CAREER EDUCATION CORPORATION AND SUBSIDIARIES

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

(In thousands, except per share amounts)

1. DESCRIPTION OF THE COMPANY

The colleges, schools and universities that are part of the Career Education Corporation (CEC) family offer high-quality education to a diverse student population of over 104,000 students across the world in a variety of career-oriented disciplines. The more than 90 campuses that serve these students are located throughout the U.S. and in France, Italy, the United Kingdom and Monaco, and offer doctoral, master's, bachelor's and associate degrees and diploma and certificate programs. Approximately 44% of our students attend the web-based virtual campuses of American InterContinental University, Colorado Technical University, International Academy of Design & Technology and Le Cordon Bleu College of Culinary Arts.

CEC is an industry leader whose brands are recognized globally. Those brands include, among others, American InterContinental University (AIU); Brooks Institute; Colorado Technical University (CTU); Harrington College of Design; INSEEC Group (INSEEC) Schools, including the International University of Monaco (IUM); International Academy of Design & Technology (IADT); Istituto Marangoni; Le Cordon Bleu North America (LCB); and Sanford-Brown Institutes and Colleges. Through our schools, CEC is committed to providing high-quality education, enabling students to graduate and pursue rewarding careers.

For more information, see CEC's website at www.careered.com. The website includes a detailed listing of individual campus locations and web links to CEC's colleges, schools, and universities.

As used in this Quarterly Report on Form 10-Q, the terms we, us, our, and CEC refer to Career Education Corporation and our wholly-owned subsidiaries. The terms school and university refer to an individual, branded, proprietary educational institution, owned by us and includes its campus locations. The term campus refers to an individual main or branch campus operated by one of our schools or universities.

2. BASIS OF PRESENTATION

The accompanying unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States (GAAP) for interim financial information and the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, the financial statements do not include all of the information and notes required by GAAP for complete financial statements. In the opinion of management, all adjustments, including normal recurring accruals, considered necessary for a fair presentation have been included. Operating results for the three and six months ended June 30, 2010, are not necessarily indicative of the results that may be expected for the year ending December 31, 2010.

The unaudited consolidated financial statements presented herein include the accounts of CEC. All inter-company transactions and balances have been eliminated.

On January 15, 2010, we realigned our resources to more effectively execute our new strategic growth plan. We began the integration of our schools which previously comprised the Art & Design Strategic Business Unit (SBU) alongside AIU and CTU, within the University SBU. This realignment will facilitate synergies between the programs in Art & Design and University, especially in the areas of fashion design, merchandising and interior design and technology. It will also enable the sharing of student-focused online platforms and expertise and aid IADT as it pursues its longer-term strategy of regional accreditation. Harrington College of Design, Collins College and Brooks Institute joined the IADT schools in the alignment of the Art & Design group into the University SBU. The realignment also shifted Brown College and Briarcliffe College into the Health Education SBU. We expect Briarcliffe's regional accreditation to be beneficial in providing greater opportunity for Sanford-Brown students to enroll in higher degree programs. This realignment resulted in new reportable segments, and prior period results have been revised to reflect these new reportable segments. See Note 14 Segment Reporting of the notes to our unaudited consolidated financial statements for further discussion.

Table of Contents**CAREER EDUCATION CORPORATION AND SUBSIDIARIES****NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(In thousands, except per share amounts)**

In addition to the realignment, we completed a detailed review of our shared service costs to determine which of these costs should be charged to the SBUs as well as how these shared service costs should be allocated. These services include legal, finance, human resources, marketing, certain academic functions and certain centralized activities related to student finance, including financial aid processing, student account posting and collections. These costs, recorded within Corporate and other, were previously allocated to our SBUs based upon a percentage of revenue. Improved data and analytical capabilities have provided us insight into costs being incurred to support the SBUs versus costs being incurred to support the corporation as a whole. The new methodology allocates costs based on usage and consumption factors such as student population, employee headcount, advertising spend, number of financial aid recipients and revenue where appropriate. In the case of certain services which are shared evenly across the SBUs, we allocate evenly. The new methodology is intended to provide improved transparency into the costs of the shared services. The effect of these changes impacts the costs reported within each SBU and reduces the level of unallocated shared service costs. Results beginning in 2010 are presented under the new methodology and prior period results have been revised to be comparable to the current reporting.

3. BUSINESS ACQUISITION

On April 15, 2010, the Company acquired 100% of the issued and outstanding stock of International University of Monaco (IUM) for a purchase price of \$6.3 million plus assumption of \$4.3 million related to outstanding loans which were immediately paid after the acquisition closed. The purchase price was funded with cash generated from operating activities. IUM is a leading international business university located in Monte Carlo, offering bachelor's, master's and doctoral programs in such areas as finance, international business and luxury goods and services, and its current enrollment includes nearly 400 students representing 62 countries. IUM has joined the INSEEC group and will position INSEEC for continued growth as a leader in postsecondary education in Europe.

The following table summarizes the preliminary estimated fair values of assets acquired and liabilities assumed as of April 15, 2010 (dollars in thousands):

Current assets (including cash of \$80)	\$ 550
Property and equipment	524
Intangible assets not subject to amortization	
Trade names	2,383
Accreditation rights	740
Intangible assets subject to amortization	
Program curriculum (useful life of 15 years)	407
Covenant not to compete (useful life of 4 years)	62
Goodwill	8,369
Other assets	17
Total assets acquired	13,052
Assumed loans	4,279
Deferred tuition revenue	1,104
Other current liabilities	1,396
Total liabilities assumed	6,779
Net assets acquired	\$ 6,273

Table of Contents

CAREER EDUCATION CORPORATION AND SUBSIDIARIES

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(In thousands, except per share amounts)

Goodwill of \$8.4 million represents the premium the Company paid over the fair value of the net tangible and intangible assets it acquired. The Company paid this premium due to the strategic location and brand recognition that IUM contributes to its international operations. We do not expect any portion of this goodwill balance to be deductible for income tax reporting purposes. Acquisition costs of approximately \$0.6 million were incurred in conjunction with this acquisition and are recorded in general and administrative expense on our unaudited consolidated statements of operations. IUM's operating results are included in our unaudited consolidated financial statements from the date of acquisition.

Subsequent adjustments may be made to the purchase price in accordance with the purchase agreement. However, we do not believe that any such adjustments will be significant.

Supplemental pro forma financial statement disclosures have not been included as this acquisition was not material to our unaudited consolidated financial position or results of operations.

4. RECENT ACCOUNTING PRONOUNCEMENTS

In October 2009, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2009-13, *Revenue Recognition (Topic 605): Multiple-Deliverable Revenue Arrangements*, which provides guidance on whether multiple deliverables exist and how arrangement consideration should be measured and allocated to the separate units of accounting in the arrangement. ASU 2009-13, which is effective for fiscal years beginning on or after June 15, 2010, is effective for us on January 1, 2011. Management is currently evaluating the impact that the adoption of ASU 2009-13 will have on our financial condition, results of operations, and disclosures.

In January 2010, the FASB issued ASU No. 2010-06, *Fair Value Measurements and Disclosures (Topic 820): Improving Disclosures about Fair Value Measurements*. This ASU requires new disclosures regarding transfers within the fair value hierarchy and the Level 3 reconciliation, and clarifies existing disclosure requirements. This guidance is effective for interim and annual reporting periods beginning after December 15, 2009, except for the requirement to present the Level 3 roll forward on a gross basis, which is effective for fiscal years beginning after December 15, 2010. Management has fully considered this guidance when determining the fair value and related disclosures of our financial assets as of June 30, 2010 and our adoption did not have a material impact on our unaudited consolidated financial statements.

In January 2009, the Securities and Exchange Commission (SEC) issued Release No. 33-9002, *Interactive Data to Improve Financial Reporting*. The rule requires all companies to provide their financial statements and financial statement schedules to the SEC and on their corporate websites in interactive data format using the eXtensible Business Reporting Language (XBRL), which is an electronic language specifically for the communication of business and financial data. The intention of XBRL is to improve its usefulness to users and to automate regulatory filings and business information processing. Interactive data has the potential to improve efficiencies and the analyses of financial disclosures by investors and other users. We were required to adopt this rule by June 15, 2010. We elected to early adopt this rule in the first quarter of 2010 and have made the necessary filings. The adoption of this rule did not have a material impact on our financial statements or other reporting.

5. DISCONTINUED OPERATIONS

As of June 30, 2010, the results of operations for schools that have ceased operations or were sold are presented within discontinued operations. We expect to incur approximately \$9.0 million by the fourth quarter 2010 of future remaining lease obligations upon the closure of our AIU - Los Angeles, CA campus. The results for this campus will be recast as a component of discontinued operations upon the completion of its teach out.

Table of Contents**CAREER EDUCATION CORPORATION AND SUBSIDIARIES****NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(In thousands, except per share amounts)****Results of Discontinued Operations**

Combined summary unaudited results of operations for our discontinued operations for the three and six months ended June 30, 2010 and 2009, are as follows:

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2010	2009	2010	2009
	(Dollars in thousands)

Edgar Filing: CAREER EDUCATION CORP - Form 10-Q

Deferred tuition revenue		44
Remaining lease obligations	12,169	7,566
Total current liabilities	14,903	13,695
Non-current liabilities:		
Remaining lease obligations	50,538	62,997
Total liabilities of discontinued operations	\$ 65,441	\$ 76,692

Table of Contents**CAREER EDUCATION CORPORATION AND SUBSIDIARIES****NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(In thousands, except per share amounts)****Remaining Lease Obligations**

A number of the campuses that have ceased operations in 2008 and 2009 have remaining lease obligations that range from two to nine years. A liability is recorded representing the fair value of the remaining lease obligation at the time in which the space is no longer being utilized. Changes in our future remaining lease obligations, which are reflected within current and non-current liabilities of discontinued operations on our unaudited consolidated balance sheets, for our discontinued operations for the three and six months ended June 30, 2010 and 2009, were as follows:

	Balance, Beginning of Period	Charges Incurred ⁽¹⁾	Net Cash Payments	Other ⁽²⁾	Balance, End of Period
(Dollars in thousands)					
For the three months ended June 30, 2010	\$ 65,204	\$ 669	\$ (3,166)	\$	\$ 62,707
For the three months ended June 30, 2009	\$ 23,340	\$ 20,247	\$ (17,646)	\$	\$ 25,941
For the six months ended June 30, 2010	\$ 70,563	\$ 698	\$ (8,554)	\$	\$ 62,707
For the six months ended June 30, 2009	\$ 14,468	\$ 28,348	\$ (19,885)	\$ 3,010	\$ 25,941

(1) Includes charges for newly vacated spaces and subsequent adjustments for accretion, revised estimates, and variances between estimated and actual charges.

(2) Includes existing deferred rent liability balances for newly vacated spaces that offset the losses incurred in the period recorded.

6. FINANCIAL INSTRUMENTS**Cash and Cash Equivalents and Investments**

Cash and cash equivalents and investments from our continuing operations consist of the following as of June 30, 2010 and December 31, 2009:

	June 30, 2010 (Dollars in thousands)			
	Cost	Gross Unrealized Gain	(Loss)	Fair Value

-----------------	-----------	----	----------	-----------

Table of Contents**CAREER EDUCATION CORPORATION AND SUBSIDIARIES****NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(In thousands, except per share amounts)**

		December 31, 2009 (Dollars in thousands)		
	Cost	Gross Unrealized Gain	(Loss)	Fair Value
Cash and cash equivalents:				
Cash	\$ 180,571	\$	\$	\$ 180,571
Money market funds	103,530	372		103,902
Total cash and cash equivalents	284,101	372		284,473
Short-term investments (available-for-sale):				
U.S. Treasury bills	200,320	61	(2)	200,379
Total cash and cash equivalents and short-term investments	\$ 484,421	\$ 433	\$ (2)	\$ 484,852
Long-term investments:				
Municipal bonds	\$ 12,325	\$	\$ (745)	\$ 11,580

In the table above, unrealized holding losses as of June 30, 2010 relate to cash equivalents and available-for-sale investments that have been in a continuous unrealized loss position for less than one year. The table also includes unrealized holding losses that relate to our long-term investments in municipal bonds, which are auction rate securities (ARS). When evaluating our investments for possible impairment, we review factors such as the length of time and extent to which fair value has been less than the cost basis, the financial condition of the investee, and our ability and intent to hold the investment for a period of time that may be sufficient for anticipated recovery in fair value. The decline in the fair value of our municipal bonds through June 30, 2010 is attributable to the continued lack of activity in the ARS market, exposing these investments to liquidity risk.

Included in cash and cash equivalents above are amounts related to certain of our European campuses that are operated on a not-for-profit basis. The cash and cash equivalents related to these schools have restrictions which require that the funds be utilized for these particular not-for-profit schools. The amount of cash and cash equivalents of our not-for-profit schools with restrictions was \$35.4 million and \$49.9 million at June 30, 2010 and December 31, 2009, respectively. Restrictions on cash balances have not affected our ability to fund operations.

Money market funds. Money market funds are mutual funds that invest in lower risk securities and generate low yields. Such funds maintain clear investment guidelines and seek to limit credit, market and liquidity risks.

Municipal bonds: Municipal bonds represent debt obligations issued by states, cities, counties, and other governmental entities, which earn federally tax-exempt interest. ARS generally have stated terms to maturity of greater than one year. We classify investments in ARS as non-current on our unaudited consolidated balance sheets within other assets. Auctions can fail when the number of sellers of the security exceeds the buyers for that particular auction period. In the event that an auction fails, the interest rate resets at a rate based on a formula determined by the individual security. The ARS for which auctions have failed continue to accrue interest and are auctioned on a set interval until the auction succeeds, the issuer calls the securities, or they mature. As of June 30, 2010, we have determined these investments are at risk for impairment due to the nature of the liquidity of the market over the past year. Cumulative unrealized losses as of June 30, 2010, amount to \$0.5 million and are reflected within other comprehensive income as a component of stockholders' equity. We believe this impairment is temporary, as we do not intend to sell the investments and it is unlikely we will be required to sell

Table of Contents**CAREER EDUCATION CORPORATION AND SUBSIDIARIES****NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(In thousands, except per share amounts)**

the investments before recovery of their amortized cost basis. Municipal bonds in the above table that are invested in ARS were \$11.8 million and \$11.6 million at June 30, 2010 and December 31, 2009, respectively.

U.S. Treasury bills: Debt obligations issued by the U.S. government that pay interest at maturity. U.S. Treasury bills are traded at discounts to par value and mature in one year or less.

Fair Value Measurements

The fair value measure of accounting for financial instruments establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include: Level 1, defined as observable inputs such as quoted prices in active markets; Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable; and Level 3, defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions.

As of June 30, 2010, our long term student receivables, net, balances are presented within non-current assets on the consolidated balance sheets. It is not practicable to estimate the fair value of these financial instruments, since observable market data is not readily available.

As of June 30, 2010, we held investments that are required to be measured at fair value on a recurring basis. Investments (available-for-sale) consist of U.S. Treasury bills that are publicly traded and for which market prices are readily available.

As of June 30, 2010, we also held investments in auction rate securities, which are classified as available-for-sale and reflected at fair value. The auction events for these investments have failed for the past year. The fair values of these securities are estimated utilizing a discounted cash flow analysis as of June 30, 2010. These analyses consider, among other items, the collateralization underlying the security investments, the creditworthiness of the counterparty, the timing of expected future cash flows, and the expectation of the next time the security is expected to have a successful auction. These securities were also compared, when possible, to other observable market data with similar characteristics.

Investments measured at fair value on a recurring basis subject to the disclosure requirements issued by the FASB ASC under Topic 820 *Fair Value Measurements and Disclosures* at June 30, 2010, were as follows:

	As of June 30, 2010 (Dollars in thousands)			Total
	Level 1	Level 2	Level 3	
Municipal bonds	\$	\$	\$ 11,822	\$ 11,822
U.S. Treasury bills	162,361			162,361
Totals	\$ 162,361	\$	\$ 11,822	\$ 174,183

The following table presents our assets measured at fair value on a recurring basis using significant unobservable inputs (Level 3) as defined in FASB ASC Topic 820 at June 30, 2010:

(Dollars in
thousands)

Edgar Filing: CAREER EDUCATION CORP - Form 10-Q

Balance at December 31, 2009	\$ 11,580
Unrealized gain	242
Balance at June 30, 2010	\$ 11,822

Table of Contents**CAREER EDUCATION CORPORATION AND SUBSIDIARIES****NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(In thousands, except per share amounts)****Credit Agreement**

As of June 30, 2010, we had letters of credit totaling \$8.8 million outstanding under our \$185.0 million U.S. Credit Agreement. Credit availability under our U.S. Credit Agreement as of June 30, 2010, was \$176.2 million.

7. RECEIVABLES**Student Receivables Valuation Allowance**

Changes in our short-term and long-term receivables allowance for the three and six months ended June 30, 2010 and 2009 were as follows (dollars in thousands):

	Balance, Beginning of Period	Charges to Expense (1)	Amounts Written-off	Balance, End of Period
For the three months ended June 30, 2010	\$ 64,241	\$ 19,549	\$ (15,098)	\$ 68,692
For the three months ended June 30, 2009	\$ 47,209	\$ 14,986	\$ (12,748)	\$ 49,447
For the six months ended June 30, 2010	\$ 53,357	\$ 45,931	\$ (30,596)	\$ 68,692
For the six months ended June 30, 2009	\$ 47,895	\$ 24,920	\$ (23,368)	\$ 49,447

- (1) For the six months ended June 30, 2010, amount includes pretax expense of \$8.1 million related to an increase in reserve rates applied to outstanding student receivable balances attributed to our extended payment plan programs and our previously terminated recourse loan program.

