1. QUALITATIVE INFORMATION RELATED TO FINANCIAL RESULTS

(Please refer to Summary Results for the Second Quarter (First Half) of Fiscal 2010 on page 2-1 for more information.)

(1) Qualitative Information related to Consolidated Results of Operations

Reviewing the economic environment over the past six months ended September 30, 2010, there are indications of a slowing of the continuing gradual recovery in the global economy which has been led by newly developing countries, and there is a heightened risk of a slackening in the economy mainly in Europe and the United States as global fiscal tightening makes its impact.

In the United States, a sustained recovery is taking place on the basis of steady capital investment and positive trends in consumer spending, but business performance- and employment-related indices have been slow to improve and there is a risk of a stalling in economic growth. In Europe, economic growth is stagnant as consumer spending remains weak with long-term labor force adjustments and so on, added to which the difficulty in predicting the effect of the fiscal problems experienced by certain countries on the financial markets and the real economy and so on means that there exists a distinct lack of visibility regarding the future of the global economy. In Asia, the increase in demand in the Chinese market has a knock-on effect in inducing an increase in exports and production activity in neighboring economies, and while the pace of growth is slowing, the region is maintaining strong economic growth.

In Japan, although positive growth is being maintained as corporate profits improve among other factors, the mild deflationary situation is continuing and the sharp appreciation of the value of the yen against other currencies continues its course and so on, leading to a stalling in improvements in the economy. There are several causes for concern over the future direction of the economy in addition to how the various stimulus programs will lose their effectiveness going forward, there are also the risks of a slowing in economies abroad and a worsening in the employment situation, combining with the fluctuations in exchange rates to serve as a drag on economic growth.

In light of this economic environment, we will aim to further enhance our corporate value through the steady implementation of our Transformation Program, which consists of the program for improving profitability, the program for enhancing financial base and the program for strengthening front-line business capabilities.

Under the above economic environment, Net Income for the six months ended September 30, 2010 amounted to ¥341.7 billion, increasing by ¥253.9 billion from the corresponding period of the previous fiscal year.

(2) Qualitative Information related to Consolidated Financial Conditions

Consolidated total assets as of September 30, 2010 amounted to ¥157,754.4 billion, increasing by ¥1,500.8 billion from the end of the previous fiscal year.

Net Assets amounted to ¥6,689.2 billion, increasing by ¥852.2 billion from the end of the previous fiscal year. Shareholders Equity amounted to ¥4,176.4 billion, Valuation and Translation Adjustments amounted to ¥212.6 billion and Minority Interests amounted to ¥2,297.3 billion.

In Assets, the balance of Loans and Bills Discounted amounted to \$62,069.8 billion, decreasing by \$94.6 billion from the end of the previous fiscal year while Securities were \$44,159.2 billion, increasing by \$1,062.8 billion from the end of the previous fiscal year. In Liabilities, Deposits amounted to \$75,612.0 billion, decreasing by \$727.7 billion from the end of the previous fiscal year.

The Consolidated Capital Adequacy Ratio (Basel II BIS Standard) was 15.40% (preliminary).

| | March 31, 2009 | March 31, 2010 | September 30, 2010 |
|----------|----------------|----------------|--------------------|
| Basel II | 10.53% | 13.46% | 15.40% |

(3) Qualitative Information related to Consolidated Earnings Estimates

Based on the financial results for the second quarter of fiscal 2010, MHFG estimates Ordinary Profits of ¥670.0 billion (an increase of ¥100.0 billion from the estimate which was announced on May 14, 2010) and Net Income of ¥500.0 billion (an increase of ¥70.0 billion from the same estimate above) for fiscal 2010.

The above estimates constitute forward-looking statements within the meaning of the United States Private Securities Litigation Reform Act of 1995. Please see the forward-looking statements legend for a description of the factors that could affect our ability to meet these estimates.

2. Other Information

(2) Changes in Accounting Methods and Presentation

[Changes in Accounting Methods]

(Accounting Standard for Financial Instruments)

Mizuho Financial Group has applied Accounting Standard for Financial Instruments (ASBJ Statement No.10, March 10, 2008) and Guidance on Disclosures about Fair Value of Financial Instruments (ASBJ Guidance No.19, March 10, 2008) from the end of the previous fiscal year.

