**Table of Contents**

**TREX COMPANY, INC.**

**Notes to Condensed Consolidated Financial Statements**

**For the Six Months Ended June 30, 2009 and 2010**

**(unaudited)**

**1. BUSINESS AND ORGANIZATION**

Trex Company, Inc. (the "Company") is the country's largest manufacturer of wood-alternative decking, railing, fencing and trim products, which are marketed under the brand name Trex®. We are incorporated in Delaware. Our principal executive offices are located at 160 Exeter Drive, Winchester, Virginia 22603, and our telephone number at that address is (540) 542-6300. The Company operates in one business segment.

**2. BASIS OF PRESENTATION**

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, the accompanying condensed consolidated financial statements do not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements. In the opinion of management, all adjustments (consisting of normal and recurring adjustments) considered necessary for a fair presentation have been included in the accompanying condensed consolidated financial statements. The consolidated results of operations for the six months ended June 30, 2010 are not necessarily indicative of the results that may be expected for the full fiscal year. These condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements as of December 31, 2008 and 2009 and for each of the three years in the period ended December 31, 2009 included in the annual report of Trex Company, Inc. on Form 10-K, as filed with the Securities and Exchange Commission.

The Company consolidates its wholly-owned subsidiary, Trex Wood-Polymer Espana, S.L., which owns a 35% equity interest in Denplax, S.A., a Spanish joint venture formed to recycle polyethylene at a facility in El Ejido, Spain. The Company's investment in Denplax is accounted for using the equity method. In addition, the Company has an outstanding note due from Denplax. At December 31, 2009, the amount of the Company's investment in Denplax and note due from Denplax was \$1.2 million and \$1.6 million, respectively. At June 30, 2010, the amount of the Company's investment in Denplax and note due from Denplax was \$1.0 million and \$1.4 million, respectively. During the three months ended June 30, 2010, the Company determined that it would end its purchasing relationship with Denplax and begin to domestically source its requirements with higher quality material at a lower cost. Consequently, at June 30, 2010, based on these developments and an analysis of the financial performance and position of Denplax, the Company determined that the amount of the investment in Denplax and note due from Denplax were not recoverable and recorded a \$2.4 million charge to earnings to reduce the carrying amount of the equity investment and note related to Denplax.

The Company's critical accounting policies are included in the Company's Annual Report of Form 10-K for the year ended December 31, 2009.

**3. NEW ACCOUNTING STANDARDS**

**Accounting Pronouncements Recently Adopted**

In June 2009, the FASB issued a pronouncement, now codified within ASC 810-10, (formerly SFAS No. 167, *Amendments to FASB Interpretation No. 46(R), Consolidation of Variable Interest Entities*). This updated guidance requires an analysis to determine whether a variable interest gives the entity a controlling financial interest in a variable interest entity. The determination of whether a reporting entity is required to consolidate another entity is based on, among other things, the other entity's purpose and design and the reporting entity's ability to direct the activities of the other entity that most significantly impact the other entity's economic performance. ASC 810-10 will require a reporting entity to provide additional disclosures about its involvement with variable interest entities and any significant changes in risk exposure due to that involvement. A reporting entity will be required to disclose how its involvement with a variable interest entity affects the reporting entity's financial statements. The Company adopted ASC 810-10 effective January 1, 2010. The adoption of ASC 810-10 had no impact on the Company's results of operations or financial position.

## Edgar Filing: TREX CO INC - Form 10-Q

In January 2010, the FASB issued Accounting Standard Update No. 2010-06, Fair Value Measurements and Disclosures (Topic 820) Improving Disclosures about Fair Value Measurements (ASU No. 2010-06). This update requires additional disclosures about (1) the different classes of assets and liabilities measured at fair value, (2) the valuation techniques and inputs used, (3) the activity in Level 3 fair value measurements, and (4) the transfers between Levels 1, 2, and 3. ASU No. 2010-06 is effective for interim and annual reporting periods beginning after December 15, 2009. The Company adopted ASU 2010-06 effective January 1, 2010. The adoption had no impact on the Company's results of operations or financial position.

**Table of Contents****4. COMPREHENSIVE INCOME**

The Company's comprehensive income was \$7.6 million and \$5.6 million for the three months ended June 30, 2009 and 2010, respectively and \$4.5 million and \$1.0 million for the six months ended June 30, 2009 and 2010, respectively. Comprehensive income consists of net income and net unrealized gains and losses on debt-related derivatives, net of tax.

**5. INVENTORIES**

Inventories, at LIFO (last-in, first-out) value, consist of the following (in thousands):

	<b>December 31, 2009</b>	<b>June 30, 2010</b>
Finished goods	\$ 25,846	\$ 30,573
Raw materials	19,639	20,334
<b>Total inventories</b>	<b>\$ 45,485</b>	<b>\$ 50,907</b>

Due to the liquidation of certain inventories, a portion of the Company's cost of sales is based on prior years' costs rather than current year costs. As a result, the Company recognized benefits of \$0.8 million and \$1.7 million during the three and six months ended June 30, 2010, respectively, compared to benefits of \$195 thousand and \$43 thousand during the three and six months ended June 30, 2009, respectively.

