Item 8.01. Other Events

United Health Products Inc. (UEEC) has filed a FDA (Food and Drug Administration) 510K Class II Application for expanded usage of its patented HemoStyp® products. The application will include expanded usage into general surgeries and internal procedures. HemoStyp® Dressings are made from regenerated cotton cellulose, treated with natural chemicals to become water soluble. When contacting blood and exudates, the cellulose expands into a clear gel, thereby adhering and creating pressure to seal the wound. HemoStyp® products are 100% cellulose and all natural. United Health Products Inc. anticipates a response from the FDA within 90 days.
