PROXY STATEMENT

PROXIES AND VOTING

This proxy statement is furnished in connection with the solicitation of proxies by our Board of Directors for use at the Annual Meeting of Stockholders to be held on May 6, 2010 and at any adjournments. Distribution of this proxy statement and form of proxy is commencing on or about March 26, 2010.

Each holder of record of our common stock at the close of business on March 8, 2010 is entitled to one vote per share. At the close of business on March 8, 2010, 70,709,733 shares of our common stock were outstanding.

Any stockholder giving a proxy has the power to revoke that proxy at any time before it is voted. Any proxy that is not revoked will be voted at the Annual Meeting. If no contrary instruction is indicated on the proxy, the persons named in the proxy will vote the shares FOR the election of the nominees described in this proxy statement and FOR ratification of the appointment of Deloitte & Touche LLP as our independent registered public accounting firm.

The presence, in person or by proxy, of the holders of record of such number of shares of our common stock as are entitled to cast a majority of the votes at the meeting constitutes a quorum. Abstentions and broker non-votes are counted as present and entitled to vote for purposes of determining a quorum. A broker non-vote occurs when a bank, broker or other holder of record does not vote on a particular proposal because that holder does not have discretionary voting power with respect to the proposal and has not received voting instructions from the beneficial owner.

Directors are elected by a plurality of the votes cast. A plurality means that the nominees with the largest number of votes are elected as Directors up to the maximum number of Directors to be chosen at the Annual Meeting. Any other matters that may be acted upon at the Annual Meeting will be determined by the affirmative vote of the holders of a majority of the shares of our common stock represented in person or by proxy at the Annual Meeting and entitled to vote on the matter. An abstention will have the same effect as a vote against. A broker non-vote is not counted for purposes of voting on these matters.

The Board of Directors is not aware of any matters that will be brought before the Annual Meeting other than those described in this proxy statement. However, if any other matters properly come before the Annual Meeting, the persons named on the enclosed proxy card will vote in their discretion on such matters.

Edgar Filing: CHURCH & DWIGHT CO INC /DE/ - Form DEF 14A

Solicitation of proxies on behalf of the Board of Directors may be made by our employees through the mail, in person and by telephone. We have retained D.F. King & Co., Inc. to aid in the solicitation of proxies for a fee estimated not to exceed \$6,000 plus out-of-pocket expenses. We will pay all costs of the solicitation. We also will reimburse brokerage houses and other nominees for forwarding Notices of Internet Availability of Proxy Materials and proxy materials to beneficial owners.

ELECTION OF DIRECTORS

Our restated certificate of incorporation provides for the division of the Board of Directors into three classes, with the Directors in each class serving for a term of three years. At the Annual Meeting, three Directors will be elected to serve until the 2013 Annual Meeting and until their successors are elected and qualified. All nominees currently are members of the Board.

J. Richard Leaman, Jr., who is in the Director class having a term that expires at the Annual Meeting, is retiring and not standing for reelection after 25 years of dedicated service to the Board. In addition to his recent

service as our Lead Director, Mr. Leaman served, over the course of his tenure, on the Compensation & Organization, Audit, Governance and Nominating and Executive Committees of the Board and served as the Chairperson of the Audit Committee of the Board. We are most grateful for Mr. Leaman's long and valuable service to the Board, our Company and our stockholders.

In considering individuals to recommend for nomination as directors, our Governance & Nominating Committee seeks persons who collectively possess the range of attributes described below under Corporate Governance- Governance & Nominating Committee. The Governance & Nominating Committee and the Board believe that the nominees listed below collectively possess these attributes, which, together with the respective experience and attributes of our Directors described in the biographical summaries below, make each of our Directors well qualified to serve on our Board.

We do not anticipate that any of the nominees will become unavailable to serve as a Director for any reason, but if they became unavailable, the persons named in the enclosed form of proxy will vote for any substitute nominee designated by the Board of Directors, unless the Board of Directors determines to reduce the number of Directors in the relevant class. Information concerning the nominees and the continuing members of the Board of Directors is provided below:

CORPORATE GOVERNANCE

Corporate Governance Guidelines and Other Corporate Governance Documents

Our corporate governance guidelines, including guidelines for the determination of Director independence, the responsibilities and duties of the Board of Directors, Director access to management and independent advisors, Director compensation, the committees of the Board and other matters relating to our corporate governance, are available on the Investors page of our website, www.churchdwight.com. Also available on the Investors page are other corporate governance documents, including our Code of Conduct and the charters of the Compensation & Organization Committee, Audit Committee and Governance & Nominating Committee.

Our website is not part of this proxy statement; references to our website address in this proxy statement are intended to be inactive textual references only.

Board Independence

The Board has affirmatively determined that each of T. Rosie Albright, Robert A. Davies, III, Rosina B. Dixon, Bradley C. Irwin, Robert D. LeBlanc, Jeffrey A. Levick, Ravichandra K. Saligram, Robert K. Shearer and Arthur B. Winkleblack are independent within the meaning of the New York Stock Exchange (NYSE) listing standards.

The Board has further determined that each of the members of the Audit Committee, Compensation & Organization Committee and Governance & Nominating Committee are independent within the meaning of the NYSE listing standards, and that the members of the Audit Committee meet the additional independence requirements of the NYSE applicable to Audit Committee members.

To assist the Board in making determinations of independence, the Board has adopted categorical standards. Under these standards, none of the following relationships disqualify any Director or nominee from being considered independent :

A Director s or a Director s immediate family member s ownership of 5% or less of the equity of an organization that has a relationship with us,

A Director s service as an executive officer of or employment by, or a Director s immediate family member s service as an executive officer of, a company that makes payments to or receives payments from us for property or services in an amount which, in any fiscal year in any of the last three years, is less than the greater of \$1 million or 2% of the other company s consolidated gross revenues, or

A Director s service as an executive officer of a charitable organization that received annual contributions from us in any of the last three years that have not exceeded the greater of \$1 million or 2% of the charitable organization s annual gross revenues.

All Directors that the Board determined are independent satisfied these categorical standards.

Executive Sessions of Non-Management Directors

The Board meets at regularly scheduled executive sessions without members of our management present. The Lead Director of the Board, currently Mr. Leaman, is responsible for chairing the executive sessions of the Board.

Board Risk Oversight

The Board, acting principally through the Audit Committee, is actively involved in the oversight of the significant risks affecting our business. The Board's and Audit Committee's risk oversight activities are focused on management's risk assessment and management processes.

Our Internal Audit department administers a vigorous risk assessment effort every other year, involving all of our executive officers. This process is designed to identify the most significant risks that confront our company, including consideration of a large number of risks associated with companies in the consumer products industry.

The assessed risks encompass enterprise, operational, compliance and financial risks. With respect to each of those risks identified as among the most significant, our Chief Executive Officer assigns an executive officer to manage the risk. Internal Audit facilitates quarterly updates to the executive risk assessment process.

Our Director, Internal Audit reports on a quarterly basis to the Audit Committee and annually to the Board on management's risk assessment process and mitigation activities designed to facilitate the maintenance of risk within acceptable levels. As part of the risk management process, our Internal Audit department annually prepares an Internal Audit project plan under which it reviews activities directed to financial related risks. The plan is subject to Audit Committee approval.

In addition to the efforts of the Board and the Audit Committee to address risk oversight generally, our Compensation & Organization Committee reviews incentive compensation to confirm that such compensation does not encourage unnecessary risk taking.

Board Leadership Structure

Our corporate governance guidelines provide that the Board may determine from time to time what leadership works best for us, including whether the same individual should serve both as our Chairman and our Chief Executive Officer. In addition, the guidelines provide that if the same individual serves as Chairman of the Board and Chief Executive Officer, the Board may choose to have a Lead Director.

James R. Craigie, our Chief Executive Officer, also serves as our Chairman. We believe that Mr. Craigie is in an optimal position to identify and to lead Board discussions on important matters related to our business operations. Moreover, we believe that Mr. Craigie can be a more effective spokesperson for our company and the Board by serving in both positions.

We also believe it is important to provide effective leadership for our independent directors. Therefore, our Board of Directors has chosen to select a Lead Director, currently Mr. Leaman, from among our independent directors. The Board will name a new Lead Director following Mr. Leaman's retirement at the Annual Meeting.

We believe that the presence of a Lead Director enhances the ability of the Board to provide independent oversight and supplements the following corporate governance practices, which also facilitate independent oversight:

A substantial majority of our directors are independent.

All of the members of our Audit Committee, Compensation & Organization Committee and Governance & Nominating Committee are independent directors.

The Board meets at regularly scheduled executive sessions, outside of the presence of management.

