SUPPLEMENTAL SCHEDULE

Schedule 1: Schedule H, Line 4i--Assets (Held at End of
Year)--December 31, 2002

INDEPENDENT AUDITORS' REPORT

To the Administrative Committee of
Delta Air Lines, Inc.:

We have audited the accompanying statement of net assets available for benefits of the Delta Family-Care Savings Plan (the "Plan") as of December 31, 2002, and the related statement of changes in net assets available for benefits for the year ended December 31, 2002. These financial statements are the responsibility of the Administrative Committee of Delta Air Lines, Inc. in its capacity as administrator of the Plan. Our responsibility is to express an opinion on these financial statements and the schedule based on our audit. The financial statements of the Plan as of December 31, 2001 and for the six-month period ended December 31, 2001 were audited by other auditors who have ceased operations. Those auditors expressed an unqualified opinion on those financial statements in their report dated April 22, 2002.

We conducted our audit in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, such financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2002, and the changes in its net assets available for benefits for the year ended December 31, 2002 in conformity with accounting principles generally accepted in the United States.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying supplemental schedule is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This schedule is the responsibility of the Administrative Committee of Delta Air Lines, Inc. The schedule has been subjected to the auditing procedures applied in the audit of the basic 2002 financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

DELTA FAMILY-CARE SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

Edgar Filing: DELTA AIR LINES INC /DE/ - Form 11-K

DECEMBER 31, 2002 AND DECEMBER 31, 2001

1. DESCRIPTION OF PLAN

The following description of the Delta Family-Care Savings Plan (the "Plan") provides only general information. Participants should refer to the plan document for a complete description of the Plan's provisions.

The Plan is a defined contribution plan established by Delta Air Lines, Inc. (the "Company" or "Delta"). Substantially all Delta and Delta Technology, Inc. ("Delta Technology") personnel who are paid on the United States domestic payroll or employed in the Commonwealth of Puerto Rico are eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended, and is intended to qualify under Section 404(c) of ERISA.

CONTRIBUTIONS

Employee contributions may be made, at the option of the employee, as pre-tax contributions or after-tax contributions or as a combination of both pre-tax and after-tax contributions.

Effective September 1, 2002, eligible U.S.-based nonpilot participants, including Delta Technology participants, who are not highly compensated employees may contribute up to 35% of eligible earnings to the Plan. Prior to September 1, 2002 the limit was 23% for Delta employees and 18% for Delta Technology employees. Eligible nonpilot participants who are highly compensated may contribute up to 13% of eligible earnings to the Plan. Puerto Rico-based employees may contribute up to 10% of eligible earnings. Eligible pilot participants who are not highly compensated employees and eligible pilot participants who are highly compensated employees may contribute up to 18% and 13%, respectively, of eligible earnings to the Plan. Effective July 1, 2001, pilots who exceed the Internal Revenue Code (the "Code") Section 401(a)(17) limit in the prior plan year are subject to further restriction of the percentage of earnings which may be deferred into the Plan. For calendar year 2002 and 2001, the limit is 12%. Pre-tax contributions are subject to the limits under Section 402(g) of the Code.

For nonpilot participants who have completed 12 months of service, Delta makes a monthly matching contribution to a participant's account of \$.50 for every \$1 contributed by the participant, up to 2% of the participant's annual earnings, as defined in the plan document. Prior to October 2002, matching contributions were made on a quarterly basis.

Effective July 1, 2001, the pilots are no longer eligible for the matching contribution, but receive an employer contribution on a monthly basis equal to 3% of eligible earnings. Pilots are eligible for the contribution as of their hire date.

The first \$1,650 (\$1,600 for the six-months ended December 31, 2001 and increased by \$50 per plan year) of these company contributions (the "Annual Cap") to a participant's account is invested in the Delta Preferred Stock Fund, which consists of both Delta Series B ESOP Convertible Preferred Stock ("Preferred Stock") and Delta Common Stock ("Common Stock"). The remainder, if any, of Delta's contributions to a participant's account during a plan year will be allocated among investment options chosen by the participant (Note 2) in the same proportion as the participant directs for his/her own contributions to these options. However, Delta's matching contributions in excess of the

Edgar Filing: DELTA AIR LINES INC /DE/ - Form 11-K

Annual Cap shall be made in Common Stock for noncollectively bargained, highly compensated employees, as determined under the Code, as amended.

