Item 7.01 Regulation FD Disclosure.

On September 17, 2014, Enbridge Energy Partners, L.P. (the Partnership) announced the receipt of a proposal from Enbridge Energy Company, Inc., the Partnership's general partner (Enbridge), under which Enbridge would drop down its 66.7 percent interest in the U.S. segment of the Alberta Clipper Pipeline to the Partnership for aggregate consideration of approximately \$900 million. The proposed consideration includes cash of approximately \$300 million, plus approximately \$600 million of a new Class E limited partner equity units to be issued to Enbridge by the Partnership. The Class E limited partner units to be issued to Enbridge would be entitled to the same distributions as the Class A common units held by the public and would be convertible into Class A common units on a one-for-one basis at Enbridge's option. The Class E units would be redeemable at the Partnership's option after 30 years, if not converted by Enbridge. The units would have a liquidation preference equal to their fair value at closing. The proposed terms would not require the Partnership to issue any equity in the public market. The Board of Directors of Enbridge Energy Management, L.L.C. (the Board), the delegate of Enbridge, has appointed a special committee comprised of independent directors to review the proposal. The Partnership's acceptance is subject to the review and favorable recommendation by the special committee and final approval by the Board. The drop down transaction is targeted to close by the end of 2014.

The above description of the press release is qualified in its entirety by reference to the complete text of the press release furnished as Exhibit 99.1 hereto, which is hereby incorporated into this Item.
