VOTING PROCEDURES

WHO CAN VOTE?

Each share of our common stock that you owned as of the close of business on October 13, 2004, the record date for the 2004 Annual Meeting, entitles you to one vote on each matter to be voted upon at the Annual Meeting. On the record date, there were 54,073,059 shares of Immunomedics common stock issued and outstanding.

HOW DO I VOTE?

If your shares are registered directly in your name, you may vote:

Over the Internet. Go to the website of our tabulator, www.voteproxy.com. Use the voter control number that is printed on the enclosed proxy card to access your account and vote your shares. You must specify how you want your shares voted or your Internet vote cannot be completed and you will receive an error message. Your shares will be voted according to your instructions.

By Mail. Complete and sign the enclosed proxy and mail it in the enclosed postage prepaid envelope to American Stock Transfer & Trust Company. Your proxy will be voted according to your instructions. If you do not specify how you want your shares voted, they will be voted as recommended by our Board of Directors.

In Person at the Meeting. If you attend the meeting, you may deliver your completed proxy card in person or you may vote by completing a ballot, which will be available at the meeting.

If your shares are held in street name (held for your account by a broker or other nominee) you may vote:

Over the Internet. You will receive instructions from your broker or other nominee if you are permitted to vote over the Internet.

By Mail. You will receive instructions from your broker or other nominee explaining how to cast your vote.

In Person at the Meeting. Contact the broker or other nominee who holds your shares to obtain a broker's proxy card and bring it with you to the meeting. **You will not be able to vote at the meeting unless you have a proxy from your broker issued in your name giving you the right to vote the shares.**

HOW CAN I CHANGE MY VOTE?

You may revoke your proxy and change your vote at any time before the meeting. To do this, you must do one of the following:

Vote over the Internet as instructed above. Only your latest Internet vote is counted.

Edgar Filing: IMMUNOMEDICS INC - Form DEF 14A

Sign and date a new proxy and submit it as instructed above. Only your latest proxy vote is counted.

Attend the meeting and vote in person. Attending the meeting will not revoke your proxy unless you specifically request it.

Table of Contents

WILL MY SHARES BE VOTED IF I DO NOT RETURN MY PROXY?

If your shares are registered directly in your name, your shares will not be voted if you do not vote over the Internet or return your proxy, or attend and vote at the meeting. If you have misplaced your proxy, you may obtain another by contacting American Stock Transfer & Trust Company at 1-877-777-0800, or writing them at 59 Maiden Lane, New York, New York 10038.

If your shares are held in street name, your brokerage firm, under certain circumstances, may vote your shares for you if you do not return your proxy. Brokerage firms have authority to vote customers' unvoted shares on some routine matters. If you do not give a proxy to your brokerage firm to vote your shares, your brokerage firm may either: vote your shares on routine matters, or leave your shares unvoted. Proposal 1, the election of directors, and Proposal 2, the ratification of auditors, are each considered routine matters. Nonetheless, we encourage you to provide voting instructions to your brokerage firm by submitting your proxy. This ensures your shares will be voted at the meeting according to your instructions. You should receive directions from your brokerage firm about how to submit your proxy to them at the time you receive this proxy statement.

WHAT DOES IT MEAN IF I RECEIVE MORE THAN ONE PROXY CARD?

It means that you have more than one account, which may be at the transfer agent, with stockbrokers or otherwise. Please vote over the Internet, or complete and return all proxies for each account to ensure that all of your shares are voted.

HOW MANY SHARES MUST BE PRESENT TO HOLD THE MEETING?

A majority of our outstanding shares of common stock as of the record date must be present at the meeting to hold the meeting and conduct business. This is called a quorum. Shares are counted as present at the meeting if the stockholder votes over the Internet, completes and submits a proxy or is present in person at the meeting. Shares that are present that vote to abstain or do not vote on one or more of the matters to be voted upon are counted as present for establishing a quorum. If a quorum is not present, we expect that the meeting will be adjourned until we obtain a quorum.

WHAT VOTE IS REQUIRED TO APPROVE EACH MATTER AND HOW ARE VOTES COUNTED?

Proposal 1 Election of Directors

To elect each director, if a quorum is present or represented by proxy at the meeting, stockholders holding a majority of Immunomedics common stock present or represented by proxy at the meeting and voting on the matter must vote FOR the director. Abstentions are not counted for purposes of electing directors. If your broker holds your shares in street name, and if you do not vote your shares, your

Table of Contents

brokerage firm has authority to vote your unvoted shares held by the firm on Proposal 1. You may vote FOR all of the nominees, WITHHOLD your vote from all of the nominees or WITHHOLD your vote from any one or more of the nominees. Withholding authority to vote for a nominee for director is similar to an abstention and will have no effect on the outcome of the vote, as it will not be counted as a vote cast. If you wish to vote against a nominee for director, please write in such nominee's name in the space provided on the proxy card.

Proposal 2 Ratify the appointment of Ernst & Young LLP as our independent registered public accountants for the fiscal year ending June 30, 2005.

To approve Proposal 2, if a quorum is present or represented by proxy at the meeting, stockholders holding a majority of Immunomedics common stock present or represented by proxy at the meeting and voting on the matter must vote FOR the proposal. An abstention will have no effect on the outcome of the vote, as it will not be counted as a vote cast.

If your broker holds your shares in its name, the broker will be entitled to vote your shares on both Proposal 1 and Proposal 2 even if it does not receive instructions from you, since such matters are considered routine. If your broker cannot vote your shares on any other matter because it does not have instructions from you or discretionary voting authority on that matter, this is referred to as a broker non-vote. Broker non-votes will have no effect on the outcome of the vote.

The inspector of election appointed for the 2004 Annual Meeting, who will separately tabulate affirmative and negative votes, abstentions and broker non-votes, will tabulate all votes.

