Meetings of the Board of Directors

The Company's Board of Directors held one meeting during the Fiscal Year 2005. No director failed to attend the meeting.

Compensation of the Board of Directors

Directors are reimbursed for their out-of-pocket expenses incurred in attending meetings of the Board of Directors. We have not compensated our directors for service on the board of directors or any committee thereof.

Director Attendance at Annual Meeting

The Company encourages all Directors to attend the annual meeting, however, because many of our Directors have a multitude of responsibilities, we do not require attendance.

Committees of the Board of Directors

The Board of Directors has two standing committees: the Audit Committee and the Compensation Committee. There is no Nominating Committee.

The Audit Committee is composed of J. Bernard Boudreau, Reiza Rayman and Joel Cohen

The Audit Committee makes recommendations to our board of directors regarding the independent auditors for our company, approves the scope of the annual audit activities of our independent auditors, reviews audit results and will have general responsibility for all of our auditing related matters.

The purpose of the Audit Committee is to assist our board of directors in the oversight of the integrity of the consolidated financial statements of our company, our company's compliance with legal and regulatory matters, the independent auditor's qualifications and independence, and the performance of our company's independent auditors. The primary responsibilities of the Audit Committee include various matters with respect to the oversight of our company's accounting and financial reporting process and audits of the consolidated financial statements of our company on behalf of our board of directors. The Audit Committee also selects the independent certified public accountants to conduct the annual audit of the consolidated financial statements of our company; reviews the proposed scope of such audit; reviews accounting and financial controls of our company with the independent public accountants and our financial accounting staff; and reviews and approves transactions between us and our directors, officers, and their affiliates.

Accordingly, the Audit Committee discusses with RSM Richter, LLP, our auditors, our audited financial statements, including among other things the quality of our accounting principles, the methodologies and accounting principles applied to significant transactions, the underlying processes and estimates used by our management in our financial statements and the basis for the auditor's conclusions regarding the reasonableness of those estimates, in addition to the auditor's independence.

Our Board has determined that one out of three members of the Audit Committee are independent as defined by NASD Rule 4200(a)(15), because those independent directors do not have any relationship with us other than as Directors.

Report of the Audit Committee

For the fiscal year 2005, the Company did not have an audit committee and as a result, the Company did not produce an audit committee report. On June 15, 2006, the Company established an audit committee as described herein.

Audit Committee Financial Expert. The Company's board of directors has determined that at least one audit committee financial expert is serving on its audit committee. Mr. Cohen, is a financial expert and is not independent as that term is used in Item 7(d)(3)(iv) of Schedule 14A under the Exchange Act.

Compensation Committee. For the fiscal year 2005, the Company did not have a compensation committee. On June 15, 2006, the Company established a compensation committee as described herein.

Compensation Committee Interlocks and Insider Participation. As stated above, the Compensation Committee consists of David Coffin-Beach, J. Bernard Boudreau and Reiza Rayman. There are no interlocking relationships, as described by the Securities and Exchange Commission, between the Compensation Committee members.

Executive Compensation

The Compensation Committee is currently composed of all non-employee directors. The Committee reviews the compensation of the Company's officers and key employees and will review the granting of stock options under the Company's proposed stock option plan and makes recommendations to the Board of Directors for action on these matters. During the Fiscal Year, 2005, the Company's Board of Directors decided all compensation matters relating to the Company's executive officers.

The key objectives of the Company's executive compensation policies are to attract and retain key executives who are important to the long-term success of the Company and to provide incentives for these executives to achieve high levels of job performance and enhancement of shareholder value. The Company seeks to achieve these objectives by paying its executives a competitive level of base compensation for companies of similar size and industry and by providing its executives an opportunity for further reward for outstanding performance in both the short term and the long term. Intelgenx Corp. has entered into an employment agreement with Horst Zerbe, as President and Chief Executive Officer as of December 1, 2005. The agreement is for an indefinite period of time. Under the agreement, Dr. Zerbe is entitled to receive: (1) a minimum base salary of \$157,657 per year; (2) an annual bonus equal to 50% of base salary upon the performance of certain milestones set out by the board of directors; and (3) other benefits in the amount of \$13,513.

Executive Officer Compensation. The Company's executive officer compensation program is comprised of three elements: base salary, annual cash bonus and will also consist of long-term incentive compensation in the form of stock option grants upon the approval of the Company's stock option plan by the shareholders.

Salary. The Committee and the Board of Directors will review base salaries for the Company's executive officers, taking into account individual experience, job responsibility and individual performance during the prior year. These factors are not assigned a specific weight in establishing individual base salaries. The Committee will also consider the Company's executive officers' salaries relative to salary information for executives in similar industries and similarly sized companies.

Cash Bonuses. The purpose of the cash bonus component of the compensation program is to provide a direct financial incentive in the form of cash bonuses to executives.

Stock Options. Stock options are the primary vehicle for rewarding long-term achievement of Company goals. The objectives of the program are to align employee and shareholder long-term interests by creating a strong and direct link between compensation and increases in share value. Under the Company's proposed Stock Option Plan, the Board of Directors or the Compensation Committee may grant options to purchase Common Stock of the Company to key employees of the Company. The options generally vest in increments over a period of years established at the time of grant except for the options granted to the non-employees directors which will vest immediately.

We have not had a bonus, profit sharing, or deferred compensation plan for the benefit of employees, officers or directors and have not paid any salaries or other compensation to officers, directors or employees for the years ended December 31, 2005, 2004 and 2003.

There were no options/SAR grants in 2005. As of the end of 2005, no options/SAR were outstanding.

Legal Proceedings

The Company is not engaged in, nor is it aware of any pending or threatened, litigation in which any of its directors or executive officers is a party.

Certain Relationships and Related Transactions

On May 26, 2006, Joel Cohen our Director, Executive Vice President and Chief Financial Officer, received consulting fees from IntelGenx (our wholly owned subsidiary) of \$95,000 for consulting work performed for IntelGenx in connection with IntelGenx's private placement and The Company's acquisition of IntelGenx. During the fiscal year ended December 31, 2005, the Company believes that all reports required to be filed by Section 16(a) were filed on a timely basis.

Shareholder Vote Required

Approval of the proposal to elect the director nominees will, pursuant to the Company's bylaws, require a plurality of the votes cast by the stockholders at the Meeting. **PLEASE NOTE THAT THE COMPANY'S CONTROLLING SHAREHOLDERS HAVE ALREADY INFORMED THE COMPANY THAT THEY WILL BE VOTING "FOR" THIS PROPOSAL 1. THE NUMBER OF VOTES HELD BY THE CONTROLLING SHAREHOLDERS IS SUFFICIENT TO SATISFY THE SHAREHOLDER VOTE REQUIREMENT FOR THIS PROPOSAL 1 AND, THEREFORE, NO ADDITIONAL VOTES WILL BE NEEDED TO APPROVE THIS PROPOSAL 1.**

The Board of Directors recommends that the Shareholders vote "FOR" this Proposal 1 to elect the nominees to the Board of Directors.

These services, which include designing or implementing a system that aggregates source data underlying the financial statements or generates information that is significant to our financial statements, are provided internally or by other service providers. We do not engage Chisholm, Bierwolf & Nilson to provide compliance outsourcing services.

The board of directors has considered the nature and amount of fees billed by Chisholm, Bierwolf & Nilson and believes that the provision of services for activities unrelated to the audit is compatible with maintaining Chisholm, Bierwolf & Nilson's independence.

Shareholder Vote Required

Approval of the proposal to ratify the appointment of RSM Richter, LLP as our independent auditors will require the affirmative vote of the holders of a majority of the shares of common stock present in person or represented by proxy at the Meeting. **PLEASE NOTE THAT THE COMPANY'S CONTROLLING SHAREHOLDERS HAVE ALREADY INFORMED THE COMPANY THAT THEY WILL BE VOTING "FOR" THIS PROPOSAL 2. Administration of the Plan. The Plan shall be administered by the Board of Directors of the Company, or by any committee that the Company may in the future form and to which the Board of Directors may delegate the authority to perform such functions, such as the Compensation Committee (in either case, the "**Administrator**"). The Board of Directors shall appoint and remove members of the committee in its discretion in accordance with applicable laws.

Subject to the other provisions of the Plan, the Administrator shall have the authority, in its discretion: (i) to grant options; (ii) to determine the fair market value of the Common Stock subject to options; (iii) to determine the exercise price of options granted; (iv) to determine the persons to whom, and the time or times at which, options shall be granted, and the number of shares subject to each option; (v) to interpret the Plan; (vi) to prescribe, amend, and rescind rules and regulations relating to the Plan; (vii) to determine the terms and provisions of each option granted (which need not be identical), including but not limited to, the time or times at which options shall be exercisable; (viii) with the consent of the optionee, to modify or amend any option; (ix) to defer (with the consent of the optionee) the exercise date of any option; (x) to authorize any person to execute on behalf of the Company any instrument evidencing the grant of an option; and (xi) to make all other determinations deemed necessary or advisable for the administration of the Plan. The Administrator may delegate non-discretionary administrative duties to such employees of the Company as it deems proper.

Shares of Stock Subject to the Plan. Subject to the conditions outlined below, the total number of shares of stock which may be issued under options granted pursuant to the Plan shall not exceed 1,600,749 shares of Common Stock, \$.00001 par value per share.

The number of shares of Common Stock subject to options granted pursuant to the Plan may be adjusted under certain conditions. If the stock of the Company is changed by reason of a stock split, reverse stock split, stock dividend, recapitalization, combination or reclassification, appropriate adjustments shall be made by the Board of Directors in (i) the number and class of shares of stock subject to the Plan, and (ii) the exercise price of each outstanding option; provided, however, that the Company shall not be required to issue fractional shares as a result of any such adjustments. Each such adjustment shall be subject to approval by the Board of Directors in its sole discretion.

