**DERMA SCIENCES**

We market and sell three lines of products. Our wound care products consist of sprays, ointments and dressings for the management of chronic non-healing skin ulcerations, surgical incisions and burns. Our specialty fastener products consist of sterile pressure sensitive adhesive wound closure strips, pressure sensitive adhesive catheter fasteners and tubular net dressings. Our general purpose and specialized skincare products consist of body washes, shampoos, an incontinent wash, a moisture barrier ointment, skin moisturizers and lotions, hand washes and sanitizers and a hard surface disinfectant.

## Edgar Filing: DERMA SCIENCES INC - Form S-3/A

We sell our products through our own direct sales force, through manufacturers' representatives and through independent distributors. Our primary customers are nursing homes, hospitals, clinics and home healthcare agencies. Our products are available throughout the United States and in selected international markets.

Our executive offices are located at 214 Carnegie Center, Suite 100, Princeton, New Jersey and our telephone number is (609) 514-4744.

### RISK FACTORS

**This investment involves a high degree of risk and you should purchase shares only if you can afford a complete loss of your investment. Consider carefully these risk factors and other information in this prospectus.**

*The potential increase in common shares due to the conversion or exercise of outstanding derivative securities may have a depressive effect upon the market value of the shares.*

Approximately 7,920,128 shares of our common stock are issuable upon the conversion or exercise of outstanding derivative securities in the form of convertible bonds, convertible preferred stock, warrants and options. The shares of common stock issuable upon conversion or exercise of derivative securities are substantial compared to the 2,407,109 shares of common stock currently outstanding.

If we generate profits, our common stock's "fully diluted" earnings per share will be calculated assuming the conversion or exercise of all derivative securities. Earnings per share of common stock would be substantially diluted by the existence of these derivative securities regardless of whether they are converted or exercised. This dilution of earnings per share could have a depressive effect upon the market value of our common stock.

2

---

*We have incurred historical losses and we cannot guarantee future profitability.*

We incurred losses of \$2,581,337 in 2000, \$2,998,919 in 1999 and \$1,816,029 in 1998. For the six months ending June 30, 2001, we earned income of \$30,193 (unaudited) and had an accumulated deficit of \$10,893,151 (unaudited). During the second and third quarters, 2000, we restructured our operations with a view to reducing operating expenses. The primary component of this restructuring was a reduction in our full-time staff from approximately 80 to 40 employees. As a result of this restructuring, we achieved break-even status in the first and second quarters, 2001. However, we cannot offer you any assurance that we will be able to generate sustained or significant earnings.

*Our stock price has been volatile and this volatility is likely to continue.*

Historically, the market price of our common stock has been volatile. The high and low prices for the months January through September, 2001 are set forth in the table below:

#### *Derma Sciences Trading Range - Common Stock*

Month -----	Low ---	High ----
January, 2001	\$0.50	\$0.56
February, 2001	\$0.50	\$0.59
March, 2001	\$0.22	\$0.50
April, 2001	\$0.23	\$0.25
May, 2001	\$0.25	\$0.65
June, 2001	\$0.42	\$0.60
July, 2001	\$0.48	\$0.68
August, 2001	\$0.40	\$0.71
September, 2001	\$0.38	\$0.48

Events that may affect our stock price include:

Quarter to quarter variations in our operating results;  
Changes in earnings estimates by securities analysts;  
Changes in interest rates or other general economic conditions;  
Changes in market conditions in the wound care and skin care industries; and  
The introduction of new products either by us or by our competitors.

3

---

Although all publicly traded securities are subject to price and volume fluctuations, it is likely that our common stock will experience these fluctuations to a greater degree than the securities of more established and better capitalized organizations.

***The rate of reimbursement for the purchase of our products by government and private insurance is subject to change.***

Sales of several of our wound care and specialty fastener products depend partly on the ability of our customers to obtain reimbursement for the cost of our products from government health administration agencies, such as Medicare and Medicaid, and private health insurance companies. Historically, about fifteen percent of our sales have been eligible for Medicare or Medicaid reimbursement and about five percent of our sales have been eligible for reimbursement from private insurance companies. During 2000, about thirty percent of sales of wound care and specialty fastener products, representing about nine percent of overall sales, were eligible for Medicare or Medicaid reimbursement.

Both government health administration agencies and private insurance firms continuously seek to reduce healthcare costs. These cost reduction efforts may adversely affect both the eligibility of our products for reimbursement and the rate of reimbursement. Although we believe that reimbursement policies relative to our products will remain stable for the foreseeable future, we cannot assure you that our products will continue to be eligible for reimbursement indefinitely or that the rate of reimbursement will not be reduced.

