- .. Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

Explanatory Note

This amendment is being filed by Life Technologies Corporation (the "Company") to amend and revise the Company's earnings release, dated November 1, 2012 (the "Prior Earnings Release"), previously furnished as Item 9.01 to the Current Report on Form 8-K filed by the Company on November 1, 2012. As announced in the Prior Earnings Release, the Company received an unfavorable verdict in a litigation matter just prior to filing its financial results and holding its conference call on November 1, 2012 for its third quarter ended September 30, 2012. In the litigation matter, the jury ruled that the Company had infringed intellectual property held by Enzo Biochem relating to CE sequencing products during the period 1998-2004 and gave a verdict in the amount of \$48.5 million in favor of Enzo Biochem. The Company strongly disagrees with the verdict and intends to vigorously challenge it in the trial court and on appeal. The relevant patent expired in 2004, so the verdict does not have any effect on the Company's CE business going forward. Although the Company is considering all its options in view of the judgment, including filing various post-trial motions and an appeal, the Company has recorded a charge of approximately \$48.5 million related to the lawsuit in the third quarter of fiscal 2012. As a result, the Company's previously reported third quarter Life Technologies GAAP net income will decrease from \$97.4 million to \$65.9 million, or from \$0.55 to \$0.37 per diluted share. The Company has provided revised financial statements and a reconciliation of the Consolidated Statements of Operations provided in the Prior Earnings Release to the revised Consolidated Statements of Operations. The Company's amended and revised earnings release, dated November 2, 2012, is being furnished as Item 9.01 to this Current Report on Form 8-K/A.

Item 2.02. RESULTS OF OPERATIONS AND FINANCIAL CONDITION.

On November 2, 2012, Life Technologies Corporation, or the Company, issued an amended and revised earnings release regarding the Company's financial results for the period ended September 30, 2012. The full text of the Company's amended and revised earnings release is attached hereto as Exhibit 99.1.

Certain of the information set forth in the amended and revised press release may be considered non-GAAP financial measures. We regularly have reported non-GAAP results for net income and earnings per share in addition to, and not as a substitute for, or superior to, financial measures calculated in accordance with GAAP. The non-GAAP results exclude merger related non-cash items and other costs. Additionally, the discussion surrounding sales performance related to these results excludes the impact of currency fluctuations period over period and acquisitions to measure core sales growth. This growth rate is referred to as organic growth.

Our financial results under GAAP include substantial non-cash charges and tax benefits related to acquired businesses. Our non-GAAP calculations of net income and earnings per share are limited because they do not reflect the entirety of our business costs. However, management believes that the non-GAAP presentation is a useful supplemental disclosure to investors as it provides an indication of the profitability and cash flows of the combined businesses apart from the costs related to acquisitions. Also included in the non-GAAP results are certain business transformation cash expenses which management does not believe are indicative of profitability for ongoing business activities. Management believes that this information is therefore useful to investors in analyzing and assessing our past and future operating performance.

In addition to the non-cash charges above, we exclude from our non-GAAP results the following costs:

Acquisition related amortization, depreciation, contingent consideration revaluation and asset or liability remeasurements;

In process research and development expenses or impairments;

Acquisition and divestiture related gains and losses;

Intangible asset impairment charges related to acquisition portfolio review;

Business consolidation costs required to realize cost synergies from combining our acquired entities with our existing operations;

Edgar Filing: Life Technologies Corp - Form 8-K/A

Certain personnel, benefits, travel and third party costs associated with ongoing acquisition and business transformation activities;

Certain costs associated with rebranding and marketing activities;

Charges associated with the early repayment of debt and non-cash interest expense associated with convertible debt bifurcation;

Certain significant one-time events, and the related compensation impact, that are unlikely to recur in the foreseeable future; and

Tax changes and benefits associated with the above exclusions.

Management views these costs as not indicative of the profitability or cash flows of its ongoing or future operations and excludes these costs as a supplemental disclosure to assist investors in evaluating and assessing our past and future operational performance. Management uses non-GAAP earnings as a primary indicator in planning and forecasting for future periods, including trending the Company's core performance period over period. Management uses these non-GAAP earnings to prepare operating budgets and forecasts and uses these results to measure performance at a corporate level. The Company primarily uses non-GAAP earnings for evaluating management's performance for compensation purposes.

In accordance with General Instruction B.2 of Form 8-K, this information, including the financial results information included in Exhibit 99.1, shall not be deemed filed for the purposes of Section 18 of the Securities Exchange Act of 1934 or otherwise subject to the liabilities of that section, nor shall such information and the financial information contained in such exhibit be deemed incorporated by reference into any filing under the Securities Act of 1933 or the Securities Exchange Act of 1934, except as shall be expressly set forth by specific reference in such a filing.

Item 7.01. REGULATION FD DISCLOSURE.

See the information set forth under Item 2.02 above and attached as Exhibit 99.1 hereto.

Item 9.01 FINANCIAL STATEMENTS AND EXHIBITS.

(d) Exhibits.

99.1 Life Technologies Corporation amended and revised press release, dated November 2, 2012.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.
