Annual Meeting Information

Proxy Statement

This proxy statement summarizes information we must provide to you under the rules of the Securities and Exchange Commission ("SEC"). It is designed to assist you in voting your shares of stock. We have provided this proxy statement in connection with the solicitation of proxies by our board of directors for the 2008 annual meeting of stockholders. We will begin mailing notice of the availability of these proxy materials on or about March 10, 2008.

Voting

You can vote your shares of stock by requesting a proxy card to sign, date, and return or submitting your vote by telephone or through the internet. Please see the Notice of Internet Availability of Proxy Materials we sent to you or this proxy statement for specific instructions on how to cast your vote by any of these methods.

If your shares of stock are registered directly in your name, you are considered a stockholder of record and will receive your Notice of Internet Availability of Proxy Materials directly from us. If you hold your shares of stock through a broker, bank, or other financial institution, you are considered the beneficial owner of stock held in street name and will receive your notice from your broker, bank or other institution.

For stockholders of record, voting instructions submitted via mail, telephone or the Internet must be received by Broadridge, our independent tabulator, by 11:59 p.m. Eastern Time on April 22, 2008. Submitting your vote via mail, telephone or the Internet will not affect your right to vote in person should you decide to attend the annual meeting.

The Internet and telephone voting procedures available to you are designed to authenticate stockholders' identities, to allow stockholders to give their voting instructions and to confirm that stockholders' instructions have been recorded properly. We have been advised that the Internet and telephone voting procedures that have been made available to you are consistent with the requirements of applicable law. Stockholders voting via the Internet or telephone should understand that there may be costs associated with voting in this manner, such as usage charges from Internet access providers and telephone companies, that must be borne by the stockholder.

Stockholders of record can vote by:

returning a completed proxy card by mail to our independent tabulator, Broadridge, by 11:59 p.m. Eastern Time on April 22, 2008;

submitting voting instructions via the Internet or telephone by 11:59 p.m. Eastern Time on April 22, 2008; or

completing a ballot and returning it to the inspector of election during the annual meeting.

Edgar Filing: OFFICEMAX INC - Form DEF 14A

If you hold your stock in street name, you can vote by submitting a voting instruction card to your broker or other institution that sent your Notice of Internet Availability of Proxy Materials to you in accordance with their procedures.

Please see the next section "Employees Who Are Stockholders" for information regarding voting shares of stock held in our Employee Stock Ownership Plan fund or the OfficeMax common stock fund in the OfficeMax Savings Plan.

If you submit a valid proxy card or validly vote your proxy via the Internet, and you do not subsequently revoke your proxy, the individuals named on the card, as your proxies, will vote your shares of stock in accordance with your instructions. If you do not indicate instructions, your shares of stock will be voted *for* the:

election of the eight nominees to serve on our board of directors;

appointment of KPMG LLP as our independent registered public accounting firm for 2008; and

approval of an amendment to the 2003 OfficeMax Incentive and Performance Plan (the "OMIPP") to increase the number of shares of stock available for issuance under the plan and to make certain other changes to the plan and re-approval of the material terms of the performance goals under the plan.

If you are a stockholder of record, you may revoke or change your proxy instructions at any time prior to the vote at the annual meeting. To do so:

subsequently submit a new proxy to the independent tabulator by mail, telephone or through the Internet prior to 11:59 p.m. Eastern Time on April 22, 2008; or

attend the annual meeting and vote in person by ballot.

If you hold your stock in street name, you may revoke or change your proxy instructions at any time prior to the vote at the annual meeting by submitting new voting instructions to your broker or other institution in accordance with their procedures.

Each share of OfficeMax stock is entitled to one vote. As of February 28, 2008 (the record date for determining stockholders entitled to vote at the meeting), we had the following shares of stock outstanding and entitled to vote:

Type/Series of Stock	Number of Shares Outstanding
Common stock	75,904,885
Convertible preferred stock, Series D (ESOP)	1,061,160

Employees Who Are Stockholders

If you are a current or former employee of OfficeMax or one of its subsidiaries and you participate in the Employee Stock Ownership Plan ("ESOP") fund or the OfficeMax common stock fund in the OfficeMax Savings Plan ("Savings Plan"), you may instruct the plans' trustees how to vote the shares of stock allocated to you under these plans. You can instruct the voting of your stock by requesting a voting instruction card to sign, date, and return or submitting your vote by telephone or through the internet. Please see the Notice of Internet Availability of Proxy Materials we sent to you or this proxy statement for specific instructions on how to provide voting instructions by any of these methods. Please note that your voting instructions for stock you hold in the ESOP fund or the Savings Plan must be returned by 11:59 p.m. Eastern Time on April 18, 2008.

Edgar Filing: OFFICEMAX INC - Form DEF 14A

The plans' trustees will vote any shares in the plans for which instructions are not received or that are not allocated to an account in the same proportion as shares of stock voted by the plan participants generally, subject to the Trustees' fiduciary obligations under applicable law.

Confidential Voting Policy

We have a confidential voting policy. Stockholders' votes will not be disclosed to us other than in limited situations. The tabulator will collect, tabulate, and retain all proxies and will forward any comments written on the proxy cards or otherwise received by the tabulator to management. Our confidential voting policy will not apply in the event of a contested solicitation.

Votes Necessary for Action to be Taken

A quorum is necessary to hold a valid meeting. A quorum will exist if stockholders holding a majority of the shares of stock issued and outstanding and entitled to vote at the meeting are present in person or by proxy. The election inspector will treat abstentions and "broker non-votes" as shares of stock that are present and entitled to vote for purposes of determining the presence of a quorum. A "broker non-vote" occurs when a broker holding stock for a beneficial owner does not vote on a particular proposal because the broker does not have discretionary voting power for that particular item and has not received instructions from the beneficial owner.

Brokers will not have discretionary voting power with respect to the proposal to amend our OMIPP to increase the number of shares of stock available for issuance under the plan and to make certain other changes to the plan. Abstentions and withheld votes, including broker non-votes, do not count as votes cast either for or against any of the proposals.

The eight nominees who receive the greatest number of votes at the annual meeting will be elected as directors.

The proposal for appointing KPMG LLP as our independent registered public accounting firm for 2008 will be approved if the number of votes cast in favor of the proposal exceeds the number of votes cast against the proposal.

The proposal to amend our OMIPP to increase the number of shares of stock available for issuance under the plan and to make certain other changes to the plan and re-approve the material terms of the performance goals under the plan will be approved if the number of votes cast in favor of the proposal exceeds the number of votes cast against the proposal.

Proxy Solicitation

We pay the expenses of soliciting proxies. OfficeMax has retained D.F. King & Company ("D.F. King") to assist in the solicitation of proxies. D.F. King will receive an aggregate fee of \$18,500, plus out-of-pocket expenses. In addition to the solicitation of proxies by use of the mail, employees of D.F. King, and our directors, officers and regular employees, may solicit the return of proxies by personal interview, mail, electronic mail, facsimile, teletype, telegram, telephone, and internet. Our officers and employees will not receive additional compensation. Brokerage houses and other custodians, nominees and fiduciaries will be requested to forward solicitation material to the beneficial owners of stock. OfficeMax has agreed to indemnify D.F. King against certain liabilities arising out of or in connection with this engagement.

Items You May Vote On

1. Election of Directors

Each member of our board of directors is elected each year for a one year term.

The persons named in the enclosed proxy intend to vote the proxy for the election of each of the eight nominees, unless you indicate on the proxy card that your vote should be withheld from any of the nominees.

Our board of directors has proposed eight nominees for election as directors with terms expiring in 2009 at the annual meeting: Dorrit J. Bern, Warren F. Bryant, Joseph M. DePinto, Sam K. Duncan, Rakesh Gangwal, Francesca Ruiz de Luzuriaga, William J. Montgoris and David M. Szymanski. Detailed information on all the nominees is provided beginning on page 15. We expect that all nominees will be able to serve if elected. If any nominee is not able to serve, either we will vote the proxies for another nominee recommended by our Governance and Nominating Committee and nominated by the board of directors or the board may reduce the number of directors to be elected at the meeting.

Each nominee elected as a director will continue in office until his successor has been elected and qualified, or until earlier termination of his or her service.

***Our board of directors unanimously recommends
a vote "FOR" each of these nominees.***

2. Appointment of Independent Registered Public Accounting Firm

Our Audit Committee appointed KPMG LLP to serve as our independent registered public accounting firm for 2008, subject to stockholder approval. Representatives of KPMG LLP will be present at the annual meeting to answer questions. They will also have the opportunity to make a statement if they desire to do so.

The following table sets out the various fees for services provided by KPMG LLP in 2006 and 2007. The Audit Committee pre-approved all of these services.

Annual Fees for 2006 and 2007

Description	Amounts	
	2007	2006
Audit Fees (1)	\$ 3,757,365	\$ 3,971,635
Audit-Related Fees (2)	250,339	262,000
Tax Fees (3)	9,168	60,930
All Other Fees		

(1) Audit fees relate to professional services rendered in conjunction with the audit of our annual financial statements, the review of our quarterly financial statements, the audit of our internal controls over financial reporting, statutory filings and other services pertaining to SEC matters.

(2)

Audit-related fees relate to attestation and other services traditionally performed by companies' independent accountants, such as audits of our employee benefit plans, special procedures required to meet certain regulatory requirements and other miscellaneous assurance services.

(3)

Tax fees relate to tax compliance services surrounding transactions that have already occurred. We use these services to document, compute, and obtain government approval for amounts to be included in tax filings.

KPMG LLP's full-time, permanent employees conducted the services described in the chart above. Leased personnel were not employed with respect to the domestic audit engagement.

The Audit Committee is responsible for recommending, for stockholder approval, our independent registered public accounting firm. Should stockholders fail to approve the appointment of KPMG LLP, the Audit Committee would undertake the task of reviewing the appointment. Nevertheless, given the difficulty and expense of changing independent accountants mid-way through the year, there is no assurance that a firm other than KPMG LLP could be secured to deliver any or all of the company's independent auditing services required in 2008. The Audit Committee, however, would take the lack of stockholder approval into account when recommending an independent registered public accounting firm for 2009.

Our board of directors unanimously recommends a vote "FOR" the approval of KPMG LLP as our independent registered public accounting firm for 2008.

3. Approval of an Amendment to Our OfficeMax Incentive and Performance Plan to Increase the Number of Shares of Stock Available for Issuance under the Plan and to Make Certain Other Changes to the Plan and Re-approve the Material Terms of the Performance Goals under the Plan

In 2003, our board of directors adopted and our stockholders approved the 2003 OfficeMax Incentive and Performance Plan (the "OMIPP"). The board believes the OMIPP is essential to maintain a balanced and competitive compensation program. A total of 7,000,000 shares of our common stock had been reserved for issuance under the plan. On February 14, 2008, the board amended and restated the plan, subject to stockholder approval, effective as of April 23, 2008 (the "Effective Date"), to increase the number of shares of stock available for issuance under the plan by 5,800,000 shares (from 7,000,000 to 12,800,000), to extend the term of the plan to April 23, 2018 and to make certain other amendments to the plan.

As of February 27, 2008, 4,162,993 shares were reserved for issuance under the OMIPP in connection with 1,593,195 outstanding stock options (with a weighted average exercise price of \$31.84 and a weighted average remaining term of 3.974 years) and 2,569,798 outstanding shares to be issued pursuant to other awards made pursuant to the OMIPP (including restricted stock units). As of February 27, 2008, 2,269,796 shares remained available for future issuance under the plan.

Proposed Plan Amendments

At the meeting, stockholders will be requested to consider and approve the proposed amendment to the OMIPP to increase the number of shares of our common stock reserved for issuance as of the Effective Date under the plan from 7,000,000 to 12,800,000, to extend the term of the plan to April 23, 2018 and to make certain other amendments to the plan, including the following:

amendment to provide for a "fungible pool" method of accounting for awards;

amendment to allow the Executive Compensation Committee to make changes to the plan and award agreements as necessary to comply with applicable foreign laws;

Edgar Filing: OFFICEMAX INC - Form DEF 14A

amendment to include a minimum vesting period of no less than one year for options and stock appreciation rights, except with respect to substitute awards for grants made under a plan of an acquired business entity;

amendment to include a restriction period for restricted stock and restricted stock units of three years for time-based awards in excess of 5% of the number of shares of stock available for awards under the plan;

amendment to include a minimum performance period of no less than one year for share-based or cash-based performance awards (excluding annual incentive awards);

amendment to provide that stock bonuses are made only in payment of earned incentive compensation;

amendment to provide an increased annual limit on incentive awards, but remove the ability to defer amounts over such limit;

amendment to allow participants to make transfers to tax-exempt charitable organizations and remove the Executive Compensation Committee's ability to approve transfers to other individuals or entities;

amendment to modify the change in control provisions, other than for annual incentive awards, to require (unless otherwise provided in an applicable agreement) both a "change in control" and a "qualified termination" (as such terms are defined in the OMIPP or other applicable agreement) before acceleration of vesting, except in cases where an acquiring entity does not assume the awards, in which case only a change in control is required and not a qualified termination. In the event of a change in control, annual incentive awards will be deemed to be earned on a pro rata basis;

amendment to provide that, in the event of a change in control (unless otherwise provided in an applicable agreement), performance goals will be deemed achieved at target levels and all other terms and conditions met with award payout prorated for the portion of the performance period completed as of the date of the qualifying termination or change in control and that awards of performance shares and performance units will be prorated similarly;

amendment to provide for a method to satisfy withholding equal to a fractional share; and

amendment of certain provisions to comply with changes to the Internal Revenue Code of 1986, as amended (the "Code") and other applicable rules and regulations.

The board of directors believes that an increase in the number of shares of stock available under the OMIPP is advisable to enable the company to continue to grant equity-based awards. The board further believes that the other amendments to the OMIPP are consistent with emerging market practices and are important to allow us to attract, motivate, reward and retain the broad-based talent critical to achieving our business goals.

Approval of the amended OMIPP will also serve to re-approve the material terms of the performance goals under the OMIPP as necessitated under Section 162(m) of the Internal Revenue Code, including the eligible class of employees, performance criteria and maximum amounts payable pursuant to performance-based awards, as described below. The effectiveness of the 2003 stockholder approval of the material terms of the OMIPP's performance goals expires at the annual stockholder meeting. Therefore, if the amended OMIPP and underlying performance goals are not

approved, some of the compensation paid to the company's senior executives may not be deductible, resulting in additional taxable income for the company.

Our board of directors therefore unanimously recommends approval of the amendment, including re-approval of the material terms of the performance goals under the plan.

History and Operation of the OMIPP

The OMIPP is intended to:

attract, motivate, reward and retain the management talent critical to achieving our business goals;

link a portion of each participant's compensation to our performance; and

encourage ownership of our common stock by participants.

The OMIPP permits grants of annual incentive awards, stock, restricted stock, restricted stock units, performance stock, performance units, stock appreciation rights and stock options.

The OMIPP provides flexibility to shape incentive awards that align stockholder interests with those of our employees and non-employee directors. A summary description of the material features of the OMIPP (as it is proposed to be amended) follows. This summary is qualified in its entirety by reference to the terms and conditions of the OMIPP, a copy of which (as it is proposed to be amended) is attached to this Proxy Statement as Appendix A.

Material Features of the OMIPP

There are generally eight types of awards that may be granted under the OMIPP:

stock options (including both incentive stock options within the meaning of Section 422 of the Internal Revenue Code and nonqualified stock options, which are options that do not qualify as incentive stock options);

stock appreciation rights ("SARs");

restricted stock;

restricted stock units;

performance units;

performance shares;

annual incentive awards; and

stock bonus awards.

Edgar Filing: OFFICEMAX INC - Form DEF 14A

A total of 12,800,000 shares of our common stock are reserved for issuance under the OMIPP. These shares of stock are subject to adjustment upon the occurrence of any stock dividend or other distribution, recapitalization, stock split, subdivision, reorganization, merger, consolidation, combination, share repurchase, share exchange or other similar corporate transaction or event. Any shares of stock that may be granted under the OMIPP to any person pursuant to an option or SAR grant will be counted against this limit as one share for every one share granted. All other shares of stock granted under the OMIPP will be counted against this limit as two and one-quarter (2.25) shares for every one share granted. Shares of stock that are subject to an award that is cancelled, expired, forfeited, or otherwise settled without the issuance of shares of stock (including awards

Edgar Filing: OFFICEMAX INC - Form DEF 14A

granted prior to the Effective Date and awards granted under the 1984 Key Executive Stock Option Plan) will be available for issuance under the OMIPP. Shares of stock reserved for issuance upon grant of an option or SAR will be added back to the reserve as one share for every one share cancelled or forfeited. All other shares of stock granted under the OMIPP will be added back to the reserve as two and one-quarter (2.25) shares for every one share cancelled or forfeited. Substitute awards for grants made under a plan of an acquired entity will not reduce the shares of stock available for issuance under the OMIPP.

As of February 20, 2008, approximately 31 of our executive officers, 778 key employees and 8 nonemployee directors are eligible to receive awards under the OMIPP at the discretion of the Executive Compensation Committee of the board of directors. The OMIPP restricts the number of stock options, stock appreciation rights, restricted stock, restricted stock units and performance shares that can be granted to a participant during any fiscal year, subject to adjustment for changes in capitalization as outlined above. In addition, the OMIPP also limits the amount that may be paid to a participant pursuant to annual incentive awards or performance units granted in a single fiscal year.

The OMIPP is intended to provide performance-based compensation within the meaning of Section 162(m) of the Internal Revenue Code. Section 162(m) generally limits the deduction by an employer of annual compensation paid to each covered employee (i.e., the chief executive officer and the next three highest paid executive officers employed at the end of the year, other than the chief financial officer) to \$1 million. The Section 162(m) limitations do not apply to performance-based compensation if specific requirements are met, including obtaining stockholder approval of the compensation plan. If our stockholders approve the amended and restated OMIPP and other Section 162(m) conditions relating to performance-based compensation are satisfied, compensation of covered employees pursuant to awards under the OMIPP will continue to be unaffected by the Section 162(m) limitations, other than for restricted stock and restricted stock units that vest solely on continued employment. However, if our stockholders do not approve the amended and restated OMIPP, including the material terms of the performance goals, some of the compensation paid to the company's senior executives may not be deductible, resulting in additional taxable income for the company.

Awards will become exercisable or otherwise vest at the times and upon the conditions that the Executive Compensation Committee may determine, as reflected in the applicable award agreement, provided that the plan provides for minimum vesting or performance periods for certain awards as detailed below. The Executive Compensation Committee may also make any or all awards performance-based, which means the award will be paid out based on the attainment of specified performance goals, in addition to any other conditions the committee may establish.

The following is a summary of the types of awards that may be granted under the OMIPP:

Stock options

Stock options entitle the holder to purchase shares of our common stock during a specified period at a purchase price set by the Executive Compensation Committee. Except for substitute awards for grants made under a plan of an acquired entity, the purchase price may not be less than 100% of the fair market value of the common stock on the grant date (with respect to incentive stock options, 110% of the fair market value on the date of grant for any participant who owns, within the meaning of Code Section 424(d), stock of the company possessing more than 10% of the total combined voting power of all classes of stock of the company, any subsidiary or any affiliate). Each option granted under the OMIPP will be exercisable for a period of seven years from the date of grant or for a lesser period if the Executive Compensation Committee so determines. Participants exercising an option may pay the exercise price by any lawful method permitted by the

Executive Compensation Committee. The vesting period for stock options must be no less than one year, except with respect to substitute awards for grants made under a plan of an acquired business entity. Incentive stock options may not be granted under the OMIPP on or after April 23, 2018. No participant may receive more than 1,500,000 stock options in any fiscal year. Without stockholder approval, the exercise price of stock options may not be reduced, stock options may be not be cancelled and replaced with either other stock options with a lower exercise price or another award under the OMIPP or another company plan and, except in the event of a change in control, stock options may not be cancelled for a cash payment.

Stock appreciation rights

A stock appreciation right is the right, denominated in shares of stock, to receive upon exercise, without payment to us, an amount equal to the excess of the fair market value of our stock on the exercise date over the fair market value of our stock on the grant date. Payment may be made in cash, our stock or a combination of cash and stock. The Executive Compensation Committee may grant stock appreciation rights to participants as either freestanding awards or as awards related to stock options. For stock appreciation rights related to an option, the terms and conditions of the grant will be substantially the same as the terms and conditions applicable to the related option, and exercise of either the stock appreciation right or the option will cause the cancellation of the other, unless otherwise determined by the Executive Compensation Committee. The Executive Compensation Committee will determine the terms and conditions applicable to awards of freestanding stock appreciation rights, except that the term of a stock appreciation right may not exceed seven years from the date of grant. The vesting period for stock appreciation rights must be no less than one year, except with respect to substitute awards for grants made under a plan of an acquired business entity. No participant may receive more than 1,500,000 stock appreciation rights in any fiscal year. Without stockholder approval, the exercise price of stock appreciation rights may not be reduced, stock appreciation rights may be not be cancelled and replaced with either other stock appreciation rights with a lower exercise price or another award under the OMIPP or another company plan, and, except in the event of a change in control, stock appreciation rights may not be cancelled for a cash payment.

Restricted stock

Restricted stock is our stock that is transferred or sold by us to a participant and that is subject to a substantial risk of forfeiture and to restrictions on sale or transfer for a period of time. The Executive Compensation Committee will determine the amounts, terms and conditions (including the attainment of performance goals) of any grant of restricted stock. Except for substitute awards for grants made under a plan of an acquired entity, the restriction period for time-based awards in excess of 5% of the total number of shares of stock available for awards under the plan shall not be less than three years (with restrictions lapsing on a pro-rata basis) and for performance goal-based awards the performance period may not be less than one year. Except for restrictions on transfer (and any other restrictions that the Executive Compensation Committee may impose), participants will have all the rights of a stockholder with respect to the restricted stock. Unless the Executive Compensation Committee determines otherwise, a participant's termination of employment during the restricted period will result in forfeiture of all shares of stock subject to restrictions. No participant may receive more than 1,500,000 shares of restricted stock in any fiscal year.

Restricted stock units

Restricted stock units are similar to restricted stock, except that the shares of stock are not issued to the participant until after the end of the restriction period or achievement of performance criteria and upon satisfaction of any other applicable conditions. Except for substitute awards for grants made under a plan of an acquired entity, the restriction period for time-based awards in excess of 5% of the total number of shares of stock available for awards under the plan shall not be less than three years (with restrictions lapsing on a pro-rata basis) and for performance goal-based awards the performance period may not be less than one year. Restricted stock units may also be paid in cash rather than stock or in a combination of cash and stock. No participant may receive more than 1,500,000 restricted stock units in any fiscal year.

Performance units

Performance units, which are the right to receive a payment upon the attainment of specified performance goals, may also be awarded by the Executive Compensation Committee. The Executive Compensation Committee will establish the applicable performance goals at the time the units are awarded. The performance period for award of performance units shall be not less than one year. Payment may be made in cash, our stock or a combination of cash and stock, at the Executive Compensation Committee's discretion. The maximum amount that may be paid to a participant for performance units granted in a single fiscal year is \$4,000,000.

Performance shares

Performance shares represent the right to receive a payment at a future date based on the value of our common stock in accordance with the terms of the grant and upon the attainment of specified performance goals. The Executive Compensation Committee will establish the performance goals and all other terms applicable to the grant. The performance period for award of performance shares shall not be less than one year. Payment may be made in cash, our stock or a combination of cash and stock, at the Executive Compensation Committee's discretion. No participant may receive more than 1,500,000 performance shares in any fiscal year.