Option Price. The exercise price of the shares shall be the amount specified in a notice to grant as determined by the board of directors.

Term of the Options. The Administrator, in its sole discretion, shall fix the term of each option, provided that the maximum term of an option shall be ten years. All options granted to individuals other than non-employee directors shall have a total vesting period of 24 months from the time of grant with one quarter of the total options granted vesting every six months. Options granted to non-employee directors shall vest immediately upon being granted.

Restrictions on Grant and Exercise. Except with the express written approval of the Administrator, no option granted under the Plan shall be assignable or otherwise transferable by the optionee except by will or by operation of law. During the life of the optionee, an option shall be exercisable only by the optionee.

Termination of the Plan. The Plan shall become effective upon adoption by the Board of Directors; provided, however, that no option shall be exercisable unless and until written consent of the Shareholders of the Company, or approval of Shareholders of the Company voting at a validly called Shareholders' meeting, is obtained within twelve months after adoption by the Board of Directors. The Plan shall terminate within ten years from the date of its adoption by the Board of Directors.

Termination of Employment. If for any reason other than death or permanent and total disability, an optionee ceases to be employed by the Company or any of its Affiliates (such event being called a "**Termination**"), options held at the date of Termination (to the extent then exercisable) may be exercised in whole or in part at any time within three months of the date of such Termination, or such other period of not less than thirty days after the date of such Termination as is specified in the Option Agreement or by amendment thereof (but in no event after the expiration date of the option (the "**Expiration Date**")); provided, however, that if such exercise of the option would result in liability for the optionee under Section 16(b) of the Exchange Act, then such three-month period automatically shall be extended until the tenth day following the last date upon which optionee has any liability under Section 16(b) (but in no event after the Expiration Date). If an optionee dies or becomes permanently and totally disabled (within the meaning of Section 22(e)(3) of the Code) while employed by the Company or an Affiliate or within the period that the option remains exercisable after Termination, options then held (to the extent then exercisable) may be exercised, in whole or in part, by the optionee, by the optionee's personal representative or by the person to whom the option is transferred by devise or the laws of descent and distribution, at any time within twelve months after the death or twelve months after the permanent and total disability of the optionee or any longer period specified in the Option Agreement or by amendment thereof (but in no event after the Expiration Date). "Employment" includes service as a director or as a consultant. For purposes of the Plan, an optionee's employment shall not be deemed to terminate by reason of sick leave, military leave or other leave of absence approved by the Administrator, if the period of any such leave does not exceed 90 days or, if longer, if the optionee's right to reemployment by the Company or any Affiliate is guaranteed either contractually or by statute.

The Board has unanimously approved and unanimously recommends that the shareholders ratify the adoption of the Plan.

Shareholder Vote Required

Approval of the Company's Plan requires the affirmative vote of the holders of a majority of the Common Shares present in person or represented by proxy at the Meeting of Shareholders. **PLEASE NOTE THAT THE COMPANY'S CONTROLLING SHAREHOLDERS HAVE ALREADY INFORMED THE COMPANY THAT THEY WILL BE VOTING "FOR" THIS PROPOSAL 4. THE NUMBER OF VOTES HELD BY THE CONTROLLING SHAREHOLDERS IS SUFFICIENT TO SATISFY THE SHAREHOLDER VOTE REQUIREMENT FOR THIS PROPOSAL 4 AND, THEREFORE, NO ADDITIONAL VOTES WILL BE NEEDED TO APPROVE THIS PROPOSAL 4.**

The Board of Directors recommends a vote FOR the approval of the Plan.

GENERAL AND OTHER MATTERS

Management knows of no matters other than the matters described above that will be presented to the Meeting. However, if any other matters properly come before the Meeting, or any of its postponements or adjournments, the person or persons voting the proxies will vote them in accordance with his or their best judgment on such matters.

PART I

Item 1. Description of Business

History

Big Flash Corporation was incorporated on July 27, 1999 under the laws of the State of Delaware, for the purpose of actively seeking potential operating businesses and/or business opportunities, with the intent to acquire or merge with such businesses. Following its organization, Big Flash issued a total of 1.5 million shares of its common stock.

On November 16, 1999, we filed a registration statement with the SEC on Form SB-2 under the Securities Act of 1933, for the purpose of registering for resale the 1.5 million shares of our common stock then outstanding. The registration statement was subsequently withdrawn and, on July 28, 2000, we filed a registration statement on Form 10-SB under the Securities Exchange Act of 1934. The registration statement became effective automatically 60 days after filing with the SEC.

Recent Events

On April 10, 2006 Big Flash Corporation entered into an agreement ("Share Exchange Agreement") to acquire, indirectly through a Canadian holding corporation, all of the issued and outstanding shares of Intelgenx Corp. ("Intelgenx"), a Canadian corporation based in Quebec. Following completion of the acquisition, Intelgenx will continue its operations as a controlled subsidiary of Big Flash (the "Intelgenx Acquisition").

Business of Intelgenx

Intelgenx is a drug delivery company established in 2003 and headquartered in Montreal (Quebec), which focuses on the development of oral controlled-release products for the generic pharmaceutical market as well as novel buccal delivery systems.

Intelgenx currently has two unique, proprietary platform technologies that it uses to develop products: a Tri-Layer Tablet technology which allows for the development of oral controlled release products, and a Quick Release Wafer technology for the rapid delivery of pharmaceutically active substances to the oral cavity. Intelgenx's Tri-layer technology is aimed at reducing manufacturing costs significantly as compared to competing delivery technologies. The wafer technology allows for the instant delivery of pharmaceuticals to the oral mucosa.

Intelgenx's business strategy is to develop pharmaceutical products based on its proprietary drug delivery technologies and license the commercial rights to competent partner companies once the viability of the product has been demonstrated.

Terms of Share Exchange Agreement

Pursuant to the Share Exchange Agreement, the Intelgenx acquisition will be completed through a series of agreements among Big Flash, its wholly owned subsidiary 6544631 Canada Inc. ("Exchangeco") and Horst Zerbe, Ingrid Zerbe and Joel Cohen (the "Principals") and Equity Transfer Services Inc. ("Equity"). Under the Share Exchange Agreement, Exchangeco will acquire all of the issued and outstanding common shares of Intelgenx in exchange for 10,991,000 Class A Special Shares of Exchangeco ("Exchangeable Shares"). At closing of the Share Exchange Agreement, Big Flash, Exchangeco, the Principals and Equity will enter into an Exchange and Voting Trust Agreement (the "Exchange and Voting Trust Agreement") pursuant to which 10,991,000 shares of Big Flash common stock (the "Trust Shares") shall be issued to Equity, as trustee for the Principals, as security for Big Flash's covenants under the provisions of the Exchangeable Shares. Big Flash, Exchangeco and Equity will also enter into a support agreement ("Support Agreement") which will, among other things, set forth the terms and conditions upon which the

Principals may exchange the Exchangeable Shares for a corresponding number of Big Flash common stock. Big Flash may satisfy its obligations by instructing the Trustee to deliver one Big Flash common share for each such Exchangeable Share. Big Flash, Exchangeco, Equity and the Principals will also enter into an escrow agreement (the "Escrow Agreement") pursuant to which the Principals shall deposit into escrow with Equity, as escrow agent, all of the Exchangeable Shares and any Trust Shares for which the Exchangeable Shares may be exchanged from time to time, over a term of 3 years following closing. The Escrow Agreement provides that the Exchangeable Shares and Trust Shares held in escrow may not be sold, assigned or transferred, except as expressly permitted under the Escrow Agreement, and shall be released from escrow at the end of the 3-year term.

The Trustee, as the holder of record of the Trust Shares, shall be entitled to all of the voting rights, including the right to vote in person or by proxy the Trust Shares on any matters, questions, proposals or propositions whatsoever that may properly come before the stockholders of Big Flash or at a meeting of Big Flash stockholders or in connection with respect to all written consents sought by Big Flash from its stockholders (the "Voting Rights"). The Voting Rights shall be and remain vested in and exercised by the Trustee. As further particularized in the Exchange and Voting Trust Agreement, the Trustee shall exercise the Voting Rights only on the basis of instructions received from the Principals entitled to instruct the Trustee as to the voting thereof at the time at which the stockholders meeting is held or a stockholders' consent is sought. To the extent that no instructions are received from a Principal with respect to the Voting Rights to which such Principal is entitled, the Trustee shall not exercise or permit the exercise of such Voting Rights.

Under the terms of the Exchangeable Shares, the Principals will have the right to exchange the Exchangeable Shares for a corresponding number of shares of Big Flash common stock at any time after closing of the transaction. Prior to the exercise of such exchange rights, Equity will be the owner of record of the Trust Shares and will retain power to vote the Trust Shares or grant consent in regard to any and all matters presented for approval by the holders of Big Flash common stock. Under the terms of the Exchange and Voting Trust Agreement, Equity, in its capacity as trustee, will act in regard to such matters only in accordance with instructions given by the Principals, respectively.

In its capacity as trustee, Equity does not have any powers of disposition over the Trust Shares except as expressly required under the Exchange and Voting Trust Agreement and the Support Agreement.

All of such Exchangeable Shares and the Trust Shares were issued pursuant to the exemptions from registration provided under National Instrument 45-106 under Canadian securities laws and will be exempt from registration under the Securities Act of 1933, as amended, pursuant to Section 4(2) of that Act and Regulation D Rule 506 and/or Regulation S promulgated thereunder.