An actual valuation of inventory under the LIFO method can be made only at the end of each year based on the inventory levels and costs at that time. Accordingly, interim LIFO calculations are based on management's estimates of expected year-end inventory levels and costs. Since inventory levels and costs are subject to factors beyond management's control, interim results are subject to the final year-end LIFO inventory valuation.

**6. ACCRUED EXPENSES**

Accrued expenses consist of the following (in thousands):

	<b>December 31, 2009</b>	<b>June 30, 2010</b>
Accrued compensation and benefits	\$ 5,917	\$ 4,862
Accrued interest	3,850	3,666
Accrued rent obligations	2,351	2,320
Accrued sales and marketing	2,536	4,221
Accrued taxes and penalties	278	312
Other	4,194	7,090
<b>Total accrued expenses</b>	<b>\$ 19,126</b>	<b>\$ 22,471</b>

**7. DEBT**

Long-term debt consists of the following (in thousands):

	<b>December 31, 2009</b>	<b>June 30, 2010</b>
Real estate loan	\$ 3,086	\$ 2,819

# Edgar Filing: TREX CO INC - Form 10-Q

Convertible notes	97,500	97,500
	100,586	100,319
Less unamortized debt discount	(23,407)	(19,512)
	77,179	80,807
Less current portion	(545)	(567)
Total long-term debt	\$ 76,634	\$ 80,240

**Table of Contents**

The Company's outstanding debt consists of a real estate loan, convertible bond notes and a revolving credit facility. At June 30, 2010, the Company had no outstanding borrowings under its revolving credit facility and an available borrowing capacity of \$79.0 million.

As of June 30, 2010 the Company was in compliance with all of the material covenants contained in its debt agreements.

The following table provides additional information regarding the Company's convertible debt instruments that are subject to ASC 470 (in thousands, except conversion price):

	December 31, 2009	June 30, 2010
Principal amount of the liability component	\$ 97,500	\$ 97,500
Unamortized discount of liability component	(23,407)	(19,512)
Net carrying amount of liability component	74,093	77,988
Carrying amount of the equity component	23,860	23,860
Remaining amortization period of discount	30 months	24 months
Conversion price	\$ 21.78	\$ 21.78
Effective interest rate on liability component	18.41%	18.41%
If-converted value in excess of principal amount (a)		\$ 3,248
If-converted number of shares to be issued (a)		144.3

	Three Months Ended June 30,		Three Months Ended June 30,	
	2009	2010	2009	2010
Interest expense at coupon rate (6.0%)	\$ 1,462	\$ 1,462	\$ 2,925	\$ 2,925
Non-cash interest in accordance with ASC 470	1,633	1,947	3,266	3,895

- (a) If-converted value amounts are for disclosure purposes only. The notes are convertible when the closing price of the Company's common stock for at least 20 trading days in the 30 consecutive trading days ending on the last trading day of the preceding fiscal quarter is greater than or equal to \$28.31 (130% of the conversion price) on each applicable trading day. The principal amount of the notes is settled in cash upon conversion. The value of the notes in excess of the principal amount is settled in common shares upon conversion. Based upon the Company's stock prices during the three months ended June 30, 2010, the notes are not currently convertible. The if-converted value in excess of the principal amount and the if converted number of shares to be issued illustrated above are based on the average stock price of \$22.51 during the three months ended June 30, 2010, which exceeded the conversion price of \$21.78.

**8. FAIR VALUE MEASUREMENT**

The Company adopted certain provisions of FASB ASC Topic 820 on January 1, 2008, which defines fair value, establishes a framework for measuring fair value in accordance with generally accepted accounting principles and expands disclosures about fair value measurements. The Company's adoption was limited to financial assets and liabilities, which primarily relate to derivative contracts.

ASC 820 requires the categorization of financial assets and liabilities based upon the level of judgments associated with the inputs used to measure their fair value. Hierarchical levels, defined by ASC 820 and directly related to the amount of subjectivity associated with the inputs used to determine the fair value of financial assets and liabilities, are as follows:

Level 1 Inputs are unadjusted, quoted prices in active markets for identical assets or liabilities at the measurement date

Level 2 Inputs (other than quoted prices included in Level 1) are either directly or indirectly observable for the assets or liability through correlation with market data at the measurement date and for the duration of the instrument's anticipated life

## Edgar Filing: TREX CO INC - Form 10-Q

Level 3 Inputs reflect management's best estimate of what market participants would use in pricing the asset or liability at the measurement date. Consideration is given to the risk inherent in the valuation technique and the risk inherent in the inputs to the model.

**Table of Contents**

The following table presents the financial assets and liabilities measured at fair value on a recurring basis, based on the fair value hierarchy as of June 30, 2010 (in thousands):

	<b>Total Fair Value Measurement June 30, 2010</b>	<b>Quoted Prices in Active Markets for Identical Asset (Level 1)</b>	<b>Significant Other Observable Inputs (Level 2)</b>	<b>Significant Unobservable Inputs (Level 3)</b>
Debt-related derivative liability	\$ 378	\$	\$ 378	\$

The Company uses interest-rate swap contracts to manage its exposure to fluctuations in the interest rates under its variable-rate real estate loan.

