Proposal 2

RATIFICATION OF APPOINTMENT OF INDEPENDENT AUDITORS

The Audit Committee of the Board of Directors, has appointed Deloitte & Touche LLP as independent auditors for the 2003 fiscal year and hereby requests that stockholders ratify such appointment. Representatives of Deloitte & Touche LLP will not be present at the Annual Meeting.

Independent Auditor's Fees

The Audit Committee appointed Deloitte & Touche LLP as the Company's independent auditors to audit the Company's financial statements for the fiscal year ended December 31, 2002. The aggregate fees billed by and paid to Deloitte & Touche LLP include fees for the following services rendered during the fiscal year ended December 31, 2002:

Audit fees(1)	\$ 67,713
Financial information systems design and implementation fees	None
Other fees (non-audit related)(2)	136,401
	<hr/>
	\$ 204,114
	<hr/>

- (1) Audit Fees included fees for the review and examination of the Company's consolidated financial statements, quarterly reviews of interim financial statements, and consultations on accounting matters related to the financial statements.
- (2) Other, non-audit related fees were exclusively for services related to tax matters.

The Audit Committee discussed these services with Deloitte & Touche LLP and determined that their provision would not impair Deloitte & Touche LLP's independence.

The Audit Committee and the Board of Directors recommends a vote FOR the ratification of the appointment of Deloitte & Touche LLP as independent auditors.

COMPENSATION OF DIRECTORS AND EXECUTIVE OFFICERS

Compensation of Directors

The non-employee directors of the Company are entitled to receive cash compensation and compensation pursuant to the plans described below.

Cash Compensation. During 2002, Non-Employee Directors of the Company were entitled to receive compensation of \$30,000 per year, with no additional fees for attendance at Board or committee meetings. Mr. Burnaman declined such compensation during 2002. Employee directors are not paid any fees or additional compensation for service as members of the Board or any of its committees. During 2003, non-employee directors who are members of the Audit, Compensation and the newly formed Strategic Planning Committees will receive \$15,000 per year for each of those committees, and \$2,000 per meeting for attendance at each Board meeting and \$1,000 for attendance at each committee meeting. All directors are reimbursed for expenses incurred in attending Board and committee meetings. Pursuant to the Deferred Compensation Plan for Non-Employee Directors, a non-employee director may elect, generally prior to the commencement of any calendar year, to have all or any portion of the director's compensation for such calendar year credited to a deferred compensation account. Amounts credited to the director's account will accrue interest based upon the average quoted rate for ten-year U.S. Treasury Notes. Deferred amounts will be paid in a lump sum or in installments commencing on the first business day of the calendar year following the year in which the director ceases to serve on the Board, or of a later calendar year specified by the director.

Edgar Filing: CALIFORNIA COASTAL COMMUNITIES INC - Form DEF 14A

Consulting Agreement. Pursuant to an independent contractor consulting agreement which was first effective February 1, 1998, GSSW-REO, L.L.C. ("GSSW") received a consulting fee equivalent to \$120,000 per year for services rendered through Mr. Sabin. This agreement was terminated effective January 1, 2003. The agreement provided for consultation on strategic planning and analysis, identification and evaluation of development project opportunities and related financing, and counsel to the Company's staff. GSSW represented and warranted to the Company that (a) none of the payments that the Company made to GSSW for the consulting services exceeded (i) 5% of GSSW's consolidated gross revenues during any calendar year, or (ii) \$200,000, whichever is greater ("Excess Payment"), and that, in the event that any Excess Payment should be determined to exist, GSSW agreed to promptly remit to the Company the amount of such Excess Payment; and (b) all of the Company's payments to GSSW were deposited into its general accounts and were not paid or otherwise distributed to Mr. Sabin, and Mr. Sabin was not paid a bonus or otherwise financially rewarded by virtue of the consulting services he performed on GSSW's behalf.