Communication with the Board of Directors

Any person who wishes to communicate with the Board, including the Lead Director or the non-management Directors as a group, may direct a written communication, addressed to the Board, the Lead Director or the non-management Directors at: Church & Dwight Co., Inc., 469 North Harrison Street, Princeton, New Jersey 08543-5297, Attention: Secretary. Such correspondence will be logged in and forwarded to the Lead Director of the Board.

Board of Directors Meetings and Board Committees

During 2009, there were nine meetings of the Board of Directors. There are four standing committees of the Board: the Audit Committee, the Compensation & Organization Committee, the Governance & Nominating Committee and the Executive Committee, each described below. Each Director attended at least 75% of the total

number of meetings held by the Board of Directors and all committees of the Board on which such Director served. We expect all Directors to attend the Annual Meeting absent exceptional circumstances. Of the incumbent Directors who were not retiring at the time of the meeting, nine out of the ten Directors attended the 2009 Annual Meeting of Stockholders.

Audit Committee. During 2009, the Audit Committee met four times. The members of the Audit Committee are Robert K. Shearer (Chairperson), Bradley C. Irwin, and Arthur B. Winkleblack. Under its charter, the Audit Committee (i) has sole authority to engage, retain and dismiss our independent registered public accounting firm; (ii) reviews and approves in advance the performance of all audit and lawfully permitted non-audit services, subject to the pre-approval policy discussed below; (iii) reviews and discusses with management and our independent registered public accounting firm the annual audited financial statements and quarterly financial statements included in our filings with the Securities and Exchange Commission; (iv) discusses with management, the internal auditors and our independent registered public accounting firm, our risk management policies and major risk exposures; (v) oversees the internal audit function; and (vi) oversees our internal controls and reviews periodically policies and procedures regarding business conduct and ethics.

The Audit Committee generally pre-approves all lawfully permitted non-audit services to be provided by our independent registered public accounting firm. However, the audit Committee has Delegated to Mr. Shearer, as Audit Committee Chairperson, the authority to approve time-sensitive pre-approved requests arising between regularly scheduled Audit Committee meetings, provided that any such pre-approved non-audit services are reported to the full Audit Committee at its next scheduled meeting.

The Audit Committee has established procedures for the receipt, retention and treatment of complaints regarding accounting, internal accounting controls and auditing matters and the receipt of confidential, anonymous submissions by our employees with respect to concerns regarding questionable accounting or auditing matters. Such complaints and submissions may be made by writing to the following address: Church & Dwight Co., Inc., 469 North Harrison Street, Princeton, New Jersey 08543-5297, Attention: Secretary. Complaints may also be made by calling the Company's toll-free hotline number: 1-866-292-0647. Such correspondence will be logged in and forwarded to the chairperson of the Audit Committee.

The Board has determined that Mr. Shearer is an audit committee financial expert within the meaning of Securities and Exchange Commission regulations.

Compensation & Organization Committee. During 2009, the Compensation & Organization Committee, comprised of Robert D. LeBlanc (Chairperson), T. Rosie Albright and Ravichandra K. Saligram, met five times. Under its charter, the Compensation & Organization Committee is responsible for recommending the specific salary, bonuses, stock awards and other compensation for our elected officers, which includes the named executive officers identified in the Summary Compensation Table on page 32. The independent Directors, acting by a majority vote of the independent Directors of the full Board then in office, must ratify the Chief Executive Officer's compensation. The Board ratifies compensation for all other elected officers. The Compensation & Organization Committee also (i) oversees the design of our executive compensation programs; (ii) administers and makes recommendations to the Board regarding our incentive and equity compensation plans; (iii) reviews and approves corporate goals and objectives as they relate to Chief Executive Officer and other executive officer compensation; and (iv) reviews incentive compensation to confirm that such compensation does not encourage unnecessary risk-taking. The Compensation & Organization Committee may, to the extent permitted by law, regulation or listing standards, delegate specific tasks to its Chairperson or a subcommittee consisting of at least two committee members. In considering executive compensation, the Compensation & Organization Committee takes into account statistical data and recommendations of the Chief Executive Officer. However, the Chief Executive Officer does not make recommendations regarding his own compensation.

The Compensation & Organization Committee also considers the executive compensation recommendations as well as the comparative data provided by Steven Hall & Partners, a compensation consultant engaged directly by the Compensation & Organization Committee. We have engaged Steven Hall & Partners to provide similar services with respect to our non-executive officers. Steven Hall & Partners does not provide any other services to us. See Compensation Discussion and Analysis for additional information regarding the services provided by Steven Hall & Partners.

Governance & Nominating Committee. During 2009, the Governance and Nominating Committee met five times. The members of the Governance & Nominating Committee are Rosina B. Dixon (Chairperson), Robert A. Davies, III and J. Richard Leaman, Jr. Under its charter, the Governance & Nominating Committee (i) establishes criteria for the selection of candidates to serve on the Board; (ii) reviews and evaluates Director candidates and makes recommendations to the Board concerning nominees for election as Board members; (iii) considers questions of Board independence; (iv) makes recommendations to the Board concerning executive officer succession; (v) oversees Board and Committee evaluations; (vi) makes recommendations to the Board regarding corporate governance matters; and (vii) reviews biannually and makes recommendations to the Board regarding the compensation of our independent Directors and other non-employee Directors and the principles upon which this compensation is determined.

The Governance & Nominating Committee recommends to the Board candidates for nomination to the Board of Directors. When considering individuals to recommend for nomination as Directors, our Governance & Nominating Committee seeks persons with diverse backgrounds who collectively possess a broad range of experience and attributes, including integrity, education, commitment to the Board, business judgment, business experience, accounting and financial expertise, diversity, reputation, civic and community relationships, high performance standards and the ability to act on behalf of stockholders. As permitted by our corporate governance guidelines, the Governance & Nominating Committee considers diversity from a variety of perspectives including, among others, differences of viewpoint, professional experience, education, skills, race, gender and national origin. The Committee may engage the services of third party search firms to assist in identifying and assessing the qualifications of Director candidates. In addition, the Committee will consider recommendations for Director candidates from stockholders. Stockholder recommendations of candidates should be submitted in writing to: Church & Dwight Co., Inc., 469 North Harrison Street, Princeton, New Jersey 08543-5297, Attention: Secretary. In order to enable consideration of the candidate in connection with our 2011 Annual Meeting, a stockholder must submit the following information by November 23, 2010: (i) The name of the candidate and information about the candidate that would be required to be included in a proxy statement under the rules of the Securities and Exchange Commission; (ii) information about the relationship between the candidate and the recommending stockholder; and (iii) the consent of the candidate to serve as a Director. In considering any candidate proposed by a stockholder, the Committee will reach a conclusion based on the criteria described above. The Committee may seek additional information regarding the candidate. After full consideration, the stockholder proponent will be notified of the decision of the Committee. The Committee will consider all potential candidates in the same manner regardless of the source of the recommendation.

If you wish to formally nominate a candidate, you must follow the procedures set forth in our Certificate of Incorporation, as amended.

Mr. Levick's nomination was initially recommended by the Governance & Nominating Committee, using a third party search firm.

Executive Committee. The Executive Committee members are James R. Craigie, Rosina B. Dixon, Robert K. Shearer and J. Richard Leaman, Jr. The Executive Committee did not meet in 2009. The Executive Committee may exercise the authority of the Board of Directors, except as specifically reserved by Delaware law to the Board or as the Board otherwise provides.

Compensation of Directors

Directors' fees consist of the following:

Annual Retainer:	
Lead Director	\$ 70,000
Chairperson of Audit Committee	\$ 56,000
Chairperson of Compensation & Organization Committee	\$ 54,000
Chairperson of Governance & Nominating Committee	\$ 52,000
Other non-employee Directors	\$ 50,000
Meeting Fees (per meeting) Board of Directors:	
Non-employee Directors	\$ 2,000
Meeting Fees (per meeting) Board Committees:	
Committee Chairpersons	\$ 4,000
Each other committee member	\$ 2,000

We pay fees to Directors in accordance with the Compensation Plan for Directors, as described below. The fees may be deferred, in accordance with the Deferred Compensation Plan for Directors, as described below.

Compensation Plan for Directors. Those Directors not electing to defer their compensation are paid under the Compensation Plan for Directors. This plan provides for our payment of Directors' compensation quarterly, in the form of our common stock issued under the Omnibus Equity Compensation Plan. In determining the number of shares a Director is entitled to receive in a quarter, we apply the sum of one-quarter of the Director's annual retainer and the Director's Board and committee meeting fees earned for the quarter. We divide this amount by the closing price of a share of common stock, as reported on the New York Stock Exchange on the last trading day of the calendar quarter for compensation paid with respect to each of the first three quarters, and on the first trading day following the Board's regularly-scheduled meeting in December for compensation paid with respect to the fourth quarter. For purposes of this calculation, we provide a whole share in lieu of any fractional share. Annually, a Director may elect for the following year to receive his or her compensation 50% in cash and 50% in our common stock instead of 100% in our common stock.

