REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Employee Benefits Committee
Discover Financial Services 401(k) Plan
Riverwoods, Illinois

We have audited the accompanying statements of net assets available for benefits of Discover Financial Services 401(k) as of December 31, 2015 and 2014, and the related statement of changes in net assets available for benefits for the year ended

December 31, 2015. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2015 and 2014, and the changes in net assets available for benefits for the year ended December 31, 2015 in conformity with U.S. generally accepted accounting principles.

The supplemental Schedule H, Line 4a - Schedule of Delinquent Participant Contributions and Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2015 and for the year then ended have been subjected to audit procedures performed in conjunction with the audit of Discover Financial Services 401(k) Plan's financial statements. The supplemental schedules are the responsibility of the Plan's management. Our audit procedures included determining whether the information presented in the supplemental schedules reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental schedules. In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. In our opinion, the supplemental schedules are fairly stated in all material respects in relation to the financial statements as a whole.

DISCOVER FINANCIAL SERVICES 401(k) PLAN

NOTES TO THE FINANCIAL STATEMENTS

At December 31, 2015 and 2014 and for the year ended December 31, 2015

1. DESCRIPTION OF THE PLAN

The following description of the Discover Financial Services 401(k) Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan document for more complete information. Terms used in this description have the same meaning as in the Plan document.

General

The Plan was adopted by Discover Financial Services (the “Company”) effective July 1, 2007 for its eligible employees and the eligible employees of its participating affiliated employers. The Plan is a profit-sharing plan for purposes of section 401(a)(27) of the Internal Revenue Code of 1986 (the “Code”). The Plan is also an eligible individual account plan within the meaning of Section 407(d)(3) of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”). The Plan provides for the acquisition and holding of “qualifying employer securities” as defined in ERISA section 407(d)(5). Up to 100% of the Plan's assets may be invested in qualifying employer securities. The portion of the Plan's assets invested in qualifying employer securities is designated as an “employee stock ownership plan” (“ESOP”) under Code section 4975(e)(7), further discussion regarding the Company Stock Fund is within “Plan Amendments” paragraph.

All of the Plan's investments are held in a trust account at The Bank of New York Mellon (the “Custodian”). The general administration of the Plan is placed in the “Plan Administrator” defined under the Plan as the Employee Benefits Committee.

Eligibility

Full-time and part-time (regularly scheduled to work 20 hours or more a week) employees of the Company, and of participating employers electing to participate in the Plan, are eligible to participate in the Plan upon hire. Other employees of the Company including those regularly scheduled to work less than 20 hours per week and temporary employees are eligible to participate after completing one year of service, as defined in the Plan, and attaining age 21. The Plan provides for automatic enrollment and automatic escalation of pre-tax contributions of participants who do not elect to opt out of participation.

Participant Contributions

Each year, participants may contribute up to 30% of pre-tax annual compensation, as defined in the Plan and subject to certain limitations. A Non-Highly Compensated Employee may make After-Tax Contributions to the Plan for any year equal to any whole percentage from 1% to 10% of the Participant's Earnings as defined in the Plan and subject to certain limitations. Participants may also contribute amounts representing pre-tax distributions from other qualified defined benefit or defined contribution plans. Participants age 50 and over can make catch-up contributions subject to limitations. Different limits apply in the case of Puerto Rico residents and participants returning from a qualified military service leave.

Employer Contributions

The Company contributes a fixed 3% of eligible pay and matches 100% on the first 2% of eligible pay (as defined in the Plan) employees contribute on a pre-tax basis, plus 50% on the next 4% of eligible pay employees contribute on a pre-tax basis, subject to certain limitations. All participating employees who have made pre-tax contributions of at least 6% of annual earnings are eligible for an adjustment match at year end. The adjustment match will be equal to the difference between the maximum company match the participant is eligible to receive and the matching contributions credited to the participant's account during the plan year, whether or not a plan limit was reached during the year.

The Company matching contributions are made as soon as is administratively practicable following the end of the payroll period, generally bi-weekly, based on employee pre-tax contributions. The Company fixed contributions are made annually based on eligible pay.

