ITEM 1. *BUSINESS*

As used herein, the terms (FEPI , we, us, our, or the Company) refer to First Equity Properties, Inc. a Nevada corporation organized on December 19, 1996. The Company's fiscal year ends December 31 of each year.

Prior to January 1, 1997, the predecessor of the Company's business consisted of the management and operation of three motel properties in the Spokane, Washington area. Until June 30, 1998, the Company was engaged in the hospitality business (management and operation of three motel properties, one of which was exchanged for a residential property and two of such properties were sold. During the fiscal years ended December 31, 1998 and 1999, the Company, through its subsidiaries engaged in property management (management of commercial real property, including retail centers, office buildings, industrial properties and hotels), and real estate brokerage (services in locating, leasing and purchasing real estate). Since October 1999, the Company and its subsidiaries have conducted no substantial business, but until May 1, 2004 remained available to engage in property management and real estate brokerage activities. Effective May 1, 2004, the Company sold its subsidiaries to Regis Realty I, LLC, a Texas limited liability company (Regis). See Property Management And Real Estate Brokerage below. Since May 1, 2004, the Company's principal line of business and source of revenue has been earnings on investments and interest on notes receivables.

With the sale of the subsidiaries available to engage in property management and real estate brokerage activities, the Company currently has no active business operations and no subsidiaries. Management of the Company is exploring alternatives, seeking to establish or acquire new business operations for the Company. Management has reviewed opportunities in the cable systems industry, switching industry and high-speed data and telephone operations industries; however, no agreement or understanding presently exists to acquire any such business, and no assurance can be given that any operating enterprise will be acquired by the Company in the near future. Although discussions are continuing with the current owners of active business operations in various industries, management cannot predict or give any assurance that any new business enterprise will be acquired by the Company at any time in the near future.

Transaction of Succession

FEPI is the successor-in-interest to WESPAC Investors Trust III, a California real estate investment trust (WESPAC) originally established August 22, 1983 which had its shares of beneficial interest, no par value, registered pursuant to Section 12(g) of the Securities Exchange Act of 1934. WESPAC was the subject of two filings for protection under Chapter 11 of the United States Bankruptcy Code, one filed April 13, 1988 (the 1988 Reorganization) which resulted in a plan of reorganization approved and confirmed by the court on March 29, 1989 with certain amendments, and which was closed by the court on August 21, 1992 and a filing made January 27, 1994 in the case styled *In re: WESPAC Investors Trust III*, Case No. 94-00228-K11, in the United States Bankruptcy Court for the Eastern District of Washington (the 1994 Reorganization). A plan of reorganization dated March 22, 1996 (as modified) was confirmed by Order Confirming Plan of Reorganization dated May 15, 1996, entered May 20, 1996, as amended by order entered October 29, 1996 approving First Modification to Plan of Reorganization (the Modified Plan). Pursuant to the Modified Plan, and shareholders approval, WESPAC was converted from a California business trust into a Nevada corporation, coupled with a change of the name of the resulting entity. Pursuant to such transaction, persons deemed to be prior holders of shares of beneficial interest, no par value, of WESPAC became holders of FEPI Common Stock on a one-for-one exchange basis. On February 11, 1997, the Court entered its final decree, which closed the 1994 Reorganization.

Hospitality Business

Prior to January 1, 1997, the predecessor (WESPAC) of the Company s business consisted of the ownership and operation of two Comfort Inn hotels and one Rodeway Inn hotel (sold June 1, 1997 and foreclosed on by the Company in January 1998) located in Spokane, Washington. The two Comfort Inn hotels were The Comfort Inn-Valley (a 76-room hotel located at N. 905 Sullivan Road, Spokane Valley, Washington) and The Comfort Inn-North (a 96-room hotel located at N. 7111 Division Street, Spokane, Washington). Such properties are collectively referred to as the Spokane Properties.

During June 1998, FEPI entered into a contract for deed to sell the two Comfort Inn hotels (Comfort Inn North and Comfort Inn Valley) to an unaffiliated Washington corporation for a total of \$4,000,000 with a small down payment and an all inclusive wrap-around note which wraps certain existing underlying indebtedness. As a part of the transaction, FEPI ceded the management of the properties to the unaffiliated Washington corporation which also assumed the underlying indebtedness due to U.S. Bank. During March 2001, the underlying indebtedness to U.S. Bank was paid in full through a refinancing of the properties and the contract for deed satisfied; at that time, FEPI ceased to hold any record title to the real property and received second lien notes for the balances owed.