(Adoption of Accounting Standard for Equity Method of Accounting for Investments and Practical Solution on Unification of Accounting Policies Applied to Associates Accounted for Using the Equity Method)

Mizuho Financial Group has applied Accounting Standard for Equity Method of Accounting for Investments (ASBJ Statement No. 16, March 10, 2008) and Practical Solution on Unification of Accounting Policies Applied to Associates Accounted for Using the Equity Method (PITF No. 24, March 10, 2008) beginning with this interim period.

This application does not affect the financial statements.

(Adoption of Accounting Standard for Asset Retirement Obligations)

Mizuho Financial Group has applied Accounting Standard for Asset Retirement Obligations (ASBJ Statement No. 18, March 31, 2008) and Guidance on Accounting Standard for Asset Retirement Obligations (ASBJ Guidance No. 21, March 31, 2008) beginning with this interim period.

As a result, Income before Income Taxes and Minority Interests decreased by \$3,445 million. The change in Asset Retirement Obligations (which is in Other Liabilities) due to commencement of application of the accounting standards is \$6,257 million.

[Additional Information]

(Issuance of New Shares by the Spread Method)

The spread method is adopted for the issuance of new shares (5,609,000 thousand shares) with a payment date of July 21, 2010. This is a method where the new shares are underwritten and purchased by the initial purchasers at the amount to be paid to MHFG (\(\xi\)125.27 per share), and sold by the underwriters to the investors at an issue price (\(\xi\)130.00 per share) different from the amount to be paid to MHFG.

Using the spread method, the aggregate amount of the difference between (a) the issue price and (b) the amount to be paid to MHFG is retained by the initial purchasers, and allocated to each of the underwriters as underwriting fees. Accordingly, Other Ordinary Expenses does not include the amount equivalent to such underwriting fees of ¥26,530 million related to the issuance.

The amount equivalent to such underwriting fees of ¥9,734 million, recognized as profit by consolidated subsidiaries, is eliminated and recorded as an increase in Capital Surplus.

Summary Results for the Second Quarter (First Half) of Fiscal 2010

I. Summary of Income Analysis

Ø Consolidated Net Business Profits

Consolidated Gross Profits for the first half of fiscal 2010 increased by JPY 95.6 billion on a year-on-year basis to JPY 1,100.8 billion. Gross Profits of the banking subsidiaries increased by JPY 94.8 billion on a year-on-year basis (increased by JPY 139.8 billion after the adjustment of the impact for fiscal 2009 of a change in the recipients of dividend payments under our schemes for capital raising through issuance of preferred debt securities by SPCs). This is due to an increase in income from the Trading segment derived from flexible and timely operations properly interpreting market trends, in addition to a year-on-year increase in income from Customer Groups (JPY 22.0 billion), both domestically and overseas, arising mainly from non-interest income.

G&A expenses decreased by JPY 11.9 billion on a year-on-year basis mainly due to our overall cost reduction efforts.

Aggregated consolidated Gross Profits (Net Operating Revenues) of our two securities subsidiaries (Mizuho Securities and Mizuho Investors Securities) decreased by JPY 19.3 billion on a year-on-year basis.

As a result, Consolidated Net Business Profits amounted to JPY 464.9 billion, a year-on-year increase of JPY 105.4 billion.

Ø Consolidated Net Income

Credit-related Costs of the 3 Banks amounted to a reversal of JPY 25.2 billion, an improvement of JPY142.2 billion on a year-on-year basis, primarily due to improved obligor classifications through our business revitalization support to corporate customers and other factors. Consolidated Credit-related Costs also amounted to a reversal of JPY 8.5 billion, an improvement of JPY 170.3 billion on a year-on-year basis.

Net Losses related to Stocks of the 3 Banks amounted to JPY 15.0 billion. This is mainly as a consequence of recording devaluation losses for certain stocks after a decline in stock prices, despite recording Gains on Sales through our efforts to reduce our stock portfolio.