HOW DOES THE BOARD OF DIRECTORS RECOMMEND THAT I VOTE? Our Board of Directors recommends that you vote:

FOR Proposal 1 elect our seven nominees to the Board of Directors for a one-year term ending at the 2005 Annual Meeting of Stockholders or such time as their respective successors are duly elected and qualified; and

FOR Proposal 2 ratify the appointment of Ernst & Young LLP as our independent registered public accountants for the fiscal year ending June 30, 2005.

ARE THERE OTHER MATTERS TO BE VOTED ON AT THE MEETING?

We do not know of any other matters that may come before the Annual Meeting other than the election of directors and ratification of auditors. If any other matters are properly presented to the meeting, the persons named in the accompanying proxy intend to vote, or otherwise act, in accordance with their judgment.

Table of Contents

WHERE DO I FIND THE VOTING RESULTS OF THE MEETING?

We will announce preliminary voting results at the meeting. We will publish final results in our Quarterly Report on Form 10-Q for the second quarter of 2005, which we are required to file with the Securities and Exchange Commission (the SEC) on or before February 9, 2005. To request a printed copy of the Form 10-Q, please write to Investor Relations, Immunomedics, Inc., 300 American Road, Morris Plains, New Jersey 07950, or e-mail Investor Relations at investor@immunomedics.com. You will also be able to find a copy on the Internet through our website at www.Immunomedics.com or through the SEC's electronic data system called EDGAR at www.sec.gov.

WHO WILL PAY THE COSTS OF SOLICITING THESE PROXIES?

We will pay the costs of soliciting proxies. In addition to the mailing of these proxy materials, our directors, officers and employees may solicit proxies by telephone, e-mail and in person, without additional compensation. Upon request, we will also reimburse brokerage houses and other custodians, nominees and fiduciaries for their reasonable out-of-pocket expenses for distributing proxy materials to stockholders.

HOW CAN I RECEIVE FUTURE PROXY STATEMENTS AND ANNUAL REPORTS OVER THE INTERNET INSTEAD OF RECEIVING PRINTED COPIES IN THE MAIL?

This proxy statement and our Annual Report on Form 10-K for the fiscal year ended June 30, 2004, are available on our Internet site at www.Immunomedics.com. Most stockholders can elect to view future proxy statements and annual reports over the Internet instead of receiving printed copies in the mail. If you are a stockholder of record, you can choose this option when you vote over the Internet and save us the cost of producing and mailing these documents. If you are a stockholder of record and choose to view future proxy statements and annual reports over the Internet, you will receive a proxy in the mail next year with instructions containing the Internet address to access those documents. If your shares are held through a broker or other nominee, you should check the information provided by them for instructions on how to elect to view future proxy statements and annual reports over the Internet.

The Audit Committee, with the approval of the Board of Directors, has selected the firm of Ernst & Young LLP as our independent registered public accounting firm for the fiscal year ending June 30, 2005. In the event the stockholders do not ratify Ernst & Young LLP as our independent registered public accounting firm, the Audit Committee will reconsider its appointment.

A representative of Ernst & Young LLP is expected to be present at our Annual Meeting. This representative will have an opportunity to make a statement, if he or she desires to do so, and will be available to respond to appropriate questions.

Table of Contents**OWNERSHIP OF OUR COMMON STOCK**

The following table sets forth certain information with respect to the beneficial ownership of our common stock as of October 15, 2004 for: (i) the executive officers named in the Summary Compensation Table on page 22 of this proxy statement; (ii) each of our directors and director nominees; (iii) all of our current directors and executive officers as a group; and (iv) each stockholder known by us to own beneficially more than five percent (5%) of our common stock. Beneficial ownership is determined in accordance with the rules of the SEC, and includes voting or investment power with respect to the securities.

The SEC deems shares of common stock that may be acquired by an individual or group by December 14, 2004 (60 days after October 15, 2004) pursuant to the exercise of options, warrants or other convertible securities to be outstanding for the purpose of computing the percentage ownership of such individual or group, but such securities are not deemed to be outstanding for the purpose of computing the percentage ownership of any other stockholder shown in the table. Except as indicated in footnotes to this table, we believe that the stockholders named in this table have sole voting and investment power with respect to all shares of common stock shown to be beneficially owned by them based on information provided to us by these stockholders. Percentage ownership is based on 54,073,059 shares of common stock outstanding on October 15, 2004.

OUR CORPORATE GOVERNANCE

Our Commitment to Good Corporate Governance

We believe that in order for Immunomedics to achieve real business success while also creating value for our stockholders, it is essential that we maintain a commitment to excellence in corporate governance and an environment of the highest ethical standards. Our Board of Directors is committed to high governance standards and to continually work to improve them. During the past year, we have reviewed our corporate governance practices with particular care in light of the Sarbanes-Oxley Act of 2002. We also reviewed with our outside accountants, legal counsel and other professional advisors the recently released rules of the SEC, as well as other proposed SEC rules and regulations and listing requirements of the NASDAQ Stock Market. We have also compared our governance practices against those identified as best practices by various authorities and other public companies. As a result, we have implemented several new procedures and strengthened existing procedures.

Role of Our Board of Directors

Our Board of Directors currently consists of six members, and will expand to seven members upon the election of all nominees at the 2004 Annual Meeting of Stockholders, although we regularly seek additional qualified candidates to consider joining the Board. The Board monitors overall corporate performance and the integrity of our financial controls and legal compliance procedures. It appoints senior management and oversees succession planning and senior management's performance and compensation. The Board oversees Immunomedics' long and short term strategic and business planning, and conducts a year-long process that culminates in Board review and approval each year of a business plan, a capital expenditures budget and other key financial and business objectives.