**9. FINANCIAL INSTRUMENTS**

The Company considers the recorded value of its financial assets and liabilities, consisting primarily of cash and cash equivalents, accounts receivable, accounts payable, accrued expenses and other current liabilities, and real estate loans to approximate the fair value of the respective assets and liabilities at December 31, 2009 and June 30, 2010. At June 30, 2010, the fair value of the Company's 6.00% Convertible Senior Subordinated Notes due 2012 was estimated at \$109.3 million based on quoted market prices.

The Company uses interest rate swaps to manage its exposure to fluctuations in the interest rates on its variable-rate debt. At June 30, 2010, the Company had one fixed-for-floating interest rate swap that matures on October 1, 2014, which effectively converts the Company's variable-rate real estate loan to fixed-rate obligation. The Company accounts for interest rate swaps as derivative instruments in accordance with FASB ASC Topic 815, *Derivatives and Hedging* (formerly SFAS No. 133, *Accounting for Derivative Instruments and Hedging Activities*, as amended). ASC 815 requires derivative instruments to be measured at fair value in the condensed consolidated balance sheets. At June 30, 2010 the fair value of the Company's interest rate swap was \$0.4 million and was classified as a long-term liability in the accompanying condensed consolidated balance sheets. The interest rate swap instrument qualifies for, and was designated as, a cash flow hedge of a forecasted transaction in accordance with ASC 815 and the change in fair value of this instrument was recorded, net of tax, in Accumulated other comprehensive loss in the accompanying consolidated balance sheets. At June 30, 2010, \$0.3 million of unrealized losses, net of tax, were recorded in Accumulated other comprehensive loss in the accompanying consolidated balance sheets. The Company expects approximately \$0.2 million to be reclassified into Interest expense, net over the next twelve months.

The following table illustrates the changes in Accumulated other comprehensive loss related to the cash flow hedge during the six months ended June 30, 2010 (in thousands):

	<b>Fair Value of Cash Flow Hedges</b>	<b>Tax Effect</b>	<b>Fair Value of Cash Flow Hedges, Net of Tax</b>
Balance, December 31, 2009	\$ 392	\$ (127)	\$ 265
Gain (loss) reclassified to interest expense, net	(96)		(96)
Unrealized (gains) losses during period	82		82
Balance, June 30, 2010	\$ 378	\$ (127)	\$ 251

**10. EARNINGS PER SHARE**

The following table sets forth the computation of basic and diluted earnings per share (in thousands, except share and per share data):

<b>Three Months Ended June 30, 2009</b>	<b>Three Months Ended June 30, 2010</b>	<b>Six Months Ended June 30, 2009</b>	<b>Six Months Ended June 30, 2010</b>
---	---	---------------------------------------	---------------------------------------

Diluted earnings per share	\$	0.49	\$	0.35	\$	0.28	\$	0.06

**Table of Contents**

The Company's \$97.5 million of convertible notes due 2012 are not currently convertible. As a result of the quarterly average stock price exceeding the conversion price of \$21.78, the Company included 144,328 additional shares related to the convertible notes in the diluted weighted average common shares outstanding for the three months ended June 30, 2010.

**11. STOCK-BASED COMPENSATION**

Effective January 1, 2006, the Company adopted the fair value recognition provisions of FASB ASC Topic 718, *Share-Based Payment*, (ASC 718). Under the transition method, compensation cost includes (a) compensation cost for all share-based payments granted prior to, but not yet vested as of, January 1, 2006, based on the grant date fair value estimated in accordance with the original provisions of ASC 718; and (b) compensation cost for all share-based payments granted subsequent to January 1, 2006, based on the grant date fair value estimated in accordance with the provisions of ASC 718.

The Company has one stock-based compensation plan, the 2005 Stock Incentive Plan (the 2005 Plan), which was amended by its shareholders on May 7, 2008. The 2005 Plan is administered by the Compensation Committee of the Company's Board of Directors. Stock-based compensation is granted to officers, directors and certain key employees in accordance with the provisions of the 2005 Plan. The 2005 Plan provides for grants of stock options, stock appreciation rights (SARs), restricted stock and performance share awards. As of June 30, 2010, the total aggregate number of shares of the Company's common stock that may be issued under the 2005 Plan is 3,150,000.

The fair value of each SAR is estimated on the date of grant using a Black-Scholes option-pricing formula. For SARs issued in the six months ended June 30, 2009 and 2010, respectively, the assumptions shown in the following table were used:

	<b>Six Months Ended June 30,</b>	
	<b>2009</b>	<b>2010</b>
Weighted-average fair value of grants	\$ 6.66	\$ 10.08
Dividend yield	0%	0%
Average risk-free interest rate	1.6%	2.7%
Expected term (years)	5	5
Expected volatility	57%	67%

The following table summarizes the Company's stock-based compensation grants for the six months ended June 30, 2010:

	<b>Stock Awards Granted</b>	<b>Weighted-Average Grant Price Per Share</b>
Stock appreciation rights	120,788	\$ 17.52
Restricted stock	91,717	\$ 17.41

The following table summarizes the Company's stock-based compensation expense for the three and six months ended June 30, 2009 and 2010 (in millions):

	<b>Three Months Ended June 30,</b>		<b>Six Months Ended June 30,</b>	
	<b>2009</b>	<b>2010</b>	<b>2009</b>	<b>2010</b>
Stock appreciation rights	\$ 0.4	\$ 0.5	\$ 0.9	\$ 0.9
Restricted stock	0.4	0.4	0.8	0.8
<b>Total stock-based compensation</b>	<b>\$ 0.8</b>	<b>\$ 0.9</b>	<b>\$ 1.7</b>	<b>\$ 1.7</b>

**Table of Contents**

Total unrecognized compensation cost related to unvested awards as of June 30, 2010 totaled \$4.9 million. The cost of these unvested awards is being recognized over the requisite vesting period of 36 months from date of grant.

