1. BASIS OF PRESENTATION

Bulletin Board Listing

In January 2001, the Company completed a Registration Statement that has been filed with the United States Securities and Exchange Commission in order for the Company's shares to be eligible for trading in the United States on the National Association of Securities Dealings over-the-counter Bulletin Board.

2. SIGNIFICANT ACCOUNTING POLICIES

These financial statements have been prepared by management in accordance with accounting principles generally accepted in the United States, the more significant of which are outlined below.

Use of Estimates

The preparation of financial statements in conformity with United States generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the year. Actual results could differ from those estimates.

Foreign Currency Translation

The statements of operations are translated into United States dollars using the average exchange rate for the year. The balance sheets are translated into United States dollars using the year-end exchange rate.

Stock Option Plans

The Company applies the fair value based method of accounting prescribed by SFAS No. 123, Accounting for Stock-Based Compensation in accounting for its stock options granted to both employees and non-employees. As such, compensation expense is recorded on the date of grant based on the fair value of the award and is recognized over the service period.

Impairment of Long-Lived Assets and Long-Lived Assets to be Disposed of

The Company accounts for long-lived assets in accordance with the provisions of SFAS No. 121, Accounting for the Impairment of Long-Lived Assets and Long-Lived Assets to be Disposed of. This statement requires that long-lived assets and certain identifiable intangibles be reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to future net cash flows expected to be generated by the asset. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the assets exceeds the fair value of the assets. Assets to be disposed of are reported at the lower of the carrying amount or fair value less costs to sell.
