, Griffin Land, LLC (Griffin Land), and Griffin's wholly-owned subsidiary in the landscape nursery business, Imperial Nurseries, Inc. (Imperial). Imperial's growing operations are reflected as a discontinued operation in Griffin's consolidated financial statements for all periods presented as a result of the sale (the Imperial Sale) of Imperial's growing operations to Monrovia Connecticut LLC (Monrovia) and the lease of Imperial's Connecticut farm to Monrovia (the Imperial Lease), and together with the Imperial Sale the Imperial Transaction) that became effective January 8, 2014.

The significant accounting policies and methods used in the preparation of Griffin's consolidated financial statements included in Item 1 are consistent with those used in the preparation of Griffin's audited financial statements for the fiscal year ended November 30, 2013 included in Griffin's Annual Report on Form 10-K as filed with the Securities and Exchange Commission on February 13, 2014.

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses in the reporting period. Griffin regularly evaluates estimates and assumptions related to the useful life and recoverability of long-lived assets, stock-based compensation expense, deferred income tax asset valuations and the valuation of derivative instruments. Griffin bases its estimates and assumptions on current facts, historical experience and various other factors that it believes to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities and the accrual of costs and expenses that are not readily apparent from other sources. The actual results experienced by Griffin may differ materially and adversely from Griffin's estimates. To the extent there are material differences between the estimates and the actual results, future results of operations will be affected. The significant accounting estimates used by Griffin in the preparation of its financial statements for the three months and nine months ended August 31, 2014, are consistent with those used by Griffin to prepare its financial statements for the fiscal year ended November 30, 2013 (fiscal 2013).

Summary

For the three months ended August 31, 2014 (the 2014 third quarter), Griffin incurred a loss from continuing operations of approximately \$0.2 million and a net loss of approximately \$0.2 million. For the thirteen weeks ended August 31, 2013 (the 2013 third quarter), Griffin incurred a loss from continuing operations of approximately \$0.5 million, a loss from discontinued operations of approximately \$0.4 million and a net loss of approximately \$0.9 million. Griffin's lower loss from continuing operations in the 2014 third quarter as compared to the 2013 third quarter principally reflects higher operating income in the 2014 third quarter as compared to the 2013 third quarter. The higher operating income principally reflects a higher gain on property sales in the 2014 third quarter as compared to the 2013 third quarter.

For the nine months ended August 31, 2014 (the 2014 nine month period), Griffin incurred a loss from continuing operations of approximately \$1.5 million, income from discontinued operations of approximately \$0.1 million and a net loss of approximately \$1.4 million. For the thirty-nine weeks ended August 31, 2013 (the 2013 nine month period), Griffin had income from continuing operations of approximately \$0.8

million, a loss from discontinued operations of approximately \$0.5 million and net income of approximately \$0.3 million. Griffin's loss from continuing operations in the 2014 nine month

Table of Contents

period as compared to income from continuing operations in the 2013 nine month period principally reflects: (a) the inclusion in the 2013 nine month period of a pretax gain of approximately \$3.4 million from the sale of Griffin's investment in Shemin Nurseries Holding Corp.; and (b) an operating loss of approximately \$0.3 million incurred in the 2014 nine month period as compared to operating income of approximately \$0.5 million in the 2013 nine month period. The lower operating results in the 2014 nine month period as compared to the 2013 nine month period reflect a lower gain on property sales in the 2014 nine month period as compared to the 2013 nine month period.

Results of Operations**2014 Third Quarter Compared to 2013 Third Quarter**

Total revenue increased from approximately \$5.5 million in the 2013 third quarter to approximately \$6.1 million in the 2014 third quarter, reflecting an increase of approximately \$0.6 million in revenue from property sales. Rental revenue of approximately \$5.2 million in the 2014 third quarter was essentially unchanged as compared to the 2013 third quarter.

Rental revenue was essentially unchanged in the 2014 third quarter as compared to the 2013 third quarter, principally reflecting occupancy changes that resulted in: (a) an increase of approximately \$0.3 million of rental revenue from leasing previously vacant space; (b) approximately \$0.1 million from the Imperial Lease; and (c) an increase of approximately \$0.1 million due to additional services performed for tenants; offset by (d) a decrease in rental revenue of approximately \$0.5 million from leases that expired and were not renewed. The increase in rental revenue due to leasing previously vacant space includes rental revenue of approximately \$0.2 million from the full building lease of the 228,000 square foot industrial building in the Lehigh Valley of Pennsylvania that was constructed in the fiscal year ended December 1, 2012 (fiscal 2012) and leased in fiscal 2013, with rental revenue commencing during the 2013 third quarter.

