PART III — NARRATIVE

State below in reasonable detail why Forms 10-K, 20-F, 11-K, 10-Q, 10-D, N-SAR, N-CSR, or the transition report or portion thereof, could not be filed within the prescribed time period.

PPG Industries, Inc. ("PPG" or the "Company") is unable, without unreasonable effort or expense, to file its Quarterly Report on Form 10-Q for the quarter ended March 31, 2018 within the prescribed time period because it requires additional time to complete the investigation described below and management requires additional time to assess the Company's internal control over financial reporting in light of the investigation. The Company is currently unable to predict when it will be able to file its Form 10-Q and does not currently expect to file by the prescribed due date allowed pursuant to Rule 12b-25.

As previously disclosed on April 19, 2018, the Company received a report through its internal reporting system alleging violations of PPG's accounting policies and procedures regarding the failure to accrue certain specified expenses in the first quarter of 2018. Based on its initial review at that time, the Company identified approximately \$1.4 million of expenses (including legal fees, property taxes and performance-based compensation) that should have been accrued in the first quarter of 2018 and that were then reflected in PPG's earnings for the quarter ended March 31, 2018 released on April 19, 2018. In addition, the report alleged that there may have been other unspecified expenses, potentially up to \$5 million in the aggregate, that were improperly not accrued in the first quarter.

The Audit Committee of the Company's Board of Directors is overseeing an investigation of the matters set forth in the report, with the assistance of outside counsel and forensic accountants. To date, the investigation has identified the following items not yet reflected in our March 31 results reported in our April 19, 2018 press release and which impact the quarter ended March 31, 2018, in addition to the approximately \$1.4 million of expenses described above:

(1) failure to record amortization expense in the amount of \$1.4 million to correct for amortization of an intangible asset that was inadvertently not recorded over a three-year period and discovered in March 2018; (2) understatement of a health insurance accrued liability in the amount of \$500,000; and (3) failure to record an adjustment increasing the value of inventory in our Europe, Middle East and Africa region in the amount of \$2.1 million due to inflation of raw materials costs (which, when corrected, would have a positive effect on income in the first quarter of 2018, resulting in a net increase to income from continuing operations before income taxes from these three items of approximately \$200,000).

Apart from the investigation, the Company has identified certain inadvertent errors with respect to the quarter ended March 31, 2018. The Company has quantified errors that would result in a net decrease in income from continuing operations before income taxes of approximately \$7.8 million but may quantify additional errors prior to the filing

of the Company's Quarterly Report on Form 10-Q for the quarter ended March 31, 2018. These errors will be corrected as appropriate.

In addition to the matters identified by the investigation relating to the quarter ended March 31, 2018, the investigation to date has also identified improper reclassifications of gains from income from discontinued operations to income from continuing operations, in total pre-tax amounts of \$2.1 million in the quarter ended June 30, 2017 and \$4.7 million in the quarter ended December 31, 2017. The investigation to date has also identified improper shifting of pre-tax expenses between quarterly periods in 2017 as follows: (1) a total of \$3.4 million in compensation expense recorded in the third and fourth quarters of 2017 that should have been recorded in the quarter ended June 30, 2017 and (2) additional expense accrual for health care claims in the amount of \$3.5 million recorded in the third and fourth quarters of 2017 that should have been recorded in the quarter ended June 30, 2017. The investigation is continuing and there is no assurance that additional items will not be identified. The Company does not intend to provide additional updates on the results of the investigation until it is concluded or the Company determines that further disclosure is appropriate or necessary.

The investigation has found evidence that the improper accounting entries were made by certain employees at the direction of the Company's former Vice President and Controller. The former Vice President and Controller was put on administrative leave as of April 25, 2018, and his employment with the Company was terminated as of May 10, 2018. Two employees who acted under his direction have been re-assigned to different positions within the Company where they will not have a role in PPG's internal control over financial reporting nor its disclosure control process. In light of the matters set forth above relating to periods in 2017, as well as the ongoing investigation with respect to such periods, the Company, in consultation with the Audit Committee of the Board of Directors and the Company's independent registered public accounting firm, PricewaterhouseCoopers LLP ("PwC"), concluded that the Company's consolidated financial statements for the year ended December 31, 2017 included in its Annual Report on Form 10-K and the related report of PwC, and for the quarterly and year-to-date periods in 2017, should no longer be relied upon.

Forward-Looking Statements

Statements contained herein relating to matters that are not historical facts are forward-looking statements reflecting PPG's current view with respect to future events and financial performance. These matters within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, involve risks and uncertainties that may affect PPG's operations, as discussed in PPG's filings with the Securities and Exchange Commission pursuant to Sections 13(a), 13(c) or 15(d) of the Exchange Act, and the rules and regulations promulgated thereunder. Accordingly, many factors could cause actual results to differ materially from the forward-looking statements contained herein. Such factors include a delay in PPG's financial reporting, the ongoing assessment of PPG's internal control over financial reporting, the possibility that the ongoing review may identify other errors, which may be material, in PPG's accounting, the determination that certain previously issued financial statements should no longer be relied upon, and PPG's need to restate its financial statements. However, it is not possible to predict or identify all such factors. Consequently, while the list of factors presented here and in PPG's 2017 Form 10-K are considered representative, no such list should be considered to be a complete statement of all potential risks and uncertainties. Unlisted factors may present significant additional obstacles to the realization of forward-looking statements. Consequences of material differences in results compared with those anticipated in the forward-looking statements could include, among other things, lower sales or earnings, business disruption, operational problems, financial loss, legal liability to third parties and similar risks, any of which could have a material adverse effect on PPG's consolidated financial condition, results of operations or liquidity. All information in this Form 12b-25 speaks only as of May 10, 2018, and any distribution of this Form 12b-25 after that date is not intended and will not be construed as updating or confirming such information. PPG undertakes no obligation to update any forward-looking statement, except as otherwise required by applicable law.
