REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Trustee and Participants of Monsanto Savings and Investment Plan,
Pension and Savings Funds Investment Committee of Monsanto Company,
and Monsanto Company Employee Benefits Plans Committee

We have audited the accompanying statements of net assets available for benefits of Monsanto Savings and Investment Plan (the Plan) as of December 31, 2008 and 2007, and the related statement of changes in net assets available for benefits for the year ended December 31, 2008. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2008 and 2007, and the changes in net assets available for benefits for the year ended December 31, 2008 in conformity with accounting principles generally accepted in the United States of America. As discussed in Note 6 to the financial statements, the Plan adopted Statement of Financial Accounting Standards No. 157, *Fair Value Measurements*, effective January 1, 2008.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedules of (1) Schedule of Assets (Held at End of Year) as of December 31, 2008, (2) Schedule of Acquisitions & Dispositions for the Year Ended December 31, 2008, and (3) Schedule of Reportable Transactions for the Year Ended December 31, 2008, are presented for the purpose of additional analysis and are not a required part of the basic financial statements, but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These schedules are the responsibility of the Plan's management. Such schedules have been subjected to the auditing procedures applied in our audit of the basic 2008 financial statements and, in our opinion, are fairly stated in all material respects when considered in relation to the basic financial statements taken as a whole.

**MONSANTO SAVINGS AND INVESTMENT PLAN
NOTES TO FINANCIAL STATEMENTS
YEAR ENDED DEC. 31, 2008**

NOTE 1. INFORMATION REGARDING THE PLAN

GENERAL

The following description of the Monsanto Savings and Investment Plan (the Plan or the SIP) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions. The Plan was established as of June 11, 2001, as a successor to a portion of the Pharmacia Corporation Savings and Investment Plan (Pharmacia Plan) for the benefit of certain employees and former employees (Transferred Participants) of Monsanto Company (Monsanto or the Company). Effective July 1, 2001, the assets of the Pharmacia Plan that were allocated to the accounts of the Transferred Participants were transferred to the trust established under the Plan. Also effective July 1, 2001, a portion of the unallocated assets and liabilities (primarily debt) of the leveraged employee stock ownership plan (ESOP) component of the Pharmacia Plan were transferred to the Plan. Effective July 1, 2001, through June 30, 2002, the assets of the trust established under the Plan were collectively invested with the assets of the Pharmacia Plan in the Pharmacia Corporation and Monsanto Company Defined Contribution and Employee Stock Ownership Master Trust (the Master Trust). Within the Master Trust, each participating plan was entitled to an interest in the Master Trust's net assets and net earnings. Effective as of July 1, 2002: (i) assets and liabilities from the Master Trust representing the Pharmacia Plan's interest and obligations in and under the Master Trust were transferred to the Pharmacia Savings Plan Master Trust and the Pharmacia Savings Plan ESOP Trust for Pharmacia Common Stock; and (ii) Monsanto and the trustee of the Plan entered into the Monsanto Company Defined Contribution and Employee Stock Ownership Master Trust Agreement which is the trust established pursuant to the Plan to hold all the assets of the Plan.

ADMINISTRATION

Monsanto is the sponsor of the Plan. The Monsanto Employee Benefits Plans Committee is responsible for administering the Plan in accordance with the Employee Retirement Income Security Act of 1974 (ERISA) and Plan documents. Fidelity Investments Institutional Operations Company, Inc. serves as the record keeper of the Plan. The Monsanto Pension and Savings Funds Investment Committee is responsible for monitoring Plan investments. The trustee of the Plan is The Northern Trust Company (Northern).

PARTICIPANT ACCOUNTS

The Plan is a contributory defined contribution profit sharing plan with individual accounts for each participant. U.S. employees classified as regular employees and who have attained age 18 generally are eligible to participate in the Plan upon employment. U.S. employees classified as temporary employees and who have attained age 18 generally are eligible to participate in the Plan after 1,000 hours of service. The cost of Plan administration is borne partially by Plan participants and partially by Monsanto, as Plan sponsor.

Each participant's account is credited with the participant's contributions, Company contributions and the pro-rata share of any Plan earnings and is reduced by the pro-rata share of any Plan losses and certain administrative expenses. Participants' accounts are valued on a daily basis. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

EMPLOYEE CONTRIBUTIONS

The Plan provides for voluntary employee contributions generally ranging from 1 percent to 25 percent of an employee's eligible pay. Employees have an option to make before-tax contributions or after-tax contributions. Subject to annual limits on before-tax contributions and the results of required Internal Revenue Service (IRS) discrimination testing, contributions may be all before-tax, all after-tax, or a combination of both. Plan participants other than those also participating in the Company's ERISA Parity Savings and Investment Plan may change the amounts of their contributions on a daily basis. Generally, employee contributions to the Plan may be invested in 1 percent increments and allocated in any combination to the following investment fund options: a fixed income fund, a balanced

