September 16, 2016

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D. C. 20549

FORM 10-Q

☒ QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF
THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended August 27, 2016

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF
THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

CLARCOR Inc.
(Exact name of registrant as specified in its charter)

Delaware	1-11024	36-0922490
(State or other jurisdiction of incorporation or organization)	(Commission File Number)	(I.R.S. Employer Identification No.)

840 Crescent Centre Drive, Suite 600, Franklin, Tennessee 37067
(Address of principal executive offices)

Registrant's telephone number, including area code: 615-771-3100

No Change

(Former name, former address and former fiscal year, if changed since last report.)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See definitions of "large accelerated filer", "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act:

Large accelerated filer ☒ Accelerated filer ☐ Non-accelerated filer ☐ Smaller reporting company ☐

Edgar Filing: CLARCOR INC. - Form 10-Q

Indicate by check mark whether the registrant is a shell company (as defined in Exchange Act Rule 12b-2) Yes ___
No X

As of September 12, 2016, 48,615,388 common shares with a par value of \$1 per share were outstanding.

CLARCOR Inc.

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

(Dollars in thousands except share data)

(Unaudited)

1. BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

CLARCOR Inc. and its subsidiaries (collectively, the “Company” or “CLARCOR”) is a global provider of filtration products, filtration systems and services, and consumer and industrial packaging products. As discussed further in Note 15, the Company had three reportable segments: Engine/Mobile Filtration, Industrial/Environmental Filtration and Packaging. On June 27, 2015, the Company completed the disposition of J.L. Clark, Inc. (“J.L. Clark”), which was the sole operating company within the Company's Packaging segment. The Consolidated Condensed Financial Statements include all domestic and foreign subsidiaries that were more than 50% owned and controlled as of each respective reporting period presented. All intercompany accounts and transactions have been eliminated.

The Company's fiscal year-end is the Saturday closest to November 30, typically resulting in a fifty-two week year, but occasionally giving rise to an additional week, resulting in a fifty-three week year. The Consolidated Condensed Statements of Earnings, the Consolidated Condensed Statements of Comprehensive Earnings and the Consolidated Condensed Statements of Cash Flows for the periods ended August 27, 2016 and August 29, 2015 and the Consolidated Condensed Balance Sheet as of August 27, 2016 prepared by the Company are unaudited. The Consolidated Condensed Financial Statements have been prepared on the same basis as those in the Company's Annual Report on Form 10-K for the fiscal year ended November 28, 2015 (“2015 Form 10-K”). The November 28, 2015 Consolidated Condensed Balance Sheet data was derived from the Company's year-end audited Consolidated Financial Statements as presented in the 2015 Form 10-K but does not include all disclosures required by accounting principles generally accepted in the United States of America (“U.S. GAAP”). In the opinion of management, all adjustments (which include only normal recurring adjustments) necessary for a fair statement of financial position, results of operations and cash flows have been made. The results of operations for the period ended August 27, 2016, are not necessarily indicative of the operating results for the full year. The information included in this Form 10-Q should be read in conjunction with the audited Consolidated Financial Statements and accompanying notes included in the 2015 Form 10-K.

Cash and Cash Equivalents and Restricted Cash

Highly liquid investments with an original maturity of three months or less when purchased and that are readily saleable are considered to be cash and cash equivalents. Restricted cash represents funds held in escrow and cash balances held by German banks as collateral for certain guarantees of overseas subsidiaries. Restricted cash classified as current corresponds to funds held in escrow that will be used within one year or guarantees that expire within one year. The Company had \$1,362 and \$1,294 of noncurrent restricted cash recorded in Other noncurrent assets as of August 27, 2016 and November 28, 2015, respectively, corresponding to guarantees and escrow agreements that expire longer than one year from the dates of the Consolidated Condensed Balance Sheets.

Inventories

Inventories are valued at the lower of cost or market primarily determined on the first-in, first-out (“FIFO”) method of inventory costing, which approximates current cost. Inventories are summarized as follows:

August 27,	November 28,
2016	2015

Raw materials	\$ 93,715	\$ 99,129
Work in process	34,735	43,907
Finished products	122,331	131,789
Inventories	\$ 250,781	\$ 274,825

Property, Plant and Equipment

Plant assets classified as held for sale are initially measured at the lesser of the assets' carrying amount or the fair value less costs to sell. Gains or losses are recognized for any subsequent changes in the fair value less cost to sell; however, gains are only recognized to the extent of cumulative losses previously recognized. Plant assets classified as Assets held for sale are not

CLARCOR Inc.

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

(Dollars in thousands except share data)

(Unaudited)

depreciated. At August 27, 2016 and November 28, 2015, property, plant and equipment of \$533 related to property held in Rockford, Illinois was classified as an Asset held for sale.

Accumulated Other Comprehensive Loss

Changes in accumulated other comprehensive loss by component for the three and nine months ended August 27, 2016 are as follows:

	Pension Benefits	Foreign Currency Translation Adjustments	Derivative Financial Instruments	Total
Balance at May 28, 2016, net of tax	\$(34,999)	\$ (55,173)	\$ —	\$(90,172)
Other comprehensive income (loss) before reclassifications and tax	(39)	(10,511)	67	(10,483)
Tax benefit (expense)	14	(14)	(24)	(24)
Other comprehensive income (loss) before reclassifications, net of tax	(25)	(10,525)	43	(10,507)
Reclassifications, before tax	899	(a)—	—	899
Tax expense	(348)	—	—	(348)
Reclassifications, net of tax	551	—	—	551
Other comprehensive income (loss), net of tax	526	(10,525)	43	(9,956)
Balance at August 27, 2016, net of tax	\$(34,473)	\$ (65,698)	\$ 43	\$(100,128)
Balance at November 28, 2015, net of tax	\$(36,003)	\$ (52,049)	\$ —	\$(88,052)
Other comprehensive income (loss) before reclassifications and tax	(202)	(13,635)	67	(13,770)
Tax benefit (expense)	73	(14)	(24)	35
Other comprehensive income (loss) before reclassifications, net of tax	(129)	(13,649)	43	(13,735)
Reclassifications, before tax	2,703	(a)—	—	2,703
Tax expense	(1,044)	—	—	(1,044)
Reclassifications, net of tax	1,659	—	—	1,659
Other comprehensive income (loss), net of tax	1,530	(13,649)	43	(12,076)
Balance at August 27, 2016, net of tax	\$(34,473)	\$ (65,698)	\$ 43	\$(100,128)

(a) Includes amortization of prior service cost and net actuarial loss included in net periodic benefit cost (see [Note 10](#)) that were reclassified from accumulated other comprehensive loss to selling and administrative expenses.

Derivative Instruments and Hedging Activities

The Company is exposed to various market risks that arise from transactions entered into in the normal course of business, including market risks associated with changes in foreign currency exchange rates and changes in interest rates. The Company may make use of derivative instruments to manage certain such risks, including derivatives designated as accounting hedges and/or those utilized as economic hedges which are not designated as accounting hedges. The Company does not hold or issue derivatives for trading or speculative purposes.

All derivatives are recorded at fair value in the Consolidated Balance Sheets. Each derivative is designated as either a fair value hedge, cash flow hedge or remains undesignated. Changes in the fair value of derivatives that are designated and effective as fair value hedges are recognized currently in net income. These changes are offset in net income to the extent the hedge was effective by fair value changes related to the risk being hedged on the hedged item. For derivative instruments that are designated and qualify as cash flow hedges, the effective portion of the gain or loss on the derivative is reported as a component of other comprehensive income and reclassified into earnings in the same period during which the hedged transaction affects earnings. Gains and losses on the derivative representing either hedge ineffectiveness or hedge components excluded from the assessment of effectiveness are recognized in current earnings. Changes in fair value of undesignated hedges are recognized currently in net income. All ineffective changes in derivative fair values are recognized currently in net income.

CLARCOR Inc.

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

(Dollars in thousands except share data)

(Unaudited)

The Company formally documents all relationships between designated hedging instruments and hedged items as well as its risk management objective and strategy for undertaking hedge transactions. Both at inception and on an ongoing basis the hedging instrument is assessed as to its effectiveness. If and when a derivative is determined not to be highly effective as a hedge, or the underlying hedge transaction is no longer likely to occur, the hedge designation is removed, or the derivative is terminated, the hedge accounting discussed above is discontinued. Further information related to derivatives and hedging activities is included in Note 6 of the Notes to Consolidated Condensed Financial Statements.

New Accounting Guidance

In May 2014, the FASB issued Accounting Standards Update ("ASU") No. 2014-09, "Revenue from Contracts with Customers." The purpose of ASU 2014-09 is to clarify the principles for recognizing revenue and to develop a common revenue standard for U.S. GAAP and International Financial Reporting Standards. The amendments in ASU 2014-09 require a company to recognize revenue to depict the transfer of goods or services to a customer at an amount that reflects the consideration it expects to receive in exchange for those goods or services. ASU 2014-09 also requires additional disclosure about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts, including significant judgments and changes in judgments and assets recognized from costs incurred to obtain or fulfill a contract. ASU 2014-09 is effective for annual reporting periods, and interim periods therein, beginning after December 15, 2016 (fiscal year 2018 for the Company). Subsequently, in August 2015, the FASB issued ASU No. 2015-14, "Revenue from Contracts with Customers (Topic 606) Deferral of the Effective Date," that moves the effective date out one year (fiscal 2019 for the Company). In March 2016, the FASB issued ASU 2016-08, "Principal versus Agent Considerations (Reporting Revenue Gross versus Net)," which clarifies the guidance in determining revenue recognition as principal versus agent. In April 2016, the FASB issued ASU 2016-10, "Identifying Performance Obligations and Licensing," which provides guidance in accounting for immaterial performance obligations and shipping and handling. In May 2016, the FASB issued ASU 2016-12, "Narrow-Scope Improvements and Practical Expedients," which provides clarification on assessing the collectability criterion, presentation of sales taxes, measurement date for noncash consideration and completed contracts at transition. Companies may use either a full retrospective or a modified retrospective approach to adopt ASU 2014-09 and the related amendments and early adoption of one year prior to the required effective date is permitted. The Company has not yet determined the potential effects of the adoption of ASU 2014-09, ASU 2015-14, ASU 2016-08, ASU 2016-10, and ASU 2016-12 on its Consolidated Financial Statements.

In April 2015, the FASB issued ASU 2015-03, "Simplifying the Presentation of Debt Issuance Costs," which requires that debt issue costs related to a recognized debt liability be presented on the balance sheet as a direct deduction from the amount of the debt liability, consistent with debt discounts and premiums. Amortization of such costs is still reported as interest expense. ASU 2015-03 is effective for fiscal years, and interim periods therein, beginning after December 15, 2015 (fiscal year 2017 for the Company), but early adoption is allowed. In August 2015, the FASB issued ASU 2015-15, "Presentation and Subsequent Measurement of Debt Issue Costs Associated with Line-of-Credit Arrangements." ASU 2015-15 supplements the requirements of ASU 2015-03 by allowing an entity to defer and present debt issue costs related to a line of credit arrangement as an asset and subsequently amortize the deferred costs ratably over the term of the line of credit arrangement. The Company has not yet determined in which period it will adopt the new guidance. Upon adoption, long-term debt issuance costs will be reclassified from other long-term assets to long-term debt on the Condensed Consolidated Balance Sheets.

In July 2015, the FASB issued ASU 2015-11, "Simplifying the Measurement of Inventory." Topic 330, Inventory, currently requires an entity to measure inventory at the lower of cost or market, with market value represented by replacement cost, net realizable value or net realizable value less a normal profit margin. The amendments in ASU 2015-11 require an entity to measure inventory at the lower of cost or net realizable value. ASU 2015-11 is effective for annual reporting periods, and interim periods therein, beginning after December 15, 2016 (fiscal year 2018 for the Company). The Company does not expect the adoption of this guidance to have a material impact on its Consolidated Financial Statements.

In February 2016, the FASB issued ASU 2016-02, "Leases," which amends leasing guidance by requiring companies to recognize a right-of-use asset and a lease liability for all operating and capital (finance) leases with lease terms of greater than twelve months. The lease liability will be equal to the present value of lease payments. The lease asset will be based on the lease liability, subject to adjustment, such as for initial direct costs. For income statement purposes, leases will continue to be classified as operating or capital (finance), with lease expense in both cases calculated substantially the same as under the prior leasing guidance. The updated guidance is effective for interim and annual periods beginning after December 15, 2018 (fiscal year 2020 for the Company), and early adoption is permitted. The Company has not yet determined the potential effects of the adoption of ASU 2016-02 on its Consolidated Financial Statements.

CLARCOR Inc.

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

(Dollars in thousands except share data)

(Unaudited)

In March 2016, the FASB issued ASU 2016-09, "Improvements to Employee Share-Based Payment Accounting," which simplifies the accounting for share-based payment transactions, including accounting for income taxes, forfeitures, and classification in the statement of cash flows. ASU 2016-09 is effective for annual reporting periods, and interim periods therein, beginning after December 15, 2016 (fiscal year 2018 for the Company). The Company has not yet determined the potential effects of the adoption of ASU 2016-09 on its Consolidated Financial Statements.

In June 2016, the FASB issued ASU 2016-13, "Measurement of Credit Losses on Financial Statements," which requires companies to measure credit losses utilizing a methodology that reflects expected credit losses and requires consideration of a broader range of reasonable and supportable information to inform credit loss estimates. ASU 2016-13 is effective for annual reporting periods, and interim periods therein, beginning after December 15, 2019 (fiscal year 2021 for the Company). The Company has not yet determined the potential effects of the adoption of ASU 2016-13 on its Consolidated Financial Statements.

In August 2016, the FASB issued ASU 2016-15, "Classification of Certain Cash Receipts and Cash Payments," which aims to eliminate diversity in practice in how certain cash receipts and cash payments are presented and classified in the statement of cash flows under Topic 230, Statement of Cash Flows, and other Topics. ASU 2016-15 is effective for annual reporting periods, and interim periods therein, beginning after December 15, 2017 (fiscal year 2019 for the Company). The Company does not expect the adoption of this guidance to have a material impact on its Consolidated Financial Statements.

2. BUSINESS ACQUISITIONS AND NONCONTROLLING INTERESTS

Business Acquisitions

FibeRio

On March 7, 2016, the Company acquired certain assets of FibeRio Technology Corporation ("FibeRio"), a technology company focused on the research, development and commercialization of performance fabric and filtration media, for a purchase price of approximately \$11,918 consisting of \$8,031 in cash and \$3,887 in contingent earn-out liability. The assets acquired and the activities of FibeRio are in the process of being merged into the Company's Innovation Center, located near the Company's headquarters in Franklin, Tennessee, which supports the Company's global growth and innovation activities including research and development. A preliminary allocation of the purchase price to the assets acquired was made based on available information and incorporating management's best estimates. Assets acquired in the transaction were recorded at their estimated acquisition-date fair values, consisting primarily of \$5,000 of in-process research and development, \$3,023 of machinery and equipment, and \$3,895 of goodwill. The assets of FibeRio were acquired primarily to expand the Company's capabilities in filtration media research and product development. Goodwill recorded in connection with the acquisition, which is deductible for tax purposes, represents the estimated future value of such opportunities. A contingent liability for a potential earn-out payment to the former owners, based on sales of products generated by or through processes utilizing FibeRio's technology during the five years subsequent to the acquisition date, was initially recorded at its acquisition-date estimated fair value of \$3,887 which is included in Other long-term liabilities in the Consolidated Condensed Balance Sheet at August 27, 2016. The Company is currently in the process of finalizing the valuations of all assets acquired. The Company expects to finalize the purchase price allocation within one year of the purchase date.