**12. INCOME TAXES**

In accordance with ASC 740, *Income Taxes*, the Company has recorded a valuation allowance against its net deferred tax asset. The effect of maintaining the valuation allowance is to substantially reduce the Company's effective tax rate as the tax expense or benefit recorded at the statutory tax rate is offset by a corresponding expense or benefit resulting from the change in the valuation allowance. Accordingly, the Company's effective tax rate for the six months ended June 30, 2009 and 2010 was -0.1% and -15.7%, respectively, which resulted in a benefit of \$2 thousand and \$134 thousand, respectively. The higher 2010 effective tax rate was primarily the result of benefits recognized in the six months ended June 30, 2010 due to lower than expected tax settlements with various taxing jurisdictions.

The Company operates in multiple tax jurisdictions and, in the normal course of business, its tax returns are subject to examination by various taxing authorities. Such examinations may result in future assessments by these taxing authorities and the Company has accrued a liability when it believes that it is not more likely than not that it will realize the benefits of tax positions that it has taken or for the amount of any tax benefit that exceeds the cumulative probability threshold in accordance with ASC 740. The Company believes that adequate provisions have been made for all tax returns subject to examination. As of June 30, 2010, tax years 2003 through 2009 remain subject to examination by federal and certain state tax jurisdictions. The Internal Revenue Service is currently examining our federal income tax returns for the tax years 2003 through 2008.

The Company has taken tax positions in certain taxing jurisdictions for which it is reasonably possible that the total amounts of unrecognized tax benefits may decrease within the next 12 months. The Company does not expect any significant change to the total amount of unrecognized tax benefits within the next 12 months.

**13. SEASONALITY**

The Company's operating results have historically varied from quarter to quarter, in part due to seasonal trends in the demand for Trex®. The Company has historically experienced lower net sales during the fourth quarter because holidays and adverse weather conditions in certain regions reduce the level of home improvement and construction activity.

**14. COMMITMENTS AND CONTINGENCIES***Contract Termination Costs*

As of June 30, 2010, the minimum payments remaining under the Company's lease relating to its reconsidered corporate relocation over the years ending December 31, 2010, 2011, 2012, 2013 and 2014 are \$0.8 million, \$1.6 million, \$2.0 million, \$2.5 million and \$2.5 million, respectively, and \$11.8 million thereafter. The minimum receipts remaining under the Company's existing subleases over the years ending December 31, 2010, 2011, 2012, 2013 and 2014 are \$0.8 million, \$1.6 million, \$1.6 million, \$1.3 million and \$1.0 million, respectively. The Company accounts for the costs associated with the lease as contract termination costs in accordance with FASB ASC 420, *Exit or Disposal Cost Obligations*.

The following table provides information about the Company's liability related to the lease (in thousands):

	2009	2010
Balance as of January 1	\$ 524	\$ 485
Less: net rental receipts (payments)	(34)	107
Accretion of discount	20	20
Balance as of June 30	\$ 510	\$ 612

*Product Warranty*

The Company warrants that its products will be free from material defects in workmanship and material and will not check, split, splinter, rot or suffer structural damage from termites or fungal decay. With respect to the Company's new Transcend product, the Company further warrants

## Edgar Filing: TREX CO INC - Form 10-Q

that the product will not fade in color more than a certain amount and will be resistant to permanent staining from food substances or mold (provided the stain is cleaned within seven days of appearance). Each of these warranties generally extends for a period of 25 years for residential use and 10 years for commercial use. If there is a breach of such warranties, the Company has an obligation either to replace the defective product or refund the purchase price. The Company establishes warranty reserves to provide for estimated future expenses as a result of product defects that result in claims. Reserve estimates are based on management's judgment, considering such factors as cost per claim, historical experience, anticipated rates of claims, and other available information. Management reviews and adjusts these estimates, if necessary, on a quarterly basis based on the differences between actual experience and historical estimates.

**Table of Contents**

In 2007, the Company recorded a significant increase to its warranty reserve due to a high number of claims resulting from a small percentage of material produced at its Nevada facility that exhibited surface defects. The Company continues to settle these claims against the warranty reserve and regularly monitors the adequacy of the remaining reserve.

During the three months ended June 30, 2010, the Company experienced an increased trend in the number of warranty claims received. The Company also experienced changes in the nature of warranty claims, including the expected cost to resolve such claims. As a result of these developments, the Company recorded an increase to the warranty reserve of \$9.0 million during the three months ended June 30, 2010. Management believes that the increased number of claims is a result of the Company's involvement in, and related public announcements about, a recently settled class action suit related to surface flaking of a limited amount of product produced and sold at the Nevada facility prior to the middle of 2006.

