NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(In Thousands Except Per Share Amounts)

(1) Basis of Presentation

The accompanying unaudited condensed consolidated financial statements (the "Financial Statements") of The Wendy's Company ("The Wendy's Company" and, together with its subsidiaries, the "Company," "we," "us" or "our") have been prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") for interim financial information and, therefore, do not include all information and footnotes required by GAAP for complete financial statements. In our opinion, the Financial Statements contain all adjustments necessary to present fairly our financial position as of July 3, 2016 and the results of our operations for the three and six months ended July 3, 2016 and June 28, 2015 and cash flows for the six months ended July 3, 2016 and June 28, 2015. The results of operations for the three and six months ended July 3, 2016 are not necessarily indicative of the results to be expected for the full 2016 fiscal year. These Financial Statements should be read in conjunction with the audited consolidated financial statements for The Wendy's Company and notes thereto, included in our Annual Report on Form 10-K for the fiscal year ended January 3, 2016 (the "Form 10-K").

The principal subsidiary of the Company is Wendy's International, LLC and its subsidiaries ("Wendy's"). The Company manages and internally reports its business geographically. The operation and franchising of Wendy's® restaurants in North America (defined as the United States of America ("U.S.") and Canada) comprises virtually all of our current operations and represents a single reportable segment. The revenues and operating results of Wendy's restaurants outside of North America are not material.

We report on a fiscal year consisting of 52 or 53 weeks ending on the Sunday closest to or on December 31. All three and six month periods presented herein contain 13 weeks and 26 weeks, respectively. All references to years and quarters relate to fiscal periods rather than calendar periods.

On May 31, 2015, Wendy's completed the sale of its company-owned bakery, The New Bakery Company, LLC and its subsidiaries (collectively, the "Bakery"), a 100% owned subsidiary of Wendy's. As a result of the sale of the Bakery, as further discussed in Note 2, the Bakery's results of operations for the period from December 29, 2014 through May 31, 2015 and the gain on disposal have been included in "Net income from discontinued operations" in our condensed consolidated statements of operations.

In connection with the reimagining of restaurants as part of our Image Activation program, we have recorded accelerated depreciation of \$1,393 and \$3,215 during the three and six months ended July 3, 2016, respectively, on certain long-lived assets to reflect their use over shortened estimated useful lives. We describe the circumstances under which we record accelerated depreciation and amortization for properties in our Form 10-K.

Certain reclassifications have been made to the prior year presentation to conform to the current year presentation.

(2) Discontinued Operations

On May 31, 2015, Wendy's completed the sale of 100% of its membership interest in the Bakery to East Balt US, LLC (the "Buyer") for \$78,500 in cash (subject to customary purchase price adjustments). The Company also assigned certain capital leases for transportation equipment to the Buyer but retained the related obligation, which was settled during 2015. Pursuant to the sale agreement, the Company was obligated to continue to provide health insurance benefits to the Bakery's employees at the Company's expense through December 31, 2015. The Company recorded a pre-tax gain on the disposal of the Bakery of \$27,338 in the second quarter of 2015, which included transaction

closing costs and a reduction of goodwill. The Company recognized income tax expense associated with the gain on disposal of \$12,199 during the second quarter of 2015, which included the impact of the disposal of non-deductible goodwill.

In conjunction with the Bakery sale, Wendy's entered into a transition services agreement with the Buyer, pursuant to which Wendy's provided certain continuing corporate and shared services to the Buyer through March 31, 2016 for no additional consideration. A purchasing cooperative, Quality Supply Chain Co-op, Inc. ("QSCC"), established by Wendy's and its franchisees, agreed to continue to source sandwich buns from the Bakery for a specified time period following the sale of the Bakery. As a result, Wendy's paid the Buyer \$5,265 and \$996 for the purchase of sandwich buns during the six months ended July 3, 2016 and for the period from June 1, 2015 through June 28, 2015, respectively, which has been recorded to "Cost of sales."

(3) System Optimization Gains, Net

In July 2013, the Company announced a system optimization initiative, as part of its brand transformation, which includes a shift from company-owned restaurants to franchised restaurants over time, through acquisitions and dispositions, as well as facilitating franchisee-to-franchisee restaurant transfers. In February 2015, the Company announced plans to sell approximately 540 additional restaurants to franchisees and reduce its ongoing company-owned restaurant ownership to approximately 5% of the total system by the end of 2016. During 2015, 2014 and 2013, the Company completed the sale of 327, 255 and 244 company-owned restaurants to franchisees, respectively, which included the sale of all of its company-owned restaurants in Canada.

During the six months ended July 3, 2016 and June 28, 2015, the Company completed the sale of 55 and 100 company-owned restaurants to franchisees, respectively. The Company recognized net gains totaling \$10,350 and \$14,849 on the sale of company-owned restaurants and other assets during the six months ended July 3, 2016 and June 28, 2015, respectively. In addition, the Company facilitated the transfer of 126 restaurants between franchisees during the six months ended July 3, 2016. The Company expects to complete its plan to reduce company-owned

restaurant ownership to approximately 5% of the total system with the sale of 258 restaurants during the remainder of 2016, all of which were classified as held for sale as of July 3, 2016.

Gains and losses recognized on dispositions are recorded to "System optimization gains, net" in our condensed consolidated statements of operations. Costs related to our system optimization initiative are recorded to "Reorganization and realignment costs," and include severance and employee related costs, professional fees and other associated costs, which are further described in Note 5.

G&A Realignment

In November 2014, the Company initiated a plan to reduce its general and administrative expenses. The plan included a realignment and reinvestment of resources to focus primarily on accelerated restaurant development and consumer-facing restaurant technology to drive long-term growth. The Company achieved the majority of the expense reductions through the realignment of its U.S. field operations and savings at its Restaurant Support Center in Dublin, Ohio, which was substantially completed by the end of the second quarter of 2015. The Company recognized costs totaling \$933 during the six months ended July 3, 2016 and \$24,201 in aggregate since inception. The Company expects to incur additional costs aggregating approximately \$950 during the remainder of 2016, comprised primarily of recruitment and relocation costs for the reinvestment in resources to drive long-term growth.

The following is a summary of the activity recorded as a result of our G&A realignment plan:

Equity Investments

Wendy's has a 50% share in a partnership in a Canadian restaurant real estate joint venture ("TimWen") with a subsidiary of Restaurant Brands International Inc., a quick-service restaurant company that owns the Tim Hortons® brand. (Tim Hortons® is a registered trademark of Tim Hortons USA Inc.) In addition, the Company has a 20% share in a joint venture for the operation of Wendy's restaurants in Brazil (the "Brazil JV"). The Company has significant influence over these investees. Such investments are accounted for using the equity method of accounting, under which our results of operations include our share of the income (loss) of the investees in "Other operating expense, net."

Presented below is activity related to our investment in TimWen and the Brazil JV included in our condensed consolidated financial statements:

(7) Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Valuation techniques under the accounting guidance related to fair value measurements are based on observable and unobservable inputs. Observable inputs reflect readily obtainable data from independent sources, while unobservable inputs reflect our market assumptions. These inputs are classified into the following hierarchy:

Level 1 Inputs - Quoted prices for identical assets or liabilities in active markets.

Level 2 Inputs - Quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in markets that are not active; and model-derived valuations whose inputs are observable or whose significant value drivers are observable.