Deferred Compensation Plan for Directors. This plan provides an opportunity for a Director to defer payment of Directors' fees until the Director ceases to be a Director. In advance of each calendar year, a Director may elect to defer his or her Director's fees into a notional investment in our common stock. Following retirement, the Director receives a number of shares of our common stock equal to the number of notional shares in the Director's plan account. These shares are issued under the Omnibus Equity Compensation Plan and are payable either in a lump sum or in annual installments over a period of up to ten years. The number of notional shares represented by amounts held in a participating Director's account is set forth in the table captioned "Securities Ownership of Certain Beneficial Owners and Management" on page 16.

Omnibus Equity Compensation Plan. Under the Omnibus Equity Compensation Plan, stock options are granted to all non-employee Directors to purchase shares of our common stock at an exercise price per share equal to the closing price of a share of common stock on the date of grant. All shares underlying the stock options vest three years from the grant date. The stock options terminate ten years after the grant

date.

Participating Directors are granted an option to purchase shares of our common stock each year on the date of our Annual Meeting of Stockholders. Newly elected Directors are granted an initial option to purchase shares of common stock on the date of their election, but may not receive more than one grant in any calendar year. We grant options to purchase 4,000 shares of our common stock to participating Directors at the Annual Meeting of Stockholders and to any newly elected Director.

Stock Ownership Guidelines for Directors. We instituted stock ownership guidelines for non-employee Directors at the same time as we established the executive officer guidelines. For a description of our stock ownership guidelines see Compensation Discussion and Analysis Stock Ownership Guidelines. The number of shares required to be held by a non-employee Director is based on a multiple of five times the Director's annual retainer as of January 1, 2008 or, if later, on the date the Director is first elected. The non-employee Director stock ownership guidelines are recalibrated at the same time as the guidelines for executive officers are recalibrated.

The guidelines applicable to each of the non-employee Directors, and the Director's progress towards achieving the required stock ownership levels, are shown on the following table:

Name	Applicable Annual Retainer ⁽¹⁾ (\$)	Applicable Price Per Share ⁽¹⁾ (\$)	Required Number of Shares to be Held	Number of Shares Held at 12/31/09 ⁽²⁾

The amount in the Applicable Price Per Share column is the average closing common stock price during 2007. For Messrs. Shearer and Winkleblack, the applicable annual retainer was determined as of January 30, 2008, the date on which they became Directors, and the applicable price per share is the average closing price during the 365 calendar days prior to January 30, 2008. For Mr. Levick, the applicable annual retainer was determined as of January 27, 2010, the date on which he became a Director, and the applicable price per share is the average closing price of the 365 calendar days prior to January 27, 2010.

⁽²⁾ Stockholdings include shares owned by the Director or members of his or her immediate family residing in the same household and notional shares held for the account of the Director in the Deferred Compensation Plan for Directors.

Additional Arrangements with Former Chief Executive Officer. The Board has agreed that stock options granted to Mr. Davies prior to his termination of employment with us as our Chief Executive Officer on June 30, 2005, will remain exercisable until the end of the ten-year periods commencing on the grant dates of the respective options. In addition, we have agreed to provide office space and administrative support for Mr. Davies. The cost of such space and support was \$14,627 in 2009.

The following table provides information regarding compensation for our non-employee Directors in 2009, which reflects the Directors' fees, compensation plans and other arrangements described above. The table does not include compensation for reimbursement of travel expenses related to attending Board or Board Committee meetings, and does not include compensation to Mr. Craigie, our Chairman and Chief Executive Officer, which is included in the Summary Compensation Table on page 32.

(1) Applicable percentage of ownership is based on 70,709,733 shares of our common stock outstanding as of March 8, 2010. Beneficial ownership is determined in accordance with rules of the Securities and Exchange Commission and means voting or investment power with respect to securities. Shares of our common stock issuable upon the exercise of stock options exercisable currently or within 60 days of March 8, 2010 are deemed outstanding and to be beneficially owned by the person holding such option for purposes of computing such person's percentage ownership, but are not deemed outstanding for the purpose of computing the percentage ownership of any other person.

(2) The shares listed in the Shares column do not include notional shares of our common stock credited to the account of Directors under the Deferred Compensation Plan for Directors or credited to the account of executive officers under the Executive Deferred Compensation Plan. Notional shares do not represent actual shares, but represent interests equivalent in value to the fair market value of shares of our common stock; gains or losses in the interests are based upon gains or losses in the fair market value of our common stock. These notional shares are reflected in the table in the column labeled Notional Shares in Deferred Compensation Plans. Because notional shares do not represent actual shares, holders of notional share accounts are not entitled to vote with respect to the notional shares.

COMPENSATION DISCUSSION AND ANALYSIS

INTRODUCTION

In this Compensation Discussion and Analysis, we address the compensation paid or awarded for 2009 to our executive officers listed in the Summary Compensation Table that follows this discussion. We sometimes refer to these executive officers as our named executive officers.

2009 COMPENSATION

Compensation Objectives

For the past several years, we have focused on the following objectives in making compensation determinations:

Provide compensation that is competitive in markets in which we compete for management talent. We refer to this objective as competitive compensation.

Condition a majority of a named executive officer's compensation on a combination of short and long-term performance. We refer to this objective as performance incentives.

Encourage the aggregation and maintenance of meaningful equity ownership, and the alignment of executive officer and stockholder interests as an incentive to increase stockholder value. We refer to this objective as stockholder incentives.

Provide an incentive for long-term continued employment with us. We refer to this objective as retention incentives.

The principal components of 2009 compensation that we paid to the named executive officers to meet these objectives are as follows:

<u>Type of Compensation</u>	<u>Objectives Addressed</u>
Salary	Competitive Compensation
Annual Incentive Compensation	Performance Incentives

Stock Options	Stockholder Incentives
	Performance Incentives
Restricted Stock Awards	Stockholder Incentives
	Retention Incentives
	Stockholder Incentives
	Retention Incentives

Please see [Determination of Competitive Compensation](#) below for a discussion of limitations on our competitive analysis in 2009.

Consideration of Risk

While focusing on the compensation objectives described above, we also recognize the need to avoid creating incentives for unnecessary risk-taking. The Compensation & Organization Committee has reviewed our incentive compensation programs for employees, including our executive officers, and believes that our incentive compensation programs do not encourage unnecessary risk-taking for the following reasons:

The performance metrics in our annual incentive plan are counterbalanced so that, for example, an undue focus on net sales at the expense of operating margins will not result in a higher payout.

Twenty percent of the award that is earned based on achievement of corporate performance objectives under the annual incentive plan may be reduced at the discretion of the Compensation & Organization Committee based on individual factors.

We have capped maximum awards under our annual incentive plan over the past several years so that they could not exceed 200 percent of the target award, which helps to limit the potential for excessive emphasis on short-term incentives.

Stock options constitute a substantial portion of an executive's total remuneration and vest as to all underlying shares on the third anniversary of the date of grant, which encourages a longer-term focus.

Annual stock option grants result in overlapping three-year vesting periods, reducing the risk of an inappropriate focus on one vesting date.

Our stock ownership guidelines require that our executives hold a significant amount of Church & Dwight stock to further align their interests to our stockholders on a long-term basis.

Determination of Competitive Compensation

In past years, we relied on data provided to us by our compensation consultants, Steven Hall & Partners, to gauge the comparability of our compensation to the compensation of executives of other companies with generally corresponding responsibilities. As described in more detail below, this data included compensation information related to a comparator group of consumer goods companies or was derived from published surveys.

However, following discussions with Steven Hall & Partners, we determined that it should not provide comparator group and survey data with respect to compensation of executive officers for 2009. We reached this determination because the available data, which would reflect 2007 short and long-term compensation and 2008 base salaries, may not have been a reliable indicator of compensatory trends, due to the highly uncertain economic conditions prevalent at the time. Accordingly, with the exception of salary determinations, we did not use any new comparative data in connection with structuring compensation for the named executive officers in 2009. Instead, we generally kept in place the short and long-term compensatory structure we used in 2008. Because our 2008 compensatory methodology is reflected in the compensatory structure we used in 2009, the remainder of this section addresses the methodology we used in 2008.

