Item 2.02. Results of Operations and Financial Condition.

On February 8, 2018, we issued a press release announcing our financial results for the first quarter ended December 31, 2017 and furnished the press release with a Current Report on Form 8-K we filed that day (the "Original Form 8-K"). The press release contained an error relating to the calculation of Adjusted net income per diluted common share for the three months ended December 31, 2016. With respect to the per diluted share impact of stock-based compensation and the income tax effect of adjustments to net income per diluted common share, the correct per share amount was \$0.6 and (\$0.14), respectively.

To correct this error, we are revising the information we provided in the press release we issued on February 8, 2018 as set forth below. Except as set forth below, this Form 8-K/A does not modify or update any other disclosure contained in or furnished with the Original Form 8-K and this Form 8-K/A should be read in conjunction with the Original Form 8-K.

First Quarter Fiscal 2018 Financial Results

Adjusted net income per diluted common share was \$0.33 for the first quarter ended December 31, 2017 compared to \$0.32 for the first quarter of the prior year.

- (a) Represents non-cash stock-based compensation expense.
- (b) Represents the fair value adjustment associated with acquisition related contingent consideration liabilities.
- (c) Represents consulting, severance and other costs incurred in connection with the Company's project to optimize business operations and reduce company-wide expenses.
 - Represents external transaction costs incurred by the Company for acquisitions. The Company has not historically excluded these costs but began excluding them in the first quarter of fiscal 2018. The Company believes that
- (d) excluding these costs will provide the Company and its investors with a more transparent view of the Company's underlying operating performance because these expenses can vary significantly from quarter to quarter and the timing is difficult to predict. Prior period Adjusted EBITDA has been recast to conform to this presentation.
- (e) Represents amortization expense on intangible assets acquired in business combinations.
- Represents the non-cash benefit of \$6.5 million recorded during the three months ended December 31, 2017 primarily resulting from remeasuring the Company's deferred tax liabilities at the newly enacted federal tax rate. The income tax effect was calculated using a tax rate of approximately 32% and 40% for the three months ended
- (g) December 2017 and 2016, respectively. The tax rate for each respective period represents the Company's estimated effective tax rate for the year, excluding the impact of any non-cash discrete tax expenses or benefits including the \$6.5 million tax benefit described in footnote (f).