As a result, Consolidated Net Income for the first half of fiscal 2010 increased by JPY 253.9 billion on a year-on-year basis to JPY 341.7 billion, which far exceeds our planned net income amount for the first half of fiscal 2010 (JPY 180 billion). (Consolidated)

^{*} The results of 1H of FY2009 included the impact on banking subsidiaries (JPY 45.0 billion, eliminated on a consolidated basis) of a change in the recipients of dividend payments under our schemes for capital raising through issuance of preferred debt securities by SPCs. After adjustment for this impact, the change from 1H of FY2009 for Gross Profits is JPY 139.8 billion, and that for Net Business Profits is JPY 151.8 billion, respectively

Ø Net Interest Income

The average loan balance for the first half of fiscal 2010 decreased by JPY 1.9 trillion from the second half of fiscal 2009. This is due to a decrease in domestic loans mainly to large corporate customers and overseas loans (including foreign exchange translation impact).

The domestic loan-and-deposit rate margin for the same period was 1.36% and slightly decreased by 0.03% from the second half of fiscal 2009, mainly due to a decline in the return on loans that followed the decline of market rates.

Ø Non-Interest Income

Non-interest income from Customer Groups of the 3 Banks (managerial accounting basis) for the first half of fiscal 2010 increased by JPY 30.8 billion on a year-on-year basis.

As well as income associated with investment trusts and individual annuities from individual customers substantially increasing on a year-on-year basis, income associated with foreign exchange business, overseas business, trust and asset management business of Mizuho Trust & Banking and other factors also increased.

II. Financial Soundness

The balance of Disclosed Claims under the Financial Reconstruction Law (3 Banks) decreased from that as of March 31, 2010. NPL Ratio also remained at a low level of 1.90%.

The balance of Consolidated Net Deferred Tax Assets decreased by JPY 73.7 billion from that as of March 31, 2010, and the ratio to Tier 1 Capital was 7.1%, a decline of 2.9% from March 31, 2010.

Our Consolidated Capital Adequacy Ratio was 15.40%, an improvement of 1.94% from that as of March 31, 2010.

III. Disciplined Capital Management

In July 2010, we issued common stock (the number of shares issued: 6 billion shares, total amount paid: JPY 751.6 billion). This was aimed at establishing capital base as a cornerstone for our sustainable growth for the future, in anticipation of the revision of capital regulations. Meanwhile, we recorded Consolidated Net Income of JPY 341.7 billion for the first half of fiscal 2010.

It has become increasingly important for financial institutions to strengthen capital base amid the ongoing global discussions on the revision of capital regulations. Therefore, as our medium-term target, we aim to increase our consolidated Tier 1 capital ratio to 12% level and our prime capital(*1) ratio to 8% or above, and as of September 30, 2010, our consolidated Tier 1 capital ratio and our prime capital ratio were 11.78% and 8.10%, respectively, as a result of the common stock issuance and the enhanced Consolidated Net Income in the first half of fiscal 2010.

We announced Mizuho s Transformation Program in May 2010, and are addressing the issues for improving profitability and enhancing financial base. We will strive to further strengthen our financial base mainly by accumulating retained earnings and improving asset

efficiency through the steady implementation of the Program. Accordingly, we believe we will be able to sufficiently meet new capital regulations.

Our preliminary simulation indicates that a common equity capital ratio(*2) of mid-8% is assumed as of the end of fiscal 2012, when the new capital regulation will be implemented.

We continue to pursue disciplined capital management policy, optimally balancing strengthening of stable capital base and steady returns to shareholders in accordance with changes in the business environment, our financial condition or other factors.

- (*1) Prime Capital = Tier 1 capital preferred debt securities preferred stock (excluding mandatory convertible preferred stock)
- (*2) Common equity capital ratio: calculated based on the inclusion of the Eleventh Series Class XI Preferred Stock(*3) that will be mandatorily converted in July 2016.

At this moment, details - such as the calculation method for the capital adequacy ratio in the new capital regulation - have yet to be determined. Therefore, the estimates above are estimated by Mizuho Financial Group based on the publicly-available materials issued so far.

