NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

(Dollars in tables in thousands, except per share amounts)

1. Basis of Presentation

The accompanying unaudited Condensed Consolidated Financial Statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) for interim financial information and with the instructions to Form 10-Q. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, all adjustments (consisting primarily of normal and recurring adjustments) considered necessary for fair presentation of the Condensed Consolidated Financial Statements have been included. Due to the seasonality of our business, results for any quarter are not necessarily indicative of the results that may be achieved for a full fiscal year. For further information, refer to the Consolidated Financial Statements and footnotes thereto included in our annual report on Form 10-K for the year ended January 31, 2015.

As used herein, the terms we, our, us, Stein Mart and the Company refer to Stein Mart, Inc. and its wholly-owned subsidiaries.

Recent Accounting Pronouncements

In 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2014-09, *Revenue from Contracts with Customers (Topic 606)*. ASU No. 2014-09 provides a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and supersedes most current revenue recognition guidance, including industry-specific guidance. ASU No. 2014-09 will require an entity to recognize revenue when it transfers promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. This update creates a five-step model that requires entities to exercise judgment when considering the terms of the contract(s) which include (i) identifying the contract(s) with the customer, (ii) identifying the separate performance obligations in the contract, (iii) determining the transaction price, (iv) allocating the transaction price to the separate performance obligations, and (v) recognizing revenue when each performance obligation is satisfied. This guidance was deferred by ASU No. 2015-14, issued by the FASB in August 2015, and is effective for annual and interim reporting periods beginning after December 15, 2017, with early adoption permitted for annual and interim reporting periods beginning after December 15, 2016. The Company has the option to apply the provisions of ASU No. 2014-09 either retrospectively to each prior reporting period presented or retrospectively with the cumulative effect of applying this ASU recognized at the date of initial application. The Company is currently evaluating the impact the adoption of this ASU will have on the Company's consolidated financial statements.

In 2014, the FASB issued ASU No. 2014-15, *Presentation of Financial Statements - Going Concern (Subtopic 205-40)*. ASU No. 2014-15 requires management to perform interim and annual assessments on whether there are conditions or events that raise substantial doubt about the entity's ability to continue as a going concern within one year of the date the financial statements are issued and to provide related disclosures, if required. ASU No. 2014-15 applies to all entities and is effective for annual periods ending after December 15, 2016, and interim periods within annual periods beginning after December 15, 2016. Early application is permitted for annual or interim reporting

periods for which the financial statements have not previously been issued. The adoption of ASU No. 2014-15 is not expected to have a material effect on the Company's consolidated financial statements.

In April 2015, the FASB issued ASU No. 2015-03, *Interest – Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs*. ASU No. 2015-03 states that entities that have historically presented debt issuance costs as an asset, related to a recognized debt liability, will be required to present those costs as a direct deduction from the carrying amount of that debt liability. This presentation will result in debt issuance cost being presented the same way debt discounts have historically been handled. ASU No. 2015-03 does not change the recognition, measurement, or subsequent measurement guidance for debt issuance costs. This guidance is effective for annual reporting periods beginning after December 15, 2016, and interim periods within annual reporting periods beginning after December 15, 2016. Early adoption is permitted. The Company expects this new guidance will reduce total assets and total long-term debt on its consolidated balance sheets by amounts classified as deferred debt issuance costs, but does not expect this Update to have any other effect on its consolidated financial statements.

In April 2015, the FASB issued ASU No. 2015-05, *Intangibles – Goodwill and Other – Internal Use Software (Subtopic 350-40)*. The pronouncement was issued to provide guidance concerning accounting for fees in a cloud computing arrangement. The pronouncement is effective for reporting periods beginning after December 15, 2015. The adoption of ASU 2015-05 is not expected to have a significant impact on the Company's consolidated financial statements.

In November 2015, the FASB issued ASU No. 2015-17, *Income Taxes – Balance Sheet Classification of Deferred Taxes (Subtopic 740)*. The pronouncement was issued to simplify the presentation of deferred income taxes by requiring that deferred tax liabilities and assets be classified as noncurrent in a classified statement of financial position. The current requirement that deferred tax liabilities and assets of a

Table of Contents

tax-paying component of an entity be offset and presented as a single amount is not affected by the amendments in this Update. The pronouncement is effective for reporting periods beginning after December 15, 2016. Early application is permitted as of the beginning of an interim or annual period. The Company expects this new guidance will reduce total assets and total liabilities on its consolidated balance sheets as amounts will now be presented net in a single line item. The adoption of ASU 2015-17 is not expected to have any additional impact on the Company's consolidated financial statements.

