Independent Auditor's Report in the Individual and Consolidated Financial Statements

To the Shareholders of the

Ultrapar Participações S.A.

São Paulo - SP

Opinion

We have audited the individual and consolidated financial statements of Ultrapar Participações S.A. (the Company), respectively referred to as Parent and Consolidated, which comprise the statement of financial position as at December 31, 2018, the statements of income and other comprehensive income, changes in equity and cash flows for the year then ended, and notes, comprising significant accounting policies and other explanatory information.

In our opinion, the accompanying financial statements present fairly, in all material respects, the individual and consolidated financial position of the Ultrapar Participações S.A. as at December 31, 2018, and of its individual and consolidated financial performance and its cash flows for the year then ended in accordance with Accounting Practices Adopted in Brazil and with International Financial Reporting Standards (IFRS), issued by the International Accounting Standards Board (IASB).

Basis for Opinion

We conducted our audit in accordance with Brazilian and International Standards on Auditing. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Individual and Consolidated Financial Statements section of our report. We are independent of the Company and its subsidiaries in accordance with the relevant ethical requirements included in the Accountant Professional Code of Ethics (Código de Ética Profissional do Contador) and in the professional standards issued by the Brazilian Federal Accounting Council (Conselho Federal de Contabilidade) and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the current period. These matters were addressed in the context of our audit of the individual and consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Recoverable amount of goodwill recorded in business combination - individual and consolidated (Refer to notes 2. (t) Impairment of assets and 14 Intangible Assets)

The acquisition of the Imifarma Produtos Farmacêuticos S.A. (Extrafarma) operations in previous years resulted in recognition of goodwill, which the recoverable amount must be tested annually. The determination of the necessity of recording for impairment is supported by future profitability based on the business plan and budget as prepared by the Company and approved by the Board of Directors, which are made based on methodologies and assumptions, which involve judgment such as: discount and growth rates, revenue, costs, gross margin and new investments.

The process of determining the future profitability of the cash generating units for the purpose of evaluating the recoverable value of such assets involving complex, judgment and uncertain, and to the impacts that eventual changes in the assumptions used in the referred calculation might have in the consolidated financial statements as well as in the amount of the investment recorded under the equity method in the parent company's financial statements, we consider this a key audit matter.

Table of Contents

Our response

We evaluated the design and effectiveness of the key internal control of finance projections related to the identification and measurement of the recoverable value of the cash generating units where the goodwill was allocated.

Within the involvement of our corporate finance specialists, we evaluate the methodology used by the Company and the assumptions used in calculating discounted cash flows, including growth and discount rates, comparing historical information and testing the arithmetic accuracy of the formulas used in discounted cash flow models. We evaluated the sensitivity of results prepared by the Company considering reasonable changes in the key assumptions and comparing the budgets approved in the previous year with the actual amounts calculated in order to verify the Company's ability to project future net income.

In addition, we compared the recoverable amount calculated based on the discounted cash flows, per cash generating unit, to the carrying amount of the respective cash generating units and we evaluated the adequacy of the disclosures made in the financial statements.

As a result of the evidence obtained through the procedures as described above, we consider that the is acceptable the goodwill amount on the business combination and the respect disclosures are acceptable in the context of the individual and consolidated statements taken as a whole.

Disclosure of impacts of the new accounting standard CPC 06 (R2) and IFRS 16 - Lease Accounting (Note 2.y - Individual and Consolidated)

The revised accounting standard CPC 06 (R2) and IFRS 16 - accounting, introduces complex accounting requirements that are used as basis for measuring the registration of the right of use of an asset as well as the lease liability, especially with respect to the determination of the discount rate on each lease contract, as well as the disclosure of aspects related to the transition of the accounting standard and its accounting impact that will come into effect as of January 1, 2019.

The Company and its subsidiaries maintain significant commitments arising from operating leases of land, real estate and stores in Brazil, as well as harbor concessions and offices as administrative headquarters and disclosed the potential impacts arising from the transition of the new accounting standard among other information required by these accounting standards.

Due to the complexity and judgments involved in determining the discount rates on the lease loans and the relevance of the impacts of this rate on the measurement of the lease liability, as well as the relevance of the disclosures of the effects of the initial adoption of CPC 06 (R2) / IFRS 16, this matter was considered significant for our audit.

Our response

We analyze the process to identify the information necessary to disclosure the potential impact of the new accounting standard. With support of our corporate finance specialists, we evaluate the assumptions used in determining discount rates and sensitivity analysis on the model adopted by the Company and its subsidiaries. We evaluate the judgments applied by the Company and its subsidiaries for the other assumptions used as lease term and aggregate costs to the estimated value of right of use. We performed the reconciliation with the basis records and carried out documentary tests on the database used to support the disclosed values.

As a result of the evidence obtained through the procedures as described above, we consider that the is acceptable the disclosure of potential impacts of the new accounting standard in the context of the individual and consolidated statements taken as a whole.

Other matters - Statements of value added

The individual and consolidated statements of value added (DVA) for the year ended December 31, 2018 prepared under the responsibility of the Company s management, and presented herein as supplementary information for IFRS purposes, have been subject to audit procedures jointly performed with the audit of the Company s financial statements. In order to form our opinion, we assessed whether those statements are reconciled with the financial statements and accounting records, as applicable, and whether their format and contents are in accordance with criteria determined in the Technical Pronouncement 09 (CPC 09) - Statement of Value Added. In our opinion, the statements of value added have been fairly prepared, in all material respects, in accordance with the criteria determined by the aforementioned Technical Pronouncement, and are consistent with the overall individual and consolidated financial statements.

Other information accompanying the individual and consolidated financial statements and the auditor's report

Management is responsible for the other information comprising the management report.

Our opinion on the individual and consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the individual and consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the individual and consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have no issues to report on this.

Responsibilities of Management and Those Charged with Governance for the Individual and Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the individual and consolidated financial statements in accordance with Accounting Practices Adopted in Brazil and with International Financial Reporting Standards (IFRS), issued by the International Accounting Standards Board (IASB) and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the individual and consolidated financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company and subsidiaries or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's and subsidiaries financial reporting process.

Auditors' Responsibilities for the Audit of the Individual and Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the individual and consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Brazilian and international standards on auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Brazilian and international standards on auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

Identify and assess the risks of material misstatement of the individual and consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material

misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's and its subsidiaries internal control.

Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

Table of Contents

Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's and its subsidiaries ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the individual and consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company and subsidiaries to cease to continue as a going concern.

Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the individual and consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the individual and consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

1. Operations

Ultrapar Participações S.A. (Ultrapar or Company) is a publicly-traded company headquartered at the Brigadeiro Luis Antônio Avenue, 1343 in the city of São Paulo SP, Brazil, listed on B3 S.A. Brasil, Bolsa, Balcão (B3), in the Novo Mercado listing segment under the ticker UGPA3 and on the New York Stock Exchange (NYSE) in the form of level III American Depositary Receipts (ADRs) under the ticker UGP .

The Company engages in the investment of its own capital in services, commercial, and industrial activities, through the subscription or acquisition of shares of other companies. Through its subsidiaries, it operates in the segments of liquefied petroleum gas LPG distribution (Ultragaz), fuel distribution and related businesses (Ipiranga), production and marketing of chemicals (Oxiteno), and storage services for liquid bulk (Ultracargo) and retail distribution of pharmaceutical, hygiene, beauty, and skincare products (Extrafarma). For further information about segments, see Note 32.

2. Presentation of Financial Statements and Summary of Significant Accounting Policies

The Company s parent and consolidated financial statements (financial statements) were prepared in accordance with the International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB) and the accounting policies adopted in Brazil.

The accounting policies adopted in Brazil include those in the Brazilian corporate law and in the Pronouncements, Orientations and Interpretations issued by the Accounting Pronouncements Committee (CPC) and approved by the Brazilian Federal Accounting Council (CFC) and the Brazilian Securities and Exchange Commission (CVM).

All relevant specific information of the financial statements, and only this information, were presented and correspond to that used by the Company s and its subsidiaries Management.

The presentation currency of the Company s financial statements is the Brazilian Real (R\$), which is the Company s functional currency.

The Company and its subsidiaries applied the accounting policies described below in a consistent manner for all years presented in the financial statements.

a. Recognition of Income

Revenue of sales and services rendered is measured at the value of the consideration that the Company's subsidiaries expect to be entitled to, net of sales returns, discounts, amortization of contractual assets with customers and other deductions, if applicable, being recognized as the entity fulfills its performance obligation. At Ipiranga, the revenue from sales of fuels and lubricants is recognized when the products are delivered to gas stations and to large consumers. At Ultragaz, revenue from sales of LPG is recognized when the products are delivered to customers at home, to independent dealers and to industrial and commercial customers. At Extrafarma, the revenue from sales of pharmaceuticals is recognized when the products are delivered to end user customers in own drugstores and when the products are delivered to independent resellers. At Oxiteno, the revenue from sales of chemical products is recognized when the products are delivered to industrial customers, depending of the freight mode of delivery. At Ultracargo, the revenue provided from storage services is recognized as services are performed. The breakdowns of revenues from sales and services are shown in Notes 26 and 32.

Amortization of contractual assets with customers for the exclusive rights in Ipiranga's reseller service stations and the bonuses paid in performance obligation sales are recognized in the income statement as a deduction of the sales revenue according to the conditions established in the agreements which is reviewed as per the changes occurred in the agreements (see Notes 2.f and 11).

The am/pm franchising upfront fee received by Ipiranga is deferred and recognized in profit or loss on the straight-line accrual basis throughout the terms of the agreements with the franchisees. For more information, see Note 23.a.

Deferred revenue from loyalty program is recognized in the income statement when the points are redeemed, on which occasion the costs incurred are also recognized in profit or loss. Deferred revenue of unredeemed points is also recognized in profit or loss when points expire. For more information, see Note 23.b.

Notes to the Parent and Consolidated Financial Statements

(In thousands of Brazilian Reais, unless otherwise stated)

Costs of products sold and services provided include goods (mainly fuels, lubricants, LPG, and pharmaceutical products), raw materials (chemicals and petrochemicals) and production, distribution, storage, and filling costs.

Research and development expenses are recognized in the statements of profit or loss and amounted to R\$ 63,085 in 2018 (R\$ 55,836 in 2017).

b. Cash and Cash Equivalents

Includes cash, banks deposits, and short-term, highly-liquid investments that are readily convertible into a known amount of cash and are subject to an insignificant risk of change in value. See Note 4.a for further details on cash and cash equivalents of the Company and its subsidiaries.

c. Financial Assets

The Company and its subsidiaries evaluated the classification and measurement of financial assets based on its business model of financial assets as follows:

Amortized cost: financial assets held in order to collect contractual cash flows, solely principal and interest. The interest earned and the foreign currency exchange variation are recognized in profit or loss, and balances are stated at acquisition cost plus the interest earned, using the effective interest rate method. Financial investments in guarantee of loans are classified as amortized cost.

Measured at fair value through other comprehensive income: financial assets that are acquired or originated for the purpose of collecting contractual cash flows or selling financial assets. The balances are stated at fair value, and the interest earned and the foreign currency exchange variation are recognized in profit or loss. Differences between fair value and initial amount of financial investments plus the interest earned are recognized in equity in other comprehensive income in the Valuation adjustments. Accumulated gains and losses recognized in equity are reclassified to profit or loss at the time of their settlement. Substantially the financial investments in Bank Certificates of Deposit (CDB) and repurchase agreements are classified as measured at fair value through other comprehensive income.

Measured at fair value through profit or loss: financial assets that were not classified as amortized cost or measured at fair value through other comprehensive income. The balances are stated at fair value and both the interest earned and the exchange variations and changes in fair value are recognized in the income statement.

Investment funds and derivatives are classified as measured at fair value through profit or loss.

The Company and its subsidiaries use financial instruments for hedging purposes, applying the concepts described below:

Hedge accounting fair value hedge: financial instruments used to hedge exposure to changes in the fair value of an item, attributable to a particular risk, which can affect the entity's profit or loss. In the initial designation of the fair value hedge, the relationship between the hedging instrument and the hedged item is documented, including the objectives of risk management, the strategy in conducting the transaction, and the methods to be used to evaluate its effectiveness. Once the fair value hedge has been qualified as effective, the hedge item is also measured at fair value. Gains and losses from hedge instruments and hedge items are recognized in profit or loss. The hedge accounting must be discontinued when the hedge becomes ineffective.

Hedge accounting cash flow hedge: financial instruments used to hedge the exposure to variability in cash flows that is attributable to a risk associated with an asset or liability or highly probable transaction or firm commitment that may affect the statements of profit or loss. The portion of the gain or loss on the hedging instrument that is determined to be effective relating to the effects of exchange rate effect, is recognized directly in equity in accumulated other comprehensive income as Valuation adjustments while the ineffective portion is recognized in profit or loss. Gains or losses on the hedging instrument relating to the effective portion of this hedge that had been recognized directly in accumulated other comprehensive income shall be recognized in profit or loss in the period in which the hedged item is recognized in profit or loss or as initial cost of non-financial assets, in the same line of the statement that the hedged item is recognized. The hedge accounting shall be discontinued when (i) the hedging relationship is canceled; (ii) the hedging instrument expires; and (iii) the hedging instrument no longer qualifies for hedge accounting. When hedge accounting is discontinued, gains and losses recognized in equity in other comprehensive income are reclassified to profit or loss in the period which the hedged item is recognized in profit or loss. If the transaction hedged is canceled or is not expected to occur, the cumulative gains and losses in equity in other comprehensive income shall be recognized immediately in profit or loss.

Ultrapar Participações S.A. and Subsidiaries

Notes to the Parent and Consolidated Financial Statements

(In thousands of Brazilian Reais, unless otherwise stated)

Hedge accounting hedge of net investments in foreign operation: financial instruments used to hedge exposure on net investments in foreign subsidiaries due to the fact that the local functional currency is different from the functional currency of the Company. The portion of the gain or loss on the hedging instrument that is determined to be effective, referring to the exchange rate effect, is recognized directly in equity in accumulated other comprehensive income as cumulative translation adjustments, while the ineffective portion and the operating costs are recognized in profit or loss. The gain or loss on the hedging instrument that has been recognized directly in accumulated other comprehensive income shall be recognized in income when the disposal of the foreign subsidiary occurs.

For further detail on financial instruments of the Company and its subsidiaries, see Note 33.

d. Trade Receivables

Trade receivables are recognized at the amount invoiced of the counterparty that the Company subsidiaries are entitled. The estimated losses take into account, at the initial recognition of the contract, the expected losses for the next 12 months and for the lifetime of the contract when the deterioration or improvement of the customers' credit quality (see Notes 5 and 33.d.3), considering the customers' characteristics in each business segment. The amount of the allowance for estimated losses on doubtful accounts is deemed by management to be sufficient to cover any probable loss on realization of trade receivables.

e. Inventories

Inventories are stated at the lower of acquisition cost or net realizable value (see Note 6). The cost value of inventory is measured using the weighted average cost and includes the costs of acquisition and processing directly and indirectly related to the units produced based on the normal capacity of production. Estimates of net realizable value are based on the average selling prices at the end of the reporting period, net of applicable direct selling expenses. Subsequent events related to the fluctuation of prices and costs are also considered, if relevant. If net realizable values are below inventory costs, a provision corresponding to this difference is recognized. Provisions are also made for obsolescence of products, materials, or supplies that (i) do not meet its subsidiaries' specifications, (ii) have exceeded their expiration date, or (iii) are considered slow-moving inventory. This classification is made by management with the support of its industrial and operations teams.

f. Contractual assets with customers exclusive rights

Exclusive rights disbursements as provided in Ipiranga's agreements with reseller service stations and major consumers are recognized as contractual assets when paid and amortized according to the conditions established in the agreements (see Note 2.a and 11).

g. Investments

Investments in subsidiaries are accounted for under the equity method of accounting in the financial statements of the parent company (see Notes 3.b and 12.a). A subsidiary is an investee in which the investor is entitled to variable returns on investment and has the ability to interfere in its financial and operational activities. Usually the equity interest in a subsidiary is more than 50%.

Investments in associates and joint ventures are accounted for under the equity method of accounting in the financial statements (see Note 12 items b and c). An associate is an investment, in which an investor has significant influence, that is, has the power to participate in the financial and operating decisions of the investee but does not exercise control. A joint venture is an investment in which the shareholders have the right to net assets on behalf of a joint control. Joint control is the agreement, which establish that decisions about the relevant activities of the investee require the consent from the parties that share control.

Other investments are stated at acquisition cost less provision for losses, unless the loss is considered temporary.

h. Property, Plant, and Equipment

Property, plant, and equipment is recognized at acquisition or construction cost, including financial charges incurred on property, plant, and equipment under construction, as well as qualifying maintenance costs resulting from scheduled plant outages and estimated costs to remove, to decommission, or to restore assets (see Notes 2.n and 20), less accumulated depreciation and, when applicable, less provision for losses (see Note 13).

(In thousands of Brazilian Reais, unless otherwise stated)

Depreciation is calculated using the straight-line method, over the periods mentioned in Note 13, taking into account the estimated useful lives of the assets, which are reviewed annually.

Leasehold improvements are depreciated over the shorter of the lease contract term and useful life of the property.

i. Leases

Finance Leases

Certain lease contracts transfer substantially all the risks and benefits associated with the ownership of an asset to the subsidiaries. These contracts are characterized as finance leases, and assets thereunder are capitalized at lease commencement at their fair value or, if lower, present value of the minimum lease payments under the contracts. The items recognized as assets are depreciated and amortized using the lower of the straight-line method over the lower of the useful lives applicable to each group of assets or the contract terms, as mentioned in Notes 13 and 14. Financial charges under the finance lease contracts are allocated to profit or loss over the lease contract term, based on the amortized cost and the effective interest rate method of the related lease obligation (see Notes 2.i and 15.i).

Operating Leases

There are lease transactions where the risks and benefits associated with the ownership of the asset are not transferred and where there is no purchase option, or the purchase option at the end of the contract is equivalent to the market value of the leased asset. Payments made under an operating lease contract are recognized as cost or expense in the income statement on a straight-line basis over the term of the lease contract (see Note 34.c).

j. Intangible Assets

Intangible assets include assets acquired by the Company and its subsidiaries from third parties, according to the criteria below (see Note 14):

Goodwill is shown as intangible assets corresponding to the positive difference between the amount paid or payable to the seller and the fair value of the identified assets and liabilities assumed of the acquired entity. Goodwill is tested annually for impairment. Goodwill is allocated to the business segments, which represent the lowest level that goodwill is monitored for impairment testing purposes (see Note 14.a).

Other intangible assets acquired from third parties, such as software, technology, and commercial property rights, are measured at the total acquisition cost and amortized using straight-line method, over the periods mentioned in Note 14, taking into account their useful lives, which are reviewed annually.

The Company and its subsidiaries have not recognized intangible assets that were generated internally. The Company and its subsidiaries have goodwill and brands acquired in business combinations, which are evaluated as intangible assets with indefinite useful life (see Note 14 items a and e).

k. Other Assets

Other assets are stated at the lower of cost and realizable value, including, if applicable, interest earned, monetary changes and changes in exchange rates incurred or less a provision for loss and, if applicable, adjustment to present value.

l. Financial Liabilities

The Company and its subsidiaries financial liabilities include trade payables and other payables, loans, debentures, finance leases and derivative financial instruments. Financial liabilities are classified as financial liabilities at fair value through profit or loss or financial liabilities at amortized cost. The financial liabilities at fair value through profit or loss refer to derivative financial instruments, subscription warrants indemnification, and financial liabilities designated as hedged items in a fair value hedge relationship upon initial recognition (see Note 2.c Fair Value Hedge). The financial liabilities at amortized cost are stated at the initial transaction amount plus related charges and net of amortization and transaction costs. The charges are recognized in profit or loss using the effective interest rate method.

Transaction costs incurred and directly attributable to the activities necessary for contracting loans or for issuing bonds, as well as premiums and discounts upon issuance of debentures and other debt, are allocated to the instrument and amortized to profit or loss over its term, using the effective interest rate method (see Note 15.j).

m. Income and Social Contribution Taxes on Income

Current and deferred income tax (IRPJ) and social contribution on net income tax (CSLL) are calculated based on their current rates. For the calculation of current IRPJ and CSLL, the value of tax incentives is also considered. Taxes are recognized based on the rates of IRPJ and CSLL provided for by the laws enacted on the last day of the financial statements. The current rates in Brazil are 25% for IRPJ and 9% for CSLL. For further details about recognition and realization of IRPJ and CSLL, see Note 9.