1993 Stock Option/Stock Issuance Plan. The Company's 1993 Stock Option/Stock Issuance Plan (the "1993 Plan") contains two separate equity incentive programs in which members of the Board may be eligible to participate: (i) a Discretionary Option Grant Program, under which eligible non-employee members of the Board, along with officers, key employees and consultants, may be granted options to purchase shares of Common Stock, and (ii) a Director Fee Program, under which each non-employee member of the Board may elect to apply all or any portion of his or her annual retainer fee (currently \$30,000) to the acquisition of unvested shares of Common Stock.

Options granted under the Discretionary Option Grant Program may be either incentive stock options designed to meet the requirements of Section 422 of the Internal Revenue Code or non-statutory options not intended to satisfy such requirements.

Plan Administration. The Discretionary Option Grant Program is administered by the Compensation Committee of the Board, which is comprised of one or more non-employee Board members appointed by the Board. The Compensation Committee, as "Plan Administrator," has complete discretion (subject to the express provisions of the 1993 Plan) to authorize stock option grants. All grants under the Director Fee Program are made in strict compliance with the express

6

provisions of the program, and no administrative discretion is exercised by the Plan Administrator with respect to the grants or stock issuances made under that program.

Discretionary Option Grant Program. The principal features of the Discretionary Option Grant Program may be summarized as follows:

The exercise price per share of the Common Stock subject to a stock option will not be less than 100% of the fair market value per share of that security on the grant date. No option will have a maximum term in excess of ten years measured from the grant date. The Plan Administrator has complete discretion to grant options (i) which are immediately exercisable for vested shares, (ii) which are immediately exercisable for unvested shares subject to the Company's repurchase rights, or (iii) which become exercisable in installments for vested shares over the optionee's period of service. Non-employee members of the Board who serve as Plan Administrator are not eligible to participate in the Discretionary Option Grant Program.

The exercise price may be paid in cash or in shares of Common Stock valued at fair market value on the exercise date. The option may also be exercised for vested shares through a same-day sale program pursuant to which the purchased shares are to be sold immediately and a portion of the sale proceeds applied to the payment of the exercise price for those shares on the settlement date.

Any option held by the optionee at the time of cessation of service will normally not remain exercisable beyond the limited period designated by the Plan Administrator (not to exceed 36 months) at the time of the option grant. For purposes of the 1993 Plan, an individual will be deemed to continue in service for so long as that person performs services on a periodic basis for the Company or any parent or subsidiary corporations, whether as an employee, a non-employee member of the Board or an independent consultant or advisor. However, the option term shall not terminate prior to the expiration date in the event that the services of optionee cease as part of the negotiated terms and conditions of (i) a Corporate Transaction (generally a merger, disposition or reverse merger whereby substantially all of the assets of the corporation are disposed or a majority of the voting power of the corporation's securities is transferred); or (ii) any joint venture, strategic corporate partnering or other alliance or participation with any other entity which involves the development of the Company's Bolsa Chica property.

The Plan Administrator has complete discretion to extend the period following the optionee's cessation of service during which his or her outstanding options may be exercised and/or to accelerate the exercisability of such options in whole or in part. Such discretion may be exercised at any time while the options remain outstanding, whether before or after the optionee's actual cessation of service.

Edgar Filing: CALIFORNIA COASTAL COMMUNITIES INC - Form DEF 14A

Any unvested shares of Common Stock are subject to repurchase by the Company, at the original exercise price paid per share, upon the optionee's cessation of service prior to vesting in those shares. The Plan Administrator has complete discretion in establishing the vesting schedule for any such unvested shares and has full authority to cancel the Company's outstanding repurchase rights with respect to those shares in whole or in part at any time.

The optionee is not to have any stockholder rights with respect to the option shares until the option is exercised and the exercise price is paid for the purchased shares. Options are not assignable or transferable other than by will or by the laws of inheritance following the optionee's death, and the option may, during the optionee's lifetime, be exercised only by the optionee.

The Plan Administrator may grant options with stock appreciation rights. Stock appreciation rights provide the holders with the right to surrender their options for an appreciation distribution from the Company equal in amount to the excess of (i) the fair market value of the vested shares of Common Stock subject to the surrendered option over (ii) the aggregate exercise price payable for such vested shares. Such appreciation distribution may, in the discretion of the Plan Administrator, be made in cash or in shares of Common Stock.

