PROXY STATEMENT

This Proxy Statement and the accompanying form of proxy are being sent to the stockholders of Flotek Industries, Inc. (the Company), a Delaware corporation, in connection with the solicitation by the Board of Directors of the Company (the Board) of proxies to be voted at the Annual Meeting of Stockholders of the Company (the Meeting) to be held at 2:00 p.m. (local time) on Friday, May 18, 2007, at the Houston Racquet Club, 10709 Memorial Drive, Houston, Texas 77024 and at any adjournments thereof.

The Notice of Meeting, this Proxy Statement and the accompanying form of proxy are first being mailed to the stockholders on or about April 20, 2007. The Annual Report of the Company for the year 2006 has been furnished to stockholders with this Proxy Statement.

At the Meeting, stockholders will be asked (i) to consider and vote upon the election of six nominees to serve on the Board of Directors of the Company; (ii) to consider and vote upon the adoption of the 2007 Long-Term Incentive Plan of the Company; (iii) to consider and vote upon the ratification of the selection of the Company's auditors; and (iv) to consider and take action upon such other matters as may properly come before the Meeting.

VOTING SECURITIES

The Board has fixed the close of business on April 5, 2007, as the record date for determination of stockholders entitled to notice of, and to vote at, the Meeting. At the close of business on such date, there were outstanding and entitled to vote 9,079,657 shares of common stock, \$0.0001 par value per share (Common Stock) of the Company, which is the Company's only authorized and outstanding class of stock entitled to vote at the Meeting.

Holders of at least one-third of the outstanding shares of Common Stock are required to be represented at the Meeting, in person or by proxy, to constitute a quorum. Each outstanding share of Common Stock as of the record date is entitled to one vote. There will be no cumulative voting of shares for any matter voted upon at the Meeting.

Directors are elected by a plurality of the votes cast. Abstentions and broker non-votes will be disregarded and have no effect on the outcome of the election of directors.

In determining whether these proposals have received the requisite number of affirmative votes, abstentions and broker non-votes will have the same effect as votes against the proposals.

If the enclosed form of proxy is properly executed and returned to the Company prior to or at the Meeting and is not revoked prior to its exercise, all shares of Common Stock represented thereby will be voted at the Meeting and, where instructions have been given by a stockholder, will be voted in accordance with such instructions.

COMPENSATION DISCUSSION AND ANALYSIS

This Compensation Discussion and Analysis provides an explanation of Flotek's cash and equity compensation philosophy, and of the policies and practices with respect to our chief executive, financial and technical officers, who are collectively referred to as the named executive officers.

Our compensation philosophy is based on pay-for-performance and contains two primary components—a Performance Pay Plan (PPP) that provides annual bonuses and an Equity Incentive Plan (EIP). PPP provides cash

Table of Contents

payments to executives when certain Company, business segment and for the CEO, certain individual goals or objectives are achieved. The EIP, through 2006, has primarily taken the form of stock options and in one instance restricted stock.

Our executive compensation programs are designed to achieve the following objectives:

Attract and retain talented and experienced executives with the skills necessary to run and grow our existing businesses segments;

Attract and retain talented and experienced executives that can grow our Company through acquisition and the successful integration of those acquisitions;

Align the interests of our executive officers with those of shareholders to increase shareholder value;

Motivate and reward executives whose knowledge, skills and performance are critical to our success;

Demonstrate fairness among the executive management team by recognizing the contributions each executive makes to Flotek's success;

Provide accountability for the executives' performance to the Board;

Encourage a shared commitment among executives by coordinating Company and individual business unit targets and objectives; and

Encourage executives to meet non-financial goals that the Board believes are necessary for the success of the Company.

Executive Officer Compensation

Principal Components of Compensation of Our Named Executive Officers

Historically, the compensation package offered to our executive officers consisted of:

Base salary;

Cash bonus incentive compensation under the terms of the Company's PPP; and

Equity compensation generally in the form of stock option grants or restricted stock.