For purposes of disclosure, deferred tax assets were offset against the deferred tax liability, IRPJ and CSLL, in the same taxable entity and the same taxation authority.

n. Provision for Asset Retirement Obligation Fuel Tanks

The subsidiary Ipiranga has the legal obligation to remove the underground fuel tanks located at Ipiranga-branded service stations after a certain period. The estimated cost of the obligation to remove these fuel tanks is recognized as a liability when the tanks are installed. The estimated cost is recognized in property, plant, and equipment and depreciated over the respective useful lives of the tanks. The amounts recognized as a liability accrue interest using the National Consumer Price Index (IPCA) until the respective tank is removed (see Note 20). An increase in the estimated cost of the obligation to remove the tanks could result in negative impact in future results. The estimated removal cost is reviewed and updated annually or when there is significant change in its amount and change in the estimated costs are recognized in statements of profit or loss when they become known.

o. Provisions for Tax, Civil, and Labor Risks

A provision for tax, civil and labor risks is recognized for quantifiable risks, when the chance of loss is more-likely-than-not in the opinion of management and internal and external legal counsel, and the amounts are recognized based on the evaluation of the outcomes of the legal proceedings (see Note 21).

p. Post-Employment Benefits

Post-employment benefits granted and to be granted to employees, retirees, and pensioners are based on an actuarial calculation prepared by an independent actuary and reviewed by management, using the projected unit credit method (see Note 19.b). The actuarial gains and losses are recognized in equity in cumulative other comprehensive income in the Valuation adjustments .

q. Other Liabilities

Other liabilities are stated at known or measurable amounts plus, if applicable, related charges, and changes in exchange rates incurred. When applicable, other liabilities are recognized at present value, based on interest rates that reflect the term, currency, and risk of each transaction.

r. Foreign Currency Transactions

Foreign currency transactions carried out by the Company or its subsidiaries are remeasured into their functional currency at the exchange rate prevailing at the date of each transaction. Outstanding monetary assets and liabilities of the Company and its subsidiaries are translated using the exchange rate at the date of the financial statements. The effect of the difference between those exchange rates is recognized in profit or loss until the conclusion of each transaction.

Table of Contents**Ultrapar Participações S.A. and Subsidiaries****Notes to the Parent and Consolidated Financial Statements***(In thousands of Brazilian Reais, unless otherwise stated)***s. Basis for Translation of Financial Statements of Foreign Subsidiaries****s.1. Subsidiaries with administrative autonomy**

Assets and liabilities of the foreign subsidiaries, denominated in currencies other than that of the Company (functional currency: Brazilian Real), which have administrative autonomy, are translated using the exchange rate at the date of the financial statements. Revenues and expenses are translated using the average exchange rate of each year and equity is translated at the historical exchange rate of each transaction affecting equity. Gains and losses resulting from changes in these foreign investments are directly recognized in equity in cumulative other comprehensive income in the cumulative translation adjustments and will be recognized in profit or loss if these investments are disposed of. The balance in cumulative other comprehensive income on December 31, 2018 was a gain of R\$ 65,857 (gain of R\$ 53,061 on December 31, 2017) see Note 25.g.2.

The foreign subsidiaries with functional currency different from the Company and which have administrative autonomy are listed below:

Subsidiary	Functional currency	Location
Oxiten México S.A. de C.V.	Mexican Peso	Mexico
Oxiten Servicios Corporativos S.A. de C.V.	Mexican Peso	Mexico
Oxiten Servicios Industriales S.A. de C.V.	Mexican Peso	Mexico
Oxiten USA LLC	U.S. Dollar	United States
Oxiten Uruguay S.A. (i)	U.S. Dollar	Uruguay
Oxiten Andina, C.A. (ii)	Bolivar Soberano	Venezuela

- (i) The subsidiary Oxiten Uruguay S.A. (Oxiten Uruguay) determined its functional currency as the U.S. dollar (US\$), as its inventory sales, purchases of raw material inputs, and financing activities are performed substantially in this currency.
- (ii) According the definition and general guidance of IAS 29 (CPC 42), the characteristics of the economic environment of Venezuela indicate that this country is a hyperinflationary economy. As a result, the financial

information of Oxiteno Andina, C.A. (Oxiteno Andina) was adjusted by the Venezuelan Consumer Price Index. On August 20, 2018, the Venezuelan Central Bank put into effect the currency conversion (elimination of five zeros of the currency) and the Bolivar Soberano (VES). This implies a change in the monetary scale to simplify commercial transactions and accounting records, being the Bolivar Soberano traded as of December 31, 2018 at the variable exchange rate of 636.58 VES/US\$ for sale and 638.18 VES/US\$ for purchase.

Due to the economic and political situation in Venezuela and the uncertainty of its assets realization by Oxiteno S.A. Indústria e Comércio (Oxiteno S.A.), the Company s management recognized an impairment loss for subsidiary Oxiteno Andina in the amount of R\$ 5,565, as shown below:

<u>Current assets</u>	
Cash and cash equivalents	1,703
Trade receivables	290
Inventories	985
Other receivables	160
	3,138
<u>Non-current assets</u>	
Property, plant, and equipment, net	2,427
Total of impairment loss	5,565

s.2. Subsidiaries without self-administrative autonomy

Assets and liabilities of the other foreign subsidiaries, which do not have administrative autonomy, are considered an extension of the activities of their parent company and are translated using the exchange rate at the date of the financial statements. Gains and losses resulting from changes in these foreign investments are directly recognized as financial income or loss. The gain recognized in income in 2018 amounted to R\$ 4,090 (R\$ 7,368 gain in 2017).

t. Use of Estimates, Assumptions and Judgments

The preparation of the financial statements requires the use of estimates, assumptions, and judgments for the accounting and disclosure of certain assets, liabilities, and income. Therefore, the Company and subsidiaries management use the best information available at the date of preparation of the financial statements, as well as the experience of past and current events, also considering assumptions regarding future events. The estimates and assumptions are reviewed periodically.

t.1 Judgments

Information on the judgments is included: in the determination of control in subsidiaries (Notes 2.g, 2.s.1, 3 and 12.a), the determination of joint control in joint venture (Notes 2.g, 12.a and 12.b) and the determination of significant influence in associates (Notes 2.g and 12.c).

t.2 Uncertainties related to the assumptions and estimates

The information regarding uncertainties related to the assumptions and estimates are included: in determining the fair value of financial instruments (Notes 2.c, 2.l, 4, 15 and 33), the determination of the estimated losses on doubtful accounts (Notes 2.d, 5 and 33.d.3), the determination of provisions for losses of inventories (Notes 2.e and 6), the determination of deferred IRPJ and CSLL amounts (Notes 2.m and 9.a), , the determination of exchange rate used to translation of Oxiteno Andina information (Note 2.s.1.ii), the useful lives of property, plant, and equipment (Notes 2.h and 13), the useful lives of intangible assets, and the determination of the recoverable amount of goodwill (Notes 2.j and 14.a), provisions for assets retirement obligations (Notes 2.n and 20), provisions for tax, civil, and labor risks (Notes 2.o and 21), estimates for the preparation of actuarial reports (Notes 2.p and 19.b) and the determination of fair value of subscription warrants indemnification (Notes 24 and 33.j). The actual result of the transactions and information may differ from their estimates.

u. Impairment of Assets

The Company and its subsidiaries review, in every report period, the existence of any indication that an asset may be impaired and annually test intangible assets with undefined useful life. If there is an indication, the Company and its subsidiaries estimate the recoverable amount of the asset. Assets that cannot be evaluated individually are grouped in

the smallest group of assets that generate cash inflow from continuous use and that are largely independent of cash flows of other assets (cash generating units – CGU). The recoverable amount of assets or CGUs corresponds to the greater of their fair value net of applicable direct selling costs and their value in use.

The fair value less costs of disposal is determined by the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date, net of costs of removing the asset, and direct incremental costs to bring an asset into condition for its sale, legal costs, and taxes.

To assess the value in use, the projections of future cash flows, trends, and outlooks, as well as the effects of obsolescence, demand, competition, and other economic factors were considered. Such cash flows are discounted to their present values using the discount rate before tax that reflects market conditions for the period of impairment testing and the specific risks of the asset or CGU being evaluated. In cases where the expected discounted future cash flows are less than their carrying amount, an impairment loss is recognized for the amount by which the carrying value exceeds the fair value of these assets. Losses for impairment of assets are recognized in profit or loss. In case goodwill has been allocated to a CGU, the recognized losses are first allocated to reduce the corresponding goodwill. If the goodwill is not enough to absorb such losses, the surplus is allocated to the assets on a pro-rata basis. An impairment of goodwill cannot be reversed. For other assets, impairment losses may be reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if the impairment had not been recognized.

As of December 31, 2018, the Company recognized an impairment loss for subsidiary Oxiteno Andina (see Note 2.s.1.ii).

v. *Business Combination*

A business combination is accounted applying the acquisition method. The cost of the acquisition is measured based on the consideration transferred and to be transferred, measured at fair value at the acquisition date. In a business combination, the assets acquired and liabilities assumed are measured in order to classify and allocate them accordingly to the contractual terms, economic circumstances and relevant conditions on the acquisition date. The non-controlling interest in the acquiree is measured based on its interest in identifiable net assets acquired. Goodwill is measured as the excess of the consideration transferred and to be transferred over the fair value of net assets acquired (identifiable assets and liabilities assumed, net). After the initial recognition, goodwill is measured at cost less any accumulated impairment losses. For impairment testing purposes, goodwill is allocated to the Company's operating segments. When the cost of the acquisition is lower than the fair value of net assets acquired, a gain is recognized directly in the income statement. Costs related to the acquisition are recorded in the income statement when incurred.

w. *Statements of Value Added*

As required by Brazilian Corporate Law, the Company and its subsidiaries prepare the parent and consolidated statements of value added (DVA) according to CPC 09 – Statement of Value Added, as an integral part of the financial statements as applicable to publicly-traded companies, and as supplemental information for the IFRS, which does not require the presentation of DVA.

x. *Statements of Cash Flows Indirect Method*

The Company and its subsidiaries prepared its parent and consolidated statements of cash flows in accordance with IAS 7 (CPC 03) – Cash Flow Statement. The Company and its subsidiaries present the interest paid on loans and debentures in financing activities. The Company and its subsidiaries present financial investments on a net basis of income and redemptions in the investment activities.

y. *Adoption of the Pronouncements Issued by CPC and IASB*

The following standards, amendments, and interpretations to IFRS were issued by the IASB, which are effective as of January 1, 2018:

	Equivalent CPC
IFRS 9 Financial instrument classification and measurement: includes new requirements for the classification and measurement of financial assets and liabilities, derecognition requirements, new impairment methodology for financial instruments, and new hedge accounting guidance.	48
IFRS 15 Revenue from contracts with customers: establish the principles of nature, amount, timing and uncertainty of revenue and cash flow arising from a contract with a customer.	47
Financial Reporting in hyperinflationary economies IAS 29 and the applying the restatement approach under IAS 29 IFRIC 7.	42 and ICPC 23

The Company and its subsidiaries disclose below the information of the impacts of the adoption of IFRS 9 (CPC 48) and 15 (CPC 47) and reclassifications to the better presentation of the financial statements.

Table of Contents**Ultrapar Participações S.A. and Subsidiaries****Notes to the Parent and Consolidated Financial Statements***(In thousands of Brazilian Reais, unless otherwise stated)***(1) IFRS 9 adoption (CPC 48) Financial instruments****a) Classification and measurement of financial instruments**

The Company and its subsidiaries evaluated the classification and measurement of financial instruments and, based on its business model, concluded that the target is achieved, receiving contractual cash flows and selling financial assets (hold for collect and sell). Accordingly, most part of the financial investments are classified as measured at fair value through other comprehensive income. Funds that are classified as measured at fair value through profit or loss and financial investments given as collateral for loans that are stated at amortized cost (see Note 2.c).

Total		6,369,928	1,195,075	4,953,456	221,397

b) Estimated losses on doubtful accounts

The Company and its subsidiaries assessed the estimated credit losses on doubtful accounts on trade receivables, taking into account, at the initial recognition of the contract, the expected losses for the next 12 months and for the lifetime of the contract when the deterioration or improvement of customers' credit quality (see Note 2.d).

c) Derivative financial instruments

The Company and its subsidiaries have not identified impacts arising from this change keeping the permanence of the application of IAS 39.

(2) IFRS 15 adoption (CPC 47) Revenue recognition from contracts with customers

The Company and its subsidiaries evaluated all the stages for the recognition of their revenues from contracts with customers and based on their diagnosis did not identify material measurement impacts resulting from the adoption of this standard (see Note 2.a).

In relation to the presentation in the income statement, the Company and its subsidiaries evaluated that certain expenses, allocated as selling and marketing until December 31, 2017, should be better presented as a reduction of revenue, substantially in relation to the amortization expenses of exclusive contracts to operate Ipiranga service station.

The Company and its subsidiaries adopted retrospectively the impacts of the IFRS 9 and 15.

Table of Contents**Ultrapar Participações S.A. and Subsidiaries****Notes to the Parent and Consolidated Financial Statements***(In thousands of Brazilian Reais, unless otherwise stated)***(3) Reclassifications**

The following reclassifications were made to the better presentation of the financial statements: i) in the statements of financial position the reclassification between property, plant, and equipment and intangible assets related to the participation of subsidiary Cia. Ultragaz in the acquisition of GLP tanks and bottles for its resellers was made; and ii) in the statements of profit or loss the segregation of sales and purchase taxes between the sales revenue and the cost of products were made.

(4) Retrospective effect of the fair value related to CBLSA acquisition

As required by the item 45 of CPC 15/IFRS 3, the Company is presenting the retrospective effects of the fair value of assets in the statements of financial position as of December 31, 2017, related to the conclusion of the purchase price allocation from the association with Chevron Brasil Lubrificantes S.A. (CBLSA) -see Note 3.c.

Table of Contents**Ultrapar Participações S.A. and Subsidiaries****Notes to the Parent and Consolidated Financial Statements***(In thousands of Brazilian Reais, unless otherwise stated)***(5) CPC 42 Financial Reporting in hyperinflationary economies (equivalent to IAS 29) and ICPC 23 Applying the restatement approach under CPC 42 (equivalent to IFRIC 7)**

On December 7, 2018, CPC 42 and ICPC 23 were approved by the CPC. The subsidiaries Oxiteno Andina and Oxiteno Argentina are included in this context, and the Company had already adopted the definition and general guidance of IAS 29, not having impact on the financial statements.

The following standards, amendments, and interpretations to IFRS were issued by the IASB are not effective as of December 31, 2018:

	Equivalent CPC	Effective date
(i) IFRS 16 Lease: requires lessees record, in the financial statements, a liability reflecting future payments of a lease and the right to use an asset for the lease contracts, except for certain short-term leases and low asset value contracts. The criteria for recognition and measurement of leases in the financial statements of lessors are substantially maintained.	06 (R2)	2019
(ii) Uncertainty over income tax treatments IFRIC 23: clarifies how to apply the recognition and measurement requirements in IAS 12 (CPC 32) when there is uncertainty over income tax treatments. In such circumstance, an entity shall recognize and measure its current or deferred tax asset or liability applying the requirements in IAS 12 (CPC 32) based on taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates, applying this interpretation.	ICPC 22	2019
(i) With the adoption of IFRS 16 (CPC 06 R2), as of the fiscal year beginning January 1, 2019, the leases contracted by the Company's subsidiaries will impact the financial statements as follows:		

recognition of right to use assets and lease liabilities in the balance sheet, initially measured at the present value of future lease payments;

recognition of amortization expenses of right to use assets and interest expenses on the lease liabilities in the financial result in the income statements; and

split of the total amount of cash paid in these operations between principal and interest paid in operating activities in the statements of cash flows.

The requirements for the accounting of lessors will remain unchanged. However, in sublease cases, the intermediate lessor is required to classify its sublease operations as financial or operating leases by reference to the right of use asset arising from the principal lease rather than by reference to the underlying asset as previously required by IAS 17 (CPC 06 R1).

The Company selected as transition method the modified retrospective approach, with the cumulative effect of initial application of this new pronouncement recorded as an adjustment to the opening balance of equity and without the restatement of comparative periods.

The new lease definitions have been applied to all identified contracts in effect on the transition date. IFRS 16/CPC 06 (R2) determines whether a contract contains a lease if a customer has the right to control the use of an identified asset for a period in return for consideration.

In the diagnosis of the adoption, the Company's management, with the assistance of specialized consulting, carried out the inventory of the contracts, evaluating whether or not each agreement contains a lease in accordance with IFRS 16/CPC 06 (R2). This analysis identified impacts mainly related to the lease of properties from third parties, port areas and lower amounts arising from other operations where the existence of leased assets individually or combined in service contracts was identified.

As provided in the standard, short-term leases with a term of 12 months or less, variable amounts, indefinite term and leases of low amount assets such as computers and office furniture, will maintain the recognition of their lease expenses on a straight-line basis in the statements of profit or loss.

Table of Contents**Ultrapar Participações S.A. and Subsidiaries****Notes to the Parent and Consolidated Financial Statements***(In thousands of Brazilian Reais, unless otherwise stated)*

In addition, the following practical records will be used to transition to new lease accounting requirements:

application of the CPC 06 (R2) / IFRS 16 to all contracts initiated before January 1, 2019 that were identified as leases in accordance with CPC 06 (R1) / IAS 7 and ICPC 03 / IFRIC 4;

use of discount rate according to the lease term and similar characteristics;

contracts with a term of 12 months from the date of the initial adoption of the standard or with indefinite term will not be recorded;

exclusion of the initial direct costs of the measurement of the opening balance from right of use asset; and

options for extension of the term or termination were considered, when applicable.

The table below summarizes the range of estimated impacts on the adoption of the IFRS 16 (CPC 06 R2), as of January 1, 2019:

The analyzes associated with the measurement and accounting of the lease agreements are substantially completed, with the definition of the following topics pending for its conclusion:

discount rate;

payment flows estimates from the lease agreements to be estimated for the gross or net portion of taxes. Therefore, considering the existence of significant components of judgment in this pronouncement, the administration understands that there may be changes in the amounts presented above.

(ii) In the evaluation of management, no significant impacts are expected as a result of the adoption of IFRIC 23/ICPC 22, since all the procedures adopted for the determination and collection of income taxes are supported by the legislation and precedents from Administrative and Judicial Courts.

z. Authorization for Issuance of the Financial Statements

These financial statements were authorized for issue by the Board of Directors on February 20, 2019.

3. Principles of Consolidation, Investments in Subsidiaries and Acquisition

a. Principles of Consolidation

In the preparation of the consolidated financial statements the investments of one company in another, balances of asset and liability accounts, revenues transactions, costs and expenses were eliminated, as well as the effects of transactions conducted between the companies. Non-controlling interests in subsidiaries are presented within consolidated equity and net income.

Consolidation of a subsidiary begins when the parent company obtains direct or indirect control over a company and ceases when the parent company loses control of a company. Income and expenses of a subsidiary acquired are included in the consolidated income statement and other comprehensive income from the date the parent company gains the control. Income and expenses of a subsidiary, in which the parent company loses control, are included in the

consolidated income statement and other comprehensive income until the date the parent company loses control.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Company's accounting policies.

On August 4, 2016, the Company through its subsidiary Ipiranga Produtos de Petróleo S.A. (IPP) entered into an association agreement with Chevron Latin America Marketing LLC and Chevron Amazonas LLC (Chevron) to create a new company in the lubricants market. The association is formed by Ipiranga and Chevron's lubricants operations in Brazil. On February 2017, this transaction was approved without restrictions through an opinion issued by the General Superintendence (SG) of the Brazilian Antitrust Authority (CADE) and published in the Brazilian Federal Official Gazette. On December 1, 2017, the association was concluded, through the contribution of the subsidiary Ipiranga Lubrificantes S.A. (IpiLubs) to CBLSA and consequently IPP obtained direct control of CBLSA. IPP and Chevron hold 56% and 44%, respectively, of the CBLSA.

The Company measured the open balance, fair value of assets and liabilities, and, consequently, the goodwill of their transaction. The Company, supported by a third party company specialized in valuations, estimated the amount for the purchase price allocation and calculated the goodwill in the amount of R\$ 69,807. The goodwill is based on the synergy between the lubricant operations of CBLSA and IpiLubs.

The amounts for the purchase price allocation were temporary on the date on which they were disclosed in the financial statements of December 31, 2017. In 2018, the Company calculated the definitive amounts and adjusted retrospectively to December 1, 2017 the purchase price allocation during the fourth quarter of 2018. The table below summarizes the assets acquired and liabilities assumed as of the acquisition date (December 1, 2017):

In order to simplify the corporate structure and join companies with similar activities, IpiLubs was merged by CBLSA on November 1, 2018. In that same act, the subsidiary changed its corporate name to Iconic Lubrificantes S.A. (Iconic).

d. TEAS Terminal Exportador de Álcool de Santos Ltda. Acquisition

On January 30, 2018, the Company through its subsidiary Terminal Químico de Aratu S.A. Tequimar (Tequimar) entered into a sale and purchase agreement for the acquisition of 100% of the quotas of TEAS Terminal Exportador de Álcool de Santos Ltda. (TEAS), owned by Raízen Energia S.A. and Raízen Araraquara Açúcar e Álcool Ltda., which were operated by the subsidiary Tequimar in the Port of Santos. The purchase price of the acquisition was R\$103,373. On February 14, 2018, this transaction was approved without restrictions through an opinion issued by the SG of CADE. On March 2, 2018, CADE issued a certificate, attesting to the approval of the transaction. On March 29, 2018, the acquisition was concluded through the closing of the operation.

The Company measured the open balance, fair value of assets and liabilities, and, consequently, the goodwill of their transaction. During the process of identification of assets and liabilities, were not identified intangible assets to be recognized in the acquirer entity s books. The Company, supported by a third party company specialized in valuations, estimated the amount for the purchase price allocation and calculated the goodwill in the amount of R\$ 797.

Total	1,386,879	899,654

Current	639,699	664,954
Non-current	747,180	234,700

The provision for ICMS losses relates to tax credits that the subsidiaries estimate will not utilize or offset in the future based on its estimative, and its movements are as follows:

Balance as of January 1, 2017	68,683
Additions, write-offs and reversals, net	3,393
Balance as of December 31, 2017	72,076
Additions, write-offs and reversals, net	27,111
Balance as of December 31, 2018	99,187

a.1 The ICMS accumulated credit balance is substantially related to the following subsidiaries and operations:

- (i) The subsidiary Oxiteno Nordeste S.A. Indústria e Comércio (Oxiteno Nordeste) predominantly carries out export operations, interstate outflow or deferred ICMS of products purchased within the State of Bahia;
- (ii) The subsidiary IPP has credits arising from interstate outflows of oil-related products, whose ICMS was prepaid by the supplier (Petrobras), as well as credit balance consisting of the difference between transactions of inflows and outflows of products subject to ICMS taxation (mainly ethanol);
- (iii) The subsidiary Extrafarma has credits of ICMS and ICMS-ST (tax substitution) advances on the inflow and outflow of operations carried out by its distribution centers, mostly in the North and Northeast.

