NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)**

1. Interim Financial Statements

The accompanying Consolidated Financial Statements of American Eagle Outfitters, Inc. (the Company) at October 30, 2010 and October 31, 2009 and for the 13 and 39 week periods ended October 30, 2010 and October 31, 2009 have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. Certain notes and other information have been condensed or omitted from the interim Consolidated Financial Statements presented in this Quarterly Report on Form 10-Q. Therefore, these Consolidated Financial Statements should be read in conjunction with the Company's Fiscal 2009 Annual Report. In the opinion of the Company's management, all adjustments (consisting of normal recurring adjustments and those further described in the footnotes that follow) considered necessary for a fair presentation have been included.

As used in this report, all references to we, our, and the Company refer to American Eagle Outfitters, Inc. and its wholly owned subsidiaries. American Eagle Outfitters, American Eagle, AE, and the AE Brand refer to our U.S. and Canadian American Eagle Outfitters stores. AEO Direct refers to our e-commerce operations, ae.com, aerie.com and 77kids.com. MARTIN+OSA or M+O refers to the MARTIN+OSA stores and e-commerce operation which we operated until its closure during the 13 weeks ended July 31, 2010.

The Company's business is affected by the pattern of seasonality common to most retail apparel businesses. The results for the current and prior periods are not necessarily indicative of future financial results.

2. Summary of Significant Accounting Policies

Principles of Consolidation

The Consolidated Financial Statements include the accounts of the Company and its wholly owned subsidiaries. All intercompany transactions and balances have been eliminated in consolidation. At October 30, 2010, the Company operated in one reportable segment.

On March 5, 2010, the Company's Board of Directors approved management's recommendation to proceed with the closure of the M+O brand. The Company notified employees and issued a press release announcing this decision on March 9, 2010. The decision to take this action resulted from an extensive evaluation of the brand and review of strategic alternatives, which revealed that it was not achieving performance levels that warranted further investment. The Company completed the closure of the M+O stores and e-commerce operation during the 13 weeks ended July 31, 2010 and the Consolidated Financial Statements reflect the presentation of M+O as a discontinued operation. Refer to Note 12 to the Consolidated Financial Statements for additional information regarding the discontinued operations for M+O.

Fiscal Year

The Company's financial year is a 52/53 week year that ends on the Saturday nearest to January 31. As used herein, Fiscal 2011 and Fiscal 2010 refer to the 52 week periods ending January 28, 2012 and January 29, 2011, respectively. Fiscal 2009 and Fiscal 2008 refer to the 52 week periods ended January 30, 2010 and January 31, 2009, respectively.

Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of our contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. On an ongoing basis, our management reviews its estimates based on currently available information. Changes in facts and circumstances may result in revised estimates.

Recent Accounting Pronouncements

In September 2009, the Financial Accounting Standards Board (FASB) approved the consensus on Emerging Issues Task Force (EITF) 08-1, *Revenue Arrangements with Multiple Deliverables*, primarily codified under Accounting Standards

Table of Contents

Codification (ASC) 605, *Revenue Recognition*, as Accounting Standards Update (ASU) 2009-13, *Revenue Recognition (Topic 605): Multiple-Deliverable Revenue Arrangements* (ASU 2009-13). ASU 2009-13 requires entities to allocate revenue in an arrangement using estimated selling prices of the delivered goods and services based on a selling price hierarchy. The amendments eliminate the residual method of revenue allocation and require revenue to be allocated among the various deliverables in a multi-element transaction using the relative selling price method. This guidance is effective for revenue arrangements entered into or materially modified in fiscal years beginning after June 15, 2010. The Company is currently evaluating the impact that the adoption of ASU 2009-13 will have on its Consolidated Financial Statements.

In January 2010, the FASB issued ASU 2010-06, *Fair Value Measurements and Disclosures Topic 820: Improving Disclosures about Fair Value Measurements* (ASU 2010-06). ASU 2010-06 requires new disclosures regarding transfers in and out of the Level 1 and 2 and activity within Level 3 fair value measurements and clarifies existing disclosures of inputs and valuation techniques for Level 2 and 3 fair value measurements. The new disclosures and clarifications of existing disclosures are effective for interim and annual reporting periods beginning after December 15, 2009, except for the disclosure of activity within Level 3 fair value measurements, which is effective for fiscal years beginning after December 15, 2010, and for interim reporting periods within those years. The Company adopted the new disclosures effective January 31, 2010, except for the disclosure of activity within Level 3 fair value measurements. The Level 3 disclosures are effective for the Company at the beginning of Fiscal 2011. The adoption of ASU 2010-06 did not have a material impact on the disclosures within the Company's Consolidated Financial Statements.

Foreign Currency Translation

The Canadian dollar is the functional currency for the Canadian business. In accordance with ASC 830, *Foreign Currency Matters*, assets and liabilities denominated in foreign currencies were translated into U.S. dollars (the reporting currency) at the exchange rate prevailing at the balance sheet date. Revenues and expenses denominated in foreign currencies were translated into U.S. dollars at the monthly average exchange rate for the period. Gains or losses resulting from foreign currency transactions are included in the results of operations, whereas, related translation adjustments are reported as an element of other comprehensive income in accordance with ASC 220, *Comprehensive Income* (refer to Note 8 to the Consolidated Financial Statements).

Revenue Recognition

Revenue is recorded for store sales upon the purchase of merchandise by customers. The Company's e-commerce operation records revenue upon the estimated customer receipt date of the merchandise. Shipping and handling revenues are included in net sales. Sales tax collected from customers is excluded from revenue and is included as part of accrued income and other taxes on the Company's Consolidated Balance Sheets.

Revenue is recorded net of estimated and actual sales returns and deductions for coupon redemptions and other promotions. The Company records the impact of adjustments to its sales return reserve quarterly within net sales and cost of sales. The sales return reserve reflects an estimate of sales returns based on projected merchandise returns determined through the use of historical average return percentages.

Revenue is not recorded on the purchase of gift cards. A current liability is recorded upon purchase, and revenue is recognized when the gift card is redeemed for merchandise. Additionally, the Company recognizes revenue on unredeemed gift cards based on an estimate of the amounts that will not be redeemed (gift card breakage), determined through historical redemption trends. Gift card breakage revenue is recognized in proportion to actual gift card redemptions as a component of net sales. For further information on the Company's gift card program, refer to the Gift Cards caption below.

The Company sells off end-of-season, overstock, and irregular merchandise to a third-party. The proceeds from these sales are presented on a gross basis, with proceeds and cost of sell-offs recorded in net sales and cost of sales, respectively.

Cost of Sales, Including Certain Buying, Occupancy and Warehousing Expenses

Cost of sales consists of merchandise costs, including design, sourcing, importing and inbound freight costs, as well as markdowns, shrinkage and certain promotional costs (collectively merchandise costs) and buying, occupancy, and warehousing costs. Buying, occupancy and warehousing costs consist of compensation, employee benefit expenses

and travel for our buyers and certain senior merchandising executives; rent and utilities related to our stores, corporate headquarters, distribution centers and other office space; freight from our distribution centers to the stores; compensation and supplies for our distribution centers, including purchasing, receiving and inspection costs; and shipping and handling costs related to our e-commerce operation. Merchandise margin is the difference between net sales and merchandise costs. Gross profit is the difference between net sales and cost of sales.

Table of Contents

Selling, General and Administrative Expenses

Selling, general and administrative expenses consist of compensation and employee benefit expenses, including salaries, incentives and related benefits associated with our stores and corporate headquarters. Selling, general and administrative expenses also include advertising costs, supplies for our stores and home office, communication costs, travel and entertainment, leasing costs and services purchased. Selling, general and administrative expenses do not include compensation, employee benefit expenses and travel for our design, sourcing and importing teams, our buyers and our distribution centers as these amounts are recorded in cost of sales.

Other Income (Expense), Net

Other income (expense), net consists primarily of interest income/expense and foreign currency transaction gain/loss.

Other-than-Temporary Impairment

The Company evaluates its investments for impairment in accordance with ASC 320, *Investments – Debt and Equity Securities* (ASC 320). ASC 320 provides guidance for determining when an investment is considered impaired, whether impairment is other-than-temporary, and measurement of an impairment loss. An investment is considered impaired if the fair value of the investment is less than its cost. If, after consideration of all available evidence to evaluate the realizable value of its investment, impairment is determined to be other-than-temporary, then an impairment loss is recognized in the Consolidated Statement of Operations equal to the difference between the investment's cost and its fair value. As of May 3, 2009, the Company adopted ASC 320-10-65, *Transition Related to FSP FAS 115-2 and FAS 124-2, Recognition and Presentation of Other-Than-Temporary-Impairments* (ASC 320-10-65), which modifies the requirements for recognizing other-than-temporary impairment (OTTI) and changes the impairment model for debt securities. In addition, ASC 320-10-65 requires additional disclosures relating to debt and equity securities both in the interim and annual periods as well as requires the Company to present total OTTI in the Consolidated Statements of Operations, with an offsetting reduction for any non-credit loss impairment amount recognized in other comprehensive income (OCI). During the 39 weeks ended October 30, 2010, the Company recorded OTTI charges in earnings related to credit losses on its investment securities of \$1.2 million. There was \$0.2 million of net impairment loss recognized in earnings during the 39 weeks ended October 31, 2009. Refer to Notes 3 and 4 to the Consolidated Financial Statements for additional information regarding net impairment losses recognized in earnings.