Historically, Mr. Dumas, our President and Chief Executive Officer, and Mrs. Meier, our Chief Financial Officer, have participated in deliberations with the Executive Compensation Committee of the Board of Directors of the Company (the "Committee") and sometimes the Board of Directors concerning senior executive officer compensation and other employees covered under the Company's PPP and EIP. Neither the Committee nor the management retained a compensation consultant in 2006. The Committee did review the proxy statements of multiple public oil field service companies for comparison.

Allocation of Compensation Among the Principal Components

The Committee reviews compensation structures at industry comparables, historical compensation for the participant, participant s responsibilities, and the individual circumstances of its senior executives when determining the mix of base salary, cash bonus percentages, and equity awards to be paid or awarded to our senior executive officers. Our historical practice has been to award a greater percentage of the compensation on the basis of performance.

Table of Contents

Base Salary

Chief Executive Officer

Mr. Dumas has been our Chairman and CEO since 1998. Due to increasing operational responsibilities stemming from multiple acquisitions, increased shareholder relations obligations, and a more competitive employment environment, the Committee increased Mr. Dumas' annual salary in June 2006 to \$335,000 from \$250,000. Historically, Mr. Dumas has expressed no need for an employment contract and did not have an employment agreement in 2006. Given the increasing visibility of Flotek and increasing public float, an employment contract may be considered in the future.

Chief Financial Officer

Mrs. Meier has been our CFO since April 2004 and Vice President since January 2005. Due to increasing operational responsibilities stemming from multiple acquisitions, increased shareholder relations obligations, a more competitive employment environment, increased compliance responsibilities under the Sarbanes Oxley Act, and to bring Mrs. Meier in line with her peers, the Committee increased Mrs. Meier's salary from \$125,000 to \$135,000 in January 2006 and then raised it twice ending at \$200,000 in June 2006. In 2006, Mrs. Meier requested an employment agreement, and the Committee has agreed to enter into one with her. No such agreement was put in place in 2006.

Chief Technology Officer

Dr. Penny's salary was raised from \$145,000 to \$159,000 in January 2006 and then to \$220,000 in June 2006 to reflect his contributions to Flotek through his efforts in broadening the applications for the micro-emulsion series of products. During most of 2006, Dr. Penny oversaw Research and Development for the Chemical division. Dr. Penny resigned as director, President and Chief Technical Officer in December 2006 and is currently the Director of Technical Communication for the Company. Dr. Penny is not covered by an employment contract.

Bonus Compensation – Flotek's Performance Pay Plan

In the fourth quarter, the Company produces a budget for the upcoming year which forms the basis for the computation of the annual cash bonuses. The budget is vetted by the Board and formally approved after any requested changes are reflected, including acquisitions made throughout the year. This budget provides the financial targets used in the PPP. For 2006, the primary financial metric was Fully Burdened Operating Income (FBOI) as it eliminates the impact of the financing structure employed and eliminates the impact the estimation of taxes could impose on bonuses. The FBOI in the budget approved by the Board is used as the target FBOI on which target bonuses are computed.

A target bonus (TB) percentage is established for each employee eligible to participate in the PPP. The TB percentage varies depending on the employee's position and responsibilities. The bonus calculation is based on the individual's average year to date base salary. In addition to the TB, there is a threshold bonus percentage to lessen the penalty of slightly missing a target. Challenge bonus percentage provides an incentive to outperform the budget and lessens the incentive to delay performance to the following year.

Threshold % = 80% of Target FBOI

Target % = Target FBOI, the budget approved by the Board

Challenge % = 140% of Target FBOI

Subject to some modifications, eligible participants at the division level have 75% of their bonus based on division performance objectives and 25% based on Flotek's corporate results. In order to receive payment for the portion of the bonus tied to corporate results, the division performance target objectives must be met. Eligible

Table of Contents

participants at the corporate level receive bonuses based on corporate and each division's financial performance. This approach incentivizes management to continue to focus on all business units. The TB levels for the executives in 2006 were as follows:

Jerry Dumas 80%

Lisa Meier 50%

Glenn Penny 50%

Flotek has not historically paid any signing or retention bonuses to our executive officers. However, we have in the past paid merit bonuses when the Committee or the Board felt an accomplishment merited such a bonus. No merit bonuses were paid in 2006.