Annual incentive awards

Annual incentive awards are payments based on the attainment of performance goals specified by the Executive Compensation Committee. Awards are calculated as a percentage of salary, based on the extent to which the performance goals are met during the year, as determined by the Executive Compensation Committee. Awards are paid in cash, unless the Executive Compensation Committee determines otherwise. The maximum amount of an annual incentive award that may be paid to a participant in a single fiscal year is \$5,000,000.

Stock bonuses

Stock bonus awards, consisting of our common stock, in payment of earned incentive compensation, may be made at the discretion of the Executive Compensation Committee upon the terms and conditions, if any, determined by the committee.

Performance goals

Awards of restricted stock, performance units, performance shares, annual incentive awards and other awards under the OMIPP may be subject to the attainment of performance goals relating to one or more business criteria within the meaning of Section 162(m) of the Internal Revenue Code. These goals may include or be based upon, without limitation: sales; gross revenue; gross margins; internal rate of return; ratio of debt to debt plus equity; profit before tax; earnings before

Edgar Filing: OFFICEMAX INC - Form DEF 14A

interest and taxes; earnings before interest, taxes, depreciation and amortization; earnings per share; operating earnings; economic value added; ratio of operating earnings to capital spending; cash flow; free cash flow; net operating profit; net income; net earnings; net sales or net sales growth; price of our common stock; return on capital, net assets, equity or stockholders' equity; segment income; market share; productivity ratios; expense targets; working capital targets; or total return to stockholders. Performance goals may be used to measure our performance as a whole or the performance of any Subsidiary (as defined in the OMIPP), business unit or segment, may include or exclude (or be adjusted to include or exclude) extraordinary items, the impact of charges for restructurings, discontinued operations and other unusual and non-recurring items, and the cumulative effects of tax or accounting changes, each as defined by generally accepted accounting principles and as identified in the financial statements, notes to the financial statements, management's discussion and analysis or other SEC filings, and may reflect absolute entity performance or a relative comparison of entity performance to the performance of a peer group, index or other external measure.

Administration of the plan

The OMIPP is administered by the Executive Compensation Committee of our board of directors, each of whom is a "non-employee director" under Rule 16b-3 under the Securities Exchange Act of 1934, an "outside director" under Section 162(m) of the Code and an "independent director" under the rules of the New York Stock Exchange. The Executive Compensation Committee has the authority to determine the terms and conditions of awards, and to interpret and administer the OMIPP. The Executive Compensation Committee also has the authority to modify the OMIPP or adopt sub-plans as desirable or necessary to comply with laws of foreign countries in which the OMIPP is offered. The Executive Compensation Committee may delegate the right to make awards and otherwise take action on its behalf under the OMIPP to our employees and, to the extent permitted by law, the Executive Compensation Committee may give authority to executive officers to make awards to employees who are not directors or executive officers.

Amendment and termination of the plan

The board of directors may amend the OMIPP at any time and may make adjustments to the OMIPP and outstanding options, without stockholder approval, to reflect a stock split, stock dividend, recapitalization, merger, consolidation or other corporate events. Our stockholders must approve amendments that:

change the number of shares of stock subject to the OMIPP;

decrease the grant or exercise price of any stock-based award to less than the fair market value of our common stock on the date of grant;

materially increase the cost of the OMIPP to the company or the benefits to participants;

allow for the exercise price of stock options or stock appreciation rights to be reduced, stock options or stock appreciation rights to be cancelled and replaced with either a new award of stock options or stock appreciation rights with a lower exercise price or another award, or cancelled for a cash payment (other than in connection with a change in control); or

are required by applicable law to be approved by our stockholders.

The board of directors may terminate the OMIPP at any time. The OMIPP, however, will remain in effect as awards may extend beyond that time in accordance with their terms.

Change in control

Except as otherwise provided in an employment agreement, award agreement or change in control agreement, upon both a "change in control" and a "qualifying termination" (as such terms are defined in the OMIPP or applicable agreement) the vesting of all outstanding awards (other than annual incentive awards) will be accelerated, except in cases where an acquiring entity does not assume the awards, in which case only a change in control is required and not a qualified termination. This means that, in general, upon a change in control and a qualifying termination with respect to a participant in the OMIPP, all outstanding stock options and stock appreciation rights held by that participant will vest and become fully exercisable; the restriction period applicable to outstanding shares of restricted stock and restricted stock units will lapse; and all performance goals will be deemed attained and prorated for the portion of the performance period completed prior to the change in control or qualifying termination, as applicable. Upon an acceleration due only to a change in control, each annual incentive award will be payable at the greater of target or the actual award amount determined by year-to-date performance, in either case prorated for the portion of the performance period completed prior to the change in control.

Transferability

A participant's rights in an award granted under the OMIPP may be assigned or transferred in the event of death, subject to certain conditions. In addition, subject to applicable law, the Executive Compensation Committee's approval and any specified conditions, a participant may elect to transfer an award under the OMIPP to immediate family members (including a trust for the benefit of immediate family members or a partnership in which immediate family members are the only partners) or a qualified tax-exempt charitable organization, provided that no transfer may be made in exchange for consideration.

Anti-Dilution Adjustment

If our outstanding shares of common stock are changed by reason of any recapitalization, stock split, reverse stock split, reorganization, merger, consolidation, spin-off, combination, share repurchase, share exchange, reclassification, or other similar corporate transaction or event, the appropriate adjustments will be made in the maximum number or kind of securities that may be issued under the OMIPP and to any participant within the fiscal year and in the terms of certain outstanding awards, including the number of shares or securities subject to awards and the exercise price or other stock price or share-related provisions of awards.

Federal Income Tax Consequences

The following discussion covers the principal United States federal income tax consequences with respect to awards that may be granted under the OMIPP. It is a brief summary only. This summary does not describe state, local or foreign tax consequences of an individual's participation in the OMIPP.

Stock options

A participant does not realize taxable income upon the grant of a nonqualified stock option. Upon the exercise of a nonqualified stock option, a participant will realize ordinary income equal to the difference between the fair market value of the common stock being purchased and the exercise price. The company will generally be entitled to take a federal income tax deduction in the amount of ordinary income recognized by the participant.

If a participant exercises a nonqualified stock option and subsequently sells the shares of stock received on exercise, any appreciation will be taxed as capital gain in an amount equal to the

excess of the sale proceeds for the shares of stock over the participant's basis in the shares. The participant's basis in the shares of stock will generally be the amount paid for the stock plus the amount included in the participant's ordinary income upon exercise.

A participant granted an incentive stock option has no income tax consequences at the time of grant or exercise (except for purposes of computing liability for alternative minimum tax, if any), and the company is not entitled to take a deduction. Upon sale of the underlying stock after satisfying applicable holding period requirements, any amount realized in excess of the exercise price paid will be taxed to the participant as capital gain. If the holding periods are not satisfied, the participant will realize ordinary income equal to the difference between the fair market value of the common stock purchased and the exercise price. The company will also be entitled to a deduction in the amount of ordinary income realized by the participant.

Stock appreciation rights

The tax treatment of a stock appreciation right is essentially the same as for a nonqualified stock option. Thus, a participant will realize no income upon the grant of a stock appreciation right. Upon the exercise of a stock appreciation right, a participant will realize ordinary income equal to the amount of cash and/or the fair market value of the common stock received. The company will generally be entitled to take a federal income tax deduction in the amount of ordinary income recognized by the participant.

Restricted stock

A participant will not recognize any income upon the receipt of restricted stock unless the participant elects under Section 83(b) of the Internal Revenue Code, within 30 days of receipt, to recognize ordinary income equal to the fair market value of the restricted stock at the time of receipt, less any amount paid for the stock. If the election is made, the holder will not be allowed a deduction for amounts subsequently required to be returned to the company. If the election is not made, then on the date that the restrictions to which the restricted stock are subject terminate, the holder will generally recognize ordinary income in an amount equal to the fair market value of the stock on that date, less any amount paid for the stock. At the time the holder recognizes ordinary income, the company generally will be entitled to a deduction in the same amount.

Generally, upon a sale or other disposition of restricted stock with respect to which the holder has previously made a Section 83(b) election or with respect to which the restrictions were previously terminated, and the holder has, therefore, recognized ordinary income, the holder will recognize capital gain or loss in an amount equal to the difference between the amount realized on the sale or other disposition and the holder's basis in the stock. The holder's basis will equal the fair market value of the stock at the time the restrictions were removed or, in the case of a Section 83(b) election, the fair market value of the stock on the date of grant.

Other

Upon the payment of an award of restricted stock units, performance shares, or performance units, or an annual incentive award or stock bonus, the participant will recognize ordinary income equal to the amount of cash received and the fair market value of any stock received. The company generally will be entitled to a federal income tax deduction in the same amount.

Dr. Szymanski is also a director of Zale Corporation.

Director Independence

The board has determined that, except for Mr. Duncan, the nominees for election as directors are, and all members of the board in 2007 were, independent within the meaning of the rules of the New York Stock Exchange ("NYSE").

For a director to be considered independent under the NYSE rules, our board must determine that he or she does not have any material relationship with OfficeMax. To assist in making this determination, our board adopted the NYSE's independence standards. For purposes of these standards, an "immediate family member" includes a spouse, parents, children, siblings, mothers and fathers-in-law, sons and daughters-in-law, brothers and sisters-in-law, and anyone (other than domestic employees) who shares the director's home.

The board will presume a director is independent if, during the last three years, he or she has **not**:

been an OfficeMax employee or an immediate family member of an executive officer of OfficeMax, other than in the capacity as a former interim chairman, chief executive officer or other executive officer;

been affiliated with or employed by (or is an immediate family member of a person who is affiliated with or employed in a professional capacity by) the present or former internal or external auditor of OfficeMax;

been employed (or had an immediate family member employed) as an executive officer by another company whose compensation committee includes one or more current executives of OfficeMax;

received (or had an immediate family member who has received) more than \$100,000 per year in direct compensation from OfficeMax other than director and committee fees or pension or other deferred compensation for prior services; and

been an executive officer or an employee of, or an immediate family member of a person who is an executive officer of, a company that makes payments to or receives payments from OfficeMax for property or services, which, in any fiscal year, exceeded the greater of \$1 million or 2% of the other company's consolidated gross revenues.

In addition, our board will consider a director independent for purposes of serving on our Audit Committee only if he or she:

has not accepted, directly or indirectly, any consulting, advisory, or other compensatory fees from OfficeMax, other than compensation for service as a director; and

is not an "affiliated person" of OfficeMax or any of its subsidiaries, as that term is defined by the SEC.

Our board will determine the independence of any director who has any other relationship with OfficeMax that is not covered by these standards. In particular, the board has considered the following relationships:

In 2007, a number of companies for which our directors also serve as officers or directors purchased office supplies from OfficeMax in the ordinary course of business. None of these sales accounted individually for more than the greater of \$1 million or 2% of our revenues or the purchasing entity's revenues in 2007.

Additionally in 2007, we purchased a variety of goods and services from companies for which our directors also serve as officers or directors. These purchases were made in the ordinary course of business. None of these purchases accounted for more than the greater of \$1 million or 2% of

our revenues or the selling entity's revenues in 2007, and none of these purchases were material to our business.

All of the transactions described above were entered into in the ordinary course of business and involved the purchase or provision of goods or services on a non-exclusive basis and at arms-length negotiated rates. Our board has determined that these transactions are not material relationships under the NYSE's Corporate Governance Listing Standards and do not otherwise impair the independence of our directors.

Related Transactions

In addition, our Governance and Nominating Committee is required by its charter to review all related person transactions required to be disclosed by SEC rules on an ongoing basis, and all such transactions must be approved or ratified by the committee. In conducting its review, the Governance and Nominating Committee's charter states that the committee will consider the following factors: the nature of the related person's interest in the transaction; whether the transaction involves standard prices, rates or charges or is otherwise on terms consistent with arms-length dealings with unrelated third parties; the materiality of the transaction to each party; the reasons for the company entering into the transaction with the related person (such as the absence of a similarly qualified unrelated party); whether the transaction might affect the status of a director as independent under the independence standards of the NYSE; and any other factors the committee may deem relevant with respect to the particular transaction. Any member of the Governance and Nominating Committee who is a related person with respect to a transaction is recused from the review of the transaction.

Our board of directors unanimously recommends a vote "FOR" the election of the Board's nominees identified above.

The following table presents compensation information for the current independent members of our board of directors: Ms. Dorrit J. Bern and Ms. Francesca Ruiz de Luzuriaga, and Messrs. Warren F. (1) Ms. Bern and Messrs. Bryant, Cornell, DePinto, and Gangwal elected to receive a percentage of their cash fees in the form of restricted stock units ("RSUs") pursuant to the OMIPP. For each director, the number of RSUs issued in lieu of fees was determined by dividing the amount of cash fees foregone by \$20.66, the closing price of our common stock as reported on the consolidated tape of the New York Stock Exchange on the last trading day of the calendar year. On December 31, 2007, Ms. Bern was issued 4,307 RSUs in lieu of \$89,000 in fees; Mr. Bryant was issued 2,395 RSUs in lieu of \$49,500 in fees; Mr. Cornell was issued 4,501 RSUs in lieu of \$93,000 in fees; Mr. DePinto was issued 2,323 RSUs in lieu of \$48,000 in fees; and Mr. Gangwal was issued 5,130 RSUs in lieu of \$106,000 in fees. The difference between the fees foregone and the value of the RSUs issued was paid in cash in lieu of issuing fractional RSUs.

The figures in this column represent the aggregate dollar amount of compensation cost recognized with respect to share based payments. Each non-employee director was granted 2,229 RSUs under the OMIPP on July 26, 2007. These RSUs vested on January 26, 2008. The RSUs are payable in common stock six months following a director's date of termination of board service for any reason. The grant date fair value of each award is \$75,006. See Note 15 "Shareholders' Equity" to Notes to Consolidated Financial Statements in the company's Annual Report on Form 10-K for the year ended December 29, 2007 for a discussion of the assumptions used by the company to calculate share based compensation expense in accordance with the provisions of SFAS No. 123R, "Share Based Payment" ("SFAS No. 123R"). As of December 29, 2007, the directors had the following outstanding option and stock awards. All vesting requirements have been met with respect to these outstanding securities:

In February 2007, the Executive Compensation Committee of the board granted Mr. Haymon a cash payment of \$60,225.26, which was approximately equal to the pro rata value of his forfeited restricted stock units. Mr. Haymon also received a cash payment of \$2,046 for dividends accrued on his RSUs.

Equity Based Compensation Award:	\$75,000 annually

Directors who serve on the board for a portion of a year receive a prorated portion of the annual retainer, attendance fees for the meetings they attend and an equity based compensation award as described below under "OfficeMax Incentive and Performance Plan."

In addition to the compensation described above, the chair of each committee of the board receives an additional retainer as compensation for his or her role as chair. In 2007, retainers for service as committee chairs were paid as follows:

Committee	Committee Chair Retainer	Chairman
Audit	\$ 30,000	Ms. Ruiz de Luzuriaga
Executive Compensation	\$ 20,000	Dr. Szymanski
Governance and Nominating	\$ 10,000	Mr. Bryant (1)
Outside Directors	\$ 20,000	Mr. Michael (2)

- (1) Mr. Bryant was appointed chairman of the Governance and Nominating Committee beginning in July 2007. Prior to that, Mr. Gangwal was the chairman. Each of Mr. Bryant and Mr. Gangwal received a pro rated portion of the retainer in the amount of \$4,384 and \$5,616, respectively.
- (2) Mr. Michael decided not to stand for reelection to the board in 2008. As a result, he will no longer be the chair of the Committee of Outside Directors following the stockholders' meeting.

For 2008, the Governance and Nominating Committee of the board reviewed the compensation received by our directors against the compensation received by directors of the same peer group companies listed herein under "Compensation Discussion and Analysis Management Consultant" on page 32 and recommended no change in the compensation of board members in 2008. The board accepted the recommendation of the Governance and Nominating Committee.

OfficeMax Incentive and Performance Plan

Through our stockholder-approved OMIPP, each non-employee director annually receives a form of long-term equity compensation approved by our Governance and Nominating Committee. Individuals who are non-employee directors at the time of the board meeting held in July receive the award on the regular grant date. Non-employee directors appointed between the July board meeting and December 31 receive the full grant on the first business day after joining our board. In 2007, each non-employee director was to receive a grant of RSUs with a target fair market value of \$75,000. On July 26, 2007, the grant date, the company's closing stock price was \$33.65, which resulted in an actual grant of RSUs with a fair market value of \$75,006 because fractional shares of stock are not issued. The RSUs vested six months after the date of grant and are payable six months following the date of termination of board service for any reason (or immediately upon

death or disability). RSUs are paid in shares of our common stock. Directors holding RSUs are not entitled to any voting rights with respect to the RSUs, but are entitled to receive notional dividends on the RSUs. These notional dividends are accumulated and paid in cash at the time the RSUs are paid.

Additional Director Compensation Plans

Our non-employee directors may choose to receive their cash compensation (meeting and retainer fees) in one of the following three ways:

in cash;

in cash deposited in the Director Deferred Compensation Plan; or

in RSUs (awarded through the OMIPP).

Non-employee directors must specify by December 31 of each year how much of their cash compensation for the following year they wish to receive in each available payment form.

Director Deferred Compensation Plan

Our Director Deferred Compensation Plan allows each non-employee director to defer all or a portion of the cash compensation he or she receives for services as a director. Non-employee directors may defer from a minimum of \$5,000 to a maximum of 100% of their cash compensation in a calendar year. Amounts deferred under this plan are credited with interest at a rate equal to 130% of Moody's Composite Average of Yields on Corporate Bonds. Participants elect the form and timing of distributions of their deferred compensation balances under this plan at the time the decision to defer compensation under the plan is made. Participants will receive payment in cash, in a lump sum or in annual installments, following the termination of their service on the board. In the event of a change in control of the company, as defined in the plan, a trust may pay our obligations under the Director Deferred Compensation Plan. For more information on this trust, see "Other Compensation and Benefit Plans - Deferred Compensation - Deferred Compensation and Benefits Trust" beginning on page 62. One of the ten eligible non-employee directors, Mr. Michael, participated in the plan in 2007 and 1 of the 9 eligible non-employee directors, Mr. Bryant, has elected to participate in the plan in 2008.

Stock Options in lieu of salary (awarded through the Director Stock Compensation Plan)

Through our stockholder-approved Director Stock Compensation Plan, non-employee directors could elect in 2006 to receive part or all of their cash compensation in the form of stock options rather than cash. None of the thirteen eligible non-employee directors participated in the Director Stock Compensation Plan in 2006, and none of the ten eligible non-employee directors elected to participate in this plan in 2007. As a result of an amendment to the plan approved at the meeting of the Executive Compensation Committee in February 2007, no further stock options grants will be made under the plan.

Restricted Stock Units in lieu of salary (awarded through the OfficeMax Incentive and Performance Plan)

Through our stockholder approved OMIPP, non-employee directors can elect to receive part or all of their cash compensation in RSUs. Under this plan, RSUs are granted to participating directors on the last trading day of each calendar year. The number of RSUs granted to a participating director is determined by dividing the amount of cash compensation he or she elected to receive in RSUs by the closing price of our common stock as reported on the consolidated tape of the New York Stock Exchange on the last trading day of the calendar year. The RSUs are payable immediately after termination of a participating director's service on the board. RSUs are paid in shares of our common stock. Directors holding RSUs are not entitled to any voting rights with respect to the RSUs, but are entitled to receive notional dividends on the RSUs, which notional dividends are accumulated and paid in cash when the RSUs are paid. Five of the eight eligible directors, Ms. Bern and Messrs. Bryant, Cornell, DePinto and Gangwal, elected to receive all or a portion of their cash compensation in RSUs in 2007 and 4 of the 9 eligible directors, Messrs. Bryant, Cornell, DePinto and Gangwal, have elected to receive all or a portion of their cash compensation in RSUs in 2008.

Meetings of the Board

During 2007, our board of directors met nine times. In addition to meetings of the full board, directors also attended meetings of board committees. Overall, our directors had an attendance rate of 95%. All of the directors attended at least 76% of the meetings of the board and the committees on which they served.

While we do not have a formal policy requiring them to do so, we encourage our directors to attend our annual meeting. Eight of our nine directors attended our 2007 annual meeting of stockholders.

The standing committees of the board of directors, with the membership indicated, are set forth in the table below. Mr. Duncan, as the only director who is not independent, does not serve on any committee of the board.

Committee of Outside Directors

The Committee of Outside Directors is comprised solely of our independent directors and meets outside the presence of Mr. Duncan (our only management director). The Committee of Outside Directors reviews and evaluates our chief executive officer's performance against his individual and corporate goals and strategies. The Committee of Outside Directors meets at least twice each year on a formal basis. The Committee of Outside Directors also meets on an ad hoc basis in conjunction with regularly scheduled board meetings.

The chair of our Committee of Outside Directors acts as the lead independent director for our board. Our lead independent director is responsible for:

convening and presiding at all meetings of the board at which the chairman is not present, including executive sessions of the independent directors;

coordinating the activities of our independent directors;

facilitating communications between the chairman of the board, chief executive officer, and other board members;

reviewing meeting agendas and schedules, as well as board materials, prior to board meetings;

consulting with the chairman of the board to assure that appropriate topics are being discussed with sufficient time allocated for each; and

reviewing the results of the chief executive officer's performance evaluation with the chief executive officer and with the chair of the Executive Compensation Committee.

When performing these duties, our lead independent director consults with the chairs of our other board committees, as needed, to avoid any dilution of their authority or responsibility.

You may contact our independent directors in the manner set forth under "Governance and Nominating Committee Communications with Directors" on page 26.

Executive Committee

In accordance with our Bylaws, the Executive Committee has and may exercise all powers the board may legally delegate. The committee is convened when circumstances do not allow the time, or when it is otherwise not practicable, for the entire board to meet. The committee consists of the chairman of the board and the chairs of the Audit Committee, Executive Compensation Committee, Governance and Nominating Committee, and the Committee of Outside Directors. In 2007, the Executive Committee did not meet.

Governance and Nominating Committee

The Governance and Nominating Committee, comprised entirely of directors meeting the independence requirements of the NYSE, is responsible for:

Edgar Filing: OFFICEMAX INC - Form DEF 14A

assisting the board in identifying and recommending qualified individuals for board membership;

recommending nominees for election at the annual meeting of stockholders;

Edgar Filing: OFFICEMAX INC - Form DEF 14A

reviewing the structure of each board committee and recommending the composition of each committee;

developing our corporate governance guidelines;

reviewing director compensation and benefits;

recommending responses to stockholder proposals;

overseeing the evaluation of our senior management, except our chief executive officer;

reviewing related person transactions; and

developing and recommending to the board an annual self-evaluation process of the board and its committees.

Qualifications for Directors

The Governance and Nominating Committee has established qualifications for directors, including the ability to apply good and independent judgment in a business situation and the ability to represent the interests of all our stockholders and constituencies. A director also must be free from any conflicts of interest that would interfere with his or her loyalty to our stockholders and us. In evaluating board candidates, the Governance and Nominating Committee considers these qualifications as well as several other factors, including but not limited to:

demonstrated maturity and experience;

geographic balance;

expertise in business areas relevant to OfficeMax;

background as an educator in business, economics, or the sciences; and

diversity.