Cash and Cash Equivalents, Short-term Investments and Long-term Investments

Cash includes cash equivalents. The Company considers all highly liquid investments purchased with a maturity of three months or less to be cash equivalents.

As of October 30, 2010, short-term investments included auction rate securities (ARS) classified as available for sale that the Company expects to be redeemed at par within 12 months, based on notice from the issuer.

As of October 30, 2010, long-term investments included investments with remaining maturities of greater than 12 months and consisted of ARS classified as available-for-sale that have experienced failed auctions or have long-term auction resets and the Company's ARS Call Option related to investment sales during the 13 weeks ended October 30, 2010. The remaining contractual maturities of our long-term ARS investments are approximately 20 months and the ARS Call Option expires on October 29, 2013.

Unrealized gains and losses on the Company's available-for-sale securities are excluded from earnings and are reported as a separate component of stockholders' equity, within accumulated other comprehensive income, until realized. The components of OTTI losses related to credit losses, as defined by ASC 320, are considered by the Company to be realized losses. When available-for-sale securities are sold, the cost of the securities is specifically identified and is used to determine any realized gain or loss. Realized gains or losses are recognized separately on the Company's Consolidated Statements of Operations as a realized gain or loss on sale of investment securities.

Refer to Note 3 to the Consolidated Financial Statements for information regarding cash and cash equivalents, short-term investments and long-term investments.

Table of Contents***Merchandise Inventory***

Merchandise inventory is valued at the lower of average cost or market, utilizing the retail method. Average cost includes merchandise design and sourcing costs and related expenses. The Company records merchandise receipts at the time merchandise is delivered to the foreign shipping port by the manufacturer (FOB port). This is the point at which title and risk of loss transfer to the Company.

The Company reviews its inventory levels to identify slow-moving merchandise and generally uses markdowns to clear merchandise. Additionally, the Company estimates a markdown reserve for future planned permanent markdowns related to current inventory. Markdowns may occur when inventory exceeds customer demand for reasons of style, seasonal adaptation, changes in customer preference, lack of consumer acceptance of fashion items, competition, or if it is determined that the inventory in stock will not sell at its currently ticketed price. Such markdowns may have a material adverse impact on earnings, depending on the extent and amount of inventory affected. The Company also estimates a shrinkage reserve for the period between the last physical count and the balance sheet date. The estimate for the shrinkage reserve, based on historical results, can be affected by changes in merchandise mix and changes in actual shrinkage trends.

Income Taxes

The Company calculates income taxes in accordance with ASC 740, *Income Taxes* (ASC 740), which requires the use of the asset and liability method. Under this method, deferred tax assets and liabilities are recognized based on the difference between the Consolidated Financial Statement carrying amounts of existing assets and liabilities and their respective tax bases as computed pursuant to ASC 740. Deferred tax assets and liabilities are measured using the tax rates, based on certain judgments regarding enacted tax laws and published guidance, in effect in the years when those temporary differences are expected to reverse. A valuation allowance is established against the deferred tax assets when it is more likely than not that some portion or all of the deferred taxes may not be realized. Changes in the Company's level and composition of earnings, tax laws or the deferred tax valuation allowance, as well as the results of tax audits may materially impact our effective tax rate.

The Company evaluates its income tax positions in accordance with ASC 740 which prescribes a comprehensive model for recognizing, measuring, presenting and disclosing in the financial statements tax positions taken or expected to be taken on a tax return, including a decision whether to file or not to file in a particular jurisdiction. Under ASC 740, a tax benefit from an uncertain position may be recognized only if it is more likely than not that the position is sustainable based on its technical merits.

The calculation of the deferred tax assets and liabilities, as well as the decision to recognize a tax benefit from an uncertain position and to establish a valuation allowance require management to make estimates and assumptions. The Company believes that its assumptions and estimates are reasonable, although actual results may have a positive or negative material impact on the balances of deferred tax assets and liabilities, valuation allowances, or net income.

Property and Equipment

Property and equipment is recorded on the basis of cost with depreciation computed utilizing the straight-line method over the assets' estimated useful lives. The useful lives of our major classes of assets are as follows:

Buildings	25 years
Leasehold Improvements	Lesser of 10 years or the term of the lease
Fixtures and equipment	5 years

In accordance with ASC 360, *Property, Plant, and Equipment* (ASC 360), the Company's management evaluates the value of leasehold improvements and store fixtures associated with retail stores, which have been open longer than one year. The Company evaluates long-lived assets for impairment at the individual store level, which is the lowest level at which individual cash flows can be identified. Impairment losses are recorded on long-lived assets used in operations when events and circumstances indicate that the assets might be impaired and the undiscounted cash flows estimated to be generated by those assets are less than the carrying amounts of the assets. When events such as these occur, the impaired assets are adjusted to their estimated fair value and an impairment loss is recorded separately as a component of operating income under loss on impairment of assets. During the 26 weeks ended July 31, 2010, the Company recorded asset impairment charges of \$18.0 million related to the impairment of M+O stores. Based on the

Company's decision to close all M+O stores in Fiscal 2010, the Company determined that the stores not previously impaired would not be able to generate sufficient cash flow

over the life of the related leases to recover the Company's initial investment in them. No asset impairment charges were recorded in the 13 weeks ended October 30, 2010.

Refer to Note 12 to the Consolidated Financial Statements for additional information regarding the discontinued operations for M+O.

Goodwill

As of October 30, 2010, the Company had approximately \$11.4 million of goodwill compared to \$11.2 million as of January 30, 2010. The Company's goodwill is primarily related to the acquisition of its importing operations on January 31, 2000, as well as the acquisition of its Canadian business on November 29, 2000. The increase in goodwill is due to the fluctuation in the foreign exchange spot rate at which the Canadian goodwill is translated. In accordance with ASC 350, *Intangibles- Goodwill and Other*, the Company evaluates goodwill for possible impairment on at least an annual basis and last performed an annual impairment test as of January 30, 2010. As a result of the Company's annual goodwill impairment test, the Company concluded that its goodwill was not impaired.

Gift Cards

The value of a gift card is recorded as a current liability upon purchase, and revenue is recognized when the gift card is redeemed for merchandise. The Company estimates gift card breakage and recognizes revenue in proportion to actual gift card redemptions as a component of net sales. The Company determines an estimated gift card breakage rate by continuously evaluating historical redemption data and the time when there is a remote likelihood that a gift card will be redeemed. During the 13 weeks ended October 30, 2010 and October 31, 2009, the Company recorded \$0.7 million and \$1.0 million, respectively, of revenue related to gift card breakage. During the 39 weeks ended October 30, 2010 and October 31, 2009, the Company recorded \$2.5 million and \$4.2 million, respectively, of revenue related to gift card breakage.

Deferred Lease Credits

Deferred lease credits represent the unamortized portion of construction allowances received from landlords related to the Company's retail stores. Construction allowances are generally comprised of cash amounts received by the Company from its landlords as part of the negotiated lease terms. The Company records a receivable and a deferred lease credit liability at the lease commencement date (date of initial possession of the store). The deferred lease credit is amortized on a straight-line basis as a reduction of rent expense over the term of the original lease (including the pre-opening build-out period) and any subsequent renewal terms. The receivable is reduced as amounts are received from the landlord.