Also during June 1998, FEPI exchanged the Rodeway Inn hotel to an unaffiliated party for a residential property in Couer d Alene, Idaho which has since been sold. The Rodeway Inn had previously been sold on June 1, 1997 to a corporation owned by a former director and officer of the Company. The Rodeway Inn is a 90-room hotel located at W. 4301 Sunset Boulevard, Spokane, Washington. See ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS. During January 1998, the Company foreclosed on the Spokane Rodeway following a failure of performance by the purchaser on the related note receivable.

Such dispositions ended the Company s direct ownership in the hospitality line of business.

Property Management and Real Estate Brokerage

Effective January 1, 1997, the Company acquired all of the issued and outstanding Common Stock of Carmel Realty, Inc., a Texas Corporation (Carmel), and an 81.6% limited partnership interest (subsequently increased to 99%) in Carmel Realty Services, Ltd.; a Texas limited partnership (CRSL). The general partner of CRSL is Basic Capital Management, Inc., a Nevada corporation (BCM) which, until June 30, 2003, was the contractual advisor to and/or performed administrative services for three other publicly held entities engaged in the real estate business.

Table of Contents

See also ITEM 12. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS. Carmel was engaged in the management and direction of various portfolios of commercial real property including retail centers, office buildings, industrial properties and hotels. Carmel maintained the management responsibility for five hotels totaling 1,000 rooms and approximately 15,000,000 square feet of commercial real estate through September 30, 1999. CRSL managed multi-family portfolios which included over 32,000 multi-family units through seven third-party regional management companies through September 30, 1999.

Both Carmel and CRSL provided management services primarily to four publicly-traded real estate entities throughout the continental United States through September 30, 1999. Under such arrangements Carmel or CRSL received a fee of 5% or less of the monthly gross rents collected on the properties under Management. CRSL subcontracted with other entities for the provision of property level services. Effective October 1, 1999, the four publicly traded real estate entities transferred management of their properties to another entity and Carmel and CRSL ceased all such management activities.

Carmel also provided real estate brokerage services (on a nonexclusive basis) to three publicly-traded real estate entities and a number of other entities and individuals and received brokerage commissions under varying arrangements from a fixed amount to a sliding scale on a percentage basis. In general, such services included assistance in locating, leasing, or purchasing real estate. Carmel received fees equal to the lesser of (i) a percentage of the cost of acquisition, inclusive of commissions, if any, paid to nonaffiliated brokers, or (ii) the compensation customarily charged in arm's-length transactions by others rendering similar property acquisition services as an ongoing public activity in the same geographical location and for comparable property. During the fourth quarter of 1999, the four publicly-traded real estate entities transferred their brokerage operations to another entity.

During the fiscal year ended December 31, 2003, Carmel had management income of \$111,462 and CRSL had management income of \$95,792. Effective May 1, 2004, the Company sold all of the issued and outstanding common stock of a subsidiary company known as Carmel Realty, Inc., a Texas corporation (Carmel) and a 99% limited partnership interest in Carmel Realty Services, Ltd., a Texas limited partnership (CRSL) for an aggregate sale price of \$2,072,540 (a basis equivalent to ten times capitalization of the management fees collected by Carmel and CRSL during 2003) to Regis. Regis paid cash of \$250,000 to the Company and delivered a promissory note dated May 1, 2004 in the stated principal amount of \$1,822,540 payable to the order of the Company on demand or, if no demand is made prior thereto, on April 30, 2009, with interest payable monthly as it accrues. Such promissory note is secured by a pledge of the common stock of Carmel and the partnership interest of CRSL sold.

After giving effect to the sale of its subsidiaries on May 1, 2004, FEPI has no subsidiaries and no employees.

ITEM 1.A. RISK FACTORS

An investment in equity securities of the Company involves a high degree of risk as there is no active trading market for our securities and liquidity is not assured. You should carefully consider the following information keeping in mind that the matters described below are not the only potential risks that may affect the Company. Additional risks which we do not presently consider material or of which we are not currently aware may also have an adverse impact upon us.