It is possible that the ultimate settlement of the claims may differ from the amount recorded and may result in future charges against income. The Company estimates that a 10% change in the expected number of remaining claims or the expected cost to settle claims may result in approximately a \$1 million change in the warranty reserve.

The following is a reconciliation of the Company's warranty reserve (in thousands):

	<b>2009</b>	<b>2010</b>
Beginning balance, January 1	\$ 21,856	\$ 11,524
Provision for estimated warranties	250	9,000
Settlements made during the period	(4,611)	(5,115)
Ending balance, June 30	\$ 17,495	\$ 15,409

**Table of Contents**

*Legal Matters*

As reported in the Company's Annual Report on Form 10-K for the year ended December 31, 2009, on January 19, 2009, a class action case was commenced against the Company in the Superior Court of California, Santa Cruz County, by the lead law firm of Lieff, Cabraser, Heimann & Bernstein, LLP and certain other law firms (the "Lieff Cabraser Group") on behalf of Eric Ross and Bradley S. Hureth and similarly situated plaintiffs. These plaintiffs generally allege certain defects in the Company's products, and that the Company has failed to provide adequate remedies for defective products. On February 13, 2009, the Company removed this case to the United States District Court, Northern District of California.

On January 21, 2009, a class action case was commenced against the Company in the United States District Court, Western District of Washington by the law firm of Hagens Berman Sobol Shapiro LLP (the "Hagens Berman Firm") on behalf of Mark Okano and similarly situated plaintiffs. This case was transferred by the Washington Court to the California Court as a related case to the Lieff Cabraser Group's case.

On July 30, 2009, the U.S. District Court for the Northern District of California preliminarily approved a settlement of the claims of the lawsuit commenced by the Lieff Cabraser Group involving surface flaking of the Company's product, and on March 15, 2010, it granted final approval of the settlement. On April 14, 2010, the Hagens Berman Firm filed a notice to appeal the District Court's ruling to the United States Court of Appeals for the Ninth Circuit. On July 9, 2010, the Hagens Berman Firm dismissed their appeal, effectively making the settlement final.

### **Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

*This management's discussion and analysis contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. All statements regarding our expected financial position and operating results, our business strategy, our financing plans, forecasted demographic and economic trends relating to our industry and similar matters are forward-looking statements. These statements can sometimes be identified by our use of forward-looking words such as may, will, anticipate, estimate, expect, intend or similar expressions. We cannot promise you that our expectations in such forward-looking statements will turn out to be correct. Our actual results could be materially different from our expectations because of various factors, including the factors discussed under Item 1A. Risk Factors in our Annual Report on Form 10-K for fiscal year 2009 filed with the Securities and Exchange Commission. These statements are also subject to risks and uncertainties that could cause the Company's actual operating results to differ materially. Such risks and uncertainties include the extent of market acceptance of the Company's products; the costs associated with the development and launch of new products and the market acceptance of such new products; the sensitivity of the Company's business to general economic conditions; the Company's ability to obtain raw materials at acceptable prices; the Company's ability to maintain product quality and product performance at an acceptable cost; the level of expenses associated with product replacement and consumer relations expenses related to product quality; and the highly competitive markets in which the Company operates.*

#### **Overview**

*General.* Trex Company, Inc., (We or the Company), is the largest U.S. manufacturer of wood-alternative decking, railing, fencing and trim products, which are marketed under the brand name Trex®. We offer a comprehensive set of aesthetically durable, low maintenance product offerings and believe that the range and variety of our product offerings allow consumers to design personal outdoor living space using Trex brand products.

The Company has seven decking products: Trex Contours®, Trex Origins®, Trex Accents®, Trex Accents Fire Defense®, Trex Brasilia®, Trex Escapes® and Trex Transcend®; two railing products: Trex Designer Series Railing® and Trex Transcend® Railing; two fencing products: Trex Seclusions® and Trex Surroundings®, and a cellular PVC outdoor trim product; TrexTrim®. In addition, the Company offers Trex Hideaway®, which is a hidden fastening system for specially grooved boards.

*Highlights related to the second quarter of 2010 include:*

We experienced an increase in net sales of 26% in the quarter, compared to the second quarter of 2009, primarily driven by strong demand for our recently launched Trex Transcend decking and railing products.

We recognized \$11.4 million of certain charges in the second quarter, \$9.0 million related to an increase to the warranty reserve for decking product manufactured at the company's Nevada plant prior to mid-2006 and \$2.4 million related to our Spanish joint venture for recycling waste polyethylene.

Gross margin in the second quarter of 2010, excluding the \$9.0 million warranty charge, was 34.4%, a 320 basis point improvement compared to the second quarter of 2009, driven by higher sales and production volumes coupled with extending the operations improvements that we made throughout 2009.

Gross margins included the negative impact of Transcend startup costs, but to a lesser extent as compared to the first quarter of 2010.

We continued executing our aggressive 2010 branding campaign with a focus on supporting our Transcend product launch and extending our reach in the marketplace, which resulted in increased branding expense in the quarter.