Table of Contents**MONSANTO SAVINGS AND INVESTMENT PLAN
NOTES TO FINANCIAL STATEMENTS (continued)
YEAR ENDED DEC. 31, 2008**

fund consisting of both fixed income and equity securities, a growth and income equity fund, an international equity fund, a growth equity fund, a U.S. equity index fund, a treasury inflation-protected securities (TIPS) fund, a value equity fund, a small cap growth equity fund, a small cap value equity fund, the Monsanto Stock Fund, which invests in Monsanto common stock, and four asset allocation funds consisting of varying pre-set mixes of certain of the aforementioned investment funds. The four asset allocation funds allow participants varying degrees of risk and return. Targeted roundtrip participant trading restrictions were implemented in 2005. A roundtrip is defined as an exchange in and then out of a fund in less than a 30-day period. Under these restrictions, participants are limited to one roundtrip transaction per fund within any 90-day rolling period and four roundtrip transactions across all funds over a rolling 12-month period. These targeted restrictions apply to all investment options except the Fixed Income Fund. Generally, participants may transfer their contributions, Company contributions and any earnings thereon among the investment options on a daily basis, subject to the roundtrip trading restrictions described above.

An automatic enrollment feature was added to the Plan, effective Feb. 15, 2008, for employees who were employed by the Company or its affiliates on Jan. 22, 2008, and effective for employees hired on or after April 1, 2008. If any such employee is eligible to participate in the SIP, he or she will be automatically enrolled in the SIP at a 4 percent before-tax salary deferral rate, 45 days after date of hire or rehire (or for temporary employees hired on or after July 1, 2007, 45 days after completing 1,000 hours of service) unless, within such 45 day period he or she elects not to participate.

As a result of the spinoff in 1997 of Solutia Inc. (Solutia), a former subsidiary of the former Monsanto Company, certain Transferred Participants accounts received common stock of Solutia. This stock was maintained in the Solutia Non-Employer Stock Fund, and, subsequent to the spinoff, no contributions (either employee or employer) were made to this fund, nor were amounts transferred into the fund from other participant investments. The Company amended the Plan to terminate the Solutia Non-Employer Stock Fund as an investment option effective as of the close of business on Dec. 24, 2008. All participant investments remaining in the fund as of the close of business on Dec. 24, 2008, were liquidated and invested in the Moderately Aggressive Portfolio, the default investment fund for the Plan. Participants may be eligible to make a before-tax catch-up contribution if they are at least age 50 on or before the end of the calendar year and either currently contributing at least 7 percent of their eligible pay per pay period to the SIP or had reached the IRS annual limit on before-tax contributions (\$15,500 in 2008). For 2008, eligible participants could have elected a before-tax catch-up contribution of up to \$5,000. The catch-up contributions are not eligible for Company matching contributions and are subject to the same rules as other before-tax contributions. The annual catch-up contribution limit may increase in future years in accordance with limits prescribed by the IRS.

The before-tax option allows participants to elect to make before-tax contributions from eligible gross pay before most income taxes are deducted. The participants generally cannot withdraw before-tax contributions without income tax penalties until age 59 1/2, disability, death, separation from service; or, after age 55, for payments that are part of a series of substantially equal periodic payments made for the life of the employee or the joint lives of the employee and a designated beneficiary. After-tax contributions are made from participants eligible pay after income taxes are deducted. Withdrawal of after-tax employee contributions can be made with no penalty.

COMPANY CONTRIBUTIONS AND VESTING

Employee contributions to the Plan, up to a maximum of 7 percent of eligible pay, generally are matched 60 percent by Monsanto. The Plan also has a Company discretionary match contribution feature. Generally, Company matching contributions are invested in Monsanto common stock held in the Monsanto Stock Fund investment option in participants accounts. Participants may transfer matching contributions and all other amounts from the Monsanto Stock Fund into any other investment option available under the Plan whether or not they are fully vested in those amounts.

In December 2008 and 2007, Monsanto determined that a discretionary matching contribution of an additional 40 percent on the first 10 percent of eligible pay would be made to participants actively participating in the Plan on Dec.

31, 2008 and 2007. These contributions of \$30 million and \$26 million, were applied to the Monsanto Stock Fund investment option in eligible participants' accounts in March 2009 and 2008, respectively, through an allocation of previously unallocated Monsanto Company common stock, based on the value of a share of Monsanto common stock on Dec. 31, 2008 and 2007, respectively.

Table of Contents**MONSANTO SAVINGS AND INVESTMENT PLAN
NOTES TO FINANCIAL STATEMENTS (continued)
YEAR ENDED DEC. 31, 2008**

Also in December 2007, the Company determined to make a non-elective Company contribution to the Plan in an amount equal to 3.8 percent of eligible pay, or a total of \$30 million to all Plan participants active on Dec. 31, 2007. The non-elective contribution was applied to the Monsanto Stock Fund investment option in eligible participants accounts in May 2008 and funded by: (i) an allocation of previously unallocated Monsanto Company common stock held in the ESOP component of the Plan, based on the value of a share of Monsanto common stock on Dec. 31, 2007, and (ii) \$.2 million cash contribution by the Company in 2008. The cash contribution was included in Employer Contribution Receivable at Dec. 31, 2007.

