Risk factors

An investment in the notes involves risk. Prior to making a decision about investing in our securities, and in consultation with your own financial and legal advisors, you should carefully consider the following risk factors, as well as the risk factors incorporated by reference in this prospectus supplement from our annual report on Form 10-K for the year ended December 31, 2008 under the heading "Risk Factors" and other filings we may make from time to time with the SEC. You should also refer to the other information in this prospectus supplement and the accompanying prospectus, including our financial statements and the related notes incorporated by reference in this prospectus supplement. Additional risks and uncertainties that are not yet identified may also materially harm our business, operating results and financial condition and could result in a complete loss of your investment.

The notes are effectively subordinated to the liabilities of our subsidiaries and to our secured debt to the extent of the assets securing any such secured debt. We may not have sufficient funds to fulfill our obligations under the notes.

The notes are our unsecured general obligations, ranking equally with our other senior unsecured indebtedness. Our subsidiaries are separate and distinct legal entities. Our subsidiaries have no obligation to pay any amounts due on the notes. In addition, any payment of dividends, loans, or advances by our subsidiaries could be subject to statutory or contractual restrictions. Our right to receive any assets of any of our subsidiaries upon its bankruptcy, liquidation or reorganization, and therefore the right of the holders of the notes to participate in those assets, will be effectively subordinated to the claims of that subsidiary's creditors, including trade creditors. In addition, even if we are a creditor of any of our subsidiaries, our rights as a creditor would be subordinate to any security interest in the assets of our subsidiaries and any debt of our subsidiaries senior to that held by us.

The notes are not secured by any of our assets. If we become insolvent or are liquidated, or if payment under any of the agreements governing any secured debt we may incur in the future is accelerated, the lenders under such secured debt agreements would be entitled to exercise the remedies available to a secured lender under applicable law and pursuant to agreements governing that debt. Accordingly, those lenders would have a prior claim on our assets to the extent of their liens thereon. In that event, because the notes are not secured by any of our assets, it is possible that there would be no assets remaining from which claims of the holders of notes could be satisfied or, if any assets remain, the remaining assets might be insufficient to satisfy those claims in full.

If we incur any additional obligations that rank equally with the notes, including trade payables, the holders of those obligations will be entitled to share ratably with the holders of the notes in any proceeds distributed upon our insolvency, liquidation, reorganization, dissolution or other winding up. This may have the effect of reducing the amount of proceeds paid to you. If there are not sufficient assets remaining to pay all these creditors, all or a portion of the notes then outstanding would remain unpaid.

We may not have the funds necessary to finance the change of control repurchase offer required by the indenture.

Upon the occurrence of a change of control triggering event (as defined under the caption "Description of notes Change of control triggering event"), we will be required to make an offer to repurchase all outstanding notes. We cannot assure you that we will have sufficient funds available to make any required repurchases of the notes. Any failure to repurchase any tendered notes in those circumstances would constitute a default under the indenture. A

Table of Contents

default could result in the declaration of the principal and interest on all the notes to be due and payable.

The terms of the indenture and the notes provide only limited protection against significant corporate events that could adversely impact your investment in the notes.

While the indenture and the notes contain terms intended to provide protection to holders of notes upon the occurrence of certain events involving significant corporate transactions and our creditworthiness, such terms are limited and may not be sufficient to protect your investment in the notes.

The definition of the term "change of control triggering event" does not cover a variety of transactions (such as acquisitions by us or recapitalizations) that could negatively affect the value of your notes. If we were to enter into a significant corporate transaction that would negatively affect the value of the notes but would not constitute a "change of control triggering event," we would not be required to offer to repurchase your notes prior to their maturity.

The indenture does not limit the amount of debt that we may incur.

The indenture under which the notes will be issued does not limit the amount of debt that we may incur. The indenture does not contain any financial covenants or other provisions that would afford the holders of the notes any substantial protection in the event we participate in a highly leveraged transaction.

Our existing and future debt may limit cash flow available to invest in the ongoing needs of our business, which could prevent us from fulfilling our obligations under the notes.

After giving effect to this notes offering and the repayment of a portion of our short-term borrowings, our total indebtedness at September 30, 2009 would have been approximately \$ million. Additionally, we have the ability under our existing credit facilities to incur substantial additional debt in the future. Our level of indebtedness could have important consequences to you. For example, it could:

- require us to dedicate a substantial portion of our cash flow from operations to the payment of debt service, reducing the availability of our cash flow to fund working capital, capital expenditures, acquisitions and other general corporate purposes;

- increase our vulnerability to adverse economic or industry conditions;

- limit our ability to obtain additional financing in the future to enable us to react to changes in our business; or

- place us at a competitive disadvantage compared to businesses in our industry that have less debt.

Additionally, any failure to comply with covenants in the instruments governing our debt could result in an event of default which, if not cured or waived, would have a material adverse effect on us.

To service our debt, we will require a significant amount of cash. Our ability to generate cash depends on many factors beyond our control. We also depend on the business of our subsidiaries to satisfy our cash needs. If we cannot generate the required cash, we may not be able to make the necessary payments under the notes.

Our ability to make payments on our debt, including the notes, and to fund planned capital expenditures will depend on our ability to generate cash in the future. Our ability to generate

Table of Contents

cash, to a certain extent, is subject to general economic, financial, competitive, legislative, regulatory and other factors that are beyond our control.

A significant portion of our operations are conducted through our subsidiaries. As a result, our ability to service our debt, including our obligations under the notes and other obligations, is dependent to some extent on the earnings of our subsidiaries and the payment of those earnings to us in the form of dividends, loans or advances and through repayment of loans or advances from us. Our subsidiaries are separate and distinct legal entities. Our subsidiaries have no obligation to pay any amounts due on the notes or to provide us with funds to meet our payment obligations on the notes, whether in the form of dividends, distributions, loans or other payments. In addition, any payment of dividends, loans or advances by our subsidiaries could be subject to statutory or contractual restrictions. Payments to us by our subsidiaries will also be contingent upon our subsidiaries' earnings and business considerations. Our right to receive any assets of any of our subsidiaries upon their liquidation or reorganization, and therefore the right of the holders of the notes to participate in those assets, will be effectively subordinated to the claims of that subsidiary's creditors, including trade creditors. In addition, even if we are a creditor of any of our subsidiaries, our rights as a creditor would be subordinate to any security interest in the assets of our subsidiaries and any indebtedness of our subsidiaries senior to that held by us. Finally, changes in the laws of foreign jurisdictions in which we operate may adversely affect the ability of some of our foreign subsidiaries to repatriate funds to us.

Additionally, our historical financial results have been, and we anticipate that our future financial results will be, subject to fluctuations. We cannot assure you that our business will generate sufficient cash flow from our operations or that future borrowings will be available to us in an amount sufficient to enable us to pay our indebtedness, including the notes, or to fund our other liquidity needs and make necessary capital expenditures.

An active trading market for the notes may not develop.

There is no existing market for the notes and we do not intend to apply for listing of the notes on any securities exchange or any automated quotation system. Accordingly, there can be no assurance that a trading market for the notes will ever develop or will be maintained. Further, there can be no assurance as to the liquidity of any market that may develop for the notes, your ability to sell your notes or the price at which you will be able to sell your notes. Future trading prices of the notes will depend on many factors, including prevailing interest rates, our financial condition and results of operations, the then-current ratings assigned to the notes and the market for similar securities. Any trading market that develops would be affected by many factors independent of and in addition to the foregoing, including:

- the time remaining to the maturity of the notes;
- the outstanding amount of the notes;
- the terms related to optional redemption of the notes; and
- the level, direction and volatility of market interest rates generally.

Description of notes

The following description of the particular terms of the notes offered hereby supplements the description of the general terms and provisions of debt securities under the heading "Description of Debt Securities" in the accompanying prospectus.

The notes are to be issued under an indenture, dated as of February 1, 1996, between us and The Bank of New York Mellon (as successor to Chemical Bank), as trustee (the "Trustee"), as supplemented by a supplemental indenture to be dated as of December , 2009 (such indenture as supplemented by such supplemental indenture, the "Indenture"). The terms of the notes include those stated in the Indenture and those made part of the Indenture by reference to the Trust Indenture Act of 1939, as amended (the "Trust Indenture Act").

The following summary of certain provisions of the Indenture is not complete and is qualified in its entirety by reference to the Indenture. We urge you to read the Indenture and the notes because they, and not this description, define your rights as holders of these notes. You may request copies of these agreements at our address set forth in the section entitled "Incorporation of Certain Information by Reference."

The definitions of certain capitalized terms used in the following summary are set forth below. As used in this "Description of Notes," the terms "the Company," "we," "our," "us" and other similar references refer only to The Sherwin-Williams Company and not to any of its subsidiaries.

General

The notes initially will be limited to \$ aggregate principal amount and will mature and become due and payable, together with any accrued and unpaid interest thereon, on , .

The notes will bear interest at the annual rate set forth on the cover page of this prospectus supplement. Interest will be payable semiannually in arrears on and of each year, beginning , 2010. Interest on the notes will be paid to holders of record at the close of business on the or , whether or not a business day (as defined below), immediately before the applicable interest payment date. The amount of interest payable on the notes will be computed on the basis of a 360-day year consisting of twelve 30-day months.

The notes will be issued only in fully registered form, without coupons, in denominations of \$2,000 and any integral multiple of \$1,000 in excess thereof.

If any interest payment date, redemption date or maturity date of the notes is not a business day, then the related payment of interest or principal payable, as applicable, on such date will be paid on the next succeeding business day with the same force and effect as if made on such interest payment date, redemption date or maturity date and no further interest will accrue as a result of such delay. The term "business day" means with respect to any place where the principal of, and premium, if any, and interest on, the notes are payable, any day that is not a Saturday, a Sunday or a legal holiday or a day on which banking institutions or trust companies in such location are authorized or obligated by law to close.

Table of Contents

Ranking

The notes will be our senior unsecured obligations and will rank equally with our other existing and future senior unsecured obligations.

The notes will be effectively subordinated to any secured obligations of ours to the extent of the value of the assets securing such obligations. Although the Indenture limits the amount of secured debt that we or certain of our subsidiaries may incur, this limitation is subject to important exceptions. See **Description of Debt Securities** **Certain Covenants of the Company** **Limitation on Liens** in the accompanying prospectus.

We conduct many of our operations through subsidiaries, which generate a significant portion of our operating income and cash. As a result, distributions from our subsidiaries are a source of funds necessary to meet our debt service and other obligations. Contractual provisions, laws or regulations, as well as any subsidiary's financial condition and operating requirements, may limit our ability to obtain cash required to service our debt obligations, including making payments on the notes.

The notes will be subordinated structurally to all existing and future obligations of our subsidiaries, including claims with respect to trade payables. The Indenture does not limit the amount of debt that we or our subsidiaries are permitted to incur.