TDC

On January 29, 2016, the Company acquired certain assets of TDC Filter Manufacturing, Inc. ("TDC"), a manufacturer and supplier of pleated filter bags, dust collection cartridges and gas turbine air filters, for a purchase price of

approximately \$11,268. The operations of TDC have been merged into the Company's CLARCOR Industrial Air business, headquartered in Overland Park, Kansas, which is part of the Company's Industrial/Environmental Filtration segment. A preliminary allocation of the purchase price to the assets acquired was made based on available information and incorporating management's best estimates. Assets acquired in the transaction were recorded at their estimated acquisition-date fair values, consisting primarily of \$3,200 of customer relationships, \$2,400 of inventory, \$1,926 of machinery and equipment, and \$3,604 of goodwill. The assets of TDC were acquired primarily to expand the Company's product line and distribution channels within its target industrial air filtration markets. Goodwill recorded in connection with the acquisition, which is deductible for tax purposes, represents the estimated future value of such opportunities. The Company is currently in the process of finalizing the valuations of all assets acquired. The Company expects to finalize the purchase price allocation within one year of the purchase date.

CLARCOR Inc.

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

(Dollars in thousands except share data)

(Unaudited)

Filter Resources

On December 17, 2014, the Company acquired 100% of the outstanding shares of Filter Resources, Inc., Filtration, Inc. and Fabrication Specialties, Inc. (collectively, "Filter Resources"). The purchase price for Filter Resources was approximately \$21,861, which the Company funded with borrowings under the Company's revolving credit facility. The Company assumed long-term debt of the business of \$1,250, which was immediately repaid in connection with the closing.

Filter Resources has operating facilities located in the Texas gulf coast and Louisiana region, with approximately 75 total employees. The business is engaged in the manufacture and distribution of filtration products for petrochemical, refinery, pipeline and other industrial applications. The operations of Filter Resources have been merged into the Company's PECOFacet group of companies, headquartered in Mineral Wells, Texas. Its results are included as part of the Company's Industrial/Environmental Filtration segment from the date of acquisition.

A contingent liability for a potential earn-out payment to the former owners, based on adjusted earnings from certain capital projects, was initially recorded at its acquisition-date estimated fair value of \$1,154 and is being accreted to its face value of \$1,350 ratably through the conclusion of the earn-out period in 2016. The earn-out period will expire in 2016 and the Company determined that the estimated fair value of the contingent liability for a potential earn-out payment was \$6 as of August 27, 2016. The reduction to the contingent liability was offset as a reduction of Selling and administrative expenses and Interest expense in the Consolidated Condensed Statements of Earnings. The remaining contingent liability of \$6 is included in Accrued liabilities in the Consolidated Condensed Balance Sheet at August 27, 2016.

An allocation of the purchase price to the assets acquired and liabilities assumed was made based on available information and incorporating management's best estimates. Assets acquired and liabilities assumed in the transaction were recorded at their estimated acquisition-date fair values, while transaction costs associated with the acquisition were expensed as incurred. The allocation of the purchase price to assets acquired and liabilities assumed was finalized as of November 30, 2015.

The following table summarizes the fair values of the assets acquired and liabilities assumed at the date of acquisition of Filter Resources:

Accounts receivable	\$3,180
Inventories	2,042
Other current assets	118
Property, plant and equipment	574
Goodwill	11,938
Intangible assets	10,880
Total assets acquired	28,732
Current liabilities	2,670
Noncurrent liabilities	4,201
Net assets acquired	\$21,861

Filter Resources was acquired primarily to expand the Company's access to petrochemical and refinery customers, particularly in the U.S. gulf coast region. Goodwill of \$11,938 recorded in connection with the acquisition, which is not deductible for tax purposes, represents the estimated value of such future opportunities. A summary of the intangible assets acquired is shown in the following table:

Identifiable intangible assets	Estimated Weighted average Amortization		
	Value	Useful life	Method
Customer relationships	\$ 10,800	15 years	Straight-line
Trademarks	80	1 year	Straight-line
	\$ 10,880		

CLARCOR Inc.

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

(Dollars in thousands except share data)

(Unaudited)

Net sales and operating profit for Filter Resources for the three and nine months ended August 27, 2016 and August 29, 2015 (which, in the case of the nine month period ended August 29, 2015, includes the period from December 17, 2014 to August 29, 2015) were as follows:

	Quarter Ended		Nine Months Ended	
	August 27, 2016		August 29, 2015	
	2016	2015	2016	2015
Net sales	\$5,540	\$ 5,141	\$17,439	\$ 14,323
Operating profit	910	536	2,299	1,223
Noncontrolling Interests				

Noncontrolling interests changed as follows during the nine months ended August 27, 2016 and August 29, 2015:

	Nine Months Ended	
	August 27, 2016	August 29, 2015
	Redeemable	Non-Redeemable
Noncontrolling interests at beginning of period	\$— 896	\$1,587 \$ 1,043
Noncontrolling interests (loss) earnings	—79	(19) 187
Purchase of noncontrolling interests	—	(1,432) —
Foreign currency translation	—(84)	(136) (192)
Dividend	—(172)	— (206)
Noncontrolling interests at end of period	\$— 719	\$— \$ 832

Redeemable Noncontrolling Interests

In March 2007, the Company acquired an 80% ownership share in Sinfa SA ("SINFA"), a manufacturer of automotive and heavy-duty engine filters based in Casablanca, Morocco, which is included in the Engine/Mobile Filtration segment. As part of the purchase agreement, the Company and the noncontrolling owners each had the option to require the purchase of the remaining 20% ownership share by the Company after December 31, 2012. During the three month period ended May 30, 2015, the Company exercised its option and acquired the remaining 20% ownership share for approximately \$1,239, following which SINFA became a wholly owned subsidiary. The difference between the amount paid and the carrying value of the noncontrolling interest was recorded to Retained earnings in the Consolidated Condensed Balance Sheet.

3. BUSINESS DISPOSITIONS

J.L. Clark

On June 27, 2015, the Company sold 100% of the outstanding shares of J.L. Clark to CC Industries, Inc. ("CCI"), an affiliate of Chicago-based Henry Crown and Company, for \$45,232 in cash (cash from CCI of \$47,848 at closing, net of \$745 cash divested and a post-closing adjustment of \$1,871 related to the amount of working capital as of the closing date, as provided in the purchase agreement). Headquartered in Rockford, Illinois and with manufacturing facilities in Lancaster, Pennsylvania, J.L. Clark designs and manufactures specialty metal and plastic packaging for a variety of consumer products customers. Prior to its divestiture, J.L. Clark was the sole operating company within the Company's Packaging segment. The sale of J.L. Clark is consistent with the Company's strategic focus on being a global provider of filtration products, systems and services.

CLARCOR Inc.

Acquired intangible assets, less accumulated amortization	\$ 122,176	\$ 184,770	\$ 5,000	\$311,946

The following table summarizes estimated amortization expense:

Fiscal year 2016 \$24,578

Fiscal year 2017 24,296

Fiscal year 2018 23,633

Fiscal year 2019 23,425

Fiscal year 2020 23,132

Amortization expense for the nine months ended August 27, 2016 and August 29, 2015 was \$18,465 and \$19,282, respectively.

5. FAIR VALUE MEASUREMENTS

Fair Value Measurements

The Company measures certain assets and liabilities at fair value as discussed throughout the notes to its quarterly and annual financial statements. Fair value is the exchange price that would be received for an asset or paid to transfer a liability, an exit price, in the principal or most advantageous market for the asset or liability in an orderly transaction

between market

Page 14

CLARCOR Inc.

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

(Dollars in thousands except share data)

(Unaudited)

participants. Fair value measurements are categorized in a hierarchy based upon the observability of inputs used in valuation techniques. Observable inputs are the highest level and reflect market data obtained from independent sources, while unobservable inputs are the lowest level and reflect internally developed market assumptions. The Company classifies fair value measurements by the following hierarchy:

Level 1 – Quoted active market prices for identical assets

Level 2 – Significant other observable inputs, such as quoted prices for similar (but not identical) instruments in active markets, quoted prices for identical or similar instruments in markets which are not active and model determined valuations in which all significant inputs or significant value-drivers are observable in active markets

Level 3 – Significant unobservable inputs, such as model determined valuations in which one or more significant inputs or significant value-drivers are unobservable

Assets or liabilities that have recurring fair value measurements are shown below:

	Fair Value Measurements at Reporting Date			
	Total	Level 1	Level 2	Level 3
August 27, 2016				
Restricted trust, included in Other noncurrent assets				
Mutual fund investments - equities	\$ 302	\$ 302	\$ —	\$ —

Foreign exchange contracts, included in Prepaid expenses and other current assets	\$ 418	\$ —	\$ 418	\$ —
Foreign exchange contracts, included in Accrued liabilities	\$ 40	\$ —	\$ 40	\$ —

There were no changes in the fair value determination methods or significant assumptions used in those methods during the nine months ended August 27, 2016. There were no transfers between Level 1 and Level 2 and there were no transfers into or out of Level 3 during the nine months ended August 27, 2016. The Company's policy is to recognize transfers on the actual date of transfer. The restricted trust, which is used to fund certain payments for the Company's U.S. combined nonqualified pension plans, consists of actively traded equity and bond funds.

The Company is liable for a contingent earn-out established in connection with the acquisition of FibeRio on March 7, 2016. This earn-out, which is payable to the former owners of FibeRio, has been recorded at its estimated fair-value of \$3,887, in Other long-term liabilities in the Consolidated Condensed Balance Sheet. The contingent liability for the earn-out will continue to be accounted for and measured at fair value through the end of the earn-out period five years from the acquisition date. The fair value measurement of the earn-out payment is based on an option pricing approach, which represent significant inputs not observed in the market and thus represents a Level 3 measurement.

The Company is liable for a contingent earn-out established in connection with the acquisition of Filter Resources on December 17, 2014. This earn-out, which is payable to the former owners of Filter Resources, has been recorded at its estimated fair-value of \$6, in Accrued liabilities in the Consolidated Condensed Balance Sheet. The contingent liability for the earn-out will continue to be accounted for and measured at fair value until the contingency is settled during the Company's fiscal year 2016. The fair value measurement of the earn-out payment is based on estimated adjusted earnings from certain capital projects, which represent significant inputs not observed in the market and thus represents a Level 3 measurement.

The Company is liable for a contingent earn-out established in connection with the acquisition of TransWeb on December 29, 2010. This earn-out, which is payable to one of the former owners of TransWeb, had an acquisition-date estimated fair value of \$1,018, which was recorded as an other long-term liability at that time. The contingent liability for the earn-out payment will continue to be accounted for and measured at fair value until the contingency is settled during fiscal year 2016. The fair value measurement of the contingent earn-out payment is based primarily on 2014 and 2015 TransWeb adjusted earnings, which represent significant inputs not observed in the market and thus represents a Level 3 measurement. The contingent consideration payment is revalued to its current fair value at each reporting date. The fair value of the TransWeb contingent earn-out payment was \$0 at August 27, 2016 and at November 28, 2015, based on the adjusted earnings of TransWeb.

Fair Values of Financial Instruments

The fair values of the Company's financial instruments, which are cash and cash equivalents, restricted cash, accounts receivable, the restricted trust, derivative instruments and accounts payable and accrued liabilities, approximated the carrying values of those financial instruments at both August 27, 2016 and November 28, 2015. An expected present value technique is used to estimate the fair value of long-term debt, using a model that discounts future principal and interest payments at interest rates available to the Company at the end of the period for similar debt of the same maturity. A fair value estimate of \$313,979

CLARCOR Inc.

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

(Dollars in thousands except share data)

(Unaudited)

and \$403,821 for long-term debt at August 27, 2016 and November 28, 2015, respectively, is based on a Level 2 measurement using the current interest rates available to the Company for debt with similar remaining maturities. The carrying value for the long-term debt at August 27, 2016 and November 28, 2015 is \$318,032 and \$405,156, respectively.

See Note 6 for information related to the fair value of hedging instruments.

6.DERIVATIVE INSTRUMENTS AND HEDGING

The Company is exposed to various market risks that arise from transactions entered into in the normal course of business. The Company selectively uses derivative instruments to manage certain such risks, including market risks associated with changes in foreign currency exchange rates and changes in interest rates. The Company does not hold or issue derivatives for trading or speculative purposes. A description of each type of derivative utilized by the Company to manage risk is included below. In addition, refer to Note 5 for information related to the fair value measurements utilized by the Company for each derivative type.

The Company may elect to designate certain derivatives as hedging instruments under the accounting standards for derivatives and hedging. The Company formally documents all relationships between designated hedging instruments and hedged items as well as its risk management objective and strategy for undertaking hedge transactions.

All derivatives are recognized on the balance sheet at fair value and classified based on the instrument's maturity date. The total notional amount of derivatives outstanding at August 27, 2016 and November 28, 2015 was \$43,008 and \$48,797 respectively, which consists of undesignated derivative instruments to manage translational foreign exchange risk related to inter-company advances, derivatives designated as cash flow hedges to hedge against the effect of exchange rate fluctuations on cash flows denominated in foreign currencies and derivatives designated as fair value hedges to manage the risk of changes in foreign currency exchange rates on certain firm sales commitments expected to be settled at future dates.

The following table presents the fair values of derivative instruments included within the Consolidated Condensed Balance Sheets at August 27, 2016 and November 28, 2015:

	August 27, 2016	November 28, 2015
Prepaid expenses and other current assets		
Designated as hedging instruments:

(Unaudited)

The following table presents the amounts of income (expense) from derivative instruments affecting the Consolidated Condensed Statements of Earnings for the nine months ended August 27, 2016 and August 29, 2015:

	August 27, August 29, 2016 2015	
Fair value hedges		
Foreign exchange contracts - Selling and administrative expenses	\$ (981)	\$ 400
Unrecognized firm sales commitments - Selling and administrative expenses	1,027	(534)
Total designated	\$ 46	\$ (134)
Not designated as hedges		
Foreign exchange contracts - Selling and administrative expenses	\$ (838)	\$ 21
Foreign exchange contracts - Other, net	6,112	641
Total not designated	\$ 5,274	\$ 662

Fair Value Hedges

The Company is exposed to changes in foreign currency exchange rates on certain unrecognized firm sales commitments expected to be settled at future dates. The Company may use foreign currency forward contracts to manage certain such risks. The Company designates each such contract as a fair value hedge from the date the firm sales commitment and derivative contract are entered into through the date the related sale occurs, at which point the foreign currency forward contract is de-designated as a fair value hedging instrument. All realized and unrealized gains or losses on such foreign currency forward contracts are recognized in income as incurred. Changes in the fair value of the related unrecognized firm sales commitments that arise due to fluctuations in foreign currency exchange rates are also reflected in income and as an asset or liability on the Consolidated Condensed Balance Sheets.