Members of the Board keep informed about our Company's business and operations through discussions with the Chairman and other members of our senior management team, by reviewing materials provided to them on a regular basis as well as in preparation for Board and committee meetings, and by actively participating in meetings of the Board and its committees. We regularly review key portions of our business with the Board, including our clinical and pre-clinical development programs. We also make it a practice to introduce our senior executives to the Board so that the Board can become familiar with our key talent. From time to time we also conduct Board education sessions when appropriate.

In fiscal 2004, the Board of Directors met seven times, and the various committees of the Board met a total of 24 times. Each director attended at least 75% of the total number of meetings of the Board of Directors and all committees of the Board on which such director served.

Directors are encouraged, but are not required, to attend the Company's Annual Meeting of Stockholders. All six directors attended the Company's 2003 Annual Meeting of Stockholders.

Business Ethics and Compliance

Our Board of Directors has a Company-wide ethics awareness program and an enhanced compliance program that has been communicated to all employees. The Company has adopted a code of ethics for its CEO and senior financial officers, which complies with Item 406(b) of SEC

Edgar Filing: IMMUNOMEDICS INC - Form DEF 14A

Regulation S-K and is available on the Company's Internet site at www.Immunomedics.com. In addition, all directors, officers and employees of the Company must act ethically and in accordance with the Company's Code of Business Conduct (the "Code of Business Conduct"). The Code of Business Conduct satisfies the definition of "code of ethics" under the rules and regulations of the SEC and the standards of the NASDAQ Stock Market, and is available on the Company's Internet site at www.Immunomedics.com.

Independence of Non-Employee Directors

Good corporate governance requires that a majority of the Board consist of members who are independent. There are different measures of director independence independence under listing standards of the NASDAQ Stock Market, under Section 16 of the Securities Exchange Act of 1934, as amended (the Exchange Act) and under Section 162(m) of the Internal Revenue Code of 1986, as amended. Our Board has recently reviewed information about each of our non-employee directors and determined that each of, Dr. Marvin E. Jaffe, Ms. Mary E. Paetzold, Mr. Richard R. Pivrotto and Mr. Brian A. Markison are deemed independent under applicable law and the listing standards of the NASDAQ Stock Market, and accordingly if all nominees are elected to the Board of Directors at the 2004 Annual Meeting of Stockholders we will have a majority of independent directors on our Board.

We have recently determined that Dr. Morton Coleman, one of our outside directors since 2000, will no longer be deemed independent by virtue of certain fees he receives for his consulting services to the Company. As such, he will no longer serve on the Governance and Nominating Committee or on any other committee required to be constituted solely of independent directors.

Communications with Directors

Stockholders and other interested parties may communicate directly with any director, including any non-management member of the Board of Directors, by writing to the attention of such individual at the following address: Immunomedics, Inc., 300 American Road, Morris Plains, New Jersey 07950.

Communications that are intended for the non-management directors generally should be marked Personal and Confidential and sent to the attention of the Chair of the Governance and Nominating Committee. The Chair will distribute any communications received to the other non-management member(s) to whom the communication is addressed. Communications that are intended for the whole Board should be sent to the attention of the Company's Secretary.

DIRECTOR COMPENSATION

We do not pay directors who are also Immunomedics employees any additional compensation for their service as a director. We do compensate our non-employee directors for their service as a director.

The Executive Committee of the Board of Directors approved an increase in compensation for our non-employee directors beginning January 1, 2004. Below we show the rate of compensation paid to our non-employee directors in fiscal 2004.

Richard R. Pivrotto, a member of our Board of Directors since 1991, was elected to serve as the Lead Outside Director, for which he will be entitled to receive additional compensation as described below.

Cash Compensation

Each director who is not an employee of Immunomedics receives:

Fees*	Fiscal 2004*	For each:
Basic retainer:	\$15,000	Fiscal year
Lead Outside Director	\$5,000	Fiscal year
Chairman of the Audit and	\$2,500	Fiscal year
Compensation Committees (each)

* We also reimburse non-employee directors for reasonable travel and out-of-pocket expenses in connection with their service as directors.

Stock Compensation

Our non-employee directors also participate in Immunomedics 2002 Stock Option Plan (the 2002 Plan). Each director has historically received an annual grant, generally on July 1st, the first day of our fiscal year. The number of shares granted each year is generally determined by the Compensation Committee at its June meeting, subject to the approval of the entire Board of Directors.

Edgar Filing: IMMUNOMEDICS INC - Form DEF 14A

Each option terminates upon the earlier to occur of ten years after the date of grant, or three months after the director ceases to be a member of the Board of Directors, although this 90-day period is extended to one year in the event of disability, and twelve months in the event of death.

Under our 2002 Plan, an option becomes fully vested in the event of the death of the director. The exercise price of options granted under the 2002 Plan is equal to the last reported market price of Immunomedics common stock as quoted on the NASDAQ National Market on the date of grant.

- (1) The options were granted pursuant to the Immunomedics, Inc. 2002 Stock Option Plan. The options granted to the named executive officers are incentive stock options and vest annually in four equal annual installments commencing one year from the date of grant. The exercise price of each option was equal to the closing market price of our common stock on the date of grant.
- (2) The amounts shown in this table represent hypothetical gains that could be achieved for the respective options if exercised at the end of the option term. These gains are based on assumed rates of stock appreciation of 5% and 10% compounded annually from the date the respective options were granted to their expiration date. The gains shown are net of the option exercise price, but do not include deductions for taxes or other expenses associated with the exercise. Actual gains, if any, on stock option exercises will depend on the future performance of the common stock, the optionee's continued employment through the option period and the date on which the options are exercised.
- (3) Represents grant made on April 2, 2004.

