What is the difference between holding shares as a stockholder of record and as a beneficial owner?

Edgar Filing: CHENIERE ENERGY INC - Form DEF 14A

If your shares are registered directly in your name with Cheniere's transfer agent, U. S. Stock Transfer Corporation, you are considered the stockholder of record of those shares. The Notice of Annual Meeting, Proxy Statement, proxy card and 2006 Annual Report on Form 10-K for the year ending December 31, 2006 have been sent directly to you by Cheniere.

If your shares are held in a stock brokerage account or by a bank or other holder of record, you are considered the beneficial owner of such shares held in street name. The Notice of Annual Meeting, Proxy Statement, proxy card and 2006 Annual Report on Form 10-K for the year ending December 31, 2006 have been forwarded to you by your broker, bank or other holder of record, who is considered the stockholder of record of those shares. As the beneficial owner, you have the right to direct your broker, bank or other holder of record on how to vote your shares by using the voting instruction card included in the mailing or by following their instructions for voting by telephone or on the Internet.

How do I vote if I am a stockholder of record?

You may vote either by mail or in person.

By Mail

Be sure to complete, sign and date the enclosed proxy card and return it in the prepaid envelope. If you do not indicate your voting preferences, your shares will be voted as recommended by the Board of Directors.

If the prepaid envelope is missing, please mail your completed proxy card to Cheniere Energy, Inc., c/o U. S. Stock Transfer Corporation, 1745 Gardena Avenue, Glendale, CA 91204.

In Person at the Meeting

All stockholders of record on March 27, 2007 may vote in person at the Meeting. You may also be represented by another person at the Meeting by executing a proper proxy designating that person.

How do I vote if I am a beneficial owner?

You may vote using any of the following methods:

By Mail

Be sure to complete, sign and date the enclosed proxy card and return it in the prepaid envelope. If you do not indicate your voting preferences, your shares will be voted as recommended by the Board of Directors.

By Telephone or on the Internet

The availability of telephone and Internet voting will depend on the voting processes of your broker, bank or other holder of record. Therefore, we recommend that you follow the voting instructions in the materials you receive.

In Person at the Meeting

All stockholders may vote in person at the Meeting. You may also be represented by another person at the Meeting by executing a proper proxy designating that person. You must obtain a legal proxy from your broker, bank or other holder of record and present it to the inspectors of election with your ballot to be able to vote at the meeting.

Can I revoke my proxy?

If you are a stockholder of record, you can revoke your proxy before it is exercised by:

written notice to the Corporate Secretary of the Company;

timely delivery of a valid, later-dated proxy; or

voting by ballot at the Meeting.

If you are a beneficial owner of shares, you may submit new voting instructions by contacting your bank, broker or other holder of record. You may also vote in person at the Meeting if you obtain a legal proxy as described in the answer to the preceding questions.

What shares are included on the proxy card?

If you are a stockholder of record, you will receive a proxy card for the shares you hold in certificate form or in book-entry form.

If you are a beneficial owner, you will receive voting instructions from your bank, broker or other holder of record.

Is there a list of stockholders entitled to vote at the Meeting?

The names of stockholders of record entitled to vote at the Meeting will be available at the Meeting and for ten days prior to the Meeting for any purpose germane to the Meeting. The list will be available between the hours of 8:30 a.m. and 4:30 p.m., at our offices at 700 Milam Street, Suite 800, Houston, Texas 77002, by contacting the Corporate Secretary of the Company.

What are the voting requirements to elect the directors and to approve each of the proposals discussed in this Proxy Statement?

The presence of the holders of a majority of the outstanding shares of common stock entitled to vote at the Meeting, present in person or represented by proxy, is necessary to constitute a quorum. Abstentions and broker non-votes are counted as present and entitled to vote for purposes of determining a quorum. Abstentions and broker non-votes occur when a bank, broker or other holder

of record holding shares for a beneficial owner does not vote on a particular proposal because that holder does not have discretionary voting power for that particular item and has not received instructions from the beneficial owner.

If you are a beneficial owner, your bank, broker or other holder of record is permitted to vote your shares on the election of directors and the ratification of Ernst & Young LLP as our independent accountants, even if the broker does not receive voting instructions from you.

Each nominee for director will be elected if the votes for the nominee exceed the votes against the nominee. Abstentions are not counted either for or against the nominee.

Ratification of Ernst & Young LLP as our independent accountants will require approval by a majority of shares represented in person or by proxy and entitled to vote at the Meeting. Abstentions with respect to ratification of Ernst & Young LLP as independent accountants will have the same effect as a vote against the ratification but will have no effect with respect to the election of directors.

Could other matters be decided at the Meeting?

As of the date of this Proxy Statement, we do not know of any matters to be raised at the Meeting other than those referred to in this Proxy Statement.

If other matters are properly presented for consideration at the Meeting, the persons named in your proxy card will have the discretion to vote on those matters for you.

Can I access the Notice of Annual Meeting, Proxy Statement and 2006 Annual Report on Form 10-K for the year ending December 31, 2006, on the Internet?

The Proxy Statement, including the Notice of Annual Meeting, and the Form 10-K for the year ending December 31, 2006 are available on our website at www.cheniere.com.

Who will pay for the cost of this proxy solicitation?

We will pay the cost of soliciting proxies. Proxies may be solicited on our behalf by directors, officers or employees in person or by telephone, electronic transmission and facsimile transmission. We have hired The Altman Group to solicit proxies. We will pay The Altman Group a fee of \$6,000, plus expenses, for these services.