In order for the Plan to pass certain IRS nondiscrimination testing requirements with respect to each of the 2008 and 2007 Plan years, the Company made Qualified Non-Elective Contributions (QNECs), each in an amount equivalent to 5 percent of eligible pay to all non-highly compensated employees of the Company and other employees participating in the Plan whose total Plan eligible pay in 2008 was \$1,852.82 or less and in 2007 was \$26,250 or less, were at least age 21, and had at least one year of service by Dec. 31, 2008 and 2007, respectively, whether or not the employee was contributing to the Plan. As permitted by the terms of the Plan, Plan forfeitures as of Dec. 31, 2008 and 2007, were used to fund each of the QNECs. The QNEC of less than \$.1 million and \$1.2 million will be or was allocated to eligible participants accounts in July 2009 and May 2008, respectively. These contributions will be or have been, as the case may be, applied to the participants accounts in accordance with their investment elections for current contributions. In the absence of such election, the contribution will be or has been, as the case may be, applied to the participant s account in accordance with the Plan s default investment option, the Moderately Aggressive pre-mixed portfolio.

Generally, Company contributions vest and become non-forfeitable at the rate of 20 percent per year of service, such that Company contributions are 100 percent vested after five years of service; participants receiving the QNEC referred to above are fully vested in those amounts. A participant who has less than five years of participation in the Plan or a predecessor plan cannot withdraw Company matching contributions that are not vested or that were received in the last 24 months. Upon completion of five years of service under the Plan, all Company matching contributions may be withdrawn from the Plan. Company contributions immediately vest upon a change of control of the Company, as defined in the Plan.

LEVERAGED ESOP

During 2001, in connection with the transfer of the ESOP component of the Pharmacia Plan to the Plan, the Pharmacia Plan s original ESOP debt was restructured and refinanced. Following the spinoff of Monsanto from Pharmacia on Aug. 13, 2002, the unallocated Pharmacia shares held by the Plan s ESOP component were gradually converted to shares of Monsanto common stock through open market transactions and through the exchange of Pharmacia stock for Monsanto common stock with certain Pharmacia employee benefit plans at market rates. The unallocated shares of Monsanto common stock, which were converted from Pharmacia shares as described above, held by the Plan s ESOP component are released for allocation to participant accounts in accordance with the terms of the Plan as interest and principal on the ESOP promissory note is paid.

In December 2004 the Plan s ESOP debt was restructured and refinanced, (the 2004 refinancing) with a single promissory note to Monsanto, payable in the principal amount of \$19.2 million, bearing interest at the rate of 4.60% per annum, and having a maturity date of Dec. 31, 2012, (the 4.60% Note). The terms of the restructuring were determined pursuant to an arm s length negotiation between Monsanto and an independent trust company as fiduciary for the Plan.

Under the terms of the 2004 refinancing, Monsanto committed to funding an additional \$41 million to the Plan before Dec. 31, 2017 above the number of shares currently scheduled for release under the restructured debt schedule. As of Dec. 31, 2008, and 2007, the Plan has recorded an employer contribution receivable of \$45 million and \$42 million, respectively, and a deferred employer contribution of \$45 million and \$42 million, respectively, related to the agreement. The employer contribution receivable and deferred employer contribution related the 2004 refinancing

have increased because of the accretion as defined in the agreement.

The Plan's ESOP debt was again restructured and refinanced in November 2008 (the 2008 refinancing) with a single ESOP promissory note to Monsanto, payable in the principal amount of \$9.5 million, bearing interest at the rate of 4.20% per annum, and having a maturity date of Dec. 31, 2027 (the 4.20% Note). The terms of the restructuring were determined pursuant to an arm's length negotiation between Monsanto and an independent trust company as fiduciary for

Table of Contents**MONSANTO SAVINGS AND INVESTMENT PLAN
NOTES TO FINANCIAL STATEMENTS (continued)
YEAR ENDED DEC. 31, 2008**

the Plan. In this role, the independent fiduciary determined that the restructuring, including certain financial commitments and enhancements that were or will be made in the future by Monsanto to benefit participants and beneficiaries of the Plan, was in the best interests of participants in the Plan's ESOP component.

As of Dec. 31, 2008, the 4.20% Note had an outstanding principal balance of \$6.6 million, which approximates fair value. Scheduled maturities on the 4.20% Note are \$100,000 semi-annually in each year until repaid in full. Interest on the 4.20% Note is payable semi-annually on June 30 and December 31 of each year. The borrowing is collateralized by the unallocated shares of Monsanto common stock in the ESOP suspense account. The minimum number of shares allocated to participant accounts under the ESOP in a given year is determined by the Plan's net debt service (principal and interest) during that year relative to the total amount of the Plan's remaining debt service as of the beginning of that year. The 2008 refinancing resulted in a decrease in the minimum number of shares to be allocated in 2008 when compared with allocations that would have previously been required. The reduction of shares allocated in 2008 is expected to result in more Monsanto shares allocated to participants each year from 2013 through 2027.

