(If Yes is marked, indicate below the file number assigned to the registrant in connection with Rule 12g3-2(b): 82-_____.

Sanofi-Synthélabo / Chinoin Reinforces Its Pharmaceutical Presence In Hungary

Veresegyház, Hungary, December 5, 2003 A new pharmaceutical manufacturing facility's cornerstone had been laid today in Veresegyház, north of Budapest by **Ferenc Gyurcsány**, the Minister of Children, Youth and Sport representing the Hungarian Prime Minister Péter Medgyessy, **Dominique de Combles de Nayves** the Ambassador of France in Hungary and **Jean-François Dehecq**, Chairman and CEO of **Sanofi-Synthélabo**.

The new facility will extend the manufacturing site of **Veresegyház**, the old facilities acquired from Pharmavit by Sanofi-Synthélabo in 2002, and will be completed in 2006. This will make it possible to increase the production capacities from 60 million units today to 120 million units per annum in 2006. This new building is one of the key elements of a global modernization plan of the pharmaceutical manufacturing process. The total amount of investment will reach 250 million euros.

Sanofi-Synthélabo's Hungarian subsidiary, **Chinoin Rt.**, currently has two other pharmaceutical manufacturing sites : **Újpest**, for the production of solid forms (pills and capsules) and **Csanyikvölgy**, for the injectable forms (syringes and vials).

The pharmaceutical activities will be progressively transferred, in the coming years, from Újpest to Veresegyház, where the entire production of Chinoin's solid forms will be performed : Chinoin's traditional drugs, as well as Sanofi-Synthélabo's major blockbusters such as zolpidem, the most widely sold sleeping pill in the world, and irbesartan, one of the most innovative anti-hypertensive drugs on the market.

On that date, headcount in Veresegyház will reach more than 400 people, including people transferred from Újpest, from 200 today. The Research and Development activities as well as chemical manufacturing will remain on the Újpest site.

In his inauguration speech, Jean-Francois Dehecq notably stressed the importance of Chinoin within the global Sanofi-Synthélabo Group.

« These new investments follow the installation of a world-class Research department in Újpest, fully integrated within the global Research activity of the Sanofi-Synthélabo Group, and the significant investments in the chemical manufacturing field in Újpest.

These investments will allow Chinoin to become a major exporter of active ingredients and pharmaceuticals.

Through Chinoin / Sanofi-Synthélabo, Hungary becomes a global player in the European and Worldwide pharmaceutical industry ».

Sanofi-Synthélabo is a major global research-based pharmaceutical group with 32,500 employees in more than 100 countries.

With sales of EUR 8 billion, Sanofi-Synthelabo ranks among the world's top 15 pharmaceutical companies.

The company is headquartered in Paris and listed in Paris (Euronext : SAN) and in New York (NYSE : SNY).

Edgar Filing: SANOFI SYNTHELABO SA - Form 6-K

With an R&D portfolio of 55 compounds in development, Sanofi-Synthelabo is focused on a core group of four therapeutic areas: cardiovascular disease and thrombosis; diseases of the central nervous system; internal medicine; and oncology.

This release contains statements that constitute forward-looking statements within the meaning of the U.S. Private Securities Litigation Reform Act of 1995. These statements are based on management's current expectations or beliefs and are subject to a number of factors and uncertainties that could cause actual results to differ materially from those described in the forward-looking statements. The following factors, among others, could cause actual results to differ materially from those described in the forward-looking statements: the ability of Sanofi-Synthelabo to expand its presence profitably in the United States; the success of Sanofi-Synthelabo's research and development programs; the ability of Sanofi-Synthelabo to protect its intellectual property rights; and the risks associated with reimbursement of health care costs and pricing reforms, particularly in the United States and France.

Investors and security holders may obtain a free copy of documents filed by Sanofi-Synthelabo with the U.S. Securities and Exchange Commission at www.sec.gov or directly from Sanofi-Synthelabo on the web site www.sanofi-synthelabo.com.