Who will count the vote?

Representatives of our transfer agent, U. S. Stock Transfer Corporation, will tabulate the votes.

Governance Information

Director Independence

The Board determines the independence of each director and nominee for election as a director in accordance with the rules and regulations of the Securities and Exchange Commission (SEC) and the American Stock Exchange (AMEX) independence standards, which are listed below. The Board also considers relationships that a director may have:

as a partner, shareholder or officer of organizations that do business with or provide services to Cheniere;

as an executive officer of charitable organizations to which we have made or make contributions; and

that may interfere with the exercise of a director's independent judgment.

The AMEX independence standards state that the following list of persons shall not be considered independent:

a director who is, or during the past three years was, employed by the Company or by any parent or subsidiary of the Company;

a director who accepts, or has an immediate family member who accepts, any payments from the Company or any parent or subsidiary of the Company in excess of \$60,000 during the current year or any of the past three fiscal years, other than compensation for Board services, payments arising solely from investments in the Company's securities, compensation paid to an immediate family member who is a non-executive employee of the Company or by any parent or subsidiary of the Company, among other exceptions;

a director who is an immediate family member of an individual who is, or has been in any of the past three years, employed by the Company or any parent or subsidiary of the Company as an executive officer;

a director who is or has an immediate family member who is, a partner in, a director who is, or has an immediate family member who is, a partner in, or a controlling shareholder or an executive officer of, any organization to which the Company made, or from which the Company received, payments (other than those arising solely from investments in the Company's securities or payments under non-discretionary charitable contribution matching programs) that exceed 5% of the organization's consolidated gross revenues for that year, or \$200,000, whichever is more, in any of the most recent three fiscal years;

a director who is, or has an immediate family member who is, employed as an executive officer of another entity where at any time during the most recent three fiscal years any of the Company's executive officers serve on the compensation committee of such other entity; or

a director who is, or has an immediate family member who is, a current partner of the Company's outside auditor, or was a partner or employee of the Company's outside auditor who worked on the Company's audit at any time during any of the past three years.

At the Board meeting held on March 30, 2007, the Board determined that each of the non-employee directors is independent, and no non-employee director has a relationship that may interfere with the exercise of his or her independent judgment. Mr. Souki and Mr. Williams are not independent because each is an executive officer of the Company.

Director Nominations

We consider suggestions for potential director nominees to the Board of Directors from any source, including current members of the Board of Directors and our management, advisors and stockholders. We do not have an official nominating committee and do not have a nominating committee charter. We believe that obtaining input from all independent directors in connection with nominations to the Board of Directors enhances the nomination process. The independent directors evaluate potential nominees by reviewing their qualifications, through direct contact and interviews and reviewing such other information as may be deemed relevant. A majority of directors who meet the independence standards of the AMEX listing standards and the rules and regulations of the SEC recommend director nominees to the full Board of Directors. The entire Board of Directors then selects and recommends the director nominees for stockholders to consider and vote upon at the annual stockholders meeting. The Board of Directors reviews and considers candidates submitted by stockholders or stockholder groups in the same manner as all other candidates.

Qualifications for consideration as a director nominee vary according to the particular areas of expertise being sought as a complement to the existing Board composition. However, minimum criteria for selection of members to serve on our Board of Directors include the following:

highest ethical standards and integrity,

willingness to act on and be accountable for Board decisions,

high level of education and/or business experience,

broad-based business acumen,

understanding of the Company's business and industry,

strategic thinking and willingness to share ideas,

loyalty and commitment to driving the success of the Company,

network of contacts and

diversity of experiences, expertise and backgrounds among members of the Board of Directors.

A stockholder of the Company who is entitled to vote at a meeting of stockholders called for the election of directors may nominate candidates for election to the Board of Directors. Nominations made by a stockholder must be made by giving notice in writing to the Corporate Secretary of the Company before the later to occur of (i) 60 days prior to the date of the meeting of stockholders called for the election of directors or (ii) 10 days after the Board of Directors makes public disclosure of the date of such meeting. In no event shall the public disclosure of an adjournment of an annual meeting of stockholders commence a new time period for the giving of a stockholder's notice as described above. Such stockholder's notice must set forth the following information as to each person whom the stockholder proposes to nominate for election or re-election as a director: (i) the name, age, business address and residence address of such person, (ii) the principal occupation or employment of such person, (iii) the class and number of shares of capital stock of the Company that are then beneficially owned by such person, (iv) any other information relating to such person that is required by law or regulation to be disclosed in solicitations of proxies for the election of directors of the Company and (v) such person's written consent to being named as a nominee for election as a director and to serve as a director, if elected. Such stockholder's notice must also set forth the following information as to the stockholder giving the notice: (i) the stockholder's name and address as they appear in the stock records of the Company, (ii) the class and number of shares of capital stock of the Company that are then beneficially owned by the stockholder, (iii) a description of all arrangements or understandings between the stockholder and each nominee for election as a director and any other person or persons (naming such person or persons), relating to the stockholder's nomination and (iv) any other information required by law or regulation to be provided by a stockholder intending to nominate a person for election as a director of the Company.

Code of Conduct and Ethics

Our Code of Business Conduct and Ethics, which is applicable to all directors, officers and employees of the Company, is available on the Company's website at www.cheniere.com.

