| Chairman's | Statement |
|------------|-----------|
|------------|-----------|

Dear Shareholders,

In the first half of 2017, world economy continued to show signs of recovery, and China's economy sought progress while maintaining stability. International oil prices remained volatile and the factors of uncertainties increased. Against such adversities, CNOOC Limited continued to forge ahead, stepped up its efforts in reform and innovation, strived to seek opportunities for future development, and achieved satisfactory performance in the first half of the year.

Focusing on quality and efficiency enhancement with an emphasis on value-driven exploration, the Company made 13 new commercial discoveries and drilled 12 successful appraisal wells in offshore China during the first half of the year. Over the past two years, the Company has successfully added a considerable amount of reserves through prioritizing exploration in mature areas and implementing rolling exploration in existing oil fields. In addition, remarkable results were achieved from exploration in new areas. During the period, the Company made breakthroughs in shallow oil and gas exploration in Bozhong 36-1 and achieved significant progress in exploration in Wushi Sag, identifying a new growth driver for reserves replacement.

The Company continued to expand its overseas exploration to further strengthen its global strategic presence. Oil and gas resources were discovered in all four exploration wells in Stabroek Block. For the Libra project, successful results were achieved in all appraisal wells in the northwest area, including the NW7 well. These high-quality and large-scale projects laid a strong foundation for the Company's future reserve and production. In addition, the Company has stepped up its efforts in the acquisition of overseas exploration blocks to support its global development strategies.

Increasing profitability-oriented production has been a key focus point of the shareholders as well as the Company. At the beginning of the year, the Company set its full-year target as 450-460 million barrels of oil equivalent. During the first half, the Company ensured efficient oil and gas operation, and successfully accomplished its production target, achieving a net production of 237.9 million barrels of oil equivalent. To date, four out of the five new projects planned for 2017 have already commenced production.

In view of the pressure brought about by persistently low oil prices, the Company continued to be well prepared and strengthened its refined management and achieved effective cost control. For the first half of the year, all-in cost dropped to US\$31.74 per BOE, representing a decrease of 9.0% year-on-year. The operating expenses dropped to US\$7.16 per BOE, down by 3.5% year-on-year. The fact that costs decreased for four consecutive years again demonstrated the Company's ability to reshape its cost competitiveness and to maintain such competitive position.

Chairman's Statement

The Company has achieved satisfying profitability and a sound financial position during the first half of the year. Oil and gas sales reached RMB74.94 billion, representing a year-on-year increase of 36.1%. Net profits reached RMB16.25 billion and earnings per share amounted to RMB0.36. The Board of Directors has declared an interim dividend of HK\$0.20 per share (tax inclusive) for the first half of 2017 by taking into account the Company's financial position and in accordance with the dividend policy of the Company.

Consistent with its policy of reform and innovation, the Company has continued to refine its management system, enhance its governance, establish a healthy employment mechanism, and improve the competitive advantages of talent. This year, the Company held a scientific and technological innovation contest for the first time, stepping up its efforts in scientific and technological innovation and accelerating the pace of turning technological progress into results.

The Company has always attached great importance to health, safety and environmental protection. In the first half of the year, the Company strengthened its offshore operations management and investigations of potential problems. Precaution for adverse weather such as typhoons were effectively implemented in order to ensure the safe and steady progress of its key projects.

Looking forward to the second half of the year, the global oil market is expected to face short-run adjustments and long-run transition. International oil prices may continue to hover at low level for an extended period. In view of this, the Company will continue to improve quality and enhance efficiency, optimize its asset portfolio, and strengthen its cost control. It will push forward with boosting production and increasing reserves of oil and gas so as to ensure that its full-year production and operational targets are achieved.

The Company will continue to strengthen its risk management efforts to prevent major accidents and risks. It will minimize any negative impacts on oil and gas operation, strengthen the execution of its safety policies, and promote the safety culture.

Dear shareholders, while sustained low oil prices is a challenge, the situation also presents an opportunity for the Company. The Company has continued to hone its risk-resistant capabilities while maintaining a high level of governance and profitability. As a Chinese saying goes, "A pine tree can stand firmly on a mountain because its roots have been deeply planted in the cracks of the rocks". Forging ahead, the Company will continue to move steadily ahead towards its set goals and create greater value for the shareholders.

Business Overview

QUALITY IMPROVEMENT AND EFFICIENCY ENHANCEMENT

In the first half of 2017, the world economic growth was modest, and recovery of advanced economies was stabilized, but international oil prices continued to be volatile. In view of the severe external environment, the Company has intensified its efforts on quality improvement and efficiency enhancement, continued to strengthen its management, and successfully achieved all production and operation targets for the first half of the year. On exploration, the Company continued to adhere to the value-driven exploration philosophy, attach equal importance to both the quantity and quality of oil and gas resources, prioritize investments in high-return areas; the Company focused on innovation-driven strategy, promoted both exploration technology and management innovation in order to boost exploration results. On development and production, the Company effectively managed and controlled operating expenses, focused on innovation in management, technology and business model, in order to further lower the threshold for new development projects. Meanwhile, the Company continued to optimize overseas asset portfolio, and major projects progressed smoothly.

In the first half of the year, operation efficiency of the Company's exploration, development and production continued to improve, and costs continued to be under good control. The all-in cost per BOE was US\$31.74, representing a decrease of 9.0% year-on-year.

EXPLORATION

In the first half of the year, the Company continued to optimize its investment portfolio and achieved smooth progress in exploration. The Company made a total of 14 new discoveries and drilled 14 successful appraisal wells. In offshore China, the Company drilled a total of 33 exploration wells and obtained 13 new discoveries and 12 successful appraisal wells, resulting in a success rate of 48-65% of independent exploration wells. The 13 new discoveries were Bozhong 29-6, Bozhong 29-6 South, Bozhong 36-2, Bozhong 19-6, Kenli 3-2 South, Kenli 4-1 and Penglai 19-1 in Bohai; Weizhou 11-2 East, Weizhou 11-12 West, Wushi 23-5 South, Wenchang 9-3 South and Wenchang 19-9 in Western South China Sea; and Lufeng 14-8 in Eastern South China Sea. The Company successfully appraised the Bozhong 36-1 structure and achieved a high production of shallow heavy oil. It is expected to be built into a mid-to-large size oilfield. Overseas, the Company obtained one new discovery and two successful appraisal wells. The exploration in Stabroek Block achieved further breakthrough. In addition, the Company acquired 7,511 km2 of 3D seismic data.

