PROXY STATEMENT

FOR THE

ANNUAL GENERAL MEETING OF HOLDERS OF CLASS A ORDINARY SHARES

TO BE HELD ON APRIL 27, 2007

The accompanying proxy is solicited by the Board of Directors of XL Capital Ltd (the "Company") to be voted at the Annual General Meeting of holders (the "Shareholders") of the Company's Class A Ordinary Shares (the "Shares") to be held on April 27, 2007 and any adjournments thereof.

When such proxy is properly executed and returned, the Shares of the Company it represents will be voted at the meeting on the following: (1) the election of the four nominees for Class III Directors identified herein, and (2) the ratification of the appointment of PricewaterhouseCoopers LLP, New York, New York (the "Independent Auditor"), to act as the independent registered public accounting firm of the Company for the year ending December 31, 2007.

Any Shareholder giving a proxy has the power to revoke it prior to its exercise by giving notice of such revocation to the Secretary of the Company in writing at XL House, One Bermudiana Road, Hamilton, HM 11, Bermuda, by attending and voting in person at the Annual General Meeting or by executing a subsequent proxy, provided that such action is taken in sufficient time to permit the necessary examination and tabulation of the subsequent proxy or revocation before the votes are taken.

Shareholders of record as of the close of business on March 8, 2007 will be entitled to vote at the Annual General Meeting. As of March 8, 2007, there were 180,054,134 outstanding Shares entitled to vote at the Annual General Meeting, with each Share entitling the holder of record thereof to one vote at the Annual General Meeting (subject to certain limitations set forth in the Company's Articles of Association[see footnote 1 under the heading "Beneficial Ownership]).

This Proxy Statement, the attached Notice of Annual General Meeting and the accompanying proxy card are first being mailed to Shareholders on or about March 19, 2007.

Other than the approval of the minutes of the 2006 Annual General Meeting, the Company knows of no specific matter to be brought before the Annual General Meeting that is not referred to in the Notice of Meeting. If any such matter comes before the Annual General Meeting, including any Shareholder proposal properly made, the proxy holders will vote proxies in accordance with their judgment.

The election of each nominee for Director and the ratification of the appointment of the Independent Auditor referred to in Item 2 above require the affirmative vote of a majority of the votes cast on such proposal at the Annual General Meeting, provided there is a quorum (consisting of one or more Shareholders present in person or by proxy holding at least fifty percent (50%) of the issued and outstanding Shares entitled to vote at the Annual General Meeting). Shares owned by Shareholders electing to abstain from voting with respect to any proposal and "broker non-votes" will be counted towards the presence of a quorum but will not be considered present and voting with respect to the elections of nominees for Director or other matters to be voted upon at the Annual General Meeting. Therefore, abstentions and "broker non-votes" will have no effect on the outcome of the proposals to elect directors or to ratify the appointment of the Auditors.

BOARD OF DIRECTORS

The Company's Articles of Association provide that the Board of Directors (sometimes referred to herein as the "Board") shall be divided into three classes, designated "Class I", "Class II" and "Class III", with each class consisting as nearly as possible of one-third of the total number of Directors constituting the entire Board of Directors.

The term of office for each Director in Class I expires at the 2008 Annual General Meeting; the term of office for each Director in Class II expires at the 2009 Annual General Meeting; and the term of office for each Director in Class III expires at the 2007 Annual General Meeting of the Company. At each Annual General Meeting, the successors of the class of Directors whose term expires at that meeting shall be elected to hold office for a term expiring at the Annual General Meeting to be held in the third year following the year of their election. In 2006, there were seven meetings of the Board and all incumbent Directors attended at least 75% of such meetings and of the meetings held by all committees of the Board of which they were a member. Formal meetings of the Board and Board committees are supplemented periodically by informational meetings. In 2006, four such informational meetings of the Board were held. The Company expects Directors to attend the Annual General Meeting and eleven of our then Directors attended the 2006 Annual General Meeting.

Executive Sessions of Non-Management and Independent Directors

The Company's non-management Directors meet at regularly scheduled executive sessions of the Board without any member of management in attendance. In addition, the independent Directors meet as a group at least annually. Mr. Glauber and, in his absence, Mr. Comey were selected by the independent Directors to act as presiding Director (the "Lead Director") at such executive sessions of the Board. The next meeting at which the Lead Director is to be selected, is scheduled to occur immediately before the Company's 2008 Annual General Meeting and on each second anniversary thereafter.

Independence Standards

The Board has adopted categorical standards to assist it in making determinations as to whether Directors have any material relationships with the Company for purposes of determining independence under the listing standards of the New York Stock Exchange (the "NYSE") and Rule 10A-3 promulgated under the Securities Exchange Act of 1934, as amended (the "Exchange Act"). The categorical standards are attached as Appendix A to this Proxy Statement. In accordance with these standards, the Board of Directors determined (i) in February 2006 that Mr. Weiser, who retired as a Director of the Company immediately prior to the Company's Annual General Meeting of Shareholders in 2006, was independent in accordance with such categorical standards; (ii) in February 2007 that each of Messrs. Comey, Glauber, Haag, Mauriello, McQuade, Rance, Senter and Thornton and Drs. Parker and Thrower is independent in accordance with such categorical standards; and (iii) that no transactions or relationships existed that were inconsistent with a determination that each such Director is independent.

In reaching its conclusion with respect to each of the independent directors, the Board considered that (i) three Directors (Messrs. Glauber, O'Hara and Mauriello) are directors on boards of entities on which other Directors are executive officers (Mr. McQuade and Dr. Thrower), (ii) a Director (Mr. McQuade) is an executive officer of a company to which the Company provides insurance and conducts business in the ordinary course at levels that do not exceed the limits contained in the NYSE rules, (iii) a Director (Mr. Mauriello) receives a pension from a company that does business with the Company, (iv) a Director (Mr. McQuade) has a family member who is employed by an investment bank that does work for the Company from time to time, but the family member is not involved in the work for the Company, (v) a Director (Mr. Senter) is a director at a public subsidiary of the Company and (vi) a Director (Dr. Thrower) is an executive director of a charitable organization to which the Company and certain directors and executive officers make contributions.

Code of Conduct

The Company has adopted a Code of Business Conduct and Ethics, which applies to all of the Company's Directors, officers (including the Chief Executive Officer) and employees. The Company has also adopted a Code of Ethics for XL Senior Financial Officers applicable to the Company's chief financial officer, controller and other persons performing similar functions. The Company will post on its website at www.xlcapital.com any amendment to or waiver under the Code of Business Conduct and Ethics or the Code of Ethics for XL Senior Financial Officers granted to any of its Directors or executive officers that relates to any element of the code of ethics definition set forth in Item 406 of Regulation S-K of the Securities Act of 1933, as amended.

Website Access to Governance Documents

The Company's Director Independence Standards, Corporate Governance Guidelines, Code of Business Conduct and Ethics and Code of Ethics for XL Senior Financial Officers, the charters for the Audit Committee, Compensation Committee, Nominating & Governance Committee, Finance Committee, and Public Affairs Committee, and other Company ethics and governance materials are available free of charge on the Company's website at www.xlcapital.com or by writing to Investor Relations, XL Capital Ltd, XL House, One Bermudiana Road, Hamilton HM 11, Bermuda.