Meetings and Committees of the Board

Our operations are managed under the broad supervision and direction of the Board of Directors, which has the ultimate responsibility for the establishment and implementation of the Company's general operating philosophy, objectives, goals and policies. Pursuant to delegated authority, certain Board functions are discharged by the Board's standing Audit and Compensation Committees. Members of the Audit and Compensation Committees for a given year are selected by the Board following the annual stockholders' meeting. During the fiscal year ended December 31, 2006, the Company's Board of Directors held ten meetings. Each incumbent member of the Board attended or participated in at least 75% of the aggregate number of (i) Board meetings and (ii) committee meetings held by each committee of the Board on which the director served. Although directors are not required to attend annual stockholders' meetings, they are encouraged to attend such meetings. At the 2006 annual meeting of stockholders, all members of the Board of Directors were present.

Audit Committee

The Audit Committee's members at December 31, 2006 were: David B. Kilpatrick, Vicky A. Bailey, Nuno Brandolini, Keith F. Carney, John M. Deutch, Paul J. Hoenmans and J. Robinson West. Mr. Kilpatrick served as Chairman of the Audit Committee. Each member of the Audit Committee has been determined by the Board to be independent as defined by the AMEX's listing standards and by the SEC, and the Board has determined that Mr. Brandolini and Mr. Carney are audit committee financial experts as defined in Item 401(h) of Regulation S-K promulgated by the SEC. The Audit Committee held four meetings during the fiscal year ended December 31, 2006.

The Audit Committee has a written charter, which is available on our website at www.cheniere.com. The Audit Committee is appointed by the Board to oversee the accounting and financial reporting processes of the Company and the audits of the Company's financial statements. The Audit Committee assists the Board in monitoring:

the integrity of the Company's financial statements,

the qualifications, independence and performance of our independent accountants,

our internal audit function and systems of internal controls over financial reporting and disclosure controls and procedures,

the performance of our audit and accounting processes generally and

compliance by the Company with legal and regulatory requirements.

The Audit Committee provides for open, ongoing communication among the independent accountants, financial and senior management, compliance officers and the Board concerning our financial and compliance position and affairs. The Audit Committee has the power to conduct or authorize investigations into any matters within its scope of responsibilities and has sole authority to retain special legal, accounting or other consultants to advise the Audit Committee and to approve the fees and other retention terms of such consultants. The Audit Committee's responsibility is oversight, and it recognizes that the Company's management is responsible for preparing the Company's financial statements and complying with applicable laws and regulations.

Compensation Committee

The Compensation Committee's members at December 31, 2006 were: Keith F. Carney, Vicky A. Bailey, Nuno Brandolini, John M. Deutch, Paul J. Hoenmans, David B. Kilpatrick and J. Robinson West. Mr. Carney served as Chairman of the Compensation Committee. Each Compensation Committee member has been determined by the Board to be free from any relationship that in the opinion of the Board would interfere with the exercise of independent judgment as a member of the Compensation Committee. Each member of the Compensation Committee is a non-employee director as defined in the rules and regulations of the SEC. Each member of the Compensation Committee also meets the independence requirements of the AMEX. The Compensation Committee held ten meetings during 2006. The Compensation Committee reviews and approves the compensation policies, practices and plans of the Company pursuant to a written charter, which is available on our website at www.cheniere.com. The Chairman of the Compensation Committee, in consultation with other Compensation Committee members, members of management and the compensation consultant, determines the agenda and dates of Compensation Committee meetings.

Under Section 162(m) of the Internal Revenue Code of 1986, as amended (the Code), a public company's corporate income tax deduction is capped at \$1 million per year for amounts paid to each of a company's five highest paid executives. However, the \$1 million cap does not apply to performance-based compensation that is paid because of the attainment of one or more pre-established and objective performance goals adopted by a compensation committee consisting of two or more outside directors. For a member of a compensation committee to be considered an outside director under Section 162(m) of the Code, the director must not:

be a current employee of the company,

be former employee of the company who is receiving compensation for prior services,

be an officer or former officer of the company or

The Board of Directors approved compensation, payable as of December 15, 2006, for Mr. Deutch of \$50,000 for his term of board service from December 15, 2006 through May 2007. Cash payments are made quarterly. The number of shares of restricted stock issued was determined based on the closing price of the Company's common stock as reported on AMEX on December 15, 2006 (\$28.22), discounted by 25% (\$21.17). A discount was applied to recognize the inherent risk in holding stock over the three-year vesting period in a developing company with a limited operating history. One-third of the restricted stock vests on each anniversary of the date of grant beginning on December 15, 2007.

When an individual is initially elected as a director, it is the Board's practice to grant 25,000 fully vested stock options with a term of ten years. PROPOSAL 2 RATIFICATION OF ERNST & YOUNG LLP AS INDEPENDENT ACCOUNTANTS

The Audit Committee has engaged Ernst & Young LLP (E&Y) to serve as the Company's independent accountants for the fiscal year ending December 31, 2007. UHY LLP (UHY), who served as our independent accountants for the fiscal year ending December 31, 2006, was dismissed as the independent accountants for the Company on March 1, 2007. None of the reports of UHY on the Company's financial statements for either of the past two years or any subsequent interim period contained an adverse opinion or disclaimer of opinion, or was qualified or modified as to uncertainty, audit scope or accounting principles. During the Company's two most recent fiscal years and any subsequent interim period preceding UHY's dismissal, there were no disagreements between the Company and UHY on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure, which disagreements, if not resolved to the satisfaction of UHY, would have caused it to make reference to the subject matter of the disagreements in connection with its report.