The Governance and Nominating Committee identifies nominees by first evaluating the current members of the board willing to continue in service. Current members of the board with skills and experience relevant to our business and who are willing to continue in service are considered for re-nomination. If any member of the board does not wish to continue in service or if the Governance and Nominating Committee decides not to nominate a member for reelection, the committee will review the desired skills and experience of a new nominee in light of the criteria set forth above or may choose to recommend reduction in the number of board members.

The Governance and Nominating Committee relies on management and director recommendations and the use of independent search firms when identifying potential board candidates. We also consider director candidates recommended by our stockholders.

The Governance and Nominating Committee does not have a written policy regarding stockholder nominations for directors. In accordance with our Bylaws, however, the committee will consider stockholder nominations for directors (see "Other Information Stockholder Nominations for Directors" beginning on page 78). OfficeMax has not received any stockholder nominations or recommendations for director in connection with our 2008 annual meeting.

Audit Committee Report

The Audit Committee of the board of directors oversees our accounting and financial reporting processes, audits of OfficeMax's financial statements, the system of internal controls established by management related to accounting, financial reporting, disclosure, and ethics and the

Edgar Filing: OFFICEMAX INC - Form DEF 14A

integrity of OfficeMax's financial statements. The Audit Committee also assists the board in the oversight of OfficeMax's compliance with legal and regulatory requirements; the evaluation of the independence, performance, and qualifications of the independent public accounting firm; and the performance of

Edgar Filing: OFFICEMAX INC - Form DEF 14A

OfficeMax's internal audit function. It is comprised entirely of independent directors as required by the NYSE listing standards and by its own written charter. All of the Audit Committee members are "financially literate," and Ms. Ruiz de Luzuriaga, the committee chair, Ms. Bern, and Mr. Montgoris qualify as "audit committee financial experts" as defined by the SEC. See "Board of Directors" for a description of the experience of each Audit Committee member.

The Audit Committee, formed in 1969, has had a charter since 1973. The Audit Committee periodically reviews and updates that charter based on changes in its responsibilities and changes in SEC regulations or NYSE listing standards.

Audit Committee Responsibilities

The Audit Committee's responsibilities include:

discussing with management and the independent registered public accounting firm OfficeMax's annual audited financial statements and unaudited quarterly financial statements, including matters required for review under applicable legal, regulatory, or NYSE requirements, and recommending to the board whether the annual audited financial statements should be included in OfficeMax's Annual Report on Form 10-K;

discussing with management and the independent registered public accounting firm, as appropriate, earnings press releases, analyst and rating agency guidance, and other financial information provided to the public;

recommending, for stockholder approval, the independent registered public accounting firm to examine OfficeMax's accounts, controls, and financial statements. The Audit Committee has the sole authority and responsibility to select, terminate, and determine the compensation of the independent registered public accounting firm. The independent registered public accounting firm reports directly to the Audit Committee and the Audit Committee is directly responsible for oversight of the work of the independent registered public accounting firm, including resolution of disagreements between company management and the independent registered public accounting firm regarding financial reporting;

discussing with management and the independent registered public accounting firm, as appropriate, any audit problems or difficulties and management's response, as well as OfficeMax's risk assessment and risk management policies, including OfficeMax's major financial risk exposure and steps taken by management to monitor and mitigate such exposure;

reviewing OfficeMax's financial reporting and accounting standards and principles, significant changes in those standards or principles or in their application, and the key accounting decisions affecting OfficeMax's financial statements, including alternatives to, and the rationale for, the decisions made;

reviewing and approving OfficeMax's internal corporate audit staff functions, including (i) purpose, authority, and organizational reporting lines and (ii) annual audit plan, budget, and staffing;

reviewing, with the chief financial officer, the controller, the director of internal corporate audit functions, or such other persons as the Audit Committee deems appropriate, OfficeMax's internal system of audit, financial, and disclosure controls and the results of internal audits;

obtaining and reviewing at least annually a written report from the independent registered public accounting firm delineating: the accounting firm's internal quality control procedures; any material issues raised within the preceding five years by the accounting firm's internal

Edgar Filing: OFFICEMAX INC - Form DEF 14A

quality-control review, by peer reviews of the firm, or by any governmental or other inquiry or investigation relating to any audit conducted by the firm. The Audit Committee also reviews steps taken by the accounting firm to address any findings in any of the foregoing reviews;

assessing the external auditor's independence and the absence of conflicts of interest, by reviewing at least annually all relationships between the independent registered public accounting firm and OfficeMax;

preparing and publishing an annual committee report in OfficeMax's proxy statement;

setting policies for hiring employees or former employees of OfficeMax's independent registered public accounting firm;

reviewing and investigating matters pertaining to the integrity of management, including conflicts of interest or adherence to codes of ethics as required in OfficeMax's policies. In connection with these reviews, the Audit Committee will meet, as deemed appropriate, with the general counsel and other OfficeMax officers and employees; and

establishing procedures concerning the submission, receipt, retention, and treatment of complaints and concerns regarding accounting, internal accounting controls, or audit matters.

The Audit Committee, or an authorized committee member, must also preapprove any audit and permitted nonaudit services provided to OfficeMax by its independent registered public accounting firm, KPMG LLP.

Audit, Audit-Related, and Other Nonaudit Services

Consistent with SEC policies regarding auditor independence, the Audit Committee has responsibility for appointing, setting compensation and overseeing the work of KPMG LLP. In recognition of this responsibility, the Audit Committee has established a policy to pre-approve all audit and permissible non-audit services provided by KPMG LLP.

Prior to engagement of KPMG LLP for the next year's audit, management or KPMG LLP will submit to the Audit Committee for approval a list of services and related fees expected to be rendered during that year within each of four categories of services.

1. ***Audit*** services include audit work performed on the financial statements and internal control over financial reporting, as well as work that generally only KPMG LLP can reasonably be expected to provide, including comfort letters, statutory audits, and discussions surrounding the proper application of financial accounting and/or reporting standards.
2. ***Audit-Related*** services are for assurance and related services that are traditionally performed by KPMG LLP, including employee benefit plan audits, and special procedures required to meet certain regulatory requirements.
3. ***Tax*** services include all services performed by KPMG LLP's tax personnel except those services specifically related to the audit of the financial statements, including tax analysis, assisting with the coordination of tax-related activities, supporting other tax-related regulatory requirements, and tax compliance and reporting.
4. ***All Other*** services are those services not captured in the audit, audit-related or tax categories. OfficeMax generally does not request such services from KPMG LLP.

Edgar Filing: OFFICEMAX INC - Form DEF 14A

Prior to engagement, the Audit Committee considers whether proposed services would impair KPMG LLP's independence before approving any services within each category. The fees are budgeted and the Audit Committee requires KPMG LLP and management to report actual fees versus the budget periodically throughout the year by category of service.

During the year, circumstances may arise when it becomes necessary to engage KPMG LLP for additional services not contemplated in the original pre-approval categories. In those instances, the Audit Committee requires specific pre-approval before engaging KPMG LLP. To ensure prompt handling of unexpected matters, the Audit Committee has delegated to its chair the authority to amend or modify the list of approved permissible audit and nonaudit services and fees. For informational purposes only, the chair reports any action taken pursuant to this authority at the next Audit Committee meeting. The Audit Committee believes this approach results in an effective procedure to pre-approve services to be performed by KPMG LLP.

OfficeMax did not use KPMG LLP for any of the following nonaudit services in 2007:

bookkeeping or other services related to our accounting records or financial statements;

financial information systems design and implementation;

appraisal or valuation services, fairness opinions, or contribution-in-kind reports;

actuarial services;

internal audit outsourcing services;

management functions or human resources;

broker or dealer, investment adviser, or investment banking services; or

legal services and expert services unrelated to the audit.

Based on its review, the Audit Committee believes that KPMG LLP's provision of nonaudit services is compatible with maintaining its independence.

Financial Statement Recommendation

The Audit Committee is responsible for recommending to the board that OfficeMax's audited financial statements be included in its Form 10-K. The Audit Committee took a number of steps in making this recommendation for 2007, including discussing with KPMG LLP the:

conduct of the audit, including information regarding the scope and results of the audit, as required by the Statement on Auditing Standards No. 61, Communication with Audit Committees;

auditors' independence, including receipt of a letter from KPMG LLP regarding its independence, as required by Independence Standards Board Standard No. 1, Independence Discussions with Audit Committees; and

audit of management's assessment of the effectiveness of internal control over financial reporting and KPMG LLP's own audit of the effectiveness of internal controls over financial reporting.

As the final step in this procedure, the Audit Committee reviewed and discussed with KPMG LLP and management OfficeMax's audited consolidated balance sheet at December 29, 2007, and its audited consolidated statements of income (loss), cash flows, and shareholders' equity

for the year ended December 29, 2007.

Edgar Filing: OFFICEMAX INC - Form DEF 14A

Based on the discussions with OfficeMax's management regarding the audited financial statements and with KPMG LLP regarding its audit and independence, the Audit Committee recommended to the board that these financial statements be included in OfficeMax's 2007 Form 10-K.

Executive Compensation Committee Report

The Executive Compensation Committee of the board of directors (throughout this section, the "committee") operates under a written charter and is comprised entirely of directors meeting the independence requirements of the New York Stock Exchange. The members of the committee are appointed by the Board on the recommendation of the Governance and Nominating Committee and may be removed by the Board in its discretion.

The Board established the committee to discharge the Board's responsibilities relating to compensation of the company's chief executive officer and each of the company's other executive officers. The committee has overall responsibility for decisions relating to all compensation plans, policies, and benefit programs as they affect the chief executive officer and other executive officers.

Committee Authority and Responsibilities

The committee annually reviews and approves corporate goals and objectives relevant to chief executive officer compensation. Together with the Board's Committee of Outside Directors, the committee annually evaluates the CEO's performance in light of those goals and objectives and determines and approves the CEO's overall compensation levels based on this evaluation.

The committee annually reviews and approves the annual base salaries and annual incentive opportunities of the company's elected officers.

Periodically and when appropriate, the committee reviews and approves the following as they affect the CEO and the company's elected officers:

All other incentive awards and opportunities including both cash-based and equity-based awards and opportunities;

Any employment agreements and severance arrangements;

Any change-in-control agreements and change-in-control provisions affecting any elements of compensation and benefits; and

Any special or supplemental compensation and benefits.

The committee receives periodic reports on the company's compensation programs as they affect all employees.

The committee is responsible for producing a committee report for inclusion in the company's proxy statement.

Edgar Filing: OFFICEMAX INC - Form DEF 14A

The committee reviews and discusses the Compensation Discussion and Analysis section of the proxy with management. Based on this review and discussion, the committee determines whether to recommend to the Board that the section be included in the company's annual report or proxy statement.

The committee periodically reviews executive succession plans for management.

Committee Procedure

The committee reviews and reassesses its Charter annually and recommends any proposed changes to the Board.

The committee has at least three regularly scheduled meetings annually but will meet as often as necessary to carry out its responsibilities. The meetings may be called by the committee chair, the chairman of the Board, or the CEO.

The committee keeps minutes and reports its activities to the Board.

The committee annually reviews its own performance.

The committee has the sole authority to retain and terminate any compensation consultant to be used to assist it in the evaluation of CEO or elected officer compensation and has sole authority to approve the consultants' fees and the other terms and conditions of the consultants' retention. The committee also has authority to obtain advice and assistance from internal or external legal, accounting, or other advisors as it deems appropriate.

The committee may form and delegate authority to subcommittees.

The Executive Compensation Committee has reviewed and discussed the information appearing below under the heading "Compensation Discussion and Analysis", beginning on page 31, with management and, based on that review and discussion, has recommended to the board of directors that the "Compensation Discussion and Analysis" section be included in this proxy statement.

Compensation Discussion and Analysis

Overview

The Executive Compensation Committee (referred to as the committee in the remainder of this section) and management base their executive compensation policies and decisions with respect to our named executive officers on achievement of the following objectives:

align compensation with our performance on both a short-term and long-term basis;

attract, motivate, reward, and retain management talent critical to achieving our business goals; and

encourage ownership of our common stock to create commonality of interest between executive officers and stockholders.

In order to achieve these objectives, the committee and management have implemented a compensation program that generally includes the following material components:

base salary;

annual performance-based incentive compensation;

long-term performance-based incentive compensation; and

other compensation and benefit plans.

In designing compensation programs, management and the committee place a heavy emphasis on performance, and consequently a substantial portion of each executive officer's total annual compensation is "at-risk" and tied to our annual and long-term financial performance, as well as to the enhancement of stockholder value.

We describe each of these components in more detail below, including their relationship to the objectives outlined above.

Independent Consultant to the Executive Compensation Committee

The committee has the authority under its charter to directly retain compensation consultants to assist the committee. In accordance with this authority, the committee engages Frederic W. Cook & Co. (referred to in the rest of this section as Cook) as its independent outside compensation consultant to advise it on matters related to chief executive officer and other executive compensation. The committee has the sole authority to retain and terminate Cook. Cook only interacts with management with the express permission of the committee. At the request of the committee, Cook assisted management in formulating its proposal to increase the shares of stock available for issuance under the OMIPP. In its capacity as advisor to the committee, Cook is available to meet with the committee and management when requested and regularly attends the committee meetings. Representatives of Cook attended eight committee meetings in 2007. The services provided to the committee by Cook include but are not limited to: reviewing proposals prepared by management; advising on the design of incentive plans, including the structure of the plans, the selection of performance metrics and the setting of performance goals; advising on the design of the indirect elements of the total compensation program, such as change in control severance benefits, stock ownership policy and perquisites; assisting the committee in making changes to Mr. Duncan's compensation and in determining his annual payout, if any, under the annual incentive plan as well as his annual long-term incentive award; providing periodic updates on emerging trends and best practices with regard to compensation design and policy; assisting with preparation of the annual proxy statement and other matters related to disclosure of executive compensation; reviewing an annual competitive analysis of compensation rates for the company's executive officers; conducting an annual competitive analysis of aggregate equity compensation expense for the company as a whole; and recommending an annual equity compensation budget based on both stock usage and economic cost.

Management Consultant

The executive vice president and senior vice president of human resources engage consultants as needed in order to provide executive compensation recommendations, market data and calculations. To provide a market-based foundation for executive compensation decisions, management annually engages a consultant to conduct a survey of compensation paid by a peer group of companies (referred to in the rest of this section as the compensation survey). The

compensation survey provides information on base salaries, short-term incentives, annual targeted total cash compensation, long-term incentives, and annual targeted total direct compensation paid by the peer group. This information is used by management to benchmark the compensation recommendations that management provides to the committee. Cook reviews management's recommendations and provides feedback to the committee on those recommendations. In 2006 and 2007, this compensation survey was produced by Hewitt Associates (referred to in the rest of this section as Hewitt). In 2008, this compensation survey was produced by the Hay Group (referred to in the rest of this section as Hay).

Peer Group

The peer group is reviewed and approved annually by the committee. Management, together with the consultant producing the compensation survey initially propose a peer group of companies drawn from the consultant's database. The peer group is finalized after discussions with the committee chair and the committee. The committee consults with Cook on the composition of the peer group. The peer group includes competitors, leading retailers, and business to business distributors that have submitted their compensation data to the consultant producing the compensation survey. We believe these companies have certain characteristics, such as business model or size, which are comparable to us and are likely to compete with us for executive talent. Because consultant databases are limited in the number of same-sized companies participating in their surveys, companies that are smaller or larger than us are included in the peer group so that a reasonable number of companies is available for statistical analysis. The compensation data is then adjusted for company size to control for compensation differences that would arise from company size differences alone. The peer group used by Hewitt in evaluating 2007 compensation levels consisted of the following companies:

Auto Zone, Inc.	Newell Rubbermaid Inc.
CDW Corporation	Office Depot, Inc.
Charming Shoppes, Inc.	The Pantry Inc.
Corporate Express, Inc.	Petco Animal Supplies, Inc.
Dollar General Corporation	The Sports Authority, Inc.
Federal-Mogul Corporation	Toys R Us, Inc.
J. C. Penney Company	Staples, Inc.
Kohl's Corporation	United Stationers, Inc.
L. L. Bean Incorporated	Williams-Sonoma, Inc.
Linens'n Things, Inc.	W. W. Grainger, Inc.
Longs Drug Stores, Inc.	

In late 2007, the committee decided to engage Hay to produce the 2008 compensation study because of its extensive survey database and consulting experience in the retail and services sectors. The set of companies available for peer group comparisons was therefore restricted to the companies that submit their data to Hay. During the annual review of the peer group, the committee approved the criteria, set forth below, to use in evaluating the companies to include in the peer group. From Hay's Retail Industry Total Remuneration Report, which contains information on nearly 100 retail organizations, a peer group was developed by management and Hay applying these criteria. The committee then reviewed the proposed peer group and approved a revised peer group whose constituents meet some or all of the following criteria:

peer competes with OfficeMax for business

peer has a similar business model to OfficeMax

peer competes with OfficeMax for talent

peer recruits talent from OfficeMax

peer sets compensation trends in OfficeMax's hiring market

peer has similar revenues to OfficeMax

The 2008 peer group includes 26 companies and has changed as follows:

Companies Added	Companies Retained	Companies Removed
Ace Hardware Corporation	Auto Zone, Inc.	CDW Corporation
Advance Auto Parts, Inc.	Dollar General Corporation	Charming Shoppes, Inc.
Big Lots, Inc.	Kohl's Corporation	Corporate Express
Blockbuster Inc.	Linens'n Things, Inc.	Federal-Mogul Corporation
The Bon-Ton Stores, Inc.	Office Depot, Inc.	J.C. Penney Company
Borders Group Inc.	Staples, Inc.	L.L. Bean Incorporated
Crate & Barrel	Williams-Sonoma, Inc.	Longs Drug Stores, Inc.
Dollar Tree Stores Inc.		Newell Rubbermaid Inc.

Base Salary

Overview

The committee and management believe that competitive base salaries are necessary to attract and retain management talent critical to achieving our business goals. The committee and management annually review the salary range and salary grades for all elected officer positions, referring to the compensation survey to provide insight into appropriate levels. Cook reviews this analysis on behalf of the committee and provides independent data as requested by the committee. The target salary for officers in a salary grade is the midpoint of the range. The midpoint represents the approximate median salary for equivalent positions at the peer group companies, after adjusting for differences in job content, including company size, business complexity and responsibilities of the roles compared to similar jobs in the market. The committee and management also make comparisons to similar OfficeMax positions in circumstances where the executive position does not exist in the peer group.

Process

Annually, the executive vice president and senior vice president of human resources recommend a salary for each elected officer (except for the chief executive officer). With respect to elected officers reporting directly to the chief executive officer, the compensation survey information and recommended salaries are presented to the chief executive officer. With respect to elected officers not reporting directly to the chief executive officer the process is the same, except the supervising elected officer reviews and provides input to the executive vice president of human

resources prior to the presentation of the recommended salaries to the chief executive officer. After reviewing this information, the chief executive officer may make modifications based on his own assessment of individual performance, and then makes salary recommendations to the committee. Cook is present at the committee meeting to provide input on the recommendations. The committee approves the base salary for each of the named executive officers and all other elected officers. In establishing base salaries, the committee considered the executive's length of employment, individual performance, relation to internal peers, and compensation survey data. Similarly, variance from salary range midpoint and compensation survey median base salaries is considered based on annual performance results, individual experience, expertise, skill, leadership qualities, level of responsibility, placement within company succession planning, overall value to the company and considerations of fairness and comparability within the company. The committee also reviews and may adjust salaries at the time of promotions or other significant increases in executive responsibilities based on the considerations described above.

Mr. Duncan's target base salary is established in the same way as it is for other elected officers, except that no recommendation is made by management with respect to his compensation. In addition, each year, Mr. Duncan provides the committee and the Committee of Outside Directors with a list of his goals and priorities or strategies for the upcoming fiscal year. The Committee of Outside Directors provides Mr. Duncan with a performance review each year, which includes consideration of the financial performance of the company for the year as well as Mr. Duncan's performance. The committee joins the Committee of Outside Directors when it conducts this review so that it can take the results into consideration when it sets Mr. Duncan's compensation for the year.

The base salaries for all named executive officers other than the chief executive officer and the chief financial officer were established following the procedures described above and are set forth in the "Summary Compensation Table" on page 51. The salary approved for Mr. DePaul was above the midpoint of his salary range, but still below the compensation survey median for his position. The base salaries of Messrs. Duncan, Civgin, Martin and Vero were lower than the midpoint of their salary range and below the compensation survey median for their position.

NEO Salaries

Mr. Duncan's base salary was initially established at \$850,000 in April 2005, when he joined the company, pursuant to the terms of his employment agreement. In February 2006, the committee approved an increase in Mr. Duncan's base salary to \$900,000, effective in April 2006. This resulted in Mr. Duncan's base salary remaining below the midpoint of the salary range for chief executive officers of peer companies in the Hewitt survey. The committee approved the 2006 increase in recognition of Mr. Duncan's impact on the strategic direction of the company and our improved operating results. In February 2007, following a discussion of Mr. Duncan's then current salary, as well as the other items of compensation that have been granted to Mr. Duncan, the committee approved an increase in Mr. Duncan's salary to \$1,000,000, effective as of April 1, 2007, in recognition of Mr. Duncan's impact on the company's operating results, which improved significantly in 2006, and his implementation of a complicated turnaround plan for the company in a short time frame. With this increase, Mr. Duncan's salary was still below the midpoint of the salary range for chief executive officers of peer companies in the Hewitt survey. Although the procedure to set Mr. Duncan's salary differs from the procedure to set the other named executive officer salaries (in that no recommendation is made to the committee with respect to his salary), his target salary is benchmarked in the same way as the other named executive officers, and that benchmark information is provided to the committee.

In February 2008, Cook provided a recommendation to the committee with respect to Mr. Duncan's salary and other compensation based on market data prepared by Hay. The

committee reviewed Cook's recommendation and Mr. Duncan's performance in 2007. In view of his accomplishments in continuing to drive the company's turnaround plan, the committee approved an increase in Mr. Duncan's salary to \$1,030,000, effective March 30, 2008.

Our chief financial officer, Mr. Civgin, joined the company in October 2005, at which time his base salary was set at \$475,000. In February 2006, the committee awarded Mr. Civgin a 2.1% increase in base salary to \$485,000 in recognition of his performance. In February 2007, the committee approved an increase in Mr. Civgin's salary to \$520,000, effective as of April 1, 2007. The chief executive officer recommended this increase for Mr. Civgin based on his accomplishments during his first year, including achievement of goals in the management of our finance function and his impact on our improved operating results. In February 2008, the committee reviewed Mr. Civgin's performance in 2007. In view of his accomplishments and continued leadership within the company, the committee approved an increase in Mr. Civgin's salary to \$546,000, effective March 30, 2008.

Our chief operating officer, Mr. Martin, joined the company in September 2007 at which time his base salary was set at \$620,000. This base salary was below the midpoint of the salary range for chief operating officers of peer companies in the compensation survey. The committee approved this base salary because of Mr. Martin's prior experience and the responsibilities he would take on as chief operating officer. In February 2008, the committee approved an increase in Mr. Martin's salary to \$640,000 in recognition of his performance effective March 30, 2008.

