Item 1.01 Entry into a Material Definitive Agreement.

Purchase Agreement

On April 4, 2019, NGL Energy Partners LP (the Partnership) and NGL Energy Finance Corp. (Finance Corp. and together with the Partnership, the Issuers) entered into a purchase agreement (the Purchase Agreement) with RBC Capital Markets, LLC and Mizuho Securities USA LLC, as representatives of the initial purchasers listed on Schedule 1 to the Purchase Agreement (collectively, the Initial Purchasers) related to the issuance and sale by the Issuers to the Initial Purchasers of \$450,000,000 aggregate principal amount of the Issuers' 7.500% Senior Notes due 2026 (the Notes). The Issuers' obligations thereunder are fully, unconditionally, jointly and severally guaranteed on an unsubordinated and unsecured basis, by certain of the Partnership's subsidiaries (collectively, the Guarantors, and together with the Issuers, the Obligors).

The Notes and the guarantees thereof (collectively, the Securities) were offered and sold in a private offering (the Offering) conducted pursuant to Rule 144A and Regulation S under the Securities Act of 1933, as amended (the Securities Act). The offer and sale of the Securities have not been registered under the Securities Act or applicable state securities laws, and consequently, the Securities may not be offered or sold in the United States absent registration under the Securities Act or an applicable exemption from the registration requirements of the Securities Act and applicable state laws.

The Purchase Agreement contains customary representations and warranties of the parties and indemnification and contribution provisions under which the Obligors, on one hand, and the Initial Purchasers, on the other hand, have agreed to indemnify each other against certain liabilities, including liabilities under the Securities Act.

Closing of the Offering and delivery of the Securities pursuant to the Purchase Agreement occurred on April 9, 2019. The Issuers received net proceeds from the issuance and sale of the Securities of approximately \$441.8 million, after deducting the Initial Purchasers' discount and estimated expenses associated with the Offering. The Partnership intends to use the net proceeds of the Offering to repay indebtedness under its revolving credit facility, which it may reborrow from time to time in the future for general partnership purposes.

A copy of the Purchase Agreement is filed as Exhibit 1.1 hereto, and is incorporated herein by reference. The description of the Purchase Agreement in this Form 8-K is a summary and is qualified in its entirety by the terms of the Purchase Agreement.

Indenture

The Securities were issued pursuant to an indenture, dated April 9, 2019 (the Indenture), by and among the Obligors and U.S. Bank National Association, as trustee (the Trustee). The Notes accrue interest from April 9, 2019 at a rate of 7.500% per year. Interest on the Notes is payable semi-annually in arrears on April 15 and October 15 of each year, beginning October 15, 2019. The Notes mature on April 15, 2026.

The Partnership, at its option, may redeem all or part of the Notes, at any time on or after April 15, 2022 at fixed redemption prices, beginning at 103.750% on such date and declining annually and ratably to par for redemptions occurring on or after April 15, 2024, in each case together with all accrued and unpaid interest, if any, to the date of redemption. Prior to April 15, 2022, the Partnership may redeem all or a part of the Notes at

Edgar Filing: NGL Energy Partners LP - Form 8-K

a redemption price equal to the Make-Whole Price, subject to the rights of holders of Notes on the relevant record date to receive interest due on the relevant interest payment date.

Make-Whole Price with respect to any Notes to be redeemed, means an amount equal to the greater of:

(1) 100% of the principal amount of such Note, and

(2) the sum of the present values of (a) the redemption price of such notes at April 15, 2022 and (b) the remaining scheduled payments of interest from the redemption date to April 15, 2022 (not including any portion of

Edgar Filing: NGL Energy Partners LP - Form 8-K

such payments of interest accrued as of the redemption date) discounted back to the redemption date on a semi-annual basis (assuming a 360-day year consisting of twelve 30-day months) at the Treasury Rate (as defined in the Indenture) plus 50 basis points;

plus, in the case of both (1) and (2), accrued and unpaid interest on such Notes, if any, to the redemption date.

If the Issuers experience certain kinds of changes of control (which in certain cases may require the change of control event to be followed by a rating decline), holders of the Notes will be entitled to require the Partnership to repurchase all or any part (equal to \$2,000 or an integral multiple of \$1,000 in excess of \$2,000) of that holder's Notes pursuant to an offer on the terms set forth in the Indenture. The Partnership will offer to make a cash payment equal to 101% of the aggregate principal amount of the Notes repurchased plus accrued and unpaid interest on the Notes repurchased to the date of purchase, subject to the rights of holders of the Notes on the relevant record date to receive interest due on the relevant interest payment date. Upon an event of default under the Indenture, the Trustee or the holders of at least 25% in aggregate principal amount of the Notes then outstanding may declare all amounts owing under the Notes to be due and payable.

A copy of the Indenture is filed as Exhibit 4.1 hereto, and the form of the Global Notes included as Exhibits A1 and A2 to the Indenture are filed as Exhibit 4.2 hereto, and each is incorporated herein by reference. The description of the Indenture and the Securities in this Form 8-K is a summary and is qualified in its entirety by the terms of the Indenture.

Registration Rights Agreement

On April 9, 2019 in connection with the closing of this offering of the Notes, the Obligors entered into a registration rights agreement with RBC Capital Markets, LLC and Mizuho Securities USA LLC, as representatives of the Initial Purchasers (the "Registration Rights Agreement"). Under the Registration Rights Agreement, the Obligors have agreed to, among other things, use their commercially reasonable efforts to (i) file an exchange offer registration statement with respect to the exchange notes and the exchange guarantees, (ii) cause such exchange offer registration statement to become effective on or prior to 365 days after the closing of this offering and (iii) keep such exchange offer registration statement effective continuously and keep the exchange offer period open for a period of not less than the period required under applicable United States federal and state securities laws to consummate the exchange offer (provided that such period shall not be less than 20 business days after the date on which the notice of the exchange offer is mailed to holders of the Notes). If, among other things, such exchange offer registration statement is not filed or declared effective by the United States Securities and Exchange Commission by the required time, or the exchange offer has not been consummated within 30 business days following the targeted date of effectiveness (as set forth in the Registration Rights Agreement), the Obligors will be required to pay to the holders of the Notes liquidated damages in an amount equal to 0.25% per annum on the principal amount of the Notes held by such holder during the 90-day period immediately following the occurrence of such registration default, and such amount shall increase by 0.25% per annum at the end of such 90-day period.

A copy of the Registration Rights Agreement is filed as Exhibit 4.3 hereto and is incorporated herein by reference. The description of the Registration Rights Agreement in this Form 8-K is a summary and is qualified in its entirety by the terms of the Registration Rights Agreement.
