ASPEN GROUP, INC. AND SUBSIDIARIES
CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
OCTOBER 31, 2018
(Unaudited)

Note 1. Nature of Operations and Liquidity

Overview

Aspen Group, Inc. (together with its subsidiaries, the Company, Aspen, or AGI) is a holding company, which has three subsidiaries. They are Aspen University, Inc. (Aspen University) organized in 1987, Aspen Nursing, Inc. (a subsidiary of Aspen University) and United States University, Inc. (USU) formed in May 2017 and which we acquired on December 1, 2017. (See Note 8). When we refer to USU in this Report, we refer to either the online university which has operated under the name United States University or our subsidiary which operates this university, as the context illustrates.

AGI is an education technology holding company that leverages its infrastructure and expertise to allow its two universities, Aspen University and United States University, to deliver on the vision of making college affordable again. Because we believe higher education should be a catalyst to our students' long-term economic success, we exert financial prudence by offering affordable tuition that is one of the greatest values in higher education. In March 2014, Aspen University unveiled a monthly payment plan aimed at reversing the college-debt sentence plaguing working-class Americans. The monthly payment plan offers bachelor students (except RN to BSN) the opportunity to pay their tuition at \$250/month for 72 months (\$18,000), nursing bachelor students (RN to BSN) \$250/month for 39 months (\$9,750), master students \$325/month for 36 months (\$11,700) and doctoral students \$375/month for 72 months (\$27,000), interest free, thereby giving students a monthly payment tuition payment option versus taking out a federal financial aid loan.

USU began offering monthly payment plans in the summer of 2017. Today, monthly payment plans are available for the RN to BSN program (\$250/month), MBA/M.A.Ed/MSN programs (\$325/month), and the MSN-FNP program (\$375/month).

Edgar Filing: ASPEN GROUP, INC. - Form 10-Q

Additionally, Aspen University has begun its first semester (July 2018) for its previously announced pre-licensure Bachelor of Science in Nursing (BSN) degree program at its initial campus in Phoenix, Arizona. As a result of overwhelming demand in the Phoenix metro area, Aspen recently announced it will offer both day (July, November, and March semesters) and evening/weekend (January, May, and September semesters) programs, equaling six semester starts per year. Aspen's innovative hybrid (online/on-campus) program allows most of the credits to be completed online (83 of 120 credits or 69%), with pricing offered at Aspen's current low tuition rates of \$150/credit hour for online general education courses and \$325/credit hour for online core nursing courses. For high school students with no prior college credits, the total cost of attendance is less than \$50,000.

Since 1993, Aspen University has been nationally accredited by the Distance Education and Accrediting Council (DEAC), a national accrediting agency recognized by the U.S. Department of Education (the DOE). On February 25, 2015, the DEAC informed Aspen University that it had renewed its accreditation for five years to January 2019.

Since 2009, USU has been regionally accredited by WASC Senior College and University Commission. (WSCUC).

Both universities are qualified to participate under the Higher Education Act of 1965, as amended (HEA) and the Federal student financial assistance programs (Title IV, HEA programs). USU has a provisional certification resulting from the change of control on December 1, 2017.

Basis of Presentation

A. Interim Financial Statements

The interim consolidated financial statements included herein have been prepared by the Company, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission (the SEC). In the opinion of the Company's management, all adjustments (consisting of normal recurring adjustments and reclassifications and non-recurring adjustments) necessary to present fairly our results of operations for the six months ended October 31, 2018 and 2017, our cash flows for the six months ended October 31, 2018 and 2017, and our financial position as of October 31, 2018 have been made. The results of operations for such interim periods are not necessarily indicative of the operating results to be expected for the full year.

Certain information and disclosures normally included in the notes to the annual consolidated financial statements have been condensed or omitted from these interim consolidated financial statements. Accordingly, these interim consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in our Report on Form 10-K for the period ended April 30, 2018 as filed with the SEC on July 13, 2018. The April 30, 2018 balance sheet is derived from those statements.

ASPEN GROUP, INC. AND SUBSIDIARIES

CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

OCTOBER 31, 2018

(Unaudited)

B. Liquidity

At October 31, 2018, the Company had a cash balance of \$7,723,808 with an additional \$190,506 in restricted cash.

In April 2018, the Company raised \$23,023,000 in equity through the sale of 3,220,000 shares at \$7.15 per share. With the proceeds, the Company repaid a \$7.5 million senior secured term loan.

As discussed in more detail in Note 11, Subsequent Events, on November 5, 2018 the Company entered into a three year, senior unsecured revolving credit facility. There is currently no outstanding balance under that facility.

During the six months ending October 31, 2018 the Company used cash of \$6,888,751, which included using \$5,487,423 in operating activities. The Company expects revenue growth to continue, and expenses to grow at a slower pace. As a result, the Company expects cash used in operations to decline in future quarters as compared to the quarter ending October 31, 2018.

The Company paid \$1,160,000 of principal and accrued interest related to a convertible note on December 3, 2018, as explained in Note 11, Subsequent Events. The Company also anticipates ongoing investment spending, including an expected investment of approximately \$600,000 related to the new campus for its Pre-Licensure Program with Honor Health.

The Company has considered its liquidity position and believes its current resources are adequate to meet anticipated liquidity needs.

Note 2. Significant Accounting Policies

Principles of Consolidation

The unaudited consolidated financial statements include the accounts of AGI and its wholly-owned subsidiaries. All intercompany balances and transactions have been eliminated in consolidation.

Use of Estimates

The preparation of the unaudited consolidated financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts in the consolidated financial statements. Actual results could differ from those estimates. Significant estimates in the accompanying unaudited consolidated financial statements include the allowance for doubtful accounts and other receivables, the valuation of collateral on certain receivables, estimates of the fair value of assets acquired and liabilities assumed in a business combination, amortization periods and valuation of courseware, intangibles and software development costs, valuation of beneficial conversion features in convertible debt, valuation of goodwill, valuation of loss contingencies, valuation of stock-based compensation and the valuation allowance on deferred tax assets.

Cash, Cash Equivalents, and Restricted Cash

For the purposes of the unaudited consolidated statements of cash flows, the Company considers all highly liquid investments with an original maturity of six months or less when purchased to be cash equivalents. There were no cash equivalents at October 31, 2018 and April 30, 2018. The Company maintains its cash in bank and financial institution deposits that at times may exceed federally insured limits of \$250,000 per financial institution. The Company has not experienced any losses in such accounts from inception through October 31, 2018. As of October 31, 2018 and April 30, 2018, there were deposits totaling \$7,336,580 and \$14,422,499 respectively, held in two separate institutions greater than the federally insured limits.

Restricted cash consists of \$118,872 which is collateral for a letter of credit issued by the bank and required under the USU facility operating lease and \$71,634 which is collateral for a letter of credit issued by the bank and related to USU's receipt of Title IV funds and is required by DOE in connection with the change of control of USU. (See Note 6)

ASPEN GROUP, INC. AND SUBSIDIARIES

CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

OCTOBER 31, 2018

(Unaudited)

Goodwill and Intangibles

Goodwill represents the excess of the purchase price of USU over the fair market value of assets acquired and liabilities assumed from Educacion Significativa, LLC. Goodwill has an indefinite life and is not amortized. Goodwill is tested annually for impairment.

Intangible assets represent both indefinite lived and definite lived assets. Accreditation and regulatory approvals and trade name and trademarks are deemed to have indefinite useful lives and accordingly are not amortized but are tested annually for impairment. Student relationships and curriculums are deemed to have definite lives and are amortized accordingly.

Fair Value Measurements

Fair value is the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants. The Company classifies assets and liabilities recorded at fair value under the fair value hierarchy based upon the observability of inputs used in valuation techniques. Observable inputs (highest level) reflect market data obtained from independent sources, while unobservable inputs (lowest level) reflect internally developed market assumptions. The fair value measurements are classified under the following hierarchy:

Level 1 Observable inputs that reflect quoted market prices (unadjusted) for identical assets and liabilities in active markets;

Level 2 Observable inputs, other than quoted market prices, that are either directly or indirectly observable in the marketplace for identical or similar assets and liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets and liabilities; and

Level 3 Unobservable inputs that are supported by little or no market activity that are significant to the fair value of assets or liabilities.

The estimated fair value of certain financial instruments, including cash and cash equivalents, accounts receivable, accounts payable and accrued expenses are carried at historical cost basis, which approximates their fair values because of the short-term nature of these instruments.

Accounts Receivable and Allowance for Doubtful Accounts Receivable

All students are required to select both a primary and secondary payment option with respect to amounts due to Aspen for tuition, fees and other expenses. The monthly payment plan represents approximately 72% of the payments that are made by students, making it the most common payment type. In instances where a student selects financial aid as the primary payment option, he or she often selects personal cash as the secondary option. If a student who has selected financial aid as his or her primary payment option withdraws prior to the end of a course but after the date that Aspen's institutional refund period has expired, the student will have incurred the obligation to pay the full cost of the course. If the withdrawal occurs before the date at which the student has earned 100% of his or her financial aid, Aspen will have to return all or a portion of the Title IV funds to the DOE and the student will owe Aspen all amounts incurred that are in excess of the amount of financial aid that the student earned and that Aspen is entitled to retain. In this case, Aspen must collect the receivable using the student's second payment option.

For accounts receivable from students, Aspen records an allowance for doubtful accounts for estimated losses resulting from the inability, failure or refusal of its students to make required payments, which includes the recovery of financial aid funds advanced to a student for amounts in excess of the student's cost of tuition and related fees. Aspen determines the adequacy of its allowance for doubtful accounts using a general reserve method based on an analysis of its historical bad debt experience, current economic trends, and the aging of the accounts receivable and each student's status. Aspen estimates the amounts to increase the allowance based upon the risk presented by the age of the receivables and student status. Aspen writes off accounts receivable balances at the time the balances are deemed uncollectible. Aspen continues to reflect accounts receivable with an offsetting allowance as long as management believes there is a reasonable possibility of collection.

ASPEN GROUP, INC. AND SUBSIDIARIES

CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

OCTOBER 31, 2018

(Unaudited)

For accounts receivable from primary payors other than students, Aspen estimates its allowance for doubtful accounts by evaluating specific accounts where information indicates the customers may have an inability to meet financial obligations, such as bankruptcy proceedings and receivable amounts outstanding for an extended period beyond contractual terms. In these cases, Aspen uses assumptions and judgment, based on the best available facts and circumstances, to record a specific allowance for those customers against amounts due to reduce the receivable to the amount expected to be collected. These specific allowances are re-evaluated and adjusted as additional information is received. The amounts calculated are analyzed to determine the total amount of the allowance. Aspen may also record a general allowance as necessary.