Management estimates the realization of these credits within up to 10 years.

a.2 Refers, mainly, to the PIS and COFINS credits appropriated under Laws 10,637/2002 and 10,833/2003 by the subsidiaries IPP and Cia. Ultragaz, whose consumption will occur through the offset of debts administered by the Brazilian Federal Revenue Service (RFB) in an estimated term by management of 2 years. The subsidiary Oxiteno S.A. recognized, as of December 31, 2018, credits resulting from the exclusion of ICMS from the calculation basis of PIS and COFINS as recognized in a final favorable decision (see Note 21.a.1.2), as well as restitution of amounts unduly paid as half-yearly PIS. The subsidiaries Oxiteno S.A., Oxiteno Nordeste, Oleoquímica Indústria e Comércio de Produtos Químicos Ltda. (Oleoquímica) and Empresa Carioca de Produtos Químicos S.A. (EMCA) recognized, as of December 31, 2018, credits resulting from the exclusion of ICMS from the calculation basis of PIS/COFINS-import as recognized in a final favorable decision. The credits of Oxiteno S.A. will be realized through corporate restructuring with Oxiteno Nordeste.

For these cases, the management estimates the realization of these credits within up to 5 years.

The chief executive officer in office until October 2, 2017 was entitled to additional long term variable compensation,. This contract was terminated with the succession of the chief executive officer announced by the Company in June 2017.

c. Deferred Stock Plan (Consolidated)

Since 2003, Ultrapar has adopted a stock plan in which the executive has the usufruct of shares held in treasury until the transfer of the full ownership of the shares to those eligible members of management after five to seven years from the initial concession of the rights subject to uninterrupted employment of the participant during the period. The volume of shares and the executives eligible are determined by the Board of Directors, and there is no mandatory annual grant. The total number of shares to be used in the plan is subject to the number of shares in treasury. Ultrapar's Board of Directors does not have a stock plan. The fair value of the awards were determined on the grant date based on the market value of the shares on the B3, the Brazilian Securities, Commodities and Futures Exchange and the amounts are amortized between five to seven years from the grant date.

The table below summarizes shares granted to the Company and its subsidiaries management:

Grant date	Balance of number of shares granted	Vesting period	Market price of shares on the grant date (in R\$ per share)	Total grant costs, including taxes	Accumulated recognized grant costs	Accumulated unrecognized grant costs

- (i) Consist of certain expenses that cannot be deducted for tax purposes under applicable tax legislation, such as expenses with fines, donations, gifts, losses of assets, negative effects of foreign subsidiaries and certain provisions;
- (ii) Consist of certain gains and income that are not taxable under applicable tax legislation, such as the reimbursement of taxes and the reversal of certain provisions;
- (iii) Brazilian tax law allows for an alternative method of taxation for companies that generated gross revenues of up to R\$ 78 million in their previous fiscal year. Certain subsidiaries of the Company adopted this alternative form of taxation, whereby income and social contribution taxes are calculated on a basis equal to 32% of operating revenues, as opposed to being calculated based on the effective taxable income of these subsidiaries. The adjustment to estimated income represents the difference between the taxation under this alternative method and the income and social contribution taxes that would have been paid based on the effective statutory rate applied to the taxable income of these subsidiaries;
- (iv) Interest on equity is an option foreseen in Brazilian corporate law to distribute profits to shareholders, calculated based on the long-term interest rate (TJLP), which does not affect the income statement, but is deductible for purposes of IRPJ and CSLL, being taxable to the beneficiary and deductible to the entity that pays.

- (1) The subsidiary Bahiana Distribuidora de Gás Ltda. (Bahiana), obtained 75% income tax reduction incentive recognized by SUDENE, through an appraisal report on October 22, 2018, until 2028, due to the modernization for its Aracaju plant Sergipe. On October 22, 2018, the constitutive benefit appraisal report was sent to the RFB for approval within a term of 120 days. As a result of the expiration of the statutes of limitation for the RFB to approve the constitutive benefit appraisal report setting the tacit approval of the application, the income tax reduction will be recognized by the subsidiary in the income statement in 2019.
- (2) The subsidiary Bahiana had the 75% income tax reduction incentive recognized by SUDENE, through an appraisal report on January 14, 2019, until 2028, due to the modernization for its Suape plant Pernambuco. On January 23, 2019, the constitutive benefit appraisal report was sent to the RFB for approval within a term of 120 days.
- (3) The subsidiary Bahiana, obtained 75% income tax reduction incentive recognized by SUDENE, through an appraisal report on November 7, 2017, until 2026, due to productive unit implementation for its Juazeiro plant

Bahia. On November 27, 2017, the constitutive benefit appraisal report was sent to the RFB, for approval within a term of 120 days. As a result of the expiration of the statutes of limitation for the RFB to approve the constitutive benefit appraisal report setting the tacit approval of the application, the income tax reduction was recognized by the subsidiary in the income statement in 2018, in the total amount of R\$ 149 with retroactive effect in January 2017.

d. Income and Social Contribution Taxes Carryforwards

In 2018, the Company and certain subsidiaries had tax loss carryforwards related to income tax (IRPJ) of R\$ 873,718 (R\$ 576,948 in 2017) and negative basis of CSLL of R\$ 876,315 (R\$ 576,949 in 2017), whose compensations are limited to 30% of taxable income in a given tax year, which do not expire.

In addition, certain offshore subsidiaries had tax loss carryforwards of R\$ 620,906 (R\$ 388,178 in 2017).

Deferred income and social contribution tax assets were recognized in the amount of R\$ 208,036 in 2018 (R\$ 201,471 in 2017), supported by the technical study on the projection of taxable profits for the realization of deferred tax assets, reviewed by the Fiscal Council and approved by the Company's Board of Directors. As a consequence of this study, in 2018, the subsidiary Extrafarma reversed the portion of the deferred tax asset, whose realization period exceeded the period of ten years, in the amount of R\$ 39,462.

The amount of deferred taxes not recognized due to the uncertainty of realization is R\$ 220,832 in 2018 (R\$ 128,418 in 2017).

On December 31, 2018, the Company tested the balances of goodwill shown in the table above for impairment. The determination of value in use involves assumptions, judgments, and estimates of cash flows, such as growth rates of revenues, costs and expenses, estimates of investments and working capital, and discount rates. The assumptions about growth projections and future cash flows are based on the Company's business plan of its operating segments, as well as comparable market data, and represent management's best estimate of the economic conditions that will exist over the economic life of the various CGUs, to which goodwill is related. The main key-assumptions used by the Company to calculate the value in use are described below:

Period of evaluation: the evaluation of the value in use is calculated for a period of five years (except the Extrafarma segment), after which we calculate the perpetuity, considering the possibility of carrying the business on indefinitely. For the Extrafarma segment, a period of ten years was used due to a four-year period to maturity of new stores were considered.

Discount and real growth rates: on December 31, 2018, the discount and real growth rates used to extrapolate the projections ranged from 8.4% to 13.9% and from 0% to 1% p.a., respectively, depending on the CGU analyzed.

Revenue from sales and services, costs and expenses, and gross margin: considers the budget prepared for 2019 and the long-term strategic plan prepared by management and approved by the Board of Directors.

Notes to the Parent and Consolidated Financial Statements

(In thousands of Brazilian Reais, unless otherwise stated)

The goodwill impairment tests and net assets of the Company and its subsidiaries result in the recognition of impairment in the amount of R\$ 5,565 for subsidiary Oxiteno Andina for the year ended December 31, 2018 (see Note 2.s.1.ii). The main reason for the impairment recognized is Venezuela's political and economic situation.

The Company assessed a sensitivity analysis of discount and growth rate of perpetuity, due to their significant impact on cash flows and value in use. An increase of 0.5 percentage points in the discount rate or a decrease of 0.5 percentage points in the growth rate of the perpetuity of the cash flow of each business segment would not result in the recognition of impairment.

b. Software

Includes user licenses and costs for the implementation of the various systems used by the Company and its subsidiaries, such as: integrated management and control, financial management, foreign trade, industrial automation, operational and storage management, accounting information, and other systems.

c. Technology

The subsidiaries Oxiteno S.A., Oxiteno Nordeste and Oleoquímica recognize as technology certain rights of use held by them. Such licenses include the production of ethylene oxide, ethylene glycols, ethanolamines, glycol ethers, ethoxylates, solvents, fatty acids from vegetable oils, fatty alcohols, and specialty chemicals, which are products that are supplied to various industries.

d. Commercial property rights

Include those described below:

Subsidiary Tequimar has an agreement with CODEBA – Companhia das Docas do Estado da Bahia, which allows it to explore the area in which the Aratu Terminal is located for 20 years, renewable for a similar period. The price paid by Tequimar was R\$ 12,000, which is being amortized from August 2002 to July 2042.

Subsidiary Tequimar has a lease contract for an area adjacent to the Port of Santos for 20 years from December 2002, renewable for a similar period, which allows the construction, operation, and use of a terminal for liquid bulk unloading, tank storage, handling, and distribution. The price paid by Tequimar was R\$ 4,334, which is being amortized from August 2005 to December 2022.

Subsidiary Extrafarma pays key money to obtain certain commercial establishments to open drugstores which is stated at the cost of acquisition, amortized using the straight-line method, considering the lease contract terms. In the case of the closedown of stores, the residual amount is written off.

e. Brands and Trademark rights

Brands are represented by the acquisition cost of the am/pm brand in Brazil and of the Extrafarma brand, acquired in the business combination, and Chevron and Texaco trademark rights.

f. Other intangibles

Refers mainly to the loyalty program Clube Extrafarma .

As provided in IFRS 9 (CPC 48), the transaction costs and issuance premiums associated with debt issuance by the Company and its subsidiaries were added to their financial liabilities, as shown in Note 15.j.

The Company's management entered into hedging instruments against foreign exchange and interest rate variations for a portion of its debt obligations (see Note 33.h).

b. Notes in the Foreign Market

On October 6, 2016, the subsidiary Ultrapar International S.A. (Ultrapar International) issued US\$ 750 million in notes in the foreign market, maturing in October 2026, with interest rate of 5.25% p. a., paid semiannually. The issue price was 98.097% of the face value of the note. The notes were guaranteed by the Company and its subsidiary IPP. The Company has designated hedge relationships for this transaction (see Note 33.h.3).

As a result of the issuance of the notes in the foreign market, the Company and its subsidiaries are required to perform certain obligations, including:

Restriction on sale of all or substantially all assets of the Company and subsidiaries Ultrapar International and IPP.

Restriction on encumbrance of assets exceeding US\$ 150 million or 15% of the amount of the consolidated tangible assets.

The Company and its subsidiaries are in compliance with the levels of covenants required by this debt. The restrictions imposed on the Company and its subsidiaries are customary in transactions of this nature and have not limited their ability to conduct their business to date.

(1) Includes interest, transaction costs, mark to market and hedge initial recognition.

During these contracts, the Company shall maintain the following financial ratios, calculated based on its audited consolidated financial statements:

Maintenance of a financial ratio, determined by the ratio between consolidated net debt and consolidated Earnings before Interest, Taxes, Depreciation, and Amortization (EBITDA), at less than or equal to 3.5.

Maintenance of a financial ratio determined by the ratio between consolidated EBITDA and consolidated net financial expenses, higher than or equal to 1.5.

The Company complies with the levels of covenants required by these loans. The restrictions imposed on the Company and its subsidiaries are usual for this type of transaction and have not limited their ability to conduct their business to date.

- c.2** The subsidiary Global Petroleum Products Trading Corporation has a foreign loan in the amount of US\$ 60 million with maturity on June 22, 2020 and interest of LIBOR + 2.0% p.a., paid quarterly. The Company, through the subsidiary Cia. Ultragaz, contracted hedging instruments subject to floating interest rates in dollar and exchange rate variation, changing the foreign loan charge to 105.9% of CDI. The foreign loan is guaranteed by the Company and its subsidiary Oxiteno Nordeste.

- c.3** The subsidiary LPG International Inc. had a foreign loan in the amount of US\$ 30 million with maturity in December 2018 and interest rate of LIBOR + 1.85% p.a., paid quarterly. The foreign loan was guaranteed by the Company and its subsidiary IPP. The foreign loan was settled on the maturity date.

k. Guarantees

The financings are guaranteed by collateral in the amount of R\$ 69,822 in 2018 (R\$ 66,337 in 2017) and by guarantees and promissory notes in the amount of R\$ 10,667,175 in 2018 (R\$ 9,587,971 in 2017).

The Company and its subsidiaries offer collateral in the form of letters of credit for commercial and legal proceedings in the amount of R\$ 271,162 in 2018 (R\$ 237,537 in 2017). In addition, the Company provides guarantees related to the supply of LPG by Petrobras up to the amount of R\$ 45 million. In 2018, the Company did not have guarantees related to raw materials imported by the subsidiary IPP (R\$ 81,046 in 2017).

Some subsidiaries of Oxiteno issue collateral to financial institutions in connection with the amounts owed by some of their customers to such institutions (vendor financing). If a subsidiary is required to make any payment under these collaterals, this subsidiary may recover the amount paid directly from its customers through commercial collection. The maximum amount of future payments related to these collaterals is R\$ 2,750 in 2018 (R\$ 8,224 in 2017), with maturities of up to 91 days. Until December 31, 2018, the subsidiaries did not have losses in connection with these collaterals. The fair value of collaterals recognized in current liabilities as other payables is R\$ 68 in 2018 (R\$ 205 in 2017), which is recognized as profit or loss as customers settle their obligations with the financial institutions.

The decision to enter into this transaction is solely and exclusively of the supplier. The agreement does not substantially change the main characteristics of the commercial conditions previously established with the supplier. These operations are presented in operating activities in the statements of cash flow.

Some Company's subsidiaries acquire oil based fuels and LPG from Petrobras and its subsidiaries and ethylene from Braskem S.A. These suppliers control almost all of the markets for these products in Brazil.

Employee Benefits and Private Pension Plan (Consolidated)*****a. ULTRAPREV- Associação de Previdência Complementar***

In February 2001, the Company's Board of Directors approved the adoption of a defined contribution pension plan to be sponsored by the Company and each of its subsidiaries. Participating employees have been contributing to this plan, managed by Ultraprev Associação de Previdência Complementar (Ultraprev), since August 2001. Under the terms of the plan, every year each participating employee chooses his or her basic contribution to the plan. Each sponsoring company provides a matching contribution in an amount equivalent to each basic contribution, up to a limit of 11% of the employee's reference salary, according to the rules of the plan. As participating employees retire, they may choose to receive either (i) a monthly sum ranging between 0.5% and 1.0% of their respective accumulated fund in Ultraprev or (ii) a fixed monthly amount, which will exhaust their respective accumulated fund over a period of 5 to 25 years. The sponsoring company does not take responsibility for guaranteeing amounts or the duration of the benefits received by the retired employee. In 2018, the subsidiaries contributed R\$ 24,323 (R\$ 24,819 in 2017) to Ultraprev, which is recognized as expense in the income statement. The total number of participating employees in 2018 was 8,052 active participants and 279 retired participants. In addition, Ultraprev had 26 former employees receiving benefits under the rules of a previous plan whose reserves are fully constituted.

b. Post-employment Benefits

The subsidiaries recognized a provision for post-employment benefits mainly related to seniority bonus, payment of Government Severance Indemnity Fund (FGTS), and health, dental care, and life insurance plan for eligible retirees.

The amounts related to such benefits were determined based on a valuation conducted by an independent actuary and reviewed by management as of December 31, 2018 and are recognized in the financial statements in accordance with IAS 19 R2011 (CPC 33 R2).

Sensitivity analysis

The significant actuarial assumptions to determine the provision for post-employment benefits are: discount rate, wage and medical costs increases. The following sensitivity analyses on December 31, 2018 were determined based on reasonably possible changes of assumptions occurring at the reporting date of the financial statements, keeping all other assumptions constant.

Assumption	Change in assumptions	Decrease in liability	Change in assumptions	Increase in liability
Discount rate	increase by 1.0 p.p	17,500	decrease by 1.0 p.p	20,547
Wage growth rate	decrease by 1.0 p.p	2,127	increase by 1.0 p.p	2,344
Medical services growth rate	decrease by 1.0 p.p	12,002	increase by 1.0 p.p	14,201

The sensitivity analyses presented may not represent the real change in the post-employment benefits obligation, since it is unlikely that changes occur in just one assumption alone, considering that some of these assumptions may be correlated.

Inherent risks related to post-employment benefits

Interest rate risk: a long-term interest rate is used to calculate the present value of post-employment liabilities. A reduction in this interest rate will increase the corresponding liability.

Wage growth risk: the present value of the liability is calculated using as reference the wages of the plan participants, projected with the average nominal wage growth rate. An increase in the real wages of plan participants will increase the corresponding liability.

Medical costs growth risk: the present value of the liability is calculated using as reference the medical cost by age based on actual healthcare costs, projected based on the growth rate of medical services costs. An increase in the real medical costs will increase the corresponding liability.

a.1 Provisions for Tax Matters and Social Security

a.1.1 On October 7, 2005, the subsidiaries Cia. Ultragaz and Bahiana filed for and obtained a preliminary injunction to recognize and offset PIS and COFINS credits on LPG purchases, against other taxes levied by the RFB, notably IRPJ and CSLL. The decision was confirmed by a trial court on May 16, 2008. Under the preliminary injunction, the subsidiaries made escrow deposits for these debits which amounted to R\$ 500,260 in 2018 (R\$ 483,485 in 2017). On July 18, 2014, a second instance unfavorable decision was published and the subsidiaries suspended the escrow deposits, and started to pay income taxes from that date. To revert the court decision, the subsidiaries presented a writ of prevention which was dismissed on December 30, 2014, and the subsidiaries appealed this decision on February 3, 2015. Appeals were also presented to the respective higher courts Superior Court of Justice (STJ) and Federal Supreme Court (STF) whose final trial are pending.

a.1.2 The subsidiaries Oxiteno S.A., Oxiteno Nordeste, Cia. Ultragaz, Tequimar, Tropical Transportes Ipiranga Ltda., EMCA, IPP and Extrafarma filed for a preliminary injunction seeking the deduction of ICMS from their PIS and COFINS tax bases. On March 15, 2017, in a decision with general repercussion, the STF decided that the ICMS does not make up the calculation of PIS and COFINS tax bases. Therefore, supported by its legal advisors, on May 31, 2017, Oxiteno Nordeste and IPP reversed the provision in the amount of R\$ 109,463 (see Notes 29 and 30).