During our two most recent fiscal years or subsequent interim periods we have not consulted with E&Y regarding the application of accounting principles to a specific transaction, either completed or proposed, or the type of audit opinion that might be rendered on our financial statements, nor did E&Y provide advice to us, either written or oral, that was an important factor considered by us in reaching a decision as to an accounting, auditing or financial reporting issue. Further, during our two most recent fiscal years or subsequent interim periods, we have not consulted with E&Y on any matter that was the subject of a disagreement or a reportable event.

We anticipate that representatives of E&Y and UHY will participate in the annual meeting of stockholders and may make a statement if they desire to do so, and they will be available to respond to appropriate questions concerning our financial statements.

The Board of Directors recommends a vote FOR the ratification of the Audit Committee's appointment of Ernst & Young LLP as the Company's independent accountants for the fiscal year ending December 31, 2007.

Pre-Approval Policies and Procedures

The Audit Committee's policy is to pre-approve all audit and non-audit services provided by the independent accountants and not to engage the independent accountants to perform any non-audit services specifically prohibited by law or regulation. All audit and non-audit services provided to the Company during the fiscal years ended December 31, 2006 and 2005 were pre-approved.

Resignation of Auditor

Edgar Filing: CHENIERE ENERGY INC - Form DEF 14A

On June 1, 2006, the partners of UHY Mann Frankfort Stein & Lipp CPAs, LLP (Mann Frankfort) announced that they were joining UHY. UHY is the independent registered public accounting firm with which Mann Frankfort was previously affiliated. UHY is a legal entity separate from Mann Frankfort.

On August 17, 2006, Mann Frankfort notified us that it had ceased to provide audit services in connection with its transaction with UHY, and accordingly, that it was resigning as our independent accountants on that date. None of the reports of Mann Frankfort on our financial statements for either of the past two years or subsequent interim periods contained an adverse opinion or disclaimer of opinion, or was qualified or modified as to uncertainty, audit scope or accounting principles.

On August 17, 2006, the Audit Committee engaged UHY as our independent accountants for our fiscal year ending December 31, 2006 and the preceding interim periods. During our two most recent fiscal years or subsequent interim period, we have not consulted with UHY regarding the application of accounting principles to a specific transaction, either completed or proposed, or the type of audit opinion that might be rendered on our financial statements, nor did UHY provide advice to us, either written or oral, that was an important factor considered by us in reaching a decision as to an accounting, auditing or financial reporting issue. Further, during our two most recent fiscal years or subsequent interim periods, we have not consulted with UHY on any matter that was the subject of a disagreement or a reportable event.

During our two most recent fiscal years and any subsequent interim periods, there were no disagreements between us and Mann Frankfort on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure, which disagreements, if not resolved to the satisfaction of Mann Frankfort, would have caused it to make reference to the subject matter of the disagreements in connection with its report.

Work Performed by Principal Accountant s Full Time, Permanent Employees

Through December 31, 2006, UHY had a continuing relationship with UHY Advisors, Inc. (Advisors) from which it leased auditing staff who were full time, permanent employees of Advisors and through which UHY s partners provide non-audit services. UHY has no full time employees and therefore, none of the audit services performed were provided by permanent full-time employees of UHY. UHY manages and supervises the audit services and audit staff, and is exclusively responsible for the opinion rendered in connection with its examination.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

The following discussion and analysis of compensation arrangements of our named executive officers should be read together with the compensation tables and related disclosures set forth below. This discussion contains forward-looking statements that are based on our current plans, as well as considerations, expectations and determinations regarding future compensation programs. Actual compensation programs that we adopt may differ materially from currently planned programs as summarized in this discussion.

Overview

Cheniere is engaged in four business activities: liquefied natural gas (LNG) receiving terminals; natural gas pipelines; LNG and natural gas marketing; and oil and gas exploration and development. We have focused development efforts on three LNG receiving terminal projects and anticipate that our LNG receiving terminal operations will begin to generate operating cash flow once the Sabine Pass LNG receiving terminal commences commercial operation, which we expect to occur in the second quarter of 2008. The development of our various businesses has led to a significant increase in our employee population. We have grown from 63 employees in 2004 to 291 employees as of March 31, 2007.

At this time in our development, it is critical to retain and motivate our current employees, as well as attract new talented personnel to the Company, in order to continue to work toward building and establishing our businesses. We offer a competitive compensation and benefits package to enable us to recruit new employees and retain our current employees. The same benefits are generally available to each of our employees regardless of position.

Compensation Philosophy and Objectives

Our executive compensation program and objectives are based on our need to attract and retain executives with the talent and experience necessary for Cheniere to achieve its goal to be a market leader in the LNG industry. We compete with other large energy companies that have substantially greater resources and enterprise stability than we have and, therefore, we believe that we must provide a total compensation package that is above the median to attract and retain the required executive personnel. In addition, because we are a developing company, we emphasize the use of equity over cash as a compensation incentive. Our compensation and benefits include:

a base salary rate typically targeted at or above the market median,

an annual incentive opportunity consisting of both cash and equity, typically targeting the 75th percentile when performance goals are met,

other equity awards, including equity grants to new hires to attract talented personnel and to compensate them for unvested incentives from prior employment and occasional grants of options/restricted shares to retain our talented employees, and

a comprehensive benefits package.