Business Overview

EXPLORATION (CONTINUED)

The Company's major exploration activities as of 30 June 2017 are shown in the table below:

ENGINEERING CONSTRUCTION, DEVELOPMENT AND PRODUCTION

In the first half of the year, the Company carefully organized its operating resources and progressed well in engineering construction for the five new projects expected to be brought on stream within this year. Among them, Penglai 19-9 oilfield comprehensive adjustment and Enping 23-1 oilfield in offshore China, BD gas field in Indonesia and the Hangingstone project in Canada have already commenced production. Weizhou 12-2 oilfield phase II, which was expected to commence production in the second half of the year, is undergoing offshore installation and commissioning.

In the first half of the year, the Company maintained effective operation of its oil and gas production, and successfully achieved its half-year target. Total net production was 237.9 million BOE, representing a decrease of 1.5% year on year. Net production from offshore China was 155.8 million BOE, representing a decrease of 2.7% year on year. This is mainly attributable to the natural decline of producing fields. Net production from overseas was 82.1 million BOE, almost flat from last year.

In the second half of the year, the Company will continue to strengthen production management, ensure safety and environmental protection, increase operating efficiency, and at the same time accelerate the commencement of production of new projects to ensure that the annual production target for 2017 is achieved.

Business Overview

CAPITAL EXPENDITURE

In the first half of the year, the Company's capital expenditure was RMB21.4 billion, representing a 2.7% decrease year on year, mainly due to the decrease in development capital expenditure according to work plan and schedule adjustment. Capital expenditure for exploration, development and production were RMB4.8 billion, RMB14.0 billion and RMB2.6 billion, respectively, representing an increase of 11.6%, a decrease of 8.5% and an increase of 13.0% year on year, respectively.

COST AND EXPENSES

In the first half of 2017, major changes in cost items as compared with the first half of 2016 are as follows: depreciation, depletion and amortization expenses ("DD&A") decreased by 9.4% to RMB31,824 million compared to RMB35,129 million in the same period of 2016, among which DD&A excluding the dismantlement-related depreciation, depletion and amortization expenses decreased by 7.1% to RMB30,852 million compared to RMB33,224 million in the same period of 2016 mainly due to recognized impairment of oil and gas assets in 2016, reserves revision and production changes of producing oil and gas fields. The dismantlement-related depreciation, depletion and amortization expenses decreased by 49.0% to RMB972 million compared to RMB1,905 million in the same period of 2016, primarily due to the fact that the expected dismantlement costs in independent oil and gas fields no longer included the relevant taxes after the replacement of business tax with VAT in China and a downward dismantlement revision in some oil and gas fields in North sea, the United Kingdom. Our impairment and provision decreased by 97.1% to RMB305 million in the first half of 2017 compared to RMB10,359 million in the first half of 2016, mainly due to the oil and gas assets impairment of RMB10,390 million recognised in the same period of 2016 primarily caused by the revised estimation for the oil price forecast and the adjustment in operating plan for oil sand assets in Canada, and the impairment loss of oil and gas assets was nil during the period.

Save as disclosed in this Interim Report, there were not any material factors affecting our results and financial position during the first half of the year.

2. BASIS OF PREPARATION AND ACCOUNTING POLICIES

Basis of preparation

The interim condensed consolidated financial statements for the six months ended 30 June 2017 have been prepared in accordance with International Accounting Standard 34 *Interim Financial Reporting* and Hong Kong Accounting Standard 34 *Interim Financial Reporting*.

The interim condensed consolidated financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Group's annual financial statements for the year ended 31 December 2016.

The financial information relating to the year ended 31 December 2016 that is included in this interim report as comparative information does not constitute the Company's statutory annual consolidated financial statements for that year but is derived from those consolidated financial statements. Further information relating to these statutory financial statements required to be disclosed in accordance with section 436 of the Hong Kong Companies Ordinance is as follows:

The Company has delivered the consolidated financial statements for the year ended 31 December 2016 to the Registrar of Companies as required by section 662(3) of, and Part 3 of Schedule 6 to, the Hong Kong Companies Ordinance.

The Company's auditor has reported on those consolidated financial statements. The auditor's report was unqualified; did not include a reference to any matters to which the auditor drew attention by way of emphasis without qualifying its reports; and did not contain a statement under sections 406(2), 407(2) or (3) of the Hong Kong Companies Ordinance.

Significant accounting policies

The accounting policies adopted in the preparation of the interim condensed consolidated financial statements are consistent with those followed in the preparation of the Group's annual financial statements for the year ended 31 December 2016. The adoption of amendments to International Financial Reporting Standards/Hong Kong Financial Reporting Standards for the current interim period commenced from 1 January 2017 does not have any material impact on the accounting policy adopted, interim financial position or performance of the Group.

3. OIL AND GAS SALES AND MARKETING REVENUES

Oil and gas sales represent the invoiced value of sales of oil and gas attributable to the interests of the Group, net of royalties, obligations to governments and other mineral interest owners. Revenue from the sale of oil and gas is recognised when the significant risks and rewards of ownership have been transferred, which is when title passes to the customer. Revenue from the production of oil and gas in which the Group has a joint interest with other producers is recognised based on the Group's working interest and the terms of the relevant production sharing contracts. Differences between production sold and the Group's share of production are not significant.

3. OIL AND GAS SALES AND MARKETING REVENUES (CONTINUED)

Marketing revenues principally represent the sales of oil and gas purchased from the foreign partners under the production sharing contracts and revenues from the trading of oil and gas through the Company's subsidiaries. The cost of the oil and gas sold is included in "Crude oil and product purchases" in the interim condensed consolidated statement of profit or loss and other comprehensive income.

SEGMENT INFORMATION

The Group is engaged worldwide in the upstream operating activities of the conventional oil and gas, shale oil and gas, oil sands and other unconventional oil and gas business. The Group reports the business through three operating segments: exploration and production ("E&P"), trading business and corporate. These segments are determined primarily because the Group's chief operating decision maker makes key operating decisions and assesses performance of the segment separately. The Group evaluates the performance of each segment based on segment profit or loss.

The following table presents revenue, profit or loss, assets and liabilities information for the Group's operating segments:

5.

FINANCE COSTS

Accretion expenses of approximately RMB1,068 million (six months ended 30 June 2016: approximately RMB1,076 million) relating to the provision for dismantlement liabilities have been recognised in the interim condensed consolidated statement of profit or loss and other comprehensive income for the six months ended 30 June 2017.

