- Pre-commencement communications pursuant to Rule 14d-2(b) under the Exchange Act (17 CFR 240.14d-2(b))
- Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

Item 8.01. Other Events

On Oct. 16, 2015, Southwestern Public Service Company (SPS), a New Mexico corporation, and a wholly owned subsidiary of Xcel Energy Inc., filed an electric rate case with the New Mexico Public Regulation Commission (NMPRC) for a net increase in base rates of approximately \$24.3 million for the New Mexico retail jurisdiction. The proposed net amount reflects an increase in non-fuel base rates of \$45.4 million and a decrease in base fuel revenue of approximately \$21.1 million. The decrease in base fuel revenue will be reflected in adjustments collected through the fuel and purchased power adjustment clause. The rate filing is based on a June 30, 2015 historic test year adjusted for known and measurable changes, a requested return on equity (ROE) of 10.25 percent, an electric jurisdictional rate base of approximately \$734 million and an equity ratio of 53.97 percent.

The major components of the requested rate increase are summarized below:

| (Millions of Dollars) | Request |
|--|---------|
| 2015 base period deficiency | \$19.7 |
| Capital expenditures — post-test year adjustments | 12.3 |
| Depreciation, higher rates reflecting changes in depreciable lives, interim retirements and net salvage | 3.7 |
| Transmission revenue and expense, including charges paid to Southwest Power Pool for construction of regionally shared transmission projects | 2.0 |
| ROE, reflecting an increase from 9.96 percent to 10.25 percent | 1.6 |
| Rider revenue adjustments - gross receipts tax | 1.3 |
| Other, net | 4.8 |
| Requested rate increase | \$45.4 |

A NMPRC decision and implementation of final rates is anticipated in the second half of 2016.

Except for the historical statements contained in this 8-K, the matters discussed herein, including the expected impact of rate cases, are forward-looking statements that are subject to certain risks, uncertainties and assumptions. Such forward-looking statements are intended to be identified in this document by the words “anticipate,” “believe,” “estimate,” “expect,” “intend,” “may,” “objective,” “outlook,” “plan,” “project,” “possible,” “potential,” “should” and similar expressions. results may vary materially. Forward-looking statements speak only as of the date they are made, and we expressly disclaim any obligation to update any forward-looking information. The following factors, in addition to those discussed in Xcel Energy's and SPS' Annual Report on Form 10-K for the fiscal year ended Dec. 31, 2014, and Quarterly Reports on Form 10-Q for the quarter ended March 31, 2015 and June 30, 2015, and subsequent securities filings, could cause actual results to differ materially from management expectations as suggested by such forward-looking information: general economic conditions, including inflation rates, monetary fluctuations and their impact on capital expenditures and the ability of Xcel Energy Inc. and its subsidiaries (collectively, Xcel Energy) to obtain financing on favorable terms; business conditions in the energy industry; including the risk of a slow down in the U.S. economy or delay in growth recovery; trade, fiscal, taxation and environmental policies in areas where Xcel Energy and SPS have a financial interest; customer business conditions; actions of credit rating agencies; competitive factors including the extent and timing of the entry of additional competition in the markets served by Xcel Energy and its subsidiaries; unusual weather; effects of geopolitical events, including war and acts of terrorism; cyber security threats and data security breaches; state, federal and foreign legislative and regulatory initiatives that affect cost and investment recovery, have an impact on rates or have an impact on asset operation or ownership; or impose environmental compliance conditions; structures that affect the speed and degree to which competition enters the electric and natural gas markets; costs and other effects of legal and administrative proceedings, settlements, investigations and claims; financial or regulatory accounting policies imposed by regulatory bodies; availability of cost of capital; and employee work force factors.