Level 3 Inputs - Pricing inputs are unobservable for the assets or liabilities and include situations where there is little, if any, market activity for the assets or liabilities. The inputs into the determination of fair value require significant management judgment or estimation.

Financial Instruments

The following table presents the carrying amounts and estimated fair values of the Company's financial instruments:

	July 3, 2016		January 3, 2016

The fair value of our indirect investment in Arby's Restaurant Group, Inc. ("Arby's") is based on applying a multiple to Arby's adjusted earnings before income taxes, depreciation and amortization per its current unaudited financial information. The carrying value of our indirect investment in Arby's was reduced to zero during 2013 in connection with the receipt of a dividend. The fair values of our remaining investments are not significant and are based on our (a) review of information provided by the investment managers or investees which was based on (1) valuations performed by the investment managers or investees, (2) quoted market or broker/dealer prices for similar investments and (3) quoted market or broker/dealer prices adjusted by the investment managers for legal or contractual restrictions, risk of nonperformance or lack of marketability, depending upon the underlying investments.

(b) The fair values were based on quoted market prices in markets that are not considered active markets.

Wendy's has provided loan guarantees to various lenders on behalf of franchisees entering into debt arrangements for new restaurant development and equipment financing. In addition, during 2012, Wendy's provided a guarantee (c) to a lender for a franchisee in connection with the refinancing of the franchisee's debt. We have accrued a liability for the fair value of these guarantees, the calculation of which was based upon a weighted average risk percentage established at inception and adjusted for a history of defaults.

THE WENDY'S COMPANY AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(In Thousands Except Per Share Amounts)

The carrying amounts of cash, accounts payable and accrued expenses approximated fair value due to the short-term nature of those items. The carrying amounts of accounts and notes receivable (both current and non-current) approximated fair value due to the effect of the related allowance for doubtful accounts. Our cash and cash equivalents and guarantees are the only financial assets and liabilities measured and recorded at fair value on a recurring basis.

Derivative Instruments

The Company's primary objective for entering into interest rate swap agreements was to manage its exposure to changes in interest rates, as well as to maintain an appropriate mix of fixed and variable rate debt.

Our derivative instruments for the six months ended June 28, 2015 included seven forward-starting interest rate swaps designated as cash flow hedges to change the floating rate interest payments for \$350,000 and \$100,000 in borrowings associated with the Term A and Term B Loans, respectively, under the Company's prior credit agreement, to fixed rate interest payments beginning June 30, 2015 and maturing on December 31, 2017. In May 2015, the Company terminated these interest rate swaps and paid \$7,275, which was recorded against the derivative liability. The unrealized loss on the cash flow hedges at termination of \$7,275 is being reclassified on a straight-line basis from "Accumulated other comprehensive loss" to "Interest expense" beginning June 30, 2015, the original effective date of the interest rate swaps through December 31, 2017, the original maturity date of the interest rate swaps. As a result, the three and six months ended July 3, 2016 include the reclassification of unrealized losses on the cash flow hedges of \$724 and \$1,447, respectively, from "Accumulated other comprehensive loss" to "Interest expense."

There was no hedge ineffectiveness from these cash flows hedges through their termination in May 2015.

Non-Recurring Fair Value Measurements

Assets and liabilities remeasured to fair value on a non-recurring basis during the six months ended July 3, 2016 and the year ended January 3, 2016 resulted in impairment which we have recorded to "Impairment of long-lived assets" in our condensed consolidated statements of operations.

Total losses for the six months ended July 3, 2016 and the year ended January 3, 2016 reflect the impact of remeasuring long-lived assets held and used (including land, buildings, leasehold improvements and favorable lease assets) to fair value as a result of the Company's decision to lease and/or sublease the land and/or buildings to franchisees in connection with the sale or anticipated sale of restaurants. Total losses for the six months ended July 3, 2016 and the year ended January 3, 2016 also include the impact of remeasuring long-lived assets held and used (including land, buildings, leasehold improvements and favorable lease assets) to fair value as a result of declines in operating performance at company-owned restaurants. The fair value of long-lived assets held and used presented in the tables below represents the remaining carrying value and was estimated based on either discounted cash flows of future anticipated lease and sublease income or current market values.

Total losses for the six months ended July 3, 2016 and the year ended January 3, 2016 also include the impact of remeasuring long-lived assets held for sale which primarily include surplus properties. The fair values of long-lived assets held for sale presented in the tables below represent the remaining carrying value and were estimated based on current market values. See Note 8 for more information on impairment of our long-lived assets.

(8) Impairment of Long-Lived Assets

During the three and six months ended July 3, 2016 and June 28, 2015, the Company recorded impairment charges on long-lived assets as a result of the Company's decision to lease and/or sublease properties to franchisees in connection with the sale or anticipated sale of company-owned restaurants. The Company may recognize additional impairment charges resulting from leasing or subleasing additional properties to franchisees in connection with sales of company-owned restaurants to franchisees.

Additionally, during the six months ended July 3, 2016 and three and six months ended June 28, 2015, the Company recorded impairment charges on long-lived assets as a result of closing company-owned restaurants and classifying such properties as held for sale.

The three and six months ended July 3, 2016 and June 28, 2015 also include impairment charges on long-lived assets as a result of the deterioration in operating performance of certain company-owned restaurants and charges for capital improvements in restaurants impaired in prior years which did not subsequently recover.

The following is a summary of impairment losses recorded, which represent the excess of the carrying amount over the fair value of the affected assets and are included in "Impairment of long-lived assets."

(9) Income Taxes

The Company's effective tax rate on income from continuing operations for the three months ended July 3, 2016 and June 28, 2015 was 29.0% and 38.1%, respectively. The Company's effective tax rate varies from the U.S. federal statutory rate of 35% due to the effect of (1) non-deductible goodwill disposed of in connection with our system optimization initiative described in Note 3, including a correction to a prior year identified and recorded in the second quarter of 2016, which resulted in a benefit of \$4,235, (2) state income taxes net of federal benefits, including non-recurring changes to state deferred taxes, (3) adjustments related to prior tax matters and (4) changes to valuation allowances on state net operating loss carryforwards due to the expected sale of restaurants under our system optimization initiative.

During the three months ended March 29, 2015, we concluded two state income tax examinations which resulted in the recognition of a net tax benefit of \$1,872. Additionally, during the three months ended June 28, 2015, unfavorable state court decisions and audit experience led us to abandon certain refund claims, which resulted in a reduction of our unrecognized tax benefits by \$1,274.

The Company's effective tax rate on income from continuing operations for the six months ended July 3, 2016 and June 28, 2015 was 29.2% and 34.4%, respectively. The Company's effective tax rate varies from the U.S. federal statutory rate of 35% due to the effect of (1) changes to valuation allowances on state net operating loss carryforwards due to the expected sale of restaurants under our system optimization initiative, including a correction to a prior year identified and recorded in the first quarter of 2016, which resulted in a benefit of \$2,878, (2) state income taxes net of federal benefits, including non-recurring changes to state deferred taxes, (3) foreign rate differential, (4) employment credits and (5) non-deductible goodwill disposed of in connection

with our system optimization initiative described in Note 3, including a correction to a prior year identified and recorded in the second quarter of 2016, which resulted in a benefit of \$4,235. The Company evaluated the corrections of the prior year errors in relation to the estimated income for the full fiscal year and to the trend on earnings. The Company concluded that correcting the errors did not materially affect the estimated 2016 full year income.