6.

TAX

(i)

Income tax

The Company and its subsidiaries are subject to, on an entity basis, income taxes on profits arising in or derived from the tax jurisdictions in which the entities of the Group are domiciled and operate. The Company is subject to profits tax at a rate of 16.5% (2016: 16.5%) on profits arising in or derived from Hong Kong.

The Company is regarded as a Chinese Resident Enterprise (as defined in the "Enterprise Income Tax Law of the People's Republic of China") by the State Administration of Taxation of the PRC. As a result, the Company is subject to the PRC corporate income tax at the rate of 25% starting from 1 January 2008. The corporate income tax which is subjected in Hong Kong is qualified as a foreign tax credit to offset the PRC corporate income tax starting from 1 January 2008.

The Company's subsidiary in Mainland China, CNOOC China, is a wholly-owned foreign enterprise. It is subject to corporate income tax at the rate of 25% under the prevailing tax rules and regulations. CNOOC Deepwater Development Limited, a wholly-owned subsidiary of CNOOC China, is subject to corporate income tax at the rate of 15% for the three years ending 31 December 2017, after being assessed as a high and new technology enterprise.

Subsidiaries of the Group domiciled outside the PRC are subject to income tax at rates ranging from 10% to 50% (six months ended 30 June 2016: 10% to 56%).

30 June 2017

(All amounts expressed in millions of Renminbi, except number of shares and unless otherwise stated)

6.TAX (CONTINUED)

(ii) Other taxes

The Company's PRC subsidiaries pay the following other taxes and dues:

- Production tax at the rate of 5% on production under production sharing contracts;

VAT at the rates from 13% to 17% on taxable sales under independent oil and gas fields since 1 May 2016 according to "Provisional Regulations of the People's Republic of China on Value-added Tax" and administrative procedures, "Circular on Certain Policies on the Pilot Program of the Collection of Value-added Tax in Lieu of Business Tax" (Cai Shui [2016] No.39), which replaced the production tax at the rate of 5% on production under independent oil and gas fields before 1 May 2016. According to "Notice on Simplifying the Relevant Policies on Value-added Tax Rates" (Cai Shui [2017] No.37), with effect from 1 July 2017, the 13% VAT rate shall be removed and gas sales shall be subject to the 11% tax rate;

VAT at the rates from 3% to 17% on other income since 1 May 2016, which were subject to the business tax at rates of 3% to 5% or VAT at the rates of 3% to 17% before 1 May 2016;

The VAT payable is calculated using the taxable sales amount multiplied by the applicable tax rate less relevant deductible input VAT;

Resource tax (reduced tax rates may apply to specific products and fields) on the oil and gas sales revenue (excluding production tax) derived by oil and gas fields under production sharing contracts signed after 1 November 2011 and independent offshore oil and gas fields starting from 1 November 2011, which replaced the royalties for oil and gas fields, except for those under production sharing contracts signed before 1 November 2011 which will be subject to related resource tax requirement after the expiration of such production sharing contracts. The resource tax rate was

changed from 5% to 6% on 1 December 2014;

- Export tariff at the rate of 5% on the export value of petroleum oil;
- City construction tax at the rates of 1% or 7% on the production taxes, business tax and VAT paid;
- Educational surcharge at the rate of 3% on the production taxes, business tax and VAT paid; and
- Local educational surcharge at the rate of 2% on the production taxes, business tax and VAT paid.

30 June 2017

(All amounts expressed in millions of Renminbi, except number of shares and unless otherwise stated)

6. TAX (CONTINUED)

(ii) Other taxes (continued)

In addition, other taxes paid and payable by the Company's non-PRC subsidiaries include royalty as well as taxes levied on petroleum-related income, budgeted operating and capital expenditure.

> Special oil gain levy (iii)

In 2006, a Special Oil Gain Levy ("SOG Levy") was imposed by the Ministry of Finance of the PRC ("MOF") at the progressive rates from 20% to 40% on the portion of the monthly weighted average sales price of the crude oil lifted in the PRC exceeding US\$40 per barrel. The MOF has decided to increase the threshold of the SOG Levy to US\$65 with effect from 1 January 2015. Notwithstanding this adjustment, the SOG Levy continues to have five levels and is calculated and charged according to the progressive and valorem rates on the excess amounts. The SOG Levy paid can be claimed as a deductible expense for corporate income tax purposes and is calculated based on the actual volume of the crude oil entitled.

8. DIVIDENDS

On 24 August 2017, the board of Directors (the "Board") declared an interim dividend of HK\$0.20 (tax inclusive) per share (six months ended 30 June 2016: HK\$0.12 (tax inclusive) per share), totaling approximately HK\$8,929 million (tax inclusive) (equivalent to approximately RMB7,750 million (tax inclusive)) (six months ended 30 June 2016: approximately RMB4,579 million (tax inclusive)), based on the number of issued shares as at 30 June 2017.

Pursuant to the "Enterprise Income Tax Law of the People's Republic of China" and related laws and regulations, the Company is regarded as a Chinese Resident Enterprise, and thus is required to withhold corporate income tax at the rate of 10% when it distributes dividends to its non-resident enterprise (as defined in the "Enterprise Income Tax Law of the People's Republic of China") shareholders, with effect from the distribution of the 2008 final dividend. In respect of all shareholders whose names appear on the Company's register of members and who are not individuals (including HKSCC Nominees Limited, corporate nominees or trustees such as securities companies and banks, and other entities or organisations, which are all considered as non-resident enterprise shareholders), the Company will distribute the dividend after deducting corporate income tax of 10%.

9. PROPERTY, PLANT AND EQUIPMENT

During the six months ended 30 June 2017, additions to the Group's property, plant and equipment, amounted to approximately RMB20,737 million (six months ended 30 June 2016: approximately RMB20,218 million).

The interest of the Group in the North West Shelf ("NWS") Project in Australia has been collateralised to the other partners and the operator of the project as security for certain of the Group's liabilities relating to the project.

Included in the current period's additions was an amount of approximately RMB1,126 million (six months ended 30 June 2016: approximately RMB629 million) in respect of interest capitalised in property, plant and equipment.

During the period, the impairment loss of property, plant and equipment was nil (six months ended 30 June 2016: approximately RMB10,390 million, including an amount of RMB7,358 million recognised on Long Lake project). As of 30 June 2017, there was no formal decision from the business continuity planning work to suggest the future operating plan of Long Lake assets. The recoverable amount was calculated based on the management's best estimates.