Direct write-offs are taken in the period when Aspen has exhausted its efforts to collect overdue and unpaid receivables or otherwise evaluate other circumstances that indicate that Aspen should abandon such efforts. (See Note: 10)

When a student signs up for the monthly payment plan, there is a contractual amount that the Company can expect to earn over the life of the student's program. This contractual amount cannot be recorded as the student does have the option to stop attending. As a student takes a class, revenue is earned over the class term. Some students accelerate their program, taking two or more classes every eight week period, which increases the student's accounts receivable balance. If any portion of that balance will be paid in a period greater than 12 months, that portion is reflected as long-term accounts receivable. At October 31, 2018 and April 30, 2018, those balances are \$1,812,629 and \$1,315,050, respectively. The Company has determined that the long term accounts receivable do not constitute a significant financing component as the list price, cash selling price and promised consideration are equal. Further, the interest free financing portion of the monthly payment plans are not considered significant to the contract.

Property and Equipment

Property and equipment are recorded at cost less accumulated depreciation. Depreciation is computed using the straight-line method over the estimated useful lives of the related assets per the following table.

Category

Useful Life

Edgar Filing: ASPEN GROUP, INC. - Form 10-Q

Call center equipment	5 years
Computer and office equipment	5 years
Furniture and fixtures	7 years
Library (online)	3 years
Software	5 years

Costs incurred to develop internal-use software during the preliminary project stage are expensed as incurred. Internal-use software development costs are capitalized during the application development stage, which is after: (i) the preliminary project stage is completed; and (ii) management authorizes and commits to funding the project and it is probable the project will be completed and used to perform the function intended. Capitalization ceases at the point the software project is substantially complete and ready for its intended use, and after all substantial testing is completed. Upgrades and enhancements are capitalized if it is probable that those expenditures will result in additional functionality. Depreciation is provided for on a straight-line basis over the expected useful life of five years of the internal-use software development costs and related upgrades and enhancements. When existing software is replaced with new software, the unamortized costs of the old software are expensed when the new software is ready for its intended use.

Leasehold improvements are amortized using the straight-line method over the shorter of the lease term or the estimated useful lives of the leasehold improvements.

Upon the retirement or disposition of property and equipment, the related cost and accumulated depreciation are removed and a gain or loss is recorded in the consolidated statements of operations. Repairs and maintenance costs are expensed in the period incurred.

Courseware and Accreditation

The Company records the costs of courseware and accreditation in accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 350 Intangibles - Goodwill and Other .

Generally, costs of courseware creation and enhancement are capitalized. Accreditation renewal or extension costs related to intangible assets are capitalized as incurred. Courseware is stated at cost less accumulated amortization. Amortization is provided for on a straight-line basis over the expected useful life of five years.

ASPEN GROUP, INC. AND SUBSIDIARIES

CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

OCTOBER 31, 2018

(Unaudited)

Long-Lived Assets

The Company assesses potential impairment to its long-lived assets when there is evidence that events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Events and circumstances considered by the Company in determining whether the carrying value of identifiable intangible assets and other long-lived assets may not be recoverable include, but are not limited to: significant changes in performance relative to expected operating results, significant changes in the use of the assets, significant negative industry or economic trends, a significant decline in the Company's stock price for a sustained period of time, and changes in the Company's business strategy. An impairment loss is recorded when the carrying amount of the long-lived asset is not recoverable and exceeds its fair value. The carrying amount of a long-lived asset is not recoverable if it exceeds the sum of the undiscounted cash flows expected to result from the use and eventual disposition of the asset. Any required impairment loss is measured as the amount by which the carrying amount of a long-lived asset exceeds fair value and is recorded as a reduction in the carrying value of the related asset and an expense to operating results.

Refunds Due Students

The Company receives Title IV funds from the Department of Education to cover tuition and living expenses. After deducting tuition and fees, the Company sends checks for the remaining balances to the students.

Leases

The Company enters into various lease agreements in conducting its business. At the inception of each lease, the Company evaluates the lease agreement to determine whether the lease is an operating or capital lease. Leases may contain initial periods of free rent and/or periodic escalations. When such items are included in a lease agreement, the Company records rent expense on a straight-line basis over the initial term of a lease. The difference between the rent payment and the straight-line rent expense is recorded as a deferred rent liability. The Company expenses any additional payments under its operating leases for taxes, insurance or other operating expenses as incurred.

Treasury Stock

Purchases and sales of treasury stock are accounted for using the cost method. Under this method, shares acquired are recorded at the acquisition price directly to the treasury stock account. Upon sale, the treasury stock account is reduced by the original acquisition price of the shares and any difference is recorded in equity. This method does not allow the company to recognize a gain or loss to income from the purchase and sale of treasury stock.

Revenue Recognition and Deferred Revenue

On May 1, 2018, the company adopted Accounting Standards Codification 606 (ASC 606). ASC 606 is based on the principle that revenue is recognized to depict the transfer of goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. This ASU also requires additional disclosure about the nature, amount, timing, and uncertainty of revenue and cash flows arising from customer purchase orders, including significant judgments. Our adoption of this ASU, resulted in no change to our results of operations or our balance sheet.

Revenues consist primarily of tuition and course fees derived from courses taught by the Company online as well as from related educational resources and services that the Company provides to its students. Under topic 606, this tuition revenue is recognized pro-rata over the applicable period of instruction and are not considered separate performance obligations. Non-tuition related revenue and fees are recognized as services are provided or when the goods are received by the student. (See note 10)

The Company had revenues from students outside the United States representing 1.7% and 2.2% of the revenues for the six months ended October 31, 2018 and 2017 respectively.

Cost of Revenues

Cost of revenues consists of two categories of cost, instructional costs and services, and marketing and promotional costs.

ASPEN GROUP, INC. AND SUBSIDIARIES

CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

OCTOBER 31, 2018

(Unaudited)

Instructional Costs and Services

Instructional costs and services consist primarily of costs related to the administration and delivery of the Company's educational programs. This expense category includes compensation costs associated with online faculty, technology license costs and costs associated with other support groups that provide services directly to the students and are included in cost of revenues.

Marketing and Promotional Costs

Marketing and promotional costs include costs associated with producing marketing materials and advertising. Such costs are generally affected by the cost of advertising media, the efficiency of the Company's marketing and recruiting efforts, and expenditures on advertising initiatives for new and existing academic programs. Non-direct response advertising activities are expensed as incurred, or the first time the advertising takes place, depending on the type of advertising activity. Total marketing and promotional costs were \$4,436,067 and \$1,920,281 for the six months ended October 31, 2018 and 2017, respectively and are included in cost of revenues.

General and Administrative

General and administrative expenses include compensation of employees engaged in corporate management, finance, human resources, information technology, academic operations, compliance and other corporate functions. General and administrative expenses also include professional services fees, bad debt expense related to accounts receivable, financial aid processing costs, non-capitalizable courseware and software costs, travel and entertainment expenses and facility costs.

Legal Expenses

All legal costs for litigation are charged to expense as incurred.

Income Tax

The Company uses the asset and liability method to compute the differences between the tax basis of assets and liabilities and the related financial statement amounts. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount that more likely than not will be realized. The Company has deferred tax assets and liabilities that reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. Deferred tax assets are subject to periodic recoverability assessments. Realization of the deferred tax assets, net of deferred tax liabilities, is principally dependent upon achievement of projected future taxable income.

The Company records a liability for unrecognized tax benefits resulting from uncertain tax positions taken or expected to be taken in a tax return. The Company accounts for uncertainty in income taxes using a two-step approach for evaluating tax positions. Step one, recognition, occurs when the Company concludes that a tax position, based solely on its technical merits, is more likely than not to be sustained upon examination. Step two, measurement, is only addressed if the position is more likely than not to be sustained. Under step two, the tax benefit is measured as the largest amount of benefit, determined on a cumulative probability basis, which is more likely than not to be realized upon ultimate settlement. The Company recognizes interest and penalties, if any, related to unrecognized tax benefits in income tax expense.

ASPEN GROUP, INC. AND SUBSIDIARIES

CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

OCTOBER 31, 2018

(Unaudited)

Stock-Based Compensation

Stock-based compensation expense is measured at the grant date fair value of the award and is expensed over the requisite service period. For employee stock-based awards, the Company calculates the fair value of the award on the date of grant using the Black-Scholes option pricing model. Determining the fair value of stock-based awards at the grant date under this model requires judgment, including estimating volatility, employee stock option exercise behaviors and forfeiture rates. The assumptions used in calculating the fair value of stock-based awards represent the Company's best estimates, but these estimates involve inherent uncertainties and the application of management judgment. For non-employee stock-based awards, the Company calculates the fair value of the award on the date of grant in the same manner as employee awards, however, the awards are revalued at the end of each reporting period and the pro rata compensation expense is adjusted accordingly until such time the non-employee award is fully vested, at which time the total compensation recognized to date shall equal the fair value of the stock-based award as calculated on the measurement date, which is the date at which the award recipient's performance is complete. The estimation of stock-based awards that will ultimately vest requires judgment, and to the extent actual results or updated estimates differ from original estimates, such amounts are recorded as a cumulative adjustment in the period estimates are revised.

Business Combinations

We include the results of operations of businesses we acquire from the date of the respective acquisition. We allocate the purchase price of acquisitions to the assets acquired and liabilities assumed at fair value. The excess of the purchase price of an acquired business over the amount assigned to the assets acquired and liabilities assumed is recorded as goodwill. We expense transaction costs associated with business combinations as incurred.

Net Loss Per Share

Net loss per common share is based on the weighted average number of common shares outstanding during each period. Options to purchase 3,435,616 and 2,979,510 common shares, warrants to purchase 650,847 and 650,847 common shares, and \$50,000 and \$50,000 of convertible debt (convertible into 4,167 and 4,167 common shares) were

outstanding at October 31, 2018 and April 30, 2018, respectively, but were not included in the computation of diluted net loss per share because the effects would have been anti-dilutive. Additionally, the Company has a \$2 million dollar convertible note with \$1 million convertible on December 1, 2018 and the remaining \$1 million convertible on December 1, 2019. Had the \$2 million been convertible on October 31, 2018, based on the conversion formula applied to that date, the total shares issuable under the full \$2 million convertible note were approximately 338,000 shares of common stock but were not included in the computation of diluted net loss per share because the effects would have been anti-dilutive. The options, warrants and convertible debt are considered to be common stock equivalents and are only included in the calculation of diluted earnings per common share when their effect is dilutive.

Segment Information

The Company operates in one reportable segment as a single educational delivery operation using a core infrastructure that serves the curriculum and educational delivery needs of its online students regardless of geography. The Company's chief operating decision makers, its Chief Executive Officer and Chief Academic Officer, manage the Company's operations as a whole, and no revenue, expense or operating income information is evaluated by the chief operating decision makers on any component level.

Recent Accounting Pronouncements

Financial Accounting Standards Board, Accounting Standard Updates which are not effective until after October 31, 2018, are not expected to have a significant effect on the Company's consolidated financial position or results of operations.