The Company emphasizes that it is possible for the STF to restrict the effects of the judgment or to decide that the effectiveness will be reached after its final decision or other time that may be fixed. Despite the favorable context, until there is effective final decision, the causes may be reassessed, which could result in the recognition of new provisions in the future, except for Oxiteno S.A., that obtained a favorable final decision and recognized the amount of R\$ 291,278 in the statements of profit or loss on December 31, 2018 (see Notes 29 and 30).

a.2 Provisions for Civil, Environmental and Regulatory Claims

a.2.1 The Company and its subsidiaries maintained provisions for lawsuits and administrative proceedings, mainly derived from contracts entered into with customers and former services providers, as well as proceedings related to environmental and regulatory issues in the amount of R\$ 90,932 in 2018 (R\$ 89,296 in 2017).

a.3 Provisions for Labor Matters

a.3.1 The Company and its subsidiaries maintained provisions of R\$ 101,173 in 2018 (R\$ 82,425 in 2017) for labor litigation filed by former employees and by employees of our service providers, mainly, contesting the non-payment of labor rights.

b. *Contingent Liabilities (Possible)*

The Company and its subsidiaries are parties in tax, civil, environmental, regulatory, and labor claims whose loss prognosis is assessed as possible (proceedings whose chance of loss is more than 25% and less or equal than 50%). by the Company and its subsidiaries legal departments, based on the opinion of its external legal advisors and, based on this assessment, these claims were not recognized in the financial statements. The estimated amount of this contingency is R\$ 2,839,219 in 2018 (R\$ 2,576,583 in 2017).

b.1 Contingent Liabilities for Tax Matters and Social Security

The Company and its subsidiaries have contingent liabilities for tax matters and social security in the amount of R\$ 1,941,749 in 2018 (R\$ 1,709,435 in 2017), mainly represented by:

b.1.1 The subsidiary IPP and its subsidiaries have assessments invalidating the offset of excise tax (IPI) credits in connection with the purchase of raw materials used in the manufacturing of products which sales are not subject to IPI under the protection of tax immunity. The amount of this contingency is R\$ 168,391 in 2018 (R\$ 166,003 in 2017).

b.1.2 The subsidiary IPP and its subsidiaries have legal proceedings related to ICMS. The total amount involved in these proceedings, was R\$ 836,393 in 2018 (R\$ 618,774 in 2017). Such proceedings arise mostly of the disregard of ICMS credits amounting to R\$ 318,550 in 2018 (R\$ 307,255 in 2017), of which R\$ 126,639 (R\$ 121,891 in 2017) refer to proportional reversal requirement of ICMS credits related to the acquisition of hydrated alcohol; of alleged non-payment in the amount of R\$ 125,703 in 2018 (R\$ 113,999 in 2017); of conditioned fruition of fiscal incentive in the amount of R\$ 121,745 in 2018 (zero in 2017); and inventory differences in the amount of R\$ 185,512 in 2018 (R\$ 149,171 in 2017) related to the leftovers or faults due to temperature changes or product handling.

b.1.3 The Company and its subsidiaries are parties to administrative and judicial suits involving Income Tax, Social Security Contribution, PIS and COFINS, substantially about denials of offset claims and credits disallowance which total amount is R\$ 674,126 in 2018 (R\$ 645,868 in 2017), mainly represented by:

b.1.3.1 The subsidiary IPP received a tax assessment related to the IRPJ and CSLL resulting from the supposedly undue amortization of the goodwill paid on acquisition of a subsidiary, in the amount of R\$ 193,771 in 2018 (R\$ 187,027 in 2017), which includes the amount of the income taxes, interest and penalty. Management assessed the likelihood of the tax assessment, supported by the opinion of its legal advisors, as possible, and therefore did not recognize a provision for this contingent liability.

b.2 Contingent Liabilities for Civil, Environmental and Regulatory Claims

The Company and its subsidiaries have contingent liabilities for civil, environmental and regulatory claims in the amount of R\$ 624,457, totaling 3,520 lawsuits in 2018 (R\$ 593,437, totaling 2,783 lawsuits in 2017), mainly represented by:

b.2.1 The subsidiary Cia. Ultragaz is party to an administrative proceeding before CADE based on alleged anti-competitive practices in the State of Minas Gerais in 2001. The CADE entered a decision against Cia. Ultragaz and imposed a penalty of R\$ 32,983 in 2018 (R\$ 32,315 in 2017). The imposition of such administrative decision was suspended by a court order and its merit is being judicially reviewed.

b.2.2 In 2016, the subsidiary Cia. Ultragaz became party to two administrative proceedings filed by CADE, related to allegations of anti-competitive practices: i) one of the proceedings relate to practices in the State of Paraíba and other Northeast States, in which the subsidiary Bahiana is part along with Cia. Ultragaz. On this proceeding, Cia. Ultragaz and Bahiana signed a Cessation Commitment Agreement (TCC) with CADE, approved on November 22, 2017, in the amount of R\$ 95,987, to be paid in 8 (eight) equal installments updated semiannually by SELIC, with maturity of the first one in 180 (one hundred and eighty) days from the date of publication of the approval. Three employees and one

former employee signed TCC in the total amount of R\$ 1,100. With the TCC, the administrative proceeding will be suspended in relation to the Cia. Ultragaz and Bahiana until final decision; ii) the second proceeding relate to practices in the Federal District and around, in which only Cia. Ultragaz is part. On this proceeding, Cia. Ultragaz signed a TCC with CADE, approved on September 6, 2017, in the amount of R\$ 2,154, paid in a single installment in March 8, 2018. Two former employees signed TCC in the amount of R\$ 50 each. With the TCC, the administrative proceeding will be suspended in relation to the Cia. Ultragaz until final decision.

b.2.3 The subsidiary IPP became party to two administrative proceedings filed by CADE, related to allegations of anti-competitive practices in the city of Joinville, State of Santa Catarina and around the city of Belo Horizonte, State of Minas Gerais. As of December 31, 2018, as a result of these administrative proceedings, no fine had been imposed to the subsidiary. Supported by the opinion of external legal counsel that classified the probability of loss as remote, Management did not recognize a provision for this contingency in 2018.

b.2.4 On November 29, 2016, a technical opinion was issued by the Operational Support Center for Execution (Centro de Apoio Operacional à Execução CAEX), a technical body linked to the São Paulo State Public Prosecutor (MPE), presenting a proposal of compensation for the alleged environmental damages caused by the fire on April 2nd, 2015 at the Santos Terminal of the subsidiary Tequimar. This technical opinion is non-binding, with no condemnatory or sanctioning nature, and will still be evaluated by the authorities and parties. The subsidiary disagrees with the methodology and the assumptions adopted in the proposal and is negotiating an agreement with the MPE and the Brazilian Federal Public Prosecutor (MPF), and currently there is no civil lawsuit filed on the matter. The negotiations relate to *in natura* repair of the any damages. In case the negotiations with the MPE and MPF are concluded in an unfavorable manner for the parties involved, the payments related to the project costs may affect the future Company's financial statements, in addition to the amounts already recognized. In the criminal sphere, the MPF denounced the subsidiary Tequimar, which was summoned and replied to the complaint on June 19, 2018. In addition, as of December 31, 2018, there are contingent liabilities not recognized related to lawsuits and extrajudicial lawsuits in the amount of R\$ 62,930 and R\$ 3,426 (R\$ 88,075 and R\$ 25,852 as of December 31, 2017), respectively. For more information, see Note 22.

b.3 Contingent Liabilities for Labor Matters

The Company and its subsidiaries have contingent liabilities for labor matters in the amount of R\$ 273,013, totaling 1,726 lawsuits as of December 31, 2018 (R\$ 273,711, totaling 1,899 lawsuits as of December 31, 2017), mainly represented by:

b.3.1 In 1990, the Petrochemical Industry Labor Union (Sindicância), of which the employees of Oxiteno Nordeste and EMCA, companies located in the Camaçari Petrochemical Complex, are members, filed separate lawsuits against the subsidiaries demanding the compliance with the fourth section of the collective labor agreement, which provided for a salary adjustment in lieu of the salary policies practiced. In the same year, a collective labor dispute was also filed by the Union of Employers (SINPEQ) against Sindicância, requiring the recognition of the loss of effectiveness of such fourth section. The decisions rendered on the individual claims which were favorable to the subsidiaries Oxiteno Nordeste and EMCA are final and unappealable. The collective labor dispute remains pending trial by STF. In 2010, some companies in the Camaçari Petrochemical Complex signed an agreement with Sindicância and reported the fact in the collective labor dispute. In October 2015, Sindicância filed enforcement lawsuits against all Camaçari Petrochemical Complex companies that have not yet made settlements, including Oxiteno Nordeste and EMCA. The decisions of 1st instance were favorable to the companies, which are waiting for judgment of the Regional Labor Court of the 5th Region. In addition to collective actions, individual claims containing the same object have been filed.

c. Lubricants operation between IPP and Chevron

In the process of transaction of the lubricants operation in Brazil between Chevron and subsidiary IPP (see Note 3.c), it was agreed that each shareholder is responsible for any claims arising out of acts, facts or omissions prior to the transaction. The liability provisions of the Chevron shareholder in the amount of R\$ 3,609 (R\$ 3,452 in 2017) are reflected in the consolidation of these financial statements, as well as the contingent liabilities identified in the date of acquisition, whose provision amount of R\$ 198,900 was recognized as a business combination on December 1, 2017, with the balance of R\$ 191,110 as of December 31, 2018. The amounts of provisions of Chevron's liability recognized in the business combination will be reimbursed to subsidiary Iconic in the event of losses and an indemnity asset was hereby constituted in the same amount, without the need to establish a provision for uncollectible amounts.

22. Trade payables customers indemnification

In April 2015, a fire occurred in six ethanol and gasoline tanks operated by Ultracargo in Santos, which represented 4% of the subsidiary's overall capacity as of December 31, 2014. The Civil and Federal Police investigated the accident and its impacts, and concluded that it is not possible to determine the cause of the accident and neither to individualize active or passive conduct related to the cause, and there was no criminal charge against either individual or the subsidiary, by both authorities. Notwithstanding that, the MPF denounced the subsidiary Tequimar in the criminal sphere, which was summoned and replied to the complaint on June 19, 2018.

In June 2017, the licensing required for the return to operation of 67.5 thousands cubic meters from the total of 150 thousands cubic meters affected by the fire was obtained. The remaining tanks continue to be paralyzed and in the process of recovery for subsequent licensing and start of operation.

	38,422	31,309
Current	26,572	18,413
Non-current	11,850	12,896

a. Franchising Upfront Fee

am/pm is the convenience stores chain of the Ipiranga service stations. Ipiranga ended 2018 with 2,493 stores (2,414 in 2017). Jet Oil is Ipiranga's lubricant-changing and automotive service specialized network. Ipiranga ended 2018 with 1,772 stores (1,735 stores as of December 31, 2017).

b. Loyalty Programs

Subsidiary Ipiranga has a loyalty program called Km de Vantagens (www.kmdevantagens.com.br) under which registered customers are rewarded with points when they buy products at Ipiranga service stations or at its partners. The customers may exchange these points, during the period of one year, for discounts on products and services offered by Ipiranga and its partners. Points received by Ipiranga's customers that may be used with the partner Multiplus Fidelidade and for discounts of fuel in Ipiranga's website (www.postoipiranganaweb.com.br) and recognized as a reduction from sales revenue.

Subsidiary Extrafarma has a loyalty program called Clube Extrafarma (www.clubeextrafarma.com.br) under which registered customers are rewarded with points when they buy products at its drugstore chain. The customers may exchange these points, during the period of six months, for discounts in products at its drugstore chain, recharge credit on a mobile phone, and prizes offered by partners Multiplus Fidelidade and Ipiranga, through Km de Vantagens. Points received by Extrafarma's customers are recognized as a reduction of sales revenue.

Deferred revenue is estimated based on the fair value of the points granted, considering the value of the prizes and the expected redemption of these points.

24. Subscription warrants indemnification

Because of the association between the Company and Extrafarma on January 31, 2014, 7 subscription warrants indemnification were issued, corresponding to up to 3,205,622 shares of the Company. The subscription warrants indemnification may be exercised beginning 2020 by the former shareholders of Extrafarma and are adjusted according to the changes in the amounts of provisions for tax, civil, and labor risks and contingent liabilities related to the period prior to January 31, 2014. The subscription warrants indemnification's fair value is measured based on the share price of Ultrapar (UGPA3) and is reduced by the dividend yield until 2020, since the exercise is possible only from 2020, and they are not entitled to dividends until that date. As of December 31, 2018, the subscription warrants indemnification were represented by 2,412,119 shares and amounted to R\$ 123,095 (as of December 31, 2017, they were represented by 2,415,848 that totaled R\$ 171,459). Due to the final adverse decision of some of these lawsuits, on December 31, 2018, the maximum number of shares that could be issued related to the subscription warrants indemnification was up to 2,988,158 (3,035,499 shares as of December 31, 2017).

25. Equity

a. Share Capital

On December 31, 2018, the subscribed and paid-in capital stock consists of 556,405,096 common shares with no par value and the issuance of preferred shares and participation certificates is prohibited. Each common share entitles its holder to one vote at Shareholders Meetings.

The price of the shares issued by the Company as of December 31, 2018, on B3 was R\$ 53.20.

As of December 31, 2018, the Company is authorized to increase capital up to the limit of 800,000,000 common shares, without amendment to the Bylaws, by resolution of the Board of Directors.

As of December 31, 2018, there were 27,862,987 common shares outstanding abroad in the form of ADRs (28,935,260 shares as of December 31, 2017).

b. Equity instrument granted

The Company has a share-based incentive plan, which establishes the general terms and conditions for the concession of common shares issued by the Company held in treasury (see Note 8.c).

c. Treasury Shares

The Company acquired its own shares at market prices, without capital reduction, to be held in treasury and to be subsequently disposed of or cancelled, in accordance with CVM Instructions 10, issued on February 14, 1980 and 268, issued on November 13, 1997.

As of December 31, 2018, 13,390,149 common shares (13,041,356 shares as of December 31, 2017) were held in the Company's treasury, acquired at an average cost of R\$ 36.25 per share (R\$ 36.98 as of December 31, 2017).

d. Capital Reserve

The capital reserve reflects the gain on the transfer of shares at market price used in the Deferred Stock Plan granted to executives of the subsidiaries of the Company, as mentioned in Note 8.c.

Because of Extrafarma's association in 2014, the Company recognized an increase in the capital reserves in the amount of R\$ 498,812, due to the difference between the value attributable to share capital and the market value of the Ultrapar shares on the date of issue, deducted by R\$ 2,260 related to the incurred costs directly attributable to issuing new shares.

e. Revaluation Reserve

The revaluation reserve, constituted prior to the adoption of the international accounting standards (CPC/IFRS) instituted by Law 11,638/07, reflects the revaluation of assets of subsidiaries and is based on depreciation, write-off, or disposal of the revalued assets of the subsidiaries, as well as the tax effects recognized by these subsidiaries.

f. Profit Reserves

f.1 Legal Reserve

Under Brazilian Corporate Law, the Company is required to allocate 5% of net annual earnings to a legal reserve, until the balance reaches 20% of capital stock. This reserve may be used to increase capital or to absorb losses, but may not be distributed as dividends.

f.2 Retention of Profits

Reserve recognized in previous fiscal years and used for investments contemplated in a capital budget, mainly for expansion, productivity, and quality, acquisitions and new investments, in accordance with Article 196 of Brazilian Corporate Law. The reserve was fully incorporated into the social capital by resolution of the OEGM of April 19, 2017.

f.3 Investments Reserve

In compliance with Article 194 of the Brazilian Corporate Law and Article 55.c) of the Bylaws this reserve is aimed to protect the integrity of the Company's assets and to supplement its capital stock, in order to allow new investments to be made. As provided in its Bylaws, the Company may allocate up to 45% of the annual net income to the investments reserve, up to the limit of 100% of the share capital.

The investments reserve is free of distribution restrictions and totaled R\$ 3,412,427 as of December 31, 2018 (R\$ 3,000,707 as of December 31, 2017 restated).

g. Valuation Adjustments and Cumulative Translation Adjustments

g.1 Valuation Adjustments

- (i) Actuarial gains and losses relating to post-employment benefits, calculated based on a valuation conducted by an independent actuary, are recognized in equity under the title valuation adjustments . Actuarial gains and losses recorded in equity are not reclassified to profit or loss in subsequent periods.
- (ii) Gains and losses on the hedging instruments of exchange rate related to firm commitment and highly probable transactions designated as cash flows hedges are recognized in equity as valuation adjustments . Gains and losses are reclassified to initial cost of non-financial assets.
- (iii) The differences between the fair value of financial investments measured at fair value through other comprehensive income and the initial amount of financial investments plus the interest earned and the foreign currency exchange variation are recognized in equity as valuation adjustments. Gains and losses are reclassified to statements of profit or loss when the financial investment is settled.
- (iv) The Company also recognizes in this item the effect of changes in the non-controlling interest in subsidiaries that do not result in loss of control. This amount corresponds to the difference between the amount by which the non-controlling interest was adjusted and the fair value of the consideration received or paid and represents a transaction with shareholders.

32. Segment Information

The Company operates five main business segments: gas distribution, fuel distribution, chemicals, storage and drugstores. The gas distribution segment (Ultragaz) distributes LPG to residential, commercial, and industrial consumers, especially in the South, Southeast, and Northeast regions of Brazil. The fuel distribution segment (Ipiranga) operates the distribution and marketing of gasoline, ethanol, diesel, fuel oil, kerosene, natural gas for

vehicles, and lubricants and related activities throughout all the Brazilian territory. The chemicals segment (Oxiteno) produces ethylene oxide and its main derivatives and fatty alcohols, which are raw materials used in the home and personal care, agrochemical, paints, varnishes, and other industries. The storage segment (Ultracargo) operates liquid bulk terminals, especially in the Southeast and Northeast regions of Brazil. The drugstores segment (Extrafarma) trades pharmaceutical, hygiene, and beauty products through its own drugstore chain in the North, Northeast and Southeast regions of the country. The segments shown in the financial statements are strategic business units supplying different products and services. Intersegment sales are at prices similar to those that would be charged to third parties.

33. Risks and Financial Instruments (Consolidated)***a. Risk Management and Financial Instruments Governance***

The main risks to which the Company and its subsidiaries are exposed reflect strategic/operational and economic/financial aspects. Operational/strategic risks (including, but not limited to, demand behavior, competition, technological innovation, and material changes in the industry structure) are addressed by the Company's management model. Economic/financial risks primarily reflect default of customers, behavior of macroeconomic variables, such as exchange and interest rates, as well as the characteristics of the financial instruments used by the Company and its

subsidiaries and their counterparties. These risks are managed through control policies, specific strategies, and the establishment of limits.

The Company has a policy for the management of resources, financial instruments, and risks approved by its Board of Directors (Policy). In accordance with the Policy, the main objectives of financial management are to preserve the value and liquidity of financial assets and ensure financial resources for the development of the business, including expansions. The main financial risks considered in the Policy are risks associated with currencies, interest rates, credit, and selection of financial instruments. Governance of the management of financial risks and financial instruments follows the segregation of duties below:

Implementation of the management of financial assets, instruments, and risks is the responsibility of the financial area, through its treasury department, with the assistance of the tax and accounting departments.

Supervision and monitoring of compliance with the principles, guidelines, and standards of the Policy is the responsibility of the Risk and Investment Committee, which is composed of members of the Company s Executive Board (Committee). The Committee holds regular meetings and is in charge, among other responsibilities, of discussing and monitoring the financial strategies, existing exposures, and significant transactions involving investment, fundraising, or risk mitigation. The Committee monitors the risk standards established by the Policy through a monitoring map on a monthly basis.

Changes in the Policy or revisions of its standards are subject to the approval of the Board of Directors of Ultrapar.

Continuous improvement of the Policy is the joint responsibility of the Board of Directors, the Committee, and the financial area.

The internal audit department audits the compliance with the requirements of the Policy.

Table of Contents**Ultrapar Participações S.A. and Subsidiaries****Notes to the Parent and Consolidated Financial Statements***(In thousands of Brazilian Reais, unless otherwise stated)***b. Currency Risk**

Most transactions of the Company, through its subsidiaries, are located in Brazil and, therefore, the reference currency for risk management is the Brazilian Real. Currency risk management is guided by neutrality of currency exposures and considers the transactional, accounting, and operational risks of the Company and its subsidiaries and their exposure to changes in exchange rates. The Company considers as its main currency exposures the assets and liabilities in foreign currency and the short-term flow of net sales in foreign currency of Oxiteno.

The Company and its subsidiaries use exchange rate hedging instruments (especially between the Brazilian Real and the U.S. dollar) available in the financial market to protect their assets, liabilities, receipts, and disbursements in foreign currency and net investments in foreign operations. Hedge is used in order to reduce the effects of changes in exchange rates on the Company's income and cash flows in Brazilian Reais within the exposure limits under its Policy. Such foreign exchange hedging instruments have amounts, periods, and rates substantially equivalent to those of assets, liabilities, receipts, and disbursements in foreign currencies to which they are related. Assets and liabilities in foreign currencies are stated below, translated into Brazilian Reais:

b.1 Assets and Liabilities in Foreign Currencies

Table of Contents**Ultrapar Participações S.A. and Subsidiaries****Notes to the Parent and Consolidated Financial Statements***(In thousands of Brazilian Reais, unless otherwise stated)***b.2 Sensitivity Analysis of Assets and Liabilities in Foreign Currency**

Scenarios I, II and III were based on 10%, 25% and 50% variations, respectively, applied on the net position of the Company exposed to the currency risk, simulating the effects of appreciation and devaluation of the Real in the income statement and the equity:

The table below shows, in the three scenarios, the effects of exchange rate changes on the net liability position of R\$ 1,726.1 million in foreign currency as of December 31, 2018:

In millions of Brazilian Reais	Risk	Scenario I Likely	Scenario II 25%	Scenario III 50%

The table below shows, in three scenarios, the effects of exchange rate variation on the net liability position of R\$ 1,430.4 million in foreign currency as of December 31, 2017:

In millions of Brazilian Reais	Risk	Scenario I Likely	Scenario II 25%	Scenario III 50%
(1) Income statement effect	Real devaluation	(2.6)	(6.5)	(13.0)
(2) Equity effect		(140.4)	(351.1)	(702.2)

(4) Equity effect		140.4	351.1	702.2
(3) + (4)	Net effect	143.0	357.6	715.2

The equity effect refers to cumulative translation adjustments of changes in the exchange rate on equity of foreign subsidiaries (see Notes 2.s.1 and 25.g.2), net investments hedge in foreign entities, cash flow hedge of firm commitment and highly probable transaction (see Note 2.c and h. Hedge Accounting below).

The Company and its subsidiaries adopt policies for borrowing and investing financial resources and for capital cost minimization. The financial investments of the Company and its subsidiaries are primarily held in transactions linked to the CDI, as set forth in Note 4. Borrowings primarily relate to financing from Banco do Brasil, as well as debentures and borrowings in foreign currency, as shown in Note 15.

The Company attempts to maintain its financial interest assets and liabilities at floating rates.

For sensitivity analysis of floating interest rate risk, the Company used the accumulated amount of the reference indexes (CDI, TJLP, LIBOR, TIE and SELIC) as a base scenario up to December 31, 2017 and 2018. Scenarios I, II and III were based on 10%, 25% and 50% variations, respectively, applied in the floating interest rate of the base scenario:

The tables below shows the incremental expenses and income that would be recognized in financial income, due to the effect of floating interest rate changes in different scenarios.

d. Credit Risks

The financial instruments that would expose the Company and its subsidiaries to credit risks of the counterparty are basically represented by cash and bank deposits, financial investments, hedging instruments (see Note 4), and trade receivables (see Note 5).

d.1 Credit risk of financial institutions

Such risk results from the inability of financial institutions to comply with their financial obligations to the Company and its subsidiaries due to insolvency. The Company and its subsidiaries regularly conduct a credit review of the institutions with which they hold cash and cash equivalents, financial investments, and hedging instruments through various methodologies that assess liquidity, solvency, leverage, portfolio quality, etc. Cash and cash equivalents, financial investments, and hedging instruments are held only with institutions with a solid credit history, chosen for safety and soundness. The volume of cash and cash equivalents, financial investments, and hedging instruments are subject to maximum limits by each institution and, therefore, require diversification of counterparties.

d.2 Government credit risk

The Company's policy allows investments in government securities from countries classified as investment grade AAA or Aaa by specialized credit rating agencies (S&P, Moody's and Fitch) and in Brazilian government bonds. The volume of such financial investments is subject to maximum limits by each country and, therefore, requires diversification of counterparties.