Our governing documents contain anti-takeover provisions that make it difficult for a third party to seek to acquire control of the Company.

Certain provisions of the Articles of Incorporation, Bylaws and Nevada law could, together or separately, discourage, delay or prevent a third party from acquiring the Company, even if doing so might benefit stockholders. The provisions may also affect the price investors might be able to receive for their shares of the Company's common stock. Examples of these provisions are:

The right of our Board of Directors to issue preferred stock with rights and privileges, which are senior to the common stock, without prior stockholder approval.

Table of Contents

Certain limitations upon the stockholders to make, adopt, alter, amend, change, or repeal the Bylaws of the Corporation except by a vote of 66 2/3% of the holders of record of shares outstanding.

So-called business combination control requirements when the combination involves the Company and a person that beneficially owns 20% or more of the outstanding common stock, except under certain circumstances.

In addition, while one entity is currently the owner of approximately 75% of the issued and outstanding common stock, the likelihood of any offer to acquire a significant position in the Company's common stock is remote.

There is no established independent trading market for the shares of common stock of the Company.

No trading market presently exists for the shares of Common Stock and its value is therefore not determinable. Holders of our common stock do not have a vested right to redeem their shares, and therefore may not be able to liquidate their investment in the event of an emergency or otherwise. There simply is no active trading market for the shares of common stock, and accordingly, the transferability of such shares is limited at best.

Since May 1, 2004, the Company has no active business operations and no subsidiaries.

Since the sale of its subsidiaries available to engage in property management and real estate brokerage activities, the Company is exploring alternatives, seeking to establish or acquire new business operations for the Company. While Management has reviewed opportunities in various industries, and although discussions are continuing, Management cannot predict or give any assurance that any new business enterprise will be acquired by the Company at any time in the near future. Since May 1, 2004, the Company's principal line of business and source of revenue has been interest on receivables.

The Company is managed by the Board of Directors.

Management has established the operating policies and procedures of the Company, which may be modified or waived by the Board of Directors without stockholder approval. The ultimate effect of any such changes may adversely affect future operations. The Company's business is conducted so as not to become a regulated investment company under the Investment Company Act, which exempt entities that are primarily engaged in the business of purchasing or otherwise acquiring mortgages and other liens on and interest in real estate.

ITEM 1.B. UNRESOLVED STAFF COMMENTS

Not applicable.

ITEM 2. PROPERTIES

The Company's principal offices are located at 1800 Valley View Lane, Suite 300, Dallas, Texas 75234. In the opinion of the Company's Management, the Company's offices are suitable and adequate for its present operations.

ITEM 3. LEGAL PROCEEDINGS

At December 31, 2007, and through March 24, 2008, the Company was not a party to or involved in any outstanding, unresolved litigation or proceedings.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

During the fourth quarter of the fiscal year covered by this report, no matter was submitted to a vote of security holders of the Company.

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS, AND ISSUER PURCHASES OF EQUITY SECURITIES

Pursuant to the requirements of NRS 78.2055, on June 7, 2004, the members of the Board of Directors of the Company proposed and recommended to the stockholders a reverse-split on a 1-for-10 basis of the shares of Common Stock, par value \$0.01 per share without any adjustment to the par value per share and without any reduction in the authorized number of shares of Common Stock at the same par value. The recommendation was submitted to the holder of approximately 75% of the outstanding Common Stock, Nevada Sea Investments, Inc. (Nevada Sea), which executed a written consent dated June 8, 2004, pursuant to NRS 78.320 adopting and approving the 1-for-10 reverse stock-split of the shares of Common Stock without any change in the par value and without any reduction in the authorized number of shares of Common Stock of the Company pursuant to the Articles of Incorporation. The 1-for-10 reverse stock-split was ultimately effective July 12, 2004, following the distribution of an Information Statement on Schedule 14C to the other stockholders of the Company, and following the filing of an amendment to the Certificate of Incorporation of the Company with the Secretary of State of Nevada. The CUSIP Number for the post-split shares is 320097-20-7.

Under the approved action, based upon the 10,570,944 old shares outstanding on the effective date of July 12, 2004, the 1-for-10 reverse stock-split decreased the number of outstanding shares by approximately 90% which, after giving effect to an upward adjustment or rounding up for any fractional shares, added 534 shares to result in 1,057,628 post-split shares outstanding. The 1-for-10 reverse stock-split did not adversely affect any stockholder's proportionate equity interest in the Company, subject to the provisions for elimination of fractional shares by rounding up to the next whole share which slightly increased the proportionate holdings of all stockholders other than Nevada Sea. Each post-split share continues to be entitled to one vote, as was the case with each outstanding old share.