Aggregated Option Exercises in Last Fiscal Year and Fiscal Year-End Option Values

The following table provides information regarding the exercises of options by each of the named executive officers during fiscal 2004. In addition, this table includes the number of shares covered by both exercisable and unexercisable stock options as of June 30, 2004 and the values of in-the-money options, which values represent the positive spread between the exercise price of any such option and the fiscal year-end value of the common stock.

Retirement Plan

We maintain a retirement plan established in conformity with Section 401(k) of the Internal Revenue Code of 1986, as amended. All of our employees are eligible to participate in the retirement plan and may, but are not

Table of Contents

obligated to, contribute a percentage of their salary to the retirement plan, subject to certain limitations. Each year, we may contribute to the retirement plan a percentage of each employee's contribution to the retirement plan, which does not exceed 5.0% of the employee's salary. We may also make an additional contribution to the retirement plan. Employee contributions vest immediately. Our contributions vest 20% after two years from the date of hire and, thereafter, at the rate of 20.0% per year for the following four years. A participant also becomes fully vested upon death, retirement at age 65 or if they become disabled while an employee. Benefits are paid following termination of employment or upon the occurrence of financial hardship. It is not possible to estimate the benefits that any participant may be entitled to under the retirement plan since the amount of such benefits will be dependent upon, among other things, our future contributions, future net income earned by the contributions and forfeitures upon future terminations of employment. For the last three fiscal years we have not contributed to the retirement plan in excess of \$2,562 for 2004 and \$2,500 for 2003 and 2002 for any of our executive officers.

Employment Contracts, Termination of Employment and Change-in-Control Arrangements

Cynthia L. Sullivan

Employment Agreement. On March 20, 2001, we entered into an employment agreement with Cynthia L. Sullivan that sets forth the terms of her employment through March 9, 2006. During the term of her employment, we are obligated to pay Ms. Sullivan an annual base salary of no less than \$275,000 and an annual bonus as determined by the Compensation Committee of our Board of Directors, which in no event shall be less than 20% of the base salary. Ms. Sullivan's agreement also provides that she be awarded a minimum of 150,000 stock options annually on the anniversary of the employment agreement. Under her employment agreement, Ms. Sullivan may participate in all benefit plans and programs to the extent she is eligible, including medical and life insurance.

Under the employment agreement, if Ms. Sullivan is terminated for Cause (as defined in the employment agreement), by reason of death, unavailability (as defined in the employment agreement), or by reason of voluntary resignation, then we must pay Ms. Sullivan the base salary through such date of termination. If Ms. Sullivan is terminated for any other reason, then we must continue for a period of four years Ms. Sullivan's medical and life insurance and must pay Ms. Sullivan the sum of (i) the highest base salary paid to Ms. Sullivan during any of the prior three years, (ii) the highest bonus paid to Ms. Sullivan during the prior three years and (iii) the stock options that Ms. Sullivan would have otherwise received during the period commencing on the termination date and ending on the later of 24 months from the termination date and March 9, 2006 (such sum, collectively with the extension of benefits, is referred to hereinafter as the Severance Payment).

In the event of a Change of Control (as defined in the employment agreement), all previous stock option grants made to Ms. Sullivan shall immediately vest. If, following the Change of Control, we do not agree to allow Ms. Sullivan to remain in her current capacity for a one-year period before either consummating a new contract, or the election by Ms. Sullivan to be paid the Severance Payment, then her employment will be terminated and we must pay Ms. Sullivan the Severance Payment.

Dr. David M. Goldenberg

Employment Agreement. Pursuant to the terms of his employment agreement as currently in effect, Dr. Goldenberg is entitled to receive incentive compensation equal to one-half of one percent (0.5%) on the first \$75.0 million of all Annual Net Revenue (as defined in the employment agreement) of Immunomedics, and one-quarter of one percent (0.25%) on all such Annual Net Revenue in excess thereof. Annual Net Revenue is defined to include the proceeds of certain dispositions of assets or interests therein, including royalties, certain equivalents thereof and, to the extent approved by the Board of Directors, non-royalty license fees. Dr. Goldenberg's employment agreement was extended in 2001 for an additional five-year period, expiring on June 30, 2006.

Table of Contents

Dr. Goldenberg is also entitled to receive revenue incentive compensation during the period of his actual employment with our Company, and for a period of three years thereafter, unless he unilaterally terminates his employment without cause or is terminated for cause. With respect to the period that Dr. Goldenberg is entitled to receive revenue incentive compensation on any given products, it will be in lieu of any other percentage compensation based on sales or revenue due him with respect to such products under his employment agreement or the license agreement. With respect to any periods that Dr. Goldenberg is not receiving such revenue incentive compensation, he is entitled to receive one-half of one percent (0.5%) on cumulative annual net sales of, royalties on, certain equivalents thereof, and, to the extent approved by the Board of Directors, other consideration received by Immunomedics for such products, up to a cumulative annual aggregate of \$75,000,000, and one-quarter of one percent (0.25%) on any cumulative Annual Net Revenue in excess of \$75,000,000. A \$100,000 annual minimum payment must be paid in the aggregate against all revenue incentive compensation and royalty payments and the Company's License Agreement with Dr. Goldenberg.

The terms of his employment agreement also provide that Dr. Goldenberg is entitled to receive a percentage, not less than twenty percent (20%), as determined in good faith by the Board of Directors, of net consideration (including, without limitation, license fees) which Immunomedics receives in connection with any disposition by sale, license or otherwise, of any Undeveloped Assets (as defined in the employment agreement) which are not budgeted as part of our strategic plan. Pursuant to this provision, Dr. Goldenberg received a 20% profit interest in the membership interests originally acquired by our Company in connection with the formation of the IBC Pharmaceuticals joint venture with Beckman Coulter in March 1999. Dr. Goldenberg is also compensated by IBC Pharmaceuticals, as discussed in greater detail below.