Equity Compensation – Flotek's Equity Incentive Plan

The historical practice of the Committee has been to grant options to attract, retain, motivate and reward employees and executive officers, and to encourage ownership in Flotek. Through 2006, such grants have consisted of incentive stock options, non-qualified stock options and, in one instance, restricted stock. Generally, the Committee has granted awards of stock options to our executive officers upon their appointment as executive officers, at the end of a fiscal year for the upcoming fiscal year, or in conjunction with an event that impacted the value of the Company. Options typically have vested over three years.

The Company did not award any options in 2006 as it awarded options to its executives in December 2005. These options were fully vested upon award with an exercise price set at market on the date of grant. The Company also accelerated the vesting of all options not fully vested prior to December 31, 2006. This acceleration was coupled with the imposition of certain selling restrictions if the options were exercised prior to their originally scheduled vesting date.

All equity-based awards have been reflected in our consolidated financial statements based upon the applicable accounting guidance. In December 2004, the Financial Accounting Standards Board (FASB) published FASB Statement No. 123 (revised 2004), *Share-Based Payment* (FAS 123(R) or the Statement). FAS 123(R) requires us to recognize in our financial statements the compensation cost relating to share-based payment transactions, including grants of employee stock options. We have to measure the cost based on the fair value of the equity or liability instruments issued. FAS 123(R), which replaces FASB Statement No. 123, *Accounting for Stock-Based Compensation*, and supersedes APB Opinion No. 25, *Accounting for Stock Issued to Employees*, and its related interpretive guidance, covers a wide range of share-based compensation arrangements including stock options, restricted share plans, performance-based awards, share appreciation rights, and employee share purchase plans. To date, we have only awarded stock options and restricted stock awards under our stock awards plan. Additionally, FAS 123(R) requires us to measure the cost of employee services received in exchange for stock options based on the fair value of the award on the grant date, and to recognize the cost over the period the employee is required to provide services for the award. FAS 123(R) permits us to use any option-pricing model that meets the fair value objective in the Statement. We adopted FAS 123(R) on a prospective basis beginning January 1, 2006, for stock-based compensation awards granted after that date and for unvested awards outstanding at that date using the modified prospective transition method. We recognize the fair value of stock-based compensation awards as compensation expenses in our statement of operations on a straight line basis over the vesting period. As no awards were made in 2006 and all options were fully vested prior to January 1, 2006, no stock based compensation expense was recognized by Flotek in 2006.

Severance and Change of Control Payments

In 2006, the Company did not pay any severance benefits to our employees nor any change of control payments. The Company does not currently have any change of control provisions in any of its existing equity

grants. Given the Company's growing public profile, the need for change of control provisions in equity grants is changing. We currently are not making any severance payments to any of our former executive officers.

Other Benefits

We believe that establishing competitive benefit packages for our employees is an important factor in attracting and retaining highly qualified personnel. Executive officers are eligible to participate in all of our employee benefit plans, including Company-paid medical, and accidental death and dismemberment insurance and our 401(k) plan, on the same basis as other employees. Additionally, we currently provide a matching contribution up to 0.75% on a 3.0% employee contribution under our 401(k) plan. We do not offer pension or retirement benefits. Our international employees may have slightly different employee benefit plans than those we offer domestically, typically based on certain legal requirements in that specific country.

Perquisites

We do not have a formal process for our Board to review regularly the perquisites received by members of senior management. The perquisites received by each senior executive are determined by past practices. The specific perquisites our named executives are currently receiving or have received in the past include:

Reimbursement for all reasonable travel, entertainment and other expenses incurred in connection with the performance of their duties and obligations;

A monthly automobile allowance or Company owned vehicle; and

Paid membership in a country club of the executive's choice.

Board Process

On at least an annual basis, the Executive Compensation Committee or our full Board approves all compensation and awards to our CEO, CFO and the managers of our business segments. With respect to equity compensation awarded to other employees, the Executive Compensation Committee grants awards generally based on the recommendation of the CEO and CFO.