Recourse Loan Agreements

Previously, we had recourse loan agreements with Sallie Mae and Stillwater National Bank and Trust Company (Stillwater) which required us to repurchase loans originated by them to our students after a certain period of time. Our recourse loan agreement with Stillwater was terminated on April 29, 2007. Our recourse loan agreement with Sallie Mae ended on March 31, 2008. Sallie Mae continues to offer its non-recourse products to our students but has made its underwriting criteria stricter.

Outstanding net recourse loan receivable balances for continuing operations as of June 30, 2010 and December 31, 2009 were \$3.6 million and \$8.5 million, respectively. These receivables are reported under non-current assets as a component of student receivables, net within the unaudited consolidated balance sheets.

8. GOODWILL

Changes in the carrying amount of goodwill for continuing operations for the six months ended June 30, 2010, are as follows by segment:

Edgar Filing: CAREER EDUCATION CORP - Form 10-Q

	University	Health Education	Culinary Arts (Dollars in thousands)	International	Transitional	Total
Goodwill balance as of December 31, 2009	\$ 120,192	\$ 136,610	\$ 75,148	\$ 45,565	\$	\$ 377,515
Acquisition of IUM				8,369		8,369
Effect of foreign currency exchange rate changes				(7,152)		(7,152)
Goodwill balance as of June 30, 2010	\$ 120,192	\$ 136,610	\$ 75,148	\$ 46,782	\$	\$ 378,732

Table of Contents

CAREER EDUCATION CORPORATION AND SUBSIDIARIES

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(In thousands, except per share amounts)

As a result of the realignment of our IADT schools, Harrington College of Design, Collins College and Brooks Institute into the University SBU as well as Briarcliffe College and Brown College into the Health Education SBU as of January 15, 2010, we reassigned the goodwill balances to each reporting unit in accordance with FASB ASC Topic 350 *Intangibles Goodwill and Other*.

Based upon our preliminary fair value allocation for the acquisition of IUM, we have recorded goodwill of approximately \$8.4 million.

9. COMMITMENTS AND CONTINGENCIES

Litigation

We are, or were, a party to the following legal proceedings that are outside the scope of ordinary routine litigation incidental to our business.

Student Litigation

Amador, et al. v. California Culinary Academy and Career Education Corporation; Adams, et al. v. California Culinary Academy and Career Education Corporation. On September 27, 2007, Allison Amador and 36 other current and former students of the California Culinary Academy (CCA) filed a complaint in the California Superior Court in San Francisco. Plaintiffs plead their original complaint as a putative class action and allege four causes of action: fraud; constructive fraud; violation of the California Unfair Competition Law; and violation of the California Consumer Legal Remedies Act. Plaintiffs contend that CCA made a variety of misrepresentations to them, primarily oral, during the admissions process. The alleged misrepresentations relate generally to the school's reputation, the value of the education, the competitiveness of the admissions process, and the students' employment prospects upon graduation, including the accuracy of statistics published by CCA.

On April 3, 2008, the same counsel representing plaintiffs in the Amador action filed the Adams action on behalf of Jennifer Adams and several other unnamed members of the Amador putative class. The Adams action also is styled as a class action and is based on the same allegations underlying the Amador action and attempts to plead the same four causes of action pled in the Amador action. The Adams action has been deemed related to the Amador action and is being handled by the same judge. The Adams action has been stayed.

Plaintiffs filed a Fourth Amended Complaint on or about March 19, 2010 alleging the same causes of action, but including new claims based on: (1) violations of the California Education Code, which was recently reinstated by the California legislature. The Company has filed a motion to dismiss these new claims. The motion is expected to be heard in August 2010.

The parties have conducted discovery, including discovery on class certification issues in the Amador action, but the Court has not yet set a briefing schedule or a hearing date on a motion for class certification. The parties have also been engaged in mediation sessions and settlement discussions regarding the Amador and Adams actions. These discussions are ongoing.

Lilley, et al. v. Career Education Corporation, et al. On February 11, 2008, a class action complaint was filed in the Circuit Court of Madison County, Illinois, naming as defendants Career Education Corporation and Sanford-Brown College, Inc. Plaintiffs filed an amended complaint on September 5, 2008. The five plaintiffs named in the amended complaint are current or former students who allegedly attended a medical assistant program at Sanford-Brown College located in Collinsville, Illinois, and the class is alleged to be all persons who

Table of Contents

CAREER EDUCATION CORPORATION AND SUBSIDIARIES

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(In thousands, except per share amounts)

enrolled in that program. The amended class action complaint asserts claims for unfair conduct and deceptive conduct under the Illinois Consumer Fraud and Deceptive Business Practices Act (the Act), as well as common law claims of fraudulent misrepresentation and fraudulent omission. The amended complaint alleges that defendants made misrepresentations and omissions relating to the quality of education, quantity of financial aid, fixed tuition, graduate employability and salaries and clinical externships. Plaintiffs seek unspecified compensatory and punitive damages.

Defendants filed a motion to dismiss Plaintiffs claims of unfair practices under the Act and fraudulent omission. By Order dated June 24, 2009, the Court granted Defendants motion to dismiss Plaintiffs fraudulent omission claim (Count IV of the Amended Complaint), and denied Defendants motion to dismiss Plaintiffs Illinois Consumer Fraud Act Claim. Defendants have filed answers and affirmative defenses in response to the amended complaint. The parties have exchanged written discovery and document production is underway. The case is set for a case management conference on August 25, 2010.

Schuster, et al. v. Western Culinary Institute, Ltd. and Career Education Corporation. On March 5, 2008, original named plaintiffs Shannon Gozzi and Megan Koehnen filed a complaint in Portland, Oregon in the Circuit Court of the State of Oregon in and for Multnomah County. Plaintiffs filed the complaint individually and as a putative class action and alleged two claims for equitable relief: violation of Oregon s Unlawful Trade Practices Act and unjust enrichment. Plaintiffs filed an amended complaint on April 10, 2008, which added two claims for money damages: fraud and breach of contract. Plaintiffs allege that Western Culinary Institute, Ltd. (WCI) made a variety of misrepresentations to them, relating generally to WCI s placement statistics, students employment prospects upon graduation from WCI, the value and quality of an education at WCI, and the amount of tuition students could expect to pay as compared to salaries they may earn after graduation. On May 21, 2008, plaintiffs filed a second amended complaint in which they simply changed the statement Claims Subject to Mandatory Arbitration on the caption to Claims *Not* Subject to Mandatory Arbitration (emphasis added). WCI and CEC filed an answer on June 13, 2008 and WCI subsequently moved to dismiss certain of plaintiffs claims under Oregon s Unlawful Trade Practices Act; that motion was granted on September 12, 2008. Shannon Gozzi subsequently withdrew as a named plaintiff and is now asserting claims merely as an absent class member, and former named plaintiff Meghan Koehnen s claims have been dismissed. Jennifer Schuster was then the sole named Plaintiff, and she filed a third amended complaint on November 20, 2008. Defendants filed an answer on December 5, 2008. Plaintiffs filed their most recent operative pleading, a fourth amended complaint, on September 2, 2009, and Defendants filed an answer on October 15, 2009. The parties completed written discovery on class issues. Plaintiffs filed their motion for class certification on August 31, 2009, and oral argument on the motion was heard on October 29, 2009. On February 5, 2010, the Court entered a formal Order granting class certification on part of the UTPA and fraud claims purportedly based on omissions, denying certification of the rest of those claims and denying certification of the breach of contract and unjust enrichment claims. On April 30, 2010, the Court addressed the issue of whether the class should include students who enrolled prior to March 5, 2006, provided that they were attending the school on or after March 6, 2006. Defendants argued that the class cannot include pre-March 6, 2006 enrollees (two years prior to the filing of the lawsuit, corresponding with the two year statute of limitations on the fraud claim) because of the individual questions associated with determining whether the statute of limitations may be tolled. The Court agreed with Defendants position and limited the class as Defendants suggested. Because Schuster was not a member of the certified class (she enrolled before March 5, 2006), Plaintiff s counsel is proposing to substitute in a new class representative for her named Nathan Surrectt. The parties are negotiating the terms of that potential substitution, allowing WCI the right to challenge whether the new class representative is adequate (with Plaintiff retaining the burden of proof on that issue). Class notice has not been sent due to the complications associated with the impending withdrawal of the named Plaintiff and potential substitution of a new plaintiff. The parties are

Table of Contents

CAREER EDUCATION CORPORATION AND SUBSIDIARIES

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(In thousands, except per share amounts)

currently engaged in merits discovery. The class will consist of students who enrolled at WCI between March 5, 2006 and March 1, 2010, excluding those who dropped out or were dismissed from the school for academic reasons.

Vasquez, et al. v. California School of Culinary Arts, Inc. and Career Education Corporation. On June 23, 2008, a putative class action lawsuit was filed in the Los Angeles County Superior Court entitled *Daniel Vasquez and Cherish Herndon v. California School of Culinary Arts, Inc. and Career Education Corporation*. The plaintiffs allege causes of action for fraud, constructive fraud, violation of the California Unfair Competition Law and violation of the California Consumer Legal Remedies Act. The plaintiffs allege improper conduct in connection with the admissions process during the alleged class period. The alleged class is defined as including all persons who purchased educational services from California School of Culinary Arts, Inc. (CSCA), or graduated from CSCA, within the limitations periods applicable to the herein alleged causes of action (including, without limitation, the period following the filing of the action). Defendants successfully demurred to the constructive fraud claim and the Court has dismissed it. The parties are engaged in class discovery. The Court has not yet set a briefing schedule or a hearing date on a motion for class certification.

Due to the inherent uncertainties of litigation, we cannot predict the ultimate outcome of these matters. An unfavorable outcome of any one or more of these matters could have a material adverse impact on our business, results of operations, cash flows, and financial position.

False Claims Act

False Claims Act Lawsuit. On July 28, 2009, we were served with a complaint filed in the U.S. District Court for the Northern District of Georgia, Atlanta Division. The complaint was originally filed under seal on July 14, 2008 by four former employees of the Dunwoody campus of our American InterContinental University on behalf of themselves and the federal government. The case is captioned *United States of America, ex rel. Melissa Simms Powell, et al. v. American InterContinental University, Inc., a Georgia Corporation, Career Education Corp., a Delaware Corporation and John Doe Nos. 1-100*.

On July 27, 2009, the Court ordered the complaint unsealed and we were notified that the U.S. Department of Justice declined to intervene in the action. When the federal government declines to intervene in a False Claims Act action, as it has done in this case, the private plaintiffs may elect to pursue the litigation on behalf of the federal government and, if they are successful, receive a portion of the federal government's recovery. The action alleges violations of the False Claims Act, 31 U.S.C. § 3729(a)(1) and (2), and promissory fraud, including allegedly providing false certifications to the federal government regarding compliance with certain provisions of the Higher Education Act and accreditation standards. On September 1, 2009, we timely filed a Motion to Dismiss all of the claims. It was denied by the Court in its Order of June 2, 2010. On June 16 and 17, 2010, we filed separate Motions for Reconsideration, for Certification for Interlocutory Appeal, and to Strike certain allegations in the complaint. Briefing on these Motions was completed on July 15, 2010. Discovery in the matter is stayed pending their resolution.

Other Litigation

In addition to the legal proceedings and other matters described above, we are also subject to a variety of other claims, suits, and investigations that arise from time to time in the ordinary conduct of our business, including, but not limited to, claims involving students or graduates and routine employment matters. While we currently believe that such claims, individually or in aggregate, will not have a material adverse impact on our

Table of Contents

CAREER EDUCATION CORPORATION AND SUBSIDIARIES

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(In thousands, except per share amounts)

financial position, cash flows, or results of operations, the litigation and other claims noted above are subject to inherent uncertainties, and management's view of these matters may change in the future. Were an unfavorable final outcome to occur in any one or more of these matters, there exists the possibility of a material adverse impact on our business, reputation, financial position, cash flows, and the results of operations for the period in which the effect becomes probable and reasonably estimable.

Accrediting Body and Federal Regulatory Matters

AIU's accrediting agency, the Higher Learning Commission of the North Central Association of Colleges and Schools (HLC), commissioned an advisory team to visit AIU in January 2010. The advisory team conducted a review of AIU, with particular focus on program integrity. Based on the results of its review, the HLC advisory team did not cite AIU for any violations of any HLC accreditation criteria, including but not limited to those related to program length and credit hours, and did not recommend any sanction or limitation on AIU's accreditation status. The advisory team recommended a focused visit for 2011 or 2012 to evaluate AIU's transition to a new undergraduate credit structure which was introduced in February 2010. All new undergraduate students starting at AIU are enrolled in programs with this new credit structure. The recommended focused visit will supersede the focused visit concerning credit equivalence previously scheduled for 2010.

In accordance with HLC policy, the advisory team's recommendation that HLC conduct a focused visit to evaluate AIU's transition to a new undergraduate structure was subject to review and approval by the HLC Institutional Actions Council (IAC) and validation by the HLC Board of Trustees. The advisory team's recommendation was approved by the IAC on June 14, 2010, and the decision of the IAC was validated by the HLC Board of Trustees on June 23, 2010. AIU's updated Statement of Affiliation Status and Organizational Profile were posted to the HLC's website on Friday, July 9, 2010.

In addition and as previously disclosed, in connection with HLC's initial accreditation of AIU in May 2009, AIU was required to submit a progress report to HLC relating to curricula design and AIU's graduate programs' student learning outcomes. AIU submitted the progress report to HLC in March 2010. Following its submission of the progress report, AIU was advised by the HLC staff that it had accepted AIU's report and that no further reporting on that subject would be required.

Due to their participation in Title IV programs, our schools and universities are subject to periodic program reviews by the U.S. Department of Education (ED) for the purpose of evaluating an institution's compliance with Title IV requirements, identifying any liabilities to the ED caused by errors in compliance, and improving future institutional capabilities.

As previously disclosed, the ED conducted a program review of AIU in November 2009. On July 14, 2010, AIU received a copy of the ED's Program Review Report, which is a preliminary report of the ED's findings from its program review. The Program Review Report identified six findings, two of which were deemed to be systemic findings by the ED's program review team. These two findings relate to AIU's policy for determining student attendance in online courses for purposes of determining such students' enrollment status, withdrawal dates and associated timing respecting the return of unearned Title IV funds. AIU disagrees with these two findings and intends to contest the program review team's proposed determination of what constitutes appropriate documentation or verification of online academic activity. The remaining findings were isolated and generally relate to processing errors. We believe the amounts involved in these four findings are immaterial. AIU has 90 days from its receipt of the Program Review Report to submit a response to the findings contained therein. After the ED receives AIU's response, it will issue a Final Program Review Determination letter that will specify any required corrective action and amounts owed to the ED, if any.

Table of Contents**CAREER EDUCATION CORPORATION AND SUBSIDIARIES****NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(In thousands, except per share amounts)**

In addition, an ED program review report for Gibbs College – Livingston, New Jersey (school closed) and final determination letters for Briarcliffe College and Katharine Gibbs School – New York, New York (school closed) are currently pending. The program review report and/or final determination letter will, generally, cover a school's main campus and any branch campuses. We are committed to resolving all issues identified in connection with these program reviews to the ED's satisfaction and ensuring that our schools operate in compliance with all ED regulations.

Our schools and universities are also subject to periodic audits by various regulatory bodies, including the U.S. Department of Education's Office of Inspector General (OIG). The OIG audit services division commenced a compliance audit of CTU in June 2010, covering the period July 1, 2009 to June 30, 2010, to determine whether CTU has policies and procedures to ensure that CTU administers Title IV and other federal program funds in accordance with applicable federal regulations. The OIG audit is ongoing.

While we believe that our schools operate in substantial compliance with applicable statutes and regulations, we cannot predict the outcome of these matters, and any unfavorable outcomes could have a material adverse effect on our business, results of operations, cash flows and financial position.

10. INCOME TAXES

The determination of the annual effective tax is based upon a number of significant estimates and judgments, including the estimated annual pretax income in each tax jurisdiction in which we operate and the ongoing development of tax planning strategies during the year. In addition, our provision for income taxes can be impacted by changes in tax rates or laws, the finalization of tax audits and reviews, as well as other factors that cannot be predicted with certainty. As such, there can be significant volatility in interim tax provisions.

The following is a summary of our income tax provision and effective tax rate for continuing operations (dollars in thousands):

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2010	2009	2010	2009
Pretax income	\$ 94,601	\$ 36,831	\$ 182,664	\$ 89,191
Provision for income taxes	\$ 29,430	\$ 13,258	\$ 61,538	\$ 31,725
Effective tax rate	31.1%	36.0%	33.7%	35.6%

The decrease in our effective tax rate for the three and six months ended June 30, 2010 as compared to the prior year was primarily due to the recording of a \$4.2 million tax benefit in the current quarter resulting from a recently closed federal tax audit for credits associated with curriculum development. Approximately \$0.5 million of this benefit applies to the first quarter 2010, \$1.4 million applies to 2009 and the remaining \$2.3 million applies to fiscal years 2006 – 2008. This tax credit reduced our effective tax rate by 4.5% and 2.3% for the three and six months ended June 30, 2010, respectively. In addition, the current year results include lower levels of both non-profit income and tax-exempt interest as a percentage of pretax income.

