### ELECTION OF DIRECTOR

#### BOARD OF DIRECTORS AND COMMITTEES

The Board has nominated Michael N. Christodolou to serve as director for an additional three-year term and proxies submitted pursuant to this solicitation will be voted, unless specified otherwise, for the election of Mr. Christodolou. Mr. Christodolou has expressed an intention to continue to serve, if elected, and the Board of Directors knows of no reason why he might be unavailable to continue to serve, if elected. If Mr. Christodolou is unable to continue to serve, the shares represented by all valid proxies will be voted for the election of such substitute nominee as the Board of Directors may recommend. There are no arrangements or understandings between Mr. Christodolou and any other person pursuant to which he was nominated to serve on the Board of Directors.

The election of a director requires the affirmative vote of a plurality of the shares present in person or represented by proxy at the meeting and entitled to vote. Consequently, votes withheld and broker nonvotes with respect to the election of the director will have no impact on the election of the director. THE BOARD OF DIRECTORS RECOMMENDS THAT STOCKHOLDERS VOTE "FOR" THE ELECTION OF MR. CHRISTODOLOU.

Mr. John W. Croghan will end his term as director as of the date of the Annual Meeting in accordance with the provision of the Company's bylaws that does not allow persons over the age of 70 to be nominated or re-nominated to serve on the Board of Directors. As a result, the entire Board of Directors will consist of five members after January 29, 2002. Howard Buffett will become Chairman of the Board of Directors as of that date. The following table sets forth certain information regarding the directors of the Company. All members of the Board of Directors have held the positions with the companies (or their predecessors) set forth under "Principal Occupation" for at least five years, unless otherwise indicated.

### REPORT OF THE COMPENSATION COMMITTEE ON EXECUTIVE COMPENSATION

The report is not deemed to be "soliciting material" or to be "filed" with the Securities and Exchange Commission (the "SEC") or subject to the SEC's proxy rules or to the liabilities of Section 18 of the Securities Exchange Act of 1934 (the "1934 Act"), and the report shall not be deemed to be incorporated by reference into any prior or subsequent filing by the Company under the Securities Act of 1933 or the 1934 Act.

The Compensation Committee of the Board of Directors is comprised of Larry H. Cunningham (as Chairman), Howard G. Buffett, Michael N. Christodolou and John W. Croghan, each of whom is an independent director of the Company. The Compensation Committee is responsible for setting policies with respect to compensation of the Company's executive officers.

**EXECUTIVE OFFICER COMPENSATION.** The Compensation Committee endeavors to implement an executive compensation program that is effective in attracting, retaining and motivating the executive officers upon whom the Company relies to develop and implement its business strategy. The overall goal of the Company's compensation program is to maximize shareholder value. Accordingly, an important component of our compensation philosophy is to closely align the financial interests of the Company's executive officers with those of the shareholders.

During fiscal 2001, the Company utilized a compensation package that provided its executive officers with a base salary, benefits and opportunities to receive performance bonuses as well as grants of stock options, under our existing long-term incentive plans. Base salaries were established based on the executive officers' prior salary and our view of the base salary levels for executive officers with comparable positions and responsibilities in similar companies. The remaining portion of each executive officer's fiscal 2001 compensation was directly related to the success of the Company. This was accomplished in two ways.

First, for fiscal 2001, the Company implemented a management incentive plan (the "Incentive Plan") that directly correlates employee bonuses to the achievement of both corporate and individual performance objectives. The Compensation Committee engaged William M. Mercer, Incorporated, an international consulting company, to assist it in the development of the Incentive Plan. The Compensation Committee is responsible for approving objectives and otherwise administering the implementation of the Incentive Plan with respect to the executive officers. Under the Incentive Plan, a target bonus of 60% of base salary was established for the Chief Executive Officer, and a target bonus of 35% of base salary was established for the other Named Executive Officers. Achievement of corporate objectives relating to specific financial measures account for 80% of the total potential bonus paid to Named Executive Officers

## Edgar Filing: LINDSAY MANUFACTURING CO - Form DEF 14A

under the Incentive Plan. Individual performance objectives, tailored to each officer's area of responsibility, account for the remaining 20% of the total potential bonus under the Incentive Plan. Measurable performance objectives were established for each Named Executive Officer. Minimum "threshold" objectives levels must be achieved under the corporate and the individual component in order for any

7

bonus to be earned under that component. Conversely, up to 200% of the target bonus amount may be paid if target objectives are significantly exceeded. During fiscal 2001, the minimum "threshold" objectives levels were not achieved under the corporate component, so that no bonus was earned under that component by any executive officer. Bonuses were paid to executive officers under the individual component ranging between 69% and 150% of the target bonus amount for this component.

Second, believing that significant ownership of Company stock serves to align management's interest with that of the Company's shareholders, executive officers who, in our opinion, have contributed and will contribute to the growth, development and financial success of the Company were awarded stock options. In order to motivate our executives to increase shareholder value, the exercise price of all stock options granted in fiscal 2001 was equal to market value of our Common Stock on the respective grant dates. Accordingly, these options will only have value if our shareholders also benefit from increasing share prices. In order to motivate the Company's executives to make a long-term commitment to the Company, stock options may not be exercised until they vest. All stock options granted in fiscal 2001 vest ratably over a five-year period. Until vested, these shares are subject to forfeiture provisions if an executive officer leaves the Company.

DISCUSSION OF 2001 COMPENSATION FOR THE CHIEF EXECUTIVE OFFICER. As described above, the Compensation Committee is responsible for establishing total compensation for all executive officers, including Richard Parod, the Company's Chief Executive Officer. Base salary was negotiated with Mr. Parod when he joined the Company in April 2000 and reflects a number of factors, including his previous salary level and salary levels generally for chief executives of public manufacturing companies. Mr. Parod received no salary increase in fiscal 2001, since he joined the Company only five months before fiscal 2001 began. However, after considering various factors, including Mr. Parod's strong performance as Chief Executive Officer since he joined the Company and the increases in salary levels generally for chief executive officers of public manufacturing companies which have occurred since his original hire date, the Compensation Committee determined to increase Mr. Parod's base salary by 4.4% to \$313,200, effective as of the beginning of fiscal 2002. During fiscal 2001, Mr. Parod participated in the Incentive Plan. Since the minimum "threshold" objectives levels were not achieved under the corporate component, he earned no bonus under the corporate component for fiscal 2001. He significantly exceeded his target objectives under the individual component of the Incentive Plan and earned a bonus of 150% of the target bonus amount for this component, which resulted in a total bonus for fiscal 2001 of \$54,000, which was equal to 18% of his base salary. Mr. Parod received no stock option awards during fiscal 2001, in view of the significant stock option award which he received in fiscal 2000 when he joined the Company.

COMPLIANCE WITH SECTION 162(m) OF THE INTERNAL REVENUE CODE. The current tax law imposes an annual, individual limit of \$1 million on the deductibility of the Company's compensation payments to the chief executive officer and to the four most highly compensated executive officers other than the chief executive officer. Specified compensation is excluded for this purpose, including performance-based compensation, provided that certain

conditions are satisfied. The Committee has determined to preserve, to the maximum extent practicable, the deductibility of all compensation payments to the Company's executive officers.

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION. During fiscal 2001 there were no compensation committee interlocks and no insider participation in compensation decisions that were required to be reported under the rules and regulations of the Securities Exchange Act of 1934.