Further issuances

We may, from time to time, without notice to or consent of the holders of the notes, increase the principal amount of the notes that may be issued under the Indenture and issue such increased principal amount (or any portion thereof), in which case any additional notes so issued will have the same terms (other than the date of issuance and, under certain circumstances, the initial interest payment date, the date from which interest thereon will begin to accrue and the issue price), and will carry the same right to receive accrued and unpaid interest, as the notes previously issued, and such additional notes will form a single series with the notes, including for purposes of voting, redemptions and offers to purchase and will rank equally and ratably with the notes offered hereby.

Optional redemption

At any time and from time to time, the notes are redeemable, in whole or in part, at our option, at a redemption price equal to the greater of:

100% of the principal amount of the notes to be redeemed; and

as determined by the Quotation Agent (as defined below), the sum of the present values of the remaining scheduled payments of interest and principal thereon (exclusive of interest accrued and unpaid to, but not including, the date of redemption) discounted to the date of redemption on a semiannual basis, assuming a 360-day year consisting of twelve 30-day months, at the Treasury Rate (as defined below) plus basis points,

plus, in either case, accrued and unpaid interest to, but not including, the date of redemption.

Table of Contents

For purposes of determining the redemption price, the following definitions will apply:

Comparable Treasury Issue means the United States Treasury security or securities selected by a Quotation Agent as having an actual or interpolated maturity comparable to the remaining term of the notes to be redeemed that would be utilized, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities of a comparable maturity to the remaining term of such notes.

Comparable Treasury Price means, with respect to any redemption date, (A) the arithmetic average of the Reference Treasury Dealer Quotations for such redemption date, after excluding the highest and lowest such Reference Treasury Dealer Quotations, or (B) if the Quotation Agent obtains fewer than four such Reference Treasury Dealer Quotations, the arithmetic average of all such quotations for such redemption date.

Primary Treasury Dealer means a primary U.S. Government securities dealer in The City of New York.

Quotation Agent means one of the Reference Treasury Dealers appointed by us; *provided, however*, that if such Reference Treasury Dealer ceases to be a Primary Treasury Dealer, we will substitute another Primary Treasury Dealer.

Reference Treasury Dealer means any of Citigroup Global Markets Inc. and J.P. Morgan Securities Inc. or their respective affiliates that are Primary Treasury Dealers, and their respective successors plus two other Primary Treasury Dealers selected by us; *provided, however*, that if any of the foregoing or their affiliates shall cease to be a Primary Treasury Dealer, we will substitute therefor another Primary Treasury Dealer.

Reference Treasury Dealer Quotations means, with respect to each Reference Treasury Dealer and any redemption date, the arithmetic average, as determined by the Quotation Agent, of the bid and asked prices for the Comparable Treasury Issue (expressed in each case as a percentage of its principal amount) quoted in writing to the Quotation Agent by such Reference Treasury Dealer at 3:30 p.m. New York City time on the third business day preceding such redemption date.

Treasury Rate means, with respect to any redemption date, the rate per annum equal to the semiannual equivalent yield to maturity or interpolated (on a day count basis) of the Comparable Treasury Issue, assuming a price for the Comparable Treasury Issue (expressed as a percentage of its principal amount) equal to the Comparable Treasury Price for such redemption date.

On and after the redemption date for the notes, interest will cease to accrue on the notes or any portion thereof called for redemption, unless we default in the payment of the redemption price. On or prior to the redemption date for the notes, we will deposit with the trustee or a paying agent (or, if we are acting as our own paying agent, segregate and hold in trust), funds sufficient to pay the redemption price of and accrued and unpaid interest on such notes to be redeemed on such date. If less than all of the notes are to be redeemed, and the notes are global notes held by DTC, DTC will select the notes to be redeemed in accordance with its operational arrangements. If the notes are not global notes held by DTC, the trustee shall select the notes or portions thereof (in denominations of \$2,000 and integral multiples of \$1,000 in excess thereof) to be redeemed by lot or by such other method as the trustee considers fair and appropriate.

Table of Contents

Notice of any redemption will be mailed at least 30 days but not more than 60 days before the redemption date to each holder of the notes to be redeemed. Once notice of redemption is mailed, the notes called for redemption will become due and payable on the redemption date and at the applicable redemption price, plus accrued and unpaid interest to, but not including, the redemption date.

Change of control triggering event

If a change of control triggering event (as defined below) occurs with respect to the notes, unless we have exercised our option to redeem the notes as described above by giving notice of such redemption to the holders thereof, we will be required to make an offer (the "change of control offer") to each holder to repurchase all or any part (equal to \$2,000 or any integral multiple of \$1,000 in excess thereof) of that holder's notes on the terms set forth in such notes. In the change of control offer, we will be required to offer payment in cash equal to 101% of the aggregate principal amount of notes repurchased, plus accrued and unpaid interest, if any, on the notes repurchased up to, but not including, the date of repurchase (the "change of control payment"). Within 30 days following any change of control triggering event or, at our option, prior to any change of control, but after public announcement of the transaction that constitutes or may constitute the change of control, a notice will be mailed to holders of the notes describing the transaction that constitutes or may constitute the change of control triggering event and offering to repurchase the notes on the date specified in the notice, which date will be no earlier than 30 days and no later than 60 days from the date such notice is mailed or, if the notice is mailed prior to the change of control, no earlier than 30 days and no later than 60 days from the date on which the change of control triggering event occurs (the "change of control payment date"). The notice will, if mailed prior to the date of consummation of the change of control, state that the offer to purchase is conditioned on the change of control triggering event occurring on or prior to the change of control payment date.

On the change of control payment date, we will, to the extent lawful:

accept for payment all notes or portions of notes properly tendered pursuant to the change of control offer;

deposit with the paying agent (or, if we are acting as our own paying agent, segregate and hold in trust) an amount equal to the change of control payment in respect of all notes or portions of notes properly tendered; and

deliver or cause to be delivered to the trustee the notes properly accepted together with an officers' certificate stating the aggregate principal amount of notes or portions of notes being repurchased.

We will publicly announce the results of the change of control offer on or as soon as possible after the date of purchase.

Except as described above, the Indenture does not contain provisions that permit holders to require us to purchase or redeem the notes in the event of a takeover, recapitalization or similar transaction.

Our ability to pay cash to the holders of notes following the occurrence of a change of control triggering event may be limited by our then-existing financial resources. Therefore, sufficient funds may not be available when necessary to make any required repurchases.

Table of Contents

The definition of change of control includes a phrase relating to the direct or indirect sale, lease, transfer, conveyance or other disposition of all or substantially all of our and our subsidiaries' assets taken as a whole. Although there is a limited body of case law interpreting the phrase substantially all, there is no precise established definition of the phrase under applicable law. Accordingly, the ability of a holder of notes to require us to repurchase such holder's notes as a result of a sale, lease, transfer, conveyance or other disposition of less than all of our and our subsidiaries' assets taken as a whole to another person or group may be uncertain.

We will not be required to make a change of control offer upon the occurrence of a change of control triggering event if a third party makes such an offer in the manner, at the time and otherwise in compliance with the requirements for an offer made by us and the third party purchases all notes properly tendered and not withdrawn under its offer. In addition, we will not repurchase any notes if there has occurred and is continuing on the change of control payment date an event of default under the Indenture, other than a default in the payment of the change of control payment upon a change of control triggering event.

We will comply in all material respects with the requirements of Rule 14e-1 under the Exchange Act and any other securities laws and regulations thereunder to the extent those laws and regulations are applicable in connection with the repurchase of the notes as a result of a change of control triggering event. To the extent that the provisions of any such securities laws or regulations conflict with the change of control offer provisions of the notes, we will comply with those securities laws and regulations and will not be deemed to have breached our obligations under the change of control offer provisions of the notes by virtue of any such conflict.

For purposes of the change of control offer provisions of the notes, the following terms will be applicable:

Change of control means the occurrence of any of the following:

the consummation of any transaction (including, without limitation, any merger or consolidation) the result of which is that any person (as that term is used in Section 13(d) of the Exchange Act) (other than us or one of our subsidiaries) becomes the beneficial owner (as defined in Rules 13d-3 and 13d-5 under the Exchange Act), directly or indirectly, of more than 50% of our voting stock (as defined below) or other voting stock into which our voting stock is reclassified, consolidated, exchanged or changed, measured by voting power rather than number of shares;

the direct or indirect sale, transfer, conveyance or other disposition (other than by way of merger or consolidation), in one or a series of related transactions, of all or substantially all of our assets and the assets of our subsidiaries, taken as a whole, to one or more persons (as that term is used in Section 13(d)(3) of the Exchange Act) (other than to us or one of our subsidiaries);

we consolidate with, or merge with or into, any person (as that term is used in Section 13(d) of the Exchange Act) or any such person consolidates with, or merges with or into, us, in either case, pursuant to a transaction in which any of our outstanding voting stock or the voting stock of such other person is converted into or exchanged for cash, securities or other property, other than pursuant to a transaction in which shares of our voting stock outstanding immediately prior to the transaction constitute, or are converted into or

Table of Contents

exchanged for, a majority of the voting stock of the surviving person immediately after giving effect to such transaction;

the adoption of a plan relating to our liquidation or dissolution; or

the first day on which a majority of the members of our board of directors are not continuing directors (as defined below).

Notwithstanding the foregoing, a transaction will not be deemed to involve a change of control if (i) we become a direct or indirect wholly-owned subsidiary of a holding company and (ii) the direct or indirect holders of the voting stock of such holding company immediately following that transaction are substantially the same as the holders of our voting stock immediately prior to that transaction.

Change of control triggering event means the occurrence of both (1) a change of control and (2) a rating event (as defined below).

Continuing director means, as of any date of determination, any member of our board of directors who (1) was a member of such board of directors on the date the notes were issued, (2) was nominated for election to such board of directors with the approval of a committee of the board of directors consisting of a majority of independent continuing directors or (3) was nominated for election, elected or appointed to such board of directors with the approval of a majority of the continuing directors who were members of such board of directors at the time of such nomination, election or appointment (either by a specific vote or by approval of our proxy statement in which such member was named as a nominee for election as a director, without objection to such nomination).

Investment grade rating means a rating equal to or higher than Baa3 (or the equivalent) by Moody's and BBB- (or the equivalent) by S&P, or, if applicable, the equivalent investment grade credit rating from any substitute rating agency selected by us.

Moody's means Moody's Investors Service, Inc., or any successor thereto.

Rating agencies means (1) each of Moody's and S&P and (2) if any of Moody's and S&P ceases to rate the notes or fails to make a rating of the notes publicly available for reasons outside of our control, a substitute rating agency (as defined below) in lieu thereof.