ASPEN GROUP, INC. AND SUBSIDIARIES**CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****OCTOBER 31, 2018****(Unaudited)****Note 3. Property and Equipment**

As property and equipment reach the end of their useful lives, the fully expired asset is written off against the associated accumulated depreciation. There is no expense impact for such write offs. Property and equipment consisted of the following at October 31, 2018 and April 30, 2018:

	October 31, 2018	April 30, 2018
Call center hardware	\$ 166,051	\$ 140,509

The following is a schedule of estimated future amortization expense of courseware at October 31, 2018:

Year Ending April 30,		
2019	\$	36,070
2020		62,470
2021		35,505
2022		27,632
2023		22,079
Thereafter		8,896
Total	\$	192,652

Note 5. Convertible Notes

On February 29, 2012, a loan payable of \$50,000 was converted into a two-year convertible promissory note, interest of 0.19% per annum. Beginning March 31, 2012, the note was convertible into common shares of the Company at the rate of \$12.00 per share. The Company evaluated the convertible note and determined that, for the embedded conversion option, there was no beneficial conversion value to record as the conversion price is considered to be the fair market value of the common shares on the note issue date. This loan (now a convertible promissory note) was originally due in February 2014. The amount due under this note has been reserved for payment upon the note being tendered to the Company by the note holder.

On December 1, 2017, the Company completed the acquisition of USU and, as part of the consideration, a \$2.0 million convertible note (the Note) was issued, bearing 8% annual interest that matures over a two-year period after the closing. (See Note 8 and 11) At the option of the Note holder, on each of the first and second anniversaries of the closing date, \$1,000,000 of principal and accrued interest under the Note will be convertible into shares of the Company's common stock based on the volume weighted average price per share for the ten preceding trading days (subject to a floor of \$2.00 per share) or become payable in cash. There was no beneficial conversion feature on the note date and the conversion terms of the note exempt it from derivative accounting. Subsequently the note was assigned to a third party.

CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

OCTOBER 31, 2018

(Unaudited)

Note 6. Commitments and Contingencies

Operating Leases

On September 18, 2017 the Company signed a six year lease for its corporate headquarters in New York, NY. The annum amount is \$186,060, payable at a rate of \$15,505 per month and then increased to \$16,370 per month in December 2018.

In October 2018, the Company signed a 62 month lease beginning October 1, 2018 and expires on December 31, 2023 for our office located in Moncton, New Brunswick, Canada. The monthly rent is \$13,241 CAD which is approximately \$10,100 USD.

The Company leases office space for its developers in Dieppe, New Brunswick, Canada under a three year agreement commencing March 1, 2017. The monthly rent payment is \$4,367 CAD which is approximately \$3,200 USD. This lease is now terminated.

The Company leases office space for its Denver, Colorado location under a two year lease commencing January 1, 2017. The monthly rent payment is \$10,756.

On December 5, 2017 the Company signed a 92 month lease for the campus located in Phoenix, Arizona. The operating lease granted eight initial months of free rent and had a monthly rent of \$66,696 and increases after month 12. Related to this lease the Company produced a security deposit of \$519,271, which is included in other assets and security deposits on the accompanying consolidated balance sheet.

On February 1, 2016, the Company entered into a 64-month lease agreement for its call center in Phoenix, Arizona. The operating lease granted four initial months of free rent and had a base monthly rent of \$10,718 and then increases 2% per year after.

United States University's lease commenced July 1, 2016 and expires on June 30, 2022. The initial monthly base rent was \$51,270 for the first 10 months and increase each year.

Employment Agreements

From time to time, the Company enters into employment agreements with certain of its employees. These agreements typically include bonuses, some of which may or may not be performance-based in nature.

Legal Matters

From time to time, we may be involved in litigation relating to claims arising out of our operations in the normal course of business. As of October 31, 2018, except as discussed below, there were no other pending or threatened lawsuits that could reasonably be expected to have a material effect on the results of our operations and there are no proceedings in which any of our directors, officers or affiliates, or any registered or beneficial shareholder, is an adverse party or has a material interest adverse to our interest.

On February 11, 2013, Higher Education Management Group, Inc. ("HEMG") and its Chairman, Mr. Patrick Spada, sued the Company, certain senior management members and our directors in state court in New York seeking damages arising principally from (i) allegedly false and misleading statements in the filings with the Securities and Exchange Commission (the "SEC") and the United States Department of Education (the "DOE") where the Company disclosed that HEMG and Mr. Spada borrowed \$2.2 million without board authority, (ii) the alleged breach of an April 2012 agreement whereby the Company had agreed, subject to numerous conditions and time limitations, to purchase certain shares of the Company from HEMG, and (iii) alleged diminution to the value of HEMG's shares of the Company due to Mr. Spada's disagreement with certain business transactions the Company engaged in, all with Board approval.

ASPEN GROUP, INC. AND SUBSIDIARIES

CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

OCTOBER 31, 2018

(Unaudited)

On December 10, 2013, the Company filed a series of counterclaims against HEMG and Mr. Spada in the same state court of New York. By order dated August 4, 2014, the New York court denied HEMG and Spada's motion to dismiss the fraud counterclaim the Company asserted against them.

While the Company has been advised by its counsel that HEMG's and Spada's claims in the New York lawsuit is baseless, the Company cannot provide any assurance as to the ultimate outcome of the case. Defending the lawsuit maybe expensive and will require the expenditure of time which could otherwise be spent on the Company's business. While unlikely, if Mr. Spada's and HEMG's claims in the New York litigation were to be successful, the damages the Company could pay could potentially be material.

In November 2014, the Company and Aspen University sued HEMG seeking to recover sums due under two 2008 Agreements where Aspen University sold course materials to HEMG in exchange for long-term future payments. On September 29, 2015, the Company and Aspen University obtained a default judgment in the amount of \$772,793. This default judgment precipitated the bankruptcy petition discussed in the next paragraph.

On October 15, 2015, HEMG filed bankruptcy pursuant to Chapter 7. As a result, the remaining claims and Aspen's counterclaims in the New York lawsuit are currently stayed. The bankrupt estate's sole asset consists of 208,000 shares of AGI common stock, plus a claim filed by the bankruptcy trustee against Spada's brother and a third party to recover approximately 167,000 shares. The Company filed a proof of claim against the bankruptcy estate which included approximately \$670,000 on the judgment and approximately \$2.2 million from the misappropriation. The other creditor is a secured creditor which alleges it is owed the principal amount of \$1,200,000. AGI alleges that because HEMG, a Nevada corporation, had failed to pay annual fees to Nevada it lacked the legal authority to create the security interest and that AGI has priority.

Regulatory Matters

The Company's subsidiaries, Aspen University and United States University, are subject to extensive regulation by Federal and State governmental agencies and accrediting bodies. In particular, the Higher Education Act (the "HEA") and the regulations promulgated thereunder by the DOE subject the subsidiaries to significant regulatory scrutiny on

the basis of numerous standards that schools must satisfy to participate in the various types of federal student financial assistance programs authorized under Title IV of the HEA.

On August 22, 2017, the DOE informed Aspen University of its determination that the institution has qualified to participate under the HEA and the Federal student financial assistance programs (Title IV, HEA programs) and set a subsequent program participation agreement reapplication date of March 31, 2021.

USU currently has provisional certification to participate in the Title IV Programs due to its acquisition by the Company. The provisional certification allows the school to continue to receive Title IV funding as it did prior to the change of ownership.

The HEA requires accrediting agencies to review many aspects of an institution's operations in order to ensure that the education offered is of sufficiently high quality to achieve satisfactory outcomes and that the institution is complying with accrediting standards. Failure to demonstrate compliance with accrediting standards may result in the imposition of probation, the requirements to provide periodic reports, the loss of accreditation or other penalties if deficiencies are not remediated.

Because Aspen University and USU operate in a highly regulated industry, each may be subject from time to time to audits, investigations, claims of noncompliance or lawsuits by governmental agencies or third parties, which allege statutory violations, regulatory infractions or common law causes of action.

ASPEN GROUP, INC. AND SUBSIDIARIES

CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

OCTOBER 31, 2018

(Unaudited)

Return of Title IV Funds

An institution participating in Title IV Programs must correctly calculate the amount of unearned Title IV Program funds that have been disbursed to students who withdraw from their educational programs before completion and must return those unearned funds in a timely manner, no later than 45 days of the date the school determines that the student has withdrawn. Under Department regulations, failure to make timely returns of Title IV Program funds for 5% or more of students sampled on the institution's annual compliance audit in either of its two most recently completed fiscal years can result in the institution having to post a letter of credit in an amount equal to 25% of its required Title IV returns during its most recently completed fiscal year. If unearned funds are not properly calculated and returned in a timely manner, an institution is also subject to monetary liabilities or an action to impose a fine or to limit, suspend or terminate its participation in Title IV Programs.

Subsequent to a program review by the DOE during calendar year 2013, the Company recognized that it had not fully complied with all requirements for calculating and making timely returns of Title IV funds (R2T4). In November 2013, the Company returned a total of \$102,810 of Title IV funds to the DOE. In the two most recent fiscal years (2015 and 2016), Aspen's compliance audit reflected no material findings related to the 2013 program review findings.

On February 8, 2017, the DOE issued a Final Program Review Determination (FPRD) letter related to the 2013 program review. The FRPD includes a summary of the non-compliance areas and calculations of amounts due for the 126 students that they reviewed. We had 45 days to appeal the amounts calculated and while we were reviewing their calculations, we recognized that we would owe some amount in the range from \$80,000 to \$360,000. In accordance with ASC 450-20, we recorded a minimum liability of \$80,000 at January 31, 2017. Of that amount, \$55,000 was recorded against the accounts receivable reserve and \$25,000 was expensed. In late March 2017, we agreed to not contest the calculations and paid the full amount of \$378,090. As a result, we recorded an additional expense of \$298,090 in the fiscal quarter ended April 30, 2017.

Subsequent to a compliance audit, in 2015, Educacion Significativa, LLC (ESL) the predecessor to USU recognized that it had not fully complied with all requirements for calculating and making timely returns of Title IV funds (R2T4). In 2016, ESL the predecessor to USU, had a material finding related to the same issue and is required to maintain a letter of credit in the amount of \$71,634 as a result of this finding. The letter of credit has been provided to the Department of Education by AGI since it assumed this obligation in its purchase of USU.

Delaware Approval to Confer Degrees

Aspen University is a Delaware corporation. Delaware law requires an institution to obtain approval from the Delaware Department of Education (Delaware DOE) before it may incorporate with the power to confer degrees. In July 2012, Aspen received notice from the Delaware DOE that it was granted provisional approval status effective until June 30, 2015. On April 25, 2016 the Delaware DOE informed Aspen University it was granted full approval to operate with degree-granting authority in the State of Delaware until July 1, 2020. Aspen University is authorized by the Colorado Commission on Education to operate in Colorado as a degree granting institution.

USU is also a Delaware corporation and filed the required documents to obtain Delaware approval.

Note 7. Stockholders Equity

Preferred Stock

We are authorized to issue 10,000,000 shares of blank check preferred stock with designations, rights and preferences as may be determined from time to time by our Board of Directors. As of October 31, 2018 and April 30, 2018, we had no shares of preferred stock issued and outstanding.

Common Stock

During the six months ended October 31, 2018, the Company issued 30,764 shares of common stock upon the cashless exercise of stock options.

During the six months ended October 31, 2018, the Company issued 26,807 shares of common stock upon the exercise of stock options and received proceeds of \$60,102.