Dr. Goldenberg is not entitled to any incentive compensation with respect to any products, technologies or businesses acquired from third parties for a total consideration in excess of \$5,000,000, unless we had made a material contribution to the invention or development of such products, technologies or businesses prior to the time of acquisition. Except as affected by a Change in Control (as defined in the employment agreement) or otherwise approved by the Board of Directors, Dr. Goldenberg will also not be entitled to any revenue incentive compensation or incentive payments other than the Annual Minimum Payment with respect to any time during the period of his employment (plus three years, unless employment is terminated by mutual agreement or by Dr. Goldenberg's death or permanent disability) that he is not the direct or beneficial owner of shares of our voting stock with an aggregate market value of at least 20 times his defined annual cash compensation. Finally, it is a condition to his employment agreement that Dr. Goldenberg be permitted to continue his involvement with CMMI as discussed in greater detail elsewhere in this proxy.

Severance Agreement. In June 2002, the Board of Directors approved (with Dr. Goldenberg and Ms. Sullivan abstaining) a severance agreement for Dr. Goldenberg pursuant to which we are required, under certain circumstances upon his termination for any reason, including as a result of his disability or our change in control, to sell to Dr. Goldenberg's family partnership a \$10.0 million life insurance policy we have purchased insuring his life. In addition, if Dr. Goldenberg is terminated upon his disability or our change in control within six years of the date of the agreement, we will reimburse him for the total purchase price of the life insurance policy. If he is terminated for any other reason, whether voluntarily or involuntarily, we will reimburse him for 50% of the purchase price, so long he has remained employed by our Company for three years after the agreement, plus an additional amount for each month of service in excess of three years.

Stock Option Plan

Certain of the outstanding option agreements issued under the 1992 Stock Option Plan and the 2002 Stock Option Plan provide for acceleration of the vesting of the options granted upon or in connection with a change in control. In the event of a change in control, each option granted to an optionee prior to June 12, 2002, will immediately become vested and fully exercisable. Each option granted pursuant on or after June 12, 2002, will immediately become vested and fully exercisable in the event of a change in control only if so specified in the optionee's option agreement or otherwise approved by the Compensation Committee.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Certain of our affiliates, including members of our senior management and Board of Directors, as well as their respective family members and other affiliates, have relationships and agreements among themselves as well as with us and our affiliates, that create the potential for both real, as well as perceived, conflicts of interest. These include Dr. David M. Goldenberg, our Chairman and Chief Strategic Officer, Ms. Cynthia L. Sullivan, our President and Chief Executive Officer, and certain companies with which we do business, including the Center for Molecular Medicine and Immunology. In addition, our Executive Vice President, Dr. Ivan D. Horak, is married to one of our employees.

Dr. David M. Goldenberg

Dr. David M. Goldenberg was an original founder of our Company over 20 years ago and continues to play a critical role in our business. He currently serves as Chairman of our Board of Directors and Chief Strategic Officer, and he is married to our President and Chief Executive Officer, Ms. Cynthia L. Sullivan. Dr. Goldenberg is a party to a number of agreements with our Company involving not only his services, but also intellectual property owned by him. In addition, Dr. Goldenberg performs services for one of our subsidiaries, IBC Pharmaceuticals, Inc., as well as other businesses with which we are affiliated to varying degrees.

License Agreement. Pursuant to a License Agreement between our Company and Dr. Goldenberg, certain patent applications owned by Dr. Goldenberg were licensed to us at the time of our formation in exchange for a royalty in the amount of 0.5% of the first \$20,000,000 of annual net sales of all products covered by any of such patents and 0.25% of annual net sales of such products in excess of \$20,000,000. Five of the licensed U.S. patents have since expired. In November 1993, the ownership rights of Immunomedics were extended as part of Dr. Goldenberg's employment agreement, with Immunomedics agreeing to diligently pursue all ideas, discoveries, developments and products, into the entire medical field, which, at any time during his past or continuing employment by Immunomedics (but not when performing services for CMMI see below), Dr. Goldenberg has made or conceived or hereafter makes or conceives, or the making or conception of which he has materially contributed to or hereafter contributes to, all as defined in his employment agreement.

Life Insurance. We have also agreed with Dr. Goldenberg to maintain in effect for his benefit a \$2,000,000 whole life insurance policy. If Dr. Goldenberg retires from our Company on or after his agreed retirement, or if his employment ends because of permanent disability, we must pay all then outstanding loans, if any, made to the Company under such policy, and assign such policy to Dr. Goldenberg in consideration of the services previously rendered by Dr. Goldenberg to the Company. There are no outstanding loans as of June 30, 2004. If the employment of Dr. Goldenberg terminates for any other reason, except for cause, Dr. Goldenberg has the option to purchase such policy for a price mutually agreed upon by him and the Board of Directors, but not to exceed the cash value thereof less any outstanding policy loans, or he may purchase such policy at its full cash value, less any outstanding loans, with the purchase price to be paid out of the proceeds of the policy or any earlier payment or withdrawal of all or any portion of its net cash value. We also currently maintain \$4,000,000 of key man life insurance on Dr. Goldenberg for our benefit.

Additionally, a trust created by Dr. Goldenberg purchased in 1991 a \$10,000,000 whole life policy on his life. The policy provides funds that may be used to assist Dr. Goldenberg's estate in settling estate tax obligations, and thus potentially reducing the number of shares of our common stock his estate may be required to sell over a short period of time to raise funds to satisfy such tax obligations. During what is estimated to be a 15-year period, we are obligated to pay \$143,000 per year towards premiums, compared to an equivalent \$250,000 commitment under the previous policies, in addition to amounts required to be paid by Dr. Goldenberg. We have an interest in this policy up to the cumulative amount of premium payments we have made which, through June 30, 2004, was \$2,123,000. If Dr. Goldenberg's employment terminates, and the policy is not maintained, we would receive payment of only its invested cumulative premiums, up to the amount of cash surrender value in the policy.