A summary of the square footage of Griffin Land's real estate portfolio is as follows:

	Total Square Footage	Leased Square Footage	Percentage Leased
As of August 31, 2013	2,461,000	2,095,000	85%
As of November 30, 2013	2,461,000	1,939,000	79%
As of August 31, 2014	2,765,000	2,113,000	76%

The increase in total square footage as of August 31, 2014 as compared to November 30, 2013 reflects the completion in the 2014 third quarter of a 304,000 square foot industrial building in the Lehigh Valley of Pennsylvania that was built on speculation. This building, which has not been leased as of the date of this Quarterly Report, is located adjacent to the 228,000 square foot building built in fiscal 2012 and fully leased in fiscal 2013. These two industrial buildings comprise Lehigh Valley Tradeport, which was developed on land acquired in fiscal 2010. Subsequent to the end of the 2014 third quarter, Griffin Land agreed to terms with a prospective tenant for a five year lease of 201,000 square feet in the recently completed industrial building in Lehigh Valley Tradeport. There is no guarantee that Griffin Land will complete a lease agreement under the agreed upon terms, or at all.

Edgar Filing: GRIFFIN LAND & NURSERIES INC - Form 10-Q

The increase in square footage leased from the end of fiscal 2013 to the end of the 2014 third quarter principally reflects a full building lease of a 138,000 square foot building within New England Tradeport (Tradeport), Griffin Land 's industrial park located in Windsor and East Granby, Connecticut with a tenant that is presently leasing a 57,000 Tradeport industrial building under a short-term lease after its long-term lease expired on August 31, 2014. Griffin Land expects the tenant to terminate the current

Table of Contents

short-term lease in fiscal 2015. In addition, the increase in space leased also reflects an increase of 47,000 square feet leased to Tire Rack, Inc. (Tire Rack) in a Tradeport industrial building. Under the terms of the lease with Tire Rack, effective August 1, 2014, the start of the sixth year of its lease, Tire Rack will lease the entire Tradeport building in which they are located. The balance in the change in square footage leased at the end of fiscal 2013 as compared to the end of the 2014 third quarter reflects the leasing of 31,000 square feet of previously vacant industrial/warehouse space and the expiration of leases aggregating 43,000 square feet. Excluding the building in Lehigh Valley Tradeport that was completed in the 2014 third quarter that is not yet leased, the percentage leased as of August 31, 2014 would be 86%. The leasing market where Griffin's Connecticut properties are located (the north submarket of Hartford) remained competitive through the 2014 third quarter. Activity by prospective tenants has been muted during most of fiscal 2014; however, there has been an increase in inquiries from prospective tenants recently. There is no guarantee that the recent increase in inquiries from prospective tenants will result in the leasing of currently vacant space.

Revenue from property sales increased from approximately \$0.3 million in the 2013 third quarter to approximately \$0.9 million in the 2014 third quarter. The revenue from property sales in the 2014 third quarter reflects the recognition of revenue related to the sale of approximately 90 acres of undeveloped land in Windsor, Connecticut (the Windsor Land Sale) for cash proceeds of approximately \$9.0 million (before transaction expenses) that closed in the thirteen weeks ended November 30, 2013 (the 2013 fourth quarter). Under the terms of the Windsor Land Sale, Griffin Land is required to construct roadways that will connect the land sold to existing town roadways. Accordingly, because of Griffin Land's continuing involvement with the land that was sold, the Windsor Land Sale is being accounted for under the percentage of completion method. From the closing of the Windsor Land Sale through the end of the 2014 third quarter, Griffin Land has recognized approximately \$4.0 million of revenue from the Windsor Land Sale. The balance of the revenue from the Windsor Land Sale, approximately \$5.0 million, will be recognized as the remaining costs of the required roadway construction are incurred, which is expected to be mostly in the fourth quarter of fiscal 2014 and the first half of fiscal 2015. The revenue from property sales in the 2013 third quarter reflects the sale of two small parcels of undeveloped land. Property sales occur periodically, and changes in revenue from year to year from those transactions may not be indicative of any trends in Griffin's real estate business.