In connection with the implementation of a 1-for-10 reverse stock-split, no certificate or script representing any fractional share interest was issued, but a holder of the old shares received in lieu of any fraction of a post-split share to which the holder would otherwise have been entitled a single, whole post-split share on a rounding up basis without regard to any price. The result of this rounding up process increased slightly the holdings of those stockholders who held a number of old shares which were not evenly divisible by ten, resulting in an increase of 534 shares.

FEPI's old shares of Common Stock, while available for trading in the over-the-counter market, to the knowledge of Management, have not had any material trading activity since their initial issuance in 1997. The old shares were issued pursuant to the terms of the Modified Plan in the bankruptcy proceeding styled *In Re: WESPAC Investors Trust III*, Case No. 94-00228-K-11 in the United States Bankruptcy Court for the Eastern District of Washington. The CUSIP Number of the old shares was 320097-10-8. The shares of beneficial interest of WESPAC Investors Trust III traded through the first quarter of 1988, and at one time, were quoted on the National Association of Securities Dealers Automatic Quotation System (NASDAQ). Since the cessation of trading on NASDAQ, there has been no established, independent trading market for the shares of beneficial interest of WESPAC or the old shares of Common Stock of FEPI as the successor, or the new shares of Common Stock of the Company after giving effect to the 1-for-10 reverse stock-split.

No cash dividends have been declared or paid during the period from January 1, 1994 to the present on either the shares of Beneficial Interest of the Trust or the old shares of Common Stock of FEPI as the successor or the new shares of Common Stock after giving effect to the 1-for-10 reverse stock-split.

As of December 31, 2007, the 1,057,628 post-split shares of Common Stock of FEPI issued and outstanding were held by 1,815 holders of record.

During the three years ended December 31, 2007, FEPI did not issue or sell any securities, nor did FEPI purchase any of its equity securities. The Board of Directors has not authorized any stock repurchase program.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis provide information which Management believes is relevant to an assessment and understanding of the Company's results of operations and financial condition. The discussion should be read in conjunction with the financial statements and notes thereto.

Results of Operations

2007 Compared to 2006. Our sole source of income is from interest on notes receivable from affiliated entities. We receive approximately \$60,000 per quarter. We received \$240,754 in interest income for the twelve months ended December 31, 2007. The revenues were consistent in 2007 and 2006.

The major operating expenses are related to the professional fees and general and administrative expenses required to maintain the organization. General and administrative expenses have increased by \$5,194 primarily due to costs associated with filing quarterly filings. Legal and accounting fees have decreased by \$9,658 due to fewer legal fees incurred. Our federal income tax expense has increased by \$18,890. In the prior year, we had a net operating loss (NOL) tax credit that we applied to the tax expense. There were no NOLs available in the current year.

2006 compared to 2005. Our sole source of income is from interest on notes receivable from affiliated entities. We receive approximately \$60,000 per quarter. We received \$240,838 in interest income for the twelve months ended December 31, 2006. The revenues were consistent in 2006 and 2005.

The major operating expenses are related to professional fees and general and administrative expenses required to maintain the organization. Our operating expenses were relatively consistent between the two years. Our income tax expense increased by \$36,055 in 2006 due to using the remainder of our NOL. We did not have enough NOL to offset our entire tax expense. In the prior year, our NOL was sufficient to offset our entire tax expense.

Financial Condition, Capital Resources and Liquidity

Our primary sources of liquidity are from operations, proceeds from accrued interest on notes receivables from affiliated companies. At December 31, 2007, the Company had total assets of \$2,480,193. Of that amount, \$72,653 was held in cash. The Company had no long-term debt as of December 31, 2007.

The Company is anticipating paying federal income taxes of \$52,959 and a tax penalty of \$1,667 for the year ended December 31, 2007. We have accrued a federal tax liability of \$54,679 for this tax provision.

The Company's payable consists of four affiliated payables of \$1,678,755. The company has paid down \$169,225 of this obligation in the current year. The obligations are non-interest bearing and carry no stated maturity dates.