The committee also approved increases for Messrs. DePaul, Rowsey and Vero to \$313,500, \$538,000 and \$518,000, respectively, effective April 1, 2007, in recognition of their performance in 2006. The committee approved increases for Messrs. DePaul and Vero to \$327,600 and \$533,540, respectively, effective March 30, 2008, in recognition of their performance in 2007.

Annual Incentive Compensation (Bonus)

Overview

The committee establishes annual incentive compensation in the form of cash bonuses in order to tie a significant portion of annual compensation to our annual financial performance. Each year the committee establishes objective performance criteria that must be met by the company in order for bonuses to be paid (establishing minimum, target and maximum payout levels for each type of performance criteria), a bonus target for each executive officer that is expressed as a percentage of salary, and other terms and conditions of awards under the bonus program. Each of these components is described below. No annual incentive awards are earned or paid unless the minimum performance criteria are achieved and the company has net income. The committee may determine that special one-time or extraordinary gains or losses should or should not be included in the calculation of the performance criteria. The committee typically approves annual incentive bonus criteria in February, in order to comply with the provisions of Section 162(m) of the Internal Revenue Code of 1986, as amended (referred to in the rest of this section as Section 162(m)), which requires that performance metrics be set within 90 days of the commencement of the performance period. Compliance with Section 162(m) enables the awards to qualify as "performance-based" compensation and allows the awards granted to the CEO and other named executive officers (other than our chief financial officer whose compensation is not subject to the deduction limitations of Section 162(m)) to be tax deductible by us if the compensation to any named executive officer exceeds \$1 million for any fiscal year.

Performance criteria (2006 and 2007) that must be met before bonuses are paid

In 2006, the committee approved the following performance criteria applicable to all named executive officers to receive a bonus payment at target: company return on sales of 2%, same

location sales growth of 3.9%, and earnings before interest and taxes (which we refer to as EBIT Dollars) of \$185 million. These financial measures were weighted as follows for 2006: EBIT Dollars 50%, return on sales 25%, and same location sales growth 25%. The performance criteria set for 2006 were aligned with our 2006 strategic plan. These measures and the individual weightings were selected by the committee to ensure an appropriate focus on growth and profitability, with EBIT Dollars weighted most heavily because it was most indicative of our success in executing our strategic plan and reinforced the objective of increasing our overall profitability. Return on sales measures the efficiency of our execution and sales growth promotes positive marketplace expansion of the business, each of which are critical to achieving sustained and profitable growth as well as the efficient use of capital. Given our 2005 performance, the committee felt it important to place greater relative emphasis on EBIT Dollars in 2006 and therefore weighted EBIT Dollars more heavily. The committee chose targets for each measure which would be obtainable if executive officers executed the strategies articulated by the company and produced material improvements in operating results and which the committee believed would increase stockholder value when met. The improvement in operating results required to reach the targets was significantly in excess of 2005 operating results and was dependent on successful completion of numerous initiatives designed to increase efficiency, reduce cost, and deliver a better customer experience.

In February 2007, the committee approved the performance criteria, bonus targets and design for the 2007 annual incentive compensation plan. For the reasons stated above, the committee retained EBIT Dollars, return on sales, and same location sales growth as objective performance criteria. Because the same location sales growth goal was not met in 2006, the committee increased the relative weighting of that goal to one-third, increased the weighting of the return on sales goal to one-third and reduced the weighting of the EBIT Dollars goal to one-third, to emphasize the equal importance attached to achievement of sales growth and to create greater management focus on achieving targeted goals. In order to achieve a payment at target, the company had to achieve EBIT Dollars of \$379.2 million, return on sales of 4% and same location sales growth of 4.1%. The performance criteria and the weighting of those criteria were intended to motivate and reward eligible officers to strive for continued financial improvement for the company, consistent with increasing stockholder value. The committee chose targets which required, in part, revenue growth that was in excess of expected U.S. baseline economic growth. In addition, as with our 2006 targets, achievement of the 2007 targets required an improvement in our operating results in excess of our 2006 results, and which the committee believed would increase stockholder value when met, while taking into account that further year over year incremental improvement in operating results becomes more difficult as operating results improve. As was the case in 2006, achievement of the 2007 targets was dependent on the successful completion of numerous initiatives designed to increase efficiency, reduce costs, and deliver a better customer experience. To receive an award, participants must have been employed by the company on or before September 30 of the plan year, must have been employed by the company for a minimum of 90 days during the plan year and, subject to certain exceptions, must have been employed by the company at the time of award payment. In addition, no award will be earned or paid if the company does not have net income for the award period or the participant is performing at an unsatisfactory performance level.

In 2006 and 2007, no named executive officer's annual incentive required accomplishment of individual performance measures.

Target bonuses

The committee establishes a target bonus for each executive officer. Target bonus amounts are specified as a percentage of the elected officer's base salary. In 2006 and 2007, target bonus amounts for our named executive officers ranged from 50% to 100% of base salary, depending on

Edgar Filing: OFFICEMAX INC - Form DEF 14A

position, and were payable in cash. The Executive Vice President of Human Resources and the Senior Vice President of Human Resources recommend a target bonus for each executive officer to the committee, that is aligned with the median rate for equivalent positions at peer group companies shown in the compensation survey. Depending on the achievement of the objective performance goals, an elected officer's actual payout is typically either above or below the targeted amount. The maximum potential award for any participant, including the named executive officers, was 225% of base salary. See the table "Grants of Plan-Based Awards for Fiscal Year Ended December 29, 2007" on page 54 for the minimum, target and maximum awards for each of our named executive officers. The committee also has the discretion to reduce or eliminate an award regardless of whether the performance goals applicable to the elected officer's bonus have been achieved. The committee did not exercise this discretion in 2006 or 2007.

Mr. Duncan's annual incentive compensation is determined in the same manner as all other named executive officers, except that, under his employment agreement, his annual target bonus must be at least 100% of his annual base salary in effect at the beginning of the applicable fiscal year, with a maximum potential award equal to 225% of his annual base salary. In both 2006 and 2007, his target was 100% of his salary. In addition, notwithstanding the performance goals, Mr. Duncan's agreement provided that, for 2005 only, he was to receive a minimum award of 100% of his base salary. Following 2005, however, Mr. Duncan, like the other named executive officers, receives a bonus only when the minimum performance goals are achieved and the company has net income.

Mr. Civgin's annual target bonus must equal at least 55% of his annual base salary in effect at the beginning of the applicable fiscal year pursuant to the terms of his initial offer letter.

Mr. Martin's annual target bonus must equal at least 70% of his annual base salary in effect at the beginning of the applicable fiscal year pursuant to the terms of his initial offer letter. Notwithstanding the company performance goals, Mr. Martin's offer letter provided that, for 2007 only, he was to receive a minimum award of 70% of his base salary, prorated to reflect the commencement date of his employment.

The 2007 annual target bonuses for Messrs. Vero, Rowsey and DePaul were established based on the median short-term award granted by our peers as reflected in the compensation survey.

Payments under plan

In 2006, we exceeded the target return on sales goal and the target EBIT Dollar goal; but the minimum same location sales growth goal was not achieved. The table below indicates the 2006 bonus target as well as the actual bonus received by each named executive officer, shown as a percentage of target, as a percentage of his salary and in dollars:

Name	Target (as % of base Salary)	Actual bonus (as % of base)	% of Target	Amount Earned (\$)
Sam Duncan	100%	156%	156%	\$ 1,404,000
Don Civgin	55%	86%	156%	\$ 416,130
Phillip DePaul	50%	78%	156%	\$ 234,000
Michael Rowsey	65%	101%	156%	\$ 527,280
Ryan Vero	55%	86%	156%	\$ 429,000

Edgar Filing: OFFICEMAX INC - Form DEF 14A

In 2007, we achieved 78% of the target return on sales goal and 64% of the target EBIT Dollar goal; but the minimum same location sales growth goal was not achieved. The table below indicates the 2007 bonus target as well as the actual bonus received by each named executive officer, shown as a percentage of target, as a percentage of his salary and in dollars:

Name	Target (as % of base Salary)	Actual bonus (as % of base)	% of Target	Amount Earned (\$)
Sam Duncan	100%	47%	47.30%	\$ 473,000
Don Civgin	55%	26%	47.30%	\$ 135,278
Phillip DePaul	50%	24%	47.30%	\$ 74,143
Sam Martin (1)	70%	20%	100.00%	\$ 124,000
Michael Rowsey (2)				
Ryan Vero	55%	26%	47.30%	\$ 134,758

- (1) By agreement, Mr. Martin received a minimum award of 70% of his base salary, prorated to reflect the commencement of his employment.
- (2) Mr. Rowsey was not eligible for a 2007 annual incentive award because he was no longer employed by the company as of December 29, 2007.

2008

In February 2008, the committee approved the performance criteria, bonus targets and design for the 2008 annual incentive compensation plan. The performance criteria and weighting chosen are: company EBIT dollars (50%), return on sales (30%) and same location sales growth (20%). These are the same performance criteria applied in 2006 and 2007, but the weightings have changed, reflecting the continuing importance of these criteria in the company's strategic plan but the increasing difficulty of attaining sales targets given current economic conditions. The performance criteria and the weighting of those criteria are intended to motivate and reward eligible officers to strive for continued financial improvement for the company, consistent with increasing stockholder value. The committee strives to establish targets with a level of difficulty that it expects, at the time the targets are set, will result in a 60% likelihood of achievement of the target by the company, with the understanding that the company's actual results are likely to vary based on a number of factors, including the impact of domestic and foreign economic conditions. As was the case in 2007, achievement of the 2008 targets will be dependent on the successful completion of numerous initiatives designed to increase efficiency, reduce costs, and offset the effect of economic conditions in 2008.

The chart below sets forth the historical achievement of the short-term incentive goals over the previous three years.

Year	EBIT Dollars		Return on Sales		Same Location Sales Growth	
	Goal	Actual	Goal	Actual	Goal	Actual
2005	\$ 208,500,000	\$ 151,400,000	2.2%	1.7%	5.1%	1.7%
2006	\$ 185,000,000	\$ 308,700,000	2.0%	3.4%	3.9%	1.0%
2007	\$ 379,200,000	\$ 344,200,000	4.0%	3.8%	4.1%	0.9%

2008 annual incentive targets were approved in the following amounts for our named executive officers: Sam Duncan, 100%; Don Civgin, 55%; Phillip DePaul, 50%; Sam Martin, 70%; and Ryan Vero, 55%. The targets approved are the same as the targets approved in 2007 and are

in line with and in some instances below the median rate for equivalent positions at peer group companies in the compensation survey.

Long-Term Incentive Compensation (Equity Awards)

Overview

The committee provides long-term incentives in the form of various types of equity awards, in order to serve several of the compensation objectives. First, the committee believes that equity awards, in tandem with our executive stock ownership guidelines described below, encourage ownership of our common stock by elected officers, which in turn aligns the interest of those officers with our stockholders. In addition, the vesting provisions applicable to the awards help retain eligible officers and reward the achievement of long-term business objectives that benefit our stockholders.

The OMIPP was adopted by our stockholders. The OMIPP permits the grant of annual incentive awards, stock, restricted stock, restricted stock units, performance stock, performance units, stock appreciation rights (SARs), traditional stock options, and a variety of performance-based stock options. This plan gives the committee flexibility in choosing among these awards to provide competitive long-term incentive compensation. See "Approval of an Amendment to Our OfficeMax Incentive and Performance Plan to Increase the Number of Shares of Stock Available for Issuance under the Plan and to Make Certain other Changes to the Plan and Re-approve the Material Terms of the Performance Goals under the Plan" on page 5 for a description of amendments proposed with respect to the OMIPP.

Annually, the committee approves the plan design of the long-term incentive program for the upcoming year. Management discusses the initial program elements prior to presenting them to our chief executive officer for further review and recommendation to the committee for approval. This includes the type of equity award to be granted as well as the size of the award for elected officers. In determining the type and aggregate size of awards to be provided, as well as the performance metrics that will apply, the committee considers the strategic goals of the company, trends in corporate governance, accounting impact, tax-deductibility, cash flow considerations, the impact on the company's earnings per share and the number of shares of stock that would be required to be allocated for the award. Throughout the process, Cook is informed and provides ongoing feedback to the committee and management (at the committee's request).

After consideration of the long-term incentive award data presented in the compensation survey, the committee approves long-term incentive award targets for the upcoming fiscal year, expressed as a percentage of salary. The committee generally attempts to align the award target for each elected officer with the median rate for equivalent positions at peer group companies. The salary multiple is then applied to the elected officer's base salary to determine the size of the award. The committee considers whether the awards are comparable to similar awards provided by the peer group as well as similar awards previously offered by the company, each of which are important criteria in ensuring a competitive program that supports attraction and retention objectives and also results in a reasonable and sustainable level of potential share dilution and cost. On the date on which the awards are granted, each elected officer receives that number of the securities that have been selected for issuance under the long-term incentive program equal to his or her salary multiplied by his or her award target percentage divided by the closing price of company stock on the date of grant. No action may be taken by the officer with respect to the securities underlying the award until the securities vest. The number of securities that actually vest will depend on achievement of the objective performance criteria established by the committee. An elected officer's actual vested number of shares of company stock is likely to be either above or below the targeted amount.

In general, the committee grants long-term incentive compensation awards one time per year, typically in February, in order to comply with the provisions of Section 162(m), which requires that performance metrics be set within 90 days of the commencement of the performance period.

Edgar Filing: OFFICEMAX INC - Form DEF 14A

Compliance with Section 162(m) enables the awards to qualify as "performance-based" compensation and thereby allow awards granted to the CEO and other named executive officers to be tax deductible by us.

Type of equity granted and performance metrics (2006 and 2007)

For 2006, management recommended and the committee approved a grant of performance-based restricted stock units as the only type of long-term incentive compensation award. The grant was designed to support the company's strategic plan and reward elected officers if our financial performance improves over a two-year period. In addition, performance-based restricted stock units support our financial efficiency objectives as their cost is variable and is only incurred by us to the extent operating goals are achieved. Receipt of the restricted stock units pursuant to the awards is based on the company's achievement of a minimum return on net asset measure for fiscal years 2006 and 2007 and a two-year cumulative EBIT measure for fiscal years 2006 and 2007 with the final amounts adjusted based on company return on sales for fiscal years 2006 and 2007. The final number of restricted stock units issued was adjusted based on company return on sales for each of the fiscal years 2006 and 2007. Return on sales for both 2006 and 2007 exceeded the targets and participants will receive 150% of the initial award granted. Fifty percent of the increased award vested on February 8, 2008 and the remainder of the grant will vest on February 8, 2009.

The three metrics chosen, EBIT Dollars, return on net assets and return on sales, were recommended by management and approved by the committee. The committee believed that these performance metrics were aligned with our 2006 strategic plan. In consideration of the difficulty of setting multi-year targets with precision during our restructuring activities, the committee approved a 24-month combined performance period with specific measures applicable to each of the two 12-month performance periods. The delayed distribution of a portion of the earned restricted stock units following the performance period enhances the retention value of the compensation program. The committee chose targets for each measure which would be obtainable if executive officers executed the strategies articulated by the company and produced material improvements in operating results and which the committee believed would increase stockholder value when met. The improvement in operating results required to reach the targets was significantly in excess of 2005 operating results and was dependent on successful completion of numerous initiatives designed to increase efficiency, reduce costs, and deliver a better customer experience.

For 2007, management recommended and the committee approved a grant of performance-based restricted stock units as the only type of long-term incentive compensation award. Receipt of the restricted stock units pursuant to the awards is based on the company's achievement of a minimum return on net asset measure for fiscal years 2007 and 2008 and a two-year cumulative EBIT measure for fiscal years 2007 and 2008 with the final amounts adjusted based on company return on sales for fiscal years 2007 and 2008. The committee chose targets which require, in part, revenue growth that is in excess of expected U.S. baseline economic growth. In addition, as with our 2006 targets, achievement of the 2007 targets required an improvement in our operating results in excess of our 2006 results, and which the committee believes will increase stockholder value when met, while taking into account that further year over year incremental improvement in operating results becomes more difficult as operating results improve. As was the case in 2006, achievement of the 2007 targets was dependent on the successful completion of numerous initiatives designed to increase efficiency, reduce costs, and deliver a better customer experience. If paid, one half of the units will vest and be paid in February 2009 and the remaining half of the units will vest and be paid in February 2010. Units are paid in shares of company common stock. The form of the RSU Award Agreement provides that participants must be employed by the company in order for the restricted stock units to vest (subject to exceptions in certain circumstances including involuntary termination, death, disability or retirement, in which case a pro rata amount of restricted

Edgar Filing: OFFICEMAX INC - Form DEF 14A

stock units will vest on termination if the participant was employed with the company for a minimum of six months during fiscal years 2007 or 2008). Units may not be sold or transferred prior to vesting. In addition, recipients of the units do not receive dividends and do not have voting rights until the units vest.

The committee believes that performance metrics applicable to long-term incentive awards are particularly critical to encourage forward planning for our success. The committee intends to continue to align the metrics for future long-term incentive compensation programs with our strategic goals as they evolve.

In 2006 and 2007, no named executive officer's long-term incentive required accomplishment of individual performance measures.

Bonus targets

The committee establishes a target long-term incentive award for each executive officer. Target long-term incentive amounts are specified as a percentage of the elected officer's base salary. The Executive Vice President of Human Resources and the Senior Vice President of Human Resources recommend a target long-term incentive award for each executive officer to the committee, that is aligned with the median rate for equivalent positions at peer group companies shown in the compensation survey. For 2006 and 2007, target long-term incentive awards for our executive officers ranged from 100% to 350% of base salary. The executive's actual payout can vary from the targeted amount depending on the achievement of the objective performance goals, as well as changes in the value of the shares of stock underlying the grant that occur between the grant date and payout. The maximum potential award for any participant, including the named executive officers, was 150% of the target award, expressed as a number of shares of stock.

Mr. Duncan's long-term incentive compensation is determined in the same manner as all other named executive officers, except that under his employment agreement, we are required to grant Mr. Duncan for each subsequent year he is employed during the term of his agreement, long-term incentive compensation awards with a present value (as determined by the committee) approximately equal to 350% of Mr. Duncan's then-current annual base salary. In both 2006 and 2007, his target was 350% of his salary. The committee believes these awards appropriately emphasize the importance of long-term performance and align Mr. Duncan's interests with those of our stockholders, while taking into account the other elements of his compensation. Pursuant to his offer letter, Mr. Martin received a grant of 36,540 RSUs as a 2007 long-term incentive award, which was based on the compensation survey data for his position and pro-rated based on his commencement date of employment. For each of our named executive officers, see the table "Grants of Plan-Based Awards for Fiscal Year Ended December 29, 2007" on page 54 for the minimum, target and maximum awards. The target awards were based on the compensation survey data and took the company's turnaround status into consideration.

2008

On February 20, 2008, the committee approved the 2008 Long-Term Incentive Program under which the company's named executive officers will be awarded RSUs pursuant to the OMIPP. Each named executive officer will receive an award that is divided evenly between RSUs that vest upon company achievement of certain performance criteria (including EVA[®](1) Improvement, described below) within specified time periods and RSUs that vest solely upon the elapsing of a time period. EVA[®] Improvement is a new performance metric for the company. Because of the uncertainty inherent in new and complex performance metrics, the committee chose to structure one half of the award in RSUs that vest solely upon the elapsing of a time period in order to increase the retention

(1) EVA[®] is a registered trademark of Stern Stewart & Co.

value of the awards. The committee established an EVA® Improvement target based on the same company performance expectations that were used to establish the 2008 annual incentive targets, with similar expectations regarding the level of difficulty inherent in attaining such targets. This year, the target value of long-term incentive awards was decreased for our named executive officers to align with the median rate for equivalent positions at peer group companies. Mr. Duncan voluntarily reduced his percentage of salary for this 2008 grant to 300% from 350%, despite contractual entitlement to the larger amount, in order to receive a reduction in award commensurate with the other executive officers. Awards of RSUs were approved at the following percentage of salary for the following named executive officers of the company: Sam Duncan, 300% of salary; Don Civgin, 125% of salary; Phillip DePaul, 80% of salary; Sam Martin, 150% of salary; and Ryan Vero, 125% of salary.

Awards of performance based RSUs were approved in the following amounts for the following executive officers of the company: Sam Duncan, 63,210 RSUs; Don Civgin, 13,700 RSUs; Phillip DePaul, 5,290 RSUs; Sam Martin, 19,600 RSUs; and Ryan Vero, 13,640 RSUs. The number of RSUs was determined based on the closing price of company common stock on February 20, 2008. Receipt of the performance based RSUs is based on the company's achievement of a two-year cumulative EBIT measure for fiscal years 2008 and 2009. If the EBIT target is achieved, then the final amounts received will be adjusted as follows: one half will be adjusted based on company Economic Value Added ("EVA®") Improvement for fiscal year 2008 and one half will be adjusted based on company EVA® Improvement for fiscal year 2009. EVA® Improvement means improvement in the dollar value of the company's EVA® for the most recently completed fiscal year compared to the dollar value of the company's EVA® for the next preceding fiscal year. If paid, one half of the award will vest and be paid in February 2010 and the remaining half of the award will vest and be paid in February 2011. Awards are paid in shares of company common stock.

Awards of time based RSUs were approved in the following amounts for the following executive officers of the company: Sam Duncan, 63,210 RSUs; Don Civgin, 13,700 RSUs; Phillip DePaul, 5,290 RSUs; Sam Martin, 19,600 RSUs; and Ryan Vero, 13,640 RSUs. The number of RSUs was determined based on the closing price of company common stock on February 20, 2008. On the third anniversary of the grant date, 100% of the time based RSUs shall vest and be paid in company common stock.

Retention Programs

In March 2005, the committee implemented a retention program because of extraordinary events at the company, including the Boise Cascade Corporation acquisition of OfficeMax, Inc. in late 2003, the divestiture of the forest products assets of Boise Cascade Corporation in late 2004 (after which our name was changed from Boise Cascade Corporation to OfficeMax Incorporated), a financial investigation and the departures of our chief executive officer, chief financial officer and president of retail operations in late 2004 and early 2005. This program was designed to retain key executives in order to provide stability within the organization. Each retention award included two elements, a cash award paid in 2006, and an award of time-vesting restricted stock that vested on March 16, 2007. The committee determined the type and size of the awards by:

taking into account each individual's salary range and responsibilities;

analyzing peer group companies' competitive compensation; and

considering Cook's recommendations.

The magnitude of the total award was intended to be significant in comparison to each elected officer's salary to ensure a meaningful incentive to remain employed. The cash component was intended to ensure retention of executives over the near-term and the restricted stock component

was intended to promote longer-term retention and tie the value of the award to changes in stockholder value.

To implement the first element of the retention award, the committee adopted the OfficeMax Cash Incentive Plan (the "CIP") and approved grants of cash incentive awards to certain of the elected officers. These awards vested on March 11, 2006, for those elected officers still employed by us on that date. Upon vesting, the awards were paid in cash. Mr. Duncan and Mr. Civgin did not receive any awards because they were hired after the program commenced. The following named executive officers received payouts under the CIP in 2006 as follows: Mr. DePaul, \$122,500, Mr. Rowsey \$412,500 and Mr. Vero \$297,000.

The second element of the retention program was the issuance of time-vesting restricted stock under the OMIPP in March 2005.