In 2008, we used data provided by Steven Hall & Partners to gauge the comparability of our compensation to the compensation of executives of other companies with generally corresponding responsibilities. With respect to the determination of compensation for our Chief Executive Officer and our Chief Financial Officer, the data provided by the compensation consultant focused on the compensation level of a comparator group of consumer goods companies that had revenues in the range of approximately 25 to 250 percent of our revenues and have brand management focus and distribution channels that are similar to ours. The comparator companies were the following:

Alberto-Culver Company	McCormick & Company Incorporated
American Greetings Corporation	NBTY, Inc.
Blyth, Inc.	Nu Skin Enterprises, Inc.
Central Garden & Pet Company	PepsiAmericas Inc.
Chiquita Brands International, Inc.	Perrigo Company
The Clorox Company	Playtex Products, Inc.
Coca-Cola Bottling Co. Consolidated	Revlon, Inc.
Cott Corporation	The Scotts Miracle-Gro Company
Del Monte Foods Company	The J. M. Smucker Company
Energizer Holdings, Inc.	Spectrum Brands, Inc.
Flowers Foods, Inc.	TreeHouse Foods, Inc.
Helen of Troy Limited	Tupperware Brands Corporation
The Hershey Company	United National Foods, Inc.
Imperial Sugar Company	UST Inc.
Lance, Inc.	Wm. Wrigley Jr. Company
Libbey, Inc.	

In providing comparative data regarding compensation of executives of the comparator companies, Steven Hall & Partners excluded companies if their executives earned more than twice as much or less than half as much as our corresponding executive. Steven Hall & Partners also excluded data relating to executives who have not held their position for at least two years and, as it deemed appropriate, excluded data relating to one-time and special awards.

The responsibilities of the comparator companies' named executive officers other than the principal executive officer and principal financial officer varied considerably and often did not correspond to the responsibilities of our other named executive officers. Therefore, in making a comparative evaluation with respect to our named executive officers other than our Chief Executive Officer and Chief Financial Officer, we relied on an analysis prepared by Steven Hall & Partners of data derived from published surveys. This analysis provided information on compensation for executive officers serving in positions comparable to those of our other named executive officers. Where possible, Steven Hall & Partners focused its comparative data on surveys relating to non-durable goods manufacturing companies and consumer products companies. In addition, the survey data was weighted based on Steven Hall & Partners' judgment as to reliability and validity of the data. The survey data also was used by Steven Hall & Partners as a supplement to the publicly filed proxy statement data it used in providing a comparative analysis of compensation for our Chief Executive Officer and Chief Financial Officer.

In 2008, we sought to structure total direct compensation, namely base salary, annual incentive plan payout at target and long-term incentives, at a level that approximates the 50th percentile of the comparator companies or the survey companies, as applicable. However, we have not followed this guideline rigidly, and the Compensation & Organization Committee of our Board of Directors could make determinations that represent a departure from this general guideline. Moreover, because a majority of our compensation is performance-based, actual cash compensation paid to our named executive officers could further vary from that paid to executive officers in the comparator companies or the survey companies, based on achievement of performance targets.

Salaries

As noted above, in 2009 we did not rely on the comparative data we customarily use in determining salary. Instead, we referenced publicly available market data from a variety of sources, including human resources consultants, The Conference Board and the Society of Human Resource Management, which indicated that merit increases generally were approximately three percent. Accordingly, salary increases for the named executive officers averaged approximately three percent. We believe the increase was modest, and also appropriate in light of the Company's excellent performance in 2008. Salary increases for the named executive officers ranged from 2.94 percent for Mr. Craigie to 3.08 percent. The variations were attributable to rounding the salary increases to the nearest \$1,000.

Annual Incentive Plan

The principal objective of our annual incentive plan is to align executive and stockholder interests by providing an incentive to achieve performance goals that support long-term stockholder return. The performance goals are established each year to reflect specific objectives set in our annual budget. We typically also consider competitive factors, including total cash compensation, which includes salary and annual incentive bonus, in determining the amount of annual incentive award opportunities. However, in light of the highly uncertain economic environment and lack of suitable available data, as described above, we did not consider new competitive factors in 2009, but kept in place the compensatory structure we used in 2008.

We use a numerical rating system of 0-2.0 to determine the payout amounts under our Annual Incentive Plan. Award levels for target performance at a 1.0 rating are based on a specified percentage of the participants' respective salaries; the percentages utilized in 2009 were the same as were used in 2008. However, as was the case in 2008, we set payout amounts for achieving the performance targets at levels that were 20 percent above the amounts that would be paid with respect to a 1.0 rating. In other words, a rating of 1.2 is applied if target performance is achieved. We made this adjustment because the performance goals were designed to reflect budgeted earnings per share growth of 14 percent, which we believed would be an outstanding achievement. The following table indicates the percentage of salary payable at a 1.0 rating, and the target award opportunity for 2009, based on a 1.2 rating:

Name	Percentage of Salary Payable at 1.0 Performance Rating	Target Award Opportunity (Based on a 1.2 Performance Rating) (\$)
James R. Craigie	100%	1,042,500
Matthew T. Farrell	60%	342,900
Bruce F. Fleming	50%	199,500
Susan E. Goldy	50%	205,500
Louis H. Tursi, Jr.	50%	202,500

Mr. Craigie's percentage reflects his responsibilities as our Chief Executive Officer. Mr. Farrell's percentage was established in accordance with the terms of his offer letter in connection with his commencement of employment in 2006. We set the percentage for all other executive officers at the same level, which we believe unifies the commitment of the affected executive officers towards achievement of our annual performance goals.

For named executive officers who did not have division responsibilities, all of their target award was based on corporate performance. However, 20 percent of the award that is earned and payable based on achievement of the corporate performance objectives may be reduced at the discretion of the Compensation & Organization Committee, based on individual considerations. The 2009 corporate performance metrics and

their weightings, which were unchanged from 2008, were the following:

Net Sales	25%
Gross Margin	25%
Operating Margin	25%
Free Cash Flow	25%

* Free cash flow equals net cash provided by operating activities less capital expenditures.

For named executive officers with division responsibilities, 60 percent of their target award was based on corporate performance, comprised of the same measures as set forth above, and 40 percent was based on division performance. However, one-third of the award that is earned and payable based on achievement of the corporate performance objectives (which is equivalent to 20 percent of the total award, if all target objectives are met) is subject to reduction at the discretion of the Compensation & Organization Committee, based on individual considerations.

The metrics and weightings in 2009 for each of our three divisions are indicated in the table below:

Metric	Division		
	Consumer Domestic	Consumer International	Specialty Products
Net Sales	33 1/3%	25%	33 1/3%
Gross Margin	33 1/3%	25%	
Operating Margin	33 1/3%	25%	33 1/3%
Working Capital		25%	
EBIT**			33 1/3%

** EBIT means earnings before interest and tax expenses, and includes earnings from unconsolidated joint ventures.

The results used to compute performance in 2009 reflect adjustments approved by the Compensation & Organization Committee to eliminate the effect of items such as foreign exchange fluctuations that differed from budgeted amounts, sales and profits derived from non-core brands acquired from Del Laboratories, Inc. (Del) and divested during the second quarter of 2009, proceeds of a settlement of litigation with Abbott Laboratories and costs associated with the construction of a new manufacturing and warehouse facility in York County, Pennsylvania and the related closing of our North Brunswick, New Jersey complex. We do not believe that items such as foreign exchange fluctuations, substantial proceeds of a settlement of long-standing litigation or extraordinary restructuring costs appropriately reflect management performance for purposes of the annual incentive plan, and performance of the non-core brands acquired from Del was not addressed in our budgeting process. In addition, we adjusted gross margin and operating margin to eliminate the effect of expenses relating to above-target payouts. We do not believe that it would be fair, in effect, to penalize our executives for compensation earned as a result of superior performance.

We selected net sales as a measure of corporate and divisional performance because it is a key metric used in our industries. We believe that in a mature industry subject to intense competition, net sales are a fundamental measure of our ability to compete effectively and grow. We selected gross margin as a measure of corporate and divisional performance because we believe that our ability to control cost of sales has become an increasingly critical component of our operations. The effect of raw material and energy costs on our margins has underscored the need for effective management of both our product pricing and cost of sales. We selected operating margin because, in addition to considerations relating to gross margin, our profitability is dependant on our ability to effectively manage discretionary marketing expenditures and control selling, general and administrative expenses in a manner that will enable us to realize a meaningful return from the sale of our products. We selected free cash flow as a measure of working capital utilization because we believe free cash flow is a standard performance metric used by investors. It also is a tool used by our management. We believe that free cash flow provides a useful indication of our ability to pay dividends and service indebtedness. Moreover, free cash flow is affected by net income, working capital and capital expenditures, all factors relevant to assessing the management of our business.