The total notional amount of foreign currency contracts designated as fair value hedges outstanding at August 27, 2016 and November 28, 2015 was \$4,076 and \$5,326, respectively. The cash flows associated with the periodic settlement of the Company's fair value hedges are reflected as a component of Cash flows from operating activities in the Consolidated Condensed Statements of Cash Flows.

Cash Flow Hedges

The Company is exposed to changes in foreign currency exchange rates on certain foreign currency denominated sales. The Company enters into foreign exchange forward and option contracts to hedge against the effect of exchange rate fluctuations on cash flows denominated in foreign currencies. These transactions are designated as cash flow hedges. Under hedge accounting, the derivative carrying amount is measured at fair value each period and any resulting gain or loss is recorded in a separate component of shareholders' equity. Differences between the derivative and the hedged item may cause changes in their fair values to not offset completely, which is referred to as ineffectiveness. When the hedged transaction occurs, these amounts are released from shareholders' equity, in order that the transaction will be reflected in earnings at the rate locked in by the derivative. The effect of the hedge is reported in the same financial statement line item as the earnings effects of the hedged transaction. The cash flows associated with the periodic settlement of the Company's cash flow hedges are reflected as a component of Cash flows from operating activities in the Consolidated Condensed Statements of Cash Flows.

The total notional amount of foreign currency contracts designated as cash flow hedges outstanding at August 27, 2016 and November 28, 2015 was \$10,681 and \$0, respectively. During the three and nine months ended August 27, 2016, the Company re-classified an immaterial gain from accumulated other comprehensive income to sales within the Consolidated Condensed Statement of Earnings. Additionally, during the three and nine months ended August 27, 2016, the Company recorded an immaterial gain on hedge ineffectiveness within the Consolidated Condensed Statement of Earnings. The Company had no cash flow hedges during any period in 2015.

CLARCOR Inc.

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

(Dollars in thousands except share data)

(Unaudited)

Undesignated Derivative Instruments

The Company is exposed to changes in foreign currency exchange rates on certain inter-company advances. The Company may use foreign currency forward contracts to manage certain such risks. These forward contracts are not designated as hedging instruments under the accounting standards for derivatives and hedging. These undesignated instruments are recorded at fair value as an asset or liability on the Consolidated Condensed Balance Sheets and all realized and unrealized gains or losses on such foreign currency forward contracts are recognized in Other, net on the Consolidated Condensed Statements of Earnings as incurred. The Company intends to settle the underlying inter-company advances in cash, therefore gains and losses on translation of the inter-company advances are also recognized in Other, net on the Consolidated Condensed Statements of Earnings as incurred. The cash flows associated with the periodic settlement of the Company's undesignated derivative instruments are reflected as a component of Cash flows from operating activities in the Consolidated Condensed Statements of Cash Flows.

The total notional amount of such foreign currency contracts not designated as hedging instruments outstanding as of August 27, 2016 and November 28, 2015 was \$25,760 and \$36,259, respectively. During the nine months ended August 27, 2016, the Company recorded realized and unrealized gains of \$6,341 on such forward currency contracts and losses of \$5,869 on translation of the underlying inter-company advances. During the nine months ended August 29, 2015, the Company recorded realized and unrealized gains of \$641 on such forward currency contracts and losses of \$1,638 on translation of the underlying inter-company advances.

Additionally, the total notional amount of foreign currency contracts de-designated as fair value hedges outstanding at August 27, 2016 and November 28, 2015 was \$2,491 and \$7,212, respectively.

Counterparty credit risk

By using derivative instruments to manage certain of its risk exposures, the Company is subject, from time to time, to credit risk and market risk on such derivative instruments. Credit risk arises from the potential failure of the counterparty to perform under the terms of the derivative instrument. When the fair value of a derivative instrument is positive, the counterparty owes the Company, which creates credit risk for the Company. The Company mitigates this credit risk by entering into transactions with only creditworthy counterparties. Market risk arises from the potential adverse effects on the value of the derivative that result from changes in foreign currency exchange rates or interest rates, depending on the nature of the derivative. The Company mitigates this market risk by establishing and monitoring parameters that limit the types and degrees of market risk that may be undertaken.

CLARCOR Inc.

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

(Dollars in thousands except share data)

(Unaudited)

7. ACCRUED LIABILITIES

Accrued liabilities at August 27, 2016 and November 28, 2015 were as follows:

	August 27, 2016	November 28, 2015
Accrued salaries, wages and commissions	\$ 16,507	\$ 16,498
Compensated absences	9,089	8,672
Accrued insurance liabilities	8,030	9,928
Warranties	6,088	7,870
Customer deposits	18,167	25,036
Other accrued liabilities	26,651	38,406
Accrued liabilities	\$ 84,532	\$ 106,410

The Company had letters of credit totaling \$17,549 and \$24,581 as of August 27, 2016 and November 28, 2015, respectively, issued to various government agencies, primarily related to industrial revenue bonds, and to insurance companies and other commercial entities in support of its obligations. The Company believes that no payments will be required resulting from these obligations.

In the ordinary course of business, the Company also provides routine indemnifications and other guarantees whose terms range in duration and are often not explicitly defined. The Company does not believe these will have a material impact on the results of operations or financial condition of the Company.

Warranties

Warranties are recorded as a liability on the balance sheet and as charges to current expense for estimated normal warranty costs and, if applicable, for specific performance issues known to exist on products already sold. The expenses estimated to be incurred are provided at the time of sale, or when a claim arises, and adjusted as needed, based primarily upon experience. Changes in the Company's warranty accrual are as follows:

	Nine Months Ended	
	August 27, 2016	August 29, 2015
Warranty accrual at beginning of period	\$7,870	\$ 9,405
Warranty accrual added through business acquisitions	—	100
Accruals for warranties issued during the period	1,339	1,570
Adjustments related to pre-existing warranties	(1,440)	(1,499)
Settlements made during the period	(1,450)	(1,378)
Other adjustments, including currency translation	(231)	(450)
Warranty accrual at end of period	\$6,088	\$ 7,748

8. RESTRUCTURING

The Company recovered net restructuring charges of \$(104) during the three months ended August 27, 2016, of which \$280 is included in Cost of sales and \$(384) is included in Selling and administrative expenses. During the nine months ended August 27, 2016, the Company recorded restructuring charges of \$2,037, of which \$2,181 is included in Cost of sales and \$(144) is included in Selling and administrative expenses in the Consolidated Condensed Statements of Earnings. The restructuring charges in the three and nine months ended August 27, 2016 consisted primarily of

severance and other employee termination benefits and lease termination costs related to the exit of operating facilities related to efforts to more closely align operating expenses with the Company's long-term strategic initiatives and macroeconomic business conditions. Substantially all of these costs are expected to be settled in cash. Approximately \$922 of restructuring charges are included in Accrued liabilities in the Consolidated Condensed Balance Sheet at August 27, 2016, all of which are expected to be paid out in 2016. There were no such restructuring charges during the three and nine months ended August 29, 2015.

CLARCOR Inc.

9. LONG-TERM DEBT

Long-term debt at August 27, 2016 and November 28, 2015 consisted of the following:

	August 27, 2016	November 28, 2015
Credit Facility:		
Revolving Credit Facility	\$ 115,000	\$ 197,000
Term Loans	195,000	200,000
Industrial Revenue Bonds, at weighted average interest rates of 0.58% and 0.30%, respectively, at August 27, 2016 and November 28, 2015	7,410	7,410
Other long-term debt	622	746
Total long-term debt	\$ 318,032	\$ 405,156
Current portion of long-term debt	\$ 15,243	\$ 7,788
Long-term debt, less current portion	\$ 302,789	\$ 397,368

On April 5, 2012, the Company entered into a five-year multicurrency revolving credit agreement with a group of financial institutions. The Company subsequently entered into credit agreement amendments on November 22, 2013 and on May 1, 2014 to add a term loan facility to the revolving credit agreement, and later to increase the size of the term loan facility. On November 2, 2015, the Company entered into an amended and restated credit facility, under which the Company may borrow up to \$700,000 under a senior credit facility comprised of a \$500,000 multicurrency revolving credit facility (the "Revolving Credit Facility") and \$200,000 of term loans (the "Term Loans" and together with the Revolving Credit Facility the "Credit Facility"). The Revolving Credit Facility includes a \$50,000 swing-line sub-facility, as well as an accordion feature that will allow the Company to increase the Revolving Credit Facility by a total of up to \$100,000, subject to securing additional commitments from existing lenders or new lending institutions. At the Company's election, borrowings under the Revolving Credit Facility and Term Loans bear interest at either (1) a defined base rate, which varies with the highest of the defined prime rate, a specified margin over the federal funds rate, or a specified margin over the London Interbank Offered Rate ("LIBOR"), provided that the defined base rate shall not be less than zero percent, or (2) LIBOR plus an applicable margin determined with reference to the Company's consolidated leverage ratio. Swing line borrowings bear interest at the defined base rate plus an applicable margin. Commitment fees and letter of credit fees are also payable under the Credit Facility. Borrowings under the Credit Facility are unsecured, but are guaranteed by substantially all of the Company's material domestic subsidiaries. The amended and restated credit agreement also contains certain covenants customary to such agreements, including covenants that place limits on the Company's ability to incur additional debt, require the Company to maintain minimum levels of interest coverage, and restrict certain changes in ownership, as well as customary events of default. The principal balance outstanding under the Revolving Credit Facility is payable in full at maturity on November 1, 2020. Principal is payable in respect of the Term Loans in quarterly installments based on specified percentages of the initial principal amount of the Term Loans, and the entire outstanding principal balance of the Term Loans is payable in full at maturity on November 1, 2020.

At August 27, 2016, there was \$195,000 of outstanding Term Loans with a weighted average interest rate of approximately 1.62%, there was \$115,000 outstanding on the Revolving Credit Facility with a weighted average interest rate of approximately 1.62%, and the Company had a remaining borrowing capacity of \$377,590. The Credit Facility includes a \$50,000 letter of credit sub-facility, against which \$7,410 and \$7,521 in letters of credit had been issued at August 27, 2016 and November 28, 2015, respectively.

(Unaudited)

10. PENSION AND OTHER POSTRETIREMENT BENEFITS

The Company provides various retirement benefits, including defined benefit pension plans and postretirement healthcare plans covering certain current and retired employees in the U.S. and abroad. Components of net periodic benefit cost (income) and Company contributions for these plans were as follows:

	Quarter Ended August 29, 2016		Nine Months Ended August 29, 2015	
Pension Benefits:				
Components of net periodic benefit cost (income):				
Service cost	\$370	\$ 361	\$1,112	\$ 1,430
Interest cost	1,554	2,020	4,673	5,767
Expected return on plan assets	(2,579)	(2,843)	(7,757)	(8,686)
Curtailment	—	1	—	1
Amortization of unrecognized:				
Prior service cost	—	(2)	—	(4)
Net actuarial loss	953	826	2,865	2,760
Net periodic benefit cost	\$298	\$ 363	\$893	\$ 1,268
Cash contributions	\$89	\$ 101	\$168	\$ 354
Postretirement Healthcare Benefits:				
Components of net periodic benefit cost (income):				
Interest cost	\$2	\$ 2	\$6	\$ 6
Amortization of unrecognized:				
Prior service cost	(31)	(31)	(93)	(93)
Net actuarial gain	(23)	(37)	(69)	(111)
Net periodic benefit income	\$(52)	\$(66)	\$(156)	\$(198)
Cash contributions	\$11	\$ 15	\$33	\$ 45

Net periodic benefit expense and obligations related to the Company's pension and post-retirement benefits plans are determined using a number of significant actuarial assumptions, including those related to discount rates, long-term rates of return on pension plan assets and rates of compensation increases. Discount rate assumptions are intended to reflect the rate at which the pension benefit obligations could be effectively settled on the measurement date, taking into account the nature and expected payment timing of the benefit obligations of the plan. Historically, the Company has calculated the projected benefit obligations as well as the interest cost and service cost components of net periodic benefit expense for each domestic plan using a single weighted-average discount rate, rounded to 25 basis points, based on high-quality fixed-income investments currently available (rated Aa or better) and expected to be available during the period to maturity of the benefits (the "single equivalent rate approach").

During 2015, the SEC staff expressed its acceptance for companies applying an alternate approach for measuring the service cost and interest cost components of net periodic benefit cost for postretirement benefit plan obligations. This alternate approach uses individual spot rates derived from a high-quality corporate bond yield curve to separately and directly determine service cost and interest cost based on projected benefit cash flows for each future year (the "spot

rate approach"), instead of the single equivalent rate approach. Further, the SEC staff stated that it would not object to companies treating the change in approach as a change in estimate.

The Company elected to change its estimate in the determination of discount rate assumptions used to determine net periodic benefit costs effective for fiscal year 2016 for each of its domestic plans, changing from the single equivalent rate approach to the

CLARCOR Inc.

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

(Dollars in thousands except share data)

(Unaudited)

spot rate approach. This change in estimate had no impact on the interest cost and service cost components of net periodic benefit cost in any periods prior to fiscal year 2016, nor does it change the determination of benefit obligations for the plans at future measurement dates. The interest cost and service cost components of each plan's net periodic benefit cost for fiscal year 2016 were determined using spot rates from the Citigroup Pension Discount Curve, applied separately to the projected pension benefit cash flows in each future year.

The changes in the fair value of plan assets, plan liabilities and in the assumptions, including the change to the spot rate approach as described above, result in an approximate \$445 net decrease in fiscal year 2016 expense for the Company's qualified U.S. pension plans compared to fiscal year 2015 expense. The Company estimates that fiscal year 2016 expense for its qualified U.S. pension plans would have been approximately \$1,343 higher under the single equivalent rate approach, all else being equal. The changes in plan liabilities and in the assumptions result in an approximate \$58 net decrease in fiscal year 2016 expense for the Company's U.S. combined nonqualified plans compared to fiscal year 2015 expense. The Company estimates that fiscal year 2016 expense for its U.S. combined nonqualified plans would have been approximately \$14 higher under the single equivalent rate approach, all else being equal.