During the period, the Group wrote off oil and gas assets in North America due to the expired lease contracts. Approximately RMB420 million (six months ended 30 June 2016: approximately RMB424 million) was included in the depreciation, depletion and amortisation charge.

10.

INTANGIBLE ASSETS

The intangible assets of the Group comprise gas processing rights of the NWS Project, marketing transportation and storage contracts and seismic data usage rights, software, goodwill and others. The intangible asset regarding the gas processing rights has been amortised upon the commencement of commercial production of the liquefied natural gas on a unit-of-production basis over the total proved reserves of the relevant asset. The intangible assets regarding the marketing transportation and storage contracts are amortised on a straight-line basis over the life of the contracts which is less than 20 years. Other identifiable intangible assets are amortised on a straight-line basis over a period ranging from 3 to 5 years.

Goodwill represents the excess of the purchase price over the estimated fair value of the assets acquired and liabilities assumed in a business combination. Goodwill acquired through business combinations is held at the E&P segment.

11.

30 June 2017

(All amounts expressed in millions of Renminbi, except number of shares and unless otherwise stated)

The Group mainly sells on credit. Payment in advance or collateral may be required from customers, depending on credit rating. Trade receivables are non-interest bearing.

TRADE RECEIVABLES

All customers have good credit quality with good repayment history and no significant receivables are past due. As at 30 June 2017 and 31 December 2016, the age of substantially all the trade receivables was within one year.

12. TRADE AND ACCRUED PAYABLES

13. LOANS AND BORROWINGS (CONTINUED)

In connection with the Tangguh LNG Project in Indonesia, the Company delivered a guarantee dated 29 October 2007, in favor of Mizuho Corporate Bank, Ltd., which acts as the facility agent for and on behalf of various **international commercial banks under a US\$884 million commercial loan agreement. The Company guarantees the payment obligations of the trustee borrower under the subject loan agreement and is subject to a maximum cap of approximately US\$164,888,000.

A letter of credit agreement was signed between the Company and Talisman Energy Inc. ("Talisman") with execution of the agreement in respect of the sale of a 3.05691% interest of the Company in the Tangguh LNG Project to Talisman. Accordingly, Talisman has delivered valid and unexpired standby letters of credit to the Company (as the beneficiary) as a counter-guarantee to offset the exposure of the Company's guarantee for the aforesaid interest of 3.05691% in respect of the Tangguh LNG Project financing. The amount of the standby letters of credit was US\$30 million. In February 2017, the standby letters of credit was withdrawn as the Company transferred the 3.05691% guarantee obligations to BP Corporation North America Inc..

In connection with the financing for the third LNG process train of Tangguh LNG Project in Indonesia, the Company delivered two guarantees dated 3 August 2016, in favor of Mizuho Bank, Ltd., which acts as the facility agent for and on behalf of various international commercial banks and Indonesian local commercial banks under two commercial loan agreements with aggregate loan amount of US\$2,145 million. The Company guarantees the payment obligations of the trustee borrower under the subject loan agreements and is subject to an aggregate maximum cap of approximately US\$573 million.

**** As at 30 June 2017, US\$1,900 million bank loans (31 December 2016: US\$800 million) were guaranteed by the Company.

***** As at 30 June 2017, US\$694 million shareholder loans (31 December 2016: US\$694 million) of the Group were included in general loans. For details please refer to Note 16(v).

There was no default of principal, interest or redemption terms of the loans and borrowings during the period.

16. RELATED PARTY TRANSACTIONS

As disclosed in note 1, the Company is a subsidiary of CNOOC, which is a state-owned enterprise subject to the control of the State Council of the PRC. The State Council of the PRC directly and indirectly controls a significant number of state-owned entities and organisations.

Comprehensive framework agreement with CNOOC in respect of a range of products and services

As the Group is controlled by CNOOC, transactions with CNOOC, its subsidiaries and associates (the "CNOOC Group") are disclosed as related party transactions. The connected transactions or continuing connected transactions defined in Chapter 14A of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "Listing Rules") in respect of items listed below also constitute related party transactions. The Company entered into a comprehensive framework agreement (the "Framework Agreement") with CNOOC on 15 November 2016 for the provision (1) by the Group to the CNOOC Group and (2) by the CNOOC Group to the Group, of a range of products and services which may be required and requested from time to time by either party and/or its associates in respect of the continuing connected transactions. The term of the comprehensive framework agreement is for a period of three years from 1 January 2017. The continuing connected transactions under the comprehensive framework agreement and the relevant annual caps for the three years from 1 January 2017 were approved by the independent shareholders of the Company on 1 December 2016. The approved continuing connected transactions are as follows:

- (1) Provision of exploration, oil and gas development, oil and gas production as well as marketing, management and ancillary services by the CNOOC Group to the Group:
 - (a) Provision of exploration and support services
 - (b) Provision of oil and gas development and support services
 - (c) Provision of oil and gas production and support services

(d) Provision of marketing, management and ancillary services

(e) Floating production, storage and offloading ("FPSO") vessel leases

(2) Provision of management, technical, facilities and ancillary services, including the supply of materials by the Group to the CNOOC Group; and

(3) Sales of petroleum and natural gas products by the Group to the CNOOC Group:

(a) Sales of petroleum and natural gas products (other than long-term sales of natural gas and liquefied natural gas)

(b) Long-term sales of natural gas and liquefied natural gas

16. RELATED PARTY TRANSACTIONS (CONTINUED)

Pricing principles

The basic pricing principle for the continuing connected transactions between the Group and the CNOOC Group is based on arm's length negotiations, on normal commercial terms or better and with reference to the prevailing local market conditions (including the volume of sales, length of contracts, the volume of services, overall customer relationship and other market factors).

On the basis of the above basic pricing principle, each type of products or services must be charged in accordance with the following pricing mechanism and in the following sequential order:

(a) government-prescribed price; or

(b) where there is no government-prescribed price, in accordance with market prices, including the local, national or international market prices.

The continuing connected transactions referred to in paragraph (1)(a)-(1)(b) above provided by the CNOOC Group to the Group and (3)(a)-(3)(b) above provided by the Group to the CNOOC Group, on the basis of the above pricing principle, are based on market prices (as defined in the Framework Agreement).

The continuing connected transactions referred to in paragraph (1)(c)-(1)(d) above provided by the CNOOC Group to the Group, on the basis of the above pricing principle, are based on government-prescribed price or market prices.