*Net Sales.* Net sales consist of sales and freight, net of returns and discounts. The level of net sales is principally affected by sales volume and the prices paid for Trex products. Our branding and product differentiation strategy enables us to command premium prices over wood and to maintain price stability for Trex. To ensure adequate availability of product to meet anticipated seasonal consumer demand, we have historically provided our distributors and dealers incentives to build inventory levels before the start of the prime deck-building season. These incentives include prompt payment discounts or extended payment terms. In addition, from time to time we may offer price discounts on specified products

## Edgar Filing: TREX CO INC - Form 10-Q

and other incentives based on increases in distributor purchases as part of specific promotional programs. There are no product return rights granted to our distributors except those granted pursuant to the warranty provisions of our agreements with distributors.

*Gross Profit.* Gross profit represents the difference between net sales and cost of sales. Cost of sales consists of raw materials costs, direct labor costs, manufacturing costs and freight. Raw materials costs generally include the costs to purchase and transport waste wood fiber, reclaimed polyethylene, or PE material, and pigmentation for coloring Trex products. Direct labor costs include wages and benefits of personnel engaged in the manufacturing process. Manufacturing costs consist of costs of depreciation, utilities, maintenance supplies and repairs, indirect labor, including wages and benefits, and warehouse and equipment rental activities.

**Table of Contents**

*Selling, General and Administrative Expenses.* The largest components of selling, general and administrative expenses are branding and other sales and marketing costs, which we use to build brand awareness of Trex in the decking, railing, fencing and trim markets. Sales and marketing costs consist primarily of salaries, commissions and benefits paid to sales and marketing personnel, consumer relations, advertising expenses and other promotional costs. General and administrative expenses include salaries and benefits of personnel engaged in research and development, procurement, accounting and other business functions, office occupancy costs attributable to these functions, and professional fees. As a percentage of net sales, selling, general and administrative expenses have varied from quarter to quarter due, in part, to the seasonality of our business.

**Results of Operations**

The following table shows, for the three and six months ended June 30, 2009 and 2010, respectively, selected statement of operations data as a percentage of net sales:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2009	2010	2009	2010
Net sales	100.0%	100.0%	100.0%	100.0%
Cost of sales	68.8	73.4	71.5	74.3
Gross profit	31.2	26.6	28.5	25.7
Selling, general and administrative expenses	19.1	18.4	21.4	21.1
Income from operations	12.2	8.2	7.1	4.6
Interest expense, net	4.0	3.3	4.5	4.2
Income before taxes and extraordinary item	8.2	4.9	2.7	0.4
Provision for income taxes	0.1	0.0	0.0	(0.1)
Net income	8.1%	4.9%	2.7%	0.5%

**Three Months Ended June 30, 2010 Compared With Three Months Ended June 30, 2009**

*Net Sales.* Net sales in the quarter ended June 30, 2010 (the 2010 quarter) increased 26.3% to \$115.5 million from \$91.5 million in the quarter ended June 30, 2009 (the 2009 quarter). The increase in net sales was driven primarily by a 22% increase in sales volume and, to a lesser extent, by a 4% increase in average price per unit in the 2010 quarter compared to the 2009 quarter. The increase in sales volume reflected a strong demand for the Company's products, particularly its new Transcend decking and railing product offerings, which the Company launched in early 2010 and supported with a robust marketing campaign. The increase in average price per unit in the 2010 quarter resulted from a shift in sales mix toward higher priced products, specifically the Company's new Transcend decking and railing product offerings and other railing products. The increase in railing sales reflects a concerted effort by the Company to improve its railing offerings and capture more of the railing market.

*Gross Profit.* Gross profit increased 7.6% to \$30.7 million in the 2010 quarter from \$28.6 million in the 2009 quarter. Gross profit as a percentage of net sales, gross margin, decreased to 26.6% in the 2010 quarter from 31.2% in the 2009 quarter. Gross profit in the 2010 quarter was adversely affected by a \$9.0 million increase to the warranty reserve. Excluding the increase in the warranty reserve, gross profit in the 2010 quarter was \$39.7 million, an \$11.2 million or 39.1% increase compared to the 2009 quarter and gross margin was 34.4%, a 320 basis point improvement compared to the 2009 quarter. Increased capacity utilization contributed 7.0% of the improvement in gross margin. The 2010 quarter reflects the start-up costs associated with the introduction of Transcend, which partially offset the positive impact of improved capacity utilization.

*Selling, General and Administrative Expenses.* Selling, general and administrative expenses increased 21.8% to \$21.2 million in the 2010 quarter from \$17.4 million in the 2009 quarter. The 2010 quarter included a non-cash charge of \$2.4 million related to the Company's investment in Denplax, a partially-owned Spanish joint venture. Before the Denplax-related charge, selling, general and administrative expenses in the 2010 quarter were \$18.8 million, a \$1.4 million or 8.1% increase compared to the 2009 quarter. The increase in the 2010 quarter was primarily related to a \$1.3 million increase in branding expenses.

## Edgar Filing: TREX CO INC - Form 10-Q

*Interest Expense.* Net interest expense increased \$0.3 million to \$3.9 million in the 2010 quarter from \$3.6 million in the 2009 quarter. Net interest expense included \$1.9 million and \$1.6 million of non-cash charges to the 2010 and 2009 quarters, respectively, related to debt discount amortization for the convertible bonds.