***Our success may depend upon our ability to protect our patents and proprietary technology.***

We own patents, both in the United States and abroad, for our Dermagran Spray, Dermagran Ointment, Dermagran II Moisturizing Spray and Dermagran II Ointment. We rely upon the protection afforded by our patents and trade secrets to protect the technology we develop or license. Our success may depend upon our ability to protect our intellectual property. However, the enforcement of intellectual property rights can be both expensive and time consuming. Therefore, we may not be able to devote the resources necessary to prevent infringement of our intellectual property. Also, our competitors may develop or acquire substantially similar technologies without infringing our patents or trade secrets. For these reasons, we cannot be certain that our patents and proprietary technology will provide us with a competitive advantage.

***Most of our products are manufactured by third party manufacturers.***

We do not manufacture the majority of our products and do not intend to do so in the future. Topiderm, Inc. produces wound care ointment which accounts for about twenty percent of our sales. TapeMark Company produces wound closure strips and catheter fasteners which account for about

4

---

twenty percent of our sales. Each of our other manufacturers produces products which account for less than ten percent of our sales.

There are several manufacturers potentially available for each of our products. However, if a current manufacturer were unable or unwilling to continue to manufacture our products, distribution and sales of the affected products could be delayed for the period necessary to secure a replacement.

***Competitors could invent products superior to ours and cause our products and technology to become obsolete.***

We operate in an industry where technological developments occur at a rapid pace. We compete with a large number of established companies and institutions many of which have more capital, larger staffs and greater expertise than Derma Sciences. The companies with which we compete include Bristol Myers Squibb-Convatec, Smith & Nephew, Johnson & Johnson, 3M, Provon, Calgon Vestal-Steris and Chester Laboratories. Our competitors currently manufacture and distribute a variety of products which are in many respects comparable to our own. While we have no specific knowledge of products under development by our competitors, it is possible that our competitors may develop technologies and products that are more effective than any that we currently have. If this occurs, any of our products and technology affected by

these developments could become obsolete.

*Although we are insured, any product liability claims could materially adversely affect our business.*

We sell pharmaceutical products and are exposed to the risk of lawsuits claiming alleged injury caused by our products. Among the grounds for potential claims against us are injuries due to alleged product inefficacy and injuries resulting from infection due to allegedly non-sterile products. Although we carry product liability insurance with limits of \$1.0 million per occurrence and \$2.0 million aggregate with \$5.0 million in umbrella coverage, this insurance may not be adequate to reimburse us for all damages that we could suffer as a result of successful product liability claims. No product liability claim has ever been made against us and we are not aware of any pending product liability claims. However, a successful product liability suit could materially adversely affect our business.

provide this information upon written or oral request and without charge to any person, including a beneficial owner, to whom a copy of this prospectus is delivered.

We have not authorized any dealer, salesperson or other individual to give any information or to make any representation not contained or incorporated by reference in this prospectus. If you receive any of that kind of information or if any of those types of representations are made to you, you must not rely on the information or representations as having been authorized by Derma Sciences. Also, you must not consider that the delivery of this prospectus or any sale made under it implies that the affairs of Derma Sciences have remained unchanged since the date of this prospectus or that the information contained in this prospectus is correct or complete as of any time after the date of this prospectus.

This prospectus and any supplement to this prospectus do not constitute an offer to sell or a solicitation of an offer to buy any securities covered by this prospectus to any person in any jurisdiction in which this offer or solicitation is unlawful.

### USE OF PROCEEDS

All of the net proceeds from the sale of the shares will go to the selling shareholders who offer and sell their shares. Accordingly, we will not receive any proceeds from the sale of the shares.

### SELLING SHAREHOLDERS

We have agreed with the selling shareholders to register the following shares:

- Shares of our common stock purchased by the selling shareholders in transactions not involving a public offering;
- Shares of our common stock to be issued to the selling shareholders upon conversion of their preferred stock; and
- Shares of our common stock to be issued to the selling shareholders upon exercise of their warrants.

We also agreed to use our best efforts to keep the registration statement effective until the earlier of two years from the date the registration statements becomes effective or until the shares may be publicly sold in accordance with SEC rules. Our registration of the shares does not necessarily mean that the selling shareholders will sell all or any of the shares.