2. Accrued Expenses and Other Current Liabilities

The major components of accrued expenses and other current liabilities are as follows:

	October 31, 2015	January 31, 2015	November 1, 2014
Compensation and employee benefits	\$ 10,141	\$ 12,519	\$ 9,758
Unredeemed gift and merchandise return cards	7,708	10,614	6,786
Property taxes	14,179	12,805	13,176
Accrued vacation	7,241	7,241	6,976
Other	28,893	26,034	26,636
Accrued expenses and other current liabilities	\$ 68,162	\$ 69,213	\$ 63,332

3. Fair Value Measurements

We have historically had money market fund investments classified as cash equivalents, which are Level 1 assets because fair value is based on readily available market prices. The fair value of these assets was \$53.7 million at January 31, 2015 and \$50.2 million at November 1, 2014. We did not have money market fund investments at October 31, 2015.

As the Company's primary debt obligations are variable rate, there are no significant differences between the estimated fair value (Level 2 measurements) and the carrying value of the Company's debt obligations at October 31, 2015. The Company did not have outstanding debt at January 31, 2015 and November 1, 2014.

4. Debt

On February 3, 2015, we entered into a \$250 million senior secured revolving credit facility pursuant to a second amended and restated credit agreement with Wells Fargo Bank (the "Credit Agreement") that will mature in February 2020 and a secured \$25 million master loan agreement with Wells Fargo Equipment Finance, Inc. (the "Equipment Term Loan" and, together with the Credit Agreement, the "Credit Facilities") that will mature in February 2018. The Credit Facilities replace the Company's former \$100 million senior secured revolving credit facility which was set to mature on February 28, 2017. Borrowings under the Credit Facilities were initially used for a special dividend, but subsequently may be used for working capital, capital expenditures and other general corporate purposes. During 2015, debt issuance costs associated with the Credit Facilities were capitalized in the amount of \$0.4 million and will be amortized over their respective terms.

Long-term debt consisted of the following at October 31, 2015:

Revolving credit facility	\$ 168,500
Equipment term loan	23,333
Total debt	191,833
Current maturities	(10,000)
Long-term debt	\$ 181,833

The aggregate maturities of long-term debt subsequent to October 31, 2015 for the following fiscal years:

2015	\$ 2,500
2016	10,000
2017	10,833
2018	
2019	
Thereafter	168,500
Total	\$ 191,833

Table of Contents

The total amount available under the Credit Agreement is the lesser of the Aggregate Commitment or 100% of eligible credit card receivables and the Net Recovery Percentage of inventories less reserves. At October 31, 2015, in addition to outstanding borrowings under the Credit Agreement, the Company had \$6.4 million of outstanding letters of credit, which reduced the Company's availability under the Credit Agreement to \$75.1 million.

The Credit Facilities contain customary representations and warranties, affirmative and negative covenants (including, in the Credit Agreement, the requirement of a 1 to 1 consolidated fixed charge coverage ratio upon the occurrence and during the continuance of any Covenant Compliance Event, as defined in the Credit Agreement), and events of default for facilities of this type and are cross-collateralized and cross-defaulted. Collateral for the Credit Facilities consists of substantially all of our personal property. Wells Fargo Bank has a first lien on all collateral other than equipment and Wells Fargo Equipment Finance has a first lien on equipment. At October 31, 2015, the Company was in compliance with all debt covenants.

Borrowings under the Credit Agreement shall be either Base Rate Loans or LIBO Rate Loans. LIBO Rate Loans bear interest equal to the Adjusted LIBO Rate plus the Applicable Margin (125 to 175 basis points) depending on the Quarterly Average Excess Availability. Base Rate Loans bear interest equal to the highest of (a) the Federal Funds Rate plus one-half of one percent (0.50%), (b) the Adjusted LIBO Rate plus one percent (1.00%), or (c) the Wells Fargo prime rate, plus the Applicable Margin (25 to 75 basis points).

Borrowings under the Equipment Term Loan shall be LIBO Rate plus 2%.

The weighted average interest rate for amounts outstanding under the Credit Agreement and Equipment Term Loan were 1.74 percent and 2.19 percent, respectively, as of October 31, 2015.