Committee Report

The Executive Compensation Committee of the Company has reviewed and discussed the Compensation Discussion and Analysis and, based on such review and discussion, has recommended to the Board that the Compensation Discussion and Analysis be included in this Proxy Statement.

PROPOSAL 2: ADOPTION OF THE 2007 LONG-TERM INCENTIVE PLAN

Description of the Plan

The purpose of the 2007 Plan is to provide employees and directors an opportunity to acquire an equity interest in the Company. The Company intends to use the Plan to link the long-term interests of stockholders of the Company and participants in the 2007 Plan, attract and retain participants services, motivate participants to increase the Company s value and create flexibility in compensating participants.

The 2007 Plan may be administered by the Board of Directors or by a committee (the Plan Committee) appointed by the Board of Directors. The Board of Directors of the Company has currently designated the Executive Compensation Committee of the Board of Directors as the Plan Committee.

The 2007 Plan provides for the grant of incentive and nonqualified stock options, stock appreciation rights, restricted stock, performance shares and performance units (individually an Award or collectively, Awards). All employees and directors of the Company or its subsidiaries will be eligible to receive Awards under the 2007 Plan. The Plan Committee has the discretion to select the individuals to whom the Awards will be granted, to determine the type, size and terms and conditions applicable to each Award and the authority to interpret, construe and implement the provisions of the 2007 Plan. The Plan Committee s decisions will be binding.

The total number of shares of Common Stock that may be subject to Awards under the 2007 Plan is 1,100,000 shares. No more than 500,000 shares authorized under the 2007 Plan may be issued as restricted stock. Any shares of Common Stock subject to an Award which expires, is canceled, is forfeited or terminated for any reason other than being settled in shares of Common Stock shall again be available for issuance under the Plan.

The Plan Committee intends to grant Awards under the 2007 Plan which strongly link the interests of stockholders and Award recipients. Accordingly, the Plan Committee intends to grant awards to eligible individuals who have demonstrated successful performance in their respective positions with the Company.

Set forth below is a brief description of the types of Awards that may be granted under the 2007 Plan.

Stock Options. Options (each an Option) to purchase shares of Common Stock, which may be incentive or nonqualified stock options, may be granted under the 2007 Plan at an exercise price (the Option Price) determined by the Plan Committee in its discretion, provided that the Option Price may be no less than the trading price of the Common Stock on the date of grant. Each Option represents the right to purchase one share of Common Stock at the specified Option Price.

Options will expire no later than 10 years after the date on which they are granted and will become exercisable at such times and in such installments as determined by the Plan Committee. Payment of the Option Price must be made in full at the time of exercise in cash, certified or bank check, or by tendering to the Company shares of Common Stock having a fair market value equal to the Option Price.

Options may become vested and exercisable based upon satisfaction of criteria established by the Plan Committee. Such criteria may be time-based vesting based on continuous employment or rendering services to the Company over a specified period of time from the date of grant.

Stock Appreciation Rights. An Award of a stock appreciation right (SAR) may be granted under the 2007 Plan with respect to shares of Common Stock. Generally, one SAR is granted with respect to one share of Common Stock. The SAR entitles the participant, upon the exercise of the SAR, to receive an amount equal to the appreciation in the underlying share of Common Stock. The appreciation is equal to the difference between (i) the base value of the SAR (which is the trading price of the Common Stock on the date the SAR is granted), and (ii) the closing trading price of the Common Stock on the date preceding the date the SAR is exercised. Upon

Table of Contents

the exercise of a vested SAR, the exercising participant will be entitled to receive the appreciation in the value of one share of Common Stock as so determined, payable at the discretion of the Plan Committee in cash or in shares of Common Stock.

SARs will expire no later than 10 years after the date on which they are granted. SARs become exercisable at such times and in such installments as determined by the Plan Committee.

Tandem Option/SARs. An Option and an SAR may be granted in tandem with each other. An Option and an SAR are considered to be in tandem with each other because the exercise of the Option aspect of the tandem unit automatically cancels the right to exercise the SAR aspect of the tandem unit, and vice versa. The Option may be an incentive stock option or a nonqualified stock option, and the Option may be coupled with one SAR, more than one SAR or a fractional SAR in any proportionate relationship selected by the Plan Committee.