Rating event means the rating on the notes is lowered by each of the rating agencies and the notes are rated below an investment grade rating by each of the rating agencies on any day during the period commencing on the earlier of (i) the occurrence of the change of control and (ii) the first public announcement by us of any change of control and ending 60 days following consummation of such change of control (which period will be extended so long as the rating of the notes is under publicly announced consideration for a possible downgrade by any of the rating agencies); provided that a rating event will not be deemed to have occurred in respect of a particular change of control (and thus will not be deemed a rating event for purposes of the definition of change of control triggering event) if each rating agency making the reduction in rating does not publicly announce or confirm or inform the trustee in writing at our request that the reduction was the result, in whole or in part, of any event or circumstance comprised of or arising as a result of, or in respect of, the change of control (whether or not the applicable change of control has occurred at the time of the rating event).

S&P means Standard & Poor's Rating Services, a division of The McGraw-Hill Companies, Inc. or any successor thereto.

Table of Contents

Substitute rating agency means a nationally recognized statistical rating organization within the meaning of Rule 15c3-1(c)(2)(vi)(F) under the Exchange Act selected by us (as certified by a resolution of our board of directors).

Voting stock means, with respect to any specified person (as that term is used in Section 13(d) of the Exchange Act) as of any date, the capital stock of such person that is at the time entitled to vote generally in the election of the board of directors of such person.

Our credit agreements provide, and future credit agreements or other agreements relating to any debt to which we become a party may provide, that certain events relating to a change in the control of the Company would constitute a default thereunder, either directly or as a result of a breach of a covenant. If we experience such a change of control event that triggers a default under our credit agreements or such other agreements, we could seek a waiver of such default or seek to refinance our credit agreements or the indebtedness under such other agreements. In the event we do not obtain such a waiver or refinance our credit agreements or the indebtedness under such other agreements, such default could result in amounts outstanding under our credit agreements or such other agreements being declared due and payable, which could have a material adverse effect on us.

Concerning the Trustee

The Trustee will be The Bank of New York Mellon (as successor to Chemical Bank). The Bank of New York Mellon also will be the initial paying agent and registrar for the notes and their place of payment will be The Bank of New York Mellon, 101 Barclay Street, New York, New York 10286. The Trustee and its affiliates have engaged, currently are engaged, and may in the future engage in financial or other transactions with us and our affiliates in the ordinary course of our respective businesses, subject to the Trust Indenture Act.

The Indenture provides that, except during the continuance of an event of default under the Indenture, the Trustee will perform only such duties as are specifically set forth in the Indenture and no implied covenants or obligations will be read into the Indenture against the Trustee. Under the Indenture, the holders of a majority in outstanding principal amount of the notes will have the right to direct the time, method and place of conducting any proceeding or exercising any remedy available to the Trustee, subject to certain exceptions. If an event of default has occurred and is continuing, the Trustee will exercise such rights and powers vested in it under the Indenture and is obligated to use the same degree of care and skill in its exercise as a prudent person would exercise under the circumstances in the conduct of such person's own affairs.

The Indenture and provisions of the Trust Indenture Act incorporated by reference in the Indenture contain limitations on the rights of the Trustee, should it become a creditor of our company under certain circumstances, to obtain payment of claims in certain cases or to realize on certain property received by it in respect of any such claims, as security or otherwise. The Trustee is permitted to engage in other transactions. However, if the Trustee acquires any prohibited conflicting interest, it must eliminate the conflict or resign.

The Trustee may resign or be removed and a successor trustee may be appointed.

Governing law

The Indenture and the notes shall be deemed to be New York contracts, and for all purposes shall be construed in accordance with the laws of the State of New York (without reference to principles of conflicts of law).

Global notes: Book-entry system

Certain book-entry procedures for the global notes

All interests in the global notes will be subject to the operations and procedures of The Depository Trust Company (DTC), Euroclear Bank S.A./N.V., as operator of the Euroclear System (Euroclear), and Clearstream Banking, *société anonyme* (Clearstream). The descriptions of the operations and procedures of DTC, Euroclear and Clearstream set forth below are provided solely as a matter of convenience. These operations and procedures are solely within the control of the respective settlement systems and are subject to change by them from time to time. We obtained the information in this section and elsewhere in this prospectus supplement concerning DTC, Euroclear and Clearstream and their respective book-entry systems from sources that we believe are reliable, but neither we nor the underwriters take any responsibility for the accuracy of any of this information, and investors are urged to contact the relevant system or its participants directly to discuss these matters.

Table of Contents

DTC. DTC has advised us that it is:

- a limited-purpose trust company organized under the laws of the State of New York;
- a banking organization within the meaning of the New York Banking Law;
- a member of the Federal Reserve System;
- a clearing corporation within the meaning of the New York Uniform Commercial Code, as amended; and
- a clearing agency registered pursuant to Section 17A of the Exchange Act.

DTC holds securities for its participants (DTC Participants), and to facilitate the clearance and settlement of securities transactions in deposited securities among DTC Participants through electronic book-entry changes to the accounts of DTC Participants, thereby eliminating the need for physical transfer and delivery of certificates. DTC Participants include securities brokers and dealers (including some or all of the underwriters), banks and trust companies, clearing corporations and certain other organizations. Indirect access to DTC's system also is available to other entities such as Clearstream, Euroclear, banks, brokers, dealers and trust companies (collectively, the Indirect Participants) that clear through or maintain a custodial relationship with a direct DTC Participant, either directly or indirectly. Investors who are not participants may beneficially own securities held by or on behalf of DTC only through direct DTC Participants or Indirect Participants in DTC.

Clearstream. Clearstream has advised us that it is a limited liability company organized under Luxembourg law. Clearstream holds securities for its participating organizations (Clearstream Participants), and facilitates the clearance and settlement of securities transactions between Clearstream Participants through electronic book-entry changes in accounts of Clearstream Participants, thereby eliminating the need for physical movement of certificates.

Clearstream provides Clearstream Participants with, among other things, services for safekeeping, administration, clearance and establishment of internationally traded securities and securities lending and borrowing. Clearstream interfaces with domestic markets in several countries. Clearstream is registered as a bank in Luxembourg and as such is subject to regulation by the *Commission de Surveillance du Secteur Financier*. Clearstream Participants are recognized financial institutions around the world, including underwriters, securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations, and may include the underwriters. Indirect access to Clearstream also is available to other institutions that clear through or maintain a custodial relationship with a Clearstream Participant, either directly or indirectly.

Distributions with respect to notes held beneficially through Clearstream will be credited to cash accounts of Clearstream Participants in accordance with its rules and procedures to the extent received by the U.S. depository for Clearstream.

Euroclear. Euroclear advised us that it was created in 1968 to hold securities for participants of Euroclear (Euroclear Participants), and to clear and settle transactions between Euroclear Participants through simultaneous electronic book-entry delivery against payment, thereby eliminating the need for physical movement of certificates and any risk from lack of simultaneous transfers of securities and cash. Euroclear provides various other services, including securities lending and borrowing and interfaces with domestic markets in several countries. Euroclear is operated by Euroclear Bank S.A./N.V. (the Euroclear Operator), under contract

Table of Contents

with Euroclear Clearance Systems S.C., a Belgian cooperative corporation (the Cooperative). All operations are conducted by the Euroclear Operator, and all Euroclear securities clearance accounts and Euroclear cash accounts are accounts with the Euroclear Operator, not the Cooperative. The Cooperative establishes policy for Euroclear on behalf of Euroclear Participants. Euroclear Participants include banks (including central banks), securities brokers and dealers and other professional financial intermediaries and may include the underwriters. Indirect access to Euroclear is also available to other firms that clear through or maintain a custodial relationship with a Euroclear Participant, either directly or indirectly.

The Euroclear Operator is regulated and examined by the Belgian Banking and Finance Commission. Securities clearance accounts and cash accounts with the Euroclear Operator are governed by the Terms and Conditions Governing Use of Euroclear and the related Operating Procedures of the Euroclear System, and applicable Belgian law. These Terms and Conditions govern transfer of securities and cash within Euroclear, withdrawals of securities and cash from Euroclear, and receipts of payments with respect to securities in Euroclear. All securities in Euroclear are held on a fungible basis without attribution of specific certificates to specific securities clearance accounts. The Euroclear Operator acts under the Terms and Conditions only on behalf of the Euroclear Participants, and has no record of or relationship with persons holding through Euroclear Participants. Distributions of principal and interest with respect to notes held through Euroclear will be credited to the cash accounts of Euroclear Participants in accordance with the relevant system's rules and procedures, to the extent received by the U.S. depository for Euroclear.

Links have been established among DTC, Clearstream and Euroclear to facilitate the initial issuance of the notes and cross-market transfers of the notes associated with secondary market trading. DTC will be linked indirectly to Clearstream and Euroclear through the DTC accounts of their respective U.S. depositories.

Book-entry procedures. We expect that, pursuant to procedures established by DTC:

upon deposit of each global note, DTC will credit, on its book-entry registration and transfer system, the accounts of direct DTC Participants designated by the underwriters with an interest in that global note; and

ownership of beneficial interests in the global notes will be shown on, and the transfer of ownership interests in the global notes will be effected only through, records maintained by DTC (with respect to the interests of DTC Participants) and by DTC Participants and Indirect Participants (with respect to the interests of Persons other than DTC Participants).

The laws of some jurisdictions may require that some purchasers of notes take physical delivery of those notes in definitive form. Accordingly, the ability to transfer beneficial interests in notes represented by a global note to those persons may be limited. In addition, because DTC can act only on behalf of DTC Participants, who in turn act on behalf of persons who hold interests through such DTC Participants, the ability of a person holding a beneficial interest in a global note to pledge or transfer that interest to persons or entities that do not participate in DTC's system, or to otherwise take actions in respect of that interest, may be affected by the lack of a physical note in respect of that interest.

So long as DTC or its nominee is the registered owner of a global note, DTC or that nominee, as the case may be, will be considered the sole legal owner or holder of the notes represented by that global note for all purposes of the notes and the Indenture. Except as provided below,

Table of Contents

owners of beneficial interests in a global note (1) will not be entitled to have the notes represented by that global note registered in their names, (2) will not receive or be entitled to receive physical delivery of certificated notes, and (3) will not be considered the owners or holders of the notes represented by that beneficial interest under the Indenture for any purpose, including with respect to the giving of any direction, instruction or approval to the trustee.

Accordingly, each holder owning a beneficial interest in a global note must rely on the procedures of DTC and, if that holder is not a DTC Participant or an Indirect Participant, on the procedures of the participant through which that holder owns its interest, to exercise any rights of a holder of notes under the Indenture or that global note. We understand that under existing industry practice, in the event that we request any action of holders of notes, or a holder that is an owner of a beneficial interest in a global note desires to take any action that DTC, as the holder of that global note, is entitled to take, DTC would authorize the participants to take that action and the participants would authorize holders owning through those participants to take that action or would otherwise act upon the instruction of those holders. Neither we nor the trustee will have any responsibility or liability for any aspect of the records relating to nor payments made on account of notes by DTC, or for maintaining, supervising or reviewing any records of DTC relating to the notes.