We used two additional metrics for divisional performance. For the Consumer International Division, we added a working capital metric. The working capital metric consisted of two equally weighted subcategories: days sales outstanding, which is a measure of the average number of days needed to collect outstanding receivables, and days inventory outstanding, which is a measure of how many days of sales, on average, we hold in inventory. We believe these are effective measures of management of our financial resources, an important consideration in our effort to improve the performance of the Consumer International Division. Finally, we used EBIT as a metric for the

Specialty Products Division. EBIT includes the performance of joint ventures that are an important part of the Specialty Products Division's business. Because the joint ventures are not consolidated into our financial statements, their performance is not addressed in the operating margin metric. We also believe that EBIT addresses some of the same considerations as are addressed by an operating margin metric. Nevertheless, in 2009 we reduced the weighting of the EBIT metric from 67 percent to 33 1/3 percent and added an operating margin metric, which we also weighted at 33 1/3 percent. We made this change because we felt that the Specialty Product Division's success in achieving operating margin goals is an important contributor to our overall consolidated corporate results.

With respect to performance goals established for each metric, we apply a scale of 0.0 to 2.0 to determine a performance rating. As noted above, payout amounts for achieving the performance targets in 2009 were set at a rating of 1.2. A rating of 2.0 indicates that the maximum performance level has been achieved or exceeded. A rating of 0.0 indicates that performance is below the level at which any payment would be made under the annual incentive plan. In determining the annual incentive payout, we multiplied the amount payable for a 1.0 performance rating by the actual performance rating.

The following table indicates, with respect to each corporate performance measure, the threshold level of performance for which a payout could be made, the target performance level and the maximum performance level (dollars are in millions). To the extent applicable, the amounts and percentages in the following table and in the Performance Level column in the next table reflect the adjustments described above.

Performance Measure	Threshold (0 rating)	Target (1.2 rating)	Maximum (2.0 rating)
Net Sales	\$ 2,289	\$ 2,435	\$ 2,532
Gross Margin	40.28%	41.53%	42.78%
Operating Margin	15.09%	16.09%	17.09%
Free Cash Flow	\$ 230	\$ 280	\$ 330

With respect to corporate performance in 2009, the actual performance levels and ratings were as follows (dollars in millions):

	Performance Level	Rating
Net Sales	\$ 2,500	1.73
Gross Margin	45.00%	2.00
Operating Margin	17.30%	2.00
Free Cash Flow	\$ 339	2.00

The corporate performance rating for 2009 was equal to the weighted average number of these factors, or 1.93. The relevant division performance ratings for 2009 were: Consumer Domestic, 2.00; Consumer International, 1.50; and Specialty Products, 1.00.

The final performance rating applicable to each executive reflected the weighted average achieved performance rating for corporate performance and division performance applicable to the executive. The Compensation & Organization Committee did not exercise its discretion to reduce a portion of award for any named executive officer. Based on their respective performance ratings, the named executive officers received award payments as shown in the table below:

Name	Applicable Performance Rating	Actual Award Payment (\$)	Actual Award as percentage of Target Award Opportunity
James R. Craigie	1.930	1,676,700	160.83%
Matthew T. Farrell	1.930	551,500	160.83%
Bruce F. Fleming	1.958	325,500	163.16%
Susan E. Goldy	1.930	330,500	160.83%
Louis H. Tursi, Jr.	1.958	330,400	163.16%

The award payments are reflected in the Non-Equity Incentive Plan Compensation column of the Summary Compensation Table.

Long-Term Incentives Stock Options

We typically seek to position long-term incentive awards for the named executive officers to be approximately equivalent to the median level of the comparator companies. However, as noted above, in 2009 we did not rely on new comparative data in setting compensation. Instead, we referred to the multiples of salary and type of award used in 2008 in providing long-term incentive compensation. Accordingly, we continued to utilize options on our common stock as our principal form of long-term compensation. Stock options granted in 2009:

have a 10 year term,

vest as to all underlying shares on the third anniversary of the date of grant and

have an exercise price equal to the fair market value per share on the date of grant, which we determine based on the closing price as reported on the New York Stock Exchange on the date of grant.

In addition, as was the case in 2008, our stock options granted in 2009 include provisions enabling a three-year post-termination vesting and exercise period. The provisions apply if (1) the option holder's employment terminates due to retirement or termination by us without cause, (2) the option holder is at least 55 years old and has at least five years of service with us and (3) the sum of the option holder's age and years of service is at least 65. Although these provisions are more favorable than were typical among the comparator companies when we reviewed their practices in 2007, we believe that these provisions enable us to attract and retain seasoned executives who have considerable experience. Moreover, we view these post-termination provisions as offsetting the effect of the vesting provisions of our stock options, which we believe are less favorable than vesting provisions used by many of the comparator companies. Many of those companies provide for incremental vesting of stock options during the vesting period, while our options do not vest until they have been held for three years. We believe our vesting provisions encourage our employees to maintain employment with us.

We believe that stock options provide a strong incentive to increase stockholder value, because the value of the stock options is dependent on the market performance of our common stock following the date of grant.

Under our long-term incentive program, we grant stock options to each of our named executive officers on an annual basis, based on a multiple of the executive officer's salary. In connection with our 2009 grants, we initially used the following multiples of salary for our named executive officers:

<u>Name</u>	<u>Multiple of Salary*</u>
James R. Craigie	6.5x
Matthew T. Farrell	2.5x
Bruce F. Fleming	2.1x
Susan E. Goldy	2.1x
Louis H. Tursi, Jr.	2.1x

*

Edgar Filing: CHURCH & DWIGHT CO INC /DE/ - Form DEF 14A

In order to eliminate the potential for minor differences among officers and foster a cohesive commitment to our success, we used a multiple of 2.1 times the average of our executive officers' salaries to compute initially the value of options to be granted to each of them.

The salary multiples in 2009 for named executive officers were unchanged from 2008. The considerations relating to the determination of the salary multiples were similar to those discussed above under "Annual Incentive Plan" with respect to the percentage of salary payable at a 1.0 percent performance rating.

As was the case in 2008, we increased by 25 percent the dollar amount initially computed based on the salary multiples set forth above. We took this action after comparing the total shareholder return (based on the increase in stock price plus dividends paid) of Church & Dwight common stock for the one and three year periods ended December 31, 2008 against the total shareholder return for a selected group of consumer products companies utilized by management for internal analysis purposes (Alberto-Culver Company; Avon Products, Inc.;

Chattem, Inc.; Colgate-Palmolive Company; The Clorox Company; Energizer Holdings, Inc.; Kimberly-Clark Corporation; The Procter & Gamble Company; Reckitt Benckiser Group PLC; and Unilever). This group generally was also referenced in 2008, although there were some changes. Reckitt Benckiser and Unilever were added because they are direct competitors. Chattem was added because it is a consumer goods company that management viewed as having strong gross margin performance. Management removed Jarden Corporation and PepsiCo., Inc. because it believed those companies were less comparable to Church & Dwight than the other companies in the group. For both the one and three year periods, our total shareholder return was among the top 25 percent of the selected group. The 25 percent increase in dollar amount was made to reflect our company's superior performance as compared to the companies in this group, as well as strong one and three year absolute performance. Unlike our 2008 evaluation, we did not reference the compensation comparator companies directly, but our total shareholder return generally compared very favorably to those companies. The determination to increase the grant by 25 percent was not based on the application of any formula.

In determining the number of shares underlying options for each of the named executive officers, we divided the dollar amount available for option grants by the closing price of a share of our common stock on the date of grant to determine the number of stock options granted to the executive officer. We rounded the resulting number of shares to the nearest 100 shares. The number of shares underlying stock options granted to the named executive officers are set forth below in the Grants of Plan Based Awards table under the column heading, All Other Option Awards: Number of Securities Underlying Options. For additional information regarding stock option terms, see the narrative accompanying the Grants of Plan-Based Awards table.

Beginning with options granted in 2005, we have applied special provisions to Mr. Craigie's options. Under these provisions, if his employment with us terminates for any reason other than for cause after he has been employed by us for five years and if he is in compliance with our stock ownership guidelines as in effect at the end of the five year period, his options will remain exercisable until the end of their stated term and will continue to vest in accordance with the terms of the grant. The Compensation & Organization Committee approved this provision to encourage Mr. Craigie to maintain a long-term focus on our strategy and a long-term interest in our securities, and to remove requirements and incentives to exercise options and sell underlying shares within a short time following a termination of his employment. See Stock Ownership Guidelines below for information regarding stock ownership guidelines applicable to Mr. Craigie by the end of 2009 and by the end of 2010.

The Compensation & Organization Committee has, from time to time, considered the structure of our long-term incentive compensation, which continues to consist solely of stock options. In light of uncertain economic conditions prevalent in 2009, the Compensation & Organization Committee did not consider any change to our long-term incentive compensation structure in 2009. Nevertheless, while the Compensation & Organization Committee continues to believe that stock options are an appropriate form of long-term incentive compensation, it will review with management, on an ongoing basis, the advisability of adopting alternative forms of long-term incentive compensation that are tied to, and provide incentives for, the long-term increase in stockholder value.