Operating expenses of rental properties were approximately \$1.8 million in both the 2014 and 2013 third quarters. Although overall operating expenses of rental properties were essentially unchanged from the 2013 third quarter to the 2014 third quarter, increases in real estate taxes and expenses related to the increase in additional services provided to tenants aggregating approximately \$0.1 million were offset by a net decrease in all other expenses of approximately \$0.1 million.

Depreciation and amortization expense was approximately \$1.7 million in both the 2014 and 2013 third quarters. An increase of approximately \$0.1 million in depreciation and amortization expense in the 2014 third quarter principally related to the 304,000 square foot industrial building in the Lehigh Valley that was completed and placed in service in the 2014 third quarter was essentially offset by a decrease in depreciation and amortization expense related to tenant improvements in connection with leases that expired and were not renewed.

Griffin's general and administrative expenses decreased from approximately \$1.7 million in the 2013 third quarter to approximately \$1.6 million in the 2014 third quarter. The lower general and administrative expenses in the 2014 third quarter principally reflect a decrease of approximately \$0.1 million in certain capital based taxes based on tax return filings in the 2014 third quarter.

In the 2014 third quarter, Griffin incurred a loss on debt extinguishment of approximately \$0.1 million related to the refinancing of two nonrecourse mortgages by two of Griffin's subsidiaries with Farm Bureau Life Insurance Company (Farm Bureau). The mortgage loans that were refinanced had

Table of Contents

original maturity dates of April 1, 2016 and October 2, 2017. The refinancings generated additional mortgage proceeds, reduced the interest rates and extended the maturities of both mortgage loans for 15 years from the date of the refinancing. Because the differences between the present values of the future payments under the refinanced mortgage loans and the present values of payments under the existing mortgage loans were each greater than 10% of the present value of the payments under the existing loans, the loan refinancings were accounted for as debt extinguishments and new financings. As such, all deferred costs related to the existing mortgage loans with Farm Bureau were reflected as a loss on debt extinguishment in Griffin's 2014 third quarter consolidated statement of operations.

Griffin's interest expense increased from approximately \$0.9 million in the 2013 third quarter to approximately \$1.0 million in the 2014 third quarter. The increase of approximately \$0.1 million in the 2014 third quarter as compared to the 2013 third quarter is principally due to an increase of approximately \$0.1 million of interest expense related to a full quarter's interest in the 2014 third quarter from a mortgage on the 228,000 square foot industrial building in the Lehigh Valley that was constructed in fiscal 2012 and fully leased just prior to the end of the 2013 third quarter.

Griffin's effective tax rate was 32.0% in the 2014 third quarter as compared to 26.8% in the 2013 third quarter. The higher effective tax rate in the 2014 third quarter as compared to the 2013 third quarter principally reflects the effect in the 2014 third quarter of higher state income taxes as a result of apportionment changes. The effective tax rate for the 2014 third quarter is based on management's projection of operating results for the fiscal 2014 full year. To the extent that actual results differ from current projections, the effective tax rate may change.

The loss from discontinued operations, net of tax, of approximately \$0.4 million in the 2013 third quarter, principally reflects the results of the growing operations of the landscape nursery business for that period. Griffin recorded a charge of \$10.4 million in the 2013 fourth quarter to reduce Imperial's nursery inventory to fair value, which was the net realizable value based on the terms of the Imperial Sale.

2014 Nine Month Period Compared to 2013 Nine Month Period

Total revenue decreased from approximately \$17.5 million in the 2013 nine month period to approximately \$16.5 million in the 2014 nine month period, reflecting a decrease of approximately \$1.5 million in revenue from property sales partially offset by an increase of approximately \$0.5 million in rental revenue in the 2014 nine month period as compared to the 2013 nine month period.

The net increase of approximately \$0.5 million in rental revenue in the 2014 nine month period as compared to the 2013 nine month period reflects occupancy changes that resulted in: (a) an increase of approximately \$1.5 million of rental revenue from leasing previously vacant space; and (b) approximately \$0.4 million from the Imperial Lease; partially offset by (c) a decrease in rental revenue of approximately \$1.4 million from leases that expired and were not renewed. The increase in rental revenue due to leasing previously vacant space includes rental revenue of approximately \$1.0 million from the full building lease of the 228,000 square foot industrial building in the Lehigh Valley of Pennsylvania that was completed in fiscal 2012 and leased in fiscal 2013, with rental revenue commencing in the 2013 third quarter.