Co-branded Credit Card and Customer Loyalty Program

The Company offers a co-branded credit card (the "AE Visa Card") and a private label credit card (the "AE Credit Card") under both the American Eagle and aerie brands. Both of these credit cards are issued by a third-party bank (the "Bank"), and the Company has no liability to the Bank for bad debt expense, provided that purchases are made in accordance with the Bank's procedures. Once a customer is approved to receive the AE Visa Card and the card is activated, the customer is eligible to participate in the Company's credit card rewards program. On January 1, 2010, the Company modified the benefits of the AE Visa and AE Credit Card programs to make both credit cards a part of the rewards program. Customers who make purchases at AE, aerie and 77kids earn discounts in the form of savings certificates when certain purchase levels are reached. Also, AE Visa Card customers, who make purchases at other retailers where the card is accepted, earn additional discounts. Savings certificates are valid for 90 days from issuance. Points earned under the credit card rewards program on purchases at AE and aerie are accounted for by analogy to ASC 605-25, *Revenue Recognition, Multiple Element Arrangements* (ASC 605-25). The Company believes that points earned under its point and loyalty programs represent deliverables in a multiple element arrangement rather than a rebate or refund of cash. Accordingly, the portion of the sales revenue attributed to the award points is deferred and recognized when the award is redeemed or when the points expire. Additionally, credit card reward points earned on non-AE or aerie purchases are accounted for in accordance with ASC 605-25. As the points are earned, a current liability is recorded for the estimated cost of the award, and the impact of adjustments is recorded in cost of sales. Through December 31, 2009, the Company offered its customers the AE All-Access Pass (the "Pass"), a customer loyalty program. On January 1, 2010, the Company replaced the Pass, with the AEReward\$sm Loyalty Program (the "Program"). Under either loyalty program, customers accumulate points based on purchase activity and earn

rewards by reaching certain point thresholds during three-month earning periods. Rewards earned during these periods are valid through the stated expiration date, which is approximately one month from the mailing date. These rewards can be redeemed for a discount on a

Table of Contents

purchase of merchandise. Rewards not redeemed during the one-month redemption period are forfeited. The Company determined that rewards earned using the Pass and the Program should be accounted for in accordance with ASC 605-25. Accordingly, the portion of the sales revenue attributed to the award credits is deferred and recognized when the awards are redeemed or expire.

Stock Repurchases

During Fiscal 2007, the Company's Board authorized a total of 60.0 million shares of our common stock for repurchase under our share repurchase program with expiration dates extending into Fiscal 2010. The Company repurchased 18.7 million shares during Fiscal 2007 and the authorization related to 11.3 million shares expired in Fiscal 2009. At the beginning of Fiscal 2010, the Company had 30.0 million shares remaining authorized for repurchase.

The Company repurchased 14.0 million shares as part of its publicly announced repurchase programs during the 39 weeks ended October 30, 2010 for approximately \$192.3 million, at a weighted average price of \$13.73 per share. As of October 30, 2010, the Company had 16.0 million shares remaining authorized for repurchase. These shares may be repurchased at the Company's discretion. The authorization relating to the 16.0 million shares remaining under the program expires at the end of Fiscal 2010.

During the 39 weeks ended October 30, 2010 and October 31, 2009, the Company repurchased approximately 1.0 million and 16,000 shares, respectively, from certain employees at market prices totaling \$18.0 million and \$0.2 million, respectively. These shares were repurchased for the payment of taxes in connection with the vesting of share-based payments, as permitted under the 2005 Stock Award and Incentive Plan (the "2005 Plan").

The aforementioned share repurchases have been recorded as treasury stock.

Segment Information

In accordance with ASC 280, *Segment Reporting* (ASC 280), the Company has identified three operating segments (American Eagle Brand US and Canadian stores, aerie by American Eagle retail stores and AEO Direct) that reflect the basis used internally to review performance and allocate resources. All of the operating segments have been aggregated and are presented as one reportable segment, as permitted by ASC 280.

Reclassification

Certain reclassifications have been made to the Consolidated Financial Statements for prior periods in order to conform to the current period presentation.

(1) Fair value excludes \$9.2 million as of October 30, 2010 and \$112.9 million as of October 31, 2009 of securities whose fair value approximates par.

As of October 30, 2010, the Company had a total of \$640.4 million in cash and cash equivalents, short-term and long-term investments, including \$9.2 million of investments in ARS whose fair value approximates par.

During the 13 weeks ended October 30, 2010, the Company liquidated \$176.4 million par value (\$163.3 million carrying value) of its available-for-sale securities. The Company received proceeds of \$149.6 million plus accrued interest and recognized a net loss in its Consolidated Statements of Operations for the 13 weeks ended October 30, 2010 of \$24.2 million, of which \$10.9 million was previously included in OCI on the Company's Consolidated Balance Sheet.

Table of Contents

Relating to \$119.7 million of the ARS securities sold during the 13 weeks ended October 30, 2010, the Company entered into a settlement agreement under which a financial institution (the purchaser) purchased the ARS at a discount to par, plus accrued interest. Additionally, under this agreement, the Company retained a right (the ARS Call Option), for a period ending October 29, 2013 to: (a) repurchase any or all of the ARS securities sold at the agreed upon purchase prices received from the purchaser plus accrued interest; and/or (b) receive additional proceeds from the purchaser upon certain redemptions of the ARS securities sold. The ARS Call Option is cancelable by the purchaser for additional cash consideration.

The Company is required to assess the value of the ARS Call Option at the end of each reporting period, with any changes in fair value recorded within the Consolidated Statement of Operations. As of October 30, 2010, the Company determined that the fair value was \$0.4 million. The fair value of the ARS Call Option is included as an offsetting amount within the net loss on liquidation of \$24.2 million referenced above and is classified as a long-term investment on the Consolidated Balance Sheet as of October 30, 2010.

The Company continues to monitor the market for ARS and consider the impact, if any, on the fair value of its investments. If current market conditions deteriorate further, or the anticipated recovery in market values does not occur, the Company may be required to record impairment charges on its remaining ARS investments.

Refer to Note 4 to the Consolidated Financial Statements for additional information regarding the fair value measurement of our investment securities.

4. Fair Value Measurements

ASC 820, *Fair Value Measurement Disclosures* (ASC 820), defines fair value, establishes a framework for measuring fair value in accordance with GAAP, and expands disclosures about fair value measurements. Fair value is defined under ASC 820 as the exit price associated with the sale of an asset or transfer of a liability in an orderly transaction between market participants at the measurement date.

Financial Instruments

Valuation techniques used to measure fair value under ASC 820 must maximize the use of observable inputs and minimize the use of unobservable inputs. In addition, ASC 820 establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include:

Level 1 Quoted prices in active markets for identical assets or liabilities.

Level 2 Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 Unobservable inputs (i.e. projections, estimates, interpretations, etc.) that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

As of October 30, 2010 and October 31, 2009, the Company held certain assets that are required to be measured at fair value on a recurring basis. These include cash equivalents and short and long-term investments, including ARS, ARPS and the ARS Call Option as described in Note 3 to the Consolidated Financial Statements.

In accordance with ASC 820, the following table represents the Company's fair value hierarchy for its financial assets (cash equivalents and investments) measured at fair value on a recurring basis as of October 30, 2010 and October 31, 2009:

The Company uses a discounted cash flow model to value its Level 3 investments. At October 30, 2010, the assumptions in the Company's model included different recovery periods, ranging from 8 to 20 months, depending on the type of security and varying discount factors for yield, ranging from 0.3% to 0.4%, and illiquidity of 0.5%. At October 31, 2009, the assumptions in the Company's model included different recovery periods, ranging from 12 months to 11 years, depending on the type of security and varying discount factors for yield, ranging from 0.3% to 7.5%, and illiquidity, ranging from 0.3% to 1.0%. These assumptions are subjective. They are based on the Company's current judgment and its view of current market conditions. The use of different assumptions would result in a different valuation and related charge.

As a result of the discounted cash flow analysis, during the 39 weeks ended October 30, 2010, the Company recognized a net impairment of \$0.6 million. The total cumulative impairment recognized in OCI prior to the Company's liquidation of \$176.4 million par value (\$163.3 million carrying value) available-for-sale securities during the 13 weeks ended October 30,

Table of Contents

2010 was \$10.9 million (\$6.8 million, net of tax). Total cumulative impairment recognized in OCI at the end of Fiscal 2009 was \$10.3 million (\$6.4 million, net of tax). The increase in temporary impairment was primarily driven by unfavorable changes in the discount rate. These amounts were previously recorded in OCI and resulted in a decrease in the investments' estimated fair values. As a result of a credit rating downgrade on a student-loan backed ARS, the Company also recorded a net impairment loss in earnings of \$1.2 million during the 39 weeks ended October 30, 2010.

As previously described in Note 3 to the Consolidated Financial Statements, the Company liquidated \$176.4 million par value (\$163.3 million carrying value) of its available-for-sale securities. Through the liquidation, the Company received proceeds of \$149.6 million plus accrued interest and recognized a loss in its consolidated financial statements of operations for the 13 weeks ended October 30, 2010 of \$24.2 million, net of the ARS Call Option gain of \$0.4 million. The recognized loss included all \$10.9 million of cumulative impairment which was previously included in OCI on the Consolidated Balance Sheet.