The 2005 restricted stock unit grants vested 100% on March 16, 2007, the second anniversary of the grant date, for participants who were employed by the company on that date. Upon vesting, the units were distributed in shares of company common stock.

The retention program was a key component in retaining the management critical to the success of the company. We currently have no plans to grant additional retention awards.

Other Compensation Arrangements

On April 14, 2005, we entered into an employment agreement with Mr. Duncan, who became our chief executive officer on April 18, 2005. Mr. Duncan was subsequently appointed chairman of our board of directors on June 30, 2005. Mr. Duncan was hired at a time when the company was experiencing a number of challenges. In December 2003, Boise Cascade Corporation (the company's former name) completed its purchase of OfficeMax, Inc. Prior to December 2003, the company sold and distributed office products to businesses as one of its lines of business but had no retail presence. In November 2004, the company sold all lines of business other than its office products distribution businesses and changed its name to OfficeMax Incorporated. As a result, the company went through a major restructuring, including adding many new executives to the management team. In December 2004, the company commenced an internal investigation into claims by a vendor to its retail business that certain employees acted inappropriately in requesting promotional payments and in falsifying supporting documentation. In January 2005 the president of the company's retail business and its chief financial officer resigned. In February 2005, the company's chief executive officer resigned and the company announced a restatement arising from its internal investigation. In April 2005, as the company was finalizing its employment arrangements with Mr. Duncan, it was threatened with a proxy contest. As a result of all the challenges and uncertainty with respect to the company, it was crucial to chief executive officer recruitment efforts to be able to offer a competitive package that provided some certainty to the candidate. The committee believed that Mr. Duncan's initial overall compensation, as well as each element of his compensation, was reasonable when compared to relevant benchmark data, taking into account the circumstances of his recruitment and his relevant experience. Most of the aspects of Mr. Duncan's employment that are different than those paid to other named executive officers stem from the initial terms of his employment agreement, which were critical to Mr. Duncan's decision to join the company. The other named executive officers do not have employment agreements. You can read more about Mr. Duncan's agreement throughout "Compensation Discussion and Analysis" beginning on page 31 and under "Estimated Termination Benefits Mr. Duncan" beginning on page 66.

Edgar Filing: OFFICEMAX INC - Form DEF 14A

On September 19, 2005, we entered into an offer letter with Mr. Civgin effective October 3, 2005, to serve as our executive vice president, finance and to assume the position of chief financial officer. You can read more about Mr. Civgin's offer letter throughout "Compensation Discussion and Analysis" beginning on page 31 and under "Estimated Termination Benefits Mr. Civgin" beginning on page 69.

On September 12, 2007, we entered into an offer letter with Mr. Martin effective September 17, 2007, to serve as our executive vice president and chief operating officer. You can read more about Mr. Martin's offer letter throughout "Compensation Discussion and Analysis" beginning on page 31 and under "Estimated Termination Benefits Mr. Martin" beginning on page 71.

In 2005, the committee awarded Mr. Duncan 50,000 restricted stock units and stock options to purchase 250,000 shares of our common stock. Also in 2005, the committee awarded Mr. Civgin 38,000 restricted stock units and stock options to purchase 50,200 shares of our common stock. In 2007, the committee awarded Mr. Martin 11,150 restricted stock units and stock options to purchase 35,000 shares of our common stock. Each of these awards was made pursuant to the officer's agreement or offer letter with us. These additional items of compensation were part of the packages offered to these officers before they joined the company. The terms applicable to these restricted stock units and stock options are discussed in the "Award Tables" beginning on page 53.

In addition, pursuant to employment agreements entered into by Messrs. Vero and DePaul upon joining us at the time of the OfficeMax, Inc. acquisition in 2003, each received cash retention payments in 2004, 2005 and 2006. The purpose of the incentives was to encourage these individuals to remain with us during the transition period following the acquisition. Mr. Vero received \$130,000, \$130,000 and \$390,000 in 2004, 2005 and 2006, respectively, pursuant to these provisions, and Mr. DePaul received \$39,000, \$39,000 and \$117,000 in 2004, 2005 and 2006, respectively. The agreements terminated on December 10, 2006. Payments pursuant to the agreements were separate from and in addition to the retention awards described on page 43 under "Retention Programs."

In 2007, the company entered into a Tuition Reimbursement Agreement with Mr. DePaul in order for him to attain his MBA and use the additional skills he gains in his role as company controller. Pursuant to the agreement, the company will pay or reimburse Mr. DePaul for expenses incurred in connection with Mr. DePaul's enrollment in the Executive MBA Program at Notre Dame. Under the agreement, the company will have no obligation to pay or reimburse Mr. DePaul for the expenses of the program if he (a) voluntarily terminates his employment with the company within a specified time frame, (b) fails to complete a course, (c) fails to achieve a passing grade, or (d) his employment is involuntarily terminated (subject to certain exceptions). In addition, Mr. DePaul would be required to reimburse the company for some or all program expenses (based on the date of termination) paid by the company if his employment with the company is terminated due to a reason described in (a) or (d) in the preceding paragraph or if he terminates his participation in the program or otherwise fails to successfully complete the program within a specified time frame.

Other Benefit Programs

We provide our elected officers with limited perquisites and other benefits. The committee believes that these programs are competitive within our industry and the expense of these programs is offset by their attraction and retention value.

Officers with the title of senior vice president and selected elected officers are eligible to participate in our Executive Life Insurance Program, which was adopted by the committee in February 2005. Participants receive a life insurance policy with an insurance amount equal to two times their base salary from a designated insurance carrier (or three times base salary, in the case of the chief executive officer). Policy premiums, subject to some limitations, will be paid by us and

will be treated as taxable compensation to the participants. Upon termination of the participant's employment, the policy remains in force until the end of the current policy period but we will not renew the policy on the next anniversary date.

Officers with the title of senior vice president or higher and selected elected officers participate in the Officer Annual Physical Program, which was adopted by the committee in 2005. Under the current program, we reimburse participating officers for the costs of an annual physical examination. Reimbursements will be treated as taxable income to the officer but will be grossed up for applicable taxes.

Officers with the title of senior vice president or higher and selected elected officers are eligible to participate in our Financial Counseling Program, which the committee adopted in 2005. Under the program, we reimburse participating officers for investment planning, tax preparation, tax planning and compliance, and estate planning. Participants may be reimbursed up to a maximum of \$5,000 each calendar year. In addition, unused amounts up to \$5,000 may carry forward from year to year. Reimbursements will be treated as taxable income to the officer and will be grossed up for applicable taxes (subject to the \$5,000 overall annual maximum). The committee believes that these programs are competitive within our industry and the expense of these programs is offset by their attraction and retention value.

Stock Ownership Guidelines

Officers

The committee has established stock ownership guidelines for certain officers. The guidelines are intended to increase the stake these officers hold in us and to more closely align their interests with those of our stockholders. The guidelines provide that:

the chief executive officer should acquire and maintain stock ownership equal in value to five times his base salary;

the president and each executive vice president should acquire and maintain stock ownership equal in value to three times his or her base salary;

each senior vice president should acquire and maintain stock ownership equal in value to twice his or her base salary; and

each vice president should acquire and maintain stock ownership equal in value to his or her base salary.

In determining the appropriate stock ownership levels, the committee consulted market studies by Hewitt and Cook detailing best practices among a peer group and general industry practices regarding stock ownership guidelines. Stock held directly, vested restricted stock, and stock units held indirectly through our Savings Plan and under our deferred compensation plan are taken into consideration when calculating whether an officer has met his or her stock ownership guidelines. Unvested restricted stock units and stock options are not included in determining ownership levels. Annually, management provides a report to the committee regarding the number and value of the shares of stock held by each officer subject to the guidelines. All of the officers subject to the guidelines are making progress toward satisfying the applicable guideline. Following the vesting of restricted stock units or the exercise of options, officers subject to the guidelines who have not met the guidelines are expected to retain at least 50% of the net value of shares of stock received (after payment of income tax withholding and, if applicable, exercise price). This policy applies to grants made in 2005 and later for named executive officers. As of December 29, 2007 our chief executive officer held 59.81% of his salary, our chief financial officer held 85.66% of his salary, and the other

named executive officers, Mr. DePaul, Mr. Martin and Mr. Vero, held 45.18%, 0%, and 59.33% of their respective salaries.

Directors

In 2005, the Governance and Nominating Committee established stock ownership guidelines for directors. These guidelines are intended to increase the directors' stake in the company and more closely align their interests with those of the OfficeMax stockholders. These guidelines provide that over a four-year period directors should acquire and maintain stock ownership equal to three times the annual retainer amount. The amount of stock required to be held will adjust whenever the retainer for directors is adjusted. All shares of stock owned outright by a director, unvested restricted stock, and stock options with an exercise price of \$2.50 per share issued under former director stock plans are taken into consideration in determining whether a director has met these guidelines. In April each year, the Governance and Nominating Committee of the board of directors will review the progress of each director towards achievement of the guidelines. The committee will apply OfficeMax's stock price on March 31 to each director's securities on that date to determine each director's level of compliance with the guidelines. Stock options will be valued at the excess of the market price of the underlying stock over the exercise price. Once a director has met these guidelines, he or she shall be deemed to continue to meet the guidelines and shall be exempt from review in future periods until such director reduces the number of securities he or she holds. Once a director reduces his or her holdings, such director will be subject to review each successive April for compliance with the guidelines.

Deferral Plans

Our Non-Qualified Executive Savings Deferral Plan and our 2005 Deferred Compensation Plan are each described beginning on page 60. The purpose of these plans is to permit participants to defer amounts that would otherwise be payable in cash and taxable on an immediate basis and to provide matching contributions that are not permissible under our Qualified Savings Plan as a result of IRS limits. The plans thereby support attraction and retention objectives by providing a competitive benefit that is tax-efficient to the participant. The plans also support our succession planning strategy by enabling participants to accumulate sufficient retirement savings, thereby promoting an orderly succession of management talent, which is particularly important as a result of the freezing of our pension plans.

Pension Plans

Our pension plan for salaried employees, described on page 63, was frozen as of December 31, 2003, and employees hired on or after November 1, 2003 are not eligible to participate in the plan. Only one of our named executive officers, Mr. Rowsey, was eligible to participate in this plan, and his benefits were frozen at approximately \$30,000 annually upon reaching retirement age, which would have been 65 years. The plan was frozen because it represented a significant expense to the company and was not a benefit generally provided by competitors in our industry, and therefore was not necessary for attracting or retaining executive talent. Overall, management and the committee agree that a defined benefit pension plan provides the company less value in attracting and retaining talent, and so we have redirected that investment to other forms of compensation.

As described on page 63, Mr. Duncan's employment agreement provides that if he is employed by us on the fifth anniversary of his first day of employment, his supplemental pension benefit will vest. His benefit will generally equal a percentage of his average cash compensation (salary and bonus) over the five years prior to termination of employment. The percentage will be equal to two

percent for every full year of employment. This special arrangement was negotiated at the time Mr. Duncan was hired, and in approving this benefit, the committee determined that this was an appropriate replacement for a similar benefit from his previous employer that Mr. Duncan forfeited when he joined us.

For more information on our pension plans, see "Other Compensation and Benefit Plans Pension Benefits" on page 61.

Change in Control Agreements

Mr. Duncan and each of the other named executive officers are parties to change in control agreements with us, the principal terms of which are described beginning on page 64. Under the change in control agreements, the officer will receive the benefits provided under the agreement if, after a change in control, the officer's employment is terminated other than for cause or disability (as defined in the agreement) or if the officer terminates employment after actions (as specified in the agreement) that adversely affect the officer are taken. Under the agreement, the officer must remain employed with us for six months following the first potential change in control.

The committee's overall objective in implementing the change in control policy was to encourage the company's most senior executives to review and consider possible change in control transactions in an independent and objective manner without the influence of self-interest or fear of economic loss associated with the possible loss of their positions. In support of this objective, the policy is intended to provide reasonable and competitive severance benefits to executives who lose their jobs as a result of a change in control and to avoid windfall payments associated with completing a transaction. For this reason, benefits under the policy are provided only upon the occurrence of a "double trigger" event, which is defined as completion of a change in control followed by a qualifying termination of employment. In the absence of a reasonable change in control policy, an incentive may exist for senior executives to oppose transactions that are in stockholders' best interests, and conversely, an inappropriately designed program that provides benefits without loss of employment could incent management to pursue transactions that are not necessarily in stockholders' best interests. The committee believes the amounts to be paid upon termination following a change in control are market competitive and have an aggregate potential cost that falls within reasonable competitive parameters, drawing on input received from Cook, including Cook's review of the proposed agreement and analysis of potential change in control costs for the executives covered by the agreements. Cook advised the committee that the overall cost of the program was reasonable in relation to the company's market capitalization at the time of approval and that the specific design provisions supported the objectives described above and were consistent with best practice. In addition to governance and peer group trends, the committee considered the specific competitive circumstances of the company and its industry in approving these agreements. In approving these payments, the committee also reviewed data from Hewitt regarding the average characteristics of change in control agreements among Fortune 200 companies.

Severance

The desire to provide reasonable and competitive severance benefits to executives who lose their jobs also affected the decision to include the severance provisions reflected in our executive severance policy and in the employment agreements of Mr. Duncan, Mr. DePaul and Mr. Vero. Mr. Duncan's agreement is described throughout "Compensation Discussion and Analysis" beginning on page 31 and the severance arising from his agreement is described in the section entitled "Estimated Termination Benefits Estimated Current Value of Potential Payments to Mr. Duncan Upon Termination" on page 68. The severance provisions pertaining to Mr. Vero and

Mr. DePaul terminated when their agreements terminated on December 31, 2006. We believed that the severance provisions of the agreements with Mr. DePaul and Mr. Vero were important in retaining the services of those officers following the OfficeMax, Inc. acquisition. The severance provisions in Mr. Duncan's agreement were also an important factor in his recruitment to the company.

Our executive officer severance policy applies to all elected officers (unless they have a superseding individual agreement) and provides, among other things, for payment in a lump sum of an amount equal to 12 months' salary if the officer's employment is terminated without cause. We may also, at our discretion, continue health, vision and dental group insurance coverage at the associate rate for up to twelve months following the officer's date of termination. We believe this severance policy is similar to policies of many of the other companies with which we compete for management talent, and is therefore a valuable recruiting tool that also helps us to retain management.

We recognize that our severance provisions and change in control provisions can at times overlap. Therefore all agreements or policies providing for such payments require that payments under one type of provision be appropriately adjusted downward if payments are made under a similar provision of another agreement or policy.

Relationship Among the Different Components of Compensation

In order to ensure that named executive officers are held most accountable for our performance and changes in stockholder value, management and the committee generally allocate total compensation such that the portion of compensation attributable to fixed elements, such as salary and benefits, decreases with increasingly higher levels of responsibility, and the portion attributable to variable, performance-based elements increases.

As described above, the compensation survey provides data on the annual targeted total cash compensation and the annual targeted total direct compensation paid by the companies in the compensation survey. Management and the committee generally allocate annual compensation for each executive officer among the components described above on a basis consistent with the results of the compensation survey, although the total compensation paid to an elected officer may be above or below the median based on the survey for that individual's position, based on his or her level of responsibility, performance against annual performance goals, years of experience, and considerations of fairness and comparability within the company. The majority of named executive officers have aggregate targeted compensation that is below the targeted median benchmark rate for that executive's position. No named executive officer's aggregate targeted compensation exceeds the targeted median for that executive's position by more than 15%.

The committee consults with Cook to ensure the resulting outcome supports strategic objectives related to attraction and retention of critical talent, alignment of management interests with those of stockholders, and overall affordability from cost and share dilution perspectives. In addition to the considerations described in the description of each component above, management and the committee are also guided by the compensation survey in deciding between the types of awards available in our annual and long-term incentive compensation programs. We believe that each component of our compensation program serves an important role, and that together these components combine to enable us to attract and retain talented management, provide management with appropriate incentives to continuously improve the company's performance, and to reward improvement when it occurs.

We believe our base salaries are competitive and our bonus plans emphasize performance-based compensation. We provide our executives the opportunity to significantly increase their annual cash compensation through our bonus program by improving the company's performance

in each of the relevant financial areas on an annual basis. We also expect that as those improvements are maintained and built upon, the company's stock price will reflect these improvements, and we therefore use equity awards to reward the long-term efforts of management. These equity awards serve the additional purpose of increasing the ownership stake of our management in the company, further aligning their interests with those of our other stockholders.

In summary, we are confident that the total compensation components provided to each of our named executive officers are competitive with the market and are aligned with the strategic goals of the company.

Recapture Policy

On July 26, 2007, the committee approved a policy that provides that the board shall take such action as it deems necessary against any officer with a title of executive vice president or higher whose misconduct contributes to a financial restatement. The board may (a) require reimbursement of any bonus or incentive compensation awarded to such officer after July 26, 2007, (b) cancel any stock awards granted to such officer after July 26, 2007, and/or (c) require the repayment of stock proceeds.

Tax Impact and Financial Implications

Under Section 162(m), certain items of compensation paid to the chief executive officer and to each of the named executive officers, other than Mr. Civgin ("Covered Employees") in excess of \$1,000,000 annually are not deductible for federal income tax purposes unless the compensation is awarded under a performance-based plan approved by the stockholders. The committee believes that it is in our best interest to preserve maximum tax deductibility for compensation paid to the Covered Employees under Section 162(m), although, to maintain flexibility in compensating executive officers in a manner designed to promote varying corporate goals, the committee has not adopted a policy that all compensation must be deductible. The compensation plans reflect the committee's intent and general practice to pay compensation that we can deduct for federal income tax purposes. Executive compensation decisions, however, are multifaceted. The committee reserves the right to pay amounts that are not tax deductible to meet the design goals of our executive compensation program. In 2007, Mr. Duncan's salary was his only item of compensation that was not performance based. His compensation exceeded, by approximately \$15,000, the \$1,000,000 non-performance based compensation threshold for 2007. In order to preserve deductibility, Mr. Duncan was required to defer receipt of certain of his shares of stock that vested. In addition, as a result of the vesting of his RSUs granted in 2005, which did not constitute performance based compensation, Mr. Vero had \$486,075 in compensation that was in excess of the \$1,000,000 non-performance based compensation threshold for 2007. He was not required to defer receipt of the shares of stock. See the "Option Exercises and Stock Vested Table for Fiscal Year Ended December 29, 2007" on page 60.

The committee also considers other financial implications when developing and implementing the company's compensation program, including tax and accounting effects, the impact on our financial statements and tax returns, cash flow impact, potential share dilution and the risk arising from fluctuations in the value of the compensation.

- (a) Under relocation agreements entered into in the year in which an executive relocates (2006 for Messrs. Duncan and Vero and 2007 for Mr. Martin), payments may include a relocation allowance, the cost of transportation of household goods, and temporary living expenses. These relocation payments included payments to offset the tax costs of that portion of the payment that is not tax deductible to the executive (in 2006, \$2,177 to Mr. Duncan and \$349 to Mr. Vero and in 2007, \$13,001 to Mr. Martin and \$4,178 to Mr. Vero). In addition, in 2006, \$17,184 and in 2007, \$35,147 of Mr. Vero's relocation payment was intended to offset a portion of the mortgage interest he otherwise would have paid.
- (b) The payments shown for personal use of company aircraft are calculated based on an hourly rate of \$2,400. The hourly rate represents the incremental cost to us of aircraft use calculated based on the average cost of fuel and aircraft maintenance, and trip related landing fees, hangar and parking costs, and other immaterial variable costs. Incremental cost excludes fixed costs which do not change based on usage of the plane, including pilot salaries.
- (c) Officers of the company with the title of senior vice president or higher and selected elected officers are eligible to participate in our Financial Counseling Program. Under the program, we reimburse participating officers for investment planning, tax preparation, tax planning and compliance, and estate planning. Participants may be reimbursed up to a maximum of \$5,000 each calendar year. In addition, unused amounts up to \$5,000 may carry forward from year to year. Reimbursements will be treated as taxable income to the officer and will be grossed up for applicable taxes (subject to the \$5,000 overall annual maximum). In 2006, for each of Mr. Duncan and Mr. Vero, the \$10,000 reimbursement includes a \$6,100 reimbursement for financial counseling and a \$3,900 payment to offset the tax costs of the reimbursement. In 2007, for Mr. Duncan, the \$5,000 reimbursement includes a \$3,050 reimbursement for financial counseling and a \$1,950 payment to offset the tax cost of the reimbursement. For Mr. Rowsey, the \$8,340

reimbursement includes a \$5,087 reimbursement for financial counseling and a \$3,253 payment to offset the tax cost of the reimbursement.

(d)

Officers with the title of senior vice president or higher and selected elected officers are eligible to participate in our Executive Life Insurance Program, which was adopted by the committee in February 2005. Participants receive a life insurance policy with an insurance amount equal to two times their base salary from a designated insurance carrier (or three times base salary, in the case of the chief executive officer). Policy premiums, subject to some limitations, will be paid by us and will be treated as taxable compensation to the participants. Upon termination of the participant's employment, the policy remains in force until the end of the current policy period but we will not renew the policy on the next anniversary date. The figures in this column are the policy premiums paid.

(e)

For a description of our Non-Qualified Deferred Compensation Plan, see page 66. Under our Qualified Savings Plan and our Non-Qualified Deferred Compensation Plan, we match amounts contributed at a rate of 50% of the amount contributed up to a maximum annual aggregate limit (\$6,600 under the Internal Revenue Code applicable in 2006 and \$6,750 in 2007). A participant may only receive matching payments on contributions up to 6% of the participant's combined annual salary and bonus. All of our named executive officers are limited by provisions of the Internal Revenue Code in the amount they can contribute to our Qualified Savings Plan.

(f)

As a result of his departure from the company, in 2007 Mr. Rowsey received severance pay of \$331,077 and dividends in the amount of \$3,781 accrued on the funds he had deferred into the 2001 Key Executive Deferred Compensation Plan.

(1) Includes annual incentive bonus opportunities for each of the named executive officers awarded in 2007. See "Compensation Discussion and Analysis Annual Incentive Compensation (Bonus)" beginning on page 36. Actual bonus payments for the fiscal year reported are listed in column (g) of the "Summary Compensation Table" on page 51.

(2) Reflects long-term incentive awards in the form of performance-based RSUs granted to Messrs. Duncan, Civgin, DePaul and Vero on February 14, 2007 and Mr. Martin on September 17, 2007 in accordance with the OMIPP as discussed in "Compensation Discussion and Analysis Long-Term Incentive Compensation (Equity Awards)" beginning on page 40. These awards are also listed in column (i) of the "Outstanding Equity

Awards at Fiscal Year-End" table on page 56 and the compensation cost recognized over the defined service period of these awards, as well as awards granted in prior years, is disclosed in columns (e) and (f) of the "Summary Compensation Table" on page 51. The closing stock price on the date the committee approved the 2007 long-term incentive program (February 14, 2007) of \$53.12 was used to determine the number of RSUs awarded to Messrs. Duncan, Civgin, DePaul and Vero. The closing stock price on September 17, 2007 (\$31.39) was used to determine the number of RSUs awarded to Mr. Martin.

(3)

Grant date fair value of long-term incentive awards in the form of performance-based restricted stock units granted to each named executive officer on February 14, 2007 and September 17, 2007 and the RSUs and options awarded to Mr. Martin at inception of employment in accordance with the OMIPP as discussed below. See Note 15 "Shareholders' Equity" to Notes to Consolidated Financial Statements in the company's Annual Report on Form 10-K for the year ended December 29, 2007 for a discussion of the assumptions used by the company to calculate the grant date fair value of share based employee compensation in accordance with the provisions of SFAS No. 123R.