Revenue from property sales decreased from approximately \$2.8 million in the 2013 nine month period to approximately \$1.3 million in the 2014 nine month period. All of the property sales revenue in the 2014 nine month period reflected the recognition of revenue from the Windsor Land Sale that closed in the 2013 fourth quarter. Property sales revenue in the 2013 nine month period reflected approximately \$2.5 million from the recognition of revenue from the Dollar Tree Sale that closed in fiscal 2012 and approximately \$0.3 million from two sales of small parcels of

Edgar Filing: GRIFFIN LAND & NURSERIES INC - Form 10-Q

undeveloped land. Both the Dollar Tree Sale and the Windsor Land Sale were accounted for using the percentage of completion method. All of the revenue from the Dollar Tree Sale was recognized as of the end of the 2013 nine month period when

Table of Contents

the required construction of the sewer line was completed. Through the end of the 2014 nine month period, Griffin Land had recognized approximately \$4.0 million of the approximately \$9.0 million of total revenue that will be recognized on the Windsor Land Sale when all of the required road work is completed. The balance of the revenue from the Windsor Land Sale will be recognized as the costs of the required roadway construction are incurred, which is expected to be mostly in the fourth quarter of fiscal 2014 and the first half of fiscal 2015. Property sales occur periodically, and changes in revenue from year to year from those transactions may not be indicative of any trends in Griffin's real estate business.

Operating expenses of rental properties increased from approximately \$5.5 million in the 2013 nine month period to approximately \$6.0 million in the 2014 nine month period. The net increase of approximately \$0.5 million principally reflects an increase of approximately \$0.2 million in property maintenance expenses, principally snow removal, increases in real estate taxes and utility expenses aggregating approximately \$0.2 million in the 2014 nine month period as compared to the 2013 nine month period, and a net increase in all other expenses of approximately \$0.1 million. The increase in snow removal expenses reflected more severe winter weather in fiscal 2014 as compared to fiscal 2013. The increase in real estate taxes principally reflected nine months of real estate taxes being fully assessed on the 228,000 square foot industrial building in the Lehigh Valley that was completed in fiscal 2012 and fully leased in fiscal 2013.

Depreciation and amortization expense was approximately \$5.0 million in both the 2014 and 2013 nine month periods. Depreciation and amortization expense increased approximately \$0.2 million in the 2014 nine month period as compared to the 2013 nine month period due to tenant improvements on the full building lease of the 228,000 square foot industrial building in the Lehigh Valley that commenced in the 2013 third quarter and approximately \$0.1 million related to the 304,000 square foot industrial building in the Lehigh Valley that was completed and placed in service in the 2014 third quarter. These increases were essentially offset by a decrease in depreciation and amortization expense on tenant improvements of approximately \$0.3 million related to leases that expired.

Griffin's general and administrative expenses decreased from approximately \$6.0 million in the 2013 nine month period to approximately \$5.5 million in the 2014 nine month period. The lower general and administrative expenses in the 2014 nine month period principally reflect a decrease of approximately \$0.2 million of expenses related to Griffin's non-qualified deferred compensation plan, a decrease in donation and contribution expense of approximately \$0.2 million and a net decrease of approximately \$0.1 million in all other general and administrative expenses. The decrease in expenses of the non-qualified deferred compensation plan reflects the effect on participant balances of generally lower stock market performance during the 2014 nine month period as compared to the 2013 nine month period.

Griffin's total gain from the sale of investments decreased from approximately \$3.9 million in the 2013 nine month period to approximately \$0.3 million in the 2014 nine month period. In the 2013 nine month period, the gain reflected the sale of Griffin's investment in Shemin Nurseries Holding Corp. (SNHC) and the sale of a portion of Griffin's holdings in Centaur Media plc (Centaur Media). In the 2013 nine month period, Griffin completed the sale of its investment in SNHC and received cash proceeds of approximately \$3.4 million. Because of the low carrying cost of its investment in SNHC, Griffin's gain on sale was also approximately \$3.4 million. Also in the 2013 nine month period, Griffin sold 1,324,688 shares of its common stock of Centaur Media for cash proceeds of approximately \$1.2 million and a gain of approximately \$0.5 million. In the 2014 nine month period, Griffin's approximately \$0.3 million gain from the sale of investments reflected the sale of 500,000 shares of its common stock in Centaur Media for cash proceeds of approximately \$0.6 million. At the end of the 2014 nine month period, Griffin held 1,952,462 shares of Centaur Media common stock. Management expects that it will continue to sell its Centaur Media common stock when it believes that sales terms are favorable.

