**Sandra Motley, President of Fixed Networks and Tommi Uitto, President of Mobile Networks appointed to Nokia Group Leadership Team**

- Tommi Uitto was appointed as President of Mobile Networks on November 22, 2018, now joins Group Leadership Team
- Sandra Motley was appointed as President of Fixed Networks effective January 1, 2019, now joins Group Leadership Team

Nokia Corporation  
Stock Exchange Release  
January 31, 2019 at 08:00 (CET +1)

**Sandra Motley, President of Fixed Networks and Tommi Uitto, President of Mobile Networks appointed to Nokia Group Leadership Team**

Espoo, Finland Nokia today announced that the previously appointed Presidents of Fixed Networks and Mobile Networks will become members of the Group Leadership Team effective immediately. Motley and Uitto will report to Nokia President and Chief Executive Officer, Rajeev Suri.

After their strong starts in the roles as Presidents of their business groups I welcome them to the Group Leadership Team where I am confident they will make a strong contribution, said Rajeev Suri.

Motley started her career at AT&T Bell Laboratories, held a range of R&D and sales leadership positions at Alcatel-Lucent in both fixed and wireless businesses. Her most recent role before becoming President of Fixed Networks on January 1, 2019, was as COO for the Fixed Networks business group. Motley holds MS and BS degrees in Mechanical Engineering from S.U.N.Y. at Buffalo and an MBA in Finance from Fairleigh Dickinson University.

Uitto is a 23-year Nokia veteran, an expert in radio access technologies, and well-known to customers around the world. His most recent role before becoming President of Mobile Networks on November 22, 2018, was to lead Mobile Networks Product Sales since the acquisition of Alcatel-Lucent. Uitto holds an MSc in Industrial Management from the Helsinki University of Technology (TKK) and an MSc in Operations Management from Michigan Technological University.

Given these appointments, the previously announced plan to create a single Access Networks division that included both Fixed Networks and Mobile Networks business groups will not proceed. Since the announcement, other means of collaboration between Mobile Networks, Fixed Networks and Nokia Bell Labs focused on developing common technological and architectural leadership have been set up.

## Edgar Filing: NOKIA CORP - Form 6-K

As a result of these changes, Nokia's Group Leadership Team will now consist of the following members: Rajeev Suri, Basil Alwan, Hans-Juergen Bill, Kathrin Buvac, Ricky Corker, Joerg Erlemeier, Barry French, Sanjay Goel, Bhaskar Gorti, Federico Guillén, Sandra Motley, Kristian Pullola, Sri Reddy, Tommi Uitto, Maria Varsellona and Marcus Weldon.

## **FORWARD-LOOKING STATEMENTS**

*It should be noted that Nokia and its businesses are exposed to various risks and uncertainties and certain statements herein that are not historical facts are forward-looking statements. These forward-looking statements reflect Nokia's current expectations and views of future developments and include statements regarding: A) expectations, plans or benefits related to our strategies and growth management; B) expectations, plans or benefits related to future performance of our businesses and any expected future dividends; C) expectations and targets regarding financial performance, results, operating expenses, taxes, currency exchange rates, hedging, cost savings and competitiveness, as well as results of operations including targeted synergies and those related to market share, prices, net sales, income and margins; D) expectations, plans or benefits related to changes in organizational and operational structure; E) expectations regarding market developments, general economic conditions and structural changes; F) our ability to integrate acquired businesses into our operations and achieve the targeted business plans and benefits, including targeted benefits, synergies, cost savings and efficiencies; G) expectations, plans or benefits related to any future collaboration or to business collaboration agreements or patent license agreements or arbitration awards, including income to be received under any collaboration or partnership, agreement or award; H) timing of the deliveries of our products and services, including our short term and longer term expectations around the rollout of 5G and our ability to capitalize on such rollout; and the overall readiness of the 5G ecosystem; I) expectations and targets regarding collaboration and partnering arrangements, joint ventures or the creation of joint ventures, and the related administrative, legal, regulatory and other conditions, as well as our expected customer reach; J) outcome of pending and threatened litigation, arbitration, disputes, regulatory proceedings or investigations by authorities; K) expectations regarding restructurings, investments, capital structure optimization efforts, uses of proceeds from transactions, acquisitions and divestments and our ability to achieve the financial and operational targets set in connection with any such restructurings, investments, capital structure optimization efforts, divestments and acquisitions, including our 2019-2020 cost savings program; L) expectations, plans or benefits related to future capital expenditures, temporary incremental expenditures or other R&D expenditures to develop or rollout new products, including 5G; and M) statements preceded by or including believe, expect, expectations, commit, anticipate, foresee, see, target, estimate, designed, aim, plan, intend, influence, assumption, focus, continue, project, should, is to, will or similar expressions. These forward-looking statements are subject to a number of risks and uncertainties, many of which are beyond our control, which could cause actual results to differ materially from such statements. These statements are based on management's best assumptions and beliefs in light of the information currently available to it. These forward-looking statements are only predictions based upon our current expectations and views of future events and developments and are subject to risks and uncertainties that are difficult to predict because they relate to events and depend on circumstances that will occur in the future. Factors, including risks and uncertainties that could cause these differences include, but are not limited to: 1) our strategy is subject to various risks and uncertainties and we may be unable to successfully implement our strategic plans, sustain or improve the operational and financial performance of our business groups, correctly identify or successfully pursue business opportunities or otherwise grow our business; 2) general economic and market conditions and other developments in the economies where we operate, including the timeline for the deployment of 5G and our ability to successfully capitalize on that deployment;*