5. Shareholders' Equity

Dividends

During 2015, we paid a special cash dividend of \$5.00 per common share on February 27, 2015 and three quarterly dividends of \$0.075 per common share on April 17, 2015, July 17, 2015 and October 16, 2015. In 2014, we paid quarterly dividends of \$0.05 per common share on April 18, 2014 and \$0.075 per common share on July 18, 2014 and October 17, 2014.

On December 9, 2015, the Board of Directors declared a dividend of \$0.075 per common share to be paid on January 15, 2016 to shareholders of record on December 31, 2015.

Stock Repurchase Plan

During the 39 weeks ended October 31, 2015, we repurchased 213,815 shares of our common stock at a total cost of \$3.2 million. During the 39 weeks ended November 1, 2014, we repurchased 228,553 shares of our common stock at a total cost of \$2.9 million. Stock repurchases were for tax withholding amounts due on the vesting of employee stock awards and during the first nine months of 2015 did not include any shares purchased on the open market under our previously authorized stock repurchase plan. As of October 31, 2015, there are 269,295 shares that can be repurchased pursuant to the Board of Directors' current authorization. In November 2015, the Board of Directors authorized the repurchase of 500,000 shares of our common stock in addition to amounts previously authorized.

6. Earnings Per Share

We calculate earnings per common share (EPS) using the two-class method. Unvested share-based payment awards that contain non-forfeitable rights to dividends or dividend equivalents (whether paid or unpaid) are participating securities and are included in the computation of EPS. Our restricted stock awards in 2013 and prior are considered participating securities because they contain non-forfeitable rights to dividends.

Table of Contents

The following table presents the calculation of basic and diluted EPS (shares in thousands):

	13 Weeks Ended October 31, 2015	13 Weeks Ended November 1, 2014	39 Weeks Ended October 31, 2015	39 Weeks Ended November 1, 2014
Basic (Loss) Earnings Per Common Share:

Net (loss) income available to common shareholders	\$ (223)	\$ (1,211)	\$ 17,256	\$ 14,333
Basic weighted-average shares outstanding	44,791	43,857	44,704	43,833
Basic (loss) earnings per share	\$ (0.01)	\$ (0.03)	\$ 0.39	\$ 0.33
Diluted (Loss) Earnings Per Common Share:				
Net (loss) income	\$ (197)	\$ (1,211)	\$ 17,461	\$ 14,601
Income allocated to participating securities	26		255	266
Net (loss) income available to common shareholders	\$ (223)	\$ (1,211)	\$ 17,206	\$ 14,335
Basic weighted-average shares outstanding	44,791	43,857	44,704	43,833
Incremental shares from share-based compensation plans			1,212	831
Diluted weighted-average shares outstanding	44,791	43,857	45,916	44,664
Diluted (loss) earnings per share	\$ (0.01)	\$ (0.03)	\$ 0.37	\$ 0.32

Due to the Company's net loss position for the third quarter of 2015 and 2014, 0.4 million and 0.8 million weighted average unvested restricted shares (participating securities) and 1.3 million and 1.0 million weighted average common stock equivalents (non-participating securities), respectively, were not considered in the calculation of net loss available to common shareholders used for both basic and diluted EPS for the quarter.

In addition, options to acquire shares totaling approximately 0.4 million shares of common stock that were outstanding during each of the third quarters of 2015 and 2014 were not included in the computation of diluted earnings per common share. Options excluded were those that had exercise prices greater than the average market

price of the common shares such that inclusion would have been anti-dilutive. For the first nine months of 2015 and 2014, options to acquire shares of approximately 0.2 million and 0.3 million shares of common stock, respectively, were not included in the computation of diluted earnings per share for the aforementioned reasons.

7. Commitments and Contingencies

On July 24, 2013, the Securities and Exchange Commission (the SEC) informed us that it was conducting an investigation of the Company and made a request for voluntary production of documents and information. The request was focused on our restatement of 2012 and prior consolidated financial statements and our 2013 change in auditors. In an administrative proceeding, the SEC found that the Company had violated the reporting, books and records, and internal controls provisions of the Securities Exchange Act of 1934 during the restatement period and ordered the Company to cease and desist from committing or causing any violations and any future violations of such SEC rules. In September 2015, the Company agreed to a settlement with the SEC without admitting or denying the findings of the SEC and also agreed to pay a civil monetary penalty of \$0.8 million. The Company previously established a reserve for the potential settlement of this matter, which did not require significant adjustment in the third quarter of 2015. The Company recognized \$0.2 million and \$2.9 million of expenses, net of expected insurance recoveries, related to the SEC investigation during the 39 weeks ended October 31, 2015 and November 1, 2014, respectively.