Beneficial interests in the global notes may not be exchanged for certificated notes. However, if DTC notifies us that it is unwilling or unable to be a depository for the global notes or ceases to be a clearing agency or if we so elect (subject to DTC's procedures) or if there is an event of default under the notes, DTC will exchange the global notes for certificated notes that it will distribute to its participants.

Payments with respect to the principal of and interest on a global note will be payable by the trustee to or at the direction of DTC or its nominee in its capacity as the registered holder of the global note under the Indenture. Under the terms of the Indenture, we and the trustee may treat the persons in whose names the notes, including the global notes, are registered as the owners thereof for the purpose of receiving payment thereon and for any and all other purposes whatsoever. Accordingly, neither we nor the trustee has or will have any responsibility or liability for the payment of those amounts to owners of beneficial interests in a global note. Payments by the DTC Participants and the Indirect Participants to the owners of beneficial interests in a global note will be governed by standing instructions and customary industry practice and will be the responsibility of the DTC Participants and Indirect Participants and not of DTC.

Secondary market trading between DTC Participants will be effected in accordance with DTC's procedures, and will be settled in same-day funds. Secondary market trading between Euroclear Participants or Clearstream Participants will be effected in the ordinary way in accordance with their respective rules and operating procedures.

Cross-market transfers between the persons holding directly or indirectly through DTC, on the one hand, and persons holding directly or indirectly through Euroclear or Clearstream, on the other hand, will be effected through DTC in accordance with DTC's rules on behalf of Euroclear or Clearstream, as the case may be, by its respective depository. However, those cross-market transactions will require delivery of instructions to Euroclear or Clearstream, as the case may be, by the counterparty in that system in accordance with the rules and procedures and within the established deadlines (Brussels time) of that system. Euroclear or Clearstream, as the case may be, will, if the transaction meets its settlement requirements, deliver instructions to its respective U.S. depository to take action to effect final settlement on its behalf by delivering or receiving

interests in the relevant global notes in DTC, and making or receiving payment in accordance with normal procedures for same-day funds settlement applicable to DTC. Euroclear Participants and Clearstream Participants may not deliver instructions directly to the depositaries for Euroclear or Clearstream.

Although we understand that DTC, Euroclear and Clearstream have agreed to the foregoing procedures to facilitate transfers of interests in the global notes among participants in DTC, Euroclear and Clearstream, they are under no obligation to perform or to continue to perform those procedures, and those procedures may be discontinued at any time. Neither we nor the trustee will have any responsibility for the performance by DTC, Euroclear or Clearstream or their respective participants or Indirect Participants of their respective obligations under the rules and procedures governing their operations.

Same-day settlement and payment

We will make payments in respect of the notes represented by the global notes (including principal and interest) by wire transfer of immediately available funds to the accounts specified by the global note holder. We will make all payments of principal and interest with respect to certificated notes, if any, by wire transfer of immediately available funds to the accounts specified by the holders of the certificated notes or, if no such account is specified, by mailing a check to each such holder's registered address.

Because of time zone differences, the securities account of a Euroclear Participant or Clearstream Participant purchasing an interest in a global note from a DTC Participant will be credited, and any such crediting will be reported to the relevant Euroclear Participant or Clearstream Participant, during the securities settlement processing day (which must be a business day for Euroclear and Clearstream) immediately following the settlement date of DTC. DTC has advised us that cash received in Euroclear or Clearstream as a result of sales of interests in a global note by or through a Euroclear Participant or Clearstream Participant to a DTC Participant will be received with value on the settlement date of DTC but will be available in the relevant Euroclear or Clearstream cash account only as of the business day for Euroclear or Clearstream following DTC's settlement date.

None of the Company, any underwriter or agent, the trustee or any applicable paying agent will have any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial interests in a global note, or for maintaining, supervising or reviewing any records.

Material U.S. federal income tax considerations

The following is a summary of the material United States federal income and estate tax considerations relating to the ownership and disposition of the notes. It is not a complete analysis of all the potential tax considerations relating to the notes. This summary is based upon the provisions of the Internal Revenue Code of 1986, as amended, or the Code, the Treasury regulations promulgated under the Code, and currently effective administrative rulings and judicial decisions, all relating to the United States federal income tax treatment of debt instruments. These authorities may be changed, perhaps with retroactive effect, so as to result in United States federal income tax consequences different from those set forth below.

This summary assumes that you purchased your outstanding notes upon their initial issuance at their initial offering price and that you held your outstanding notes, and you will hold your notes, as capital assets for United States federal income tax purposes. This summary does not address the tax considerations arising under the laws of any foreign, state or local jurisdiction. In addition, this discussion does not address all tax considerations that may be applicable to holders particular circumstances or to holders that may be subject to special tax rules, such as, for example:

holders subject to the alternative minimum tax;

banks, insurance companies, or other financial institutions;

tax-exempt organizations;

dealers in securities or commodities;

expatriates;

traders in securities that elect to use a mark-to-market method of accounting for their securities holdings;

U.S. Holders (as defined below) whose functional currency is not the United States dollar;

persons that will hold the notes as a position in a hedging transaction, straddle, conversion transaction or other risk reduction transaction;

persons deemed to sell the notes under the constructive sale provisions of the Code; or

partnerships or other pass-through entities.

If a partnership holds notes, the tax treatment of a partner in the partnership will generally depend upon the status of the partner and the activities of the partnership. If you are a partner of a partnership that will hold notes, you should consult your tax advisor regarding the tax consequences of holding the notes to you.

This summary of material United States federal income tax considerations is for general information only and is not tax advice. You are urged to consult your tax advisor with respect to the application of United States federal income tax laws to your particular situation as well as any tax consequences arising under the United States federal estate or gift tax rules or under the laws of any state, local, foreign or other taxing jurisdiction or under any applicable tax treaty.

Table of Contents

Consequences to U.S. Holders

The following is a summary of the general United States federal income tax consequences that will apply to you if you are a U.S. Holder of the notes. Certain consequences to Non-U.S. Holders of the notes are described under

Consequences to Non-U.S. Holders, below. U.S. Holder means a beneficial owner of a note that is, for United States federal income tax purposes:

a citizen or resident of the United States;

a corporation (or other entity treated as a corporation for United States federal income tax purposes) created or organized in or under the laws of the United States or any political subdivision of the United States;

an estate the income of which is subject to United States federal income taxation regardless of its source; or

a trust that (1) is subject to the supervision of a court within the United States and the control of one or more U.S. persons or (2) has a valid election in effect under applicable Treasury regulations to be treated as a U.S. person.

Payments of interest

Stated interest on the notes will be taxable to you as ordinary income at the time it is paid or accrued in accordance with your method of accounting for United States federal income tax purposes.

Disposition of notes

Upon the sale, exchange, redemption or other taxable disposition of a note, you will recognize taxable gain or loss equal to the difference between the amount realized on such disposition (except to the extent any amount realized is attributable to accrued but unpaid interest, which is treated as interest as described above) and your adjusted tax basis in the note. A U.S. Holder's adjusted tax basis in a note generally will equal the cost of the note to such holder.

Gain or loss recognized on the disposition of a note generally will be capital gain or loss, and will be long-term capital gain or loss if, at the time of such disposition, the U.S. Holder's holding period for the note is more than 12 months. The deductibility of capital losses by U.S. Holders is subject to certain limitations.

Information reporting and backup withholding

In general, information reporting requirements will apply to certain payments of principal, premium (if any) and interest on and the proceeds of certain sales of notes unless you are an exempt recipient. Backup withholding (currently at a rate of 28%) will apply to such payments if you fail to provide your taxpayer identification number or certification of exempt status or have been notified by the Internal Revenue Service, or IRS, that payments to you are subject to backup withholding.

Any amounts withheld under the backup withholding rules will generally be allowed as a refund or a credit against your United States federal income tax liability provided that you furnish the required information to the IRS on a timely basis.

Table of Contents

Consequences to Non-U.S. Holders

Non-U.S. Holders

As used in this prospectus supplement, the term **Non-U.S. Holder** means a beneficial owner of a note that is not a U.S. Holder or a partnership for United States federal income tax purposes.

If a partnership, including any entity treated as a partnership for United States federal income tax purposes, is a holder of a note, the United States federal income tax treatment of a partner in such a partnership will generally depend on the status of the partner and the activities of the partnership. Partners in such a partnership should consult their tax advisors as to the particular United States federal income tax consequences applicable to them of acquiring, holding or disposing of the notes.

Under United States federal income and estate tax law, and subject to the discussion of backup withholding below, if you are a Non-U.S. Holder of a note:

The withholding agent generally will not be required to deduct United States withholding tax from payments of interest to you if:

1. you do not actually or constructively own 10% or more of the total combined voting power of all classes of our stock entitled to vote;
2. you are not a controlled foreign corporation that is directly or indirectly related to us through stock ownership;
3. you are not a bank whose receipt of interest on a note is pursuant to a loan agreement entered into in the ordinary course of business; and
4. the United States payor does not have actual knowledge or reason to know that you are a United States person and you have furnished to the United States payor an IRS Form W-8BEN or an acceptable substitute form upon which you certify, under penalties of perjury, that you are a non-United States person;

in the case of payments made outside the United States to you at an offshore account (generally, an account maintained by you at a bank or other financial institution at any location outside the United States), you have furnished to the U.S. payor documentation that establishes your identity and your status as a non-United States person;

the United States payor has received a withholding certificate (furnished on an appropriate IRS Form W-8 or an acceptable substitute form or statement) from a person claiming to be a (1) withholding foreign partnership, (2) qualified intermediary, or (3) securities clearing organization, bank or other financial institution that holds customers' securities in the ordinary course of its trade or business, and such person is permitted to certify under United States Treasury regulations, and does certify, either that it assumes primary withholding tax responsibility with respect to the interest payment or has received an IRS Form W-8BEN (or acceptable substitute form) from you or from other holders of notes on whose behalf it is receiving payment; or

the United States payor otherwise possesses documentation upon which it may rely to treat the payment as made to a non-United States person in accordance with United States Treasury regulations.

Table of Contents

If you cannot satisfy the requirements described above, payments of interest made to you on the notes will be subject to the 30% United States federal withholding of tax, unless you provide the withholding agent either with (1) a properly executed IRS Form W-8BEN (or successor form) claiming an exemption from (or a reduction of) withholding under the benefits of an applicable tax treaty or (2) a properly executed IRS Form W-8ECI (or successor form) stating that interest paid on the note is not subject to withholding of tax because the interest is effectively connected with your conduct of a trade or business in the United States (and, generally in the case of an applicable tax treaty, attributable to your permanent establishment in the United States).