Delta Technology participants may receive an additional annual profit-sharing employer contribution equal to 5% of their annual salary.

ADMINISTRATIVE EXPENSES

Certain administrative functions of the Plan are performed by officers or employees of Delta. No such officer or employee receives compensation from the Plan. All other administrative expenses of the Plan are paid by the Plan.

VESTING

Delta participants are immediately vested in all contributions to their accounts plus actual earnings thereon. Delta Technology participants are immediately vested in contributions to their accounts with the exception of the additional annual profit-sharing contribution they receive, which vests ratably over a three-year period. At December 31, 2002, forfeitures totaled \$34,000. These forfeitures from the Delta Technology participants' accounts were used to offset the 2002 Delta Technology profit-sharing employer contribution to the Plan.

PARTICIPANT ACCOUNTS

Each participant's account is credited with the participant's contribution and allocations of the Company's contributions and plan earnings (losses) in the manner described in the plan document, as well as any withdrawals made. Participant's accounts are also charged with an allocation of administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

ACCOUNT DISTRIBUTIONS

Upon retirement or eligibility for long-term disability, a participant's non-Employee Stock Ownership Plan ("ESOP") account balance may be distributed in the form of a single-sum cash payment, cash payments in monthly variable installments for a definite period not to exceed life expectancy, or variable monthly installments to be paid over the life expectancy of the participant and the participant's spouse.

Upon termination of employment for reasons other than retirement or long-term disability, a participant's non-ESOP account balance may be distributed as a lump-sum cash payment or the participant may elect to defer distribution.

A participant's ESOP account balance may be distributed as a lump-sum cash payment or, at the participant's election, in Common Stock when distribution of the non-ESOP portion of the account begins.

While employed, a participant may elect to withdraw all after-tax contributions, pre-1989 matching contributions, and the earnings thereon. Under certain hardship circumstances, a participant may also make an in-service withdrawal of pre-tax contributions.

LOANS TO PARTICIPANTS

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of (1) \$50,000, reduced by the highest outstanding balance of loans for that participant during the previous one year period, or (2) 50% of their account value not to exceed the total value of their non-ESOP account. The loans are repaid, generally through regular payroll deductions, over a period not to exceed four years. The principal amounts of the loans are assets of the Plan and earn interest, which represents income to the borrowing participant, at a fixed rate equal to the average of the secured loan interest rate and the unsecured loan interest rate of the Delta Employees' Credit Union at the initiation of the loan (10% for the year ended December 31, 2002).

2. INVESTMENT OPTIONS

The investment options available to participants consist of numerous mutual funds and several actively managed portfolios, including the Delta Common Stock Fund which invests primarily in Common Stock. A brokerage window was added to the Plan effective October 1, 2001. The brokerage window provides access to mutual funds available through the Fidelity Funds Network(R).

All available investment options are participant-directed except the Delta Preferred Stock Fund, which consists of employer contributions (both Preferred Stock and Common Stock) only. Participants who are age 55 and have completed ten years of participation in the Plan may diversify their account out of Delta stock held in their ESOP account annually over a six year period.

Accounts are limited to 30 investment options at any time (excluding individual mutual funds purchased through the brokerage window), and new contributions are required to be allocated in increments no smaller than 5% (to no more than 20 investment options at a time). Participants are not permitted to allocate more than 50% of their contributions to the Delta Common Stock Fund.

3. SUMMARY OF ACCOUNTING POLICIES

BASIS OF ACCOUNTING

The financial statements of the Plan are prepared under the accrual method of accounting. The year-end for the Plan changed from June 30 to December 31 effective December 31, 2001. Therefore, the accompanying financial statements present the Plan's net assets available for benefits as of December 31, 2002 and December 31, 2001 and the changes in net assets available for benefits for the year ended December 31, 2002 and for the six-month period ended December 31, 2001.