(*3) The outstanding balance of Eleventh Series Class XI Preferred Stock as of September 30, 2010 (excluding treasury stock) was JPY 486.0 billion (48.5% out of JPY 943.7 billion of the initial amount issued had been already converted into common stock).

Earnings Plan for Fiscal 2010

(Figures below are on a consolidated basis)

- Ø We plan Consolidated Net Business Profits for fiscal 2010 to be JPY 820.0 billion, an increase of JPY 70.0 billion compared with the original plan^(*) based on the results for the first half of fiscal 2010 (an increase of JPY 117.3 billion compared with the previous fiscal year). We endeavor to further strengthen profitability primarily in non-interest income from Customer Groups of the banking subsidiaries mainly by enhancing further the group synergies.
- (*) compared with the original plan announced on May 14, 2010
- Ø We anticipate Credit-related Costs to be JPY -85.0 billion, mainly by continued thorough credit management from the first half of fiscal 2010.
- Ø Based on the above, we plan Consolidated Net Income to be JPY 500.0 billion, an increase of JPY 70.0 billion compared with the original plan.
- Ø It has become increasingly important for financial institutions to strengthen capital base, and we plan to make cash dividend payments of JPY 6 per share of common stock for the fiscal year ending March 31, 2011, unchanged from our existing estimate, in consideration of the balance between strengthening of stable capital base and steady returns to shareholders. We plan to make dividend payments on preferred stock as prescribed.

You can also identify forward-looking statements by discussions of strategy, plans or intentions. These statements reflect our current views with respect to future events and are subject to risks, uncertainties and assumptions.

We may not be successful in implementing our business strategies, and management may fail to achieve its targets, for a wide range of possible reasons, including, without limitation: incurrence of significant credit-related costs; declines in the value of our securities portfolio; changes in interest rates; foreign currency fluctuations; decrease in the market liquidity of our assets; revised assumptions or other changes related to our pension plans; a decline in our deferred tax assets; the effect of financial transactions entered into for hedging and other similar purposes; failure to maintain required capital adequacy ratio levels; downgrades in our credit ratings; our ability to avoid reputational harm; our ability to implement our Medium-term Management Policy and other strategic initiatives and measures effectively; the effectiveness of our operational, legal and other risk management policies; the effect of changes in general economic conditions in Japan and elsewhere; and changes to applicable laws and regulations.

Further information regarding factors that could affect our financial condition and results of operations is included in Item 3.D. Key Information Risk Factors and Item 5. Operating and Financial Review and Prospects in our most recent Form 20-F filed with the U.S. Securities and Exchange Commission (SEC) which is available in the Financial Information section of our web page at www.mizuho-fg.co.jp/english/ and also at the SEC s web site at www.sec.gov.

^{*} Fair value of Japanese stocks with a quoted market price is determined based on the average quoted market price over the month preceding the consolidated balance sheet date.

Fair value of securities other than Japanese stocks is determined at the quoted market price if available, or other reasonable value at the consolidated balance sheet date.

^{*}The book values of Other Securities which have readily determinable fair value are stated at fair value, so Unrealized Gains/Losses indicate the difference between book values on the consolidated balance sheets and the acquisition costs.

^{*} Unrealized Gains/Losses include ¥(5,562) million, ¥7,910 million and ¥46,346 million, which were recognized in the statement of income for September 30, 2010, March 31, 2010 and September 30, 2009, respectively, by applying the fair-value hedge method and others.

^{*} Unrealized Gains (Losses) on Other Securities, net of Taxes (recorded directly to Net Assets after tax and consolidation adjustments, excluding the amount recognized in the statement of income by applying the fair-value hedge method and others, including translation differences regarding securities, the fair values of which are extremely difficult to determine) as of September 30, 2010, March 31, 2010 and September 30, 2009 are ¥32,505 million, ¥176,931 million and ¥116,406 million, respectively.