Table of Contents

Griffin's interest expense decreased from approximately \$2.9 million in the 2013 nine month period to approximately \$2.7 million in the 2014 nine month period. The decrease of approximately \$0.2 million in the 2014 nine month period as compared to the 2013 nine month period is principally due to (a) approximately \$0.4 million of interest capitalized in the 2014 nine month period as compared to no capitalized interest in the 2013 nine month period; and (b) a decrease of approximately \$0.1 million of interest expense on mortgage loans outstanding in both periods, due to the payment of principal; partially offset by (c) an increase of approximately \$0.3 million of interest expense related to a full period's interest in the 2014 nine month period from a mortgage on the 228,000 square foot industrial building in the Lehigh Valley that closed just prior to the end of the 2013 nine month period.

Griffin's loss on debt extinguishment decreased from approximately \$0.3 million in the 2013 nine month period to approximately \$0.1 million in the 2014 nine month period. The loss on debt extinguishment in the 2014 nine month period was related to the refinancing of two nonrecourse mortgages by two of Griffin's subsidiaries with Farm Bureau as previously described in the section entitled "2014 Third Quarter Compared to 2013 Third Quarter." The loss on debt extinguishment in the 2013 nine month period was related to a loan modification agreement on Griffin's nonrecourse mortgage loan with First Niagara Bank (the "First Niagara Loan"). In the 2013 nine month period, Griffin Land and First Niagara Bank entered into an agreement that reduced the interest rate on the First Niagara Loan from a fixed rate of 5.25% to a variable rate of the one month LIBOR rate plus 2.5%. Because the difference between the present value of the future payments under the modified loan and the present value of payments under the existing loan was greater than 10% of the present value of the payments under the existing loan, the loan modification was accounted for as a debt extinguishment. As such, all deferred costs related to the existing First Niagara Loan (approximately \$0.2 million) and the fee paid to First Niagara Bank for the loan modification (approximately \$0.1 million) were reflected as a loss on debt extinguishment in Griffin's 2013 nine month consolidated statement of operations.

Griffin's effective tax rate was 39.5% in the 2014 nine month period as compared to 36.3% in the 2013 nine month period. The higher effective tax rate in the 2014 nine month period as compared to the 2013 nine month period principally reflects the effect in the 2013 nine month period of lower state income taxes as a result of the tax treatment of investment gains in the 2013 nine month period in certain jurisdictions and changes in apportionment resulting from the sale of the landscape nursery business. The effective tax rate for the 2014 nine month period is based on management's projection of operating results for the fiscal 2014 full year. To the extent that actual results differ from current projections, the effective tax rate may change.

The income from discontinued operations, net of tax, of approximately \$0.1 million in the 2014 nine month period principally reflects the effect of the termination of Griffin's postretirement benefits program and reclassification of actuarial gains previously reflected in other comprehensive income into net income, partially offset by the loss from the growing operations of the landscape nursery business through the date of the Imperial Sale and the loss on the Imperial Sale. As substantially all of the former participants in Griffin's postretirement benefits program were formerly employed in the growing operations of the landscape nursery business that is now reported as a discontinued operation, most of the amount of the reclassification of the actuarial gains is included in the results of discontinued operations in the 2014 nine month period. The loss from discontinued operations, net of tax, of approximately \$0.5 million in the 2013 nine month period principally reflects the loss from the growing operations of the landscape nursery business for that period.

Off Balance Sheet Arrangements

Griffin does not have any material off balance sheet arrangements.

Liquidity and Capital Resources

Net cash provided by operating activities was approximately \$0.6 million in the 2014 nine month period as compared to net cash used in operating activities of approximately \$0.9 million in the 2013 nine month period. Net cash provided by operating activities of continuing operations was approximately \$0.7 million in the 2014 nine month period as compared to approximately \$1.0 million in the 2013 nine month period. The slightly lower net cash provided by operating activities of continuing operations in the 2014 nine month period as compared to the 2013 nine month period principally reflects a greater increase in other assets in the 2014 nine month period as compared to the 2013 nine month period.