The fair value of the ARS Call Option described in Note 3 to the Consolidated Financial Statements was also estimated using a discounted cash flow model. The model considered potential changes in yields for securities with similar characteristics to the underlying ARS and evaluated possible future refinancing opportunities for the issuers of the ARS. The analysis then assessed the likelihood that the options would be exercisable as a result of the underlying ARS being redeemed or traded in a secondary market at an amount greater than the exercise price prior to the end of the option term. Future changes in the fair values of the ARS Call Option will be recorded within the Consolidated Statements of Operations.

The following table presents a rollforward of the amount of OTTI related to credit losses that has been recognized in earnings:

	39 Weeks Ended October 30, 2010

Non-Financial Assets and Liabilities

The Company's non-financial assets, which include goodwill and property and equipment, are not required to be measured at fair value on a recurring basis. However, if certain triggering events occur, or if an annual impairment test is required and the Company is required to evaluate the non-financial instrument for impairment, a resulting asset impairment would require that the non-financial asset be recorded at the estimated fair value. As a result of the Company's annual goodwill impairment test

Table of Contents

performed as of January 30, 2010, the Company concluded that its goodwill was not impaired. During the 13 and 39 weeks ended October 30, 2010, there were no triggering events that prompted an asset impairment test of the Company's goodwill.

Certain long-lived assets were measured at fair value on a nonrecurring basis using Level 3 inputs as defined in ASC 820. Based on the decision to close all M+O stores in Fiscal 2010, the Company determined that the M+O stores not previously impaired would not be able to generate sufficient cash flow over the life of the related leases to recover the Company's initial investment in them. Therefore, during the 26 weeks ended July 31, 2010, the M+O stores not previously impaired were written down to their fair value, resulting in a loss on impairment of assets of \$18.0 million. The loss on impairment of assets was recorded within Loss from Discontinued Operations for the 39 weeks ended October 30, 2010. The fair value of those stores were determined by estimating the amount and timing of net future cash flows and discounting them using a risk-adjusted rate of interest. The Company estimates future cash flows based on its experience and knowledge of the market in which the store is located.

Refer to Note 12 to the Consolidated Financial Statements for additional information regarding the discontinued operations for M+O.

5. Earnings per Share

ASC 260-10-45, *Participating Securities and the Two-Class Method* (ASC 260-10-45), addresses whether awards granted in unvested share-based payment transactions that contain non-forfeitable rights to dividends or dividend equivalents (whether paid or unpaid) are participating securities and therefore are included in computing earnings per share under the two-class method, as described in ASC 260, *Earnings Per Share* (ASC 260). Participating securities are securities that may participate in dividends with common stock and the two-class method is an earnings allocation formula that treats a participating security as having rights to earnings that would otherwise have been available to common shareholders. Under the two-class method, earnings for the period are allocated between common shareholders and other shareholders, based on their respective rights to receive dividends. Restricted stock awards granted to certain employees under the Company's 2005 Plan are considered participating securities as these employees receive non-forfeitable dividends at the same rate as common stock. For the 13 and 39 weeks ended October 30, 2010 and October 31, 2009, the application of ASC 260-10-45 resulted in no change to basic EPS or diluted EPS.

and 39 weeks ended October 31, 2009, respectively, were outstanding, but were not included in the computation of weighted average diluted common share amounts as the effect of doing so would have been anti-dilutive. Approximately 0.8 million shares of restricted stock units for both the 13 and 39 weeks ended October 30, 2010 and approximately 1.4 million shares of restricted stock for both the 13 and 39 weeks ended October 31, 2009 were not included in the computation of weighted average diluted common share amounts because the number of shares ultimately issued is contingent on the Company's performance compared to pre-established annual performance goals. Additionally, there were approximately 27,000 shares for the 39 weeks ended October 30, 2010 of time-based restricted stock units that were outstanding, but not included in the computation of weighted average diluted common share amounts as the effect of doing so would have been anti-dilutive.

7. Note Payable and Other Credit Arrangements

The Company has borrowing agreements with four separate financial institutions under which it may borrow an aggregate of \$310.0 million United States Dollars (USD) and \$25.0 million Canadian Dollars (CAD). Of this amount, \$200.0 million USD can be used for demand letter of credit facilities, \$50.0 million USD and \$25.0 million CAD can be used for demand line borrowings and the remaining \$60.0 million USD can be used for either letters of credit or demand line borrowings at the Company's discretion. The expiration dates of the USD demand line facilities are April 20, 2011 and May 22, 2011 and the \$25.0 million CAD demand line has an expiration date of November 20, 2010.

As of October 30, 2010, the Company had outstanding demand letters of credit of \$42.1 million USD and no demand line borrowings.

The availability of any future borrowings is subject to acceptance by the respective financial institutions. The average borrowing rate on the demand line for outstanding borrowings during Fiscal 2010 was 2.1%.

9. Share-Based Compensation

The Company accounts for share-based compensation under the provisions of ASC 718, *Compensation - Stock Compensation* (ASC 718), which requires companies to measure and recognize compensation expense for all share-based payments at fair value.

Total share-based compensation expense from continuing operations included in the Consolidated Statements of Operations for the 13 and 39 weeks ended October 30, 2010 was \$3.5 million (\$2.2 million, net of tax) and \$21.9 million (\$13.5 million, net of tax) and for the 13 and 39 weeks ended October 31, 2009 was \$9.8 million (\$6.0 million, net of tax) and \$19.0 million (\$11.7 million, net of tax), respectively.

Stock Option Grants

The Company grants both time-based and performance-based stock options under its 2005 Plan. Time-based stock option awards vest over the requisite service period of the award or to an employee's eligible retirement date, if earlier. Performance-based stock option awards vest over three years and are earned if the Company meets pre-established performance goals during each year.

(1) Options exercised during the 39 weeks ended October 30, 2010 had exercise prices ranging from \$4.68 to \$17.51. The weighted-average grant date fair value of stock options granted during the 39 weeks ended October 30, 2010 and October 31, 2009 was \$5.19 and \$3.55, respectively. The aggregate intrinsic value of options exercised during the 39 weeks ended October 30, 2010 and October 31, 2009 was \$10.7 million and \$11.4 million, respectively. Cash received from the exercise of stock options was \$5.8 million for the 39 weeks ended October 30, 2010 and \$8.7 million for the 39 weeks ended October 31, 2009. The actual tax benefit realized from stock option exercises totaled \$12.8 million for the 39 weeks ended October 30, 2010 and \$8.9 million for the 39 weeks ended October 31, 2009.

The fair value of stock options was estimated based on the closing market price of the Company's common stock on the date of the grant using a Black-Scholes option pricing model with the following weighted-average assumptions:

Black-Scholes Option Valuation Assumptions	39 Weeks Ended	
	October 30, 2010	October 31, 2009
Risk-free interest rate (1)	2.3%	1.7%
Dividend yield	2.1%	3.9%
Volatility factor (2)	40.2%	62.1%
Weighted-average expected term (3)	4.5 years	4.5 years
Expected forfeiture rate (4)	8.0%	8.0%

(1) Based on the U.S. Treasury yield curve in effect at the time of grant with a term consistent with the expected life of our stock options.

(2) Based on a combination of historical volatility of the Company's common stock and implied volatility.

(3) Represents the period of time options are expected to be outstanding, based on historical experience.

(4) Based upon historical experience.

As of October 30, 2010, there was \$5.4 million of unrecognized compensation expense related to non-vested stock option awards that is expected to be recognized over a weighted average period of 1.5 years.

Restricted Stock Grants

Time-based restricted stock awards include two types of awards; time-based restricted stock and time-based restricted stock units. Time-based restricted stock awards vest over three years and participate in nonforfeitable dividends. Time-based restricted stock units vest over three years; however, they may be accelerated to vest over one year if the Company meets pre-established performance goals in the year of grant. Time-based restricted stock units receive dividend equivalents in the form of additional time-based restricted stock units, which are subject to the same restrictions and forfeiture provisions as the original award.

Table of Contents

Performance-based restricted stock awards include two types of awards; performance-based restricted stock and performance-based restricted stock units. Performance-based restricted stock awards vest over one year based upon the Company's achievement of pre-established goals and participate in nonforfeitable dividends. Performance-based restricted stock units cliff vest at the end of a three year period based upon the Company's achievement of pre-established goals. Performance-based restricted stock units receive dividend equivalents in the form of additional performance-based restricted stock units, which are subject to the same restrictions as the original award.

The grant date fair value of restricted stock awards is based on the closing market price of the Company's common stock on the date of grant. The Company grants to its employees both restricted stock awards, which entitles the holders to receive nonforfeitable dividends prior to vesting, and restricted stock unit awards. The restricted stock unit awards differ from the restricted stock awards in that they do not contain nonforfeitable rights to dividends and are therefore not considered participating securities in accordance with ASC 260-10-45.