We estimate that it is reasonably possible that the liability for unrecognized tax benefits for a variety of uncertain tax positions will decrease by up to \$9.0 million in the next twelve months as a result of the completion of various tax audits currently in process and the expiration of the statute of limitations in several jurisdictions. The income tax rate for the three and six months ended June 30, 2010 does not take into account the possible

Table of Contents

CAREER EDUCATION CORPORATION AND SUBSIDIARIES

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(In thousands, except per share amounts)

reduction of the liability for unrecognized tax benefits. The impact of a reduction to the liability will be treated as a discrete item in the period the reduction occurs. We recognize interest and penalties related to unrecognized tax benefits in tax expense. As of June 30, 2010, we had accrued \$3.4 million as an estimate for reasonably possible interest and accrued penalties.

Our tax returns are routinely audited by federal, state and foreign tax authorities and these audits are at various stages of completion at any given time. The Internal Revenue Service completed its examination of our U.S. income tax returns through our tax year ending December 31, 2007.

11. STOCK REPURCHASE PROGRAM

During the three months ended June 30, 2010, we repurchased approximately 2.1 million shares of our common stock for approximately \$65.3 million at an average price of \$31.57 per share. During the six months ended June 30, 2010, we repurchased 5.4 million shares of our common stock for approximately \$155.0 million at an average price of \$28.56 per share.

As of June 30, 2010, approximately \$290.5 million was available under our authorized stock repurchase program to repurchase outstanding shares of our common stock. Stock repurchases under this program may be made on the open market or in privately negotiated transactions from time to time, depending on various factors, including market conditions and corporate and regulatory requirements. The stock repurchase program does not have an expiration date and may be suspended or discontinued at any time. The repurchase of shares of our common stock reduces the amount of cash available to pay cash dividends to our stockholders. We have never paid cash dividends on our common stock.

12. SHARE-BASED COMPENSATION

Overview of Share-Based Compensation Plans

On May 13, 2008, the stockholders of CEC approved the Career Education Corporation 2008 Incentive Compensation Plan (the 2008 Plan). The 2008 Plan authorizes awards of stock options, stock appreciation rights, restricted stock, restricted stock units, deferred stock, performance units, annual incentive awards, and substitute awards. Any shares of CEC common stock that are subject to awards of stock options or stock appreciation rights payable in shares will be counted as 1.0 share for each share granted for purposes of the aggregate share limit and any shares of CEC common stock that are subject to any other form of award will be counted as 1.67 shares for each share granted for purposes of the aggregate share limit. The 2008 Plan replaced our 1998 Employee Incentive Compensation Plan, as amended (the 1998 Employee Plan) and our 1998 Non-Employee Directors Stock Option Plan (the Directors Plan). As of June 30, 2010 there were approximately 5.7 million shares of common stock available for future share-based awards under the 2008 Plan.

As of June 30, 2010, we estimate that pretax compensation expense of \$26.7 million will be recognized over the next four years for all unvested share-based awards that have been granted to participants, including both stock options and shares of restricted stock. We expect to satisfy the exercise of stock options and future distribution of shares of restricted stock by issuing new shares of common stock or by using treasury shares.

Stock Options. The exercise price of stock options granted under each of the plans is equal to the fair market value of our common stock on the date of grant. Employee stock options generally become exercisable 25% per year over a four-year service period beginning on the date of grant and expire ten years after the date of grant, unless an earlier expiration date is set at the time of the grant. Non-employee directors stock options expire ten years after the date of grant and generally become exercisable as follows: one-third on the grant date,

Table of Contents**CAREER EDUCATION CORPORATION AND SUBSIDIARIES****NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(In thousands, except per share amounts)**

one-third on the first anniversary of the grant date, and one-third on the second anniversary of the grant date. Both employee stock options and non-employee director stock options are subject to possible earlier vesting and termination in certain circumstances. Generally, if a plan participant terminates his or her employment for any reason other than by death or disability during the vesting period, he or she forfeits the right to unvested stock option awards. Since the inception of the plans, grants of stock options have only been subject to the service conditions discussed previously. No stock option grants have included performance or market conditions or other factors that affect stock option vesting.

Stock option activity during the six months ended June 30, 2010, under all of our stock option plans was as follows (options in thousands):

	Options	Weighted Average Exercise Price
Outstanding as of December 31, 2009	3,213	\$ 28.30
Granted	627	29.53
Exercised	(40)	15.38
Forfeited		
Cancelled	(71)	38.19
Outstanding as of June 30, 2010	3,729	28.46
Exercisable as of June 30, 2010	2,484	\$ 30.39

Restricted Stock. Shares of restricted stock generally become vested either three years after the date of grant or 25% per year over a four-year service period beginning on the date of grant. Generally, if a plan participant terminates his or her employment for any reason other than by death or disability during the vesting period, he or she forfeits the right to the unvested shares of restricted stock. The vesting of shares of restricted stock is subject to possible acceleration in certain circumstances. Certain of the shares of restricted stock that we have granted to plan participants are subject to performance conditions that, even if the requisite service period is met, may reduce the number of shares of restricted stock that vest at the end of the requisite service period or result in all shares being forfeited. These awards are referred to as performance-based restricted stock.

The following table summarizes information with respect to all outstanding shares of restricted stock under our plans during the six months ended June 30, 2010 (shares in thousands):

	Shares	Weighted Average Grant-Date Fair Value Per Share
Outstanding as of December 31, 2009	1,708	\$ 20.46
Granted	1,031	29.02
Vested	(222)	29.32
Forfeited	(137)	22.12
Outstanding as of June 30, 2010	2,380	\$ 23.25

Change in Control Provisions

Edgar Filing: CAREER EDUCATION CORP - Form 10-Q

Each of the share-based awards granted under the 2008 Plan, the 1998 Employee Plan and the Directors' Plan, including stock options and shares of restricted stock, are subject to change in control provisions that accelerate vesting of outstanding equity awards under the plans under certain circumstances. As defined by these

Table of Contents

CAREER EDUCATION CORPORATION AND SUBSIDIARIES

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(In thousands, except per share amounts)

plans, a change in control generally is deemed to have occurred if, among other things, any corporation, person, or other entity (other than CEC, a majority-owned subsidiary of CEC or any of CEC's subsidiaries, or an employee benefit plan sponsored or maintained by CEC), including a group as defined in Section 13(d)(3) of the Exchange Act, becomes the beneficial owner of our common stock representing more than 20% under our 1998 Employee Plan and Directors' Plan, or 35% under our 2008 Plan, of the combined voting power of our then outstanding common stock. Under the 1998 Plans, accelerated vesting of outstanding awards occurs upon a change in control; under the 2008 Plan, which is a double-trigger plan, accelerated vesting occurs only when an award holder is terminated involuntarily not for cause within two years after a change in control of the Company.

On February 20, 2009, the Company entered into Option Extension and Amendment Agreements with its non-employee directors regarding outstanding option grants held by the Company's non-employee directors under the Directors' Plan and the 1998 Employee Plan, as applicable. These agreements amend such outstanding option grants to (i) increase the stock ownership threshold upon which a change in control is deemed to occur from twenty percent (20%) to thirty-five percent (35%) and (ii) amend all such outstanding option grants to extend the post-termination exercise period of such options to the earlier of (a) three (3) years following termination of service as a director of the Company, and (b) the original expiration date of the option, except in the case of termination of service as a director of the Company at a time when Cause, as defined in the 2008 Plan, exists. As a result of these agreements, all outstanding awards under the Directors' Plan are subject to the thirty-five percent (35%) stock ownership threshold at which a change in control is deemed to occur, rather than the twenty percent (20%) threshold specified in the Directors' Plan.

On February 20, 2009, the Company entered into Option and Restricted Stock Amendment Agreements with the Company's Section 16 reporting officers (each, an Officer) amending all outstanding Company options and restricted stock held by such Officers under the 1998 Employee Plan. These agreements amend such outstanding options and restricted stock awards to (i) increase the stock ownership threshold upon which a change in control is deemed to occur from twenty percent (20%) to thirty-five percent (35%) and (ii) provide that, upon any Officer's Termination of Employment by the Company without Cause, as such terms are defined in the 1998 Employee Plan, the options held by such Officer under the 1998 Employee Plan shall become fully exercisable and the shares of restricted stock held by such Officer under the 1998 Employee Plan shall become fully vested.

The amendments approved on February 20, 2009 represent modifications to the original equity awards and resulted in additional compensation expense of approximately \$0.5 million being recorded by the Company in 2009.

If any person or entity, including a group, beneficially owned 20% or more, of the combined voting power of our then outstanding common stock as of June 30, 2010, triggering the accelerated vesting provisions of our 1998 Employee Plan discussed above, we would have recognized accelerated share-based compensation expense of approximately \$1.9 million during the second quarter of 2010.

As of June 30, 2010, we are not aware of any person or entity, including a group, who beneficially owns 20% or more of the combined voting power of our outstanding common stock. As of June 30, 2010, no individual shareholder owned more than 19.7% of the combined voting power of our then outstanding common stock.

(In thousands, except per share amounts)

13. WEIGHTED AVERAGE COMMON SHARES

The weighted average numbers of common shares used to compute basic and diluted net income per share for the three and six months ended June 30, 2010 and 2009 were as follows (shares in thousands):

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2010	2009	2010	2009
Basic common shares outstanding	79,348	87,496	80,846	89,696
Common stock equivalents	1,111	337	1,041	377
Diluted common shares outstanding	80,459	87,833	81,887	90,073

During the three months ended June 30, 2010 and 2009, we issued less than 0.1 million shares, respectively, and during the six months ended June 30, 2010 and 2009, we issued less than 0.1 million shares, respectively, of our common stock upon the exercise of employee stock options and the purchase of common stock pursuant to our employee stock purchase plan.

Included in stock options outstanding as of June 30, 2010 and 2009, are options to purchase 2.3 million and 2.4 million shares, respectively, of our common stock that were not included in the computation of diluted net income per share during the three months ended June 30, 2010 and 2009. Included in stock options outstanding as of June 30, 2010 and 2009, are options to purchase 2.3 million and 2.5 million shares, respectively, of our common stock that were not included in the computation of diluted net income per share during the six months ended June 30, 2010 and 2009. These shares were excluded because the options' exercise prices were greater than the average market price of our common stock during the periods, and, therefore, the effect would have been anti-dilutive.

14. SEGMENT REPORTING

During the first quarter of 2010, we realigned our resources more effectively by integrating our schools which previously comprised our Art & Design SBU alongside AIU and CTU within the University SBU. Harrington College of Design, Collins College and Brooks Institute joined the IADT schools in the alignment of the Art & Design group into the University SBU. The realignment also shifted Brown College and Briarcliffe College into the Health Education SBU.

As a result of the realignment, the Company now has five reportable segments consisting of University, Health Education, Culinary Arts, International and Transitional schools.

University includes our AIU, CTU, IADT, Harrington College of Design, Collins College and Brooks Institute schools. These schools collectively offer regionally and nationally accredited academic programs in the career-oriented disciplines of business studies, visual communications and design technologies, film and video production, photography, health education, information technology, criminal justice, and education in an online, classroom or laboratory setting.

Health Education includes our Sanford-Brown schools, along with Brown College, Briarcliffe College, Missouri College and Gibbs College Boston, MA. These schools collectively offer academic programs in the career-oriented disciplines of health education, complemented by certain programs in business studies and information technology in a classroom, laboratory or online setting.

Table of Contents**CAREER EDUCATION CORPORATION AND SUBSIDIARIES****NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(In thousands, except per share amounts)**

Culinary Arts includes our LCB schools that collectively offer culinary arts programs in the career-oriented disciplines of culinary arts, baking and pastry arts, and hotel and restaurant management in a classroom, kitchen or online setting.

International includes our INSEEC schools, including IUM, and Istituto Marangoni schools located in France, Italy, the United Kingdom and Monaco, which collectively offer academic programs in the career-oriented disciplines of business studies, health education, fashion and design, visual communications and technologies and luxury goods and services in a classroom or laboratory setting.

Transitional Schools includes those schools that are currently being taught out. As of June 30, 2010, AIU - Los Angeles, CA is the only school included in Transitional Schools. We anticipate AIU-Los Angeles will complete its teach out by the fourth quarter 2010, and the results of its operations for all periods presented will be then reflected within Discontinued Operations.

Segment performance is evaluated by the Company and its chief operating decision maker based on operating income. Adjustments to reconcile segment results to unaudited consolidated results are included under the caption Corporate and other, which primarily includes unallocated corporate activity and eliminations.

Summary financial information by reportable segment is as follows (dollars in thousands):

	Revenue		Operating Income (Loss)	
	For the Three Months Ended June 30,		For the Three Months Ended June 30,	
	2010	2009	2010	2009

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The discussion below contains forward-looking statements, as defined in Section 21E of the Securities Exchange Act of 1934, as amended, that reflect our current expectations regarding our future growth, results of operations, cash flows, performance and business prospects, and opportunities, as well as assumptions made by, and information currently available to, our management. We have tried to identify forward-looking statements by using words such as anticipate, believe, plan, expect, intend, will, and similar expressions, but these words are not the exclusive means of identifying these forward-looking statements. These statements are based on information currently available to us and are subject to various risks, uncertainties, and other factors, including, but not limited to, those discussed in Part II, Item 1A Risk Factors in this Quarterly Report on Form 10-Q, that could cause our actual growth, results of operations, cash flows, performance, business prospects and opportunities to differ materially from those expressed in, or implied by, these statements. Except as expressly required by federal securities laws, we undertake no obligation to update such factors or to publicly announce the results of any of the forward-looking statements contained herein to reflect future events, developments, or changed circumstances, or for any other reason.

Overview

The colleges, schools and universities that are part of the Career Education Corporation (CEC) family offer high-quality education to a diverse student population of over 104,000 students across the world in a variety of career-oriented disciplines. The more than 90 campuses that serve these students are located throughout the U.S. and in France, Italy, the United Kingdom and Monaco, and offer doctoral, master's, bachelor's and associate degrees and diploma and certificate programs. Approximately 44% of our students attend the web-based virtual campuses of American InterContinental University, Colorado Technical University, International Academy of Design & Technology and Le Cordon Bleu College of Culinary Arts.

CEC is an industry leader whose brands are recognized globally. Those brands include, among others, American InterContinental University (AIU); Brooks Institute; Colorado Technical University (CTU); Harrington College of Design; INSEEC Group (INSEEC) Schools, including the International University of Monaco (IUM); International Academy of Design & Technology (IADT); Istituto Marangoni; Le Cordon Bleu North America (LCB); and Sanford-Brown Institutes and Colleges. Through our schools, CEC is committed to providing high-quality education, enabling students to graduate and pursue rewarding careers.

On January 15, 2010, we realigned our resources to more effectively execute our new strategic growth plan. We began the integration of our schools which previously comprised the Art & Design Strategic Business Unit (SBU) alongside AIU and CTU, within the University SBU. This realignment will facilitate synergies between the programs in Art & Design and University, especially in the areas of fashion design, merchandising and interior design and technology. It will also enable the sharing of student-focused online platforms and expertise and aid IADT as it pursues its longer-term strategy of regional accreditation. Harrington College of Design, Collins College and Brooks Institute joined the IADT schools in the alignment of the Art & Design group into the University SBU. The realignment also shifted Brown College and Briarcliffe College into the Health Education SBU. We expect Briarcliffe's regional accreditation to be beneficial in providing greater opportunity for Sanford-Brown students to enroll in higher degree programs. This realignment resulted in new reportable segments, and prior period results have been revised to reflect these new reportable segments. See Note 14 Segment Reporting of the notes to our unaudited consolidated financial statements for further discussion.

In addition to the realignment, we completed a detailed review of our shared service costs to determine which of these costs should be charged to the SBUs as well as how these shared service costs should be allocated. These services include legal, finance, human resources, marketing, certain academic functions and certain centralized activities related to student finance, including financial aid processing, student account posting and collections. These costs, recorded within Corporate and other, were previously allocated to our SBUs based upon a percentage of revenue. Improved data and analytical capabilities have provided us insight into costs being

Table of Contents

incurred to support the SBUs versus costs being incurred to support the corporation as a whole. The new methodology allocates costs based on usage and consumption factors such as student population, employee headcount, advertising spend, number of financial aid recipients and revenue where appropriate. In the case of certain services which are shared evenly across the SBUs, we allocate evenly. The new methodology is intended to provide improved transparency into the costs of the shared services. The effect of these changes impacts the costs reported within each SBU and reduces the level of unallocated shared service costs. Results beginning in 2010 are presented under the new methodology and prior period results have been revised to be comparable to the current reporting.

Our reportable segments are:

University includes our AIU, CTU, IADT, Harrington College of Design, Collins College and Brooks Institute schools. These schools collectively offer regionally and nationally accredited academic programs in the career-oriented disciplines of business studies, visual communications and design technologies, film and video production, photography, health education, information technology, criminal justice, and education in an online, classroom or laboratory setting.

Health Education includes our Sanford-Brown schools, along with Brown College, Briarcliffe College, Missouri College and Gibbs College Boston, MA. These schools collectively offer academic programs in the career-oriented disciplines of health education, complemented by certain programs in business studies and information technology in a classroom, laboratory or online setting.