Committees

The Board has established an Audit Committee, a Compensation Committee, a Nominating & Governance Committee, a Finance Committee and a Public Affairs Committee. Each member of the Audit Committee is independent as independence for Audit Committee members is defined in the NYSE listing standards and Rule

10A-3 promulgated under the Exchange Act. Each member of the Compensation Committee, the Nominating & Governance Committee and the Public Affairs Committee is independent (as defined in the NYSE listing standards).

Audit Committee

The Audit Committee's primary purpose is to assist in the Board's oversight of the integrity of the Company's financial statements, including its system of internal controls, the Independent Auditor's qualifications, independence and performance, the performance of the Company's internal audit function and the Company's compliance with legal and regulatory requirements. The Audit Committee is directly responsible for the appointment, compensation, retention and oversight of the work of the Independent Auditor in preparing or issuing an audit report or performing other audit, review or attestation services for the Company. Messrs. Thornton (Chairman), Comey, Mauriello, McQuade, Rance, Senter and Dr. Thrower comprise the Audit Committee. The Audit Committee met six times during 2006 and held ten informational meetings in 2006. The Board has determined that each of Messrs. Mauriello, McQuade, Senter and Thornton is an "audit committee financial expert" (as that term is defined in Item 401(h) of Regulation S-K).

Compensation Committee

The Compensation Committee reviews the performance and compensation of the Chairman, the Chief Executive Officer and other senior executives and has overall responsibility for approving and evaluating compensation and benefit plans of the Company. Messrs. Comey (Chairman), Glauber and McQuade comprise the Compensation Committee. The Compensation Committee met six times during 2006 and held three informational meetings in 2006. On September 15, 2006, the Board elected Mr. Glauber as a member of the Compensation Committee.

Nominating & Governance Committee

The Nominating & Governance Committee makes recommendations to the Board as to nominations for the Board and Board committee memberships and compensation for Board and Board committee members, as well as structural, governance and procedural matters. The Nominating & Governance Committee also reviews the performance of the Board and the Company's succession planning. Drs. Parker (Chairman) and Thrower and Mr. Mauriello comprise the Nominating & Governance Committee. The Nominating & Governance Committee met six times during 2006. On February 24, 2006, the Board elected Mr. Mauriello as a member of the Nominating & Governance Committee.

Identifying and Evaluating Nominees

The Nominating & Governance Committee is responsible for reviewing with the Board, on an annual basis, the requisite skills and characteristics of new Board members as well as the composition of the Board as a whole. When the Board determines to seek a new member, whether to fill a vacancy or otherwise, the Nominating & Governance Committee utilizes third-party search firms and considers recommendations from Board members, management and others, including Shareholders. In general, the Nominating & Governance Committee looks for new members possessing superior business judgment and integrity who have distinguished themselves in their chosen fields of endeavor and who have knowledge or experience in the areas of insurance, reinsurance, financial services or other aspects of the Company's business, operations or activities.

Nominees Recommended by Shareholders

The Nominating & Governance Committee will consider, for Director nominees, persons recommended by Shareholders, who may submit recommendations to the Nominating & Governance Committee in care of the Company's Secretary at XL House, One Bermudiana Road, Hamilton HM 11, Bermuda. To be considered by the Nominating & Governance Committee, such recommendations must be accompanied by a description of the qualifications of the proposed candidate and a written statement from the proposed candidate that he or she is willing to be nominated and desires to serve if elected. Nominees for Director who are recommended by Shareholders to the Nominating & Governance Committee will be evaluated in the same manner as any other nominee for Director. Nominations by Shareholders may also be made at an Annual General Meeting in the manner set forth under "Shareholder Proposals for 2008 Annual General Meeting."

Finance Committee

The Finance Committee establishes and recommends the financial policies of the Company and reviews the Company's capital structure, issuances of securities, dividend policy, mergers, acquisitions and divestitures, significant strategic investments, overall investment policy and performance, all major risk management exposures and annual business plan and budget. Messrs. Esposito (Chairman), Glauber, Haag, O'Hara, Senter and Thornton and Dr. Parker comprise the Finance Committee. The Finance Committee met six times during 2006 and held four informational meetings in 2006. Messrs. Glauber and Haag were elected by the Board as members of the Finance Committee on September 15, 2006 and June 9, 2006, respectively.

Public Affairs Committee

The Public Affairs Committee reviews the Company's policies and programs that relate to public issues of significance to the Company and the public at large, the Company's relationship with external constituencies and the non-financial issues that impact the Company's reputation. The Public Affairs Committee also oversees the Company's program of charitable giving. Mr. Rance (Chairman) and Drs. Parker and Thrower comprise the Public Affairs Committee. On July 26, 2006, the Board elected Dr. Thrower as a member of the Public Affairs Committee. The Public Affairs Committee met twice during 2006.

Communications with Members of the Board of Directors and its Committees

Shareholders and other interested persons may communicate directly with one or more Directors (including the Lead Director or all non-management Directors as a group) by writing to them in care of the Company's Secretary at XL House, One Bermudiana Road, Hamilton HM 11, Bermuda and specifying the intended recipient(s). All such communications will be forwarded to the appropriate Director(s) for review, other than communications that are advertisements or other commercial solicitations or communications.

Haag and Mauriello who were not Directors of the Company in 2005. In 2006, for service as a Director from April 2006 to April 2007, each Non-Employee Director received an annual retainer fee of \$50,000, except for (i) Mr. Haag whose \$50,000 annual retainer fee was for service as a Director from his appointment to the Board on June 7, 2006 to April 2007; (ii) Mr. Weiser who retired from the Board on April 28, 2006; and (iii) Mr. Glauber who received a pro rated annual retainer fee of \$33,334 upon his appointment to the Board on September 15, 2006. In 2006, Mr. Mauriello received an additional pro rated annual retainer fee of \$16,667 for his service as a Director from his appointment to the Board on January 26, 2006 to April 2006.

Board and Committee Meeting Attendance Fees

In 2005 and 2006, each Non-Employee Director received a Board Meeting attendance fee of \$3,000 per meeting, including informational meetings. Also, each of Messrs. Comey, Parker and Rance, as the Chairman of the Compensation Committee, Nominating & Governance Committee and Public Affairs Committee, respectively received a Committee Chairman's fee of \$5,000, and each member of such Committees received a Committee attendance fee of \$1,500 per meeting including informational meetings. Additionally, Mr. Thornton, as the Chairman of the Audit Committee received an annual fee of \$12,000, and each of Messrs. All Other Fees

In addition to the aforementioned fees, Non-Employee Directors are reimbursed for travel, accommodation and other reasonable out-of-pocket expenses incurred in connection with their attendance at Board and Committee meetings. The Company transports one or more Non-Employee Directors to and from such meetings on the Company's corporate aircraft. The Company also reimburses Non-Employee Directors for continuing board education courses. No such reimbursements were made during 2006.

