Each Selling Agent has agreed to purchase the Notes as principal from the Issuer, and we have agreed to sell, the Principal Amount of Notes opposite such Selling Agent’s name in the following table. Neither Selling Agent will receive a selling commission in connection with the sale of the Notes.

We own, directly or indirectly, all of the outstanding equity securities of Lloyds Securities. Because Lloyds Securities is both our affiliate and a member of the Financial Industry Regulatory Authority, Inc. (“FINRA”), the underwriting arrangements for this offering must comply with the requirements of FINRA Rule 5121 regarding a FINRA member firm’s distribution of the securities of an affiliate and related conflicts of interest. In accordance with FINRA Rule 5121, Lloyds Securities may not make sales in offerings of the Notes to any of its discretionary accounts without the prior written approval of the customer. Following the initial distribution of any of the Notes, Lloyds Securities may offer and sell the Notes in the course of its businesses as broker-dealer. Accordingly, if the initial settlement of the Notes occurs more than three business days after the Trade Date, purchasers who wish to trade the Notes more than three business days prior to the Issue Date of the Notes will be required to specify alternative arrangements to prevent a failed settlement and should consult their own advisers in connection with that election.

Use of Proceeds and Hedging

The net proceeds from the sale of the Notes will be used as described under “*Use of Proceeds*” on page 1 of the accompanying prospectus. We will enter into a swap transaction with Merrill Lynch, Pierce, Fenner & Smith Incorporated to hedge our obligations under the Notes, and Merrill Lynch, Pierce, Fenner & Smith Incorporated expects to realize a profit in connection with such swap transaction.

Tax Consequences

PS-2

You should review carefully the section in the prospectus supplement entitled “U.S. Federal Income Tax Consequences.” We intend to treat the Notes as “variable rate debt instruments” for U.S. federal income tax purposes, and we expect them to be treated as issued without original issue discount. You will be required to include stated interest in income at the time it accrues or is received, in accordance with your method of accounting for U.S. federal income tax purposes, and any gain or loss realized upon the sale, exchange or redemption of the Notes generally will be capital gain or loss. Interest income earned with respect to the Notes will be foreign-source income.

For a discussion of U.K. tax considerations relating to the Notes, you should refer to the section in the prospectus supplement entitled “Taxation in the United Kingdom.”

You should consult your tax adviser regarding the U.S. federal tax consequences of an investment in the Notes, as well as tax consequences arising under the laws of any state, local or non-U.S. taxing jurisdiction.

Recent regulatory developments in the EU and in the United Kingdom may affect your rights under the Notes and the value of the Notes. The U.K. Financial Services (Banking Reform) Act 2013 became law in the United Kingdom on December 18, 2013, and granted the “U.K. bail-in power” as part of the powers of the U.K. resolution authority. The “**U.K. bail-in power**” is a power exercisable by the relevant U.K. resolution authority relating to the resolution of banks, banking group companies, credit institutions, and/or investment firms incorporated in the United Kingdom, and is applicable to the Issuer, Guarantor, and its affiliates. The U.K. bail-in power is designed for the relevant U.K. resolution authority to recapitalize a failing institution by allocating losses to its shareholders and bondholders (potentially including holders of the Notes), and includes the power to (i) cancel all or a part of the principal amount of, or interest on, the Notes, or otherwise modify the terms of the Notes and/or (ii) convert all, or part of the principal amount of, or interest on, the Notes into shares or other securities or other obligations of the Issuer, the Guarantor or another person. The U.K. bail-in power will be able to be exercised on or after a date that shall be determined by the U.K. Treasury, and then may be exercised when the relevant U.K. resolution authority determines that (i) the relevant bank is failing or likely to fail, (ii) it is not reasonably likely that any other action can be taken to avoid the bank’s failure, and (iii) it is in the public interest to exercise the U.K. bail-in power.

Any exercise, or threat of exercise, of the U.K. bail-in power would have a significant negative effect on the value of the Notes. In addition, you are likely to have limited rights or no rights to challenge any decision regarding the exercise of the U.K. bail-in power or to have any such decision reviewed by a judicial or administrative process or otherwise. For additional information on the U.K. bail-in power, please see “Recent Regulatory Developments in the E.U. and the U.K.” beginning on page S-28 of the prospectus supplement and “Holders of the Notes may be required to absorb losses in the event we become subject to recovery and resolution action” on page S-4 of the prospectus supplement.

The opinion of Davis Polk & Wardwell LLP is subject to the same assumptions, qualifications and limitations with respect to such matters as are contained in the opinions of CMS Cameron McKenna LLP and Linklaters LLP. In addition, the opinion of Davis Polk & Wardwell LLP is subject to customary assumptions about the establishment of the terms of the Notes, the trustee's authorization, execution and delivery of the indenture and its authentication of the Notes, and the validity, binding nature and enforceability of the indenture with respect to the trustee, all as stated in the opinion of Davis Polk & Wardwell LLP dated May 12, 2015, which was filed as an exhibit to a report on Form 6-K filed by the Guarantor on May 12, 2015.