Intelgenx proposes to issue additional common shares and warrants to investors ("Investors") pursuant to private placements prior to the closing of the Share Exchange Agreement. On or before the completion of the purchase of the Intelgenx shares by Exchangeco from the Principals pursuant to the Share Exchange Agreement, it is contemplated that the Investors will enter into and complete agreements with Big Flash for the sale of their shares and warrants of Intelgenx to Big Flash in exchange for an aggregate of up to 3,525,000 common shares of Big Flash and 100,000 common share purchase warrants of Big Flash.

After giving effect to the proposed issuance of the 10,991,000 shares of Big Flash common stock in connection with the Intelgenx acquisition and the 3,525,000 shares of Big Flash stock and 100,000 warrants of Big Flash to be issued to the Investors, the number of Trust Shares that will be issued to Equity as trustee for the Vendors in the aggregate will constitute 68.7% of the approximately 16 million shares of Big Flash common stock that will be issued and outstanding. After giving effect to the issuance of the shares of Big Flash in connection with the Intelgenx acquisition, Horst Zerbe, Ingrid Zerbe and Joel Cohen will, pursuant to rights attached to the Exchangeable Shares to be issued to them under the Share Exchange Agreement, be entitled to acquire and beneficially own, respectively, 4,709,643, 4,709,643 and 1,571,713 shares of Big Flash common stock constituting, respectively, 29.4%, 29.4% and 9.8% of the Big Flash common stock that will be issued and outstanding.

Prior to the completion of the Intelgenx acquisition and except for the Share Exchange Agreement and the transactions contemplated thereunder, neither Intelgenx nor the shareholders of Intelgenx are or have been engaged in any direct or indirect transaction with Big Flash and the Intelgenx acquisition is not considered a related party transaction.

Pursuant to the terms of the Support Agreement, the holders of the Exchangeable Shares will economically benefit to the same extent as direct shareholders of Big Flash in the event of any dividend or other distribution.

Exchangeco shall on any day ("Redemption Date") to be determined by Exchangeco's board of directors after the tenth anniversary of the date of the Intelgenx acquisition, redeem the then outstanding Exchangeable Shares for an amount per Exchangeable Share (the "Redemption Price") equal to (i) the current market price of a Big Flash common share on the last business day prior to the Redemption Date (which may be satisfied in full by Exchangeco causing an instruction to be given to the Trustee to deliver, in respect of each Exchangeable Share held by each respective holder thereof, one Big Flash common share, and obtaining written confirmation of such delivery by the Trustee), plus (ii) the unpaid dividend amount, if any, on each such Exchangeable Share held by such holder on any dividend record date which occurred prior to the Redemption Date.

-4-

The Exchangeable Shares may, at any time prior to the Redemption Date, be exchanged by any of the Principals in exchange for the same number of shares of Big Flash common stock. The number of shares of Big Flash common stock to be transferred to the holders of the Exchangeable Shares upon such exchange will be subject to corresponding adjustment in the event of any Big Flash securities dividend, forward split, reverse split, or similar event. The holders of the Exchangeable Shares will also benefit to an identical extent as all other Big Flash shareholders in the event of a tender offer or other similar transaction.

All Big Flash events related to payment of dividends, redemption or purchase or any capital distribution in respect of Big Flash common shares or any shares other than the Exchangeable Shares, redemption or purchase of any shares other than the Exchangeable Shares, or issuance of any other exchangeable shares, shall in each case be subject to approval by holders of not less than 66.6% of then-outstanding Exchangeable Shares. In addition, Big Flash must obtain the same consent prior to any action to reclassify, subdivide, redivide or make any similar change to the outstanding shares of Big Flash, or effect an amalgamation, merger, reorganization or other transaction affecting the Big Flash shares of common stock.

Current Business Activities

Since our inception, we have engaged in only sporadic business operations and are deemed a development stage company. Pending the finalization of the Intelgenx transaction, our only business is to seek out and investigate potential operating businesses and business opportunities with the goal of potentially acquiring or merging with one or more of these businesses. No representation is made, nor is any intended, that we will be able to carry on future business activities successfully. Further, there can be no assurance that we will have the ability to acquire or merge with an operating business, business opportunity or property that will be of material value to us.

Management plans to investigate, research and, if justified, potentially acquire or merge with one or more businesses or business opportunities. Management will have broad discretion in its search for and negotiations with any potential business or business opportunity.

Our principal executive offices are located at 19 East 200 South, Suite 1080, Salt Lake City, Utah 84111, and our telephone number is (801) 322-3401.

Sources of Business Opportunities

Management uses various resources in its search for potential business opportunities including, but not limited to, our officers and directors, consultants, special advisors, securities broker-dealers, venture capitalists, members of the financial community and others who may present management with unsolicited proposals. Because of our lack of capital, we may not be able to retain, on a fee basis, professional firms specializing in business acquisitions and reorganizations. Rather, we will most likely have to rely on outside sources, not otherwise associated with us, that will accept their compensation only after we have finalized a successful acquisition or merger.

If we elect to engage an independent consultant, we will look only to consultants that have experience in working with small companies in search of an appropriate business opportunity. Also, the consultant must have experience in locating viable merger and/or acquisition candidates and have a proven track record of finalizing such business consolidations. Further, we would prefer to engage a consultant that will provide services for only nominal up-front consideration and is willing to be fully compensated only at the close of a business consolidation.

We do not intend to limit our search to any specific kind of industry, business or geographical location. We may investigate and ultimately acquire a venture that is in its preliminary or development stage, is already in operation, or in various stages of its corporate existence and development. Management cannot predict at this time the status or nature of any venture in which we may participate. A potential venture might need additional capital or merely desire to have its shares publicly traded.

The most likely scenario for a possible business arrangement would involve the acquisition of or merger with an operating business that does not need additional capital, but which merely desires to establish a public trading market for its shares. Management believes that we could provide a potential public vehicle for a private entity interested in becoming a publicly held corporation without the time and expense typically associated with an initial public offering.

Evaluation

Once we identify a particular entity as a potential acquisition or merger candidate, management will seek to determine whether acquisition or merger is warranted, or whether further investigation is necessary. Such determination will generally be based on management's knowledge and experience, or with the assistance of outside advisors and consultants evaluating the preliminary information available to them. Management may elect to engage outside independent consultants to perform preliminary analysis of potential business opportunities. However, because of our lack of capital we may not have the necessary funds for a complete and exhaustive investigation of any particular opportunity.

In evaluating such potential business opportunities, we will consider, to the extent relevant to the specific opportunity, several factors including:

- potential benefits to us and our stockholders;
- working capital;
- financial requirements and availability of additional financing;
- history of operation, if any;
- nature of present and expected competition;

Because we are a reporting company subject to the provisions of the Securities Exchange Act of 1934, we are required to file certain annual, periodic and other reports with the SEC. These requirements include the affirmative duty to file independent audited financial statements annually as part of our Form 10-KSB. Further, any business or entity that we acquire or merge with must also have independent audited financial statements for at least the two most recent fiscal years, or from the date of their inception, if less than two years. Upon consummation of a merger or acquisition, we are required to file with the SEC on Form 8-K or other report, audited financial statements of the business or entity acquired. If such audited financial statements are not available at the closing of the acquisition or merger, or within time parameters set forth by various regulations of the SEC, or if the audited financial statements provided do not conform to the representations made by the business to be acquired, we may not be able to finalize the transaction. Accordingly, we intend to consider as potential acquisitions or mergers only those businesses or entities that can provide the requisite financial statements.

There can be no assurance that following consummation of any acquisition or merger, the acquired business venture will develop into a going concern or, if the business is already operating, that it will continue to operate successfully. Many potential business opportunities available to us may involve new and untested products, processes or market strategies which may not ultimately prove successful.

Form of Potential Acquisition or Merger

Each separate potential opportunity will be reviewed and, upon the basis of that review, a suitable legal structure or method of participation will be chosen. The particular manner in which we participate in a specific business opportunity will depend upon the nature of that opportunity, the respective needs and desires of our management and management of the opportunity, and the relative negotiating strength of the parties involved. Actual participation in a business venture may take the form of an asset purchase, lease, joint venture, license, partnership, stock purchase, reorganization, acquisition, merger or consolidation. We may act directly or indirectly through an interest in a partnership, corporation, or other form of organization, however, we do not intend to participate in an opportunity through the purchase of a minority stock position.

Because we have no assets and a limited operating history, in the event we successfully acquire or merge with an operating business opportunity, it is likely that our present stockholders will experience substantial dilution. It is also probable that there will be a change in control of our company.

-6-

The owners of any business opportunity which we acquire or merge with will most likely acquire control following such transaction. Management has not established any guidelines as to the amount of control it will offer to prospective business opportunities, but rather management will attempt to negotiate the best possible agreement for the benefit of our stockholders.

Presently, management does not intend to borrow funds to compensate any person, consultant, promoter or affiliate in relation to the consummation of a potential merger or acquisition. However, if we engage any outside advisor or consultant in our search for business opportunities, it may be necessary for us to attempt to raise additional funds. As of the date hereof, we have not made any arrangements or definitive agreements to use outside advisors or consultants or to raise any capital. In the event we do need to raise capital, most likely the only method available to us would be the private sale of our securities. These possible private sales would most likely have to be to persons known by our directors or to venture capitalists that would be willing to accept the risks associated with investing in a company with no current operation. Because of our nature as a development stage company, it is unlikely that we could make a public sale of securities or be able to borrow any significant sum from either a commercial or private lender. Management will attempt to acquire funds on the best available terms. However, there can be no assurance that we will be able to obtain additional funding when and if needed, or that such funding, if available, can be obtained on reasonable or acceptable terms. Although not presently anticipated, there is a remote possibility that we could sell securities to our management or affiliates.