Deferral of Annual Retainer Fee

Prior to the beginning of each calendar year, Directors may elect to defer all or part of their Board annual retainer fee in increments of 10%. Deferred annual retainer fees are credited in the form of Share units ("Deferred Share Units"), the value of which is calculated by dividing 110% of the deferred annual retainer fee by the market value of the Company's Shares on the date the fees would otherwise be paid, in accordance with the terms of the Company's Directors Stock & Option Plan, as amended and restated (the "Directors Plan"). Deferred Share Units represent a right to receive Shares as described above. Deferred Share Units have no voting rights and receive dividend equivalents rather than cash dividends. Each Non-Employee Director receives dividend equivalents on the Deferred Share Units contained in his or her stock deferral account, which are equal in value to dividends paid on the Company's Shares. The dividend equivalents granted are then reinvested in the Non-Employee Directors' stock deferral accounts in the form of additional Share units. Upon retirement or termination of services as a Director, each Non-Employee Director receives a Share for each Share Unit

awarded. Such Shares are received either in a lump sum on the date of the Non-Employee Director's retirement or termination or over a period not to exceed 10 years, as elected in advance by such Non-Employee Director. Alternatively, Non-Employee Directors may elect to receive their annual retainer fees in the form of Shares having a value equal to their annual retainer fees on the date of the Annual General Meeting of the current year. In 2006, no Non-Employee Director elected to receive their annual retainer fee in the form of Shares.

The following table shows the Non-Employee Directors that elected to defer all or a portion of their annual retainer fees (i) in 2005 for service as a Director from April 2005 to April 2006; and (ii) in 2006 for service as a Director from April 2006 to April 2007:

In 2005, for service as a Director from April 2005 to April 2006, each Non-Employee Director was awarded 1,000 restricted Shares at the fair market value of the Shares on the date of grant, or \$70.30, which vested on grant, pursuant to the terms of the Directors Plan. In 2006, for service as a Director from April 2006 to April 2007, each Non-Employee Director was awarded 1,000 restricted Shares at the fair market value of the Shares on the date of grant, or \$65.89, pursuant to the terms of the Directors Plan (except for Mr. Glauber, who was appointed to the Board on September 15, 2006, and was awarded no restricted Shares and Mr. Weiser, who was awarded 1,250 restricted Shares at the fair market value of \$65.89 in connection with his retirement from the Board on April 28, 2006 and as an acknowledgement of his service as the presiding Director at executive sessions of the Board).

Options

In 2005, for service as a Director from April 2005 to April 2006, each Non-Employee Director was awarded a grant of 2,500 options exercisable at \$69.05, which vest on grant, pursuant to the terms of the Directors Plan. In 2006, for service as a Director from April 2006 to April 2007, each Non-Employee Director was awarded a grant of 2,500 options exercisable at \$66.24, pursuant to the terms of the Directors Plan, except for (i) Messrs. Upon appointment to the Board, each new Non-Employee Director receives a one-time award of 5,000 options.

Retainer Share Units

In addition, under the Company's Stock Plan for Non-Employee Directors (the "Stock Plan"), as of the day of each year that annual retainer fees are paid to Directors, Share units are credited to the account of each Non-Employee Director (collectively, "Retainer Share Units"). The number of Retainer Share Units credited each

year is equal to the annual retainer fee divided by the fair market value of a Share on the date the Deferral Share Units are credited. Dividends on the Retainer Share Units contained in a Non-Employee Director's stock deferral account are credited

as additional Share Units, which are equal in value to dividends paid on the Company's Shares. Benefits under the Stock Plan will be distributed in the form of Shares for each Share Unit awarded following retirement or termination of a Non-Employee Director's service on the Board. Such Shares are received either in a lump sum on the date of a Non-Employee Director's retirement or termination or over a period not to exceed 10 years, as elected in advance by each Non-Employee Director.

Compensation Paid to the Chairman of the Board

Mr. Esposito's annual compensation as Chairman of the Board with respect to 2006 was comprised of a salary of \$750,000, a cash bonus of \$1.5 million and pension contributions of \$75,000. In connection with the initial public offering of Security Capital Assurance Ltd (an indirect majority-owned subsidiary of the Company), Mr. Esposito waived his right to receive a fee of \$20,750 and an award of 25,000 options for his service as a director on the board of that company, which compensation was paid to the Company. Mr. Esposito was not awarded any restricted Shares during 2006. For his 2005 performance, Mr. Esposito received in 2006 an option to purchase 60,000 Shares at the then market price of \$75.48. The aggregate number of stock awards and option awards outstanding, as at December 31, 2006, for Mr. Esposito, was 17,500 and 529,040, respectively. Effective February 1, 2007, Mr. Esposito's compensation package has been aligned with the other outside directors. He will also receive an additional \$150,000 annual cash retainer for services as Chairman of the Board.

Director Share Ownership Guidelines

The Board of Directors revised the Company's stock ownership guidelines for Directors at its January 2004 board meeting. The guidelines require that, within three years of becoming a Director, each Director beneficially own Shares, options or Share units (or any combination thereof) with a value of at least \$200,000. All of the Directors are currently in compliance with the guidelines.

PROCEDURES FOR APPROVAL OF RELATED PERSON TRANSACTIONS

In February 2007, the Company's Board of Directors adopted written policies and procedures relating to the approval or ratification of transactions with "Related Parties". Under these policies and procedures, Management shall present to the Nominating & Governance Committee any "Related Party Transactions" proposed to be entered into by the Company and any "Ordinary Course Related Party Transactions" known to Management, including the aggregate value of such transactions, if applicable. In reviewing proposed Related Party Transactions, the Committee shall consider, among other things, if such transactions are on terms comparable to those that could be obtained in arm's length dealings with an unrelated third party and shall review such transactions to ensure that the terms are arm's-length or otherwise fair to the Company. In instances where an Ordinary Course Related Party Transaction is reviewed, the Committee shall determine whether such proposed transaction is in the ordinary course of business and on terms no more favorable than are made to other customers. After review, the Committee shall approve or disapprove such transactions and at each subsequently scheduled meeting, Management shall, at each subsequent Nominating & Governance Committee meeting, update the Committee as to any material change to those transactions that have been approved by the Nominating & Governance Committee. No Director may participate in any discussion or approval of a Related Party Transaction in which he or she is a Related Party.

Under these policies and procedures, a "Related Party Transaction" is any transaction, including proposed charitable contributions or pledges of charitable contributions, in which the Company was or is a participant, and the amount involved exceeds \$120,000 and in which a Related Party had or will have a direct or indirect material interest. A Related Party Transaction does not include the Company's providing insurance and/or reinsurance to Shareholders or their affiliates, or to employers or entities associated with a Related Party in the ordinary course of business, on terms no more favorable to the (re)insureds than are made available to other customers (collectively, "Ordinary Course Related Party Transaction(s)"). A "Related Party" is a senior officer, director or nominee for director of the Company, a greater than 5% beneficial owner of the Company's outstanding Shares, any immediate family member (as that term is defined by Item 404 of Regulation S-K) of any of the foregoing or an entity in which a person listed in the foregoing has a substantial interest in, or control of, such entity or which employs a person listed in the foregoing.

RELATED PERSON TRANSACTIONS

Certain Shareholders of the Company and their affiliates, as well as the employers of or entities otherwise associated with certain directors and officers or their affiliates, have purchased insurance and/or reinsurance from the Company on terms the Company believes were no more favorable to these (re)insureds than those made available to other customers.

Mr. Rance's son and daughter-in-law received aggregate annual compensation for 2006 of approximately \$350,000 from subsidiaries of the Company. Neither of Mr. Rance's son nor daughter-in-law is an executive officer of the Company.