There were no significant changes to unrecognized tax benefits or related interest and penalties for the Company for the six months ended July 3, 2016. During the next twelve months, we believe that it is reasonably possible the Company will reduce its unrecognized tax benefits by up to \$393, primarily due to expected settlements with taxing authorities.

The Company includes refundable income taxes in "Accounts and notes receivable" in the accompanying condensed consolidated balance sheets. Refundable income taxes were \$32,638 and \$23,508 as of July 3, 2016 and January 3, 2016, respectively.

(10) Net Income Per Share

Basic net income per share was computed by dividing net income amounts by the weighted average number of common shares outstanding.

The weighted average number of shares used to calculate basic and diluted net income per share were as follows:

	Three Months Ended		Six Months Ended	
	July 3, 2016	June 28, 2015	July 3, 2016	June 28, 2015
Common stock:				
Weighted average basic shares outstanding	265,915	363,766	268,065	365,175
Dilutive effect of stock options and restricted shares	4,350	6,776	4,442	6,700
Weighted average diluted shares outstanding	270,265	370,542	272,507	371,875

Diluted net income per share for the three and six months ended July 3, 2016 and June 28, 2015 was computed by dividing net income by the weighted average number of basic shares outstanding plus the potential common share effect of dilutive stock options and restricted shares. We excluded potential common shares of 259 and 1,992 for the three and six months ended July 3, 2016 and 434 and 599 for the three and six months ended June 28, 2015, respectively, from our diluted net income per share calculation as they would have had anti-dilutive effects.

(an investment management firm controlled by Messrs. Peltz, May and Garden, "TFM") and the general partner of certain of those funds (together with Messrs. Peltz, May and Garden, certain of their family members and affiliates and TFM, the "Trian Group"). During the second quarter of 2015, the Company incurred costs of \$1,489 in connection with the tender offer, which were recorded to treasury stock. The \$850,000 share repurchase program was completed during the third quarter of 2015.

In August 2014, our Board of Directors authorized a repurchase program for up to \$100,000 of our common stock through December 31, 2015, when and if market conditions warrant and to the extent legally permissible. During the six months ended June 28, 2015, the Company repurchased 5,655 shares with an aggregate purchase price of \$61,631, excluding commissions of \$86. The August 2014 authorization was completed during the third quarter of 2015.

See Note 7 for more information.

(12) Transactions with Related Parties

Except as described below, the Company did not have any significant changes in or transactions with its related parties during the current fiscal period since those reported in the Form 10-K.

Transactions with QSCC

Wendy's received \$76 and \$92 of lease income from its purchasing cooperative, Quality Supply Chain Co-op, Inc. ("QSCC") during the six months ended July 3, 2016 and June 28, 2015, respectively, which has been recorded as a reduction to "General and administrative."

TimWen Lease and Management Fee Payments

A wholly-owned subsidiary of Wendy's leases restaurant facilities from TimWen for the operation of Wendy's/Tim Hortons combo units in Canada. Prior to the second quarter of 2015, Wendy's operated certain of the Wendy's/Tim Hortons combo units in Canada and subleased some of the restaurant facilities to franchisees. As a result of the Company completing its plan to sell all of its company-owned restaurants in Canada to franchisees during the second quarter of 2015, all of the restaurant facilities are subleased to franchisees. During the six months ended July 3, 2016 and June 28, 2015, Wendy's paid TimWen \$5,727 and \$5,892, respectively, under these lease agreements. In addition, TimWen paid Wendy's a management fee under the TimWen joint venture agreement of \$104 and \$112 during the six months ended July 3, 2016 and June 28, 2015, respectively, which has been included as a reduction to "General and

administrative.”

(13) Guarantees and Other Commitments and Contingencies

Refer to the Form 10-K for further information regarding the Company's additional commitments and obligations.

Franchisee Image Activation Incentive Programs

In order to promote Image Activation new restaurant development, Wendy's has an incentive program for franchisees that provides for reductions in royalty payments for the first three years of operation for qualifying new restaurants opened by December 31, 2016.

Wendy's also has incentive programs for 2016 and 2017 for franchisees that commence Image Activation restaurant remodels during those years. The incentive programs provide reductions in royalty payments for one year or two years after the completion of construction, depending on the type of remodel. In 2015, Wendy's added an additional incentive to the 2016 program described above to include waiving the franchise agreement renewal fee for certain types of remodels.

In addition, Wendy's had incentive programs in 2015 that included reductions in royalty payments for franchisees' participation in the Image Activation program.

Franchisee Image Activation Financing Program

Wendy's executed an agreement in 2013 to partner with a third-party lender to establish a financing program for franchisees that participate in our Image Activation program. Under the program, the lender has agreed to provide loans to franchisees to be used for the reimagining of restaurants according to the guidelines and specifications under Wendy's Image Activation program. To support the program, Wendy's provided to the lender a \$6,000 irrevocable stand-by letter of credit, which was issued on July 1, 2013 and was cash collateralized. During the three months ended April 3, 2016, the Company entered into an agreement to reduce the letter of credit from \$6,000 to \$1,000 due to franchisees successfully obtaining financing independently. During the three months ended July 3, 2016, the new irrevocable letter of credit of \$1,000 was issued against the Company's \$2,275,000 securitized financing facility and the \$6,000 letter of credit was terminated.

Lease Guarantees

Wendy's has guaranteed the performance of certain leases and other obligations, primarily from former company-owned restaurant locations now operated by franchisees, amounting to \$34,140 as of July 3, 2016. These leases extend through 2050. We have not received any notice of default related to these leases as of July 3, 2016. In the event of default by a franchise owner, Wendy's generally retains the right to acquire possession of the related restaurant locations.

Wendy's is contingently liable for certain other leases which have been assigned to unrelated third parties who have indemnified Wendy's against future liabilities amounting to \$1,238 as of July 3, 2016. These leases expire on various dates through 2021.

Letters of Credit

As of July 3, 2016, the Company had outstanding letters of credit with various parties totaling \$34,967, of which \$6,165 were cash collateralized. The outstanding letters of credit include amounts outstanding against the securitized

financing facility and for the franchisee Image Activation financing program described above. The related cash collateral is classified as “Restricted cash” in the condensed consolidated balance sheets. We do not expect any material loss to result from these letters of credit.

(14) Legal and Environmental Matters

We are involved in litigation and claims incidental to our current and prior businesses. We provide accruals for such litigation and claims when payment is probable and reasonably estimable. As of July 3, 2016, the Company had accruals for all of its legal and environmental matters aggregating \$5,181. We cannot estimate the aggregate possible range of loss due to most proceedings being in preliminary stages, with various motions either yet to be submitted or pending, discovery yet to occur and significant factual matters unresolved. In addition, most cases seek an indeterminate amount of damages and many involve multiple parties. Predicting the outcomes of settlement discussions or judicial or arbitral decisions is thus inherently difficult. Based on currently available information, including legal defenses available to us, and given the aforementioned accruals and our insurance coverage, we do not believe that the outcome of these legal and environmental matters will have a material effect on our consolidated financial position or results of operations.