Table of Contents**Ultrapar Participações S.A. and Subsidiaries****Notes to the Parent and Consolidated Financial Statements***(In thousands of Brazilian Reais, unless otherwise stated)*

The credit risk of cash, cash equivalents and financial investments is summarized below:

Counterparty credit rating	Fair value	
	12/31/2018	12/31/2017
AAA	5,933,671	29,003
AA	707,358	6,076,520
A	262,553	192,638
BBB	90,824	71,767
Total	6,994,406	6,369,928

d.3 Customer credit risk

The credit policy establishes the analysis of the profile of each new customer individually regarding their financial condition. The review carried out by the subsidiaries of the Company includes the evaluation of external ratings, when available, financial statements, credit bureau information, industry information and, when necessary, bank references. Credit limits are established for each customer and reviewed periodically, in a shorter period the greater the risk, depending on the approval of the responsible area in cases of sales that exceed these limits.

In monitoring credit risk, customers are grouped according to their credit characteristics and depending on the business the grouping takes into account, for example, whether they are natural or legal clients, whether they are wholesalers, resellers or final customers, considering also the geographic area.

The estimates of credit losses are calculated based on the probability of default rates. Loss rates are calculated on the basis of the average probability of an receivable amount to advance through successive stages of default until full write-off. The probability of default calculation takes into account a credit risk score for each exposure based on data considered to be capable of foreseeing the risk of loss (external classifications, audited financial statements, cash flow projections, customer information available in the press, for example), with addition of the credit assessment based on experience.

Such credit risks are managed by each business unit through specific criteria for acceptance of customers and their credit rating and are additionally mitigated by the diversification of sales. No single customer or group accounts for more than 10% of total revenue.

The subsidiaries of the Company maintained the following allowance for estimated losses on doubtful accounts balances on trade receivables:

	12/31/2018	12/31/2017 Restated (i)
Ipiranga	442,486	350,594

e. Liquidity Risk

The Company and its subsidiaries' main sources of liquidity derive from (i) cash, cash equivalents, and financial investments, (ii) cash generated from operations and (iii) financing. The Company and its subsidiaries believe that these sources are sufficient to satisfy their current funding requirements, which include, but are not limited to, working capital, capital expenditures, amortization of debt, and payment of dividends.

The Company and its subsidiaries periodically examine opportunities for acquisitions and investments. They consider different types of investments, either directly, through joint ventures, or through associated companies, and finance such investments using cash generated from operations, debt financing, through capital increases, or through a combination of these methods.

The Company and its subsidiaries believe to have enough working capital and sources of financing to satisfy their current needs. The gross indebtedness due over the next twelve months totals R\$ 2,869 million, including estimated interests on loans (for quantitative information, see Note 15.a). Furthermore, the investment plan for 2019 totals R\$ 1,762 million. As of December 31, 2018, the Company and its subsidiaries had R\$ 6,792.1 million in cash, cash equivalents, and short-term financial investments (for quantitative information, see Note 4).

The table below presents a summary of financial liabilities in 2018 by the Company and its subsidiaries, listed by maturity. The amounts disclosed in this table are the contractual undiscounted cash outflows, and, therefore, these amounts may be different from the amounts disclosed on the balance sheet.

Financial liabilities	Total	In millions of Brazilian Reais

4.06 in 2020, R\$ 4.27 in 2021, R\$ 4.53 in 2022, R\$ 4.81 in 2023, R\$ 5.12 in 2024, R\$ 5.44 in 2025, R\$ 5.77 in 2026 and R\$ 6.13 in 2027 (iii) TJLP of 7.03%, (iv) IGP-M of 8.12% in 2018, 4.14% in 2019, 3.90% from 2020 to 2033 and (v) IPCA of 4.01% (source: B3, Bulletin Focus and financial institutions).

- (2) Includes estimated interest payments on short-term and long-term loans until the payment date.
- (3) The currency and interest rate hedging instruments were estimated based on projected U.S dollar futures contracts and the futures curves of DI x Pre and Pre x IPCA contracts quoted on B3 on December 28, 2018 and on the futures curve of LIBOR (ICE IntercontinentalExchange) on December 31, 2018. In the table above, only the hedging instruments with negative results at the time of settlement were considered.

f. Capital Management

The Company manages its capital structure based on indicators and benchmarks. The key performance indicators related to the capital structure management are the weighted average cost of capital, net debt / EBITDA, interest coverage, and indebtedness / equity ratios. Net debt is composed of cash, cash equivalents, and financial investments (see Note 4) and loans, including debentures (see Note 15). The Company can change its capital structure depending on the economic and financial conditions, in order to optimize its financial leverage and capital management. The Company seeks to improve its return on invested capital by implementing efficient working capital management and a selective investment program.

g. Selection and Use of Financial Instruments

In selecting financial investments and hedging instruments, an analysis is conducted to estimate rates of return, risks involved, liquidity, calculation methodology for the carrying value and fair value, and a review is conducted of any documentation applicable to the financial instruments. The financial instruments used to manage the financial resources of the Company and its subsidiaries are intended to preserve value and liquidity.

The Policy contemplates the use of derivative financial instruments only to cover identified risks and in amounts consistent with the risk (limited to 100% of the identified risk). The risks identified in the Policy are described in the above sections, and are subject to risk management. In accordance with the Policy, the Company and its subsidiaries can use forward contracts, swaps, options, and futures contracts to manage identified risks. Leveraged derivative instruments are not permitted. Because the use of derivative financial instruments is limited to the coverage of identified risks, the Company and its subsidiaries use the term *hedging instruments* to refer to derivative financial instruments.

As mentioned in the section *a. Risk Management and Financial Instruments – Governance*, the Committee monitors compliance with the risk standards established by the Policy through a risk map, including the use of hedging instruments, on a monthly basis. In addition, the internal audit department verifies the compliance with the requirements of the Policy.

Table of Contents**Ultrapar Participações S.A. and Subsidiaries****Notes to the Parent and Consolidated Financial Statements***(In thousands of Brazilian Reais, unless otherwise stated)*

Hedging instruments existing as of December 31, 2018 are described below, according to their category, risk, and hedging strategy:

a and d Hedging against foreign exchange exposure of liabilities in foreign currency The purpose of these contracts is (i) to offset the effect of the change in exchange rates of debts or firm commitments in U.S. dollars by converting them into debts or firm commitments in Brazilian Reais linked to CDI, (ii) to offset firm commitments in U.S. dollars, changing them into debts or firm commitments in Reais indexed to the CDI and (iii) change a financial investment linked to the CDI and given as a guarantee to a loan in the U.S. dollar into a financial investment linked to the U.S. dollar. As of December 31, 2018, the Company and its subsidiaries had outstanding swap contracts totaling US\$ 1,311.8 million in notional amount with a liability position, on average of 75.5% of CDI, of which US\$ 368.8 million, had an asset position at US\$ + 2.43% p.a., US\$ 210.0 million had an asset position at US\$ + LIBOR + 1.29% p.a. and US\$ 733.0 million in interest rate swap with an asset position at US\$ + 5.65% p.a. This amount includes US\$ 395.0 million related to the fair value of hedging instruments of Ipiranga's debt (see Notes 15.c and *h. Hedge Accounting* below).

b Hedging against fixed interest rate + IPCA in Brazilian Reais The purpose of this contract is to change fixed interest rate + IPCA of debentures issued in Brazilian Reais to floating interest. As of December 31, 2018 this swap contract totaled R\$ 806.1 million of notional amount, corresponding to the principal amount of the debt and had an asset position at 4.57% p.a. + IPCA and a liability position at 95.8% of CDI.

c Hedging against foreign exchange exposure of revenues in foreign currency The purpose of this contract is to protect the highly probable future sales of the subsidiaries Oxiteno Nordeste, Oxiteno S.A, Oleoquímica and EMCA, denominated in U.S. dollars, regarding the impacts resulting exclusively from variations at the R\$/US\$ exchange rate, using derivative instruments (options) through a zero cost collar structure, which consists of the purchase of a put option and the sale of a call option, contracted with the same counterparty and with no premium paid. As of December 31, 2018, the principal amount of zero cost collars was US\$ 149.4 million contracted in the range of R\$/US\$ 3.6 and R\$/US\$ 4.6.

e Hedging against foreign exchange exposure of operations The purpose of these contracts is to make the exchange rate of the revenues of subsidiaries Oleoquímica, Oxiteno S.A. and Oxiteno Nordeste equal to the exchange rate of the cost of their main raw materials during their operating cycles. As of December 31, 2018, these swap contracts totaled US\$ 8.9 million and, on average, had an asset position at 32.9% of CDI and a liability position at US\$ + 0.0% p.a.

h. Hedge Accounting

The Company and its subsidiaries use derivative and non-derivative financial instruments for hedging purposes and test, throughout the duration of the hedge, their effectiveness, as well as the changes in their fair value.

h.1 Fair value hedge

The Company and its subsidiaries designate as fair value hedges certain financial instruments used to offset the variations in interest and exchange rates, which are based on the market value of financing contracted in Brazilian Reais and U.S. dollars.

The foreign exchange hedging instruments designated as fair value hedge are:

In millions, except the CDI %	12/31/2018	12/31/2017
Notional amount US\$	395.0	320.0
Result of hedging instruments gain/(loss) R\$	149.2	(143.4)

Notional amount R\$	806.1	566.1
Result of hedging instruments gain/(loss) R\$	25.8	(3.3)
Fair value adjustment of debt R\$	(13.3)	19.1
Financial expense in the statements of profit or loss R\$	(50.2)	(18.5)
Average effective cost CDI %	95.8	95.2

h.2 Cash flow hedge

The Company and its subsidiaries designate, as cash flow hedge of firm commitment and highly probable transactions, derivative financial instruments to hedge firm commitments and non-derivative financial instruments to hedge highly probable future transactions, to hedge against fluctuations arising from changes in exchange rate.

On December 31, 2018, the Company had no open exchange rate hedging instruments of firm commitments designated as cash flow hedges (US\$ 115.0 million on December 31, 2017). For the exchange rate hedging instruments settled in 2018, a gain of R\$ 10.7 million was recognized in the income statement (loss of R\$ 45.4 million on December 31, 2017), transferring the unrealized gain of Other comprehensive income to the income statement on December 31, 2018 (gain of R\$ 5.3 million on December 31, 2017), net of deferred IRPJ and CSLL.

On December 31, 2018, the notional amount of foreign exchange hedging instruments for highly probable future transactions designated as cash flow hedge, related to notes in the foreign market totaled US\$ 570.0 million (US\$ 570.0 million on December 31, 2017). On December 31, 2018, the unrealized loss of Other comprehensive income is R\$ 243.7 million (loss of R\$ 30.5 million on December 31, 2017), net of deferred IRPJ and CSLL.

On December 31, 2018, the notional amount of foreign exchange hedging instruments for highly probable future transactions designated as cash flow hedge, related to future sales revenues of Oxiteno (zero cost collars) totaled US\$ 149.4 million. On December 31, 2018, the unrealized gain of Other comprehensive income is R\$ 0.2 million, net of deferred IRPJ and CSLL.

h.3 Net investment hedge in foreign entities

The Company and its subsidiaries designate, as net investment hedge in foreign entities, notes in the foreign market, for hedging net investment in foreign entities, to offset changes in exchange rates.

On December 31, 2018, the balance of foreign exchange hedging instruments designated as net investments hedge in foreign entities, related to part of the investments made in entities which functional currency is other than the Brazilian Real, totaled US\$ 96.0 million (US\$ 113.0 million on December 31, 2017). On December 31, 2018, the unrealized loss of Other comprehensive income is R\$ 45.9 million (loss of R\$ 6.2 million on December 31, 2017), net of deferred income and social contribution taxes. The effects of exchange rate changes on investments and hedging instruments were offset in equity.

Notes to the Parent and Consolidated Financial Statements

(In thousands of Brazilian Reais, unless otherwise stated)

The fair value of financial instruments, including currency and interest hedging instruments, was determined as follows:

The fair value of cash and bank deposit balances are identical to their carrying values.

Financial investments in investment funds are valued at the value of the fund unit as of the date of the financial statements, which corresponds to their fair value.

Financial investments in CDBs (Bank Certificates of Deposit) and similar investments offer daily liquidity through repurchase at the yield curve and the Company calculates their fair value through methodologies commonly used for mark to the market.

The fair value of trade receivables and trade payables are approximate to their carrying values.

The subscription warrants indemnification were measured based on the share price of Ultrapar (UGPA3) at the financial statements date and are adjusted to the Company's dividend yield, since the exercise is only possible starting in 2020 onwards and they are not entitled to dividends until then. The number of shares of subscription warrants indemnification is also adjusted according to the changes in the amounts of provision for tax, civil, and labor risks and contingent liabilities related to the period prior to January 31, 2014. (See Note 24).

The fair value calculation of notes in the foreign market (see Note 15.b) is based on the quoted price in an active market.

The fair value of other financial investments and financing was determined using calculation methodologies commonly used for mark-to-market reporting, which consist of calculating future cash flows associated with each instrument adopted and adjusting them to present value at the market rates as of December 31, 2018 and 2017. For some cases where there is no active market for the financial instrument, the Company and its subsidiaries can use quotes provided by the transaction counterparties.

The interpretation of market information on the choice of calculation methodologies for the fair value requires considerable judgment and estimates to obtain a value deemed appropriate to each situation. Consequently, the estimates presented do not necessary indicate the amounts that may be realizable in the current market.

Financial instruments were classified as financial assets or liabilities measured at amortized cost, except (i) all exchange rate and interest rate hedging instruments, which are measured at fair value through profit or loss, financial investments classified as measured at fair value through profit or loss and financial investments that are classified as measured at fair value through other comprehensive income (see Note 4.b), (ii) loans and financing measured at fair value through profit or loss (see Note 15.a), (iii) guarantees to customers that have vendor arrangements (see Note 15.k), which are measured at fair value through profit or loss, and (iv) subscription warrants indemnification, which are measured at fair value through profit or loss (see Note 24). Cash, banks, and trade receivables are classified as measured at amortized cost. Trade payables and other payables are classified as financial liabilities measured at amortized cost.

Table of Contents**Ultrapar Participações S.A. and Subsidiaries****Notes to the Parent and Consolidated Financial Statements***(In thousands of Brazilian Reais, unless otherwise stated)***k. Sensitivity Analysis of Derivative Financial Instruments**

The Company and its subsidiaries use derivative financial instruments only to hedge against identified risks and in amounts consistent with the risk (limited to 100% of the identified risk). Thus, for purposes of sensitivity analysis of market risks associated with financial instruments, as required by CVM Instruction 475/08, the Company analyzes the hedging instrument and the hedged item together, as shown on the charts below.

For the sensitivity analysis of foreign exchange hedging instruments as of December 2018 and 2017, management adopted as a likely scenario the Real/U.S. dollar exchange rates at maturity of each swap, projected by U.S dollar futures contracts quoted on B3 as of December 28, 2018. As a reference, the exchange rate for the last maturity of foreign exchange hedging instruments is R\$ 5.86 (R\$ 5.83 as of December 31, 2017) in the likely scenario. Scenarios II and III were estimated with a 25% and 50% additional appreciation or depreciation of the Brazilian Real against the likely scenario, according to the risk to which the hedged item is exposed.

Based on the balances of the hedging instruments and hedged items as of December 31, 2018 and 2017, the exchange rates were replaced, and the changes between the new balance in Brazilian Reais and the original balance in Brazilian Reais as of December 31, 2018 and 2017 were calculated in each of the three scenarios. The table below shows the change in the values of the main derivative instruments and their hedged items, considering the changes in the exchange rate in the different scenarios:

12/31/2018	Risk	Scenario I Likely	Scenario II	Scenario III
Currency swaps receivable in U.S. dollars

(3)+(4)	Net effect			

For sensitivity analysis of hedging instruments for interest rates in Brazilian Reais as of December 31, 2018 and 2017, the Company used the futures curve of the DI x Pre contract quoted on B3 as of December 28, 2018 for each of the swap and debt (hedged item) maturities, to determine the likely scenarios. Scenarios II and III were estimated based on a 25% and 50% deterioration, respectively, of the likely scenario pre-fixed interest rate.

Table of Contents**Ultrapar Participações S.A. and Subsidiaries****Notes to the Parent and Consolidated Financial Statements***(In thousands of Brazilian Reais, unless otherwise stated)*

Based on the three scenarios of interest rates in Brazilian Reais, the Company estimated the values of its debt and hedging instruments according to the risk which is being hedged (variations in the pre-fixed interest rates in Brazilian Reais), by projecting them to future value at the contracted rates and bringing them to present value at the interest rates of the estimated scenarios. The result are shown in the table below:

12/31/2018			Risk	Scenario I Likely	Scenario II	Scenario III

34. Commitments (Consolidated)**a. Contracts**

a.1 Subsidiary Tequimar has agreements with CODEBA and Complexo Industrial Portuário Governador Eraldo Gueiros, in connection with its port facilities in Aratu and Suape, respectively. Such agreements establish a

minimum cargo movement of products, as shown below:

Port	Minimum movement in tons per year	Maturity
Aratu	397,000	2031
Aratu	900,000	2022
Suape	250,000	2027
Suape	400,000	2029

If the annual movement is less than the minimum contractual movement, the subsidiary is liable to pay the difference between the effective movement and the minimum contractual movement, based on the port tariff rates in effect on the date established for payment. As of December 31, 2018, these rates were R\$ 6.99 per ton for Aratu and R\$ 2.54 per ton for Suape. The subsidiary has met the minimum cargo movement required since the beginning of the contractual agreements.

- a.2** Subsidiary Oxiteno Nordeste has a supply agreement with Braskem S.A. which establishes a minimum annually consumption level of ethylene, and conditions for the supply of ethylene until 2021. The minimum purchase commitment clause provided for a minimum annual consumption of 205 thousand tons in 2018. Should the minimum purchase commitment not be met, the subsidiary would be liable for a fine based on the current ethylene price for the quantity not purchased. According to contractual conditions and tolerances, there are no material issues regarding the minimum purchase commitment.
- a.3** Subsidiary Oxiteno S.A. has a supply agreement with Braskem S.A., valid until 2023, which establishes and regulates the conditions for supply of ethylene to Oxiteno based on the international market for this product. The minimum purchase is 44,100 tons of ethylene annually. Should the minimum purchase commitment not be met, the subsidiary would be liable for a fine based on the current ethylene price for the quantity not purchased. According to contractual conditions and tolerances, there are no material issues regarding the minimum purchase commitment.

The General Liability Insurance program covers the Company and its subsidiaries with a maximum aggregate coverage of US\$ 400 million (equivalent to R\$ 1,550 million as of December 31, 2018), against losses caused to third parties as a result of accidents related to commercial and industrial operations and/or distribution and sale of products and services.

The Company maintains liability insurance policies for directors and executive officers to indemnify the members of the Board of Directors, fiscal council, directors and executive officers of Ultrapar and its subsidiaries (Insured) in the total amount of US\$ 80 million (equivalent to R\$ 310 million as of December 31, 2018), which cover any of the Insured liabilities resulting from wrongful acts, including any act or omission committed or attempted, except if the act, omission or the claim is consequence of gross negligence or willful misconduct.

In addition, group life and personal accident, health and national and international transportation and other insurance policies are also maintained.

The coverage and limit of the insurance policies are based on a careful study of risks and losses conducted by independent insurance advisors. The type of insurance is considered by management to be sufficient to cover potential losses based on the nature of the business conducted by the companies.

c. Operating Lease Contracts

Subsidiaries Cia. Ultragaz, Bahiana, Tequimar, Serma, and Oxiteno S.A. have operating lease contracts for the use of IT equipment. These contracts have terms from 36 to 48 months. The subsidiaries have the option to purchase the assets at a price equal to the fair market price on the date of option, and management does not intend to exercise such option. Subsidiaries Cia. Ultragaz and Bahiana have operating lease contracts related to vehicles in their fleet. These contracts have terms of 24 to 60 months and there is no purchase option. The future disbursements (installments), assumed under these contracts, amount approximately to:

	Up to 1 year	Between 1 and 5 years	More than 5 years	Total
12/31/2018	30,941	55,545		86,486

The subsidiaries IPP, Extrafarma, and Cia. Ultragaz have operating lease contracts related to land and building of service stations, drugstores, and stores, respectively. The future disbursements and receipts (installments), arising from these contracts, amount approximately to:

		Up to 1 year	Between 1 and 5 years	More than 5 years	Total
12/31/2018	payable	220,988	686,108	547,412	1,454,508
	receivable	(84,332)	(240,756)	(253,997)	(579,085)

The expense recognized in 2018 for operating leases was R\$ 189,008 (R\$ 160,465 in 2017), net of sublease income.

Message from the Management

Ultrapar took important steps to enhance both its management model and its corporate governance during 2018.