The Harbour View Charitable Trust (the "Trust") is an unconsolidated charitable trust and was established by the Company in July 2002 to generate income to be used exclusively for the benefit of Bermudian charities and to facilitate the provision of accommodations for certain of the Company's employees. The Trustees have distributed approximately \$200,000 since inception of the Trust for the benefit of Bermudian charitable purposes. The current trustees are members of non-executive management of the Company. The Trustees purchased a residence in Bermuda in 2002 for a purchase price of \$3,250,000 with the intent of leasing the residence to generate income for its charitable purposes. The purchase price of the residence was funded by a gift to the Trust of approximately \$1,350,000 from the Company and a loan from the Company of \$2,000,000, with interest on the loan at the rate of 6.9% per annum. Principal and interest on the loan are due and payable to the Company on August 27, 2023. Upon the Trustees' purchase of this residence, the Company entered into a 21-year lease of the residence from the Trust and a 5-year sublease of the residence to Mr. De St. Paer for a sublease rental of \$18,000 per month.

In 2006, in an effort to expand the Trust's charitable activities in Bermuda, the Company made a loan to the Trust of approximately \$10,700,000, with interest at the rate of 3.5% per annum, in order to permit the Trustees to purchase eight residential units in Bermuda. A portion of the loan was advanced by the Company in 2002 and 2003 to the sellers of the eight residential units. The Company nominated the Trustees as the purchaser of the eight residential units and instructed the sellers to apply the loaned monies as consideration for selling the eight residential units to the Trustees. The Trustees have entered into an agreement with the Company pursuant to which the Trustees will provide accommodation to certain of the Company's and its subsidiaries' directors, officers and employees, as the Company's designees, by way of a lease of the residential units on standard terms for such premises and at a rent that reflects the open market rent at the time any such lease is granted. The fair market rental to be paid by the Trustees will be determined on an annual basis by an independent real estate appraiser. Under the agreement the Company pays the Trustees a fee based on the aggregate fair market rents for each of the residential units less the sum of all rents received by the Trustees during a given year under the terms of each residential lease.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Exchange Act requires the Company's directors and executive officers and persons who own more than 10% of a registered class of the Company's equity securities to file with the SEC and the NYSE reports on Forms 3, 4 and 5 concerning their ownership of the Shares and other equity securities of the Company.

The Company believes that all of its officers and Directors filed all of such reports on a timely basis during the year ended December 31, 2006. The Company is unaware of any Shareholder owning 10% or more of its equity securities.

These amounts reflect the Company's accounting expense for these awards and do not correspond to the actual value that might be realized by each Named Executive Officer. None of the Named Executive Officers received stock option grants with respect to performance year 2006. For retirement-eligible Named Executive Officers (Messrs. O'Hara, de St. Paer, Greetham, Keeling and Tobin) the entire amount is expensed on grant. See 2006 Stock and Option Awards Expense Details table below for values associated with the 2006 annual expense and 2006 expense accelerations resulting from a change in SFAS No. 123R.

- (ii) Represents for Messrs. O'Hara and de St. Paer, tax reimbursements in connection with their housing allowance. Such tax reimbursements were paid to the Company's executives pursuant to changes made under The Tax Reconciliation Act of 2006 to section 911 of the U.S. Internal Revenue Code.
- (iii) Includes for Mr. O'Hara, \$134,955 for Mr. O'Hara's personal travel on the Company's corporate aircraft in 2006, based upon the aggregate incremental cost to the Company. The aggregate incremental cost to the Company of Mr. O'Hara's personal travel on the Company's corporate aircraft is determined on a per flight basis and includes the following costs: hourly charge; international positioning charge; fuel variable charge; domestic segment fee; international passenger fee; and federal excise tax. Pursuant to the Company's policy regarding the use of the Company's aircraft, Mr. O'Hara is permitted to use the Company's corporate aircraft for personal travel up to a limit of \$150,000 per year based on the aggregate incremental cost to the Company.
- (iv) Includes payments made for, among other things, personal car benefits, club memberships and annual officers' medical. In addition, includes for Mr. de St. Paer, payment of \$41,682 made in 2006 for a car. In connection with the initial public offering of Security Capital Assurance Ltd (an indirect majority-owned subsidiary of the Company), Mr. O'Hara waived his right to receive a fee of \$26,750 and an award of 25,000 options for his service as a director on the board of that company, which compensation was paid to the Company and accordingly, is not included in this table.

Under the terms of the 1991 Performance Incentive Plan employees of the Company whose combined age and years of service aggregated to 65 or higher, were considered to be retirement-eligible, meaning that they were entitled to retain the rights to any of their unvested stock based awards upon departure from the Company. Statement of Financial Accounting Standards No. 123R, which the Company implemented in 2006, requires awards made on such a basis to be expensed in full at the time of the award notwithstanding the fact that the employee would not receive those awards until the normal vesting date should they remain employed by the Company.

Messrs O'Hara, de St. Paer, Greetham, Keeling and Tobin were retirement-eligible in 2006, and accordingly, all of the stock based awards granted to them in 2006 were expensed by the Company in full in 2006. The table below sets out the impact of this change.

Clive R. Tobin	\$840,928	\$934,620	\$1,194,025	\$380,250

(i) Reflects the expense that would have been recorded at December 31, 2006 had the Named Executive Officer not been retirement-eligible.

As set out in the [Compensation Discussion and Analysis, 4. Executive Compensation Program Components, Holding Requirements] below, the terms under which an employee is viewed as retirement-eligible were amended in January 2007 for new awards.

We continue our strategy of setting our executive salary levels at a level commensurate with the median of the market for the role that the executive occupies. Salaries for some of our executives were amended in early 2006 as a result of role changes, most notably Mr. Keeling's with his promotion to Chief Operating Officer and Ms. Street's with her promotion to Chief Investment Officer. No increases are being proposed for 2007. The annual incentive (bonus) awards are meant to reward individuals for prior year performance and the awards for performance year 2006 are in-line with the strong performance exhibited by the business, particularly in relation to 2005 awards and the corresponding company performance for that year. Long-Term Incentive awards are primarily based on competitive market levels for the position that the executive occupies and a portion of the award is based on executive performance for the prior year as well as contributions made to the executive leadership team. All other compensation amounts included in the table are based on general company-wide benefit plans in which the executives participate. Such amounts generally do not have discretionary approval by the Board since they are company-wide in nature, although the Board reviews executive participation when determining annual incentive and long-term incentive awards.

Narrative Disclosure to Summary Compensation Table and Grants of Plan-Based Awards Table

The Company's Long-Term Incentive Plan (□LTIP□) is designed to provide for both incentives and alignment of senior executives with Shareholders. LTIP awards are made, in general, each year and each award is conditioned on achievement of a three-year performance metric. Each senior executive is awarded a □face value□ figure that would correspond to target performance for the three-year period. In 2005, the Compensation Committee made awards to executives with a face value of \$100,000 per person and the performance metric used to value the actual award was a three-year Net Income metric based on the Company's three-year strategic plan for 2005 to 2007. Maximum payout for this award was set at \$200,000, a minimum payout was set at \$50,000, and the awards will payout in the first quarter of 2008.