(15) New Accounting Standards

New Accounting Standards

In June 2016, the Financial Accounting Standards Board ("FASB") issued an amendment that will require the Company to determine impairment of financial instruments based on expected losses rather than incurred losses. The transition method varies with the type of instrument; however, most debt instruments will be transitioned using a modified retrospective approach. The amendment is effective commencing with our 2020 fiscal year. We are currently evaluating the impact of the adoption of this guidance on our consolidated financial statements.

In March 2016, the FASB issued an amendment which modifies several aspects of the accounting for employee share-based payment transactions, including the accounting for income taxes, forfeitures and statutory withholding requirements, as well as statement of cash flows presentation. The transition requirement is mostly modified retrospective, with the exception of recognition of excess tax benefits and tax deficiencies which requires prospective adoption. The amendment is effective commencing with our 2017 fiscal year. We are currently evaluating the impact of the adoption of this guidance on our consolidated financial statements.

In March 2016, the FASB issued an amendment which clarifies the steps for assessing triggering events of embedded contingent put and call options within debt instruments. The amendment requires modified retrospective adoption and is effective commencing with our 2017 fiscal year. We are currently evaluating the impact of the adoption of this guidance on our consolidated financial statements.

In March 2016, the FASB issued an amendment related to equity method accounting which eliminates the requirement to retrospectively apply the equity method to an investment that subsequently qualifies for such accounting as a result of an increase in level of ownership interest or degree of influence. The amendment requires prospective adoption and is effective commencing with our 2017 fiscal year. We are currently evaluating the impact of the adoption of this guidance on our consolidated financial statements.

In February 2016, the FASB issued new guidance on leases. The new guidance requires lessees to recognize on the balance sheet the assets and liabilities for the rights and obligations created by finance and operating leases with lease terms of more than 12 months, as well as enhanced disclosures. The amendment requires the recognition and measurement of leases at the beginning of the earliest period presented using a modified retrospective approach and is effective commencing with our 2019 fiscal year. We are currently evaluating the impact of the adoption of this guidance on our consolidated financial statements.

In May 2014, the FASB issued amended guidance for revenue recognition. Subsequently, the FASB issued an amendment to defer for one year the effective date of the new guidance on revenue recognition, as well as issued additional clarifying amendments. The new guidance outlines a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers. The core principle of the guidance is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods and services. Additionally, the guidance requires improved disclosure to help users of financial statements better understand the nature, amount, timing, and uncertainty of revenue that is recognized. The new guidance supersedes most current revenue recognition guidance, including industry-specific guidance, and is now effective commencing with our 2018 fiscal year. The

guidance allows for either a full retrospective or modified retrospective transition method. We are continuing to evaluate which transition method to use. We do not believe this guidance will impact our recognition of revenue from company-owned restaurant sales or our recognition of continuing royalty revenues from franchisees, which are based on a percentage of franchise sales. We are continuing to evaluate the impact the adoption of this guidance will have on our business, including the recognition of transactions such as franchise development fees, initial fees from franchisees and sales of company-owned restaurants to franchisees, as well as the accounting for our national advertising funds.

New Accounting Standards Adopted

In September 2015, the FASB issued an amendment that requires an acquirer to recognize adjustments to provisional amounts during the measurement period, in the period such adjustments are identified, rather than retrospectively adjusting previously reported amounts. The Company adopted this amendment, prospectively, during the first quarter of 2016. The adoption of this guidance did not impact our consolidated financial statements.

In April 2015, the FASB issued an amendment that clarifies the accounting for fees paid in a cloud computing arrangement. The amendment provides guidance to customers about whether a cloud computing arrangement includes a software license. The Company adopted this amendment, prospectively, during the first quarter of 2016. The adoption of this guidance did not materially impact our consolidated financial statements.

In February 2015, the FASB issued an amendment that revises the consolidation requirements and significantly changes the consolidation analysis required under current guidance. The Company adopted this amendment, prospectively, during the first quarter of 2016. The adoption of this guidance did not impact our consolidated financial statements.

In June 2014, the FASB issued an amendment to clarify that a performance target that affects vesting and that could be achieved after the requisite service period should be treated as a performance condition and therefore should not be reflected in estimating the grant-date fair value of the award. The Company adopted this amendment during the first quarter of 2016. The adoption of this guidance did not impact our consolidated financial statements.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Introduction

This "Management's Discussion and Analysis of Financial Condition and Results of Operations" of The Wendy's Company ("The Wendy's Company" and, together with its subsidiaries, the "Company," "we," "us," or "our") should be read in conjunction with the accompanying unaudited condensed consolidated financial statements and the related notes included elsewhere within this report and "Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations" in our Annual Report on Form 10-K for the fiscal year ended January 3, 2016 (the "Form 10-K"). There have been no material changes as of July 3, 2016 to the application of our critical accounting policies as described in Item 7 of the Form 10-K. Certain statements we make under this Item 2 constitute "forward-looking statements" under the Private Securities Litigation Reform Act of 1995. See "Special Note Regarding Forward-Looking Statements and Projections" in "Part II - Other Information" preceding Item 1 of Part II of this report. You should consider our forward-looking statements in light of our unaudited condensed consolidated financial statements, related notes and other financial information appearing elsewhere in this report, the Form 10-K and our other filings with the Securities and Exchange Commission.

The Wendy's Company is the parent company of its 100% owned subsidiary holding company, Wendy's Restaurants, LLC ("Wendy's Restaurants"). The principal 100% owned subsidiary of Wendy's Restaurants is Wendy's International, LLC and its subsidiaries ("Wendy's"). Wendy's franchises and operates company-owned Wendy's quick-service restaurants throughout North America (defined as the United States of America ("U.S.") and Canada). Wendy's also has franchised restaurants in 28 foreign countries and U.S. territories, including franchised restaurants located in Brazil, which opened subsequent to July 3, 2016.

Wendy's restaurants offer an extensive menu specializing in hamburger sandwiches and featuring fillet of chicken breast sandwiches, chicken nuggets, chili, french fries, baked potatoes, freshly prepared salads, soft drinks, Frosty® desserts and kids' meals. In addition, the restaurants sell a variety of promotional products on a limited basis.

The Company manages and internally reports its business geographically. The operation and franchising of Wendy's restaurants in North America comprises virtually all of our current operations and represents a single reportable segment. The revenues and operating results of Wendy's restaurants outside of North America are not material. The results of operations discussed below may not necessarily be indicative of future results.

The Company reports on a fiscal year consisting of 52 or 53 weeks ending on the Sunday closest to or on December 31. All three and six month periods presented herein contain 13 weeks and 26 weeks, respectively. All references to years and quarters relate to fiscal periods rather than calendar periods.

Executive Overview

Sale of the Bakery

On May 31, 2015, Wendy's completed the sale of 100% of its membership interest in The New Bakery Company, LLC and its subsidiaries (collectively, the "Bakery") to East Balt US, LLC (the "Buyer") for \$78.5 million in cash (subject to customary purchase price adjustments). The Company recorded a pre-tax gain on the disposal of the Bakery of \$27.3 million in the second quarter of 2015, which included transaction closing costs and a reduction of goodwill. The Company recognized income tax expense associated with the gain on disposal of \$12.2 million during the second quarter of 2015, which included the impact of the disposal of non-deductible goodwill. In conjunction with the Bakery sale, Wendy's entered into a transition services agreement with the Buyer, pursuant to which Wendy's provided certain continuing corporate and shared services to the Buyer through March 31, 2016 for no additional consideration. As a result of the sale of the Bakery, the Bakery's results of operations for the period from December 29, 2014 through May

31, 2015 and the gain on disposal have been included in “Net income from discontinued operations” in our condensed consolidated statements of operations.