Restricted Stock Award Program

We believe it is very important to enhance the linkage of the interests of our officers to those of our stockholders by encouraging ownership of our common stock. Under our restricted stock award program, we award restricted stock to officers when those officers acquire our common stock. Specifically, we award shares of restricted stock to an officer who, during a calendar year,

defers a portion of his or her salary into a notional investment in common stock under our Executive Deferred Compensation Plan (EDCP),

defers a portion of his or her award under the annual incentive plan into a notional investment in our common stock fund under the EDCP,

transfers funds within the EDCP into the notional investment in common stock or

otherwise purchases our common stock, except as described below.

We award the restricted stock on the first Monday in March of the succeeding calendar year. The number of shares awarded has a fair market value equal to 20 percent of the value of the acquired notional investment in our common stock and the otherwise purchased common stock. For this purpose, the value of the acquired notional investment and otherwise purchased common stock may not exceed 50 percent of the officer's target annual incentive plan award in the year preceding the year in which we award the restricted stock. Restricted shares awarded under the program vest on the third anniversary of the date of award. In addition to encouraging share ownership, we believe the vesting terms of the restricted stock provide a meaningful incentive for continued employment. Restricted shares issued to the named executive officers under this program in 2009 are set forth below in the Grants of Plan-Based Awards Table under the column heading, All Other Stock Awards: Number of Shares of Stock or Units.

The restricted stock award program is not intended to provide an incentive to purchase our common stock in plans that are available to a broad base of our employees. Therefore, we do not provide restricted stock awards for purchases of our common stock under our employee stock purchase plan or under our savings and profit sharing plan.

Perquisites and Charitable Contributions

We provide very limited perquisites to our executive officers. Our executives may receive a comprehensive physical examination through a provider selected by the executive from among three providers that we have approved. We believe it is in our interest to ensure that our executives' health is monitored so that any health-related issues pertaining to an executive can be identified and addressed promptly. The cost to us for providing this benefit is approximately \$3,000 per executive.

Except as noted above, we currently do not have programs for providing personal benefit perquisites to executive officers. We do not participate in any programs under which we agree to make donations to charitable institutions in the name of any of our executive officers or directors. We do, from time to time, make donations to charities designated by our executive officers and directors. The aggregate amount of all donations to these charities was \$25,000 in 2009.

STOCK OPTION GRANT PRACTICES

For the past several years, our Compensation & Organization Committee has followed a practice of making our annual stock option grants to executive officers and other employees effective on the Monday falling most closely to the midpoint between the dates of the first and second quarter earnings releases. A grant to a new employee is effective on the date the employee commences employment with us, and special grants made to employees at times other than the time of the annual grant are effective on the first trading day of the month following approval of the grant. The per share exercise price of stock options is equal to the closing price of a share of our common stock on the date of grant. We believe that our stock option grant practices are appropriate and eliminate any questions regarding timing of grants in anticipation of material events, since grants become effective in accordance with a long-standing schedule.

Our Compensation & Organization Committee delegates to our Executive Vice President Human Resources the ability to approve stock option grants for employees who are not executive officers. The grants may be made at times other than the time of annual grant and are utilized for new hires and for performance recognition. The Compensation & Organization Committee approved 59,000 shares for these purposes in 2009. The timing and pricing of the option grants in 2009 conformed to the Compensation & Organization Committee practices described in the preceding paragraph.

STOCK OWNERSHIP GUIDELINES

Our executive officer stock ownership guidelines are designed to further align the interests of executive officers with the interests of our stockholders. The guidelines generally specify the number of shares of our common stock that our executive officers were required to accumulate by the end of 2009 (or, if later, five years following appointment to an executive officer position) and maintain thereafter. The current guidelines are based on

salary levels on January 1, 2008 and the average closing price of our common stock during 2007. An executive officer who becomes subject to the guidelines after January 1, 2008 will have stock ownership requirements that are computed based on a multiple of his or her salary at the time the executive officer becomes subject to the guidelines and the average closing price of our common stock for the prior 365-day period. In each case, the number of shares resulting from the calculation is rounded to the nearest 1,000 shares. Every three years, we recalibrate the stock ownership requirements based on the then current base salaries and the average closing stock price of our common stock over the preceding 12 months. The next recalibration will occur on January 1, 2011. The Compensation & Organization Committee reviews the executive officers progress towards compliance with the guidelines semi-annually.

In 2007, we agreed to defer, by one year, the deadline for Mr. Craigie's compliance with the stock ownership requirements. We did this because Mr. Craigie transferred to his former spouse, as part of a divorce settlement, a number of shares having a value approximately equivalent to one year's applicable salary. As modified, guidelines applicable to Mr. Craigie require that he reach a stock ownership level equivalent to four times salary by the end of 2009 and five times salary by the end of 2010. See "Long-Term Incentives - Stock Options" above for a description of special provisions that apply to Mr. Craigie's stock options as a result of his compliance with our stock ownership guidelines in 2009.

The guidelines applicable to each of the named executive officers, and the named executive officer's progress towards achieving the required stock ownership levels, are shown on the following table:

Name	Applicable Base Salary (\$) ⁽¹⁾	Multiple of Salary Subject to Guidelines	Applicable Price Per Share (\$) ⁽²⁾	Required Number of Shares to be Held	Number of Shares Held at 12/31/09 ⁽²⁾
James R. Craigie	800,000	5.0x	48.81	82,000 ⁽³⁾	65,004
Matthew T. Farrell	450,000	5.0x	48.81	46,000	31,805
Bruce F. Fleming	312,000	2.5x	48.81	16,000	21,677
Susan E. Goldy	315,000	2.5x	48.81	16,000	17,255
Louis H. Tursi, Jr.	320,000	2.5x	48.81	16,000	23,878

⁽¹⁾ Applicable base salary refers to the base salaries in effect on January 1, 2008. Applicable price per share is the average closing stock price during 2007. Base salary levels and applicable price per share will be readjusted in 2011.

⁽²⁾ Stockholdings include shares owned by the executive officer or members of his or her immediate family residing in the same household, shares or notional shares held for the executive officer's account in a company plan, restricted stock held by the executive officer and stock units held for the account of the executive officer in the EDCP.

⁽³⁾ Mr. Craigie is required to hold the indicated number of shares by the end of 2010. He was required to hold 66,000 shares at the end of 2009.

ONGOING AND POST-EMPLOYMENT COMPENSATION

We have plans and agreements that address compensation for our named executive officers that accrue value as the executive officer continues to work for us, provide special benefits upon certain types of termination events or provide retirement benefits. These plans and agreements were designed to be part of a competitive compensation package, in some cases not only for executive officers, but for other employees as well.

Savings and Profit Sharing Plan for Salaried Employees

This plan, which we sometimes refer to below as the savings and profit sharing plan, is a tax-qualified defined contribution plan available to all of our domestic salaried employees. All of our named executive officers participate in the plan. Under the plan, an employee may contribute, subject to Internal Revenue Code limitations, up to a maximum of 70 percent of his or her eligible compensation (15 percent for highly compensated employees

in 2009), which includes salary and payments under the annual incentive plan, on a pre-tax or post-tax basis (post-tax contributions are limited to six percent of eligible compensation). For this purpose, Roth contributions, although made on a post-tax basis, are treated as if they were made on a pre-tax basis. We provide a matching contribution equal to 50 percent of the first six percent of eligible compensation that an employee contributes in any year. In addition, the plan provides a profit-sharing feature under which we make an annual contribution to the account of each employee based on our performance in the preceding year. The performance measures and results used to calculate the annual contribution level are identical to the company-wide measures described above under Annual Incentive Plan. Achievement of the target performance rating would have resulted in a contribution of 7.3 percent of a participant's eligible compensation in 2009. In respect of 2009 performance results, the Compensation & Organization Committee made a contribution in 2010 equal to 11.58 percent of a participant's eligible compensation. Amounts credited to an employee's account in the plan may be invested among a number of funds, including a company stock fund. A participant's account is adjusted to reflect the rate of return, positive or negative, on the investments. Employee contributions and compensation on which our profit sharing contributions may be based cannot exceed limits under the Internal Revenue Code (the eligible compensation limit was \$245,000 in 2009).