A summary of the Company's restricted stock activity is presented in the following tables:

As of October 30, 2010, there was \$15.3 million of unrecognized compensation expense related to non-vested restricted stock awards that is expected to be recognized over a weighted average period of 2.4 years.

As of October 30, 2010, the Company had 25.9 million shares available for all equity grants.

10. Income Taxes

The provision for income taxes from continuing operations is based on the current estimate of the annual effective income tax rate and is adjusted as necessary for quarterly events. The effective income tax rate from continuing operations based on actual operating results for the 13 weeks ended October 30, 2010 was 52.1% compared to 19.2% for the 13 weeks ended October 31, 2009. The effective income tax rate from continuing operations based on actual operating results for the 39 weeks ended October 30, 2010 was 40.7% compared to 24.0% for the 39 weeks ended October 31, 2009. The increase in the effective income tax rate for Fiscal 2010 was primarily due to losses on the sale

of certain ARS investments in which no income tax benefit was recognized. Additionally, the effective income tax rate was lower in Fiscal 2009 due to the tax benefit associated with the repatriation of foreign earnings as well as federal and state income tax settlements and other changes in income tax reserves.

The Company records accrued interest and penalties related to unrecognized tax benefits in income tax expense.

Table of Contents

The Company recognizes income tax liabilities related to unrecognized tax benefits in accordance with ASC 740 and adjusts these liabilities when its judgment changes as the result of the evaluation of new information not previously available. There were no significant changes in unrecognized tax benefits during the 39 weeks ended October 30, 2010. Unrecognized tax benefits decreased by \$7.3 million during the 39 weeks ended October 31, 2009, primarily due to federal and state income tax settlements and other changes in income tax reserves. The Company does not anticipate any significant changes to the unrecognized tax benefits recorded at the balance sheet date within the next 12 months.

11. Legal Proceedings

The Company is subject to certain legal proceedings and claims arising out of the conduct of its business. In accordance with ASC 450, *Contingencies* (ASC 450), management records a reserve for estimated losses when the loss is probable and the amount can be reasonably estimated. If a range of possible loss exists and no anticipated loss within the range is more likely than any other anticipated loss, the Company records the accrual at the low end of the range, in accordance with ASC 450. As the Company believes that it has provided adequate reserves, it anticipates that the ultimate outcome of any matter currently pending against the Company will not materially affect the consolidated financial position or results of operations of the Company.

12. Discontinued Operations

On March 5, 2010, the Company's Board of Directors approved management's recommendation to proceed with the closure of the M+O brand. The Company notified employees and issued a press release announcing this decision on March 9, 2010. The decision to take this action resulted from an extensive evaluation of the brand and review of strategic alternatives, which revealed that it was not achieving performance levels that warranted further investment. The Company completed the closure of the M+O stores and e-commerce operation during the 13 weeks ended July 31, 2010 and the Consolidated Financial Statements reflect the presentation of M+O as a discontinued operation. Costs associated with exit or disposal activities are recorded when incurred. A summary of the exit and disposal costs recognized within Loss from Discontinued Operations on the Consolidated Income Statement for the 39 weeks ended October 30, 2010 are included in the table as follows. Results from discontinued operations were nominal for the 13 weeks ended October 30, 2010.

Review by Independent Registered Public Accounting Firm

Ernst & Young LLP, our independent registered public accounting firm, has performed a limited review of the unaudited Consolidated Financial Statements as of and for the 13 and 39 week periods ended October 30, 2010 and October 31, 2009, as indicated in their report on the limited review included below. Since they did not perform an audit, they express no opinion on the unaudited Consolidated Financial Statements referred to above.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Stockholders

American Eagle Outfitters, Inc.

We have reviewed the consolidated balance sheets of American Eagle Outfitters, Inc. (the Company) as of October 30, 2010 and October 31, 2009, and the related consolidated statements of operations and retained earnings for the thirteen and thirty-nine week periods ended October 30, 2010 and October 31, 2009 and the consolidated statements of cash flows for the thirty-nine week periods ended October 30, 2010 and October 31, 2009. These financial statements are the responsibility of the Company's management.

We conducted our reviews in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our reviews, we are not aware of any material modifications that should be made to the consolidated financial statements referred to above for them to be in conformity with U.S. generally accepted accounting principles. We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet of American Eagle Outfitters, Inc. as of January 30, 2010, and the related consolidated statements of operations, comprehensive income, stockholder's equity, and cash flows for the year then ended not presented herein, and in our report dated March 26, 2010, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying consolidated balance sheet as of January 30, 2010, is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

The following discussion and analysis of financial condition and results of operations should be read in conjunction with our Fiscal 2009 Management's Discussion and Analysis of Financial Condition and Results of Operations which can be found in our Fiscal 2009 Annual Report on Form 10-K.

In addition, the following discussion and analysis of financial condition and results of operations are based upon our Consolidated Financial Statements and should be read in conjunction with these statements and notes thereto. This report contains various forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, which represent our expectations or beliefs concerning future events, including the following:

- the planned opening of 14 new American Eagle stores, 11 new aerie stores, and nine new 77kids stores in the United States and Canada during Fiscal 2010;

- the selection of approximately 25 to 35 American Eagle stores in the United States and Canada for remodeling during Fiscal 2010;

- the planned closure of 15 to 25 American Eagle stores in the United States and Canada during Fiscal 2010;

- the success of aerie by American Eagle and aerie.com;

- the success of 77kids by american eagle stores and 77kids.com;

- the expected payment of a dividend in future periods;

- the possibility of growth through acquisitions, internally developing additional new brands, and/or engaging in future franchise agreements;

- the possibility that we may be required to take temporary or other-than-temporary impairment charges relating to our investment securities;

- the possibility that our credit facilities may not be available for future borrowings; and

- the possibility that we may be required to take store impairment charges related to underperforming stores.

We caution that these forward-looking statements, and those described elsewhere in this report, involve material risks and uncertainties and are subject to change based on factors beyond our control as discussed within Item 1A of this Quarterly Report on Form 10-Q and Item 1A of our Fiscal 2009 Annual Report on Form 10-K. Accordingly, our future performance and financial results may differ materially from those expressed or implied in any such forward-looking statements.

Key Performance Indicators

Our management evaluates the following items, which are considered key performance indicators, in assessing our performance:

Comparable store sales Comparable store sales provide a measure of sales growth for stores open at least one year over the comparable prior year period. In fiscal years following those with 53 weeks, the prior year period is shifted by one week to compare similar calendar weeks. A store is included in comparable store sales in the thirteenth month of operation. However, stores that have a gross square footage increase of 25% or greater due to a remodel are removed from the comparable store sales base, but are included in total sales. These stores are returned to the comparable store sales base in the thirteenth month following the remodel. Sales from American Eagle and aerie stores are included in comparable store sales. Sales from AEO Direct are not included in comparable store sales.

Our management considers comparable store sales to be an important indicator of our current performance.

Comparable store sales results are important to achieve leveraging of our costs, including store payroll, store supplies, rent, etc. Comparable store sales also have a direct impact on our total net sales, cash and working capital.

Gross profit Gross profit measures whether we are optimizing the price and inventory levels of our merchandise and achieving an optimal level of sales. Gross profit is the difference between net sales and cost of sales. Cost of sales consists of: merchandise costs, including design, sourcing, importing and inbound freight costs, as well as markdowns, shrinkage, certain promotional costs and buying, occupancy and warehousing costs. Buying, occupancy and warehousing costs consist of: compensation, employee benefit expenses and travel for our buyers; rent and utilities related to our stores, corporate headquarters, distribution centers and other office space; freight from our distribution centers to the stores; compensation and supplies for our distribution centers, including purchasing, receiving and inspection costs; and shipping and handling costs related to our e-commerce operation. The inability to obtain acceptable levels of sales, initial markups or any significant increase in our use of markdowns could have an adverse effect on our gross profit and results of operations.

Table of Contents

Operating income Our management views operating income as a key indicator of our success. The key drivers of operating income are comparable store sales, gross profit, our ability to control selling, general and administrative expenses, and our level of capital expenditures.

Store productivity Store productivity, including net sales per average square foot, sales per productive hour, average unit retail price, conversion rate, the number of transactions per store, the number of units sold per store and the number of units per transaction, is evaluated by our management in assessing our operational performance.

Inventory turnover Our management evaluates inventory turnover as a measure of how productively inventory is bought and sold. Inventory turnover is important as it can signal slow moving inventory. This can be critical in determining the need to take markdowns on merchandise.

Cash flow and liquidity Our management evaluates cash flow from operations, investing and financing in determining the sufficiency of our cash position. Cash flow from operations has historically been sufficient to cover our uses of cash. Our management believes that cash flow from operations will be sufficient to fund anticipated capital expenditures and working capital requirements.