As part of a planned succession process and consistent with the Company's good corporate governance, Paulo Guilherme Aguiar Cunha, after three decades of unparalleled contributions, was nominated Chairman Emeritus of the Board of Directors, an honorary and lifetime position. To succeed him, Pedro Wongtschowski, Vice Chairman of the Board of Directors and Chief Executive Officer of Ultrapar between 2007 and 2012, was elected Chairman.

Other important succession movements took place at the senior management level, in the leadership of Extrafarma, Ultragas and Ipiranga, equally aligned to a planned succession process that blended internal promotions with the attraction of external talents.

Over the course of the year, we dedicated both time and resources to improving Ultrapar's strategic planning process with a view to achieving better integration and dynamics of the analyses of our businesses with an extension of our planning horizon, harmonization of assumptions and parameters among companies, monitoring results closer and more frequently, consolidation of annual budgets and investment plans and a structured assessment for the Company's portfolio of investments.

On another front, we formalized or improved some important corporate policies such as Risk Management (general nature), Management of Financial Risks, Disclosure of Material Facts, Securities Trading and Competition/Anti-Trust policies. All of these initiatives are consistent with our organization's resolute commitment to the continual improvement in governance practices and the ethical and transparent conduct of our people.

From the macro-economic point of view, the year began with a positive outlook for recovery in Brazil following the deepest recession in the country's history. However, rising oil prices combined with a sharp currency devaluation engendered a significant increase in fuel prices and, consequently, road transportation freight costs, culminating in a truckers' strike which paralyzed the entire country, impacting substantially all sectors of the economy. The outcome to this event together with uncertainties surrounding the eventual results of the general elections, led the Brazilian economy to post only moderate growth in 2018.

Since our businesses bear a close correlation with the domestic economic performance, we took firm action in the management of costs, expenses and capital employed, seeking to increase the efficiency of our operations, optimize investments and reduce the working capital of our companies. In such an environment of limited economic expansion and consequent intensified competition, there was an inevitable impact on some of our results. In 2018, Ultrapar reported an Adjusted EBITDA of R\$ 3,069 million and net earnings of R\$ 1,132 million, which were solid results, although below our expectations and lower than those reported for 2017.

On the other hand, initiatives taken to control costs and for greater selectivity in capital investments produced an excellent operational cash generation of R\$ 1.4 billion in 2018, higher than in 2017.

At Ipiranga, we strengthened the management model to ensure greater agility in reacting to the opportunities and challenges of the market. We strengthened the relationship with our resellers and modified the organizational structure with a view to facilitating the capture of value in the ancillary businesses such as the am/pm convenience store franchise and the customer relationship channels, notably *KMV Km de Vantagens*, the country's leading loyalty program. Following a difficult first half, also due to the truckers' strike, Ipiranga began a gradual and consistent process of recovery in the second half of the year, underscoring our conviction of an improvement in results from 2019 onwards. In 2018, we added 67 bakeries and 54 beer caves to our network as well as 78 new am/pm stores and 37 Jet Oil units, consolidating both as the 2nd and 6th largest franchise networks in the country, respectively, according to the Brazilian Franchise Association. Among other initiatives, the *Abastece aí* (Fill Up) app is already being used by more than 1.4 million as a means of payment and for exchanging *KMV* points.

Oxiteno began operations at its new ethoxylation plant in Texas, USA, with a state of the art operation both in technology and automation and located in the world's largest surfactants market, this important project being concluded at an investment of approximately US\$ 200 million. In addition, the Company continues committed to its research and development activities for continually expanding its specialty chemicals portfolio with greater potential for adding value and launched 22 new products in 2018.

Throughout the year, Ultragaz continued to develop pioneering innovation and operational excellence in its field, which combined with discipline in the management of costs and expenses has contributed to consolidate the Company as a worldwide benchmark in LPG distribution. Employing digital solutions for its clients, automating the activities of its commercial team and employing digital technology with its resellers, Ultragaz aims to continue growing organically in Brazil, mainly in the North and the Northeast, at the same time assessing opportunities for expansion in the international market. In 2018, Ultragaz developed and launched seven new LPG applications for industry, agribusiness and commerce and services, adding more than 900 new clients during the year.

Ultracargo reported an excellent performance in 2018, despite a scenario of reduced fuel imports which affected the entire bulk liquid storage sector. The Company's agility and flexibility were instrumental in maximizing opportunities in the ethanol and chemicals markets, offsetting the impact of the decline in the demand for fuel storage and handling. In 2019, the Company will continue investing in the expansion of its capacity mainly focusing on the ports of Santos (SP) and Itaquí (MA).

As to Extrafarma, 2018 was a year of intensifying competition in the retail pharmacy market with pressure both on margins and expansion processes of the principal retail networks. In this environment, the Company reduced its pace of store additions, adopting greater selectivity in location and potential profitability, prioritizing the densification of its network and logistics optimization. Additionally, Extrafarma has implemented a new retailing system, which shall contribute to enhance productivity and inventory management at the distribution centers and stores as well as providing a better purchasing experience for our customers.

For 2019, we rely on an improving Brazilian macroeconomic outlook, with greater generation of employment and incomes, driving expansion in domestic market demand. This combination of factors will be beneficial to our businesses, all of which have the potential to leverage future GDP growth and which will also benefit from the maturing process of investments made over the past few years. Consequently, at Ultrapar, we expect growth in all our businesses in the next few years with improved returns and a rapid reduction in financial leverage. This will allow us to increase our investment potential and to pursue market opportunities.

We believe in our capabilities to create value through our work in the management of companies of good quality, characterized by good market positioning, tangible competitive advantages, a good cash generation and return on capital employed, and a competent leadership team. We have also determined that our businesses should be conducted strictly according to Ultra's principles – safety first and foremost; governance, integrity and management transparency; financial discipline and soundness; client satisfaction as the basis for our success; differentiation as a competitive factor; operational excellence and qualified and high performance teams.

We are determined to ensure that the Company will continue its successful trajectory of contributing to the development of Brazil, with respect for our clients, consumers, shareholders, business partners, employees, suppliers, capital markets and the society as a whole. We would like to take the opportunity to thank each one of our stakeholders for their trust and contribution in supporting and enhancing Ultrapar and its businesses.

Company Profile

Since 1999, Ultrapar's shares have been listed on the New York Stock Exchange (NYSE) under a Level III ADR program and on the São Paulo Stock Exchange (Brasil, Bolsa, Balcão - B3), and listed on the *Novo Mercado* segment since 2011.

With more than 80 years of history, Ultrapar occupies positions of leadership in the five business segments in which it operates.

Ipiranga

One of the largest fuel and lubricants networks in the country, Ipiranga offers an increasingly complete and digitized network of more than 7 thousand service stations as well as one of the largest convenience store franchises in Brazil, the am/pm franchise, with 2.5 thousand stores. It also has one of the major loyalty programs in Brazil, *KMV*, with more than 29 million participants at the end of 2018.

Oxiteno

A leader in Latin America in the production of surfactants and specialty chemicals, Oxiteno recently started operating a plant in the United States and is increasingly expanding its international footprint. In addition to this new industrial unit, it operates six plants in Brazil, three in Mexico, one in Uruguay and one in Venezuela. Oxiteno has commercial offices in Argentina, Belgium, China and Colombia.

Ultragaz

A pioneer and leader in the domestic market for distribution of Liquefied Petroleum Gas (LPG), Ultragaz is a reference in innovation and in creating new solutions for the use of the product. It has a modern research and development laboratory dedicated to special gases, a segment which it has a leadership position.

Ultracargo

The largest liquid bulk storage company in Brazil, with a presence in six ports at strategic locations in the Northeast, Southeast and South regions.

Extrafarma

In 2018, it reached the mark of 433 stores employing 7 thousand people. With its origins in the North and the Northeast, the business unit now is present in 13 Brazilian states.

Socio-environmental responsibility

Ultrapar is directly present in the daily lives of millions of Brazilians through its service stations, convenience stores and pharmacy networks as well as through the distribution of LPG and the production of specialty chemicals, which are the raw materials for an infinity of consumer goods. The success of this relationship is linked to the way the businesses are managed, always in an ethical and transparent manner, constantly supported by socio-environmental and cultural development initiatives.

Ipiranga

One of Ipiranga's concerns is to monitor the impacts of its operations. For this purpose, it conducts risk analysis for 100% of its facilities. As a result, none of its operational facilities has non-acceptable social risk according to the standards of environmental agencies. In addition, through the *SIGA+*, Health, Safety, Environment, Quality and Social Responsibility Management System, it manages the indicators related to the mentioned themes and implements actions in order to guarantee the continuous improvement of its process and the reliability of its operations. To strengthen its culture of safety, Ipiranga has several initiatives consolidated in one program that seeks to promote adequate physical conditions, efficient procedures and safe behavior to enhance the safety of its operations. To guarantee physical conditions it conducts risk analyses, auditing in the control measures, trials in the fire-protection systems and inspections based on legislation, which are guidelines to investments in safety. On the Proceedings pillar, the Operations Manual gathers the operational and safety proceedings, which shall be followed and are audited annually.

Table of Contents

Truckers are a target audience for two of Ipiranga's programs. The first is an itinerant initiative known as Health on the Highway (*Saúde na Estrada*) which since its launch, has provided more than 430 thousand people in 180 municipalities in 23 states with preventive medical examinations, vaccinations, body composition assessments, among others. The second involves initiatives within the scope of the On the Right Track (*Na Mão Certa*), part of the Childhood Brasil program for eradicating the sexual exploitation of children and adolescents on the highways.

Ipiranga has also been a signatory to the National Pact to Eradicate Slave Labor (InPACTO) since 2014 and has an Action Plan to formalize the initiatives involving commitments assumed with the support of the Legal and Procurement areas together with the Sustainability Committee.

At the end of 2018, 16% of Ipiranga's network consisted of eco-efficient service stations which adopt solutions for the rational use of water, energy and materials and to ensure correct waste disposal.

During the year, Ipiranga joined the Brazilian Green Logistics Program (*Programa Logística Verde Brasil - PLVB*), coordinated by the Freight Transportation Laboratory of the Federal University of Rio de Janeiro (UFRJ). The objective of PLVB is to capture, integrate, consolidate and apply knowhow for reducing Greenhouse Gas (GHG) emissions through enhanced efficiencies in freight transportation.

Since 2012, Ipiranga has prepared its Greenhouse Gas Emissions Inventory in accordance with ISO 14064 norms, the Brazilian GHG Protocol Program's specifications and Intergovernmental Panel on Climate Change (IPCC) data. All indicators are verified by an independent company and published in the GHG Public Emissions Registry platform.

In addition, through the Zero Carbon (*Carbono Zero*) program, Ipiranga measures seeks to reduce and offset the GHG emissions arising from its direct and indirect operations, including those from its Ipiranga Racing team in the Stock Car championship. Since launching in 2012, the program has been responsible for offsetting 350 thousand tons of CO₂.

Oxitenó

In 2018, Oxitenó was a party to the Contribution Letter to the Sustainable Development Goals (SDGs) of the United Nations Organization through the Brazilian Chemical Industry Association (ABIQUIM), of which the Company is a Board Member. In the letter, ABIQUIM members have formalized the engagement of the sector's Consultative Community Councils (CCCs) linking the sector with the UN's global agenda and with its disclosure and implementation. The CCCs act as a channel for communication and development of projects between companies and the people of localities where companies operate and are managed by volunteers from the communities themselves. Representatives from Oxitenó sit on the councils at all its industrial units in Brazil and in the case of the Tremembé (SP) plant, the CCC is entirely administered by the Company.

Oxitenó has progressed in the use of the Greenformance platform, which provides guidance on the prioritization of product development based on raw materials from renewable sources. Whenever possible, the Company replaces the use of synthetic raw material and petrochemical derivatives for those with a vegetable origin. In addition, preference is given to the preparation of more concentrated, biodegradable and related products in the reduction of energy, water consumption and packaging.

Oxiteno also makes a Life Cycle Assessment of its eco-efficient products. Regulated under ISOs 14040 and 14044, the methodology is used to quantify the environmental performance of a solution and to identify at what stage in its existence do the principal impacts on nature reach their peak. On the basis of this diagnosis, process alterations can be tested. During 2018, three life cycle studies were undertaken.

The Company sponsors the Integrate Art and Life social project in Mauá (SP) at the Cora Coralina Municipal School in partnership with the Municipal Education Department. This outreach program involves about 220 students every month, encouraging children and teenagers to stay in school and complete their education through the promotion of cultural and sporting workshops for dancing, football and judo in the counter-shift morning/afternoon periods when there is no formal academic study program offered.

Finally, Oxiteno has joined the Arts Trunk (*Baú das Artes*) project in Camaçari (BA), an initiative under the auspices of Evolve Education Transformer (*Evoluir Educação Transformadora*) where trunks filled with children's books, educational games, toys, fancy dress and musical instrument kits are distributed.

Ultragaz

The social projects which Ultragaz supports and/or develops are divided into three fronts: a) education and culture for children, teenagers and adults for low-income classes, with nationwide or regional coverage; b) support for sociocultural development dedicated to the communities surrounding the Company's units; c) and educative campaigns for health, wellbeing and environmental preservation with nationwide coverage.

In 2018, the Company allocated resources to projects focused on female empowerment. In this context it began a partnership with the Feminine Association for Social and University Studies (Afesu), the focus of which is supporting socially vulnerable women by offering training schemes for entry into the labor market. The Company has established links with the Woman Entrepreneur Network (*Rede Mulher Empreendedora*) for offering opportunities, fostering entrepreneurship and redeeming self-esteem among women who are victims of domestic violence.

Another highlight is the Company's participation in partnership with Junior Achievement, one of the most important entrepreneurial, environmental and business organizations in the world with its focus on developing the entrepreneurial culture among children and adolescents. Instruction is given on subjects such as education and sustainability, personal finance and ethics. In all, 298 employees act as volunteers in projects distributed across Brazil.

In 2018, the Company was a partner in the United Nations Children's Fund (Unicef) to promote the mission of this arm of the United Nations. During the year, Ultragaz provided its customers and employees with information on how to access exclusive material on toys and games for children, reaching 5 million families throughout Brazil.

Just as in the case of Ipiranga, Ultragaz is part of the Childhood Brasil NGO's On the Right Track business pact. Ultragaz disseminates the NGO's causes to its employees and its resellers network, reaching 10 million customers in the household segment.

Since 2012, Ultragaz has been offsetting its CO2 emissions through the projects it sponsors. Jointly with the Green Initiative NGO and as part of the Carbon Free Program, it promotes tree planting to neutralize the CO2 it produces.

During the year, Ultragaz continued its Cooking Oil Collection Campaign (*Campanha Junte Óleo*): Ultragaz Collects and Soya Recycles (*Campanha Junte Óleo: Ultragaz Coleta e Soya Recicla*) in partnership with Bunge and *Instituto Triângulo*. Part of the oil collected is used to manufacture soap and the other part is used for the production of biodiesel. The campaign is conducted in the states of Ceará, Bahia, Minas Gerais, Pernambuco, Rio Grande do Sul and São Paulo.

Ultracargo

Ultracargo continued its sponsorship of the Citizenship Pole (*Polo de Cidadania*), an event organized by the Camaçari Industrial Development Committee (Cofic) in partnership with the Social Service for Industry (Sesi), Cidade do Saber and Camaçari City Government (BA). This initiative provides access to a series of free services and activities for the community, particularly in the areas of health, education, culture, sport and leisure.

The Company also supported the *Tribuna de Santos* newspaper's Community in Action program, an award scheme which discloses and publicizes projects contributing to improving the lives of thousands of people living along the seaboard around the city of Santos.

The Company invests to ensure the impacts of its operations on the environment are minimized and all its units are ISO certified. In 2018, for example, a rainwater harvesting and reuse system, presented in 2017 in the Santos Terminal and approved by the state environmental protection agency, Companhia Ambiental do Estado de São Paulo (Cetesb) - was installed as part of the Optimization and Rational Use of Water Plan (Prua).

Table of Contents**Extrafarma**

For the 3rd consecutive year, in 2018, Extrafarma sponsored the CowParade event in Fortaleza, promoting the local culture and social responsibility. At the end of the event, the little cows were auctioned, the entire proceeds being donated to local charities.

Extrafarma operates a Health Services Waste Management Plan with the support of third party advisory companies authorized by National Sanitary Surveillance Board (Anvisa) for transportation, handling and disposal of spent and damaged medications, syringes, needles and gauzes.

People

Ultra considers people as its differential and the determining factor in corporate success. In this context, it has endeavored to intensify and improve its performance assessment, career planning and succession processes. These initiatives form part of the management model incorporating a variable compensation system linked to meritocracy and the generation of value and reinforcing the processes of attraction, training and retention of talents, the purpose being to attract people and develop the necessary capabilities for the strategy's success.

	# of employees		D (%)
	2018	2017	2018v2017
Ipiranga	3,318	3,051	9%
Oxitenó	1,943	1,901	2%
Ultragaz	3,511	3,633	-3%
Ultracargo	710	715	-1%
Extrafarma	7,112	6,698	6%
Corporate Center	440	450	-2%
Ultrapar	17,034	16,448	4%

The operations model combined with the culture in the human resources area has transformed Ultra into a reference for the development of employees and leaderships, continuous promotion of investments and the permanent search for talents. In 2018, approximately 350 people participated in young professionals, interns and trainee programs. During the same period, Ultra accumulated about 500 thousand hours of employee training. Of the three succession processes involving senior executive positions in the businesses in 2018, two were successors selected from internal candidates, who joined Ultra as interns and built their careers in different areas and businesses of the Company. The constant investment in employee development combined with Ultra's business portfolio with operations in 5 segments results in a frequent flow of opportunities. In 2018 alone, more than 500 employees were transferred internally and 593 new direct job positions were created. Additionally, all the business units run programs for their employees, segmented according to focus such as development and education, health and safety.

Ipiranga

Ipiranga University (IU) provides the strategic tools for formation, skills training and self-development. Using both onsite and virtual means, the university helps to develop the skills and know-how both for the employees and also the resellers and their teams. One of the highlights of the IU in 2018 was a course on the theme of compliance with competition/anti-trust rules and held for 28 groups comprising both employees and clients. The course is designed to guard against practices which transgress the rules and guidelines of free competition.

Live More (*Viva Mais*) quality of life program consisting of actions and campaigns for guidance on the benefits of wellbeing.

Medical Control and Occupational Safety Program (PCMSO) offers several preventive annual medical examinations for detecting possible diseases and promoting healthcare.

Safety Program includes inspections at units, investments in improving installations and guidelines also to be followed by service providers. During the year, one of the focuses of the program was promoting the Attitude of the Owner, directed at leadership level for stimulating leaders to act as catalysts for changing behaviors. Campaigns were also run to develop engagement on the use of Individual Protection Equipment, safe behavior on traffic and active care. The results are reflected in the reduction of 81% of typical accidents with time off work compared with 2017.

Table of Contents

The Advantages of Staying at School and Connected with Tomorrow (Junior Achievement) both for young apprentices, the first reinforcing the importance of continuing study with a focus on employability, education and qualification while the second stimulated a reflection on the future, preparations necessary to join the labor market and guidance on career perspectives.

Oxiteno

DNA Portal an e-learning platform which, in addition to providing employee courses, is used in the case of about 50% of the actions in relation to the development plans for each employee and linked to the results of the performance evaluation process.

What's Next Forum an event transmitted live with the presentation/participation of Oxiteno's principal leaderships held every two to three months. The program provides information on the principal achievements of the business, its objectives and the next steps forward, as well as allowing time for questions and answers. The event is broadcast in Portuguese with simultaneous translation into English and Spanish, the first pilot program being aired in August and watched by 1,200 professionals.

Corporate Facebook a solution offered by the social network operator itself, enhancing a feeling of participation in the businesses since in addition to being able to form communities, the employees are informed on a universal and timely basis as to the principal events at the Company. After the channel operating only two months, 96% of the employees had joined the platform.

Ultragaz

Ultragaz Academia On-Line Ultragaz has educational academies offering training for all businesses both with a technical and behavioral focus. In 2018, the Company invested in a new e-learning tool, Academia On-line, an educational tool which can now be accessed by cell phone for stimulating self-development including training and offers a file and video library for research.

Yet another focus in 2018 was the training of managers and coordinators through the Leadership Academia consisting of an onsite and remote learning path for ensuring that Ultragaz leadership has the knowledge and resources allowing them to manage human capital in accordance with the strategy designed for the company and its employees.

Ultragaz Self-development Guide Ultragaz's strategy is to promote career management skills among its employees so that they can work on their self-development, creating their own career plan and use this as a basis for further development. The Self-development Guide provides a comprehensive collection of solutions and suggestions on free online courses offered by well-known teaching institutions such as *Fundação Getúlio Vargas* (FGV) and *Instituto Endeavor*, as well as films, books and series that can help the employee work essential skills required by Ultragaz.

Ultracargo

DNA Ultracargo program designed to reinforce the culture of safety and operational discipline among employees to help the Company reach the Interdependence stage on the Bradley Curve, where safety is a responsibility that is effectively shared and incorporated by all.

Operator Formation Program (PFO) designed to unify learning and guarantee greater quality and safety to the operation. Those responsible for disseminating knowledge are Ultracargo's employees themselves known as Multipliers and Reference Operators, appointed by their immediate superiors and recognized for the safety practices, conduct, processes and procedures they adopt in a correct and regular form.

Extrafarma

Maturity Program the purpose is to provide working opportunities to people aged over 50 years. More experienced professionals strengthen the store's team, relate well to customers and contribute to a better shopping experience in our stores.

Extrafarma Excellence Program seeks to stimulate quality and improvement in the processes of customer service and in pharmacy operations. Personnel from the stores which stand out most in the program are honored at the annual convention and are recognized by the Company's management.