Culinary Arts includes our LCB schools that collectively offer culinary arts programs in the career-oriented disciplines of culinary arts, baking and pastry arts, and hotel and restaurant management in a classroom, kitchen or online setting.

International includes our INSEEC schools, including IUM, and Istituto Marangoni schools located in France, Italy, the United Kingdom and Monaco, which collectively offer academic programs in the career-oriented disciplines of business studies, health education, fashion and design, visual communications and technologies and luxury goods and services in a classroom or laboratory setting.

Transitional Schools includes those schools that are currently being taught out. As of June 30, 2010, AIU Los Angeles, CA is the only school included in Transitional Schools. We anticipate AIU-Los Angeles will complete its teach out by the fourth quarter 2010, and the results of its operations for all periods presented will be then reflected within Discontinued Operations.

See Note 14 Segment Reporting of the notes to our unaudited consolidated financial statements for further discussion.

2010 Second Quarter Overview

During the second quarter 2010, we continued to focus on our strategic initiatives of leveraging our leading technology to grow online education offerings, increasing the number of students in our bachelor's and master's programs, further distinguishing our universities AIU and CTU, and continuing the expansion of our Health Education institutions to meet the high demand for skills in this sector. These initiatives each contributed to the 20.6% increase in revenue over the prior year quarter. We continue to invest in key areas such as preparing students for success in their chosen field or career as well as focus on student engagement in the process of life-long learning which will position us for long-term growth in student population.

Operating income increased 157.1% over the prior year quarter and operating margin increased by 960 basis points to 18.1% during the second quarter 2010 over the prior year quarter as we continued to gain operating leverage. Student population grew 23% over the prior year as second quarter new student starts increased by 18%. Through our continued commitment and dedication to student success, the Company has graduated nearly 480,000 students as of June 30, 2010.

Table of Contents

Also, during the second quarter 2010 the Company acquired for approximately \$6.3 million (plus assumption of \$4.3 million in loans which were immediately paid) the International University of Monaco (IUM), a leading international business university located in Monte Carlo with annual revenues of approximately \$4.5 million. IUM offers bachelor's, master's and doctoral programs in such areas as finance, international business and luxury goods and services. Its current enrollment includes nearly 400 students representing 62 countries. IUM joined the INSEEC group as the acquisition expands our European presence and positions INSEEC for continued growth as a leader in postsecondary education in Europe. IUM's operating results are included in our unaudited consolidated financial statements from the date of acquisition.

Our University segment grew student population by 18% in the second quarter, driven by strong new student starts in CTU and AIU. As a result, revenue increased approximately 19% compared to the prior year quarter and operating margins increased to approximately 27% from approximately 18%. New student starts grew 11% in the second quarter. IADT new student starts declined 36% over the prior year quarter due to changes in the academic calendar. This impact was more than offset by 26% new student start growth in CTU and 14% new student starts in AIU over the prior year quarter, driven by actions undertaken to optimize marketing channels and increase admissions effectiveness, which began positively impacting results in the third quarter 2009 and continued through the first half of 2010. The prior year quarter results reflected lower new student starts as the effectiveness of our admissions model initiated in 2008 had not reached the level we anticipated until the third quarter 2009. As a result, we expect both AIU and CTU new student start growth for the remainder of 2010 to be lower than the second quarter 2010 as we begin to compare against higher new student start growth rates from 2009.

As previously disclosed, AIU's accrediting agency, the Higher Learning Commission of the North Central Association of Colleges and Schools (HLC), commissioned an advisory team to visit AIU in January 2010. The advisory team conducted a comprehensive review of AIU, with particular focus on program integrity. Based on the results of its review, the HLC advisory team did not cite AIU for any violations of any HLC accreditation criteria, including but not limited to those related to program length and credit hours, and did not recommend any sanction or limitation on AIU's accreditation status. The advisory team recommended a focused visit for 2011 or 2012 to evaluate AIU's transition to a new undergraduate credit structure which was introduced in February 2010. All new undergraduate students starting at AIU are enrolled in programs with this new credit structure.

In accordance with HLC policy, the advisory team's recommendation that HLC conduct a focused visit to evaluate AIU's transition to a new undergraduate structure was subject to review and approval by the HLC Institutional Actions Council (IAC) and validation by the HLC Board of Trustees. The advisory team's recommendation was approved by the IAC on June 14, 2010, and the decision of the IAC was validated by the HLC Board of Trustees on June 23, 2010. AIU's updated Statement of Affiliation Status and Organizational Profile were posted to the HLC's website on Friday, July 9, 2010.

Throughout the quarter, we continued to experience significant growth in Health Education, which reported a 32% increase in new student starts as compared to the prior year quarter and a 25.0% revenue increase as compared to the prior year quarter. Operating income increased by \$4.4 million or approximately 61% as compared to the prior year quarter. In 2009, we opened eight new locations, seven of which were within Health Education, allowing us to expand the strong operating model and market opportunity of our Sanford-Brown Institutes and Colleges. In addition, we opened four new campuses within Health Education in 2010; SBC Hillside Hillside, IL and SBI Cranston Cranston, RI opened in the first quarter of 2010, and SBC Tinley Park Tinley Park, IL and SBC Indianapolis Indianapolis, IN opened in second quarter of 2010. We expect to open at least two new Health Education schools during the balance of the current year. These locations provide us with the opportunity to expand our presence in key locations in the U.S.

Within our international segment, both INSEEC and Istituto Marangoni continued to experience positive results. Revenue increased approximately 14% as compared to the prior year quarter, while operating income remained relatively flat compared to the prior year quarter. Excluding the \$2.8 million and \$0.8 million

Table of Contents

unfavorable impact of foreign currency exchange rates, revenue grew 24.7% and operating income grew 24.6% as compared to the prior year quarter, respectively. This revenue growth is attributable to strong student population growth at both institutions and strong student retention at INSEEC as well as revenue earned by IUM of \$1.4 million for the period of April 16, 2010 through June 30, 2010.

In the second quarter 2010, Culinary Arts increased new student starts by 21% resulting in a 34% increase in student population as compared to the prior year quarter. The increase in student population has driven a 25.0% increase in revenue for the second quarter 2010 as compared to the prior year quarter. Through leverage of existing cost structures, we were able to improve our operating margin by 17.6% to 13.4% in the current year quarter as compared to a loss in the prior year quarter. The increased revenue and operating cost efficiencies were offset by increased bad debt expense as a percentage of revenue over the prior year quarter. We continue to monitor the student payment practices of our payment plans to ensure adequacy of the allowance for doubtful accounts. Additionally, we believe the introduction of the 21-month Culinary Arts program that began its rollout in January 2009 along with our implementation of student support activities at each Culinary Arts campus, continues to help attract new students lost as a result of the severe contraction of the student loan market which occurred in the second quarter of 2008. By assisting our students throughout their entire course of study, including providing the opportunity for an additional year of Title IV funding with the decelerated 21-month program, we have improved the overall student experience and growth prospects of our culinary institutions.

Our acquisition of the outright rights to the LCB brand in North America in 2009 has allowed us to rebrand our existing Culinary Arts campuses with the LCB name resulting in efficiencies in our marketing campaigns, as we align our messages around this strong brand. Additionally, it solidified a core asset essential to the future growth of our Culinary Arts segment.

The results of operations for those campuses previously taught out or sold are reflected as a component of discontinued operations. Currently, we estimate 2010 charges totaling approximately \$9.0 million related to real estate actions resulting from the closure of our Transitional School, AIU Los Angeles, CA. The AIU Los Angeles, CA campus is the one remaining Transitional School, and it is scheduled to cease operations by the end of the fourth quarter 2010. See Note 5 Discontinued Operations of the notes to our unaudited consolidated financial statements for further discussion of our accounting for discontinued operations.

Effective January 19, 2010, we entered into a real estate lease for our new campus support center and portions of our AIU Online and CTU Online campuses in Schaumburg, Illinois. Consolidating our campus support center will reduce the number of our leased buildings and related square footage and allow us to maximize efficiencies and reduce overhead expenses. The lease for the new location results in a \$48.1 million real estate obligation through 2022. In addition, we intend to make capital improvements to our new campus support center totaling approximately \$52.0 million over the next two years, with the majority of the investment expected in 2010.

Industry Environment

We operate in a highly regulated industry subject to changes in government regulations as well as changes in academic accreditation agencies and state education regulatory authorities. We have instituted systems, processes and programs in all of our schools to ensure substantial compliance with all regulations. Some recent changes proposed by the U.S. Department of Education (ED) may impact several key areas related to Title IV Program funding within the industry.

On June 18, 2010, the ED issued a Notice of Proposed Rulemaking (NPRM) following a year-long negotiated rulemaking process between the ED and the higher education community on 14 program integrity issues that include lender and general student loan issues, accreditation, discretionary grants, general and non-loan programmatic issues, safe harbors under incentive compensation rules for admissions recruiters, and program integrity in the Title IV Programs through the rulemaking process under HEA.

Table of Contents

The June 18, 2010 NPRM addressed 13 of 14 program integrity issues in their entirety and partially addressed the 14th issue, which involves the definition of gainful employment; the ED issued a separate NPRM on gainful employment metrics on July 26, 2010. Public comment is due on the June 18, 2010 NPRM no later than August 2, 2010 and for the July 26, 2010 NPRM is due 45 days from the date of publication. The ED has stated that it intends to review all comments it receives with the goal of publishing a final rule by November 1, 2010 that would take effect beginning July 2011.

As proposed, these NPRMs could materially and adversely affect our business. Among the most significant of the proposed rules for our business are:

the elimination of 12 safe harbors that had allowed, under limited circumstances, payment of incentive compensation to employees involved in student enrollment, certain recruiting, admissions or financial aid activities;

establishing a definition of gainful employment for purposes of the foundational requirement for Title IV student financial aid that a program of study prepare students for gainful employment in a recognized occupation;

linking the definition of gainful employment with a two-part test: measuring the relationship between the debt students incur and their incomes after program completion; and measuring the rate at which all enrollees, regardless of completion, repay their loans on time;

defining a credit hour for purposes of determining program eligibility for Title IV student financial aid; and

significantly broadening institutional liability for substantial misrepresentation that would, among other things, subject institutions to sanctions for statements containing inadvertent errors and for statements made to non-students, including any member of the public, impose vicarious liability on institutions for the conduct of others, and expose institutions to third-party litigation and encourage private rights of action.

We cannot predict the outcome of this rulemaking process at this time, or predict with certainty the impact of any new regulations on our operations. These rules could affect the manner in which we conduct our business and compliance with these rules, which if adopted could be effective as early as July 1, 2011, could have a material adverse effect on our business, financial condition, results of operations and cash flows.

Table of Contents**CONSOLIDATED RESULTS**

The summary of selected financial data table below should be referenced in connection with a review of the following discussion of our results of operations for the three months ended June 30, 2010 and 2009.

	For the Three Months Ended June 30,				% Change
	2010	% of Total Revenue	2009 (Dollars in thousands)	% of Total Revenue	2010 vs. 2009
TOTAL REVENUE	\$ 527,872		\$ 437,673		20.6%
OPERATING EXPENSES					
Educational services and facilities	158,018	29.9%	148,461	33.9%	6.4%
General and administrative:					
Advertising	74,563	14.1%	72,049	16.5%	3.5%
Admissions	54,874	10.4%	47,646	10.9%	15.2%
Administrative	108,280	20.5%	101,053	23.1%	7.2%
Bad debt	19,549	3.7%	14,986	3.4%	30.4%
Total general and administrative expense	257,266	48.7%	235,734	53.9%	9.1%
Depreciation and amortization	17,217	3.3%	16,390	3.7%	5.0%
OPERATING INCOME	95,371	18.1%	37,088	8.5%	157.1%
PRETAX INCOME	94,601	17.9%	36,831	8.4%	156.9%
PROVISION FOR INCOME TAXES	29,430	5.6%	13,258	3.0%	122.0%
<i>Effective tax rate</i>	31.1%		36.0%		
INCOME FROM CONTINUING OPERATIONS	\$ 65,171	12.3%	\$ 23,573	5.4%	176.5%
LOSS FROM DISCONTINUED OPERATIONS, net of tax	(853)	-0.2%	(17,083)	-3.9%	-95.0%
NET INCOME	\$ 64,318	12.2%	\$ 6,490	1.5%	891.0%

Educational services and facilities expense includes costs directly attributable to the educational activities of our schools, including, among other things, (1) salaries and benefits of faculty, academic administrators, and student support personnel, (2) costs of educational supplies and facilities, including rents on school leases, certain costs of establishing and maintaining computer laboratories, costs of student housing, and owned and leased facility costs, (3) royalty fees paid to Le Cordon Bleu Limited through August 2009, and (4) certain student financing costs. Also included in educational services and facilities expense are costs of other goods and services provided by our schools, including, among other things, costs of textbooks, laptop computers, dormitory services, restaurant services, contract training and cafeteria services.

General and administrative expense includes salaries and benefits of personnel in corporate and school administration, marketing, admissions, financial aid, accounting, human resources, legal and compliance. Costs of promotion and development, advertising and production of marketing materials, occupancy of the corporate offices and bad debt expense are also included in this expense category.

Three Months Ended June 30, 2010 as Compared to Three Months Ended June 30, 2009**Revenue**

Total revenue increased \$90.2 million, or 20.6% as compared to the prior year quarter, driven by revenue growth in all of our operating segments: University, Health Education, Culinary Arts and International. The overall increase in revenue is due to a 23% increase in student

Edgar Filing: CAREER EDUCATION CORP - Form 10-Q

population resulting from an 18% increase in new student starts for the second quarter 2010 as well as strong student population at the beginning of the period. The

Table of Contents

increase in International's revenue as compared to the prior year quarter was negatively impacted by a \$2.8 million unfavorable impact of foreign currency exchange rates which was partially offset with increased revenue related to IUM of approximately \$1.4 million.

Educational Services and Facilities Expense

Educational services and facilities expense increased \$9.6 million, or 6.4% as compared to the prior year quarter. The increase is mainly a result of an increase in academics expense, as University, Health Education and International invested in the expansion and support of academic functions in order to support the growing student population. As a percentage of revenue, educational services and facilities decreased 4.0% as compared to the prior year quarter as University, Health Education and Culinary Arts continue to closely monitor academic costs.

General and Administrative Expense

General and administrative expense increased \$21.5 million, or 9.1% as compared to the prior year quarter driven by increases in our overall student population. As a percentage of revenue, expenses declined as we continue to leverage our existing infrastructure. Advertising expense decreased 2.4% as a percentage of revenue quarter over quarter, driven by continued focus on cost effectiveness in key acquisition channels. The \$7.2 million increase in each of the categories of admissions expense and administrative expense was driven by the expansion of student population.

Bad debt expense incurred by each of our reportable segments during the quarters ended June 30, 2010 and 2009 was as follows (dollars in thousands):

	For the Three Months Ended June 30,			
	2010	As a % of Segment Revenue	2009	As a % of Segment Revenue
Bad debt expense by segment:				
University	\$ 6,567	2.2%	\$ 5,611	2.2%
Health Education	2,868	2.7%	2,441	2.8%
Culinary Arts	9,684	10.4%	6,799	9.2%
International	175	0.6%	240	0.9%
Transitional Schools	(9)	-6.8%	10	1.2%
Subtotal	19,285		15,101	
Corporate and other	264	N/A	(115)	N/A
Total bad debt expense	19,549	3.7%	\$ 14,986	3.4%

Bad debt expense increased approximately \$4.6 million as compared to the prior year quarter, primarily within Culinary Arts, as student receivable balances continued to grow as a result of our extended payment plans offered to certain students. These payment plans have lower in-school payments and are generally paid back over a seven-year period following graduation. The 1.2% increase as a percent of revenue quarter over quarter for Culinary Arts is primarily due to an increase in reserve rates in 2010 related to those students who do not complete the program. During its regular course of operations, the Company continues to review and assess the appropriateness of the reserves established for its current student receivable balances.

Operating Income

Operating income increased \$58.3 million, or approximately 157% as compared to the prior year quarter, as we experienced increased profitability across University, Culinary Arts and Health Education. The overall 23% increase in student population as well as continued focus on gaining cost efficiencies which resulted in a decrease in a majority of expense categories as a percent of revenue, have contributed to a 9.6% increase in operating income as a percent of revenue over the prior year quarter. International's operating income was negatively impacted by \$0.8 million of unfavorable impact of foreign currency exchange rates.

Table of Contents**Provision for Income Taxes**

Our consolidated effective income tax rate for continuing operations was 31.1% for the three months ended June 30, 2010 and 36.0% for the three months ended June 30, 2009. The decrease in our effective tax rate for the three months ended June 30, 2010 as compared to the prior year quarter was primarily due to the recording of a \$4.2 million tax benefit in the current quarter resulting from a recently closed federal tax audit for credits associated with curriculum development. Approximately \$0.5 million of this benefit applies to the first quarter 2010, \$1.4 million applies to 2009 and the remaining \$2.3 million applies to fiscal years 2006 – 2008. This tax credit reduced our effective tax rate by 4.5% for the three months ended June 30, 2010. In addition, the current quarter results include lower levels of both non-profit income and tax-exempt interest as a percentage of pretax income.