*Provision for Income Taxes.* The Company's effective tax rate for the 2010 quarter and 2009 quarter was 0.0% and 1.6%, respectively, which resulted in an expense of \$0.1 million in the 2009 quarter. The effective tax rate was substantially lower than the statutory rate in both quarters due to the effect of the valuation allowance the Company maintains against its net deferred tax assets which substantially offsets statutory income tax.

## **Table of Contents**

### **Six Months Ended June 30, 2010 Compared With Six Months Ended June 30, 2009**

*Net Sales.* Net sales in the six months ended June 30, 2010 (the 2010 six-month period) increased 14.3% to \$181.8 million from \$159.1 million in the six months ended June 30, 2009 (the 2009 six-month period). The increase in net sales was driven equally by a 7% increase in sales volume and a 7% increase in average price per unit in the 2010 six-month period compared to the 2009 six-month period. The increase in sales volume reflected a strong demand for the Company's products, particularly its new Transcend decking and railing product offerings, which the Company launched in early 2010 and supported with a robust marketing campaign. The increase in average price per unit in the 2010 six-month period resulted primarily from a shift in sales mix toward higher priced products, specifically the Company's new Transcend decking and railing product offering and, to a lesser extent, from lower payment discounts taken by distributors under the Company's Early Buy incentive program. The increase in railing sales reflects a concerted effort by the Company to improve its railing offerings and capture more of the railing market.

*Gross Profit.* Gross profit increased 3.3% to \$46.8 million in the 2010 six-month period from \$45.3 million in the 2009 six-month period. Gross profit as a percentage of net sales, gross margin, decreased to 25.7% in the 2010 six-month period from 28.5% in the 2009 six-month period. Gross profit in the 2010 six-month period was adversely affected by a \$9.0 million increase to the warranty reserve. Excluding the increase to the warranty reserve, gross profit in the 2010 six-month period was \$55.8 million, a \$10.5 million or 23.1% increase compared to the 2009 six-month period and gross margin was 30.7%, a 220 basis point improvement as compared to 2009. Increased capacity utilization contributed 5.1% of the improvement in gross margin. The 2010 six-month period reflects the start-up costs associated with the introduction of Transcend, which partially offset the positive impact of improved capacity utilization.

*Selling, General and Administrative Expenses.* Selling, general and administrative expenses increased 12.7% to \$38.3 million in the 2010 six-month period from \$34.0 million in the 2009 six-month period. The 2010 six-month period included a non-cash charge of \$2.4 million related to the Company's investment in Denplax, a partially-owned Spanish joint venture. Before the Denplax-related charge, selling, general and administrative expenses in the 2010 six-month period were \$35.9 million, a \$1.9 million or 5.6% increase compared to the 2009 six-month period. The increase in the 2010 six-month period was primarily related to a \$2.7 million increase in branding expenses driven by increased advertising and merchandising costs associated with new products and a \$1.5 million increase to personnel related costs which were offset in part, by reduced carrying costs related to the Olive Branch facility.

*Interest Expense.* Net interest expense increased to \$7.7 million in the 2010 six-month period from \$7.1 million in the 2009 six-month period. Net interest expense included \$3.9 million and \$3.3 million of non-cash charges to the 2010 and 2009 six-month periods, respectively, related to debt discount amortization for the convertible bonds.

*Provision for Income Taxes.* The Company's effective tax rate for the 2010 and 2009 six-month periods was -15.7% and -0.1%, respectively, which resulted in a benefit of \$134 thousand and \$2 thousand, respectively. The higher 2010 effective tax rate was primarily the result of benefits recognized in the 2010 six-month period due to lower than expected tax settlements with various taxing jurisdictions. The effective tax rate was substantially lower than the statutory rate in both six-month periods due to the effect of the valuation allowance the Company maintains against its net deferred tax assets which substantially offsets statutory income tax.

### **Liquidity and Capital Resources**

The Company finances its operations and growth primarily with cash flow from operations, borrowings under its revolving credit facility and other loans, operating leases and normal trade credit terms from operating activities.

At June 30, 2010, the Company had \$22.3 million of cash and cash equivalents.

The Company believes that cash on hand, cash from operations and borrowings expected to be available under the Company's existing revolving credit facility will provide sufficient funds to enable the Company to fund its planned capital expenditures, make scheduled principal and interest payments, fund the warranty reserve and meet its other cash requirements. The Company currently expects that it will fund its future capital expenditures from operations and financing activities. The actual amount and timing of the Company's future capital requirements may differ materially from the Company's estimate depending on the demand for Trex and new market developments and opportunities.

*Sources and Uses of Cash.* The Company's cash provided by operating activities for the 2010 six-month period was \$8.3 million compared to \$28.3 million for the 2009 six-month period. The \$20.0 million reduction in cash provided by operating activities was primarily driven by increases in finished goods inventory and accounts receivable relative to the 2009 six-month period. The unfavorable effects on cash flow related to inventory is due to the fact that during the 2009 six-month period the Company generated cash flow through a reduction of excess inventory balances that existed at December 31, 2008. During the 2010 six-month period, the Company consumed cash as it slightly increased inventories in response to increased demand for its products. The increase in accounts receivable was primarily attributable to increased sales in

## Edgar Filing: TREX CO INC - Form 10-Q

the latter part of the 2010 six-month period as compared to the 2009 six-month period and, to a lesser extent, extended payment terms offered as a part of our early buy program. The Company expects to collect the accounts receivable balances during the first two to six weeks of the third quarter.