ASPEN GROUP, INC. AND SUBSIDIARIES

CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

OCTOBER 31, 2018

(Unaudited)

On September 6, 2018, the Board approved 25,000 shares of restricted stock to the Chief Financial Officer. The stock vests over 36 months and the stock price was \$7.17 on the date of the grant. The value of the compensation was approximately \$180,000 and will be recognized over 36 months.

Treasury Stock

On July 19, 2018, AGI in simultaneous transactions repurchased 1,000,000 shares of common stock at \$7.40 per share and re-sold the shares to a large well-known institutional money manager at \$7.40 per share. The shares were purchased by the Company from ESL pursuant to a Securities Purchase Agreement dated July 18, 2018. The Purchaser paid \$30,000 to a broker-dealer in connection with the transaction. (See Note 9)

Warrants

A summary of the Company's warrant activity during the six months ended October 31, 2018 is presented below:

	Number of Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term	Aggregate Intrinsic Value
Warrants				
Balance Outstanding, April 30, 2018	650,847	\$ 3.80	2.4	\$ 2,581,450
Granted				
Exercised				
Surrendered				
Expired				
Balance Outstanding, October 31, 2018	650,847	\$ 3.80	1.7	\$ 1,496,480
Exercisable, October 31, 2018	650,847	\$ 3.80	1.7	\$ 1,496,480

Stock Incentive Plan and Stock Option Grants to Employees and Directors

On March 13, 2012, the Company adopted the 2012 Equity Incentive Plan (the Plan) that provides for the grant of 3,500,000 shares in the form of incentive stock options, non-qualified stock options, restricted shares, stock appreciation rights and restricted stock units to employees, consultants, officers and directors. As of October 31, 2018, there were no shares remaining under the Plan for future issuance. The Company estimates the fair value of share-based compensation utilizing the Black-Scholes option pricing model, which is dependent upon several variables such as the expected option term, expected volatility of the Company's stock price over the expected term, expected risk-free interest rate over the expected option term, expected dividend yield rate over the expected option term, and an estimate of expected forfeiture rates. The Company believes this valuation methodology is appropriate for estimating the fair value of stock options granted to employees and directors which are subject to ASC Topic 718 requirements. These amounts are estimates and thus may not be reflective of actual future results, nor amounts ultimately realized by recipients of these grants. The Company recognizes compensation on a straight-line basis over the requisite service period for each award. The following table summarizes the assumptions the Company utilized to record compensation expense for stock options granted to employees during the period ended.

	October 31,	
	2018	2017
Expected life (years)	3.5	3.5
Expected volatility	46%	40% - 43%
Risk-free interest rate	0.38%	0.38%
Dividend yield	0.00%	0.00%
Expected forfeiture rate	n/a	n/a

The Company utilized the simplified method to estimate the expected life for stock options granted to employees. The simplified method was used as the Company does not have sufficient historical data regarding stock option exercises. The expected volatility is based on historical volatility. The risk-free interest rate is based on the U.S. Treasury yields with terms equivalent to the expected life of the related option at the time of the grant. Dividend yield is based on historical trends. While the Company believes these estimates are reasonable, the compensation expense recorded would increase if the expected life was increased, a higher expected volatility was used, or if the expected dividend yield increased.

CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

OCTOBER 31, 2018

(Unaudited)

A summary of the Company's stock option activity for employees and directors during the six months ended October 31, 2018, is presented below:

Options	Number of Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term	Aggregate Intrinsic Value
Balance Outstanding, April 30, 2018	2,979,510	\$ 3.62		\$ 16,558,373
Granted	560,000	7.55		
Exercised	(72,643)	2.43		
Forfeited	(31,251)			
Expired				
Balance Outstanding, October 31, 2018	3,435,616	\$ 4.25	3.06	\$ 10,765,680
Exercisable, October 31, 2018	1,752,034	\$ 2.62	2.23	\$ 8,533,721

During the six months ended October 31, 2018, the Company issued 30,764 shares of common stock upon the cashless exercise of 45,836 stock options.

During the six months ended October 31, 2018, the Company issued 26,807 shares of common stock upon the exercise of stock option and received proceeds of \$60,102.

On July 19, 2018, the Board granted 200,000 five year options to the Chief Executive Officer and 180,000 options to each of the Chief Operating Officer and Chief Academic Officer. The fair value per option was \$2.56 or \$1,433,600 for all 560,000 options granted. The exercise price is \$7.55 per share. As of September 6, 2018, the Board approved 180,000 five-year options to the Chief Financial Officer and 50,000 five-year options to the Chief Accounting Officer. As required by the rules of the Nasdaq Stock market, both option grants are subject to shareholder approval at the next annual meeting of shareholders scheduled for December 13, 2018, which will be the measurement date for recording the transaction.

The Company recorded compensation expense of \$515,291 for the six months ended October 31, 2018 in connection with employee stock options.

As of October 31, 2018, there was \$2,440,436 of unrecognized compensation costs related to non-vested share-based compensation arrangements. That cost is expected to be recognized over a weighted-average period of 3.0 years.

Note 8. Acquisition of USU

On December 1, 2017, USU acquired United States University and assumed certain liabilities from ESL. USU is a wholly owned subsidiary of AGI and was formed for the purpose of completing the asset purchase transaction. For purposes of purchase accounting, AGI is referred to as the acquirer. AGI acquired the assets and assumed certain liabilities of ESL for a purchase price of approximately \$14.8 million. The purchase consideration consisted of a cash payment of \$2,500,000 less an adjustment for working capital of approximately \$110,000 plus approximately \$200,000 of additional costs paid to/on behalf of and for the benefit of the seller, a convertible note of \$2,000,000 and 1,203,209 shares of AGI stock valued at the quoted closing price of \$8.49 per share as of November 30, 2017. The stock consideration represents \$10,215,244 of the purchase consideration.

The acquisition was accounted for by AGI in accordance with the acquisition method of accounting pursuant to ASC 805 Business Combinations and pushdown accounting was applied to record the fair value of the assets acquired and liabilities assumed on United States University, Inc. Under this method, the purchase price is allocated to the identifiable assets acquired and liabilities assumed based on their estimated fair values at the date of acquisition. The excess of the amount paid over the estimated fair values of the identifiable net assets was \$5,011,432 which has been reflected in the consolidated balance sheet as goodwill.

ASPEN GROUP, INC. AND SUBSIDIARIES**CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****OCTOBER 31, 2018****(Unaudited)**

The following is a summary of the estimated fair value of the assets acquired and liabilities assumed at the date of acquisition:

	Purchase Price Allocation	Useful Life
Cash and cash equivalents	\$	
Current assets acquired	244,465	
Other assets acquired	176,667	
Intangible assets		
Accreditation and regulatory approvals	6,200,000	
Trade name and trademarks	1,700,000	
Student relationships	2,000,000	2 years
Curriculum	200,000	1 year
Goodwill	5,011,432	
Less: Current liabilities assumed	(727,601)	
Total purchase price	\$ 14,804,963	

We determined the fair value of assets acquired and liabilities assumed based on assumptions that reasonable market participants would use while employing the concept of highest and best use of the respective items. We used the following assumptions, the majority of which include significant unobservable inputs (Level 3), and valuation methodologies to determine fair value:

Intangibles - We used the multiple period excess earnings method to value the Accreditation and regulatory approvals. The Trade name and trademarks were valued using the relief-from-royalty method, which represents the benefit of owning these intangible assets rather than paying royalties for their use. The Student relationships were valued using the excess earnings method. The curriculum was valued using the replacement cost approach.

Other assets and liabilities - The carrying value of all other assets and liabilities approximated fair value at the time of acquisition.

The goodwill resulting from the acquisition may become deductible for tax purposes in the future. The goodwill resulting from the acquisition is principally attributable to the future earnings potential associated with enrollment growth and other intangibles that do not qualify for separate recognition such as the assembled workforce.

We have selected an April 30th annual goodwill impairment test date.

We assigned an indefinite useful life to the accreditation and regulatory approvals and the trade name and trademarks as we believe they have the ability to generate cash flows indefinitely. In addition, there are no legal, regulatory, contractual, economic or other factors to limit the intangibles' useful life and we intend to renew the intangibles, as applicable, and renewal can be accomplished at little cost. We determined all other acquired intangibles are finite-lived and we are amortizing them on either a straight-line basis or using an accelerated method to reflect the pattern in which the economic benefits of the assets are expected to be consumed. Amortization expense for the six months ended October 31, 2018 was \$550,000.

Intangible assets consisted of the following at October 31, 2018 and April 30, 2018,

	October 31, 2018	April 30, 2018
Intangible assets	\$ 10,100,000	\$ 10,100,000
Accumulated amortization	(1,008,333)	(458,333)
Net intangible assets	\$ 9,091,667	\$ 9,641,667

The expected benefits from the business acquisition will allow USU to achieve its vision of making college affordable again on a much broader scale along with providing various accreditations.

(Unaudited)

Note 9. Related party

On July 19, 2018, AGI in simultaneous transactions repurchased 1,000,000 shares of common stock (the Shares) at \$7.40 per share and re-sold the Shares to a large well-known institutional money manager (the Purchaser) at \$7.40 per share. The Shares were purchased by the Company from ESL pursuant to a Securities Purchase Agreement. The Shares were sold to the Purchaser through Craig-Hallum Capital Group, LLC (Craig Hallum). Craig-Hallum acted as a dealer in this transaction and received an ordinary brokerage commission from the Purchaser.

The Purchaser initiated the transaction by contacting the Company seeking to buy a large block of common stock. The Company approached ESL which had acquired the Shares on December 1, 2017 when it sold United States University to the Company. Ms. Oksana Malysheva, the sole manager of ESL, became a director of the Company as part of the purchase of United States University and remains a director today.

Note 10. Revenue

Revenues consist primarily of tuition and fees derived from courses taught by the Company online as well as from related educational resources that the Company provides to its students, such as access to our online materials and learning management system. The Company's educational programs have starting and ending dates that differ from its fiscal quarters. Therefore, at the end of each fiscal quarter, a portion of revenue from these programs is not yet earned and is therefore deferred. The Company also charges students fees for library and technology costs, which are recognized over the related service period and are not considered separate performance obligations. Other services, books, and exam fees are recognized as services are provided or when goods are received by the student. The company's contract liabilities are reported as deferred revenue and refunds due students. Deferred revenue represents the amount of tuition, fees, and other student invoices in excess of the portion recognized as revenue and it is included in current liabilities in the accompanying consolidated balance sheets.

The following table represents our revenues disaggregated by the nature and timing of services:

	For the Three Months Ended October 31,		For the Six Months Ended October 31,	
	2018	2017	2018	2017
Tuition - <i>recognized over period of instruction</i>	\$ 7,442,392	\$ 4,628,065	\$ 14,076,232	\$ 8,713,858
Course fees - <i>recognized over period of instruction</i>	539,665	147,386	1,000,876	226,268
Book fees - <i>recognized at a point in time</i>	26,251	24,460	50,465	38,413
Exam fee - <i>recognized at a point in time</i>	43,600	30,900	95,840	61,000
Service fees - <i>recognized at a point in time</i>	43,436	20,828	93,236	54,986
	\$ 8,095,344	\$ 4,851,639	\$ 15,316,649	\$ 9,094,525

Contract Balances and Performance Obligations

The Company recognizes deferred revenue as a student participates in a course which continues past the balance sheet date. Deferred revenue at October 31, 2018, was \$3,445,306 which is future revenue that has not yet been earned for courses in progress. The Company has \$1,181,939 of refunds due students, which mainly represents Title IV funds due to students after deducting their tuition payments.