The actuarial assumptions used in measuring the net periodic benefit cost and plan obligations were as follows:

Qualified plans:

Weighted-average assumptions used to determine benefit obligation:

Discount rate	3.99%	3.75%
Rate of compensation increase	4.00%	4.00%
Weighted-average assumptions used to determine net periodic benefit cost:		
Discount rate - interest cost	3.27%	3.75%
Discount rate - service cost	4.16%	3.75%
Rate of compensation increase	4.00%	4.00%
Long-term rate of return on plan assets	6.50%	7.00%
Measurement date	11/30/2015	11/30/2014

Nonqualified plans:

Weighted-average assumptions used to determine benefit obligation:

Discount rate	3.35%	3.00%
Rate of compensation increase	4.00%	4.00%
Weighted-average assumptions used to determine net periodic benefit cost:		
Discount rate - interest cost	2.57%	3.00%
Discount rate - service cost	2.49%	3.00%
Rate of compensation increase	4.00%	4.00%
Measurement date	11/30/2015	11/30/2014

The Company's policy is to contribute to its qualified U.S. and non-U.S. pension plans at least the minimum amount required by applicable laws and regulations, to contribute to the U.S. combined nonqualified plans when required for benefit payments, and to contribute to the postretirement healthcare benefit plan an amount equal to the benefit payments. The Company, from time to time, makes voluntary contributions in excess of the minimum amount required as economic conditions warrant.

CLARCOR Inc.

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

(Dollars in thousands except share data)

(Unaudited)

The Company expects to contribute up to the following amounts to its various plans to pay benefits during 2016:

U.S. Qualified Plans	\$—
U.S. Combined Nonqualified Plans	159
Non-U.S. Plan	384
Postretirement Healthcare Benefit Plan	45
Total expected contributions	\$588

During the three and nine months ended August 27, 2016, the Company contributed \$100 and \$201 to its various plans. In addition to the plan assets related to its qualified plans, the Company has also funded \$641 and \$729 at August 27, 2016 and November 28, 2015, respectively, into a restricted trust for its U.S. combined nonqualified plans (see Note 5). This trust is included in Other noncurrent assets in the Consolidated Condensed Balance Sheets.

11. INCOME TAXES

The following is a reconciliation of the beginning and ending amounts of gross unrecognized tax benefits for uncertain tax positions, including positions which impact only the timing of tax benefits:

	Nine Months Ended	
	August 27, 2016	August 29, 2015
Unrecognized tax benefits at beginning of year	\$3,859	\$ 2,487
Additions for current period tax positions	757	395
Additions related to acquired tax positions	—	1,052
Reductions for prior period tax positions	—	(22)
Reductions for lapse of statute of limitations / settlements	(28)	(33)
Changes in interest and penalties	109	68
Unrecognized tax benefits at end of period	\$4,697	\$ 3,947

At August 27, 2016, the amount of unrecognized tax benefit that would impact the effective tax rate, if recognized, was \$3,369. The Company recognizes interest and penalties related to unrecognized benefits in income tax expense. At August 27, 2016, the Company had \$352 accrued for the payment of interest and penalties.

The Company believes it is reasonably possible that the total amount of unrecognized tax benefits will decrease by \$282 over the next twelve months as a result of expected settlements with taxing authorities or the lapse of the statute of limitations in certain jurisdictions. Due to the various jurisdictions in which the Company files tax returns and the uncertainty regarding the timing of settlements, it is possible that there could be other significant changes in the amount of unrecognized tax benefits in the next twelve months; however, the amount cannot be estimated.

The Company is regularly audited by federal, state and foreign tax authorities. The Company's federal tax returns for years subsequent to fiscal year 2012 are open for examination. With few exceptions, the Company is no longer subject to income tax examinations by state or foreign tax jurisdictions for years prior to 2010.

In June of 2016, management reversed the Company's permanent reinvestment assertion with respect to the amount of foreign earnings that have already been subject to U.S. tax under the Subpart F rules of the Internal Revenue Code. This reconsideration was based on a number of factors, including the receipt of foreign withholding tax exemptions

based on a legal entity restructuring that the Company had undertaken in the prior year, the potential impact that proposed debt-equity tax regulations in the U.S. may have on the ability to repatriate earnings in the future, and consideration of the uncertainty with respect to the volatility of foreign currencies, particularly with the vote in favor of leaving the European Union in the United Kingdom referendum held on June 23, 2016. Based on this analysis, the Company repatriated approximately \$23,000 of previously taxed foreign earnings during the quarter and has approximately \$3,200 of previously taxed earnings remaining in foreign jurisdictions which may be repatriated

CLARCOR Inc.

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

(Dollars in thousands except share data)

(Unaudited)

in the future. The change in assertion for these foreign earnings resulted in a tax benefit of approximately \$1,176 that was recorded during the quarter based on the cumulative foreign exchange movement for these earnings in prior periods. All current and future tax impacts of foreign exchange adjustments to these earnings will be recorded as a cumulative translation adjustment on an ongoing basis. The Company intends to continue to reinvest its remaining foreign earnings in overseas operations for an indefinite duration and may utilize such earnings for continued growth and expansion in existing or new markets.

The Company's effective tax rate decreased 5.5 percentage points to 27.9% in the third quarter of 2016 from 33.4% in the third quarter of 2015. This decrease was primarily the result of a 2.4% favorable impact in the third quarter of 2016 from the change in assertion on foreign earnings discussed above as well as a 1.2% favorable impact from the benefits of the renewed research and development tax credit. The effective tax rate in the third quarter of 2015 also increased approximately 0.9% due to the federal and state tax impacts of gain recorded on the sale of J.L. Clark, which did not recur in 2016.

The effective tax rate for the first nine months of 2016 decreased 1.4% to 30.7% from 32.1% in the first nine months of 2015. This decrease was primarily driven by the change in assertion on foreign earnings in the current quarter as well as the favorable impact of the renewed research and development tax credit during the current year. The increase in the effective tax rate during 2015 related to the gain on the sale of J.L. Clark, which did not recur during 2016 and was offset by the tax impact of the Transweb/3M litigation satisfaction of judgment (see Note 12) recorded in domestic earnings during 2016.

12. CONTINGENCIES

Legal Contingencies

From time to time, the Company is subject to lawsuits, investigations and disputes (some of which involve substantial claimed amounts) arising out of the conduct of its business, including matters relating to commercial transactions, product liability, intellectual property and other matters. Certain significant items included in these other matters are discussed below. The Company believes recorded reserves in its Consolidated Condensed Financial Statements are adequate in light of the probable and reasonably estimable outcomes of the items discussed below and other applicable matters. Any recorded liabilities were not material to the Company's financial position, results of operation or liquidity for the periods presented, and the Company does not currently believe that any pending claims or litigation, including those identified below, will materially affect its financial position, results of operation or liquidity.

TransWeb/3M

On May 21, 2010, 3M Company and 3M Innovative Properties ("3M") brought a lawsuit against TransWeb, LLC ("TransWeb") in the United States District Court for the District of Minnesota, alleging that certain TransWeb products infringe multiple claims of certain 3M patents. Shortly after receiving service of process in this litigation, TransWeb filed its own complaint against 3M in the United States District Court for the District of New Jersey, seeking a declaratory judgment that the asserted patents are invalid and that the products in question do not infringe. 3M withdrew its Minnesota action, and the parties litigated the matter in New Jersey. The litigation in question was filed and underway before the Company acquired TransWeb in December 2010, but the Company assumed the risk of this litigation as a result of the acquisition.

During the litigation TransWeb sought judgment that (i) the asserted 3M patents are invalid, the TransWeb products in question do not infringe, and the 3M patents are unenforceable due to inequitable conduct by 3M in obtaining the patents, and (ii) 3M violated U.S. federal antitrust laws under theories of Walker Process fraud and sham litigation. Following a 2012 trial in which a six-member jury unanimously found in TransWeb's favor on all counts other than sham litigation, on April 21, 2014 the U.S. District Court for the District of New Jersey issued a ruling in favor of TransWeb and awarded TransWeb approximately \$26,147 in damages.

3M timely exercised its automatic right to appeal the District Court's judgment to the U.S. Court of Appeals for the Federal Circuit. On February 10, 2016, the Court of Appeals issued a unanimous decision upholding the lower court's rulings in all respects. Following this ruling, on March 7, 2016, 3M agreed to pay TransWeb \$27,250 in full and final satisfaction of the judgment and applicable interest and to forgo any further rights of appeal, and TransWeb and the Company agreed not to seek any further recoveries from 3M with respect to this matter. 3M made the required payment on March 9, 2016, and the parties jointly filed a stipulated satisfaction of judgment with the District Court on March 14, 2016, concluding this matter. The Company recorded the payment in Other, net in the Consolidated Condensed Statements of Earnings.

Other

The Company is party to various proceedings relating to environmental issues. The U.S. Environmental Protection Agency and/or other responsible state agencies have designated the Company as a potentially responsible party, along with other companies, in remedial activities for the cleanup of waste sites under the Comprehensive Environmental Response, Compensation, and Liability Act (commonly referred to as the federal Superfund statute). Although it is

not certain what future environmental claims, if any, may be asserted in connection with these known environmental matters, the Company currently believes that its potential liability for known environmental matters is not material and that it has adequately reserved for any probable and reasonably estimable liabilities based on the information available to the Company. However, environmental and related remediation costs are difficult to quantify for a number of reasons, including the number of parties involved, the difficulty in determining the nature and extent of the contamination at issue, the length of time remediation may require, the complexity of the environmental regulation, the continuing advancement of remediation technology, and the potential imposition of joint and several liability on each potentially responsible party for the cleanup.

In addition to the matters cited above, the Company is involved in legal actions arising in the normal course of business. The Company records provisions with respect to identified claims or lawsuits when it is probable that a liability has been incurred and the amount of the loss can be reasonably estimated. Claims and lawsuits are reviewed quarterly and provisions are taken or adjusted to reflect the status of a particular matter.

Page 26

CLARCOR Inc.

(Dollars in thousands except share data)

(Unaudited)

Other Contingencies

In the event of a change in control of the Company, termination benefits are likely to be required for certain executive officers and other employees.

13. INCENTIVE PLANS AND STOCK-BASED COMPENSATION

On March 25, 2014, the shareholders of CLARCOR approved the 2014 Incentive Plan, which replaced the 2009 Incentive Plan. The 2014 Incentive Plan allows the Company to grant stock options, restricted stock unit awards, restricted stock, performance awards and other awards to officers, directors and key employees of up to 6,600,000 shares during a ten-year period that ends in April 2024. Upon share option exercise or restricted stock unit award conversion, the Company issues new shares unless treasury shares are available. The key provisions of the Company's stock-based incentive plans are described in Note O of the Company's Consolidated Financial Statements included in the 2015 Form 10-K.

Stock Options

Nonqualified stock options are granted at exercise prices equal to the market price of CLARCOR common stock at the date of grant, which is the date the Company's Board of Directors approves the grant and the participants receive it. The Company's Board of Directors determines the vesting requirements for stock options at the time of grant and may accelerate vesting. In general, options granted to key employees vest 25% per year beginning at the end of the first year; therefore, they become fully exercisable at the end of four years. Vesting may be accelerated in the event of retirement, disability or death of a participant or change in control of the Company. Options granted to non-employee directors vest immediately, however, beginning in 2013 stock-based compensation for the Company's Board of Directors has been in the form of restricted stock, rather than stock options. All options expire ten years from the date of grant unless otherwise terminated.

The following table summarizes information related to stock options and stock option exercises during the three and nine months ended August 27, 2016 and August 29, 2015:

	Quarter Ended August 27, 2016		Nine Months Ended August 29, 2015	
Pre-tax compensation expense	\$ 522	\$ 896	\$ 2,346	\$ 4,460
Deferred tax benefits	(190)	(326)	(853)	(1,622)
Excess tax benefits associated with tax deductions over the amount of compensation expense recognized in the consolidated condensed financial statements	981	139	1,804	923
Fair value of stock options on date of grant	—	—	2,144	3,196
Total intrinsic value of stock options exercised	5,991	535	12,230	3,699
Cash received upon exercise of stock options	13,830	710	29,292	5,306
Addition to capital in excess of par value due to exercise of stock options	14,491	830	30,392	6,079

CLARCOR Inc.

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

(Dollars in thousands except share data)

(Unaudited)

The following table summarizes activity for the nine months ended August 27, 2016 with respect to stock options granted by the Company and includes options granted under the 1994 Incentive Plan, the 2004 Incentive Plan, the 2009 Incentive Plan and the 2014 Incentive Plan:

	Options Granted Under Incentive Plans	Weighted Average Exercise Price
Outstanding at beginning of year	2,422,538	\$ 48.46
Granted	296,500	\$ 46.45
Exercised	(709,312)	\$ 41.67
Surrendered	(54,348)	\$ 54.02
Outstanding at end of period	1,955,378	\$ 50.47
Exercisable at end of period	1,267,125	\$ 48.42

At August 27, 2016, there was \$2,482 of unrecognized compensation cost related to option awards which the Company expects to recognize over a weighted-average period of 1.87 years.

The following table summarizes information about the Company's outstanding and exercisable options at August 27, 2016:

Range of Exercise Prices	Options Outstanding				Options Exercisable			
	Number	Weighted Average Exercise Price	Intrinsic Value	Weighted Average Remaining Life in Years	Number	Weighted Average Exercise Price	Intrinsic Value	Weighted Average Remaining Life in Years
\$25.31 - \$36.48	222,557	\$ 32.70	\$7,254	2.39	222,557	\$ 32.70	\$7,254	2.39
\$42.86 - \$57.74	1,041,420	\$ 46.42	19,649	6.71	692,134	\$ 46.50	13,003	5.54
\$61.57 - \$63.22	691,401	\$ 62.28	2,083	7.76	352,434	\$ 62.13	1,114	7.66
	1,955,378	\$ 50.47	\$28,986	6.59	1,267,125	\$ 48.42	\$21,371	5.58

The fair value of each option grant is estimated on the date of grant using the Black-Scholes option pricing model with the following weighted average assumptions by grant year:

	Nine Months Ended			
	August 27, 2016		August 29, 2015	
Weighted average fair value per option at the date of grant for options granted	\$7.23		\$10.26	
Risk-free interest rate	1.46 %		1.31 %	
Expected dividend yield	1.89 %		1.27 %	
Expected volatility factor	20.40 %		19.50 %	
Expected option term in years	5.0		5.0	

The expected option term in years selected for options granted during each period presented represents the period of time that the options are expected to be outstanding based on historical data of option holder exercise and termination behavior. Expected volatilities are based upon historical volatility of the Company's monthly stock closing prices over a period equal to the expected life of each option grant. The risk-free interest rate is selected based on yields from

U.S. Treasury zero-coupon issues with a remaining term approximately equal to the expected term of the options being valued. Expected dividend yield is based on the estimated dividend yield determined on the date of issuance.