Loss from Discontinued Operations

The results of operations for schools that have ceased operations or were sold are presented within discontinued operations. As the last campus within Transitional Schools ceases operations by the end of the fourth quarter of 2010, we will reclassify its results of operations for all periods presented to discontinued operations. See Note 5 – Discontinued Operations of the notes to our unaudited consolidated financial statements for further discussion of our discontinued operations.

Six Months Ended June 30, 2010 as Compared to Six Months Ended June 30, 2009

	For the Six Months Ended June 30,				% Change
	2010	% of Total Revenue	2009	% of Total Revenue	2010 vs. 2009
	(Dollars in thousands)

NET INCOME	\$ 119,540	11.3%	\$ 29,747	3.4%	301.9%

Revenue

Total revenue increased \$187.0 million, or 21.5% from the prior year driven by increased revenue in all operating segments: University, Health Education, Culinary Arts and International. The overall increase in

Table of Contents

revenue is due to a 23% increase in student population resulting from a 25% increase in new student starts over the prior year to date. The increase in International's revenue as compared to the prior year also benefitted from an increase in revenue of \$1.4 million for IUM.

Educational Services and Facilities Expense

Educational services and facilities expense increased \$23.2 million, or 7.9% as compared to the prior year to date. The increase is mainly a result of an increase in academics expense, as University, Health Education and International invested in the expansion and support of academic functions in order to support the growing student population. As a percentage of revenue, educational services and facilities decreased approximately 3.8% as compared to the prior year to date, primarily due to higher utilization of our existing real estate and close monitoring of academic costs.

General and Administrative Expense

General and administrative expense increased \$67.2 million, or 14.8% as compared to the prior year to date driven by increases in our overall student population. As a percentage of revenue, expenses declined as we continue to leverage our existing infrastructure. The \$18.9 million and \$18.4 million increases in administrative expense and admissions expense, respectively, were driven by the expansion of student population. The \$8.8 million increase in advertising expense as compared to the prior year to date was driven by increased spending within University and Health Education, as we continued to experience strong levels of student interest.

Bad debt expense incurred by each of our reportable segments during the six months ended June 30, 2010 and 2009 was as follows (dollars in thousands):

		For the Six Months Ended June 30,		
	2010	As a % of Segment Revenue	2009	As a % of Segment Revenue
Bad debt expense by segment:				
University	\$ 13,723	2.3%	\$ 10,054	2.1%
Health Education	4,962	2.3%	2,711	1.6%
Culinary Arts	22,145	11.9%	11,798	7.9%
International	350	0.5%	556	0.9%
Transitional Schools	(2)	-0.5%	12	0.6%
Subtotal	41,178		25,131	
Corporate and other	4,753	N/A	(211)	N/A
Total bad debt expense	\$ 45,931	4.3%	\$ 24,920	2.9%

Bad debt expense increased approximately \$21.0 million as compared to the prior year to date, primarily within Culinary Arts, as student receivable balances continued to grow as a result of our extended payment plans offered to certain students. These payment plans have lower in-school payments and are generally paid back over a seven-year period following graduation. In addition, during the first quarter of 2010, the Company increased its allowance for doubtful accounts associated with certain extended payment plan programs by \$8.1 million. This increase resulted from lower repayment history experienced on these programs. Of the \$8.1 million pretax expense, \$4.1 million, reflected within Corporate and other, was related to our previously terminated recourse loan program. During its regular course of operations, the Company continues to review and assess the appropriateness of the reserves established for its current receivable balances.

Operating Income

Operating income increased \$95.1 million, or approximately 108% as compared to the prior year to date, as we experienced increased profitability across the majority of our reporting segments. The increase in revenue from the growth in student population more than offset the increases in operating expenses to sustain this continuing growth.

Table of Contents**Provision for Income Taxes**

Our consolidated effective income tax rate for continuing operations was 33.7% for the six months ended June 30, 2010, as compared to 35.6% for the six months ended June 30, 2009. The decrease in our effective tax rate for the six months ended June 30, 2010 as compared to the prior year to date was primarily due to the recording of a \$4.2 million tax benefit in the current quarter. This tax credit reduced our effective tax rate by 2.3% for the six months ended June 30, 2010. In addition, the current year results include lower levels of both non-profit income and tax-exempt interest as a percentage of pretax income.

Loss from Discontinued Operations

The results of operations for schools that have ceased operations or were sold are presented within discontinued operations. As the last campus within Transitional Schools ceases operations by the end of the fourth quarter of 2010, we will reclassify its results of operations for all periods presented to discontinued operations. See Note 5 Discontinued Operations of the notes to our unaudited consolidated financial statements for further discussion of our discontinued operations.

SEGMENT RESULTS**Three Months Ended June 30, 2010 as Compared to Three Months Ended June 30, 2009**

The following tables set forth unaudited historical segment results for the periods presented. Results for the prior years have been reclassified to be comparable to the current year presentation.

For the Three Months Ended June 30, (Dollars in thousands)							
	REVENUE		% Change	OPERATING INCOME (LOSS)		OPERATING MARGIN (LOSS)

Table of Contents

University s operating results for the three months ended June 30, 2010 and 2009 are as follows (dollars in thousands):

	2010	Revenue 2009	% Change	Operating Income 2010	Operating Income 2009	Operating Margin 2010	Operating Margin 2009
AIU	\$ 120,037	\$ 104,199	15.2%	\$ 40,004	\$ 25,196	33.3%	24.2%
CTU	114,769	87,121	31.7%	32,458	16,544	28.3%	19.0%
Art & Design	62,301	58,759	6.0%	7,001	4,140	11.2%	7.0%
Total University	\$ 297,107	\$ 250,079	18.8%	\$ 79,463	\$ 45,880	26.7%	18.3%

Current quarter revenue increased \$47.0 million, or 18.8% compared to the prior year quarter, driven by increased student population of 18%. Strong new student start growth of 26% and 14% for CTU and AIU, respectively, is driven by optimization of marketing channels and improved admissions operations which began in the second half of 2009 and continued through the current year quarter.

Current quarter operating income increased by \$33.6 million, and operating margin increased from 18.3% to 26.7% as compared to the prior year quarter, as increases in revenue more than offset higher levels of operating expenses to support our growing student population and effectively manage the recruitment of new students.

Health Education. Current quarter revenue increased \$21.6 million, or 25.0% as compared to the prior year quarter. The increase in revenue is due to an increase in student population of 31% resulting from a 32% increase in new student starts quarter over quarter and strong student population at the beginning of the period.

Health Education increased its operating income by \$4.4 million, or 60.7% as compared to the prior year quarter, as we continue to leverage our existing infrastructure.

We continue to focus on increasing our geographic presence within Health Education by starting up new campuses. Seven new campuses were started within Health Education in 2009, with two of these campuses being conversions of existing Transitional Schools which were expected to close in 2009. In addition, we opened four new campuses within Health Education in 2010; SBC Hillside Hillside, IL and SBI Cranston Cranston, RI opened in the first quarter of 2010, and SBC Tinley Park Tinley Park, IL and SBC Indianapolis Indianapolis, IN opened in second quarter of 2010. We expect to open at least two new Health Education schools during the balance of the current year. Of these thirteen campuses, eleven are considered to be start-up campuses because they are either not yet instructing students or they have been instructing students for less than one year. Excluding start-up campuses, revenue increased approximately \$17.3 million, or 20.2% as compared to the prior year quarter. Operating income increased by \$8.8 million, or approximately 95%, and the operating margin grew from 10.8% to 17.5%, as compared to the prior year quarter excluding the results of the start-up campuses.

Culinary Arts. Current quarter revenue increased \$18.6 million, or 25.0% as compared to the prior year quarter. This increase was due to an increase in student population resulting from a strong student population at the beginning of the current year quarter and growth of 21% in new student starts, as compared to the prior year quarter. The 21-month Culinary Arts program that began its rollout in the first quarter of 2009 along with the continued offering of extended payment plans to assist our students in financing their education, both attributed to the increase in revenue and student population.

Culinary Arts current quarter operating income increased \$15.5 million as compared to the prior year quarter, and operating margin increased to 13.4% from an operating loss in the prior year quarter. Academics expense decreased 10.5% compared to the prior year quarter as Culinary Arts continued to focus its efforts on improving productivity and operating leverage. The decrease in academics expense was offset with an increase in bad debt expense resulting from the increase in student receivable balances and bad debt reserve rates for those students utilizing extended payment plans to finance their education. The bad debt reserve rates are continually reviewed for appropriateness based upon updated historical data as it becomes available.

Table of Contents

International. Current quarter revenue increased \$3.7 million, or 14.1% as compared to the prior year quarter. The increase was driven by a strong student population at the beginning of the period compared to prior year quarter, strong student retention and increased revenue of \$1.4 million related to IUM. Excluding a \$2.8 million unfavorable impact of foreign currency exchange rates, revenues would have increased 24.7%.

Operating income slightly decreased as compared to the prior year quarter, primarily driven by \$0.8 million of unfavorable foreign currency exchange rates. Excluding foreign currency exchange rate effects, operating income would have increased 24.6% as compared to the prior year quarter.

Transitional Schools. Current quarter revenue declined as compared to the prior year quarter due to the school no longer enrolling students. We expect revenue to continue to decline as AIU Los Angeles, CA continues to wind down its operations. Operating loss within Transitional Schools increased slightly as compared to the prior year quarter.

Corporate and other. This category includes unallocated costs that are incurred on behalf of the entire Company. Corporate and other costs decreased \$5.0 million, or 34.1% as compared to the prior year quarter primarily due to the prior year quarterly results including \$3.6 million of additional share-based compensation expense related to an adjustment to forfeiture rates and estimated attainment of performance metrics for equity awards.

Six Months Ended June 30, 2010 as Compared to Six Months Ended June 30, 2009

The following tables set forth unaudited historical segment results for the periods presented. Results for the prior years have been reclassified to be comparable to the current year presentation.

Table of Contents

University s operating results for the six months ended June 30, 2010 and 2009 are as follows (dollars in thousands):

	2010	Revenue 2009	% Change	Operating Income		Operating Margin	
				2010	2009	2010	2009
AIU	\$ 236,815	\$ 202,092	17.2%	\$ 72,802	\$ 45,809	30.7%	22.7%
CTU	225,768	170,252	32.6%	61,864	32,980	27.4%	19.4%
Art & Design	125,188	116,674	7.3%	13,505	9,579	10.8%	8.2%
Total University	\$ 587,771	\$ 489,018	20.2%	\$ 148,171	\$ 88,368	25.2%	18.1%

Our University segment grew student population by 18% as compared to the prior year to date, driven by strong new student demand in CTU and AIU. As a result, revenue increased more than 20% as compared to the prior year to date. We experienced lower new student starts in the prior year to date as the effectiveness of our admissions model that was initiated in 2008 had not reached the level we anticipated in the six months ended June 30, 2009. Our marketing and admissions team collectively identified opportunities to increase the effectiveness of the admissions and marketing process, and we began to see the positive results in the second half of 2009 and continuing into the current year to date.

Current year operating income increased by \$59.8 million, and operating margin increased from 18.1% to 25.2% as compared to the prior year to date, as increases in revenue more than offset higher levels of operating expenses to support our growing student population and effectively manage the recruitment of new students.

Health Education. Current year revenue increased \$42.3 million, or 25.0% as compared to the prior year to date. The increase in revenue is due to an increase in student population resulting from a 35% increase in new student starts and strong student population at the beginning of the period.

Health Education increased its operating income by \$5.6 million, or 32.9% as compared to the prior year to date, as the increase in revenue more than offset increases in operating expenses.

We continue to focus on increasing our geographic presence within Health Education by starting up new campuses. Seven new campuses were started within Health Education in 2009, with two of these campuses being conversions of existing Transitional Schools which were expected to close in 2009. In addition, we opened four new campuses within Health Education in 2010; SBC Hillside Hillside, IL and SBI Cranston Cranston, RI opened in the first quarter of 2010, and SBC Tinley Park Tinley Park, IL and SBC Indianapolis Indianapolis, IN opened in second quarter of 2010. We expect to open at least two new Health Education schools during the balance of the current year. Of these thirteen campuses, eleven are considered to be start-up campuses because they are either not yet instructing students or they have been instructing students for less than one year. Excluding start-up campuses, revenue increased approximately \$37.0 million, or 22.1% as compared to the prior year. Operating income increased by \$15.7 million, or approximately 79%, and the operating margin grew from 11.8% to 17.4%, as compared to the prior year to date excluding the results of the start-up campuses.

Culinary Arts. Current year to date revenue increased \$36.1 million, or 24.1% as compared to the prior year to date. This increase was due to an increase in student population resulting from a strong student population at the beginning of the current year and growth of 29% in new student starts, as compared to the prior year. The 21-month Culinary Arts program that began its rollout in the first quarter of 2009, along with the continued offering of extended payment plans to assist our students in financing their education, both attributed to the increase in revenue and student population.

Culinary Arts current year operating income increased \$24.8 million as compared to the prior year, and operating margin increased to 11.1% from an operating loss in the prior year to date. The increase in revenue and decrease in certain operating expenses, including academics expense, more than offset the higher bad debt

Table of Contents

expense resulting from the increase in student receivable balances and bad debt reserve rates for those students utilizing extended payment plans to finance their education. The bad debt reserve rates are continually reviewed for appropriateness based upon updated historical data as it becomes available.

International. Current year to date revenue increased \$11.5 million, or 19.0% as compared to the prior year to date. The increase was driven by an increase in student population at the beginning of the period over the prior year to date, strong student retention and increased revenue of \$1.4 million related to IUM.

Operating income increased \$2.0 million, or 13.7% as compared to the prior year to date, as the increase in revenue more than offset higher academic costs related to the support of the growing student population.

Transitional Schools. Current year revenue declined as compared to the prior year due to the school no longer enrolling students. We expect revenue to continue to decline as AIU – Los Angeles, CA continues to wind down its operations. Operating loss within Transitional Schools increased slightly as compared to the prior year.

Corporate and other. This category includes unallocated costs that are incurred on behalf of the entire Company. Corporate and other costs decreased \$3.1 million, or 12.6% as compared to the prior year primarily due to prior year to date results including \$3.6 million of additional share-based compensation expense related to an adjustment to forfeiture rates and estimated attainment of performance metrics for equity awards along with a current year to date reduction in operating expenses due to cost efficiencies which more than offset the \$4.1 million of bad debt expense incurred during the six month ending June 30, 2010 from our previously terminated recourse loan program.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ESTIMATES

A detailed discussion of the accounting policies and estimates that we believe are most critical to our financial condition and results of operations and that require management's most subjective and complex judgments in estimating the effect of inherent uncertainties is included under the caption "Summary of Significant Accounting Policies and Estimates" included in Management's Discussion and Analysis of Financial Condition and Results of Operations of our Annual Report on Form 10-K for the year ended December 31, 2009. Note 2 "Significant Accounting Policies" of the notes to our consolidated financial statements of our Annual Report on Form 10-K for the year ended December 31, 2009, also includes a discussion of these and other significant accounting policies.

LIQUIDITY, FINANCIAL POSITION, AND CAPITAL RESOURCES

As of June 30, 2010, cash, cash equivalents, and short-term investments totaled \$312.7 million. Our cash flows from operations have historically been adequate to fulfill our liquidity requirements. We finance our operating activities and our organic growth primarily through cash generated from operations. We finance acquisitions primarily through funding from credit facility borrowings and cash generated from operations. We anticipate that we will be able to satisfy the cash requirements associated with, among other things, our working capital needs, capital expenditures, and lease commitments through at least the next 12 months primarily with cash generated by operations, existing cash balances, and, if necessary, borrowings under our existing credit agreement.

The ED requires that Title IV Program funds collected in advance of student billings be kept in a separate cash account until students are billed for the portion of their program related to those Title IV Program funds. The ED further requires that Title IV Program funds be disbursed to students within three business days of receipt. We do not recognize restricted cash balances on our unaudited consolidated balance sheet until all restrictions have lapsed with respect to those balances. As of June 30, 2010 and December 31, 2009, the amount of restricted cash balances recorded in separate cash accounts was not significant. Also included in cash and cash equivalents within our unaudited consolidated balance sheets are amounts related to certain of our European campuses that are operated as not-for-profit schools. The cash and cash equivalents related to these schools have

Table of Contents

restrictions which require that the funds be utilized for these particular not-for-profit schools. The amount of not-for-profit cash and cash equivalents with restrictions was \$35.4 million and \$49.9 million at June 30, 2010 and December 31, 2009, respectively. Restrictions on these cash balances have not affected, nor do we believe that such restrictions will affect, our ability to fund our daily operations.

Sources and Uses of Cash

Operating Cash Flows

During the six months ended June 30, 2010 and 2009, net cash flows provided by operating activities totaled \$47.9 million and \$51.7 million, respectively.

Our primary source of cash flows from operating activities is tuition collected from our students. Our students finance tuition costs through the use of a variety of funding sources, including, among others, federal loan and grant programs, state grant programs, private loans and grants, school payment plans, private and institutional scholarships and cash payments. For the six months ended June 30, 2010 and 2009, approximately 82% and 80%, respectively, of our U.S. schools' cash receipts from tuition payments come from Title IV Program funding. The total Title IV Program funding as a percentage of total tuition receipts was not computed on the same basis on which our 90-10 Rule ratios are computed. In accordance with applicable regulations, certain tuition receipts included in the totals above were excluded from our 90-10 Rule ratio calculations.