2018 FINANCIAL PERFORMANCE ANALYSIS**Economic and operational environment**

2018 was marked by the truckers strike, which paralyzed the country and impacted a raft of different sectors, while reducing the pace of economic recovery seen up to mid-May and weakening confidence among both consumers and business. However, following the outcome to the general elections, confidence levels resumed growth.

Indicators

	2018	2017	D (%) 2018v2017
Average exchange rate (R\$/US\$)	3.65	3.19	14%
Brazilian interbank interest rate (CDI)	6.4%	9.9%	-3.5 p.p.

Average Brent crude oil (US\$/barrel)	71.1	54.4	31%

The decision of members of OPEP+ to cut oil production was sufficient to drive up prices until September. From October, oil prices began to decline with the announcement of increased output in the United States and continuing high inventory levels. At the end of the year, a barrel of oil was priced at US\$ 53/barrel (Brent), a 20% drop in the year.

Table of Contents

In 2018, the number of registered light vehicles resumed growth totaling 2.5 million, a year-over-year increase of 14%. ABIQUIM data for chemicals for industrial applications recorded a drop of 1% in 2018 in National Apparent Consumption. In the retail pharmacy sector, Abrafarma members data shows that sales grew by 8% in 2018.

Ipiranga

Sales volume at Ipiranga rose 1% in 2018, with diesel increasing 2%, in line with the gradual recovery in the economy. Conversely, fuel volume for light vehicles (Otto cycle) was 1% less year-over-year, declining until July before resuming growth during the second half. Record ethanol production in 2018 contributed to the reduction in its prices and, consequently, drove the 45% increase in sales while gasoline sales volume recorded a decline of 14%.

Ipiranga posted an increase of 14% in net revenues, due principally to: (i) movements in the average costs of diesel and gasoline which recorded consecutive increases from January through September, in line with international benchmark prices and the devaluation of the Real against the US dollar; (ii) an increase in fuel value-added taxes (PIS/COFINS) in July 2017; and (iii) the strategy of constant innovation in services and convenience at the service station, creating greater customer satisfaction and loyalty.

Sales, general and administrative expenses rose 7%, principally due to the consolidation of expenses relating to the ICONIC joint venture (due both to the addition of expenses from Chevron's lubricants operation as well as extraordinary expenses relating to the startup of the joint operation itself), which initiated in December 2017. If the expenses with the ICONIC business were excluded then sales, general and administrative expenses would have remained flat compared to 2017, as a result of initiatives adopted for reducing expenses in the light of the unfavorable operating environment in 2018.

Ipiranga's Adjusted EBITDA in 2018 amounted to R\$ 2,052 million, 33% lower than 2017, principally due to: (i) the truckers' strike and its impact on sales volumes, variation in margins and higher costs and non-recurring expenses in the period; (ii) the extraordinary expenses with consolidation and startup of the ICONIC operations; and (iii) the movements in fuel costs during 2018.

Ipiranga invested R\$ 957 million in 2018, practically 50% allocated to the expansion of the service stations network (through branding unbranded stations, opening new stations and capturing new customers), am/pm and Jet Oil franchises and logistics facilities. The remaining 50% was invested in network renovation and maintenance and logistics infrastructure. Out of the total investment, R\$ 388 million related to property, plant and equipment and additions to intangible assets, R\$ 390 million to contractual assets with clients (exclusive rights) and a further R\$ 179 million to financing to clients and leasing advances, net of repayments.

Oxiteno

An increase in the demand for commodities, whose volumes rose 8%, together with the 5% reduction in specialty chemical volumes, resulted in an overall reduction of 3% in sales volume compared with 2017, a year Oxiteno reported record sales. Despite the increase in sales volume from the new plant in the USA following its startup in September, export volumes fell 4% in 2018 due to reduced demand from Mercosur countries, notably Argentina. Sales volume in the domestic market also fell 2% compared with 2017.

Oxiteno's net revenues were up 20%, principally due to the 14% devaluation in the Real against the US dollar as well as an increase in the average price in US dollars of 8%, in line with the year-over-year increase in the cost of raw materials. These factors offset the effect of lower sales volumes and the greater share of commodities in the sales mix.

The cost of goods sold rose 17% in 2018, due to: (i) the increase in the cost of raw materials, principally ethylene; (ii) the 14% devaluation in the Real relative to the US dollar; and (iii) costs relating to the startup of the new industrial unit in the USA.

Sales, general and administrative expenses increased 10%, principally due to the effect of the devaluation of the Real on expenses with international operations as well as higher payroll expenses.

The Other operating income line recorded net revenue of R\$ 214 million, compared with R\$ 52 million in 2017. Both in 2017 and 2018, Oxiteno registered gains from tax credits following a court ruling on the exclusion of the ICMS sales tax from the calculation base for PIS and COFINS taxes.

Table of Contents

Oxitenos EBITDA amounted to R\$ 625 million in 2018, an increase of 111% compared with 2017, in spite of lower sales volume. The increase is largely explained by the constitution of tax credits, with a net effect of R\$ 186 million in EBITDA, and the depreciation of R\$ 0.46/US\$ in the average Real/US dollar exchange rate in 2018. If the tax credits were excluded, Oxiteno would have still reported 48% growth in EBITDA in 2018.

In 2018, Oxiteno invested R\$ 467 million, principally allocated to the construction of the plant in the United States and in the expansion and maintenance of its industrial units as a whole.

Ultragaz

Ultragaz's total sales volume was down 1% in 2018, in line with the decline in the overall Brazilian market. While volume was flat year-over-year in the bottled segment, the bulk segment posted a reduction of 3%, principally due to the programmed reduction of an industrial client.

Net revenues were up 16% in 2018, largely due to readjustments in bottled and bulk LPG costs in the refineries and the differentiation and innovation strategies adopted.

The cost of goods sold was up 21%, mainly due to the higher cost of LPG in the refineries.

Sales, general and administrative expenses fell 11% in 2018, the result of initiatives for reducing expenses and improved efficiencies such as lower marketing and freight expenses, mainly due to the gradual shift from CIF to FOB delivery method among its clients, as well as lower expenses with strategic consultancies and lower loss provisions.

Ultragaz reported a net expense of R\$ 278 million in the "Other operating income" line in 2018, compared with R\$ 79 million in 2017. In 2018, Ultragaz registered expenses relating to the break-up fee of R\$ 286 million due to the Brazilian Anti-Trust Authority's (CADE) decision to block the acquisition of Liquigás. In 2017, Ultragaz booked a net expense of R\$ 79 million relating principally to a Cease and Desist Agreement (*Termo de Compromisso de Cessaçã de Prática - TCC*) signed with CADE for R\$ 84 million.

Ultragaz's EBITDA was R\$ 258 million, 41% lower than 2017. Excluding the impact of the abovementioned break-up fee and TCC, the Company's EBITDA would have grown by 4%, largely reflecting the initiatives for reducing costs and expenses despite lower sales volumes.

Ultragaz invested R\$ 225 million in 2018, mainly in the bulk segment, replacement and acquisition of gas bottles and information technology.

Ultracargo

Total average storage at Ultracargo was up 5% due to increased handling activity in Santos, reflecting a partial resumption of its operations in June 2017, and increased ethanol handling in Brazilian ports, notwithstanding the reduction in fuel imports in 2018.

Net revenues rose 13% in 2018, due to: (i) increased average storage following the partial resumption of activities at the Santos terminal; (ii) improved productivity at Ultracargo; and (iii) contractual readjustments for inflation.

The cost of services provided was up 12%, principally due to higher expenditures with rentals, payroll, contracting of third party services in Santos and tankage maintenance services at the terminals in addition to the payment of higher property taxes in 2018.

Sales, general and administrative expenses were up 4% in 2018. The increase reflected: (i) higher payroll expenses due to annual salary adjustments and increased variable remuneration, in line with improved results; and (ii) higher outlays with strategic consultancies and operational safety, but attenuated by reimbursement of an incorrectly charged port management fee in previous fiscal years.

Table of Contents

Ultracargo's EBITDA was up 44% to R\$ 178 million in 2018 due to: (i) greater handling activity at the terminals; (ii) contractual readjustments; and (iii) residual effects of the fire in April 2015 at the Santos Port terminal with a negative impact of R\$ 39 million in 2017.

Ultracargo invested R\$ 162 million in 2018, mainly allocated to the expansion of the Itaquí and Santos terminals and adjustments and maintenance to existing infrastructure.

Extrafarma

Extrafarma opened 68 new stores and closed 29 in 2018, a 10% expansion (a net increase of 39 stores) in the network.

Extrafarma's gross revenues were up 8% in 2018 due to an 11% increase in retail sales, the result of an expanded store network and the higher average number of stores. This growth was partially compensated by a 21% drop in revenues from the wholesale segment and an increase in competition in the sector. In June 2018, the Company replaced its retail IT system, temporarily affecting both retail and wholesale operations during the implementation and stabilization period.

The cost of goods sold increased by 11% in 2018, mainly due to higher sales volume and the annual readjustment in pharmaceutical prices authorized by the Medicine Market Regulation Chamber (*Câmara de Regulação do Mercado de Medicamento* - CMED). Gross profits reached R\$ 607 million, an increase of 3%, due to sales growth, albeit partially impacted by the replacement of the retail system in June, as well as more intensive promotional activities and higher competition.

Sales, general and administrative expenses were up 15% in 2018, due to the 19% greater average number of stores. Excluding the effect of the new stores, sales, general and administrative expenses would have declined by 3%, principally due to the Company's initiatives implemented for productivity gains and reducing expenses, notably in payroll and travel expenses as well as acquiring fees.

Extrafarma recorded a R\$ 47 million negative EBITDA compared with R\$ 23 million in 2017 due to: (i) the impacts caused by the implementation and stabilization of the new retail management system; (ii) the non-recurring event involving a more rigorous selection of stores for closure in the third quarter of 2018; (iii) the greater number of new and still maturing stores and (iv) increased competition in the sector.

Extrafarma invested R\$ 118 million in 2018. This amount was largely allocated to the opening of new stores and the new information systems platform.

Net revenue from sales and services			

Ultrapar reported net revenues from sales and services of R\$ 90,698 million in 2018, a year-over-year growth of 14%, as a consequence of the increase in revenues at all businesses.

Cost of products and services sold

Ultrapar's cost of goods sold and services provided was R\$ 84,537 million in 2018, up 17% from 2017 as a result of growth in all businesses.

Gross profit

Ultrapar posted a gross profit of R\$ 6,161 million in 2018, down 9% compared with 2017 due to a decline in aggregate profits at Ipiranga and Ultragas.

Selling, marketing, general and administrative expenses

Ultrapar's general, administrative, sales and commercial expenses totaled R\$ 4,297 million in 2018, 6% up on 2017 due to the effects of inflation on expenses and specific factors from each business unit.

Other operating income

In 2018, Ultrapar recorded net revenues of R\$ 58 million, 3% down on 2017, due to: (i) the break-up fee due after CADE's rejection of the proposed acquisition of Liquigás; and (ii) recognition of tax credits in favor of Oxiteno with respect to the exclusion of the ICMS sales tax from the calculation base for PIS and COFINS taxes.

Table of Contents**Disposal of property**

In 2018, Ultrapar registered a net expense on property disposals of R\$ 22 million compared to a net expense of R\$ 2 million in 2017, the result of the writing down of IT assets at all the businesses and a more rigorous selection of non-performing drugstores at Extrafarma for closure, attenuated by the sale of real estate by Ipiranga.

Adjusted EBITDA

Ultrapar's consolidated Adjusted EBITDA reached R\$ 3,069 million in 2018, a reduction of 23% compared to 2017.

Depreciation and amortization*

Total costs and expenses with depreciation and amortization in 2018 amounted to R\$ 1,184 million, up 1% from 2017 due to the investments made in the period.

* Includes amortization of contractual assets with clients' exclusive rights.

Operating income

Ultrapar posted R\$ 1,899 million in operating income in 2018, down 32% from 2017 because of the lower operating income reported by Ipiranga, Ultragaz and Extrafarma.

Financial result

Ultrapar's financial result was a net expense of R\$ 114 million in 2018, down R\$ 361 million from the net expenses registered in 2017 despite the increase in net debt, due mainly to: (i) the lower Interbank (CDI) interest rate in the period; (ii) the financial income from the constitution of tax credits at Oxiteno with the exclusion of the ICMS sales tax from the PIS/COFINS taxes calculation base; and (iii) the effects of the depreciation of Ultrapar's share over the

subscription warrants issued in the association with Extrafarma.

Net Income

Ultrapar's consolidated net income in 2018 was R\$ 1,132 million, a reduction of 26% in relation to 2017, principally due to the decline in EBITDA for the period, partially compensated by the lower net financial expense.

Indebtedness

Ultrapar reported a gross debt at year-end 2018 of R\$ 15,206 million and a gross cash position of R\$ 6,994 million, equivalent to a net debt position of R\$ 8,212 million, an increase of R\$ 991 million compared with 2017. Net debt to EBITDA LTM at year-end 2018 was 2.68x compared to 1.81x at year-end 2017.

Investments and outlook

Ultrapar's 2018 investments net of divestments and repayments were R\$ 1.9 billion.

Ultrapar's investment plan for 2019 totals R\$ 1,762 million and is indicative of the Company's commitment to the sustainable growth of its businesses and operating excellence.

Table of Contents

At Ipiranga, the approved limit for investments is R\$ 824 million, approximately 50% being allocated to expansion of the resellers network with the addition of fueling stations and am/pm and Jet Oil franchises and the expansion of logistics infrastructure with the construction of two bases and expansion of a further three. The remaining 50% will be invested in maintenance and modernization of Ipiranga's activities, principally the renewal of reseller contracts and information to support the operations.

Investments by Business R\$ Million

The investment of R\$ 319 million approved for Oxiteno will be used mainly for technological modernization of the Company's productive units and information systems, in addition to investments in safety, with a view to efficiency gains and increased productivity.

At Ultragaz, investments of R\$ 279 million were approved for the: (i) capture of new clients in both the bottled and bulk segments; (ii) replacement and acquisition of gas bottles; (iii) expansion and maintenance of the filling plants; and (iv) in information technology with a view to efficiency gains and as part of the innovation strategy.

Ultracargo is expected to invest R\$ 161 million in increased tankage at the Itaquí and Santos terminals, adding 16% to the Company's total capacity over the course of the second half of 2019, and in the continuing improvement in safety and infrastructure at the terminals.

Extrafarma plans to invest R\$ 158 million for expanding the store network with the rollout of new stores as well as expanding its logistical infrastructure and IT capability.

Ultrapar possesses the characteristics of an entrepreneurial organization, increasingly selective and prudent in the decisions it takes on the allocation of capital and seeking to be more assertive in its investments. The Company's capacity to plan and execute the strategic initiatives in the investment plan, combined with the opportunities for inorganic investments, will ensure the continuation of a sustained growth trajectory, maintaining the protagonism achieved over Ultra's more than 80 years of history.

Relationship with the Independent Auditors

The policies of Ultrapar and its subsidiaries regarding the rendering of services by independent auditors ensure that there is no conflict of interests, loss of independence and objectivity of the services eventually rendered by independent auditors that are not related to external audit.

Pursuant to CVM Instruction No. 381/03, the Company informs that, during the fiscal year of 2018, the external auditors were hired to rendered services in addition to external audit services, which represented 5.7% of the global compensation for external audit services. The services rendered refers to the revision of Tax Accounting Bookkeeping in the amount of R\$102,000.00 and auditing services related to the issuance of a comfort letter connected to the offering of securities in the amount of R\$310,000.00. The term for providing these services are inferior than one year. These services do not affect the independence and objectivity required to perform the external audit services, as it refers to assurance services.

The Company's independent auditors stated to Ultrapar's management that the services provided did not affect the independence and objectivity necessary to perform the external audit services, as it refers to services of adherence assurance to fiscal legislation.

Message from the Management

Ultrapar took important steps to enhance both its management model and its corporate governance during 2018.

As part of a planned succession process and consistent with the Company's good corporate governance, Paulo Guilherme Aguiar Cunha, after three decades of unparalleled contributions, was nominated Chairman Emeritus of the Board of Directors, an honorary and lifetime position. To succeed him, Pedro Wongtschowski, Vice Chairman of the Board of Directors and Chief Executive Officer of Ultrapar between 2007 and 2012, was elected Chairman.

Other important succession movements took place at the senior management level, in the leadership of Extrafarma, Ultragas and Ipiranga, equally aligned to a planned succession process that blended internal promotions with the attraction of external talents.

Over the course of the year, we dedicated both time and resources to improving Ultrapar's strategic planning process with a view to achieving better integration and dynamics of the analyses of our businesses with an extension of our planning horizon, harmonization of assumptions and parameters among companies, monitoring results closer and more frequently, consolidation of annual budgets and investment plans and a structured assessment for the Company's portfolio of investments.

On another front, we formalized or improved some important corporate policies such as Risk Management (general nature), Management of Financial Risks, Disclosure of Material Facts, Securities Trading and Competition/Anti-Trust policies. All of these initiatives are consistent with our organization's resolute commitment to the continual improvement in governance practices and the ethical and transparent conduct of our people.

From the macro-economic point of view, the year began with a positive outlook for recovery in Brazil following the deepest recession in the country's history. However, rising oil prices combined with a sharp currency devaluation engendered a significant increase in fuel prices and, consequently, road transportation freight costs, culminating in a truckers' strike which paralyzed the entire country, impacting substantially all sectors of the economy. The outcome to this event together with uncertainties surrounding the eventual results of the general elections, led the Brazilian economy to post only moderate growth in 2018.

Since our businesses bear a close correlation with the domestic economic performance, we took firm action in the management of costs, expenses and capital employed, seeking to increase the efficiency of our operations, optimize investments and reduce the working capital of our companies. In such an environment of limited economic expansion and consequent intensified competition, there was an inevitable impact on some of our results. In 2018, Ultrapar reported an Adjusted EBITDA of R\$ 3,069 million and net earnings of R\$ 1,132 million, which were solid results, although below our expectations and lower than those reported for 2017.

On the other hand, initiatives taken to control costs and for greater selectivity in capital investments produced an excellent operational cash generation of R\$ 1.4 billion in 2018, higher than in 2017.

At Ipiranga, we strengthened the management model to ensure greater agility in reacting to the opportunities and challenges of the market. We strengthened the relationship with our resellers and modified the organizational structure with a view to facilitating the capture of value in the ancillary businesses such as the am/pm convenience store franchise and the customer relationship channels, notably *KMV Km de Vantagens*, the country's leading loyalty program. Following a difficult first half, also due to the truckers' strike, Ipiranga began a gradual and consistent process of recovery in the second half of the year, underscoring our conviction of an improvement in results from 2019 onwards. In 2018, we added 67 bakeries and 54 beer caves to our network as well as 78 new am/pm stores and 37 Jet Oil units, consolidating both as the 2nd and 6th largest franchise networks in the country, respectively, according to the Brazilian Franchise Association. Among other initiatives, the *Abastece al* (Fill Up) app is already being used by more than 1.4 million as a means of payment and for exchanging *KMV* points.

Oxiteno began operations at its new ethoxylation plant in Texas, USA, with a state of the art operation both in technology and automation and located in the world's largest surfactants market, this important project being concluded at an investment of approximately US\$ 200 million. In addition, the Company continues committed to its research and development activities for continually expanding its specialty chemicals portfolio with greater potential for adding value and launched 22 new products in 2018.

Throughout the year, Ultragaz continued to develop pioneering innovation and operational excellence in its field, which combined with discipline in the management of costs and expenses has contributed to consolidate the Company as a worldwide benchmark in LPG distribution. Employing digital solutions for its clients, automating the activities of its commercial team and employing digital technology with its resellers, Ultragaz aims to continue growing organically in Brazil, mainly in the North and the Northeast, at the same time assessing opportunities for expansion in the international market. In 2018, Ultragaz developed and launched seven new LPG applications for industry, agribusiness and commerce and services, adding more than 900 new clients during the year.

Ultracargo reported an excellent performance in 2018, despite a scenario of reduced fuel imports which affected the entire bulk liquid storage sector. The Company's agility and flexibility were instrumental in maximizing opportunities in the ethanol and chemicals markets, offsetting the impact of the decline in the demand for fuel storage and handling. In 2019, the Company will continue investing in the expansion of its capacity mainly focusing on the ports of Santos (SP) and Itaquí (MA).

As to Extrafarma, 2018 was a year of intensifying competition in the retail pharmacy market with pressure both on margins and expansion processes of the principal retail networks. In this environment, the Company reduced its pace of store additions, adopting greater selectivity in location and potential profitability, prioritizing the densification of its network and logistics optimization. Additionally, Extrafarma has implemented a new retailing system, which shall contribute to enhance productivity and inventory management at the distribution centers and stores as well as providing a better purchasing experience for our customers.

For 2019, we rely on an improving Brazilian macroeconomic outlook, with greater generation of employment and incomes, driving expansion in domestic market demand. This combination of factors will be beneficial to our businesses, all of which have the potential to leverage future GDP growth and which will also benefit from the maturing process of investments made over the past few years. Consequently, at Ultrapar, we expect growth in all our businesses in the next few years with improved returns and a rapid reduction in financial leverage. This will allow us to increase our investment potential and to pursue market opportunities.

We believe in our capabilities to create value through our work in the management of companies of good quality, characterized by good market positioning, tangible competitive advantages, a good cash generation and return on capital employed, and a competent leadership team. We have also determined that our businesses should be conducted strictly according to Ultra's principles – safety first and foremost; governance, integrity and management transparency; financial discipline and soundness; client satisfaction as the basis for our success; differentiation as a competitive factor; operational excellence and qualified and high performance teams.