Under the terms of the 2008 refinancing, Monsanto committed to funding an additional \$8 million to the Plan, above the number of shares currently scheduled for release under the restructured debt schedule. As of Dec. 31, 2008, the Plan has recorded an employer contribution receivable of \$8 million, and a deferred employer contribution of \$8 million, related to the 2008 refinancing. In order to fulfill \$4 million of this \$8 million commitment, Monsanto amended the Plan in May 2009 to authorize the allocation of \$4 million in a Special Allocation to employees eligible to contribute to the Plan as of December 31, 2008 (even if they were not contributing on that date). The \$4 million Special Allocation was allocated proportionately to eligible participants in May and funded using Plan forfeitures and dividends on Monsanto common stock held in the ESOP suspense account.

The Plan obtains the funds to repay the ESOP debt to Monsanto primarily through Company contributions and dividends paid on Monsanto common stock held in the ESOP. In the year ended Dec. 31, 2008, the Plan paid the ESOP debt payments of \$3.3 million solely through the use of dividends paid on Monsanto common stock held in the ESOP suspense account. Effective July 1, 2007, Monsanto amended the Plan to provide participants the option to elect to receive dividends in cash (dividend pass-through). While the ESOP debt is repaid annually, shares of Monsanto common stock are released for allocation to participant accounts throughout the year. Employer contributions related to the refinancings are paid to the Plan based on scheduled ESOP debt repayments. The remaining \$4 million of the 2008 enhancement will be paid within five years after the loan is paid. In the year ended Dec. 31, 2008, the Plan's repayment of ESOP debt resulted in the release of approximately 756,000 equivalent shares of Monsanto common stock for allocation to participant accounts. As of Dec. 31, 2008, and 2007, approximately two million shares and three million shares, respectively, of Monsanto common stock remained unallocated with an approximate market value of \$162 million and \$339 million, respectively. \$2.4 million in dividends on Monsanto common stock held in the ESOP and \$.2 million in cash related to the 3.8 percent nonelective company contribution are included in the Employer contributions for 2008.

VOTING RIGHTS

Participants have the right to instruct the Plan's trustee how to vote the shares of Monsanto common stock in their accounts. The Trustee will vote the unallocated shares in the same proportion as the allocated shares on which they receive voting instructions from participants.

PARTICIPANT LOANS

Most Plan participants can obtain loans from their accounts for up to five years at an interest rate determined by the Company. A participant with a Plan account balance of over \$2,000 may borrow up to the lesser of 50 percent of the total vested account balance less any outstanding loan balances at the time of the loan, \$50,000 minus the participant's highest outstanding loan balances during the last year, or 100 percent of his or her employee account value excluding the employer portion and any outstanding loan balances at the time of the loan. The minimum loan is \$1,000, and the

maximum number of outstanding loans at any one time is two.

In 2005, the Monsanto SIP was amended to allow eligible participants affected by Hurricane Katrina to obtain a loan with certain features. In the event an eligible affected participant elected to receive a loan at any time between the effective date and Dec. 31, 2006, and such loan met certain required parameters, the participant could have established a

Table of Contents

**MONSANTO SAVINGS AND INVESTMENT PLAN
NOTES TO FINANCIAL STATEMENTS (continued)
YEAR ENDED DEC. 31, 2008**

repayment schedule for a period not to exceed 180 months.

PAYMENT OF BENEFITS

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a certain number of years. If employment is terminated before age 70 1/2, participants can elect to defer receiving benefits if their vested account balance is greater than \$5,000.

FORFEITED ACCOUNTS

At Dec. 31, 2008, and 2007, forfeited nonvested accounts totaled \$2.6 million and \$5 million, respectively. These accounts have been used to pay Plan administrative expenses and fund certain Company contributions. During the year ended Dec. 31, 2008, forfeited amounts were used to reduce \$517,000 in Plan administrative expenses. In May 2009 the Company determined to use forfeitures to partially fund the \$4 million Special SIP Allocation for 2008.

OTHER

Monsanto acquired Delta and Pine Land Company in June 2007. Effective August 2007, eligible employees of Delta and Pine Land Company became eligible to participate in the Plan. The assets of the Delta and Pine Land Company Savings Plan of \$12,565 were transferred into the Plan on Jan. 2, 2008 and were recorded as a receivable from transfers from other plans at Dec. 31, 2007 on the Statements of Net Assets Available for Benefits.

Monsanto acquired Seminis, Inc. (Seminis) in March 2005. Effective Jan. 1, 2006, eligible employees of Seminis and certain of its U.S. affiliates became eligible to participate in the Plan. The assets of the Seminis Vegetable Seeds Retirement Plan that were allocated to the transferred individuals totaled \$49,267, and were transferred to the Plan on Dec. 8, 2008.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent liabilities at the date of the financial statements and reported amounts of increases and decreases during the reporting period. Actual results could differ from those estimates.