Table of Contents

Net cash used in investing activities was approximately \$0.2 million in the 2014 nine month period as compared to approximately \$0.3 million in the 2013 nine month period. The net cash used in investing activities in the 2014 nine month period principally reflects cash payments of approximately \$12.5 million for additions to real estate assets and approximately \$0.1 million for additions to property and equipment substantially offset by cash proceeds from the Windsor Land Sale of approximately \$8.9 million that were returned from escrow, cash proceeds of approximately \$2.8 million from collecting the amount due on the note receivable from Monrovia on the Imperial Sale (the balance of \$1.5 million on the note receivable from the Imperial Sale is due on June 1, 2015), cash proceeds of approximately \$0.6 million from sales of Centaur Media common stock and cash proceeds of approximately \$0.2 million from the Imperial Sale. At the closing of the Windsor Land Sale in the 2013 fourth quarter, the cash proceeds of approximately \$8.9 million were placed in escrow for the potential acquisition of a replacement property in a like-kind exchange under Section 1031 of the Internal Revenue Code of 1986, as amended. As Griffin Land did not acquire a replacement property, the cash proceeds were returned to Griffin in the 2014 second quarter. The additions to Griffin Land's real estate assets in the 2014 nine month period principally reflect approximately \$8.4 million for the construction, on speculation, of the approximately 304,000 square foot industrial building in the Lehigh Valley Tradeport on land contiguous to the 228,000 square foot industrial building that Griffin Land developed in fiscal 2012 and fully leased in fiscal 2013. Griffin Land expended approximately \$9.8 million on the construction of this new building (slightly higher than the budgeted amount of approximately \$9.5 million), including the approximately \$1.4 million spent in fiscal 2013. Construction of the shell of this new building was completed in the 2014 third quarter. Additions to Griffin Land's real estate assets in the 2014 nine month period also include approximately \$1.9 million for site work on a residential project and approximately \$0.3 million related to the acquisition of a parcel of undeveloped land adjacent to the parcel of undeveloped land in the Lehigh Valley that was acquired in the 2013 nine month period (see below).

The net cash of approximately \$0.3 million used in investing activities in the 2013 nine month period included the cash proceeds of approximately \$6.9 million that had been held in escrow from the Dollar Tree Sale and then used for the acquisition of an approximately 49 acre parcel of undeveloped land in the Lehigh Valley of Pennsylvania for approximately \$7.1 million in cash, before transaction costs, that closed in the 2013 nine month period. In addition to the acquisition of undeveloped land in the 2013 nine month period, additions to Griffin Land's real estate assets included approximately \$2.9 million of expenditures principally for tenant improvements related to new leases and approximately \$0.8 million for the construction of the sewer line related to the Dollar Tree Sale. Approximately \$0.1 million of cash was expended for additions to property and equipment in the 2013 nine month period. Griffin also received net cash proceeds of approximately \$3.4 million in the 2013 nine month period from the sale of its investment in SNHC and net cash proceeds of approximately \$1.2 million from the sale of a portion of the common stock in Centaur Media held by Griffin.

Net cash provided by financing activities was approximately \$1.9 million in the 2014 nine month period as compared to approximately \$6.2 million in the 2013 nine month period. The net cash provided by financing activities in the 2014 nine month period reflects the net proceeds of approximately \$4.5 million from the refinancing of two nonrecourse mortgage loans by Griffin Land (see below) and approximately \$0.1 million received from the exercise of stock options, partially offset by approximately \$1.5 million for payments of principal on Griffin Land's nonrecourse mortgages, payment of approximately \$1.0 million for a dividend on Griffin's common stock that was declared in the 2013 fourth quarter and paid in the 2014 first quarter and approximately \$0.1 million for payments of debt issuance costs. The net cash provided by financing activities in the 2013 nine month period reflects the net proceeds of approximately \$9.1 million from a nonrecourse mortgage loan on the Lehigh Valley industrial building that was completed in fiscal 2012 and fully leased in fiscal 2013 and approximately \$0.1 million received from the exercise of stock options, partially offset by approximately \$1.4 million for payments of principal on Griffin Land's nonrecourse mortgages, a payment of approximately \$1.0 million

for a dividend on Griffin's common stock that was declared in the fourth quarter of fiscal 2012 and paid in the 2013 first quarter, payments of approximately \$0.4 million of debt acquisition costs and approximately \$0.1 million of payments related to a debt modification.