The awards made in 2006 varied in face value. Payouts for such awards will be tied to a three-year average ROE metric for 2006 to 2008, with a payout scheduled for the first quarter of 2009. The three-year average ROE was set based on the Company's three-year strategic plan for 2006 to 2008. The maximum payout for this award was set at 300% conditioned on achievement. If three-year return on equity (meaning, operating income divided by the average ordinary Shareholders' equity for the period) (□ROE□) performance is below 10% then no payout will

be made.

On March 1, 2001, the Company entered into an employment agreement with one of its named executive officers, Jerry de St. Paer, to serve as Executive Vice President and Chief Financial Officer of the Company (the "de St. Paer Employment Agreement"). On November 24, 2006, Mr. de St Paer announced his decision to retire from the Company during 2007. On February 22, 2007 the Company entered into an agreement with Mr. de St. Paer pursuant to which he continued to be employed by the Company as its Executive Vice President and Chief Financial Officer through March 5, 2007. Pursuant to such agreement, he will receive payments and benefits substantially as provided in Section 8(d) (ii) of the de St. Paer Employment Agreement (Termination Without Cause). The Company has agreed to waive the provisions in the de St. Paer Employment Agreement relating to non-competition and non-solicitation of customers. The de St. Paer Employment Agreement provided for (i) a specified base salary, which is subject to review for increase annually, (ii) an annual bonus pursuant to the Company's incentive compensation plan as determined by the Compensation Committee and stock option and restricted share grants pursuant to the Company's performance incentive program, (iii) reimbursement for or payment of certain travel, living and other expenses

and (iv) the right to participate in such other employee or fringe benefit programs for senior executives as are in effect from time to time.

The Company has also entered into employment agreements (the "NEO Employment Agreements") with the following named executive officers: Henry C.V. Keeling, to serve as the Company's Executive Vice President and Chief Operating Officer; Sarah Street, to serve as the Company's Executive Vice President and Chief Investment Officer; Clive R. Tobin, to serve as the Company's Executive Vice President and Chief Executive of Insurance Operations; and James H. Veghte, to serve as the Company's Executive Vice President and Chief Executive of Reinsurance Operations.

Each NEO Employment Agreement provides for (i) a specified base salary, which is initially as set forth in the Summary Compensation Table and is subject to annual review and may be increased by the Compensation Committee, (ii) an annual bonus pursuant to the Company's incentive compensation plan, the actual amount earned to be determined by the Compensation Committee, (iii) reimbursement for or payment of certain travel and other expenses and (iv) the right to participate in such other employee benefit programs as are in effect for senior executives from time to time. Employment is for an original term of one year and will continue to be automatically extended for successive one year periods unless the Company or the executive provides written notice that the term is not to be extended at least six months prior to the then scheduled expiration date. Each of these executives has agreed to certain confidentiality, non-competition and non-solicitation provisions.

Each NEO Employment Agreement provides for indemnification of the executive by the Company to the maximum extent permitted by applicable law and the Company's charter documents and requires the Company to maintain directors' and officers' liability coverage in an amount equal to at least \$75,000,000.

With respect to the Company's Former Executive Vice President and Chief Investment Officer, Christopher V. Greetham, the Company entered into a consulting agreement (the "Consulting Agreement") with Mr. Greetham, which commenced on January 1, 2007 after his retirement from the Company. Under the Consulting Agreement, Mr. Greetham will provide certain advisory services to the Company relating to its investment portfolio and investment strategy. The Consulting Agreement has a one year term, and can be terminated by either party at any time on the provision of ten (10) days' written notice to the other party. Mr. Greetham will provide services as an independent contractor and is not eligible to participate in any Company welfare, retirement or incentive plans.

The Consulting Agreement provides that in exchange for the consulting services, Mr. Greetham (i) shall receive a fee of \$250,000 on an annualized basis; (ii) will be reimbursed for his reasonable out of pocket expenses incurred in connection with the provision of services, (iii) will be reimbursed for certain spousal travel in connection with his provision of services and (iv) would be eligible to receive, at the sole discretion of the Company's Chief Executive Officer, additional payments based upon his provision of advisory services that result in "capital events" resulting from value created by investments entered into by XL Capital Investment Partners Inc., a subsidiary of the Company.

Mr. Greetham also has a contractual obligation to maintain and refrain from divulging confidential and proprietary information of the Company. While he may continue to maintain any board memberships he may currently have with any investment affiliate of the Company, the Company can request his resignation from those positions at any time during the term of the Consulting Agreement. The Company may extend the term of the Consulting Agreement for another year after expiration subject to pre-approval of the Compensation Committee and Nominating & Governance Committee.

(2) Pursuant to the Company's 1991 Performance Incentive Plan, the vesting of Mr. Greetham's Shares accelerated to December 31, 2006, in connection with his retirement from the Company on that date.

OPTION EXERCISES AND STOCK VESTED

None of the Company's Named Executive Officers participates or has any accrued benefit under any of the Company's defined benefit pension plans.

NON-QUALIFIED DEFERRED COMPENSATION

The following table shows amounts contributed to the Company's only defined contribution plan for the Named Executive Officers that provides for the deferral of compensation on a basis that is not tax-qualified in the last fiscal year:

Name(1)	Executive Contributions in Last Fiscal Year (\$)	Registrant Contributions in Last Fiscal Year (\$)	Aggregate Earnings in Last Fiscal Year (\$)	Aggregate Withdrawals/ Distribution (\$)	Aggregate Balance at Last Fiscal Year End (\$)

(1) Messrs. Greetham, Keeling and Tobin do not participate in any Non-Qualified Deferred Compensation arrangements with the Company.

The Company's Non-Qualified Deferred Compensation Plan is based on Company prescribed contribution rates that are established for all participating employees. Aggregate earnings are based on the performance of the underlying mutual funds chosen by the executive from a prescribed list of choices sponsored by the Company through a third-party vendor. As no preferential performance or interest rates are accorded any of the notional

investments that executives have in the Company's Non-Qualified Deferred Compensation Plan, no monies relating to the Non-Qualified Deferred Compensation Plan are reported in the Summary Compensation Table on page 14.

Participants are allowed to defer both salary and bonus into the Non-Qualified Deferred Compensation Plan. All participants in the Non-Qualified Deferred Compensation Plan are required to have on file with the Company a payout election form indicating the terms chosen by the participant for payout at the time of termination or retirement. No executive is allowed to take a loan from the Company or against their outstanding plan balance.

POTENTIAL PAYMENTS UPON TERMINATION OR CHANGE IN CONTROL

President and Chief Executive Officer

Mr. O'Hara does not have an employment agreement with the Company. Except for death or disability, no payments would be made to Mr. O'Hara upon termination or change-in-control of the Company. In the event of termination of Mr. O'Hara's employment by reason of death or disability, Mr. O'Hara would be entitled to accelerated vesting of his rights under any option or restricted share grants and pension plans, pursuant to the Company's 1991 Performance Incentive Plan that governs all equity awards made to employees of the Company. In the event Mr. O'Hara's employment were to have been terminated on December 29, 2006, the last business day of the Company's fiscal year, by reason of death or disability, the value of the estimated potential payments to be received by Mr. O'Hara described above, would be 277,501 option Shares and 23,125 restricted Shares. Based upon the difference between the exercise price of the options and the closing price of the Shares on December 29, 2006 or \$72.02, the net value of these options would be \$119,003. Based upon the closing price of the Shares on December 29, 2006, the value of these Shares would be \$1,665,463.