USE OF ESTIMATES

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States requires plan management to use estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from these estimates. The Plan utilizes various investment vehicles. Investment securities, in general, are exposed to various risks, including interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of

Edgar Filing: DELTA AIR LINES INC /DE/ - Form 11-K

investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

INVESTMENT VALUATION AND INCOME RECOGNITION

Investments, except for investment contracts and Preferred Stock, are stated at fair value as determined from the publicly stated price information at the end of each trading day.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

The Preferred Stock is stated at fair value, which is determined based on the greater of (a) the market price of the Delta Common Stock into which each preferred share is convertible (Note 7) and (b) \$72 per share, plus accrued dividends.

The Plan's investment contracts are fully benefit-responsive and, therefore, are presented at contract value (cost plus accrued income). The fair value of the investment contracts held by the Plan at December 31, 2002 and December 31, 2001 was approximately \$673,955,000 and \$580,875,000, respectively. The average yield rates for the investment contracts for the year ended December 31, 2002 and for the six-month period ended December 31, 2001 were 5.46% and 2.91%, respectively. The

weighted average crediting rates for the investment contracts for the year ended December 31, 2002 and for the six-month period ended December 31, 2001 were 5.17% and 5.63%, respectively. Certain guaranteed investment contracts ("GICs") held by the Plan are synthetic; that is, the Plan owns certain fixed income marketable securities, and a third party provides a "wrapper" that guarantees a minimum rate of return and provides benefit responsiveness. At December 31, 2002, the fair value of the underlying assets of the synthetic GICs and the value of the related wrapper contracts was \$598,508,000 and \$(26,721,000), respectively. At December 31, 2001, the fair value of the assets underlying the synthetic GICs and the value of the related wrapper contracts was \$505,799,000 and \$(14,425,000), respectively. Interest rates on the synthetic GICs are generally reset quarterly by the issuer and are guaranteed to be set at a rate not less than 0%.

PAYMENT OF BENEFITS

Benefits are recorded when paid.

4. INVESTMENTS

The fair values of individual investments that represent 5% or more of the Plan's total net assets as of December 31, 2002 and December 31, 2001 are separately identified as follows (in thousands, except for share amounts):

During the year ended December 31, 2002 and the six-month period ended December 31, 2001, the Plan's investments appreciated (depreciated) in fair value as follows (in thousands):

	-----	-----
	\$ 529,342	\$ 625,100
	=====	=====

5. TAX STATUS

Edgar Filing: DELTA AIR LINES INC /DE/ - Form 11-K

The Plan has received a letter of determination dated May 29, 2003 from the Internal Revenue Service, which states that the Plan, as amended through February 25, 2002, is tax-qualified under the appropriate sections of the Code, and therefore the trust established under the Plan is tax-exempt. As a result of certain plan administration and operational concerns, the Company has sought relief under Revenue Procedure 2001-17. Subject to this relief, in the opinion of Delta's management, the Plan, as of December 31, 2002, continues to be in compliance with Section 401(a) and applicable subsections of Sections 409, 401(k), and 4975(e)(7) and continues to be entitled to an exemption from federal income taxation under Section 501(a).

6. PLAN TERMINATION

Although it has not expressed any intent to do so at this time, Delta has the right under the Plan to discontinue its contributions at any time and to amend or terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

7. EMPLOYEE STOCK OWNERSHIP PLAN

The Plan includes a leveraged ESOP. In connection with the establishment of the ESOP in 1989, Delta sold 6,944,450 shares of Preferred Stock to the ESOP trustee for \$72 per share, or approximately \$500 million. The ESOP trustee initially financed this purchase by borrowing \$493 million from Delta and approximately \$7 million from a bank. The unallocated shares of Preferred Stock are pledged as security on the borrowings.

In 1990, the Plan issued \$481.4 million principal amount of its Guaranteed Serial ESOP notes ("ESOP Notes") to third-party lenders and repaid the outstanding principal balances of the original loans. The ESOP Notes and certain related tax indemnities are guaranteed by Delta (Note 8). Therefore, the Company is obligated to make annual contributions sufficient to fund principal and interest payments on the ESOP Notes.