Of the total revenue earned during the six months ended October 31, 2018, approximately \$1.8 million came from revenues which were deferred at April 30, 2018.

The Company begins providing the performance obligation by beginning instruction in a course, a contract receivable is created, resulting in accounts receivable. The Company accounts for receivables in accordance with ASC 310, Receivables. The Company uses the portfolio approach, as discussed below.

ASPEN GROUP, INC. AND SUBSIDIARIES

CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

OCTOBER 31, 2018

(Unaudited)

Aspen records an allowance for doubtful accounts for estimated losses resulting from the inability, failure or refusal of its students to make required payments, which includes the recovery of financial aid funds advanced to a student for amounts in excess of the student's cost of tuition and related fees. Aspen determines the adequacy of its allowance for doubtful accounts using a general reserve method based on an analysis of its historical bad debt experience, current economic trends, and the aging of the accounts receivable and student status. Aspen applies reserves to its receivables based upon an estimate of the risk presented by the age of the receivables and student status. Aspen writes off accounts receivable balances at the time the balances are deemed uncollectible. Aspen continues to reflect accounts receivable with an offsetting allowance as long as management believes there is a reasonable possibility of collection.

Cash Receipts

Our students finance costs through a variety of funding sources, including, among others, monthly payment plans, installment plans, federal loan and grant programs (Title IV), employer reimbursement, and various veterans and military funding and grants, and cash payments. Most students elect to use our monthly payment plan. This plan allows them to make continuous monthly payments during the length of their program and through the length of their payment plan. Title IV and military funding typically arrives during the period of instruction. Students who receive reimbursement from employers typically do so after completion of a course. Students who choose to pay cash for a class typically do so before beginning the class.

Significant Judgments

We analyze revenue recognition on a portfolio approach under ASC 606-10-10-4. Significant judgment is utilized in determining the appropriate portfolios to assess for meeting the criteria to recognize revenue under ASC Topic 606. We have determined that all of our students can be grouped into one portfolio. Students behave similarly, regardless of their payment method or academic program. Enrollment agreements and refund policies are similar for all of our students. We do not expect that revenue earned for the portfolio is significantly different as compared to revenue that would be earned if we were to assess each student contract separately.

The Company maintains institutional tuition refund policies, which provides for all or a portion of tuition to be refunded if a student withdraws during stated refund periods. Certain states in which students reside impose separate, mandatory refund policies, which override the Company's policy to the extent in conflict. If a student withdraws at a time when a portion or none of the tuition is refundable, then in accordance with its revenue recognition policy, the Company recognizes as revenue the tuition that was not refunded. Since the Company recognizes revenue pro-rata over the term of the course and because, under its institutional refund policy, the amount subject to refund is never greater than the amount of the revenue that has been deferred, under the Company's accounting policies revenue is not recognized with respect to amounts that could potentially be refunded.

The Company had revenues from students outside the United States representing 1.7% and 2.2% of the revenues for the six months ended October 31, 2018 and 2017 respectively.

Note 11. Subsequent Events

Loan Agreement

On November 5, 2018, the Company entered into a loan agreement (the "Loan Agreement") with the Leon and Toby Cooperman Family Foundation (the "Lender"). The Loan Agreement provides for a \$5 million revolving credit facility (the "Facility") evidenced by a revolving promissory note (the "Note"). Borrowings under the Loan Agreement will bear interest at 12% per annum. The Facility matures on November 4, 2021.

Pursuant to the terms of the Loan Agreement, the Company agreed to pay to the Lender a \$100,000 one-time upfront facility fee. The Company also agreed to pay to the Lender a commitment fee, payable quarterly at the rate of 2% per annum on the undrawn portion of the Facility. The Company has not borrowed any sum under the Facility.

ASPEN GROUP, INC. AND SUBSIDIARIES

CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

OCTOBER 31, 2018

(Unaudited)

The Loan Agreement contains customary representations and warranties, events of default and covenants. Pursuant to the Loan Agreement and the Note, all future or contemporaneous indebtedness incurred by the Company, other than indebtedness expressly permitted by the Loan Agreement and the Note, will be subordinated to the Facility.

Pursuant to the Loan Agreement, on November 5, 2018 the Company issued to the Lender warrants to purchase 92,049 shares of the Company's common stock exercisable for five years from the date of issuance at the exercise price of \$5.85 per share.

Payment of Convertible Note

On December 3, 2018, the Company made a scheduled payment of \$1,000,000 of principal and \$160,000 of accrued interest under the convertible note in the initial principal amount of \$2,000,000 issued on December 1, 2017 (See Notes 5 and 8). The remaining \$1,000,000 of principal amount outstanding under the Note will mature on December 1, 2019.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

You should read the following discussion in conjunction with our unaudited consolidated financial statements, which are included elsewhere in this Form 10-Q. Management's Discussion and Analysis of Financial Condition and Results of Operations contain forward-looking statements that reflect our plans, estimates, and beliefs. Our actual results could differ materially from those discussed in the forward-looking statements. Factors that could cause or contribute to these differences include those discussed in the Risk Factors contained in the Annual Report on Form 10-K filed on July 13, 2018 with the Securities and Exchange Commission (the "SEC").

All references to we, our, us, the Company, AGI, and Aspen refer to Aspen Group, Inc. and its subsidiaries, Aspen University Inc. ("Aspen University"), Aspen Nursing, Inc. (a subsidiary of Aspen University) and United States University Inc. ("USU"), unless the context otherwise indicates.

Company Overview

AGI is an education technology holding company. AGI has three subsidiaries, Aspen University, Aspen Nursing, Inc. and USU. On March 13, 2012, the Company acquired Aspen University. On December 1, 2017, the Company acquired USU.

AGI leverages its education technology infrastructure and expertise to allow its two universities, Aspen University and United States University, to deliver on the vision of making college affordable again. Because we believe higher education should be a catalyst to our students' long-term economic success, we exert financial prudence by offering affordable tuition that is one of the greatest values in higher education.

In March 2014, Aspen University unveiled a monthly payment plan available to all students across every online degree program offered by the university. The monthly payment plan is designed so that students will make one payment per month, and that monthly payment is applied towards the total cost of attendance (tuition and fees, excluding textbooks). The monthly payment plan offers online associate and bachelor students the opportunity to pay their tuition and fees at \$250/month, online master students \$325/month, and online doctoral students \$375/month, interest free, thereby giving students a monthly payment option versus taking out a federal financial aid loan.

USU began offering monthly payment plans in the summer of 2017. Today, monthly payment plans are available for the online RN to BSN program (\$250/month), online MBA/M.A.Ed/MSN programs (\$325/month), and the online hybrid Masters of Nursing-Family Nurse Practitioner (FNP)program (\$375/month).

Additionally, Aspen University began its first semester in July 2018 for its previously announced pre-licensure Bachelor of Science in Nursing (BSN) degree program at its initial campus in Phoenix, Arizona. As a result of overwhelming demand in the Phoenix metro area, Aspen recently announced it will offer both day (July, November, March semesters) and evening/weekend (January, May, September semesters) programs, equaling six semester starts per year. In September 2018, Aspen announced the signing of a memorandum of understanding to open a second campus in the Phoenix metro in partnership with Honor Health, currently projected to launch in mid-2019.

Aspen's innovative hybrid (online/on-campus) pre-licensure BSN program allows most of the credits to be completed online (83 of 120 credits or 69%), with pricing offered at Aspen's current low tuition rates of \$150/credit hour for online general education courses and \$325/credit hour for online core nursing courses. For high school students with no prior college credits, the total cost of attendance is less than \$50,000.

Since 1993, Aspen University has been nationally accredited by the DEAC, a national accrediting agency recognized by the DOE. On February 25, 2015, the DEAC informed Aspen University that it had renewed its accreditation for five years to January, 2019.

Since 2009, USU has been regionally accredited by WSCUC.

Both universities are qualified to participate under the Higher Education Act and the Federal student financial assistance programs (Title IV, HEA programs).

AGI Student Population Overview

Aspen University's total active degree-seeking student body* grew 26% year-over-year from 5,641 to 7,107 as of October 31, 2018. Aspen's School of Nursing grew 34% year-over-year, from 4,068 to 5,466 active students, which includes 157 students in the BSN Pre-Licensure program in Phoenix, AZ.

USU's total active degree-seeking student body grew sequentially from 684 to 843 students or a sequential increase of 23%.

*** Note: Active Degree-Seeking Students** are defined as degree-seeking students who were enrolled in a course during the quarter reported, or are registered for an upcoming course.

AGI New Student Enrollments

AGI delivered a company record of 1,565 new student enrollments for the fiscal 2019 second quarter, a 19% increase sequentially and a 50% increase year-over-year.

Aspen University accounted for 1,294 new student enrollments (includes 133 Doctoral enrollments and 57 Pre-licensure BSN AZ campus enrollments), while United States University (USU) accounted for 271 new student enrollments (primarily FNP enrollments).

Below is a table reflecting unconditional acceptance new student enrollments for the past five quarters:

New Student Enrollments

EAs

	Q2 18	Q3 18	Q4 18	Q1 19	Q2 19	Enrolls/ Month/EA	
Aspen (Nursing + Other)	1,044 ¹	972 ¹	980	882	1,104	50	7.4
Aspen (Doctoral)			116	118	133	6	7.4
Aspen (Pre-Licensure BSN, AZ Campus)				93	57 ²	3	6.3
USU (FNP + Other)			177	221	271	13	6.9
Total	1,044	972	1,273	1,314	1,565	72	

¹Included doctoral enrollments

²New enrollments in this program were intentionally limited due to the current wait list

Aspen University's traditional fully-online degree programs (not including campus) delivered 1,237 enrollments (Nursing + Other and Doctoral) in the quarter compared to 1,044 (Nursing + Other and Doctoral) in the prior year period, a 18% increase year-over-year. Aspen University's traditional fully-online enrollment center ended the quarter with 56 Enrollment Advisors (EAs) (50 Nursing + Other, 6 Doctoral) as compared to 49 EAs in the prior year period, representing growth of 14%. Overall, AGI grew its enrollment center from 49 to 72 EAs year-over-year, representing growth of 47%.

The average enrollments per month, per EA, by degree unit in the quarter were as follows; 1) Aspen Nursing + Other: 7.4/month/EA, 2) Aspen Doctoral: 7.4/month/EA, 3) Aspen Pre-Licensure BSN AZ Campus: 6.3/month/EA, and 4) USU FNP + Other: 6.9/month/EA.

Monthly Payment Programs Overview

Aspen offers two monthly payment programs, a monthly payment plan in which students make payments every month over a fixed period depending on the degree program, and a monthly installment plan in which students pay three monthly installments (day 1, day 31 and day 61 after the start of each course).