Our Continuing Business

As of July 3, 2016, the Wendy’s restaurant system was comprised of 6,490 restaurants, of which 582 were owned and operated by the Company. All of our company-owned restaurants are located in the U.S. as a result of the Company completing its initiative during the second quarter of 2015 to sell all company-owned restaurants in Canada to franchisees.

Wendy’s operating results are impacted by a number of external factors, including unemployment, general economic trends, intense price competition, commodity costs and weather.

Wendy's long-term growth opportunities will be driven by a combination of brand relevance and economic relevance. Key components of growth include (1) North America systemwide same-restaurant sales growth through continuing core menu improvement, product innovation and customer count growth, (2) investing in our Image Activation program, which includes innovative exterior and interior restaurant designs for our new and reimaged restaurants and focused execution of operational excellence, (3) growth in new restaurants, including global growth, (4) increased restaurant utilization in various dayparts and brand access utilizing mobile technology, (5) building shareholder value through financial management strategies and (6) our system optimization initiative.

Wendy's revenues for the first six months of 2016 include: (1) \$518.6 million of sales at company-owned restaurants and (2) \$167.0 million of royalty revenue, \$65.1 million of rental income and \$10.8 million of franchise fees from franchisees. Substantially all of our Wendy's royalty agreements provide for royalties of 4.0% of franchisees' revenues.

Key Business Measures

We track our results of operations and manage our business using the following key business measures:

Same-Restaurant Sales

Beginning with the first quarter of 2016, the Company revised its reporting methodology for same-restaurant sales to simplify the reporting of its same-restaurant sales performance for reimaged restaurants and to better align with restaurant-industry practice. Under the new methodology, the Company includes restaurants in its comparable sales base as soon as reimaged restaurants reopen (the "New Method"). Reimaged restaurants previously entered the comparable sales base after they had been open for three continuous months (the "Old Method"). There was no change in the reporting methodology for new restaurants, which will continue to be excluded from same-restaurant sales until they have been open for 15 continuous months. The tables summarizing the results of operations below provide the same-restaurant sales percent change using the New Method, as well as the Old Method. The New Method is consistent with the metric used by our management for internal reporting and analysis. Same-restaurant sales exclude the impact of currency translation.

•Restaurant Margin

We define restaurant margin as sales from company-owned restaurants less cost of sales divided by sales from company-owned restaurants. Cost of sales includes food and paper, restaurant labor and occupancy, advertising and other operating costs. Restaurant margin is influenced by factors such as restaurant openings, remodels and closures, price increases, the effectiveness of our advertising and marketing initiatives, featured products, product mix, the level of our fixed and semi-variable costs and fluctuations in food and labor costs.

System Optimization Initiative

In July 2013, the Company announced a system optimization initiative, as part of its brand transformation, which includes a shift from company-owned restaurants to franchised restaurants over time, through acquisitions and dispositions, as well as facilitating franchisee-to-franchisee restaurant transfers. In February 2015, the Company announced plans to sell approximately 540 additional restaurants to franchisees and reduce its ongoing company-owned restaurant ownership to approximately 5% of the total system by the end of 2016. During 2015, 2014 and 2013, the Company completed the sale of 327, 255 and 244 company-owned restaurants to franchisees, respectively, which included the sale of all its company-owned restaurants in Canada.

During the first six months of 2016 and 2015, the Company completed the sale of 55 and 100 company-owned restaurants to franchisees, respectively. The Company recognized net gains totaling \$10.4 million and \$14.9 million on the sale of company-owned restaurants and other assets during the first six months of 2016 and 2015, respectively, which were recorded to "System optimization gains, net" in our condensed consolidated statements of operations. In

addition, the Company facilitated the transfer of 126 restaurants between franchisees during the first six months of 2016. The Company expects to complete its plan to reduce company-owned restaurant ownership to approximately 5% of the total system with the sale of 258 restaurants during the remainder of 2016, all of which were classified as held for sale as of July 3, 2016.

Costs related to our system optimization initiative are recorded to “Reorganization and realignment costs.” During the first six months of 2016 and 2015, the Company recognized costs totaling \$4.8 million and \$2.4 million, respectively, which primarily included professional fees and accelerated amortization of previously acquired franchise rights in 2016 and accelerated amortization of previously acquired franchise rights and severance and related employee costs in 2015. The Company expects to incur additional costs of approximately \$3.7 million during the remainder of 2016 in connection with its system optimization initiative, which are primarily comprised of professional fees.

G&A Realignment

In November 2014, the Company initiated a plan to reduce its general and administrative expenses. The plan included a realignment and reinvestment of resources to focus primarily on accelerated restaurant development and consumer-facing restaurant technology to drive long-term growth. The Company achieved the majority of the expense reductions through the realignment of its U.S. field operations and savings at its Restaurant Support Center in Dublin, Ohio, which was substantially completed by the end of the second quarter of 2015. Costs related to G&A realignment are recorded to "Reorganization and realignment costs." The Company recognized costs totaling \$0.9 million and \$8.5 million during the first six months of 2016 and 2015, respectively, which primarily included recruitment and relocation costs in 2016 and share-based compensation, severance and related employee costs and recruitment and relocation costs in 2015. The Company expects to incur additional costs aggregating approximately \$1.0 million during the remainder of 2016, comprised primarily of recruitment and relocation costs for the reinvestment in resources to drive long-term growth.

Related Party Transactions

TimWen Lease and Management Fees

A wholly-owned subsidiary of Wendy's leases restaurant facilities from TimWen for the operation of Wendy's/Tim Hortons combo units in Canada. Prior to the second quarter of 2015, Wendy's operated certain of the Wendy's/Tim Hortons combo units in Canada and subleased some of the restaurant facilities to franchisees. As a result of the Company completing its plan to sell all of its company-owned restaurants in Canada to franchisees during the second quarter of 2015, all of the restaurant facilities are subleased to franchisees. During the first six months of 2016 and 2015, Wendy's paid TimWen \$5.7 million and \$5.9 million, respectively, under these lease agreements. In addition, TimWen paid Wendy's a management fee under the TimWen joint venture agreement of \$0.1 million during both the first six months of 2016 and 2015, which has been included as a reduction to "General and administrative."

Franchisee Incentive Programs

Franchisee Image Activation Financing Program

Wendy's executed an agreement in 2013 to partner with a third-party lender to establish a financing program for franchisees that participate in our Image Activation program. Under the program, the lender has agreed to provide loans to franchisees to be used for the reimagining of restaurants according to the guidelines and specifications under Wendy's Image Activation program. To support the program, Wendy's provided to the lender a \$6.0 million irrevocable stand-by letter of credit, which was issued on July 1, 2013 and was cash collateralized. During the first quarter of 2016, the Company entered into an agreement to reduce the letter of credit from \$6.0 million to \$1.0 million due to franchisees successfully obtaining financing independently. During the second quarter of 2016, the new irrevocable letter of credit of \$1.0 million was issued against the Company's \$2,275.0 million securitized financing facility and the \$6.0 million letter of credit was terminated.