Since 2004, the equity portion of annual incentives has been paid primarily in restricted Company common stock. To encourage retention, the stock generally vests over three years. To account for the restricted nature of the stock, the incentive amount is generally converted to shares based on a 25% discount of the closing price of the Company's common stock on the date of grant. Thus, for example, if an executive earns an incentive of \$100,000 and the closing market price of the Company's common stock on the date of grant is \$34.00, the full value of the stock award would be \$133,348 calculated as follows:

$$\$34.00 \times 75\% = \$25.50$$

$$\$100,000 / \$25.50 = 3,921.56 \text{ rounded up to } 3,922 \text{ shares}$$

$$3,922 \times \$34.00 = \$133,348$$

Compensation Consultant

The Company engaged Watson Wyatt as a compensation consultant during 2004 and 2005. During the first quarter of 2006, management and the Compensation Committee agreed to engage a new consultant to review its compensation practices and to help design a revised incentive compensation plan. After interviewing several firms, the Compensation Committee engaged Deloitte Consulting LLP (Deloitte) in May 2006. Deloitte reports to the Committee Chairman and has direct access to Compensation Committee members. Deloitte attends Compensation Committee meetings on request and also meets with the Compensation Committee in executive session without management present. Deloitte assists management in the development of recommendations concerning individual pay levels and the design of incentive compensation programs. Deloitte personnel involved in matters within the purview of the Compensation Committee do not participate in any other services provided by Deloitte affiliates to the Company. We also use Deloitte & Touche LLP for certain accounting, energy trading and risk management services and Deloitte Tax LLP for certain compliance work and tax consulting services; however, the Compensation Committee believes that the provision of these services does not impair Deloitte's ability to provide an independent perspective to the Compensation Committee's deliberations about executive and non-employee director compensation.

Role of Compensation Committee and Executive Officers in Compensation Decisions

The Compensation Committee has the responsibility to review and approve annual compensation, including the competitiveness of the total compensation package, for the Chief Executive Officer, the Chief Operating Officer, the Vice Chairman and each of our Senior Vice Presidents (collectively, the Executive Officers). The Compensation Committee endeavors to provide a compensation package for the Executive Officers that is reasonable and competitive. Generally, the components of compensation provided to our Executive Officers are similar to those provided to our general employee population.

Base salaries, annual incentives and other equity awards for the Executive Officers are customarily proposed to the Compensation Committee by the Chief Executive Officer and Chief Operating Officer. These recommendations reflect input from the Human Resources (HR) department based on analysis and guidance on best practices provided by the compensation consultant. The Compensation Committee makes the final determination as to base salaries, annual incentives and equity awards for each of the Executive Officers based on Company performance, executive performance and market data.

2006 Executive Compensation

Base Salaries

Base salaries for our Executive Officers and other employees are designed to be comparable to like positions in the marketplace from where we recruit. These competitive salaries are proposed to the Compensation Committee after a review of salary surveys and proxy data provided by our compensation consultant. The Compensation Committee also receives input from the Chief Executive Officer, Chief Operating Officer and our HR department in the form of market intelligence derived from recruitment activities.

The Compensation Committee and management agreed that the appropriate market for our Executive Officers was the following group of energy companies:

Anadarko Petroleum Corporation	NiSource Inc.
Apache Corporation	Noble Energy, Inc.
Burlington Resources Inc.	Pogo Producing Company
Devon Energy Corporation	Questar Corporation
El Paso Corporation	Sempra Energy
EOG Resources, Inc.	Southern Union Company
National Fuel Gas Company	The Williams Companies, Inc.
Nicor Inc.	XTO Energy Inc.

In late 2005, Watson Wyatt compared existing salaries for our Executive Officers to base pay data at the median and 75th percentile of these companies. The Compensation Committee discussed the comparative data and reviewed the contributions of the Executive Officers. It was the Compensation Committee's assessment that to remain competitive during this key period in our growth, base salaries should be increased. The Chief Executive Officer recommended to the Compensation Committee an increase in base salary for the Chief Operating Officer, the Vice Chairman and the Senior Vice Presidents. He recommended that the Vice Chairman and the Senior Vice Presidents receive the same increase to promote teamwork and cooperation and to recognize that each individual has similar potential to significantly impact the results of the Company. The Compensation Committee subsequently determined and approved the base salary increases listed below for our Executive Officers, including the Chief Executive Officer. These base salary increases became effective on January 1, 2006.

Position	Base Increase (%)	2006 Base Salary (\$)
Chairman and Chief Executive Officer	18%	\$550,000
President and Chief Operating Officer	6%	\$425,000
Vice Chairman	4%	\$250,000
Senior Vice President	4%	\$250,000

Annual Incentive

Our annual incentive program is designed to reward short-term goals, provide long-term incentives necessary for us to achieve our long-term objectives and allow all employees to be rewarded for their contribution to our growth. The incentive program includes both incentive awards and performance-based awards designed to meet the requirements of Section 162(m) of the Code. Incentive awards may be made in either cash or Company common stock or a combination of both cash and Company common stock.

The annual incentive includes both a short-term component and a long-term component and serves as the total incentive opportunity for each participant. Employees are assigned an annual maximum bonus opportunity, defined as a percentage of salary, at the beginning of the performance period based on competitive compensation data. Generally, the maximums represent the sum of the 75th percentile of both short-term and long-term competitive opportunities for each position. The Compensation Committee and the Section 162(m) Subcommittee review and approve corporate goals and performance goals, respectively, with input from the Chief Executive Officer and Chief Operating Officer.