Generally, no deduction for any United States federal withholding of tax will be made from any principal payments or from gain that you realize on the sale, exchange or other disposition of your note. In addition, a Non-U.S. Holder of a note will not be subject to United States federal income tax on gain realized on the sale, exchange or other disposition of such note, unless: (1) that gain or income is effectively connected with the conduct of a trade or business in the United States by the Non-U.S. Holder or (2) the Non-U.S. Holder is an individual who is present in the United States for 183 days or more in the taxable year of that disposition, and certain other conditions are met. If you are described in clause (1), see Income or gain effectively connected with a United States trade or business, below. If you are described in clause (2), any gain realized from the sale, redemption, exchange, retirement or other taxable disposition of the notes will be subject to United States federal income tax at a 30% rate (or lower applicable treaty rate), which may be offset by certain losses.

Further, generally, a note held by an individual who at death is not a citizen or resident of the United States should not be includible in the individual's gross estate for United States federal estate tax purposes if:

the decedent did not actually or constructively own 10% or more of the total combined voting power of all classes of our stock entitled to vote at the time of death, and

the income on the note would not have been, if received at the time of death, effectively connected with a United States trade or business of the decedent.

Income or gain effectively connected with a United States trade or business

If any interest on the notes or gain from the sale, redemption, exchange, retirement or other taxable disposition of the notes is effectively connected with a United States trade or business conducted by you (and, generally in the case of an applicable tax treaty, attributable to your permanent establishment in the United States), then the income or gain will be subject to United States federal income tax at regular graduated income tax rates, but will not be subject to United States withholding of tax if certain certification requirements are satisfied. You can generally meet these certification requirements by providing a properly executed IRS Form W-8ECI or appropriate substitute form to us, or our paying agent. If you are a corporation, the portion of your earnings and profits that is effectively connected with your United States trade or business (and, generally in the case of an applicable tax treaty, attributable to your permanent establishment in the United States) may be subject to an additional branch profits tax at a 30% rate, although an applicable tax treaty may provide for a lower rate.

Table of Contents

Backup withholding and information reporting

Generally, information returns will be filed with the United States IRS in connection with payments on the notes. Information reporting may be filed with the IRS in respect of payments on the notes and proceeds from the sale or other disposition of the notes. You may be subject to backup withholding of tax on these payments unless you comply with certain certification procedures to establish that you are not a United States person. The certification procedures required to claim an exemption from withholding tax on interest described above will satisfy the certification requirements necessary to avoid backup withholding as well. The amount of any backup withholding from a payment to you will be allowed as a credit against your United States federal income tax liability and may entitle you to a refund, provided that the required information is timely furnished to the IRS.

Certain ERISA considerations

The following summary regarding certain aspects of the United States Employee Retirement Income Security Act of 1974, as amended, or ERISA, and the Code is based on ERISA, the Code, judicial decisions and United States Department of Labor and IRS regulations and rulings that are in existence on the date of this prospectus supplement. This summary is general in nature and does not address every issue pertaining to ERISA that may be applicable to us, the notes or a particular investor. Accordingly, and due to the complexity of these rules and the penalties that may be imposed thereunder, each prospective investor, including plan fiduciaries, should consult with his, her or its own advisors or counsel with respect to the advisability of an investment in the notes, and potentially adverse consequences of such investment, including, without limitation, certain ERISA-related issues that affect or may affect the investor with respect to this investment and the possible effects of changes in the applicable laws.

General fiduciary matters

ERISA and the Code impose certain requirements on employee benefit plans that are subject to Title I of ERISA and plans subject to Section 4975 of the Code (each such employee benefit plan or plan, a Plan) and on those persons who are fiduciaries with respect to Plans. Under ERISA and the Code, any person who exercises any discretionary authority or control over the administration of such a Plan or the management or disposition of the assets of such a Plan, or who renders investment advice for a fee or other compensation to such a Plan, is generally considered to be a fiduciary of the Plan.

In considering an investment of the assets of a Plan subject to Title I of ERISA in the notes, a fiduciary must, among other things, discharge its duties solely in the interest of the participants of such Plan and their beneficiaries and for the exclusive purpose of providing benefits to such participants and beneficiaries and defraying reasonable expenses of administering the Plan. A fiduciary must act prudently and must diversify the investments of a Plan subject to Title I of ERISA so as to minimize the risk of large losses, as well as discharge its duties in accordance with the documents and instruments governing such Plan and all applicable provisions of ERISA and the Code. In addition, ERISA generally requires fiduciaries to hold all assets of a Plan subject to Title I of ERISA in trust and to maintain the indicia of ownership of such assets within the jurisdiction of the district courts of the United States. A fiduciary of a Plan subject to Title I of ERISA should consider whether an investment in the notes satisfies these requirements.

Prohibited transaction laws

An investor who is considering acquiring the notes with the assets of a Plan must consider whether the acquisition and holding of the notes will constitute or result in a non-exempt prohibited transaction. Section 406(a) of ERISA and Sections 4975(c)(1)(A), (B), (C) and (D) of the Code prohibit certain transactions that involve a Plan and a party in interest as defined in Section 3(14) of ERISA or a disqualified person as defined in Section 4975(e)(2) of the Code with respect to such Plan unless an exemption is available. Examples of such prohibited transactions include, but are not limited to, sales or exchanges of property (such as the notes) or extensions of credit between a Plan and a party in interest or disqualified person. Section 406(b) of ERISA and Sections 4975(c)(1)(E) and (F) of the Code generally prohibit a fiduciary with respect to a Plan from dealing with the assets of the Plan for its own benefit (for example when a fiduciary of a Plan uses its position to cause the Plan to make investments in connection with

Table of Contents

which the fiduciary (or a party related to the fiduciary) receives a fee or other consideration). A party in interest or disqualified person who engages in a non-exempt prohibited transaction may be subject to excise taxes and other penalties and liabilities under the Code. In addition, the fiduciary of the Plan that engages in such a non-exempt prohibited transaction may be subject to penalties and liabilities under the Code.

ERISA and the Code contain certain exemptions from the prohibited transactions described above, and the Department of Labor has issued several exemptions, although certain exemptions do not provide relief from the prohibitions on self-dealing contained in Section 406(b) of ERISA and Sections 4975(c)(1)(E) and (F) of the Code. Exemptions include Section 408(b)(17) of ERISA and Section 4975(d)(20) of the Code pertaining to certain transactions with non-fiduciary service providers; Department of Labor Prohibited Transaction Class Exemption (PTCE) 95-60, regarding transactions involving insurance company general accounts; PTCE 90-1, regarding investments by insurance company pooled separate accounts; PTCE 91-38, regarding investments by bank collective investment funds; PTCE 84-14, regarding investments effected by a qualified professional asset manager; and PTCE 96-23, regarding investments effected by an in-house asset manager. There can be no assurance that any of these exemptions will be available with respect to the acquisition of the notes, even if the specified conditions are met.

In addition, because the acquisition and holding of the notes may be deemed to involve an extension of credit or other transaction between a Plan and a party in interest or disqualified person, the notes may not be purchased or held by any Plan, or any person investing plan assets of any such Plan, if we or any of our affiliates (a) has investment or administrative discretion with respect to the assets of the Plan used to effect such purchase; (b) has the authority or responsibility to give, or regularly gives, investment advice with respect to such assets, for a fee and pursuant to an agreement or understanding that such advice (1) will serve as a primary basis for investment decisions with respect to such assets, and (2) will be based on the particular investment needs of such Plan; or (c) unless one of the above exemptions applies, is an employer maintaining or contributing to such Plan.

As a general rule, a governmental plan, as defined in Section 3(32) of ERISA (a Governmental Plan), a church plan, as defined in Section 3(33) of ERISA, that has not made an election under Section 410(d) of the Code (a Church Plan) and non-United States plans as described in Section 4(b)(4) of ERISA are not subject to the requirements of ERISA or Section 4975 of the Code. Accordingly, assets of such plans may be invested without regard to the fiduciary and prohibited transaction considerations described above. Although a Governmental Plan, a Church Plan or a non-United States plan is not subject to ERISA or Section 4975 of the Code, it may be subject to other United States federal, state or local laws or non-United States laws that regulate its investments (Similar Laws). A fiduciary of a Government Plan, a Church Plan or a non-United States plan should make its own determination as to the requirements, if any, under any Similar Laws applicable to the acquisition of the notes.

Representation

The notes may be acquired by a Plan, an entity whose underlying assets include plan assets by reason of investments in such entity by any Plans (a Plan Asset Entity), and any person investing in plan assets of any Plan or Plan Asset Entity or by a Governmental Plan, a Church Plan or a non United States Plan, but only if the acquisition will not result in a non-exempt prohibited transaction under ERISA or Section 4975 of the Code or a violation of Similar Laws.

Table of Contents

Therefore, any investor in the notes will be deemed to represent and warrant to us and the trustee that (1)(a) it is not a Plan, a Plan Asset Entity, a Governmental Plan, a Church Plan or a non-United States plan, (b) it is a Plan or a Plan Asset Entity and the acquisition and holding of the notes will not result in a non-exempt prohibited transaction under Section 406 of ERISA or Section 4975 of the Code, or (c) it is a Governmental Plan, a Church Plan or a non-United States plan that is not subject to ERISA, Section 4975 of the Code or any Similar Law that prohibits or taxes (either in terms of an excise or penalty tax) the acquisition or holding of the notes; and (2) it will notify us and the trustee immediately if, at any time, it is no longer able to make the representations contained in clause (1) above. Any purported transfer of the notes to a transferee that does not comply with the foregoing requirements shall be null and void *ab initio*.

This offer is not a representation by us or the underwriters that an acquisition of the notes meets all legal requirements applicable to investments by Plans, Plan Asset Entities, Governmental Plans, Church Plans or non-United States plans or that such an investment is appropriate for any particular Plan, entities whose underlying assets include assets of a Plan, Governmental Plan, Church Plan or non-United States plan.

Table of Contents**Underwriting**

Subject to the terms and conditions in the underwriting agreement between us and Citigroup Global Markets Inc. and J.P. Morgan Securities Inc., as representatives of the several underwriters named below, we have agreed to sell to each underwriter, and each underwriter has severally agreed to purchase from us, the principal amount of notes that appears opposite its name in the table below:

Underwriter	Principal amount of notes
Citigroup Global Markets Inc.	\$
J.P. Morgan Securities Inc.	
Total	\$

The underwriting agreement provides that the obligations of the underwriters to purchase the notes included in this offering are subject to approval of legal matters by counsel and to other conditions. The underwriters have agreed to purchase all of the notes if any of them are purchased. The underwriting agreement also provides that if an underwriter defaults the purchase commitments of non-defaulting underwriters may be increased or the offering of notes may be terminated.