Cybersecurity Incident

The Company first reported unusual payment card activity affecting some franchise-owned restaurants in February 2016 and that malware had been discovered on certain systems. Subsequently, on June 9, 2016, the Company reported that an additional malware variant had been identified and disabled. On July 7, 2016, the Company, on behalf of affected franchise locations, provided information about specific restaurant locations that may have been impacted by these attacks, all of which are located in the United States, along with support for customers who may have been affected by the malware variants. See "Item 1 - Legal Proceedings" and "Item 1A - Risk Factors" in "Part II - Other

Information” for further information.

Results of Operations

The tables included throughout Results of Operations set forth in millions the Company's consolidated results of operations for the second quarter of 2016 and 2015. As a result of the sale of the Bakery discussed above in "Executive Overview - Sale of the Bakery," the Bakery's results of operations for the period from March 30, 2015 through May 31, 2015 have been included in "Income from discontinued operations, net of income taxes" in the table below.

Sales Change

Sales \$(125.8)

The decrease in sales during the second quarter of 2016 was primarily due to the impact of Wendy's company-owned restaurants sold under our system optimization initiative, which resulted in a reduction in sales of \$139.5 million. Company-owned same-restaurant sales during the second quarter of 2016 increased primarily due to an increase in customer count, partially offset by a slight decrease in our average per customer check amount, primarily resulting from changes in product mix. Sales also benefited from higher sales growth at our new and remodeled Image Activation restaurants.

The improvement in cost of sales, as a percent of sales, during the second quarter of 2016 was primarily due to a decrease in commodity costs, reflecting lower beef prices. In addition, the increase in same-restaurant sales and higher sales at our new and remodeled Image Activation restaurants contributed to the improvement in cost of sales, as a percent of sales. These decreases in cost of sales, as a percent of sales, were partially offset by the negative impact of changes in product mix.

The decrease in restaurant depreciation and amortization during the second quarter of 2016 was primarily due to decreases in (1) depreciation on assets sold or classified as held for sale under our system optimization initiative of \$5.8 million and (2) accelerated depreciation on existing assets that are being replaced as part of our Image Activation program of \$2.9 million.

Impairment of Long-Lived Assets Change

Impairment of long-lived assets	\$ (4.5)

The decrease in impairment charges during the second quarter of 2016 was primarily driven by variations in losses from the remeasurement of properties to fair value upon determination that the assets will be leased and/or subleased to franchisees in connection with the sale of company-owned restaurants. In addition, the second quarter of 2015 included impairment charges totaling \$2.1 million resulting from the deterioration in operating performance of certain company-owned restaurants and charges for capital improvements in restaurants impaired in prior years which did not subsequently recover.

Interest Expense Change

Interest expense \$ 11.4

The increase in interest expense during the second quarter of 2016 was primarily a result of the Company completing a \$2,275.0 million securitized financing facility on June 1, 2015. The principal amounts outstanding under the securitized financing facility significantly exceed the amounts that were outstanding under the Company's prior credit agreement. In addition, the notes under the securitized financing facility bear fixed-rate interest at rates higher than our historical effective interest rates on our variable interest rate loans under the prior credit agreement.

Loss on Early Extinguishment of Debt

During the second quarter of 2015, the Company incurred a loss on the early extinguishment of debt as a result of repaying all amounts outstanding under the Company's prior credit agreement with the proceeds from its securitized financing facility. The loss on the early extinguishment of debt was primarily comprised of the write-off of deferred costs associated with the prior credit agreement of \$7.2 million and fees paid to terminate the related interest rate swaps of \$0.1 million.

Sales Change
Sales \$(224.0)

The decrease in sales during the first six months of 2016 was primarily due to the impact of Wendy's company-owned restaurants sold under our system optimization initiative, which resulted in a reduction in sales of \$257.9 million. Company-owned same-restaurant sales during the first six months of 2016 increased primarily due to an increase in customer count, partially offset by a slight decrease in our average per customer check amount, primarily resulting from changes in product mix. Sales also benefited from higher sales growth at our new and remodeled Image Activation restaurants.

Liquidity and Capital Resources

Sources and Uses of Cash

Cash provided by operating activities increased \$47.8 million in the first six months of 2016 as compared to the first six months of 2015, primarily due to changes in our net income and non-cash items as well as the following:

- an increase of \$27.3 million as a result of cash restricted for the payment of interest under our securitized financing facility during the second quarter of 2015; and

- an increase of \$7.3 million as a result of payments to terminate our cash flow hedges during the second quarter of 2015; partially offset by

- an increase of \$30.0 million in interest payments primarily resulting from the securitized financing facility;

- a \$27.9 million increase in income tax payments, net of refunds; and

- an increase in payments for incentive compensation for the 2015 fiscal year.

Cash used in investing activities increased \$6.9 million in the first six months of 2016 as compared to the first six months of 2015, primarily due to the following:

- a decrease of \$78.4 million in proceeds from the sale of the Bakery during the second quarter of 2015; partially offset by

- a decrease of \$62.1 million in capital expenditures; and

- an increase of \$6.4 million in proceeds from dispositions related to our system optimization initiative.

Cash used in financing activities increased \$1,041.5 million in the first six months of 2016 as compared to the first six months of 2015, primarily due to non-cash items as well as the following:

- a net decrease in cash provided by long-term debt activities of \$947.1 million primarily from the Company's \$2,275.0 million securitized financing facility and the related repayment of debt under the Company's prior credit agreement during the second quarter of 2015; and

- an increase in repurchases of common stock of \$44.9 million.

The net cash used in our business before the effect of exchange rate changes on cash was approximately \$66.5 million.

Sources and Uses of Cash for the Remainder of 2016

Our anticipated sources of cash and cash requirements for the remainder of 2016, exclusive of operating cash flow requirements, consist principally of:

- capital expenditures of approximately \$71.5 million, resulting in total anticipated cash capital expenditures for the year of approximately \$140.0 million.

- quarterly cash dividends aggregating up to approximately \$31.4 million as discussed below in "Dividends;"

potential stock repurchases of up to \$269.0 million, of which \$21.1 million was repurchased subsequent to July 3, 2016 through August 4, 2016 as discussed below in “Stock Repurchases;” and

consideration paid for restaurant acquisitions and proceeds from restaurant dispositions under our system optimization initiative.

Based on current levels of operations, the Company expects that cash flows from operations and available cash will provide sufficient liquidity to meet operating cash requirements for the next 12 months.

Dividends

On March 15, 2016 and June 15, 2016, The Wendy's Company paid quarterly cash dividends of \$0.06 per share on its common stock, aggregating \$32.2 million. On August 4, 2016, The Wendy's Company declared a dividend of \$0.06 per share to be paid on September 15, 2016 to shareholders of record as of September 1, 2016. If The Wendy's Company pays regular quarterly cash dividends for the remainder of 2016 at the same rate as declared in the second quarter of 2016, the total cash requirement for dividends for the remainder of 2016 would be approximately \$31.4 million based on the number of shares of common stock outstanding at August 4, 2016. The Wendy's Company currently intends to continue to declare and pay quarterly cash dividends; however, there can be no assurance that any quarterly dividends will be declared or paid in the future or of the amount or timing of such dividends, if any.