The Compensation Committee calculates a bonus pool using certain pre-determined financial criteria. The Compensation Committee has the discretion to increase or decrease the bonus pool. Generally, total incentive payout for all employees is limited to the sum of the maximum bonus opportunities even if the bonus pool exceeds that sum. We have historically used two annual financial criteria to determine the size of the pool: stock price appreciation and net asset value growth. Whereas stock price appreciation is a common determinant of incentives by public companies, the use of net asset value growth is not. Because Cheniere's primary business of operating LNG receiving terminals is currently in development, the more traditional revenue- and earnings-based financial measures are unavailable. Net asset value is generally calculated based on (i) the aggregate valuation of our LNG and related businesses, less (ii) the amount of debt outstanding, divided by (iii) the number of shares of common stock outstanding. The determination of net asset value is subjective; however, it helps align the incentive program with stockholders interests. As we begin to generate revenues in 2008, we expect to replace net asset value growth with more traditional financial measures.

In addition, the Compensation Committee reviews management's assessment as to whether or not the Company has achieved the previous year's corporate goals, as well as the performance of the Executive Officers. At the conclusion of the assessment, the Committee determines incentive awards, if any, for Executive Officers. The Committee has the discretion to approve annual incentives above the maximum guidelines for Executive Officers other than for performance bonuses governed by Section 162(m) of the Code.

2006 Performance Goals. In order for us to take advantage of the tax deduction under Section 162(m) of the Code, the Compensation Committee established a Section 162(m) Subcommittee, which is described on page 6. In January 2006, the Subcommittee adopted the following threshold performance goals with respect to the Executive Officers for the calendar year, which represents similar financial hurdles that are used in determining the bonus pool:

an increase in total stockholder return by 15% or more, and

an increase in net asset value per share of 15% or more.

As a condition to the payment of a performance award, at least one of the performance goals had to be achieved for the performance period beginning on January 1, 2006 and ending on December 31, 2006. The Subcommittee retained the discretion to decrease, but not increase, any performance award upon attainment of the performance goals. As a result of discussions with the Chief Executive Officer in March 2006, the Subcommittee approved the following maximum number of phantom shares that could be awarded pursuant to our Amended and Restated 2003 Stock Incentive Plan (the 2003 Plan) and payable in cash, Company common stock or both cash and Company common stock.

	Maximum 2006
Position	Phantom Shares
Chairman and Chief Executive Officer	100,000
President & Chief Operating Officer	75,000
Vice Chairman	30,000
Senior Vice President	30,000

In January 2007, the Compensation Committee determined that neither of the 2006 performance goals had been achieved; therefore, any awards for 2006 would not qualify as performance-based awards under Section 162(m) of the Code.

2006 Incentive Awards. Our annual incentive plan uses a funding mechanism based on exceeding a 15% increase in a weighted average combining our net asset value and total shareholder return rate. Provided the 15% hurdle rate was achieved, a bonus pool equal to 5% of the excess return over the 15% threshold was created. The performance goals were weighted 2/3 net asset value growth and 1/3 stock price appreciation. The funding mechanism is used as a guide and the Compensation Committee has in past years used its discretion to both increase and decrease the amounts paid out in incentives relative to this calculation.

The changes in total stockholder return and in net asset value growth failed to exceed the 15% hurdle necessary to achieve either of the performance goals required to generate a bonus pool. However, in light of the strong performance in achieving the corporate goals discussed on page 21 and the need to retain all key employees at this critical time in our development, the Compensation Committee decided it was appropriate to award incentive bonuses for 2006. Prior to determining appropriate incentive payouts, Deloitte provided management and the Compensation Committee with updated and broader market comparisons for all positions. The new data suggested to the Compensation Committee that incentive opportunities for our Executive Officers may be below market and an increase should be considered based on several reasons. First, the maximum bonus opportunity for each Executive Officer had not been updated in recent years during which annual and long-term incentives for energy executives have increased substantially, reflecting the strong performance by energy stocks in the market. Second, additional peer companies were added to better represent our competition for executive talent and the stage of our business life cycle. The peer companies used in Deloitte's compensation analysis were categorized into one of three peer groups, including high performing (growth), select energy and similar business life cycle. The select energy peers are a subset of the high performing peers and are intended to provide a perspective on industry compensation practices.

The updated market comparison provided by Deloitte was reviewed by the Chief Executive Officer and Chief Operating Officer, the Vice President-HR and the Chairman of the Compensation Committee. As a result,

on January 5, 2007, the Compensation Committee established new maximum bonus opportunities for 2006 incentive awards for the Executive Officers. The revised maximum percentages below were based on a blend of the 75th percentile annual and long-term incentive opportunities derived from market data using both peer data and published survey data. The maximum represents the entire incentive opportunity, both short- and long-term, for our Executive Officers. This differs from most of our peers, who generally have a separate annual and long-term incentive opportunities for their executives.