For further discussion of Title IV Program funding and alternative private loan funding sources for our students, see "Student Financial Aid" and "Alternative Student Financial Aid Sources" in Part I, Item 1 "Business" in our 2009 Annual Report on Form 10-K.

Our primary uses of cash to support our operating activities include, among other things, cash paid to employees for services, to vendors for products and services, to lessors for rents and operating costs related to leased facilities, to suppliers for textbooks and other school supplies, and to federal, state, and local governments for income and other taxes.

Although we anticipate that we will be able to satisfy cash requirements for working capital needs, capital expenditures, and commitments through at least the next year primarily with cash generated by our operations, existing cash balances and, if necessary, borrowings under our existing credit agreement, we are not able to assess the effect of loss contingencies on future cash requirements and liquidity. See Note 9 "Commitments and Contingencies" of the notes to our unaudited consolidated financial statements for additional discussion of these matters.

Investing Cash Flows

During the six months ended June 30, 2010, net cash flows used in investing activities totaled \$19.9 million compared to net cash flows provided by investing activities of \$84.7 million for the six months ended June 30, 2009. The increase in the cash outflows attributed to investing activities was primarily due to lower sales of available-for-sale investments, net as compared to the prior year to date.

Capital Expenditures. Capital expenditures increased \$13.0 million, or 43.2%, from \$30.1 million during the six months ended June 30, 2009, to \$43.2 million during the six months ended June 30, 2010. Capital expenditures represented 4.1% and 3.4%, respectively, of total revenue from continuing and discontinued operations during the six months ended June 30, 2010 and 2009, respectively. Capital expenditures continued to grow in 2010 due to the increased investment in start-up campuses as well as the investment in our new campus support center.

Acquisition of International University of Monaco. On April 15, 2010, we acquired 100% of the issued and outstanding stock of International University of Monaco for approximately \$6.2 million, excluding acquired cash balances of approximately \$0.1 million. The purchase price was funded with cash generated from operating activities.

Table of Contents

Earnout Payments. Effective August 31, 2009, we acquired the outright rights to the Le Cordon Bleu brand in the education services field for the U.S. and Canada. The purchase price for the brand rights consisted of \$25.0 million in cash funded from operations, 3.0 million shares of CEC common stock valued at \$71.3 million as of the closing date and an estimated \$33.2 million of earnout payments over a 20-month period as of June 30, 2010. As of June 30, 2010, we have made approximately \$9.8 million in earnout payments since acquisition of the brand.

Purchases and Sales of Available-for-Sale Investments. Purchases and sales of available-for-sale investments resulted in a net cash inflow of \$37.9 million and \$115.2 million during the six months ended June 30, 2010 and 2009, respectively.

Financing Cash Flows

During the six months ended June 30, 2010 and 2009, net cash flows used in financing activities totaled \$157.7 million and \$138.0 million, respectively.

Credit Agreement. As of June 30, 2010, we had no outstanding debt under our U.S. Credit Agreement and letters of credit totaling approximately \$8.8 million. The credit availability under our U.S. Credit Agreement as of June 30, 2010 was \$176.2 million. See Note 6 Financial Instruments of the notes to our unaudited consolidated financial statements for additional discussion of our outstanding credit agreement.

Repurchases of Stock. During the six months ended June 30, 2010, we repurchased approximately 5.4 million shares of our common stock for approximately \$155.0 million at an average price of \$28.56 per share. During the six months ended June 30, 2009, we repurchased approximately 6.6 million shares of our common stock for approximately \$140.0 million at an average price of \$21.26 per share. Repurchases of stock during 2010 and 2009 were funded by cash generated from operating activities and the sale of available-for-sale investments.

As of June 30, 2010, approximately \$290.5 million was available under the program to repurchase outstanding shares of our common stock. Stock repurchases under this program may be made on the open market or in privately negotiated transactions from time to time, depending on various factors, including market conditions and corporate and regulatory requirements. The stock repurchase program does not have an expiration date and may be suspended or discontinued at any time.

Payment of assumed loans. In conjunction with our acquisition of IUM, we assumed loans in the amount of \$4.3 million. Repayment of these loans was made immediately after the acquisition closed.

Contractual Obligations

As of June 30, 2010, there were no significant changes to our contractual obligations from December 31, 2009 except as discussed below. We were not a party to any off-balance sheet financing or contingent payment arrangements, nor do we have any unconsolidated subsidiaries.

On August 31, 2009, we acquired all rights to the Le Cordon Bleu brand in the educational services field for the U.S. and Canada. A portion of the purchase price consists of a 30-month earnout payment based upon Culinary Arts tuition fee revenue estimated at \$43.0 million. As of June 30, 2010, \$33.2 million of the earnout remained outstanding. Future adjustment to the earnout may be warranted as the actual tuition fee revenue may vary from the current estimate.

Effective January 19, 2010, we entered into a real estate lease for our new campus support center and portions of our AIU Online and CTU Online campuses in Schaumburg, Illinois. Consolidating our campus support center will reduce the number of our leased buildings and related square footage and allow us to

Table of Contents

maximize efficiencies and reduce overhead expenses. The lease for the new location results in a \$48.1 million real estate obligation through 2022. In addition, we intend to make capital improvements to our new campus support center totaling approximately \$52.0 million over the next two years, with the majority of the investment expected in 2010. As a result of the real estate consolidation, our results for the six months ended June 30, 2010 include \$3.7 million of pretax lease termination costs related to our existing space.

Changes in Financial Position June 30, 2010 compared to December 31, 2009

Selected unaudited consolidated balance sheet account changes from December 31, 2009, to June 30, 2010, were as follows:

	June 30, 2010	As of December 31, 2009	% Change
(Dollars in thousands)			
Assets			
Current assets:			
Cash and cash equivalents	\$ 150,326	\$ 284,473	-47%
Student receivables, net	74,796	57,823	29%
Liabilities			
Current liabilities:			
Accrued expenses:			
Payroll and related benefits	59,076	88,439	-33%
Deferred tuition revenue	137,691	184,411	-25%
Total Stockholders' equity	877,107	921,524	-5%

Cash and cash equivalents: The change in the balance of cash and cash equivalents is primarily due to stock repurchases and the payment of the 2009 annual incentive in the first quarter 2010.

Current assets Student receivables, net: The change in student receivables, net is due to an increase in students who are participating in our extended payment plan programs.

Accrued expenses Payroll and related benefits: The decrease in the payroll and related benefits liabilities is primarily due to the annual incentive payment made in the first quarter of 2010.

Deferred tuition revenues: The decrease in deferred tuition revenues was driven by the decrease in student population as compared to December 31, 2009. This decrease is primarily due to the International segment as students typically end their school term in June for summer break.

Total stockholders' equity: Although retained earnings increased as a result of net income, total stockholders' equity decreased due to the increased shares in treasury from stock repurchases.

Table of Contents

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to financial market risks, including changes in interest rates and foreign currency exchange rates. We use various techniques to manage our market risk, including, from time to time, the use of derivative financial instruments. We do not use derivative financial instruments for speculative purposes.

Our municipal bond investments are auction rate securities (ARS) which generally have stated terms to maturity of greater than one year. We classify investments in ARS on our unaudited consolidated balance sheets within other non-current assets. Auctions can fail when the number of sellers of the security exceeds the buyers for that particular auction period. In the event that an auction fails, the interest rate resets at a rate based on a formula determined by the individual security. The ARS for which auctions have failed continue to accrue interest and are auctioned on a set interval until the auction succeeds, the issuer calls the securities, or they mature. As of June 30, 2010, we have determined these investments are at risk for impairment due to the nature of the liquidity of the market over the past year. As a result, we recorded a cumulative unrealized loss reflected within other comprehensive income on our unaudited consolidated balance sheet of approximately \$0.5 million as of June 30, 2010.

Interest Rate Exposure

Any outstanding borrowings under our credit agreement bear annual interest at variable rates tied to the prime rate and the British Bankers Association LIBOR rate. As of June 30, 2010 and December 31, 2009, we had no outstanding borrowings under this agreement.

Our investments and debt instruments are recorded at their fair values as of June 30, 2010 and December 31, 2009. We believe that the exposure of our consolidated financial position and results of operations and cash flows to adverse changes in interest rates is not significant.

Foreign Currency Exposure

We are subject to foreign currency exchange exposures arising from current and anticipated transactions denominated in currencies other than the U.S. dollar, and from the translation of foreign currency balance sheet accounts into U.S. dollar balance sheet accounts. Specifically, we are subject to risks associated with fluctuations in the value of the Euro and the British pound vis-à-vis the U.S. dollar. Our investment in our foreign operations as of June 30, 2010, was not significant to our consolidated financial position.

We believe that the exposure of our consolidated financial position and results of operations and cash flows to adverse changes in foreign currency exchange rates is not significant.

Item 4. CONTROLS AND PROCEDURES **Evaluation of Disclosure Controls and Procedures**

We completed an evaluation as of the end of the period covered by this Report under the supervision and with the participation of management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Rule 13a-15(b) of the Securities Exchange Act of 1934, as amended (the Exchange Act). Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of June 30, 2010, our disclosure controls and procedures were effective to provide reasonable assurance that (i) the information required to be disclosed by us in this Report was recorded, processed, summarized, and reported within the time periods specified in the rules and forms provided by the U.S. Securities and Exchange Commission (SEC) and (ii) information required to be disclosed by us in our reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including our principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

Table of Contents

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting that occurred during the quarter ended June 30, 2010, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Inherent Limitations on the Effectiveness of Controls

Our management does not expect that our disclosure controls and procedures or our internal controls will prevent or detect all errors and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in a cost-effective control system, no evaluation of controls can provide absolute assurance that misstatements due to error or fraud will not occur or that all control issues and instances of fraud, if any, within our company have been detected.

These inherent limitations include the realities that judgments in decision-making can be faulty and that breakdowns can occur because of simple error or mistake. Controls can also be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the controls. The design of any system of controls is based in part on certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Projections of any evaluation of controls effectiveness to future periods are subject to risks. Over time, controls may become inadequate because of changes in conditions or deterioration in the degree of compliance with policies or procedures.

Table of Contents

PART II OTHER INFORMATION

Item 1. Legal Proceedings

Note 9 Commitments and Contingencies to our unaudited consolidated financial statements is incorporated herein by reference.

Item 1A. RISK FACTORS

Risks Related to the Highly Regulated Field in Which We Operate

If our U.S. schools fail to comply with the extensive federal regulatory requirements for school operations in the educational services industry, we could incur financial penalties, restrictions on our operations, loss of federal and state financial aid funding for our students, or loss of our authorization to operate our U.S. schools.

Federal regulatory requirements cover virtually all phases of the operations of our U.S. schools and those of our competitors, including educational program offerings, facilities, instructional and administrative staff, administrative procedures, marketing and recruiting, financial operations, payment of refunds to students who withdraw, financial aid to students, acquisitions of or opening new institutions, addition of new educational programs, and changes in corporate structure and ownership. The U.S. Department of Education (ED) is our primary federal regulator, pursuant to the Higher Education Act of 1965, as amended (HEA).

A significant portion of our U.S.-based students rely on student aid and loan programs under Title IV of HEA (Title IV Programs) and we derive a substantial portion of our revenue and cash flows from Title IV Programs.

All of our U.S. schools participate in Title IV Programs and so are subject to extensive regulation by the ED, various state agencies and accrediting commissions. To participate in Title IV Programs, a school must receive and maintain authorization by the appropriate state education agencies, be accredited by an accrediting commission recognized by the ED, and be certified by the ED as an eligible institution. Most ED requirements are applied on an institutional basis, with an institution defined by the ED as a main campus and any of its branch campuses or additional locations.

The following are some of the most significant regulatory requirements and risks related to governmental and accrediting body oversight of our schools:

Student Loan Default Rates. Our U.S. schools may lose their eligibility to participate in Title IV Programs if their student loan default rates are greater than the standards set by the ED. If the rates at which our former students default on repaying their federally guaranteed or federally funded students loans exceed ED-specified percentages, one or more of our schools could lose eligibility to participate in Title IV Programs for several years or be placed on provisional certification status by the ED.

Financial Responsibility Standards and Return and Refunds of Title IV Funds. We may be required to post a letter of credit or accept other limitations, including operating restrictions, to continue our U.S. schools participation in Title IV Programs if we or our schools do not meet the ED s financial responsibility standards or if our schools do not correctly calculate and timely return Title IV Program funds for students who withdraw before completing their program of study. The ED applies its quantitative financial responsibility tests annually based on the school s audited financial statements and may apply the tests if a school undergoes a change in control or under other circumstances. The ED also may apply the tests to us, as the parent company of our schools, and to other related entities. The ED s operating restrictions include transferring institutions to a cash-monitoring system or reimbursement instead of the ED s standard advance funding of Title IV funds, which may result in a significant delay in receiving the funds.

Table of Contents

90-10 Rule. Any of our U.S. schools may lose eligibility to participate in Title IV Programs if, on a cash basis, the percentage of the U.S. school's cash receipts derived from Title IV Programs for two consecutive fiscal years is greater than 90%. Under HEA's 90-10 Rule, a proprietary school that fails to derive at least 10% of its cash receipts from non-Title IV sources at the end of a fiscal year will be placed on provisional participation status for two fiscal years. If the school does not satisfy the 90-10 rule for two consecutive fiscal years, it loses its eligibility to participate in the Title IV Programs for at least one fiscal year. If a school violates the 90-10 Rule and becomes ineligible to participate in Title IV Programs but continues to disburse Title IV Program funds, the ED would require the school to repay all Title IV Program funds received by it after the effective date of the loss of eligibility.

Administrative Capability. Limitations may be placed on our U.S. schools' participation in Title IV Programs if they fail to satisfy the ED's administrative capability standards that cover staffing, procedures for disbursing and safeguarding Title IV funds, and reporting and other procedural matters. If a school fails to meet these criteria, the ED may require repayment of previously disbursed Title IV Program funds, place the school on provisional certification status, or transfer the school from the ED's advance funding arrangement to another funding program, impose fines, or limit or terminate the school's participation in Title IV Programs.

Restrictions on Incentive Payments. Our U.S. schools are subject to sanctions if payments of impermissible commissions, bonuses or other incentive payments are made to individuals involved in certain student recruiting, admissions or financial aid activities.

Eligibility and Certification Procedures. From time to time certain of our schools may be on provisional certification with ED due to a failure to maintain eligibility for Title IV Programs under ED's criteria discussed above. Any such failure of our schools to maintain eligibility for Title IV programs could increase our costs of regulatory compliance and have a material adverse impact on our financial condition, results of operations and cash flows.

ED's proposed regulations could result in regulatory changes that materially and adversely affect our business.

The agencies that regulate our U.S. schools, including ED, periodically revise their requirements and modify their interpretations of existing requirements.

On June 18, 2010, the ED issued a Notice of Proposed Rulemaking (NPRM) following a year-long negotiated rulemaking process between the ED and the higher education community on 14 program integrity issues that include lender and general student loan issues, accreditation, discretionary grants, general and non-loan programmatic issues, safe harbors under incentive compensation rules for admissions recruiters, and program integrity in the Title IV Programs through the rulemaking process under HEA.

The June 18, 2010 NPRM addressed 13 of 14 program integrity issues in their entirety and partially addressed the 14th issue, which involves the definition of gainful employment; the ED issued a separate NPRM on gainful employment metrics on July 26, 2010. Public comment is due on the June 18, 2010 NPRM no later than August 2, 2010 and for the July 26, 2010 NPRM is due 45 days from the date of publication. The ED has stated that it intends to review all comments it receives with the goal of publishing a final rule by November 1, 2010 that would take effect beginning July 2011.

As proposed, these NPRMs could materially and adversely affect our business. Among the most significant of the proposed rules for our business are:

the elimination of 12 safe harbors that had allowed, under limited circumstances, payment of incentive compensation to employees involved in student enrollment, certain recruiting, admissions or financial aid activities;

Table of Contents

establishing a definition of "gainful employment" for purposes of the foundational requirement for Title IV student financial aid that a program of study prepare students for gainful employment in a recognized occupation;

linking the definition of "gainful employment" with a two-part test: measuring the relationship between the debt students incur and their incomes after program completion; and measuring the rate at which all enrollees, regardless of completion, repay their loans on time;

defining a credit hour for purposes of determining program eligibility for Title IV student financial aid; and

significantly broadening institutional liability for "substantial misrepresentation" that would, among other things, subject institutions to sanctions for statements containing inadvertent errors and for statements made to non-students, including any member of the public, impose vicarious liability on institutions for the conduct of others, and expose institutions to third-party litigation and encourage private rights of action.

We cannot predict the outcome of this rulemaking process at this time, or predict with certainty the impact of any new regulations on our operations. These rules could affect the manner in which we conduct our business by, for example, requiring us to change the manner in which we compensate our admissions representatives; by making some programs ineligible to participate in Title IV Programs due to the gainful employment rules, which in turn could result in our schools ceasing to offer such course programs; by possibly leading to limits on the maximum amount schools may charge for particular programs, potentially impacting the 90-10 calculation or resulting in decreased enrollment; or by otherwise requiring changes in our business model. Compliance with these rules, which if adopted could be effective as early as July 1, 2011, could have a material adverse effect on our business, financial condition, results of operations and cash flows.