There exists a possibility that the terms of any future acquisition or merger transaction might include the sale of shares presently held by our officers and/or directors to parties affiliated with or designated by the potential business opportunity. Presently, management has no plans to seek or actively negotiate such terms. However, if this situation does arise, management is obligated to follow our Articles of Incorporation and all applicable corporate laws in negotiating such an arrangement. Under this scenario of a possible sale by officers and directors, it is unlikely that similar terms and conditions would be offered to all other stockholders or that stockholders would be given the opportunity to approve such a transaction.

Rights of Stockholders

Management anticipates that prior to consummating any acquisition or merger, if required by relevant state laws and regulations, we will seek to have the transaction ratified by stockholders in the appropriate manner. However, under Delaware law, certain actions that would routinely be taken at a meeting of stockholders, may be taken by written consent of stockholders having not less than the minimum number of votes that would be necessary to authorize or take the action at a meeting of stockholders. Thus, if stockholders holding a majority of the outstanding shares decide by written consent to consummate an acquisition or a merger, minority stockholders would not be given the opportunity to vote on the issue. The board of directors will have the discretion to consummate an acquisition or merger by written consent if it is determined to be in our best interest to do so. Regardless of whether an action to acquire or merge is ratified by written consent or by holding a stockholders' meeting, we will provide to stockholders complete disclosure documentation concerning a potential target business opportunity including the appropriate audited financial statements of the target. This information will be disseminated by proxy statement in the event a stockholders' meeting is held, or by an information statement pursuant to Regulation 14C of the Exchange Act if the action is taken by written consent.

Under Delaware corporate laws, stockholders may be entitled to assert appraisal or dissenters' rights if we acquire or merge with a business opportunity. Stockholders will be entitled to dissent from and obtain payment of the fair value of their shares in the event of consummation of a plan of merger to which we are a party, if approval by the stockholders is required under applicable Delaware law. Also, stockholders will be entitled to appraisal rights if we enter into a share exchange whereby our shares are to be acquired. A stockholder who is entitled to assert appraisal rights and obtain the fair value for their shares, may not challenge the corporate action creating this entitlement, unless the action is unlawful or fraudulent with respect to the stockholder or the company. A dissenting stockholder shall refrain from voting their shares in approval of the corporate action. If the proposed action is approved by the required

vote of stockholders, we must give notice to all stockholders who delivered to us their written notice of dissent.

Competition

Because we have not finalized an acquisition or merger, we are unable to evaluate the type and extent of our likely competition. We are aware that there are several other public companies with only nominal assets that are also searching for operating businesses and other business opportunities as potential acquisition or merger candidates.

-7-

In addition to competing with these other public companies, we are also in direct competition with many established venture capital and financial concerns that have significantly greater financial and personnel resources and technical expertise than us. In view of our limited financial resources and limited experience, we will be at a significant competitive disadvantage compared to our competitors.

Employees

As of the date hereof, we do not have any employees and have no plans for retaining employees until such time as our business warrants the expense, or until we successfully acquire or merge with an operating business. We may find it necessary to periodically hire part-time clerical help on an as-needed basis.

Facilities

We currently use as our principal place of business the offices of one of our directors, Geoff Williams, located in Salt Lake City, Utah. The facilities are shared with other businesses.

Although we have no written agreement and currently pay no rent for the use of these facilities, it is contemplated that at such future time as we acquire or merge with an operating business, we will secure commercial office space from which we will conduct our business. However, until such time as we complete an acquisition or merger, the type of business in which we will be engaged and the type of office and other facilities that will be required, is unknown. We have no current plans to secure such commercial office space.

Industry Segments

No information is presented regarding industry segments. We are presently a development stage company seeking a potential acquisition of or merger with a yet to be identified business opportunity. Reference is made to the statements of income included herein in response to Part F/S of this Form 10-KSB for a report of our operating history for the past two fiscal years.

Risk Factors Related to Our Business

We are and may be subject to substantial risks specific to a particular business or business opportunity, which specific risks cannot be ascertained until a potential acquisition or merger candidate has been identified. However, at a minimum, our present and proposed business operations will be highly speculative and be subject to the same types of risks inherent in any new or unproven venture, and will include the types of risk factors outlined below.

We have no assets and no source of revenue

We currently have no assets and have had no revenues for several years. It is unlikely that we will receive any revenues until we complete an acquisition or merger. There can be no assurance that any acquired business will produce any material revenues for us or our stockholders or that any such business will operate on a profitable basis.

Our auditors have expressed a going concern opinion

Our independent auditors discuss in their report significant doubt regarding our ability to continue as a going concern. They include a statement in the notes to our financial statements as follows:

"The ability of the Company to continue as a going concern is dependent on the Company obtaining adequate capital to fund operating losses until it becomes profitable. If the Company is unable to obtain adequate capital, it could be forced to cease operations."

If we are not able to secure necessary funding or to consummate a successful acquisition or merger, our business could fail and our stockholders could lose their entire investment. You are encouraged to read note 2 to financial statements included herewith.

Although we have entered into an agreement to acquire Intelgenx, there can be no assurance that the transaction will be finalized or that the acquisition of Intelgenx will result in a future successful business venture.

-8-

As set forth above, on April 10, 2006 we entered into an agreement to acquire Intelgenx, a drug delivery that focuses on the development of oral controlled-release products for the generic pharmaceutical market as well as novel buccal delivery systems. Management is confident that we will be able to fulfill the terms and conditions set forth in the agreements related to the acquisition and that we will consummate the transaction. However, there can be no assurance that the transaction will be completed or that the acquisition of Intelgenx will result in a successful operating business for our company. If the acquisition is not completed, or if our business following the acquisition is not adequate to provide sufficient capital, we may have to cease operations.

Discretionary use of proceeds

Except for the Intelgenx transaction, we are not currently engaged in any substantive business activities other than looking for and investigating business opportunities. Accordingly, management has broad discretion with respect to the potential acquisition of any business, assets, property. Although management intends to apply any proceeds it may receive through the future issuance of stock or debt to a suitable acquired business, we will have broad discretion in applying these funds. There can be no assurance that our use or allocation of such proceeds will allow it to achieve its business objectives.

No substantive disclosure relating to prospective acquisitions

Except for the information concerning Intelgenx included herein, potential investors in our securities have no substantive information upon which to base a decision whether to invest in our securities. Prospective investors currently have only limited information with which to evaluate the comparative risks and merits of investing in the industry or business in which we may acquire. Potential investors would have access to significantly more information if we had finalized the Intelgenx transaction.

Future acquisition or merger may result in substantial dilution

We are currently authorized to issued 20 million shares of common stock, of which 1.5 million shares are outstanding as of the date hereof. The issuance of additional shares in connection with any acquisition or merger transaction or the raising of capital may result in substantial dilution of the holdings of current stockholders.

Management will devote only minimal time to our business

Presently, our directors have other full time obligations and will devote only such time to our business as necessary to maintain our viability. Thus, because of management's other time commitments, together with the fact that we have no business operations, management anticipates that it will devote only a minimal amount of time to our activities, at least until such time as we have identified a suitable acquisition candidate.

Effective voting control held by directors

Our directors own in the aggregate approximately 59.2% of our outstanding voting securities. Only one stockholder owns in excess of 5%. Accordingly, our current directors will have the ability to elect all of our directors, who in turn elect all executive officers, without regard to the votes of other stockholders.

No public market for our common stock

Management currently anticipates that within 12 months from the filing of this report, we will apply for listing of our common stock on the OTC Bulletin Board. However, there is currently no market for our shares and there can be no assurance that any such market will ever develop or be maintained. Any trading market that may develop in the future will most likely be very volatile, and numerous factors beyond our control may have a significant effect on the market. Only companies that report their current financial information to the SEC may have their securities included on the

OTC Bulletin Board. Therefore, we must keep current in our filing obligations with the SEC, including our periodic and annual reports and the financial statements required thereby. In the event that we become delinquent in our filings or otherwise lose our status as a "reporting issuer," any future quotation of our shares on the OTC Bulletin Board may be jeopardized.

Item 2. Description of Property

We do not presently own any property.

-9-

Item 3. Legal Proceedings

There are no material pending legal proceedings to which our company, or any subsidiary thereof, is a party or to which any of our property is subject and, to the best of our knowledge, no such actions against us are contemplated or threatened.

Item 4. Submission of Matters to a Vote of Security Holders

No matters were submitted to a vote of our securities holders during the fourth quarter of the fiscal year ended December 31, 2005.

PART II

Item 5. Market for Common Equity and Related Stockholder Matters

There is not currently, nor has there ever been, a public trading market for our common stock. We have made an initial application to the NASD to have our shares quoted on the OTC Bulletin Board. Our application consists of current corporate information, financial statements and other documents as required by Rule 15c2-11 of the Securities Exchange Act of 1934.

Inclusion on the OTC Bulletin Board permits price quotations for our shares to be published by that service. Although we have submitted an application to the OTC Bulletin Board, we do not anticipate a public trading market in our shares in the immediate future. Any future secondary trading of our shares may be subject to certain state imposed restrictions. Except for the application to the OTC Bulletin Board, there are no plans, proposals, arrangements or understandings with any person concerning the development of a trading market in any of our securities. There can be no assurance that our shares will be accepted for trading on the OTC Bulletin Board or any other recognized trading market. Also, there can be no assurance that a public trading market will develop following acceptance by the OTC Bulletin Board or at any other time in the future or, that if such a market does develop, that it can be sustained.