(Dollars in thousands except share data)

(Unaudited)

Restricted Stock Unit Awards

The Company's restricted stock unit awards are considered nonvested share awards. The restricted stock unit awards require no payment from the employee. Compensation cost is recorded based on the market price of the stock on the grant date and is recorded equally over the vesting period (generally four years). During the vesting period, officers and key employees receive compensation equal to the amount of dividends declared on common shares they would have been entitled to receive had the shares been issued. Upon vesting, employees may elect to defer receipt of their shares. There were 8,058 and 14,520 vested and deferred shares at August 27, 2016 and November 28, 2015, respectively.

The following table summarizes information related to restricted stock unit awards during the three and nine months ended August 27, 2016 and August 29, 2015:

	Quarter Ended August 27, 2016		Nine Months Ended August 29, 2015	
Pre-tax compensation expense	\$ 325	\$ 427	\$ 1,598	\$ 2,050
Deferred tax benefits	(118)	(155)	(581)	(745)
Excess tax (shortfall) benefits associated with tax deductions over the amount of compensation expense recognized in the consolidated condensed financial statements	4	4	(106)	215
Fair value of restricted stock unit awards on date of grant	—	25	2,954	3,208
Fair value of restricted stock unit awards vested	58	154	1,590	1,132

The following table summarizes activity for the nine months ended August 27, 2016 with respect to the restricted stock unit awards:

	Units	Weighted Average Grant Date Fair Value
Nonvested at beginning of year	71,592	\$ 60.09
Granted	63,605	\$ 46.45
Vested	(28,613)	\$ 55.57
Surrendered	(3,919)	\$ 34.88
Nonvested at end of period	102,665	\$ 52.51

As of August 27, 2016, there was \$3,218 of total unrecognized compensation cost related to restricted stock unit awards which the Company expects to recognize over a weighted-average period of 2.60 years.

Restricted Stock Unit Awards with Performance Conditions

Beginning in 2015, performance awards were issued to officers and certain key employees as an incentive to achieve revenue growth and operating profit margin goals over a three-year period. The awards are in the form of restricted stock units, which vest at the end of the three-year period if the specified sales growth and operating margin goals are achieved. These restricted stock unit awards are considered nonvested share awards. The restricted stock unit awards require no payment from the employee. Fair value of the restricted stock units is determined based on the market price of the stock on the grant date. Compensation cost is recorded equally over the three-year period in which the

stock units are earned, based on a periodic determination of the probable performance outcome. There were no vested shares at August 27, 2016 and November 28, 2015, respectively.

CLARCOR Inc.

Pre-tax compensation expense	\$— (709)	\$— 218
Deferred tax benefits	— 258	— (79)
Excess tax benefits associated with tax deductions over the amount of compensation expense recognized in the consolidated condensed financial statements	— —	— —
Fair value of restricted stock unit awards on date of grant	— —	— 5,857
Fair value of restricted stock unit awards vested	— —	— —

The following table summarizes activity for the nine months ended August 27, 2016 with respect to the restricted stock unit awards with performance conditions:

	Units	Weighted Average Grant Date Fair Value
Nonvested at beginning of year	92,650	\$ 63.22
Granted	—	\$ —
Vested	—	\$ —
Surrendered	(13,836)	\$ 63.22
Nonvested at end of period	78,814	\$ 63.22

As of August 27, 2016, there was \$4,975 of total unrecognized compensation cost related to restricted stock unit awards with performance conditions. The Company does not currently expect to recognize any of this compensation cost, based on the probable performance outcome.

Directors' Restricted Stock Compensation

The incentive plans provide for grants of shares of common stock to all non-employee directors for annual incentive awards, and for grants of shares of common stock to all non-employee directors equal to a one-year annual retainer in lieu of cash at the directors' option. The directors' rights to the shares vest immediately on the date of grant; however, shares issued on annual retainer fees cannot be sold for a six-month period from the date of grant. The following table summarizes information related to directors' stock compensation during the three and nine months ended August 27, 2016 and August 29, 2015, respectively:

	Quarter Ended		Nine Months Ended	
	August 27, 2016	August 29, 2015	August 27, 2016	August 29, 2015
Pre-tax compensation expense	\$ 32	\$ 114	\$ 1,182	\$ 994
Shares of Company common stock issued under the plans	—	1,909	21,306	15,261

14. EARNINGS PER SHARE AND STOCK REPURCHASE ACTIVITY

The Company calculates basic earnings per share by dividing net earnings by the weighted average number of shares outstanding. Diluted earnings per share reflects the impact of outstanding stock options, restricted stock and other stock-based arrangements. The FASB has issued guidance requiring unvested share-based payment awards containing nonforfeitable rights to dividends or dividend equivalents (whether paid or unpaid) be considered participating securities and included in the computation of earnings per share pursuant to the two-class method. The Company's unvested restricted stock unit awards discussed in Note 13 qualify as participating securities under this guidance. However, the unvested restricted stock unit awards do not materially

Page 30

CLARCOR Inc.

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

(Dollars in thousands except share data)

(Unaudited)

impact the calculation of basic or diluted earnings per share; therefore, the Company does not present the two-class method computation. The following table provides a reconciliation of the numerators and denominators utilized in the calculation of basic and diluted earnings per share:

	Quarter Ended		Nine Months Ended	
	August 27, August 29,		August 27, August 29,	
	2016	2015	2016	2015
Weighted average number of shares outstanding - Basic	48,653,220	40,099,852	48,723,459	50,188,327
Dilutive effect of stock-based arrangements	401,827	425,197	379,752	513,163
Weighted average number of shares outstanding - Diluted	49,055,047	40,525,049	49,103,211	50,701,490
Net earnings attributable to CLARCOR Inc.	\$35,749	\$ 36,445	\$ 110,266	\$ 101,651
Net earnings per share attributable to CLARCOR Inc. - Basic	\$0.73	\$ 0.73	\$2.26	\$ 2.03
Net earnings per share attributable to CLARCOR Inc. - Diluted	\$0.73	\$ 0.72	\$2.25	\$ 2.00

The following table provides additional information regarding the calculation of earnings per share and stock repurchase activity:

	Quarter Ended		Nine Months Ended	
	August 27, August 29,		August 27, August 29,	
	2016	2015	2016	2015
Number of antidilutive options with exercise prices greater than the average market price excluded from the computation of dilutive earnings per share	296,500	730,150	728,352	730,150
Common stock repurchased and retired pursuant to the Company's stock repurchase program	\$27,191	\$ 14,086	\$65,402	\$ 30,196
Number of shares repurchased and retired pursuant to the Company's stock repurchase program	455,797	233,000	1,253,404	481,000

At August 27, 2016, there remained \$227,838 authorized for future purchases under the Company's \$250,000 stock repurchase program that was approved by the Company's Board of Directors on June 27, 2016.

15. SEGMENT INFORMATION

During the periods presented herein, the Company had operated in three principal product segments: Engine/Mobile Filtration, Industrial/Environmental Filtration and Packaging. Refer to Note 3 for discussion of the divestiture of J.L. Clark on June 27, 2015, which was the sole operating company within the Company's Packaging segment. Net sales represent sales to unaffiliated customers as reported in the Consolidated Condensed Statements of Earnings. Intersegment sales were not material. Unallocated amounts consist of interest expense, interest income and other non-operating income and expense items. Assets are those assets used in each business segment. Corporate assets consist of cash, deferred income taxes, corporate facility and equipment, goodwill, other intangible assets and various other assets that are not specific to an operating segment. The Company operates as a consolidated entity, including cooperation between segments, cost allocating and sharing of certain assets. As such, the Company makes no representation, that if operated on a standalone basis, these segments would report net sales, operating profit and other financial data reflected below.

CLARCOR Inc.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The information presented in this discussion should be read in conjunction with other financial information provided in the Consolidated Condensed Financial Statements and accompanying notes and with the audited Consolidated Financial Statements and accompanying notes included in the 2015 Form 10-K. Except as otherwise set forth herein, references to particular years or quarters refer to our applicable fiscal year or quarter. The analysis of operating results focuses on our three reportable business segments: Engine/Mobile Filtration, Industrial/Environmental Filtration and Packaging. On June 27, 2015, the Company completed the disposition of J.L. Clark, which was the sole operating company within the Packaging segment. The financial results presented herein for fiscal 2015 reflect the results of J.L. Clark through the date of disposition.

EXECUTIVE SUMMARY

Management Discussion Snapshot
(In thousands, except per share data)

	Third Quarter			First Nine Months

Net earnings margin	10.8 %	10.2 %		0.6 pt	10.9 %	9.2 %		1.7 pt	

Third Quarter

Net Sales

Net sales decreased \$26.2 million, or 7%, in the third quarter of 2016 from the third quarter of 2015. Estimated components of this 7% decrease in net sales are as follows:

Organic volume	(5)%
Foreign exchange	(2)%
Divestiture of J.L. Clark	(1)%
Pricing	— %
TDC acquisition	1 %
	(7)%

The decrease in net sales in the third quarter of 2016 from the third quarter of 2015 was driven primarily by the following factors:

Decreased net sales of \$13.8 million, or 7%, at our Industrial/Environmental Filtration segment. This net sales decrease resulted from a \$11.5 million, or 8%, decrease in sales within the U.S. and a \$2.3 million, or 4%, decrease in foreign net sales, which includes a negative impact of \$3.3 million, or 5%, due to changes in foreign currency exchange rates. This 8% decrease in sales volume within the U.S. resulted primarily from decreased sales of natural gas filtration vessels, industrial air and liquid filtration products, partly offset by higher sales of HVAC air filters and \$2.9 million of increased sales from our TDC acquisition. This 4% decrease in foreign net sales primarily resulted from the \$3.3 million negative impact of changes in foreign currency exchange rates and from lower sales of natural gas filtration vessels partially offset by increased sales of gas turbine air intake filtration systems and replacement filters and increased sales of HVAC filters.

Decreased net sales of \$5.3 million due to the June 2015 divestiture of J.L. Clark, the sole operating company within our Packaging segment, which the Company sold to CCI on June 27, 2015.

Decreased net sales of \$7.0 million, or 5%, at our Engine/Mobile Filtration segment. This net sales decrease resulted from a \$3.9 million, or 4%, decrease in sales within the U.S. and a \$3.1 million, or 6%, decrease in foreign net sales, which includes a negative impact of \$2.1 million, or 4%, due to changes in foreign currency exchange rates. This 4% decrease in sales volume within the U.S. resulted primarily from lower heavy-duty engine filter aftermarket sales to the retail and automotive filtration markets. This decrease was partially offset by an increase in heavy-duty engine filter sales to original equipment suppliers and dealers, primarily reflecting more stable demand for off-highway, agricultural and construction applications compared to this time last year and partly due to Lean operational improvements introduced this year which enabled us to work through an accumulation of past due customer shipments in the third quarter. The decrease in foreign net sales volume in this segment primarily resulted from the \$2.1 million negative impact of changes in foreign currency exchange rates, an approximately 6% decrease in heavy-duty engine filter sales in Europe and an approximately 10% decrease in export sales of heavy-duty engine filters to customers in Southeast Asia, South America and the Middle East partially offset by an approximately 7% increase in heavy-duty engine filter sales in China.

The changes in foreign currency exchange rates which negatively impacted net sales in the third quarter of 2016 compared to the third quarter of 2015 in our Industrial/Environmental and Engine/Mobile Filtration segments as set forth above primarily resulted from the strengthening of the U.S. dollar against the British pound, the Mexican peso

and several other foreign currencies where our foreign income and cash flows are derived.

Cost of Sales

Cost of sales decreased \$20.8 million, or 9%, in the third quarter of 2016 from the third quarter of 2015. This 9% decrease in cost of sales was a result of the 7% decrease in net sales noted above as well as the impact of previously announced restructuring activities and other cost reduction initiatives. In addition, our gross margin of 34.5% in the third quarter of 2016 improved from our gross margin of 33.5% in the third quarter of 2015. This year-over-year gross margin improvement reflects an approximately 1.4 percentage point improvement in gross margin resulting from previously announced restructuring activities and other cost reduction initiatives, as well as an approximately 0.1 percentage point improvement in gross margin resulting from the favorable

mix impact from the J.L. Clark divestiture. These favorable impacts were offset by an approximately 0.7 percentage point reduction in gross margin resulting from lower fixed cost absorption due to lower sales volume, as well as unfavorable sales mix at certain of our businesses, including lower sales of higher margin locomotive filtration products and higher sales of lower margin gas turbine air intake filtration systems and replacement filters. Gross margin in the third quarter of 2016 was positively impacted by approximately 0.2 percentage points resulting from increases in the selling prices of certain products in our Industrial/Environmental Filtration segment.

Selling and Administrative Expenses

Selling and administrative expenses decreased \$5.6 million, or 8%, in the third quarter of 2016 from the third quarter of 2015. This decrease was primarily driven by a \$3.3 million decrease in bad debt expense pursuant to improving past due accounts receivable collections, an estimated \$2.7 million reduction in costs resulting from previously announced restructuring actions and other cost reduction initiatives, primarily reflecting reduced headcount, a \$0.8 million reduction due to the divestiture of J.L. Clark and \$0.8 million of other net expense reductions. These decreases were partially offset by approximately \$2.0 million of increased costs related to strategic growth initiatives (primarily reflecting costs related to research and development and information technology systems and support services). Since selling and administrative expenses decreased 8% and net sales decreased 7%, our selling and administrative expenses as a percentage of net sales decreased to 19.2% in the third quarter of 2016 from 19.4% in the third quarter of 2015.

First Nine Months

Net Sales

Net sales decreased \$95.9 million, or 9%, in the first nine months of 2016 from the first nine months of 2015. Estimated components of this 9% decrease in net sales are as follows:

Divestiture of J.L. Clark	(4)%
Organic volume	(4)%
Foreign exchange	(2)%
Pricing	— %
TDC acquisition	1 %
	(9)%

The decrease in net sales in the first nine months of 2016 from the first nine months of 2015 was driven primarily by the following factors:

Decreased net sales of \$40.9 million due to the June 2015 divestiture of J.L. Clark, the sole operating company within our Packaging segment, which the Company sold to CCI on June 27, 2015.

Decreased net sales of \$30.7 million, or 5%, at our Industrial/Environmental Filtration segment. This net sales decrease resulted from a \$35.5 million, or 8%, decrease in sales within the U.S. partially offset by an \$4.7 million, or 3%, increase in foreign net sales, which includes a negative impact of \$11.2 million, or 6%, due to changes in foreign currency exchange rates. This 8% decrease in sales volume within the U.S. resulted primarily from decreased sales of natural gas filtration vessels, industrial air filtration products and membrane and performance fabrics, partially offset by higher sales of HVAC air filters and commercial and military aerospace filters and by \$7.6 million of increased sales from our TDC acquisition. This 3% increase in foreign net sales primarily resulted from increased sales of gas turbine air intake filtration systems and replacement filters and increased sales of HVAC filters, partially offset by the \$11.2 million negative impact due to changes in foreign currency exchange rates and by lower sales of natural gas filtration vessels and lower sales of sand control filtration products for oil drilling applications.