Nor can we predict the effect of other legislative or regulatory changes by federal, state or other agencies regulating our education programs or other aspects of our operations, how any resulting regulations will be interpreted or whether we and our schools will be able to comply with these requirements in the future. Any such actions by other bodies that affect our programs and operations could have a material adverse effect on our student population, our business, financial condition, results of operations and cash flows.

The U.S. Congress has recently commenced hearings and other examinations of the for-profit educational sector that could result in legislation, ED rulemaking, restrictions on Title IV program participation by proprietary schools, or other actions that may materially and adversely affect our business.

On June 17, 2010, the Education and Labor Committee of the U.S. House of Representatives held a hearing to examine the manner in which accrediting agencies review higher education institutions' policies on credit hours and program length. On June 24, 2010, the Health, Education, Labor and Pensions Committee of the U.S. Senate held the first in a series of hearings to examine the proprietary education sector and released a report, "Emerging Risk?: An Overview of Growth, Spending, Student Debt and Unanswered Questions in For-Profit Higher Education". On June 21, 2010, the Chairmen of each of these education committees, together with other members of Congress, requested the Government Accountability Office (GAO) to conduct a review and prepare a report with recommendations regarding various aspects of the proprietary sector, including recruitment practices, educational quality, student outcomes, the sufficiency of integrity safeguards against waste, fraud and abuse in federal student aid programs and the degree to which proprietary institutions' revenue is composed of Title IV and other federal funding sources.

These hearings and the requested GAO review are not formally related to ED's rulemaking process currently underway. However, the hearings and the requested GAO review could affect the final rules or could lead to the proposal of additional new regulatory requirements by the ED.

Table of Contents

We cannot predict the extent to which, or whether, these hearings and review will result in legislation or further rulemaking affecting our participation in Title IV programs or other aspects of our business. If any laws or regulations are adopted that limit our participation in Title IV programs or the amount of student financial aid for which our students are eligible, our business could be adversely and materially impacted.

Government agencies, regulatory agencies and third parties may conduct compliance reviews and audits, bring claims or initiate litigation against us based on alleged noncompliance with, or violations of, the extensive regulatory requirements applicable to us, and could require us to refund amounts received under Title IV Programs or state financial aid programs or impose monetary damages, sanctions or impose significant limitations on our operations. We may be required to expend significant resources to defend against those claims.

Government and regulatory agencies and third parties may bring actions against us based on alleged violations of the extensive regulatory requirements applicable to us, alleged misrepresentations and other claims. While our compliance programs are extensive and emphasize individual and organizational responsibility for compliance, as well as employing technological compliance controls, it is possible for a single employee to engage in non-compliant behavior or make statements that violate some aspect of the extensive regulations governing our schools and business. Any alleged or other purported misrepresentations or actual infractions could result in (a) imposition of monetary fines or penalties, (b) repayment of funds received under Title IV Programs or state financial aid programs, (c) restrictions on or termination of our U.S. schools' eligibility to participate in Title IV Programs or state financial aid programs, (d) limitations on or termination of our U.S. schools' operations or ability to grant degrees and certificates, (e) restriction or revocation of our U.S. schools' accreditations, (f) limitation on our ability to open new schools or offer new programs, (g) costly adversarial proceedings, or (h) civil or criminal penalties being levied against us or our schools. Any one of these outcomes could materially adversely affect our financial condition, results of operations, and cash flows and result in the imposition of significant restrictions on us and our ability to operate. We may also be required to expend significant resources defending against such claims.

Due to their participation in Title IV programs, our schools and universities are subject to periodic program reviews and audits by the ED for the purpose of evaluating an institution's compliance with Title IV requirements, identifying any liabilities to the ED caused by errors in compliance, and improving future institutional capabilities. As previously disclosed, the ED conducted a program review of AIU in November 2009. On July 14, 2010, AIU received a copy of the ED's Program Review Report, which is a preliminary report of the ED's findings from its program review. The Program Review Report identified six findings, two of which were deemed to be systemic findings by the ED's program review team. These two findings relate to AIU's policy for determining student attendance in online courses for purposes of determining such students' enrollment status, withdrawal dates and associated timing respecting the return of unearned Title IV funds. The remaining findings were isolated and generally relate to processing errors. We believe the amounts involved in these four findings are immaterial. In addition, the ED's Office of Inspector General audit services division commenced a compliance audit of CTU in June 2010, covering the period July 1, 2009 to June 30, 2010, to determine whether CTU has policies and procedures to ensure that CTU administers Title IV and other federal program funds in accordance with applicable federal regulations. While we believe that our schools operate in substantial compliance with applicable statutes and regulations, we cannot predict the outcome of these matters, and any unfavorable outcomes could have a material adverse effect on our business, results of operations, cash flows and financial position. See Note 9 - Commitment and Contingencies - Accrediting Body and Federal Regulatory Matters of the notes to our unaudited consolidated financial statements for further discussion of certain of these matters.

Any failure to comply with state authorization and regulatory requirements, or new state legislative or regulatory initiatives affecting our schools, could have a material adverse effect on our student population, results of operations, financial condition and cash flows.

Our schools are subject to extensive state-level regulation and oversight by state licensing agencies, whose approval is necessary to allow an institution to operate and grant degrees or diplomas.

Table of Contents

We and our schools also are subject to and have pending audits, compliance reviews, inquiries, investigations, claims of non-compliance and lawsuits by the ED and federal and state regulatory agencies, accrediting agencies, present and former students and employees, and others that may allege violations of statutes, regulations, accreditation standards or other regulatory requirements applicable to us or our schools. The HEA also requires that an institution's administration of Title IV Program funds be audited annually by an independent accounting firm and that the resulting audit report be submitted to the ED for review.

State laws vary from state to state, but generally establish standards for faculty qualifications, the location and nature of facilities, financial policies, new programs and student instruction, administrative staff, marketing and recruitment and other operational and administrative procedures. Loss of state authorization for a school results in a school being ineligible to participate in Title IV Programs. Any failure of one of our U.S. schools to maintain state authorization would result in that school being unable to offer educational programs and students attending the campus being ineligible for Title IV Programs.

If the results of any such audits, reviews, investigations, claims, or actions are unfavorable to us, we may be required to pay monetary damages or be subject to fines, operational limitations, loss of federal funding, injunctions, additional oversight and reporting, or other civil or criminal penalties. In addition, if the ED or another regulatory agency determined that one of our schools improperly disbursed Title IV Program funds or violated a provision of the HEA or the ED's regulations, that school could be required to repay such funds, and could be assessed an administrative fine. We have several such matters pending against us or one or more of our schools. See Note 9 Commitments and Contingencies Accrediting Body and Federal Regulatory Matters of the notes to our unaudited consolidated financial statements for further discussion of certain of these matters.

Even if we maintain compliance with applicable governmental and accrediting body regulations, increased regulatory scrutiny or adverse publicity arising from allegations of non-compliance may increase our costs of regulatory compliance and adversely affect our financial results, growth rates and prospects. State legislatures often consider legislation affecting regulation of postsecondary educational institutions; enactment of this legislation and ensuing regulations may impose substantial costs on our schools and require them to modify their operations in order to comply with the new regulations. Several states have attempted to assert jurisdiction over schools that hire faculty or staff who live in the state, that advertise and recruit students in the state, or that have no physical location in the state but offer online programs to students who reside in the state. In the future, states may enact legislation or issue regulations that specifically address online educational programs, such as those offered by our schools or otherwise affect our schools' operations.

If we fail to comply with current state licensing or authorization requirements, or determine that we are unable to cost-effectively comply with new state licensing or authorization requirements, we could lose enrollments and revenues in any affected states, which could materially affect our revenues and our growth opportunities.

If one or more of our schools fails to maintain institutional accreditation, if one or more of our accrediting agencies loses recognition by ED, or if certain of our programs cannot obtain or maintain programmatic accreditation, our schools could lose their ability to participate in Title IV Programs, and our growth prospects, reputation and financial condition could be materially adversely affected.

In the U.S., accrediting agencies periodically review the academic quality of an institution's instructional programs and its administrative and financial operations to ensure that the institution has the resources to perform its educational mission. ED relies on accrediting agencies to assess whether an institution's educational programs qualify the school to participate in Title IV Programs.

Furthermore, many states and professional associations require professional programs to be accredited, and require individuals who must pass professional license exams to have graduated from accredited programs. While programmatic accreditation is not a sufficient basis to qualify for institutional Title IV Program certification, programmatic certification assists program graduates to practice as professionals or otherwise seek

Table of Contents

employment in their chosen field. Those of our programs that do not have such programmatic accreditation, or fail to maintain such accreditation, may experience adverse publicity, declining enrollments, or other materially adverse impacts, which could result in it being impractical for us to continue offering such programs.

If one of our schools or programs were to be placed on probationary accreditation status or failed to qualify for or maintain accreditation, we would likely experience adverse publicity, impaired ability to attract and retain students and substantial expense to obtain unqualified accreditation status. Any loss of institutional accreditation would result in a loss of Title IV Program funds for the affected school and its students. Such events could have a material adverse impact on our business, financial condition, results of operations and cash flows.

Our participation in Title IV Programs is dependent on the ED continuing to recognize the accrediting agencies that accredit our colleges and universities. The standards and practices of these agencies have recently become a focus of attention by the ED. If the ED ceased to recognize a particular accrediting agency for any reason, our schools that are accredited by that accrediting agency would not be eligible to participate in Title IV Programs beginning 18 months after the date such recognition ceased, unless that accrediting agency was again recognized or our schools that are accredited by that accrediting agency were accredited by another accrediting body recognized by the ED. If our schools that are accredited by that accrediting agency became ineligible to participate in Title IV programs, our business, financial condition, results of operations and cash flows would be materially adversely affected. Furthermore, the recent focus by the Office of Inspector General and the ED on accrediting bodies may make the accreditation review process more challenging for all of our schools when they undergo their normal accreditation review processes in the future or may lead to the ED ceasing to recognize certain accrediting bodies. If this occurred, our schools may have to incur additional costs and/or curtail or modify certain program offerings in order to maintain their accreditation, or become accredited by another accrediting body recognized by the ED, which could increase our schools' operational costs, reduce their enrollments and materially adversely affect our business and results of operations.

Increased scrutiny by Congress and various governmental agencies regarding student loan activities have produced uncertainty concerning restrictions applicable to administration of Title IV Programs, the funding for those programs, and student lending activities. If these uncertainties are not satisfactorily or timely resolved, we may face increased regulatory burdens and costs or experience adverse impacts on our student enrollment. Investigations, claims, and actions against us and other postsecondary education providers could adversely affect our reputation, revenues, financial results and stock price.

We and other postsecondary education providers have been subject to increased regulatory scrutiny and litigation in recent years concerning student lending. State attorneys general, the ED, the U.S. Congress and other parties have increasingly focused on student loan programs, including Title IV Programs, investigating allegations of conflicts of interest between some institutions and lenders that previously provided Title IV loans, lenders providing questionable incentives to schools or school employees, claims of deceptive marketing practices for student loans, and schools steering students to specific lenders. Several institutions and lenders have been cited for these problems and have made monetary payments to settle those claims. A number of schools, including our schools, have entered into codes of conduct regarding student referrals to lenders in various states.

In response to allegations on student loan programs, Congress has passed new laws, the ED has enacted stricter regulations, and several states have adopted codes of conduct or enacted state laws that further regulate the conduct of lenders, schools, and school personnel. The Health Care and Education Reconciliation Act of 2010, which took effect on July 1, 2010, eliminated the bank-based Federal Family Education Loan Program and all new federal student loans will be made through the Direct Loan Program. Under the Direct Loan Program, students will borrow directly from the ED instead of from banks, with ED's private sector partners disbursing, servicing and collecting the loans.

Criticisms of the overall student lending and postsecondary education sectors may impact general public perception of educational institutions, including us, in a negative manner. Adverse media coverage regarding other educational institutions or regarding us directly could damage our reputation. The environment surrounding

Table of Contents

access to and cost of student loans remains in a state of flux. The uncertainty surrounding these issues, and any resolution of these issues that increases loan costs or reduces students' access to Title IV loans or to extended payment plan programs such as the one we make available to our students, could reduce student demand for our programs, adversely impact our revenues and operating profit or result in increased regulatory scrutiny.

Risks Related to Our Business

We, and our business model, are subject to risks relating to enrollment of students. If we are not able to continue to successfully recruit and retain our students, our financial results could be adversely materially affected.

Our business model depends on student recruitment and retention by our admissions counselors and our ability to attract and retain students at our schools. Our admissions representatives are responsible for identifying individuals interested in enrolling in our campuses. Admissions representatives serve as prospective students' primary contacts, providing information to help them make informed enrollment decisions and assisting students with completing the enrollment process. The ED's proposed rules eliminate safe harbors allowing payment of certain compensation to our admissions advisors, financial aid advisors and certain third parties. If we are required by ED to change the pay practices for these employees, or to the extent new legislation or rules impact our recruiting practices, we may face retention issues, increased operating costs, or the need to change our business model, which could have a material adverse impact on our business, financial condition, results of operations and cash flows.

Changes in the sources and amounts of student financial aid, restrictions on student debt repayment options, or a significant increase in financing costs for our students, could reduce our enrollments, and have a material adverse effect on our student population, revenue and financial results.

The current recession in the U.S. economy and the recently enacted federal Health Care and Education Reconciliation Act of 2010 (HCERA), are impacting student access to financial aid. The recession caused many lenders, including lenders that previously provided Title IV loans to our students, to cease providing Title IV loans to students. Because HCERA eliminates fees paid to private banks to act as intermediaries in providing loans to college students, eliminates the FFEL program, and required schools to transition to the federal direct loan program by July 1, 2010, private lenders are exiting the student loan market.

These changes may result in higher administrative costs for schools, including us, related to student loan administration and extending extended payment plan programs to those students unable to timely replace student loan programs currently in place with exiting lenders. If the costs of Title IV loans increase and if availability of alternate student financial aid and payment plans decrease, students may decide not to enroll in a postsecondary institution, which could have a material adverse effect on our enrollments, revenues and results of operations.

We have implemented funding programs that will assist our students in continuing their program of study. We have provided payment plans directly to certain students to ensure that they can finish their current educational programs with us and to allow new students to attend our schools. As of June 30, 2010, we have committed to approximately \$87.7 million of funding through extended payment plans.

Any further actions by the U.S. Congress, ED or other regulatory bodies that significantly reduces funding for Title IV Programs or the ability of our students to participate in those programs, that reduces alternate sources of student financial aid, or that restricts our ability to offer extended payment plans or establishes different or more stringent requirements for our U.S. schools to participate in Title IV Programs or to offer such extended payment plans, could have a material adverse effect on our student population, course offerings, financial condition, results of operations and cash flows.

Table of Contents

Budget constraints in states that provide state financial aid to our students could reduce available financial aid, which could adversely affect our student population. Alternatively, improved state financing may result in increased support for lower-priced public institutions, which may increase competition for students.

A significant number of states in which our schools operate face budget constraints that may reduce state appropriations in a number of areas including state student financial aid, but we cannot predict the amount or timing of any such reductions. If state funding for our students decreases and our students are unable to secure alternative sources of funding for their education, our student population could be adversely affected, which could have a material adverse effect on our results of operations, financial condition, and cash flows. Increased state support for public institutions and community colleges, resulting in increased competition for students, also could have a material adverse effect on our results of operations, financial condition and cash flows.

If we are unable to successfully resolve pending or future litigation and regulatory and governmental inquiries involving us, our financial condition, results of operations and growth prospects could be adversely affected.

We are subject to various lawsuits, investigations and claims covering a range of matters, including, but not limited to, claims made by current and former students and employees of our schools. These claims may include qui tam actions filed in federal court by individual plaintiffs on behalf of themselves and the federal government alleging that we submitted false claims or statements to the ED in violation of the False Claims Act. Qui tam actions are filed under seal, and remain under seal until the government decides whether it will intervene in the case. If the government elects to intervene in an action, it assumes primary control of that matter; if the government elects not to intervene, individual plaintiffs may continue the litigation at their own expense on behalf of the government.

We cannot predict the ultimate outcome of these matters and expect to continue to incur significant defense costs and other expenses in connection with them. We may be required to pay substantial damages or settlement costs in excess of our insurance coverage related to these matters. Government investigations and any related legal and administrative proceedings may result in the institution of administrative, civil injunctive or criminal proceedings against us and/or our current or former directors, officers or employees; or the imposition of significant fines, penalties or suspensions, or other remedies and sanctions. Any such costs and expenses could have a material adverse effect on our financial condition and results of operations and the market price of our common stock.

If we fail to effectively identify, pursue and integrate acquired schools, both in the U.S. and outside of the U.S., our growth could be slowed and our profitability may be adversely affected.

Acquisitions are one component of our overall long-term growth. From time to time, we engage in evaluations of, and discussions with, possible domestic and international acquisition candidates. We may not be able to identify suitable acquisition opportunities, acquire institutions on favorable terms, or successfully integrate or profitably operate acquired institutions. If we use debt to finance future acquisitions or issue securities in connection with future acquisitions, such actions could dilute the holdings of our stockholders.

Because an acquisition is considered a change in ownership and control of the acquired institution under applicable regulatory standards, we must obtain approval from the ED, most applicable state agencies and accrediting agencies and possibly other regulatory bodies when we acquire an institution.

We have in the past, and may in the future, acquire schools in international markets. There may be difficulties and complexities associated with our expansion into international markets, and our strategies may not succeed beyond our current markets. If we do not effectively address these risks, our growth and ability to compete may be impaired.