Long-Term Incentive Awards

These awards have a two-year performance period. We must achieve a cumulative two-year EBIT Dollar threshold and return on net asset target before elected officers will be eligible to receive restricted stock units pursuant to the awards. The final number of restricted stock units issued will be adjusted based on return on sales for each of the fiscal years 2007 and 2008. If the EBIT Dollar and return on net asset goals are achieved, one half of the awards will vest on February 13, 2009, subject to adjustment based on 2007 return on sales, and the other half will vest on February 13,

2010, subject to adjustment based on 2008 return on sales. The executive's actual payout can vary from the targeted amount depending on the achievement of the objective performance goals, as well as changes in the value of the shares of stock underlying the grant that occur between the grant date and payout.

The form of the performance-based RSU Award Agreement used to grant these awards provides that participants must be employed by us on the vesting date in order for the units to vest, subject to exceptions in certain circumstances. The named executive officers are not entitled to any voting rights with respect to the restricted stock units and are not entitled to receive dividends on the restricted stock units.

Sam Martin's Additional Grants

On September 17, 2007, Mr. Martin received an award of 11,150 RSUs. This grant is subject to the terms of a Restricted Stock Unit Award Agreement dated September 17, 2007 between the company and Mr. Martin. Pursuant to the terms of the award agreement, 33¹/₃% of the RSUs shall vest and be paid in company common stock on each of the first three anniversaries of the grant date, subject to possible deferral in the circumstances described in the award agreement. The award is also subject to the terms of the OMIPP. If Mr. Martin terminates employment for any reason prior to the third anniversary of the grant date, the RSUs which have not vested will be forfeited. In the event of a change in control, as defined in the award agreement, the vesting of the RSUs may accelerate under certain circumstances described in the Award Agreement. The RSUs may not be sold, assigned or encumbered prior to vesting, without the consent of the company. Mr. Martin will not receive dividends or have voting rights with respect to the RSUs.

In addition, on September 17, 2007, the company granted Mr. Martin a stock option to purchase 35,000 shares of company common stock at a price of \$31.39 per share (the closing price of the company's common stock on September 17, 2007). This grant is subject to the terms of a Nonstatutory Stock Option Award Agreement dated September 17, 2007 between the company and Mr. Martin. On each of the first three anniversaries of the award date, the option shall become exercisable with respect to 33¹/₃% of the shares of stock subject to the stock option agreement. The award is also subject to the terms of the OMIPP. If Mr. Martin terminates employment for any reason prior to the third anniversary of the award date, the portion of the stock option which has not vested will be forfeited. The stock option must be exercised on or before the earliest of (a) the tenth anniversary of the award date; (b) one year after Mr. Martin retires (after attaining age 55 and completing 10 years of service with the company), dies, or becomes totally and permanently disabled, provided that Mr. Martin has not, as of the date of the exercise of the stock option, commenced employment with any competitor of the company (as defined in the stock option agreement); and (c) three months after Mr. Martin terminates employment for any other reason. The option will be cancelled immediately if Mr. Martin is terminated for disciplinary reasons as defined in the stock option agreement. In the event of a change in control, as defined in the stock option agreement, the vesting of the option may accelerate under certain circumstances described in the stock option agreement.

The following table sets forth outstanding options, unvested stock awards and outstanding equity incentive plan awards for each of our named executive officers at December 29, 2007.

Mr. Duncan's Outstanding Awards

Pursuant to his employment agreement, on April 18, 2005, Mr. Duncan was granted a ten-year nonqualified option (the "Initial Option") to purchase 70,000 shares of the company's common stock. The Initial Option has an exercise price equal to \$32.66 per share. The Initial Option has vested with respect to 46,666 shares of stock. On the next anniversary of the grant date, the Initial Option will vest with respect to the remaining 23,334 shares. In the event that Mr. Duncan is involuntarily terminated not for Cause (as defined in the employment agreement) or terminates employment as a result of death or Disability or voluntarily for Good Reason (each as defined in the employment agreement) prior to April 18, 2008 (each, a "Proration Event"), then a pro rata amount of unvested shares of common stock subject to the Initial Option will become exercisable as described in the Initial Option Agreement. Upon Mr. Duncan's termination for any other reason prior to April 18, 2008, he will forfeit all of his unvested options. Mr. Duncan must exercise the Initial Option on or before the earliest of:

April 18, 2015;

one year after termination of employment as a result of retirement, death, or Disability, provided that Mr. Duncan has not, as of the date of the exercise of the Initial Option, commenced employment with any competitor (as defined in the Initial Option Agreement);

one year after termination of employment as a result of any of the Proration Events, provided that Mr. Duncan has not, as of the date of the exercise of the Initial Option, commenced employment with any competitor (as defined in the Initial Option Agreement); or

one year after termination of Mr. Duncan's employment for any other reason. The Initial Option shall be cancelled immediately if Mr. Duncan is terminated for disciplinary reasons, as defined in the company's executive officer severance pay policy.

The Initial Option will become fully vested and exercisable immediately upon a change in control prior to April 18, 2008 if the Initial Option is not continued or replaced following such change in control or if Mr. Duncan is terminated in a qualifying termination, as defined in the pertinent agreement. The Initial Option is governed by the provisions of the OMIPP and the Initial Option Agreement.

Pursuant to his employment agreement, on April 18, 2005, Mr. Duncan was also granted an additional 10-year nonqualified option (the "Other Option") to purchase 180,000 shares of the company's common stock. The Other Option has a per share exercise price equal to \$32.66 per share. The Other Option has vested with respect to 72,000 shares of stock. On each of the next three anniversaries of the grant date, the Other Option will vest with respect to 36,000 shares. In the event that Mr. Duncan is involuntarily terminated not for Cause (as defined in the employment agreement) or terminates employment as a result of death or Disability or voluntarily for Good Reason (as defined in the employment agreement) prior to April 18, 2010, then a pro rata amount of unvested shares of common stock subject to the Other Option will become exercisable as described in the Other Option Agreement. The Other Option is governed by the provisions of the OMIPP and the Other Option Agreement.

Pursuant to his employment agreement, on April 18, 2005, Mr. Duncan was granted 35,000 restricted stock units ("Initial Restricted Stock Units"), of which 23,333 have vested. On the next anniversary of the grant date, 11,667 Initial Restricted Stock Units will vest. Vested Initial Restricted Stock Units will be paid in shares of OfficeMax common stock. In the event that Mr. Duncan is involuntarily terminated not for Cause (as defined in the employment agreement) or terminates employment as a result of death or Disability or voluntarily for Good Reason (as defined in the

employment agreement) prior to April 18, 2008, then a pro rata amount of unvested Initial Restricted Stock Units shall vest as described in the Award Agreement. Upon Mr. Duncan's termination for any other reason prior to April 18, 2008, all of his unvested Initial Restricted Stock Units will be forfeited. The Initial Restricted Stock Units may not be sold, assigned, pledged or otherwise encumbered prior to vesting. Mr. Duncan will not receive dividends or be entitled to vote with respect to the Initial Restricted Stock Units. The Initial Restricted Stock Units are subject to the provisions of the OMIPP and the Restricted Stock Unit Award Agreement.

On October 4, 2008, the option shall become exercisable with respect to the remaining 16,734 shares.

The award is also subject to the terms of the OMIPP. If Mr. Martin terminates employment for any reason prior to the third anniversary of the grant date, the RSUs which have not vested will be forfeited. - (1) We have estimated the value realized by multiplying the number of shares of stock received by the closing price per share on the vesting date for Mr. Duncan (\$53.33 on 4/18/07), for Mr. Civgin (\$33.35 on 10/4/07) and for Messrs. DePaul, Rowsey and Vero (\$49.22 on 3/16/07). To preserve our tax deduction under Section 162(m) of the Internal Revenue Code, described above in the "Compensation Discussion and Analysis Tax Impact and Financial Implications" on page 50, Mr. Duncan was required to defer receipt of some of the shares of stock that vested. Under the terms of his award agreement, Mr. Duncan will not receive the deferred shares of stock until six months and one day after his termination of employment with the company. Dividends accrue on the deferred shares and will be paid out in cash at the time of release of the shares.

Other Compensation and Benefit Plans

OfficeMax has established retirement and savings programs, health and welfare programs, and other executive benefit programs as part of providing a competitive compensation program. These programs are summarized below. The 2005 Deferred Compensation Plan, OfficeMax Pension Plan for Salaried Employees, and Supplemental Early Retirement Plan are not available to officers of OfficeMax Incorporated hired after December 2003. These are plans that existed prior to (or were created as a result of programs that existed prior to) Boise Cascade Corporation's acquisition of OfficeMax, Inc., in December 2003. The Executive Savings Deferral Plan is available to all elected officers of OfficeMax Incorporated.

Executive Savings Deferral Plan

On December 9, 2004, the Executive Compensation Committee of our board of directors adopted the Executive Savings Deferral Plan. Our executive officers are eligible to participate in the plan. Participants may defer a percentage of their salary and short-term incentive award. The deferral election must be made prior to the commencement of the deferral period and pursuant to Section 409A of the Internal Revenue Code. The percentage may not exceed 50% of the participant's salary and 90% of the participant's short-term incentive award, subject to the limitations described in the plan. We will make a matching credit to the participant's account in an amount equal to 50% of the compensation deferred by the participant (up to 6% of the participant's compensation, and subject to other limitations). A participant will not be vested in his or her matching contributions until such participant has completed three years of service with us. Each participant must allocate amounts credited to his or her account among various investment funds, which include a company stock fund. Amounts deferred will be distributed, as more specifically described in the plan, at the time elected by the participant. The plan provides for payment in cash in a lump sum or in monthly installments, subject to minimum plan balance limits, as elected by the participant. Our competitors have similar plans in place. All of our named executive officers are eligible to participate in the plan and Messrs. Civgin and DePaul elected to participate in 2007.

2005 Deferred Compensation Plan

On December 9, 2004, the Executive Compensation Committee of our board of directors adopted the 2005 Deferred Compensation Plan. Participation in this plan is limited to senior managers and highly compensated employees who were former participants in our legacy deferred compensation plans. Participants may defer a percentage of their salary and bonus. The percentage must be a minimum of 6% of the participant's compensation, and cannot exceed the

Edgar Filing: OFFICEMAX INC - Form DEF 14A

percentage such participant was deferring under our 2001 Key Executive Deferred Compensation Plan as of December 31, 2004. We will make a matching credit to the participant's account in an amount equal to 50% of the compensation deferred by the participant (up to 6% of the participant's compensation, and subject to other limitations). Amounts deferred under this plan were credited with interest at a rate equal to 110% of Moody's Composite Average of Yields on Corporate Bonds in 2007. Amounts deferred will be distributed, as more specifically described in the plan, at the time elected by the participant. No additional deferrals will be permitted under this plan after December 31, 2007. The plan provides for payment in cash in a lump sum or in monthly installments, as elected by the participant. Of our named executive officers, only Mr. Rowsey was eligible and elected to participate in the plan in 2007.

Deferred Compensation and Benefits Trust

We have established a deferred compensation and benefits trust that is intended to ensure that any successor company honors deferred compensation obligations following a change in control. The trust will not increase the benefits to which any individual participant is entitled under the covered plans and agreements, which include the two deferred compensation plans described above. If a potential change in control or an actual change in control of the company (as defined in the plans and the agreements) occurs, the trust will be funded at the discretion of our Executive Compensation Committee. If the trust is, in fact, funded, it will pay benefits to participants and beneficiaries under our nonqualified and unfunded deferred compensation plans and the executive officer agreements in accordance with the plans and agreements. The trustee will receive fees and expenses either from us or from the trust assets. If we become bankrupt or insolvent, the trust assets will be accessible to the claims of the company's creditors.

Pension Benefits

The following table reflects the pension benefits of our named executive officers:

Ryan T. Vero (1)			

(1) Messrs. Duncan, Civgin, DePaul, Martin and Vero are not eligible to participate in the OfficeMax Pension Plan for Salaried Employees.

(2) Mr. Duncan is eligible to receive a supplemental pension benefit pursuant to the terms of his employment agreement as described on page 63.

(3) Pension benefits for Mr. Rowsey under the OfficeMax Pension Plan for Salaried Employees were frozen as of December 31, 2003.

(4)

For Mr. Duncan, these figures assume he would retire at age 58. This value represents three years of accrued benefits. For Mr. Rowsey, these figures assume that he would retire at age 65. The decrease in Mr. Rowsey's pension value resulted from his departure from the company prior to full eligibility for the OfficeMax Pension Plan for Salaried Employees which caused a forfeiture of his benefit from this plan.

OfficeMax Pension Plan for Salaried Employees

Mr. Rowsey is the only named executive officer eligible to participate in this plan. The OfficeMax Pension Plan for Salaried Employees entitles each vested employee, including executive officers, to receive a pension benefit at normal retirement equal to:

1.25% of the average of the highest five consecutive years of compensation (as defined in the plan) out of the last 10 years of employment, multiplied by the participant's years of service through December 31, 2003,

plus

a special transition benefit for Boise Office Solutions employees eligible for the Pension Plan for Salaried Employees and employed by OfficeMax on January 1, 2004.

Benefits under the plan were frozen as of December 31, 2003 for all eligible participants, with one additional year of service granted to those participants on January 1, 2004, based on a 1% (rather than a 1.25%) formula. Effective November 1, 2003, new employees, rehired employees, and hourly employees who transferred to a full-time position were not eligible to participate in the plan. Under the plan, "compensation" is the employee's base salary plus any amounts earned under the company's variable incentive compensation programs (only "Salary" and "Non-Equity Incentive Plan Compensation" from the "Summary Compensation Table" on page 51). As of December 29, 2007, the average of the highest five consecutive years of compensation for 1997 through 2007 is approximately \$236,000 and the years of service for Mr. Rowsey is 18.085. This includes 13.085 years earned from 1979 to 1992, when Mr. Rowsey terminated employment with the company, and five years earned from 2000 to 2004 after Mr. Rowsey rejoined the company.

Benefits are computed on a straight-life annuity basis and are not offset by social security or other retirement-type benefits. An eligible employee is 100% vested in his or her pension benefit after five years of service, not including breaks in service.

Mr. Duncan's Supplemental Pension Benefit

Pursuant to the terms of Mr. Duncan's employment agreement, on April 18, 2010, Mr. Duncan (if employed by us on that date) will vest in a supplemental pension benefit (the "Supplemental Pension Benefit") in an annual amount equal to the product of (A) two percent (2%) of the sum of (1) the average amount of annual base salary earned by Mr. Duncan with respect to the five most recently completed years of Mr. Duncan's employment with us plus (2) the average amount of the annual cash bonuses earned by Mr. Duncan for the company's five completed fiscal years immediately preceding the termination of Mr. Duncan's employment and (B) the number of completed full years of Mr. Duncan's employment with us (provided that Mr. Duncan will be deemed to have completed a full calendar year of employment with us for 2005). The amount of Mr. Duncan's Supplemental Pension Benefit will be offset by any amounts payable to Mr. Duncan under any of our qualified or nonqualified pension plans and by the amount of Mr. Duncan's benefit from Social Security.

Indemnification

To the extent that Delaware law permits, we will indemnify our directors and officers against liabilities they incur in connection with actual or threatened proceedings to which they are or may become parties and that arise from their status as directors and officers. We have entered into indemnification agreements with each of our directors, and we insure, within stated limits, directors and officers against such liabilities.

Change in Control Agreements

Except with respect to Mr. Duncan, all of our employees, including our executive officers, are employed at the will of the company. Some of our executive officers, and all of our named executive officers, however, have change in control agreements that formalize their severance benefits if the executive officer is terminated under the circumstances discussed below after a change in control of the company (as defined in the agreement). The agreements provide severance benefits and protect other benefits that the officers have already earned or reasonably expect to receive under our employee benefit plans. See "Compensation Discussion and Analysis Change in Control Agreements" on page 48 for additional information regarding the change in control agreements.

Under the change in control agreement, an officer will receive the benefits provided under the agreement if, after the change in control, the officer's employment is terminated unless such termination is by the company for cause or disability (as defined in the agreement) or by the officer for other than good reason.

Under the agreements, a "change in control" would include any of the following events:

any "person", as defined in the Securities Exchange Act of 1934, as amended, acquiring 25% or more of our voting securities, unless that person acquires all such securities directly from the company;

during a two-year period, a majority of our directors being replaced under certain circumstances;

a merger or consolidation of the company with any other corporation (other than a merger or consolidation where a majority of the company's directors continue as directors of the combined entity and the outstanding voting securities of the company immediately prior to such an event continue to represent more than 50% of the combined voting power after such event or a merger or consolidation implementing a recapitalization approved by the board where no person acquires 25% or more of the company's voting securities); and

approval by our stockholders to liquidate or dissolve the company or to sell all or substantially all of the company's assets in certain circumstances.

These agreements help ensure that we will have the benefit of these officers' services without distraction in the face of a potential change in control. The board of directors believes that the agreements are in the best interests of our stockholders and the company. See "Compensation Discussion and Analysis Change in Control Agreements" on page 48.

The principal benefits under the agreements include:

the officer's salary through the termination date;

severance pay equal to a multiple of the officer's annual base salary and target incentive pay (one time for vice presidents, other than executive vice presidents and the controller, two times for presidents, executive vice presidents and the controller and three times for the chief

Edgar Filing: OFFICEMAX INC - Form DEF 14A

executive officer). For terminations occurring prior to March 1, 2008, target incentive pay will be 80% of the officer's target annual incentive. For terminations occurring on or after March 1, 2008, target incentive pay will be the average annual incentive earned during the three years preceding termination. This severance payment will be in lieu of any severance pay to which the officer would be entitled under the severance pay policy for executive officers; and

pay for accrued but unused time off.

The agreements provide four additional benefits. First, we will maintain for up to one year (two years for the chief executive officer) all employee benefit plans and programs in which the officer was entitled to participate immediately prior to termination at substantially the same cost to the officer, or we will substitute similar arrangements at substantially the same cost to the officer, or we will pay the officer a sum equal to 150% of twelve times (or twenty-four times for the chief executive officer) the monthly group premium, less the employee contribution amount, for such plans and programs. Second, if the officer is eligible to participate in our Executive Life Insurance Program, we will pay premiums for the plan for one year (two years for the chief executive officer) following termination. Third, if there is a dispute regarding the agreement, we will pay reasonable legal fees and expenses that the officer incurs to enforce his or her rights or benefits under the agreement. Fourth, we will increase the officer's total payments under the agreement to cover any excise taxes imposed by the Internal Revenue Service as a result of such payments, provided that if the value of the payments subject to excise taxes is not more than 110% of the value of payments that could be provided without triggering excise taxes, then the value of payments to the officer will be reduced to the amount that can be provided without triggering excise taxes.

Each agreement is effective for two years. On January 1 of each year, the agreement will automatically extend so as to terminate on the 2nd anniversary of such date, unless we notify the officers by September 30 of the preceding year that we do not wish to extend the agreements.

For one year after termination of employment, each change in control agreement prohibits the recipient from directly or indirectly soliciting or inducing any managerial level employee of the company to leave employment in order to accept employment with any other entity. Following termination of employment, each change in control agreement requires its recipient to refrain from making any public statements that disparage the company, its employees, products or services. For a period of 12 months after termination of employment with the company, each change in control agreement states that its recipient will not, directly as an employee or indirectly as a consultant or contractor, be employed in the same or similar capacity as he was employed by the company immediately prior to his termination of employment, by a seller or distributor of office supplies, office furniture, computer consumables or related office products or services in North America. If a recipient of severance and other payments pursuant to the company's change in control agreements were to breach these negative covenants, the agreements provide the company with the right to seek equitable relief in a court of competent jurisdiction in connection with the enforcement of the covenants. Payment is not wholly or partially conditioned on adherence to the covenants. However, payment of the benefits provided in the change in control agreements is conditioned upon the recipient's execution and delivery to the company of a customary general release of claims.

Estimated Current Value of Change in Control Benefits

The table below reflects the estimated amount of payments and other benefits (not including legal fees, if any) each named executive officer would receive under the change in control agreements, assuming that a change in control occurred on December 28, 2007 and based on our closing stock price as of that date of \$20.54. The figures below assume that the officer was

Edgar Filing: OFFICEMAX INC - Form DEF 14A

terminated and that options and restricted stock units were not continued or replaced. Actual payments made under the agreements at any future date would vary, depending in part upon what the executive has accrued under the variable compensation plans and benefit plans and upon the market price of our common stock. We recognize that our severance provisions and change in control provisions can at times overlap. Therefore all agreements or policies providing for such payments require that payments under one type of provision be appropriately adjusted downward if payments are made under a similar provision of another agreement or policy.

- (1) Includes annual incentive bonus earned in 2007 and paid following termination.
- (2) Assumes severance pay equal to a multiple of the sum of the officer's annual base salary and 80% target incentive pay. The multiple will be three times for the chief executive officer, two times for presidents, the controller and executive vice presidents, and one time for senior vice presidents (other than the controller). Severance is payable in a lump sum amount.
- (3) Although options will become fully vested and exercisable immediately upon a change in control occurring prior to full vesting if they are not continued or replaced following such change in control or if the executive is terminated in a qualifying termination, as defined in the pertinent agreement, the value of the options is zero because the difference between our closing stock price as of December 28, 2007 and the option exercise prices is negative.
- (4) These restricted stock units become fully vested immediately upon a change in control if the awards are not continued or replaced following such change in control or if the executive is terminated in a qualifying termination, as defined in the pertinent agreement. The number shown represents the value determined by multiplying the number of restricted stock units by our closing stock price as of December 28, 2007.
- (5) Includes the cost of (a) continuation of all life (other than the Executive Life Insurance Program), disability, accident and healthcare insurance plans, programs, or arrangements, and financial counseling services at substantially the same cost to the executive following the date of termination, for a 24 month period for the chief executive officer or a 12 month period for other executives; and (b) continued payment of the company-paid premium under the Executive Life Insurance Program for a 24 month period for the CEO or a 12 month period for other executives following the date of termination. In lieu of these payments, the company has the discretion to pay a lump sum payment equal to 150% of the cost of these benefits.

(6)

Under the change in control agreements described on page 64, we will increase the officer's total payments under the agreement to cover any excise taxes imposed by the Internal Revenue Service as a result of such payments, provided that if the value of the payments subject to excise taxes is not more than 110% of the value of payments that could be provided without triggering excise taxes, then the value of payments to the officer will be reduced to the amount that can be provided without triggering excise taxes.

Estimated Termination Benefits

Mr. Duncan

On April 14, 2005, we entered into an employment agreement with Mr. Duncan to serve as our chief executive officer. The employment agreement provides that Mr. Duncan's employment commenced on April 18, 2005 (the "Effective Date") and will end on April 17, 2008 (the "Term"). On the last date of the Term, and on each anniversary thereof, the Term shall be automatically extended for an additional one-year period, unless either party provides the other party at least 90 days prior written notice of non-renewal. No notice of termination has been provided to Mr. Duncan and his agreement will automatically renew. During the Term, Mr. Duncan will be based at the company's headquarters.