RISKS AND UNCERTAINTIES

The Plan is invested in various types of financial assets including common stock, debt securities and investment contracts, the values of which are determined by market factors including but not limited to interest rates, overall market volatility, credit ratings, and default rates. The investment values recorded in the financial statements as of Dec. 31, 2008 reflect the market environment, risks and uncertainties at that point in time. It is reasonably possible that subsequent changes in the market environment could result in investment values materially different from those shown in the financial statements.

INVESTMENT VALUATION AND INCOME RECOGNITION

Effective Jan. 1, 2008, the Plan adopted Statement of Financial Accounting Standards (SFAS) No. 157, *Fair Value Measurements* (SFAS 157). SFAS 157 defines fair value, establishes a framework for measuring fair value, establishes a fair value hierarchy based on the quality of inputs used to measure fair value and enhances disclosure requirements for fair value measurements. The Plan's investments are stated at fair value. Common stock is valued at quoted market prices. The common collective investment trust funds are stated at fair value as determined by the issuer based on the fair market value of the underlying investments. When available, fair value is determined by quoted market prices. Amounts for securities that have no quoted market price represent estimated fair value. Debt securities without quoted market prices are generally valued based on yields currently available on comparable securities of issuers with similar credit ratings and similar maturities. Participant loans are valued at the outstanding loan balances, which approximate fair value. See Note 6 Fair Value Measurements for further details.

Table of Contents**MONSANTO SAVINGS AND INVESTMENT PLAN
NOTES TO FINANCIAL STATEMENTS (continued)
YEAR ENDED DEC. 31, 2008**

The fixed income fund is invested in synthetic guaranteed investment contracts, as described in Note 4. In accordance with Financial Accounting Standards Board Staff Position, FSP AAG INV-1 and Statement of Position 94-4-1, *Reporting of Fully Benefit-Responsive Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans* (the FSP), the statements of net assets available for benefits present the synthetic investment contracts at fair value, as well as an additional line item showing an adjustment of fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is presented on a contract value basis. Purchases and sales of securities are recorded on a trade-date basis. Dividend income is recorded on the ex-dividend date. Realized gains and losses from security transactions are reported on the average cost method. In the Statement of Changes in Net Assets Available for Benefits, the Plan presents the net depreciation in the fair value of its investments, which consists of the realized gains and losses and the unrealized depreciation on these investments. The Plan uses certain financial derivative instruments to hedge, acquire or change equity, currency or fixed income positions/durations in the portfolio. However, the Plan's guidelines do not allow for derivatives to be used to leverage portfolio exposure. All derivatives are recognized in the Statement of Net Assets Available for Benefits at fair value. Changes in fair value of a derivative are recorded currently in the Statement of Changes in Net Assets as net depreciation in fair value of investments.

The Plan pays certain outside service provider expenses (e.g. recordkeeping and trustee fees) incurred in the operation of the Plan. All investment manager fees are paid by the Plan and are included in Administrative expenses. Certain other expenses are paid by Monsanto.

NEW ACCOUNTING STANDARDS

In March 2008, the Financial Accounting Standards Board (FASB) issued SFAS 161, *Disclosures About Derivative Instruments and Hedging Activities* an amendment of FASB Statement No. 133 (SFAS 161). Statement 161 amends certain existing disclosure requirements in Statement 133 and requires new qualitative and quantitative disclosure about an entity's derivative instruments and hedging activities to be provided for every reporting period. It is effective for financial statements issued for fiscal years beginning after Nov. 15, 2008, with early application encouraged. The Plan is currently evaluating the impact of SFAS 161 on the financial statements.

In February 2008, the FASB issued FASB Staff Position (FSP) 157-2, *Effective Date of SFAS No. 157* (FSP SFAS 157-2), which delays the effective date of SFAS 157 for nonfinancial assets and liabilities to fiscal years beginning after Nov. 15, 2008. Accordingly, the Plan will adopt the additional requirements of SFAS 157 that were deferred by FSP SFAS 157-2 in 2009. The Plan is currently evaluating the impact on the financial statements of adopting the additional requirements of SFAS 157.

NOTE 3. NONPARTICIPANT-DIRECTED INVESTMENTS

All funds in the Plan are participant-directed except as noted below. Common stock Monsanto Company includes both participant and nonparticipant-directed investments and only the non-participant-directed portion is shown below.

Table of Contents

**MONSANTO SAVINGS AND INVESTMENT PLAN
NOTES TO FINANCIAL STATEMENTS (continued)
YEAR ENDED DEC. 31, 2008**

Information about the investments and the significant components of the changes in investments relating to the nonparticipant-directed investment amounts in the Plan (as of Dec. 31, 2008, and Dec. 31, 2007, and the year ended Dec. 31, 2008,) is outlined in the table below.