Environmental Matters

Under various federal, state and local environmental laws, ordinances and regulations, the Company may be potentially liable for removal or remediation costs, as well as certain other potential costs, relating to hazardous or toxic substances (including governmental fines and injuries to persons and property) where any property-level manager in the employee of a subsidiary of the Company may have arranged for the removal, disposal or treatment of hazardous or toxic substances. Management is not aware of any environmental liability relating to the above matters that would have a material adverse effect on the Company's business, assets, or results of operations.

Inflation

The effects of inflation on the Company's operations are not quantifiable. To the extent that inflation affects interest rates, the Company's earnings from any short-term investments and the cost of new financings as well as the cost of variable rate financing will be affected.

Table of Contents

ITEM 7A. *QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK*

The Company is exposed to market risk from changes in interest rates which may adversely affect its financial position, results of operations and cash flows. In seeking to minimize the risks from interest rate fluctuations, the Company manages exposures through its regular operating activities. The Company does not use financial instruments for trading or other speculative purposes and is not a party to any leveraged financial instruments.

Based upon the Company's market risk sensitive instruments (including variable rate debt) outstanding at December 31, 2007, the Company has determined that there was no material market risk exposure to the Company's financial position, results of operations or cash flows as of such date.

ITEM 9A(T). *CONTROLS AND PROCEDURES*

Evaluation of Disclosure Controls and Procedures

A review and evaluation was performed by management under the supervision and with the participation of the Acting Principal Executive Officer and Chief Financial Officer of the effectiveness of the Company's disclosure controls and procedures, as required by Rule 13a-15(b) of the Securities Exchange Act of 1934 as of December 31, 2007. Based upon that most recent evaluation, which was completed as of the end of the period covered by this Form 10-K, the Acting Principal Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective at December 31, 2007 to ensure that information required to be disclosed in reports that the Company files submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and timely reported as provided in the Securities and Exchange Commission (SEC) rules and forms. As a result of this evaluation, there were no significant changes in the Company's internal control over financial reporting during the three months ended December 31, 2007 that have materially affected or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Management's Report on Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in the Exchange Act Rules 13a-15(f). The Company's internal control over financial reporting is a process designed under the supervision of the Company's principal executive and principal financial officers to provide reasonable assurance regarding the reliability of financial reporting and the preparation of the Company's financial statements for external reporting purposes in accordance with U.S. generally accepted accounting principles.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions or because the degree of compliance with policies or procedures may deteriorate.

Table of Contents

Under the supervision and with the participation of our management, including our CFO, we conducted an assessment of the effectiveness of our internal control over financial reporting as of December 31, 2007. The assessment was based on criteria established in the framework *Internal Control – Integrated Framework*, issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this assessment, management concluded that our internal control over financial reporting was effective as of December 31, 2007.

Changes in Internal Control Over Financial Reporting

There has been no change in the Registrant's internal control over financial reporting during the quarter ended December 31, 2007 that has materially affected, or is reasonably likely to materially affect, the Registrant's internal control over financial reporting.

Table of Contents

Effective January 1, 1997 the Company acquired from SWI all of the issued and outstanding common stock of Carmel and an 81.6% limited partnership interest (later increased to 99%) in CRSL for an aggregate purchase price of 32,500 shares of Series A 8% Cumulative Preferred Stock with a liquidation value of \$1,000 (the Series A Preferred Stock). The Series A Preferred Stock has a right to cumulative cash dividends of \$80 per share per annum, payment of \$1,000 per share in the event of dissolution, liquidation or winding up of the Company before any distribution is made to the holders of Common Stock, optional redemption at any time at a price of \$1,000 per share, plus cumulative dividends, no right to conversion into any other securities of the Company, and no voting rights except as may be required by law. See ITEM 1, BUSINESS, for a brief description of businesses of Carmel and CRSL. During 1998, the Company redeemed all of its \$32,500,000 preferred stock in exchange for reduction of receivables from SWI. Effective May 1, 2004, the Company sold all of the issued and outstanding common stock of Carmel and a 99% limited partnership interest in CRSL for an aggregate sale price of \$2,072,540 (a basis equivalent to ten times the management fees collected by Carmel and CRSL during 2003) to Regis.