The ability of individual stockholders to trade their shares in a particular state may be subject to various rules and regulations of that state. A number of states require that an issuer's securities be registered in their state or appropriately exempted from registration before the securities are permitted to trade in that state. Presently, we have no plans to register our securities in any particular state.

It is most unlikely that our securities will be listed on any national or regional exchange or on The Nasdaq Stock Market. Therefore our shares most likely will be subject to the provisions of Section 15(g) and Rule 15g-9 of the Exchange Act, commonly referred to as the "penny stock" rule. Section 15(g) sets forth certain requirements for broker-dealer transactions in penny stocks and Rule 15g-9(d)(1) incorporates the definition of penny stock as that used in Rule 3a51-1 of the Exchange Act.

The SEC generally defines penny stock to be any equity security that has a market price less than \$5.00 per share, subject to certain exceptions. Rule 3a51-1 provides that any equity security is considered to be a penny stock unless that security is:

- * registered and traded on a national securities exchange meeting specified criteria set by the SEC;
- * authorized for quotation on The NASDAQ Stock Market;
- * issued by a registered investment company;
- * excluded from the definition on the basis of price (at least \$5.00 per share) or the issuer's net tangible assets; or
- * exempted from the definition by the SEC.

Broker-dealers who sell penny stocks to persons other than established customers and accredited investors (generally persons with assets in excess of \$1,000,000 or annual income exceeding \$200,000, or \$300,000 together with their spouse), are subject to additional sales practice requirements. Broker-dealers must also make a special suitability determination for the purchase of such securities and must have received the purchaser's written consent to the transaction prior to the purchase. Additionally, for any transaction involving a penny stock, unless exempt, the rules require the delivery, prior to the first transaction, of a risk disclosure document relating to the penny stock market.

-10-

Edgar Filing: BIG FLASH CORP - Form DEF 14A

A broker-dealer also must disclose the commissions payable to

both the broker-dealer and the registered representative, and current quotations for the securities. Finally, monthly statements must be sent to clients disclosing recent price information for the penny stocks held in the account and information on the limited market in penny stocks.

Consequently, these rules may restrict the ability of broker-dealers to trade and/or maintain a market in our common stock and may affect the ability of stockholders to sell their shares. These requirements may be considered cumbersome by broker-dealers and could impact the willingness of a particular broker-dealer to make a market in our shares, or they could affect the value at which our shares trade. Classification of the shares as penny stocks increases the risk of an investment in our shares.

As of December 31, 2005, there were approximately 35 holders of record of our common stock. Because all of our outstanding shares of common stock were issued pursuant to exemptions under the 1933 Act, we have considered all outstanding shares as restricted securities. Corporate records indicate that all of the issued and outstanding shares were issued in 1999 in private transactions. We have relied upon the exemption provided by Section 4(2) of the 1933 Act in the private issuance of shares. To the best of our knowledge, no private placement memorandum was used in relation to the issuance of shares.

Under Rule 144(k) of the 1933 Act, the requirements of paragraphs (c), (e), (f), and (h) of Rule 144 do not apply to restricted securities sold for the account of a person who is not an affiliate of an issuer at the time of the sale and has not been an affiliate during the preceding three months, provided the securities have been beneficially owned by the seller for a period of at least two years prior to their sale. Thus, in reliance on Rule 144(k), we consider 15,800 shares to be free of restriction, unless held by an affiliate or controlling stockholder. For purposes of this report only, a controlling stockholder is considered to be a person owning ten percent (10%) or more of our total outstanding shares, or is otherwise deemed an affiliate. No individual person owning a portion of the 15,800 shares owns more than five percent (5%) of the total outstanding shares.

The remaining 1,484,200 shares are considered restricted securities and presently held by four stockholders. All of these restricted shares are presently eligible for sale pursuant to the provisions of Rule 144, subject to the volume and other limitations set forth under that Rule.

Under the provisions of Rule 144 of the Securities Act of 1933, restricted securities may be sold into the public market, subject to holding period, volume and other limitations set forth under the Rule. In general, under Rule 144 as currently in effect, a person (or persons whose shares are aggregated) who has beneficially owned restricted shares for at least one year, including any person who may be deemed to be an "affiliate" (as the term "affiliate" is defined under the Securities Act), is entitled to sell, within any three-month period, an amount of shares that does not exceed the greater of

- * the average weekly trading volume in the common stock, as reported through the automated quotation system of a registered securities association, during the four calendar weeks preceding such sale, or
- * 1% of the shares then outstanding.

In order for a stockholder to rely on Rule 144, we must have available adequate current public information with respect to our business and financial status. A person who is not deemed to be an "affiliate" and has not been an affiliate for the most recent three months, and who has held restricted shares for at least two years would be entitled to sell such shares under Rule 144(k) without regard to the various resale limitations of Rule 144.

Dividend Policy

We have not declared or paid cash dividends or made distributions in the past on our common stock, and we do not anticipate that we will pay cash dividends or make distributions in the foreseeable future. We currently intend to retain and invest future earnings to finance operations.

Item 6. Management's Discussion and Analysis or Plan of Operation

The following information should be read in conjunction with the financial statements and notes thereto appearing elsewhere in this Form 10-KSB.

We are considered a development stage company with no assets or capital and with no material operations or income. The costs and expenses associated with the preparation and filing of this and other reports and other corporate expenses have been paid for by advances from stockholders.

-11-

It is anticipated that we will require only nominal capital to maintain our corporate viability and necessary funds will most likely be provided by our officers and directors in the immediate future. However, unless we are able to facilitate an acquisition of or merger with an operating business or are able to obtain significant outside financing, there is substantial doubt about our ability to continue as a going concern.

In the opinion of management, inflation has not and will not have a material effect on our operations until such time as we successfully complete an acquisition or merger. At that time, management will evaluate the possible effects of inflation related to our business and operations.

Plan of Operation

If we do not consummate the Intelgenx acquisition, during the next 12 months we will actively seek out and investigate possible business opportunities with the intent to acquire or merge with one or more business ventures. In our search for business opportunities, management will follow the procedures outlined in Item 1 above. Because we lack funds, it may be necessary for our officers and directors to either advance funds to us or to accrue expenses until such time as a successful business consolidation can be made. Management intends to hold expenses to a minimum and to obtain services on a contingency basis when possible. Further, our directors will defer any compensation until such time as an acquisition or merger can be accomplished and will strive to have the business opportunity provide their remuneration. However, if we engage outside advisors or consultants in our search for business opportunities, it may be necessary for us to attempt to raise additional funds. As of the date hereof, we have not made any arrangements or definitive agreements to use outside advisors or consultants or to raise any capital. In the event we do need to raise capital, most likely the only method available to us would be the private sale of our securities. Because of our nature as a development stage company, it is unlikely that we could make a public sale of securities or be able to borrow any significant sum from either a commercial or private lender. There can be no assurance that we will be able to obtain additional funding when and if needed, or that such funding, if available, can be obtained on acceptable terms.

We do not intend to use any employees, with the possible exception of part-time clerical assistance on an as-needed basis. Outside advisors or consultants will be used only if they can be obtained for minimal cost or on a deferred payment basis. Management is confident that it will be able to operate in this manner and to continue its search for business opportunities during the next twelve months.

Net Operating Loss

We have accumulated approximately \$23,012 of net operating loss carryforwards as of December 31, 2005. This loss carryforward may be offset against taxable income and income taxes in future years and expires in the year 2025. The use of these losses to reduce future income taxes will depend on the generation of sufficient taxable income prior to the expiration of the net operating loss carryforwards. In the event of certain changes in control, there will be an annual limitation on the amount of net operating loss carryforwards which can be used. No tax benefit has been reported in the financial statements for the year ended December 31, 2005 because it has been fully offset by a valuation reserve. The use of future tax benefit is undeterminable because we presently have no operations.

Forward-Looking and Cautionary Statements

This report on Form 10-KSB includes "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, and Section 21E of the Securities Exchange Act of 1934. These forward-looking statements may relate to such matters as anticipated financial performance, future revenues or earnings, business prospects, projected ventures, new products and services, anticipated market performance and similar matters. When used in this report, the words "may," "will," "expect," "anticipate," "continue," "estimate," "project," "intend," and similar expressions are intended to identify forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934 regarding events, conditions, and financial trends that may affect our future plans of operations, business strategy, operating results, and financial position. We caution

readers that a variety of factors could cause our actual results to differ materially from the anticipated results or other matters expressed in forward-looking statements. These risks and uncertainties, many of which are beyond our control, include:

-12-

- * uncertainties following any successful acquisition or merger related to the future rate of growth of our business and acceptance of our products and/or services;
- * volatility of the stock market, particularly within the technology sector; and
- * general economic conditions.

Although we believe the expectations reflected in these forward-looking statements are reasonable, such expectations cannot guarantee future results, levels of activity, performance or achievements.