2. Estimation of Deferred Tax Assets, etc.

Non-Consolidated

(1) Calculation Policy

Recoverability of Deferred Tax Assets is basically assessed based on future taxable income derived from future profitability, considering that Mizuho Bank, Mizuho Corporate Bank and Mizuho Trust & Banking s fundamental profitability enabled the three banks consistently to report an appropriate level of Net Business Profits in previous periods. Mizuho Bank, Mizuho Corporate Bank and Mizuho Trust & Banking s tax losses carry-forwards and future deductible temporary differences in the past resulted from nonrecurring special causes, e.g. losses from extraordinary and significant waiver of claims due to the crash of the bubble economy, acceleration of disposition of NPLs and stock holdings in accordance with government policy to stabilize promptly the financial system under the long deflationary depression, and the restructuring of businesses to meet the severe management environment. Since the three banks could have reported positive taxable income every year if the losses from these special factors were excluded, the conditions under the provisory clause of 5. (1) of Audit Guideline for Considering Recoverability of Deferred Tax Assets (JICPA Audit Committee Report No. 66) have been fulfilled. Period for future taxable income considered in the assessment is five years.

^{*} Amount related to Retirement Benefits Accounting includes ¥(87.4) billion related to gains on securities contributed to employee retirement benefit trust.

<Explanation>

Future taxable income was estimated using more conservative assumptions than those used in the Business Plan, etc. Details of the respective estimated five-year totals are as follows:

Gross Profits: ¥4,044.3 billion [1]

General and Administrative Expenses: ¥2,773.1 billion [2]

Net Business Profits (before Reversal of (Provision for) General Reserve for Possible Losses on Loans): ¥1,271.2 billion [3]

Income before Income Taxes (including Credit-related costs, etc.): ¥343.6 billion [5]

Taxable Income before Current Deductible Temporary Differences: ¥1,004.2 billion [7].

On the other hand, Deferred Tax Assets which are tax deductible in the future, such as Reserves for Possible Losses on Loans, Tax Losses Carried Forward and others amount to \(\frac{4}{8}\)23.5 billion [17]. However, after considering temporary differences which are not expected to be reversed in the next five years, Valuation Allowance of \(\frac{4}{3}\)80.6 billion [18] was provided, therefore after offsetting Deferred Tax Liabilities of

\$184.2 billion [24], \$258.6 billion [25] of Net Deferred Tax Assets was recorded on the balance sheet.

The above includes forward-looking information. See the disclaimer on the first page of this document.

Future taxable income was estimated using more conservative assumptions than those used in the Business Plan, etc. Details of the respective estimated five-year totals are as follows:

Gross Profits: ¥2,759.5 billion [1]

On the other hand, Deferred Tax Assets which are tax deductible in the future, such as Reserves for Possible Losses on Loans, Tax Losses Carried Forward and others amount to \$1,083.8 billion [17]. However, after considering temporary differences which are not expected to be reversed in the next five years, Valuation Allowance of \$738.0 billion [18] was provided, therefore after offsetting Deferred Tax Liabilities of \$24.9 billion [24], \$96.9 billion [25] of Net Deferred Tax Assets was recorded on the balance sheet.

^{*} Amount related to Retirement Benefits Accounting is deferred tax liabilities related to gains on securities contributed to employee retirement benefit trust.

<Explanation>

Future taxable income was estimated using more conservative assumptions than those used in the Business Plan, etc. Details of the respective estimated five-year totals are as follows:

Gross Profits: ¥644.2 billion [1]

General and Administrative Expenses: ¥442.7 billion [2]

Net Business Profits (before Reversal of (Provision for) General Reserve for Possible Losses on Loans): ¥201.5 billion [3]

Income before Income Taxes (including Credit-related costs, etc.): ¥106.6 billion [5]

Taxable Income before Current Deductible Temporary Differences: ¥135.6 billion [7].

On the other hand, Deferred Tax Assets which are tax deductible in the future, such as Reserves for Possible Losses on Loans, Tax Losses Carried Forward and others amount to ¥129.7 billion [17]. However, after considering temporary differences which are not expected to be reversed in the next five years, Valuation Allowance of ¥93.8 billion [18] was provided, therefore after offsetting Deferred Tax Liabilities of ¥16.7 billion [24], ¥19.1 billion [25] of Net Deferred Tax Assets was recorded on the balance sheet.