Decreased net sales of \$24.2 million, or 5%, at our Engine/Mobile Filtration segment. This net sales decrease resulted from a \$12.6 million, or 4%, decrease in sales within the U.S. and a \$11.6 million, or 8%, decrease in foreign net sales, which includes a negative impact of \$7.5 million, or 5%, due to changes in foreign currency exchange rates. This 4% decrease in sales volume within the U.S. resulted primarily from lower sales of heavy-duty engine filter assemblies and elements to original equipment suppliers and dealers, primarily reflecting lower demand for off-highway, agricultural and construction applications, as well as lower heavy-duty engine filter aftermarket sales to the retail and automotive channels and to other filtration company customers. This 8% decrease in foreign net sales volume in this segment primarily

resulted from the \$7.5 million negative impact due to changes in foreign currency exchange rate and lower export sales of diesel fuel filter assemblies and replacement filters, partially offset by an approximately 2% increase in heavy-duty engine filter sales in Europe.

Cost of Sales

Cost of sales decreased \$66.7 million, or 9%, in the first nine months of 2016 from the first nine months of 2015. This 9% decrease in cost of sales was slightly more than the 9% decrease in net sales. Our gross margin increased slightly to 33.3% in the first nine months of 2016 from 33.0% in the first nine months of 2015. This 0.3 percentage point increase in gross margin reflects an approximately 4.0 percentage point improvement in gross margin resulting from previously announced restructuring activities and other cost reduction initiatives, an approximately 0.8 percentage point improvement in gross margin from lower freight costs as well as an approximately 0.7 percentage point improvement in gross margin resulting from the favorable mix impact from the J.L. Clark divestiture. These increases were partially offset by an approximately 4.3 percentage point reduction in gross margin resulting from lower fixed cost absorption due to lower sales volume, as well as unfavorable sales mix at certain of our businesses. Gross margin in the first nine months of 2016 was also adversely impacted by approximately 0.6 percentage points resulting from \$2.2 million of upfront expenses impacting cost of sales incurred in the first nine months of 2016 related to cost reduction initiatives in our Industrial/Environmental Filtration segment.

Selling and Administrative Expenses

Selling and administrative expenses decreased \$17.1 million, or 8%, in the first nine months of 2016 from the first nine months of 2015. This decrease was primarily driven by an estimated \$9.5 million reduction in costs resulting from previously announced restructuring actions and other cost reduction initiatives, primarily reflecting reduced headcount, a \$4.8 million reduction due to the divestiture of J.L. Clark, a \$3.3 million reduction in bad debt expense pursuant to improving past due accounts receivable collections, a \$2.6 million reduction in costs related to stock-based compensation, \$1.5 million of favorable foreign currency translation impacts and \$1.1 million related to the adjustment to the Filter Resources contingent earn-out liability in the second quarter of 2016. These decreases were partially offset by approximately \$5.7 million of increased costs related to strategic growth initiatives (primarily reflecting costs related to research and development and information technology systems and support services). Since selling and administrative expenses decreased 8% while net sales decreased 9%, our selling and administrative expenses as a percentage of net sales increased to 19.8% in the first nine months of 2016 from 19.6% in the first nine months of 2015.

Other Items

Other significant items impacting the comparison between the periods presented are as follows:

Business Acquisitions

On January 29, 2016, the Company acquired certain assets of TDC Filter Manufacturing, Inc., for a purchase price of approximately \$11.3 million. TDC is now operated as part of CLARCOR Industrial Air which is included in the Company's Industrial/Environmental Filtration segment.

On March 3, 2016, the Company acquired certain assets of FibeRio Technology Corporation, a technology company focused on the research, development and commercialization of nonwoven nanofiber media, for a purchase price of approximately \$11.9 million. The acquired assets are in the process of being merged into the CLARCOR Innovation Center, located near the Company's headquarters in Franklin, Tennessee, which supports the Company's global growth and innovation initiatives including research & development.

Foreign Exchange

The average exchange rates for foreign currencies versus the U.S. dollar unfavorably impacted our 2016 translated U.S. dollar value of net sales and operating profit compared to the same period in 2015 as follows:

(Dollars in millions)	Third Quarter	First Nine Months
Net sales	\$ (5.4)	\$ (18.6)
Operating profit (loss)	(0.4)	(2.0)

Other income (expense)

Interest expense

We recognized Interest expense in Other income (expense) as follows:

(Dollars in millions)	Third Quarter	First Nine Months
2016	\$ (1.8)	\$ (5.7)
2015	(1.3)	(4.0)

Interest expense primarily reflects \$1.8 million of interest expense in the third quarter of 2016 and \$5.7 million of interest expense in the first nine months of 2016, respectively, related to borrowings on the Company's credit agreement, which borrowings were originally undertaken to fund a portion of the purchase price of the Company's 2014 acquisitions of the GE Air Filtration business and the Stanadyne business. At the end of the third quarter of 2016, we had \$195.0 million of outstanding term loans and \$115.0 million of outstanding revolver loans under the Company's credit agreement.

Foreign currency gains and (losses)

We recognized foreign currency gains (losses) in other income (expense) as follows:

(Dollars in millions)	Third Quarter	First Nine Months
2016	\$ 0.2	\$ 0.4
2015	0.3	(0.2)

Foreign currency gains (losses) in the third quarter and first nine months of 2016 and in the third quarter and first nine months of 2015 primarily reflect the translation of inter-company loans--in cases where such loans are expected to be settled in cash at some point in the future--at certain foreign subsidiaries denominated in currencies other than their functional currencies, as well as the translation of cash accounts at certain foreign subsidiaries denominated in currencies other than their functional currencies.

Other income (expense)

We recognized other, net items in other income (expense) as follows:

(Dollars in millions)	Third Quarter	First Nine Months
2016	\$ 0.4	\$ 27.6
2015	5.4	5.3

Other income was \$0.4 million and \$27.6 million in the third quarter and first nine months of 2016, respectively and primarily reflects the Company's receipt of \$27.3 million from 3M Company in satisfaction of the patent judgment against 3M Company during the second quarter of 2016 with respect to the TransWeb litigation matter. Please refer to Note 12 to the Consolidated Condensed Financial Statements for related discussion.

Other income in the third quarter and first nine months of 2015 primarily reflects a gain of \$12.1 million (after netting transaction-related costs of \$3.2 million) resulting from the sale of J.L. Clark to CCI on June 27, 2015. This income was partially offset by a loss of \$6.7 million in the third quarter and first nine months of 2015 resulting from the impairment of the Company's investments in BioProcess H2O LLC ("H2O") and BioProcess Algae LLC ("Algae"). Based on business developments at Algae, including a significant adverse change in the anticipated effectiveness and commercial scalability of its technology platform, in the third quarter of 2015 the Company reviewed the \$3.8 million carrying value of its investment in Algae for recoverability and determined that the investment -- which was accounted for under the cost method of accounting -- was fully impaired. Based on recent operating losses at H2O and other factors at such time, including the negative developments with respect to Algae, the Company also reviewed the \$2.7 million carrying value of its investment in H2O for recoverability and determined that the investment -- which was accounted for under the equity method of accounting -- was fully impaired.

Provisions for income taxes

Our effective tax rate was 27.9% in the third quarter of 2016 compared to 33.4% in the third quarter of 2015. Our effective tax rate in the third quarter of 2016 included a 2.4 percentage point favorable impact from a change in assertion on foreign earnings as well as a 1.2 percentage point favorable impact from the benefits of the renewed research and development tax credit. The effective tax rate in the third quarter of 2015 also included an approximately 0.9 percentage point unfavorable impact due to the federal and state tax impacts of the gain recorded on the sale of J.L. Clark, which did not recur in 2016.

Our effective tax rate decreased 1.4 percentage points to 30.7% in the first nine months of 2016 from 32.1% in the first nine months of 2015. This decrease was primarily driven by a change in assertion on foreign earnings in the current quarter as well as the favorable impact of the renewed research and development tax credit during the current year. The increase in the effective tax rate during 2015 related to the gain on the sale of J.L. Clark, which did not recur during 2016 and was offset by the tax impact of the domestic earnings resulting from the satisfaction of patent judgment proceeds received from 3M Company during 2016.

Shares outstanding

Average diluted shares outstanding decreased by approximately 1.5 million shares in the third quarter and by approximately 1.6 million shares in the first nine months of 2016 from the comparable periods of 2015, respectively, due primarily to our repurchases of common stock, partially offset by incremental dilutive shares related to stock option exercises and the issuance of stock options.

Our Engine/Mobile Filtration segment primarily sells original equipment and aftermarket filters for heavy-duty trucks and off-highway vehicles, locomotives and automobiles. The largest market included in this segment includes heavy-duty engine filters produced at our Baldwin and CLARCOR Engine Mobile Solutions business units.

Net Sales

The change in net sales for our Engine/Mobile Filtration segment in the third quarter and first nine months of 2016 from the comparable periods of 2015 are detailed in the following tables:

	Third Quarter	First Nine Months
Organic volume	(3)%	(3)%
Foreign exchange	(2)%	(2)%
	(5)%	(5)%

(Dollars in millions)	Third Quarter	First Nine Months
2015	\$151.7	\$457.5
U.S. net sales	(3.9)	(12.6)
Foreign net sales (including export)	(1.0)	(4.1)
Foreign exchange	(2.1)	(7.5)
Net change	(7.0)	(24.2)
2016	\$144.7	\$433.3

The changes in U.S. net sales for our Engine/Mobile Filtration segment in the third quarter and first nine months of 2016 from the comparable periods of 2015 are detailed as follows:

(Dollars in millions)	Third Quarter	First Nine Months
Light-duty (automotive) engine filtration aftermarket	\$ (1.9)	\$ (4.3)
Heavy-duty engine diesel fuel filter assemblies and replacement filters	0.2	(3.6)
Heavy-duty engine filtration aftermarket -- other filtration companies	(0.3)	(3.2)
Heavy-duty engine filtration aftermarket -- independent distributors	(1.0)	(2.8)
Heavy-duty engine filtration aftermarket -- retail channel	(1.9)	(1.5)
Locomotive Filters	0.3	1.4
Heavy-duty engine filtration aftermarket -- original equipment supply channel	0.8	0.1
All other, net	(0.1)	1.3
Change in U.S. net sales	\$ (3.9)	\$ (12.6)

Our U.S. net sales decreased 4% in the third quarter of 2016 compared with the third quarter of 2015. The decrease in sales of \$3.9 million was primarily the result of a \$1.9 million, or 30%, reduction in sales of light-duty engine filtration aftermarket products in the third quarter of 2016 compared to 2015, principally driven by lower demand for automotive applications, and a \$1.9 million, or 20%, reduction in sales of private-branded heavy-duty engine filtration aftermarket products to a significant retail customer initially obtained at the beginning of 2015, which we believe resulted from the initial channel fill sales to this customer in the prior year period and a strategic reorganization taking place at this customer during 2016. We also experienced a decline of \$1.0 million, or 2%, in heavy-duty engine filter aftermarket sales to U.S. independent distributors influenced by declines in product sales into oil and gas markets. These decreases were partially offset by an approximately \$0.8 million, or 10%, increase in sales of heavy-duty engine filtration aftermarket products to the original equipment supply channel reflecting more stable demand in these end markets.

Our U.S. net sales decreased 4% in the first nine months of 2016 compared with the first nine months of 2015. The decrease in sales of \$12.6 million was primarily the result of a \$4.3 million, or 24%, reduction in sales of light-duty engine filtration aftermarket products in the first nine months of 2016 compared to 2015, principally driven by lower demand for automotive applications, and a \$3.6 million, or 9%, reductions in sales of original equipment and replacement fuel filtration products for heavy-duty diesel engines used in off-road, agricultural and construction applications. In addition, this overall decrease reflects a \$3.2 million, or 11%, decline in sales to other filtration companies in the first nine months of 2016 compared to the first nine months of 2015 as the result of what we believe to be broader adverse macroeconomic dynamics, particularly within the oil and gas markets, impacting many industrial companies, generally, and filtration companies, in particular. Further contributing to the overall decrease was a \$2.8 million, or 2%, decline in heavy-duty engine filtration aftermarket sales and a \$1.5 million, or 6%, reduction in sales of private-branded heavy-duty engine filtration aftermarket products to a significant retail customer initially obtained at the beginning of 2015, which we believe resulted from the initial channel fill sales to this customer in the prior year period and a strategic reorganization taking place at this customer during 2016. These decreases were offset by an \$1.4 million, or 6%, increase in sales of locomotive filters.

The changes in foreign net sales (including export sales) for our Engine/Mobile Filtration segment in the second quarter and first nine months of 2016 from the comparable periods of 2015 are detailed as follows:

(Dollars in millions)	Third Quarter	First Nine
-----------------------	------------------	---------------

Edgar Filing: CLARCOR INC. - Form 10-Q

		Months
Export sales of heavy-duty engine diesel fuel filter assemblies and replacement filters	\$ 0.2	\$(5.2)
Export sales primarily to the Middle East, Southeast Asia and Latin America	(1.0)	—
Heavy-duty engine filter sales in Europe	(0.6)	0.6
Impact of changes in foreign currency exchange rates	(2.1)	(7.5)
All other, net	0.4	0.5
Change in foreign net sales	\$ (3.1)	\$(11.6)

Our foreign net sales decreased 6% in the third quarter of 2016 compared with the third quarter of 2015. This change principally resulted from the negative impact of changes in foreign currencies which impacted net sales in the amount of \$2.1 million, or 4%, a decrease of \$1.0 million, or 10%, in export sales of heavy-duty engine filters to various international markets and a decrease of \$0.6 million, or 6%, in sales of heavy-duty engine filtration products in Europe. This decrease was partially offset by an increase

of \$0.2 million, or 2%, in export sales of diesel fuel filter assemblies and replacement filters by the Stanadyne Business (now operated as CLARCOR Engine Mobile Solutions), reflecting an improvement in demand for off-highway, agricultural and construction applications in various export markets.

Our foreign net sales decreased 8% in the first nine months of 2016 compared with the first nine months of 2015. This decrease principally resulted from the negative impact of changes in foreign currencies which impacted net sales in the amount of \$7.5 million, or 5%, and a \$5.2 million, or 18%, decrease in export sales of diesel fuel filter assemblies and replacement filters by the Stanadyne Business (now operated as CLARCOR Engine Mobile Solutions), reflecting lower demand for off-highway, agricultural and construction applications in various export markets in the first two quarters of 2016 partially offset by slightly increased demand in these markets in the third quarter of 2016. This decrease was partially offset by an increase of \$0.6 million, or 2%, in heavy-duty engine filtration sales in Europe.

Cost of Sales

Cost of sales decreased \$5.6 million, or 6%, in the third quarter of 2016 from the third quarter of 2015. This decrease was more than the 5% decrease in net sales, resulting in our gross margin increasing to 35.1% in the third quarter of 2016 from 34.4% in the third quarter of 2015. This 0.7 percentage point increase in gross margin primarily reflects a 2.2 percentage point favorable impact due to cost reductions resulting from the Company's previously announced restructuring actions and other cost reduction initiatives, as well as a 0.8 percentage point increase from improvements in sales mix. These impacts were partially offset by a 2.4 percentage point decrease in gross margin resulting from lower fixed cost absorption due to lower sales levels.