Relationships with The Center for Molecular Medicine and Immunology

We have historically relied upon, to varying degrees, CMMI, a not-for-profit specialized cancer research center, for the performance of certain basic research and patient evaluations, the results of which are made available to us pursuant to a collaborative research and license agreement. CMMI, which is funded primarily by grants from the National Cancer Institute, is located in Belleville, New Jersey. Dr. Goldenberg is the founder, current President and a member of the Board of Trustees of CMMI. Dr. Goldenberg's employment agreement permits him to devote more of his time working for CMMI than for our Company. Certain of our consultants have employment relationships with CMMI, and Dr. Hans Hansen, one of our employees and former executive officer, is a former adjunct member of CMMI. Despite these relationships, we believe CMMI is independent of Immunomedics, and CMMI's management and fiscal operations are the responsibility of CMMI's Board of Trustees.

We have reimbursed CMMI for expenses incurred on behalf of our Company, including amounts incurred pursuant to research contracts, in the amount of approximately \$109,000, \$90,000, and \$205,000 during the years ended June 30, 2004, 2003 and 2002, respectively. We also provide, at no cost to CMMI, laboratory materials and supplies, although the aggregate cost of these materials and supplies does not exceed \$20,000 in any year. Any inventions made independently of us at CMMI are the property of CMMI.

During the fiscal years 2004, 2003 and 2002, our Board of Directors authorized grants to CMMI of \$401,000, \$349,000 and \$200,000, respectively, to support research and clinical work being performed at CMMI, such grants to be expended in a manner deemed appropriate by the Board of Trustees of CMMI.

IBC Pharmaceuticals

In March 1999, IBC Pharmaceuticals, LLC ("IBC LLC") was formed as a joint venture between Immunomedics and Beckman Coulter, Inc. ("Beckman Coulter") to pursue the development of novel cancer radiotherapeutics using pre-targeting with bi-specific antibodies. Pursuant to the terms of his employment agreement, Dr. Goldenberg was an indirect, minority investor in the joint venture.

In May 2002, Immunomedics was able to acquire all of the Class A membership interests in IBC LLC owned by Beckman Coulter in exchange for (i) 138,900 shares of Immunomedics common stock and (ii) a warrant to purchase an additional 150,000 shares of Immunomedics common stock at an exercise price of \$65.00 per share, exercisable until the earlier of May 2007 or a change in control of Immunomedics. As a result of this acquisition, Immunomedics controlled, directly and indirectly, all of the Class A membership interests and a majority of all membership interests in IBC LLC and determined to reorganize IBC LLC into a Delaware C corporation under the Internal Revenue Code of 1986, as amended. Other holders of IBC LLC membership interests approved the reorganization.

The IBC reorganization was completed in June 2002, when IBC LLC contributed all of its assets, and assigned all of its liabilities, to a newly formed Delaware corporation, IBC Pharmaceuticals, Inc., in exchange for shares of Series A Preferred Stock and Series B Preferred Stock. These shares of preferred stock were then distributed to the members. Dr. Goldenberg also contributed 34,725 shares of Immunomedics common stock to IBC Pharmaceuticals, Inc. ("IBC")

IBC reimbursed Immunomedics for \$271,000 of its research activities in 2004 that were conducted on behalf of IBC. The unreimbursed research activities (\$774,000) is an outstanding receivable at June 30, 2004. For the fiscal years ended June 30, 2003 and 2002, the Company received reimbursements of \$1,147,000 and \$634,000 respectively, from IBC with respect to these research activities. The reimbursements for the fiscal

years June 30, 2004 and 2003 were eliminated in consolidation.

COMPENSATION COMMITTEE REPORT ON EXECUTIVE COMPENSATION

The Compensation Committee is currently composed of two independent, non-employee directors. The Compensation Committee's primary functions are to address Chief Executive Officer and senior executive talent development, retention, performance and succession planning, and to provide advice to, as well as, in certain circumstances, act on behalf of, the Immunomedics Board of Directors with respect to Immunomedics general and executive compensation and benefit practices. In particular, the Compensation Committee performs the following functions:

conducts an annual review of the Chief Executive Officer's performance based on both objective and subjective criteria, such as performance of the business, accomplishment of long-term strategic objectives and management development;

reviews with the Chief Executive Officer Immunomedics' organization concepts, the development and potential for promotion of the senior members of Immunomedics' management and the availability of replacements for these management positions;

reviews the qualifications of the executive officers of Immunomedics and nominates executive officers for election by the full Board of Directors;

reviews and approves compensation policy and philosophy for Immunomedics to ensure that the compensation strategy supports organizational objectives and stockholder interests, and considers appropriate companies for comparative purposes;

determines the annual salary and other elements of total compensation of the Chief Executive Officer, and, with the involvement of the Chief Executive Officer, annually reviews the total compensation of all other executive officers;

administers Immunomedics' equity incentive plans and the issuance of awards pursuant to those plans, including approving of all equity grants to executive officers, establishing equity grant guidelines and monitoring the availability of shares under those plans; and

approves and recommends to the full Board of Directors the adoption of, and any suggested material changes to: (a) any equity incentive plans; (b) any qualified or non-qualified employee pension, profit-sharing or retirement plans; and (c) any broad-based employee incentive compensation plans; and approves changes to these plans that do not require stockholder approval or do not involve material amounts of money or other consideration.

