PRESS RELEASE

**Onyx awarded 10-year contract extension for Miami-Dade
County's
Resources Recovery Facility**

Edgar Filing: VEOLIA ENVIRONNEMENT - Form 6-K

Paris, October 7th, 2004. Onyx - the waste management division of Veolia Environnement - has been awarded a ten-year contract extension to continue its operation, maintenance and management of the Miami-Dade County Resources Recovery Facility - the largest capacity resource recovery plant in the world.

Under the new contract terms, Onyx and its 200 employees will run the county's state-of-the-art and environmentally sensitive waste management plant until 2023. The ten-year contract extension will generate an additional \$800 million in revenue for Onyx.

The plant processes 1.2 million tons of waste and recycles 270,000 tons per year (aluminum, steel and other recyclable metals, high-grade soil, biomass wood fuel). The Miami-Dade Resources Recovery facility generates annually up to 76 megawatts of renewable energy.

Through this new commercial award Onyx continues to demonstrate its capacity to significantly develop its operations through internal growth in the North American market.

The plant, since the original contract initiated in 1985, has won numerous industry recognition and awards. The Miami-Dade Resources Recovery facility is one of only six registered ISO 14001 sites in Florida since 2000. Onyx has implemented and must adhere to an Environmental Management System that integrates the management of environmental activities into everyday activities.

Onyx North America (ONA) is the only operator present in the United States offering the full range of hazardous and non-hazardous, solid and liquid waste management services. ONA has four divisions: Onyx Waste Services (No 4 in solid waste management), Onyx Industrial Services (No 1 in industrial cleaning and maintenance services), Onyx Environmental Services (No 2 in hazardous waste management) and Onyx Montenay Power (No 4 in waste-to-energy incineration plants). ONA reported 2003 sales of 1.2 billion euros (21% of Onyx's sales).

Onyx is the world's second largest waste management company with sales of 5.9 billion euros in 2003, 68,000 employees and activities in 33 countries. It is the Waste Management Division of Veolia Environnement.

Important Disclaimer

Veolia Environnement is a corporation listed on the NYSE and Euronext Paris. This press release contains "forward-looking statements" within the meaning of the provisions of the U.S. Private Securities Litigation Reform Act of 1995.