We are determined to ensure that the Company will continue its successful trajectory of contributing to the development of Brazil, with respect for our clients, consumers, shareholders, business partners, employees, suppliers, capital markets and the society as a whole. We would like to take the opportunity to thank each one of our stakeholders for their trust and contribution in supporting and enhancing Ultrapar and its businesses.

In 4Q18, Ultrapar reported an Adjusted EBITDA of R\$ 993 million (-5%) and net income of R\$ 496 million (+27%).

Ipiranga

Ipiranga reported volumes of 6,160 thousand m³, an increase of 4% compared with 4Q17, with a growth of 3% in diesel, maintaining the tendency since early 2018, and 5% in the Otto cycle, reversing the decline of the first three quarters of 2018. Ipiranga's Adjusted EBITDA was R\$ 569 million, a 35% decline in 4Q17 due to the negative effect of cost movements and conditions for fuel imports. In spite of the year-over-year decline, during the course of 2H18, Ipiranga posted a gradual recovery both in volume and results, with a growth of 14% in EBITDA on 4Q18 compared with 3Q18, following a sharp market downturn in 1H18.

Oxiteno

Oxiteno registered a volume of 190 thousand tons, a reduction of 6% in relation to 4Q17, the result of lower sales of specialty chemicals, despite the growth in the volume of commodities and volume sold in the United States. During 4Q18, Oxiteno recognized tax credits from previous fiscal years reflecting the exclusion of the ICMS sales tax from the PIS/COFINS tax calculation base, producing a net effect of R\$ 186 million in EBITDA and R\$ 153 million in financial income. Consequently, EBITDA in 4Q18 was R\$ 280 million, 265% higher than the same period in 2017. Excluding this effect, Oxiteno's EBITDA would have totaled R\$ 94 million, an increase of 22% in relation to 4Q17, principally driven by a devaluation of 17% in the value of the Real against the US dollar.

Ultragaz

Ultragas recorded volumes of 421 thousand tons, a year-over-year reduction of 1% with an increase of 1% in the bottled segment and a reduction of 5% in the bulk segment, impacted principally by lower industrial demand. Ultragas' s EBITDA amounted to R\$ 121 million (+151%), principally due to the non-recurring effect of the Cease and Desist Agreement (*Termo de Compromisso de Cessaço de Prtica TCC*) signed with the Brazilian Anti-Trust Authority - CADE in 4Q17 for R\$ 84 million. On the same comparative basis and excluding the TCC' s impact, Ultragas' s EBITDA would have shown a reduction of 8%, reflecting a decrease in sales volume in the period and lower participation of the bulk business in the sales mix.

Ultracargo

Average storage at Ultracargo increased by 1% relative to 4Q17, due to greater ethanol handling activity at the Aratu, Santos and Suape terminals, despite the reduction in fuels movement at these terminals. Ultracargo' s EBITDA was R\$ 40 million in the quarter, up 8% compared with 4Q17, reflecting greater average storage and contractual readjustments.

Extrafarma

Extrafarma ended 4Q18 with 433 stores, opening 68 units in the past 12 months and 27 in the quarter. EBITDA in 4Q18 was R\$ 15 million negative, mainly due to the remaining effects of the stabilization process following the installation in June 2018 of the new retail management system, higher pressure from the competitive environment and the increase in the number of new and still maturing stores.

¹ Starting in Dec/17, total volume includes ICONIC, the lubricants joint venture with Chevron

² Fuel oils, arla 32, kerosene, lubricants and greases

Operational performance Otto cycle volume rose 5% compared with 4Q17, reversing the declining trend seen over the first three quarters of 2018. In parallel, diesel volume increased 3%, driven by sales in the service station segment. In relation to 3Q18, volumes declined by 1%, a reduction of 10% in diesel and an increase of 11% in Otto cycle business, due to seasonal differences between the periods. Over 2018, Ipiranga registered an accumulated sales volume of 23,680 thousand m³, 1% greater than 2017.

Net revenues Total of R\$ 19,883 million (+11%), mainly due to variations in fuel costs and higher sales volume. Compared with 3Q18, net revenues were 1% lower, the result of variations in fuel costs and also lower sales volumes. In 2018, Ipiranga's net revenues were R\$ 76,473 million, a year-over-year growth of 14%, mainly due to an increase in cost of goods sold.

Cost of goods sold Total of R\$ 19,003 million (+13%), principally due to variations in fuel costs and higher sales volume. In relation to 3Q18, cost of goods sold fell 1%, due to reduced sales volume as well as variations in the cost of fuels during the period. In 2018, cost of goods sold totaled R\$ 73,053 million, an increase of 17% compared with 2017.

Sales, general and administrative expenses (SG&A) Total of R\$ 516 million (+4%), mainly due to the increase in expenses of R\$ 16 million reflecting the consolidation of ICONIC in December 2017, including additional expenses for the integration of the companies. Excluding this factor, SG&A increased by 1% on an annual comparative basis but below inflation for the period due to higher marketing and freight transportation prices, mitigated by the reversal of a provision for losses in line with the improvement in the credit portfolio risk. In relation to 3Q18, SG&A fell 5%, due to the seasonal reduction in volume and the reversal of provision for losses. In 2018, sales, general and administrative expenses totaled R\$ 2,150 million, up 7% in relation to 2017. Excluding ICONIC-related expenses, SG&A remained

unchanged compared to 2017, due to the efforts to better manage SG&A expenses.

Adjusted EBITDA Total of R\$ 569 million (-35%), mainly influenced by a negative inventory effect due to variations in fuel costs and by more favorable conditions for imports in 4Q17, despite the higher sales in the period. In relation to 3Q18, Adjusted EBITDA increased by 14%, due to: (i) the gradual recovery in margins, following a sharp deterioration in the market during 1H18; and (ii) the reduction in SG&A expenses, which demonstrates an improvement in the profitability of the business. In 2018, Ipiranga's Adjusted EBITDA amounted to R\$ 2,052 million, a decrease of 33% in relation to 2017.

Investments Ipiranga invested R\$ 283 million, allocated mainly to maintenance and expansion of the service station and franchise network. Out of total investments, R\$ 109 million was allocated to plant, property and equipment and to intangible assets, R\$ 111 million to contractual assets with clients (exclusive rights) and R\$ 63 million in financing to clients and rental advances, net of repayments. Investments in 2018 were R\$ 957 million.

For a better comparison between sales volume and the service station network, from this quarter onwards, Ipiranga is adopting a new criteria for disclosing information on its service station network. The new concept considers the service stations which are already operational and have existing contracts with Ipiranga, in addition to service stations that maintain commercial relationship with Ipiranga. Therefore, Ipiranga will not consider signature of contracts as a criteria to include service stations in the network reported. On the basis of this new criterion, Ipiranga ended the year with 7,218 service stations, a net increase of 249, mainly reflecting the opening of units contracted in the past years but which effectively became operational in 2018. Based on the previous criteria, Ipiranga would have ended 4Q18 with 8,088 service stations (+1%), a net addition of 83 stations in 2018. Data for the past five years using this new criteria can be found on page 17.

Operational performance In 4Q18, sales volume of commodities increased 12% year-over-year, reflecting greater demand. Conversely, volumes of specialty chemicals declined by 10%, the domestic market reporting a decrease of 8%, mainly in the agrochemicals, automotive fluids and distribution segments. In the external market, specialty chemical volume fell 13%, due to lower exports to Argentina, this mitigated by improved sales volume in the United States following the opening of the Pasadena, Texas plant in September in 2018. Compared with 3Q18, total sales volume declined 8%, due to seasonal variations in specialty chemical sales as well as reduced sales of commodities in the period. Sales volume amounted to 769 thousand tons in 2018, 3% less than 2017.

Net revenues Total of R\$ 1,200 million (+6%), mainly due to a 17% devaluation in the Real against the US dollar (equivalent to R\$ 0.56/US\$), but attenuated by lower sales volume and the greater share of commodities in the sales mix. In relation to 3Q18, net revenues fell 12%, in this case due to a 4% appreciation in the Real against the US dollar (equivalent to R\$ 0.15/US\$) and lower sales volume. In 2018, net revenues totaled R\$ 4,748 million, a 20% growth compared with 2017.

Cost of goods sold Total of R\$ 974 million (+6%), due to: (i) the 17% devaluation of the Real against the US dollar; (ii) higher costs related to the startup of the new unit in the United States; and (iii) higher payroll expenditures, these impacts being partially offset by lower sales volume. Compared with 3Q18, cost of goods sold decreased by 6%, mainly a reflection of lower sales volume and the 4% appreciation in the Real. In 2018, the cost of goods sold totaled R\$ 3,758 million, an increase of 17% relative to 2017.

Sales, general and administrative expenses (SG&A) Total of R\$ 197 million (+8%), due to: (i) higher payroll expenses; (ii) greater expenditures in the United States with the startup in operations at the new plant; and (iii) the impact of the Real's devaluation on international operations expenses, to a degree offset by lower logistics expenditures, in turn reflecting lower sales volume. In relation to 3Q18, SG&A rose 2%, principally due to higher expenditures with personnel, although mitigated by lower logistics expenditures due to a decline in sales volume in the period. Oxiteno ended 2018 with SG&A totaling R\$ 736 million, a year-over-year increase of 10%.

Other operational results Total of R\$ 209 million in 4Q18, the result of tax credits from previous fiscal years and following a final ruling excluding ICMS sales tax from the PIS/COFINS calculation base.

EBITDA EBITDA at Oxiteno totaled R\$ 280 million (+265%), principally due to tax credits which had a net effect of R\$ 186 million in the quarter. If this effect is excluded, EBITDA for 4Q18 would have totaled R\$ 94 million, an increase of 22% on an annual comparative basis, mainly due to the devaluation of the Real in the period. In relation to 3Q18, EBITDA rose 61%, due to the tax credits mentioned above, but attenuated by exchange rate variations in compared periods. In 2018, EBITDA totaled R\$ 625 million, growth of 111% in relation to 2017.

Investments Investments in the period were R\$ 70 million, allocated mainly to investments in the new specialty chemicals plant in the United States and maintenance at the Company's industrial units. Investments in 2018 were R\$ 467 million.

¹ In 2018, figures exclude the R\$ 286 million break-up fee following the rejection of the Liquigás acquisition proposal (1Q18) and, in 2017, the TCC signed with CADE of R\$ 84 million (4Q17)

Operational performance In the bottled segment, volume increased 1% compared with 4Q17 due to commercial initiatives. The bulk segment registered a decline of 5% in volume, due to a 3% decline in the São Paulo market, where Ultragaz has higher penetration, and programmed reductions by an industrial client. In relation to 3Q18, sales volume fell 6%, reflecting a decline of 4% in the bottled segment and 12% for bulk, reflecting seasonal factors between the periods. In 2018, Ultragaz's sales volume totaled 1,725 thousand tons, a 1% reduction in relation to 2017, in line with the decline in the LPG market as a whole in the period.

Net revenues Total of R\$ 1,783 million (+7%), due to readjustments in the costs of LPG, partially attenuated by lower sales volume of the bulk segment. In relation to 3Q18, net revenues fell by 5%, reflecting a lower sales volume in the period. In 2018, net revenues totaled R\$ 7,043 million, 16% higher than 2017.

Cost of goods sold Total of R\$ 1,552 million (+9%), principally due to readjustments in LPG costs over the course of 2018. In relation to 3Q18, the cost of goods sold fell 5%, reflecting lower sales volume. In 2018, the cost of goods sold totaled R\$ 6,153 million, an increase of 21% in relation to 2017.

Sales, general and administrative expenses (SG&A) Total of R\$ 165 million (-3%), due to: (i) lower expenses with strategic consultancies; (ii) variations in provisions for losses; and (iii) a reduction in marketing expenditures, attenuated by a concentration of indemnity and resignation expenses. In relation to 3Q18, SG&A rose by 14% due mainly to higher loss provisions and heavier expenses with indemnities and resignations, with higher concentration specifically in this quarter. In 2018, sales, general and administrative expenses totaled R\$ 576 million, 11% less than 2017.

EBITDA Total of R\$ 121 million (+151%), mainly due to the non-recurring effect in 4Q17 of the Cease and Desist Agreement (*Termo de Compromisso de Cessação de Prática - TCC*) signed with the Brazilian Anti-Trust Authority CADE for R\$ 84 million. Excluding the TCC, Ultragaz's EBITDA fell 8% due to the lower sales volume and the lower share of bulk business in the total sales mix. In relation to 3Q18, Ultragaz's EBITDA fell 24%, due to seasonally lower volumes. In 2018, EBITDA, ex-non-recurring items, totaled R\$ 544 million, an increase of 4% in relation to 2017.

Investments Ultragaz invested R\$ 55 million, allocated to clients in the bulk segment, and to replacement and acquisition of gas bottles and IT, with a focus on the strategy of differentiation and innovation. In 2018, investments totaled R\$ 225 million.

¹ *Monthly average*

Operational performance Ultracargo's average storage rose 1% in relation to 4Q17 due to increased ethanol handling at the Aratu, Suape and Santos terminals, despite the reduced movement of fuels at the same terminals. In relation to 3Q18, average storage at the terminals fell 1% due to the reduced handling of fuels and ethanol in Suape, although partially offset by greater ethanol handling in Santos. In 2018, average storage at Ultracargo increased by 5% in relation to 2017.

Net revenues Total of R\$ 127 million in 4Q18 (+7%), driven by increased average storage, greater productivity and contractual readjustments. Compared with 3Q18, net revenues rose 2%, due to higher movement in spot contracts. In 2018, net revenues totaled R\$ 494 million, 13% higher than 2017.

Cost of services provided Total of R\$ 63 million (+7%) due to higher payroll expenditures (mainly in the form of variable compensation) and increased costs with leasing agreements. In relation to 3Q18, cost of services provided rose 2% due to the same factors described above. In 2018, the cost of services provided totaled R\$ 245 million, 12% higher, year-over-year.

Sales, general and administrative expenses (SG&A) Total of R\$ 34 million (+4%), principally due to the effects of inflation. In relation to 3Q18, sales, general and administrative expenses increased 10%, reflecting higher payroll expenses and strategic consultancy services fees. In 2018, sales, general and administrative expenses totaled R\$ 117 million, 4% more than 2017, aligned with inflation.

EBITDA Total of R\$ 40 million (+8%) due to contractual readjustments and greater average storage. In relation to 3Q18, EBITDA fell 9% due to higher expenses and lower handling activity in the period. In 2018, Ultracargo's EBITDA totaled R\$ 178 million, a growth of 44% in relation to 2017.

Investments Ultracargo invested R\$ 76 million in the period dedicated to expansion of the Itaquí and Santos terminals, maintenance and modernization of terminals and operation security. In 2018, total investments were R\$ 162 million.

Operational performance Extrafarma ended 4Q18 with 433 stores, 68 openings and 29 closures over the past 12 months, equivalent to an increase of 10% of its network. At the end of 4Q18, still maturing stores (up to three years of operations) accounted for 55% of the network, reflecting its rate of expansion in the past years. In relation to 3Q18, Extrafarma opened 27 new stores and closed 8.

Gross revenues Total of R\$ 526 million (+1%) due to a 5% growth in retail sales, in turn reflecting higher number of stores and the annual readjustment in pharmaceutical prices. These effects were attenuated by the remaining impacts of the replacement of the retailing system, temporarily affecting operations during the system's period of stabilization, and higher pressure from the competitive environment. In relation to 3Q18, gross revenue increased 2% due to the greater number of stores, however, attenuated by the non-recurring effects of the retailing system's substitution already mentioned. In 2018, gross revenues totaled R\$ 2,141 million, 8% greater year-over-year.

Cost of goods sold and gross profit Cost of goods sold totaled R\$ 348 million (+2%) due to an improvement in sales and the annual readjustments in pharmaceutical prices. Gross profit reached R\$ 151 million, same level as last year. In relation to 3Q18, the cost of goods sold and gross profit recorded an increase of 1% and 5%, respectively, due to higher sales turnover and seasonally greater trade marketing funds from industry. In 2018, the cost of goods sold totaled R\$ 1,421 million and gross profit, R\$ 607 million, 11% and 3% more than 2017, respectively.

Sales, general and administrative expenses (SG&A) Total of R\$ 186 million (+13%), reflecting higher number of stores. Excluding the effect of new stores, SG&A expenses fell 1% year-over-year due to initiatives introduced for improving productivity and reducing expenses, particularly those involving payroll, logistics and credit card fees. In relation to 3Q18, SG&A expenses increased by 5%, a reflection of a higher average number of stores. In 2018, sales, general and administrative expenses totaled R\$ 717 million, 15% higher than 2017. Excluding the impact of new store openings in 2018, SG&A expenses fell 3% in relation to 2017.

EBITDA Total of R\$ 15 million negative compared with R\$ 3 million in 4Q17 due to the remaining effects relating to the substitution of the retailing system, the higher pressure from the competitive environment and the greater

number of new and maturing stores. In relation to 3Q18, EBITDA increased R\$ 9 million due to the non-recurring effect of store closures in that quarter at an expense of R\$ 11 million. In 2018, Extrafarma's EBITDA was negative at R\$ 47 million against a positive EBITDA of R\$ 23 million in 2017.

Investments In 4Q18, Extrafarma invested R\$ 50 million dedicated to opening new drugstores and IT, the focus being on improving the shopping experience and operational excellence. In 2018, Extrafarma invested R\$ 118 million.

Net revenues Total of R\$ 23,467 million (+10%) due to growth in revenues at all the businesses. In relation to 3Q18, net revenues fell 2% due to lower revenues from Ipiranga, Oxiteno and Ultragaz. In 2018, net revenues totaled R\$ 90,698 million, an increase of 14% compared with 2017.

Adjusted EBITDA Total of R\$ 993 million (-5%) reflecting lower EBITDA at Ipiranga and Extrafarma, while Oxiteno, Ultragaz and Ultracargo reported an improved EBITDA compared with 4Q17. Adjusted EBITDA rose 17% compared with 3Q18 due to a higher EBITDA at Ipiranga and Oxiteno. In 2018, Adjusted EBITDA totaled R\$ 3,069 million, a reduction of 23% compared with 2017.

Depreciation and amortization³ Totalled R\$ 300 million (-2%) due to the reduction in amortization of contractual assets with clients exclusive rights, but attenuated by investments made in the past 12 months. Compared with 3Q18, total costs and expenses with depreciation and amortization rose by 1%. In 2018, depreciation and amortization totaled R\$ 1,184 million, 1% higher than 2017.

Financial results Ultrapar ended 2018 with a net debt of R\$ 8.2 billion (2.7x LTM Adjusted EBITDA) compared with R\$ 7.2 billion on December 31, 2017 (1.8x LTM Adjusted EBITDA), an increase in gross debt, despite stronger operational cash generation following investment activity in the period. Ultrapar reported net financial income of R\$ 117 million in 4Q18 compared with a net financial expense of R\$ 119 million in 4Q17, a result of: (i) the appropriation of interest on tax credits with respect to the exclusion of the ICMS sales tax from the PIS/COFINS calculation base in the amount of R\$ 153 million; (ii) the result of currency hedges due to exchange rate variation in the period; and (iii) the year-over-year decline in the Interbank Rate (CDI), as a result of liability management initiatives implemented by the Company in the past years, with a reduction in the weighted average cost of debt and

an increase of the average maturity. On a quarter-over-quarter comparative basis, the improvement in net financial expense was R\$ 175 million. In 2018, net financial expenses totaled R\$ 114 million, a decline of 76% compared with 2017.

Net earnings Total of R\$ 496 million (+27%), mainly due to the improvement in financial results. In relation to 3Q18, net earnings increased by 53% due to the improvement in financial results and higher EBITDA. In 2018, net earnings totaled R\$ 1,132 million, a 26% reduction in relation to 2017.

Operational cash flow Total of R\$ 2,889 million in 2018, compared to R\$ 1,739 million in 2017, due to initiatives in working capital management in the period.

MATERIAL NOTICE

São Paulo, February 20, 2019 Ultrapar Participações S.A. (Ultrapar or Company) hereby informs its shareholders and the market in general that the Board of Directors approved, at the meeting held today, a proposal for the stock split of shares issued by the Company, at a ratio of one share currently existing to two shares of the same class and type (Stock Split) and the changing of the number of shares into which the capital stock of the Company is divided. Such proposal will be submitted to the approval of its shareholders in an Extraordinary General Meeting, which will be called jointly to the Annual General Meeting.

This proposal aims to reposition the minimum lot price of the shares and potentially enable an increase of the trading volume of the Company s shares.

If the Stock Split is approved, the capital stock of the Company will be divided in 1,112,810,192 (one billion, one hundred and twelve million, eight hundred and ten thousand, and one hundred and ninety two) shares, all of them nominative, with no par value. The Stock Split will not result in changing of the financial amount or in the equity interest of the shareholders of the Company. The shares result from the Stock Split will grant to its holders including the holders of American Depositary Receipt issued by Ultrapar (ADR), traded in the New York Stock Exchange the same rights of the currently held shares, including dividends, interests on equity and eventual compensation that may be approved by the Company. The parity between common shares and ADRs will remain at the ratio of 1/1, each ADR representing one share.

Further information about the date on which the shares will be traded ex-stock split, the credit date of the new shares issued as a result of the Stock split and the distribution date of the new ADRs will be informed to the market, depending on the approval at the Extraordinary General Meeting. The call notice, manual and the remote voting form of this Shareholders meeting will be disclosed to the market timely, within the legal period.