Edgar Filing: OFFICEMAX INC - Form DEF 14A

During the Term, Mr. Duncan will receive an annual base salary, payable in accordance with the company's regular payroll practices for senior executives, subject to periodic review by the Executive Compensation Committee of the company's board of directors for possible increase. On February 10, 2006, the board of directors approved an increase in Mr. Duncan's salary to \$900,000, effective April 2, 2006. On February 14, 2007, the board of directors approved an increase in Mr. Duncan's salary to \$1,000,000, effective April 1, 2007. Mr. Duncan's salary was increased to \$1,030,000 effective March 30, 2008.

During the Term, Mr. Duncan will participate in the company's annual cash incentive compensation plans. Awards under these plans are described in "Compensation Discussion and Analysis Annual Incentive Compensation (Bonus)" on page 36.

For the company's 2007 fiscal year, Mr. Duncan received long-term compensation awards. See "Compensation Discussion and Analysis Long-Term Incentive Compensation (Equity Awards)", page 42.

If, during the Term, the company terminates Mr. Duncan's employment for any reason other than Cause (as defined in the employment agreement), death or Disability, or Mr. Duncan terminates his employment for Good Reason, subject to the terms of the employment agreement, we will pay to Mr. Duncan, not later than 30 days following the date of termination:

a lump sum in cash equal to two times the sum of Mr. Duncan's annual base salary immediately prior to the date of termination, plus the greater of (A) Mr. Duncan's annual target bonus for the fiscal year in which the date of termination occurs or (B) the annual target bonus described in the employment agreement; and

any portion of Mr. Duncan's annual base salary and previously earned but unpaid bonus through the date of termination that has not yet been paid.

In addition, the company shall pay or provide to Mr. Duncan all compensation and benefits payable to Mr. Duncan under the terms of the company's compensation and benefit plans, programs or arrangements as in effect immediately prior to the date of termination.

If Mr. Duncan's employment is terminated by reason of Mr. Duncan's death or Disability during the Term, the company shall pay to Mr. Duncan, his designated beneficiary or his estate, within 30 days following the date of termination, a lump sum in cash equal to the sum of any portion of Mr. Duncan's annual base salary earned but unpaid through the date of termination and previously earned but unpaid bonus through the date of termination. In addition, the company shall pay or provide to Mr. Duncan all compensation and benefits payable to Mr. Duncan under the terms of the company's compensation and benefits plans, programs or arrangements as in effect immediately prior to the date of termination.

If Mr. Duncan's employment is terminated by the company for Cause or Mr. Duncan voluntarily terminates employment other than for Good Reason (as defined in the employment agreement) during the Term, Mr. Duncan shall be entitled to a lump sum in cash within 30 days after the date of termination equal to any portion of Mr. Duncan's annual base salary and bonus earned but unpaid through the date of termination. In addition, the company shall pay or provide to Mr. Duncan all compensation and benefits payable to Mr. Duncan under the terms of the company's compensation and benefits plans, programs or arrangements as in effect immediately prior to the date of termination.

Mr. Duncan and the company entered into a change in control agreement substantially similar to those available to other senior executives and the payments and benefits he would be entitled to under that agreement are set forth in the "Estimated Current Value of Change in Control Benefits" table on page 65. If Mr. Duncan's employment is terminated under circumstances entitling him to

severance benefits under the employment agreement and the Change in Control Agreement, the severance payments due under the employment agreement shall be offset by similar payments and benefits provided under the Change in Control Agreement.

During the Term, Mr. Duncan will be entitled to participate in the company's retirement plans, its fringe benefit and perquisite programs and welfare benefit plans and programs on the same terms as other senior officers of the company.

Mr. Duncan's employment agreement contains customary confidentiality, non-solicitation, nondisparagement and noncompetition provisions. Following termination of employment, Mr. Duncan's agreement requires him to refrain from using or disclosing any confidential information relating to the company. For one year after termination of employment, Mr. Duncan's agreement prohibits him from directly or indirectly soliciting or inducing any managerial level employee of the company to leave employment in order to accept employment with any other entity. Following termination of employment, Mr. Duncan's agreement requires him to refrain from making any public statements that disparage the company, its employees, products or services. For a period of 12 months after termination of employment with the company Mr. Duncan's agreement states that he will not, directly as an employee or indirectly as a consultant or contractor, be employed in the same or similar capacity as he was employed by the company immediately prior to his termination of employment, by another business entity or person deriving more than 10% of its gross revenues in North America from the sale or distribution of office supplies, office furniture, computer consumables or related office products or services.

Estimated Current Value of Potential Payments to Mr. Duncan Upon Termination

Pursuant to Mr. Duncan's employment agreement and other arrangements described above, we would be required to provide compensation to him in the event of termination of his employment under certain circumstances. The table below reflects the estimated amount of payments and other benefits Mr. Duncan would receive upon his termination in each situation assuming that such event occurred on December 28, 2007 and based on our closing stock price as of that date of \$20.54. Actual payments made under the agreement at any future date would vary, depending in part upon what Mr. Duncan has accrued under the variable compensation plans and benefit plans and upon the market price of our common stock. The table below does not include any payments or benefits to which Mr. Duncan would be entitled upon a change in control of the company. Such amounts are set forth in the "Estimated Current Value of Change in Control Benefits" table on page 65. If Mr. Duncan's employment is terminated under circumstances entitling him to severance benefits under the employment agreement and the Change in Control Agreement, the severance payments due under the employment agreement shall be offset by similar payments and benefits provided under the Change in Control Agreement.

16,637 restricted stock units subject to Mr. Duncan's award of Initial Restricted Stock and Other Restricted Stock and 102,730 units of restricted stock arising from Mr. Duncan's 2006 and 2007 Long-Term Incentive award, for a total of 119,367 units, which constitute a pro rata amount of his unvested restricted stock units, would vest. The number shown represents the value determined by multiplying the number of restricted stock units by our closing stock price as of December 28, 2007.

Mr. Civgin

On September 19, 2005, we entered into an offer letter with Don Civgin, effective October 3, 2005, to serve as our executive vice president, finance and to assume the title of chief financial officer.

On October 3, 2005, we entered into a change in control agreement (the "Change in Control Agreement") with Mr. Civgin that is substantially similar to change in control agreements available to the company's other senior executives and the payments and benefits he would be entitled to under that agreement are set forth in the "Estimated Current Value of Change in Control Benefits" table on page 65.

On October 3, 2005, we entered into a nondisclosure and noncompetition agreement (the "Agreement") with Mr. Civgin. This Agreement requires Mr. Civgin to refrain from divulging confidential information of the company during the course of his employment, except as is necessary to discharge his duties, and after termination of employment. Mr. Civgin may not be employed by a seller or distributor of office supplies, office furniture, computer consumables or related office products or services in North America in the same or similar capacity as he was employed by OfficeMax during the term of his employment and for a period of 12 months thereafter. During employment and for two years after termination, Mr. Civgin agrees not to solicit current or certain former customers, current or certain former employees or suppliers of the company. The Agreement also contains a standard non-disparagement clause.

Mr. Civgin will be eligible to receive twelve months of severance under the company's severance policy applicable to executive officers, if he is terminated involuntarily, and not for disciplinary reasons. Mr. Civgin is entitled to participate in the company's benefit plans and programs on the same terms as other senior officers of the company.

Estimated Current Value of Potential Payments to Mr. Civgin Upon Termination

Pursuant to Mr. Civgin's offer letter and other arrangements described above, the company would be required to provide compensation to him in the event of termination of his employment under certain circumstances. The table below reflects the estimated amount of payments and other benefits Mr. Civgin would receive upon his termination in each situation assuming that such event occurred on December 28, 2007 and based on our closing stock price as of that date of \$20.54. Actual payments made at any future date would vary, depending in part upon what Mr. Civgin has accrued under the variable compensation plans and benefit plans and upon the market price of our common stock. The table below does not include any payments or benefits to which Mr. Civgin would be entitled upon a change in control of the company. Such amounts are set forth in the "Estimated Current Value of Change in Control Benefits" table on page 65. If Mr. Civgin's employment is terminated under circumstances entitling him to severance benefits under his offer letter and the change in control agreement, the severance payments due under the employment

agreement shall be offset by similar payments and benefits provided under the change in control agreement.

Mr. DePaul

On December 10, 2003, and in connection with the acquisition by Boise Cascade Corporation of OfficeMax, Inc., we also entered into an employment agreement with Phillip P. DePaul, Senior Vice President and Controller. The agreement terminated in accordance with its terms on December 10, 2006.

During the term of the agreement, we paid Mr. DePaul a base salary of no less than \$275,000 per year. He was also eligible to participate in the annual and long-term incentive programs available to certain employees and in the company's other life, disability and accident insurance plans. The company also paid cash retention incentives to Mr. DePaul in the amount of \$39,000, \$39,000, and \$117,000 at the end of the 12, 24, and 36 month period, respectively, of the three year term, for an aggregate retention incentive of \$195,000. The \$117,000 retention incentive paid to Mr. DePaul under this agreement in 2006 is included in the "Summary Compensation Table" on page 51.

The committee approved an amendment to Mr. DePaul's Change in Control (Severance) Agreement as a result of Mr. DePaul's previous election to the position of Chief Accounting Officer. If severance payments were made pursuant to the agreement, Mr. DePaul was previously entitled to a lump sum severance payment equal to the sum of his annual base salary plus his Target Bonus (as defined in the agreement). The amendment increases Mr. DePaul's lump sum severance payment to two times the sum of his annual base salary plus his Target Bonus.

Estimated Current Value of Potential Payments to Mr. DePaul Upon Termination

The company would be required to provide compensation to Mr. DePaul in the event of termination of his employment under certain circumstances. The table below reflects the estimated amount of payments and other benefits Mr. DePaul would receive upon his termination in each situation assuming that such event occurred on December 28, 2007 and based on our closing stock price as of that date of \$20.54. Actual payments made at any future date would vary, depending in part upon what Mr. DePaul has accrued under the variable compensation plans and benefit plans and upon the market price of our common stock. The table below does not include any payments or benefits to which Mr. DePaul would be entitled upon a change in control of the

company. Such amounts are set forth in the "Estimated Current Value of Change in Control Benefits" table on page 65. Mr. Martin

On September 12, 2007, we entered into an offer letter with Sam Martin, effective September 17, 2007, to serve as our chief operating officer.

On September 17, 2007, we entered into a change in control agreement (the "Change in Control Agreement") with Mr. Martin that is substantially similar to change in control agreements available to the company's other senior executives and the payments and benefits he would be entitled to under that agreement are set forth in the "Estimated Current Value of Change in Control Benefits" table on page 65.

On September 13, 2007, we entered into a nondisclosure and noncompetition agreement (the "Agreement") with Mr. Martin. This Agreement requires Mr. Martin to refrain from divulging confidential information of the company during the course of his employment, except when such disclosure is a necessary part of a merchandise sale negotiation with a customer, and after termination of employment. Mr. Martin may not be employed by or contract with a seller or distributor of office supplies, office furniture, computer consumables or related office products or services in North America in the same or similar capacity as he was employed by OfficeMax for a period of 12 months after termination of employment. During employment and for two years after termination, Mr. Martin agrees not to solicit current or certain former customers, current or certain former employees or current or certain former suppliers of the company. The Agreement also contains a standard non-disparagement clause.

Mr. Martin will be eligible to receive twelve months of severance under the company's severance policy applicable to executive officers, if he is terminated involuntarily, and not for disciplinary reasons. Mr. Martin is entitled to participate in the company's benefit plans and programs on the same terms as other senior officers of the company.

The table below does not include any payments or benefits to which Mr. Martin would be entitled upon a change in control of the company. Such amounts are set forth in the "Estimated Current Value of Change in Control Benefits" table on page 65. If Mr. Martin's employment is terminated under circumstances entitling him to severance benefits under his offer letter and the change in control agreement, the severance payments due under the employment agreement shall be offset by similar payments and benefits provided under the change in control agreement.

Based on a review of Forms 3, 4 and 5 and any amendments thereto, we believe that in 2007 our directors and reporting officers met all applicable SEC filing requirements, except for Phillip DePaul, who inadvertently omitted filing Forms 4 with respect to the allocation of his contributions to the Executive Savings Deferral Plan's company stock fund. No shares of common stock are ever actually issued to participants pursuant to the Executive Savings Deferral Plan.

(b) The following individuals cease for any reason to constitute at least a majority of the number of directors then serving: individuals who, on the date hereof, constitute the Board and any new director (other than a director whose initial assumption of office is in connection with an actual or threatened election contest, including but not limited to a consent solicitation, relating to the election of directors of the Company) whose appointment or election by the Board or nomination for election by the Company's stockholders was approved by a vote of at least 2/3rds of the directors then still in office who either were directors on the date hereof or whose appointment, election, or nomination for election was previously so approved (the "Continuing Directors"); or

(c) The consummation of a merger or consolidation of the Company (or any direct or indirect subsidiary of the Company) with any other corporation other than (i) a merger or consolidation which would result in both (a) Continuing Directors continuing to constitute at least a majority of the number of directors of the combined entity immediately following consummation of such merger or consolidation, and (b) the voting securities of the Company outstanding immediately prior to such merger or consolidation continuing to represent (either by remaining outstanding or by being converted into voting securities of the surviving entity or any parent thereof) more than 50% of the combined voting power of the voting securities of the Company or such surviving entity or any parent thereof outstanding immediately after such merger or consolidation, or (ii) a merger or consolidation effected to implement a recapitalization of the Company (or similar transaction) in which no Person is or becomes the Beneficial Owner, directly or indirectly, of securities of the Company representing 25% or more of either the then outstanding shares of common stock of the Company or the combined voting power of the Company's then outstanding securities; provided that securities acquired directly from the Company shall not be included unless the Person acquires additional securities which, when added to the securities acquired directly from the Company, exceed 25% of the Company's then outstanding shares of common stock or the combined voting power of the Company's then outstanding securities; and provided further that any acquisition of securities by any Person in connection with a transaction described in Section 2.6(c)(i) shall not be deemed to be a Change in Control of the Company; or

- (a) grant Awards;
- (b) determine the Participants to whom and the times at which Awards shall be granted;

- (d) establish and administer Performance Goals relating to any Award;

By accepting an Award, a Participant agrees that the Award shall be subject to all of the terms and provisions of the Plan and the applicable Agreement.

7. *Options.*

7.1 *Terms and Agreement.* Subject to the terms of the Plan, Options may be granted to Participants at any time as determined by the Committee. The Committee shall determine, and the Agreement shall reflect, the following for each Option granted:

- (f) the exercise price for each Option, which, except with respect to substitute awards complying with Code Section 424 and regulations thereunder, shall not be less than the Fair Market Value on the date of the grant (with respect to Incentive Stock Options, 110% of the Fair Market Value on the date of grant for any Participant who owns, within the meaning of Code Section 424(d), stock of the Company possessing more than 10% of the total combined voting power of all classes of stock of the Company, any Subsidiary, or any Affiliate);
- (g) the permissible method(s) of payment of the exercise price;
- (h) the rights of the Participant upon termination of employment or service as a Director; and
- (i) any other terms or conditions established by the Committee.

7.2 *Exercise of Options.*

(a) Options shall be exercisable at such times and subject to such restrictions and conditions as the Committee, in its sole discretion, deems appropriate, which need not be the same for all Participants.

(b) An Option shall be exercised by delivering written notice as specified in the Agreement on the form of notice provided by the Company. Options may be exercised in whole or in part.

For a Participant who is subject to Section 16 of the Exchange Act, the Company may require that the method of payment comply with Section 16 and the rules and regulations thereunder. Any payment in shares of Stock, if permitted, shall be made by delivering the shares to the secretary of the Company, duly endorsed in blank or accompanied by stock powers duly executed in blank, together with any other documents and evidence as the secretary shall require.

(c) Certificates for shares of Stock purchased upon the exercise of an Option shall be issued in the name of or for the account of the Participant or other person entitled to receive the shares and delivered to the Participant or other person as soon as practicable following the effective date on which the Option is exercised.

7.3 *Incentive Stock Options.* Notwithstanding anything in the Plan to the contrary, no term of the Plan relating to Incentive Stock Options shall be interpreted, amended, or altered, nor shall any discretion or authority granted under the Plan be exercised so as to disqualify the Plan under Code Section 422, or, without the consent of any affected Participant, to cause any Incentive Stock Option previously granted to fail to qualify for the federal income tax treatment afforded under Code Section 421. Incentive Stock Options shall not be granted to Directors. Incentive Stock Options shall not be granted under the Plan on or after January 1, 2013.

7.4 *Reduction in Price or Reissuance.* In no event shall the Committee cancel any outstanding Option for the purpose of (i) providing a replacement award under this or another Company plan, or (ii) cashing out an Option, unless such cash-out occurs in conjunction with a Change in Control. Additionally, in no event shall the Committee, without first receiving shareholder approval, (a) cancel any outstanding Option for the purpose of reissuing the Option to the Participant at a lower exercise price or (b) reduce the exercise price of a previously issued Option.

7.5 *Notification of Disqualifying Disposition.* If any Participant shall make any disposition of Shares issued pursuant to the exercise of an Incentive Stock Option under the circumstances described in Code Section 421(b) (relating to certain disqualifying dispositions), such Participant shall notify the Company of such disposition within ten (10) calendar days thereof.

8. *Stock Appreciation Rights.*

8.1 *Terms and Agreement.* Subject to the terms of the Plan, Stock Appreciation Rights may be granted to Participants at any time as determined by the Committee. The grant price of the SAR shall be at least equal to one hundred percent (100%) of the Fair Market Value of Stock as determined on the date of the grant, except with respect to substitute awards complying with Code Section 424 and regulations thereunder. The Committee shall determine, and the Agreement shall reflect, the following for each SAR granted:

- (a) the number of shares subject to each SAR;

Edgar Filing: OFFICEMAX INC - Form DEF 14A

(c) duration of the SAR (provided that no SAR shall have an expiration date later than the day after the 7th anniversary of the date of grant);

(d) vesting requirements which specify a vesting period of no less than one year, except with respect to substitute awards for grants made under a plan of an acquired business entity;

(e) rights of the Participant upon termination of employment or service as a Director; and

(f) any other terms or conditions established by the Committee.

8.2 *Related and Freestanding SARs.* A Stock Appreciation Right may be granted in connection with an Option, either at the time of grant or at any time thereafter during the term of the Option (a "Related SAR"), or may be granted unrelated to an Option (a "Freestanding SAR").

8.3 *Surrender of Option.* A Related SAR shall require the holder, upon exercise, to surrender the Option with respect to the number of shares as to which the SAR is exercised, in order to receive payment. The Option will, to the extent surrendered, cease to be exercisable.

8.4 *Reduction in Number of Shares Subject to Related SARs.* For Related SARs, the number of shares subject to the SAR shall not exceed the number of shares subject to the Option. For example, if the SAR covers the same number of shares as the Option, the exercise of a portion of the Option shall reduce the number of shares subject to the SAR to the number of shares remaining under the Option. If the Related SAR covers fewer shares than the Option, the exercise of a portion of the Option shall reduce the number of shares subject to the SAR to the extent necessary so that the number of remaining shares subject to the SAR is not more than the remaining shares under the Option.

8.5 *Exercisability.* Subject to Section 8.7 and to any rules and restrictions imposed by the Committee, a Related SAR will be exercisable at the time or times, and only to the extent, that the Option is exercisable and will not be transferable except to the extent that the Option is transferable. A Freestanding SAR will be exercisable as determined by the Committee but in no event after 10 years from the date of grant.

8.6 *Payment.* Upon the exercise of a Stock Appreciation Right, the holder will be entitled to receive payment of an amount determined by multiplying:

- (a) The excess of the Fair Market Value on the date of exercise over the Fair Market Value on the date of grant, by
- (b) The number of shares with respect to which the SAR is being exercised.

The Committee may limit the amount payable upon exercise of a Stock Appreciation Right. Any limitation must be determined as of the date of grant and noted on the Agreement evidencing the grant.

Payment may be made in cash, Stock, or a combination of cash and Stock, in the Committee's sole discretion.

8.7 *Reduction in Price or Reissuance.* In no event shall the Committee cancel any outstanding Stock Appreciation Right for the purpose of (i) providing a replacement award under this or another Company plan, or (ii) cashing out a Stock Appreciation Right, unless such cash-out occurs in conjunction with a Change in Control. Additionally, in no event shall the Committee, without first receiving shareholder approval, (a) cancel any outstanding Stock Appreciation Right for the purpose of reissuing the Stock Appreciation Right to the Participant

Edgar Filing: OFFICEMAX INC - Form DEF 14A

at a lower exercise price or (b) reduce the exercise price of a previously issued Stock Appreciation Right.

8.8 *Additional Terms.* The Committee may impose additional conditions or limitations on the exercise of a Stock Appreciation Right as it may deem necessary or desirable to secure for holders the benefits of Rule 16b-3, or any successor provision, or as it may otherwise deem advisable.

9. *Restricted Stock.*

9.1 *Terms and Agreement.* Subject to the terms of the Plan, shares of Restricted Stock may be granted to Participants at any time as determined by the Committee. The Committee shall determine, and the Agreement shall reflect, the following for the Restricted Stock granted:

- (a) the number of shares of Restricted Stock granted;

- (c) the restriction period established pursuant to Subsection 9.2 which, except with respect to substitute awards for grants made under a plan of an acquired business entity:
 - (i) for time-based Awards in excess of 5% of the number of shares available for Awards pursuant to Section 3.1, shall not be less than three (3) years, with restrictions lapsing on a pro rata basis; and
 - (ii) for Performance Goal-based Awards, shall be based upon a performance period of at least one (1) year;
- (d) any requirements with respect to elections under Code Section 83(b);
- (e) rights of the Participant upon termination of employment or service as a Director; and
- (f) any other terms or conditions established by the Committee.

9.2 *Restriction Period.* At the time of the grant of Restricted Stock, the Committee shall establish a restriction period for the shares granted, which may be time-based, based on the achievement of specified Performance Goals, a combination of time- and Performance Goal-based, or based on any other criteria the Committee deems appropriate. The Committee may divide the shares into classes and assign a different restriction period for each class. The Committee may impose additional conditions or restrictions upon the vesting of the Restricted Stock as it deems fit in its sole discretion. If all applicable conditions are satisfied, then upon the termination of the restriction period with respect to a share of Restricted Stock, the share shall vest and the restrictions of Section 9.3 shall lapse. To the extent required to ensure that a Performance Goal-based Award of Restricted Stock to an executive officer is deductible by the Company pursuant to Code Section 162(m), any such Award shall vest only upon the Committee's determination that the Performance Goals applicable to the Award have been attained.

9.3 *Restrictions on Transfer Prior to Vesting.* Prior to the vesting of Restricted Stock, the Participant may not sell, assign, pledge, hypothecate, transfer, or otherwise encumber the Restricted Stock. Upon any attempt to transfer rights in a share of Restricted Stock, the share and all related rights shall immediately be forfeited by the Participant. Upon the vesting of a share of Restricted Stock, the transfer restrictions of this section shall lapse with respect to that share.

Edgar Filing: OFFICEMAX INC - Form DEF 14A

9.4 *Rights as a Shareholder.* Except for the restrictions set forth here and unless otherwise determined by the Committee, the Participant shall have all the rights of a shareholder with respect to shares of Restricted Stock, including but not limited to the right to vote and the right to receive dividends, provided that the Committee, in its sole discretion, may require that any dividends paid on shares of Restricted Stock be held in escrow until all restrictions on the shares have lapsed.