(Dollars in thousands)	As of Dec. 31,	
	2008	2007
Investments:		
Cash and temporary investments	\$ 6,427	\$ 8,011
Common stock - Monsanto Company	640,581	1,101,232
Total Investments	\$647,008	\$1,109,243

(Dollars in thousands)	Year Ended Dec. 31, 2008
Changes in Investments:	
Interest income	\$ 218
Dividends	7,860
Net depreciation	(372,415)
Interest expense on ESOP debt	(434)
Administrative expense	(1,306)
Withdrawals and transfers	(96,158)
Changes in Investments	\$ (462,235)

NOTE 4. GUARANTEED INVESTMENT CONTRACTS

The fixed income fund invests in synthetic guaranteed investment contracts (Synthetic GICs). A single uniform synthetic GIC was in place on Dec. 31, 2008, and Dec. 31, 2007, with Commonwealth General Corporation, J.P. Morgan Chase Bank and State Street Bank. A Synthetic GIC includes underlying fixed income assets which are held by the trustee and owned by the plan, utilizing a benefit-responsive wrapper contract issued by financial services companies. The contract provides that participants execute plan transactions at contract value. Contract value represents contributions made to the fund, plus earnings, less participant withdrawals. The interest rates are reset quarterly based on the current yield of the underlying investments, the duration of the underlying investments and the spread between the market value and contract value, but the rate cannot be less than zero percent. Certain employer-initiated events such as a plan merger or plan termination could limit the ability of the plan to transact at contract value or could allow for the termination of the wrapper contract at less than contract value. The plan sponsor believes that the occurrence of events that would cause the Plan to transact at less than contract value is probable of not occurring.

The following summarizes the contract value of the Synthetic GICs as of Dec. 31, 2008, and Dec. 31, 2007.

Guaranteed Investment Contracts

(Dollars in thousands)	As of Dec. 31,	
	2008	2007

Commonwealth General Corporation	\$204,717	\$187,614
J.P. Morgan Chase Bank	153,537	140,710
State Street Bank	153,537	140,710
Total	\$511,791	\$469,034

The rate of return for the Synthetic GICs currently in place generally fluctuates with the return on the underlying assets. The 12-month average yield for such contracts, net of all applicable administrative and investment fees, was 4.84 percent for the period from Jan. 1, 2008, to Dec. 31, 2008. Participant accounts are credited with an interest rate which is determined quarterly by the issuers of the benefit responsive contracts based on the investments in the underlying fixed

Table of Contents**MONSANTO SAVINGS AND INVESTMENT PLAN
NOTES TO FINANCIAL STATEMENTS (continued)
YEAR ENDED DEC. 31, 2008**

income portfolio. The annual crediting interest rates as of Dec. 31, 2008, and Dec. 31, 2007 were 4.85 percent and 5.49 percent, respectively.

NOTE 5. INVESTMENTS

Investments that represent more than 5 percent of the net assets available for benefits as of either Dec. 31, 2008, or Dec. 31, 2007, were as follows:

(Dollars in thousands)	As of Dec. 31,	
	2008	2007
Common stock - Monsanto Company (partially non-participant directed)	\$939,035	\$1,508,727
Capital Guardian International Equity Fund	96,400	162,113

The Plan participates in a securities lending program through Northern, the Plan's trustee, whereby the Plan's investment securities are loaned to broker-dealers. Securities so loaned are fully collateralized primarily by cash and U.S. government securities. U.S. securities are loaned and collateralized by securities valued at 102 percent of the market value of the securities plus any accrued interest (105 percent for non-U.S. securities). As the market value of the securities loaned changes, the borrower must adjust the collateral accordingly. Northern pools all collateral received from securities lending transactions and invests any cash collateral in an actively managed commingled (i.e., pooled) fund. The Plan holds a prorated share of the collateral provided to Northern by the borrowers of the securities. Each investment option within the Plan that participates in the program receives its pro-rata share of the income or loss earned by the collateral investment fund monthly and is reflected in the calculation of the investment option's net asset value (NAV).

Monsanto or the borrower has the right to close the loan at any time. When the loan closes, the borrower returns the securities to Northern who returns the associated collateral to the borrower. The Plan cannot pledge or sell the collateral unless the borrower fails to return the securities borrowed. At Dec. 31, 2008, and 2007, approximately \$105 million and \$165 million, respectively, of the Plan's securities were on loan under these programs, and collateral held was \$105 million (net of deficiency impairment loss) and \$170 million, respectively. Income from this program (prior to the collateral pool deficiency described below), was \$1.2 million for the year ended Dec. 31, 2008.

As a result of the acute fixed income market conditions and certain asset impairments that occurred during the third quarter of 2008, the securities lending collateral investment pool in which the Plan participates experienced market value declines, resulting in Northern declaring a collateral deficiency. The Plan's pro-rata share of the unrealized collateral pool losses, totaled approximately \$2.3 million as of Dec. 31, 2008 and is recorded as a reduction of Collateral Held Under Securities Lending Agreements in the financial statements. Each investment option within the Plan that participates in the program received its pro-rata share of the collateral deficiency and it is reflected in the calculation of the investment option's NAV.