Position	Maximum 2006 Bonus Opportunity (percentage of base salary)
Chairman and Chief Executive Officer	500%
President and Chief Operating Officer	400%
Vice Chairman	300%
Senior Vice President	300%

Before the Compensation Committee determined 2006 bonus payouts, the Chief Operating Officer reviewed the status of the 2006 corporate goals, which included:

Construction of the Sabine Pass LNG receiving terminal on schedule and on budget

Completion of necessary permitting for Phase 2 of the Sabine Pass LNG receiving terminal

Completion of a financing that would provide us future financing flexibility

Initiation of the Sabine Pass and Creole Trail pipeline projects

Initiation of commercial business for the marketing segment and implementation of a risk policy

Completion of major information systems implementation critical to begin operations

Establishment of a document retention program

Completion of site work at the Corpus Christi LNG receiving terminal below budget

Recruitment of key staff members

Based on this information, the Compensation Committee agreed with management's recommendation that all employees should be eligible for bonus payouts that were up to 62.5% of the individual's maximum bonus opportunity. The Compensation Committee also approved individual bonus awards to each Executive Officer of 62.5% of the individual's revised maximum bonus opportunity. The Compensation Committee agreed with the recommendation of the Chief Executive Officer and the Chief Operating Officer that payment of the incentive awards to Executive Officers be made 100% in restricted stock, vesting 33% each year beginning on the first anniversary of the date of grant. The number of shares of restricted stock granted was determined based on the closing price of the Company's common stock on January 12, 2007 (\$27.75), the date of grant, discounted by 25% (\$20.81), which resulted in an increase of approximately 33% in the aggregate value of the bonus award (see page 17 for an explanation of the calculation). A discount was applied to recognize the inherent risk in holding restricted stock over the three-year

Edgar Filing: CHENIERE ENERGY INC - Form DEF 14A

vesting period in a company that has a limited operating history. Each of the named executive officers for the fiscal year ended December 31, 2006 was granted on January 12, 2007 the following restricted shares of Company common stock:

Name	Restricted Shares Granted
Charif Souki	82,583
Stanley C. Horton	51,051
Zurab S. Kobiashvili	22,523
Keith M. Meyer	22,523

Equity Awards

Overview

We may grant restricted stock, stock options and other equity-based awards to employees, consultants and non-employee directors under our 2003 Plan. As previously mentioned, our annual grants of equity awards are tied to the achievement of our annual performance objectives. Equity awards are also used for new hire incentives. We do not have a formal policy for the timing of granting equity awards but do not time equity awards to increase the economic value of the award to plan participants.

The Board has authorized the Chief Executive Officer and the Chief Operating Officer to designate employees and consultants (other than Executive Officers) to be recipients of stock options and to determine the terms of such stock options. The Board has also established an Equity Grant Committee and has appointed the Chief Executive Officer as the sole member of that Committee to act on behalf of the Board and the Compensation Committee in granting equity-based awards, including restricted stock and stock options, to eligible employees and consultants (other than Executive Officers). Restricted stock awards made by the Equity Grant Committee in a calendar year cannot exceed 25,000 shares of restricted stock per recipient or an aggregate of 400,000 shares of restricted stock to all recipients. Stock option awards made by the Chief Executive Officer, the Chief Operating Officer and Equity Grant Committee in a calendar year cannot exceed 100,000 stock options per recipient or an aggregate of 1,000,000 stock options to all recipients.

We do not currently intend to grant stock options except under limited circumstances, including stock options granted to a director upon his or her initial election to the Board. Under the provisions of the 2003 Plan, stock options cannot be granted at an exercise price of less than the closing price of a share of the Company's common stock as reported on AMEX on the date of grant of such stock options. All equity grants to Executive Officers must be approved by the Compensation Committee or a subcommittee thereof. Stock options granted to members of the Board must be approved by the Compensation Committee, Section 162(m) Subcommittee or the Board.

New Employee Equity Grants

All new non-executive employees receive an award of restricted stock. Our exempt employees receive their grants on the first day of the month following the month they commence employment, and our non-exempt employees receive their grants on the first day of the month following their six-month anniversary. All new-hire restricted stock grants vest 25% each year over a four-year period beginning on the first anniversary of the date of grant unless another vesting period is required under the laws of another country where the employee works. The HR department prepares a list of awards for new non-executive employees and submits it to the Chief Executive Officer for approval prior to the last business day of each month.

Retention Plan

In 2005, the Compensation Committee granted stock options to certain Executive Officers and other key employees in an effort to encourage retention through this crucial development stage. The options vest 33% equally on the fourth through sixth anniversaries of the grant date. The exercise price of each of the grants was set at or above the closing price of the Company's common stock on the date of grant. The Chief Executive Officer's grant consisted of three tranches with escalating exercise prices. The first tranche of 400,000 stock options had an exercise price of \$36.25, the next tranche of 400,000 stock options had a \$60.00 exercise price and the final tranche of 100,000 stock options had a \$90.00 exercise price. The size of the 2005 stock option package to the Chief Executive Officer was greater than could be awarded under the 2003 Plan. Therefore, on March 10, 2006, the Section 162(m) Subcommittee approved that portion of the Chief Executive Officer's grant that could not be awarded in 2005. The Chief Executive Officer received 300,000 stock options with an exercise price of \$90.00 per share. The closing price of the Company's common stock on March 10, 2006, the date of this grant, was \$40.45. The options vest 33% equally on the fourth through sixth anniversaries of the grant date.