Employee Stock Purchase Plan

This plan is a tax qualified employee stock purchase plan generally available to our domestic employees who work at least 20 hours per week. Mr. Craigie, Mr. Farrell, Ms. Goldy and Mr. Fleming participate in this plan. Under the plan, a participant may contribute up to 10 percent of his or her salary and wages towards the purchase of our common stock on the last business day of a calendar month. The purchase price generally is equal to 85 percent of the closing price of our common stock on the second Friday of the month. As a result of Internal Revenue Code limits, no participant may purchase more than \$25,000 worth of common stock in any calendar year.

Executive Deferred Compensation Plan (EDCP)

This plan and its predecessors collectively have been in effect for over 20 years. The plan is a nonqualified deferred compensation plan that provides tax benefits for executive officers. All named executive officers participate in the plan. Under the EDCP as currently in effect, an executive officer can defer up to 85 percent of his or her salary and up to 85 percent of amounts paid to the executive officer under our annual incentive plan. In addition, an executive can make a separate deferral, which we refer to below as the Excess Compensation Deferral, of up to six percent of compensation that exceeds Internal Revenue Code limits on eligible contributions under our savings and profit sharing plan. We provide a contribution equal to (1) 50 percent of the Excess Contribution Deferral Amount; (2) three percent of other salary and bonus deferrals; and (3) the profit sharing contributions we would have made to the participant's account under our savings and profit sharing plan were it not for the Internal Revenue Code limit on the amount of eligible compensation under that plan and the participant's deferrals into the EDCP.

Amounts deferred under the EDCP generally are not subject to federal, and in many cases state, income taxes until they are distributed. An executive officer can choose to have his or her contributions allocated to one or more of several notional investments, including a notional investment in our common stock. A participant may not initially allocate more than 50 percent of his or her contributions to our common stock, although the participant can increase the notional common stock amount through intra-plan transfers of notional investments previously made. A participant's account is adjusted to reflect the deemed rate of return, positive or negative, on the notional investments. An executive officer may choose to receive a payout following retirement, either in a lump sum or in annual installments, in accordance with the terms of the EDCP. Alternatively, the executive officer may choose to receive an in-service distribution in a lump sum or in up to four annual payments in accordance with the terms of the EDCP. The EDCP also includes provisions for payment upon death or disability. See the Deferred Compensation table and accompanying narrative, and Potential Payments Upon Termination or Change in Control for additional information.

Change in Control and Severance Agreements

In 2006, we adopted change in control and severance agreements for our executive officers. We believe that these agreements can create management stability during a period of uncertainty. Absent such agreements, there is an increased risk that executive officers may be encouraged to seek other employment opportunities if they became concerned about their employment security following a change in control. We believe that the agreements serve to provide financial security to an executive officer in the event the executive officer is terminated without cause following a change in control by providing a meaningful payment to the executive officer. The agreements also provide clear statements of the rights of the executive officers and protect against a change in employment and other terms by an acquirer that would be unfavorable to the executive officer. In providing a higher level of benefits to Mr. Craigie than to our other named executive officers, we referenced data from a study prepared by a former compensation consultant indicating that a higher level of benefits for a CEO was in line with marketplace practices. We also determined to provide benefits to our executive officers, although at a lower level, for certain types of employment terminations that do not follow a change in control. We believe these severance obligations provide a competitive benefit that enhances our ability to retain capable executive officers.

The change in control and severance agreements provide for payments and other benefits if an executive officer's employment is terminated without cause, or if an executive officer terminates employment for good reason, within two years following a change in control. These provisions require what is sometimes called a double trigger, namely both a change in control and a specified termination event, before payment is made. The agreements also provide for lesser payments if these types of terminations occur outside of the context of a change in control. In March 2010, we and the participating executives amended the agreements to eliminate the tax gross-up provisions under the agreements. These provisions called for additional payments to an executive officer if the executive officer became liable for payment of any excise tax under Section 4999 of the Internal Revenue Code with respect to any payment to be received under an agreement in connection with a change in control. These additional payments were designed so that, after payment of all excise taxes and any other taxes payable in respect of the additional payments, the executive officer would retain the same amount as if no excise tax had been imposed. While tax gross ups were a common feature of change in control agreements a few years ago, companies have been eliminating these provisions in response to, among other developments, criticism from proxy advisory services and institutional investors. Therefore, our executive officers agreed to the elimination of the tax gross-up provision.

In the event that payments to be made to an executive under the change in control and severance agreements in connection with a change in control would result in the imposition of the excise tax under Section 4999 of the Code, we will reduce the payments to the highest amount that could be paid without triggering the excise tax if, following the reduction, the executive would have greater net after-tax payments than if no reduction were made. If no reduction is made, the executive officer will pay any applicable excise tax.

See Potential Payments Upon Termination or Change in Control for further information regarding benefits under the change in control and severance agreements.

TAX CONSIDERATIONS

Section 162(m) of the Internal Revenue Code limits to \$1 million the deductibility for federal income tax purposes of annual compensation paid by a publicly held company to its chief executive officer and other specified highest paid executive officers, unless certain conditions are met. We have structured certain portions of our executive compensation program to preserve deductibility for federal income tax purposes. Nevertheless, we believe that, in certain circumstances, factors other than tax deductibility take precedence in determining the forms and amount of compensation, and we retain the flexibility to authorize compensation that may not be deductible if we believe it is in the best interests of our company.

ROLE OF EXECUTIVE OFFICERS IN DETERMINING EXECUTIVE COMPENSATION FOR NAMED EXECUTIVE OFFICERS

In connection with 2009 compensation for executive officers, Mr. Craigie, aided by our human resources department, provided statistical data and recommendations to the Compensation & Organization Committee. Mr. Craigie did not make recommendations as to his own compensation. While the Compensation & Organization Committee utilized this information, and valued Mr. Craigie's observations with regard to other executive officers, the ultimate decisions regarding executive compensation were made by the Compensation & Organization Committee.

ROLE OF THE COMPENSATION & ORGANIZATION COMMITTEE IN EXECUTIVE COMPENSATION

As set forth in the Charter of the Compensation & Organization Committee, one of the Compensation & Organization Committee's purposes is to administer our executive compensation program. It is the Compensation & Organization Committee's responsibility to oversee the design of executive compensation programs, to determine, subject to Board of Directors ratification, the types and amounts of most compensation for executive officers, and to administer our incentive compensation and stock option plans. All compensation for Mr. Craigie ultimately must be ratified by a majority of the independent Directors of the Board, while the Board of Directors ratifies compensation for other executive officers. Our human resources department supports the Compensation & Organization Committee's work, and in some cases acts under delegated authority to administer compensation programs. In addition, as described above, the Compensation & Organization Committee directly engages an outside consulting firm to assist in its review of compensation for executive officers. The consulting firm performs similar services for us with respect to non-executive officers. The consulting firm does not perform any other services for us.

COMPENSATION & ORGANIZATION COMMITTEE REPORT

The Compensation & Organization Committee has reviewed and discussed with management the Compensation Discussion and Analysis required by Securities and Exchange Commission regulations. Based on its review and discussions, the Compensation & Organization Committee recommended to the Board that the Compensation Discussion and Analysis be included in this proxy statement.

Respectfully submitted,

Employment Agreements

We entered into an employment agreement with Mr. Craigie on June 11, 2004, relating to Mr. Craigie's employment as President and Chief Executive Officer. In addition to initial compensatory terms, the agreement provides for an annual incentive compensation award target of 100% of annual base salary, subject to a maximum award payout amount not to exceed 200% of annual base salary, and participation in our health, welfare and retirement savings plans.

We entered into an employment agreement with Mr. Farrell on August 23, 2006, relating to Mr. Farrell's employment as Vice President and Chief Financial Officer. The agreement provides for an initial base salary of \$450,000; a \$350,000 sign-on bonus; a sign-on grant of stock options to purchase 75,000 shares of our common stock; which vested on the third anniversary of his commencement of employment; a sign-on grant of 35,000 shares of restricted common stock which vested in one-third increments on the first, second and third anniversary of his commencement of employment; an annual incentive compensation award payout of \$225,000 for 2006; and participation in Church & Dwight's health, welfare and retirement savings plans. In accordance with the terms of the agreement, Mr. Farrell's annual incentive compensation award target for 2007 was 55% of base salary. The agreement also provides that Mr. Farrell's annual incentive compensation award target for 2008 and thereafter will be 60% of base salary.

and terminate ten years from the date of grant, subject to earlier termination upon the occurrence of specified events. In the event of a change in control, as defined in our Omnibus Equity Compensation Plan, all stock options granted prior to the change in control immediately vest.