Aspen University students paying tuition and fees through a monthly payment method grew by 35% year-over-year, from 3,752 to 5,074. Those 5,074 students paying through a monthly payment method represent 71% of Aspen University's total active student body.

USU students paying tuition and fees through a monthly payment method grew from 399 to 514 students sequentially. Those 514 students paying through a monthly payment method represent 61% of USU's total active student body.

In total, 5,588 active students or 70% of AGI's total active student body of 7,950 are paying through a monthly payment method.

The total contractual value of AGI's monthly payment plan students, assuming each student completes the degree program in which he or she has enrolled, now exceeds \$45 million which currently delivers monthly recurring tuition cash payments consistently exceeding \$1,300,000.

Marketing Efficiency Ratio (MER) Analysis

AGI has developed a marketing efficiency ratio to continually monitor the performance of its business model.

Revenue per Enrollment (RPE)

Marketing Efficiency Ratio (MER) =

Cost per Enrollment (CPE)

Cost per Enrollment (CPE)

The Cost per Enrollment measures the advertising investment spent in a given six month period, divided by the number of new student enrollments achieved in that given six month period, in order to obtain an average CPE for the period measured.

Revenue per Enrollment (RPE)

The Revenue per Enrollment takes each quarterly cohort of new degree-seeking student enrollments, and measures the amount of earned revenue including tuition and fees to determine the average RPE for the cohort measured. For the later periods of a cohort, we have used reasonable projections based off of historical results to determine the amount of revenue we will earn in later periods of the cohort.

The current Marketing Efficiency Ratio (cost-per-enrollment/revenue-per-enrollment) for our three degree units*** is reflected in the below table:

	Enrollments	Cost-of Enrollment*	LTV	MER
Aspen (Nursing + Other)	1,104	\$ 1,317	\$ 7,350	5.6X
Aspen (Doctoral)	133	\$ 2,143	\$ 12,600	5.9X
USU (FNP + Other)	271	\$ 1,517	\$ 17,820**	11.7X

*Based on 6-month rolling average

**LTV for USU's MSN-FNP Program

***LTV projections are not yet available for the new BSN pre-licensure campus unit

Please be advised that the two new reporting programs, Aspen University (Doctoral) and USU (FNP), began marketing on the Internet in recent months, consequently the new reporting programs will have received an immaterial amount of organic/referral enrollments, so the cost-of-enrollment today is essentially a reflection of the average cost of delivering a paid enrollment. Aspen University's traditional business today delivers over 20% of its enrollments from organic/referral sources, which is what drives down the average cost-of-enrollment in this traditional business. Organic/referral enrollments are expected to increase over time in these two new programs.

ASPEN UNIVERSITY'S PRE-LICENSURE BSN HYBRID (ONLINE/ON-CAMPUS) DEGREE PROGRAM

Aspen University began its first semester in July 2018 for its previously announced pre-licensure Bachelor of Science in Nursing (BSN) degree program at its initial campus in Phoenix, Arizona. As a result of overwhelming demand in the Phoenix metro, Aspen recently announced it will offer both day (July, November, March semesters) and evening/weekend (January, May, September semesters) programs, equaling six semester starts per year. Moreover, in September 2018, Aspen announced the signing of a memorandum of understanding to open a second campus in the Phoenix metro area in partnership with Honor Health, currently projected to launch in mid-2019.

Aspen's innovative hybrid (online/on-campus) program allows most of the credits to be completed online (83 of 120 credits or 69%), with pricing offered at Aspen's current low tuition rates of \$150/credit hour for online general education courses and \$325/credit hour for online core nursing courses. For high school students with no prior college credits, the total cost of attendance is less than \$50,000.

Aspen's pre-licensure BSN program is offered as a full-time, three-year (nine semester) program that is specifically designed for students who do not currently hold a state nursing license and have no prior nursing experience. Aspen is admitting students into three tracks: (1) high school graduates with no prior college credits, (2) students that have less than 48 general education prerequisites completed, and (3) students that have completed all 48 general education prerequisite credits and are ready to enter the core nursing courses and clinical experiences.

Following the start of Aspen's second semester (November 2018) for the day program, there are now 138 total active students in the day program. Aspen anticipates approximately 85 new students will enroll in the inaugural January semester for the evening/weekend program. Consequently Aspen is projecting to end the fiscal third quarter (ending January 31, 2019) with approximately 223 students in the pre-licensure BSN program, including both the day and evening/weekend programs.

ACCOUNTS RECEIVABLE AND MONTHLY PAYMENT PLAN

Since the inception of the monthly payment plan in the spring of 2014, the accounts receivable balance, both short-term and long-term, has grown from a net number of \$649,890 at April 30, 2014 for Aspen University to a net number of \$11,853,027 at October 31, 2018 for both universities. This growth could be portrayed as the engine of the monthly payment plan. The attractive aspect of being able to pay for a degree over a fixed period of time has fueled the growth of this plan and, as a result, the increase of the accounts receivable balance.

Each student's receivable account is different depending on how many classes a student takes each period. If a student takes two classes each eight week period while paying \$250, \$325 or \$375 a month, that student's account receivable balance will rise accordingly. The converse is true also. A student who takes courses at a slower pace, even taking time off between eight-week terms, could have a balance due to them. It is much more likely however that a student participating in the monthly payment plan will have an accounts receivable balance, as the majority of students complete their degree program of study prior to the completion of the fixed monthly payment plan.

The common thread is the actual monthly payment, which functions as a retail installment contract with no interest that each student commits to pay over a fixed number of months. If a student stops paying, that person can no longer register for a class. If a student decides to withdraw from the university, his or her account will be settled, either through attempts to collect the balance or disbursement of the amount owed by the student.

Aspen University students paying tuition and fees through a monthly payment method grew by 35% year-over-year, from 3,752 to 5,074. Those 5,074 students paying through a monthly payment method represent 71% of Aspen University's total active student body.

USU students paying tuition and fees through a monthly payment method grew from 399 to 514 students sequentially. Those 514 students paying through a monthly payment method represent 61% of USU's total active student body.

In total, 5,588 active students or 70% of AGI's total active student body of 7,950 are paying through a monthly payment method.

Relationship Between Accounts Receivable and Revenue

The gross accounts receivable balance for any period is the net effect of the following three factors:

1. Revenue;
2. Cash receipts, and;
3. The net change in deferred revenue.

All three factors equally determine the gross accounts receivable. If one quarter experiences particularly high cash receipts, the gross accounts receivable will go down. The same effect if cash receipts are lower or if there are significant changes in either of the other factors.

Simply looking at the change in revenue does not translate into an equally similar change in gross accounts receivable. The relative change in cash and the deferral must also be considered. For net accounts receivable, the changes in the

reserve must also be considered. Any additional reserve or write-offs will influence the balance.

As it is a straight mathematical formula for both gross accounts receivable and net accounts receivable, and most of the information is public, one can reasonably calculate the two non-public pieces of information, namely the cash receipts in gross accounts receivable and the write-offs in net accounts receivable.

For revenue, the quarterly change is primarily billings and the net impact of deferred revenue. The deferral from the prior quarter or year is added to the billings and the deferral at the end of the period is subtracted from the amount billed. The total deferred revenue at the end of every period is reflected in the liability section of the balance sheet. Deferred revenue can vary for many reasons, but seasonality and the timing of the class starts in relation to the end of the quarter will cause changes in the balance.

As mentioned in the accounts receivable section, the change in revenue cannot be compared to the change in accounts receivable. Revenue does not have the impact of cash received whereas accounts receivable does. Depending on the month and the amount of cash received, it is likely that revenue or accounts receivable will increase at a rate different from the other. The impact of cash is easy to substantiate as it agrees to deposits in our bank accounts.

Gross accounts receivable (before allowance for doubtful accounts) were \$12,589,130 at October 31, 2018, an increase of \$2,428,744 from July 31, 2018. The amount of the increase was affected, in part because new courses started on October 30, 2018. The charges for those courses were invoiced and included in accounts receivable but there was only two days before the end of the reporting quarter so there were minimal collections. At October 31, 2018, the allowance for doubtful accounts was \$736,103 which represents 5.9% of the gross accounts receivable balance of \$12,589,130, the sum of both short-term and long-term receivables. Many aged students' accounts were written off against the allowance in the year ended April 30, 2018, after which management then increased the allowance for both Aspen University and USU to its current level at October 31, 2018.

The Introduction of Long-Term Accounts Receivable

When a student signs up for the monthly payment plan, there is a contractual amount that the Company can expect to earn over the life of the student's program. This contractual amount cannot be recorded as an account receivable as the student does have the option to stop attending. As a student takes a class, revenue is earned over that eight week class. Some students accelerate their program, taking two classes every eight week period, and as we discussed, that increases the student's accounts receivable balance. If any portion of that balance will be paid in a period greater than 12 months, that portion is reflected as long-term accounts receivable. At October 31, 2018 and April 30, 2018, those balances were \$1,812,629 and \$1,315,050, respectively.

The primary component of accounts receivable consists of students who make monthly payments over 36 and 39 months. The average student completes their academic program in 24 months, therefore most of the Company's accounts receivable are short-term.

Here is a graphic of both short-term and long-term receivables, as well as contractual value:

A	B	C
Classes Taken less monthly payments received	Payments for classes taken that are greater than 12 months	Expected classes to be taken over balance of program.
Short-Term Accounts Receivable	Long-term Accounts Receivable	Not recorded in financial statements

The Sum of A, B and C will equal the total student cost of the program.

Results of Operations

For the Quarter Ended October 31, 2018 Compared with the Quarter Ended October 31, 2017

Revenue

Revenue from operations for the three months ended October 31, 2018 (2018 Quarter) increased to \$8,095,344 from \$4,851,639 for the three months ended October 31, 2017 (2017 Quarter), an increase of \$3,243,705 or 67%. USU revenues contributed nearly 19% of the quarterly revenues for the Company, while Aspen's new BSN pre-licensure program contributed a small but rapidly growing amount of revenues in the quarter given the first semester began on July 10, 2018. The Company expects USU and Aspen University's BSN pre-licensure units to account for more than a quarter of revenue by the end of the fiscal year.

Cost of Revenues (exclusive of amortization)

The Company's cost of revenues consists of instructional costs and services and sales and marketing costs.

Instructional Costs and Services

Instructional costs and services for the 2018 Quarter rose to \$1,586,904 from \$843,811 for the 2017 Quarter, an increase of \$743,093 or 88%. Instructional costs and services represented 20% of revenue in the 2018 Quarter as compared to 17% in the 2017 Quarter. Instructional costs and services grew from a combination of increased enrollments at Aspen University as well as the inclusion of USU.

Aspen University instructional costs and services represented 17% of Aspen University revenues for the 2018 quarter, while USU instructional costs and services equaled 29% of USU revenues during the 2018 quarter. USU's instructional costs and services as a percentage of revenue have declined over time, for example, from 33% in the quarter ended July 31, 2018.