Results of Operations

Overview

The third quarter demonstrated progress toward driving our brands forward, while enhancing overall profitability. The increase in operating income reflects the initial positive impact of recent activities including improved merchandising, efficient inventory management, organizational streamlining and expense reductions.

We experienced growth in both sales and gross margin during the quarter. Strong sales performance during the peak back-to-school selling period resulted in a 1% increase in comparable store sales. Merchandise margin was improved over last year resulting from lower markdown activity.

Operating income for the 13 weeks ended October 30, 2010 was \$91.5 million compared to \$84.6 million last year. As a rate to sales, operating income was 12.2% for the 13 weeks ended October 30, 2010 compared to 11.5% for the 13 weeks ended October 31, 2009. The 70 basis point increase in operating margin is due to our positive comparable store sales for the 13 weeks ended October 30, 2010, our improved gross margin and the positive impact of our expense reduction initiatives.

Income from continuing operations for the 13 weeks ended October 30, 2010 was \$33.2 million, or \$0.17 per diluted share, and includes a \$0.12 per diluted share realized loss from the sale of investment securities related to our ARS liquidation. This compares to income from continuing operations for the 13 weeks ended October 31, 2009 of \$67.9 million, or \$0.32 per diluted share, and includes a \$0.07 per diluted share tax benefit related to the repatriation of earnings from Canada.

Net income for the 13 weeks ended October 30, 2010 was \$33.0 million compared to \$59.2 million for the 13 weeks ended October 31, 2009. Net income for the 13 weeks ended October 30, 2010 and October 31, 2009 includes the Loss from Discontinued Operations related to MARTIN+OSA (M+O) of \$0.2 million and \$8.8 million, respectively. We had \$640.4 million in cash and cash equivalents, short-term and long-term investments as of October 30, 2010. This includes \$9.2 million of investments in auction rate securities (ARS).

Our business is affected by the pattern of seasonality common to most retail apparel businesses. The results for the current and prior periods are not necessarily indicative of future financial results.

The following table shows the percentage relationship to net sales of the listed line items included in our Consolidated Statements of Operations.

(1) Closed stores during the 39 weeks ended October 30, 2010 include all 28 M+O stores.

Our operations are conducted in one reportable segment, which includes 935 U.S. and Canadian AE retail stores, 147 aerie stand-alone retail stores, seven 77kids retail stores and AEO Direct.

Comparison of the 13 weeks ended October 30, 2010 to the 13 weeks ended October 31, 2009*Net Sales*

Net sales for the 13 weeks ended October 30, 2010 increased 2% to \$751.5 million compared to \$736.0 million for the 13 weeks ended October 31, 2009.

Our comparable store sales increased 1% for the 13 weeks ended October 30, 2010. The increase in comparable store sales was primarily a result of strong performance during the peak back-to-school selling period. For the AE brand, improved assortments translated to an increase in the number of transactions and average transaction value. This was driven by both average unit retail price and unit sales increases. AE women's comparable store sales increased in the low single-digits while AE men's comparable store sales declined in the low single-digits.

Gross Profit

Gross profit for the 13 weeks ended October 30, 2010 increased to \$312.3 million, or 41.6% as a rate to net sales, compared to \$304.2 million, or 41.3% as a rate to net sales last year. Merchandise margin improved by 90 basis points, driven by lower

markdowns. Buying occupancy and warehousing expense increased 60 basis points, primarily due to new stores, which included our newest flagship store in the SoHo district of Manhattan.

There was \$1.1 million of share-based payment expense for the 13 weeks ended October 30, 2010 included in gross profit compared to \$2.3 million for the 13 weeks ended October 31, 2009.

Our gross profit may not be comparable to that of other retailers, as some retailers include all costs related to their distribution network as well as design costs in cost of sales and others may exclude a portion of these costs from cost of sales, including them in a line item such as selling, general and administrative expenses. Refer to Note 2 to the Consolidated Financial Statements for a description of our accounting policy regarding cost of sales, including certain buying, occupancy and warehousing expenses.

Selling, General and Administrative Expenses

Selling, general and administrative expense for the 13 weeks ended October 30, 2010, was \$185.1 million compared to \$184.9 million last year and improved by 50 basis points to 24.6% as a percent to net sales from 25.1% last year. The lower rate is due to the positive impact of expense reductions, partially offset by severance and related charges, as well as our investment in mall and outdoor advertising to support the strength of our AE denim assortment during the fall and holiday seasons.

There was \$2.4 million of share-based payment expense included in selling, general and administrative expenses compared to \$7.5 million last year.

Depreciation and Amortization Expense

Depreciation and amortization expense as a percent to net sales was 4.8% for the 13 weeks ended October 30, 2010, compared to 4.7% for the corresponding period last year. Depreciation and amortization expense increased to \$35.8 million compared to \$34.7 million last year. The increase in expense is primarily due to a greater property and equipment base driven by our level of capital expenditures related to new stores, as well as the completion of information technology, distribution centers and other home office projects. As a rate to net sales, the increase is attributed to the factors noted above, partially offset by the impact of positive comparable store sales.

Other Income (Expense), Net

Other income, net was \$2.0 million for the 13 weeks ended October 30, 2010 compared to net expense of \$0.5 million for the 13 weeks ended October 31, 2009. The change is primarily due to fluctuations in foreign currency transactions.

Realized Loss on Sale of Investment Securities

The realized loss on the sale of investment securities was \$24.2 million, or \$0.12 per diluted share, for the 13 weeks ended October 30, 2010.

During the 13 weeks ended October 30, 2010, we liquidated 95% of our ARS investment portfolio. Our ARS investment portfolio was originally purchased as highly liquid short-term instruments. Due to the deterioration of the ARS market and ARS investments experiencing failed auctions or long-term auction resets, our ARS investment portfolio was subsequently classified as long-term, with a weighted average contractual maturity of approximately 26 years. This liquidation allowed us to convert substantially our entire ARS investment portfolio to short-term liquid assets, with total cash proceeds of \$149.6 million plus accrued interest and a net realized loss of \$24.2 million for the liquidation.

Provision for Income Taxes

The provision for income taxes from continuing operations is based on the current estimate of the annual effective income tax rate and is adjusted as necessary for quarterly events. The effective income tax rate based on actual operating results for the 13 weeks ended October 30, 2010 was 52.1% compared to 19.2% for the 13 weeks ended October 31, 2009. The increase in the effective income tax rate for the 13 weeks ended October 30, 2010 was primarily due to losses on the sale of certain ARS investments in which no income tax benefit was recognized.

Additionally, the effective income tax rate was lower in the 13 weeks ended October 31, 2009 due to the tax benefit associated with the repatriation of foreign earnings as well as federal and state income tax settlements and other changes in income tax reserves.

Table of Contents

Income from Continuing Operations

Income from continuing operations for the 13 weeks ended October 30, 2010 was \$33.2 million, or \$0.17 per diluted share, and includes a \$0.12 per diluted share realized loss from the sale of investment securities related to our ARS liquidation as noted previously. Income from continuing operations for the 13 weeks ended October 31, 2009 was \$67.9 million, or \$0.32 per diluted share, which includes a \$0.07 per diluted share tax benefit related to the repatriation of earnings from Canada last year.

Loss from Discontinued Operations

We completed the closure of M+O stores and related e-commerce operations during the 13 weeks ended July 31, 2010. Accordingly, the after-tax operating results and closure charges appear in Loss from Discontinued Operations on the Consolidated Statements of Operations for all periods presented. Loss from Discontinued Operations, net of tax, was \$0.2 million and \$8.8 million for the 13 weeks ended October 30, 2010 and October 31, 2009, respectively. Refer to the Closure of MARTIN+OSA caption below for additional information regarding the discontinued operations for M+O.

Net Income

Net income decreased to \$33.0 million, or 4.4% as a percent to net sales, from \$59.2 million, or 8.0% as a percent to net sales last year. Net income per diluted share decreased to \$0.17 from \$0.28 in the prior year. The decreases are attributable to the factors noted above.

Comparison of the 39 weeks ended October 30, 2010 to the 39 weeks ended October 31, 2009

Net Sales

Net sales for the 39 weeks ended October 30, 2010 increased 3% to \$2.051 billion compared to \$1.984 billion for the 39 weeks ended October 31, 2009. The increase in net sales resulted primarily from a 1% increase in comparable store sales during the 13 weeks ended October 30, 2010 as a result of strong sales performance during the peak back-to-school shopping period and the 2% increase in comparable store sales in the first half of Fiscal 2010.

Gross Profit

Gross profit for the 39 weeks ended October 30, 2010 increased 4% to \$809.7 million, or 39.5% as a rate to net sales, compared to \$781.7 million, or 39.4% as a rate to net sales last year. Merchandise margin increased 50 basis points due to a decrease in merchandise markdowns. Buying, occupancy and warehousing expense increased 40 basis points primarily due to new stores.