The continuing connected transactions referred to in paragraph (1)(e) on the basis of the above pricing principle, are unanimously determined with CNOOC Group which provides the FPSO vessel leases after arm's length negotiation in

accordance with normal commercial terms.

The continuing connected transactions referred to in paragraph (2) above provided by the Group to the CNOOC Group on the basis of the above pricing principle, are determined through arm's length negotiation between both parties with reference market price.

The following is a summary of significant related party transactions entered into in the ordinary course of business between the Group and its related parties during the period and the balances arising from related party transactions at the end of the period:

(vii) Transactions and balances with other state-owned enterprises

The Group enters into extensive transactions covering sales of crude oil and natural gas, purchase of property, plant and equipment and other assets, receiving of services, and making deposits with state-owned enterprises, other than the CNOOC Group, in the normal course of business on terms comparable to those with other non-state-owned enterprises. The purchases of property, plant and equipment and other assets, and receipt of services from these state-owned enterprises are individually not significant. The individually significant sales transactions with these state-owned enterprises customers: 15% (six months ended 30 June 2016: 15%) of the Group's revenue in the six-month period ended 30 June 2017 is generated from crude oil and natural gas sold to two major customers, PetroChina Company Limited and China Petroleum and Chemical Corporation. These two customers are controlled by the Chinese government. Other transactions with enterprises which are controlled, jointly controlled or significantly influenced by the same government are individually not significant and are in the ordinary course of business. In addition, the Group has certain of its cash in bank and time deposits with certain state-owned banks in the PRC as at 30 June 2017, as summarised below:

CNOOC Finance is a 31.8% owned associate of the Company and also a subsidiary of CNOOC. Under the financial services framework agreement with CNOOC Finance dated 1 December 2016, CNOOC Finance continues to provide to the Group settlement, depository, discounting, loans and entrustment loans services. The agreement is effective from 1 January 2017 to 31 December 2019. The depository services were exempted from independent shareholders' approval requirements under the Listing Rules. The maximum daily outstanding balance for deposits in CNOOC Finance (including accrued interest but excluding funds placed for the purpose of extending entrustment loans pursuant to the entrustment loan services) was RMB19,500 million (six months ended 30 June 2016: RMB21,707 million) during the period.

In September 2014, CNOOC provided CNOOC International Limited, a wholly-owned subsidiary of the Company a five-year uncommitted revolving loan facility for general purposes, with the principal amount of US\$135 million with interest of 0.95% per annum. As at 30 June 2017, the withdrawal amount of the loan was US\$130 million (31 g) December 2016: US\$130 million); In December 2014, CNOOC provided the Company a five-year uncommitted revolving loan facility for general purposes, with the principal amount of US\$600 million with interest of 0.95% per annum. As at 30 June 2017, the withdrawal amount of the loan was US\$564 million (31 December 2016: US\$564 million).

17. COMMITMENTS AND CONTINGENCIES (CONTINUED)

(iii) Contingencies

Two oil spill accidents (the "Penglai 19-3 Oilfield Oil Spill Accidents") occurred on 4 June and 17 June 2011 respectively at Platforms B and C of Penglai 19-3 oilfield, which is being operated under a production sharing (a)contract (the "PSC") among CNOOC China, a subsidiary of the Company, and two subsidiaries of ConocoPhillips, a U.S. based oil company, among which ConocoPhillips China Inc. (the "COPC") was the operator and responsible for the daily operations of the oilfield when the Penglai 19-3 Oilfield Oil Spill Accidents occurred.

On 10 August 2015, the Company received a Notice Calling for Responses from the Qingdao Maritime Court of the People's Republic of China for a public interest action filed by China Biodiversity Conservation and Green Development Foundation (the "Plaintiff") in relation to the Penglai 19-3 Oilfield Oil Spill Accidents (the "Claim"). The Claim is lodged against COPC and CNOOC China (together, the "Defendants"). CNOOC China has engaged PRC lawyers in relation to the Claim and is defending the Claim vigorously. Pursuant to the Marine Environment Protection Law of the People's Republic of China amended in 2016, the Company is of the view that the Plaintiff is not qualified to file the Claim, and CNOOC China bears no liability for the Claim.

The Company is of the view that the Company's obligations, if any, arising from the Penglai 19-3 Oilfield Oil Spill Accidents shall be determined in accordance with relevant laws and regulations, the PSC and related agreements, among others. Based on evaluations performed as of the date of these consolidated financial statements authorised for issuance, the Company believes that it is not possible to determine provisions, if any, for the Company's obligation determined in the future arising from the Penglai 19-3 Oilfield Oil Spill Accidents in the interim condensed consolidated financial statements. The financial impact of such oil spill accidents on the Company is still uncertain, and the Company has not made any provision for the accidents in the interim condensed consolidated financial statements.

As a Chinese Resident Enterprise, the Company may be liable to pay taxes on the deemed interest income for the funding provided to its overseas subsidiaries starting from 1 January 2008. The Company has prepared contemporaneous documentation in accordance with applicable PRC tax laws and regulations and is currently awaiting confirmation from its in-charge tax authority.

17. COMMITMENTS AND CONTINGENCIES (CONTINUED)

(iii) Contingencies (continued)

On 15 July 2015, an emulsion leak from a pipeline was discovered within Nexen's Long Lake operations, located south of Fort McMurray, Alberta, Canada. The root cause of the rupture was a thermally-driven upheaval buckling of the pipeline and the subsequent cooldown during the turnaround. This was the result of using an incompatible pipeline design for the muskeg ground conditions. Nexen has submitted investigation findings to the Alberta Energy Regulator. On 6 July 2017, Nexen was charged with 6 counts under applicable provincial and federal legislation in relation to the release.

On 15 January 2016, an explosion occurred at Nexen's Long Lake site near the hydrocracker unit. Two employees died as a result of the incident. The root cause of the explosion was a result of work being performed that was outside of the scope of approved work activities. Nexen has responded to numerous demands from various applicable regulators and has submitted investigation findings to Alberta Occupational Health and Safety.

The Company believes that the estimated financial implications of any contingent liabilities related to these incidents are immaterial to the interim condensed consolidated financial statements.

The Group is subject to tax in numerous jurisdictions around the world. There are audits in progress and items under review. Difference in positions taken by taxation authorities over the interpretation and application of tax laws and regulations may increase the Group's tax liability. Management has assessed the possible future outcome of matters that are currently under dispute. The Company believes that an adequate provision for future tax liability has been included in the consolidated financial statements based on available information.