The underwriters initially propose to offer the notes to the public at the public offering price that appears on the cover page of this prospectus supplement. The underwriters may offer the notes to selected dealers at the public offering price minus a concession of up to % of the principal amount of the notes. In addition, the underwriters may allow, and those selected dealers may reallow, a concession of up to % of the principal amount of the notes to certain other dealers. After the initial offering, the underwriters may change the public offering price and any other selling terms. The underwriters may offer and sell notes through certain of their affiliates.

The following table shows the underwriting discounts to be paid to the underwriters in connection with this offering.

	Paid by us
Per note	%
Total	\$

Expenses related to this offering to be paid by us, other than underwriting discounts, are estimated to be approximately \$400,000.

In the underwriting agreement, we have agreed that we will indemnify the underwriters against certain liabilities, including liabilities under the Securities Act, or contribute to payments that the underwriters may be required to make in respect of those liabilities.

The notes are a new issue of securities, and there is currently no established trading market for the notes. We do not intend to apply for the notes to be listed on any securities exchange or to arrange for the notes to be quoted on any quotation system. The underwriters have advised us

S-32

Table of Contents

that they intend to make a market in the notes, but they are not obligated to do so. The underwriters may discontinue any market making in the notes at any time in their sole discretion. Accordingly, we cannot assure you that a liquid trading market will develop for the notes, that you will be able to sell your notes at a particular time or that the prices that you receive when you sell will be favorable.

In connection with the offering of the notes, the underwriters may engage in over-allotment, stabilizing transactions and syndicate covering transactions in accordance with Regulation M under the Exchange Act. Over-allotment involves sales in excess of the offering size, which creates a short position for the underwriters. Stabilizing transactions involve bids to purchase the notes in the open market for the purpose of pegging, fixing or maintaining the price of the notes. Syndicate covering transactions involve purchases of the notes in the open market after the distribution has been completed in order to cover short positions. Stabilizing transactions and syndicate covering transactions may cause the price of the notes to be higher than it would otherwise be in the absence of those transactions. If the underwriters engage in stabilizing or syndicate covering transactions, they may discontinue them at any time.

In the ordinary course of their respective businesses, the underwriters or their affiliates have engaged, or may in the future engage, in commercial banking or investment banking transactions with us and our affiliates and have received or may in the future receive compensation for their services.

RISK FACTORS

Investing in our debt securities involves risk. Prior to making a decision about investing in our debt securities, you should carefully consider the specific factors discussed under the heading **Risk Factors** in our most recent annual report on Form 10-K and in our most recent quarterly reports on Form 10-Q, which are incorporated herein by reference and may be amended, supplemented or superseded from time to time by other reports we file with the SEC in the future, and any risk factors contained in the applicable prospectus supplement. The risks and uncertainties we have described are not the only ones we face. Additional risks and uncertainties that are not yet identified may also materially harm our business, operating results and financial condition and could result in a complete loss of your investment.

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING INFORMATION

Certain statements contained in or incorporated by reference into this prospectus and any accompanying prospects supplement constitute forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Exchange Act. These forward-looking statements are based upon management's current expectations, estimates, assumptions and beliefs concerning future events and conditions and may discuss, among other things, anticipated future performance (including sales and earnings), expected growth, future business plans and the costs and potential liability for environmental-related matters and the lead pigment and lead-based paint litigation. Any statement that is not historical in nature is a forward-looking statement and may be identified by the use of words and phrases such as *expects*, *anticipates*, *believes*, *will*, *will likely result*, *will continue*, *plans to* and similar expressions. Readers are cautioned not to place undue reliance on any forward-looking statements. Forward-looking statements are necessarily subject to risks, uncertainties and other factors, many of which are outside of our control, that could cause actual results to differ materially from such statements and from our historical results and experience.

These risks, uncertainties and other factors include such things as:

continuation of the current negative global economic and financial conditions;

general business conditions, strengths of retail and manufacturing economies and the growth in the coatings industry;

competitive factors, including pricing pressures and product innovation and quality;

changes in raw material and energy supplies and pricing;

changes in our relationships with customers and suppliers;

our ability to attain cost savings from productivity initiatives;

our ability to successfully integrate past and future acquisitions into our existing operations, as well as the performance of the businesses acquired;

risks and uncertainties associated with our ownership of Life Shield Engineered Systems LLC;

changes in general domestic economic conditions such as inflation rates, interest rates, tax rates, unemployment rates, higher labor and healthcare costs, recessions, and changing governmental policies, laws

and regulations;

risks and uncertainties associated with our expansion into and our operations in Asia, Mexico and South America and other foreign markets, including general economic conditions, inflation rates, recessions, foreign currency exchange rates, foreign investment and repatriation restrictions, legal and regulatory constraints, civil unrest and other external economic and political factors;

the achievement of growth in developing markets, such as Asia, Mexico and South America;

increasingly stringent domestic and foreign governmental regulations including those affecting the environment;

Table of Contents

inherent uncertainties involved in assessing our potential liability for environmental-related activities;

other changes in governmental policies, laws and regulations, including changes in accounting policies and standards and taxation requirements (such as new tax laws and new or revised tax law interpretations);

the nature, cost, quantity and outcome of pending and future litigation and other claims, including the lead pigment and lead-based paint litigation, and the effect of any legislation and administrative regulations relating thereto; and

unusual weather conditions.

It is not possible to predict or identify all of the risks, uncertainties and other factors that may affect future results, and the above list should not be considered to be a complete list. Any forward-looking statement speaks only as of the date on which such statement is made, and we undertake no obligation to update or revise any forward-looking statement, whether as a result of new information, future events or otherwise, except as otherwise required by law.

USE OF PROCEEDS

Unless we inform you otherwise in the applicable prospectus supplement, we expect to use the net proceeds from the sale of our debt securities to which this prospectus relates for general corporate purposes. These purposes may include, but are not limited to:

reduction or refinancing of outstanding indebtedness or other corporate obligations;

additions to working capital;

capital expenditures; and

acquisitions.

Pending any specific application, we may initially invest funds in short-term marketable securities or apply them to the reduction of short-term indebtedness.

RATIO OF EARNINGS TO FIXED CHARGES

The following table sets forth our ratio of consolidated earnings to fixed charges for the periods presented:

	Nine Months Ended September 30, 2009	2008	Year Ended December 31,			
			2007	2006	2005	2004
Ratio of earnings to fixed charges	3.2x	3.1x	3.9x	3.9x	3.7x	3.7x

The ratio of earnings to fixed charges is computed by dividing fixed charges into income before taxes. Fixed charges consist of interest expense, net, including amortization of discount and financing costs and the portion of operating

rental expense that we believe is representative of the interest component of rent expense. The interest expense included in fixed charges reflects only interest on third-party indebtedness and excludes any interest expense accrued on uncertain tax positions, as permitted by Financial Accounting Standards Board (FASB) Accounting Standards Codification Topic 740, *Income Taxes* (formerly FASB Interpretation No. 48, *Accounting for Income Taxes*).

DESCRIPTION OF DEBT SECURITIES

The following is a general description of the debt securities that we may offer from time to time under this prospectus. The financial terms and other specific terms of the debt securities being offered will be described in a prospectus supplement relating to the issuance of those securities. The extent, if any, to which the following general provisions apply to particular debt securities will be described in the applicable prospectus supplement.

The debt securities will be issued under an indenture dated as of February 1, 1996 (the **Indenture**), between us and The Bank of New York Mellon (as successor to Chemical Bank), as trustee (the **Trustee**), as it may be supplemented or amended from time to time. A copy of the form of Indenture has been filed as an exhibit to the registration statement of which this prospectus is a part. The Indenture, and any supplemental indentures thereto, will be subject to, and governed by, the Trust Indenture Act of 1939.

The following description of general terms relating to the debt securities and the Indenture is a summary only and does not describe every aspect of the debt securities that we may offer pursuant to this prospectus. This summary also is subject to and qualified by reference to the description of the particular terms of the debt securities and the Indenture described in the related prospectus supplement, including definitions of certain terms used in the Indenture, and the debt securities. The particular terms of the debt securities that we may offer under this prospectus and the Indenture may vary from the terms described below. You should read the Indenture and the prospectus supplement regarding any particular issuance of debt securities.

You can find the definition of certain terms used in this description under the subheading **Certain Definitions**. For purposes of this description of debt securities, references to the terms **we**, **us**, **the Company** or **Sherwin-Williams** or other similar terms mean only The Sherwin-Williams Company and not its subsidiaries.

General

The Indenture does not limit the aggregate principal amount of debt securities that may be issued under it and provides that debt securities may be issued in one or more series as may be authorized from time to time by us. if the debt securities of the series shall be issued in whole or in part in the form of a global security, the terms and conditions, if any, upon which such global security may be exchanged in whole or in part for other individual debt securities in definitive registered form, the depositary for such global security, and the form of any legend or legends to be borne by any such global security in addition to or in lieu of the legend referred to in the Indenture;

with regard to debt securities of the series that do not bear interest, the dates for certain required reports to the Trustee; and

any other terms of the debt securities of the series (which terms shall not be prohibited by the provisions of the Indenture).

The prospectus supplement will also describe any material United States federal income tax consequences or other special considerations applicable to the series of debt securities to which such prospectus supplement relates, including those applicable to: (a) debt securities with respect to which payments of principal, premium, if any, or interest are determined with reference to an index or formula (including changes in prices of particular securities, currencies or commodities); (b) debt securities with respect to which principal, premium, if any, or interest is payable in a foreign or composite currency; (c) debt securities that are issued at a discount below their stated principal amount, bearing no interest or interest at a rate that at the time of issuance is below market rates (original issue discount debt securities); and (d) variable rate debt securities that are exchangeable for fixed rate debt securities.

Payments of interest on registered securities may be made at the option of the Company by check mailed to the registered holders thereof or, if so provided in the applicable prospectus supplement and in accordance with arrangements satisfactory to the Trustee, at the option of a registered holder by wire transfer to an account designated by such registered holder.

Unless otherwise provided in the applicable prospectus supplement, registered securities may be transferred or exchanged at the office of the Trustee at which its corporate trust business is principally administered in the United States or at the office of the Trustee or the Trustee's agent in the Borough of Manhattan, the City and State of New York, at which its corporate agency business is conducted, subject to the limitations provided in the Indenture, without the payment of any service charge, other than any tax or governmental charge payable in connection therewith.

Certain Covenants of the Company

Limitation on Liens

Unless otherwise provided in the applicable prospectus supplement, we will not, and will not permit any of our Restricted Subsidiaries to, directly or indirectly, create or permit to exist any Lien on any Principal Property, or shares of capital stock of any Restricted Subsidiary, whether owned on the date the Indenture or thereafter acquired, securing any obligation unless we contemporaneously secure the debt securities equally and ratably with (or prior to) such obligation. The preceding sentence will not require us to secure the debt securities if the Lien consists of either: (a) Permitted Liens; or (b) Liens other than Permitted Liens, provided that the aggregate amount of all obligations secured by Liens other than Permitted Liens does not exceed 15% of Consolidated Net Tangible Assets.