3) competition and our ability to effectively and profitably invest in new competitive high-quality products, services, upgrades and technologies and bring them to market in a timely manner; 4) our dependence on the development of the industries in which we operate, including the cyclicity and variability of the information technology and telecommunications industries and our own R&D capabilities and investments; 5) our dependence on a limited number of customers and large multi-year agreements; 6) our ability to maintain our existing sources of intellectual property-related revenue through our intellectual property, including through licensing, establish new sources of revenue and protect our intellectual property from infringement; 7) our ability to manage and improve our financial and operating performance, cost savings, competitiveness and synergies generally and our ability to implement changes to our organizational and operational structure efficiently; 8) our global business and exposure to regulatory, political or other developments in various countries or regions, including emerging markets and the associated risks in relation to tax matters and exchange controls, among others; 9) our ability to achieve the anticipated benefits, synergies, cost savings and efficiencies of acquisitions, including the acquisition of Alcatel-Lucent; 10) exchange rate fluctuations, as well as hedging activities; 11) our ability to successfully realize the expectations, plans or benefits related to any future collaboration or business collaboration agreements and patent license agreements or arbitration awards, including income to be received under any collaboration, partnership, agreement or arbitration award; 12) Nokia Technologies' ability to protect its IPR and to maintain and establish new sources of patent, brand and technology licensing income and IPR-related revenues, particularly in the smartphone market, which may not materialize as planned; 13) our dependence on IPR technologies, including those that we have developed and those that are licensed to us, and the risk of associated IPR-related legal claims, licensing costs and restrictions on use; 14) our exposure to direct and indirect regulation, including economic or trade policies, and the reliability of our governance, internal controls and compliance processes to prevent regulatory penalties in our business or in our joint ventures; 15) our reliance on third-party solutions for data storage and service distribution, which expose us to risks relating to security, regulation and cybersecurity breaches; 16) inefficiencies, breaches, malfunctions or disruptions of information technology systems; 17) our exposure to various legal frameworks regulating corruption, fraud, trade policies, and other risk areas, and the possibility of proceedings or investigations that result in fines, penalties or sanctions; 18) adverse developments with respect to customer financing or extended payment terms we provide to customers; 19) the potential complex tax issues, tax disputes and tax obligations we may face in various jurisdictions, including the risk of obligations to pay additional taxes; 20) our actual or anticipated performance, among other factors, which could reduce our ability to utilize deferred tax assets; 21) our ability to retain, motivate, develop and recruit appropriately skilled employees; 22) disruptions to our manufacturing, service creation, delivery, logistics and supply chain processes, and the risks related to our geographically-concentrated production sites; 23) the impact of litigation, arbitration, agreement-related disputes or product liability allegations associated with our business; 24) our ability to re-establish investment grade rating or maintain our credit ratings; 25) our ability to achieve targeted benefits from, or successfully implement planned transactions, as well as the liabilities related thereto; 26) our involvement in joint ventures and jointly-managed companies; 27) the carrying amount of our goodwill may not be recoverable; 28) uncertainty related to the amount of dividends and equity return we are able to distribute to shareholders for each financial period; 29) pension costs, employee fund-related costs, and healthcare costs; 30) our ability to successfully complete and capitalize on our order backlogs and continue converting our sales pipeline into net sales; and 31) risks related to undersea infrastructure, as well as the risk factors specified on pages 71 to 89 of our 2017 annual report on Form 20-F published on March 22, 2018 under *Operating and financial review and prospects-Risk factors* and in our other filings or documents furnished with the U.S. Securities and Exchange Commission. Other

*unknown or unpredictable factors or underlying assumptions subsequently proven to be incorrect could cause actual results to differ materially from those in the forward-looking statements. We do not undertake any obligation to publicly update or revise forward-looking statements, whether as a result of new information, future events or otherwise, except to the extent legally required.*

## **About Nokia**

We create the technology to connect the world. We develop and deliver the industry's only end-to-end portfolio of network equipment, software, services and licensing that is available globally. Our customers include communications service providers whose combined networks support 5.7 billion subscriptions, as well as enterprises in the private and public sector that use our network portfolio to increase productivity and enrich lives.

Through our research teams, including the world-renowned Nokia Bell Labs, we are leading the world to adopt end-to-end 5G networks that are faster, more secure and capable of revolutionizing lives, economies and societies. Nokia adheres to the highest ethical business standards as we create technology with social purpose, quality and integrity. [www.nokia.com](http://www.nokia.com)