Stock Repurchases

On June 1, 2015, our Board of Directors authorized a repurchase program for up to \$1.4 billion of our common stock through January 1, 2017, when and if market conditions warrant and to the extent legally permissible. During the first six months of 2016, the Company repurchased 10.8 million shares with an aggregate purchase price of \$109.2 million, of which \$3.0 million was accrued at July 3, 2016 and excluding commissions of \$0.2 million. As of July 3, 2016, the Company had \$269.0 million of availability remaining under its June 2015 authorization. Subsequent to July 3, 2016 through August 4, 2016, the Company repurchased 2.2 million shares with an aggregate purchase price of \$21.1 million, excluding commissions.

Also as part of the June 2015 authorization, the Company commenced an \$850.0 million share repurchase program on June 3, 2015, which included (1) a modified Dutch auction tender offer to repurchase up to \$639.0 million of our common stock and (2) a separate stock purchase agreement to repurchase up to \$211.0 million of our common stock from Nelson Peltz, Peter W. May (Messrs. Peltz and May are members of the Company's Board of Directors) and Edward P. Garden (who served on the Company's Board of Directors until December 14, 2015) and certain of their family members and affiliates, investment funds managed by Trian Fund Management, L.P. (an investment management firm controlled by Messrs. Peltz, May and Garden, "TFM") and the general partner of certain of those funds (together with Messrs. Peltz, May and Garden, certain of their family members and affiliates and TFM, the "Trian Group"). During the second quarter of 2015, the Company incurred costs of \$1.5 million in connection with the tender offer, which were recorded to treasury stock. The \$850.0 million share repurchase program was completed during the third quarter of 2015.

In August 2014, our Board of Directors authorized a repurchase program for up to \$100.0 million of our common stock through December 31, 2015, when and if market conditions warrant and to the extent legally permissible. During the first six months of 2015, the Company repurchased 5.7 million shares with an aggregate purchase price of \$61.6 million, excluding commissions of \$0.1 million. The August 2014 authorization was completed during the third quarter of 2015.

General Inflation, Commodities and Changing Prices

We believe that general inflation did not have a significant effect on our condensed consolidated results of operations during the reporting periods. We manage any inflationary costs and commodity price increases primarily through selective menu price increases. Delays in implementing such menu price increases and competitive pressures may limit our ability to recover such cost increases in the future. Inherent volatility experienced in certain commodity markets, such as those for beef, chicken, corn, pork and cheese could have an unfavorable effect on our results of operations in the future. The extent of any impact will depend on our ability and timing to increase food prices.

Seasonality

Our restaurant operations are moderately impacted by seasonality; Wendy's restaurant revenues are normally higher during the summer months than during the winter months. Because our business is moderately seasonal, results for any future quarter will not necessarily be indicative of the results that may be achieved for any other quarter or for the full fiscal year.

Item 3. Quantitative and Qualitative Disclosures about Market Risk.

As of July 3, 2016 there were no material changes from the information contained in the Form 10-K for the fiscal year ended January 3, 2016.

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

The management of the Company, under the supervision and with the participation of its Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the design and operation of its disclosure controls and procedures (as defined in Rules 13a-15(e) or 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")), as of July 3, 2016. Based on such evaluations, the Chief Executive Officer and Chief Financial Officer concluded that, as of July 3, 2016, the disclosure controls and procedures of the Company were effective at a reasonable assurance level in (1) recording, processing, summarizing and reporting, on a timely basis, information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act and (2) ensuring that information required to be disclosed by the Company in such reports is accumulated and communicated to management, including the Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

There were no changes in the internal control over financial reporting of the Company during the second quarter of 2016 that materially affected, or are reasonably likely to materially affect, its internal control over financial reporting.

Inherent Limitations on Effectiveness of Controls

There are inherent limitations in the effectiveness of any control system, including the potential for human error and the possible circumvention or overriding of controls and procedures. Additionally, judgments in decision-making can be faulty and breakdowns can occur because of a simple error or mistake. An effective control system can provide only reasonable, not absolute, assurance that the control objectives of the system are adequately met. Accordingly, the management of the Company, including its Chief Executive Officer and Chief Financial Officer, does not expect that the control system can prevent or detect all errors or fraud. Finally, projections of any evaluation or assessment of effectiveness of a control system to future periods are subject to the risks that, over time, controls may become inadequate because of changes in an entity's operating environment or deterioration in the degree of compliance with policies or procedures.

Special Note Regarding Forward-Looking Statements and Projections

This Quarterly Report on Form 10-Q and oral statements made from time to time by representatives of the Company may contain or incorporate by reference certain statements that are not historical facts, including, most importantly, information concerning possible or assumed future results of operations of the Company. Those statements, as well as statements preceded by, followed by, or that include the words “may,” “believes,” “plans,” “expects,” “anticipates,” or the negation thereof, or similar expressions, constitute “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995 (the “Reform Act”). All statements that address future operating, financial or business performance; strategies, initiatives or expectations; future synergies, efficiencies or overhead savings; anticipated costs or charges; future capitalization; and anticipated financial impacts of recent or pending transactions are forward-looking statements within the meaning of the Reform Act. The forward-looking statements are based on our expectations at the time such statements are made, speak only as of the dates they are made and are susceptible to a number of risks, uncertainties and other factors. Our actual results, performance and achievements may differ materially from any future results, performance or achievements expressed or implied by our forward-looking statements. For all of our forward-looking statements, we claim the protection of the safe harbor for forward-looking statements contained in the Reform Act. Many important factors could affect our future results and could cause those results to differ materially from those expressed in or implied by the forward-looking statements contained herein. Such factors, all of which are difficult or impossible to predict accurately, and many of which are beyond our control, include, but are not limited to, the following:

- competition, including pricing pressures, couponing, aggressive marketing and the potential impact of competitors’ new unit openings on sales of Wendy’s restaurants;
- consumers’ perceptions of the relative quality, variety, affordability and value of the food products we offer;
- food safety events, including instances of food-borne illness (such as salmonella or E. coli) involving Wendy’s or its supply chain;
- consumer concerns over nutritional aspects of beef, poultry, french fries or other products we sell, concerns regarding the ingredients in our products and/or cooking processes used in our restaurants, or concerns regarding the effects of disease outbreaks, epidemics or pandemics impacting the Company’s customers or food supplies;

- changes in consumer tastes and preferences, and in discretionary consumer spending;
- changes in spending patterns and demographic trends, such as the extent to which consumers eat meals away from home;
- certain factors affecting our franchisees, including the business and financial viability of franchisees, the timely payment of such franchisees’ obligations due to us or to national or local advertising organizations, and the ability of our franchisees to open new restaurants and remodel existing restaurants in accordance with their development and

franchise commitments, including their ability to finance restaurant development and remodels;

• increased labor costs due to competition or increased minimum wage or employee benefit costs;

the difficulty in predicting the ultimate costs associated with the sale of company-owned restaurants to franchisees, employee termination costs, the timing of payments made and received, the results of negotiations with landlords, the impact of the sale of restaurants on ongoing operations, any tax impact from the sale of restaurants and the future impact to the Company's earnings, restaurant operating margins, cash flow and depreciation;

risks associated with the Company's securitized financing facility, including the ability to generate sufficient cash flow to meet increased debt service obligations, compliance with operational and financial covenants, and restrictions on the Company's ability to raise additional capital;

risks associated with the amount and timing of share repurchases under the \$1.4 billion share repurchase program approved by the Board of Directors; and

other risks and uncertainties affecting us and our subsidiaries referred to in our Annual Report on Form 10-K for the fiscal year ended January 3, 2016 (the "Form 10-K") (see especially "Item 1A. Risk Factors" and "Item 7. Management's

Discussion and Analysis of Financial Condition and Results of Operations”) and in our other current and periodic filings with the Securities and Exchange Commission.