Participant Accounts

Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contributions, allocations of the Company's contribution and Plan earnings, and charged with the

participant's withdrawals, an allocation of Plan losses and administrative expenses not otherwise paid by the Company. Allocations are based on the

participant's balance or earnings, other than participant-directed transactions that may have individual fees. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Retirement, Death and Disability

A participant, or beneficiary, is entitled to 100% of his or her account balance upon retirement, death, disability or certain reductions in force as provided in the Plan.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the remainder of their accounts, plus earnings thereon, is based on years of service. A participant is 100% vested after two years of service, as defined in the Plan.

Forfeitures

Any nonvested matching contributions or Company fixed contributions credited to a participant's account shall be forfeited as of the end of the month in which the participant terminates employment. These forfeitures may be used to offset future employer contributions to the Plan or to pay Plan expenses. During the year ended December 31, 2015, employer contributions were reduced by \$1,900,000 from forfeited nonvested accounts.

Investments

The Retirement Plan Investment Committee of the Company is responsible for the selection and monitoring of the Plan's investment options, other than the Company Stock Fund, which is maintained pursuant to the terms of the Plan. Effective September 21, 2015, the Retirement Plan Investment Committee appointed Evercore Trust Company, N.A. as the independent fiduciary and investment manager of the Company Stock Fund. In addition to the Company Stock Fund, the investment options of the Plan include Collective Trusts, Mutual Funds and the Separately Managed Fund. Plan participants direct the investment of their account balances into the various investment options offered by the Plan. Company matching contributions for the 2015 Plan year were made in cash and invested in accordance with the participant's investment direction on file, or if none, in the T. Rowe Price target year fund closest to the year in which the participant will reach age 65. Company contributions may be made in cash or in the common stock of the Company, at the Company's discretion.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions and earnings thereon.

Loans to Participants

Generally, participants may borrow from their Plan accounts up to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account. Loans shall bear a reasonable rate of interest as determined by the Plan Administrator. With the exception of certain transferred loans, a participant may only have one outstanding loan in his or her Plan account at any time. Interest income is recognized over the life of the loan.

Payment of Benefits

Participants may elect to receive all or a portion of their vested Plan account balance following termination of employment.

Non-hardship Withdrawals

While a participant is employed by the Company, they may withdraw any or all vested portions of their Plan account upon attaining age 59 1/2. Participants may also withdraw their after-tax contributions at any time. Withdrawals are limited to two per calendar year.

Hardship Withdrawals

Participants may withdraw any or all vested portions of their Plan account, other than any portions related to fixed Company contributions or qualified non-elective employer contributions, in the event of a hardship, as defined in the Plan.

Payments of benefits from the Plan are generally made in cash. A participant may elect to receive his or her interest in the Company Stock Fund in the form of stock certificates. A participant has the option to reinvest dividends from the Company Stock Fund in additional shares of Company stock or receive a cash payout.

Included in net assets available for benefits are amounts allocated to individuals who have elected to withdraw from the Plan, but who have not yet been paid. Plan assets allocated to these participants and elected to be withdrawn were \$1,287,393 and \$623,571 at December 31, 2015 and 2014, respectively.

Administrative Expenses

Administrative expenses of the Plan are paid by either the Plan or the Company as provided in the Plan document. In 2015, the majority of administrative expenses were paid directly by the Company.

Plan Amendments

The Plan was amended, effective January 1, 2015, to clarify (1) the effective date of the definition of spouse and (2) that the Company Stock Fund shall be maintained for so long as investments in the Company Stock Fund are consistent with the provisions of ERISA Section 404(a)(1)(D). The Plan was amended, effective November 30, 2015, to allow Company matching and fixed contributions for eligible participants employed by a participating Company that ceases operations during a plan year to be made during the same plan year.

In its capacity as the settlor and sponsor of the Plan, the Company amended the Plan on December 15, 2015, to eliminate the Company Stock Fund as an Investment Fund under the Plan, effective November 30, 2016, and to terminate the ability of Plan participants to effect transactions with respect to the Company Stock Fund after November 30, 2016 and to liquidate the Company Stock Fund as soon as practicable thereafter.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America "GAAP".