There was \$6.3 million of share-based payment expense for the 39 weeks ended October 30, 2010 included in gross profit compared to \$6.1 million for the 39 weeks ended October 31, 2009.

Our gross profit may not be comparable to that of other retailers, as some retailers include all costs related to their distribution network as well as design costs in cost of sales and others may exclude a portion of these costs from cost of sales, including them in a line item such as selling, general and administrative expenses. Refer to Note 2 to the Consolidated Financial Statements for a description of our accounting policy regarding cost of sales, including certain buying, occupancy and warehousing expenses.

Selling, General and Administrative Expenses

Selling, general and administrative expenses for the 39 weeks ended October 30, 2010, increased to \$519.2 million from \$497.6 million and increased 20 basis points to 25.3% as a percent to net sales from 25.1% last year. The higher rate is primarily due to the impact of the timing of contract-based equity grants incurred in the first half of Fiscal 2010 as well as severance and related charges incurred.

There was \$15.6 million of share-based payment expense included in selling, general and administrative expenses compared to \$12.9 million last year.

Table of Contents

Depreciation and Amortization Expense

Depreciation and amortization expense as a percent to net sales was 5.3% for the 39 weeks ended October 30, 2010 compared to 5.1% for the corresponding period last year. Depreciation and amortization expense increased to \$107.4 million compared to \$101.1 million last year. The increase is primarily due to a greater property and equipment base driven by our level of capital expenditures related to new stores, as well as the completion of information technology, distribution centers and other home office projects. As a rate to net sales, the increase is attributed to the factors noted above, partially offset by the impact of positive comparable store sales.

Other Income (Expense), Net

Other income, net was \$2.5 million for the 39 weeks ended October 30, 2010 compared to net expense of \$3.9 million for the 39 weeks ended October 31, 2009, primarily due to the impact of a non-cash, non-operating foreign currency loss related to holding U.S. dollars in our Canadian subsidiary in anticipation of repatriation last year.

Realized Loss on Sale of Investment Securities

Realized loss on sale of investment securities was \$24.4 million for the 39 weeks ended October 30, 2010, compared to \$2.7 million for the 39 weeks ended October 31, 2009.

During the 13 and 39 weeks ended October 30, 2010, we liquidated 95% of our ARS investment portfolio. Our ARS investment portfolio was originally purchased as highly liquid short-term instruments. Due to the deterioration of the ARS market and ARS investments experiencing failed auctions or long-term auction resets, our ARS investment portfolio was subsequently classified as long-term, with a weighted average contractual maturity of approximately 26 years. This liquidation allowed us to convert substantially our entire ARS investment portfolio to short-term liquid assets, with total cash proceeds of \$149.6 million plus accrued interest and a net realized loss of \$24.2 million for the liquidation.

Additionally, in the first half of Fiscal 2010 we liquidated \$28.1 million of ARS investments for proceeds of \$27.9 million and a total realized loss of \$0.2 million.

Net Impairment Loss Recognized in Earnings

Net impairment loss recognized in earnings relating to our investment securities was \$1.2 million for the 39 weeks ended October 30, 2010, compared to \$0.2 million for the 39 weeks ended October 31, 2009.

Refer to the Fair Value Measurements caption below for additional information.

Provision for Income Taxes

The provision for income taxes from continuing operations is based on the current estimate of the annual effective income tax rate and is adjusted as necessary for quarterly events. The effective income tax rate based on actual operating results for the 39 weeks ended October 30, 2010 was 40.7% compared to 24.0% for the 39 weeks ended October 31, 2009. The increase in the effective income tax rate for the 39 weeks ended October 30, 2010 was primarily due to losses on the sale of certain ARS investments in which no income tax benefit was recognized.

Additionally, the effective income tax rate was lower in the 39 weeks ended October 31, 2009 due to the tax benefit associated with the repatriation of foreign earnings as well as federal and state income tax settlements and other changes in income tax reserves.

Income from Continuing Operations

Income from continuing operations for the 39 weeks ended October 30, 2010 was \$94.9 million, or \$0.46 per diluted share, and includes a \$0.12 per diluted share loss from the sale of investment securities related to our ARS liquidation as discussed above. Income from continuing operations for the 39 weeks ended October 31, 2009 was \$133.8 million, or \$0.64 per diluted share, and includes \$0.11 per diluted share of tax benefits and a \$0.01 per diluted share realized loss on the sale of investment securities last year.

Loss from Discontinued Operations

We completed the closure of M+O stores and related e-commerce operation during the 13 weeks ended July 31, 2010. Accordingly, the after-tax operating results appear in Loss from Discontinued Operations on the Consolidated Statements of

Operations for all periods presented. Loss from Discontinued Operations, net of tax, was \$41.3 million and \$24.1 million for the 39 weeks ended October 30, 2010 and October 31, 2009, respectively. Loss from Discontinued Operations for the 39 weeks ended October 30, 2010 includes pre-tax closure charges of \$43.4 million. Included in the pre-tax charges were lease-related items of \$15.4 million and \$7.6 million for severance and other employee-related charges, \$2.4 million in inventory charges and a non-cash asset impairment charge of \$18.0 million.

Refer to the Closure of MARTIN+OSA caption below for additional information regarding the discontinued operations for M+O.

Net Income

Net income decreased to \$53.6 million from \$109.7 million. Net income per diluted share decreased to \$0.26 from \$0.53 in the prior year. The decreases are attributable to the factors noted above.

Closure of MARTIN+OSA

On March 5, 2010, our Board of Directors approved management's recommendation to proceed with the closure of the M+O brand. We notified employees and issued a press release announcing this decision on March 9, 2010. The decision to take this action resulted from an extensive evaluation of the brand and review of strategic alternatives, which revealed that it was not achieving performance levels that warranted further investment. We completed the closure of the M+O stores and e-commerce operation during the 13 weeks ended July 31, 2010 and the Consolidated Financial Statements reflect the presentation of M+O as a discontinued operation.

The table below presents the significant components of M+O's results included in Loss from Discontinued Operations on the Consolidated Statements of Operations for 13 and 39 weeks ended October 30, 2010 and October 31, 2009, respectively.

International Expansion

In Fiscal 2009, we entered into an international franchise agreement with Alshaya Trading Co., to open a series of American Eagle stores in the Middle East, Northern Africa and Eastern Europe over the next several years. The first two franchised stores opened during the 13 weeks ended May 1, 2010 in Dubai and Kuwait City.

During the first half of Fiscal 2010, we entered a franchise arrangement with Dickson Concepts (International) Limited to open a series of American Eagle stores in Hong Kong, China and Macau. Also in Fiscal 2010, we entered into a separate franchise arrangement with Fox-Wizel, Ltd. to open a series of stores in Israel. These franchise arrangements do not involve a capital investment from AEO and require minimal operational involvement.

Fair Value Measurements

ASC 820, *Fair Value Measurement Disclosures* (ASC 820), defines fair value, establishes a framework for measuring fair value in accordance with GAAP, and expands disclosures about fair value measurements. Fair value is defined

under ASC 820 as the exit price associated with the sale of an asset or transfer of a liability in an orderly transaction between market participants at the measurement date.

Table of Contents***Financial Instruments***

Valuation techniques used to measure fair value under ASC 820 must maximize the use of observable inputs and minimize the use of unobservable inputs. In addition, ASC 820 establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. These tiers include:

Level 1 Quoted prices in active markets for identical assets or liabilities.

Level 2 Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 Unobservable inputs (i.e. projections, estimates, interpretations, etc.) that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

As of October 30, 2010, we held certain assets that are required to be measured at fair value on a recurring basis.

These include cash equivalents and short and long-term investments, including ARS, auction rate preferred securities and the ARS Call Option as described in Note 3 to the Consolidated Financial Statements.

In accordance with ASC 820, the following table represents our fair value hierarchy for our financial assets (cash equivalents and investments) measured at fair value on a recurring basis as of October 30, 2010:

Fair Value Measurements at October 30, 2010				
		Quoted Market Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
(In thousands)	Carrying Amount			
Cash and Cash Equivalents				
Cash	\$ 157,921	\$ 157,921	\$	\$
Commercial Paper	61,697	61,697		
Treasury bills	100,393	100,393		
Money-market	310,764	310,764		
Total cash and cash equivalents	\$ 630,775	\$ 630,775	\$	\$
Short-term Investments				
State and local government ARS	\$ 3,700	\$	\$	\$ 3,700
Total Short-term Investments	\$ 3,700	\$	\$	\$ 3,700
Long-term Investments				
State and local government ARS	\$ 5,500	\$	\$	\$ 5,500
ARS call option	415			415

Total	\$ 640,390	\$ 630,775	\$	\$ 9,615

We use a discounted cash flow model to value our Level 3 investments. At October 30, 2010, the assumptions in our model included different recovery periods, ranging from 8 months to 20 months, depending on the type of security and varying discount factors for yield, ranging from 0.3% to 0.4%, and illiquidity of 0.5%. These assumptions are subjective. They are based on our current judgment and our view of current market conditions. The use of different assumptions would result in a different valuation and related charge. For example, an increase in the recovery period by one year would reduce the fair value of our investment in ARS by approximately \$0.6 million. An increase to the discount rate and illiquidity premium of 100 basis points would reduce the estimated fair value of our investment in ARS by approximately \$0.4 million.