Effective January 1, 1997 the Company contracted with Regis Management Corporation, then a subsidiary of Carmel, to manage the day-to-day operations of the Spokane Properties for 5% of the gross revenues from the Spokane Properties. Such management arrangement ceased at the time of disposition of the Spokane Properties during June 1998.

Effective June 1, 1997, the Company sold a 90-room Roadway Inn located at W. 4301 Sunset Boulevard, Spokane, Washington to Georgie Liebelt. At the time of the sale, the Company paid off the underlying debt secured by the property sold. Ms. Liebelt was appointed a Trustee of WESPAC in January 1994 and served in that capacity until implementation of the Incorporation Procedure. She was an initial director of the Company and Regional Director for the Company responsible for all operations involving the hotel properties located in Spokane, Washington. Ms. Liebelt resigned as a Director effective March 1, 1997. The purchase price for the Roadway Inn was \$1,475,000 paid by the delivery of a promissory note from Spokane House, Inc. (a Washington corporation wholly owned by Georgie Liebelt) secured by a Deed of Trust covering the property and a security interest on all related personal property. Such note bore interest at 5% per annum for the period from June 1, 1997 to June 1, 1998 and was to increase by 1% per annum until it reached 9% for the period from June 1, 2001 to July 10, 2002. At the time of maturity of the Note, Spokane House, Inc. was obligated to pay the lesser of (i) the total of the unpaid principal and interest due on the note, or (ii) the appraised value of the property as of June 1, 2002. In addition, the Company loaned to Spokane House, Inc. \$160,000 to fund needed renovations on the property. Commencing March 1, 1997, Spokane House, Inc. became the operator of the property, retaining all income and paying all expenses relating to the operation of the property. In January 1998, the Company foreclosed on the property following a failure of performance on the promissory note and wrote off the \$160,000 loan. The Company exchanged the property in June 1998 for a residential property in Couer d'Alene, Idaho (since sold).

Effective May 1, 2004, the Company sold all of the issued and outstanding common stock of Carmel and a 99% limited partnership interest in CRSL for an aggregate sale price of \$2,072,540 (a basis equivalent to ten times capitalization of the management fees collected by Carmel and CRSL during 2003) to Regis. During the fiscal year ended December 31, 2003, Carmel had management income of \$111,462 and CRSL had management income of \$95,792. The general partner of CRSL is BCM. The purchaser, Regis, performs certain property management and real estate and brokerage activities for other entities. Regis paid cash of \$250,000 to FEPI and delivered a promissory note dated May 1, 2004 in the stated principal amount of \$1,822,540 payable to the order of FEPI on demand or, if no demand is made prior thereto, on April 30, 2009, with interest payable monthly as it accrues. Such promissory note is secured by a pledge of the common stock of Carmel and partnership interest of CRSL sold by the Company.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Board of Directors

First Equity Properties, Inc.

We have audited the accompanying balance sheets of First Equity Properties, Inc. as of December 31, 2007 and 2006 and the related statements of operations, changes in shareholders' equity and cash flows for each of the years in the three-year period ended December 31, 2007, 2006 and 2005. First Equity Properties, Inc.'s management is responsible for these financial statements. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statements presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of First Equity Properties, Inc. as of December 31, 2007 and 2006 and the results of its operations and its cash flows for each of the years in the three-year period ended December 31, 2007, 2006 and 2005, in conformity with accounting principles generally accepted in the United States of America.

NOTES TO FINANCIAL STATEMENTS

December 31, 2007, 2006 and 2005

NOTE A HISTORY

WESPAC Investors Trust III (WESPAC), a California business trust, was originally organized on August 22, 1983. On January 24, 1994, WESPAC instituted a Chapter 11 bankruptcy proceeding in the United States Bankruptcy Court for the Eastern District of Washington. A Plan of Reorganization dated March 22, 1996 (as modified) was confirmed by order dated May 15, 1996 and was amended by Order entered October 29, 1996 approving the First Modification to Plan of Reorganization (the Modified Plan). Pursuant to the Modified Plan, WESPAC was converted from a California business trust into a Nevada corporation. First Equity Properties, Inc. (the Company), which was incorporated in Nevada on December 19, 1996, was the surviving entity following the incorporation of WESPAC into a California corporation and subsequent merger of that California corporation with and into the Company accomplished by Articles of Merger and a Plan of Merger filed in the States of California and Nevada on December 24, 1996. The Company automatically, by operation of law, succeeded to all of the assets, rights, duties, liabilities and obligations of the California corporation (as the immediate successor to WESPAC) upon the effectiveness of the Merger on December 24, 1996.