## **Table of Contents**

The Company's cash used in investing activities totaled \$4.3 million in the 2010 six-month period, compared to cash used in investing activities of \$4.1 million in the 2009 six-month period. In the 2010 six-month period, the Company applied its expenditures primarily to normal capital expenditures, consisting of manufacturing equipment for process and productivity improvements, including retrofitting lines to produce new products.

The Company's cash used in financing activities was \$1.3 million in the 2010 six-month period compared to cash used by financing activities of \$1.1 million in the 2009 six-month period. The Company's borrowings from its revolving credit facility were \$44.0 million in the 2010 six-month period compared to no borrowings in the 2009 six-month period. The Company utilized the credit facility during the 2010 six-month period to manage working capital needs that arose from the increases in inventory and accounts receivable within the 2010 six-month period. The Company repaid all borrowings under the revolving credit facility in the 2010 six-month period.

*Indebtedness.* At June 30, 2010, the Company's indebtedness, including the fair value of the interest rate swaps and excluding the unamortized debt discount, totaled \$100.7 million and the annualized overall weighted average interest rate of such indebtedness, including the effect of the Company's interest rate swap, was approximately 6.08%.

The Company's ability to borrow under its revolving credit facility is tied to a borrowing base that consists of certain receivables and inventories. At June 30, 2010, the Company had no outstanding borrowings under its revolving credit facility and an available borrowing capacity of \$79.0 million.

*Debt Covenants.* To remain in compliance with covenants contained within its debt agreements, the Company must maintain specified financial ratios based on its levels of debt, capital, net worth, fixed charges, and earnings before interest, taxes, depreciation and amortization. At June 30, 2010, the Company was in compliance with these covenants.

*Capital Requirements.* The Company made capital expenditures in the 2010 six-month period totaling \$4.3 million, primarily for manufacturing equipment. The Company currently estimates that its capital requirements in 2010 will be approximately \$10 million.

## **Seasonality**

The Company's operating results have historically varied from quarter to quarter, in part due to seasonal trends in the demand for Trex®. The Company has historically experienced lower net sales during the fourth quarter because holidays and adverse weather conditions in certain regions reduce the level of home improvement and construction activity.

## **Item 3. Quantitative and Qualitative Disclosures About Market Risk**

For information regarding our exposure to certain market risks, see Quantitative and Qualitative Disclosures about Market Risk, in Part II, Item 7A of the Company's 10-K for the year ended December 31, 2009. There were no material changes to the Company's market risk exposure during the three months ended June 30, 2010.

## **Item 4. Controls and Procedures**

The Company's management, with the participation of its Chief Executive Officer, who is the Company's principal executive officer, and its Vice President and Chief Financial Officer, who is the Company's principal financial officer, has evaluated the effectiveness of the Company's disclosure controls and procedures as of June 30, 2010. Based on this evaluation, the Chief Executive Officer and the Chief Financial Officer have concluded that the Company's disclosure controls and procedures are effective. In addition, there have been no changes in the Company's internal control over financial reporting during the quarter ended June 30, 2010 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

**Table of Contents****PART II****OTHER INFORMATION****Item 1. Legal Proceedings**

As reported in the Company's Annual Report on Form 10-K for the year ended December 31, 2009, on January 19, 2009, a class action case was commenced against the Company in the Superior Court of California, Santa Cruz County, by the lead law firm of Lieff, Cabraser, Heimann & Bernstein, LLP and certain other law firms (the Lieff Cabraser Group) on behalf of Eric Ross and Bradley S. Hureth and similarly situated plaintiffs. These plaintiffs generally allege certain defects in the Company's products, and that the Company has failed to provide adequate remedies for defective products. On February 13, 2009, the Company removed this case to the United States District Court, Northern District of California.

On January 21, 2009, a class action case was commenced against the Company in the United States District Court, Western District of Washington by the law firm of Hagens Berman Sobol Shapiro LLP (the Hagens Berman Firm) on behalf of Mark Okano and similarly situated plaintiffs. This case was transferred by the Washington Court to the California Court as a related case to the Lieff Cabraser Group's case.

On July 30, 2009, the U.S. District Court for the Northern District of California preliminarily approved a settlement of the claims of the lawsuit commenced by the Lieff Cabraser Group involving surface flaking of the Company's product, and on March 15, 2010, it granted final approval of the settlement. On April 14, 2010, the Hagens Berman Firm filed a notice to appeal the District Court's ruling to the United States Court of Appeals for the Ninth Circuit. On July 9, 2010, the Hagens Berman Firm dismissed their appeal, effectively making the settlement final.

**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds**

(c) The following table provides information about our purchases of our common stock during the quarter ended June 30, 2010 in accordance with Item 703 of Regulation S-K:

Period		(a) Total Number of Shares (or Units) Purchased (1)	(b) Average Price Paid per Share (or Unit) (\$)	(c) Total Number of Shares (or Units) Purchased as Part of Publicly Announced Plans or Programs	(d) Maximum Number (or Approximate Dollar Value) of Shares (or Units) that May Yet Be Purchased Under the Plans or Program
April 1, 2010	April 30, 2010		\$ 0.00	Not applicable	Not applicable