- (iii) an amount equal to the higher of (x) his annual bonus actually awarded for the year immediately preceding the year of the Change in Control or (y) his targeted annual bonus that would have been awarded for the year of termination, pro rated by a fraction of the number of months or fraction thereof in which he was employed in the year of termination; and

Based upon the closing price of the Shares on December 29, 2006, the value of these Shares would have been \$1,881,523.

COMPENSATION DISCUSSION AND ANALYSIS

1. Introduction

We operate on a global basis primarily in the property and casualty insurance industry and, to a lesser extent, the financial services industry. We serve the insurance, reinsurance and financial services needs of institutional or corporate clients, typically the global equivalent of the Fortune 2000.

The property and casualty insurance and reinsurance markets have historically been cyclical, meaning that based on market conditions, there have been periods when premium rates are high and policy terms and conditions are more favorable (a "hard market"), and there have been periods where premium rates decline and policy terms and conditions are less favorable (a "soft market"). This has been driven primarily by competition in the marketplace, the supply of capital in the industry, investment yields and the frequency and severity of loss events. Our goal is to build long-term shareholder value by capitalizing on current opportunities and managing through any potential downward cycles by reducing our property and casualty book of business and exposures if and when rates deteriorate to unprofitable levels. As part of our long-term strategy, we look to financial products and services to provide a diversified stream of earnings that are not directly tied to the property and casualty cycle.

Our executive compensation programs are established so that our executives are rewarded for creating long-term shareholder value, by strengthening our competitiveness within our industry, resulting in an increase in the value of our share price. Accordingly, performance measurements for the programs described below are set with the idea that attainment of both internal and external (relative to peers) goals will increase our long-term shareholder value.

The goals of our executive compensation programs are to:

- Attract and retain high quality executives that will implement our business strategy effectively. Due to the highly competitive nature of attracting key executives within the commercial insurance/reinsurance industry, our aim is to provide substantial rewards to those executives that prove consistently successful in their roles. Differentiation based on performance is a hallmark of our programs.
- Motivate executives to maximize the long term creation of shareholder value. With attainment of a return on equity (meaning, operating income divided by the average ordinary Shareholders' equity for the period) ("ROE") performance metric required for the vesting of restricted shares and a cash long-term incentive plan ("LTIP") that pays out based on a three-year ROE performance metric, consistent annual returns are rewarded. If our company should have a sub-standard performance year, restricted shares do not vest and the LTIP payout will be reduced.
- Align our business actions with our core values and our pay-for-performance philosophy. While it is important that we attain our stated business goals, we will not do so at the expense of our core values. These core values underscore and define who we are to our customers and other stakeholders. Our principles are predicated on the understanding that executive contributions to the Company's success demonstrate the base core values that underpin our Company's culture:

Ethics □ We insist on the highest standard of personal and professional conduct to secure the absolute trust and confidence of our clients, our stakeholders and our colleagues.

Teamwork □ We achieve greater contribution when we work together. We recognize and reward team effort.

Excellence □ We require continuous improvement in the quality of all the work that we do. We reward those who continually seek to improve the quality of their work.

Development □ Ensuring that all our staff realizes their full potential is the only way for us to reach our business objectives. We expect everyone to take the initiative for their own professional development and to actively seek opportunities to assist in the development of colleagues and subordinates.

Respect □ We must all value and respect the differences and diversity within our own organization. Lack of personal and professional respect in dealing with our colleagues is not tolerated.

2. Executive Compensation Program Review and Oversight

The goals of our executive compensation programs have been established by the Compensation Committee of the Board of Directors. This committee consists of three independent directors: Dale R. Comey (Chairman), Robert R. Glauber and Eugene M. McQuade. All Compensation Committee members are outside directors as defined under Section 162(m) of the Internal Revenue Code ("Section 162(m)") and qualify as independent Directors under the NYSE listing standards. The Compensation Committee evaluates and approves all senior executive compensation actions, as well as compensation and benefits policies, plans and programs.

The Chief Executive Officer, Brian M. O'Hara, is responsible for providing recommendations to the Compensation Committee with respect to all compensation actions for the executive officers other than himself, as well as the cash incentive pools and the long-term incentive pools for all non-executive employees. The Compensation Committee expects that Mr. O'Hara will justify his recommendations based on actual performance against agreed upon metrics, relative performance versus the Company's peers and, at the business unit level, relative contributions to overall company results. Mr. O'Hara is required by the Compensation Committee to detail the company's operating results each year, how these results compare to the Company's peer group of 11 companies in the global commercial insurance/reinsurance market, individual performance of senior executives and how his compensation recommendations relate to such performance comparisons.

The Compensation Committee retains an independent consulting firm to assist in calculations for the annual incentive pool and to advise the Compensation Committee of any issues requiring the consulting firm's expertise. In 2006, the Compensation Committee retained the consultant to size the annual incentive pool.

3. Executive Compensation Philosophy and Core Principles

Our compensation strategy is punctuated by differentiation — we are a "pay for performance" company. Accordingly, we target our salary compensation levels to be at the 50th percentile of the local market in which each executive operates and the annual incentive target compensation levels are set between the 50th and the 75th percentile of our market relative to our peer group. We drive superior performance by paying above these market levels to executives that make superior contributions to the Company's success as measured by the performance of their business unit relative to annual internal and external goals and their contributions to the Company's overall success.

Using all instruments that are practically available, we position the total compensation package for executives competitively relative to the market for their skill-sets; in particular, the market for most of our executives consists of those companies that operate in the global commercial insurance/reinsurance industry. While not all of our executives can be expressly tied to such a market (e.g., certain finance, information technology or investments executives), our aim is to reward executives relative to their contributions to the success of the Company in any given year. This does not necessitate having every executive at or above market levels. Individual considerations such as performance, previous experience and additional skill-sets are considered when determining compensation for an executive. Due to our focus on providing variable compensation, actual pay can be well above or below an executive's market median based on actual business and individual performance.

We are a performance-oriented company and we seek to "pay-for-performance". This is achieved by minimizing the fixed elements (salary and benefits) of compensation that do not relate to performance of the Company, business line or executive while maximizing the variable elements (annual and long-term incentives) that relate to, and are paid out based on, performance.

Since much of our business requires multiple years to determine whether we have been successful in our risk assessments, we choose to put a significant portion of our senior executive compensation packages in long-term vehicles that provide wealth to our executives when value is created for shareholders. This combination of retaining and motivating our executives is carried out by using different vehicles that have different objectives. In general, our goal for our NEOs is to have 10% - 20% of their total annual compensation in annual salary, 20% - 40% in annual cash incentive and the remainder in a mix of long-term incentives.

We work to maintain equity and fairness in the distribution of total compensation for executives in similar jobs, with similar performance and in similar local markets. We do not attempt to equalize total compensation across geographical markets, varying business markets or different performance levels.

4. Executive Compensation Program Components

We aim to reward performance based on annual performance goals, long-term performance goals and our corporate core values by using two "fixed" components (base salaries and perquisites and benefits) and two "variable" components (annual incentives and long-term incentives) in our executive compensation program. For our NEOs, we complete an annual review of peer data that is disclosed in public filings (primarily annual reports on Form 10-K and annual proxy statements filed on Schedule 14A) to ensure that our compensation levels are competitive with those companies we view as direct competitors and to better understand trends in the use of compensation vehicles. The competitor group that we have defined includes companies in the commercial insurance/reinsurance market that have an average market capitalization and revenue base that is similar to ours. We also review companies in our industry that are both larger and smaller than ours and we appropriately adjust the compensation delivered by these companies when making comparisons. There are no companies in our compensation peer group that are not defined as commercial insurance and/or reinsurance companies.