Use of Estimates

The preparation of financial statements in conformity with GAAP requires Plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from the estimates and assumptions used.

Risks and Uncertainties

The Plan utilizes various investment options. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Investment Valuation

The Plan's investments are stated at fair value. Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The following provides a description of methodologies used in valuing the Plan's assets at fair value:

Company Common Stock

Company common stock is valued at the closing price reported on the stock exchange market on the last business day of the Plan year.

Mutual Funds

These investments are public investment vehicles valued using the Net Asset Value ("NAV") provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market.

Collective Trusts

These investments are not traded on an active market, but instead are valued using the NAV provided by the administrator of the fund as a practical expedient to estimate fair value. The unit price is based on underlying investments which are traded on an active market. Each collective trust provides for daily redemptions by the Plan at reported net asset values per share, with no advance notice requirements for participants and 90 days advance notice requirement for the Target Date funds for the Plan. There were no unfunded commitments as of December 31, 2015 and 2014.

Separately Managed Account

The investments in this account are managed by an outside investment firm but are individually held by the Plan. The common stocks are valued at the closing price reported on the stock exchange markets on the last business day of the Plan year. Short term investments are valued at cost which approximates fair value.

Stable Value Collective Trust Fund

A stable value fund that is composed primarily of fully benefit-responsive investment contracts that is valued at the net asset value of units of the bank collective trust. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require 12 months' notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

Investment Income

Realized and unrealized appreciation (depreciation) in the fair value of investments is based on the difference between the average cost of the assets at the beginning of the year, or at time of purchase of assets purchased during the year, and the related average cost on the day investments are sold with respect to realized appreciation (depreciation), or on the last day of the year for unrealized appreciation (depreciation).

Purchases and sales of investments are recorded on a trade-date basis. The Plan records dividends on the ex-dividend date.

Management fees and operating expenses charged to the Plan for investments in the mutual funds and collective trusts are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Receivables

Contributions receivable

The carrying amount of the contributions receivable approximate fair value due to their short-term maturities.

Receivables for securities sold

Represent pending sales of investments that have not yet settled.

Accrued investment income

Represents dividend and interest income that have been earned but have not yet been received. Dividends are accrued on their ex-dividend dates, while interest income is recorded when earned.

Notes receivable from participants

Represent outstanding principal and interest balance on loans receivable from participants and are recorded when participants take out a loan. No allowance for credit losses has been recorded as of December 31, 2015 and 2014.

Payables for securities purchased

Represent pending purchases of investments that have not yet settled.

Benefits paid to participants

Benefits are recorded upon distribution.

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-07, Disclosures for Investments in Certain Entities That Calculate Net Assets Value per Share (or Its Equivalent). ASU 2015-07 removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. It also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient.

On July 31, 2015, the FASB issued ASU 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts and (Part II) Plan Investment Disclosures. The standard clarifies that a plan's investments in stable value funds are not Fully Benefit Responsive Investment Contracts and should be measured and presented only at fair value. Resulting from adoption of this standard, investments at fair value was decreased by \$970,145 from the amount previously reported as of December 31, 2014 and adjustment from fair value to contract value for fully benefit-responsive investment contracts of \$970,145 as of December 31, 2014 was eliminated. The standard provides guidance on certain aspects of the accounting by employee benefit plans. The ASU, which is being released in response to consensuses reached by the Emerging Issues Task Force, simplifies and increases the effectiveness of plan investment disclosure requirements for employee benefit plans. Part II eliminates disclosure of the individual investments that represent 5% or more of Plan net assets and disclosure of net appreciation/depreciation by investment type. Plan investments must be disaggregated only by general type on the statement of net assets available for benefits and in the footnotes.

The Plan adopted these standards effective December 31, 2015, which provided for simplified investments disclosures on the Plan's financial statements, but they had no effect on the Plan's net assets available for benefits or the changes therein. Both standards require retrospective application to all periods presented.