The fair value of the ARS Call Option described in Note 3 to the Consolidated Financial Statements was also estimated using a discounted cash flow model. The model considered potential changes in yields for securities with similar characteristics to the underlying ARS and evaluated possible future refinancing opportunities for the issuers of the ARS. The analysis then assessed the likelihood that the options would be exercisable as a result of the underlying ARS being redeemed or traded in a secondary market at an amount greater than the exercise price prior to the end of the option term. Future changes in the fair values of the ARS Call Option will be recorded within the Consolidated Statements of Operations.

Table of Contents**Liquidity and Capital Resources**

Our uses of cash are generally for working capital, the construction of new stores and remodeling of existing stores, information technology upgrades, distribution center improvements and expansion, the repurchase of common stock and the payment of dividends. Historically, these uses of cash have been funded with cash flow from operations and existing cash on hand. Additionally, our uses of cash include the development of aerie by American Eagle and 77kids by american eagle. We expect to be able to fund our future cash requirements through current cash holdings as well as cash generated from operations. In the future, we expect that our uses of cash will also include new brand concept development, including the further development of 77kids by american eagle.

Our growth strategy includes internally developing new brands and the possibility of further franchising arrangements or acquisitions. We periodically consider and evaluate these options to support future growth. In the event we do pursue such options, we could require additional equity or debt financing. There can be no assurance that we would be successful in closing any potential transaction, or that any endeavor we undertake would increase our profitability.

The following sets forth certain measures of our liquidity:

	October 30, 2010	January 30, 2010	October 31, 2009
Working Capital (in 000 \$)	\$820,435	\$758,075	\$673,455
Current Ratio	3.23	2.85	2.60

The increase in working capital as of October 30, 2010, compared to January 30, 2010, resulted primarily from the cash provided from operations for the 39 weeks ended October 30, 2010 and the proceeds from the sale of our available-for-sale securities of \$177.5 million. This was partially offset by the use of cash for the repurchase of common stock as part of our publicly announced programs, capital expenditures and dividends, as well as the use of cash for the elimination of our notes payable balance due to the voluntary repayment of \$30.0 million on our demand line borrowings.

Cash Flows from Operating Activities of Continuing Operations

Net cash provided by operating activities totaled \$146.4 million and \$164.9 million for the 39 weeks ended October 30, 2010 and October 31, 2009, respectively. For both periods, our major source of cash from operations was merchandise sales and our primary outflows of cash for operations were for the payment of operational costs.

Cash Flows from Investing Activities of Continuing Operations

Cash provided by investing activities for the 39 weeks ended October 30, 2010 included \$177.5 million of proceeds from the sale of investments classified as available for sale, partially offset by \$65.4 million used for capital expenditures. Cash used for investing activities for the 39 weeks ended October 31, 2009 included \$106.0 million used for capital expenditures, partially offset by \$77.0 million of proceeds from the sale of investments classified as available-for-sale.

Cash Flows from Financing Activities of Continuing Operations

Cash used for financing activities for the 39 weeks ended October 30, 2010 consisted primarily of \$192.3 million for the repurchase of 14.0 million shares as part of our publicly announced repurchase program, \$64.7 million for the payment of dividends, \$30.0 million for the full repayment of our demand line borrowings and \$18.0 million for the repurchase of common stock from employees for the payment of taxes in connection with the vesting of share-based payments. Cash used for financing activities for the 39 weeks ended October 31, 2009 primarily included \$62.1 million used for the payment of dividends and \$25.0 million for the partial repayment of our \$75.0 million demand line borrowings.

Credit Facilities

We have borrowing agreements with four separate financial institutions under which we may borrow an aggregate of \$310.0 million United States Dollars (USD) and \$25.0 million Canadian Dollars (CAD). Of this amount, \$200.0 million USD can be used for demand letter of credit facilities, \$50.0 million USD and \$25.0 million CAD can be used for demand line borrowings and the remaining \$60.0 million USD can be used for either letters of credit or demand line borrowings at the Company's discretion. The expiration dates of the USD demand line facilities are April 20, 2011 and May 22, 2011 and the \$25.0 million CAD demand line has an expiration date of November 20,

2010.

As of October 30, 2010, we had outstanding demand letters of credit of \$42.1 million USD and no demand line borrowings.

Table of Contents

The availability of any future borrowings is subject to acceptance by the respective financial institutions. The average borrowing rate on the demand line for outstanding borrowings during Fiscal 2010 was 2.1%.

Capital Expenditures

Capital expenditures for the 39 weeks ended October 30, 2010 were \$65.4 million and included \$42.3 million related to investments in our stores, including 21 new AE and aerie stores in the United States and Canada, seven new 77kids stores in the United States and 20 remodeled stores in the United States and Canada. Additionally, we continued to support our infrastructure growth by investing in the improvement and expansion of our distribution centers (\$13.1 million), information technology initiatives (\$7.3 million) and other home office projects (\$2.7 million). For Fiscal 2010, we expect capital expenditures to be in the range of \$90 million to \$100 million, with approximately half of the amount relating to investments in our stores.

Stock Repurchases

During Fiscal 2007, our Board authorized a total of 60.0 million shares of our common stock for repurchase under our share repurchase program with expiration dates extending into Fiscal 2010. We repurchased 18.7 million shares during Fiscal 2007 and the authorization related to 11.3 million shares expired in Fiscal 2009. At the beginning of Fiscal 2010, the Company had 30.0 million shares remaining authorized for repurchase.

We repurchased 14.0 million shares as part of our publicly announced repurchase programs during the 39 weeks ended October 30, 2010 for approximately \$192.3 million, at a weighted average price of \$13.73 per share. As of October 30, 2010, we had 16.0 million shares remaining authorized for repurchase. These shares may be repurchased at our discretion. The authorization relating to the 16.0 million shares remaining under the program expires at the end of Fiscal 2010.

During the 39 weeks ended October 30, 2010 and October 31, 2009, we repurchased approximately 1.0 million and 16,000 shares, respectively, from certain employees at market prices totaling \$18.0 million and \$0.2 million, respectively. These shares were repurchased for the payment of taxes in connection with the vesting of share-based payments, as permitted under the 2005 Stock Award and Incentive Plan.

The aforementioned share repurchases have been recorded as treasury stock.

Dividends

During the 13 weeks ended October 30, 2010, our Board declared a quarterly cash dividend of \$0.11 per share, which was paid on October 8, 2010.

Critical Accounting Policies

Our critical accounting policies are described in Item 7, *Management's Discussion and Analysis of Financial Condition and Results of Operations*, and in the notes to our Consolidated Financial Statements for the year ended January 30, 2010 contained in our Fiscal 2009 Annual Report on Form 10-K. Any new accounting policies or updates to existing accounting policies as a result of new accounting pronouncements have been discussed in the notes to our Consolidated Financial Statements in this Quarterly Report on Form 10-Q. The application of our critical accounting policies may require management to make judgments and estimates about the amounts reflected in the Consolidated Financial Statements. Management uses historical experience and all available information to make these estimates and judgments, and different amounts could be reported using different assumptions and estimates.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

There were no material changes in our exposure to market risk from January 30, 2010. Our market risk profile as of January 30, 2010 is disclosed in Item 7A, *Quantitative and Qualitative Disclosures About Market Risk*, of our Fiscal 2009 Annual Report on Form 10-K.

ITEM 4. CONTROLS AND PROCEDURES.

Disclosure Controls and Procedures

We maintain disclosure controls and procedures that are designed to provide reasonable assurance that information required to be disclosed in our reports under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to our management including our Principal Executive Officer and our Principal Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

Table of Contents

In designing and evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives.

In connection with the preparation of this Quarterly Report on Form 10-Q, as of October 30, 2010, an evaluation was performed under the supervision and with the participation of our management, including the Principal Executive Officer and Principal Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act). Based upon that evaluation, our Principal Executive Officer and our Principal Financial Officer have concluded that our disclosure controls and procedures were effective at the reasonable assurance level as of the end of the period covered by this Quarterly Report on Form 10-Q.

Changes in Internal Control over Financial Reporting