Table of Contents

We must service our student population without overbuilding or over-investing in infrastructure and our on-line platforms.

Our increasing student enrollments may result in capacity constraints if our schools, particularly on-ground schools, are unable to adequately service the number of students enrolled or seeking to enroll in our programs. We must balance current student populations and projected growth with appropriate levels of investment in physical plant and our on-line platforms in order to effectively manage capacity.

We are subject to the risks inherent in operating in foreign countries.

We operate schools outside of the U.S. and are subject to risks inherent in having non-domestic operations, including unfamiliar statutes and regulations for employees and postsecondary institutions, currency exchange rate fluctuations, limits on repatriation of profits, U.S.-foreign tax treaties and taxing authority, and possible economic or political instability in those countries.

If we fail to effectively identify, establish and operate new schools and new branch campuses of our existing schools, or to offer new educational programs, our growth may be slowed and our profitability may be adversely affected.

As part of our growth strategy, we currently anticipate opening new schools, new branch campuses of our existing schools throughout the U.S. and offering new educational programs. These activities require us to invest in management and capital expenditures, incur marketing and advertising expenses, and devote resources that are different from those required to operate our existing schools. We may be unable to identify or acquire suitable expansion opportunities to help maintain or accelerate our current growth rate, or to successfully integrate a new school or branch campus. Any failure by us to effectively identify, establish and manage the operations of a new school or branch campus could slow our growth and make any newly established school or branch campus more costly to operate than we had planned, which could have an adverse effect on our results of operations.

We need timely approval by applicable regulatory agencies to offer new programs, expand our operations into or within certain states, or acquire additional schools. If those approvals are not timely, we may incur operating expenses (such as lease obligations) for significant time periods before we can enroll students.

To open a new school or branch campus, or to establish a new educational program, we are required to obtain the appropriate approvals from applicable state and accrediting regulatory agencies, which may be conditioned, delayed or denied in a manner that could significantly affect our growth plans. Approval by these regulatory agencies may be negatively impacted due to regulatory inquiries or reviews and any adverse publicity relating to such matters. Also, any adverse action taken by the ED regarding its recognition of any accrediting agency that accredits our schools or programs could adversely impact our ability to open a new school or branch campus or establish new educational programs. In addition, to be eligible to participate in Title IV Programs, the ED and applicable state and accrediting bodies must certify a new school or branch campus.

Our financial performance depends, in part, on our ability to keep pace with changing market needs and technology.

Increasingly, prospective employers of students who graduate from our schools demand that their new employees possess appropriate technological skills and also appropriate soft skills, such as communication, critical thinking and teamwork skills. These skills can evolve rapidly in a changing economic and technological environment, so it is important for our schools' educational programs to evolve in response to those economic and technological changes. Current or prospective students or the employers of our graduates may not accept expansion of our existing programs, improved program content and the development of new programs. Even if our schools are able to develop acceptable new and improved programs in a cost-effective manner, our schools may not be able to begin offering them as quickly as prospective employers would like or as quickly as our competitors offer similar programs. If we are unable to adequately respond to changes in market requirements

Table of Contents

due to regulatory or financial constraints, rapid technological changes or other factors, our ability to attract and retain students could be impaired, the rates at which our graduates obtain jobs involving their fields of study could decline, and our results of operations and cash flows could be adversely affected.

The loss of our key personnel could harm us.

Our future success depends largely on the skills, efforts and motivation of our executive officers and other key personnel, as well as on our ability to attract and retain qualified corporate managers and our schools' ability to attract and retain qualified faculty members and administrators. We face competition in hiring personnel who possess the skill sets that we seek. In addition, key personnel may leave us and subsequently compete against us. The loss of the services of any of our key personnel, or our failure to attract and retain other qualified and experienced personnel on acceptable terms could adversely affect our results of operations or financial condition.

In addition, to support our growth, we must hire, retain, develop and train qualified admissions representatives who are dedicated to student recruitment. If we are unable to hire, develop and train qualified admissions representatives, the effectiveness of our student recruiting efforts could be adversely affected.

If our graduates are unable to obtain professional licenses or certification in their chosen field of study, we may face declining enrollments and revenues or student claims against us.

Many of our students, particularly in the healthcare programs we offer, require or desire professional licenses and certifications in order to obtain employment in their chosen fields. Many factors affect a student's ability to become licensed, including whether the student's program and institution are accredited by a particular accrediting commission or approved by a professional association or by the state in which the student seeks employment, and the student's own qualifications and attainment. If one or more states deny licenses to a significant number of our students due to factors relating to our institutions or programs, we could suffer reputational harm and declining enrollments in those institutions or programs, or face student claims or litigation that could affect our revenues and results of operations.

Our future operating results and the market price of our common stock could be materially adversely affected if we are required to write down the carrying value of nonfinancial assets and nonfinancial liabilities, including long-lived assets, goodwill and intangible assets, such as our trademarks.

In accordance with U.S. GAAP, we review our nonfinancial assets and nonfinancial liabilities, including long-lived assets, goodwill and intangible assets, such as our trademarks, for impairment on at least an annual basis through the application of fair-value-based measurements. Our estimates of fair value for these are based primarily on projected future results and expected cash flows and other assumptions. In the future, if we are required to significantly write down the value of our nonfinancial assets and nonfinancial liabilities, including long-lived assets, goodwill and trademarks, our operating results and the market price of our common stock may be materially adversely affected.

We could experience decreasing enrollments or decreasing growth in our enrollments in our schools due to changing demographic trends in family size, overall declines in enrollment in postsecondary schools, job growth in fields unrelated to our core disciplines, immigration and visa laws, or other societal factors.

A September 2009 NCES report projects that between 2007 and 2018 enrollments in degree-granting postsecondary institutions increasing in a range from a low alternative projection of 9%, or 19.9 million students, to a high alternative projection of 17%, or 21.3 million students. These projected 11-year growth rates are lower than the 27% increase NCES reported for the 11-year period 1996-2007 of 14.4 million in 1996 to 18.2 million in 2007. Such a decline in the overall growth rate in the postsecondary education sector would result in increased competition for students for our programs and could impact our ability to attract and retain students and affect our growth rate in enrollments. The ability of our foreign students to obtain visas for our U.S. and our European

Table of Contents

schools is important to student recruitment. On March 19, 2010 Istituto Marangoni London entered into an articulation agreement with Manchester Metropolitan University. Because it has an articulation agreement with a UK university which is an approved body, Istituto Marangoni can continue to sponsor students from outside the European Economic area. If we cannot attract new students, or develop new curricula to attract prospective students who seek degrees in fields other than our core disciplines, or accommodate changed immigration or visa rules, we may be unable to maintain and increase our student population or achieve our growth strategies, which could have a material adverse effect on our revenues, results of operations, financial condition and market price of our common stock.

Capacity constraints or system disruptions to our online computer networks could have a material adverse effect on our ability to attract and retain students.

Our schools' online campuses intend to increase student population. To support this growth, we will require more resources, including additional faculty, admissions, academic and financial aid personnel. This growth may place a significant strain on the operational resources of our schools' online campuses.

Our schools' online campuses' success depends, in part, on their ability to expand the content of their programs, develop new programs in a cost-effective manner, maintain good standing with regulators and accreditors, and meet students' needs in a timely manner. New programs can be delayed due to current and future unforeseen regulatory restrictions. Furthermore, our regulators may impose additional restrictions or conditions on the manner in which we offer online courses to our students, any one of which could negatively impact our business or results of operations.

Any general decline in internet use for any reason, including security or privacy concerns, cost of internet service or changes in government regulation, could result in less demand for online educational services and inhibit our planned growth in our online programs.

For our online and on-ground campuses, the performance and reliability of program infrastructure is critical to their reputation and ability to attract and retain students. Our delivery of these programs could be hindered by computer system error or failure, significant increase in traffic on our computer networks, or any significant failure or unavailability of our computer networks due to events beyond our control, including natural disasters and network and telecommunications failures. Any interruption to our schools' computer systems or operations could have a material adverse effect on the ability of our schools' to attract and retain students.

Our computer networks may also be vulnerable to unauthorized access, computer hackers, computer viruses and other security threats. A user who circumvents security measures could misappropriate proprietary information or cause interruptions or malfunctions in our operations. Due to the sensitive nature of the information contained on our networks, such as students' grades, hackers may target our networks. We may be required to expend significant resources to protect against the threat of these security breaches or to alleviate problems caused by these breaches. Although we continually monitor the security of our technology infrastructure, we cannot assure that these efforts will protect our computer networks against security breaches.

Our financial performance depends, in part, on our ability to continue to develop awareness and acceptance of our schools and programs among high school graduates and working adults.

If our schools are unable to successfully market and advertise their educational programs, our schools' ability to attract and enroll prospective students in such programs could be adversely affected, and, consequently, our ability to increase revenue or maintain profitability could be impaired. Some of the factors that could prevent us from successfully marketing and advertising our schools and the programs that they offer include, but are not limited to, student or employer dissatisfaction with educational programs and services, diminished access to high school students, our failure to maintain or expand our brand names or other factors related to our marketing or advertising practices, costs and effectiveness of internet and other advertising programs, and changing media preferences of our target audiences.

Table of Contents

We compete with a variety of educational institutions, and if we are unable to compete effectively, our student population and revenue could be adversely impacted.

Postsecondary education is a highly fragmented and competitive field. Our schools compete with traditional public and private two-year and four-year colleges and universities, other proprietary schools, other online education providers, and alternatives to higher education, such as immediate employment and military service. Some public and private institutions charge lower tuition for courses of study similar to those offered by our schools due, in part, to government subsidies, government and foundation grants, tax-deductible contributions and other financial resources not available to proprietary institutions. Our competitors may have substantially greater financial and other resources than we do. We expect to experience increased competition as more colleges, universities, and other postsecondary education providers increase their online program offerings. An increase in competition could affect the success of our marketing efforts and enable our competitors to recruit prospective students more effectively, or reduce our tuition charges and increase spending for marketing efforts, which could adversely impact our results of operations, financial condition and cash flows.

Our credit agreement limits our ability to take various actions.

Our credit agreement limits our ability to take various actions, including paying dividends and disposing of assets, and may restrict us from taking actions that management believes would be desirable and in the best interests of us and our stockholders. Our credit agreement also requires us to satisfy specified financial and non-financial covenants. A breach of any of those covenants could result in an event of default under the agreement and allow the lenders to pursue various remedies, including accelerating the repayment of any indebtedness outstanding, any of which could have a material adverse effect on our operations and financial condition.

We are subject to privacy laws and regulations both domestically and in the countries in which our foreign schools operate, due to our collection and use of personal information. Any violations of those laws, or any breach, theft or loss of that information, could adversely affect our reputation and operations.

Our efforts to attract and enroll students result in us collecting, using and keeping substantial amounts of personal information regarding applicants, our students, faculty, their families and alumni, including social security numbers, financial data or health data. We also maintain personal information about our employees in the ordinary course of our activities. Our services, the services of many of our health plan and benefit plan vendors, and other information can be accessed globally through the internet. Our computer networks and those of our vendors that manage confidential information for us may be vulnerable to unauthorized access, theft or misuse, hackers, computer viruses, or third parties in connection with hardware and software upgrades and changes. Our services can be accessed globally via the internet, so we may be subject to privacy laws in countries outside the U.S. from which students access our services, which laws may constrain the way we market and provide our services. While we utilize security and business controls to limit access to and use of personal information, any breach of student or employee privacy or errors in storing, using or transmitting personal information could violate privacy laws and regulations resulting in fines or other penalties. A breach, theft or loss of personal information held by us or our vendors, or a violation of the laws and regulations governing privacy could have a material adverse effect on our reputation or result in additional regulation, compliance costs or investments in additional security systems to protect our computer networks.

We rely on exclusive proprietary rights and intellectual property that may not be adequately protected under current laws, and we may encounter disputes from time to time relating to our use of intellectual property of third parties.

Our success depends in part on our ability to protect our proprietary rights. We rely on a combination of copyrights, trademarks, service marks, trade secrets, domain names and agreements to protect our proprietary rights. We rely on service mark and trademark protection in the United States and select foreign jurisdictions to

Table of Contents

protect our rights to our marks as well as distinctive logos and other marks associated with our services. We cannot assure you that these measures will be adequate, that we have secured, or will be able to secure, appropriate protections for all of our proprietary rights. Despite our efforts to protect these rights, unauthorized third parties may attempt to duplicate the proprietary aspects of our curricula, online resource material and other content. Our management's attention may be diverted by these attempts, and we may need to use funds in litigation to protect our proprietary rights against any infringement or violation.

We may encounter disputes from time to time over rights and obligations concerning intellectual property, and we may not prevail in these disputes. Third parties may raise a claim against us alleging an infringement or violation of the intellectual property of that third party. Some third party intellectual property rights may be extremely broad, and it may not be possible for us to conduct our operations in such a way as to avoid those intellectual property rights. Any such intellectual property claim could subject us to costly litigation and impose a significant strain on our financial resources and management personnel regardless of whether such claim has merit.

We may incur liability for the unauthorized duplication or distribution of class materials posted online for class discussions.

In some instances our faculty members or our students may post various articles or other third-party content on class discussion boards or download third-party content to personal computers. We may incur claims or liability for the unauthorized duplication or distribution of this material. Any such claims could subject us to costly litigation and could impose a strain on our financial resources and management personnel regardless of whether the claims have merit.

A protracted economic slowdown and rising unemployment could harm our business, while an improving economy may lead to prospective students choosing to work rather than to pursue postsecondary education at our schools.

We believe that many students pursue postsecondary education to be more competitive in the job market. However, a protracted economic slowdown could increase unemployment and diminish job prospects generally. Diminished job prospects and heightened financial worries could affect the willingness of students to incur loans to pay for postsecondary education and to pursue postsecondary education in general. An improving economy and improving job prospects, however, may lead prospective students to choose to work rather than to pursue postsecondary education. As a result, our enrollments could suffer.

We may incur costs in complying with the Americans with Disabilities Act and with similar laws.

The Americans with Disabilities Act of 1990, or ADA, requires all public accommodations to meet federal requirements for access and use by disabled individuals. Other federal, state, and local laws and regulations also may impose similar or additional accessibility requirements. For example, the Fair Housing Amendments Act of 1988, or FHAA, requires apartment properties first occupied after March 13, 1991, to be accessible to handicapped persons. Typically, our real estate leases require us to pay any costs necessary to comply with all laws, including these accessibility laws, for our premises, which may include parking areas, restaurants at our culinary schools, dormitory facilities and similar facilities in addition to classroom and office space. In opening new schools or locations and acquiring existing schools, we often must build out the premises to satisfy our classroom needs and must incur the costs associated with accessibility compliance in those construction activities. If any of our premises are not compliant with the ADA or FHAA, we could face fines, litigation by private litigants, and orders to correct any non-complying features.

Risk Related to Our Common Stock

The trading price of our common stock may fluctuate substantially in the future.

The trading price of our common stock may fluctuate substantially as a result of a number of factors, some of which are not in our control. These factors include:

accreditation or regulatory reviews or inquiries and any related adverse publicity;

the outcome of ED's proposed program integrity rulemaking program, and other changes in the legal or regulatory environment in which we operate;

the initiation, pendency or outcome of litigation, regulatory reviews and investigations, and any related adverse publicity;

changes in the student lending and credit markets;

our ability to meet or exceed expectations of analysts or investors;

quarterly variations in our operating results;

general conditions in the postsecondary education field, including changes in the ED, state laws and regulations and accreditation standards, or availability of student financing;

changes in our earnings estimates by analysts;

future impairment of goodwill or other intangible assets;

price and volume fluctuations in the overall stock market, which have particularly affected the market prices of many companies that provide postsecondary education in recent periods;

the loss of key personnel; and

general economic conditions.

These factors may adversely affect the trading price of our common stock, regardless of our actual operating performance, and could prevent an investor from selling shares of our common stock at or above the price at which the investor acquired the shares. In addition, the stock markets, from time to time, experience extreme price and volume fluctuations that may be unrelated or disproportionate to the operating performance of companies. These broad fluctuations may adversely affect the market price of our common stock, regardless of our operating performance.

Table of Contents

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The following table sets forth information regarding purchases made by us of shares of our common stock on a monthly basis during the six months ended June 30, 2010:

Issuer Purchases of Equity Securities

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs ⁽¹⁾	Maximum Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs ⁽¹⁾
December 31, 2009				\$ 195,475,395
January 1, 2010 January 31, 2010	1,702,612	\$ 23.49	1,702,612	155,475,407
February 1, 2010 February 28, 2010	309,200	27.48	309,200	396,977,868
March 1, 2010 March 31, 2010	1,346,501	30.60	1,346,501	355,771,638
April 1, 2010 April 30, 2010	1,555,145	32.18	1,555,145	305,728,843
May 1, 2010 May 31, 2010	513,749	29.73	513,749	290,454,703
June 1, 2010 June 30, 2010				290,454,703
Total	5,427,207		5,427,207	

- (1) As of June 30, 2010, approximately \$290.5 million was available under the Company's previously authorized repurchase program. Stock repurchases under this program may be made on the open market or in privately negotiated transactions from time to time, depending on various factors, including market conditions and corporate and regulatory requirements. The stock repurchase program does not have an expiration date and may be suspended or discontinued at any time.