Restricted Stock. An Award of restricted stock (Restricted Stock) is an Award of Common Stock that is subject to such restrictions, if any, as the Plan Committee deems appropriate, including forfeiture conditions and restrictions against transfer for a period specified by the Plan Committee. Restricted Stock Awards may be granted under the 2007 Plan as consideration for services and/or payments of cash by the participant, as determined by the Plan Committee. Restrictions, if any, on Restricted Stock may lapse in installments based on factors selected by the Plan Committee. Prior to the expiration of the restricted period, except as provided by the Plan Committee, a grantee who has received a Restricted Stock Award generally has the rights of a stockholder of the Company, including the right to vote and to receive cash dividends on the shares subject to the Award.

Performance Shares and Performance Units. A performance share Award (a Performance Share) and/or a performance unit Award (a Performance Unit) may be granted under the 2007 Plan. Each Performance Unit will have an initial value that is established by the Plan Committee at the time of grant. Such Awards may be earned based upon satisfaction of certain specified performance criteria, subject to such other terms and conditions as the Plan Committee deems appropriate. Prior to the end of a performance period, the Plan Committee, in its discretion, may adjust the performance objectives to reflect an event that may materially affect the performance of the Company, including, but not limited to, market conditions or a significant acquisition or disposition of the assets or other property by the Company. The extent to which a grantee is entitled to payment in settlement of such an Award at the end of the performance period will be determined by the Plan Committee, in its sole discretion, based on whether the performance criteria have been met and payment will be made in cash or in shares of Common Stock in accordance with the terms of the applicable Award Agreements.

Adjustments

Under the 2007 Plan, if there is any change in the capitalization of the Company, a reorganization, or a similar transaction, such proportionate adjustments as may be necessary (in the form determined by the Plan Committee) to reflect such change will be made to prevent dilution or enlargement of the rights with respect to the aggregate number of shares of Common Stock for which Awards in respect thereof may be granted under the 2007 Plan, the number of shares of Common Stock covered by each outstanding Award and the price per share in respect thereof. Unless otherwise provided in an Award Agreement, an individual's rights under the 2007 Plan may not be assigned or transferred (except in the event of death).

The 2007 Plan permits but does not require the Plan Committee to include a provision in an Award Agreement providing for the acceleration of the vesting of the Awards upon a change-in-control of the Company, and also permits the Plan Committee to accelerate the vesting of any Awards upon a change-in-control, regardless of whether required by the Award agreement.

The Awards will provide that in the event of a change-in-control of the Company, each Award will expire as of the effective date of such transaction, provided that to the extent possible the Company is to provide 30 days written notice of such transaction to the participants so as to enable them to exercise their vested awards prior to the change-in-control event.

Table of Contents

Termination

The 2007 Plan will remain in effect until December 31, 2027. Awards may not be granted under the 2007 Plan subsequent to December 31, 2017. The Plan Committee may at any time terminate, modify or amend the 2007 Plan, provided however, that no such amendment, modification or termination may (i) materially adversely affect an optionee's or grantee's rights under any Award previously granted under the 2007 Plan, except with the consent of such optionee or grantee, or (ii) increase the number of shares subject to the 2007 Plan, or change the designation of the class of persons eligible to receive Awards, unless approved by the stockholders of the Company.

Certain Federal Income Tax Consequences of Awards

An employee to whom an Option, which is an incentive stock option (ISO) that qualifies under Section 422 of the Internal Revenue Code, is granted will not recognize income at the time of grant or exercise of such option. No federal income tax deduction will be allowable to the Company upon the grant or exercise of such ISO. However upon the exercise of an ISO, any excess in the fair market price of the Common Stock over the Option Price constitutes an item of adjustment that may have alternative minimum tax consequences for the employee. When the employee sells such shares more than one year after the date of transfer of such shares and more than two years after the date of grant of such ISO (the ISO Holding Period), the employee will generally recognize either a long-term or mid-term capital gain or loss equal to the difference, if any, between the sale prices and the aggregate Option Price, and the Company will not be entitled to a federal income tax deduction with respect to the exercise of the ISO or the sale of such shares. The shares must be held for more than 12 months to qualify for long-term capital gains. If the employee does not hold such shares for the required ISO Holding Period, when the employee sells such shares the employee will recognize ordinary compensation income and possibly short-term capital gain or loss in such amounts as are prescribed by the Internal Revenue Code and the regulations thereunder, and the Company will generally be entitled to a federal income tax deduction.