General Compensation Philosophy

Immunomedics' compensation philosophy is based on the principles of competitive and fair compensation consistent with performance. The executive compensation program is designed to motivate and reward our senior management by aligning a substantial portion of their compensation with the achievement of Immunomedics' strategic business goals as well as individual performance objectives.

To ensure that compensation is competitive, the Compensation Committee regularly compares Immunomedics compensation practices and levels with those of other leading companies in the biotechnology and biopharmaceutical industries with whom Immunomedics competes for executive talent. While in certain circumstances these companies are at a similar stage of development as Immunomedics, the Compensation Committee also looks at both smaller and larger companies to obtain a comprehensive view of the compensation practices with other high-value, rapidly developing biotech companies. These companies included Amgen, Corixia, Digene, Idec Pharmaceuticals, Ilex Oncology, Imclone

Edgar Filing: IMMUNOMEDICS INC - Form DEF 14A

Systems and Millennium Pharmaceuticals. The Compensation Committee believes that, in light of the rapid growth in recent years of the Immunomedics pipeline of therapeutic and diagnostic product candidates, as well as the Company's aggressive plans for future growth, this dual approach is the best means of ensuring that the Company is able to recruit and retain the employees it needs to achieve these ambitious goals.

Table of Contents

Key Elements of Compensation

The major elements of Immunomedics' compensation program are base salary, annual bonus and stock options.

Salary. Base salary levels are designed to recognize an individual's ongoing contribution, to be commensurate with an individual's experience and organization level and to be competitive with market benchmarks. Increases in annual salaries are based on demonstrated levels of competency in skill, effectiveness and leadership, and by comparing how an individual has performed essential job requirements against what was envisioned with the position. Salary adjustments also are based on general market competitiveness. The Compensation Committee does not use a specific formula based on these criteria, but instead makes an evaluation of each executive officer's contributions in light of all such criteria.

Bonus Program. Immunomedics' executive officers, along with all other employees, are eligible to participate in a bonus program that is designed to promote the achievement of Immunomedics' goals. Each year, the Compensation Committee evaluates the performance of the Company as a whole, as well as the performance of each individual executive. Factors considered include advancement of the Company's pipeline of both therapeutic as well as diagnostic product candidates, growth in the Company's intellectual property portfolio, development of the Company's manufacturing and operating capabilities, enhancements to the Company's financial reporting systems and controls, and the successful negotiation of advantageous out-licensing as well as other collaborative agreements. Throughout fiscal 2004, the Compensation Committee did not utilize formalized mathematical formulas, nor did it assign weightings to these factors. The Compensation Committee, in its sole discretion, determined the amount, if any, of bonus payments to each executive.

Each executive officer has a target bonus opportunity that, in the case of Ms. Sullivan and Dr. Goldenberg, is determined in accordance with their respective employment agreements, or is otherwise set by the Compensation Committee each year based on its review of total compensation at companies such as those identified above. For fiscal 2004, target bonus levels for Immunomedics' executive officers ranged from 10%–50% of base salary, although actual bonus awards can range from zero to well above the target bonus level.

Stock Option Program. Substantially all employees are eligible to participate in Immunomedics' stock option program. Our stock option program is designed to directly align the long-term financial interests of Immunomedics' employees and its stockholders, to assist in the retention of employees by providing a meaningful ownership stake in Immunomedics and to encourage our employees to think and act like owners of the business. Immunomedics generally uses a four-year vesting period and a ten-year exercise period for all stock option grants to encourage key employees to continue their employment with us. The exercise price for all stock options granted in fiscal 2004 equaled the market value of the underlying shares on the dates of grant. Therefore, ultimately the stock options have value only if the value of the underlying shares increases.

Immunomedics typically grants stock options to new employees when they start employment and to continuing employees on an annual basis and upon promotions to positions of greater responsibility. Decisions about the size of annual stock option grants that may be made to continuing employees are made at the end of our fiscal year in June, and are generally intended to reflect the individual's position with Immunomedics, the degree to which his or her contributions impacted our results in the past year, and the importance of his or her critical skills for Immunomedics' future success.

Ms. Sullivan's Fiscal 2004 Compensation

Ms. Sullivan is eligible to participate in the same executive compensation plans available to our senior executive officers.

Ms. Sullivan's salary level remained unchanged at \$500,000 for fiscal 2005, which began on July 1, 2004. Ms. Sullivan was granted a bonus of \$125,000, or 25% of her base salary, in June 2004 in consideration of her contributions to the Company during the fiscal year ended June 30, 2004. She received a bonus of \$100,000 during the prior fiscal year.

Table of Contents

Ms. Sullivan received a grant of options to purchase 150,000 shares of common stock at a price of \$5.44 per share in June 2004 in consideration of her achievements in the fiscal year ended June 30, 2004. She had been granted stock options to purchase 200,000 shares of Immunomedics common stock at a price of \$7.62 per share in June 2003 in consideration of her performance during the year ended June 30, 2003.

The Compensation Committee believes that Ms. Sullivan's fiscal 2004 total compensation was competitive, fair, and consistent with Immunomedics' results for the year, and reflective of Immunomedics' executive compensation philosophy.

Tax Policy

Internal Revenue Code Section 162(m) precludes Immunomedics from taking a deduction for compensation in excess of \$1.0 million paid to the executive officers required to be named in the Summary Compensation Table in the proxy statement. Certain income may be excluded from the limit. While it is our policy to qualify our executive officer compensation for deductibility under applicable tax law to the extent reasonable, the Compensation Committee has not adopted a blanket policy limiting executive compensation to fully tax-deductible amounts in every case, and non-deductible payments have been made in the past and may possibly occur again.