In the 2014 nine month period, Griffin Land completed the refinancing of two nonrecourse mortgage loans with Farm Bureau Life Insurance Company (Farm Bureau), the 8.13% mortgage due April 1, 2016 and the 7.0% mortgage due October 2, 2017. These two mortgage loans had a combined balance of approximately \$9.0 million as of May 31, 2014. The combined balance after refinancing was \$14.5 million, with both loans having a fixed interest rate of 5.09%. The refinanced mortgage loans have a term of 15 years with payments based on a 15 year amortization schedule. \$1.0 million of the mortgage loan proceeds from the refinancing of one of the mortgage loans with Farm Bureau is being held in escrow. The escrowed funds will be released to Griffin if a 57,000 square foot industrial building that is part of the collateral for that mortgage loan and is expected to become vacant after the current short-term lease expires, is re-leased under terms agreed upon with Farm Bureau. If a replacement lease on the terms agreed upon with Farm Bureau is not obtained, the proceeds being held in escrow are required to be used to make a partial prepayment, without penalty, on the mortgage loan.

In the 2014 third quarter, Griffin Land entered into an agreement to sell approximately 29 acres of an approximately 45 acre land parcel in Griffin Center in Bloomfield, Connecticut for a purchase price of a minimum of \$3.25 million, subject to adjustment based on the actual number of acres conveyed. Completion of this transaction is subject to significant contingencies, including the satisfactory completion of due diligence by the purchaser (a public educational authority in the state of Connecticut) and the purchaser obtaining a commitment from the State of Connecticut to fund the land acquisition and develop the property as planned by the purchaser. If this sale were to be completed, the development potential of the remaining unsold acreage of the land parcel may be severely limited. Any closing of this transaction is not expected until sometime in fiscal 2015. There is no guarantee that this transaction will be completed under the current terms, or at all.

Griffin's payments (including principal and interest) under contractual obligations as of August 31, 2014 are as follows:

	Total	Due Within One Year	Due From 1-3 Years (in millions)	Due From 3-5 Years	Due in More Than 5 Years
Mortgages	\$ 88.2	\$ 23.7	\$ 8.7	\$ 29.5	\$ 26.3
Revolving Line of Credit					
Capital Lease Obligations	0.1		0.1		
Operating Lease Obligations	0.4	0.2	0.2		
Purchase Obligations (1)	2.5	2.5			
Other (2)	3.7				3.7
	\$ 94.9	\$ 26.4	\$ 9.0	\$ 29.5	\$ 30.0

(1) Reflects expenditures for Griffin Land's real estate assets.

(2) Principally reflects the liability for Griffin's non-qualified deferred compensation plan.

Griffin's nonrecourse mortgage loan with a balance of approximately \$18.3 million as of August 31, 2014 matures on August 1, 2015 with a payment of approximately \$18.0 million due on that date. Three industrial buildings in New England Tradeport with an aggregate of 392,000 square feet collateralize this mortgage loan. Management expects to refinance this mortgage at its maturity. There is no guarantee that such refinancing will be available for the entire amount of the nonrecourse mortgage loan that is due or on terms acceptable to Griffin.

Table of Contents

In the near-term, Griffin plans to continue to invest in its real estate business, including the construction of additional buildings on its undeveloped land, expenditures to build out interiors of its buildings as new leases are signed, infrastructure improvements required for future development of its real estate holdings and the potential acquisition of additional properties and/or undeveloped land parcels in New England or the mid-Atlantic states to expand the industrial/warehouse portion of Griffin Land's real estate business. Real estate acquisitions may or may not occur based on many factors, including real estate pricing. Griffin Land does not expect to commence any speculative construction projects for its Connecticut real estate portfolio until a substantial portion of its currently vacant space there is leased, but would construct a build-to-suit facility on its undeveloped land in Connecticut if lease terms are favorable.