Marketing and Promotional

Marketing and promotional costs for the 2018 Quarter were \$2,248,611 compared to \$1,020,848 for the 2017 Quarter, an increase of \$1,227,763 or 120%. Aspen University marketing and promotional costs represented 25% of Aspen University revenues for the 2018 quarter, while USU marketing and promotional costs equaled 27% of USU revenues during the 2018 quarter. Aspen University's increase in marketing and promotional costs as a percentage of revenue was primarily a result of increasing internet advertising from about \$325,000 a month in the 2017 Quarter to \$530,000 a month in the 2018 Quarter. AGI contributed \$205,969 of marketing and promotional costs, primarily related to the outside sales force that supports both universities. There is no comparable expense for this sales force for the 2017 Quarter, as it was launched in the quarter ended January 31, 2018.

Gross profit fell to 50% of revenues or \$4,083,951 for the 2018 Quarter from 59% of revenues or \$2,860,772 for the 2017 Quarter. Aspen University gross profit represented 58% of Aspen University revenues for the 2018 quarter, while USU gross profit equaled 44% of USU revenues during the 2018 quarter.

Costs and Expenses

General and Administrative

General and administrative costs for the 2018 Quarter were \$6,210,411 compared to \$3,166,391 during the 2017 Quarter, an increase of \$3,044,020 or 96%. Aspen University general and administrative costs which are included in the above amount represented 48% of Aspen University revenues for the 2018 Quarter. Aspen University's increase in general and administrative costs was primarily a result of increasing the enrollment center and academic operations personnel to support increased enrollment. USU general and administrative costs equaled 101% of USU revenues during the 2018 Quarter. There were no USU costs in the 2017 Quarter since we acquired it on December 1, 2017.

AGI general and administrative costs for the 2018 Quarter which are included in the above amount equaled approximately \$1.54 million, including corporate employees in the NY corporate office, IT, rent, non-cash AGI stock based compensation, and professional fees (legal, accounting, and IR).

Depreciation and Amortization

Depreciation and amortization costs for the 2018 Quarter increased to \$524,067 from \$145,355 for the 2017 Quarter, an increase of \$378,712 or 261%. The increase in depreciation expense is mainly due to the depreciation of intangible assets acquired in the USU acquisition. AGI is making capital investments in the Phoenix campus and those investments will continue to become a bigger percentage of the overall depreciation expense. Similarly, AGI continues to invest in proprietary software for both universities which will contribute to future depreciation costs.

Other Income, net

Other income, net for the 2018 Quarter decreased to (\$430) from (\$156,785) in the 2017 Quarter, a decrease of \$156,355 or 100%.

Income Taxes

Income taxes expense (benefit) for the comparable years was \$0 as Aspen Group experienced operating losses in both periods. As management made a full valuation allowance against the deferred tax assets stemming from these losses, there was no tax benefit recorded in the statement of operations in both periods.

Net Income (Loss)

Net loss for the 2018 Quarter was (\$2,475,079) as compared to a net loss of (\$481,551) for the 2017 Quarter, an increase in the loss of \$1,993,528 or 414%. Net loss per share was (\$0.13) as compared to a (\$0.04) loss in the comparable prior year period. Aspen University generated \$0.4 million of net income for the 2018 Quarter, USU experienced a net loss of \$1.1 million during the 2018 Quarter, while AGI corporate contributed \$1.8 million of expenses for the 2018 Quarter

For the Six Months Ended October 31, 2018 Compared with the Six Months Ended October 31, 2017

Revenue

Revenue from operations for the six months ended October 31, 2018 (2018 Period) increased to \$15,316,649 from \$9,094,525 for the six months ended October 31, 2017 (2017 Period), an increase of \$6,222,124 or 68%.

USU revenues contributed nearly 18% of revenues for the Company for the 2018 Period, while Aspen's new BSN pre-licensure program contributed an immaterial amount of revenues in the 2018 Period given the first semester began on July 10, 2018. The Company expects USU and Aspen University's BSN pre-licensure units to account for more than a quarter of revenue by the end of the fiscal year.

Cost of Revenues (exclusive of amortization)

The Company's cost of revenues consists of instructional costs and services and sales and marketing costs.

Instructional Costs and Services

Instructional costs and services for the 2018 Period rose to \$3,151,840 from \$1,696,869 for the 2017 Period, an increase of \$1,454,971 or 86%. Instructional costs and services represented 21% of revenue in the 2018 Period as compared to 19% in the 2017 Period. Instructional costs and services grew from a combination of increased enrollments at Aspen University as well as the inclusion of USU.

Aspen University instructional costs and services represented 18% of Aspen University revenues for the 2018 Period, while USU instructional costs and services equaled 31% of USU revenues during the 2018 Period.

Marketing and Promotional

Marketing and promotional costs for the 2018 Period were \$4,436,067 compared to \$1,920,281 for the 2017 Period, an increase of \$2,515,786 or 131%. Aspen University marketing and promotional costs represented 26% of Aspen University revenues for the 2018 Period, while USU marketing and promotional costs equaled 27% of USU revenues during the 2018 Period. Aspen University's increase in marketing and promotional costs as a percentage of revenue was primarily a result of increasing monthly internet advertising spend from approximately \$325,000 in the 2017 Period to \$530,000 in the 2018 Period. AGI contributed \$432,054 of marketing and promotional costs, primarily related to the outside sales force that supports both universities. There is no comparable expense for this sales force in the 2017 Period, as it was launched in the quarter ended January 31, 2018.

Gross profit fell to 48% of revenues or \$7,393,719 for the 2018 Period from 58% of revenues or \$5,229,922 for the 2017 Period. Aspen University gross profit represented 56% of Aspen University revenues for the 2018 Period, while USU gross profit equaled 42% of USU revenues during the 2018 Period.

Costs and Expenses

General and Administrative

General and administrative costs for the 2018 Period were \$12,034,543 compared to \$6,297,725 during the 2017 Period, an increase of \$5,736,818 or 91%. Aspen University general and administrative costs which are included in the above amount represented 49% of Aspen University revenues for the 2018 Period. Aspen University's increase in general and administrative costs was primarily a result of increasing the enrollment and academic operations personnel to accommodate increased enrollment. USU general and administrative costs equaled 108% of USU revenues during the 2018 Period. There were no USU costs during the 2018 period.

AGI general and administrative costs for the 2018 Period which is included in the above amount equaled approximately \$2.86 million, including corporate employees in the NY corporate office, IT, rent, non-cash AGI stock based compensation, and professional fees (legal, accounting, and IR).

Depreciation and Amortization

Depreciation and amortization costs for the 2018 Period increased to \$1,022,172 from \$284,074 for the 2017 Period, an increase of \$738,098 or 260%. The increase in depreciation expense is mainly due to the depreciation of intangible assets acquired with USU. AGI is making capital investments in the Phoenix campus and those investments will continue to become a bigger percentage of the overall depreciation expense. Similarly, AGI continues to invest in proprietary software for both universities which will contribute to future depreciation costs.

Other Income, net

Other income, net for the 2018 Period increased to \$15,619 from (\$144,205) in the 2017 Period, an increase of \$159,824 or 111%.

Income Taxes

Income taxes expense (benefit) for the comparable years was \$0 as Aspen Group experienced operating losses in both periods. As management made a full valuation allowance against the deferred tax assets stemming from these losses, there was no tax benefit recorded in the statement of operations in both periods.

Net Income (Loss)

Net loss for 2018 Period was (\$5,312,354) as compared to a net loss of (\$1,248,629) for the 2017 Period, an increase of \$4,063,725 or 325%. Net loss per share was (\$0.29) as compared to a (\$0.09) loss in the comparable prior year period. Aspen University generated \$0.4 million of operating income for the 2018 Period, USU experienced an operating loss of \$2.3 million during the 2018 Period, while AGI corporate contributed \$3.4 million of operating expenses for the 2018 Period.

Non-GAAP Financial Measures

The following discussion and analysis include both financial measures in accordance with Generally Accepted Accounting Principles, or GAAP, as well as non-GAAP financial measures. Generally, a non-GAAP financial measure is a numerical measure of a company's performance, financial position or cash flows that either excludes or includes amounts that are not normally included or excluded in the most directly comparable measure calculated and presented in accordance with GAAP. Non-GAAP financial measures should be viewed as supplemental to, and should not be considered as alternatives to net income, operating income, and cash flow from operating activities, liquidity or any other financial measures. They may not be indicative of the historical operating results of AGI nor are they intended to be predictive of potential future results. Investors should not consider non-GAAP financial measures in isolation or as substitutes for performance measures calculated in accordance with GAAP.

Our management uses and relies on EBITDA and Adjusted EBITDA, which are non-GAAP financial measures. We believe that both management and shareholders benefit from referring to the following non-GAAP financial measures in planning, forecasting and analyzing future periods. Our management uses these non-GAAP financial measures in evaluating its financial and operational decision making and as a means to evaluate period-to-period comparison. Our management recognizes that the non-GAAP financial measures have inherent limitations because of the described excluded items.

AGI defines Adjusted EBITDA as earnings (or loss) from operations before the items in the table below including non-recurring charges of \$118,872. Adjusted EBITDA is an important measure of our operating performance because it allows management, investors and analysts to evaluate and assess our core operating results from period-to-period after removing the impact of items of a non-operational nature or non recurring costs that affect comparability.

We have included a reconciliation of our non-GAAP financial measures to the most comparable financial measure calculated in accordance with GAAP. We believe that providing the non-GAAP financial measures, together with the reconciliation to GAAP, helps investors make comparisons between Aspen Group and other companies. In making any comparisons to other companies, investors need to be aware that companies use different non-GAAP measures to evaluate their financial performance. Investors should pay close attention to the specific definition being used and to the reconciliation between such measure and the corresponding GAAP measure provided by each company under applicable SEC rules.

The following table presents a reconciliation of EBITDA and Adjusted EBITDA to net income (loss) allocable to common shareholders, a GAAP financial measure:

	For the Three Months Ended October 31,	
	2018	2017
Net loss	\$ (2,475,079)	\$ (481,551)
Interest expense	41,922	156,785
Taxes	9,276	
Depreciation & amortization	524,067	145,355
EBITDA (loss)	(1,899,814)	(179,411)
Bad debt expense	171,084	22,500
Acquisition expense		99,065
Non-recurring charges	118,872	137,717
Stock-based compensation	305,315	144,624
Adjusted EBITDA (Loss)	\$ (1,304,543)	\$ 224,495

EBITDA and Adjusted EBITDA as a percentage of revenue declined over the past two quarters, primarily as a result of increased spending on marketing and general and administrative expenses. These expenses were incurred to stimulate and support increased enrollment at both universities, and to launch the Aspen University campus in Phoenix. Adjusted EBITDA improved to a loss in the second quarter of \$1,304, 543 from a loss of \$1,778,372 in the first quarter. The Company expects continued improvement in Adjusted EBITDA for the remainder of this fiscal year.