Immunomedics was able to fully deduct the compensation paid to the named executive officers in fiscal 2004. If it appears likely that the application of Section 162(m) will affect the Company in the future, the Board of Directors and the Compensation Committee will assess the practical effect on executive compensation and the Company, and determine what action, if any, is appropriate to exclude certain compensation from the limit while maintaining the flexibility necessary to provide total cash compensation in line with competitive practice, our compensation philosophy, and our best interests, in each case without regard to deductibility. Accordingly, the Company may from time to time pay compensation to our executive officers that may not be deductible for tax purposes.

AUDIT COMMITTEE REPORT

The Audit Committee's primary function is to assist the Board of Directors in monitoring the integrity of Immunomedics' financial statements, systems of internal control and the independence and performance of the independent auditor.

The Audit Committee has discussed with the independent auditors the matters required to be discussed by this Statement.

In general, Independence Standards Board Standard No. 1, *Independence Discussions with Audit Committees*, as amended, requires the independent auditors to communicate, at least annually, with the Committee regarding all relationships between the independent auditors and Immunomedics that, in the professional judgment of the independent auditors, may reasonably be thought to bear on their independence. The Audit Committee has received and reviewed the written disclosures and the letter from the independent auditors required by this Standard, and the Audit Committee has discussed with the independent auditors the independent auditors' independence. When considering the auditors' independence, the Audit Committee considered whether their provision of services to Immunomedics beyond those rendered in connection with their audit and review of Immunomedics' consolidated financial statements was compatible with maintaining their independence and discussed with the auditors any relationships that may impact their objectivity and independence. The Audit Committee also reviewed, among other things, the amount of fees paid to the auditors for audit services in fiscal 2004. Information about the auditors' fees for fiscal 2004 is listed below in this proxy statement under Independent Auditors. Based on these discussions and considerations, The Audit Committee is satisfied as to the auditors' independence.

Based on the reviews and discussions referred to above, The Audit Committee recommended to the Board of Directors that the audited financial statements referred to above be included in Immunomedics' Annual Report on Form 10-K for the year ended June 30, 2004. The Audit Committee has also selected Ernst & Young LLP as Immunomedics' independent auditors for the fiscal year ending June 30, 2005.

Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

As of October 22, 2002, our Board of Directors terminated KPMG LLP as our independent accountants and approved the engagement of Ernst & Young LLP as our independent accountants for the fiscal year ending June 30, 2003. Consistent with the policy of our Board of Directors to consider a change in accounting firms from time to time, after ten years with KPMG the Audit Committee of our Board of Directors determined it was an appropriate time to make a change. Following a review of the available alternatives with our senior management, the Audit Committee resolved to recommend to the entire Board of Directors that we engage Ernst & Young. The Board of Directors then unanimously approved the recommendation.

Edgar Filing: IMMUNOMEDICS INC - Form DEF 14A

The audit report of KPMG on our consolidated financial statements as of and for the fiscal year ended June 30, 2002 did not contain an adverse opinion or a disclaimer of opinion, and were not qualified or modified as to uncertainty, audit scope or accounting principles.

During our fiscal years ended June 30, 2002 and the subsequent interim period through October 22, 2002, there were no disagreements between us and KPMG concerning any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure, which disagreements, if not resolved to the satisfaction of KPMG, would have caused it to make reference to the subject matter of the disagreements in connection with its reports.

Table of Contents

We did not consult with Ernst & Young during our fiscal year ended June 30, 2002 on the application of accounting principles to a specified transaction, the type of opinion that might be rendered on our financial statements, any accounting, auditing or financial reporting issue, or any item that was either the subject of a disagreement or a reportable event as defined in Item 304 of Regulation S-K.

We provided KPMG with a copy of the disclosures contained in the Form 8-K filed on October 25, 2002.

Appointment of Independent Auditor and Pre-Approval of Audit and Non-Audit Services

The Audit Committee charter requires approval of all audit services to be performed by our independent auditors.

Prior to engaging Ernst & Young LLP to render the above services, and pursuant to its charter, the Audit Committee approved the engagement for each of the services and determined that the provision of such services by the independent auditors was compatible with the maintenance of Ernst & Young LLP's independence in the conduct of its auditing services.

The Audit Committee will use the following procedures for the pre-approval of all audit and permissible non-audit services provided by the independent auditors.

Before engagement of the independent auditor for the next year's audit, the independent auditors will submit a detailed description of services expected to be rendered during that year within each of four categories of services to the Audit Committee for approval.

1. Audit Services include audit work performed on the financial statements, as well as work that generally only the independent auditors can reasonably be expected to provide, including comfort letters, statutory audits, and discussions surrounding the proper application of financial accounting and/or reporting standards.

2. Audit-Related Services are for assurance and related services that are traditionally performed by the independent auditors, including due diligence related to mergers and acquisitions, employee benefit plan audits and special procedures required to meet certain regulatory requirements.

3. Tax Services include all services, except those services specifically related to the audit of the financial statements, performed by the independent auditors' tax personnel, including tax analysis; assisting with coordination of execution of tax related activities, primarily in the area of corporate development; supporting other tax related regulatory requirements; and tax compliance and reporting.

4. Other Services are those associated with services not captured in the other categories.

Edgar Filing: IMMUNOMEDICS INC - Form DEF 14A

Prior to engagement, the Audit Committee pre-approves independent auditor services within each category. The fees are budgeted and the Audit Committee requires the independent auditors to report actual fees versus the budget periodically throughout the year by category of service. During the year, circumstances may arise when it may become necessary to engage the independent auditors for additional services not contemplated in the original pre-approval categories. In those instances, the Audit Committee requires specific pre-approval before engaging the independent auditors.

The Audit Committee may delegate pre-approval authority to one or more of its members. The member to whom such authority is delegated must report, for informational purposes only, any pre-approval decisions to the Audit Committee at its next scheduled meeting.