Limitation on Sale/Leaseback Transactions

Unless otherwise provided in the prospectus supplement, we and our Restricted Subsidiaries shall not enter into any Sale/Leaseback Transaction with respect to any Principal Property unless (a) we or such Restricted Subsidiary would be entitled to create a Lien on such Principal Property securing Indebtedness in an amount equal to the Attributable Indebtedness with respect to such Sale/Leaseback Transaction without securing the debt securities then outstanding pursuant to the provisions described above under Limitation on Liens or (b) we, within six months from the effective date of such Sale/Leaseback Transaction, apply an amount equal to the Attributable Indebtedness with respect to such Sale/Leaseback Transaction to the voluntary defeasance or retirement of debt securities or other Indebtedness ranking *pari passu* with the debt securities; provided that the foregoing will not prevent us or any Restricted Subsidiary from

(x) entering into any Sale/Leaseback Transaction involving a lease with a term of less than three years or (y) entering into any Sale/Leaseback Transaction between a Restricted Subsidiary and us or between Restricted Subsidiaries.

SEC Reports

We will file with the Trustee, within 15 days after we are required to file the same with the SEC, copies of the annual reports and of the information, documents and other reports (or copies of such portions of any of the foregoing as the SEC may prescribe) that we may be required to file with the SEC pursuant to Section 13 or Section 15(d) of the Exchange Act. If we are not required to file information, documents or reports pursuant to either of those sections, then we will file with the Trustee and the SEC, in accordance with rules and regulations prescribed from time to time by the SEC, such of the supplementary and periodic information, documents and reports which may be required pursuant to Section 13 in respect of a security listed and registered on a national securities exchange as may be prescribed from time to time in such rules and regulations.

Events of Default and Remedies

The debt securities of any series will contain events of default (each, an Event of Default) to be specified in the applicable prospectus supplement, including, without limitation:

- (a) default in the payment of any installment of interest on any debt securities of that series, as and when the same shall become due and payable and continuance of such default for a period of 30 days;
- (b) default in the payment of all or any part of the principal or premium with respect to any debt securities of that series as and when the same shall become due and payable, whether at maturity, upon redemption, by declaration, upon required repurchase, or otherwise;
- (c) default in the payment of any sinking fund payment with respect to any debt securities of that series as and when the same shall become due and payable and continuance of such default for a period of 30 days;
- (d) our failure to comply with the provisions of the Indenture relating to consolidations, mergers, and sales of assets;
- (e) our failure duly to observe or perform any other of the covenants or agreements on our part in the debt securities of that series, in the Indenture with respect to such series, or in any supplemental indenture with respect to such series (other than covenants or agreements included solely by or for the benefit of a series of debt securities thereunder other than that series) continuing for a period of 90 days after the date on which written notice specifying such failure and requiring us to remedy the same and stating that such notice is a Notice of Default under the Indenture shall have been given to us by the Trustee or to the Trustee and us by the holders of at least 25% in aggregate principal amount of the debt securities of that series at the time outstanding;
- (f) we or any of our Significant Subsidiaries shall (1) voluntarily commence any proceeding or file any petition seeking relief under the United States Bankruptcy Code or other federal or state bankruptcy, insolvency, or similar law, (2) consent to the institution of, or fail to controvert within the time and in the manner prescribed by law, any such proceeding or the filing of any such petition, (3) apply for or consent to the appointment of a receiver, trustee, custodian, sequestrator, or similar official for the Company or any such Significant Subsidiary or for a substantial part of its property, (4) file an answer admitting the material allegations of a petition filed against us in any such proceeding, (5) make a general assignment for the benefit of creditors, (6) admit in writing our inability or fail generally to pay our debts as they become due, (7) take corporate action for the purpose of effecting any of the foregoing, or (8) take any comparable action under any foreign laws relating to our insolvency or that of any Significant Subsidiary;
- (g) the entry of an order or decree by a court having competent jurisdiction for (1) relief with respect to us or any of our Significant Subsidiaries or a substantial part of any of their property under the United States Bankruptcy Code or

any other federal or state bankruptcy, insolvency, or similar law, (2) the appointment of a receiver, trustee, custodian, sequestrator, or similar official for us or any such Significant Subsidiary or for a substantial part of any of their property (except any decree or order appointing such official of any Significant Subsidiary pursuant to a plan under which the assets and operations of such Significant Subsidiary are transferred to or combined with another of our Subsidiaries

or to the us), or (3) the winding-up or liquidation of us or any such Significant Subsidiary (except any decree or order approving or ordering the winding-up or liquidation of the affairs of a Significant Subsidiary pursuant to a plan under which the assets and operations of such Significant Subsidiary are transferred to or combined with another of our Subsidiaries or to us), and such order or decree shall continue unstayed and in effect for 60 consecutive days, or any similar relief is granted under any foreign laws and the order or decree stays in effect for 60 consecutive days; and

(h) any other Event of Default provided with respect to debt securities of that series.

An Event of Default with respect to one series of debt securities is not necessarily an Event of Default for another series.

If an Event of Default described in clause (a), (b), (c), (d), (e), (f) (other than with respect to us), (g) (other than with respect to us) or (h) above occurs and is continuing with respect to any series of debt securities, unless the principal and interest with respect to all the debt securities of such series shall have already become due and payable, either the Trustee or the holders of not less than 25% in aggregate principal amount of the debt securities of such series (each such series voting as a separate class) then outstanding may declare the principal amount (or, if original issue discount debt securities, such portion of the principal amount as may be specified in such series) of and interest on all the debt securities of such series due and payable immediately. If an Event of Default described in clause (f) or (g) (in each case with respect to us) above occurs, unless the principal and interest with respect to all the debt securities of all series shall have become due and payable, the principal amount (or, if any series are original issue discount debt securities, such portion of the principal amount as may be specified in such series) of and interest on all debt securities of all series then outstanding shall become and be immediately due and payable without any declaration or other act on the part of the Trustee or any holder of debt securities.

If an Event of Default occurs and is continuing, the Trustee shall be entitled and empowered to institute any action or proceeding for the collection of the sums so due and unpaid or to enforce the performance of any provisions of the debt securities of the affected series or the Indenture, to prosecute any such action or proceeding to judgment or final decree, and to enforce any such judgment or final decree against us or any other obligor on the debt securities of such series. In addition, if there shall be pending proceedings for the bankruptcy or reorganization of the Company or any other obligor on the debt securities, or if a receiver, trustee, or similar official shall have been appointed for its property, the Trustee shall be entitled and empowered to file and prove a claim for the whole amount of principal, premium, and interest (or, in the case of original issue discount debt securities, such portion of the principal amount as may be specified in the terms of such series) owing and unpaid with respect to the debt securities. No holder of any debt security of any series shall have any right to institute any action or proceeding upon or under or with respect to the Indenture, for the appointment of a receiver or trustee, or for any other remedy, unless (a) such holder previously shall have given to the Trustee written notice of an Event of Default with respect to debt securities of that series and of the continuance thereof, (b) the holders of not less than 25% in aggregate principal amount of the outstanding debt securities of that series (each such series voting as a separate class) shall have made written request to the Trustee to institute such action or proceeding with respect to such Event of Default and shall have offered to the Trustee such reasonable indemnity as it may require against the costs, expenses, and liabilities to be incurred therein or thereby, and (c) the Trustee, for 60 days after its receipt of such notice, request, and offer of indemnity shall have failed to institute such action or proceeding and no direction inconsistent with such written request shall have been given to the Trustee pursuant to the provisions of the Indenture.

Prior to the acceleration of the maturity of the debt securities of any series, the holders of a majority in aggregate principal amount of the debt securities of that series at the time outstanding may, on behalf of the holders of all debt securities of that series, waive any past default or Event of Default and its consequences for that series, except (a) a default in the payment of the principal, premium, if any, or interest with respect to such debt securities or (b) a default with respect to a provision of the Indenture that cannot be amended without the consent of each holder affected

thereby. In case of any such waiver, such default shall cease to exist, any Event of Default arising therefrom shall be deemed to have been cured for all purposes, and the

Table of Contents

Trustee, the holders of the debt securities of that series and us shall be restored to our former positions and rights under the Indenture.

The Trustee shall promptly after the occurrence of a default known to it with respect to a series of debt securities, give to the holders of the debt securities of such series notice of all uncured defaults with respect to such series known to it, unless such defaults shall have been cured or waived before the giving of such notice; *provided, however*, that except in the case of default in the payment of principal, premium, if any, or interest with respect to the debt securities of such series or in the making of any sinking fund payment with respect to the debt securities of such series, the Trustee shall be protected in withholding such notice if it in good faith determines that the withholding of such notice is in the interest of the holders of such debt securities.

Modification of the Indenture

We, when authorized by a resolution of our board of directors, and the Trustee may enter into supplemental indentures without the consent of the holders of debt securities for one or more of the following purposes:

- (a) to evidence the succession of another person to us pursuant to the provisions of the Indenture relating to consolidations, mergers, and sales of assets and the assumption by such successor of the covenants, agreements, and obligations of us in the Indenture and in the debt securities;
- (b) to surrender any right or power conferred upon us by the Indenture, to add to our covenants such further covenants, restrictions, conditions, or provisions for the protection of the holders of all or any series of debt securities as our board of directors shall consider to be for the protection of the holders of such debt securities and to make the occurrence, or the occurrence and continuance, of a default in any of such additional covenants, restrictions, conditions or provisions a default or an Event of Default under the Indenture (provided, however, that with respect to any such additional covenant, restriction, condition or provision, such supplemental indenture may provide for a period of grace after default, which may be shorter or longer than that allowed in the case of other defaults, may provide for an immediate enforcement upon such default, may limit the remedies available to the Trustee upon such default, or may limit the right of holders of a majority in aggregate principal amount of any or all series of debt securities to waive such default);
- (c) to cure any ambiguity or to correct or supplement any provision contained in the Indenture, in any supplemental indenture, or in any debt securities that may be defective or inconsistent with any other provision contained therein;
- (d) to modify or amend the Indenture in such a manner as to permit the qualification of the Indenture or any supplemental indenture under the Trust Indenture Act as then in effect;
- (e) to convey, transfer, assign, mortgage, or pledge any property to or with the Trustee, or to make such other provisions in regard to matters or questions arising under the Indenture as shall not adversely affect the interests of any holders of debt securities of any series;
- (f) to add guarantees with respect to the debt securities or to secure the debt securities;
- (g) to make any change that does not adversely affect the rights of any holder;
- (h) to add to, change, or eliminate any of the provisions of the Indenture with respect to one or more series of debt securities, so long as any such addition, change, or elimination not otherwise permitted under the Indenture shall (1) neither apply to any debt security of any series created prior to the execution of such supplemental indenture and entitled to the benefit of such provision nor modify the rights of the holders of any such debt security with respect to

such provision or (2) become effective only when there is no such debt security outstanding;

(i) to evidence and provide for the acceptance of appointment by a successor or separate trustee with respect to the debt securities of one or more series and to add to or change any of the provisions of the

Table of Contents

Indenture as shall be necessary to provide for or facilitate the administration of the Indenture by more than one trustee; and

(j) to establish the form or terms of debt securities as described under General above.