Recent Accounting Pronouncements

In January 2003, the Financial Accounting Standards Board, or FASB, issued Interpretation No. 46 ("*FIN 46*"), *Consolidation of Variable Interest Entities*, which addresses the consolidation of business enterprises (variable interest entities), to which the usual condition of consolidation, a controlling financial interest, does not apply. FIN 46 requires an entity to assess its business relationships to determine if they are variable interest entities. As defined in FIN 46, variable interests are contractual, ownership or other interests in an entity that change with changes in the entity's net asset value. Variable interests in an entity may arise from financial instruments, service contracts, guarantees, leases or other arrangements with the variable interest entity. An entity that will absorb a majority of the variable interest entity's expected losses or expected residual returns, as defined in FIN 46, is considered the primary beneficiary of the variable interest entity. The primary beneficiary must include the variable interest entity's assets, liabilities and results of operations in its consolidated financial statements. FIN 46 is immediately effective for all variable interest entities created after January 31, 2003. For variable interest entities created prior to this date, the provisions of FIN 46 were originally required to be applied no later than our first quarter of Fiscal 2004. On October 8, 2003, the FASB issued FASB Staff Position (FSP) FIN 46-6, *Effective Date of FASB Interpretation No. 46, Consolidation of Variable Interest Entities*. The FSP provides a limited deferral (until the end of our second quarter of 2004) of the effective date of FIN 46 for certain interests of a public entity in a variable interest entity or a potential variable interest entity. We will continue to evaluate FIN 46, but due to the complex nature of the analysis required by FIN 46, we have not determined the impact on our consolidated results of operations or financial position.

In April 2003, the FASB issued Statement of Financial Accounting Standards (SFAS) SFAS No. 149, *Amendment of Statement 133 on Derivative Instruments and Hedging Activities*. SFAS No. 149 amends and clarifies accounting for derivative instruments, including certain derivative instruments embedded in other contracts, and for hedging activities under SFAS No. 133. In particular, this Statement clarifies under what circumstances a contract with an initial net investment meets the characteristic of a derivative and when a derivative contains a financing component that warrants special reporting in the statement of cash flows. We adopted this standard for contracts entered into or modified after June 30, 2003. The adoption of SFAS No. 149 did not have a material impact on our consolidated results of operations or financial position.

In May 2003, the FASB issued SFAS No. 150, *Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity*. This Statement requires certain financial instruments that embody obligations of the issuer and have characteristics of both liabilities and equity to be classified as liabilities. We adopted this standard for financial instruments entered into or modified after May 31, 2003. The adoption of SFAS No. 150 did not have a material impact on our consolidated results of operations or financial position.

On December 16, 2004 the FASB issued SFAS No. 123(R), *Share-Based Payment*, which is an amendment to SFAS No. 123, *Accounting for Stock-Based Compensation*. This new standard eliminates the ability to account for share-based compensation transactions using Accounting Principles Board ("APB") Opinion No. 25, *Accounting for Stock Issued to Employees*, and generally requires such transactions to be accounted for using a fair-value-based method and the resulting cost recognized in our financial statements. This new standard is effective for awards that are granted, modified or settled in cash in interim and annual periods beginning after June 15, 2005. In addition, this new standard will apply to unvested options granted prior to the effective date. We will adopt this new standard effective for the fourth fiscal quarter of 2005, and have not yet determined what impact this standard will have on our financial

position or results of operations.

In November 2004, the FASB issued SFAS No. 151, *Inventory Costs - an amendment of ARB No. 43, Chapter 4*. This Statement amends the guidance in ARB No. 43, Chapter 4, "Inventory Pricing," to clarify the accounting for abnormal amounts of idle facility expense, freight, handling costs, and wasted material (spoilage). Paragraph 5 of ARB 43, Chapter 4, previously stated that ". . . under some circumstances, items such as idle facility expense, excessive spoilage, double freight, and rehandling costs may be so abnormal as to require treatment as current period charges. . . ."

-13-

This Statement requires that those items be recognized as current-period charges regardless of whether they meet the criterion of "so abnormal." In addition, this Statement requires that allocation of fixed production overheads to the costs of conversion be based on the normal capacity of the production facilities. This statement is effective for inventory costs incurred during fiscal years beginning after June 15, 2005. Management does not believe the adoption of this Statement will have any immediate material impact on the company.

In December 2004, the FASB issued SFAS No. 152, *Accounting for Real Estate Time-sharing Transactions*, which amends FASB statement No. 66, *Accounting for Sales of Real Estate*, to reference the financial accounting and reporting guidance for real estate time-sharing transactions that is provided in AICPA Statement of Position (SOP) 04-2, *Accounting for Real Estate Time-Sharing Transactions*. This statement also amends FASB Statement No. 67, *Accounting for Costs and Initial Rental Operations of Real Estate Projects*, to state that the guidance for (a) incidental operations and (b) costs incurred to sell real estate projects does not apply to real estate time-sharing transactions. The accounting for those operations and costs is subject to the guidance in SOP 04-2. This Statement is effective for financial statements for fiscal years beginning after June 15, 2005. Management believes the adoption of this Statement will have no impact on the financial statements of the company.

In December 2004, the FASB issued SFAS No. 153, *Exchange of Nonmonetary Assets*. This Statement addresses the measurement of exchanges of nonmonetary assets. The guidance in APB Opinion No. 29, *Accounting for Nonmonetary Transactions*, is based on the principle that exchanges of nonmonetary assets should be measured based on the fair value of the assets exchanged. The guidance in that Opinion, however, included certain exceptions to that principle. This Statement amends Opinion 29 to eliminate the exception for nonmonetary exchanges of similar productive assets and replaces it with a general exception for exchanges of nonmonetary assets that do not have commercial substance. A nonmonetary exchange has commercial substance if the future cash flows of the entity are expected to change significantly as a result of the exchange. This Statement is effective for financial statements for fiscal years beginning after June 15, 2005. Earlier application is permitted for nonmonetary asset exchanges incurred during fiscal years beginning after the date of this statement is issued. Management believes the adoption of this Statement will have no impact on the financial statements of the company.

Item 7. Financial Statements

Financial statements for the fiscal years ended December 31, 2005 and 2004 have been examined to the extent indicated in their reports by Chisholm, Bierwolf & Nilson, LLC, independent certified public accountants and have been prepared in accordance with accounting principles generally accepted in the United States of America and pursuant to Regulation S-B as promulgated by the SEC. The aforementioned financial statements are included herein starting with page F-1.

Item 8. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

We have not had any disagreements with our certified public accountants with respect to accounting practices or procedures of financial disclosures.

Item 8A. Controls and Procedures

As of the end of the period covered by this annual report, we carried out an evaluation, under the supervision and with the participation of management, including our chief executive officer and chief financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934. In designing and evaluating the disclosure controls and procedures, management recognizes that there are inherent limitations to the effectiveness of any system of disclosure controls and procedures, including the possibility of human error and the circumvention or overriding of the controls and procedures. Accordingly, even effective disclosure controls and procedures can only provide reasonable assurance of achieving their desired control objectives.

Additionally, in evaluating and implementing possible controls and procedures, management is required to apply its reasonable judgment.

Based upon the required evaluation, our chief executive officer and chief financial officer concluded as of December 31, 2005, our disclosure controls and procedures are effective in timely alerting them to material information relating to the company required to be disclosed by us in the reports that we file or submit under the Exchange Act to be recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. There have been no significant changes in our internal controls over financial reporting or in other factors that could significantly affect internal controls over financial reporting subsequent to the date we carried out our evaluation.

Item 8B. Other Information

Not applicable.

PART III

Item 9. Directors, Executive Officers, Promoters and Control Persons; Compliance with Section 16(a) of the Exchange Act

The following table sets forth the names, ages, and offices held by our directors and executive officers:

<u>Name</u>	<u>Age</u>	<u>Position</u>
J. Rockwell Smith	64	Chairman of the Board and Director
Edward F. Cowle	48	President, C.E.O. and Director
Geoff Williams	34	Secretary and Director

All directors hold office until the next annual meeting of stockholders and until their successors have been duly elected and qualified. There are no agreements with respect to the election of directors. We have not compensated our directors for service on the board of directors or any committee thereof, but directors are entitled to be reimbursed for expenses incurred for attendance at meetings of the board and any committee of the board. However, due to our lack of funds, directors will defer their expenses and any compensation until such time as we can consummate a successful acquisition or merger. As of the date hereof, no director has accrued any expenses or compensation. Officers are appointed annually by the board and each executive officer serves at the discretion of the board. We do not have any standing committees.

None of our directors are currently, nor for the past three years have been, a director of a "shell" or "blank check" company or other corporation that is actively pursuing acquisitions or mergers, except as set forth below in their respective resumes.

No director, officer, affiliate or promoter has, within the past five years, filed any bankruptcy petition, been convicted in or been the subject of any pending criminal proceedings, or is any such person the subject or any order, judgment, or decree involving the violation of any state or federal securities laws.

Our present directors have other full-time employment or sources of income and will routinely devote only such time to our business necessary to maintain our viability. It is estimated that each director will devote less than ten hours per month to our activities. The directors will, when the situation requires, review potential business opportunities or actively participate in negotiations for a potential merger or acquisition on an as-needed-basis.

Currently, there is no arrangement, agreement or understanding between management and non-management stockholders under which non-management stockholders may directly or indirectly participate in or influence the management of our affairs. Present management openly accepts and appreciates any input or suggestions from stockholders. However, the board of directors is elected by the stockholders and the stockholders have the ultimate say

in who represents them on the board. There are no agreements or understandings for any officer or director to resign at the request of another person and none of the current officers or directors are acting on behalf of, or will act at the direction of any other person.

The business experience of each of the persons listed above during the past five years is as follows:

J. Rockwell Smith.

Compliance With Section 16(a) of the Exchange Act

Section 16(a) of the Exchange Act requires our directors and executive officers, and persons who own more than 10% of our common stock, to file with the SEC initial reports of ownership and reports of changes in ownership of our common stock and other equity securities. None of these persons have filed initial reports of ownership and we will endeavor to have these reports prepared and submitted to the SEC.