Liquidity and Capital Resources

A summary of our cash flows is as follows:

	For the Six Months Ended October 31,	
	2018	2017
Net cash used in operating activities	\$ (5,487,423)	\$ (1,673,058)
Net cash used in investing activities	(1,431,598)	(565,973)
Net cash (used in) provided by financing activities	30,270	4,862,508
Net (decrease) increase in cash	\$ (6,888,751)	\$ 2,623,477

Net Cash (Used in) Operating Activities

Net cash used in operating activities during the 2018 Period totaled (\$5,487,423) and resulted primarily by the net loss from (\$5,312,354), offset by approximately \$1,838,637 in non-cash items and approximately \$2,013,707 decrease in operating assets and liabilities. The most significant item change in operating assets and liabilities was an increase in accounts receivable of \$4,028,143 which is primarily attributed to the growth in revenues from students paying through the monthly payment plan. The most significant non-cash items were depreciation and amortization expense of \$1,022,172 and stock-based compensation expense of \$515,291.

Net cash used in operating activities during the 2017 Period totaled (\$1,673,058) and resulted primarily from a net loss of operations of (\$1,248,629) and a net change in operating assets and liabilities of (\$1,097,927), both offset by non-cash items of \$673,498. The most significant change in operating assets and liabilities was an increase of \$2,137,055 in accounts receivable, reflecting the expansion of the monthly payment plan. The most significant non-cash item was \$303,924 for stock compensation expense.

Net Cash (Used in) Investing Activities

Net cash used in investing activities during the 2018 Period totaled (\$1,431,598) mostly attributed to investments in courseware and the purchase of property and equipment as we build up our campus.

Net cash used in investing activities during the 2017 Period totaled (\$565,973), reflecting primarily fixed asset and courseware purchases.

Net Cash Provided By Financing Activities

Net cash provided by financing activities during the 2018 Period totaled \$30,270 which reflects stock option exercise proceeds net of payment of offering costs.

Net cash provided by financing activities during the 2017 Period totaled \$4,862,508 reflecting the net proceeds of \$4,780,572 from the senior secured term loan.

Liquidity and Capital Resource Considerations

Historically, our primary source of liquidity is cash receipts from tuition and the sale securities. The primary uses of cash are payroll related expenses, professional expenses, and instructional and marketing expenses.

As of December 10, 2018, the Company had bank balances of approximately \$6.2 million. This amount does not reflect the reduction for outstanding checks. With its existing cash and its line of credit, the Company believes that it has sufficient cash to allow the Company to meet its operational expenditures for at least the next 12 months. Our cash balances are kept liquid to support our growing infrastructure needs. The majority of our cash is concentrated in large financial institutions.

Critical Accounting Policies and Estimates

In response to financial reporting release FR-60, Cautionary Advice Regarding Disclosure About Critical Accounting Policies, from the SEC, we have selected our more subjective accounting estimation processes for purposes of explaining the methodology used in calculating the estimate, in addition to the inherent uncertainties pertaining to the estimate and the possible effects on our financial condition. There were no material changes to our principal accounting estimates during the period covered by this report.

Revenue Recognition and Deferred Revenue

Revenue consisting primarily of tuition and fees derived from courses taught by Aspen online as well as from related educational resources that Aspen provides to its students, such as access to our online materials and learning management system. Tuition revenue is recognized pro-rata over the applicable period of instruction. Aspen maintains an institutional tuition refund policy, which provides for all or a portion of tuition to be refunded if a student withdraws during stated refund periods. Certain states in which students reside impose separate, mandatory refund policies, which override Aspen's policy to the extent in conflict. If a student withdraws at a time when a portion or none of the tuition is refundable, then in accordance with its revenue recognition policy, Aspen recognizes as revenue the tuition that was not refunded. Since Aspen recognizes revenue pro-rata over the term of the course and because, under its institutional refund policy, the amount subject to refund is never greater than the amount of the revenue that has been deferred, under Aspen's accounting policies revenue is not recognized with respect to amounts that could potentially be refunded. Aspen's educational programs have starting and ending dates that differ from its fiscal quarters. Therefore, at the end of each fiscal quarter, a portion of revenue from these programs is not yet earned and is therefore deferred. Aspen also charges students annual fees for library, technology and other services, which are recognized over the related service period. Deferred revenue represents the amount of tuition, fees, and other student invoices in excess of the portion recognized as revenue and it is included in current liabilities in the accompanying consolidated balance sheets. Other revenue may be recognized as sales occur or services are performed.

Accounts Receivable and Allowance for Doubtful Accounts Receivable

All students are required to select both a primary and secondary payment option with respect to amounts due to Aspen for tuition, fees and other expenses. The most common payment option for Aspen's students is personal funds or payment made on their behalf by an employer. In instances where a student selects financial aid as the primary payment option, he or she often selects personal cash as the secondary option. If a student who has selected financial aid as his or her primary payment option withdraws prior to the end of a course but after the date that Aspen's institutional refund period has expired, the student will have incurred the obligation to pay the full cost of the course. If the withdrawal occurs before the date at which the student has earned 100% of his or her financial aid, Aspen will have to return all or a portion of the Title IV funds to the DOE and the student will owe Aspen all amounts incurred that are in excess of the amount of financial aid that the student earned and that Aspen is entitled to retain. In this case, Aspen must collect the receivable using the student's second payment option.

For accounts receivable from students, Aspen records an allowance for doubtful accounts for estimated losses resulting from the inability, failure or refusal of its students to make required payments, which includes the recovery of financial aid funds advanced to a student for amounts in excess of the student's cost of tuition and related fees. Aspen determines the adequacy of its allowance for doubtful accounts using a general reserve method based on an analysis of its historical bad debt experience, current economic trends, and the aging of the accounts receivable and student status. Aspen applies allowances to its receivables based upon an estimate of the risk presented by the age of the receivables and student status. Aspen writes off accounts receivable balances at the time the balances are deemed uncollectible. Aspen continues to reflect accounts receivable with an offsetting allowance as long as management believes there is a reasonable possibility of collection.

For accounts receivable from primary payors other than students, Aspen estimates its allowance for doubtful accounts by evaluating specific accounts where information indicates the customers may have an inability to meet financial obligations, such as bankruptcy proceedings and receivable amounts outstanding for an extended period beyond contractual terms. In these cases, Aspen uses assumptions and judgment, based on the best available facts and circumstances, to record a specific allowance for those customers against amounts due to reduce the receivable to the amount expected to be collected. These specific allowances are re-evaluated and adjusted as additional information is received. The amounts calculated are analyzed to determine the total amount of the allowance. Aspen may also record a general allowance as necessary.

Direct write-offs are taken in the period when Aspen has exhausted its efforts to collect overdue and unpaid receivables or otherwise evaluate other circumstances that indicate that Aspen should abandon such efforts.

Business Combinations

We include the results of operations of businesses we acquire from the date of the respective acquisition. We allocate the purchase price of acquisitions to the assets acquired and liabilities assumed at fair value. The excess of the purchase price of an acquired business over the amount assigned to the assets acquired and liabilities assumed is recorded as goodwill. We expense transaction costs associated with business combinations as incurred.

Goodwill and Intangibles

Goodwill represents the excess of the purchase price over the fair market value of the USU assets acquired and liabilities assumed from Educacion Significativa, LLC. Goodwill has an indefinite life and is not amortized. Goodwill is tested annually for impairment.

Intangible assets represent both indefinite lived and definite lived assets. Accreditation and regulatory approvals and Trade name and trademarks are deemed to have indefinite useful lives and accordingly are not amortized but are tested annually for impairment. Student relationships and curriculums are deemed to have definite lives and are amortized accordingly.

Related Party Transactions

See Note 9 to the unaudited consolidated financial statements included herein for additional description of related party transactions that had a material effect on our unaudited consolidated financial statements.

Off Balance Sheet Arrangements

We do not engage in any activities involving variable interest entities or off-balance sheet arrangements.

New Accounting Pronouncements

See Note 2 to our unaudited consolidated financial statements included herein for discussion of recent accounting pronouncements.

Cautionary Note Regarding Forward Looking Statements

This report contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 including statements regarding our future revenues and expenses, growth in student body, including future organic/referral enrollments, future investments including in our new pre-licensure BSN program and the expectations from that program, improvement in Adjusted EBITDA, and our liquidity. All statements other than statements of historical facts contained in this report, including statements regarding our future financial position, liquidity, business strategy and plans and objectives of management for future operations, are forward-looking statements. The words believe, may, estimate, continue, anticipate, intend, should, plan, could, target, potential, is likely, and similar expressions, as they relate to us, are intended to identify forward-looking statements. We have based these forward-looking statements largely on our current expectations and projections about future events and financial trends that we believe may affect our financial condition, results of operations, business strategy and financial needs.

The results anticipated by any or all of these forward-looking statements might not occur. Important factors, uncertainties and risks that may cause actual results to differ materially from these forward-looking statements include the continued effectiveness of our online marketing, how students react to our hybrid pre-licensure BSN program over time, unanticipated issues with launching our second campus, failure to continue obtaining students at low acquisition costs and keeping teaching costs down. Further information on our risk factors is contained in our filings with the SEC, including our Form 10-K for the year ended April 30, 2018 and prospectus supplement dated April 19, 2018. We undertake no obligation to publicly update or revise any forward-looking statements, whether as the result of new information, future events or otherwise.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Not applicable.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures. Our management carried out an evaluation, with the participation of our Principal Executive Officer and Principal Financial Officer, required by Rule 13a-15 or 15d-15 of the Securities Exchange Act of 1934 (the Exchange Act) of the effectiveness of our disclosure controls and procedures as defined in Rule 13a-15(e) or 15d-15(e) under the Exchange Act. Based on their evaluation, our Principal Executive Officer and Principal Financial Officer concluded that our disclosure controls and procedures are effective as of the end of the period covered by this report to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods

specified in the SEC's rules and forms and is accumulated and communicated to our management, including our Principal Executive Officer and Principal Financial Officer, as appropriate to allow timely decisions regarding required disclosure. Our evaluation excluded USU which was acquired in December 2017.

Changes in Internal Control Over Financial Reporting. There were no changes in our internal control over financial reporting as defined in Rule 13a-15(f) or 15d-15(f) under the Exchange Act that occurred during the period covered by this report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Our evaluation excluded USU which was acquired in December 2017. In accordance with guidance issued by the SEC, companies are allowed to exclude acquisitions from their assessment of internal controls over financial reporting during the first year subsequent to the acquisition while integrating the acquired operations. The assets of United States University, Inc., excluding intangible assets and goodwill, represent approximately 10% of total consolidated assets of the Company and the revenues of United States University, Inc. represent approximately 18% of consolidated revenues of the Company for the six months ended October 31, 2018.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

From time-to-time, we may be involved in litigation relating to claims arising out of our operations in the normal course of business. As of the date of this report, except as discussed in Note 6, we are not aware of any pending or threatened lawsuits that could reasonably be expected to have a material effect on the results of our operations and there are no proceedings in which any of our directors, officers or affiliates, or any registered or beneficial shareholder, is an adverse party or has a material interest adverse to our interest.

ITEM 1A. RISK FACTORS

Not applicable to smaller reporting companies.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

None.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

ITEM 5. OTHER INFORMATION

None.

ITEM 6. EXHIBITS