All future written and oral forward-looking statements attributable to us or any person acting on our behalf are expressly qualified in their entirety by the cautionary statements contained or referred to in this section. New risks and uncertainties arise from time to time, and it is impossible for us to predict these events or how they may affect us. We assume no obligation to update any forward-looking statements after the date of this Quarterly Report on Form 10-Q as a result of new information, future events

or developments, except as required by federal securities laws. In addition, it is our policy generally not to endorse any projections regarding future performance that may be made by third parties.

Item 1. Legal Proceedings.

We are involved in litigation and claims incidental to our current and prior businesses. We provide accruals for such litigation and claims when payment is probable and reasonably estimable. The Company believes it has adequate accruals for continuing operations for all of its legal and environmental matters. We cannot estimate the aggregate possible range of loss due to most proceedings being in preliminary stages, with various motions either yet to be submitted or pending, discovery yet to occur and significant factual matters unresolved. In addition, most cases seek an indeterminate amount of damages and many involve multiple parties. Predicting the outcomes of settlement discussions or judicial or arbitral decisions is thus inherently difficult. Based on our currently available information, including legal defenses available to us, and given the aforementioned accruals and our insurance coverage, we do not believe that the outcome of these legal and environmental matters will have a material effect on our consolidated financial position or results of operations.

The Company was named as a defendant in a civil complaint that was filed in the U.S. District Court for the Middle District of Florida on February 8, 2016 by plaintiff Jonathan Torres. The complaint asserted claims of breach of implied contract, negligence and violations of the Florida Unfair and Deceptive Trade Practices Act arising from the Company's alleged failure to safeguard customer credit card information and the alleged failure to provide notice that credit card information had been compromised. The complaint sought certification of a putative nationwide class of consumers impacted by the alleged failures. The plaintiff sought monetary damages, injunctive and equitable relief, attorneys' fees and other costs. The Company's motion to dismiss the complaint was granted, without prejudice, on July 15, 2016.

An amended complaint was filed in the same court by plaintiff Jonathan Torres and six additional named plaintiffs on July 29, 2016. The amended complaint names the Company's subsidiary, Wendy's International, LLC ("Wendy's International"), as the defendant and asserts claims of breach of implied contract, negligence and violations of state consumer protection or deceptive trade practices statutes in the states of Florida, New York, New Jersey, Mississippi, Tennessee and Texas arising from Wendy's International's alleged failure to safeguard customer credit card information and the alleged failure to provide notice that credit card information had been compromised. The amended complaint also asserts violations of state data breach statutes in Florida, New York, New Jersey, Tennessee and Texas based on Wendy's International's alleged failure to timely and fully disclose the alleged data breach. The amended complaint seeks certification of a putative nationwide class of consumers impacted by the alleged failures, or in the alternative, statewide classes for Florida, New York, New Jersey, Mississippi, Tennessee and Texas. The plaintiffs seek monetary damages, injunctive and equitable relief, attorneys' fees and other costs.

The Company was named as a defendant in a civil complaint that was filed in the U.S. District Court for the Western District of Pennsylvania on April 25, 2016 by plaintiff First Choice Federal Credit Union. The complaint asserts claims of common law negligence, negligence per se due to the alleged violation of section 5 of the Federal Trade Commission Act, and declaratory and injunctive relief. All of these claims are based on the allegations arising from the Company's alleged failure to safeguard customer credit card information and the alleged failure to provide notice that credit card information had been compromised. The complaint sought certification of a putative nationwide class of banks, credit unions, financial institutions and other entities in the United States impacted by the alleged failures. The plaintiff sought monetary damages, a declaratory judgment, injunctive relief, attorneys' fees and other costs.

The Company was named as a defendant in four other civil complaints filed by financial institutions in the U.S. District Court for the Western District of Pennsylvania based on the allegations arising from the Company's alleged failure to safeguard customer credit card information and the alleged failure to provide notice that credit card information had been compromised. These cases were consolidated into the First Choice Federal Credit Union case.

An amended civil complaint was filed in the consolidated proceeding in the U.S. District Court for the Western District of Pennsylvania on July 22, 2016 naming the Company and two of its subsidiaries as defendants. The amended complaint was brought by 22 financial institutions and five association plaintiffs (representing members who are credit unions and other similar financial institutions). The amended complaint asserts claims of common law negligence, negligence per se due to the alleged violation of section 5 of the Federal Trade Commission Act, violation of the Ohio Deceptive Trade Practices Act, and declaratory and injunctive relief. The amended complaint also seeks certification of a putative nationwide class of banks, credit unions, financial institutions and other entities in the United States impacted by the alleged failures. The plaintiffs seek monetary damages, a declaratory judgment, injunctive relief, attorneys' fees and other costs.

The Company believes it has meritorious defenses to each of the actions described above and intends to vigorously oppose the claims asserted in each of the complaints.

Item 1A. Risk Factors.

In addition to the information contained in this report, you should carefully consider the risk factors disclosed in our Form 10-K, which could materially affect our business, financial condition or future results. Except as set forth below or as may otherwise be described elsewhere in this report, there have been no material changes from the risk factors previously disclosed in our Form 10-K.

Certain of Our Franchisees have Experienced a Cybersecurity Incident

The Company first reported unusual payment card activity affecting some franchise-owned restaurants in February 2016 and that malware had been discovered on certain systems. Subsequently, on June 9, 2016, the Company reported that an additional malware variant had been identified and disabled. On July 7, 2016, the Company, on behalf of affected franchise locations, provided information about specific restaurant locations that may have been impacted by these attacks, all of which are located in the United States, along with support for customers who may have been affected by the malware variants.

Working closely with third-party forensic experts, federal law enforcement and payment card industry contacts as part of its ongoing investigation, the Company determined that specific payment card information was targeted by the additional malware variant. This information included cardholder name, credit or debit card number, expiration date, cardholder verification value and service code.

The Company believes the criminal cyberattacks resulted from service providers' remote access credentials being compromised, allowing access, and the ability to deploy malware, to some franchisees' point-of-sale systems. There has been no indication in the ongoing investigation that any Company-operated restaurants were impacted by this activity.

The Company worked with investigators to disable the malware involved in the first attack earlier this year. Soon after detecting the malware variant involved in the latest attack, the Company identified a method of disabling it and thereafter disabled it in all franchisee restaurants where it was discovered. The investigation has confirmed that criminals used malware believed to have been effectively deployed on some Wendy's franchisee systems starting in late fall 2015.

The Company has been named as a defendant in a putative class action filed in the United States on behalf of customers, as well as five class actions brought by financial institutions in the United States that have been consolidated into a single proceeding. These class actions seek damages and other relief allegedly arising from the cybersecurity incident. In addition, claims may also be made by payment card networks against the affected franchisees. These claims and investigations may adversely affect how we or our franchisees operate the business, divert the attention of management from the operation of the business, have an adverse effect on our reputation, result in additional costs and adversely affect our results of operations.