Item 10. Executive Compensation

We have not had a bonus, profit sharing, or deferred compensation plan for the benefit of employees, officers or directors. We have not paid any salaries or other compensation to officers, directors or employees for the years ended December 31, 2005 and 2004. Further, we have not entered into an employment agreement with any of our officers, directors or any other persons and no such agreements are anticipated in the immediate future. It is intended that our directors will defer any compensation until such time as an acquisition or merger can be accomplished and will strive to have the business opportunity provide their remuneration. As of the date hereof, no person has accrued any compensation.

Item 11. Security Ownership of Certain Beneficial Owners and Management

The following table sets forth information, to the best of our knowledge, as of December 31, 2005, with respect to each person known by us to own beneficially more than 5% of the outstanding common stock, each director and all directors and officers as a group.

Item 12. Certain Relationships and Related Transactions

During the past two fiscal years, there have been no material transactions between us and any officer, director, nominee for election as director, or any stockholder owning greater than 5% of our outstanding shares, nor any member of the above referenced individuals' immediate family.

Our officers and directors are subject to the doctrine of corporate opportunities only insofar as it applies to business opportunities in which we have indicated an interest, either through a proposed business plan or by way of an express statement of interest contained in our minutes.

-18-

If directors are presented with business opportunities that may conflict with business interests identified by us, such opportunities must be promptly disclosed to the board of directors and made available to us. In the event the board shall reject an opportunity so presented and only in that event, any of our officers or directors may avail themselves of such an opportunity. Every effort will be made to resolve any conflicts that may arise in favor of us. There can be no assurance, however, that these efforts will be successful.

In the event of a successful acquisition or merger, a finder's fee, in the form of cash or securities, may be paid to persons instrumental in facilitating the transaction. We have not established any criteria or limits for the determination of a finder's fee, although it is likely that an appropriate fee will be based upon negotiations by us and the appropriate business opportunity and the finder. Such fees are estimated to be customarily between 1% and 5% of the size of the transaction, based upon a sliding scale of the amount involved. Management cannot at this time make an estimate as to the type or amount of a potential finder's fee that might be paid, but is expected to be comparable to consideration normally paid in like transactions. It is unlikely that a finder's fee will be paid to an affiliate because of the potential conflict of interest that might result. Any such fee would have to be approved by the stockholders or a disinterested board of directors.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders and the Board of Directors
Big Flash Corporation
(A Development Stage Company)
Salt Lake City, UT

We have audited the accompanying balance sheet of Big Flash Corporation (a Development Stage Company) as of December 31, 2005 and the related statements of operations, stockholders' equity (deficit) and cash flows for the years ended December 31, 2005 and 2004. These statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with standards of the PCAOB (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Big Flash Corporation (a Development Stage Company) as of December 31, 2005 and the results of its operations and its cash flows for the years ended December 31, 2005 and 2004 in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 2 to the financial statements, the Company has sustained recent losses from operations, has a deficit in working capital and a stockholders' deficit. This raises substantial doubt about the Company's ability to continue as a going concern. Management's plans in regard to these matters are also described in Note 2. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

BIG FLASH CORPORATION

(A Development Stage Company)

Notes to the Financial Statements

NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a. Business and Organization

Big Flash Corporation (The Company) was organized on July 27, 1999, under the laws of the State of Delaware. Pursuant to Statement of Financial Accounting Standards No. 7, "Accounting and Reporting by Development Stage Enterprises," the Company is classified as a development stage company.

The Company's financial statements are prepared using the accrual method of accounting. The Company has elected a December 31 year-end.

b. Revenue Recognition

The Company currently has no source of revenues. Revenue recognition policies will be determined when principal operations begin.

c. Basic Loss Per Share

The computation of basic loss per share of common stock is based on the weighted average number of shares outstanding during the period.

	For the Years Ended December 31,	
	2005	2004
Loss (numerator)	\$ (11,123)	\$ (7,842)
Shares (denominator)	1,500,000	1,500,000
Per share amount	\$ (0.01)	\$ (0.01)

d. Provision for Taxes

Deferred taxes are provided on a liability method whereby deferred tax assets are recognized for deductible temporary differences and operating loss and tax credit carryforwards and deferred tax liabilities are recognized for taxable temporary differences. Temporary differences are the differences between the reported amounts of assets and liabilities and their tax bases. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will to be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

BIG FLASH CORPORATION
(A Development Stage Company)

Notes to the Financial Statements

NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

d. Provision for Taxes (Continued)

Net deferred tax assets consist of the following components as of December 31, 2005 and 2004:

	2005		2004
Deferred tax assets:			
NOL carryover	\$ 23,012	\$	11,889
Valuation allowance	(23,012)		(11,889)
Net deferred tax asset	\$ --	\$	--

The income tax provision differs from the amount of income tax determined by applying the U.S. federal and state income tax rates of 39% to pretax income from continuing operations for the years ended December 31, 2005 and 2004 due to the following:

	2005		2004
Book Income	\$ (4,338)	\$	(2,556)
Valuation allowance	4,338		2,556
	\$ -	\$	-

At December 31, 2005, the Company had net operating loss carryforwards of approximately \$23,012 that may be offset against future taxable income through 2025. No tax benefit has been reported in the December 31, 2005 financial statements since the potential tax benefit is offset by a valuation allowance of the same amount.

Due to the change in ownership provisions of the Tax Reform Act of 1986, net operating loss carry forwards for Federal income tax reporting purposes are subject to annual limitations. Should a change in ownership occur, net operating loss carryforwards may be limited as to use in future years.

e. Cash and Cash Equivalents

For purposes of financial statement presentation, the Company considers all highly liquid investments with a maturity of three months or less, from the date of purchase, to be cash equivalents. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

BIG FLASH CORPORATION
(A Development Stage Company)

Notes to the Financial Statements

NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

f. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

g. Newly Issued Accounting Pronouncements

In April 2002, the FASB issued Statement No. 145 "Rescission of FASB Statements No. 4, 44, and 62, Amendment of FASB Statement No. 13, and Technical Corrections" (SFAS 145). SFAS 145 will require gains and losses on extinguishments of debt to be classified as income or loss from continuing operations rather than as extraordinary items as previously required under Statement of Financial Accounting Standards No. 4 (SFAS 4). Extraordinary treatment will be required for certain extinguishments as provided in APB Opinion No. 30. SFAS 145 also amends Statement of Financial Accounting Standards No. 13 to require certain modifications to capital leases be treated as a sale-leaseback and modifies the accounting for sub-leases when the original lessee remains a secondary obligor (or guarantor). SFAS 145 is effective for financial statements issued after May 15, 2002, and with respect to the impact of the reporting requirements of changes made to SFAS 4 for fiscal years beginning after May 15, 2002. The adoption of the applicable provisions of SFAS 145 did not have an effect on the Company's financial statements.

In June 2002, the FASB issued Statement No. 146, "Accounting for Costs Associated with Exit or Disposal Activities." SFAS 146 nullifies Emerging Issues Task Force Issue No. 94-3 "Liability Recognition for Certain Employee Termination Benefits and Other Costs to Exit an Activity (including Certain Costs Incurred in a Restructuring)." SFAS 146 applies to costs associated with an exit activity that does not involve an entity newly acquired in a business combination or with a disposal activity covered by SFAS 144. SFAS 146 is effective for exit or disposal activities that are initiated after December 31, 2002, with earlier application encouraged. The adoption of the applicable provisions of SFAS 146 did not have an effect on the Company's financial statements.

Notes to the Financial Statements

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES (Continued)

e. Newly Issued Accounting Pronouncements (Continued)

In October 2002, the FASB issued Statement No. 147 "Acquisitions of Certain Financial Institutions" an amendment of FASB Statements No. 72 and 144 and FASB Interpretation No. 9" (SFAS 147). SFAS 147 removes acquisitions of financial institutions from the scope of both Statement 72 and Interpretation 9 and requires that those transactions be accounted for in accordance with FASB Statements No. 141, *Business Combinations*, and No. 142, *Goodwill and Other Intangible Assets*. Thus, the requirement in paragraph 5 of Statement 72 to recognize (and subsequently amortize) any excess of the fair value of liabilities assumed over the fair value of tangible and identifiable intangible assets acquired as an unidentifiable intangible asset no longer applies to acquisitions within the scope of this Statement. In addition, this Statement amends FASB Statement No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets*, to include in its scope long-term customer-relationship intangible assets of financial institutions such as depositor- and borrower-relationship intangible assets and credit cardholder intangible assets. Consequently, those intangible assets are subject to the same undiscounted cash flow recoverability test and impairment loss recognition and measurement provisions that Statement 144 requires for other long-lived assets that are held and used. SFAS 147 is effective October 1, 2002. The adoption of the applicable provisions of SFAS 147 did not have an effect on the Company's financial statements.

In December 2002, the FASB issued Statement No. 148 "Accounting for Stock-Based Compensation - Transition and Disclosure" an amendment of FASB Statement No. 123" (SFAS 148). SFAS 148 provides alternate methods of transition for a voluntary change to the fair value based method of accounting for stock-based employee compensation. In addition, this Statement amends the disclosure requirements of Statement 123 to require prominent disclosures in both annual and interim financial statements about the method of accounting for stock-based employee compensation and the effect of the method used on reporting results. SFAS 148 is effective for fiscal years beginning after December 15, 2003. The adoption of SFAS No. 148 did not have a material effect on the financial statements of the Company.