In addition to the matters mentioned above, the Group is dealing with a number of other lawsuits and arbitrations that arise in the ordinary course of business. While the results of these legal proceedings cannot be ascertained at this stage, the Company believes these proceedings are not expected to have a material effect on the interim condensed consolidated financial statements.

18.

FINANCIAL INSTRUMENTS

Fair value of financial instruments

The Group enters into contracts to purchase and sell crude oil, natural gas and other energy commodities, and use derivative contracts, including futures, forwards, swaps and options for hedging and trading purposes (collectively derivative contracts). The Group also use derivatives to manage foreign currency risk for non-trading purposes.

For purposes of estimating the fair value of the derivative contracts, wherever possible, the Group utilises quoted market price and, if not available, estimates from third-party brokers. These brokers' estimates are corroborated with multiple sources and/or other observable market data utilising assumptions that market participants would use when pricing the assets or liabilities, including assumptions about risk and market liquidity.

The carrying values of the Group's cash and cash equivalents, time deposits, trade receivables, other current assets, short-term loans, trade and accrued payables, other payables and accrued liabilities approximated to their fair values at the reporting date due to the short maturity of these instruments.

The carrying amount of the Group's non-current non-publicly traded equity investments represents an appropriate estimate of their fair values, as insufficient more recent information is available to measure their fair values as at 30 June 2017 and 31 December 2016.

The fair value of the Group's long term bank loans with floating interest rates approximated to the carrying amount as at 30 June 2017 and 31 December 2016.

The estimated fair value of the Group's long term guaranteed notes which was determined by reference to the market price as at 30 June 2017 was approximately RMB132,072 million (31 December 2016: RMB140,135 million).

The Group uses the following hierarchy that reflects the significance of the inputs used in making the fair value measurement:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities. Active markets are those in which transaction occur in sufficient frequency and volume to provide pricing information on an on-going basis.

18. FINANCIAL INSTRUMENTS (CONTINUED)

Fair value hierarchy (continued)

Level 2: fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. Instruments in this category include non-exchange traded derivatives such as over-the-counter physical forwards and options, including those that have prices similar to quoted market prices, private equity funds and corporate wealth management products. The Group obtains information from sources of independent price publications, over-the-counter broker quotes and the fund management's quotations as at the reporting date.

Level 3: fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs), or where the observable data does not support the majority of the instruments fair value.

As at 30 June 2017 and 31 December 2016, the Group held the following financial instruments measured at fair value for each hierarchy respectively:

| | 30 June 2017 | Level | Level 2 | Level 3 |

For financial assets and liabilities arising from derivative contracts, inputs may be readily observable, market-corroborated or generally unobservable. The Group utilises valuation techniques that seek to maximise the use of observable inputs and minimise the use of unobservable inputs. To value longer term transactions and transactions in less active markets for which pricing information is not generally available, unobservable inputs may be used.

No amounts have been transferred between the different levels of the fair value hierarchy for the period.

TO THE BOARD OF DIRECTORS OF CNOOC LIMITED

(Incorporated in the Hong Kong Special Administrative Region with limited liability)

INTRODUCTION

We have reviewed the interim condensed consolidated financial statements of CNOOC Limited (the "Company") and its subsidiaries (collectively referred to as the "Group") set out on pages 9 to 42 which comprise the interim condensed consolidated statement of financial position as of 30 June 2017 and the related interim condensed consolidated statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the six-month period then ended and certain explanatory notes. The Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited require the preparation of a report on interim financial information to be in compliance with the relevant provisions thereof and International Accounting Standard 34 "Interim Financial Reporting" ("IAS 34") issued by the International Accounting Standards Board or Hong Kong Accounting Standard 34 "Interim Financial Reporting" ("HKAS 34") issued by the Hong Kong Institute of Certified Public Accountants. The directors of the Company are responsible for the preparation and presentation of these interim condensed consolidated financial statements based on our review, and to report our conclusion on these interim condensed consolidated financial statements based on our review, and to report our conclusion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

SCOPE OF REVIEW

We conducted our review in accordance with Hong Kong Standard on Review Engagements 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" issued by the Hong Kong Institute of Certified Public Accountants. A review of these interim condensed consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

CONCLUSION

Based on our review, nothing has come to our attention that causes us to believe that the interim condensed consolidated financial statements are not prepared, in all material respects, in accordance with IAS 34 and HKAS 34.

CNOOC (BVI) Limited is a direct wholly-owned subsidiary of OOGC, which is a direct wholly-owned Note: subsidiary of CNOOC. Accordingly, CNOOC (BVI) Limited's interests are recorded as the interests of OOGC and CNOOC.

All the interests stated above represent long positions. As at 30 June 2017, save as disclosed above, the Directors and chief executive of the Company are not aware of any other person having interests or short positions (other than the Directors and chief executives of the Company) in the Shares and underlying Shares which would fall to be disclosed to the Company under the provisions of Divisions 2 and 3 of Part XV of the SFO, or who is, directly or indirectly, interested in 10% or more of the nominal value of any class of share capital carrying rights to vote in all circumstances at general meetings of any other member of the Group.

INFORMATION ON SHARE OPTION SCHEMES

The Company has adopted the following share option schemes for the grant of options to the Company's Directors, senior management and other eligible grantees:

1. Pre-Global Offering Share Option Scheme (expired in 2011);

- 2.2001 Share Option Scheme (expired in 2011);
- 3.2002 Share Option Scheme (expired in 2015); and
- 4.2005 Share Option Scheme (as defined below).

INFORMATION ON SHARE OPTION SCHEMES (CONTINUED)

Under these share option schemes, the Remuneration Committee of the Board will from time to time propose for the Board's approval the grant of share options and the number of share options to be granted to the relevant grantees. The maximum aggregate number of shares (including those that could be subscribed for under the Pre-Global Offering Share Option Scheme, the 2001 Share Option Scheme, the 2002 Share Option Scheme and the 2005 Share Option Scheme) which may be issued upon exercise of all options granted shall not exceed 10% of the total issued share capital of the Company as at 31 December 2005, being the date on which the shareholders of the Company approved the 2005 Share Option Scheme, excluding shares under options which have lapsed.