As of August 31, 2014, Griffin had cash and cash equivalents of approximately \$16.5 million. Management believes that its cash and cash equivalents as of August 31, 2014 and borrowing capacity under its \$12.5 million revolving credit agreement with Webster Bank will be sufficient to meet Griffin's working capital requirements, the continued investment in Griffin's real estate assets and the payment of dividends on its common stock, when and if declared by the Board of Directors. Griffin may also continue to seek additional financing secured by nonrecourse mortgages on its properties. Griffin Land's real estate portfolio currently includes five buildings located in Connecticut aggregating approximately 411,000 square feet and its recently completed 304,000 square foot industrial building in the Lehigh Valley of Pennsylvania that are not mortgaged.

Forward-Looking Information

The above information in Management's Discussion and Analysis of Financial Condition and Results of Operations includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Exchange Act of 1934, as amended. These forward-looking statements include Griffin's expectations regarding the leasing of currently vacant space, completion of a lease agreement for 201,000 square feet in the recently completed Lehigh Valley industrial building, completion of the sale of approximately 29 acres of an approximately 45 acre land parcel in Griffin Center in Bloomfield, Connecticut, construction of additional facilities in the real estate business, the ability to obtain mortgage financing on Griffin Land's unleveraged properties and refinancing on Griffin's nonrecourse mortgage loan collateralized by three industrial buildings in Tradeport, and Griffin's anticipated future liquidity. Although Griffin believes that its plans, intentions and expectations reflected in such forward-looking statements are reasonable, it can give no assurance that such plans, intentions or expectations will be achieved. The forward-looking statements made herein are based on assumptions and estimates that, while considered reasonable by Griffin as of the date hereof, are inherently subject to significant business, economic, competitive and regulatory uncertainties and contingencies, many of which are beyond the control of Griffin. Griffin's actual results could differ materially from those anticipated in these forward-looking statements as a result of various important factors, including those set forth in Item 1A under the heading "Risk Factors" of Griffin's Annual Report on Form 10-K for the fiscal year ended November 30, 2013 filed with the Securities and Exchange Commission on February 13, 2014.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Market risk represents the risk of changes in value of a financial instrument, derivative or non-derivative, caused by fluctuations in interest rates, foreign exchange rates and equity prices. Changes in these factors could cause fluctuations in earnings and cash flows.

For fixed rate mortgage debt, changes in interest rates generally affect the fair market value of the debt instrument, but not earnings or cash flows. Griffin does not have an obligation to prepay any fixed

Table of Contents

rate debt prior to maturity and, therefore, interest rate risk and changes in the fair market value of fixed rate debt should not have a significant impact on earnings or cash flows until such debt is refinanced, if necessary. Griffin's mortgage interest rates are described in Note 7 to the unaudited consolidated financial statements included in Item 1.

For variable rate debt, changes in interest rates generally do not impact the fair market value of the debt instrument, but do affect future earnings and cash flows. As of August 31, 2014, Griffin had several nonrecourse mortgage loans aggregating approximately \$37.9 million that have variable interest rates, for which Griffin has entered into interest rate swap agreements which effectively fix the interest rates on all of these mortgage loans. There were no other variable rate borrowings outstanding as of August 31, 2014.

Griffin is exposed to market risks from fluctuations in interest rates and the effects of those fluctuations on the market values of Griffin's cash equivalents. These investments generally consist of money market securities that are not significantly exposed to interest rate risk.

Griffin does not have foreign currency exposure related to its operations. Griffin does have an investment in a public company, Centaur Media plc, based in the United Kingdom. The amount to be realized from the ultimate liquidation of that investment and conversion of proceeds into United States currency is subject to future foreign currency exchange rates.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Griffin maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in its Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to Griffin's management, including its Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management necessarily is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

As required by SEC Rule 13a-15(b), Griffin carried out an evaluation, under the supervision and with the participation of Griffin's management, including Griffin's Chief Executive Officer and Griffin's Chief Financial Officer, of the effectiveness of Griffin's disclosure controls and procedures as of the end of the fiscal period covered by this report. Based on the foregoing, Griffin's Chief Executive Officer and Chief Financial Officer concluded that disclosure controls and procedures were effective at the reasonable assurance level.

Changes in Internal Control over Financial Reporting

Edgar Filing: GRIFFIN LAND & NURSERIES INC - Form 10-Q

There has been no change in Griffin's internal control over financial reporting during Griffin's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, Griffin's internal control over financial reporting.