With the consent of the holders of a majority in aggregate principal amount of the outstanding debt securities of each series affected thereby, we, when authorized by a resolution of our board of directors, and the Trustee may from time to time and at any time enter into a supplemental indenture for the purpose of adding any provisions to, changing in any manner, or eliminating any of the provisions of the Indenture or of any supplemental indenture or modifying in any manner the rights of the holder of the debt securities of such series; *provided, however*, that without the consent of the holders of each debt security so affected, no such supplemental indenture shall: (a) reduce the percentage in principal amount of debt securities of any series whose holders must consent to an amendment; (b) reduce the rate of or extend the time for payment of interest on any debt security; (c) reduce the principal of or extend the stated maturity of any debt security; (d) reduce the premium payable upon the redemption of any debt security or change the time at which any debt security may or shall be redeemed; (e) make any debt security payable in a currency other than that stated in the debt security; (f) release any security that may have been granted with respect to the debt securities; or (g) make any change in the provisions of the Indenture relating to waivers of defaults or amendments that require unanimous consent.

Consolidation, Merger, and Sales of Assets

We may not consolidate with or merge with or into any person, or sell, convey, transfer, lease or otherwise dispose of all or substantially all of our assets (in one transaction or a series of related transactions), unless the following conditions have been satisfied:

either (a) we are the continuing Person in the case of a merger or (b) the resulting, surviving, or transferee Person, if other than us (the Successor Company), shall be a corporation organized and existing under the laws of the United States, any State, or the District of Columbia and shall expressly assume all of our obligations under the debt securities and the Indenture;

immediately after giving effect to such transaction (and treating any indebtedness that becomes an obligation of the Successor Company or any of our Subsidiaries as a result of such transaction as having been incurred by the Successor Company or such Subsidiary at the time of such transaction), no Default or Event of Default would occur or be continuing; and

we shall have delivered to the Trustee an officers' certificate and an opinion of counsel, each stating that such consolidation, merger, or transfer complies with the Indenture.

Satisfaction and Discharge of the Indenture; Defeasance

The Indenture shall generally cease to be of any further effect with respect to a series of debt securities if (a) we have delivered to the Trustee for cancellation all debt securities of such series (with certain limited exceptions) or (b) all debt securities of such series not theretofore delivered to the Trustee for cancellation shall have become due and payable, or are by their terms to become due and payable within one year or are to be called for redemption within one year, and we have deposited with the Trustee as trust funds the entire amount sufficient (in the opinion of a nationally recognized firm of independent public accountants expressed in a written certification thereof delivered to the Trustee) without consideration of any reinvestment and after payment of all taxes or other charges and assessments in respect thereof payable by the Trustee to pay at maturity or upon redemption all such debt securities, no default with respect to the debt securities has occurred and is continuing on the date of such deposit, such deposit does not result in a

breach or violation of, or constitute a default under, the Indenture or any other agreement or instrument to which we are a party and we delivered an officers certificate and an opinion of counsel each stating that such conditions have been complied with (and if, in either case, we shall also pay or cause to be paid all other sums payable by us under the Indenture).

Table of Contents

In addition, we shall have a legal defeasance option (pursuant to which we may terminate, with respect to the debt securities of a particular series, all of our obligations under such debt securities and the Indenture with respect to such debt securities) and a covenant defeasance option (pursuant to which we may terminate, with respect to the debt securities of a particular series, our obligations with respect to such debt securities under certain specified covenants contained in the Indenture, including the covenants described above under Certain Covenants of the Company Limitation on Liens and Limitation on Sale/Leaseback Transactions and any additional covenant provided with respect to a series of debt securities and to which the applicable prospectus supplement indicates that the covenant defeasance option will apply). If we exercise our legal defeasance option with respect to a series of debt securities, payment of such debt securities may not be accelerated because of an Event of Default. If we exercise our covenant defeasance option with respect to a series of debt securities, payment of such debt securities may not be accelerated because of an Event of Default related to the specified covenants.

We may exercise our legal defeasance option or our covenant defeasance option with respect to the debt securities of a series only if (a) we irrevocably deposit in trust with the Trustee cash or U.S. Government Obligations (as defined in the Indenture) for the payment of principal, premium, if any, and interest with respect to such debt securities to maturity or redemption, as the case may be, (b) we deliver to the Trustee a certificate from a nationally recognized firm of independent public accountants expressing their opinion that the payments of principal and interest when due and without reinvestment on the deposited U.S. Government Obligations plus any deposited money without investment will provide cash at such times and in such amounts as will be sufficient to pay the principal, premium, if any, and interest when due with respect to all the debt securities of such series to maturity or redemption, as the case may be, (c) 91 days pass after the deposit is made and during the 91-day period no default described in clause (f) or (g) under Events of Default and Remedies above with respect to us occurs that is continuing at the end of such period, (e) the deposit does not constitute a default under any other agreement binding on us, (f) we deliver to the Trustee an opinion of counsel to the effect that the trust resulting from the deposit does not constitute, or is qualified as, a regulated investment company under the Investment Company Act of 1940, (g) we shall have delivered to the Trustee an opinion of counsel addressing certain federal income tax matters relating to the defeasance, and (h) we deliver to the Trustee an officers certificate and an opinion of counsel, each stating that all conditions precedent to the defeasance and discharge of the debt securities of such series as contemplated by the Indenture have been complied with.

The Trustee shall hold in trust cash or U.S. Government Obligations deposited with it as described above and shall apply the deposited cash and the proceeds from deposited U.S. Government Obligations to the payment of principal, premium, if any, and interest with respect to the debt securities of the defeased series.

PLAN OF DISTRIBUTION

We may sell the offered debt securities in and outside the United States:

- through underwriters or dealers;
- directly to purchasers;
- through agents; or
- through a combination of any of these methods.

The prospectus supplement will include the following information:

- the terms of the offering;
- the names of any underwriters or agents;
- the name or names of any managing underwriter or underwriters;
- the purchase price or initial public offering price of the debt securities;
- the net proceeds from the sale of the debt securities;
- any delayed delivery arrangements;
- any underwriting discounts, commissions and other items constituting underwriters' compensation;
- any discounts or concessions allowed or reallocated or paid to dealers;
- any commissions paid to agents; and
- any securities exchanges on which the debt securities may be listed.

Sale through Underwriters or Dealers

If underwriters are used in the sale, we will execute an underwriting agreement with them regarding the debt securities. The underwriters will acquire the debt securities for their own account, subject to conditions in the underwriting agreement. The underwriters may resell the debt securities from time to time in one or more transactions, including negotiated transactions, at a fixed public offering price or at varying prices determined at the time of sale. Underwriters may offer the debt securities to the public either through underwriting syndicates represented by one or more managing underwriters or directly by one or more firms acting as underwriters. Unless we inform you otherwise in the prospectus supplement, the obligations of the underwriters to purchase the debt securities will be subject to certain conditions, and the underwriters will be obligated to purchase all the offered debt securities if they purchase any of them. The underwriters may change from time to time any initial public offering price and any discounts or concessions allowed or reallocated or paid to dealers.

During and after an offering through underwriters, the underwriters may purchase and sell the debt securities in the open market. To the extent expressly set forth in the applicable prospectus supplement, these transactions may include over-allotment and stabilizing transactions and purchases to cover syndicate short positions created in connection with the offering. The underwriters may also impose a penalty bid, which means that selling concessions allowed to syndicate members or other broker-dealers for the offered debt securities sold for their account may be reclaimed by the syndicate if the offered debt securities are repurchased by the syndicate in stabilizing or covering transactions. These activities may stabilize, maintain or otherwise affect the market price of the offered debt securities, which may be higher than the price that might otherwise prevail in the open market. If commenced, the underwriters may discontinue these activities at any time.

Some or all of the debt securities that we offer through this prospectus may be new issues of debt securities with no established trading market. Any underwriters to whom we sell our debt securities for public offering and may make a market in those debt securities, but they will not be obligated to do so and they may

Table of Contents

discontinue any market making at any time without notice. Accordingly, we cannot assure you of the liquidity of, or continued trading markets for, any debt securities that we offer.

If dealers are used in the sale of the debt securities, we will sell the debt securities to them as principals. They may then resell the debt securities to the public at varying prices determined by the dealers at the time of resale. We will include in the prospectus supplement the names of the dealers and the terms of the transaction.

Direct Sales and Sales through Agents

We may sell the debt securities directly. In this case, no underwriters or agents would be involved. We may also sell the debt securities through agents designated from time to time. In the prospectus supplement, we will name any agent involved in the offer or sale of the offered debt securities, and we will describe any commissions payable to the agent. Unless we inform you otherwise in the prospectus supplement, any agent will agree to use its reasonable best efforts to solicit purchases for the period of its appointment.

We may sell the debt securities directly to institutional investors or others who may be deemed to be underwriters within the meaning of the Securities Act with respect to any sale of those securities. We will describe the terms of any sales of these debt securities in the prospectus supplement.

Remarketing Arrangements

Offered debt securities may also be offered and sold, if so indicated in the applicable prospectus supplement, in connection with a remarketing upon their purchase, in accordance with a redemption or repayment pursuant to their terms, or otherwise, by one or more remarketing firms, acting as principals for their own accounts or as agents for us. Any remarketing firm will be identified and the terms of its agreements, if any, with us and its compensation will be described in the applicable prospectus supplement.

Delayed Delivery Contracts

If we so indicate in the prospectus supplement, we may authorize agents, underwriters or dealers to solicit offers from certain types of institutions to purchase debt securities from us at the public offering price under delayed delivery contracts. These contracts would provide for payment and delivery on a specified date in the future. The contracts would be subject only to those conditions described in the prospectus supplement. The prospectus supplement will describe the commission payable for solicitation of those contracts.

General Information

We may have agreements with the agents, dealers, underwriters and remarketing firms to indemnify them against certain civil liabilities, including liabilities under the Securities Act, or to contribute with respect to payments that the agents, dealers, underwriters or remarketing firms may be required to make. Agents, dealers, underwriters and remarketing firms may be customers of, engage in transactions with or perform services for us in the ordinary course of their businesses.