The SEC did not allege fraud by the Company and did not bring charges against any individual. In connection with the settlement, the SEC considered remedial acts undertaken by the Company, including its enhancement of internal controls, retention of additional accounting personnel, and the Company's cooperation with the SEC staff during the course of the investigation.

We are involved in various routine legal proceedings incidental to the conduct of our business. Management, based upon the advice of outside legal counsel, does not believe that any of these legal proceedings will have a material adverse effect on our financial condition, results of operations or cash flows.

Net Sales

	13 Weeks Ended October 31, 2015	13 Weeks Ended November 1, 2014	Decrease	39 Weeks Ended October 31, 2015	39 Weeks Ended November 1, 2014	Increase
Net sales	\$ 300,665	\$ 303,667	\$ (3,002)	\$ 965,769	\$ 930,678	\$ 35,091
Sales percent (decrease) increase:						
Total net sales			(1.0)%			3.8%
Comparable store sales			(2.3)%			1.9%

The decrease in comparable stores sales for the 13 weeks ended October 31, 2015, was driven by a decrease in transactions and units per transaction, partially offset by an increase in average unit retail prices. Comparable store sales reflect stores open throughout the period and prior fiscal year and include e-commerce sales. E-commerce sales contributed approximately 0.6 percent to the comparable store sales for the 13 weeks ended October 31, 2015. Comparable store sales do not include leased department commissions.

For the 39 weeks ended October 31, 2015, the increase in comparable store sales was driven by increases in the number of transactions and average unit retail prices. E-commerce sales contributed approximately 0.7 percent to the

comparable store sales for the 39 weeks ended October 31, 2015.

Gross Profit

	13 Weeks Ended October 31, 2015	13 Weeks Ended November 1, 2014	Decrease	39 Weeks Ended October 31, 2015	39 Weeks Ended November 1, 2014	Increase/ (Decrease)
Gross profit	\$ 82,168	\$ 84,561	\$ (2,393)	\$ 279,483	\$ 273,131	\$ 6,352
Percentage of net sales	27.3%	27.8%	(0.5)%	28.9%	29.3%	(0.4)%

For the 13 and 39 weeks ended October 31, 2015, gross profit as a percent of sales decreased as a result of higher occupancy costs, primarily due to increased costs for renewed leases and new stores.

For the 13 weeks ended October 31, 2015, the higher occupancy costs were partially offset by lower allocation of buying and distribution expense.

Table of Contents**Selling, General and Administrative Expenses (SG&A)**

	13 Weeks Ended October 31, 2015	13 Weeks Ended November 1, 2014	Decrease	39 Weeks Ended October 31, 2015	39 Weeks Ended November 1, 2014	Decrease
Selling, general and administrative expenses	\$ 81,464	\$ 86,277	\$ (4,813)	\$ 248,631	\$ 248,957	\$ (326)
Percentage of net sales	27.1%	28.4%	(1.3)%	25.7%	26.7%	(1.0)%

For the 13 weeks ended October 31, 2015, SG&A expenses as a percentage of sales decreased primarily due to lower professional fees related to the SEC investigation, as well as decreased earnings-based incentive compensation expense, store closing charges, and store operating expenses.

For the 39 weeks ended October 31, 2015, SG&A expenses as a percentage of sales decreased primarily due to lower professional fees related to the SEC investigation, store closing charges, and healthcare costs, as well as better leverage of store operating expenses, and are partially offset by higher e-commerce costs.

Interest Expense

	13 Weeks Ended October 31, 2015	13 Weeks Ended November 1, 2014	Increase	39 Weeks Ended October 31, 2015	39 Weeks Ended November 1, 2014	Increase

Percentage of net sales	0.3%	0.0%	0.3%	0.2%	0.0%	0.2%

Interest expense increased for the 13 and 39 weeks ended October 31, 2015 due to borrowings in 2015 on our Credit Facilities. Borrowings under the Credit Facilities were initially used to pay a \$5 per share special dividend, but were subsequently used for working capital, capital expenditures and other general corporate purposes.