Perquisites

Perquisites are not provided to our officers. However, in March 2006, we employed an individual to assist the Chief Executive Officer in personal matters so that he could continue to devote his full attention to pursuing the Company's business strategy. Because the Chief Executive Officer's duties require him to spend a significant amount of time traveling, the Compensation Committee determined that the personal assistant was a reasonable perquisite. The assistant spends a portion of his time providing personal services to the Chief Executive Officer and the remainder of time dedicated to Company projects. In addition, in July 2006, the Committee approved a payment that had been made by the Company for commercial air travel expenses incurred by the Chief Executive Officer's wife in the amount of \$11,075. We pay for charter flights that the Chief Executive Officer takes for business purposes. The Chief Executive Officer's spouse is permitted to fly on such charter flights at no additional cost to us.

Benefits

We provide the same level of benefits to all of our employees and Executive Officers. The Cheniere Retirement Plan is a tax-qualified savings plan pursuant to which we match 100% up to the lesser of 6% of salary deferrals or the maximum deferrals permitted by law. We also provide all employees with medical, dental and vision benefits. In addition, employees are covered by long-term disability, life and accidental death and dismemberment and voluntary life insurance. We also provide a Section 125 Cafeteria Plan for our employees. We have not entered into any employment agreements or change of control severance agreements with any U.S.-based executive officers.

Accounting and Tax Implications

Our annual incentive plan is designed to grant stock awards that are performance-based compensation expense that is fully deductible for federal income tax purposes. However, as previously discussed, the 2006 annual executive incentive awards did not qualify as performance-based incentives and, therefore, are subject to deduction limitations under Section 162(m) of the Code. When the awards vest or are otherwise includible in the taxable compensation of the affected executives, we may not be able to recognize current or future tax benefits that may otherwise be available to the Company related to such awards. We began expensing equity awards in 2006 in accordance with FAS 123(R). In general, the accounting rules did not impact the types of equity awards granted to plan participants.

The Compensation Committee has reviewed and discussed the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K with management and, based on such review and discussions, the Compensation Committee recommended to the Board that the Compensation Discussion and Analysis be included in this Proxy Statement.

POTENTIAL PAYMENTS UPON TERMINATION OR CHANGE OF CONTROL

As of December 31, 2006, the Company had not entered into any employment agreements or change of control severance agreements with any U.S.-based executive officers, including the named executive officers. However, a number of the restricted stock grants have accelerated vesting upon the termination of employment due to the removal from or failure to re-elect the officer to the position in which the officer last served; assignment of any duties, responsibilities, or reporting requirement that are inconsistent with the officer's position or material diminishment of the officer's duties, responsibilities or status; a material reduction in the officer's compensation or benefits; or, a change in the Company's principal place of business to a location more than 50 miles from downtown Houston, Texas. The following table shows potential accelerated vesting of existing restricted stock grants assuming the triggering event occurred on December 29, 2006. The value of the accelerated vesting of restricted stock shown in the table assumes a December 29, 2006 termination date and uses the closing price of our common stock of \$28.87 (as reported on AMEX on December 29, 2006). The actual value of the restricted stock can only be determined at the time such executive leaves the Company.

(1) Mr. Souki has 1,200,000 stock options that provide that vesting may be accelerated by approval of the Board of a successor to Mr. Souki as CEO, but no earlier than March 14, 2008.

In March 2007, the Section 162(m) Subcommittee approved an amendment to certain outstanding stock option agreements to provide for accelerated vesting of any outstanding unvested stock options upon termination, of employment of the optionee within one year from the effective date of a change of control of the

Company, as defined in the 2003 Plan. If such amended stock option agreements had been in effect on December 29, 2006 and the named executive officers had been terminated on that date and the date was within one year of a change of control, the unvested stock options held by each of the terminated named executive officers would have vested. However, they would have received no additional value because all of the unvested stock options were out-of-the-money.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

The Audit Committee, under the Audit Committee Charter, has the responsibility to review and approve all transactions or series of related financial transactions, arrangements or relationships between the Company and any related party, if the amount involved exceeds \$120,000.

In 2005, the Board of Directors unanimously approved the terms of a charter letter provided by an unrelated third-party entity, Western Airways, Inc., specifying the terms under which it would provide for charter to the Company a Challenger 600 aircraft. One of the Challenger 600 aircraft which may be provided for such services is owned by Bramblebush, LLC. Bramblebush, LLC is owned and/or controlled by the Company's Chairman of the Board and Chief Executive Officer, Charif Souki. The Company's Code of Business Conduct and Ethics prohibits potential conflicts of interest. Upon the recommendation of the Audit Committee, which determined that the terms of the charter letter are fair to and in the best interests of the Company, the Board granted an exception under the Company's Code of Business Conduct and Ethics in order to permit the Company to charter the Challenger 600 aircraft.

In December 2003, Cheniere LNG Services, Inc. (Cheniere LNG), a wholly-owned subsidiary of Cheniere, entered into a shareholders agreement with J & S Group S.A. (which subsequently assigned the agreement to Mercuria Energy Holding B.V., formerly J & S Energy Holding B.V.) regarding the ownership and operation of J & S Cheniere S.A. (J & S). Investors Administration Services Ltd. (IAS), which is owned or controlled by the brother of Charif Souki, Cheniere's Chairman of the Board of Directors and Chief Executive Officer, had a consulting agreement which was terminated in February 2007 with J & S which required IAS to assist J & S in managing its affairs. IAS received an annual fee of \$250,000 plus any applicable taxes for services rendered. In January 2004, J & S paid the Company \$1 million for an option to acquire LNG regasification capacity at each of the Company's Sabine Pass and Corpus Christi LNG receiving terminals. Cheniere LNG owns a minority interest in the stock of J & S.