In general, the Modified Plan provided for the cancellation of the former publicly-held shares on the effective date of the Modified Plan with one share of the Company deemed to be exchanged for each former publicly-held share with the former public shareholders to hold, in the aggregate, 25% of the equity interest in the Company. Confirmation of the Modified Plan served to re-vest all assets of the estate of WESPAC free and clear of all liabilities, except those payable pursuant to the Modified Plan. Under the Modified Plan, WESPAC retained the Certain Motel Properties and all allowed claims were provided for or paid.

The ongoing impact of the adoption of fresh-start reporting is reflected in the accompanying financial statements.

NOTE C SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Operations

The Company and its subsidiaries provided management services to a variety of commercial and residential real estate entities throughout the continental United States. Effective October 1, 1999, substantially all of the contracts for management services were transferred from the Company. Effective May 1, 2004, the Company sold its subsidiaries to a related party. With the sale of the subsidiaries, the Company currently has no active business operations and no subsidiaries. Management of the Company is exploring alternatives, seeking to establish and/or acquire new business operations for the Company.

Our current operations consists of the collections of notes receivables from two affiliated entities. Any adverse conditions that could affect the financial condition of either of these two entities and specifically their ability to service debt obligation owed would have a severe material impact on our financial statements.

Accounting Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make certain estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Income Taxes

The Company accounts for income taxes in accordance with Statement of Financial Accounting Standards No. 109 (SFAS 109), Accounting for Income Taxes. SFAS 109 requires an asset and liability approach to financial accounting for income taxes. In the event differences between the financial reporting basis and the tax basis of the Company's assets and liabilities result in deferred tax assets, SFAS 109 requires an evaluation of the probability of being able to realize the future benefits indicated by such assets. A valuation allowance is provided for a portion or all of the deferred tax assets when there is an uncertainty regarding the Company's ability to recognize the benefits of the assets in future years.

Earnings (Loss) per Share

Earnings (loss) per share (EPS) are calculated in accordance with Statement of Financial Accounting Standards No. 128, Earnings per Share (SFAS 128), which was adopted in 1997 for both years presented. Basic EPS is computed by dividing income available to common shareholders by the weighted average number of common shares outstanding during the period. Diluted EPS does not apply to the Company due to the absence of dilutive potential common shares. The adoption of SFAS 128 had no effect on previously reported EPS.

NOTE D SALE OF SUBSIDIARIES AND DISCONTINUED OPERATIONS

Financial Accounting Standards No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets (SFAS 144), established a single accounting model for the impairment or disposal of long-lived assets including discontinued operations. This statement requires that the operations related to segments that have been sold, or segments that are intended to be sold, be presented as discontinued operations in the statement of operations for all periods presented, and the segments intended to be sold are to be designated as held for sale on the balance sheet. In the event of a future asset sale, the company is required to reclassify portions of previously reported operations to discontinued operations within the Statements of Operations. For the years ended December 31, 2007, 2006 and 2005, income from discontinued operations relates to the disposition of subsidiaries providing management services.

In May 2004, the Company sold the subsidiaries of the Company that provide management services for \$250,000 cash and a note receivable in the amount of \$1,822,540. Prior to that, because of the pending sale, the Company recorded an impairment of \$37,947,748, representing the write down of certain assets of those two subsidiaries that provided the management services to the value agreed to between the related party buyer and seller. The primary asset written down was the investment in preferred stock of an affiliate.

NOTE E REVERSE STOCK SPLIT

On June 7, 2004, the members of the Board of Directors of FEPI proposed and recommended to the stockholders a reverse-split on a 1-for-10 basis of the shares of Common Stock, par value \$0.01 per share, without any adjustment to the par value per share, and without any reduction in the authorized number of shares of Common Stock at the same par value. The proposal was approved by the shareholders and became effective July 12, 2004. This resulted in a reclassification between Common Stock and Additional Paid in Capital on the accompanying balance sheet in the amount of \$95,133. The share amounts in the accompanying financial statements and notes give effect to this reverse split as if it occurred at the beginning of earliest period presented.