In April 2003, the FASB issued SFAS No. 149, "Amendment of Statement 133 on Derivative Instruments and Hedging Activities" which is effective for contracts entered into or modified after June 30, 2003 and for hedging relationships designated after June 30, 2003. This statement amends and clarifies financial accounting for derivative instruments embedded in other contracts (collectively referred to as derivatives) and hedging activities under SFAS 133. The adoption of SFAS No. 149 did not have a material effect on the financial statements of the Company.

e. Newly Issued Accounting Pronouncements (Continued)

In May 2003, the FASB issued Statement of Financial Accounting Standards No. 150, "Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity" (SFAS 150"). SFAS 150 addresses certain financial instruments that, under previous guidance, could be accounted for as equity, but now must be classified as liabilities in statements of financial position. These financial instruments include: (i) mandatory redeemable financial instruments, (ii) obligations to repurchase the issuer's equity shares by transferring assets, and (iii) obligations to issue a variable number of shares. SFAS 150 is generally effective for all financial instruments entered into or modified after May 31, 2003, and otherwise effective at the first interim period beginning after June 15, 2003. The adoption of SFAS 150 did not have any impact on the Company's financial position or Statement of Operations.

In January 2003, and revised in December 2003, the FASB issued FASB Interpretation No. 46, "Consolidation of Variable Interest Entities" ("FIN 46"). This interpretation of Accounting Research Bulletin No. 51, "Consolidated Financial Statements," addresses consolidation by business enterprises of variable interest entities, which possess certain characteristics. FIN 46 requires that if a business enterprise has a controlling financial interest in a variable interest entity, the assets, liabilities, and results of the activities of the variable interest entity must be included in the consolidated financial statements with those of the business enterprise. FIN 46 applies immediately to variable interest entities created after January 31, 2003 and to variable interest entities in which an enterprise obtains an interest after that date. The consolidation requirements apply to older entities in the first fiscal year or interim period after June 15, 2003. The adoption of the effective provisions of Interpretation 46 did not have any impact on the Company's financial position or statement of operations.

(A Development Stage Company)

Notes to the Financial Statements

NOTE 2 - GOING CONCERN

The Company's financial statements are prepared using generally accepted accounting principles in the United States of America applicable to a going concern which contemplates the realization of assets and liquidation of liabilities in the normal course of business. The Company has not yet established an ongoing source of revenues sufficient to cover its operating costs and allow it to continue as a going concern. The ability of the Company to continue as a going concern is dependent on the Company obtaining adequate capital to fund operating losses until it becomes profitable. If the Company is unable to obtain adequate capital, it could be forced to cease operations.

In order to continue as a going concern, the Company will need, among other things, additional capital resources. Management's plans to obtain such resources for the Company include (1) obtaining capital from management and significant shareholders sufficient to meet its minimal operating expenses, and (2) seeking out and completing a merger with an existing operating company. However, management cannot provide any assurances that the Company will be successful in accomplishing any of its plans.

NOTE 2 - GOING CONCERN

The ability of the Company to continue as a going concern is dependent upon its ability to successfully accomplish the plans described in the preceding paragraph and eventually secure other sources of financing and attain profitable operations. The accompanying financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.

NOTE 3 - RELATED PARTY TRANSACTIONS

During the years ended December 31, 2005 and 2004, the Company incurred various general and administrative expenses. As the Company has not had the wherewithal to pay these expenses, the Company has relied on a related party to satisfy its debts. As of December 31, 2005 and 2004 the Company had an obligation to the related party, including accrued interest, totaling \$21,662 and \$9,165, respectively. This balance is due on demand, and the Company is accruing interest on the total at 8.0% per annum.

NOTE 4 - SIGNIFICANT AND SUBSEQUENT EVENT

In November, 2005, the Company entered into a Letter of Understanding with Intelgenx Corp. ("Intelgenx"), an operating drug delivery entity headquartered in Quebec, Canada. Later, on April 10, 2006, the Company entered into a formal Share Exchange Agreement with Intelgenx. Pursuant to this Agreement, the Company formed a wholly-owned subsidiary, 6544531 Canada, Inc. ("Exchangeco"). The Share Exchange Agreement stipulates that Exchangeco will receive 10,991,000 common shares of Intelgenx, in exchange for all of the outstanding common shares of Exchangeco. Upon consummation of the Agreement, Intelgenx will operate as a controlled subsidiary of the Company. Management anticipated the Agreement will be fully consummated during the 2nd quarter of 2006.

NOTE 1 - CONDENSED FINANCIAL STATEMENTS

The accompanying financial statements have been prepared by the Company without audit. In the opinion of management, all adjustments (which include only normal recurring adjustments) necessary to present fairly the financial position, results of operations and cash flows at March 31, 2006 and 2005, and for all periods presented have been made.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted. It is suggested that these condensed financial statements be read in conjunction with the financial statements and notes thereto included in the Company's December 31, 2005 audited financial statements. The results of operations for the periods ended March 31, 2006 and 2005 are not necessarily indicative of the operating results for the full years.

NOTE 2 - SUBSEQUENT EVENT

On April 28, 2006, the Company entered into a Share Exchange Agreement ("the Agreement"), whereby the Company, (through its wholly-owned subsidiary 6544361 Canada, Inc., a Canadian company) acquired 100% of the issued and outstanding common stock and warrants of Intelgenx Corp., a Canadian corporation ("Intelgenx"). Pursuant to the Agreement, and several separate related agreements, the Company issued, as consideration for the Intelgenx shares, 14,507,489 shares of the Company's common stock to various shareholders of Intelgenx, along with 100,000 common share purchase warrants to an Intelgenx shareholder. The warrants granted are exercisable at \$0.41 per share, and expire on April 28, 2008. Upon completion of the acquisition, the total shares issued by the Company pertaining to the acquisition of Intelgenx will constitute 68.7% of the approximately 16 million Big Flash common shares then outstanding. Following the completion of the acquisition, Intelgenx will continue its operations as a controlled subsidiary of the Company.

IntelGenx is a drug delivery company established in 2003 and headquartered in Montreal, Quebec, Canada which focuses on the development of oral controlled-release products for the generic pharmaceutical market as well as novel mucosal delivery systems. IntelGenx's business strategy is to develop pharmaceutical products based on its proprietary drug delivery technologies and license the commercial rights to competent partner companies once the viability of the product has been demonstrated.

Item 2. Management's Discussion and Analysis or Plan of Operations

The following information should be read in conjunction with the financial statements and notes thereto appearing elsewhere in this Form 10-QSB.

Results of Operations

We incurred a loss of \$1,648 during the three month period ended March 31, 2006, primarily due to professional fees and other expenses related to the preparation and filing with the SEC of periodic and annual reports during the quarter. We had \$3,751 of such expenses during the three month period ended March 31, 2005. We accrued \$410 of interest expense on debt to related parties in 2006 compared to \$209 in 2005.

In the opinion of management, inflation has not and will not have a material effect on our operations until such time as we successfully complete an acquisition or merger. At that time, management will evaluate the possible effects of inflation related to our business and operations.

Liquidity and Capital Resources

During the three months ended March 31, 2006, our expenses were paid by a shareholder. At March 31, 2006, we had a payable to our stockholder of \$20,807. Pursuant to the acquisition of Intelgenx on April 28, 2006 the Company now has funds available to fund operations for the next 12 to 18 months. Although the Company does not anticipate requiring to raise additional funds at this time, the Company may decide to raise funds through further private placements of Big Flash common stock depending on changes in market conditions and business opportunities.

Plan of Operation

On April 28, 2006, the Company entered into a Share Exchange Agreement, whereby the Company, (through its wholly-owned subsidiary 6544361 Canada, Inc., a Canadian company) acquired 100% of the issued and outstanding common stock and warrants of Intelgenx Corp., a Canadian corporation. Pursuant to the Agreement, and several separate related agreements, the Company issued, as consideration for the Intelgenx shares, 14,507,489 shares of the Company's common stock to various shareholders of Intelgenx, along with 100,000 common share purchase warrants to an Intelgenx shareholder. The warrants granted are exercisable at \$0.41 per share, and expire on April 28, 2008. Upon completion of the acquisition, the total shares issued by the Company pertaining to the acquisition of Intelgenx will constitute 68.7% of the approximately 16 million Big Flash common shares then outstanding. Following the completion of the acquisition, Intelgenx will continue its operations as a controlled subsidiary of the Company.

IntelGenx is a drug delivery company established in 2003 and headquartered in Montreal, Quebec, Canada, which focuses on the development of novel oral immediate-release and controlled-release products for the generic pharmaceutical market. IntelGenx's business strategy is to develop pharmaceutical products based on its proprietary drug delivery technologies and then license commercial rights for such products to pharmaceutical partners once the viability of a product has been demonstrated. We expect a partner company will, in some cases, fund development of the licensed products, complete the Food and Drug Administration ("FDA") regulatory approval process relating to the licensed products, and assume responsibility for marketing and distributing such products.

In addition, the Company anticipates that it may undertake full development of certain products without seeking a partner until the marketing and distribution stage. The Company will assess various issues relating to potential for successful development of a product and associated costs, and then determine at which stage it is most prudent to seek a partner, balancing such costs against potential for additional returns earned by partnering later in the development process. The company has also undertaken a strategy under which it will work with pharmaceutical companies in order to develop new dosage forms in addition to already existing ones for pharmaceutical products for which patent protection is about to expire. Under § (505)(b)(2) of the Food, Drug, and Cosmetics Act, the Food and Drug Administration will grant a market exclusivity of up to three years for such a new dosage form. The Company anticipates significant returns from successfully obtaining market exclusivity in this manner.

The Company is currently continuing to develop the existing products in its pipeline and may also perform research and development on other potential products as the opportunities present themselves.

The Company does not currently plan to acquire a manufacturing facility. The Company currently purchases and or leases, on an as-needed basis, the equipment necessary for performing research and development activities related to its products.

The Company will hire new personnel, primarily in the area of research and development, on an as-needed basis as the Company enters into partnership agreements partners and increases its research and development activities.
