Infinity Infusion Care, Inc.

Notes to Financial Statements

December 31, 2001

1. Organization

Infinity Infusion Care, Inc. (the "Company") was originally a division of a larger organization that provided home health care, but was spun off as a separate corporation in 1997.

The Company focuses on the specialty infusion market with more than 90% of its revenues from this service throughout the United States. The largest service line is intravenous immunoglobulin ("IVIG") therapy, which accounts for approximately 77% of revenue.

2. Summary of Significant Accounting Policies

Cash Equivalents

The Company considers all highly liquid short-term investments with original maturities of three months or less at the date of purchase to be cash equivalents.

Allowance for Doubtful Accounts

The allowance for doubtful accounts is based on past experience and other factors that, in management's judgment, deserve current recognition in estimating bad debts. Such factors include growth and composition of accounts

Edgar Filing: CURATIVE HEALTH SERVICES INC - Form 8-K/A

receivable, the relationship of the allowance for doubtful accounts to total accounts receivable, current economic conditions and collection issues related to specific accounts.

Marketable Securities

Marketable securities available-for-sale are recorded at fair value, and unrealized gains and losses are included in other comprehensive income (loss).

Inventory

Inventories consisting primarily of pharmaceutical products are stated at the lower of cost (determined using the first-in, first-out cost method) or market.

6

Infinity Infusion Care, Inc.

Notes to Financial Statements

December 31, 2001

2. Summary of Significant Accounting Policies (continued)

Depreciable Assets

Depreciable assets are recorded at cost, less accumulated depreciation and amortization. Depreciation and amortization is computed using the straight-line method over the estimated useful lives of the assets, ranging from three to seven years.

Goodwill and Intangible Assets

Goodwill, under purchase accounting, represents the excess of cost over fair values of net assets acquired and is being amortized on a straight-line basis over a period of 15 years. The goodwill is related to the spin-off of the Company in 1997. In June 2001, the Financial Accounting Standards Board ("FASB") issued two statements: Statement of Financial Accounting Standards ("SFAS") No. 141, Business Combinations, and SFAS No. 142, Goodwill and Other Intangible Assets, effective for fiscal years beginning after December 15, 2001. Under the new rules, goodwill and intangible assets deemed to have indefinite lives will no longer be amortized but will be subject to annual impairment tests. Other intangible assets will continue to be amortized over their useful lives.

The Company will apply the new rules on accounting for goodwill and other intangible assets beginning on January 1, 2002. Application of the non-amortization provisions of SFAS No. 142 are expected to result in an increase in net income of approximately \$2,000 per year. During 2002, the Company will perform the first of the required impairment tests of goodwill and indefinite lived intangible assets as of January 1, 2002. The Company has not

Edgar Filing: CURATIVE HEALTH SERVICES INC - Form 8-K/A

yet determined what the effect of these tests will be, if any, on its financial position or results of operations.

Income Taxes

The Company has elected to be treated as a "Subchapter S-Corporation" for federal income tax purposes. Consequently, all income and expenses of the Company are reported on the stockholders' individual federal income tax returns. As a result, no provision for federal income taxes is included in the income statement for 2001 (see Note 10).

2. Summary of Significant Accounting Policies (continued)

Revenue Recognition

The Company recognizes revenue, net of contractual allowances, in the period the services are performed.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Concentration of Credit Risk

The Company provides services to certain patients covered by various non-governmental third-party payers. Revenues, net of contractual allowances, from three third-party payers amounted to 43% of revenues for the year ended December 31, 2001. Accounts receivable related to the same three third-party payers amounted to 55% at December 31, 2001.

3. Accounts Receivable

Accounts receivable are due from commercial insurance companies and other nongovernmental payers and consisted of the following at December 31, 2001:

Accounts receivable trade	\$ 2,218,597

	\$ 1,963,336

In December 2001, the Company transferred the parcel and the remaining loan to Forum Twenty Two Enterprises L.P. ("Forum 22"), which has the same stockholders as the Company.

The parcel was transferred to Forum 22 at its historical cost. The balance of the loan was \$186,762 at the time of transfer. The net transfer of \$399,448 is reflected in the accompanying statement of stockholders' equity as distributions to owners.

A current receivable from Forum 22 of \$43,402 is included in accounts receivable.

10. Income Taxes

The Texas corporate franchise tax includes a tax on income. The franchise tax is based on the greater of .25% of net taxable capital or 4.5% of net taxable earned surplus. Net taxable earned surplus is based on federal taxable income after certain adjustments. During 2001, the Company incurred approximately \$133,000 of franchise tax based on earned surplus.

Under Financial Accounting Standards Board Statement No. 109, Accounting for Income Taxes, the liability method is used in accounting for state income taxes. Under this method, deferred tax assets and liabilities are determined based on differences between financial reporting and tax bases of assets and liabilities and are measured using the enacted state tax rates and laws that will be in effect when the differences are expected to reverse. Deferred state taxes arise principally due to differences between the financial statement and income tax treatment of the allowance for doubtful accounts receivable, the use of accelerated depreciation for tax purposes and unrealized holding gains and losses on available-for-sale securities. The net state deferred tax assets and liabilities are not material at December 31, 2001.

11. Savings Plan

The Company provides a 401(k) savings plan whereby all eligible employees may voluntarily contribute a percentage of compensation. For 2001, the Company contributed \$25,000 to the plan.

Rental expenses amounted to approximately \$68,000 in 2001. The Company has a long-term lease for office space, which expires May 31, 2003. Future minimum lease payments for the noncancelable long-term office lease at December 31, 2001 are approximately \$75,000 in 2002 and \$31,000 in 2003.

13. Subsequent Events

Effective January 1, 2002, the Company changed its legal status from a corporation and became a limited partnership.

In June 2002, the Company entered into an agreement to be acquired by Curative Health Services, Inc. ("Curative"). The total purchase price is approximately \$24 million, of which \$18 million will be paid in cash and \$6 million in the form of subordinated convertible notes of Curative. The subordinated convertible notes are convertible into shares of Curative's common stock.