NOTE 6. FAIR VALUE MEASUREMENTS

Effective Jan. 1, 2008, the Plan adopted SFAS 157, which did not have a material impact on the financial statements other than additional disclosures. SFAS 157 provides a framework for measuring fair value.

The Plan determined the fair market values of its investments based on the fair value hierarchy established in SFAS 157, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The hierarchy contains three levels as follows, with Level 3 representing the lowest level of input:

Level 1 - Values based on unadjusted quoted prices in active markets that are accessible at the measurement date for identical assets or liabilities.

Level 2 - Values based on quoted prices for similar instruments in active markets, quoted prices for identical or

Table of Contents

MONSANTO SAVINGS AND INVESTMENT PLAN
NOTES TO FINANCIAL STATEMENTS (continued)
YEAR ENDED DEC. 31, 2008

similar instruments in markets that are not active, or model-based valuation techniques for which all significant assumptions are observable in the market.

Level 3 Values generated from model-based techniques that use significant assumptions not observable in the market. These unobservable assumptions would reflect our own estimates of assumptions that market participants would use in pricing the asset or liability. Valuation techniques could include use of option pricing models, discounted cash flow models and similar techniques.

The following table sets forth by level the Plan's investment assets that were accounted for at fair value on a recurring basis as of Dec. 31, 2008. As required by SFAS 157, assets are classified in their entirety based on the lowest level of input that is a significant component of the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment and may affect the classification of fair value assets within the fair value hierarchy levels.

Fair Value Measurements at Dec. 31, 2008 Using

(Dollars in thousands)	Quoted Prices in Active Markets for Identical Items (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Offset	Balance as of Dec. 31, 2008
Investments at Fair Value:					
Common Stock - Monsanto Company	\$ 939,035	\$	\$	\$	\$ 939,035
Cash and Temporary Investments	48,333				48,333
Debt Securities including U.S. Government Securities		67,930			67,930
Common Stock - Other	296,047				296,047
Collective Investment Funds:					
Common Stock - Other Fund	231,579				231,579
Debt Securities Fund	27,413				27,413
Total Collective Investment Funds Company	258,992				258,992
Synthetic Guaranteed Investment Contracts:					
Cash and Temporary Investments	14,171	34,599		(44,214) ⁽¹⁾	4,556
Debt Securities	43,750	453,591			497,341
Derivative Investments related to:					
Futures	22,944			(22,944) ⁽²⁾	
Options	(196)	11			(185)
Total Synthetic Guaranteed Investment Contracts	80,669	488,201		(67,158)	501,712

Loans to Participants		23,384			23,384
Collateral Held Under Securities Lending Agreements					
Commingled Fund	104,905				104,905
Total Investments at Fair Value	\$1,727,981	\$ 579,515	\$	\$(67,158)	\$2,240,338

(1) Collateral offset for cash & temporary investments held within the synthetic guaranteed investment contracts represents unsettled pending purchases and sales (on net basis).

(2) Futures derivative assets have been offset by cash collateral held by the counterparty.

For assets that are measured using quoted prices in active markets, the total fair value is the published market price per unit multiplied by the number of units held without consideration of transaction costs, which have been determined to be immaterial. Assets that are measured using significant other observable inputs are primarily valued by reference to quoted prices of markets that are not active. The following methods and assumptions were used to estimate the fair value of each class of financial instrument:

Cash and temporary investments: The carrying value of cash equivalents approximates fair value as maturities are less than three months, and temporary investments (maturities less than 12 months) primarily consist of fixed income deposits and commercial paper which are measured at fair value using observable inputs in an active market. A large

Table of Contents**MONSANTO SAVINGS AND INVESTMENT PLAN
NOTES TO FINANCIAL STATEMENTS (continued)
YEAR ENDED DEC. 31, 2008**

portion of the Plan's cash equivalents are short-term collective investment funds—these commingled pools are in turn comprised of short-term fixed income assets that have timely NAV redemption terms and trade on a regular basis in active markets—as a result, they are classified as Level 1. Other cash and temporary investments holdings are fixed income holdings with maturities of less than 12 months. Because these bonds are not traded on listed exchanges, yet do have observable valuation inputs, these are classified as Level 2 assets.

Common stock & Monsanto Company Stock: The Plan's common stock consist of investments in listed U.S. and foreign company stock, including Monsanto company stock. A significant portion of equity securities are included in collective investment funds in the Statement of Net Assets Available for Benefits. All such investments are valued using stock prices from the various public markets—equity securities trade on formal exchanges, both domestic and foreign (e.g., NYSE, NASDAQ, LSE), and can be accurately described as active markets. The observable valuation inputs are unadjusted quoted prices that represent active market trades, and are classified as Level 1.