## Edgar Filing: DERMA SCIENCES INC - Form S-3/A

The following table presents information regarding the selling shareholders' ownership of our common stock. We determine each selling shareholder's pre-offering ownership by assuming

8

that all options and warrants held by the selling shareholder have been exercised and all shares of convertible preferred stock held by the selling shareholder have been converted into common stock. We determine each selling shareholder's post-offering ownership by assuming that all of the shares offered by this registration statement are sold. Except as noted, no selling shareholder has had any position, office or other material relationship with Derma Sciences, or any of its affiliates, during the past three years other than as an owner of our securities:

- (\*) Less than one percent.

### PLAN OF DISTRIBUTION

The selling shareholders may offer their shares of our common stock at various times in one or more of the following transactions:

9

- In the over-the-counter market;
- On the OTC Bulletin Board, the Boston Stock Exchange or any national securities exchange or market on which our common stock may be listed at the time of sale;
- Through block trades in which the broker or dealer so engaged will attempt to sell the shares as agent, but may position and resell a portion of the block as principal to facilitate the transaction;
- Through purchases by a broker or dealer as principal and resale by such broker or dealer for its account pursuant to this prospectus;
- In ordinary brokerage transactions and transactions in which the broker solicits purchasers;
- Through options, swaps or derivatives;
- In privately negotiated transactions;
- In transactions to cover short sales;
- Through any other legally permissible method; and

Through a combination of any of the previous methods of sale.

The selling shareholders may sell their shares of our common stock directly to purchasers or may use brokers, dealers, underwriters or agents to sell the shares. In effecting sales, brokers and dealers engaged by the selling shareholders may arrange for other brokers or dealers to participate. Brokers or dealers may receive commissions, discounts or concessions from a selling shareholder or, if any broker-dealer acts as agent for the purchaser of the shares, from a purchaser in amounts to be negotiated. This compensation may, but is not expected to, exceed that which is customary for the types of transactions involved. Broker-dealers may agree with a selling shareholder to sell a specified number of shares at a stipulated price per share. If the broker-dealer is unable to sell the shares as agent for a selling shareholder, it may purchase as principal any unsold shares at the price required to fulfill the broker-dealer's commitment to the selling shareholder. Broker-dealers who acquire shares as principal may thereafter resell such shares from time to time in transactions in the over-the-counter market or otherwise at market prices and terms then prevailing or in negotiated transactions.

The selling shareholders and any broker-dealers or agents that participate with the selling shareholders in sales of our common stock may be deemed to be "underwriters" within the meaning of the Securities Act in connection with such sales. In this event, any commissions received by the broker-dealers or agents and any profit on the resale of the shares purchased by them may be deemed to be underwriting commissions or discounts under the Securities Act.

From time to time the selling shareholders may engage in short sales, short sales against the box, puts and calls and other hedging transactions in our securities, and may sell and deliver their shares of our common stock in connection with these transactions or in settlement of securities loans. In addition, selling shareholders may pledge their shares pursuant to the margin provisions of customer agreements with their broker-dealers. Upon delivery of these shares or upon default by a selling shareholder, the broker-dealer or financial institution may offer and sell the shareholder's pledged shares.

5 .....	Opinion of Hedger & Hedger regarding the legality of the securities being registered
23.1 .....	Consent of Ernst & Young LLP
23.2 .....	Consent of Hedger & Hedger (included in its opinion filed as Exhibit 5)
24 .....	Powers of Attorney (included in signature page forming a part hereof)

**Item 17. Undertakings.**

The undersigned Registrant undertakes:

(1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:

(i) To include any prospectus required by Section 10(a)(3) of the Securities Act of 1933;

(ii) To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement; notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of the securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be

II-1

---

reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than a 20 percent change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement; and

(iii) To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement; provided, however, that paragraphs (1)(i) and (1)(ii) do not apply if the registration statement is on Form S-3 or Form S-8, and the information required to be included in a post-effective amendment by those paragraphs is contained in periodic reports filed by the registrant pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934 that are incorporated by reference in the registration statement.

(2) That, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

**Item 14. Other Expenses of Issuance and Distribution.**

Edgar Filing: DERMA SCIENCES INC - Form S-3/A

(4) That, for purposes of determining any liability under the Securities Act of 1933 each filing of the Registrant's annual report pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934 that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the Registrant pursuant to the provisions described under Item 15 above, or otherwise, the Registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the Registrant of expenses incurred or paid by a director, officer or controlling person of the Registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the Registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.