7

Director Fee Program. Under the Director Fee Program, each individual serving as a non-employee Board member is eligible to elect to apply all or any portion of the annual retainer fee otherwise payable in cash to such individual (currently \$30,000) to the acquisition of unvested shares of Common Stock. The non-employee Board member must make the stock election prior to the start of the calendar year for which the election is to be in effect. On the first trading day in January of the calendar year for which the election is in effect, the portion of the retainer fee subject to such election will be applied to the acquisition of the selected shares of Common Stock by dividing the elected dollar amount by the closing selling price per share of Common Stock on that trading day. The issued shares will be held in escrow by the Company until the individual vests in those shares. The non-employee Board member will have full stockholder rights, including voting and dividend rights, with respect to all issued shares held in escrow on his or her behalf.

Upon completion of each calendar quarter of Board service during the year for which the election is in effect, the non-employee Board member will vest in one-fourth of the issued shares, and the stock certificate for those shares will be released from escrow. Immediate vesting in all the issued shares will occur in the event the individual dies or becomes disabled during his or her period of Board service or certain changes in control or ownership of the Company are effected during such period. Should the Board member cease service prior to vesting in one or more quarterly installments of the issued shares, then those installments will be forfeited, and the individual will not be entitled to any cash payment from the Company with respect to the forfeited shares.

In 2002 no shares were received in lieu of the cash retainer fee.

Financial Assistance. The Plan Administrator may institute a loan program in order to assist one or more optionees in financing their exercise of outstanding options under the Discretionary Option Grant Program. The form in which such assistance is to be made available (including loans or installment payments) and the terms upon which such assistance is to be provided will be determined by the Plan Administrator. However, the maximum amount of financing provided any individual may not exceed the amount of cash consideration payable for the issued shares plus all applicable Federal, state and local income and employment taxes incurred in connection with the acquisition of the shares. Any such financing may be subject to forgiveness in whole or in part, at the discretion of the Plan Administrator, over the individual's period of service.

In December 1999, the Company issued warrants to two consultants in partial compensation for their services. The warrants remain exercisable through December 2003.

Committee Interlocks and Insider Participation

The Compensation Committee, and its member are named below. No member of the Compensation Committee was at any time during the 2002 fiscal year or at any other time an officer or employee of the Company. No executive officer of the Company serves as a member of the board of directors or compensation committee of any entity which has one or more executive officers serving as a member of the Company's Board of Directors or Compensation Committee.

Report of the Compensation Committee

The following Compensation Committee report shall not be deemed to be soliciting material or to be filed with the Securities and Exchange Commission under the Securities Act of 1933 or the Securities Exchange Act of 1934 nor incorporated by reference into any document so filed.

The overall objectives of the Company's compensation program are to retain the best possible executive talent, to motivate these executives to achieve the goals inherent in the Company's business strategy, to maximize the link between executive and stockholder interests through an

equity based plan and to recognize individual contributions as well as overall business results.

The key elements of the Company's compensation program consist of fixed compensation in the form of base salary, and variable compensation in the forms of restricted stock grants, stock options,

and annual incentive compensation. An executive officer's annual base salary represents the fixed component of their total compensation; however, variable compensation is intended to comprise a substantial portion of an executive's total compensation. In addition, while the elements of compensation described below are considered separately, the Compensation Committee takes into account the full compensation package afforded by the Company to the individual, including any pension benefits, insurance and other benefits, as well as the programs described below.

Base Salaries. Base salaries for executive officers are determined by evaluating the responsibilities of the position held and the experience of the individual, and by reference to the competitive marketplace for executive talent including, where appropriate, a comparison to base salaries for comparable positions at other companies, and to historical levels of salary paid by the Company and its predecessors. Salary adjustments are based on a periodic evaluation of the performance of the Company and of each executive officer, and also take into account new responsibilities as well as changes in the competitive market place. The Compensation Committee, where appropriate, also considers non-financial performance measures.