2005 Share Option Scheme

On 31 December 2005, the Company adopted a new share option scheme (the "2005 Share Option Scheme"). Under the 2005 Share Option Scheme, the Board has the authority to grant options to subscribe for shares to the directors, officers and employees of the Company and its subsidiaries, and any other persons who, in sole discretion of the Board, have contributed or will contribute to the Group. Unless approved by the shareholders, the total number of shares issued and to be issued upon exercise of the options granted to each individual (including exercised and unexercised options) under the 2005 Share Option Scheme or any other share option scheme adopted by the Company, in any 12-months period, must not exceed 1% of the shares in issue of the Company.

According to the 2005 Share Option Scheme, the consideration payable by a grantee for the grant of options will be HK\$1.00. The exercise price for such options will be determined by the Board at its discretion at the date of grant, except that such price shall be at least the higher of:

- 1. the nominal value of a share of the Company on the date of grant;
- 2. the average closing price of the shares as stated in the HKSE's daily quotation sheets for the five trading days immediately preceding the date of grant; and
- 3. the closing price of the shares as stated in the HKSE's daily quotation sheet on the date of grant.

The period within which the options must be exercised, as well as any minimum holding period or performance targets which apply to the options, will be specified by the Board of the Company at the time of grant. The exercise periods for options granted under the 2005 Share Option Scheme shall end not later than 10 years from the date of grant. No options may be granted under the 2005 Share Option Scheme after the date of the 10th anniversary of the adoption of the 2005 Share Option Scheme.

Other Information

AUDIT COMMITTEE

The Audit Committee of the Board of the Company has reviewed together with the management the accounting principles and practices adopted by the Group and discussed the risk management, internal control and financial reporting matters. The interim results for the six months ended 30 June 2017 are unaudited, but have been reviewed by Deloitte Touche Tohmatsu in accordance with Hong Kong Standard on Review Engagements 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity", issued by the Hong Kong Institute of Certified Public Accountants. The interim report for the six months ended 30 June 2017 has been reviewed by the Audit Committee.

PURCHASE, SALE OR REDEMPTION OF LISTED SECURITIES

Save as disclosed in this interim report, there was no purchase, sale or redemption by the Company, or any of its subsidiaries, of its listed securities during the six months ended 30 June 2017.

CORPORATE GOVERNANCE CODE AND CORPORATE GOVERNANCE REPORT

For the six months ended 30 June 2017, the Company has complied with relevant code provisions set out in Appendix 14 to the Listing Rules, except for the deviation from the code provisions ("Code Provisions") A.2.1 and A.4.1 of the Corporate Governance Code and Corporate Governance Report ("Corporate Governance Code"). The following summarises the requirement under the above-mentioned Code Provisions and the reasons for such deviations.

Code Provision A.2.1

Under Code Provision A.2.1, the roles of the Chairman and the Chief Executive should be separate and not be performed by the same individual.

Within the reporting period, prior to 18 April 2017, Mr. Yang Hua had assumed both the roles of the Chairman and the Chief Executive Officer of the Company as he is familiar with the culture and operations of the Company and has

extensive experience in the oil and gas industry. The Directors considered that vesting two roles in the same individual would enable the Company to make and implement decisions promptly and efficiently and would not impair the balance of power and authority between the Board and the management of Company. The Company has established board committees (namely, Audit Committee, Remuneration Committee and Nomination Committee), whose members comprise independent non-executive Directors and are responsible for important corporate governance functions. In particular, the Audit Committee of the Company is responsible for overseeing and monitoring the risk management and internal control systems of the Company, to support the Board in discharging its responsibilities and to make sure the adequacy and effectiveness of the Company's corporate accounting and financial controls, risk management and internal control systems. The four Independent Non-executive Directors who possess balance of skills and experience appropriate of the business of the Company also contribute valuable independent views to the Board. The Directors considered that although Mr. Yang Hua served as both the Chairman and Chief Executive Officer, there were sufficient checks and balances at the board level.

CORPORATE GOVERNANCE CODE AND CORPORATE GOVERNANCE REPORT (CONTINUED)

Code Provision A.2.1 (continued)

With effect from 18 April 2017, Mr. Yang Hua resigned as the Chief Executive Officer of the Company and he remains as the Chairman. At the same time, Mr. Yuan Guangyu, an existing Executive Director, has been appointed as the Chief Executive Officer. As such, the roles of the Chairman and the Chief Executive are separate and are not performed by the same individual and there has been no deviation from Code Provision A.2.1 since 18 April 2017.

Code Provision A.4.1

Under Code Provision A.4.1, non-executive directors should be appointed for a specific term and be subject to re-election.

None of the existing independent non-executive directors of the Company is appointed for a specific term. This constitutes a deviation from Code Provision A.4.1. However, all the Directors are subject to the retirement provisions under article 97 of the Articles of Association of the Company ("Article 97"). According to Article 97, one-third of the Directors for the time being must retire from the office by rotation at each annual general meeting. The Company has observed the need for good corporate governance practices. All the incumbent independent non-executive directors of the Company have retired from the office by rotation and have been re-elected in the past three years. Therefore, the Company considers that sufficient measures have been taken to ensure that the Company's corporate governance practices are no less exacting than those in the Corporate Governance Code.

MODEL CODE FOR SECURITIES TRANSACTIONS BY DIRECTORS OF LISTED ISSUERS

The Company has adopted a Code of Ethics for Directors and Senior Management ("Code of Ethics") incorporating the Model Code as set out in Appendix 10 to the Listing Rules. All Directors have confirmed that they complied, during the six months ended 30 June 2017, with the Company's Code of Ethics and the required standards set out in the Model Code.

STATEMENT OF SIGNIFICANT DIFFERENCES IN CORPORATE GOVERNANCE PRACTICES FOR PURPOSES OF SECTION 303A.11 OF THE NEW YORK STOCK EXCHANGE LISTED COMPANY MANUAL

The Company is incorporated under the laws of Hong Kong and the principal trading market for the ordinary shares of the Company is the HKSE. In addition, because the Company's ordinary shares are registered with the United Sates Securities and Exchange Commission and are listed on the New York Stock Exchange (the "NYSE"), the Company is subject to certain corporate governance requirements of NYSE. However, many of the corporate governance rules in the NYSE Listed Company Manual (the "NYSE Standards") do not apply to the Company as a "foreign private issuer" and the Company is permitted to follow its home country corporate governance practices in lieu of most corporate governance standards contained in the NYSE Standards. Section 303A.11 of the NYSE Listed Company Manual requires NYSE listed foreign private issuers to describe the significant differences between their corporate governance practices and the corporate governance standards applicable to U.S. domestic companies listed on the NYSE. The Company has posted a brief summary of such significant differences on its website, which may be accessed through the following web page:

MISCELLANEOUS

The Directors are of the opinion that there have been no material changes to the information published in the Company's annual report for the year ended 31 December 2016, other than those disclosed in this interim report.