Cost of sales decreased \$12.6 million, or 4%, in the first nine months of 2016 from the comparable period of 2015. This decrease was less than the 5% decrease in net sales. As a result, our gross margin decreased to 34.1% in the first nine months of 2016 from 34.8% in the first nine months of 2015. This 0.7 percentage point decrease in gross margin primarily reflects a 2.8 percentage point decrease in gross margin resulting from lower fixed cost absorption due to lower sales levels, as well as unfavorable changes in sales mix. Those impacts were partially offset by a 2.1 percentage point favorable impact due to cost reductions resulting from the Company's previously announced restructuring actions and other cost reduction initiatives.

Selling and Administrative Expenses

Selling and administrative expenses decreased \$3.0 million, or 12%, in the third quarter of 2016 from the third quarter of 2015. This decrease was primarily the result of a \$1.5 million decrease in bad debt expense pursuant to improving past due accounts receivable collections, an estimated \$0.8 million of cost reductions resulting from previously announced cost reduction initiatives, including headcount reductions, as well as reductions in travel, professional services and other costs through company-wide cost reduction initiatives as well as \$0.7 million of other net expense reductions. With selling and administrative expenses in this segment decreasing 12% while segment net sales decreased 5%, our selling and administrative expenses as a percentage of net sales decreased to 14.9% in the third quarter of 2016 from 16.2% in the third quarter of 2015.

Selling and administrative expenses decreased \$6.4 million, or 8%, in the first nine months of 2016 from the comparable period of 2015. This decrease was primarily the result of \$2.4 million of cost reductions resulting from previously announced cost reduction initiatives, including headcount reductions, as well as reductions in travel, professional services and other costs through company-wide cost reduction initiatives, a \$1.3 million decrease in bad debt expense due to the collection of a previously reserved for receivable, a \$1.3 million reduction in unfavorable foreign currency translation losses compared to the first nine months of 2015 and \$1.4 million of other net reductions. With selling and administrative expenses in this segment decreasing 8% while segment net sales decreased 5%, our selling and administrative expenses as a percentage of net sales decreased to 16.1% in the first nine months of 2016

from 16.7% in the comparable period of 2015.

Operating margin	11.4%	11.4%		— pt	10.1%	10.4%		(0.3) pt

Our Industrial/Environmental Filtration segment sells a variety of filtration products to various end-markets. Included in these markets are HVAC filters, natural gas filtration vessels and aftermarket filters, aviation fuel filters and filter systems, filtration systems and replacement filters for gas turbine air intake applications, industrial air filters, and other markets including oil drilling, aerospace, fibers and resins and dust collector systems.

Net Sales

The changes in net sales for our Industrial/Environmental Filtration segment in the third quarter and first nine months of 2016 from the comparable periods of 2015 are detailed in the following tables:

	Third Quarter	First Nine Months
Organic volume	(7) %	(4) %
TDC acquisition	2 %	1 %
Pricing	— %	— %
Foreign exchange	(2) %	(2) %
	(7) %	(5) %

(Dollars in millions)	Third Quarter	First Nine Months
2015	\$200.5	\$610.1
U.S. net sales	(11.5)	(35.5)
Foreign net sales (including export)	1.0	15.9
Foreign exchange	(3.3)	(11.2)
Net change	(13.8)	(30.8)
2016	\$186.7	\$579.3

The changes in U.S. net sales for our Industrial/Environmental Filtration segment in the third quarter and first nine months of 2016 from the comparable periods of 2015 are detailed as follows:

(Dollars in millions)	Third Quarter	First Nine Months
Natural gas filtration vessels and aftermarket elements	\$ (9.8)	\$ (23.7)
Dust collection and other industrial air filtration products	(1.1)	(12.2)
Gas turbine first-fit filters and systems	(1.3)	(7.2)
Industrial metals and polymer filtration products	(2.3)	(1.4)
TDC acquisition	2.9	7.6
Aerospace	0.1	3.1
All other, net	—	(1.7)
Change in U.S. net sales	\$ (11.5)	\$ (35.5)

Lower sales in the natural gas market in the third quarter and first nine months of 2016 from the comparable periods of 2015 was driven primarily by a decline in natural gas filtration vessel sales resulting from decreased activity in extraction, transportation and processing of natural gas and natural gas liquids and benefits of natural gas shale extraction infrastructure projects in the prior year periods.

Lower sales of dust collection and other industrial air filtration products in the third quarter and first nine months of 2016 from the comparable periods in 2015 was due primarily to decreased sales of panel, cartridge, bag and other industrial air replacement filters, partially reflecting several one-time orders in the prior year periods that did not recur in 2016. These lower sales were partially offset by increased sales of industrial air filtration products in the third quarter and first nine months of 2016 resulting from the TDC acquisition.

Lower sales of gas turbine air intake filtration systems at CLARCOR Industrial Air in the third quarter and first nine months of 2016 from the comparable periods of 2015 was driven primarily by the timing of large system sales and the geographic mix of customer orders.

Lower sales of industrial metals and polymer filtration products in the third quarter of 2016 from the third quarter of 2015 resulted from decreases in industrial filtration sales in the oil and gas, fluid processing, and synthetic fiber markets.

Increased aerospace filtration sales in the third quarter and first nine months of 2016 from the comparable periods in 2015 resulted from higher sales of hydraulic, air and auxiliary aerospace filters due to increased aftermarket demand from distributors and increased governmental spending on commercial and military aerospace filtration products.

The net changes in foreign net sales (including export sales) for the Industrial/Environmental Filtration segment in the third quarter and first nine months of 2016 from the comparable periods of 2015 are detailed as follows:

(Dollars in millions)	Third Quarter	First Nine Months
Gas turbine first-fit filters and systems	\$ 5.2	\$ 16.4
Export sales of HVAC filters	2.1	11.1
Natural gas filtration vessels and aftermarket elements	(6.2)	(7.1)
Industrial metals and polymer filtration products	(0.5)	(5.2)
Impact of changes in foreign currency exchange rates	(3.3)	(11.2)
All other, net	0.4	0.7

Change in foreign net sales \$ (2.3) \$ 4.7

Higher sales of gas turbine air intake filtration systems by CLARCOR Industrial Air in the third quarter and first nine months of 2016 from the comparable periods of 2015 was driven primarily by the timing of large system sales which occurred in 2016 and the geographic mix of customer orders.

Higher export sales of HVAC filters primarily reflect increased sales of air filtration products for animal husbandry applications to certain customers in the Middle East.

Page 44

Lower sales in the natural gas market in the third quarter and first nine months of 2016 from the comparable periods of 2015 was driven primarily by a decline in natural gas filtration vessel sales resulting from decreased activity in extraction, transportation and processing of natural gas and natural gas liquids.

Lower sales of industrial metals and polymer filtration products in the third quarter and first nine months of 2016 from the comparable periods of 2015 primarily reflects lower sales in the fluid processing and synthetic fiber markets as well as oil and gas sand control filters driven by lower demand from oil and gas customers, which we believe reflects lower oil and gas exploration and production activity resulting primarily from continued depressed prices of oil.

Net sales reflect a \$3.3 million and a \$11.2 million reduction in the third quarter and first nine months of 2016 from the comparable periods of 2015 due to changes in foreign currency exchange rates, primarily reflecting the strengthening of the U.S. dollar against the British pound, the Mexican peso and several other foreign currencies where our foreign income and cash flows are derived.

Cost of Sales

Cost of sales decreased \$10.6 million, or 8%, in the third quarter of 2016 from the third quarter of 2015. This decrease was more than the 7% decrease in net sales. As a result, our gross margin increased to 34.0% in the third quarter of 2016 from 33.3% in the third quarter of 2015. This 0.7 percentage point increase in gross margin primarily reflects a 1.0 percentage point increase due to sales mix with a higher proportion of higher margin aftermarket element sales as compared to lower margin natural gas filtration vessels, and a 0.8 percentage point favorable impact due to cost reductions resulting from the Company's restructuring activities and other cost reduction initiatives in 2016. These impacts were partially offset by an approximate 1.1 percentage point reduction in the third quarter of 2016 from the third quarter of 2015 in gross margin resulting from lower fixed cost absorption due to lower sales.

Cost of sales decreased \$20.1 million, or 5%, in the first nine months of 2016 from the first nine months of 2015. This decrease was slightly less than the 5% decrease in net sales. As a result, our gross margin decreased to 32.7% in the first nine months of 2016 from 32.8% in the first nine months of 2015. This 0.1 percentage point decrease in gross margin primarily reflects a 0.5 percentage point reduction in gross margin resulting from lower fixed cost absorption due to lower sales, a 0.4 percentage point reduction in gross margin resulting from \$2.2 million of increased expense related to inventory reserves and a 0.4 percentage point reduction in gross margin resulting from approximately \$2.1 million of upfront expenses impacting cost of sales for cost reduction initiatives incurred in the first nine months of 2016. The \$2.1 million of upfront expenses for cost reduction initiatives noted above were primarily related to severance and other employee termination payments pursuant to reductions in force. These impacts were partially offset by an approximate 0.7 percentage point favorable impact due to cost reductions resulting from the Company's restructuring activities and other cost reduction initiatives in 2016 and a 0.3 percentage point increase due to improved sales mix and increased selling prices for our products.

Selling and Administrative Expenses

Selling and administrative expenses decreased \$1.8 million, or 4%, in the third quarter of 2016 from the third quarter of 2015. This decrease was primarily the result of \$1.4 million of lower employee costs resulting mainly from previously announced cost reduction initiatives and \$0.6 million of other lower costs, including reductions in discretionary spending such as travel. With selling and administrative expenses decreasing 4% while our net sales decreased 7%, our selling and administrative expenses as a percentage of net sales increased to 22.6% in the third quarter of 2016 from 22.0% in last year's third quarter.

Selling and administrative expenses decreased \$5.8 million, or 4%, in the first nine months of 2016 from the first nine months of 2015. This decrease was primarily the result of \$5.7 million of lower employee costs resulting primarily from previously announced cost reduction initiatives and \$3.1 million of other lower costs, including reductions in discretionary spending such as travel. These decreases were partially offset by a \$2.2 million increase in year-over-year expense due to a gain realized in the first nine months of 2015 resulting from the sale of a facility primarily used for selling and administrative activities and \$0.9 million in facility closure expenses in the first nine months of 2015, both of which did not recur in 2016. With selling and administrative expenses decreasing 4% while our net sales decreased 5%, our selling and administrative expenses as a percentage of net sales increased to 22.6% in the first nine months of 2016 from 22.4% in the first nine months of 2015.

Packaging Segment

(Dollars in thousands)	Third Quarter			First Nine Months		
	2016	Change		2016	Change

Operating margin	1.3%		1.3 pt	5.2%		(5.2) pt

Prior to June 27, 2015, our Packaging segment manufactured and marketed consumer and industrial packaging products. As is discussed in Note 3 to the Consolidated Condensed Financial Statements, on June 27, 2015, the Company sold 100% of the outstanding shares of J.L. Clark to CCI. J.L. Clark was the sole operating company within the Packaging segment. As a result of the sale, the Company has exited the packaging business, consistent with our strategic focus on being a leading global provider of filtration products, systems and services. The financial results presented above for the Packaging segment reflect the results of the J.L. Clark business, including its pro-rata share of allocated corporate administrative costs, through June 27, 2015, the date of closing of the disposition.

FINANCIAL CONDITION

Liquidity and Capital Resources

We believe that our operations will continue to generate cash and that sufficient cash, cash equivalents and borrowings under our credit agreement, including our five-year revolving credit facility ("Credit Facility"), will be available to fund operating needs, pay dividends, invest in the development of new products and filter media, fund planned capital expenditures, including the expansion of facilities, provide for interest and principal payments related to debt agreements, fund pension contributions and fund potential repurchases of our common stock. We completed two acquisitions in December 2013, the acquisitions of the GE Air Filtration business and the Bekaert Advanced Filtration business, we acquired Stanadyne Corporation's diesel fuel filtration business in May 2014, we acquired Filter Resources in December 2014, we acquired certain assets of TDC in January 2016, and we acquired certain assets of FibeRio in March 2016, and we intend to continue to assess acquisition opportunities in related filtration businesses. Any such acquisitions could affect operating cash flows and require changes in our debt and capitalization. In addition, capital market disruptions may affect the cost or availability of future borrowings.

We had cash and cash equivalents of \$119.8 million at the end of the third quarter of 2016. Approximately \$111.8 million of this cash was held at entities outside the U.S. Although we plan to use this cash at our non-U.S. entities, if we repatriated this cash to the U.S., we could incur significant tax expense since a majority of this cash is considered permanently invested for U.S. tax purposes. Cash and cash equivalents are held by financial institutions throughout the world.

Our current ratio of 3.4 at the end of the third quarter of 2016 increased from 3.3 at year-end 2015. This increase primarily reflects a \$19.2 million decrease in current liabilities, including a \$21.9 million decrease in accrued liabilities. These effects were partially offset by a \$24.0 million decrease in inventory and a \$23.7 million decrease in

accounts receivable, primarily reflecting improved working capital management, offset by a \$18.3 million increase in cash due to cash generated from operating activities.

On April 5, 2012, we entered into a five-year multicurrency revolving credit facility agreement with a group of financial institutions, under which the Company could borrow up to \$150.0 million under a selection of currencies and rate formulas. In November 2013, we entered into a credit facility agreement amendment to add a \$100.0 million term loan facility to the revolving credit facility agreement, and in May 2014, we entered into another credit agreement amendment to increase the size of the term

loan facility to \$315.0 million. On November 2, 2015, we amended and restated the credit agreement, under which the Company may borrow up to \$700.0 million under senior credit facilities comprised of a \$500.0 million revolving credit facility (the "Revolving Credit Facility") and \$200.0 million of term loans (the "Term Loans" and together with the Revolving Credit Facility the "Credit Facility"). The Revolving Credit Facility includes a \$50.0 million swing-line sub-facility and a \$50.0 million letter of credit sublimit, as well as an accordion feature that allows the Company to increase the Revolving Credit Facility by a total of up to \$100.0 million, subject to securing additional commitments from existing lenders or new lending institutions and other customary terms and conditions. We believe the financial institutions that are party to this agreement have adequate capital resources and will be able to fund future borrowings under the Credit Facility. At our election, borrowings under the Revolving Credit Facility and Term Loans bear interest at either a defined base rate, or LIBOR plus an applicable margin determined with reference to the Company's consolidated leverage ratio. Swing line borrowings bear interest at the defined base rate plus an applicable margin. Commitment fees and letter of credit fees are also payable under the Revolving Credit Facility. Borrowings under the Credit Facility are unsecured, but are guaranteed by substantially all of the Company's material domestic subsidiaries. The amended and restated credit agreement also contains certain covenants customary for such agreements, including covenants that place limits on our ability to incur additional debt, require us to maintain minimum levels of interest coverage, and restrict certain changes in ownership, as well as customary events of default. The principal balance outstanding under the Revolving Credit Facility is payable in full at maturity on November 1, 2020. Principal is payable in respect of the Term Loans in quarterly installments based on specified percentages of the initial principal amount of the Term Loans, and the entire outstanding principal balance on the Term Loans is payable in full at maturity on November 1, 2020.