Fixed Components

- Base Salaries.** Base salaries are established based on the responsibilities of the executive, the relative salary level paid by our peer group to executives with similar levels of responsibility and the geographic location of the executive. Base salaries are intended to compensate an executive for executing the basic responsibilities of their job. Due to the relatively fixed nature of base salaries, we aim to pay at the median of the respective market and we undertake a review and adjustment of executive base salaries each year in the first quarter. The Compensation Committee reviews the recommendations made by Mr. O'Hara each year with respect to all executive officers and the Committee reviews the base salary of Mr. O'Hara in the same manner. Since base salaries are paid for executing the basic responsibilities of the job, base salaries are adjusted when there has been a change to the market level being paid for the responsibilities of that job or when the role of the executive has changed. Mr. O'Hara last received a salary increase in 2001; since that time, the Compensation Committee has reviewed the salary level for Mr. O'Hara and believes that his salary approximates the median of the competitive peer group.
- Perquisites and Supplemental Benefits.** Pursuant to our pay-for-performance philosophy, executives receive minimal perquisites and minimal supplemental benefits, most notably a non-qualified supplemental deferred compensation plan which allows U.S. tax-paying executives to defer receipt of up to 95% percent of their base salary and 100% of their annual incentive award, which are notionally invested in a series of mutual funds that are managed by our retirement plan vendor. This type of benefit is provided to executives by a majority of our peer companies. We do not have any defined benefit (pension) plans for our NEOs. Health and retirement benefits are provided to all employees based on market norms in the local markets in which we operate and at local market levels. Since benefits supplement the overall total rewards package and due to the fixed nature of the costs incurred in providing such benefits, we review local markets periodically to determine the appropriate vehicles and cost-sharing levels relative to peer companies (as described above) in the local markets in which we operate.

Variable Components

- Annual Incentives.** Annual incentives are awarded by the Compensation Committee, payable based on the attainment of financial and operational goals of the company, business unit and individual goals and are paid in cash within the first quarter of the following year. Determination of payout levels includes both absolute and relative performance. Individuals have target annual incentive levels that vary based on the executive's role with no stipulation of a maximum or minimum payout level. Executives are evaluated based on four primary criteria: 1) the overall performance of the company and their contribution to that performance, 2) the performance of the business unit or function that the executive leads, 3) the executive's attainment of annual performance goals and 4) the executive's personal and business unit/ function's adherence to the company's core values.

Performance measures that determine the annual incentive pool include ROE, Operating Earnings per Ordinary Share (EPS), Book Value per Ordinary Share and Total Shareholder Return (TSR). Book Value per Share and TSR are measured relative to our peer group of 11 companies in the commercial insurance/reinsurance market. By choosing these indices, the Compensation Committee can judge the performance of management regarding how it handles broad market events and trends in the global

commercial insurance/reinsurance market relative to our peer group. EPS is measured in absolute terms, against goals set by the Board of

Directors early each year. This allows the Compensation Committee to judge management on its ability to adhere to its annual plan, which is intended to generate an above market return to shareholders. ROE is measured in both relative and absolute terms since it is the strongest metric for measuring the effectiveness of the use of shareholder capital. The measures are part of a formula that calculates a pool based on the sum total of all target bonuses, and the Compensation Committee has the discretion to increase or decrease the pool by up to 25% of the target pool to adjust for anomalies in the calculation or material non-recurring events that unjustly inflate or deflate the annual incentive pool.

The funding of the annual incentive pool is then distributed to the various business lines and functions based on their annual performance so that managers can disseminate the pool to individuals based on performance against pre-determined goals for the year. Executive management reviews these recommendations before submitting them to the Compensation Committee for approval.

The Compensation Committee reviews the recommendations made by each business/functional unit as well as each of the recommendations made for the Executive Management Group, a cross-enterprise leadership body that assists the Executive Board in shaping its decisions on long-term strategy and near-term priorities. This group is currently made up of approximately 50 individuals. The Compensation Committee includes a recommendation for Mr. O'Hara's compensation and submits the entire program to the Board of Directors for approval.

The annual incentive pool for 2006 was calculated to be approximately 170% of the target pool. We exceeded our planned internal goals of ROE and EPS in 2006 due primarily to the relatively benign storm season as well as favorable net prior year loss development and strong performance in our investment operations. Relative to our peer group we were slightly above the median for our ROE performance and in the top third for our increase in Book Value per Ordinary Share. The actual payout level was less than the calculated pool with payout equaling approximately 155% of the collective target amount. The NEOs collectively received approximately 200% of their collective bonus target levels.

- **Long-Term Incentives** To motivate sustained performance and the creation of superior long-term value for our shareholders, as well as to provide retention mechanisms to key executives, both stock-based vehicles (restricted stock, options, stock appreciation rights) and cash vehicles (deferred cash awards, long-term incentive plan awards) are used to reward middle management and senior executives. The vehicle chosen to award an executive depends upon such variables as current holdings, desired performance focus, career cycle management, vehicle availability and usage within our peer group.

Stock Options and Stock Appreciation Rights

When awarded, stock options or stock appreciation rights (SARs) are granted at the closing market price of the stock at the date of the next Board of Directors meeting following the release of full-year earnings to the market, usually in late February. To enhance the retention aspect associated with stock options and SARs, both vest ratably over four years and the Compensation Committee uses a Black-Scholes model to determine the value of the options/SARs to be awarded. Stock options are exercisable for up to 10 years from the date of grant to allow executives to focus on the creation of long-term shareholder value. In general, stock options are only awarded to senior executives, and then, only on a limited basis.

Stock option awards made for purposes other than the annual program in February are made at the market price on the last day of the second month of a quarter after the Compensation Committee approves the award.

The Compensation Committee made the decision not to award any stock options or SARs related to 2006 performance to any of the NEOs (although one member of Senior Management received stock options in order to increase such senior executive's exposure to our stock price). The Committee will continue to review the level of equity exposure for its executive officers and it will consider future awards of stock options as appropriate.

Restricted Stock

Any restricted stock award made to an executive as part of the annual program is granted in early March, following approval by the Board of Directors. As required by an amendment made to the 1991 Performance Incentive Plan in 2004, at least 50% of the shares approved by shareholders for award to employees must have a performance vesting criteria. As a result of this requirement, all of the restricted shares granted to

NEOs vest ratably over 4 years if the ROE threshold is attained for that year. Otherwise the shares are held until they meet a multi-year average ROE threshold. Under this plan, those shares that were scheduled to vest in March of 2006 (based on 2005 performance) did not vest. Those shares that did not vest in 2006 will vest in 2007 because the 2-year average ROE required threshold was met. All shares that were scheduled to vest in 2007 as a result of 2006 ROE performance will vest because the annual ROE required threshold was met.