3. FAIR VALUE DISCLOSURES

The following provides a description of the three levels of inputs that may be used to measure fair value under ASC 820:

Level 1 - Inputs utilize quoted prices (unadjusted) available in active markets for identical assets or liabilities;

Level 2 - Inputs utilize other than quoted prices that are observable for the asset or liability, either directly or indirectly, and include quoted prices for similar assets and liabilities in an active or inactive market, quoted prices for the identical assets in an inactive market, and inputs other than quoted prices that are observable at commonly quoted intervals, such as interest rates;

Level 3 - Inputs utilize unobservable inputs, and include situations where there is little, if any, market activity for the asset or liability.

In instances in which the inputs used to measure fair value may fall into different levels of the fair value hierarchy, the level in the fair value hierarchy within which the fair value measurement in its entirety has been determined is based on the lowest level input that is significant to the fair value measurement in its entirety. The Plan's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the asset or liability.

Assets Measured at Fair Value on a Recurring Basis

There were no Level 2 and Level 3 assets or liabilities measured at fair value on a recurring basis at December 31, 2015 or 2014 or at any point during the year ended December 31, 2015.

There is no difference between the carrying value and the fair value of these funds. The following table presents information about the Plan's assets measured at fair value on a recurring basis at December 31, 2015 and 2014 and indicates the level within the fair value hierarchy with which each of those items is associated:

	Quoted Prices In Active Markets for Identical Assets (Level 1)	Total
Balance at December 31, 2015		
Investments		
Common stock		
Company common stock	\$108,462,000	\$108,462,000
Other common stock	141,586,786	141,586,786
Total common stock	250,048,786	250,048,786
Mutual Funds	80,313,545	80,313,545
Collective Trusts measured at net asset value ⁽¹⁾	—	721,708,458
Total investments at fair value	\$330,362,331	\$1,052,070,789

	Quoted Prices In Active Markets for Identical Assets (Level 1)	Total
Balance at December 31, 2014		
Investments		
Common stock		
Company common stock	\$151,917,873	\$151,917,873
Other common stock	152,762,576	152,762,576
Total common stock	304,680,449	304,680,449
Mutual Funds	91,233,593	91,233,593
Collective Trusts measured at net asset value ⁽¹⁾	—	647,886,405
Total investments	\$395,914,042	\$1,043,800,447

(1) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) as practical expedient have not been classified in the fair value hierarchy. The fair value amounts

presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

4. PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. The Plan holds units of collective trusts managed by the Plan Custodian, The Bank of New York Mellon. Because The Bank of New York Mellon is the Plan Custodian, these transactions qualify as party-in-interest transactions. Notes receivable from participants are also considered party-in-interest transactions.

At December 31, 2015 and 2014, the Plan held 2,022,790 and 2,319,711, respectively, shares of common stock of the Company, the sponsoring employer, with a fair value of \$108,462,000 and \$151,917,873, respectively. During the year ended December 31, 2015, the Plan recorded dividend income on the common stock of the Company of \$2,463,406.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Some administrative expenses of the Plan are paid directly by the Company.

5. FEDERAL INCOME TAX STATUS

On August 15, 2014, the Plan Sponsor received a favorable determination letter from the Internal Revenue Service ("IRS") that the Plan satisfies the requirements of the applicable sections of the Internal Revenue Code. No provision for income taxes has been recorded in the accompanying financial statements. Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by the IRS; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

The Plan has been amended since receiving the determination letter, however Plan management believes that the Plan is currently designed and being operated in material compliance with the applicable requirements of the Internal Revenue Code.

6. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	December 31,	
	2015	2014
Net assets available for benefits per the financial statements	\$1,104,698,532	\$1,093,791,880
Change in value reported on the Form 5500 and the financial statements for the stable value collective trust	—	970,145
Corrective distributions	(416) (7,787
Distributions and withdrawals payable	(1,287,393) (623,571
Net assets available for benefits per Form 5500	\$1,103,410,723	\$1,094,130,667

The following is a reconciliation of the increase in net assets per the financial statements to the form 5500:

	2015
Increase in net assets per the financial statements	\$10,906,652
Change in value reported on the Form 5500 and the financial statements for the stable value collective trust	(970,145)
Change in corrective distributions	7,371
Change in distributions and withdrawals payable	(663,822)
Net increase per Form 5500	\$9,280,056