Collective investment funds: Some investment options are structured as commingled pools, or funds - this encompasses The International Fund, all broad market index funds, the Treasury Inflation-protected Securities fund (TIPS), and the Pre-Mix portfolios. These funds are comprised of other broad asset category types, such as equity and debt securities, derivatives and cash and equivalents. The FAS 157 level determination is assigned in large part by the funds' redemption terms, and not on the specific underlying fund assets. Because all collective funds carry redemption terms that allow for timely entry and exit at daily NAV, they are classified as Level 1.

Synthetic guaranteed investment contracts: Also referred to as the Synthetic GIC, the assets in this category represent the fixed income fund investment option. Almost all underlying assets are comprised of cash and equivalents, debt securities and derivatives (see related sections). Assets within the Synthetic GIC are assessed individually to assign level determination for the purposes of FAS 157, the discussion of which is incorporated into the appropriate asset categories.

Debt securities: The debt securities exposures consist of collateralized obligations, corporate credit and government issues. U.S. treasury and government agency bonds are generally priced by institutional bids, which reflect estimated values based on underlying model frameworks at various dealers and vendors. While some corporate issues are formally listed on exchanges, dealers exchange bid and ask offers to arrive at executed transaction prices. Collateralized securities are valued using models with readily observable market data as inputs, but the valuation process also includes matrix pricing to incorporate inputs related to potentially lower trading activity. Although most of the debt securities held in the Plan are included in Synthetic guaranteed investment contract (GIC) in the Statement of Net Assets Available for Benefits, there are other debt securities held outside the GIC. All debt securities included in the Plan are classified as Level 2.

Derivatives: The Plan holds standardized interest rate futures and options on such futures contracts. Derivative securities are employed by several investment options, and are included within the Synthetic guaranteed investment contracts on the Statement of Net Assets Available for Benefits. Interest rate futures, and all listed options are measured at fair value using quoted market prices and are classified as Level 1. The valuation of some options is based on an over-the-counter-market and therefore classified as Level 2.

Loans to participants: The loan balances are valued at cost plus accrued interest, which approximates fair value and are classified as Level 2.

Collateral held under securities lending agreements: The Plan participates in a securities lending program through Northern. Securities loaned are fully collateralized by cash and U.S. government securities. Northern pools all collateral received and invests any cash in an actively managed commingled fund—underlying assets include short-term fixed income securities such as commercial paper, T-Bills, and various forms of asset-backed securities, any and all of which would be classified individually as level 2. Because the collateral pool has redemption terms that under normal market circumstances allow for timely entry and exit at daily NAV, they are classified as Level 1.

**MONSANTO SAVINGS AND INVESTMENT PLAN
 NOTES TO FINANCIAL STATEMENTS (continued)
 YEAR ENDED DEC. 31, 2008**

NOTE 7. INFORMATION REGARDING TAX STATUS

On Oct. 17, 2003, the IRS issued Monsanto a favorable determination letter stating that the Plan as then designed, was qualified for federal income tax purposes in compliance with section 401(a) of the Internal Revenue Code (IRC). As required by the IRS procedures, on Jan. 9, 2008, Monsanto filed an application for a new determination letter for the amended and restated Plan. That application is still pending review by the IRS. The Company believes that the Plan is currently designed in compliance with the applicable requirements of the IRC, and the Plan administrator believes that the Plan is being operated in accordance with its terms. Therefore, no provision for income taxes has been included in the Plan s financial statements.

NOTE 8. PRIORITIES UPON TERMINATION OF THE PLAN

If the Plan is terminated, all participants account balances will be fully vested, and all participants would then be entitled to a full distribution of their account balances in accordance with ERISA and the Internal Revenue Code as more fully described and set forth in the Plan document.

NOTE 9. PARTY-IN-INTEREST INVESTMENTS AND TRANSACTIONS

The Company is not aware of any nonexempt prohibited transactions with parties-in-interest during the period from Jan. 1, 2008, to Dec. 31, 2008. As of Dec. 31, 2008, and 2007, the Plan holds \$939 million and \$1,509 million, respectively, of common stock of Monsanto Company, the sponsoring employer.

Monsanto Company is the holder of the Plan s ESOP debt.

Certain Plan investments are units of Collective Investment Funds managed by Northern specifically for employee benefit trusts. Northern is also the Plan trustee as defined by the Plan and, therefore, these Collective Investment Funds qualify as exempt party-in-interest investments. Fees for Northern s investment management services are paid by the Plan as described in Note 2.

NOTE 10. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of fully benefit-responsive investment contracts stated at fair value per the financial statements to the fully benefit-responsive investment contracts stated at contract value on the Form 5500 as of Dec. 31, 2008, and 2007.

(Dollars in thousands)	As of Dec. 31,	
	2008	2007
Net assets available for benefits:		
Investments, at fair value per financial statements	\$2,240,338	\$3,176,296
Adjustment from fair value to contract value for fully benefit-responsive investment contracts	10,079	(7,348)
Collateral held under securities lending agreements	(104,905)	(170,011)
Securities lending adjustment included within collateral and investments in the financial statements	(2,253)	
Total investments per Form 5500 Schedule of Assets (Held at End of Year)	\$2,143,259	\$2,998,937