Based on 2006 performance as well as the scope of the executive's role, the Compensation Committee made restricted stock awards to the NEOs on March 9, 2007 as follows: Mr. O'Hara received 32,000 shares, Mr. Keeling received 12,000 shares, Ms. Street received 10,000 shares, Mr. Tobin received 8,000 shares and Mr. Veghte received 8,000 shares.

Long-Term Incentive Plan (LTIP)

The Long-Term Incentive Plan, or LTIP, is a cash program that allows the company to motivate executives with a 3-year cliff-vest award that pays out based on performance against a performance metric determined by the Compensation Committee. The metric chosen by the Compensation Committee is one that is expected to create long-term Shareholder value when achieved. The likelihood of whether we attain the performance goals is partially dependent upon the level of any catastrophic events that occur during the performance period as well as other financial factors that will impact our long-term Shareholder value.

The awards made in 2005 will pay out in March 2008 based on a 3-year accumulated operating income metric. The face value of all 2005 awards is \$100,000. The minimum payout level for this award equates to a payout of 50% of the award's face value, while the maximum payout for an executive is 200% of the face value of the award. These awards represented the first to be given from the new LTIP program and are the only awards that will have a minimum payout that is greater than zero.

The awards made in 2006 will pay out in March 2009 if performance exceeds a threshold level of 3-year ROE. The threshold performance level would equate to a payout of 50% of an award's face value. Below this threshold level there will not be any payment and the maximum payout for an executive is 300% of the face value of the award. This 3-year ROE metric aligns with the Company's 2006 strategic plan. The face value of awards made in 2006 varied by executive based on the executive's role and the other long-term incentive awards made to the executive.

The performance metric to be used for the 2007 awards (with performance years 2007 - 2009) will again be a 3-year ROE metric and will require that the 3-year ROE meets a threshold performance level before a 50% payout is made and the maximum payout that could be attained is again 300%. For this award, the Compensation Committee has discretion of up to 50 percentage points so that the Committee can either increase or decrease the value of the award based on the relative performance of our 3-year ROE versus the 3-year ROE performance of our peer group. Based on 2006 performance as well as the scope of the executive's role, the Compensation Committee made LTIP awards to the NEOs on March 15, 2007 with face value amounts as follows: Mr. O'Hara received a \$3,000,000 face value award, Mr. Keeling received a \$750,000 face value award, Ms. Street received a \$500,000 face value award, Mr. Tobin received a \$500,000 face value award and Mr. Veghte received a \$500,000 face value award.

Holding Requirements

To better align our executives' interests with those of our shareholders, the Compensation Committee has put in place requirements that our executives hold an amount of Shares, share units and stock options with value relative to their base salaries. Executives are given three years to obtain the required holdings, otherwise shortfalls in meeting the requirements will be taken into consideration when determining future awards. All NEOs currently meet the required holdings.

CEO	5x base salary
Executive Officers	3x base salary
Executive Management Group	2x base salary

The 1991 Performance Incentive Plan which governs all equity awards has a vesting provision that allows all option shares and restricted shares to vest once an employee retires from the Company and has a combined age plus years of service that equals 65. Effective January 1, 2007, any new awards will also require that the employee be a

minimum of 55 years old at the time of leaving the Company and will require the prior approval of the Compensation Committee before any such awards vest. As a result of this change, grants of share-based awards to retirement eligible employees will no longer be expensed in full at the time of grant. They will be expensed in the same manner as grants to non-retirement-eligible employees.

The Compensation Committee reviews the recommendations made by each business/functional unit as well as each of the recommendations made for the Executive Management Group. The Compensation Committee includes a recommendation for Mr. O'Hara's long-term incentive awards and submits the recommendations to the Board of Directors for approval.

5. Chief Executive Officer and Chairman's Compensation

The Compensation Committee evaluated the Chief Executive Officer's performance pertaining to a series of objectives established for 2006. The Committee and the Board continue to believe Mr. O'Hara's leadership is strong, effective and appropriate. The leadership demonstrated by Mr. O'Hara in responding to the events of 2005 positioned the Company to achieve record profits in 2006, and the Committee believes that the Company is well-positioned, financially strong and focused on enhancing Shareholder value. As a result of this performance, the Compensation Committee recommended and the full Board of Directors approved a cash bonus of \$4.75 million, 32,000 shares of performance-vested restricted stock and an LTIP award of \$3.0 million. The cash bonus amount is 238% of his annual target payout level and this level is generally aligned with the collective payout ratios awarded to the other NEOs. His long-term awards are appropriately performance based and continue to align Mr. O'Hara with shareholders. The Compensation Committee believes that this compensation package is appropriately competitive relative to similarly situated executives.

The Compensation Committee evaluated the Chairman's performance pertaining to a series of objectives established for 2006. Mr. Esposito provided excellent overall leadership to the Board, especially with respect to issues of corporate governance and in relation to the initial public offering of Security Capital Assurance Ltd. The Committee recommended and the Board approved for Mr. Esposito a cash bonus of \$1.5 million.

General

The Audit Committee has adopted procedures for pre-approving all audit and permissible non-audit services provided by the Independent Auditor. The Audit Committee will annually review and pre-approve the audit, review, attestation and permitted non-audit services to be provided during the next audit cycle by the Independent Auditor. To the extent practicable, the Audit Committee or the Chairman of the Audit Committee will also review and approve a budget for such services. Services proposed to be provided by the Independent Auditor that have not been pre-approved during the annual review and the fees for such proposed services must be pre-approved by the Audit Committee or the Chairman of the Audit Committee. All requests or applications for the Independent Auditor to provide services to the Company shall be submitted to the Audit Committee or the Chairman of the Audit Committee.

The Audit Committee considered whether the provision of non-audit services performed by the Independent Auditor is compatible with maintaining PricewaterhouseCoopers LLP's independence during 2005 and 2006. The Audit Committee concluded in 2006 that the provision of these services was compatible with the maintenance of PricewaterhouseCoopers LLP's independence in the performance of its auditing functions during 2006.

II. RATIFICATION OF APPOINTMENT OF INDEPENDENT AUDITOR

The Audit Committee of the Board of Directors is required by law and applicable NYSE rules to be directly responsible for the appointment, compensation and retention of the Company's Independent Auditor. The Audit Committee has appointed PricewaterhouseCoopers LLP as the Independent Auditor for the year ending December 31, 2007. While Shareholder ratification is not required by the Company's Articles of Association or otherwise, the Board of Directors is submitting the appointment of PricewaterhouseCoopers LLP to the Shareholders for ratification as part of good corporate governance practices. If the Shareholders fail to ratify the appointment, the Audit Committee may, but is not required to, reconsider whether to retain PricewaterhouseCoopers LLP. Even if the appointment is ratified, the Audit Committee in its discretion may direct the appointment of a different independent auditor at any time during the fiscal year if it determines that such a change would be in the best interest of the Company and its Shareholders.

The Board of Directors recommends a vote FOR the proposal to ratify the appointment of PricewaterhouseCoopers LLP as the Company's Independent Auditor to audit the Company's consolidated financial statements for the year ending December 31, 2007. The persons designated as proxies will vote FOR the ratification of the appointment of PricewaterhouseCoopers LLP as the Company's Independent Auditor, unless otherwise directed. Representatives of PricewaterhouseCoopers LLP are expected to be present at the Annual General Meeting, with the opportunity to make a statement should they choose to do so and are expected to be available to respond to questions, as appropriate.