A participant to whom a nonqualified stock option (NSO) or SAR is granted will not recognize income at the time of grant of such Option or SAR. When the participant exercises such NSO or SAR, the participant will recognize ordinary compensation income equal to the difference, if any, between the exercise price paid and the fair market value, as of the date of exercise of such NSO or SAR, of the shares of Common Stock the participant receives. The tax basis of such shares to such participant will be equal to the exercise price paid plus the amount includible in the participant's gross income, and the participant's holding period for such shares will commence on the date of exercise. Subject to the applicable provisions of the Internal Revenue Code and regulations thereunder, the Company will generally be entitled to a federal income tax deduction in respect of an NSO or SAR in an amount equal to the ordinary compensation income recognized by the employee upon the exercise of the NSO or SAR.

No income generally will be recognized upon the grant of performance shares or performance units. Upon payment in respect of performance shares or earned performance units, the recipient generally will be required to include as taxable ordinary income in the year of receipt an amount equal to the amount of cash received and the fair market value of any non-restricted shares of Common Stock received less any amount paid for such award at the time of payment or transfer pursuant to the fulfillment of the specified conditions or the achievement of the performance goals.

The recipient of Restricted Stock generally will be subject to tax at ordinary income rates on the fair market value of the shares of Common Stock on the first date that such shares either are transferable by the recipient or cease to be subject to forfeiture, and the capital gain or loss holding period for such shares will also commence on that date.

Table of Contents**PROPOSAL 3: RATIFICATION OF THE APPOINTMENT OF UHY LLP**

UHY LLP, independent public accountants, audited our consolidated financial statements for the year ended December 31, 2006, and has advised us that it will have a representative available at the 2007 Annual Meeting to respond to appropriate questions. Such representative will be permitted to make a statement if he or she so desires.

The firm of UHY LLP (UHY) acts as our principal independent registered public accounting firm. Through December 31, 2006, UHY had a continuing relationship with UHY Advisors, Inc. (Advisors) from which it leased auditing staff who were full time, permanent employees of Advisors and through which UHY s partners provide non-audit services. UHY has no full time employees and therefore, none of the audit services performed were provided by permanent full-time employees of UHY. UHY manages and supervises the audit services and audit staff, and is exclusively responsible for the opinion rendered in connection with its examination.

The Audit Committee has selected UHY as its independent certified public accountants to audit its fiscal year 2007 financial statements. The Board recommends a vote FOR ratification of that selection.

UHY has billed the Company and its subsidiaries fees as set forth in the table below for (i) the audits of the Company s 2006 and 2005 annual financial statements, the audit of the 2006 report on internal control over financial reporting, reviews of quarterly financial statements, and review of other documents filed with the Securities and Exchange Commission, (ii) assurance and other services reasonably related to the audit or review of the Company s financial statements, and (iii) services related to tax compliance. There were no other fees billed.

	Audit -Related		
	Audit Fees	Fees	Tax Fees
Fiscal Year 2006	\$ 474,736	\$ 956,970	\$ 156,101
Fiscal Year 2005	\$ 418,707	\$	\$ 68,319

The Audit Committee of the Board of Directors has adopted policies regarding the pre-approval of auditor services. All additional services must be pre-approved on a case-by-case basis. All of the services provided by UHY during fiscal year 2006 and 2005 were approved by the Audit Committee.

OTHER MATTERS

The Board of Directors of the Company is not aware of any other matters that may come before the Meeting. However, the proxies may be voted with discretionary authority with respect to any other matters that may properly come before the Meeting.