At the end of the third quarter of 2016, we had \$195.0 million of outstanding Term Loans with a weighted average interest rate including margin of approximately 1.62% and we had \$115.0 million outstanding on the Revolving Credit Facility with a weighted average interest rate including margin of approximately 1.62%. At August 27, 2016, we also had approximately \$7.4 million outstanding on a \$50.0 million letter of credit sub-facility. Accordingly, we had \$377.6 million available for further borrowing at the end of the third quarter of 2016.

Total long-term debt of \$318.0 million at the end of the third quarter of 2016 included \$195.0 million of Term Loans, \$115.0 million outstanding on the Revolving Credit Facility, \$7.4 million outstanding on an industrial revenue bond and \$0.6 million of other long-term debt. At the end of the third quarter of 2016, we were in compliance with all financial covenant requirements of the Credit Facility. The ratio of total debt to total capitalization (defined as long-term debt plus total shareholders' equity) was 21.7% at the end of the third quarter of 2016 compared to 26.7% at year-end 2015, with the decrease attributable to lower total debt, due to repayment activity, and increased total shareholders' equity, as described below, at the end of the third quarter of 2016 in comparison to year-end 2015.

We had 48.6 million shares of common stock outstanding at the end of the third quarter of 2016 and had 49.1 million shares outstanding at year-end 2015. Shares of common stock outstanding decreased 0.5 million as shares issued pursuant to stock incentive plans in the first nine months of 2016 was more than offset by the repurchase of 1.3 million shares during the same period. Shareholders' equity increased to \$1,150.3 million at the end of the third quarter of 2016 from \$1,110.5 million at year-end 2015. This \$40.2 million increase resulted mainly from net earnings of \$110.3 million and items related to stock compensation and option activity pursuant to incentive plans of \$39.5 million, partially offset by decreases to shareholders' equity of \$65.4 million resulting from our repurchase and retirement of common stock, dividend payments of \$32.4 million and currency translation adjustments of \$13.7 million.

Cash Flow

Net cash provided by operating activities increased \$107.3 million to \$208.6 million in the first nine months of 2016 from \$101.3 million in the first nine months of 2015. This increase was primarily due to the net effect on cash of

changes in assets and liabilities, net of business acquisitions, which improved to a \$54.8 million source of cash in the first nine months of 2016 from a \$41.7 million use of cash in the first nine months of 2015, driven primarily by company-wide efforts to improve working capital efficiency. The increase in net cash provided by operating activities in the first nine months of 2016 from the first nine months of 2015 also reflected a \$8.5 million increase in net earnings.

Net cash used in investing activities increased \$18.6 million in the first nine months of 2016 from the first nine months of 2015 primarily due to \$47.1 million of cash received in the first nine months of 2015 from the divestiture of J.L. Clark on June 27, 2015 partially offset by a \$33.2 million reduction in capital expenditures in the first nine months of 2016 in comparison to the first nine months of 2015.

Net cash used in financing activities increased \$90.1 million in the first nine months of 2016 from the first nine months of 2015. In the first nine months of 2016 the Company made net repayments under the Credit Facility of \$87.2 million, in comparison to net payments of \$8.6 million in the first nine months of 2015. Additionally, there was an increase of \$35.2 million in payments

for the repurchase of common stock in the first nine months of 2016 in comparison to the prior year period and increases in sale of capital stock under stock option and employee purchase plans of \$30.2 million.

We intend to continue to assess repurchases of our common stock. In June 2016, our Board of Directors authorized a \$250.0 million stock repurchase program of our common stock in the open market and through private transactions over a three-year period which replaced a prior three-year \$250 million stock repurchase program approved by our Board of Directors in June 2013 which was expiring. During the first nine months of 2016, we repurchased and retired 1.3 million shares of our common stock for \$65.4 million at an approximate average price of \$52.18 including 0.9 million shares for \$43.2 million under the prior stock repurchase program and 0.4 million shares for \$22.2 million under our current stock repurchase program. At the end of the third quarter of 2016, there was approximately \$227.8 million available for repurchase under the current authorization. Future repurchases of our common stock may be made after considering cash flow requirements for internal growth, debt repayments, capital expenditures, acquisitions, interest rates and the market price of our common stock.

At the end of the third quarter of 2016, our gross liability for uncertain income tax provisions was \$4.7 million including interest and penalties. Due to the high degree of uncertainty regarding the timing of potential future cash outflows associated with these liabilities, we were unable to make a reasonably reliable estimate of the amount and period in which these remaining liabilities might be paid.

Off-Balance Sheet Arrangements

Our off-balance sheet arrangements relate to various operating leases as discussed in Note K to the Consolidated Financial Statements in our 2015 Form 10-K. We had no variable interest entity or special purpose entity agreements during the first nine months of 2016 or 2015.

OTHER MATTERS

Critical Accounting Policies

Our critical accounting policies, including the assumptions and judgments underlying them, are disclosed in our 2015 Form 10-K in Management's Discussion and Analysis of Financial Condition and Results of Operations. As is discussed in Note 10 to this Third Quarter 2016 Form 10-Q, the Company elected to change its estimate in the determination of discount rate assumptions used to determine net periodic benefit costs effective for fiscal year 2016 for each of its plans, changing from the single equivalent rate approach to the spot rate approach. There have been no material changes in our critical accounting policies set forth in our 2015 Form 10-K. These policies have been consistently applied in all material respects. While the estimates and judgments associated with the application of these policies may be affected by different assumptions or conditions, we believe the estimates and judgments associated with the reported amounts are appropriate in the circumstances.

Environmental Matters and Climate Change and Energy Legislation and Regulation

Our operations are subject to U.S. and non-U.S. environmental laws and regulations governing emissions to air; discharges to water; the generation, handling, storage, transportation, treatment and disposal of waste materials; and the cleanup of contaminated properties. Currently, we believe that any potential environmental liabilities with respect to known environmental matters involving our former or existing operations are not material, but there is no assurance that we will not be adversely impacted by such liabilities, costs or claims in the future, either under present laws and regulations or those that may be adopted or imposed in the future.

Foreign, federal, state and local regulatory and legislative bodies have proposed various legislative and regulatory measures relating to climate change, regulating greenhouse gas emissions and energy policies. Due to the uncertainty in the regulatory and legislative processes, as well as the scope of such requirements and initiatives, we cannot currently determine the effect such legislation and regulation may have on our operations.

The potential physical impacts of climate change on our operations are also highly uncertain and would vary depending on type of physical impact and geographic location. Climate change physical impacts could include changing temperatures, water shortages, changes in weather and rainfall patterns, and changing storm patterns and intensities. The occurrence of one or more natural disasters, whether due to climate change or naturally occurring, such as tornadoes, hurricanes, earthquakes and other forms of severe weather in the U.S. or in a country in which we operate or in which our suppliers or customers are located could adversely impact our operations and financial performance. Such events could result in:

• physical damage to and complete or partial closure of one or more of our manufacturing facilities

Page 48

- temporary or long-term disruption in the supply of raw materials from our suppliers
- disruption in the transport of our products to customers and end users
- delay in the delivery of our products to our customers

Recent Relevant Accounting Pronouncements

A discussion of recent relevant accounting pronouncements is included in Note 1 to the Consolidated Condensed Financial Statements.

Forward-Looking Information is Subject to Risk and Uncertainty

This Third Quarter 2016 Form 10-Q contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. All statements made in this Form 10-Q, other than statements of historical fact, are forward-looking statements. You can identify these statements from use of the words “may,” “should,” “could,” “potential,” “continue,” “plan,” “forecast,” “estimate,” “project,” “believe,” “intent,” “anticipate,” “expect,” “target,” “is likely,” “will,” or the negative of these terms, and similar expressions. These statements are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. These forward-looking statements may include, among other things:

- statements and assumptions relating to anticipated future growth, earnings, earnings per share, future cash flows and other financial performance measures;
- statements regarding management's short-term and long-term performance goals;
- statements regarding anticipated order patterns and demand for products from our customers and our backlog or the anticipated economic conditions of the industries and markets that we serve;
- statements related to the performance of the U.S., China, Europe and other economies generally;
- statements relating to the anticipated effects on results of operations or financial condition from recent and expected developments or events, including the acquisitions of FibeRio, TDC, Filter Resources, the Stanadyne business, the GE Air Filtration business and the Bekaert business and potential future acquisition opportunities;
- statements regarding our current cost structure positions and ability to capitalize on anticipated development and growth initiatives, including the expansion of facilities and other planned capital expenditures;
- statements relating to our research and development activities, including the development of new products and filter media;
- statements related to future dividends or repurchases of our common stock;
- statements related to tax positions and unrecognized tax benefits;
- statements related to future repatriation or reinvestment of foreign earnings;
- statements related to our cash resources and borrowing capacity under the Credit Facility;
- statements related to cost savings or restructuring initiatives;
- statements regarding anticipated contributions and other payments pursuant to our pension plans and for other post-retirement benefits;
- statements related to potential liability for environmental matters;
- statements related to pending claims or litigation;
- statements relating to the availability of raw materials and other supplies; and
- any other statements or assumptions that are not historical facts.

We believe that our expectations are based on reasonable assumptions. However, these forward-looking statements involve known and unknown risks, uncertainties and other important factors that could cause our actual results, performance or achievements, or industry results, to differ materially from our expectations of future results, performance or achievements expressed or implied by these forward-looking statements. The Company's past results of operations do not necessarily indicate its future results. The Company's future results may differ materially from the

Company's past results due to various risks and uncertainties, including, but not limited to, risks associated with: global and national macroeconomic pressures, trends with respect to the health of the markets we serve, including with respect to challenging market conditions in various markets in the Engine/Mobile Filtration segment and the Industrial/Environmental Filtration segment, our ability to execute upon long-term strategic growth initiatives, our ability to execute upon any potential facility consolidations or other restructuring and other cost reduction opportunities throughout the Company, customer concentration issues in certain geographic locations and in respect of certain of our businesses, our ability to integrate the businesses we have acquired, currency fluctuations, particularly increases or decreases in the U.S. dollar against other currencies, commodity price increases and/or limited availability of raw materials and component products, including steel, compliance costs associated with environmental laws and regulations, political factors, our international operations, highly competitive markets, governmental laws and regulations, potential information systems interruptions and intrusions, potential global events resulting in instability and unpredictability in the world's markets, including financial bailouts

of sovereign nations, political changes, military and terrorist activities, health outbreaks and other factors, changes in accounting standards or adoption of new accounting standards, adverse effects of natural disasters, legal challenges with respect to intellectual property, product liability exposure, changes in tax rates or exposure to additional income tax liabilities, potential labor disruptions, the impact on the Company's business and results of operations from developments related to the potential exit of the United Kingdom from the European Union, our potential inability to realize the anticipated benefits of the recently announced strategic partnership with GE, other risks discussed in the "Risk Factors" section of our 2015 Form 10-K and other risks detailed from time to time in our filings with the Securities and Exchange Commission.

You should not place undue reliance on any forward-looking statements. These statements speak only as of the date of this Third Quarter 2016 Form 10-Q. Except as otherwise required by applicable laws, we undertake no obligation to publicly update or revise any forward-looking or other statements included in this Third Quarter 2016 Form 10-Q, whether as a result of new information, future events, changed circumstances or any other reason.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Our interest expense on long-term debt is sensitive to changes in interest rates. In addition, changes in foreign currency exchange rates may affect assets, liabilities and commitments that are to be settled in cash and are denominated in foreign currencies. Market risks are also discussed in our 2015 Form 10-K in "Item 7A. Quantitative and Qualitative Disclosures about Market Risk." There have been no material changes to the disclosure regarding market risk set forth in our 2015 Form 10-K.

Item 4. Controls and Procedures

EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES

We have established disclosure controls and procedures, as defined under Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 ("Exchange Act"). Our management, with the supervision and participation of Christopher L. Conway, President and Chief Executive Officer, and David J. Fallon, Chief Financial Officer and Chief Accounting Officer, evaluated the effectiveness of our disclosure controls and procedures as of August 27, 2016.

Based on such evaluation, the Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures pursuant to Rules 13a-15(e) and 15d-15(e) of the Exchange Act were effective as of August 27, 2016.

CHANGES IN INTERNAL CONTROL OVER FINANCIAL REPORTING

No change in our internal control over financial reporting occurred during our most recent fiscal quarter ended August 27, 2016, that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Part II. OTHER INFORMATION

Item 1. Legal Proceedings

See the disclosure under the heading "Legal Contingencies" in Note 12 included in Part I, Item 1 of this Third Quarter 2016 Form 10-Q, which is incorporated by reference in this Part II, Item 1, for disclosure that supplements the disclosure under the heading "Legal Contingencies" in Note N to the Consolidated Financial Statements included in the 2015 Form 10-K.

Item 1A. Risk Factors

There have been no material changes to the risk factors disclosed in "Item 1A. Risk Factors" in our 2015 Form 10-K.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

On June 25, 2013, our Board of Directors authorized a \$250.0 million stock repurchase program of our common stock in the open market and through private transactions over a three-year period ("2013 stock repurchase program"). On June 27, 2016, upon the expiry of the previous three-year repurchase program, our Board of Directors authorized a \$250.0 million stock repurchase program of our common stock in the open market and through private transactions over a three-year period. Pursuant to the new authorization, we may purchase shares from time to time in the open market or through privately negotiated transactions through June 30, 2019. We have no obligation to repurchase shares under the authorization, and the timing, actual number and values of shares to be purchased will depend on our stock price, general economic and market conditions and other factors. As set forth in the table below, we repurchased 455,797 shares of our common stock during the fiscal quarter ended August 27, 2016. The Company had remaining authorization of approximately \$227.8 million to repurchase shares as of August 27, 2016 under its current stock repurchase program.

COMPANY PURCHASES OF EQUITY SECURITIES

Period	(a) Total number of shares purchased	(b) Average price paid per share	(c) Total number of shares purchased as part of the Company's publicly announced plan	(d) Maximum approximate dollar value of shares that may yet be purchased under the Plan
May 29, 2016 through June 24, 2016*	84,560	\$ 59.44	84,560	\$ —
June 27, 2016 through July 2, 2016**	167,885	\$ 58.22	167,885	\$ 240,221,770
July 3, 2016 through July 30, 2016**	163,352	\$ 60.25	163,352	\$ 230,376,197