CLOSURE OF REGISTER OF MEMBERS

The register of members of the Company will be closed from 11 September 2017 (Monday) to 15 September 2017 (Friday) (both days inclusive) during which no transfer of shares of the Company can be registered. In order to qualify for the interim dividend, members are reminded to ensure that all instruments of transfer of shares accompanied by the relevant share certificate(s) must be lodged with the Company's registrar, Hong Kong Registrars Limited, Shops 1712-1716, 17th Floor, Hopewell Centre, 183 Queen's Road East, Wanchai, Hong Kong, not later than 4:30 p.m. on 8 September 2017 (Friday). The interim dividend will be paid on or around 12 October 2017 (Thursday) to shareholders whose names appear on the register of members on 15 September 2017 (Friday).

WITHHOLDING AND PAYMENT OF ENTERPRISE INCOME TAX FOR NON-RESIDENT ENTERPRISES IN RESPECT OF 2017 INTERIM DIVIDEND

Pursuant to the "Enterprise Income Tax Law of the People's Republic of China", the "Regulations on the Implementation of the Enterprise Income Tax Law of the People's Republic of China" and the "Notice of the State Administration of Taxation on Issues about the Determination of Chinese- Controlled Enterprises Registered Abroad as Resident Enterprises on the Basis of Their Body of Actual Management", the Company has been confirmed as a resident enterprise of the People's Republic of China (the "PRC") and the withholding and payment obligation lies with the Company. The Company is required to withhold and pay 10% enterprise income tax when it distributes the 2017 interim dividend to its non-resident enterprise (as defined in the "Enterprise Income Tax Law of the People's Republic of China") shareholders. In respect of all shareholders whose names appear on the Company's register of members as at 15 September 2017 who are not individual natural person (including HKSCC Nominees Limited, corporate nominees or trustees such as securities companies and banks, and other entities or organisations, which are all considered as non-resident enterprise shareholders), the Company will distribute the 2017 interim dividend after deducting enterprise income tax of 10%. The Company will not withhold and pay the income tax in respect of the 2017 interim dividend payable to any natural person shareholders whose names appear on the Company's register of members as at 15 September 2017. Investors who invest in the shares of the Company listed on the Main Board of The Stock Exchange of Hong Kong Limited through the Shanghai Stock Exchange (the "Shanghai-Hong Kong Stock Connect investors"), and investors who invest in the shares in the Company listed on the Main Board of The Stock Exchange of Hong Kong Limited through the Shenzhen Stock Exchange (the "Shenzhen-Hong Kong Stock Connect investors"), are investors who hold shares through HKSCC Nominees Limited, and in accordance with the above requirements, the Company will pay to HKSCC Nominees Limited the amount of the 2017 interim dividend after withholding for payment the 10% enterprise income tax.

If any resident enterprise (as defined in the "Enterprise Income Tax Law of the People's Republic of China") listed on the Company's register of members which is duly incorporated in the PRC or under the laws of a foreign country (or a region) but with a PRC-based de facto management body, or any non-resident enterprise shareholder who is subject to a withholding tax rate of less than 10% pursuant to any tax treaty between the country of residence of such shareholder and the PRC or tax arrangements between mainland China and Hong Kong or Macau, or any other non-resident enterprise shareholder who may be entitled to a deduction or exemption of enterprise income tax in accordance with the applicable PRC rules, does not desire to have the Company withhold and pay the total amount of the said 10% enterprise income tax, it shall lodge with Hong Kong Registrars Limited documents from its governing tax authority confirming its PRC resident enterprise status, or the documents in support that a withholding tax of less than 10% is required to be paid pursuant to the above-mentioned tax treaty or arrangements, or the documents confirming its entitlement to a deduction or exemption of enterprise income tax in accordance with the applicable PRC rules at or before 4:30 p.m. on 8 September 2017 (Friday).

WITHHOLDING AND PAYMENT OF ENTERPRISE INCOME TAX FOR NON-RESIDENT ENTERPRISES IN RESPECT OF 2017 INTERIM DIVIDEND (CONTINUED)

If anyone would like to change the identity of the shareholders in the register of members, please enquire about the relevant procedures with the nominees or trustees. The Company will withhold and pay the enterprise income tax for its non-resident enterprise shareholders strictly in accordance with the relevant laws and requirements of the relevant government departments and adhere strictly to the information set out in the Company's register of members on 15 September 2017. The Company assumes no liability whatsoever in respect of and will not entertain any claims arising from any delay in, or inaccurate determination of, the status of the shareholders at the aforesaid date or any disputes over the mechanism of withholding.

By Order of the Board

Li Jiewen

Joint Company Secretary

Hong Kong, 24 August 2017

FORWARD-LOOKING STATEMENTS

This interim report includes "forward-looking statements" within the meaning of the United States Private Securities Litigation Reform Act of 1995, including statements regarding expected future events, business prospectus or financial results. The words "expect", "anticipate", "continue", "estimate", "objective", "ongoing", "may", "will", "project", "subjective", "plans", "intends" and similar expressions are intended to identify such forward-looking statements.

These statements are based on assumptions and analyses made by the Company in light of its experience and its perception of historical trends, current conditions and expected future developments, as well as other factors that the Company believes are appropriate under the circumstances. However, whether actual results and developments will meet the expectations and predictions of the Company depends on a number of risks and uncertainties which could cause the actual results, performance and financial condition to differ materially from the Company's expectations, including but not limited to those associated with fluctuations in crude oil and natural gas prices, the exploration or development activities, the capital expenditure requirements, the business strategy, whether the transactions entered into by the Group can complete on schedule pursuant to the terms and timetable or at all, the highly competitive nature of the oil and natural gas industries, the foreign operations, environmental liabilities and compliance requirements, and economic and political conditions in the People's Republic of China. For a description of these and other risks and uncertainties, please see the documents the Company files from time to time with the United States Securities and Exchange Commission, including the Annual Report on Form 20-F filed in April of the latest fiscal year. Consequently, all of the forward-looking statements made in this interim report are qualified by these cautionary statements. The Company cannot assure that the results or developments anticipated will be realised or, even if substantially realised, that they will have the expected effect on the Company, its business or operations.