Income Taxes

	13 Weeks Ended October 31, 2015	13 Weeks Ended November 1, 2014	Increase	39 Weeks Ended October 31, 2015	39 Weeks Ended November 1, 2014	Increase/ (Decrease)
Income tax expense (benefit)	\$ 10	\$ (571)	\$ 581	\$ 11,007	\$ 9,373	\$ 1,634
Effective tax rate	5.3%	(32.0)%	37.3%	38.7%	39.1%	(0.4)%

Our effective tax rate represents the applicable combined federal and state statutory rates reduced by the federal benefit of state taxes deductible on federal returns, adjusted for the impact of permanent differences. The effective rate is impacted by changes in law, location of new stores, level of earnings, and the resolution of tax positions with various taxing authorities. The effective tax rate for the thirteen weeks ended October 31, 2015 was impacted by discrete items recognized in the third quarter of fiscal 2015.

Liquidity and Capital Resources

Capital requirements and working capital needs are funded through a combination of internally generated funds, available cash, credit terms from vendors, and our \$250 million senior secured revolving credit facility pursuant to a second amended and restated credit agreement with Wells Fargo Bank. See Note 4 of the Condensed Consolidated Financial Statements for further discussion. Working capital is used to support store inventories and capital investments for system improvements, new store openings and to maintain existing stores. Historically, our investments in working capital are lowest in August and September, after our heavy spring selling season and in February after the holiday selling season. Investments in working capital are highest in April, October and November as we begin procuring and paying for merchandise to support our heavy spring and holiday seasons. As of October 31, 2015, we had cash and cash equivalents of \$14.1 million and \$191.8 million in borrowings under our Credit Facilities.

Net cash provided by operating activities was \$26.3 million for the 39 weeks ended October 31, 2015 compared to net cash provided by operating activities of \$42.6 million for the 39 weeks ended November 1, 2014. The decrease in cash provided by operating activities was primarily due to increased investments in inventory, additional tax payments, and changes in accounts payables, partially offset by higher net income and other non-cash changes.

Net cash used in investing activities is for capital expenditures and was \$34.5 million for the 39 weeks ended October 31, 2015, which was comparable to \$34.0 million for the 39 weeks ended November 1, 2014.

Table of Contents

Net cash used in financing activities was \$43.0 million for the 39 weeks ended October 31, 2015 compared to cash used in financing activities of \$10.5 million for the 39 weeks ended November 1, 2014. During 2015, we had proceeds from borrowings of \$533.3 million and repayments of debt for \$341.5 million. Borrowings under the Credit Facilities were initially used to pay a \$5 per share special dividend, but were subsequently used for working capital, capital expenditures and other general corporate purposes. We paid cash dividends of \$235.7 million during the 39 weeks ended October 31, 2015. See Note 5 of the Notes to the Condensed Consolidated Financial Statements for further discussion. In addition, we repurchased shares of common stock for \$3.2 million and received excess tax benefits from share-based compensation of \$3.9 million. During 2014, we paid cash dividends of \$8.9 million, repurchased shares of common stock for \$2.9 million, and received excess tax benefits from share-based compensation of \$0.9 million.

Critical Accounting Policies and Estimates

We discuss our critical accounting policies and estimates in Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations, in our Annual Report on Form 10-K for the year ended January 31, 2015. We have made no significant change in our critical accounting policies since January 31, 2015.

Recent Accounting Pronouncement

Recently issued accounting pronouncements are discussed in Note 1 of the Notes to the Condensed Consolidated Financial Statements.

Seasonality and Inflation

Our business is seasonal. Sales and profitability are historically higher in the first and fourth quarters of the fiscal year, which include the spring and holiday seasons. Therefore, results for any quarter are not necessarily indicative of the results that may be achieved for a full fiscal year.

Although we expect that our operations will be influenced by general economic conditions, we do not believe that inflation has had a material effect on our results of operations. However, there can be no assurance that our business will not be affected by such factors in the future.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

For information regarding our exposure to certain market risk, see Quantitative and Qualitative Disclosures about Market Risk in Part II, Item 7A of our annual report on Form 10-K for the year ended January 31, 2015. There were no material changes to our market risk during the quarter ended October 31, 2015.

ITEM 4. CONTROLS AND PROCEDURES

Under the supervision and with the participation of our management, including the Chief Executive Officer and Chief Financial Officer, we have evaluated the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act), as of the end of the period covered by this report. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures were effective as of October 31, 2015 to provide reasonable assurance that information required to be disclosed in our reports under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management as appropriate to allow

timely decisions regarding required disclosure.

There were no changes in the Company's internal control over financial reporting (as that term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

See Note 7 of the Notes to the Condensed Consolidated Financial Statements. Other than the change described above, there have been no significant changes in our risk factors from those described in our annual report on Form 10-K for the year ended January 31, 2015.