9.5 *Issuance of Certificates.*

(a) Following the date of grant, the Company shall issue a stock certificate, registered in the name of or for the account of the Participant to whom the shares of Restricted Stock were granted, evidencing the shares. Each stock certificate shall bear the following legend:

The transferability of this certificate and the shares of stock represented hereby are subject to the restrictions, terms, and conditions (including forfeiture provisions and restrictions against transfer) contained in the 2003 OfficeMax Incentive and Performance Plan and an Agreement entered into between the registered owner of the shares and the Company.

This legend shall not be removed until the shares vest pursuant to the terms stated.

(b) Each certificate, together with the stock powers relating to the shares of Restricted Stock evidenced by the certificate, shall be held by the Company unless the Committee determines otherwise.

(c) Following the date on which a share of Restricted Stock vests, the Company shall cause to be delivered to the Participant to whom the shares were granted, a certificate evidencing the share free of the legend stated in subsection (a) above.

9.6 *Section 83(b) Election.* The Committee may provide in the Agreement that the Award is conditioned upon the Participant making or not making an election under Code Section 83(b). If the Participant makes an election pursuant to Code Section 83(b), the Participant shall be required to file a copy of the election with the Company within ten (10) calendar days.

10. *Restricted Stock Units.*

10.1 *Terms and Agreement.* Subject to the terms of the Plan, Restricted Stock Units may be granted to Participants at any time as determined by the Committee. The Committee shall determine, and the Agreement shall reflect, the following for the Restricted Stock Units granted:

(a) the number of Restricted Stock Units awarded;

(b) the purchase price, if any, to be paid by the Participant for each Restricted Stock Unit;

(c) the restriction period established pursuant to Subsection 10.2 which, except with respect to substitute awards for grants made under a plan of an acquired business entity:

(i) for time-based Awards in excess of 5% of the number of shares available for Awards pursuant to Section 3.1, shall not be less than three (3) years, with restrictions lapsing on a pro rata basis; and

(ii) for Performance Goal-based Awards, shall be based on a performance period of no less than one (1) year;

(d) whether dividend equivalents will be credited with respect to Restricted Stock Units, and, if so, any accrual, forfeiture or payout restrictions on the dividend equivalents;

Edgar Filing: OFFICEMAX INC - Form DEF 14A

- (e) rights of the Participant upon termination of employment or service as a Director; and
- (f) any other terms or conditions established by the Committee.

To the extent a Restricted Stock Unit Award constitutes "deferred compensation" within the meaning of Code Section 409A, the Committee shall establish Agreement terms and provisions that comply with Code Section 409A and regulations thereunder.

10.2 *Restriction Period.* At the time of the grant of Restricted Stock Units, the Committee shall establish a restriction period, which may be time-based, based on the achievement of specified Performance Goals, a combination of time- and Performance Goal-based, or based on any other criteria the Committee deems appropriate. The Committee may divide the awarded units into classes and assign a different restriction period for each class. The Committee may impose any additional conditions or restrictions upon the vesting of the Restricted Stock Units as it deems fit in its sole discretion. If all applicable conditions are satisfied, then upon the termination of the restriction period with respect to a Restricted Stock Unit, the Unit shall vest. To the extent required to ensure that a Performance Goal-based Award of Restricted Stock Units to an executive officer is deductible by the Company pursuant to Code Section 162(m), any such Award shall become vested only upon the Committee's determination that the Performance Goals applicable to the Award, if any, have been attained.

10.3 *Payment.* Upon vesting of a Restricted Stock Unit, the Participant shall be entitled to receive payment of an amount equal to the Fair Market Value of one share of Stock. Payment may be made in cash, Stock, or a combination of cash and Stock, in the Committee's sole discretion.

11. *Performance Units.*

11.1 *Terms and Agreement.* Subject to the terms of the Plan, Performance Units may be granted to Participants at any time as determined by the Committee. The Committee shall determine, and the Agreement shall reflect, the following for the Performance Units granted:

- (a) the number of Performance Units awarded;
- (b) the initial value of a Performance Unit;
- (c) the rights of the Participant upon termination of employment or service as a Director (which may be different based on the reason for termination);
- (d) the performance period, which shall not be less than one (1) year, and Performance Goals applicable to the Award; and
- (e) any other terms or conditions established by the Committee.

To the extent an Award constitutes "deferred compensation" within the meaning of Code Section 409A, the Committee shall establish Agreement terms and provisions that comply with Code Section 409A and regulations thereunder.

11.2 *Payment.* After the applicable performance period has ended, the Committee will review the Performance Goals and determine the amount payable with respect to the Award, based upon the extent to which the Performance Goals have been attained within the performance period and any other applicable terms and conditions. Payment of earned Performance Units may be made in cash, Stock, or a combination of cash and Stock, in the Committee's sole discretion.

12. *Performance Shares.*

12.1 *Terms and Agreement.* Subject to the terms of the Plan, Performance Shares may be granted to Participants at any time as determined by the Committee. The Committee shall determine, and the Agreement shall reflect, the following for the Performance Shares granted:

- (a) the number of Performance Shares awarded;
- (b) the performance period, which shall not be less than one (1) year, and Performance Goals applicable to the Award;
- (c) whether dividend equivalents will be credited with respect to Performance Shares, and if so, any accrual, forfeiture, or payout restrictions on the dividend equivalents;
- (d) the rights of the Participant upon termination of employment or service as a Director (which may be different based on the reason for termination); and
- (e) any other terms or conditions established by the Committee.

To the extent an Award constitutes "deferred compensation" within the meaning of Code Section 409A, the Committee shall establish Agreement terms and provisions that comply with Code Section 409A and regulations thereunder.

12.2 *Initial Value.* The initial value of each Performance Share shall be the Fair Market Value on the date of grant.

12.3 *Payment.* After the applicable performance period has ended, the Committee will review the Performance Goals and determine the amount payable with respect to the Award, based upon the extent to which the Performance Goals have been attained within the performance period and any other applicable terms and conditions. Payment of earned Performance Shares may be made in cash, Stock, or a combination of cash and Stock, as determined by the Committee in its sole discretion.

13. *Annual Incentive Awards.*

13.1 *Award Period and Performance Goals.* The award period for Annual Incentive Awards is a fiscal year, which may be a calendar year. Within 90 days of the beginning of each award period, the Committee shall establish the specific Performance Goals to be achieved in order for Participants to earn an Annual Incentive Award. The Committee shall establish a mathematical formula pursuant to which an Award equal to a specified percentage of a Participant's salary shall be earned upon the attainment of specific levels of the applicable Performance Goals. This formula may take into account Performance Goals achieved in prior years. The Performance Goals and formula, once established, shall continue for subsequent years unless modified by the Committee. The Performance Goals applicable to an Award Period, and the formula pursuant to which Award amounts shall be determined, shall be selected and published within 90 days from the beginning of the award period. Notwithstanding the foregoing, nothing in this Plan shall be construed to mean that an Award that does not satisfy Code Section 162(m) performance-based compensation requirements does not constitute performance-based compensation for other purposes, including Code Section 409A.

To the extent an Annual Incentive Award constitutes "deferred compensation" within the meaning of Code Section 409A, the Committee shall establish Award terms and provisions that comply with Code Section 409A and regulations thereunder.

13.2 *Payment.* As soon as practical after the conclusion of each year, the Committee shall review and evaluate the Performance Goals applicable to that year in light of the Company's performance measured in accordance with the goals and shall determine whether

the goals have been satisfied. If satisfied, the Committee shall so certify in a written statement and shall apply the criteria to determine the amount of the Award for each Participant, subject to the Committee's right to reduce or eliminate the amount of any Award under Section 33. Payment of earned Annual Incentive Awards may be made in cash, Stock, or a combination of cash and Stock, in the Committee's sole discretion. No Award may be paid to a Participant in excess of \$5,000,000 for any single year.

14. *Stock Bonuses.* Subject to the terms of the Plan, a Stock Bonus may be granted to Participants at any time as determined by the Committee in payment of earned incentive compensation. If the Committee grants a Stock Bonus, a certificate for the shares of Stock constituting the Stock Bonus shall be issued in the name of the Participant to whom the grant was made and delivered as soon as practicable after the date on which the Stock Bonus is payable.

15. *Rights as a Shareholder.* Except as otherwise provided in Section 9.4 with respect to Restricted Stock, no person shall have any rights as a shareholder with respect to any shares of Stock covered by or relating to an Award until the date of issuance of a stock certificate with respect to the shares. Except as otherwise provided in Sections 3.4 and 12.1, no adjustment to any Award shall be made for dividends or other rights for which the record date occurs prior to the date the stock certificate is issued.

16. *Employment Not Guaranteed.* This Plan is not intended to and does not create a contract of employment in any manner. Employment with the Company is at will, which means that either the employee or the Company may end the employment relationship at any time and for any reason. Nothing in this Plan changes, or should be construed as changing, that at-will relationship.

17. *Securities Matters.*

17.1 *Delivery of Stock Certificates.* To the extent that this Plan provides for issuance of certificates to reflect the transfer of Stock, the transfer of such Stock may be effected on a non-certificated basis, to the extent not prohibited by applicable laws. Notwithstanding anything in this Plan to the contrary, the Company shall not be obligated to issue or deliver any certificates evidencing shares of Stock unless and until (a) the Company is advised by its counsel that the issuance and delivery of certificates is in compliance with all applicable laws, regulations of governmental authority, and the requirements of any securities exchange on which the Stock is traded; and (b) any governmental approvals the Company deems necessary or advisable have been obtained. The Committee may require, as a condition of the issuance and delivery of certificates, that the recipient make any agreements and representations and that the certificates bear any legends as the Committee, in its sole discretion, deems necessary or desirable.

17.2 *When Transfer is Effective.* The transfer of any shares of Stock shall be effective only when counsel to the Company has determined that the issuance and delivery of the shares is in compliance with all applicable laws, regulations, and the requirements of any securities exchange on which shares of Stock are traded. The Committee may, in its sole discretion, defer the effectiveness of any transfer of shares of Stock in order to allow the issuance of the shares to be made pursuant to registration or an exemption from registration or other methods for compliance available under federal, state, or foreign securities laws. The Committee shall inform the Participant in writing of its decision to defer the effectiveness of a transfer. During the period of deferral in connection with the exercise of an Option, the Participant may, by written notice, withdraw the exercise and obtain the refund of any amount paid in connection with the exercise.

18. *Withholding Taxes.* When cash is to be paid pursuant to an Award, the Company may deduct an amount sufficient to satisfy any federal, state or other taxes required by law to be

withheld. When shares of Stock are to be delivered pursuant to an Award, the Company may require the Participant to remit to the Company in cash an amount sufficient to satisfy any federal, state, and foreign taxes required by law to be withheld. With the Committee's approval, a Participant may satisfy the foregoing requirement by electing to have the Company withhold from delivery shares of Stock having a value equal to the minimum amount of required tax to be withheld. The shares shall be valued at Fair Market Value on the date the amount of tax to be withheld is determined. To the extent a fractional share is required to satisfy the minimum amount of required tax to be withheld, the Committee may provide either that (i) shares withheld shall be rounded up to the next whole share, or (ii) fractional amounts shall be settled in cash.

19. *Amendment and Termination.* The Board of Directors may, at any time, amend or terminate the Plan. In addition, the Committee shall have the authority to adopt modifications and amendments to this Plan or any Agreement necessary to comply with the law of the countries in which the Company, its Affiliates and/or Subsidiaries operate. Notwithstanding the foregoing, no amendment shall be made without shareholder approval if approval is required under applicable law or if the amendment would (a) amend Sections 7.4 or 8.7 (other than in connection with a Change in Control), (b) increase the total number of shares of Stock available under the Plan, or (c) materially increase the cost of the Plan to the Company or the benefits to Participants. Any amendment or termination shall not adversely affect the vested or accrued rights or benefits of any Participant without the Participant's prior consent.

20. *Transfers Upon Death; Nonassignability.* Upon the death of a Participant, outstanding Awards granted to the Participant may be exercised only by the executor or administrator of the Participant's estate or by a person who has acquired the right to exercise by will or the laws of descent and distribution. No transfer of an Award by will or the laws of descent and distribution shall be effective to bind the Company unless the Committee has been furnished with (a) written notice and a copy of the will and/or such evidence as the Committee may deem necessary to establish the validity of the transfer, and (b) an agreement by the transferee to comply with all the terms and conditions of the Award that would have applied to the Participant and to be bound by the acknowledgments made by the Participant in connection with the grant of the Award.

Subject to applicable law, the Committee's approval, and any conditions that the Committee may prescribe, a Participant may, upon providing written notice to the secretary of the Company, elect to transfer an Award to (i) a member or members of his or her immediate family (including, but not limited to, children, grandchildren, and spouse, or a trust for the benefit of immediate family members or a partnership in which immediate family members are the only partners) or (ii) a qualified tax-exempt charitable organization; provided, however, that no transfer by any Participant may be made in exchange for consideration.

21. *Expenses and Receipts.* The expenses of the Plan shall be paid by the Company. Any proceeds received by the Company in connection with any Award may be used for general corporate purposes.

22. *Deferral of Awards.* A Participant may elect to defer or the Committee may require the deferral of receipt of all or any portion of any Award to a future date as provided in and subject to the terms of the Company's 2001 Key Executive Deferred Compensation Plan or any successor plan, the Agreement, and rules and procedures established by the Committee regarding Award deferrals. All such deferrals shall be made in accordance with Code Section 409A and regulations issued thereunder.

23. *Short-Term Deferral; Deferred Compensation.*

23.1 *Short-Term Deferral.* Unless the Participant has made a valid election to defer receipt of all or any portion of a payment under the Plan in accordance with the terms of a

Edgar Filing: OFFICEMAX INC - Form DEF 14A

Company nonqualified deferred compensation plan, payment of awards hereunder shall be made no later than the later of (i) the date that is 2¹/₂ months from the end of the Participant's first taxable year in which the amount is no longer subject to a substantial risk of forfeiture, or (ii) the date that is 2¹/₂ months from the end of the Company's first taxable year in which the amount is no longer subject to a substantial risk of forfeiture.

23.2 *Deferred Compensation.* Notwithstanding any provision in the Plan or any Agreement to the contrary, to the extent an Award (i) constitutes "deferred compensation" within the meaning of Code Section 409A, (ii) is not exempt from the application of Code Section 409A and (iii) is payable to a specified employee (as determined in accordance with Code Section 409A(a)(2)(B) and applicable regulations) due to separation from service (as such term is defined under Code Section 409A), payment shall be delayed for a minimum of six (6) months from the date of such separation from service.

If any Award granted under the Plan is considered deferred compensation as defined under Code Section 409A, and if this Plan or the terms of an Award fail to meet the requirements of Code Section 409A with respect to such Award, then such Award shall remain in effect and be subject to taxation in accordance with Code Section 409A. In this circumstance, the Committee may accelerate distribution or settlement of an Award in accordance with Code Section 409A. The Company shall have no liability for any tax imposed on a Participant under Code Section 409A, and if any tax is imposed on a Participant, the Participant shall have no recourse against the Company for payment of any such tax. Notwithstanding the foregoing, if any modification of an Award causes the Award to be deferred compensation under Code Section 409A, the Committee may rescind such modification in accordance with Code Section 409A.

24. *Change in Control Provisions.*

24.1 *Vesting and Exercisability.* Except as otherwise provided in any employment agreement, Award Agreement or change in control agreement between the Participant and the Company, Subsidiary and/or Affiliate in effect when a Change in Control occurs (i) upon a "qualifying termination" in connection with a Change in Control, or (ii) in the event an acquiring company does not assume Plan Awards:

- (a) all outstanding Option and Stock Appreciation Rights shall become fully vested and exercisable;
- (b) all Performance Goals shall be deemed achieved at target levels and all other terms and conditions met, with Award payout prorated for the portion of the performance period completed as of the "qualifying termination" or Change in Control, as applicable;
- (c) all restrictions and conditions applicable to any Restricted Stock shall lapse;
- (d) all restrictions and conditions applicable to any Restricted Stock Units shall lapse and the Restricted Stock Units shall be paid out as promptly as practicable;
- (e) all Performance Shares shall be prorated for the portion of the performance period completed as of the date of the "qualifying termination" or Change in Control, as applicable, and delivered;
- (f) all Performance Units shall be prorated for the portion of the performance period completed as of the date of the "qualifying termination" or Change in Control, as applicable and paid out as promptly as practicable; and
- (g) all other Awards shall be delivered or paid.

Edgar Filing: OFFICEMAX INC - Form DEF 14A

Notwithstanding any Plan provision to the contrary, in the event of a Change in Control, (i) all Annual Incentive Awards for calendar years ended prior to the Change in Control which have not yet been paid out shall be paid out immediately in cash upon a Change in Control, and (ii) for Annual Incentive Awards for the calendar year during which the Change in Control occurs, all Participants shall be deemed to have achieved a pro rata Award equal to either (a) the Participant's target Annual Incentive Award or (b) the actual Annual Incentive Award as determined by year-to-date performance through the last day of the month prior to the month in which the Change in Control occurs, in either case multiplied by a fraction, the numerator of which is the number of days which have elapsed from the beginning of the year to the date on which the Change of Control occurs, and the denominator of which is 365, and the Awards shall be paid in cash within 10 days after the Change in Control.

For purposes of this Section 24.1, "qualifying termination" means (i) the same definition for "qualifying termination" as set forth in any employment agreement, Award Agreement or change in control agreement between the Participant and the Company, Subsidiary and/or Affiliate in effect when the Change in Control occurs, or, (ii) in the absence of such agreement, a "qualifying termination" shall be any involuntary termination by the Company, Subsidiary and/or Affiliate for any reason, other than disciplinary reasons, within 24 months of the date of the Change in Control.

24.2 Termination Prior to Change in Control. Any Participant, whose employment is involuntarily terminated for any reason other than disciplinary reasons within three months prior to the date of the Change in Control, shall be treated, solely for purposes of this Plan, as continuing in the Company's employment until the occurrence of the Change in Control, and to have been terminated immediately thereafter.

24.3 No Amendment. Notwithstanding Section 19, upon a Potential Change in Control, the provisions of this Plan may not be amended in any manner that would reduce or alter the rights of Participants to any benefit under this Plan without the consent of each affected Participant. Furthermore, notwithstanding Section 19, upon a Change in Control, the provisions of this Section 24 may not be amended in any respect for three years following a Change in Control but may be amended thereafter.

25. Claims Procedure. Claims for benefits under the Plan shall be filed in writing, within 90 days after the event giving rise to a claim, with the Company's compensation manager, who shall have absolute discretion to interpret and apply the Plan, evaluate the facts and circumstances, and make a determination with respect to the claim in the name and on behalf of the Company. The claim shall include a statement of all facts the Participant believes relevant to the claim and copies of all documents, materials, or other evidence that the Participant believes relevant to the claim. Written notice of the disposition of a claim shall be furnished to the Participant within 90 days after the application is filed. This 90-day period may be extended an additional 90 days for special circumstances by the compensation manager, in his or her sole discretion, by providing written notice of the extension to the claimant prior to the expiration of the original 90-day period. If the claim is denied, the compensation manager shall notify the claimant in writing. This written notice shall:

- (a) state the specific reasons for the denial;
- (b) refer to Plan provisions on which the determination is based;
- (c) describe any additional material or information necessary for the claimant to perfect the claim and explain why the information is necessary; and

Edgar Filing: OFFICEMAX INC - Form DEF 14A

(d) explain how the claimant may submit the claim for review and state applicable time limits.

26. *Claims Review Procedure.* Any Participant, former Participant, or beneficiary of either, who has been denied a benefit claim, shall be entitled, upon written request, to access to or copies of all documents and records relevant to his or claim and to a review of his or her denied claim. A request for review, together with a written statement of the claimant's position and any other comments, documents, records, or information that the claimant believes relevant to his or her claim, shall be filed no later than 60 days after receipt of the written notification provided for in Section 25 and shall be filed with the Company's compensation manager. The manager shall promptly inform the Company's senior human resources officer. The senior human resources officer shall make his or her decision, in writing, within 60 days after receipt of the claimant's request for review. This 60-day period may be extended an additional 60 days if, in the senior human resources officer's sole discretion, special circumstances warrant the extension and if the senior human resources officer provides written notice of the extension to the claimant prior to the expiration of the original 60-day period. The written decision shall be final and binding on all parties and shall state the facts and specific reasons for the decision and refer to the Plan provisions upon which the decision is based.

27. *Lawsuits; Venue; Applicable Law.* No lawsuit claiming entitlement to benefits under this Plan may be filed prior to exhausting the claims and claims review procedures described in Sections 25 and 26. Any lawsuit must be initiated no later than (a) one year after the event(s) giving rise to the claim occurred, or (b) 60 days after a final written decision was provided to the claimant under Section 26, whichever is sooner. Any legal action involving benefits claimed or legal obligations relating to or arising under this Plan may be filed only in Federal District Court in the city of Chicago, Illinois. Federal law shall be applied in the interpretation and application of this Plan and the resolution of any legal action. To the extent not preempted by federal law, the laws of the state of Delaware shall apply.

28. *Participant Rights.* No Participant shall have any claim to be granted any Award under the Plan, and there is no obligation to treat Participants uniformly.

29. *Leave of Absence or Transfer.* Transfer between the Company and any Subsidiary or between Subsidiaries, or a leave of absence duly authorized by the Company, shall not be deemed a termination of employment.

30. *Unsecured General Creditor.* Participants and their beneficiaries, heirs, successors, and assigns shall have no legal or equitable rights, interest, or claims in any property or assets of the Company. The assets of the Company shall not be held under any trust for the benefit of Participants, their beneficiaries, heirs, successors, or assigns, or held in any way as collateral security for the fulfilling of the obligations of the Company under this Plan. Any and all Company assets shall be, and remain, the general, unpledged, unrestricted assets of the Company. The Company's obligation under the Plan shall be an unfunded and unsecured promise of the Company.

31. *No Fractional Shares.* No fractional shares of Stock shall be issued or delivered pursuant to the Plan. The Committee shall determine whether cash, other Awards, or other property shall be issued or paid in lieu of any fractional shares or whether fractional shares or any rights to fractional shares shall be forfeited or otherwise eliminated.

32. *Beneficiary.* A Participant who is an executive officer or Director may file with the Committee a written designation of a beneficiary on the form prescribed by the Committee and may, from time to time, amend or revoke the designation. If no designated beneficiary survives the

Participant, the executor or administrator of the Participant's estate shall be deemed to be the Participant's beneficiary.

33. *Section 162(m)*. The Plan is designed and intended, and all provisions shall be construed in a manner, to comply, to the extent applicable, with Code Section 162(m) and the regulations thereunder. To the extent permitted by Code Section 162(m), the Committee shall have sole discretion to reduce, eliminate or defer payment of the amount of any Award which might otherwise become payable upon attainment of a Performance Goal.

34. *Form of Communication*. Any election, application, claim, notice, or other communication required or permitted to be made by a Participant to the Committee or the Company shall be made in writing and in such form as the Company may prescribe. Any communication shall be effective upon receipt by the Company's compensation manager at OfficeMax, 263 Shuman Boulevard, Naperville, IL 60563, USA.

35. *Severability*. If any provision of the Plan is held to be invalid or unenforceable, the other provisions of the Plan shall not be affected.