CEO Compensation. The base salary established for the Company's Chief Executive Officer, Mr. Pacini, reflects the Committee's policy to maintain a level of stability and certainty with respect to the CEO's base salary from year to year. The Committee initially set the CEO's base salary in 1998, and sought to closely align Mr. Pacini's compensation with the interests of stockholders in maximizing the value of the Company. Therefore, Mr. Pacini's compensation package was structured to have his base salary compensation play a less central role by reason of a restricted stock award of 100,000 shares in 1998 and grants of stock options for 189,996 and 75,000 shares in 1997 and 1999, respectively. The stock award and stock options are also intended to provide the bonus component of Mr. Pacini's total compensation. In May 2001, stock options for 264,966 shares granted to Mr. Pacini were re-priced from exercise prices of \$7.00 and \$9.25 to a new exercise price of \$4.50 per share, which represented a premium of approximately 11.1% above the average closing price over the previous 30 trading days. The option re-pricing is also intended to provide the bonus component of Mr. Pacini's total compensation. The CEO's current base salary of \$315,000 effective January 1, 2003, is below the average of the surveyed compensation data for similarly situated chief executive officers in the industry. Mr. Pacini holds no stock appreciation rights.

Annual Incentive Compensation Awards. The Compensation Committee does not currently plan to grant annual incentive compensation awards to the CEO given the objective of tying the CEO's variable compensation to the Company's stock performance through the granting of restricted stock and options described above. The variable compensation payable annually to the CFO is intended to consist principally of annual incentive compensation awards, based on various individual performance objectives established by the CEO and the Compensation Committee.

Other Incentive Compensation. Each option grant is designed to align the interests of the executive with those of the stockholders and provide each individual with a significant incentive to manage the Company from the perspective of an owner with an equity stake in the business. The number of shares subject to each option grant is based upon the executive's tenure, level of responsibility and relative position in the Company. The Compensation Committee has established certain general guidelines in making option grants to the executives in an attempt to target a fixed number of option shares based upon the individual's position with the Company and their existing holdings of options. However, the Company does not adhere strictly to these guidelines and will vary the size of the option grant made to each executive officer as it feels the circumstances warrant.

The following Audit Committee report shall not be deemed to be soliciting material or to be filed with the Securities and Exchange Commission under the Securities Act of 1933 or the Securities Exchange Act of 1934 nor incorporated by reference into any document so filed.

The purpose of the Audit Committee is to assist the Board in its oversight of management's conduct of the Company's financial reporting process, and is more fully described in its charter which the Committee has adopted and is included as *Exhibit A* to this Proxy Statement. The Committee reviews the charter on an annual basis. The Committee annually reviews the Nasdaq standard of independence for audit committees and at its most recent review determined that the Committee meets that standard.

Management is responsible for the preparation, presentation, and integrity of the Company's financial statements, accounting and financial reporting principles, internal controls, and procedures designed to ensure compliance with accounting standards, applicable laws and regulations. The Company's independent auditors, Deloitte & Touche LLP, are responsible for performing an independent audit of the consolidated financial statements and expressing an opinion on the conformity of those financial statements with generally accepted accounting principles.

The Audit Committee reviewed and discussed with management of the Company and Deloitte & Touche LLP the audited financial statements of the Company contained in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2002.

The Audit Committee discussed with Deloitte & Touche LLP the matters required by Codification of Statements on Auditing Standards No. 61, as amended, "Communication with Audit Committees." The Audit Committee also received and reviewed the written disclosures and the letter from Deloitte & Touche LLP required by Independence Standards Board Standard No. 1 "Independence Discussions with Audit Committees," and discussed with that firm its independence from the Company. The Audit Committee discussed with management of the Company and Deloitte & Touche LLP such other matters and received such assurances as the Audit Committee deemed appropriate.

The Audit Committee considered the effect that provision of all other non-audit related fees may have on the independence of Deloitte & Touche LLP. The Audit Committee has determined that provision of those services is compatible with maintaining the independence of Deloitte & Touche LLP as the Company's principal accountants.

Based on the foregoing review and discussions and a review of the report of Deloitte & Touche LLP, and relying thereon, the Audit Committee recommended the inclusion of the audited financial statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2002.
