Emerson 3-Month Orders Growth

(Percentage change versus prior year; trailing 3-month averages, excluding acquisitions and divestitures, including currency translation)

	May '15	June '15	July '15
Process Management	-20 to -15	-20 to -15	>-20
Industrial Automation	-20 to -15	-20 to -15	-20
Network Power	-20 to -15	-15 to -10	-15 to -10
Climate Technologies	-10 to -5	-10 to -5	-10
Commercial & Residential Solutions	-5 to 0	-5 to 0	0 to 5
Total Emerson	-20 to -15	-15 to -10	-20 to -15

July 2015 Orders Comments

Trailing three-month orders decreased double digits as monthly orders continue to reflect the drop in oil prices, a global slowdown in capital spending, and significant strength in the U.S. dollar, which deducted 6 percentage points through currency translation. Global spending remains sluggish as lower oil prices continue to affect capital spending in both oil and gas and energy-related markets. Underlying orders were down 10 percent reflecting slow market conditions in most segments, but remained consistent with the 8 to 10 percent decrease in trailing underlying orders reported in each of the prior four months.

Process Management order trends continued to reflect the impact of lower oil prices, as well as unfavorable currency translation, which deducted 7 percentage points, including backlog revaluation. Underlying orders were down 14 percent reflecting decreases in all regions. MRO orders are beginning to soften, particularly in North America, as global oil and gas customers continue to reduce spending.

Industrial Automation orders were down, reflecting continued weakness in industrial spending, upstream oil and gas, and Europe. Underlying orders were down 12 percent on decreases in almost all businesses. Currency translation deducted 8 percentage points.

Network Power orders decreased as underlying global demand for data center infrastructure and telecommunications investment was mixed by geography. Currency translation deducted 6 percentage points.

Climate Technologies orders were down as cooler temperatures in the early summer months weakened U.S. HVAC demand. Orders growth was also impacted by difficult comparisons to the prior year which benefited from inventory pre-build in anticipation of regulatory changes for residential air conditioning effective January 1, 2015. Underlying orders decreased in all regions. Currency translation deducted 3 percentage points.

Commercial & Residential Solutions orders increased slightly. Underlying growth in wet/dry vacuums, food waste disposers, and the storage businesses more than offset a decrease in the professional tools business. Currency translation deducted 2 percentage points.
