Item 2.05. Costs Associated with Exit or Disposal Activities.

On February 16, 2011, Fair Isaac Corporation (the Company) announced additional actions being taken pursuant to its existing reengineering program, which was originally announced on April 1, 2008. The additional actions were committed to by the Company's management on February 15, 2011, and are primarily aimed at reducing costs through headcount reductions, facility consolidations, and reductions in certain marketing activities and discretionary spending. The Company expects the additional actions to result in an aggregate pre-tax restructuring charge of approximately \$10 million in the second quarter of fiscal 2011, all of which will result in future cash expenditures.

As part of the additional actions under the reengineering program, the Company has identified and is eliminating approximately 200 positions across the Company. The headcount reduction is anticipated to result in severance and related pre-tax charges of approximately \$6.5 million in the second quarter of fiscal 2011. In addition, the Company is vacating all or portions of certain of its facilities. The Company expects this to result in pre-tax charges of approximately \$3.5 million in the second quarter of fiscal 2011, which represent future cash lease obligations, net of anticipated sublease income.

Item 7.01. Regulation FD Disclosure.

On February 16, 2011, the Company issued a press release announcing the additional actions under the reengineering program described above. The full text of that press release is furnished herewith as Exhibit 99 and incorporated by reference into this Item 7.01.

Item 9.01. Financial Statements and Exhibits.

(d) Exhibits.