Each share of Preferred Stock has a stated value of \$72; bears an annual cumulative cash dividend of 6.00% or \$4.32; is convertible into 1.7155 shares of Common Stock, subject to adjustment in certain circumstances; and has a liquidation preference of \$72 plus any accrued and unpaid dividends. Generally, the Preferred Stock shareholders vote together as a single class with the Common Stock

shareholders on matters upon which the Common Stock shareholders are entitled to vote. The Preferred Stock has two votes per share, subject to adjustment in certain circumstances.

The number of shares of Preferred Stock released from the unallocated account for a plan year will generally be the number of shares of Preferred Stock held in the unallocated account multiplied by the ratio that the amount of principal and interest paid on the ESOP Notes, with respect to such plan year, bears to the total amount of principal and interest remaining to be paid (including payments with respect to such plan year). Once shares are released from the unallocated account, they are available to be allocated to participants' accounts as company contributions and dividends on Preferred Stock.

The number of shares of Preferred Stock allocated to participant

Edgar Filing: DELTA AIR LINES INC /DE/ - Form 11-K

accounts will be based on a value equal to the higher of \$72 per share or the market value of the shares of Preferred Stock, as defined in the Plan. If, during the plan year, the value of the Preferred Stock released from the unallocated account as a result of the repayment of the ESOP Notes is less than Delta's matching or nonelective contributions made in preferred stock to the Plan for that year, this difference will be made up by Delta through (a) prepaying the ESOP Notes to release additional shares of Preferred Stock, (b) contributing cash to the Plan so the Plan's trustee can purchase Common Stock, or (c) contributing shares of Common Stock to the Plan, in each case for allocation to participants' accounts. However, if at the end of the plan year the value of the Preferred Stock released from the unallocated account as a result of the scheduled repayment of the ESOP Notes during that plan year is greater than Delta's matching or nonelective contributions made in preferred stock to the Plan for that plan year then the excess will be allocated as of the end of the plan year among all participants making contributions to the Plan at that time.

The ESOP Notes will be repaid primarily from the Company's contributions and dividends on the Preferred Stock. If dividends on allocated shares are used to repay the ESOP Notes, additional shares of Preferred Stock and Common Stock equal in value to such dividends will be allocated to the accounts of participants who otherwise would have received such dividends.

As of December 31, 2002, 3,627,412 shares of Preferred Stock with a market value, as defined, of approximately \$261,319,000 had been allocated to participants' accounts, and 2,438,077 shares of Preferred Stock with a market value, as defined, of approximately \$175,639,000 were held in the unallocated account.

8. LONG-TERM DEBT

At December 31, 2002, the Plan's long-term debt, including current maturities of \$32,655,000, consisted of \$260,988,000 aggregate principal amount of ESOP Notes with final maturity dates ranging from July 1, 2003 to January 1, 2009 and an interest rate of 8.10%. The interest rates on the ESOP Notes are subject to adjustment in the event of certain changes in the federal income tax laws. Subject to certain restrictions, the ESOP Notes may be prepaid at the option of the Plan at any time in whole or in part. Delta may be required to purchase the ESOP Notes at the option of the holders in certain circumstances.

At December 31, 2002, the annual maturities of the ESOP Notes for the next five years and thereafter are as follows (in thousands):

Years ending December 31:

2003	\$ 32,655
2004	36,449
2005	40,621
2006	45,209
2007	50,254
After 2007	55,800

Total	\$ 260,988
	=====

9. RELATED-PARTY TRANSACTIONS

Certain of the Plan's investments are shares of mutual funds, collective trusts, or interests in cash reserve accounts managed by Fidelity Management Trust Company (the "Trustee") or affiliates of the Trustee. Transactions related to such investments qualify as permissible party-in-interest transactions under ERISA. Amounts held in such investments at December 31, 2002 are included in Schedule 1. Fees paid by the Plan to an affiliate of the Trustee for record keeping services totaled \$454,000 and \$231,000 for the year ended December 31, 2002 and for the six-month period ended December 31, 2001, respectively. Fees paid by the Plan for investment management vary by fund and are generally reflected as a reduction in fund earnings.