2009 NONQUALIFIED DEFERRED COMPENSATION

The named executive officers are among employees eligible to participate in our Executive Deferred Compensation Plan. Participants can elect to defer up to 85% of their salary and annual incentive plan award payout. Amounts deferred are invested, as determined by the participant, in one or more notional investments, including a notional investment in our common stock. The other notional investments are a group of mutual funds. We also made contributions to a participant's deferred compensation account equal to the matching contributions and profit sharing contributions that would have been made to the participant's account under our Savings and Profit Sharing Plan for Salaried Employees but for (i) limitations imposed by the Internal Revenue Code on plan contributions and (ii) the participant's deferrals under our Executive Deferred Compensation Plan. Following retirement, participants may elect to receive either a lump sum payment or installment payments for up to 20 years. Under some circumstances, participants also may elect to receive an in-service distribution in a lump sum or in installments over a period of up to four years. A participant's interest in the portion of his or her account derived from our contributions vests over a period of four to five years from commencement of employment, and any unvested portion vests upon the death of a participant.

The following table provides details regarding nonqualified deferred compensation for the named executive officers in 2009.

POTENTIAL PAYMENTS UPON TERMINATION OR CHANGE IN CONTROL

In this section, we describe payments that may be made to our named executive officers upon several events of termination, including termination in connection with a change in control, assuming the termination event occurred on December 31, 2009 (except as otherwise noted). The information in this section does not include information relating to the following:

distributions under the Executive Deferred Compensation Plan see 2009 Nonqualified Deferred Compensation for information regarding this plan,

other payments and benefits provided on a nondiscriminatory basis to salaried employees generally upon termination of employment, including our tax-qualified defined contribution plan,

restricted shares and shares underlying options that vested prior to the termination event see the 2009 Outstanding Equity Awards at Fiscal Year-End table, and

short-term incentive payments that would not be increased due to the termination event.

Change in Control and Severance Agreements

We have entered into Change in Control and Severance Agreements with each executive officer. The agreements provide for benefits upon specified termination of employment events within two years following a change in control and upon specified termination of employment events at any time for reasons unrelated to a change in control. A change in control occurs under the agreements if:

a person becomes the beneficial owner of 50% or more of our common stock,

our stockholders approve a merger or other business combination or a sale of all or substantially all of our assets, or

within any 24-month period, incumbent Directors no longer constitute at least a majority of the Board; incumbent Directors are (i) persons who were Directors immediately before the beginning of the 24-month period and (ii) persons who are elected to the Board by a two-thirds vote of the incumbent Directors.

Upon the termination of an executive officer's employment without cause or by the executive officer for good reason within two years following a change in control and following the executive officer's execution of a release, the executive officer will receive:

a lump sum equal to two times (three times for Mr. Craigie) the sum of such executive officer's base salary plus target award for the year in which such termination occurs, and

a lump sum equal to the executive officer's target award multiplied by a fraction equal to the portion of the year that has expired on the date of termination of employment.

Each lump sum payment will be made six months following the date of termination of employment.

Upon the termination of an executive officer's employment without cause or by the executive officer for good reason other than as a result of a change in control and following the executive officer's execution of a release, the executive officer will receive:

a lump sum equal to the executive officer's base salary (Mr. Craigie will receive an amount equal to two times his base salary) for the year in which the termination occurs (one-half of the payment will be paid six months following the date of termination of employment and the remaining one-half will be paid in six equal monthly installments thereafter), and

a lump sum equal to the executive officer's target award multiplied by a fraction equal to the portion of the year that has expired on the date of termination of employment (to be paid six months following the date of termination of employment).

Good reason means the occurrence of any of the following events, without the consent of the executive officer: (i) the executive officer suffers a demotion in title, position or duties; (ii) the executive officer's base salary and target award percentage or benefits are decreased; (iii) we fail to obtain the assumption of the agreement by an acquirer; or (iv) the executive officer's office location is moved by more than 50 miles.

In the event that an executive officer becomes liable for payment of any excise tax under Section 4999 of the Internal Revenue Code with respect to any excess parachute payments under Section 280G of the Internal Revenue Code to be received under the Agreement in connection with a change in control, we will reduce the payments below the threshold amount for excess parachute payments set forth in Section 280G, if such reduction would provide the executive with greater net after-tax payments than would be the case if no reduction were made and the payments were subject to excise tax under Section 4999.

In addition, under any event of termination covered by the agreement, the executive officer may elect to continue group medical and dental coverage at the then prevailing employee rate for a period of 24 months (12 months if termination occurs other than as a result of a change in control), or, in the case of Mr. Craigie, 36 months (24 months if termination occurs other than as a result of a change in control) from the date of termination. The executive officer will also be entitled to receive (i) group life insurance coverage for a period of 24 months (12 months if termination occurs other than as a result of a change in control), or, in the case of Mr. Craigie, 36 months (24 months if termination occurs other than as a result of a change in control) from the date of termination; (ii) outplacement assistance; and (iii) payment for unused vacation time. The agreement also contains non-competition and non-solicitation provisions.

The Change in Control and Severance Agreement replaced related provisions, if any, in the executive officer's employment agreement.

Acceleration of Vesting Provisions Pertaining to Stock Options and Restricted Stock Upon a Change in Control

Under our Stock Award Plan and Omnibus Equity Compensation Plan, upon a change in control all stock options and restricted stock granted prior to the change in control immediately vest. The definition of change in control under the Stock Award Plan and Omnibus Equity Compensation Plan is substantially the same as the definition of change in control under the Change in Control and Severance Agreements.

Table of Benefits Upon Termination Events

The following tables show potential payments to the named executive officers upon termination of employment, including without limitation a change in control, assuming a December 31, 2009 termination date. In connection with the amounts shown in the table:

Stock option benefit amounts for each option as to which vesting will be accelerated upon the occurrence of the termination event are equal to the product of the number of shares underlying the option multiplied by the difference between the exercise price per share of the option and the \$60.45 closing price per share of our common stock on December 31, 2009, as reported by the New York Stock Exchange.

Restricted stock benefit amounts are equal to the product of the number of restricted shares as to which vesting will be accelerated upon the occurrence of the termination event multiplied by the \$60.45 closing price per share of our common stock on December 31, 2009, as reported by the New York Stock Exchange.

Health and Welfare Benefits are equal to the costs we would incur to maintain such benefits for the applicable period.

RATIFICATION OF THE APPOINTMENT OF**INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

The Audit Committee of the Board of Directors selected Deloitte & Touche LLP to audit our consolidated financial statements and our internal control over financial reporting for 2010. In accordance with past practice, this selection will be presented to the stockholders for ratification at the Annual Meeting; however, consistent with the requirements of the Sarbanes-Oxley Act of 2002, the Audit Committee has ultimate authority in respect of the selection of our auditors. The Audit Committee may reconsider its selection if the appointment is not ratified by the stockholders. Deloitte & Touche LLP has served as our auditors since 1969.

A representative of Deloitte & Touche LLP will be in attendance at the Annual Meeting to respond to appropriate questions and will be afforded the opportunity to make a statement at the meeting, if he or she desires to do so.

Your Board recommends a vote FOR the ratification of the appointment of Deloitte & Touche LLP.

HOUSEHOLDING OF PROXY MATERIALS

The SEC has adopted rules that permit companies and intermediaries to satisfy delivery requirements for notices of Internet availability of proxy materials and, if applicable, proxy statements and annual reports to stockholders, with respect to two or more stockholders sharing the same address by delivering a single copy of the material addressed to those stockholders. This process, commonly referred to as householding, is designed to reduce duplicate printing and postage costs. We and some brokers may household notices of Internet availability of proxy materials and, if applicable, annual reports to stockholders and proxy materials, by delivering a single copy of the material to multiple stockholders sharing the same address unless contrary instructions have been received from the affected stockholders.

If a stockholder wishes in the future to receive a separate notice of Internet availability of proxy materials or, if applicable, the annual report to stockholders and proxy statement, or if a stockholder received multiple copies of some or all of these materials and would prefer to receive a single copy in the future, the stockholder should submit a request to the stockholder's broker if the shares are held in a brokerage account or to our transfer agent, Computershare Investor Services LLC, 2 N. LaSalle St., Chicago, Illinois 60602, telephone: 312-588-4219, if the shares are registered in the name of the stockholder. We will promptly send additional copies of the relevant material following receipt of a request for additional copies.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Under Section 16(a) of the Securities Exchange Act of 1934, our Directors and executive officers, and persons holding more than ten percent of our common stock are required to file with the Securities and Exchange Commission initial reports of their ownership of the our common stock and reports of changes in such ownership. To our knowledge, based on information furnished to us, all of these filing requirements were satisfied for 2009, except that Messrs. Sipia and Siracusa each inadvertently filed one late report relating to a single transaction.

OTHER BUSINESS

We are not aware of any matters, other than as indicated above, that will be presented for action at the Annual Meeting. However, if any other matters properly come before the Annual Meeting, the persons named in the enclosed form of proxy intend to vote such proxy in their discretion on such matters.
